Tuberculosis Seals Go On Sale Locally

Association Mails Out 150,000 New Christmas Stickers

Howard county people today were opening envelopes containing an aggregate of 150,000 Christmas seals sent out by the Howard County Tuberculosis association to finance a campaign of education, treatment and prevention.

Mayor G. C. Dunham joined in the appeals for seal purchases, declaring that by buying the seals, citizens might "protect homes—all our homes—from the tragedies caused by the ravages of tuberculosis. We pride ourselves that ours is a community of homes. Shall we not join, then in this unqualifiedly laudable cause?"

Endorsement of the drive had come from Dr. Frank Boyle, county health officer, who took cognizance of the fact that an "important part of the national health program has been our long and persistent fight against tuberculosis. This disease, with its peculiar ability to undermine the health of its victims and spread its germs to others before any outward sign of its presence can be seen, is a difficult one to control."

For the 34th year, Christmas seals were going into the mail over the state. Dr. Z. T. Scott, Austin, managing director for the Texas Tuberculosis association, said, "Significantly, first purchaser of seals here was Dr. R. B. G. Cowper, according to Mrs. J. C. Douglas, treasurer. She urged others to act promptly and use seals so as to make Big Spring and Howard county 'Christmas seal conscious.'"

REVIEWING THE BIG SPRING WEEK

BY JOE PICKLE

Well, it's settled for another year at least, this wet-dry business. There may be post mortems of what effect the weather had, but it's too late for that. A substantial majority spoke for the wet side of the question. And that settles it, for the time being at least.

More than 80 young men leave here at 8 a. m. Monday for Santa Anna to be mustered into national guard service for a year. They must crowd into a truck for the long trip since the government has some rule against transportation appropriations before a national guard company is organized. Congratulations to a group of young men who have spunk enough to take this pill and still give the nation a year of their time.

Building activity appears to be picking up here this month. Saturday the permit total stood at \$22,000 and a 1,615 job coming up on the post office Monday will boost it over \$34,000. Included in the total are new residential construction, a new business structure, and a sprinkling of remodeling.

The death of Mrs. Fox Stripling last week removed one of the city's finest personalities. A woman of infinite good humor and solid character, she was missed by all who knew her.

Murder-Suicide Verdict Given In Midland Case

MIDLAND, Nov. 23 (AP)—Peace Justice E. C. Girdley held today after an inquest that James F. Harrison, 35, died of self-inflicted gunshot wounds, and that Mrs. Harrison died of gunshot wounds inflicted by her husband.

American Asserts Greek Aid Great

SOFIA, Bulgaria, Nov. 23 (AP)—An American who saw the Greek army in motion expressed belief today Britain is giving Greece much more aid in her fight against Italy than London is admitting officially. This impression was brought out by J. F. Gordon, for 12 years a resident of Athens, who spent eight days traveling by automobile, ox cart and bicycle through the war zones from Athens to Sofia.

BLIZZARD GRIPS PANHANDLE AS HEAVY RAINS SWEEP OVER MUCH OF TEXAS

Salvation Army Seek Clothing For British Aid

Major L. W. Canning, in command of the Salvation Army in Howard county, has issued an appeal for clothing and blankets for relief work in England.

"Those persons having articles of clothing or blankets are asked to call me at 903 East Third street, 202 Lincoln Avenue, or phones 454 or 1621," said Major Canning. "We will be glad to call for anything at anytime, if we are notified where to find it."

The Salvation Army is providing food and shelter, ministering to the homeless and sick, and distributing blankets and warm clothing in England, especially in the city of London.

W. E. Chatwell Dies In Freak Auto Accident

Arrangements for the funeral of William E. Chatwell, 43, victim of a freak car accident early Friday morning near Pecos, were pending here late Saturday night.

Chatwell, father of seven children, was one of two victims in which a car burst into flames and plunged into a culvert 10 miles east of Pecos and overturned.

George Wilson, 61, Abilene, also was killed and O. E. "Buck" Duke, Robert Lee, was gravely injured.

The three were returning from Fort Bliss at El Paso where they had been engaged in army construction work. According to Duke, who was in a critical condition at a Pecos hospital, one of the men struck a match to light a cigarette, igniting fumes from a leak in the gas tank under the hood.

The explosion caused Duke, driver of the car, to strike a culvert.

Chatwell is survived by his widow and seven children, Bill Chatwell, Jack Chatwell, Charles Chatwell, James Chatwell, Don Chatwell, Mrs. Margaret Bishop and Roma Chatwell. He also leaves his mother and two grand children. The body is still at Pecos pending arrangements.

Two Die In Wreck Close To Abilene

ABILENE, Nov. 23 (AP)—Murky, misty weather took its toll tonight.

Six persons were injured, two fatally, when two cars piled up on a truck parked on Highway 83 about 16 miles south of here. The truck driver had stopped to help get another truck out of a muddy ditch.

The dead were Lucille Webb, about 25, chief secretary in the Abilene office of the Farm Service Administration, and Irvin Fitzgerald, negro from Seguin.

Ten miles east of Abilene on Highway 80, Norris C. Strickland of Lubbock hit a soft highway shoulder and overturned his car. He was in a local hospital with severe injuries.

CIO PLANS CAMPAIGN ATLANTIC CITY, N. J., Nov. 23

(AP)—The Congress of Industrial Organizations announced today through its new chief, Philip Murray, an "intense" campaign to organize mass production industries, with the Ford Motor company and the Bethlehem Steel corporation as "the first objectives."

National Guard Camp 60 Percent Complete

BROWNWOOD, Nov. 23 (AP)—Officials at Camp Bowie, where the main body of Texas national guardsmen will train after mobilization next week, reported today the new camp is slightly more than 60 per cent completed.

They expressed confidence facilities would be ready on schedule. Facilities for the Texas guard division, the first unit to be stationed here, had a higher completion percentage since work was being concentrated on the areas where the division will be quartered. Members of the 96th division, Texas national guard, will be mobilized Monday at their various home cities. The 96th cavalry brigade, another Texas unit, was mobilized

Freezing Rain Coats Amarillo Power Lines

AMARILLO, Nov. 23 (AP)—Three-fourths of Amarillo's telephone circuits were out, a power failure put the airport in darkness, and ice continued to thicken on streets and lines at midnight.

At places wind was swinging ice coated electric wires as much as 10 feet out of line.

Ice glazed highways and snapped communication lines in the Texas and Oklahoma panhandles last night while in East Texas the heaviest rains in years halted traffic and harassed residents.

Amarillo reported the situation growing worse as a 14-mile wind whipped wires and trees loaded with an inch of ice. Some panhandle communities were without power. The weather bureau forecast temperatures of 33 to 30 with continued wind during the night. Warmer was predicted Sunday.

The death of a child and the serious injury of a farmer were attributed to the weather in East Texas. Doyle Nichols, 4 year old son of Mr. and Mrs. Ernest Nichols of Laneville, Texas, died after being struck by a truck during a heavy storm. Ed F. Posey, 69, of Rusak county, suffered broken legs when struck by a hit-and-run motorist.

County agents reported serious damage to farm lands, bridges were washed out, dams broken and travel stopped in an area extending from East Texas into Louisiana.

The southward movement of a mild cold wave meeting warm air from the Gulf of Mexico brought on general precipitation over much of Texas, Oklahoma, Louisiana and Arkansas.

Logansport, La., was isolated from highway communication after 13 1/2 inches of rain in 36 hours. Rain still fell there and the Sabine river was rising.

No major damage resulted from the floods which came from rainfall rather than river overflow both at Logansport and Palestine. Water swept into stores at both places during the day, but storm sewers were handling it satisfactorily Saturday night.

An inch of snow fell at Boise City, Okla. while a freezing rain fell at Amarillo, in the Texas panhandle.

Small streams in north, central and east Texas were out of their banks from rains ranging up to 5 inches.

Both the Little and Leon rivers were bank full near Temple which got 1.88 inches.

The Dallas weather bureau warned farmers to remove livestock from low places along the Trinity river.

Food Stamp Plan Extension Asked

WASHINGTON, Nov. 23 (AP)—The agriculture department today urged a \$400,000,000-a-year appropriation to permit extension to all relief families of its stamp program for distributing surplus foods.

Inaugurated experimentally in a few cities a year and a half ago, the program now reaches 202 cities and counties and a total of 2,500,000 relief clients. Officials said about \$100,000,000 would be spent on it this year.

SEYMOUR WEISS PRISON-BOUND—Free of handcuffs or any other visible sign that would mark him as a prisoner, Seymour Weiss (center), New Orleans hotel executive and political associate of the late Senator Huey P. Long, walked from the terminal railway station at Atlanta to enter an automobile that carried him to the Atlanta federal penitentiary to serve a four-year term after pleading guilty to charges of income tax evasion and conspiring to violate the Connally "hot oil" act. He is also under 30-month sentence on conviction of defrauding Louisiana State university. The two sentences run concurrently. Behind him is Deputy Marshal Joe Burglass, just partly shown. The man at right was not identified.

Rumania Formally Joins Axis Lineup

By The Associated Press

British bombers struck last night at Berlin where Rumania yesterday formally joined the expanding Berlin-Rome-Tokyo-Budapest military alliance.

German sources said the low-flying planes all were turned back by anti-aircraft defense fire.

London reported other British airmen loosed one of the heaviest attacks yet on Nazi-held continental bases, spraying explosives over a wide area.

In Adolf Hitler's ornate chancellery in Berlin, the Rumanian dictator, Gen. Ion A. Tonescu, signed the same terms which Rumania's none too friendly neighbor, Hungary, signed only a few days ago.

Bulgaria and Nazi-dominated Slovakia, remnant of Czechoslovakia, are expected to sign next.

The alignment of Rumania with the axis forces brought the Nazi influence to within 200 miles of the Dardanelles, and intensified diplomatic and governmental activity in Turkey, now under martial law.

The Turkish foreign minister Sukru Saracoglu received the Greek and British ambassadors in separate audiences, and there was belief Germany's ambassador, Franz von Papen, would hand Turkey a proposal to line up with the "new order."

The Greeks, happy over the fall of Koritza, Albania, an Italian base city, were reported to have split their retreating army in two and to be driving from the Pindus mountain sector through the fascist lines. Military observers said the rout was so great that Italians were unable to form a new line of defense.

Bulgaria ordered its first nationwide blackout and restricted internal telephone communication, but the public was assured in numerous communiques that no army was likely to march through the country to battle.

An American, J. K. Gordon, long a resident of Athens, declared Britain was giving Greece a great deal more help than London admitted officially. Gordon said he was impressed by the number of troops, planes, ships and war materials placed at the disposal of the Greeks.

Bogus Mexican Divorces Probed

EL PASO, Nov. 23 (AP)—The possibility that "several hundred Americans" may be possessors of bogus Mexican divorces, manufactured by an alleged "counterfeit divorce factory," drew the attention today of both U. S. and Mexican authorities.

The bogus decrees, it was said, bore the signatures of minor court judges of Villa Ahumada and Praxedis G. Guerrero, small towns in the state of Chihuahua.

Attention of U. S. postal authorities in El Paso was called to the case of Julio Ricardo Carrillo Duran of the Juarez civil court—himself for years the mecca of Americans seeking "easy" but legal Mexican divorces.

MRS. BARRETT ILL. Mrs. M. E. Barrett, oldest living resident of Big Spring, was reported to be gravely ill at her home at 311 Bell Saturday night. Mrs. Barrett has been bed-ridden since she suffered a fractured hip in a fall while visiting her son, Walter Barrett, in Lamesa little less than a year ago.

FDR Selects Leahy As New Ambassador

Former Naval Chief Will Go To Vichy Diplomatic Post

HDYE PARK, N. Y., Nov. 23 (AP)—The selection of Admiral William D. Leahy, retired, as ambassador to France was announced today by President Roosevelt.

Leahy, who climaxed a 42-year career in the navy by serving as chief of naval operations from 1937 to 1939, has been governor of Puerto Rico since his retirement a year ago.

The resignation of William C. Bullitt, present ambassador to France, has been in the president's hands since November 7. Its acceptance becomes a matter of course.

Whether Bullitt would be offered another government position or would return to private life, the temporary White House was not prepared to say. It had not been determined, either, when Leahy's nomination would be sent to the senate. Presumably, he will be allowed time to wind up his affairs in Puerto Rico.

Mr. Roosevelt has asked General John J. Pershing to become envoy to France because of his close friendship during the World war with Marshal Henri Petain, head of the Vichy government. Pershing's doctors forbade him to accept.

Lothian Says Britain Broke

NEW YORK, Nov. 23 (AP)—Lord Lothian, British ambassador to the United States, returned from his bomb-battered homeland today with a cryptic declaration that Britain's financial problem was "becoming urgent."

His country, he said, was "beginning to come to the end of her financial resources."

The envoy was one of 14 passengers who came from Lisbon on Pan-American Airways' Atlantic clipper.

Lothian foresaw "a difficult year" for the British and an emphatic need of all kinds of war materials, including airplanes, munitions, ships and "perhaps finance."

"Definitely does not need men" as part of this country's assistance.

The ambassador was optimistic of British success, however, and asserted that "confidence in ultimate victory is high."

Negotiations In Strike Resumed

DOWNEY, Calif., Nov. 23 (AP)—Negotiations were resumed today between Vultee Aircraft company officials and spokesmen for the CIO United Automobile Workers' aircraft division in efforts to end a strike which closed the \$200-million Vultee plant Nov. 15.

After some three hours discussion, the meeting recessed until 8 o'clock tonight.

With disputed wages agreed upon, remaining issues were "no strike" and compulsory arbitration clauses in a two-year contract offered by the company, which has \$84,000,000 in orders and is exclusive builder of U. S. army basic training planes.

Just before re-opening of the talks, a union mass meeting voted not to accept any contract containing such clauses. Negotiations broke down last Thursday over these issues.

RADIO STAR DIES

NEW YORK, Nov. 23 (AP)—Billy Jones, 31, who with the late Ernie Hare pioneered on the radio as "The Happiness Boys," collapsed and died on Broadway tonight as he strolled along the street he loved so well.

Negro Wants No Draft Spoofing

COLUMBIA, S. C., Nov. 23 (AP)—He had the right draft board and then he didn't.

He poked his head into draft board No. 1's headquarters here and inquired:

"Is de draft board in heah?" To the three board members sitting at a table and said:

Wets Get 500 Vote Margin In Election

Saturday was a wet day for Howard county, both in weather and ballots.

Voters, marching to the polls to write their sixth decision in seven years, turned down a proposal to prohibit sale of all alcoholic beverages, 1,833 to 1,333, incomplete unofficial returns showed late Saturday night. Only the Vincent box, with an estimated poll of not more than 40 votes, was unreported.

The wet majority of 500 votes was the largest ever recorded on the issue of all alcoholic beverages, although a proposal to legalize sale of beer carried by a 693 majority. When sale of all alcoholic beverages was legalized in December 1933, it was by a scant 71 majority.

Vincent, the missing box, is normally dry, although it did slide into the wet column on one occasion.

The poll Saturday was heavier than anticipated, due to unexpected strength in the four city boxes. They polled 2,548 votes, showing 918 dry and 1,630 wet, a majority for the latter of 712.

Rural boxes, traditionally dry, upheld that status, polling 618 votes exclusive of Vincent, 415 dry and 203 wet, a dry majority of 212.

Thus in the city the wet majority was little less than two to one, whereas in the rural districts it was slightly better than two to one dry.

The total vote, which stood at 3,166 and could approach 3,200, was considered surprising in view of the comparatively quiet campaign on both sides. Dry forces called the election on the strength of petitions bearing well over 1,000 names.

Morris, in true form, came through with 11-0 for the dry.

Of six local option elections since 1933, when Howard county legalized 3.2 beer after a dry status of more than three decades, only once has the county voted dry, that in December 1937.

Returns by boxes Saturday were:

No.	Box	Dry	Wet
1	Big Spring	55	199
2	Big Spring	227	309
3	Big Spring	455	781
4	Big Spring	131	251

Teachers Close Annual Meeting

FORT WORTH, Nov. 23 (AP)—The Texas State Teachers' association ended its 62nd annual convention here today with attendance at the three day meeting near an all-time record figure.

B. B. Cobb, executive secretary of the association, estimated that between 11,000 and 12,000 teachers, school heads, and college and university faculty members were here for the session.

Dean B. F. Pittinger of the school of education of the University of Texas was elected first vice president of the association. If the association follows this year's procedure, when it elevated W. B. Irvin of Lubbock from the first vice presidency to the presidency, Dean Pittinger will be in line for election to head the organization next year.

Recently, the commissioners court pondered, without a decision, the matter of pressing suit for collection of \$1,300 owed by land owners on previous terracing.

On Dec. 2, a terrace building demonstration is to be held in the same vicinity with implement firms being invited to show the abilities of their equipment in terrace building.

In addition to serving as a conservation measure for the area, the structure was designed to solve a serious flood water problem for the city.

Plans are to continue until all terraces on the plot, which covers approximately two sections, have been built. Linear feet of terraces for the demonstration approach 70 miles.

Heart Attack Takes Life Of Ray Million

Funeral services will be conducted at 2 p. m. today in the Eberley chapel for Ray Million, 57, T. & P. yardmaster, who succumbed at his home early Saturday morning.

Million died at 3:30 a. m. Saturday of an heart involvement, aggravated by shock suffered in a car mishap Tuesday afternoon when he was returning from his customary annual deer hunt.

The accident occurred near Water Valley and Million sustained painful bruises and shock.

Born in Tennessee, Oct. 25, 1883, he had been in railroad service for 30 years. Million came here in 1925 from Shreveport where he was associated with the T. & P. railroad.

Rites will be in charge of the Rev. C. E. Lancaster, First Baptist pastor, and burial will be in the Masonic cemetery with the local lodge in charge by request of the Port Allen, La. Blazing Star lodge, of which he was a member. He also maintained his Order of Eastern Star membership there.

Survivors include his widow, Mrs. Mattie Million, a sister and a brother. Mrs. Glen Aaron of this city is a sister-in-law.

Terracing To Start Monday

The 1940-41 terrace building program, carried out by use of Howard county road equipment, will get underway Monday when terraces will be started on the Cantrell and Dea Davis farms, part of a joint soil conservation area immediately north of the city.

Coahoma Brightens Slow-Moving Red Cross Roll Call

Little Town's Record Best In Howard Co.

Bright spot in a rather gloomy Howard county Red Cross roll call is Coahoma.

Mrs. Mary Delbridge, record-keeper for the drive, surveyed her books Saturday afternoon to find that that community is outdistancing the rest of the county in answering the roll call.

Already 142 members have signed up there, contributing \$150. The school has not yet reported, and there will possibly be other additional members before the drive ends. For a community of Coahoma's size, the record is outstanding.

With only a week remaining for completion of the Roll Call 141 members had joined Red Cross Saturday afternoon. This leaves the quota of 2,500 far from filled.

Ninety-nine groups (firms, schools, clubs, etc.) have reported 100 per cent membership in Red Cross. Only two schools, Moore and Ellwood, are included in this list, however.

Red Cross workers are anxious to hear from city and rural clubs, city clubs and business schools, home demonstration firms, scores of which have not yet responded to the roll call.

Of nearly 100 women's clubs in Big Spring, only 15 clubs have

turned in memberships, these amounting to \$92.50.

Meantime, sewing of garments for needy in England is continuing. Flanellette has been received for making of 90 pairs of men's pajamas.

Among those who have joined Red Cross are:

Henry Mueller, W. B. Joy, Claude Millers, Mr. and Mrs. S. P. Jones, Myrtle Jones, Omar Jones, Mildred Jones, B. P. Harris, Mrs. L. W. Robinson, Mrs. J. R. This Is The Life! Army Officers Must Win Respect Of Men

This is the last of a series describing a design for living in the camps to which draftees will be assigned.

By MORGAN M. BEATTY
AP Feature Service Writer

WASHINGTON — The army's dashing into the task of training a citizen army with all the reckless abandon of a man walking on eggs.

There's a reason!

Regular army officers know that success or failure will rest squarely on their shoulders.

In formal black and white, hard-boiled Chief of Staff George Marshall has told his commanding officers they're on the spot to provide the kind of leadership the new men will understand and follow.

"The establishment and maintenance of high morale and the creation of conditions fostering good morale," says an order from the chief, "are among the first and most vital functions of command. Every commander is instructed to give this matter his personal attention."

And to be certain that's that, the army has created several new units to get them in a kindly way for a solid month. To be absolutely sure they understand, their failures at first will sometimes be overlooked, often discussed with them in a fatherly way.

But after that month, hard-boiled army sergeants will get the recruits, expect them to execute commands, comply with customs and obey strict army law, and no questions asked.

General Marshall says the army's ready for the task of training the new army. World war mistakes are known.

So there'll be no excuses for reckless roughshod handling of sensitive troops.

And P. S. Dad, Army tradition has a counterpart of the wisdom of the Declaration of Independence where it says "Government derives its just powers from the consent of the governed." Army officers understand they'll be like government to hundreds of thousands of young Americans for a full year. General Marshall expects these officers to earn the consent of the governed through leadership and co-operation.

CHIEF OF STAFF GEORGE C. MARSHALL, above, has advised officers to provide understandable leadership.

REA Reports Progress In Line Building

The Rural Electrification Administration's program is progressing according to schedule, O. B. Bryan, project supervisor, announced Saturday. About ten miles of line will be completed with the installation of transformers within another week.

Line poles are in place from Fairview to Moore and on through Knott and across into Martin county. Bryan expects crews to continue work on the next main three phase wires, ten miles already being in place. In addition to the main lines, a two phase system has just been started and should go up at the rate of ten miles per day.

Bryan explained that the only delay now evident is caused by a lack of meter equipment and service entries.

Howard county's REA service should be in operation by Christmas and the system is expected to be completed in Martin county in January.

C. of C. Plans Decision Week In Big Spring

Decision week for the Big Spring chamber of commerce will be held December 24. It was announced Saturday.

Plans for the "referendum" on a 1941 program of work will be discussed at the directors' meeting Monday noon at the Crawford hotel. Each director is to take a list of names from the membership roster and personally contact members for their suggestions encouraging them to call by the chamber office during the dates fixed.

As in the original Decision Week last year when response was encouraging, suggestions will be sought from everyone regardless of affiliation with the chamber.

From the suggestions received at the chamber office from Dec. 2 to Dec. 4, the program of activities for next year will be formulated. At the Monday directors' party, J. H. Greene, chamber manager, and Ted O. Groebel, chamber president, likely will report on their recent trip to Washington where they testified at the CAB hearing on West Texas air service applications.

MOVIES MADE OF COLORADO GAMES

COLORADO CITY, Nov. 23—Colorado City is becoming amateur movie conscious through the colorful shots which Jim Cantrell makes of local events of interest.

Recently local business men bought films for Cantrell to use in making pictures of the games played by the Wolves, now champions of district 6-A, with Rotan and Snyder. These pictures, along with scenes from the 1940 Colorado City Frontier Roundup and other events are being shown at the junior high school auditorium Tuesday night for benefit of the high school athletic association.

Trust Fund Provided

SAN DIEGO, Calif., Nov. 23 (AP)—Establishment of a \$75,000 trust fund for his family was provided in the will of Frederick Opp, St. Louis, Mo., tobacco importer, who died at La Jolla Nov. 15. The will was filed today for probate. The widow, Augusta, of San Diego, and a son, Harold, and four grandchildren in San Angelo, Tex., will share in the fund.

Texas Crude Production Below Need

AUSTIN, Nov. 23 (AP)—Expecting issuance early next week of a production order covering probably December and January, Texas oil men learned today over-all state production this week was still under the U. S. bureau of mines estimate of market demand.

Texas railroad commission engineers reported that, considering a 3 per cent underproduction due to assigned but unproduced allowance, the current statewide yield was approximately 12,454 barrels daily below the federal bureau's forecast of 1,291,000 in November. The net daily allowable of 1,337,318,089 barrels reflected a 6,368-barrel daily increase over the previous week but underproduction was figured at 29,542.

The commission set a hearing on Dec. 3 on whether production rules for the Payton field in Pecos and Ward counties should be modified.

Religious Education Meeting Attracts 125 Persons In Big Spring

A successful Religious Education Institute was concluded at the First Presbyterian church Friday with more than 125 persons attending.

Dr. D. F. McConnell gave a devotional on fellowship to open the session and leaders of various fields of church work spoke to the assembly.

The leaders included W. E. Price, assembly's chairman on Sunday school superintendents; Miss Nell Morton, associate director of assembly's young people work; Miss A. Bowman, director of children's work; Dr. and Mrs. C. I. Lewis, inspirational speakers. Dr. Lewis is assistant pastor of the First Presbyterian church of Dallas.

Mrs. L. G. Majors, regional director of religious education at Austin, arranged the program which was staged for adults who hold leadership in the church and those who were interested in religious education.

The various leaders met with their groups for special discussion and instruction.

Supper was served at 6:30 o'clock and representatives attended from Clovis, N. M., Lubbock, Coahoma, Seagraves, Texarkana, Big Spring, Midland, Colorado City, Barstow, Portales, N. M., Lovington, N. M., Dallas, Richmond, Va., Pecos and Odessa.

Stock Market Week Is Bad

NEW YORK, Nov. 23 (AP)—The stock market today ended another bad week striving unsuccessfully for a rally.

Business news remained favorable and foreign war dispatches were no worse than usual, but many traders exhibited an inclination to keep accounts light over the week-end.

There were scattered spots of quiet strength. At the close small plus and minus signs were fairly even.

The Associated Press, average of 60 issues was off 1 of a point at 44.4, and on the weak showed a loss of one full point.

Dealings were slack with the turnover of 241,066 shares the smallest since Oct. 19.

V. G. Doyle Visits Maytag Factory

V. G. Doyle of Big Spring has just returned from a trip to Newton, Iowa, which he made with a group of 47 Maytag washing machine dealers and salesmen from Texas.

Doyle was one of the prize winners in a recent Maytag sales contest. While in Newton he participated in several tours through the Maytag factory, seeing the Maytag washer fabricated "from the ground up," and visited the Maytag aluminum and grey iron foundaries.

Demonstration Terracing Area Planned By Soil Supervisors

Working with W. T. Mann, soil technician, district supervisors of the Howard-Martin counties soil conservation district are planning a demonstration soil conservation program on a piece of land north-west of Coahoma.

According to Mann's survey of the program area, a system of level and closed in terraces needs to be installed to prevent wind and water erosion of the top structure. Although more than one type of soil is found in the area of 2,000 acres that covers ten farms, a terracing plan in keeping with the predominating type will be installed, Mann said. This particular soil is susceptible to both wind and water erosion as must be treated in such a manner as to prevent the need of one to be the undoing of the other, he explained.

Installation of the complete system is expected to be finished by the first of the year. Mann pointed out that immediate lessening of the effects of wind and water on the area should result. Water conservation benefits might not necessarily become visible until crops have to undergo a dry year because a maximum rainfall would provide so much moisture that none would need conservation.

"Our purpose is to get the basic principles of conservation installed in various areas over the county," Mann said in outlining the work to be done. The soil conservation service has cooperative extension agreements with farmers to work through county agents in making application for a conservation demonstration.

Mann stated that the Howard county area is not suffering from water erosion but wind erosion is severe over the major portion North of Big Spring there is a problem area that has present difficulties because of the variation of soil types.

FBI Accuses Communists Of Starting Vultee Strike

Confidential Report Names Party Leaders

WASHINGTON, Nov. 23. (AP)—Attorney General Jackson disclosed tonight an FBI report to defense officials attributed the strike in the Vultee Aircraft corporation to "communist influence."

"This confidential report," Jackson said in a statement, "describes the communist influence which caused and is prolonging the strike. It identified those leaders of the strike who are either members of the communist party or affiliated with the communists and the persons who are the contacts between the strike committee and the leaders of the communist party."

While the activities of the parties involved may not constitute a federal crime warranting prosecution, the details have been furnished to the war and navy department and to the national defense commission so that they may take such action as may be warranted in the protection of the government's interest."

Jackson's references to the Vultee strike were made incidentally in a statement in which he accused Rep. Dies (D-Tex.) of attempting to "disparage and discredit" the work of the federal bureau of investigation.

Dies, commenting on the "white paper" published by his house committee on un-American activities, and expressed the opinion FBI methods of combating sabotage espionage were ineffective. The "white paper" dealt with alleged Nazi activities in this country which Dies contended could best be thwarted by giving them publicity.

Greeks Continue Making Advances

SALONIKA, Greece, Nov. 23. (AP)—Greek troops, inspired by the fall of Koritsa, were reported today to have split the retreating Italian army in two, driving a spearhead from the Pindus mountain sector straight through the fascist lines.

Military observers declared the pursuit into Albania was so relentless that the Italians were unable to form a new front for defense against fighters of the nation they sought to invade.

The Greek legation in Sofia, Bulgaria, said it had been informed that two Italian divisions—about 24,000 men—were surrounded south of Argirocastro, in the central Pindus sector.)

Some of the boys showing how they would look if they played poker.

By RAY PEACOCK

AF Feature Service Writer Americans are pig-hearted in some ways. Tell them they can't have a thing, and they practically make a career out of having it. So it is with the ancient and slightly dishonorable native pastime of poker. The game has been reviled, scorned and legislated against, and it thrives. A general air of furtiveness is as much a part of poker as cards, chips, overflowing ash trays and the spilled glass.

The game can be played with

chips or matches alone. But in order to pursue his hobby of peering at hole cards, the Old Man saves nickels and dimes out of his lunch allowance. He is vague and evasive about the exact aims and purposes of the Friday Evening Discussion and Marching Club, and departs for its weekly session with apologetic mumbblings aimed in the general direction of the kitchen. Should the Old Man lose, he is quite cheerful. He expected to contribute—yes, even pay bakshesh—for the joy of several uninterrupted

hours with kindred spirits. Should he win, you wouldn't want to know a more jolly, generous fellow.

Of course, the Old Man vaguely resents the necessity of being secretive about his poker games. He doesn't think it is fair for the neighbors to give him that do-you-still-beat-your-wife look.

It also bothers the Old Man because some folks think it is a crime to bluff in poker but consider it one of the fine arts to finesse in bridge. For the Old Man played bridge in '32 and '33, when he didn't have any money to play poker with, and to him they add up to the same thing.

Austin Leads In Building

By the Associated Press

Austin zoomed to the front in this week's Texas building races with \$502,530 in building permits issued in seven days. Approximately \$470,000 of the amount was for additions to the city hospital.

Houston dropped to second; and Dallas, announcing an 82 per cent increase in residential building activities last month over the same month in 1939, clung to third.

Building permit totals for the week and for thus far during the year from various representative Texas cities include:

City	Week	Year
Austin	\$502,530	\$6,587,160
Houston	207,400	20,875,810
Dallas	108,858	9,297,344
Fort Worth	88,916	4,443,876
Corpus Christi	53,245	7,784,986
Lubbock	50,800	4,024,826

Sailors Swamp City Briefly

One of Big Spring's bus stops looked like a scene entitled "The Fleet's In" Friday afternoon when about fifty U.S.N. sailors stopped for their supper en route to San Diego in two chartered busses.

The boys had just finished a nine-day leave following preliminary training at San Diego. They will be put on duty at stations on their return to the west coast.

Making Dallas the assembly point in preparation for the trip, men from Mississippi, Louisiana, Arkansas and Texas gathered there Friday morning to shove off for a taste of real sailor life.

Georgia Senator Named To Post

WASHINGTON, Nov. 23. (AP)—Senator Walter F. George, veteran southern democrat, was selected today to be chairman of the senate foreign relations committee and immediately declared he would pursue a policy of working in "close harmony" with the state department.

In a talk with reporters, the grey-haired Georgia senator also indicated that he thought it would be unwise to seek congressional action at this session on "controversial matters" in the field of international relations.

"She's In Charge of Buying at Our House"

How often do you hear that statement today? Quite regularly, we'd say . . . which is decidedly different from the days of old. All of which can be attributed to the fact that in most homes today the housewife operates on a budget . . . and to keep up with her affairs in the most thorough manner, she has turned to banking. Today the successful home manager deposits her operating funds at First National—and PAYS BY CHECK! By so doing she always has a complete record of all expenditures . . . and, most gratifying is the fact that the month's statement usually shows a saving well within her original spending set-up for that period.

Practical operators are adopting this plan daily . . . Won't you join them?

Mann Enters Two Rulings

AUSTIN, Nov. 23 (AP)—The governor's authority to turn over Texas land for U. S. military use and the Lower Colorado River Authority's power to reimburse governmental subdivisions were subjects of rulings by Attorney General Gerald C. Mann today.

Mann informed Governor W. Lee O'Daniel he was empowered to sell an easement to the United States to provide arnel necessary for a naval base channel at Encinal peninsula near Corpus Christi because land underlying navigable water was not public school land.

But the governor, Mann said in a second opinion, was without statutory authority to sell the federal government the mineral interest in 51,200 acres adjacent to Fort Bliss because the interest was dedicated to and owned by the state's public free school fund.

In the third ruling, Mann held the river authority could not legally reimburse governmental subdivisions for properties purchased from private utilities and consequently taken off the tax rolls.

By resolution, the authority sought to compensate counties, school districts and municipalities but the attorney general asserted it could not spend money for purposes other than those for which it was created.

RECORD OF FIRST FIRE FIGHTING EQUIPMENT BOUGHT BY CITY OF BIG SPRING UNEARTHED

Up from the archives of the city's vaults has come the contract for purchase of the city's first motorized piece of fire fighting equipment—the first in the state for that matter.

H. W. Whitney, city secretary, is running through old files of the municipality, dug up the proposal, specifications and contract for the truck purchased for \$6,000 from the Webb Motor Fire Apparatus Co. of Vincennes, Ind.

Contract was signed Sept. 22,

1906, when the city was barely two years old, by George Lee, then mayor, and M. D. Willis, secretary. The city shelled out \$3,000 in cash and paid the balance in \$1,500 notes one and two years.

Among qualifications of the machine, an old Thomas Flyer many remember as a municipal fixture for 15 years, were: Guaranteed speed of 55 miles per hour, 1,000 feet of 2 1/2 inch hose, double ignition system, water pump, hand throttle in

steering wheel, 15-gallon gasoline capacity, direct drive on high gear with four forward and one reverse speed, 10 inch axle clearance in front and 16 inches in rear, 56-inch tread, 130 inch wheel base, 26-inch wheels, double chain drive direct to rear wheels, leather back cushions stuffed with hair, two rear standards with brass oil torches, carrying capacity of 3,000 pounds.

In addition it carried a 30-gallon chemical tank with 300 feet of hose, pickhead axes, locomotive bell (nickel plated), large electric headlights, side oil lights, tools and jack, two extinguishers, and 20-foot "rapid rope hoist extension ladder.

That chemical tank, a thing that entranced every young boy in its day, ruined enough hose by leakage to have bought a new truck, early day firemen said. The water pump delivered 600 gallons a minute at 150 pounds pressure. Now pumps on city equipment do the same amount at 350 pounds, or less on three streams. The makers guaranteed the engine to run for four hours straight without heating or losing power.

Another feature was gold leaf lettering, "finely shaded."

The old truck, which by comparison with present day machines, looked like it was on stilts, served the city through some pretty good blazes until 1925 when it was traded in at \$750. Those who remember say that the purchasers then sold it back to the city for a dollar to keep from moving it. It was hauled away to be stripped of its ornaments by unsentimental people or just plain thieves. What was left was rusting peacefully away at a spot in the city park at last reports.

The end was quite as ignoble as its last days of service when old timers swore that they hauled it to about as many fires as it elected to go of its own power. But brother, it was a whiz in its day.

City Loses In Damage Suit

Damages totaling \$180 were awarded by a 70th district court jury Saturday morning to Mrs. Lola Eva Fletcher, who had sued the City of Big Spring on the grounds that she had been injured due to a defective downtown sidewalk.

The jury held that the sidewalk did have a defect and that the city was negligent in not having the small crack sealed, that it was the proximate cause of her injury, for which she was awarded \$37.50. In addition she got \$38 for medical care and \$87.50 for mental pain and suffering.

Whitie Hudson was found guilty by a jury on a burglary charge and given a five year suspended sentence.

On plea of guilty before the court, J. H. Dickinson was given a five year suspended sentence on a charge of forgery. Mrs. Boris Ross was fined \$50 and costs and had her driving license revoked on a count of driving while intoxicated. A. B. Shores, Jr., drew two years in the state prison for forgery, and has a case pending at Lubbock. J. P. Blake, billed for forgery, got a two year suspended sentence, but must face a similar charge at Amarillo.

Divorces granted by the court included Darnell Nelson from Jack Nelson and Lizzie Jones from David Jones, negroes.

M. F. Davis won his suit to cancel a Cities Service Oil Corp. lease. Monday the fourth and final week of the term opens with a flock of civil and criminal cases to be tried. The grand jury is due back for session with District Attorney Martelle McDonald, and he has a few new cases to present.

VON PAPEN CONFERS WITH TURK MINISTER

ANKKARA, Turkey, Nov. 23 (AP)—German Ambassador Franz von Papen conferred with the Turkish foreign minister for nearly an hour tonight in an interview in which the future of Turkey may have been decided.

The nature of the conversation Adolf Hitler's ace trouble shooter had with Foreign Minister Sukru Saracoglu was not disclosed, but it was presumed he delivered terms for axis acceptance of Turkey in the projected "new European order."

PARTY GETS BUCKS

Two bucks were bagged by a party of local hunters returning Saturday night from a session 20 miles north of Van Horn. In the group were Dr. W. B. Hardy, Wolfard Hardy Jr., Dr. C. W. Deata and Wesley Deata. The bag consisted of four and nine point mule deer. Young Hardy, who interrupted his hunt to return here and accompany the football team to Sweetwater Thursday, got back on the job Friday to fell his buck. Mrs. Hardy and son, Hobo, accompanied him on the last trip.

Soldier Gets Hero's Award

FORT SHERIDAN, Ill., Nov. 23 (AP)—The highest peacetime medal for valor displayed by a soldier was presented today to Lieut. Goodman K. Larson of the coast artillery reserve, who is now attached with the 61st coast artillery (anti-aircraft) at Fort Sheridan.

The presentation was made by Brig. Gen. Clyde R. Abraham, commanding general of the fort, before a special regimental review.

Lieut. Larson, it was cited, manifested unusual bravery by swimming to the rescue of an enlisted soldier who had been carried away by strong currents of the Sabine river near Laredo, Tex., last May 8. The 61st was then taking part in maneuvers.

DUE FOR A FALL—As high as his stilts were the spirits of this Syracuse U. sophomore, Bob Bangert, at the half in a game with Colgate, for the score then favored Syracuse, 6-0. But Colgate won, 7-6, with a last-period run and kick.

Man Finds Father Dead On Street

DALLAS, Nov. 23 (AP)—Herman Mitchell, auditor and bookkeeper for District Attorney Andrew Patton, rushed from his office into the street today to investigate a crowd gathered about a prostrate man.

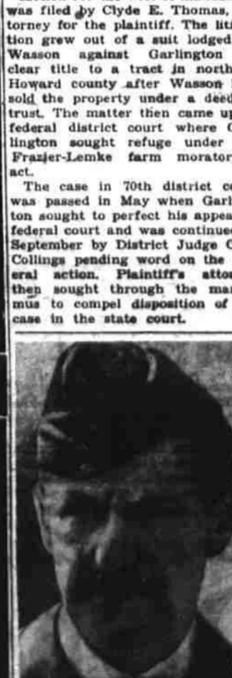

The man was his father, S. Y. Mitchell, 71, who had just arrived from Grapevine, Texas for a visit with his son.

Mandamus Is Denied Wasson

A writ of mandamus to force disposition of a title case filed by A. L. Wasson against J. S. Garlington in 70th district court here was denied Saturday by the 11th district court of civil appeals in Eastland.

Motion for the writ of mandamus was filed by Clyde E. Thomas, attorney for the plaintiff. The litigation grew out of a suit lodged by Wasson against Garlington to clear title to a tract in northern Howard county after Wasson had sold the property under a deed of trust. The matter then came up in federal district court where Garlington sought refuge under the Frazer-Lemke farm moratorium act.

The case in 70th district court was passed in May when Garlington sought to perfect his appeal in federal court and was continued in September by District Judge Cecil Collins pending word on the federal action. Plaintiff's attorney then sought through the mandamus to compel disposition of the case in the state court.

MISSION—"Special duty" soon will bring England's Air Chief Marshal Sir Hugh Dowding to U.S. It is thought trip concerns U.S. plane production for Britain.

Buick the value champion all over the country today.

It's an exclusively Buick wallop—the wallop of FIREBALL design and Compound Carburetion, available in no other car on the market!

Lots of men—and lots of cars—have looked the part and talked the part—but just weren't there when the chips were down.

The wallop that lets you travel farther on every gallon of gas—as much as 10% to 15% more miles on each gallon!

And if you think we're kidding about what these two things do, we're ready to show you with cold-turkey demonstration any time you say.

That's why you find Buick has dodged special devices and short-cuts in its great 1941 line of cars.

The wallop that swings you up the hills without ever touching the gearshift, that lets you throttle down in traffic to creep-speed, then lift away again still in high.

That's why we went right to the heart of the matter—and packed a bigger-than-ever wallop in that husky Dynafash power plant.

Methodists Outswim Baptists To Take 7-4 Decision In Constant Rain At Waco

Ponies Donate Two Safeties To Bruin 11

WACO, Nov. 23 (AP)—One lunging sprint by Bobby Brown through a hog's heaven of mud and blinding rain, plus some canny charity in the fading minutes gave Southern Methodist a weird 7-4 triumph over Baylor today.

Anchored in the muck of an indescribable field through three periods of nothing but magnificent punting by both teams, the Methodists won a ball game on the second play of the fourth period.

Three thousand soaked, chilled fans watched Preston Johnston's perfect kick skid out of bounds on the Baylor Baylor 4. Back in the end zone Jack Wilson, a grand football player who did a magic job of kicking, slammed one out to the Baylor 39.

Muddled, tired Bobby gathered it in, splashed for the sidelines, fell in behind a couple of blockers and skidded 30 yards for the touchdown. Tailback Johnny Clement plunged the point after Baylor had been penalized to the one for offside.

Deep in the final period this big man Wilson, a boy who had the incredible average of 38.5 yards on 28 kicks of a soaked ball swishing through constant rain, dropped a punt out on the Methodist 2.

But Ray Mallouf, the Methodist boy who did some kicking himself with 33.8 yards on 11 tries and also tossed in a 50 yard sideline run, calmly stepped back into the end zone and grounded the ball for an intentional safety.

Only twenty seconds remained when Southern Methodist gave away two more points. Halfback Cliff Hagerman came racing into the game with the Methodists in possession on their own 30.

The rain was pouring and the field was a lake when he took the snapback, started gradually falling back and finally retreated the entire 30 yards behind his own goal line for another Baylor safety.

Gophers Finish Perfect Season

MADISON, Wis., Nov. 23 (AP)—The Golden Gophers of Minnesota posted a strong claim to a share of the mythical national football championship today, finishing the season undefeated and untied with a 22 to 13 victory over Wisconsin before 40,000 spectators.

The giant Norsemen, who clinched the Western conference championship a week ago, brushed aside the Badgers as they had seven other teams after spotting the home aggregation 15 points.

Penn Defeats Cocky Cornell

PHILADELPHIA, Nov. 23 (AP)—A cocky Cornell football team threw two ill-starred forward passes this afternoon and with them tossed away its claim to the Ivy League championship.

At the time the passes were thrown the Ithacans were leading Penn by 13-0. But as the final whistle blew, Penn was winner by 23-20.

It was a grand triumph for Penn, beaten only by Michigan this year, and a grand finale for the Red and Blue's fine heavy duty back, Francis Xavier Reagan. Performing before a crowd of 79,935, Reagan scored all three touchdowns, held the ball for Gene Davis' field goal and extra point, and set a new Pennsylvania one year scoring record of 103 points.

DETROIT WHIPS MARQUETTE

DETROIT, Nov. 23 (AP)—University of Detroit closed its football campaign today by thumping hapless Marquette 19 to 0 before a shivering crowd of approximately 5,000. The Titans scored twice on long runs, Al Ghesquiere racing 38 yards for a second period touchdown and Paul McLaughlin sprinting 60 yards for a fourth period tally.

Future-Book For ALL-AMERICA

By DILLON GRAHAM
Sports Editor, AP Feature Service

AS THE end of the football season approaches the list of candidates for the 1940 All-America team narrows down to a few dozen players who have managed to stand out consistently during the campaign. A single poor performance has eliminated many. Here are four high-ranking ones:

BOB NELSON, Baylor center on the 1939 A.P. second All-America, has made a spirited bid for top ranking this year.

CHET GLADCHUCK of Boston College is perhaps the biggest center in the country. Foes bumping into him just stop. He's a ball-hawk too.

JIMMY NELSON, Alabama's triple-threat halfback, was at his best in the Crimson's tough games with Tennessee, Kentucky and Tulane.

HARMON GETS DAY'S BIGGEST HEADLINES

By HERB BARKEE
NEW YORK, Nov. 23 (AP)—Minnesota, Boston College and Tennessee rolled on unchecked today but the football headlines belonged to an individual this time—Tommy Harmon of Michigan.

The great All-American halfback closed his intercollegiate career in a blaze of glory as the Wolverines smashed Ohio State, 40-0, before a crowd of 74,000. It was the worst defeat the Buckeyes have taken in 35 years of football combat.

It was strictly Harmon's day for the Wolverine ace scored three touchdowns, passed for two others, and kicked four placekicks for extra points to set up a new all-time Western conference scoring record.

Harmon thus ran his three-year record for touchdowns to 33, two more than the record hung up by Red Grange, and boosted his total points for the same period to 237, another new record.

Minnesota, which handed Michigan its lone defeat, 7-6, wound up an unbeaten, untied season with a 22-12 victory over Wisconsin and with the conference championship firmly in its grasp. Wisconsin struck for two touchdowns in the first quarter but once the Minnesota attack, led by George Franck, began to function, the result was never in doubt.

Boston College, also boasting a perfect record and looking ahead to a probable invitation to the Sugar Bowl at New Orleans, crushed Auburn's Plainsmen, 33-7, in another smashing display of all-around class. Tennessee, which probably will be the Eagles' opponent at New Orleans, rolled up a 33-0 count on Kentucky to protect its undefeated, untied status.

Also standing firm were Lafayette which closed its campaign with a perfect slate by romping over Lehigh, 46-0; Hardin Simons, which trounced San Francisco, 28-18, and Mississippi State which routed Mississippi in convincing fashion, 19-0. State was tied by Auburn early in the season but otherwise was all victors.

Stanford, Texas A. and M. and Texas Tech took the day off in preparation for later tests. Penn State finally saw its unbeaten record go by the boards as Pitt ground out a 20-7 triumph.

Nearly 80,000 sat in at Franklin field, Philadelphia, and saw Penn, paced by Frank Reagan, hand Cornell its second successive setback, 23-20, and win the Ivy League title. Cornell ran up a quick 13-0 lead but could not stop Reagan when the Penn machine began to roll.

Showing surprising strength, Harvard crushed Yale, 28-0, before 47,000 in the 79th game between these ancient rivals. Dave Aller-

dice's passing carried Princeton to a 26-19 decision over Army. Joe Siegal's 55-yard run with an intercepted pass provided Columbia with its winning margin in a 20-17 thriller with Colgate. Eddie Kasl scored twice for Dartmouth as the Indians tripped Brown 20-6.

Bill De Correvont and Don Clawson provided Northwestern with too much punch for Notre Dame and the Wildcats won easily, 20-0. Iowa rolled over Illinois, 18-7, in the other Western conference feature. Detroit scored over Marquette, 19-0, and Michigan State stopped West Virginia, 17-0.

Nebraska spotted Iowa State two touchdowns and then rallied to win, 21-12, thus assuring itself of at least a tie for the Big Six crown. Oklahoma's Sooners won from Temple, 9-6. Tulsa trounced Oklahoma A. & M., 19-9, to win the Missouri Valley title.

In the Southwest, Rice chanced an ancient jinx in a 14-6 victory over Texas Christian, while Southern Methodist topped Baylor, 7-4. Vanderbilt put up a great fight in a Southeastern conference tussle with Alabama but finally went down, 25-21, on Jimmy Nelson's fourth-quarter touchdown pass. Florida spilled Georgia Tech, 16-7. Duke ran wild over North Carolina State, 42-6. Harry Dunkle's field goal gave North Carolina a 10-7 victory over Virginia.

In the Far West, Washington crushed U. C. L. A., 41-0, while Washington State won over Gonzaga, 14-7. Brigham Young and Colorado State played to a 13-13 draw in a Big Seven contest.

Buckeyes Get 40-0 Beating From Michigan

COLUMBUS, O., Nov. 23 (AP)—The glory that was "Red" Grange's shifted to the stalwart shoulders of Michigan's mighty Tom Harmon today as the Gary Tom ground Ohio's Buckeyes to a 40-0 defeat—their worst walloping in 35 years.

A crowd of 73,848 rain-drenched fans gazed through a haze as the all-America halfback scored three touchdowns, tossed passes for two others, and kicked four placekicks for extra points to wind up the most brilliant scoring career in Western conference annals.

The scoring record of 31 touchdowns held by Illinois' immortal Harold "Red" Grange for the last 15 years went into the runner-up spot as Harmon, with the shiftest running the Buckeye stadium has ever witnessed, boosted his three-year touchdown total to 33.

On top of that, the Michigan maestro has booted 23 goals after touchdowns, and a pair of field goals for a 24-game total of 237 points.

When Harmon left the game after his final touchdown—with only 28 seconds to play—the crowd gave him one of the greatest ovations ever tendered in Ohio stadium.

Auburn Breaks Boston Streak

BOSTON, Nov. 23 (AP)—Unbeaten Boston College crumbled before a powerful Auburn eleven through the first half today and then took the Southern Plainsmen apart at the seams to roll up a 33-7 total in their sixth straight victory before 35,000 spectators.

The high-flying Eagles, whose supporters were lamenting the absence of Gene Goodenough, their great right end, from the lineup for the first time in his college career, found ample cause for rejoicing in the performances of Charlie O'Rourke and Frank Maznicki.

El Paso High Takes Title

By The Associated Press
El Paso High defeated Austin (El Paso) 7-0 Saturday to become the sixth district champion of Texas schoolboy football to be determined.

Title teams previously decided were Greenville, Masonic Home (Fort Worth), Stephenville, Temple and Jeff Davis (Houston).

The champion of the Dallas district was to have been named Saturday but rain caused postponement until Tuesday of the Woodrow Wilson-Sunset game.

All district representatives in state race must be determined this week. The opening or bi-district round will be the first week in December.

Canyon Beats A. & I. 26-6

CANYON, Nov. 23 (AP)—In a stunning upset, the West Texas State Buffaloes overpowered the Texas A. & I. Javelinas, 26 to 6, on a heavy field here today.

The Buffs will meet St. Mary's at San Antonio Friday night for the Alamo conference title. St. Mary's recently dropped a 14-0 decision to A. & I.

State To Cut Pass Through Padre Island

AUSTIN, Nov. 23 (AP)—Chairman A. E. Wood of the Texas game commission announced today the long-contemplated cutting of a pass through Padre Island at Murdock landing will start within 10 days.

More than 100 feet wide, the pass will be nearly 10,000 feet long slicing the island from the Gulf of Mexico to Baffin Bay. The department dredge is being towed from Corpus Christi to Murdock landing.

The pass will help supply fresh water to Laguna Madre, considered one of the greatest natural spawning beds along the nation's coast.

Duke Beats N. C. State

DURHAM, N. C., Nov. 23 (AP)—Duke's Blue Devils overpowered N. C. State today, played alert defensive football and rolled to a 42 to 6 victory with a score in every quarter.

Mathews Leads Sooners To Win

NORMAN, Okla., Nov. 23 (AP)—Little Orv Mathews, as fast as a jack rabbit and not much bigger, led Oklahoma's Sooners to a 9 to 6 victory over the Owls of Temple University in an inter-sectional grid battle played here today.

Mathews made 8,000 fans forget the cold in the third period when he fielded a punt on the first hop and on the Sooners' 23 yard line and was off like a shot, with every "omnipole" player between him and his destination.

Rice Breaks Ancient Jinx To Beat Christians, 14-6

Previously Unknown Lad Sparks Owls

HOUSTON, Nov. 23 (AP)—The Rice Owls, famished after a 16-year drought, helped themselves to the horn of plenty today, plowing over slippery turf to register a 14-6 victory over Texas Christian.

Ten thousand fans watched Rice pluck the prize it sought in vain through good years and bad. The Christians' hex has been the most persistent in Southwest conference history, operating even when Rice won conference titles.

It took an obscure player, Dick Dwellie of Dallas, to put Rice in the headlines.

Almost lost this year with the third-string boys, Dwellie switched his hips on two great runs to set up the Owls' touchdowns.

He scored the first time he carried the ball. He gained 71 of Rice's 106 yards running. Kyle Gillespie's 81 yards were more than half the Christian total of 153.

Texas Christian got the jump with a first-quarter score. Frank Krings, big fullback, intercepted one of Weems' passes and raced 56 yards to the Rice 29. Gillespie then hit Connie Sparks, end, with a pass on the Rice 7 and plunged over from the 4 after two tries at the line. Phil Roach, another end, failed to kick the extra point.

Taking the ball on the Christian 10 after a punt Rice came back. Brumley struck for a first down on the 30 and then Dwellie burst around right end to score standing up. Brumley kicked the extra point.

The Owls tallied again in the third. Gillespie kicked to his own 42 and Rice shattered the line for two first downs to the Christian 20. Here Dwellie, on the identical play on which he had scored Rice's first touchdown, broke to the one-yard line before he was stopped. Brumley plowed over for the score, and added the extra point.

Notre Dame Bows To Northwestern

EVANSTON, Ill., Nov. 23 (AP)—Northwestern's Wildcats, with blond Bill De Correvont giving the greatest performance of his collegiate gridiron career, handed Notre Dame a decisive 20 to 0 licking before 48,000 spectators at Dyche stadium today.

Northwestern, in closing its season with a sixth victory in eight games, held the upper hand throughout.

Northwestern's first two touchdowns came the hard way. The Wildcats, after taking a punt at their 18, smashed to the Notre Dame 32 as Don Clawson ripped the Irish line. Then De Correvont passed to Clawson, who caught the ball on the Irish 2 and ran for a touchdown after shaking off would-be tacklers.

A brilliant run by De Correvont set up the second Wildcat score. Striking off right tackle and reversing, he raced 27 yards to the Notre Dame nine in the third period. The Wildcats got only five yards on three plays, but on the fourth down, De Correvont shot off left tackle to score without being touched.

Late in the same period Northwestern punted deep to Notre Dame. Bob Hargrave fumbling the kick and Leon Cook recovering for Northwestern at the Irish 24. Two plays lost three yards before Clawson knifed through left tackle and sprinted for the game's final touchdown. Dick Erdlitz, reserve back, made good on two tries for the extra point.

Week-long rains had made the field an island surrounded by a moat, which would have been the running track on drier days. A cold north wind sent officials onto the gridiron wearing gloves. Co-ed cheerleaders frolicked in ski suits.

DARTMOUTH DOWNS BROWN
PROVIDENCE, R. I., Nov. 23 (AP)—Ed Kast reeled off scoring runs of 35 and five yards and Fullback Ray Hall smashed over from the one-yard line today as Dartmouth closed a drab season on a high note by defeating Brown, 20-6, before a 15,000 crowd.

Tulsa Wins Missouri Title

TULSA, Nov. 23 (AP)—Mud, cold, rain and the Oklahoma Aggies couldn't stop the University of Tulsa today and the Golden Hurricane skidded to a 19 to 6 football victory that means the Missouri Valley conference championship.

Week-long rains had made the field an island surrounded by a moat, which would have been the running track on drier days. A cold north wind sent officials onto the gridiron wearing gloves. Co-ed cheerleaders frolicked in ski suits.

LET'S GET THIS STRAIGHT!

During the past year, a great deal has been printed and said in automobile circles about new kinds of "drives" for the 1941 model cars. As a result, many people have come to Oldsmobile with natural and pertinent questions:

"Are the 'drives' that other manufacturers offer similar to Oldsmobile's Hydra-Matic Drive?"

"If not, how does Hydra-Matic Drive differ from the others?"

In order to clear up any confusion or misunderstanding that may prevail in the public mind, Oldsmobile takes this opportunity to publish the statements of fact at the right!

ONLY ONE KIND OF DRIVE eliminates the clutch!
ONLY ONE KIND OF DRIVE eliminates gear-shifting! . .
ONLY ONE KIND OF DRIVE has a completely automatic transmission!
ONLY ONE KIND OF DRIVE gives full accelerating power without manual shifting. . .
HYDRA-MATIC DRIVE!

WHY OLDS' HYDRA-MATIC DRIVE* IS SO DIFFERENT AND IN A CLASS BY ITSELF!

Ordinary "new drives" are based on the principle of fluid coupling. Oldsmobile's exclusive Hydra-Matic Drive is a combination of fluid coupling and completely automatic transmission. It eliminates clutch and clutch pedal. It does away with the gear shifter. It provides a special fourth speed for cruising. It gives you a special pick-up gear for passing other cars and climbing steep hills. The "no clutch, no shift" Hydra-Matic Drive is optional at extra cost on all Oldsmobiles for 1941. Try it . . . there's nothing else like it in the world!

DUCK MUSIC Play This Tune To Your Prey

HOUSTON, Tex.—This might be a back of a note, but Adolph ("Jolly") Blieden swears it's sweet music to ducks.

Blieden, veteran hunter and one of the best duck-callers in this section, offers a drawing and description of some of the major calls. The notes may be played on a piano and copied on a caller.

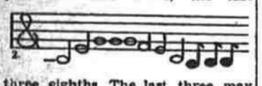

Call No. 1 is known as the greeting call. It is the duck's "Hello, hiyah pal." The first two notes are half notes, the next two whole notes, then one half and three eighth notes. The last three

may be stretched into four or five notes.

Each note must be clear, and in measured time. Do not hurry the call. This call is used when ducks are some distance away.

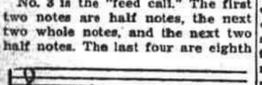

Call No. 2 is the "come back" call. The first notes are half notes, the next three whole notes, the next three half notes, the last

three eighths. The last three may be stretched into four or five notes.

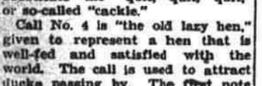

This "excited" call is given when the ducks go by and you want them to come back and take another look at the situation.

No. 3 is the "feed call." The first two notes are half notes, the next two whole notes, and the next two half notes. The last four are eighth

notes. The first six notes are taken clearly and distinctly, the last four very quickly. Instead of quacking these last four, you can substitute the "quilt, quilt, quilt," or so-called "cackle."

Call No. 4 is "the old lazy hen," given to represent a hen that is well-fed and satisfied with the world. The call is used to attract ducks passing by. The first note is a half note. The next two are

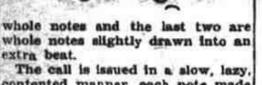

whole notes and the last two are whole notes slightly drawn into an extra beat.

The call is issued in a slow, lazy, contented manner, each note made to say "quack," in a clear-cut manner.

Blieden says that in each call, the caller must force the sound. This is most easily accomplished, he says, by making each note resemble the word "quilt."

In each call blown, regardless of the type used, Blieden advises that the hollow or mechanical sound be eliminated. Blow each call in a free, clear and easy manner.

A duck call, he says, has a reed like any other reed instrument and the tone qualities represent tonal quality or inflection in "duck" speech.

Big Spring Can Count On Tie At Worst In Final Standings

With final contests in the district 3-AA football race on schedule for next Friday, November 29, a fairly definite picture of standings at the wind-up can be obtained now, barring upsets that could easily confuse the whole lay-out.

Big Spring high school's Steers are assured at least a tie for the conference crown, and indications at the present time are that they will not have to share the top spot with any other team. This title deadlock could come as the result of an Abilene victory over the Steers here next week, thereby ranking Midland with the Herd by virtue of a rating of four wins, one loss and one tie. But, Abilene will be called on to put up a stiff battle to keep Big Spring off the top rail, something that higher rating crews have found impossible to do this year.

3-AA Standings

Team	W	L	T	Pct.
Big Spring	4	0	1	.909
Midland	4	2	1	.750
Odessa	3	2	1	.583
Abilene	2	2	1	.500
Sweetwater	2	3	0	.400
Lamesa	1	4	1	.250
San Angelo	0	4	1	.100

Games scheduled Nov. 29:
Abilene in Big Spring, San Angelo in Sweetwater.

Spring taking the honors. With one more game on the card, Sweetwater's Mustangs have a .400 rating on the books.

Lamesa has been the surprise team of the year, although not so impressive as far as wins are concerned. The Tornados have been beaten by Big Spring, Sweetwater, Abilene, and Odessa, won over San Angelo's Bobcats, and held Midland to a deadlock. Rated on the record as a .250 team, the Lamesans have given their opponents a run for their money.

San Angelo, the team with a surprising lack of strength, has not been able to get properly started during the entire conference race, having been wiped out by every team met so far this year with the exception of a draw with Abilene last week. Next Friday the Cats play host to another team that indicated great promise at season's opening, Sweetwater.

Provided they can vanquish Abilene next Friday, and such a thing is very definitely on the books, the Steers will go into an inter-district fight with El Paso high school, Saturday's winner over Austin high. As yet a possible meeting place for the two clubs has not been decided.

Harvard Gives Yale Decisive Licking

NEW HAVEN, Conn., Nov. 23 (AP)—A merciless Harvard eleven put the finishing touches on one of the most disastrous football seasons in Yale history by crushing its old rival, 28 to 0, before a crowd of 47,000 in Yale Bowl today.

In absorbing their seventh beating in eight starts this autumn, the Elis threatened only in the opening period.

The victory brought a tie with Princeton for the "Big Three" title.

Farmers' Income Shows Increase

WASHINGTON, Nov. 23 (AP)—Farmers received a cash income of \$1,125,000 from crop marketings and government payments in October, the agriculture department reported today. This amount compared with \$908,000,000 in September and \$1,042,000,000 in October, 1939.

October income from marketings was \$1,049,000,000 and from government payments, \$76,000,000.

Looking 'em Over

With Jack Douglas

Pat Murphy, coach of the Big Spring Steers, is certainly an optimistic soul these days. Like most Irishmen, he is inclined to look on the gloomy side of the picture, but in regard to Big Spring's title hopes he is perking up considerably.

He headed an expedition out to El Paso to get a first hand idea of what the winner of that particular district has to offer in the way of competition in Big Spring's probable fight for bi-district honors. El Paso high school, by virtue of its 7 to 0 defeat of El Paso's Austin high, will be the Murphysmen's foe—provided Abilene is kept in the losers' column.

Murphy's boys have shown a better style of play than was evident when they lost to Austin, 13 to 7, earlier this season. Of course, Austin might have developed into a stronger team too, but it is our opinion that Big Spring has an equal chance with the El Paso winners now, although it will be a toss-up.

Big Spring is still ragged in spots and will probably be so if they meet inter-conference bout, but for the first time in many moons the Herd is in the saddle and it is going to take an uncommon amount of shoving and bucking to displace them—Amarillo is an entirely different proposition.

To get back to the coming Abilene fracas—

Regardless of the score at that time, Big Spring is lined up to get the nod in the conference race, having defeated all the top-notchers in the loop with scores that, although not carrying heavy margins, were, nevertheless, won by straight football with a few good breaks thrown in to keep the Steers in a rosy mood.

Deer hunters are slowly trekking back to the home grounds. Some have reported good luck, some fair, and some would just as soon not discuss it.

Duck returns have not been quite so heavy, partly due to the fact that most of the hunters of wealth are now blazing away in the wilds west and south of Big Spring.

Germany Claim Birmingham Hit

BERLIN, Nov. 23 (AP)—Flaming "lakes of fire" were started in the very heart of Britain's major industrial city of Birmingham, the official German DNE news agency reported tonight, in an overnight 300-plane Nazi assault—the second against that vital center this week.

It declared that important factories were hit and entire blocks of nearby workers' dwellings set aflame. This DNE report apparently was the first semi-official admission that workers' quarters had been fired wholesale by German bombs.

The major destruction, it added, was centered around Birmingham's larger factories, with munitions plants especially hard hit.

Colorado City, Brownfield To Meet Friday

COLORADO CITY, Nov. 23 (SpI)—Colorado City's Wolves, undefeated champions of district 6-A, will carry their gridiron war into a bi-district tilt with Brownfield, winner of the 5-A crown, at Brownfield Friday afternoon at 2:30.

The Wolves triumphed over Snyder, 40 to 2, in their final conference engagement at Colorado City Thursday afternoon. The Brownfield Cubs downed Oton, 25 to 8, on the same date to make good their title claim.

In conference games this season the Wolves have stacked up 188 points as compared with 15 for their opponents. They hold decisions over Lorraine, 27 to 0; Roby, 42 to 0; Merkel, 13 to 0; Roscoe, 53 to 0; Rotan, 13 to 12; Snyder, 40 to 2.

Johnny Grubbs, Roy Allen, Royce Smith, and Jack McCorkle, starters in the backfield, have made up a combination that has shattered opposition defenses during most of the season. Grubbs' passing and Allen's running have contributed heavily to the Wolves' victories.

Usual starters in the forward wall are Harry Webber and Clifton Caffey at tackle posts, James Paul Cooper and Henry Feaster at guard berths, Billy Wade and Horace Woods alternating with Walter Wilson at wing positions, and Sam Coker holding the works at the pivot slot.

Steers Prepare To Accept Title

Coach Pat Murphy's Big Spring Steers are determined to not let the title role in district 3-AA slip out of their fingers now that they have moved into a position that virtually assures them the top spot.

Some of the gridsters feel they should not be lettered if they let Abilene's Eagles whip them Friday, November 29. With a minimum of injuries in their ranks as a result of their Turkey Day engagement with Sweetwater, the Steers will inaugurate workouts Monday in preparation for the final conference round.

In addition to field training, Big Spring will probably make a survey of its faults as shown by a film of its season with the Mustangs of Sweetwater during Monday afternoon's drill.

El Paso high school's victory over Austin high of El Paso Saturday marks it as the team to be met by Big Spring for a bi-district contest, the winner to challenge Amarillo's Sandies in the quarter finals.

Judging from the season's records, Big Spring is the underdog in a tentative conflict with El Paso. In the forefront of the fall Big Spring was nosed out by Austin, 13 to 6, while Saturday Austin was on the short end of a 7 to 0 tally. On paper this makes El Paso hold a 14-point advantage over Big Spring, although there is evidence to show that the Herd has improved 16 points worth since then.

In the event that Big Spring sinks Abilene and slips by El Paso,

Pope Pius Will Broadcast Talk

ROME, Nov. 23 (AP)—Pope Pius XII will broadcast tomorrow an address in which prelates said he is expected again to appeal for peace.

The pope will speak immediately after celebrating mass in St. Peter's basilica. He has proclaimed tomorrow a day of special prayers for peace.

The pontiff's remarks in Italian will be broadcast by the Vatican radio station at about 10:30 a. m. (2:30 a. m. C. S. T.)

SUGGESTS TRADE

WASHINGTON, Nov. 23 (AP)—Representative Fish (R-NY) suggested tonight in a radio address that Great Britain might meet part of her need for additional funds and naval forces by selling her western hemisphere islands to the United States.

Mud Fails To Stop Passes By Cowboys

ABILENE, Nov. 23 (AP)—Hardin-Simmons' Cowboys made passes count through chill weather on a field deep in mud today to whip the tough San Francisco Dons 28-18 before a homecoming crowd of 3,000.

The Cowboys, hanging up their 12th straight win, and eighth of this season, gained two touchdowns by air, and set up two more with passes.

Coach Frank Kimbrough's club jumped into an early lead. The Cowboys received the kickoff on their own 47 yard on a straight power, mixed with one 13 yard pass, L. B. Russell to B. A. Parker, advanced to the Dons' two. Fullback Moon Mullins crashed right guard to score and Murray Evans kicked the extra point.

Minutes later Evans of H-S dropped back to kick a field goal from the 20.

Russell's interception of a San Francisco heave in midfield led to the next Cowboy touchdown. Goodnight passed to Russell on the 19 yard line, and the Hardin-Simmons quarterback danced over the goal.

In the second quarter, Jolley, stone and Mosconi pushed to the nine and Mosconi hit the line for a touchdown. Padoff's fumble spoiled the conversion attempt.

Goodnight's heave to Walsh in the end zone scored again for Hardin-Simmons.

Opening the third period, Parker tossed a long pass to Russell for 43 yards, and Parker ran to the eight. Mullins tore through standing for the touchdown, and Moore's kick was blocked.

San Francisco scored on the next play, Cliff Flisk throwing a strike to Mosconi, who took the ball on the Hardin-Simmons 43 and didn't stop. Flisk failed to convert. Then Cliff Flisk's pass to Ramos was ruled complete on the 28. Chadwick intercepted for Hardin-Simmons on his three, but fumbled and Mosconi recovered. Flisk dived over from the two after an offside penalty against the Cowboys. Harold Prescott blocked Mosconi's kick.

H-SU Band Cuts Parade Short To Get Out Of Rain

DALLAS, Nov. 23 (AP)—Like the king's horses and the king's men, the Hardin-Simmons university Cowboy band marched up the hill and marched back again—to set a record for the shortest parade in Dallas history.

The band and its outriders, co-stars with the university football team from coast to coast, came here to feature the giant golden anniversary parade of the Texas Baptist Training Union. Shortly before the parade was scheduled to march, however, rain began pouring.

Movie cameramen were not to be denied. They set up their cameras. While parade waiters craned from far down the street, the cowboys and their six girl outriders on their six white steeds marched a block, then turned around and marched back again to shelter.

AN ANALYSIS OF THE WAR DEVELOPMENTS

By KIRKE L. SIMPSON

Events in southeastern Europe where the fall of Koritzia luridly dramatized the failure of Italy's attack on Greece serve to obscure a hardly less favorable circumstance for England on the sea front of the far flung battle of Britain.

Appearance of a powerful German surface raider, presumably a big-gunned, fast naui pocket battleship, in a vital mid-Atlantic hub of Britain's shuttling sea traffic sent shivers of apprehension rippling through the British empire two weeks and more ago. Berlin claimed "complete destruction" of a big convoy flotilla although heavily guarded by British war craft.

That happened November 5, although Berlin did not report until three days later—a significant interval. Many days later, that naui raider seems to have disappeared as suddenly as she came. Instead of "complete destruction" of a score of cargo craft as Berlin claimed, the British said that only four out of 38 ships were lost.

The hero ship of that action was the British Jervis Bay, which engaged the naui raider until most of the cargo carriers had scurried to safety.

The important fact, however, is not the damage that surprise naui raider did or failed to do but that there has been no similar raid since. With every opportunity for bases in Norway from which to

character, she exerted more good influence in her two score years here than most of us ever could.

A decision on applications for north-south air line service in west Texas may be expected by March. At least that's the date the CAB examiner said he might make his report to the board.

Our erstwhile colleague, PR, came up with this bit of drolery at the Sweetwater-Big Spring game: "We're in a rut. Can't do nothing but gain."

Police are holding a top coat, two blankets, a pair of women's shoes, and several quarts of oil at the station. The material was confiscated from a trio of Mexicans charged with theft. Owners may have same by giving a description to police.

It was a brief but impressive ceremony that set six volunteers off Tuesday to fill the county's first selective service quota. As the band played the national anthem, one elderly man brushed mist from his eyes. A pretty good commentary on how folks felt about it.

The Red Cross drive is bogging down, according to Shine Phillips, chapter chairman. Considerable work has been done, but not enough. For instance, we know one couple who are going to join, but are trying their best to wait just to see if they will be solicited. And in this same vein, another worthy appeal now up is that for purchase of Christmas seals to finance the fight on tuberculosis.

If you have wondered, as we often have, just what went with the Big Spring high school alma mater tune, here are the words to "Dear Old Big Spring High":
 Dear old Big Spring High,
 Keep the black and gold
 Sacred unto thee
 And from all foes free.
 May our spirit fine
 And our loyalty
 Keep us all as one
 Through years to come—
 Dear old Big Spring High.

Santa's Pack Will Be Large

NEW YORK, Nov. 23 (AP)—Let the children rejoice this year, for Santa Claus will haft the biggest Christmas pack that America has seen in a decade.

And let the grownups be glad—if they can.

Guns, planes, tanks and ships are building a pace. Men are going back onto steady payrolls.

There are \$12,500,000,000 of war and defense orders on the nation's industrial books, and the next session of congress will provide more.

An official of the national defense advisory council at Washington this week said that within the next 18 months the income of the American people will cross the \$100,000,000,000 mark, and that 5,800,000 men will have jobs who have none now.

That will soon leave few who are capable of working still without jobs and it should make Christmas, 1941, an even bigger one than this.

It will give people more to spend by a good many dollars than they had in the year of the golden legend, 1929.

Berlin Paper Says Dog Meat Not On Everyday's Menu

BERLIN, Nov. 23 (AP)—The Berlin Morning Post, which recently carried a story saying the flesh of badgers, dogs, foxes and other things were to be inspected before eating, declared apologetically today there is not enough dog flesh in all Germany to give the population a single breakfast.

It referred to reaction in American newspapers as intimating Germany was down to her last pound of flesh.

"Taint so," said the paper. While it is true weekly shares of meat "are not overwhelmingly large," the paper said, they were certain to continue coming.

The paper reported millions of little pigs are being fattened into big pigs to make every German certain of fat cutlets.

Italian Army Digs In For New Stand

ROME, Nov. 23 (AP)—The Italian army in Albania was digging in today on a new battle line after withdrawal from Koritzia and was reported to have altered its tactical plan to place more dependence on foot infantry rather than on mechanized forces.

Apparently the Italians found the mountainous terrain and muddy road poor ground for motorized warfare.

Foreign military observers said the Italians undoubtedly were rushing troop reinforcements to their new positions by every means, including airplanes, since General Ubaldo Soddu was reported averse to letting operations lag.

Almazan Says No Rebellion Wanted

BALTIMORE, Nov. 23 (AP)—General Juan Andreu Almazan, recent candidate for the Mexican presidency and now en route to Mexico City "believes it is his duty to avoid any struggle between the Mexican people, his brother, Dr. Leonidas Almazan, said tonight.

Dr. Almazan said the general and his family, who have been in the United States several months, left by train for the Mexican capital last night.

The Mexican chamber of deputies on Sept. 12 proclaimed Gen. Manuel Avila Camacho president-elect on the basis of an electoral commission report saying he had defeated Almazan in the disputed July 7 election. Camacho, supported by President Lázaro Cárdenas' administration, is to take office Dec. 1.

Brown County Refinery Will Cease Operations

BROWNWOOD, Nov. 23 (AP)—M. E. Mockley of Brownwood announced today that the Mockley petroleum corporation's butane gasoline extraction plant at Fry, in the northwestern part of Brown county, will suspend operations Dec. 1.

Part of the equipment, he said, will be moved to Eola, La., and about 10 families will move from Fry to Eola.

Nearly 50 miles of the gathering system in the Fry area will be taken up, Mockley said.

The plant was built in 1928 for Amerada petroleum company. Mockley took over its operation four years ago.

Louisiana Sets Oil Allowable

NEW ORLEANS, Nov. 23 (AP)—Daily oil production for the state of Louisiana effective December 1 was fixed today by the state conservation commission at 287,246 barrels, an increase of 7,275 barrels daily over the November allowable.

The order fixed the south Louisiana quota at 221,497 barrels and north Louisiana fields at 65,749 barrels.

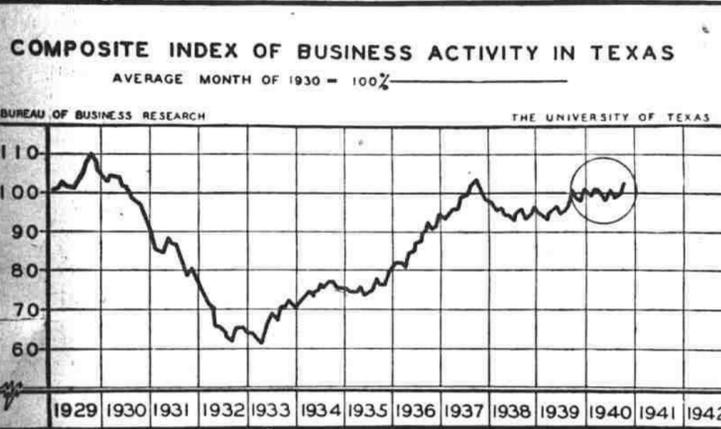

H. R. Griffin, Lubbock, is visiting here with his parents, Mr. and Mrs. O. P. Griffin.

Dies Prepares Second Paper

ORANGE, Nov. 23 (AP)—A second "white paper" dealing "exclusively with Italian activities and propaganda in the United States" is being prepared by the house committee investigating un-American activities, Chairman Dies (D-Tex) said tonight.

The papers will contain letters to consular Italian officers and to Americans of Italian descent in this country showing that consuls have been active in building up pro-fascist sympathies and followers in this country and in raising funds for Italy," he said.

Dies, whose committee Thursday released a "white paper" on alleged German activities, declared in an interview the next statement would show that "a vast amount of financial aid has been received by Italy from Italians and Americans of Italian descent here in the past four years."

TEXAS BUSINESS ON UPGRADE—While national defense booms national industry and commerce, what is happening to Texas? University of Texas business experts point out that Texas habitually is slow to feel the business stimuli which originate in the North and east, they say the August and September business upswing in Texas is "natural" and that when the wave of defense activity does hit Texas it will build on top of an already high business level. Above is the story—told in a single line that, after plummeting from 1929's low level, has gradually been making a comeback.

Farmers Told To Plant New Crops

TULSA, Okla., Nov. 23 (AP)—Oklahoma farmers were told today that when cotton, wheat and corn won't bring the cost of production, there's money to be made in mustard, sage, sunflowers, licorice and coriander.

These five crops, said Dr. Paul Kolacov, research director for Joseph E. Seagram and Sons, Inc., of Louisville, Ky., are so well adapted to Oklahoma soil they sometimes grow wild in abandoned areas.

Yet, while they are capable of yielding a far greater cash income than cotton, wheat and corn, they have been so neglected in this country that big supplies must be imported each year.

Speaking before the Oklahoma farm chemurgic council, Kolacov said, "we should encourage farmers to act as individuals and raise new crops that will bring good profits."

CHARGED WITH DOGBING CLOVIS, N. M., Nov. 23 (AP)—W. L. Lane, 21-year old Terrell, Texas, youth, was charged today before U. S. Commissioner D. W. Jones with evading the national selective service registration act.

Army Plans Real Target Practice

KELLY FIELD, Nov. 23 (AP)—Large scale conversion of obsolete army training planes into radio-controlled flying targets for anti-aircraft gunners was disclosed today at this busy finishing school for air craft pilots.

Forty-five old but serviceable biplanes already have been equipped with the control apparatus and tricycle landing gears at nearby Duncan Field, air corps depot. Twenty-one others awaited their turn in the engineering shops.

Most of the crafts already transformed have been sent to the Panama Canal zone to perfect the canal's protection against bombers, officials told newsmen on a defense survey tour. Others were believed destined for Hawaii, Puerto Rico and new coast artillery anti-aircraft firing centers.

HAT AND COIFFURE are perfectly blended here. Because the hat's pastel felt flowers dip over the forehead, it was necessary to arrange the hair in some style other than this season's regulation pompadour. The Coiffeur Guild and Harryson, hat designer, worked together to get this harmonious result.

Blue And Silver Colors Used At Sub Deb Dance

Blue and silver streamers decorated the room and formed a false ceiling for the Crawford hotel ballroom Friday night when the Sub Deb club entertained with a dinner and dance.

Large letters, S and D, were on the wall and other decorations were in silver and blue colors.

Dinner was at 7:30 o'clock for club members and pledges and members attending were Margaret Jackson, Caroline Smith, Ann Belle Edwards, Ruth Ann Dempsey and Vito Rowe. Pledges were Abbie Drus Hurley, Mary Ann Dudley, Robbie Piner, Cornelia Frazier, Phyllis Wood.

Club songs were sung by the group to close the dinner.

An open dance was held at 8:30 o'clock and music was furnished from a radio and victrola.

Among the chaperones were Mrs. M. M. Edwards, Mrs. C. E. Shive, Mrs. Merle Dempsey, Mrs. L. B. Dudley, Mrs. Carl Strom, Mr. and Mrs. Loy Smith and others.

Many out-of-town guests and college students attended the dance with former members of the sub deb club.

Tyrone Power Starred In Revival Of Famed Adventure Melodrama

THE NOTORIOUS 'Z'—New screen version of the adventure favorite, "The Mark Of Zorro," comes to the Lyric theatre today and Monday with Tyrone Power in the leading role—the one made famous by the late Douglas Fairbanks. It is a tale of old California, and a bandit whose trail of activity was marked by his sword mark "Z." Linda Darnell has the leading feminine role, and Basil Rathbone, shown here in a duel with Power, is in the cast.

Linda Darnell Also In Cast Of 'Mark Of Zorro'

One of the newer—and hailed as one of the best—of the season's adventure films is an old favorite, "The Mark Of Zorro," which comes to the Lyric screen today and Monday. Dashing young Tyrone Power is starred, in the role that brought Douglas Fairbanks undying fame, and the pretty Texas miss, Linda Darnell, has the leading feminine role.

Real thrills are promised in the fanciful story of the colorful California bandit who slashed a sword-mark "Z" on his victims. The Zorro story has been produced at other times since Fairbanks starred, but 20th Century-Fox has capitalized on the popularity of Power to bring a new personality to the part.

It's getting to be a habit, the teaming of lovely Linda and Tyrone, for they have appeared in at least three other pictures together.

The story is the famous and exciting tale of the night-riding masked avenger who flourished in the most exciting days of Old California, leaving behind the jagged sword mark that struck terror to every heart but one, that of the beautiful and gentle senorita who gave him her love.

Hoasting the most spectacular action and sword play the screen has seen in many a moon, Power's role is crammed with hard-riding, furious fighting, ardent romance and climaxed by an unforgettable realistic duel with Basil Rathbone, who, with Linda Darnell, heads the featured cast.

Rathbone has a ready-made role as a deep-dyed villain. Gale Sondergaard scores as the vain, flirtatious wife of the wicked alcalde, and others who shine in the superb cast include Eugene Pallette as Fray Felipe, J. Edward Bromberg as the alcalde, Montague Love, Janet Beecher, Robert Lowery and Chris-Pin Martin.

The picture was brilliantly directed by Ruben Mamoulian from a screen play by John Taintor Foote, with an adaptation by Garrett Fort and Bess Meredith, based on the story "The Curse of Capistrano," by Johnston McCulley.

HOORAY FOR COLLEGE—The college football-campus romance stuff is explored again in "The Quarterback," in which Wayne Morris has the leading role. Two roles, in fact, since he carries a dual part. With Max in the picture, which plays today and Monday at the Lyric, are brunette Lillian Cornell, and blonde Virginia Dale.

Wayne Morris Featured In Football Film

Richard Dix And Kent Taylor In 'Men Against The Sky'

Due recognition of the fading football season is taken at the Lyric theatre today and Monday, as that showhouse offers a grid-and-campus thriller called "The Quarterback." Wayne Morris is featured—playing a dual role, and Virginia Dale has the part of the charming co-ed. Lillian Cornell, a brunette beauty, is also featured in the cast in the part of a night club entertainer whom the boys fall for in droves.

Wayne plays his own twin brother in this amusing story. As Jimmy Jones he is studious and conscientious, passing all his studies at the head of his class. As Bill Jones he would rather play football than eat, studies are just a necessary evil. A combination of the two makes the ideal student. That's exactly what they do. Jimmy goes to class to get the high marks so that Bill can be the star quarterback of the school.

Everything goes smoothly until they fall in love, unfortunately with the same girl. How these two entirely different personalities make love is confusing to her and has the audience roaring. Finding out that she really loves Jimmy, Bill decides to walk out on the day of the last big game. Jimmy takes to a night club and drink. He lands in a hospital. As neither one shows up for the game the coach finds Jimmy there and puts him in the game as quarterback, a job he had never studied.

There's some real football in the picture. The opposing teams were the Trojans of the University of So. California and the Bruins of the University of California at Los Angeles, who tied last year for the championship. They go to it hot and heavy in a two-fisted battle that will pull you out of your seat with excitement. How it ends is something you'll have to see for yourself.

In addition to Wayne Morris, Virginia Dale and Lillian Cornell, the cast includes William Frawley, Edgar Kennedy, Alan Mowbray, Jerome Cowan, Rod Cameron, Walter Catlett and Frank Burke. It was directed by H. Bruce Humphreys from an original screen play by Robert Pirosh.

ALL FOR AVIATION—A drama set against the background of civilian aircraft manufacture is "Men Against The Sky," offered today and Monday at the Queen. Kent Taylor, Wendy Barrie and Richard Dix are leading members of the cast.

Air Drama Is Scheduled At The Queen

Has Dual Role In Picture At The Lyric, 'The Quarterback'

Disclosing the inside workings of modern aircraft plant and the feverish activities and heart-throbs that accompany the making of a new, high-speed pursuit ship, "Men Against The Sky," which is featured at the Queen theatre today and Monday, is said to bring a new realism in aviation dramas. Richard Dix, Kent Taylor, Edmund Lowe and Wendy Barrie have the principal roles.

Unlike most aviation films, which deal with wartime combat or com-

mercial flying, this timely offering finds drama and romance in the efforts of three men and a girl to build the world's fastest pursuit ship. From blueprint to test flights, the streamlined craft is seen in progress. The vivid experiences of the quartette during this period provide the action.

Richard Dix plays an air hero fallen into disgrace. Wendy Barrie as his sister, portrays a talented draftsman. Determined to straighten out her brother, Wendy gets Dix a job as a garage mechanic, while she storms the gates of an aircraft factory. She lands a position with Kent Taylor, chief engineer, and right hand to Edmund Lowe, head of the factory.

Lowe, a high-pressure promoter, has entered a competition to design a fast pursuit plane for a foreign government. After much difficulty he manages to get financed, but his chief engineer has trouble perfecting the wing design. Dix, valiantly sticking to the straight and narrow, solves the problem at home, but permits his sister to submit the scheme as her own. During windtunnel tests with a miniature model, it works miraculously. From this point on the factory is put on a 24-hour basis, with Lowe relentlessly driving his men to complete the ship. During this hectic period Miss Barrie and Taylor, chief engineer, fall in love, but their romance comes to an abrupt halt.

During the first flight, the pilot condemns the wings as unsafe, and Dix comes out of his retirement long enough to steal the plane. To prove its worthiness, he puts the ship through "a severe test, and accidentally crashes. He and his sister are banished from the factory.

How Lowe manages to promote money for another model and how Dix again comes to the company's rescue by revealing the weakness of the former plane, lead to a second thrilling test flight, at which time it proves to be a sensational success. But the craft's retractable landing gear jams and Dix, re-deciding his ill-fated past, saves the pilot and plane by going up in another ship, transfers to the disabled ship and repairs the damage at the sacrifice of his life.

YULETIDE PROGRAM SET AT COLORADO FOR DECEMBER 3

COLORADO CITY, Nov. 23 — Preparing for the opening of the pre-Christmas season in Colorado City, downtown Yule lights are to be strung by Dec. 2, according to plans made by the chamber of commerce.

The lights and other decorations will be in place in time for the Santa Claus parade which will officially open the season on the afternoon of Tuesday, Dec. 3.

New Draft Call Expected Soon

A call for men is anticipated by the Big Spring selective service board sometime between December 1-10, Bruce Frazier, member of the board, announced Saturday. The number recruited will be smaller than in November, Capt. L. N. Fellbaum, selective service inspector from Austin, predicted while on a tour of units this week.

Six men were required from Big Spring on the first selection, but in December Texas will probably be given a quota one-third the first call. According to that estimate, Big Spring will select two men for one year's actual training in camp when the second recruitment order is sent. At the last call Big Spring had sixteen volunteers for army training.

Dawson Cotton Ginnings Gain

LAMESA, Nov. 23 (SpI) — According to figures released by R. S. Stanfield, special agent of the department of commerce, Dawson county ginned 8,888 bales of cotton between October 18 and November 1, bringing the season's total to 23,849 bales.

This shows an increase of 840 bales over the 23,009 ginned at the same date last year.

The freeze last week did considerable damage to the top crop in Dawson county, reducing the total crop by several thousand bales.

The estimated production for Dawson county has been reduced to 25,000 bales by most observers, with some guessing as high as 40,000.

Dawson county ranks fourth among 19 cotton producing counties on the South Plains, being led by Hockley, Lubbock and Lamb counties.

Klondike Host To Lamesa Visitors

LAMESA, Nov. 23 (SpI)—One hundred thirty-seven business men and farmers gathered at Klondike Tuesday night for the second of a series of monthly meetings being held in Dawson county rural communities.

Turkey and the trimmings was the menu, prepared by women of the Klondike W.M.U.

The Rev. Mr. Phillips of Klondike was master of ceremonies. Supt. Crane of the Klondike school delivered the welcoming address, to which Sam Richardson, president of the Lamesa chamber of commerce, responded.

Editorial

Not so many years ago tuberculosis ranked at the top in cause of death in the United States.

But the medical profession carried on a tenacious fight, thanks to some of its finer spirits, and eventually the gate was opened to hope.

Fortunately, the idea of selling a simple seal around Christmas was born in an ingenious mind.

In the space of 30 years the tuberculosis death rate has been cut by two-thirds, a miracle of modern medicine.

But the nation should not be lulled into a sense of security, for only last year more than

A Record Of Service

half a million people in the United States suffered from tuberculosis. This amounted to about one out of 260 people.

Proceeds from sale of the seals furnishes a means for financing a program best calculated to not only hold tuberculosis in check, but further reduce its sphere of effect.

Because those who volunteer their services in the work are good enough to seek out all active cases and arrange for treatment, because they try to build up resistance of those exposed to tuberculosis, and because they constantly strive to educate the public in ways of healthful living, every penny put into seals accomplishes a multiple good.

In the words of Mrs. Cecil L. Wasson, county chairman, it behooves every person able to buy these Christmas seals.

WASHINGTON — The Bering Sea sealing problem is in again.

This 70-year itch which has kept the state department, the Bureau of Fisheries and the U.S. coast guards scratching heads since post-Civil war days has broken out again.

Russia and Great Britain are also parties to the treaty, but Japanese abrogation of it probably will have little effect on them.

In the official notification, the Japanese said the seal herd that bases at the Pribilof Islands, just inside the fringe of the Aleutians, has got so large that it is a menace to Japanese fisheries.

Government fishery experts brand this as bunk, pointing out that migrators of the Pribilof seals do not carry them into Japanese waters.

That isn't official reasoning. As a matter of fact, all government departments affected are cautiously mum on this latest international development in the Pacific.

Unofficially, however, there are off-the-record hints that the Japanese action was just another of those reciprocal hooks to the beltline that are bound to come when nations get to trading punches.

The background of the story briefly is this: From the time when the first wandering fisherman discovered that seal skins and oil brought

big profits, it was open season on these barking dogs of the briny deep. Seals are easily caught and killed. Plowing into the herd at sea, a fleet of small boats can slaughter them by the hundreds.

On land, they can be herded like cattle away from the water's edge and killed with clubs. Some idea of how simple it is may be understood from the fact that the Pribilof herd, estimated to contain 2,500,000 seals in 1880's, numbered 125,000 in 1911.

The story of the coast guard cutter service's heroic efforts to save the herd against the depredations of renegade American, Canadian and Japanese sealers would fill a volume.

On the more than one occasion, the coast guard's zeal in seizing foreign boats precipitated international incidents, but it wasn't until 1911 that all the nations involved got together and worked out a plan.

The United States was to take over all killing of the Pribilof herd and give Canada and Japan each 15 per cent of the skins taken annually.

Japan was to supervise the much smaller Robben Island herd and give Canada, the U. S. and Russia each 10 per cent of the kill.

For five years, the seals were not to be touched and after that, the only seals to be taken were the three-year-old males.

The plan worked beautifully. The Pribilof herd is now over two million. This year the 450 natives there, working under Bureau of Fisheries experts, killed about 65,000 seals.

As far as sealing went, everybody seemed happy—even the seals—until Japan called the whole thing off.

Man About Manhattan

NEW YORK — If you are interested in watching the transformation of a Broadway playwright into a man of national affairs, keep your eyes on Robert Emmett Sherwood.

As a charter member and a co-worker with William Allen White on the Committee to Defend America by Aiding the Allies he has been labeled by some as an interventionist.

But as long ago as 1935, when he wrote "Idiot's Delight," Mr. Sherwood said "Let me express here the conviction that those who abrogate and say 'war is inevitable' are false prophets.

The Committee to Defend America by Aiding the Allies, particularly since both presidential candidates urged the utmost in aid during the recent campaign, enjoys greater prestige now than at any previous moment since its beginning.

More and more Sherwood himself has been ascending the speaker's platform. Canadian and American audiences are familiar with his views,

which express the opinion that freedom is a right, not a privilege, and that we ourselves will be safe from the tides of totalitarianism so long as Britain, serving as a sea-wall, continues to stand.

This play is about the Finnish war. The idea came to him during a Christmas Eve broadcast in 1939. He wrote it swiftly, within a few weeks, and it came to Broadway. It now is in Canada.

The opinion already has been expressed that on certain issues the William Allen White Committee may be used as a sounding board to test public opinion.

I personally do not believe Mr. Sherwood has any idea ever of exposing himself to the ballot box. But I do believe without question the days ahead will find him moving up and down the land crying his convictions.

If Britain holds fast, his place in American life will be more than just that of an eminent playwright whose dramas have translated the trends of the times.

HOLLYWOOD—"Lady With Red Hair." Screenplay by Charles Kenyon and Milton Krims. Directed by Kurt Bernhardt.

Three months later, she hunts him down and intrigues him with the challenge to make something of her. There are good scenes of his attempt to prove that he "can make a telegraph pole act."

Even so, returning to Chicago and conquering a hostile audience, she cannot regain the boy. Disappointment despite her subsequent triumphs sends her back to marriage and Belasco, furious because she has not told him her plans, breaks with her.

"Gallant Sons." Screenplay by William R. Lipman and Marion Parsonnet. Directed by George B. Seitz.

Better than average program movie about a high school gang that solves a murder mystery—with laughs applied for quick grease when the hokum threatens to creek too loudly.

The wizard (Hains) passes off her plea with high sarcasm and a promptly forgotten promise.

The film, therefore, is best as a re-creation of an exciting period in the theatre, of exciting characters.

The story has Mrs. Carter (Hopkins) divorced in Chicago (1889) when to be divorced amounted to social disgrace.

Who Killed Aunt Maggie?

By Medora Field

Chapter Three

EVE OPENS FIRE

"Such a day, such a day," Aunt Maggie sighed, sinking with self-conscious exhaustion onto one of the library sofas.

"You should know," she answered accusingly. "Didn't you telephone Andrew to take Bessie and go and meet the eleven-o'clock bus at Roswell to get a package which was to be sent out from town to you?"

"When Aunt Maggie finally ran down, I said again, 'But I telephoned no such message.'"

"Still, that's not like Andrew," said his husband. "Better look into it, Sally."

"I should say I will," I declared, starting toward the kitchen without more ado.

"For a moment I thought Alice was carrying a big white muff, then I saw it was an enormous Angora cat she held in her arms."

"Of course, I don't mind," I said, just as I had to Eve and before that to Aunt Maggie, but secretly hoping the rule of three would work a charm and that Plutarch was our last uninvited guest for the weekend.

"You should be wearing hoop skirts, Sally," said Bob, as his eyes looked deep into mine, then swept the wide hall with its graceful stairway and returned to smile at me lightly.

"That is one of my ancestors," I said. "He was a captain in the Confederate Cavalry."

"Gosh," marveled Kirk, who hailed from Pennsylvania, "looking at him, I can't understand how the South lost the war."

Even Aunt Maggie laughed. And, looking at Kirk, I couldn't understand how I had ever thought I saw him running a foot race down the drive that afternoon.

His glance, roving around the room, came to rest above the mantel on that portrait of Great-uncle, Fred, complete with sabre—a gentleman so fierce of visage that you almost expected him to charge right out of the canvas.

"That is one of my ancestors," I said. "He was a captain in the Confederate Cavalry."

"Gosh," marveled Kirk, who hailed from Pennsylvania, "looking at him, I can't understand how the South lost the war."

Even Aunt Maggie laughed. And, looking at Kirk, I couldn't understand how I had ever thought I saw him running a foot race down the drive that afternoon.

forthright about him, something reassuring about the humorously glint in his dark eyes, that you cannot imagine his being, well, circuitous about anything.

Except for the fact that he was born on what Aunt Maggie would consider the wrong side of the Mason and Dixon line, Kirk is the type she would describe as a "black Southerner."

No, it couldn't have been Kirk. I, anyway, hadn't been my husband's roommate at Princeton, and beat man at our wedding, and hadn't we all welcomed him with open arms when he came South a year ago as district manager for a large Eastern corporation?

"I knew Bob couldn't be happy without my congratulations," Eve was saying. "So I rushed right out to deliver them in person."

"Well, of course, Kirk is rather nice," Eve agreed. "Some other time, perhaps. But for this weekend I should wait until all the returns are in before you are so sure about Claire and Bob."

"Oh, dear life!" Aunt Maggie cried out, shrinking back against the cushions of the sofa.

"Well, of course, Kirk is rather nice," Eve agreed. "Some other time, perhaps. But for this weekend I should wait until all the returns are in before you are so sure about Claire and Bob."
