SUCCESSFUL CO-OPERATION. The Brookneal, Va., Union. Star, states that the Burley Tobacco Growers' association has nearly 100,000 members. Of this year's crop of tobacco nearly 138,000,000 pounds have been received by the association, which has just made the largest single sale in its history. The Liggett & Myers Tobacco company has placed an order for 60,000,000 pounds. The recent act of congress gives association members credit facilities to the amount of \$1,000,000 and tobacco growers look forward to a very profitable year. By eliminating the middle men, and grading their tobacco this assosciation has saved millions of dollars to their members.
