M'BEE NAMES COMMITTEE TO LEAD PROBE

Countryside Aroused By Brutal Hold-Up

SPECIAL VENIRE IS DRAWN FOR MOHLER TRIAL
Defendant Charged With Murder of Hugh Maples About Year Ago.

By Associated Press.
EASTLAND, Oct. 12.—One hundred and seventy-five special veniremen have been drawn from the jury wheel in the district clerk's office, out of which the jury of 12 men will be selected to try R. L. Mohler for the murder of Hugh Maples, former service car driver and mail carrier at Cisco. The list of veniremen was turned over to the sheriff's department and several deputies out of that office are busy summoning the men. The case will be called for trial October 29, in the Eighty-eighth district court.

The indictment carries three counts. The first charges Mohler with "crushing the skull of Hugh Maples with some heavy, hard instrument," the second that "R. L. Mohler did on the 10th day of August, 1922, unlawfully, with malice aforethought, kill Hugh Maples by crushing the skull of the said Hugh Maples with some instruments and weapons," and the third that "R. L. Mohler did on the 10th day of August, 1922, unlawfully, in some way and manner and by some means with malice aforethought, kill Hugh Maples."

In all the counts the grand jurors stated that the weapons used and the manner in which the murder was committed was to them unknown.

Murder Recalled.
The mysterious disappearance of Hugh Maples back in the summer of 1922, perhaps caused more interest and excitement than has ever been known in this county before. Maples had left Cisco about dusk on the eve of August 19th, 1922, headed for DeLeon with a stranger, supposed to have hired him to take him to that place. Maples did not return to his people in Cisco that night and was never seen until his body was found and identified by his wife after it was discovered near a country road a few miles from Gatesville, in Coryell county.

The day following Maples' disappearance, a posse of men from Cisco, Mangum, Carbon, Rising Star and Gorman was formed in each town and they scoured the county for his body. Excitement was at a high pitch and several hundred men expressed a stern determination to locate and bring to justice the man responsible for Maples' disappearance. No clue was gained by their efforts that day and the search continued for several days. Nothing, in fact, was learned of Hugh Maples until his body was discovered in some weeds beside a country road near Gatesville by a farmer, it is said. He reported the matter to the sheriff at Gatesville, and the investigation by officers here, revealed the secret of his brutal murder. Mrs. Maples and other relatives went to Gatesville and identified the body.

Body Badly Mutilated.
The body was badly mutilated and there was a barbed wire wrapped around his chest. Officers here state that the wire has been identified, both by the size of the barbs and its length. The fence, out of which the piece was cut, has been detected, it is said. This evidence will be used to show venue here.

Mohler was arrested shortly after the body had been identified and was kept in the county jail in Coryell county for several weeks. He was later moved to Tarrant county, and was brought here for one day during a recent court of inquiry, then he was taken back to Gatesville, according to Deputy Sheriff Bettis. It is understood he is now in the Eastland county jail.

Judge E. A. Hill has appointed Tom J. Cunningham and B. D. Shropshire to represent Mohler in the trial. They asked for a writ of habeas corpus, and the court will hear their motion next Thursday. Senator Joe Burkett and Elzo Been, former assistant county attorney, have been retained as special prosecuting attorneys. They said today they would oppose the granting of bail to the defendant.

Greatness of Texas Beckoning Ahead, Past Only the Foundation

"Texas is a great state," says W. P. Dykema, manager of the Southern Gasoline company, with offices in Ranger. "But the greatness of Texas is in front of it and not behind it." Dykema had occasion to comment upon the future greatness of the Lone Star state when speaking of the difficulty in getting a thorough map of the state. "Texas is the hardest state in the union to get a good map of," he said in that connection. "I bought a book of maps the other day to see if I could get a good map of Texas. "That is because of the fact that Texas was not a part of the original United States. We didn't have the federal land surveys then. When I was in the government service, I had great difficulty in getting maps of the state that would do."

HEDRICK TRIAL NEARING END IN FEDERAL COURT

Echoes From Defunct First National Bank of Ranger Heard.

ABILENE, Oct. 12.—A \$30,000 note, signed by C. B. Hedrick, vice president of the First National bank of Ranger in 1920, and which was transferred from the Central State bank of Dallas to the First National by Hedrick without the knowledge of some of the bank officials, figured in the testimony introduced here yesterday in his trial in the federal court on indictments charging violation of the national banking laws. The government rested its case yesterday noon and defense witnesses came on. The case may go to the jury today.

David Murphy, who was a national bank inspector in 1920, the time of the alleged violation, was recalled to the stand by the government when the case was resumed Thursday morning. He declared that he made an examination of the First National bank of Ranger, Texas, of which the defendant was vice president, in 1920.

Dreinhofer Unaware of It.
J. F. Dreinhofer, a director of the First National bank of Ranger before it discontinued business, was recalled to the stand by the government. He testified that he did not know if the directors of the bank had instructed Hedrick to have a note for \$30,000, which bore the defendant's name and which was held by the Central State bank of Dallas, transferred to the First National bank's account.

Assistant District Attorney Martin, who is conducting the prosecution for the government, requested a short recess in order that a consultation might be held. He also announced that all witnesses that had been summoned to court here would be excused temporarily. Judge James C. Wilson excused all jurors who had been summoned and who were not being used in the case now on trial.

Hedrick Didn't Get Authority.
T. E. Parks took the stand for the government when court reconvened. He said that he is now with the Federal Reserve bank at Dallas and was at one time cashier, then vice president and director of the First National bank of Ranger, becoming vice president Nov. 1, 1919. He testified that the board of directors of the latter named bank did not give Hedrick authority to transfer a \$30,000 note, signed by himself, to the bank's account with the Central State bank of Dallas. The defense began the introduction of testimony immediately after the government rested its case. Edwin Hobby, who in 1919 was cashier

POSSES PLAN TO LYNCH BANDITS WHEN CAPTURED

Gang Holds Up Train, Killing Four Persons and Injuring Score.

By United Press.
REDDING, Calif., Oct. 12.—Open threats of lynching, if captured, were made today against a gang of bandits who killed three trainmen and a mail clerk and injured a score of passengers, in an effort to rob the Frisco express of the Southern Pacific railroad, about 20 miles west of Ashland, Ore.

Posses are searching the wild reaches of the Siskiyou mountains for the robbers. The entire region between Ashland and Redding is inflamed over what is said to have been the most brutal hold-up ever staged in the West. The first report had only two men engaged in the hold-up, but later it was said that several men were seen to board the blind baggage at Siskiyou, a station a short distance from where the attack occurred.

The robbers obtained no loot. They sought to wreck the express car and rifle the safe, but failed. The force of the explosion wrecked the opening of tunnel No. 13, where the hold-up was staged, and the track could not be cleared for several hours. The mail sacks were burned in a fire started by the explosion.

More than a score of the passengers were injured in the explosion by which the bandits sought to force their way into the express car, but officials of the railroad believe the trainmen were shot down in cold blood because they recognized the bandits, thought to have been former employees of the railroad and familiar with the country about Ashland.

Posses are working in squads searching the mountains for the bandits, and number several hundred, including a number of the Oregon national guard.

THREE MILLION NEEDED FOR HARDING MEMORIAL

By Associated Press.
WASHINGTON, Oct. 12.—Plans for a nation-wide campaign to raise \$3,000,000 to preserve the name and memory of the late President Harding were approved yesterday by the trustees of the Harding Memorial association.

EXPLOSION IN MOSCOW TAKES TOLL OF LIFE

By Associated Press.
MOSCOW, Oct. 12.—At least 12 persons were killed and more than a score injured when a terrific explosion occurred in a munitions and hunting goods store in one of the principal streets of this city. Two buildings were shattered by the shock and exploding cartridges hurled bullets among persons in the street.

GIANTS DEFEAT YANKS AGAIN, NOW LEAD IN THE WORLD SERIES

Special to the Times.
YANKEE STADIUM, New York, Oct. 12.—Casey Stengel's home run in the fifth inning was the only tally made in today's championship game and the Giants won the third encounter, 1 to 0. Stengel saved the giants in the last half of the eighth when he ran far back and grabbed R. Meusel's long fly ball with Dugan and Ruth on base. Dugan was safe at first on a terrific grounder to Groh but he threw Pipp out at second. This ended the Yankee's best chance of scoring. The mighty Ruth walked twice, singled once and struck out once. Jones was taken out in the eighth to allow Hoffman to bat for him. The latter popped out. A decision on Ward, Yankee second baseman, when he was called out on

"SHOOT YOURSELF," SAYS HE TO GIRL, SHE SHOOTS HIM

Student Jilts Young Woman Who Is Paying His Way Through School and She Seeks Swift Revenge.

By Associated Press.
PHILADELPHIA, Oct. 12.—Harry Kabernagle, a student in a local chiropractic school, was shot and killed by a young woman on the street here last night.

Miss Katherine Miller, whose home is in Wilkesbarre, Pa., was arrested after a chase of two blocks and is charged with the shooting, which police say followed a lovers' quarrel. Kabernagle told the girl he was through with her and for her to "go shoot yourself," the police quoted her as saying. A sister of Miss Miller residing in Wilkesbarre said the girl had been paying Kabernagle's way through school.

Thurber Man Has Narrow Escape on Bankhead Highway

A miraculous escape from serious, if not fatal injuries, was experienced last night by members of the family of M. F. Merritt of Thurber, while motoring on the Bankhead highway, about seven miles east of Ranger. A sideswiping of their auto by another car, sent Mrs. Merritt hurling into the embankment and the Merritt baby onto the fender. Neither suffered serious injuries. Merritt said his car was moving slowly. A complaint charging reckless driving was sworn out against a Cisco man by Merritt, with the Ranger police. But officers said that as the accident happened outside of the city limits, the local police have no jurisdiction.

TEN THOUSAND IDLE IN FOOD RIOT IN GERMANY

By United Press.
DUSSELDORF, Oct. 12.—Ten thousand unemployed at Solingen were involved in a food riot today, during which two persons were killed and about 17 injured. All shops were closed as soon as the riot started.

MAN SHOT AND WOUNDED AT HOME OF FIANCE

STAMFORD, Conn., Oct. 12.—Milton Maas, of Asbury Park, N. J., an official of a chemical corporation, is in a hospital here today, having been shot mysteriously last night at the home of Mrs. Ida Leslie, a widow and former actress, who said she is his fiancee. Maas and Mrs. Leslie told different versions of the affair, both stating, and did the shooting. However, that an unidentified assailant

DENBY UNDERGOES OPERATION

NEW YORK, Oct. 12.—An operation on Secretary of the Navy Denby at the Orthopedic hospital here was successful and his condition is most favorable, it was announced today. The operation was to heal the Achilles tendon in the right heel, which the secretary injured some time ago.

RECEIVERSHIP SOUGHT FOR REFINING COMPANY

ST. LOUIS, Oct. 12.—Petition for a receiver to take charge of the local assets of the Indiana Refinery company, which has a capital stock of \$5,000,000 outstanding, was filed in federal district court today. The petition alleges gross mismanagement and was filed by trustees of the estate of Gustav Wamsden, which holds approximately \$3,500 of capital stock of the company. The general offices of the company are in Oklahoma City.

GOMPERS IS REELECTED

PORTLAND, Ore., Oct. 12.—Samuel Gompers was unanimously elected president of the American Federation of Labor at the convention here today.

LIGHTNING KILLS MAN

SWEETWATER, Oct. 12.—Lewis Smith, 36, of Bell county was instantly killed by lightning near Palava in Fisher county during a heavy rain and electrical storm last night. His wife and child were uninjured. A dog near Smith was killed by the bolt.

Betty Dutton Leads In High School Beauty Contest

Betty Dutton, sophomore, is leading all others in the contest for prettiest girl honors of the Ranger High school, an announcement by J. W. Overall, principal of the school, at the mass meeting of the pupils at noon today showed. Miss Dutton has 2,110 votes. Christina Schmuck, senior, is second with 1,461 votes. Geraldine Williams, freshman, stands third with 530 votes and Evelyn West, senior, fourth, 434 votes. Ida Mae Lonsdale, junior and Ernestine Davis are fifth and sixth respectively, with 412 and 225 votes. The voting will end Monday.

HIGH SCHOOL STUDENT BODY CHEER TEAM

Rally Held in Auditorium in Anticipation of Game Tomorrow.

Cheers of the high school student body resounded through the big auditorium at noon today as Cheer Leaders Thurman Gholston and Myrtle Mills put the boys and girls through the "rah rah" business. It was the primer for tomorrow's big football battle at the city athletic park when Roscoe high school comes up to meet Ranger's eleven. The student body was given some pep talks by Dr. H. A. Logsdon, representing the Lions Club; Gifford Clegg and A. Joseph, the Rotarians; B. F. Bennett, Chamber of Commerce, and Karl Jones, the Retail Merchants' association.

"Get out there tomorrow and root with all of your might," Dr. Logsdon said in his characteristic way. "It makes the boys feel better. They know you're back of 'em. If one of the boys makes a bad play, don't give him the 'razz.' That hurts the team. We all make mistakes. "I'll say that collectively you have the best team you ever had. I've made a study of your team in years past and that's the way I feel. "Yes, we had a disappointment a couple of weeks ago, but forget about that. The boys weren't training then. But watch 'em tomorrow." He got a hearty hand when through. Bennett asked all of the players to stand up and that was a signal for cheers. He then called for the cheer leaders to come forward and put the "gang" through their stunts. Joseph said the blankets for the team had been ordered. The visitors were introduced by J. W. Overall, high school principal, who made several announcements of interest to the high school students.

IMPEACHMENT MACHINERY IS SET IN MOTION

By Associated Press.
OKLAHOMA CITY, Oct. 12.—Impeachment machinery in the Oklahoma house of representatives was set in motion today with the announcement of the appointment of Speaker McBee of a committee of 21 house men to conduct an investigation upon which impeachment proceedings will be based. From one member of the committee, it was stated that an investigation of several state departments might be undertaken simultaneously. The committee expects to get down to work shortly. The committee is expected to be divided into several sub-committees. Twenty members of the investigating committee have been named. Of this number 17 are Democrats.

Immediate Work On Investigation Declared Intent

By United Press.
OKLAHOMA CITY, Oct. 12.—Immediate investigation of the acts of Governor Walton since he took the oath of office about nine months ago is proposed by the Oklahoma house of representatives following adoption of the Disney-Tolbert resolution. W. E. Disney is representative from Muskogee county, also an ex-service man, and is to be chairman of the investigating committee. James Tolbert is from Hobart. He will be vice chairman. The resolution calls for an immediate investigation by the house of representatives of the executive, legislative and judicial departments. The specific intent of the resolution, however, is the investigation of the governor's official acts. Governor Walton was standing today on his offer of resignation with the passage by the legislature of a bill unmasking the klan and revealing its membership, according to those close to him. State Senator Leedy has prepared a substitute bill providing for unmasking the klan, but not revealing the membership, which he claims would be expensive and burdensome. The proposed bill provides for fine of \$25 to \$1,000 and jail sentence of 30 to 6 months, either or both, and provides a penitentiary sentence of one year to 50 years when 10 or more persons assemble to whip any individual or threaten any individual. County officers who fail to prosecute violations of the law would be subject to removal by the attorney general.

FOREST FIRES TAKE TOLL OF LIFE AND PROPERTY

ST. PAUL, Minn., Oct. 12.—A ship was sunk and two persons dead must be included in the toll taken by the blazing forest fires that have been spreading over the northern part of Wisconsin and Minnesota. Rain and fog over the fire zone were checking the flames today. Due to the fog and smoke a steamer was sunk in White Fish bay, following a collision with another steamer. The members of the crew were all rescued. William Mann was killed, when, blinded by smoke from the fire, he ran his motorcycle into a ditch, and John Fisk of Dauby, Wis., a firefighter, was killed when the gun he carried exploded.

MOONSHINE BLAMED FOR DEATH OF FIVE MEN

PANA, Ill., Oct. 12.—John Tokoly, proprietor of a soft drink parlor, one of two local establishments, where it is alleged that poisonous liquor was sold, resulting in the death of 5 men and the serious illness of five others, was arrested today on charge of manslaughter. Tokoly denied that he sold poisonous liquor. He was formerly a member of the board of alderman and was a candidate for mayor.

BIBLE THOUGHT.
 JOY FOR WEEPING:—His anger endureth but a moment: in his favour is life: weeping may endure for a night, but joy cometh in the morning.—Psalm 30: 5.

TAX EXEMPT SECURITIES.

Because of the evil of tax free securities, a constitutional amendment which will cure defects in the present income tax law so that the wealthy will bear their proportionate share of the burden and not place it too largely on the moderate incomes is proposed for consideration when congress meets again. Representative William R. Green of Iowa says the purpose of the amendment often is misunderstood and evils arising from present conditions are not apprehended. To clear away these clouds to the understanding and make matters clear to persons who have neither time nor opportunity for independent investigation, Mr. Green summarized and answered the questions most commonly asked. Among these are:

Question: What securities are exempt from taxation?
 Answer: The bonds of the national government are exempt both as to principal and income from taxation by the several states or any subdivision of them. Part of them are entirely exempt from any tax by the federal law which created them, but most of them are not entirely. Certain issues authorized by the federal government, such as the farm loan bonds, are also entirely exempt. The bonds of the states or any divisions of them are exempt from federal taxes, and are generally made exempt from taxation by or within the state that issues them. Other states, however, may tax both principal and interest.

Question: What is proposed by the amendment?
 Answer: To permit the national government to tax the income only of the state securities and the states to tax the income from the national securities, in each case only to the same extent as the government or state taxes its own bonds.

Question: Does the amendment apply to securities already issued?
 Answer: No, only to those issued after its adoption.

Question: Why ought such an amendment to be adopted?
 Answer: To equalize the burdens of taxation. As some escape taxation by investing in tax exempt securities this must be made up by increasing the taxes of others. The amount of state and municipal securities in existence is now over ten billion dollars, the income from which is entirely exempt from federal tax, and about 20 billions of government bonds partially exempt. The loss to the government thereby has been variously estimated at from three hundred millions to four hundred millions a year. The effect is to nullify the provisions of the graduated income tax and increase the taxation of the ordinary individual.

Question: Who are the most favored by the present system?
 Answer: The extremely wealthy who have invested in tax exempt securities. Under our graduated income tax a person having a net income of one million from property like railroad bonds, corporation stocks, farms, or business of any kind, is required to pay a federal tax of \$50,000 per year, while if he has this amount of income from tax exempt bonds he does not pay a cent thereon. The gain is not large to those having small incomes, hence they seldom buy tax exempt securities. The extent to which the ex-

remely wealthy hold tax exempt securities may be judged from the fact that when William Rockefeller died, it was found that his estate included \$43,000,000 in tax exempt securities.

Question: It is sometimes claimed that those who buy tax exempt securities pay enough more for them to buy securities upon which the interest is so low that the government substantially makes up its loss in taxes and the purchaser derives little gain therefrom. Is this true?
 Answer: Only to a very limited extent. There is always such a large amount of tax exempt securities being offered that there is little competition for them among those having heavy incomes. For those having an income of a million dollars the purchase of a tax exempt bond paying 4.50 per cent net about as much as a taxable bond paying 10.0 per cent, but the same bond could be sold at the same price by making the rate of interest slightly higher. The government loses what the buyer of tax exempt securities makes according to his income. Tax experts and political economists all agree that under a graduated system of income taxes the exemption benefit to the wealthy investor is not passed on to the borrowing municipality or state.

MASONS ARE URGED TO SEE "HUMAN WRECKAGE"
 Members of the Masonic fraternity in Ranger were urged in an announcement today by C. E. May, worshipful master of the lodge, to see a photoplay, "Human Wreckage," advertised to show at a local playhouse Saturday and Sunday.

"Masons all over the country are urged to give this picture their cooperation," May said. "Drugs are a menace to humanity and organizations must fight its growth. Another reason Masons are against the use of drugs is because one who may get in the order may, under the influence of dope, give away the secrets of the order."

CONVICTED MAN PREFERS DEATH TO IMPRISONMENT
 By Associated Press.
 WASO, Oct. 12.—T. E. Parnell, convicted in the district court here, Oct. 5, and given a sentence of 10 years on a statutory charge, ended his life in his cell today by cutting his throat with a safety razor. The chief complaining witness at Parnell's trial was his daughter. He lived near Axtell and is survived by his wife, three sons and one daughter.

YOUTH CONFESSES TO KILLING HIS STEP-MOTHER
 By United Press.
 MARSHFIELD, Ore., Oct. 12.—Alvin Covell, 15, today confessed to the murder of his step-mother, claiming to have been directed to commit the crime by his hopelessly crippled uncle, also named Covell, a nationally known astrologer.

BRAINS AND GAS TO WIN WARS IN FUTURE
 Radical changes in methods of warfare are being quietly worked out by scientists today and will undoubtedly be put into effect if another great war should break out in the future, according to Brigadier General Amos A. Fries, chief of the United States chemical warfare service, as interviewed by Harry A. Mount, for October McClure's.
 Mr. Mount quotes General Fries as saying:
 "For one thing, massed attacks such as the Germans used will have to be abandoned. Battle lines will be stretched out further and further. The fighting will be continuous instead of intermittent, as before."
 "Experience shows that the man who bears up best under this kind of warfare is the intellectual type. Giant physique will count for less than ever in war. The constant aim of the combatants will be to find new gases."

GERMANY'S COMEBACK AT SEA ALARMS HER COMPETITORS
 COPENHAGEN, Oct. 12.—German shipping is showing remarkable recuperative powers, so much so that

other maritime states are today concerned lest this "dreaded competitor soon will regain her old position." The quotation is from the Scandinavian Shipping Gazette, which publishes an article on the subject.
 In 1920 Germany had 420,000 gross tons of steamers and motorships according to this authority, and in June of 1923 a total of 2,510,000 tons.
 "Bitter complaints are made against the resumption of the German com-

petition in practically all waters, but perhaps principally in South American seas," the Gazette says in conclusion.

See the lady blacksmith, barber, porter, butcher, dentist, huntress, photographer and many others in their comic catchy acts in the Merchants' Carnival tonight, at the new high school auditorium. Come and bring the whole family. Seats only 20c and 30c—Advertisement.

SKIN MALADY ON DECLINE.
 Ever since the perfection and introduction in this country of the wonderful Black and White Ointment, skin specialists say that such troubles as pimples, blotches, bumps, rash, letter, eczema, "breaking out," etc., are becoming fewer every year.
 Wide distribution of Black and White Ointment has made it possible for millions of people to get the benefit of its wonderfully quick effect in clearing disfigured skin, and making it smooth and good to look at. Dealers say it is selling faster than anything of a similar nature they have ever handled, and they attribute this popularity to the low price at which it is sold, as well as its dependability. The 50c size contains three times as much as the 25c size.—Advertisement.

DRUGS EXCITE THE KIDNEYS, DRINK WATER
 Take Salts at First Sign of Bladder Irritation or Backache.
 The American men and women must guard constantly against kidney trouble because we often eat too much rich food. Our blood is filled with acids which the kidneys strive to filter out; they weaken from overwork, become sluggish, the elimination tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.
 When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache, or dizzy, nervous spells, acid stomach, or if you have rheumatism when the weather is bad, begin drinking lots of good soft water and get from your pharmacist about four ounces of Jad Salts. Take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.
 This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate clogged kidneys, to neutralize the acids in the system so they no longer are a source of irritation, thus often relieving bladder disorders.
 Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water drink and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time. By all means have your physician examine your kidneys at least twice a year.—Advertisement.

"Go Slowly," Says He to Himself, "Why Travel Fast and Die? Safety First;" Bill Palmer Discovers Why Dallas Has Grown Faster Than Fort Worth and Divulges the Secret.

By P. G. T.

We're going east on a little trip today. Expect to visit two large eastern cities, Fort Worth and Dallas, unless the train is wrecked or held up by bandits or some other misfortune occurs. Sure is dangerous traveling on trains nowadays. On some lines the dern thinks make nearly 40 miles an hour most the time.

Did have a very safe ride on a train running up and down the tracks of the Orient road last winter. This road carries both freight and passengers on the same train. Funny the other railroads don't use the same system. It speeds up freight deliveries and makes passengers travel slow enough so they will feel safe.

I think we were going into Winters, Texas, on this here Orient train. Passengers who felt as though they wanted to stretch would pile off and run behind the train for exercise. A cow got on the right of way once and the engineer tooted the whistle. This animal got so scared she ran in front of the engine for a couple of hundred yards and soon had a big lead. The engineer got jealous and put on all steam, but the cow increased her speed and soon was out of sight over a rise on the prairie.

Also we became acquainted with a traveling salesman. He wanted to work Winters, but didn't want to stay there over night, only having a half dozen customers to call on. He stated his business to the conductor and the con said to go ahead and call

on his customers and the train would wait for him.

"You know," the conductor finished, "a railroad is to accommodate passengers. If we don't hold up our train so you could tend to your business I don't suppose you'd ever want to ride this train again and I wouldn't blame you."

Bill Palmer, Ranger's greatest logician, has ferreted out the reason for Dallas growing with so much greater speed than Fort Worth.

"Fort Worth," he says, "is a city of the rich. The people that live there have money and are self-satisfied. They don't care (the big guns at least) whether they ever make another dime or not. A new industry may want to come into Fort Worth, but if the people who run the town figure it will disfigure a vacant lot or make too much noise, they don't want it around. Even Ranger's coming glass factory couldn't sell enough bonds or get a cheap fuel inducement to come in. The average Fort Worth merchant would think 'I have a little money to invest, but would rather keep it in my business. I'm too tired to write a check today and don't believe that a glass factory would help me directly even if it did help the town.'

"Now, Dallas," says Bill, "is no city of pikers. The town was founded by a lot of men who knew what it meant to be broke and how hard it was to start in business on a shoe string. They also knew that a town to be a good town must have business of all kinds. Look at New York's banana wagons for instance.

"If a man wants to put a new peanut stand in Dallas everybody gives him a boost. The Chamber of Commerce brings out a brass band to advertise him and the Merchants' association gives him expert advice. If he has a stock proposition and is willing to furnish half the money stock is sold. They haven't much money, those Dallas merchants, but

they'll buy at least a dollar certificate in anything. So many invest that they all patronize the bird they give their money to and he patronizes them and the first thing you know his peanut stand is a store. 'All for one and one for all' as Douglas Fairbanks said in the 'Three Musketeers,' is their motto. That's why Dallas wins."

Four Years Ago In Ranger

Taken from the files of the Ranger Daily Times, Oct. 12, 1919:

J. C. Littleton No. 5 is making 90 barrels an hour—2,160 barrels a day—four feet in the pay, which starts at 3,486 feet. The well is drilling ahead.

W. T. Boyd No. 5 is a producer from the black lime at 3,455 feet, and is making 1,900 barrels.

The Merchants' Carnival to be held in the new high school auditorium tonight is the talk of the town. You will like it; something good, something different. You will laugh a dollar's worth. Come out and forget your troubles. Admission only 20c and 30c. Benefit Ranger schools, library, etc. — Advertisement.

NEGRO CHARGED WITH THEFT IN RANGER GETS MISTRIAL
EASTLAND, Oct. 12.—Martin White, negro, charged with the theft of several automobile casings from the Oilbelt Motor company, at Ranger, was tried Wednesday in the Eighty-eighth district court, and the trial resulted in a hung jury.

B. D. Shropshire, attorney for Eastland, was appointed by the court to represent the defendant and W. J. Barnes, county attorney, conducted the prosecution.

CONE HAS BEEN GREAT FACTOR IN MAKING ICE CREAM PARLOR

SYRACUSE, N. Y., Oct. 12.—While it is generally accepted that ice cream was first made in Italy, perhaps at about the time America was discovered, it was left to the United States to develop the industry on a great scale. Prof. Martin Mortensen, head of the department of dairying in the Iowa State college, said today before the World's Dairy congress.

It is thought that ice cream was introduced into France about 1550, and the earliest printed record of it in England was found in a house-keeping magazine published in 1786. But it was not until 1851 that the first wholesale ice cream was started by Jacob Russell in Baltimore.

The ice cream business in the United States increased from 80,000,000 gallons in 1909 to 263,529,000 gallons in 1912. The ice cream cone, invented in 1904, was a great factor in making ice cream popular.

Women to attract must Radiate Health!

BEAUTY is the magnet which draws all eyes—and back of beauty—Health—working silently—Red blood tingling through the veins—the glow of youth in the cheeks—the spring of eagerness, of vim, of vitality in the walk—the ever graceful air, unrestrained by care or worry.—All the charms of beauty. All the works of health.

Men are fascinated by the charms of beauty. Women gaze with envy, secretly jealous, perhaps—wondering—hoping—praying for that attractiveness that is not theirs.

But why the wondering—the hoping—the praying for that craved-for attractiveness—that beauty. Good looks is the barometer of one's condition. Good health radiates beauty. S. S. S. purifies the blood—creates new red blood cells—rids the system of impurities which make beauty and attractiveness impossible. As women to attract must radiate health so must they keep their systems free from impurities and their red blood cells ever increasing. S. S. S. does both.

S. S. S. since 1826, has been ridding the system of impurities—pimples, blackheads, boils, eczema and rheumatism—building red blood cells—aiding women to be attractive by radiating health. S. S. S. is made of carefully selected herbs and herbs, scientifically prepared and proportioned. All good drug stores carry S. S. S. It is more economical to purchase the large size bottle.

S.S.S. Makes You Feel Like Yourself Again

EASTLAND COUNTY COURTS VERY BUSY THIS WEEK

Special to the Times

EASTLAND, Oct. 12.—The county courthouse has been a busy place this week. Three petit juries, the grand jury and the commissioners' court all convened Monday morning at 10 o'clock. The two district courts and the county court-at-law have had heavy dockets to be called. It is not known how heavy the criminal docket will be until the grand jury recesses today or tomorrow. Trial of civil cases is going on in

the Ninety-first district court and county court-at-law and criminal cases are being tried in the Eighty-eighth district court.

The county commissioners were discussing general matters of business and it is thought they will be in session only a few days.

MEXIA. — Mexia has just completed paving seven miles of streets and now is launching upon another street improvement program. Paving several other streets will begin immediately as part of the program.

UNINVITED GUESTS AT BIRTHDAY CELEBRATION

EL PASO, Oct. 12.—Even "birthday presents" are not immune from diligent pro agents—especially when the present happens to be "hooh."

Explaining the presence of a gallon of sotol found in their home, Felicitas Hernandez said it was a "birthday gift to her hubby from an unknown friend," and pleaded not guilty to violating the Volstead law.

Federal agents "horned in" on the party just as they were opening the "gift."

Special Sale ...OF... Fall Footwear

When we announced this special stock reduction sale on all new fall shoes, we expected to be busy, but the demand has been far beyond our highest expectations.

Good style in dress is not a knack or accident. It is an achievement arrived at by intelligent planning. Knowing where style is to be found is the first essential—and to begin with Footwear is the surest way of keeping step with the mode.

Style in all its whimsical alluring loveliness is always to be found at this store. Here will the seeker find the smart things of the moment in foot dress—the chic touch that will form the fashionable foundation for appropriate dress.

Only the artistic mind of a master designer can produce such a galaxy of beautiful Shoe Styles as are presented in our Fall Showing.

GIANTS-YANKS OUTFIELDS EVEN, SAYS FARRELL

By HENRY L. FARRELL
(United Press Sports Editor)
NEW YORK, Oct. 12.—Neither the New York Giants nor the Yankees have a particularly brilliant outfield. It would be too much to expect that any major league team could present a combination like the former Boston trio of Hooper, Speaker and Lewis, but the outer defenses that will work in the world's series are not as good as the boundary guardians of the Cincinnati Reds or any better than that owned by several other clubs.

In outfielders, who are to carry a most important part of the defense, both teams are fairly even in strength and neither combination is as well balanced as it might be desired.

The power of both outfielders is found in rightfield, where Ross Young and Babe Ruth have been playing regularly for the rival clubs. Taking his record through the past season, Ruth is a more brilliant player and of more value to his club, but remembering what he did in the past two series, Ruth might be turned down in favor of Young.

"Pep" Young is one of the few real stars on the Giant team. He is a hustler, one of the most aggressive players on the team, a good fielder, a dangerous hitter and a daring base runner. In the opinion of many experts he is one of the best players in the game.

Ruth, this season, has been doing everything that Young does, only he has been better in throwing. Young hasn't an unusually strong arm, whereas, next to Bob Meusel, Ruth perhaps has the best outfield whip in baseball.

Ruth is also a hustler, his hitting and slugging needs no comment. He is a good fielder and a very fast man on the bases, despite his weight. Like Young, Ruth also is the chief hustler of his team and a player who is heart and soul in every play.

Perhaps it is not fair to assume that Ruth will be a bust again this year in the series. The evidence, on the contrary, would indicate that the swat king will be almost as much of a terror to the Giants as he was to the American league clubs.

Considering every angle, it would appear that the Yanks, because of Ruth's hitting, throwing and fielding, combined, have the advantage in right field.

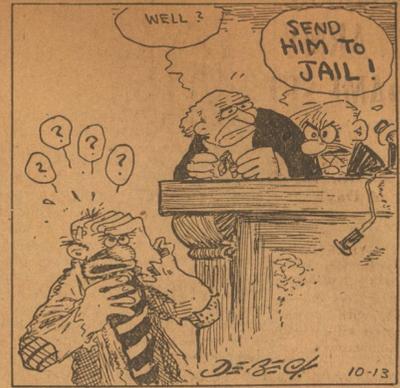

Center field is not so easy to compare as it is not known what player of the three that he has been alternating all season McGraw will decide to start.

Casey Stengel, because of his ability as a "money player," perhaps may be preferred by the Giant leader over young Jimmy O'Connell, who played all season like anything but a 75,000 ball player.

Where Stengel is a reliable fielder and a dangerous batter, O'Connell is neither. The California youngster is woefully weak on ground balls, he is slow in starting in on a ball and unsteady in going back. His arm is very poor and he has been carrying a mental hazard to the bat with him all season. Stengel is not possessed of a great arm, but with either O'Connell or the "Casey" is center field, the arm weakness is overcome by the wonderful arm of George Kelley, who runs back and takes the throw for a relay to the plate.

Bill Cunningham is a great young ball player and many fans have never been able to figure why McGraw

BARNEY GOOGLE AND SPARK PLUG—Sparky's Fine Today, but Wait Till You See What Happens to Him Tomorrow.

does not use him regularly. He is only started against lefthanded pitchers, but he has shown ability to hit right handers when called upon and it seems strange that he hasn't been given more of a chance to star. Many critics look upon him as the best fielder on the club.

With Cunningham in center, the Giant center field would be preferred to the Yankees. Whitey Witt, the Yankee center field, is the fastest man in the league getting down to first base and he is a good lead-off man. He is not too brainy on the bases, however. He fields fairly and is helped out of the handicap of a rather weak arm by Babe Ruth (who does most of the heavy heaving for him when he has to go back far for a drive).

The Meusel brothers, Irish and Bob, will be in charge of the left field patrol and there is little to choose between them. Bob has a much better arm than his Giant brother, and he can hit with him at times, but Irish is a more consistent batter in a pinch. Bob is faster when he wants to be and both of them are erratic fielders. In the games at the Yankee stadium, where there are great open spaces in left field, Bob will be a better fielder, at least in getting back to the ball, although he is never sure of catching it when he gets there.

Irish is a better "money" player, and, for the reason that he has done more when it meant most, he has a slight edge on his younger brother.

DEODORIZED MASH AID IN FOOLING DRY AGENTS

By United Press
GALVESTON, Oct. 12.—The millennium in bootlegging has been reached! Local "moonshine chemists" have invented a deodorized mash!

Raiding a moonshiner who had operated in a crowded part of town for several months, Assistant District Attorney Warnken declared his success lay in the fact that he had invented a chemical to abstract the odor from mash.

The still was discovered when federal agents noticed an unusually large number of cars stopping at the house at night.

ABILENE AND COMANCHE HIGHS CLASH THIS AFTERNOON

Abilene clashes with Comanche Hi this afternoon at Comanche. Abilene football followers look upon this contest as the hardest one so far this season.

Coach P. E. Shotwell of the Abilene high team is confident that his backfield will hold its own. The 62-0 victory over Eastland high last Saturday makes Coach Shotwell believe that his backfield, consisting of Hanna, Stevens and Wooten has "almost unlimited scoring ability."

Fifty-Fifty Break Wanted, Logsdon Tells Football '11

"We want a 50-50 break, boys."

A request and a promise was contained in the foregoing sentence, part of a brief talk by Dr. H. A. Logsdon, Ranger physician, before the high school squad a few days ago.

If the boys, who have an opportunity to carry the colors of the high school eleven this season will put "their all" into their game, then he and others who love football as a manly sport will go the limit in morally and financially supporting the team, is the inference drawn by those who heard Dr. Logsdon.

LONDON, Oct. 12.—A new record for speed between London and Cologne has been made by the Instone air liner "City of Washington" which completed the journey of 330 miles in 128 minutes. The boat journey for the same trip takes 19 hours.

DIVORCED HUSBAND STANDS BY FORMER WIFE IN TROUBLE

By United Press.

FORT WORTH, Oct. 12.—"I am doing what 99 out of 100 men would not do—helping a divorced wife."

Sam C. Blessing, local photographer, who is fighting stoutly to help his divorced wife, Mrs. Lillian Broussard, in her court battle to free herself on a charge of shooting to death her second husband, Louis Broussard, made this statement in explanation of his actions.

"Most of her friends have deserted her in her hour of need. I cannot stand idly by and let her fight the battle alone," he said.

Blessing sees nothing strange in

the fact that he is lending financial support to assist his former wife to escape the death penalty. He arranged for her release from the county jail on bond and will continue to help her, he said.

Blessing said there had been no trouble to cause their divorce. "We simply were not congenial," he said. "I was almost old enough to be Lillian's father. Naturally her tastes and mine were different. It was simply a case of mis-mating."

Defense attorneys have announced they will ask for complete exoneration for Mrs. Broussard on the ground that she shot in self-defense after Broussard had abused her.

BUY IT IN RANGER

TYLER.—Public speaking is being fostered by the Tyler chapter of DeMolay in the form of a county-wide declamation contest. Only DeMolay members are eligible to the contest. Entrants will be from Tyler, Troup, Lindale and Winona. The final contest will be held on Thanksgiving day.

SAN ANTONIO.—J. M. Cochran was re-elected commander of the Texas division of the United Confederate Veterans in annual session here. Bradford Hancock of Waco, was re-appointed adjutant general of the body. A move was launched to secure a permanent 1 cent rate from railroads for Confederate veterans.

ANNUAL CLASSIC BETWEEN ARMY NOTRE DAME SET

Entire West Point Cadet Corps Go to New York for Biggest Game of Day.

By HENRY L. FARRELL, United Press Sports Editor.
NEW YORK, Oct. 12.—While the turf has been more or less chopped up for two weeks with football cleats, the young season will let loose its first real punch tomorrow all over the country.

Tested in at least one, and in most cases in two preliminary games, the major events of the whole country will get their first touch of real action on a day's schedule which is crammed with interesting games.

For such an early date it is an unusual schedule that will provide in one day:
West Virginia vs. Pittsburgh.
Notre Dame vs. the Army.
Princeton vs. Georgetown.
Vanderbilt vs. Michigan.
Colgate vs. Ohio State.
West Virginia Wesleyan vs. the Navy.
Alabama vs. Syracuse.
Georgia vs. Yale.
Texas A. & M. vs. Sewanee.

Six of these attractive games are inter-sectional features and each one of them will bring out the first hard football of the year.

Prospects of the hardest game of the day are found in the battle between West Virginia and Pittsburgh, two candidates for the championship of the east who are to be admired for courage in arranging a game of such importance so early in the season.

From a point of general interest, the Notre Dame-Army game will be the biggest of the day and it is one of the annual classics of the season. Additional color is added to what has always been a great spectacle by the decision of the West Point commanding officer to allow the cadets to play away from home and to permit the entire cadet corps to make the trip to New York to see the game.

The game will be played in the Brooklyn National league ball park. It is unfortunate that a conflicting date with the world's series prevented the teams from playing in the Polo Grounds, which, since remodelled, is perhaps the finest football grounds in the country. It has not the seating capacity of the Yale bowl, but it is by far the finest park in the east for spectators to see the game.

Games in which the West Point cadets are allowed to get away from the academy to watch their team play are the most colorful games of the season. There is no more inspiring sight than the preliminaries in which the finest drilled body of young soldiers in the world go through their stunts on the field.

With the present teams, the features are not confined to the ceremonies before and after the game. The cadets have a really great team,

Notre Dame always has a team, and under these conditions a real football game as well as a show is provided.

It will take a mighty fine Notre Dame team to beat the cadets this year.

Oil Production In Texas Fields Show Increase

Eastland county's daily production last week was almost 14,000 barrels, including the Ranger-Eastland and Desdemona-Pioneer fields. Stephens county was 20,220 barrels. These figures are taken from the summary of the American Petroleum institute.

The North-Central and East-Central Texas fields showed the largest daily production last week for several months. Powell's jump of 8,000 barrels and a total 4,000-barrel gain in North-Central Texas fields were responsible.

The Powell increase is accounted for almost entirely by the Humble's new production, 81,300 barrels, which establishes a new high record. Archer county showed the largest single gain in the North-Central Texas field, totaling 2,000 barrels.

Production in North Texas pools follows:

North-Central Texas.			
Field	This wk.	Last wk.	Increase
Electra	24,550	24,650	100
Burkburnett	24,650	23,540	1,110
Iowa Park	2,225	2,190	35
Archer county	18,360	16,360	2,000
Clay county	430	500	-70
Young county	5,290	4,500	790
Stephens county	20,160	20,220	-60
Jack county	35	35	0
Shackelford county	4,295	3,750	545
Palo Pinto county	675	685	-10
Ranger-Eastland	7,875	8,000	-125

Grand total	329,516	317,356	12,160

PARAMOUNT MAY FILM PICTURE NEAR HOUSTON

HOUSTON, Oct. 12.—Houston will become a temporary "Hollywood" if negotiations being carried on are brought to a successful conclusion. Representatives of the Paramount pictures are in conference with local interests for the use of a large tract of land on Chocolate bayou near here to film scenes in Emerson Houghs masterful novel "North of Thirty-Six."

The scenes to be filmed deal with the swimming of cattle across rivers and other western scenes. The Chocolate bayou section is ideal, combining a broad deep river with stately forests of hardwood, while at the same time being easily accessible to miles of prairie land.

Boys and Girls! Circus is Coming

Al G. Barnes 4-Ring Wild Animal Circus

Ranger, Wednesday, Oct. 17

Get a Ticket Free!

You want to see the Circus, don't you? Of course you do. The boy or girl who doesn't want to see a circus hasn't been born yet.

Here is your chance. Take the coupon out right now and start out to get two new subscribers for The Ranger Daily Times. The longer you wait the harder it will be, SO START TODAY.

As soon as you get your two names, bring them into the office of The Ranger Daily Times, 213 Elm Street, and you will get your ticket to the circus.

The Ranger Daily Times has arranged to give every boy and girl in Ranger a FREE ticket to the AL G. BARNES CIRCUS for a little easy work. All that is necessary for you to earn a ticket is to get two of your relatives—uncles, aunts, cousins—friends or neighbors who do not now take the Ranger Daily Times from our regular carrier, to subscribe for one month or longer and collect Seventy-five Cents (75c) for first month's subscription.	If you had already planned to go to the circus, one of these free tickets will give you more money to spend for peanuts, red lemonade and other things which add joy to Circus Day.	This offer is open to boys and girls IN RANGER ONLY. It will take you only a few minutes to get two new subscriptions to the Ranger Daily Times. If your parents do not take the paper regularly from a carrier, get them to subscribe; then get one other party—your next door neighbors, or friends. They will be glad to help you.
---	---	---

Use this blank in turning in your subscriptions. Get the subscribers to sign their names and collect Seventy-five Cents (75c) for the first month's subscription.

To Help This Boy or Girl Win a Circus Ticket

We, the undersigned, who are not subscribers of The Ranger Daily Times at present, hereby subscribe and have paid the bearer Seventy-five Cents (75c) for first month's subscription.

The subscription is given to enable the boy or girl by whom this blank is presented to earn a ticket to AL G. BARNES Wild Animal Circus, Wednesday, Oct. 17, 1923.

BARNES CIRCUS ALMOST IS ONE TOWN IN ITSELF

Twelve hundred animals, 1,080 people, 550 horses, 65 clowns, six bands, three calliopes, the world's tallest man, and 16 of the tiniest of Lilliputians—all this and more is promised by the truthful press agent of the Al G. Barnes, four-ring wild animal circus which is to appear in Ranger, Wednesday, Oct. 17, for two performances.

The Barnes circus has appeared here before, and will be remembered as being a distinctively animal circus—every act having an animal background.

This year, according to Frank A. Cassidy, the publicity representative, the Barnes circus comes enlarged to twice its former size, and with three special trains of all-steel double-length cars loaded to capacity with animals and circus novelties.

The big feature of the program is "Alice in Wonderland," described as "a colorful fantasy with four prima donnas, a singing and dancing chorus, hundreds of animals and almost countless people." The four corners of the earth were combed for novelties for this extravaganza, the press agent declares, and the music and dances were especially arranged for the spectacle.

"Tusko the mastodon," a pachyderm that stands a foot taller than did the famous "Jumbo," and weighs ten tons, is the kind of the Barnes menagerie. Twin baby elephants a year old will have an especial appeal to children as will a dozen or more baby animals of various kinds, including the world's smallest horse.

There are 110 acts in the Barnes program, the thrills being provided by the hundreds of fierce jungle-bred lions, tigers and leopards. Acts offered exclusively by the Barnes circus show educated rabbits, reindeer, ostriches, kangaroos, okapis and llamas.

S. M. U. FINDS AUSTIN COLLEGE HARD TO BEAT

DALLAS, Oct. 12.—Untried in its two preliminary games by weak defenses, S. M. U. got the first shock of its season Wednesday when the Mustangs to eleven first downs and a 3-3 score until the last few moments of play, when Henry's block of Saxon's punt and Daniel's recovery, enabled the locals to defeat the Kangaroos, 10 to 3.

The close game so near the big intersectional battle with the Missouri School of Mines Tuesday at Fair Park Stadium, left Coaches Morrison and Treeland little time in which to develop the punch the team requires to get through the line that held Washington university last Saturday or bring up the interference which the Mustangs ran poorly against Austin college.

CENTRAL CHURCH TEACHERS MEETING CALLED OFF

The regular weekly meeting of the teachers and officers of the Central Church Sunday school will be called off tonight on account of the revival service at Lindsay Mission in the Lackland addition.

HERRICK TRIAL

(Continued from page one)

and vice president of the Security National bank of Dallas was the first witness called.

He said that he was a stockholder in the First National bank of Ranger until it suspended business. He testified that Hedrick made loans from the Security National bank from time to time and that these loans often ran as high as \$30,000 or \$40,000. A note for \$100,000 was presented by the defense attorneys and was identified by the witness, who declared he recalled the transaction for which the note was given.

Tells About \$30,000 Note.
Edwin Hobby again took the stand when court reconvened at 2 o'clock Thursday afternoon. In reply to questioning by attorneys he described the arrangements made by Hedrick with the Dallas banks concerning the \$30,000 note. Hedrick wrote a check for the amount and this went back into the Central State bank of Dallas, the witness said. The president of the Central State bank agreed to charge a \$24,000 note back to the First National bank of Ranger.

The witness testified further that when the Ranger bank became bankrupt, he, the witness, owed the bank about \$15,000. Hedrick in turn owed the Security National bank of Dallas, of which the witness was vice president, \$100,000. Hobby bought 200 shares in the First National bank of Ranger, paying \$235 per share for the first 100 and \$150 per share for the second 100 shares.

J. F. Dreinhofer was again called. He testified that he became a director of the First National bank of Ranger in 1917 or 1918, but could not remember the exact date.

Got \$1,000 a Month.
James A. Graham, of Brownsville, a former justice of the court of civil appeals and father-in-law of the de-

pendant, testified that he went to Ranger and purchased one-tenth of the \$100,000 capital stock of the First National bank of Ranger. When the capitalization was raised to \$200,000 he purchased an equal amount of the additional stock at \$150 per share. The witness made his home with his daughter and the defendant.

On cross-examination Graham declared that he made a sacrifice to go to Ranger as legal advisor for the bank. He received a salary of \$1,000 per month for his services, he said, but could have made more elsewhere.

The witness also declared that he would not swear that he did not threaten to sue David Murphy, national bank examiner, who became the receiver of the bank, for approximately \$5,000 which he alleged the bank owed him for his services and which Murphy refused to pay. The witness owed the bank more than \$22,000 at the time it discontinued business but since the bank's debt to him was for personal services he declared that he felt he should receive it, since he had lost everything in the bankruptcy.

Judge James C. Wilson reprimanded the witness for answering more than just the questions propounded. He ordered the witness to obey the rulings of the court.

FOUR BOYS GIVEN SUSPENDED SENTENCE FOR THROWING DICE

Dice and some small change were found on four boys, between the ages of 16 and 19, late yesterday afternoon by Deputy Sheriff Haden Neal. All of the boys attend Ranger high school. The deputy sheriff found them in a corner of the city athletic park, where the game was said to be proceeding.

Justice J. N. McFater heard the statements of the boys and fined them \$21.90. He afterwards suspended the fine on condition that they leave dice alone.

FOR CONSTIPATION

Black-Draught Recommended by an Arkansas Farmer Who Has Used It, When Needed, for 25 Years.

Hatfield, Ark.—Mr. G. W. Parsons, a well-known farmer on Route 1, this place, says: "I keep Black-Draught in my home all the time. It is the best all-around medicine I have ever found for the liver and for constipation. We began using it 25 or more years ago and have used it whenever needed since. I have never found any other medicine as good for constipation, and that was what I suffered with till I began using Black-Draught. Black-Draught corrected this condition, and now we use it for the liver and for indigestion—a tight and sluggish feeling after meals, for bad taste in the mouth and sour stomach.

"My wife uses it for headache and biliousness. It sets on our shelf and we don't let it get out. It has been a great help to us. I believe a great deal of sickness is caused by hurried eating and constipation, and Black-Draught, if taken right, will correct this condition."

Get Theford's, the original and only genuine Black-Draught powdered liver medicine. Sold everywhere. NC-150

FOOD RIOTS OCCUR IN SECTIONS OF BERLIN

BERLIN, Oct. 12.—Food riots occurred this morning in two of the densely populated sections of the city, where the population is without potatoes or meat. In both instances the leaders in the disturbance were unemployed and were accompanied by many women.

TEMPLE.—The Northwest Texas convocation of the Protestant Episcopal church will be held here Oct. 14 and 15. The district includes a number of counties in this section. Bishop George H. Kinsolving of Austin, will be one of the prominent figures at the conference.

CHAMBERLAIN'S TABLETS

ROBS CALOMEL OF NAUSEA AND DANGER

Medicinal Virtues Retained and Improved—Dangerous and Sickening Qualities Removed. Perfected New Tablet Called "Calotabs."

The latest triumph of modern science is a "de-nauseated" calomel tablet known by the drug trade as "Calotabs." Calomel, the most generally useful of all medicines thus enters upon a wider field of popularity—purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headaches and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the most successful remedy, but its use was often neglected on account of its sickening qualities. Now it is the easiest and most pleasant of medicines to take. One Calotab at bedtime with a swallow of water—that's all. No taste, no gripping, no nausea, no salts. A good night's sleep and the next morning you are feeling fine, with a clean liver, a purified system and a big appetite. Eat what you please. No danger.

Calotabs are sold only in original, sealed packages, price thirty-five cents for the large, family package; ten cents for the small, trial size. Your druggist is authorized to refund the price as a guarantee that you will be thoroughly delighted with Calotabs.—Advertisement.

BRECKENRIDGE AND EASTLAND SEVERELY TROUNCED LAST WEEK BY ABIL-HIGHS MEET IN EASTLAND

Eastland Mavericks and Breckenridge Dynamos are playing their annual game at Connellee park tomorrow afternoon. The Mavericks were severely trounced last week by Abilene, but have not become discouraged according to word from the Eastland camp.

Two years ago Eastland walloped Breckenridge and last year lost by a close margin.

The Difference in a Pint of Milk and a Pint of Cream

It's true they both look alike in the bottle—from the outside. They both weigh alike—and both are BUT— There's a difference in the milk and the cream. AND— There's a difference in the price. SO IT IS WITH AMERICAN BEAUTY BREAD. Most Bread looks alike in the wrapper. Most bread weighs about the same. Yet the American Beauty Bread is like the cream—it costs more but is worth more. Milk won't satisfy you when you want cream. Ordinary bread won't satisfy you when you want—

AGRICULTURAL PRODUCTS OF TEXAS IN 1923 CLOSING TO EIGHT HUNDRED MILLION DOLLARS VALUE

The value of the agricultural products in Texas during the present year 1923 will run close to eight hundred million dollars, according to Stuart McGregor, statistical editor of the Dallas News, who, writing in "Texas Opportunities," says:

A glance at the reports of state and federal marketing agencies should convince the most skeptical that the wave of propaganda for crop diversification which swept Texas several years ago has had a very considerable effect. Excluding the major crops, such as cotton, corn, kafirs, rice, oats and wheat, Texas soils will produce in large commercial quantities during the current year more than 35 different crops of subtropical and temperate zone fruits, vegetables, nuts and other products.

Estimates Are Low.
Because of rapid fluctuations of market quotations, the values of these small crops are estimates at best, but the total will undoubtedly be upward of \$250,000,000. This amount of money derived from small crop production in Texas is higher than the total agricultural production values (on a basis of 1922 estimates) of 35 different states of the union. As for total crop values of Texas, the figure will not be far from \$800,000,000, placing Texas first in rank for the fourth successive year. This estimate is about \$85,000,000 above the total crop value of Texas last year. The cotton crop will be slightly larger than that of last year and bring a better price, while wheat and oats yields are considerably in excess of the yields of 1922. Vegetable markets have held up better this year than they did during 1922, particularly the tomato and cabbage markets. A very sizable revenue will be added to this year's total of crop values by the production of an estimated 340 carloads of pecans, as against a bare 28 cars during the 1922 season.

Acreage Gains Little.
It is noteworthy that acreages and productions of Texas' major crops, including cotton, corn, oats and rice, have not increased greatly during the last 10 or 15 years. The enormous increase in annual crop values, amounting to several hundred per cent, has been due to expansion of

the minor agricultural industries, and the introduction of various new crops. (This takes into consideration, of course, the process of inflation).

Ten years ago Texas produced an inappreciable amount of kafirs and milos; today the production averages about 52,000,000 bushels annually. There has been great development of truck growing in East Texas, the coastal plains, the Rio Grande valley and the west cross-timbers section lying west of the black land belt in Central Texas. There has been great development of the spinach and onion growing industries in South Texas, and the citrus fruit industries have begun production on a commercial scale. The fig crop is now of considerable proportions, due to the increase of urban population and the erection of preserving plants. Better market services, better crating and packing methods, and better shipping service out of East Texas have served to put tomato, potato, sweet potato and peanut production on a more businesslike basis.

Apple Production.
The apple orchards of Mid-West Texas and the upper Rio Grande and Pecos valleys are beginning production. The tendency of producers of honey, sorghum syrups and canned goods to standardize their products is assuring a more stable market.

The increase of city population in the Southwest, the adoption of more businesslike market methods and better facilities for express shipments to the great northern consuming centers have made possible at least a partial realization of the dream of the "diversificationist," who began spreading his multi-crop gospel 15 or 20 years ago and has not ceased since. In fact, the farmers are out-realizing the former propagandists in some respects, for diversification was first preached with the idea of production of food and feedstuffs for home consumption when there was a failure of the "money crop," cotton. But Texas farmers are making "money crops" of their vegetables and fruits—and "big money" crops at that.

Texas, with California and Florida, enjoys the advantage of producing table stock for the early market,

instead of producing in bulk for the manufacture stock market, which takes the late season products. However, the production on a large scale of tomatoes and other vegetables for late season consumption as manufacture stock is feasible as a supplement to the early crop production, and the future will probably see the establishment of many big canning and preserving factories in Texas.

Texas Products.
Texas crop productions for 1923, as accurately as can be estimated from daily and weekly estimates and reports of freight movements issued by the United States department of agriculture and the state markets and warehouse department, are given below: Apples, 301,000 bushels, barley, 2,340,000 bushels, beans (snap) 420,000 hampers, broom corn, 5,300 tons, cabbage, 1,279 carloads of 12.5 tons each, cantaloupes, 400,000 crates, corn, 85,640,000 bushels, cotton 3,772,000 bales, cotton seed 1,600,000 tons, cucumbers, 206,000 hampers, kafirs, milo, fetteritas and other grain sorghums, 43,682,000 bushels, hay (tame), 680,000 tons, hay (wild), 187,000 tons, oats, 51,250,000 bushels, onions, 3,014 carloads, peaches 1,667,000 bushels, peanuts 89,019,000 pounds, pears 317,000 bushels, pecans 10,500,000 pounds, potatoes (white) 1,750,000 bushels, potatoes (sweet) 6,584,000 bushels, rice 5,058,000 bushels, rye 168,000 bushels, spinach 2,032 cars, sorghum syrup 2,250,000 gallons, tomatoes 290 cars from Rio Grande valley and 960 cars from East Texas, mixed vegetable shipments 1,400 cars, watermelons 5,200 cars, wheat 16,370,000 bushels.

Karo Is Excellent For Pie Fillings

There is scarcely a pie made which does not need some kind of sweetening and there is an excellent flavor, quite distinctive in its way, which can be had by using Karo. Not only can pies be flavored in this way, but also those delicious Banberry Tarts, which many housewives use as delicacies.

Banberry Tarts, Pie Crust Dough.
Filling—1 egg, 1-2 cup sugar, 1-2 cup Karo (red label), 1 tablespoon Mazola, 4 crackers, 1 cup raisins, chopped, 1 cup nuts, chopped, grated rind and juice of 1 lemon.

Cook sugar, Karo, Mazola, raisins and crackers until thick. Add egg slightly beaten. Remove from fire and add lemon juice and grated rind and nuts. Roll pastry one-eighth

BRITAIN'S WAR PREMIER TOURS AMERICA

David Lloyd George and daughter.

Here is a striking close-up of David Lloyd George, Great Britain's war premier, and his daughter, Megan, his inseparable companion, snapped as they rode up Broadway between human walls, upon their arrival in New York for an American tour.

inch thick and cut 3 1-2 inches long by 3 inches wide. Put 2 teaspoons of the mixture on each piece, moisten edge with cold water half way round, fold over, press edges together, and bake in moderate oven.

WICHITA FALLS. — Nothing stays out of court these modern days—not even a sewing machine.

Two men were recently hauled into court and fined \$10 and costs for fighting. They were both claiming the same sewing machine and that one was the landlord and the other the renter. The court thought the fine settled it until the renter's wife came in saying the landlord had the machine and she wanted help in getting it back.

HERE IS INVENTION WHICH SHOULD POSSESS MERIT

VIENNA (By mail to United Press).—An Austrian inventor has built an electric chair for the express purpose of electrocuting common, ordinary houseflies.

The contraption—on display at the Vienna fair—draws the flies up to it by means of an electric light. When the flies light on a charged wire they are immediately electrocuted. The machine is encased in a protecting framework so that it can-

not harm careless children or careless grown-ups. The inventor claims that the electric chair, left overnight in a roomful of flies, will draw every single one of them into its death trap.

It is pointed out that his method is the sanest on record—practically instantaneous and painless, leaving no smelly fly corpses about the place. The dead flies drop into a chute and then into a drawer, and may be emptied at intervals.

BUY IT IN RANGER

Such flavor and crispness!

Why—that's what has made Kellogg's Corn Flakes the largest selling ready-to-eat cereal food!

No other corn flakes are like Kellogg's Corn Flakes! Put them in comparison with any others. Compare the flavor and crispness of these extra-substantial flakes!

Prove it all by buying a package of Kellogg's Corn Flakes to-day! Nothing could taste finer right now. MONEY BACK from the grocer if you do not agree with me that Kellogg's Corn Flakes are the most delicious you ever tasted.

Texas also buys great quantities of our Kellogg's Bran, Cooked and Kibbled, and Kellogg's Shredded Whole-wheat Krum-Bles.

SATURDAY EVENTS.

Public library opens 10 to 12 and 2 to 6 o'clock, Marston building.

MRS. NEWNHAM GIVES INFORMAL LUNCHEON.

Mrs. Ray Newnham entertained informally at luncheon on Thursday

the guests being Mmes. L. H. Flew-ellen, S. P. Boon, T. L. Lauderdale, M. K. Collie, Sandford Terrell, and Hall Walker.

MISS FROMER HONOR GUEST AT PARTY.

Mr. and Mrs. H. T. Carpenter entertained delightfully Thursday evening with a "500" party in honor of Miss Edna Fromer. There were three tables for cards and decorations were all Hallow'en suggestions. Following the game a delicious salad course was served. The guest prize was presented to Miss Fromer. First prizes went to Mrs. G. P. McCobb and Mr. R. E. Davis and low prizes

were awarded Mr. and Mrs. W. C. Rhodes.

Those present were: Mr. and Mrs. R. E. Davis, Mr. and Mrs. B. C. Bloodworth, Mr. and Mrs. W. C. Rhodes, Mr. and Mrs. G. P. McCobb, Miss Edna Fromer and Mr. W. W. Yocum.

The rehearsals are progressing nicely for the Merchants' Carnival to be held in the new high school auditorium tonight. Over 125 people are to take part in the exercises. All home talent. Lots of fun, a fine program this evening. Benefit Ranger schools, library, etc. Seats only 20c and 30c.—Advertisement.

SHRINE HOSPITAL FOR CHILDREN AT DALLAS NEARING COMPLETION

Special to the Times

DALLAS, Oct. 12.—Hella Temple Children's hospital, which has been in the course of construction at Dallas for over a year, is nearing completion. Recent announcements indicate that the hospital will be dedicated on Thursday, Nov. 15, which date falls during the progress of the Scottish Rite reunion. Elaborate plans are now being worked out for one of the most interesting Shrine and Masonic gatherings ever witnessed in North Texas. Prominent speakers will tell of the aims and purposes of the Hella Temple Children's hospital and Shriners from every section of North Texas will be present to witness the beginning of this wonderful institution.

The Hella Temple Children's hospital is to cost over \$250,000 and was built by an appropriation from Hella Temple and through the generosity of its members in making individual contributions. The hospital will be maintained by Hella Temple and its members.

The fall ceremonial of the Dallas Shrine Temple will be held two days later, Saturday, Nov. 17, and coincident with the opening of the hospital the officers of Hella Temple are now engaged in organizing an extraordinary large class of candidates for the occasion.

Only charity patients will be admitted to the Shrine hospital and without regard to nationality, religion or fraternal affiliations of the parents, the only requirements being that the child must be correct mentally and under 14 years of age.

Pending the erection of the hospital, Hella Temple has, during the past two years, maintained a clinic for the treatment of crippled children. Four hundred cases have been handled in this manner, some 300 of which have required operations, most of which have been done successfully.

PRESIDENT COOLIDGE REGARDS CONDITIONS GOOD

WASHINGTON, Oct. 12.—Although not desiring to pose as a prophet, President Coolidge regards business future of the country as promising and looks for a continuance of present conditions, which he believes to be good.

With the present condition of mind existing in Europe, he sees little to be gained in holding a world economic conference. The views of the president were obtained today when the attention of the White House was called to the advocacy of an international conference by Senator Copeland, Democrat, of New York.

THORP SPRINGS.—A campaign for raising \$100,000 for improvements at Thorp Springs Christian college has been launched by officials of the school. Improvement plans call for a new girls' dormitory and permanent buildings at the annual encampment grounds.
