

PRESIDENT HARDING HARVESTS WHEAT

JOE BURKETT URGED TO RUN FOR GOVERNOR

Candidacy of Eastland County Man Given Impetus at Rally of Friends

Formal request by citizens of Eastland county to State Senator Joe Burkett of Eastland to be a candidate for the Democratic nomination for governor of Texas at the primaries in July, 1924, was made at a meeting held Friday afternoon in the county courthouse.

Senator Burkett made a brief address and promised to conduct a campaign that would cover the state and, with the help of his friends upon whom he always placed his reliance, insure the election of a West Texan to the office of chief executive.

Cyrus B. Frost called the meeting to order and, on motion by H. P. Brelsford, R. A. St. John of Cisco was elected chairman. A. E. Dabney of Eastland was named secretary.

In accepting the office of chairman, Mr. St. John said it gave him pleasure to show his friendship for Joe Burkett, for whom he had long had great admiration although not always agreeing with him in politics. He knew the democracy of Burkett was sound and would aid in every way he could to place him in the governor's chair.

Mr. Brelsford explained it had been necessary to hold the meeting at 6 o'clock so as not to interfere with Friday night church services and therefore the attendance was smaller than expected, but the purpose could be served just as well by a few. He explained it was desired to extend a formal call to Joe Burkett to make the race for governor of Texas and moved the meeting by a rising vote request him to do so. The motion prevailed without a dissenting vote.

The chair was authorized to name a committee to bring in recommendation for an executive committee. The chair named: H. P. Brelsford, Eastland; W. H. Johnson, Ranger; Will St. John, Cisco; Scott Key, Eastland; Dr. W. E. Guy of Carbon; J. F. Hankins, Carbon; Cyrus B. Frost, Eastland; and Judge Shepherd of Stephens county.

While the committee was out preparing its report, Senator Burkett was called on for a speech. He eulogized his friends and was just starting to discuss issues which he declared important for the entire state of Texas when he was called to the committee room.

Brief talks eulogizing democracy, Joe Burkett and West Texas and promising support to Senator Burkett in his race for governor were made by: Judge E. A. Hill, of Eastland; L. H. Flewelling, A. E. Firman, Ranger; Mrs. Scott Key and Allen E. Dabney of Eastland, and Dr. J. W. Gregory of Cisco.

H. P. Brelsford, reporting for the committee, said that members had been chosen for Eastland county, but the committee was empowered to add to its membership from other counties. The following committeemen were named:

R. A. St. John, Dr. J. W. Gregory and R. Q. Lee, of Cisco; W. E. Tyler, M. G. Robertson and Will Koonce, of Rising Star; Dr. W. H. Guy, W. W. Gilbert, T. H. Dingle, of Carbon; J. F. Hankins, E. H. Jones and Frank Sparks, of Gorman; W. H. Johnson, John Gholson and L. R. Pearson, of Ranger; H. P. Brelsford, Cyrus B. Frost and Mrs. Scott Key, of Eastland; Harve Vestal, B. I. Marshall and Jack Lacy of Pioneer.

The meeting then adjourned.

WAREHOUSE OF RICH MAN DESTROYED BY DYNAMITE

By United Press
TEXARKANA, Texas, June 23.—A warehouse owned by J. W. Stoggin at Fouke, eight miles from here, was destroyed late last night by a charge of dynamite. The charge was estimated at \$2,000.

Authorities believe the dynamite was placed beneath the warehouse by enemies of Stoggin, who is recognized as one of the wealthiest men in the district.

FRAUD ORDER ISSUED AGAINST OIL COMPANY

WASHINGTON, June 23.—The postoffice department today issued a fraud order against the Smackover & Schnell Oil company of Fort Worth and Eldorado, Ark., alleging fraudulent conspiracy in the sale of oil stocks.

Thirty Million Gallons of Gasoline Wanted for Export, Delivery Within Sixty Days

UNCLE SAM DOES NOT DELAY WHEN HONOR AT STAKE

Customs Officers Break Seals of Liquor Storerooms and Seize Beverages.

NEW YORK, June 23.—Removal of liquor from liners Baltic and Berengaria was begun at 1 o'clock today upon receipt of orders from Washington. It was placed in government warehouses pending final action in the case.

By United Press
NEW YORK, June 23.—The seals of the British government on the liquor storeroom door of the liner Baltic were broken today, the door opened and contraband beverages seized by prohibition agents of the federal government under direction of Director Canfield.

Customs officials boarded the vessel this morning and asked Captain John Roberts for the liquor listed as excess liquor. Captain Roberts directed the chief steward to lead the officials to the liquor storeroom. Ship officials refused to break the seals, so the United States customs agents broke them and started to remove the liquor.

At this juncture Captain Roberts tendered a formal protest from the ship owners in which it was stated the liquor was designed for the use of passengers on the eastward voyage. John Watson, superintendent of the White Star pier, came on board with a message, he said, from the collector of customs, directing the liquor remain on board the ship pending further instructions. The customs officers then locked the liquor storeroom and established a guard over it.

By Associated Press
NEW YORK, June 23.—Uncle Sam exercised his authority on the liner Baltic today, then halted, scratched his head and paused for further reflection. Captain Roberts, commanding the Baltic, lodged a formal protest against the breaking of the British seals by United States customs officers and the seizure of ship liquors, after obtaining a key to the storeroom from the ship's purser. The liquor was not removed from the ship.

At the office of the collector of customs it was explained that delay in removing the liquor was because the chief of the United States public health service had not certified the amount of liquor which must be left for medicinal purposes. As soon as this certificate has been obtained the liquor would be removed, it was said.

It was said the liquor on the liner Berengaria would also be seized and removed. There is no indication that the vessels would be seized also, although the government is authorized to do so under the Volstead act.

It was reported that the customs office this morning that a French liner had just come into port with almost enough liquor on board to float her. Several vessels were reported sailing from European ports today and tomorrow carrying stores of liquor under seal, and it was said all would be treated alike.

SAN ANTONIO KLAN BREAKS WITH HEAD OFFICE AT ATLANTA

By Associated Press
SAN ANTONIO, June 23.—San Antonio Ku Klux Klan and other klans in Texas have adopted resolutions breaking with the Atlanta headquarters of the klans and deciding to withhold all money from the Atlanta office until order is brought out of chaos into which the organization has been thrown. This was announced today by George W. Keeling, klan leader of Texas.

He also said an invitation would be sent to the state and other officials to come to San Antonio next Tuesday and show cause why the resolutions adopted by the local klansmen should not stand.

Campers Enjoy Ranger

Tourist Grounds Close to Mirror Lake Attract Automobile Travelers Who Are Following Bankhead Highway.

"We find the tourist camps better the further west we go," said C. A. Smith of Clearwater, Fla., who with his wife stopped off at the Lions tourist camp last night en route to Colorado. The Smiths are traveling in a big touring car and they both say the only mistake made in preparing for their journey was in taking a wardrobe trunk, which they say is taking too much room in their car.

Bound for Douglas, Ariz., from Fort Worth, H. E. Hill said he is receiving courteous treatment from people along the Bankhead highway route. He is accompanied by Mrs. Hill and their two small children. This is the Hill's second automobile tour, having taken their first one last summer. They got so much fun and health out of it that they decided upon one for this summer.

"You have a nice camp ground here," said J. L. Harris of Limestone, who with his wife and two daughters, Clarice and Christina, stopped off last night, to break the long journey between Mineral Wells and Waco, where they expect to spend tonight en route home. They spent the week in Mineral Wells to drink the waters there. Mr. Harris said he was much benefitted by his stay in Mineral Wells. He said he wanted to see Ranger before leaving West Texas. He was here for a short period in 1919.

Mirror Lake suggested a swim and the two girls went for a plunge. "Nothing like this around any camps we've seen," said Christina, the youngest as she pulled out her bathing suit from the Harris car. The lake is but a few hundred feet from the camp grounds.

With California as their destination, Mr. and Mrs. Arthur Randall and children, Arthur and Bernice, of Fort Worth, are camping on the tourist grounds for several days until Mr. Randall concludes a contract he has to install milling machinery in the K. C. Jones elevator. He read in a newspaper of machinery to be installed in the mill and on arriving in Ranger applied for and received the contract to do the installation. William Gregg of Fort Worth is accompanying the Randalls.

LINE-UP FOR THURBER-RANGER BASE BALL GAME AT CITY PARK AT 4 O'CLOCK THIS AFTERNOON

A slight change in the batting order of the Ranger Snappers has been determined on by Manager Carl Snapp for today's game with Thurber. Jimmy Greble, who has been a dependable hitter, will bat fourth and Adams, a light hitter, will take Greble's position in the batting order. Skipper Snapp believes this will strengthen the Snappers, who have been patently weak at the bat. The game will start at 4 o'clock at the city ball park.

The Thurber team planned to leave home about 12:45 p. m., according to word from there this morning. Thurber, as it invariably does, is sending a delegation of fans with the team. Thurber's loyalty to its home club has become a by-word in North Central Texas. It is told, without exaggeration, that Thurber has had bigger delegations in the grandstands when playing away from home than the home club. Last summer when Thurber played a critical game with Parks

Leviathan Breaks All Records For Ocean Steamships

By Associated Press
NEW YORK, June 23.—A message from A. D. Lasker, former chairman of the shipping board, to President Harding announcing that the Leviathan had broken all records for ocean liners, was forwarded to the President today in Kansas, where he is on his transcontinental tour.

In addition to making 28.04 knots an hour, the liner maintained 28 knots for six hours. An average of 27.48 knots was maintained for 25 hours.

The success of the Leviathan was ascribed to American pep, sportsmanship and desire to lick Britain and Germany at her own game.

Four are acquitted on charges of murder
By Associated Press
CHICAGO, June 23.—Mrs. Anna McGinnis, her sister, Miss Myna Ploth and two young men were today acquitted by a jury of the charge of murdering Mrs. McGinnis' husband, Michael, a city fireman. State asserted that he was slain so his wife could receive the attentions of another man.

Killed by lightning
SUGARLAND, June 23.—Philip Jusse, 14, was instantly killed late yesterday when struck by lightning. The horse he was riding also was killed.

Standard Oil May Be Prospective Buyer. Survey of Fuel Supply Held in Storage to Be Made.

By Associated Press
TULSA, June 23.—An order for 30,000,000 gallons of gasoline may be placed in this market, it became known here yesterday at a meeting of the Western Petroleum Refiners' association. Refiners were advised of this impending order by telegram from an official of the association now in New York.

The gasoline would be exported and delivery made within the next 60 days. It would be bought from plants in Oklahoma and North Central Texas.

The name of the prospective purchaser was not made known, but it is believed that an order of this great volume would come from the Standard Oil companies.

A committee was appointed consisting of one refiner from every refinery district in the Mid-Continent field, including Kansas, Louisiana, Arkansas, Texas and Oklahoma for the purpose of making a survey of the amount of oil products now being produced for the purpose of ascertaining the approximate current production of oil products for the North Central Texas area. W. B. Hamilton of Wichita Falls was appointed on this committee.

Approximately 75 refiners from every section of the Mid-Continent field attended the meeting.

No information regarding an impending order of 30,000,000 gallons of gasoline to be placed in the Oklahoma and North Central Texas fields by an eastern company, as given out yesterday at a meeting of the Western Petroleum Refiners' association at Tulsa, Okla., has been received at the office of the Chestnut & Smith corporation, John Shannon Jr., said this morning. Chestnut & Smith are the largest manufacturers of casinghead gasoline in the world.

"It'll certainly loosen things up if it materializes," Mr. Shannon said.

HOCKLEY COUNTY VOTES BOND ISSUE FOR SCHOOL
By Associated Press
LOVELAND, June 23.—Hockley county with a population of 134 persons according to the 1920 federal census has voted unanimously for a \$50,000 bond issue for a school building. It will be built of brick.

MERCHANT SHOTS MAN HE TAKES FOR BURGLAR
By United Press
WAXAHACHIE, June 23.—Refusing to give his name, an unidentified man about 25 years of age is in a sanitarium suffering from gunshot wounds in the back. According to Frank Owens of Forrester, about 10 miles from here, the man attempted to break into his store. Owens said he was aroused by the burglar alarm, got his gun and hastened to the store and opened fire on the man who was standing by the cash register. Physicians said the man would recover.

PHYSICIAN'S MEASURE FOR MEDICAL LIQUOR IS ORDERED REVOKED

WASHINGTON, June 23.—Two drastic instructions designed to facilitate seizure of liquor were sent today by Assistant Secretary Moss of the treasury to treasury officials in New York. New orders were made necessary by the action of Public Health Officer Sprague in granting the request of medical officers of the Berengaria to designate its entire supply of liquor as medicinal. The permit granted by Sprague was ordered withdrawn.

No unreasonable grant of liquor will be allowed by the treasury department, it was said by officials.

HOT WEATHER HOLDS IN MIDDLE WEST BUT SOME RELIEF IN EAST

By Associated Press
CHICAGO, June 23.—Hot weather continued unabated today in the middle states, while the eastern states were experiencing some relief.

Three were drowned and one is dead from heat prostration yesterday in Chicago, where the temperature was 90 degrees. In Chicago, eight are dead from the heat and the highest temperature was 97 degrees. At St. Louis it was 93 and one died. In Michigan, 93 degrees of heat prevailed.

UNCHECKED VIOLATIONS OF LAW LEAD EASILY TO RULE BY RUFFIANS

By Associated Press
RIVER HEAD, N. Y., June 23.—Rum runners infesting the Long Island coast were reported to have grown so bold that they ordered bathers off a beach here while liquor from a yacht, said to have been on Canadian register, was landed. The yacht anchored about 700 feet off shore. Residents are so upset that women are now afraid to remain on the beaches after dark.

THREE BRUISED IN AUTO CRASH; DOG IS MISSING

Injured in One Car Cared For; Apparently None in Other Car Hurt.

Dr. G. W. Griswold of Cisco suffered cuts and bruises about the head about 9:30 o'clock Friday night when an Essex car in which he was riding with an acquaintance, D. Harrington of Waco, and a friend of the latter, and a Ford truck collided on the Bankhead highway a few hundred feet south of the Blackwell road. Harrington and his friend were brought to the Clinical hospital following the accident but later were able to leave the hospital. Dr. Griswold also received bad bruises below his right eye and gashes on his left thumb. He left the hospital this morning.

In explaining the accident this morning to a Times representative, Dr. Griswold said he met Mr. Harrington, who is a salesman, in Cisco yesterday and the latter invited him to take a ride to Ranger. He accepted the invitation and sat in the back seat with his Boston bull terrier. "I thought he was driving too fast and asked him to hold the car down," the physician said. He did not know the name of Harrington's friend.

Late this morning he had not yet found the bull terrier and he asked the police to advise him if the dog was recovered by any persons living in the vicinity of the accident. He prizes the dog highly and today offered a liberal reward for its recovery. He does not think the dog was killed. He searched the immediate vicinity for the animal but without results.

The Essex car is said to have turned a complete flop over a one-foot embankment, and landed back on its wheels and was able to continue under its own power. The top was torn off and the windshield broken. The car had a dealer's license and was said by passersby to have been driven on into Eastland.

The Ford truck lost a rear fender and late this morning was still standing on the road where the crash occurred. Those connected with the accident did not know the name of the person driving the truck.

DEFENSE TESTIMONY INDICATES ROSS WILL PLEAD SELF-DEFENSE

LUBBOCK, June 23.—Efforts will be made by attorneys for the defense in the trial of Tom Ross that the shooting of Dave Allison and H. L. Robertson was in self-defense, it was indicated by testimony introduced yesterday and today.

CITY "COMES BACK" UNDER THE GUIDANCE OF CAPABLE OFFICERS WHO CUT OUT BOOZE AND BOODLE

JACKSONVILLE, Ill., June 23.—A few years ago the city of Jacksonville was "broke." It was so crippled financially its credit wasn't good for a 60-cent telegram its then chief executive attempted to send. Today it has a credit of many thousand times 60 cents.

The change has been brought about, it is said, by an efficient business administration given by a mayor and a city commission who do not draw a cent of salary for their work for the city.

NATION'S CHIEF EXECUTIVE DONS BLUE OVERALLS

He and Governor Davis of Kansas Cut Grain; Address on Railroad Problems

By United Press
ON BOARD PRESIDENT HARDING'S SPECIAL AT HUTCHINSON, Kan., June 23.—President Harding and Governor Davis of Kansas intend to take a hand in harvesting the wheat crop. If the sunburn he suffered in Kansas City be not too painful, President Harding will put on blue overalls and a big straw hat, and become a harvester in the wheat fields.

The President appeared to be feeling well this morning and said the pain of the sunburn was passing away. He was planning early, in company with Governor Davis, to take out one of the harvesters and cut a quantity of the standing grain that is to be seen about Hutchinson in every direction. The grain that is cut will be threshed at once and hurried to a flour mill and, if the schedule goes through as planned, President and Mrs. Harding will eat biscuit at dinner tonight made of flour from the grain he cut.

ADDRESS ON RAILROADS.

By Associated Press
KANSAS CITY, June 23.—President Harding, in his address here last night, defended consolidation of the railroads of the country into a small number of systems as a rational, justifiable step, full of promise towards solution of the transportation problem.

"The railways have become publicly sponsored institutions, and government must find a way to avoid confiscation, avoid starvation, and maintain service and a proper return upon capital which will assure them a growth commensurate with the country's development," he said.

"There is another particular reason which urged the early adoption of the larger-system plan. It would be a long step toward solving the problem of keeping the railroad equipment adequate. Many financially weak roads are unable to provide all the rolling stock they need."

With regard to relations between the railroads and their employes, the President declared he did not believe "it possible under our form of government to compel men to work against their will, and do not think it desirable under any form of government."

"I say this," he added, "fully recollecting my vote in the senate in favor of the anti-strike provision of the railroad act of 1920. That was not a provision denying men the right to strike. It was merely a requirement that before the men should strike or the employer should lock them out, both sides should submit their differences to a properly constituted and impartial tribunal, empowered to consider the facts, determine the merits, and make an award."

"It was believed that in the vast majority of cases this procedure would prevent lockouts and strikes; and, in view of the enormous loss to the carriers, to their employes, and to the public resulting from strikes, I profoundly regret that it should not have been possible to give the plan a fair trial. If human wisdom shall ever be capable of setting up such a water service, we should encourage and enforce co-ordinated service, we should see to an equitable division of rates, and exact rate reductions whenever practicable to operate successfully under rate reductions."

"I wish the railway leadership of the country could see the need of this

(CONTINUED ON PAGE TWO).

AUTOMOBILE LICENSES INCREASE IN TEXAS BY LARGE FIGURE

By United Press
AUSTIN, June 23.—The total number of motor vehicles registered for the five months ending May 31, 1923, was 555,542; for the same period of 1922 they were 437,168, an increase this year of 118,374.

Tabulation of the figures shows that Dallas county led in the number of registrations with 41,073. Harris county was second with 36,092, while Tarrant, McLennan, Jefferson, Travis and Galveston counties followed in succession.

BIBLE THOUGHT.
PERFECT SAFETY.—Fear thou not; for I am with thee; be not dismayed; for I am thy God; I will strengthen thee; yea, I will help thee, yea, I will uphold thee with the right hand of my righteousness.—Isaiah 41:10.

CARRYING CUSTOMERS AT LOSS.
 It is a fact not generally known, that a considerable percentage of customers of public utilities, especially those using gas and electrical services are furnished these services at an actual loss to the companies.

This was illustrated in a graphic way recently before the public utilities commission of Michigan in an analysis made of the customers of the Grand Rapids Gas Light company and the amount of gas they used each month.

The state commission was considering the establishment of a demand or "service charge" to provide for the cost of taking care of customers, who have all the advantages of gas service without using enough gas each month to pay for the privilege of having it. The analysis showed that a large percentage of the company's customers do not use enough gas per month to pay for the ordinary and necessary routine of reading their meters, keeping their accounts and rendering bills, to say nothing of the investment cost of providing facilities for furnishing them gas when they want it.

This survey showed that considerably less than half of the company's customers used 2,000 cubic feet of gas per month or more. Under normal conditions with a gas company enjoying rates sufficient to earn a reasonable return on its investment, customers who use less than 2,000 or 2,500 cubic feet of gas a month, are carried at a loss. The margin of profit in the amount of gas they use is insufficient to pay the bare cost of service they get. This varies of course in different cities, depending upon the local conditions. In some cities those who use as much as 3,000 cubic feet are carried without profit to the gas company.

The Grand Rapids survey showed that 4,861 customers used no gas during the month the check was made although they had gas connections and meters and the company had to carry them on their books as live accounts. A total of 4,020 customers used only 100 cubic feet per month, 4,606 used only 200 cubic feet; 5,018 used only 500 feet, 15,584 used 2,000 feet or more.

NEW YORK MAY WAKE UP.
 No community in the United States has reaped more benefit from the union of states than has New York city. The wealth of prohibition America has poured into New York city. And the people of America have grown restive under the increasing evidence that New York is being governed by alien influences to the distress of the American minority.

Governor Smith could not have done the city of New York a greater dis-service than to sign the prohibition repealer bill. Some day the country is apt to ask New York the famous question of the colored man: "Ain't you ain't or is you is?" a part of the United States?

Peace may be in sight in some parts of the world, but there seems to be no prospect of it among the wets and dries in this country.—Philadelphia Record.

CHICAGO GIRL MUST PAY FOR JILTED MAN

Miss Leona Voris.

A jury of married men has decided that Miss Leona Voris, of Chicago, must pay Lee H. Stiles, whom she jilted, \$1,000 for the engagement ring he gave her. Stiles, a wealthy club member, paid that sum to Mrs. Voris for her engagement ring, which the daughter expressed a desire to use as her engagement signet.

Kellogg's Bran May Be Made Up in Very Appetizing Dishes

At a recent discussion of the question of food and working efficiency it was stated that most persons are eating their way into untimely graves without knowing it, both by eating too much and by the use of foods that are not easily digested or that lack the requisite amount of cellulose. The summarized opinion was that everyone could increase his working efficiency by reducing the amount of his food and by adding to the diet fruits and bran.

Bran as prepared by the Kellogg Cornflakes company is a toothsome and nutritious article of diet which continues to please those who know it and to delight those who are just getting acquainted with it.

When you know from personal experience how good to eat Kellogg's bran regularly is; how it will help you and your family; how it is working for humanity and how physicians are endorsing it—your enthusiasm for this wonderful cereal will be great. You'll tell the world. Sure enough!

For those who wish to prepare it in some cooked form the following recipe for bran gems made by the chief of the Waldorf-Astoria hotel, New York will be just in order.

BRAN GEMS
 (Chef Rene Anjard, Waldorf-Astoria, New York city)

One and one-half cups of Kellogg's bran, 1 teaspoonful of baking soda, 1 teaspoonful of butter, 3-4 cup of sour cream or buttermilk, 1-2 cup of sugar. Mix together and bake in a hot oven for 20 minutes. This makes six gems.

BUY IT IN RANGER

DOG HILL PARAGRAPHS
 By GEORGE BINGHAM

Fletcher Henstep don't know whether he can go to church any more now or not. This morning he was driving a calf down the road at the end of a long rope, and when the Dog Hill preacher stopped and began talking to him about the way he was acting, the calf got restless and began running around and around and soon had the preacher bound hand and foot.

It is probable that the friends of Sap Spradlen, who have been hearing from him through the mails right often, will wonder if he is not dead, but the Postmaster has informed him that he cannot get any more stamps until he pays for those three he has bought on a credit.

Bulgaria is contributing its bit to the League of Nations' peace.—Washington Post.

NATION'S CHIEF EXECUTIVE DONS BLUE OVERALLS

(Continued from page one.)

tribunal as that, and of inspiring both sides of the controversy with complete confidence in it, we will have traveled a long way toward industrial peace.

"Personally, I have confidence that the thing is possible. I believe so firmly in the underlying common sense of both organized industry and organized labor, and in the fairness toward both on the part of the great public on which both of them are finally dependent, that I believe at least it will be possible to arrive at settlement of industrial disputes in public service by such a method.

Inland Waterways.
 "There is another highly important phase of the transportation problem very much worth our attention. I believe the use of our inland waterways offers the one sure way to reduce carrying charges on basic materials, heavy cargoes, and farm products.

"The federal government has expended approximately \$1,130,610,000 on river and harbor improvement. The millions expended on inland waterways, on rivers and canals, have brought small returns because we have put them to no practical use. We have failed in co-ordinating service and have allowed the railroads to discourage every worth while development.

"I believe we should encourage our employment of our water routes as an essential factor in perfected transportation, and join in aiding the feasible plan of co-ordinating service and cheapening charges, not alone as a means of popularized and efficient public service, but as a means of ending the peril of their own fortunes."

GOLFERS ARE COMING FROM MINERAL WELLS TO PLAY TOMORROW

Ten golfers are coming over from Mineral Wells tomorrow morning a telephone message from that city shortly after 2 o'clock this afternoon said. Dr. Clyde C. Craig of the Ranger Country club said he was told that the visitors would be here by 9:30 a. m., coming by automobile.

Tournament play will start at 1 p. m. Sunday. Club members are urged to pay the usual courtesies to the visitors while in the city.

POLICE DEPARTMENT GETS RETURNS FROM GAMING PARTY

Fines aggregating \$103.50 were collected by the police department following a raid on a gaming party in a Ranger hotel about 11 p. m. Friday. Six men were brought to the police station, but one was released from paying a fine after an investigation. The other five were fined \$20.70 each. All except one paid the fine promptly. The other one said it would be paid today.

"SERVICE WITH A SMILE"

The Well-Managed Home

The manager of a household is the purchasing agent for a large proportion of the family needs. In order to do a good job she must know what, when and where to buy. She must study goods and the concerns which make goods and have them to sell. She must put her home on a business basis and run it on business principles in order to make the most of the family income.

Information is the only basis for intelligent purchasing. And the right way to get the greatest amount of necessary information is to read the advertisements.

Advertisements tell you what is new and good in merchandise. They reveal improvements and inventions that make your home life easier, more comfortable and more convenient. They give you information about a thousand and one things that are useful and interesting.

Every manager of a household—every member of the household who shares the responsibility for the family's welfare—should make a practice of reading the advertisements. They are daily lessons in economy.

Read the Advertisements in Order to Buy Wisely

RANGER DAILY TIMES Bible Distribution COUPON

Two distinct styles of this wonderful Book of Books have been adopted for this great newspaper Bible distribution. One is the far-famed Red Letter Bible (Christ's sayings printed in red for immediate identification), and the Plain Print Bible for those who can spare but a nominal sum.

Only Three Coupons

Clip this coupon and two others and present or mail them to this paper with the sum set opposite either style, and come into possession of your Book of Books at once.

Style A—Red Letter Bible, over-lapping limp black leather covers, red edges, round corners, gold lettering, large, clear print, three coupons and only \$1.98
 Style B—Plain Print Bible, flush limp black seal grain textile leather cover, red edges, medium large type, strong and durable, three coupons and only 98c

Mail Orders: Send amount for Style A or Style B, with three of these coupons, and include 15 cents additional for postage, packing and insurance.

LABOR EXODUS OUT OF TEXAS TO THE NORTH

Mexicans and Negroes Compose Bulk of 32,000 Moving From State.

AUSTIN, June 23.—One of the largest movements of Texas laborers to northern and eastern states in history has occurred during the past four months, according to State Labor Commissioner Joseph S. Meyers. Reports from employment agencies over the state indicate that over 32,000 workers have been taken out of Texas in that time.

All of the laborers that have been taken from the state by foreign concerns have been Mexicans and negroes, the former pre-dominating. Over 7,000 women and children have been shipped.

The laborers have been taken to 16 different states, reports show. The states included in the shipments and the work for which the laborers were taken follows:

Pennsylvania, zinc and steel workers; Minnesota, beet fields; Montana, beet field and farm hands; California, railroad maintenance and canning factories; Colorado, beet fields; Illinois, steel and zinc factories; Kansas, railroad workers; Wisconsin, leather and beet workers; Michigan, beet fields; Iowa, beet fields; Missouri, railroad workers; Oklahoma, steel plants and farms; Louisiana, lumber workers; New York, canning factories. Over 100 workers were shipped to Alaska for work in fish canning factories.

Several thousand workers have been taken from the state by railroads for maintenance of way work. Among the roads that have received shipments are: Atchison, Topeka and Santa Fe; Southern Pacific; Rock Island; M. K. & T.; St. Louis and San Francisco; and B. & O.

Numerous causes have encouraged the movement of Mexican and negro laborers to the northern states, Commissioner Myers said. Reliable reports to the state labor department show that wage scales in the northern sections are considerably higher than in the South. Comparison of wages paid by 22 industries in the North and South are reported to show wages in the North 99 per cent higher than in the same industries in the South.

It was further pointed out by the same report that the cost of living in the large northern cities is from 25 to 33 per cent less than in two southern cities, one located in Texas.

WALES STILL SINGLE AT 29TH ANNIVERSARY

By United Press

LONDON, June 23.—The Prince of Wales is celebrating his twenty-ninth birthday today and salutes were fired at naval and military stations in honor of the anniversary. Secretaries at St. James palace had a busy morning receiving messages of congratulation from all over the world, and the entire diplomatic corps called to pay personal and official respects.

The one subject on which the British nation displays anxiety is "When is the prince going to get married?" It is quite exceptional for the heir to the throne to reach his twenty-ninth anniversary without having been married or at least betrothed, and speculation is rife as to the reason for the delay in announcing the prince's engagement. Since the announcement of the engagement of Lady Rachel Cavendish to the Earl of Moray's son, rumor heads the list of possible candidates with Lady Katherine Hamilton, daughter of the Duke of Abercorn, and Lady Mary Thynne, daughter of the Marquis of Bath.

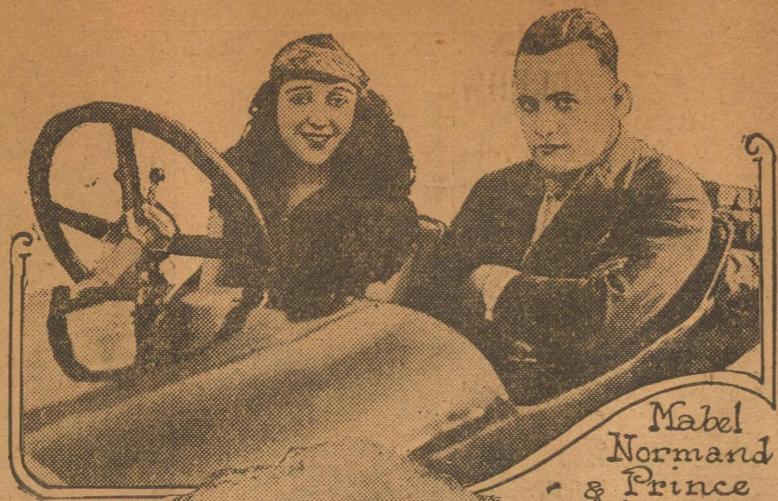

GREENVILLE.—M. T. Swann and Olin B. Lane, of Greenville, have gone to Yellowstone National Park where they will serve as temporary rangers during the summer vacation. Forty young men from colleges over the state were selected for such services. Swann and Lane are representatives of Grubbs Vocational college.

Pearl Shepard.

Pearl Shepard, a New York moving picture actress, in private life Pearl Ginsberg, daughter of a furrier, has sailed for Europe. In Egypt she will become the bride of Prince Mohammed Ali Ibrahim, descendant of the Pharaohs, who declares he will forfeit his rights to the Egyptian throne if necessary. The prince, who has been in America for several months, was seen often in Hollywood with Mabel Normand, film actress.

BAPTISTS BUILDING ENCAMPMENT GROUNDS IN BREWSTER COUNTY

By Associated Press

ALPINE, Texas, June 23.—Elaborate preparations are in progress to make the Paisano Baptist Encampment, twelve miles west of Alpine, the largest summer encampment in the entire southland. More than a million dollars will have been spent before the plans now agreed upon are completed. Local citizens have already purchased and presented 1,000 acres of fine timbered land to the encampment. The beautiful shady grove was selected years ago by Dr. Geo. W. Truett of Dallas as an ideal site for summer camp meetings, and through the years, he has advocated the establishment of a permanent encampment.

A large crew of workmen are on the grounds, getting everything in readiness for the summer meeting, which formally opens August 16th. One large tabernacle with a seating capacity of more than 3,000 has been finished. Another large tabernacle is being erected, where meals will be served. It is expected that several small cottages will be built before the opening of the summer session. An up-to-date sewerage system has been installed. There will be a mail service for the campers—also telephone service in time for the big meeting. Water has been piped all over the grounds, and a modern electric lighting system has been installed. The capital for all of the present improve-

ments has been supplied by local ranchmen.

At a meeting of the executive committee, it was decided to serve the food "chuck wagon" style, free to all campers as was done last year. Camp sites will be laid off in streets and will cost nominal sums. All persons coming from the east will receive mail out of Alpine, and those coming from the west will receive mail out of Marfa. Telegraph facilities will also be provided. Milk, groceries and ice will be available on the grounds.

Rockefeller says save it and Ford says spend it. Perhaps it is a fifty-fifty policy that keeps us all poor.—San Francisco Chronicle.

Protect the Poor From Profiteers Is Berlin's Plan

Anti-Profiteering Laws Do Not Worry About Newly Rich.

By CARL D. GROAT

United Press Staff Correspondent. BERLIN, June 23.—Germany's anti-profiteering law and its army of enforcement are concerned chiefly with shielding the man with the overalls and his frau. It doesn't worry much about the bloated newly-rich, living luxuriously on Kurfuerstendamm.

"We aim to protect the working man and his family," said Regierungsrat Inkel to the United Press. "I don't worry so much about the bejeweled woman who sends her cook down to the market to buy early strawberries at a few thousand marks apiece. I'm more concerned with seeing that profiteering dealers don't try to charge the mill-worker's frau a few hundred marks extra for her scanty piece of meat which she can afford to have only once a week or once every two weeks."

The Wucher police—profiteer police—center much of their attention on the great cattleyards in East Berlin. Every morning before the slaughtering starts, a special board deliberates as to the percentage of profit which may legally be charged. The police watchers then ascertain whether the day's regulations are being followed. If not, the dealer gets a heavy fine—or in some of the most flagrant cases, a prison sentence.

"We have found it very effective, sometimes, to give a jail term. For instance, coal dealers sometimes tell their customers they have no more coal. These men are simply waiting for the government to make one of its periodic increases in the official coal price, since thereafter they can sell old coal as well as new at the higher rate. With these men, we apply the law which takes away for a period of three months their selling licenses. That makes a dealer watch his step."

The profiteering police have regulations intended to limit the number of traders. Each trader must have a license to do either wholesale or retail business, as the case may be. One old woman at an open-air market ran foul of the wholesale license law because she sold, unknowingly, to a retailer thirty eggs. The court held that nobody nowadays could afford to buy so many eggs all at once, hence she should have known she was doing business with a retailer. She got only a nominal fine, as her business associates said she was always an honest trader.

WOMEN! WEAR CORSETS

—New York's New Health Commissioner

Dr. Frank J. Monaghan, Health Commissioner, and Mrs. J. Christopher Marks, President of the Theatre Assembly, of New York.

New York City's new Health Commissioner, Dr. Frank J. Monaghan, who succeeded Dr. Royal A. Copeland when the latter became Senator of the United States, has come out as a champion of corsets for women, as was Dr. Copeland.

Mrs. J. Christopher Marks, President of the Theatre Assembly, wrote Dr. Monaghan that she contemplated writing a paper on the subject of clothes in relation to women's health, and desired the Commissioner's views concerning the wearing of corsets.

"The corset, as it is made today, when properly fitted, should be a benefit to any woman," Dr. Monaghan said. "It lends support to vital organs which need bracing, thus permitting them to function properly without strain. 'Also, I think, as does Senator Copeland and Dr. Lorenz, that the corset, affording the woman trimness of shape, enhances her beauty and, in this way, sets her mind at ease, a condition highly desirable from a health standpoint. The absence of the corset, if persisted in, is apt to lead to flabbiness at the waist.'"

NEW CASINGHEAD GASOLINE PLANT RUNNING TO CAPACITY

Southern Gasoline company has its daily production nearly up to 2,900 gallons, it was said today by S. B. Davis at the offices of the company in the Guaranty bank building.

The new casinghead gasoline plant which was opened about 10 days ago when running capacity will produce daily 5,000 gallons of gasoline.

It is planned to run the plant at capacity when all of the equipment has been thoroughly tried out. Only

two compressor units are used daily, the engines being worked in gradually. One day two units are used and the following day the other two.

FOR CONSTIPATION

Black-Draught Recommended by an Arkansas Farmer Who Has Used It, When Needed, for 25 Years.

Hatfield, Ark.—Mr. G. W. Parsons, a well-known farmer on Route 1, this place, says: "I keep Black-Draught in my home all the time. It is the best all-around medicine I have ever found for the liver and for constipation. We began using it 25 or more years ago and have used it whenever needed since. I have never found any other medicine as good for constipation, and that was what I suffered with till I began using Black-Draught. Black-Draught corrected this condition, and now we use it for the liver and for indigestion—a tight and sluggish feeling after meals, for bad taste in the mouth and sour stomach.

"My wife uses it for headache and biliousness. It sets on our shelf and we don't let it get out. It has been a great help to us. I believe a great deal of sickness is caused by hurried eating and constipation, and Black-Draught, if taken right, will correct this condition."

Get Theford's, the original and only genuine Black-Draught powdered liver medicine. Sold everywhere. NC-150
