America Must Nationalize or Sell Its Ships, Declares Shipping Head

PARIS, Feb. 26 .- Syndicalism threatens to appear in the French railway strike situation, which is very grave. Demands that all the railroads be nationalized are being made by the strike leaders who are continuing their efforts to stampede all railroad workers in the country into the strike which began with a walkout of employes of the Faris, Lyons and Mediterranean

In the provinces, the movement is looked upon as revolutionary instead of professional by the authorities, according to Echo de Paris. All arrange-ments to insure the delivery of food supplies to this city have been made by the government and municipal officials have tak-

en similar steps. The question of placing the railroads under military control as Premier Briand did in 1910 is being considered but the newspapers say that such a grave decision would be impossible in the absence of Premier Millerand.

CASPER, Wyo., Feb. 26 .-Armed guards last night patrolled the oil fields of the Salt Creek district, said to be, the richest oil field in the Rocky moutain states, to prevent claim jumping on the first night after the release of lands under the national oil leasing bill signed by President Wilson yesterday.

Raw winds sweeping across the frozen country did not deter the claimants of lands. Automobile headlights, turned into searchlights, served the mounted men who rode into the country, following every suspicious move-ment of unidentified persons.

A considerable part of the land is partly developed and claimants are anxious to prevent outside parties from erectingderricks during the night, thus initiating long litigations over the title to the land.

I PADEREWSKI'S CAREER HAS COME TO CLOSE

The Guaranty State Bank of Necessity, in Stephens county, which recently opened for business, was robbed Wednesday by two armed bandits, who secured \$1,400

Instead of obeying the command, Ennis dodged back, stepped outside the doorway and ran across the street, where he gave the alarm.

Seeing that they were discovered, the bandits walked cutside and coolly mounted their horses, taking with them about \$1,400, and rode up the street. A man rushed out into the street waving a gun when the robbers were about fifty yards away, but he made no effort

An automobile was secured and a hastily formed posse started in pursuit. Some distance from town the posse got close enough to the bandits to exchange shots with them, but the bandits turned off the main road. When the car attempted to follow it stuck in the mud

and could not be moved. The posse had to return to town and secure horses to take up the pursuit. Officers were summoned and are scouring the woods and hills in search of the two men.

Several thousand dollars were in the safe at the time of the robbery.

Yesterday afternoon word was received in Breckenridge that a posse had the robbers surrounded in a thicket near the Parks field. Several carloads of citizens, heavily armed, left Breckenridge to aid in capturing the pair. At last account they had not been apprehended.

Al Hastings Gives Stout Denial to Malicious Rumor

Rumors which appear to have been started maliciously, to the effect that the McCleskey cafe would be closed, were denied again by Al Hastings last night, when the lumbermen of the city gathered at an organization banquet at the McCleskey cafe. Display notices, which he used in the Times to counteract the report, were posted on the walls of the cafe. Nothing to it," was Al's reply to the

OIL-OIL-OIL

A GUSHER

Expected at Any Hour Make Your Million Now

Comanche Oil Association's Sturki well No. 1, in Comanche County, fifteen miles south of Dublin and three miles east of Hasse, Texas, on the Frisco, is in the Black Lime. The well may blow in a gusher

Offset acreage—all that is available—150 acres is offered in blocks of five acres at \$150.00 an acre. Prices not guaranteed and subject to momentary advances. The acreage for sale only by owners. The above acreage was offered ten days previous to the 18th at \$40.00 an acre. An advance of almost 4 to 1 in a week's time. All those who bought interests in WIN OR LOSE NO. 2 last week are happy and well pleased.

Every Man in Ranger or Reader of This Paper

is offered another opportunity to speculate in offset lease acreage about the Sturki No. 1 well.

Oil in the Black Lime

and if every person who doubts our sincerity will call at this office we will show by demonstration and acid test the oil in the black lime in the Sturki well now drilling, Saturday, 21st, at 3,105 feet. To those who know—to those who do not know, ask a lime has softened up to some extent, which means very likely that the well may go into the real oil sand. It is possible that were the well shot now it would be a producer.

SYNDICATE FIVE or more acres among your friends. Call and find out from us how to do it. Don't lose this opportunity to win money for yourself by speculating in these leases.

HOW TO DO

At \$150, five acres is \$750. Each \$25 speculated is a one-thirtieth interest. Each \$50 speculated is a one-fifteenth part. Each \$150 so speculated is a one-fifth interest. GET TWELVE FRIENDS and yourself and take each a \$50 inferest, viz., \$650, and this office will take \$100; total \$750. Thus own and control the lease yourselves among your friends. WHAT WILL IT DO? We are frank. We don't know. But if the Sturki well should make another "Callahan Vestal," or even make 1,000 barrels, this acreage that sold last week at only \$40 an acre, now at \$150 an acre, will be worth with 1,000 barrels offset production at least \$3,000 an acre. Last week before the 17th, at this estimate \$100, so speculated, would represent a possible and probable and likely comparison to \$7,500. You did not get in last week. It wasn't our fault. You must now pay more or stay out. We are not spending money for expensive advertising for nothing. We repeat that if we had enough money, the offer made you here would not have been. WHY? Because we are as confident that the Comanche Oil Association Sturki well No. 1, offset to acreage above, controlled by this office, will be a producer as we are that the SUN will continue to shine for many ages.

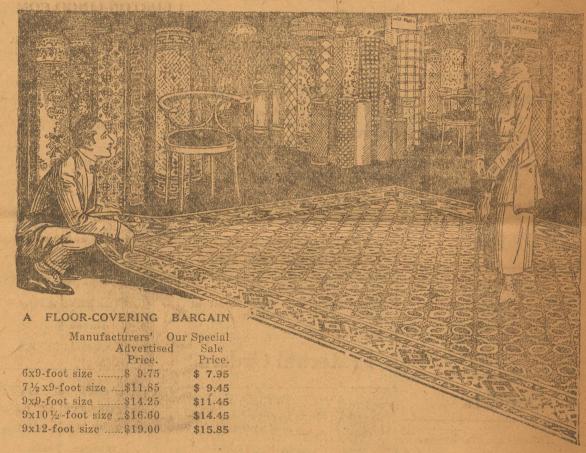

We would not be surprised if this advertisement was canceled tomorrow, next day, any day, and this office moved to HASSE, TEXAS. We know that the deeper the well is drilled now, that the nearer to oil the driller's bit goes. The acreage may be suddenly withdrawn from the market. On reports from the well it may jump to very high prices. Act on your hunch. Come in and talk it over. A delay may mean the loss of the fortune that you came to Ranger for.

If you are able, own a five acre lease. If you can put in \$500, we'll put in \$250. We came to Ranger and the oil fields to make a MILLION. We think it is our chance. It may be yours.
