Eccentric Lumber Millionaire Dies In Forest Home

MANISTEE, Mich., Aug. 22 (P)-Death came last night to Charles F. Ruggles, the last of the Michigan lumber berons, and found him in a plain little room where he had lived for years, preparing his own meals, scrubbing the floors and spending hours over kettles in which he made candy for distribution children at Christmas time.

Ruggles, at 84, died a multi-millionaire, but there was little difference in his mode of life during his last days from that of his youth when he saw and seized the oppor tunities in northern Michigan's virgin forests. When his contemporar ies in the industry went to the cities years ago and built fine homes, he remained behind, living as he always had lived, wearing moc casins and a lumberlack shirt, with no necktle beneath his long white beard.

When lumbering passed out in Michigan, he turned to salt manu facturing and until last Saturday when he was stricken ill, was ac tive every work day. He bought into the lumber industry in other states-Minnesota, the Carolinas Florida, California and much of the Florida, California and much of the huge estate he left behind is repre-Bobbitt Replies sented in these holdings.

Ruggles was born in Bangor, Maine, on March 3, 1846. His parents took hi mto Oshkosh, Wis.,

Thanks the Voters and Asks For A Second Term as Constable

I want to thank the voters of Howard county for having been permitted to serve them the past one and one-half years an Constable and also for the many courtesies shown me during this campaign.

I have made an effort to see each voter personally but I know that I have been unable to do so. I have not neglected the duties of my office to put forth a strenuous campaign ba-cause of my belief that the many duties of constable should be performed with dispatch.

My friends, I am deeply grateful for the many expression of confidence and interest that you have given me and I want to assure you that I have profiled by the experience I have gained and will strive to the limit of my ability to render more efficient service during the second term to which I aspire.

> Sincere'v JOHN WILLIAMS, (Pol. Adv.)

Take Advantage of This Low Price on a Hothoint Electric Range

During the rest of this month you have an opportunity to purchase a genuine Hotpoint electric range on very liberal terms, low enough that every housewife can have all the advantages of electric cookery. For instance, the Hotpoint Range, Model RA 34, will be installed in your kitchen for \$8.50 at the time of purchase and \$7.50 a month payable with your electric bill.

These ranges, built to last a lifetime, will end once for all many discomforts of kitchen work. The advantages of electric cookery are so numerous that it is small wonder that meals are cooked electrically in more than 2,500 homes served by the Texas Electric Service Company.

See the Hotpoint electric ranges in our sales office, especially the liotpoint RA 34, a type of automatic electric range that is ideal for the average home. We will give a liberal allowance on your old stove in trade on . a new Hotpoint rang?.

IT'S WISE TO CHOOSE A SIX

Announcing a new production record

2,000,000 Chevrolet Sixes now on the road

Since January, 1929, Chevrolet has produced and sold over 2,000,000 six-cylinder automobilesnearly five times as many as any other manufacturer has ever built in an equal length of time.

These 2,000,000 buyers have chosen Chevrolet because it offers many desirable qualities not obtainable in any other car so low in price-

-the smoothness, silence and flexibility of a modern six-cylinder valve-in-head engine-the greater comfort and roadability of a modern, full-length chassis-and the style, safety and distinction of bodies by Fisher.

full power without engine trouble, struck a changing air current as it passed from over a plowed field to a plot covered with vegetation. It was termed a "down wind slip."

Lamesa Women Have Clubhouse Valued At \$2,000 Which Cost \$200;

LAMESA, Aug. 17.-Members of Lamesa's women's social circle have their own clubhouse for use in entertaining visitors and for their club members. Ends Long 'Roost' The building was crected here in 1920 and served as a club-

house for a group of Lamesa boys who called themselves Liontamers. The building they used was constructed with funds donated by business men and it was situated almost in the business section.

Equipment in the clubhouse consists of comfortable chairs, book shelves, wall seats, bridge tables and a piano. The kitchenette has an electric stove, china for serving sixty people and table silver and glasses. Trees and shrubbery has been planted and walks laid and the grounds are being improved each year. Lights, water and fuel are furnished by Lamesa utility companies free of charge.

According to one of the clubwomen, the house was purchased for about \$200 from the original owners. At present, with the addition and with the equipment and lot, the clubhouse is valued at considerably more than \$2,000.

House and grounds committees keep the place in order. They take care of the building, trees, lawn and shrubbery.

Blistered Youths Enter Second Day Of Putt Marathon

Three blistered youths, forgot all about stance today, and were putt-putting against time only-intent on bringing to the West Texas Miniature Golf Course the record for non-stop

midget golfing. A field of five that started at 7 o'clock Monday morning, had dwindled to three at 2

o'clock this afternuon. As Tuesday morning rolled around R. W Earnest became ill and left the putter marathon to his friends. J. W. Hull followed in his wake. He warn't

Ill. He was just plain tired. This afternoon Smitty Smith, Tommie Roberts and Joe "Red" Except were still walking and knocking, but gone was the interest in the game. Departed was the viger and the amiles that marked the first day's

play: The tris, hot and bothered footsore and putt-putt minded, plotted on, playing the course hole after hole and not caring whether it took-one or ten. In fact the holes under the shade did take-ten at times.

At two o'clock this afterne the three youths had played 31 hours-long hours.

Not that if mattered at all, but Smitty Smith, Tommie Robarts and Red Earnest had putted around the course 141 times. At 18 holes a round, they had accomplished the feat of playing 2,538 holes continuously Smith, since he started the business Morday morning, has sunie 75 holes in one. Earnest was eight behind with 67 and Roberts was low with 58.

They are endeavoring to smash the record of 90 hours at Sweetwater.

The old wdage of the first hundred years are the hardest, was applied to the first night spont on the West Texas course. Battling sleep, the three remaining ones came through and could see no advantage at all in "waiting for the sunrise."

As one of the endurance golfers put it, "yeah, we're daneing with blears in our eyes." However, under the hot afternoon sun they were still putting, with scorekeepers dogging their tracks. If they missed, what of it? If they didn't, still what of it? One of the boys was playing with a towel turban and a black hat combination, an improvised sunshade The others were going as they started-sleeves rolled up, arms sunburned, faces the same, and feet and hands just a little weary of the deformed
