'MOB THREAT BROUGHT CONFESSION'

NEW FIRE STATION, EAST SIDE

Estep Blaze Leads to Move for Better Protection in the Residence District.

A station of the fire department will be established on the east side of the city, in the Young addition. This action was decided upon at a meeting of the city commission yesterday afternoon and Chief Charles L. Buttomer was instructed to see what arrangements could be made for temporary quarters. The station to be created will be equipped with one engine and two men will be on duty. Several offers have been made the department for free quarters on the east side.

The request of Chief Buttomer followed the fire yesterday wherein the Estep grocery was a heavy loser. It was pointed out that if connections could have been made by apparatus in that neighborhood much of the damage could have been averted.

The city commission has planned for months for the erection of a sub-station in the eastern section of the city and has purchased a lot for that purpose with the intention of building a fire house. These plans have been delayed through lack of funds.

FARMERS HAND HARD WALLOP TO RESERVE BANKS

Charge Support of Basic Industry Was Deliberately Withheld.

WASHINGTON, Oct. 13.—General bankruptcy and ruin are inevitable unless an immediate remedy is found to relieve the present price situation as it affects the farmer, according to a report submitted to the agricultural conference here today and adopted without a dissenting vote.

The general committee which made the report blamed the federal reserve system for present prices, charging that it arbitrarily withheld assistance to the basic industry of the country necessary to maintain price levels which would at least meet the cost of production.

Declaring the state of mind of the farm population is "ominous," the committee says, "this state of mind can only be changed by a frank and fair attitude on the part of those in authority—the test of which can only be their cast. Representatives of farming interests all over the country are here at the conference, which hopes to devise means of checking the downward trend of prices. They expect to protest the currency deflation policy of the treasury department and appeal for a more liberal policy on the part of the federal reserve board.

Baptist Minister Accidentally Shot at Weatherford

Special to the Times. WEATHERFORD, Oct. 13.—Rev. W. A. Reynolds, a Baptist minister, accidentally discharged a shotgun into his abdomen Monday evening about 8 o'clock, and is now confined in the local sanitarium. Fears are held for his recovery, from a visit to a neighbor's home, and in entering the yard Mr. Reynolds noticed a rabbit out the back and securing his shotgun, which was a small affair, a No. 14, fired at the animal. Missing on the first shot, he attempted to crawl through a wire fence to secure a second shot. The gun caught on the wire and the contents were emptied in the right side of his body. He was hurriedly carried to the Leach sanitarium where an operation was performed, which revealed that a portion of the liver had been shot away, but none of the shot entered the intestines.

M'SWINEY'S MIND NOT SO CLEAR, SAY IRISH

LONDON, Oct. 13.—Lord Mayor McSwiney did not have a good night at Brixton prison, according to a bulletin issued today by the Irish Self-Determination league. The bulletin declared the doctor in attendance found him perceptibly weaker this morning and that his mind is not as clear as it has been since he began the hunger strike. This is the sixty-second day of the hunger strike.

Cotton Gins Suspend. LAVACA, Ark., Oct. 13.—After being warned to close down properties for sixty days or until prices get higher, owners of two cotton gins here today suspended operations. The warnings are the first indication of the existence of "night riders" in this section.

'NOBODY KNOWS NOTHING' ABOUT CAMPBELL CASE

Pall of Secrecy Hangs Over Killing of Roadhouse Proprietor.

The events surrounding the killing of Jack Campbell Sunday night at the "Stone house," two miles east of Eastland, remain shrouded in mystery.

All that has been learned thus far is that two men and a woman were placed under arrest. The sheriff's department declares that it has no information. A rumor in Ranger is to the effect that the man who managed the place for Campbell also has been arrested.

It is also rumored that Campbell had a large sum of money on his person before he was killed but it could not be found after his death. This leads to the belief that the killing was the work of hijackers.

Arrested in Ranger.

J. E. Miles and R. W. Myer, the two men who were arrested and detained in the case, were arrested in Ranger about three hours after the killing of Campbell at the road house, on charges of disturbing the peace. They made a cash appearance bond and were released. When they appeared in the police station for trial they told Chief of Police Cooper that they had to go to Eastland to make a statement before the county attorney. Because he was personally acquainted with one of the men, Chief Cooper surrendered them their bonds.

Following this action they went to Eastland, then returned to Ranger, where they were arrested in connection with the killing. They are said to have had quite a sum of money on their person when taken the second time. When arrested by the Ranger police the men were roughly dressed. When their bonds were surrendered they wore good clothing.

"The woman who was arrested with them is quoted as saying "that they would fix the law."

Campbell was killed Sunday night just as he stepped inside the door of the "stone house." He had been to Eastland to send his wife and daughter to Fort Worth. In Eastland on Monday one man expressed the belief that the killing was the result of a gangster's feud.

Both Campbell and the place he operated was well known.

HAMILTON'S PRISONER JUMPS TRAIN

J. B. Pendleton, Burglary Suspect, Hops Through the Window.

By climbing through the window of the dressing room of a fast moving train and jumping to the ground, J. Pendleton, said to be wanted in Ranger for burglary, escaped yesterday from the C. C. Hamilton, a local officer. Mr. Hamilton was bringing the man from Grand Junction, Colo., where he had been arrested on information from the Ranger police department. Pendleton made his escape somewhere in New Mexico.

According to the officer, the man requested that he might be allowed to go into the room for a moment. His request was allowed. After waiting for a short interval the door was opened and the prisoner gone.

Pendleton is supposed to have been implicated in the robbery of several stores in Ranger.

LANCASTER TO NEW YORK, LUNCH OFF

Believed T. & P. General Manager Is Conferring on New Station.

The proposed luncheon to be given James L. Lancaster, general manager of the Texas & Pacific railroad by the Chamber of Commerce, has been postponed indefinitely. A wire received from Mr. Lancaster states that he has been called to New York for a conference with the president and auditors of the road.

This conference local people take as a good omen. From its results it is believed a new station for Ranger will evolve.

Mr. Lancaster promised a delegation from the Chamber of Commerce that they would know in ten days the decision of the company regarding a new depot here. This promise was made nearly two weeks ago. The luncheon was being planned to receive the decision.

West Needs Rain. FORT WORTH, Texas, Oct. 13.—Low water was reported in many sections of the range country this week, according to field reports to the Texas Cattlemen's association headquarters here.

Don't Shoot! I'll Come Down!

BY MORRIS

Curb Market for Licker in Manhattan

By Associated Press

NEW YORK, Oct. 13.—Frank Boyd, supervising prohibition officer of New York state, has received orders from Washington to investigate reports of the existence of a "cure market for contraband liquor in the Bowery district, it was learned today. According to published reports the liquor traffic in this section has become so thriving that bands of bootleggers "hit upon the plan of modeling a market after the curb markets in the financial districts.

Within a short distance of police headquarters large transactions have been made recently, according to the reports, actual supplies of liquor being kept in automobile trucks elsewhere in the city ready for immediate delivery.

CHINESE GENERAL OVERTHROWS REPUBLIC, PROCLAIMS MONARCHY

By Associated Press

SHANGHAI, Oct. 13.—General Chang Tao Lin, governor of Feng Tsin, has overthrown the Peikin government and proclaimed the restoration of the monarchy, according to a rumor in this city. The rumor is not authenticated and no details have been received here, but Chinese officials are deeply stirred.

Chang Tao Lin was probably the strongest military leader during the recent conference between the Chi Li and An Fu parties and played a leading part during that trouble. He was accused of being a fool of the Japanese.

COOLIDGE REFUSES TO PROCLAIM 'LEAGUE OF NATIONS DAY'

BOSTON, Oct. 13.—A request by the League of Nations League Day Committee here that the governors of all states proclaim Sunday, October 24, "League of Nations Day," to promote better understandings between the governments and instill a better understanding of the covenant, was refused today by Gov. Coolidge.

AUSTIN, Oct. 13.—Permit to file a petition for a writ of mandamus, the effect of which will be to test the question whether the pledge to support nominees at the Democratic primaries shall be binding to the individual voter subscribing thereto, was granted today by a majority of the Texas supreme court, with Chief Justice Nelson Phillips dissenting.

SCOTTISH DISTILLERS CLAIM AMERICAN BUSINESS GREATLY INCREASED BY PROHIBITION

By Associated Press

EDINBURGH, Scotland, Oct. 13.—Advertisements appearing in Scottish newspapers in which distillers claim their American business has been greatly increased since prohibition went into effect will be brought to the attention of the United States department of justice, William E. (Pussyfoot) Johnson declared in an address here last night. Johnson is actively engaged in working for prohibition in Scotland, and an election is to be held there this winter.

Johnson charged that if the distillers told the truth in their advertisements they were violating the laws of a friendly nation.

DRIVER HURT WHEN TRUCK OVERTURNS

With his head badly injured and other wounds about his body, Lewis Dunbar was brought from Cisco to the Ranger hospital last night. His injuries were caused by a truck which he was driving overturning near Cisco yesterday afternoon. Dunbar and a companion, who escaped with minor bruises, were on the truck, which was heavily loaded. The rear wheel, from some cause, gave way and the machine overturned.

The injured man was carried to Cisco and placed on the train and sent to Ranger. He was met by the James-Cox ambulance and carried to the hospital.

HUNDREDS OF NEGROES MADE HOMELESS BY FIRE, GO TO PLANTATIONS

PINE BLUFF, Ark., Oct. 13.—Many of the 500 negroes made homeless by fire which destroyed more than sixty buildings, including fifty-four residences, have gone to surrounding plantations to find living quarters. Relief work is under way, directed by a committee of business men. A fund of several thousand dollars has been subscribed. The total loss is estimated at \$1,100,000, with less than one-fourth covered by insurance.

IF IT WERE A TURKISH BATH, NOW, IT WOULDN'T BE SO BAD---

By Associated Press

EL PASO, Oct. 13.—Public health officers are keeping a close watch at the international bridge to Juarez to prevent the spread of yellow fever and small pox, and persons who have spent the night in the Mexican city and return on early morning cars are examined, as possible conveyors of germs. If any of them by mishap spent the night in the Juarez city jail or bivouacked in doubtful places, they are almost certain to be shown the way to the bath house, where there is much soap, water and brushes, with force enough to see that orders are obeyed. During a campaign to keep down typhus last year more than 500 persons were bathed. Inspectors say that most men who have been drunk the night before register a complaint at the bridge that they have been "robbed" and through that means it develops that they may have spent the night in the Juarez "carcel," and immediately are led to the bath house.

FEDERAL ATTORNEY IN COAL CONSPIRACY CASES THROWS UP JOB

By Associated Press

INDIANAPOLIS, Oct. 13.—Dan W. Sims, special assistant attorney general in the cases pending against coal operators and officials of the Union Mine Workers of America, who were indicted under the Lever act last winter, has resigned, it became known today. Sims, while admitting he sent his resignation to Attorney General Palmer, declined to discuss the case today.

It is understood, however, that the action is due to a disagreement arising from the attorney general's procedure in the handling of evidence to be used in the coal cases.

Palmer Wants Reasons. By Associated Press. WASHINGTON, Oct. 13.—Attorney General Palmer today telegraphed Dan W. Sims at Indianapolis, asking his reasons for resigning as special assistant attorney general in the prosecution of the case of coal operators and miners' officials now pending before Judge Anderson.

MIMS REMEMBERS WILSON PATTED HIM ON THE BACK, BUT HE FORGETS ROBBERY; SPENT \$500, HE CLAIMS

Defense Puts Many Relatives on Stand to Prove Mims Had Periods of Forgetfulness, Was "Nervous" and "Like Wild Man" at Times.

At last, when the defense began its testimony then it appeared that the entire defense would be on the theory that if the defendant did commit the acts charged to him he was mentally unbalanced and under the influence of drink would do things indicating a want of knowledge of right and wrong.

The defense offered the defendant's father and mother and older married sister, the sister's husband, and an uncle, all of whom testified that Charlie Mims had his skull fractured at school when he was only 8 years old. That since that accident he could not learn at school, he could not and did not work in the garden or anywhere else, would become nervous at times, and under excitement would become almost like a wild man, and under the influence of liquor, which he drank sometimes, he would get beside himself, excited, nervous and wild.

Mrs. Etta Moore was called by the defendant to show that after the defendant was arrested at her house, while the officers had him in front of her house, one of them named Loyd, struck Mims with a pistol and knocked him down. This happened while the defendant was in the custody of John Blossom. She admitted that she had been arrested on a charge of felony and was then under bond.

Charlie Mims himself was called to the stand in his own behalf. His attorney asked him on direct examination only three questions. He said "I live at Fort Worth and have lived there all my life. I was in Ranger at the time in that drive. I did not rob Leon Wilson of a diamond ring."

On cross-examination the state sought to show that the defendant remembered all the incidents of his travels from Fort Worth to Ranger, to the rooming house and all about all the transactions that occurred in the cabaret and on the street. The defendant remembered being in the cabaret, remembered Wilson being there and remembered that Wilson patted him on the shoulder while his money lasted and then caused a row when Mims' money was all spent. Mims said he spent \$500 in the cabaret. He remembered that his pistol went off accidentally as he was going out of the cabaret. He did not remember shooting John Barnes at the garage across the street. He said that he made a confession to the county attorney, but that he was forced to do that; that Mr. Traxler from Fort Worth came to see him in the county jail and told him that he could take his choice, either to make the statement and confession or to be mobbed outside the jail would get him; that he believed the mob might get him; that he had already been treated very badly while he was under arrest. That they knocked him down time and again. "While under arrest at Ranger a long-whiskered man put nippers on my hands and threatened me. While having the nippers on I was knocked down two or three times," he said. He said he was sitting on the bed when the officers came into the room and arrested him; that he did not remember if his pistol was on the bed.

He admitted that he had been convicted for burglary when about 16 years old and had served a term in the penitentiary; that he had been convicted on a charge of murder and that his case was on appeal. He admitted that he had been charged with assault to murder another man and is now under bond to await the action of the grand jury of Tarrant county. This latter occurred on Saturday before the occurrences at Ranger. He said he is also charged with robbery of Cleve Barnes and Bill Edwards in the Eastland district court.

DEMOCRATIC RALLY AT CISCO MONDAY NIGHT

M. M. Crane of Dallas Will Deliver the Principal Address.

Special to the Times.

CISCO, Oct. 13.—G. Fisk, Democratic county chairman, has issued a call for a Democratic rally to be held at Cisco next Monday, Oct. 18. This meeting has been called for the purpose of creating and stimulating interest in the coming election and to stress the importance of having every man and woman in the county pay their poll taxes. A large number of the women voters of the county are expected to attend this meeting. Mrs. Hallie Jameson of Austin has written Chairman Fisk that she would be present and address the meeting, as has the Hon. M. M. Crane of Dallas. The Cisco Chamber of Commerce has appointed a committee to co-operate with Mr. Fisk in providing entertainment for those attending and an automobile ride over the city and other courtesies will be extended the visitors. Preparations are being made for a large attendance from all parts of the county. The meeting will be held at the First Methodist church at 8 p. m. A most cordial invitation is extended to every man and woman voter in the county to attend this rally. The following program has been arranged:

Welcome Address—Mayor J. M. Williamson of Cisco. Response—Judge E. A. Hill of Eastland. "The County Campaign"—W. J. Barnes of Cisco. "The District Campaign"—Joe Burkett of Eastland. "Ex-service Men"—Claude C. Wild of Cisco. "The State Democracy"—Dr. J. D. Sanderfer of Abilene. "The Educational Amendment"—Miss Hallie Jameson of Austin. "True Democracy and Cox and Roosevelt"—Col. M. M. Crane of Dallas.

Charges Coercion. On cross-examination the state sought to show that the defendant remembered all the incidents of his travels from Fort Worth to Ranger, to the rooming house and all about all the transactions that occurred in the cabaret and on the street. The defendant remembered being in the cabaret, remembered Wilson being there and remembered that Wilson patted him on the shoulder while his money lasted and then caused a row when Mims' money was all spent. Mims said he spent \$500 in the cabaret. He remembered that his pistol went off accidentally as he was going out of the cabaret. He did not remember shooting John Barnes at the garage across the street. He said that he made a confession to the county attorney, but that he was forced to do that; that Mr. Traxler from Fort Worth came to see him in the county jail and told him that he could take his choice, either to make the statement and confession or to be mobbed outside the jail would get him; that he believed the mob might get him; that he had already been treated very badly while he was under arrest. That they knocked him down time and again. "While under arrest at Ranger a long-whiskered man put nippers on my hands and threatened me. While having the nippers on I was knocked down two or three times," he said. He said he was sitting on the bed when the officers came into the room and arrested him; that he did not remember if his pistol was on the bed.

Confession Fully Clears Kidnaping Officers Believe

By Associated Press. PHILADELPHIA, Oct. 13.—Convicted that the mystery surrounding the kidnaping of Blakely Coughlin, 13-month-old son of George Coughlin, has been cleared up by confession of August Pasquale, authorities today began preparation of the case against Pasquale for presentation to the Montgomery county court.

Legal authorities say that Pasquale cannot be tried for murder, because of the absence of testimony to corroborate his confession. Coughlin said today that he is convinced Pasquale's confession is true.

Legion's New Head Has Been Sailor as Well as Soldier

International News Service
CINCINNATI, Ohio, Oct. 13.—Not many men in the American Legion can boast of having been both a soldier and a sailor, but both of these careers, professions, occupations or what you will, are written in the record of F. W. Galbraith Jr., of this city, now national commander of the American Legion. It was not, however, as a job that Mr. Galbraith adventured on the deep, but as an apprentice coxswain, third mate and finally scored mate aboard American sailing ships after graduation from the Nautical Training school, Boston, Mass., in the class of 1893. More than a score of years later when the world war came, Mr. Galbraith went into it from the land angle, and as colonel of the One Hundred and Forty-seventh Infantry, won the Distinguished Service Cross, the Croix de Guerre and the Croix de Guerre with palm for heroism in the Meuse-Argonne offensive in which he was wounded. He took part also in the St. Mihiel drive and served in the Baccarat and Ypres-Lys sectors.

Born in Watertown Arsenal, Mass., on May 6, 1874, Mr. Galbraith attended grammar school in Springfield, Mass., before going to the nautical training school. In 1908 he gave up following the sea to enter business and on returning to Cincinnati became treasurer of the Western Paper Goods company, of that city, which position he has held since 1908. He was commissioned major in the First Infantry, Ohio National Guard in 1916, and the same year was promoted to colonel. In January, 1917, he was assigned to command the One Hundred and Forty-seventh Infantry at Camp Sheridan, Ala., and remained in command throughout the war.

At the first state convention of the American Legion held in Ohio, Mr. Galbraith was unanimously elected department commander. When his successor was elected at the last convention the title of past department commander was conferred upon Mr. Galbraith and it was provided that he should be a delegate to all future conventions of the American Legion of Ohio. During the last year Mr. Galbraith, in addition to his duties as department commander also served as a member of the national executive committee from Ohio and as a member of the republican committee of the American Legion Weekly.

WOMAN IS BRUISED WHEN STRUCK BY AUTO

Mrs. Sam Apple was badly bruised last night when knocked down by an automobile at Main and Rusk streets. The accident was due to the crowded streets and no blame for the accident was attached to either party.

The driver of the car took the injured woman to her home.

Approximately 75 per cent of all war savings stamps sold by the Treasury since the outbreak of the war are still retained by investors.

NEWS NOTES FROM MOVIELAND

By Daisy

Some of the most remarkable double-exposures ever made were taken for Corinne Griffith's current Vitaphone production, "The Broadway Bubble." In the role of a twin, she brings to each sister a distinctly different characterization, for the girls were opposite in temperament. Adrienne is married and mad for a career on the stage. Her husband objects and marital infidelity follows. Then a Broadway producer offers to star her. To accomplish her ends she sends for her twin, whom her husband has never seen, to take her place in the home while she rehearses for her theatrical debut. Drama, a small town type, comes on to New York and astounding developments occur which makes the picture one of unabated suspense and gripping interest. In one of the many instances where Miss Griffith appears on the screen in both roles, a double exposure was made (as shown here) of her actually kissing herself. This motion picture feat has never before been accomplished. Other double exposures were taken of Miss Griffith which almost equaled it in technical genius.

Both of the ladies in the picture are Corinne Griffith.

Tom Moore's next Goldwyn picture will have the title "Made in Heaven."

Carmel Myers, Universal star, has a bathing suit which she wears into the water.

Lois Weber is the first woman director in the cinema field to have her own studio.

GOSSIPY BITS.
Appearing in the supporting cast of Eugene O'Brien's next picture "The Wonderful Chance," are Martha Mansfield, Warren Cooke, Joe Flanagan and Tom Blake.

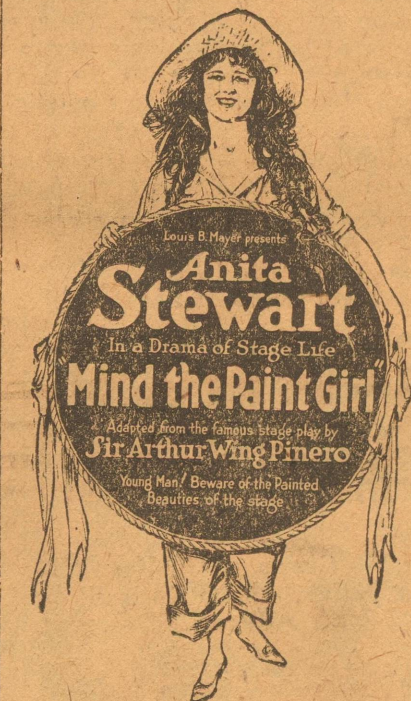

Kathleen Kirksham has an important

OPERA HOUSE.

How Long Does a Week-End Last? What is the proper definition of a week-end? Is it Saturday noon to Sunday night? or would you say Friday evening till Monday noon? It all depends on who stages the party.

One week-end party came to an untimely close on its first night, Friday, all because of an unpremeditated kiss. Things didn't run along smoothly for the man after that, and Dame Gossip got busy. As a result a harmless-looking fortune-hunter almost saved the girl's family reputation by marrying her himself.

When it came to a choice of which to take, the man she loved—but alas! that one had forgotten the proper preliminaries to a kiss, and was now in disgrace—or the one she didn't love but whom it would not hurt her pride to accept—but I'm not going to spoil a perfectly thrilling photo-novel, which is a credit to George L. Cox, the "Flying A" director. See "The Week-End" at the Opera House, three days, beginning Friday.

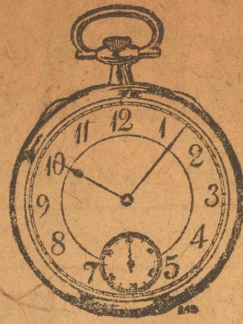

Eastside Theater

Tonight

JOHN DOE WAS IN AGAIN; DRUNK AGAIN

John Doe was arrested again last night, and as usual, he was charged with drunkenness. John gets in all most every night but from now on he probably will be more careful. It is the ruling at the police court that fines be raised \$5 for each additional time the same prisoner comes into court, until the limit of \$100 has been reached. Under this ruling John has been to the "hoose-row" often enough to draw a fine of \$1,000,000 if that amount could be assessed. However, it is expected that he will only get the limit the next time he is haled into court.

First American Bolshevik Can't Get Back to U. S.

LONDON, Oct. 13.—John Reed, American Bolshevik, writer and the first agent the Reds attempted to establish in America, took a prominent part in the activities of the "Third Communist International" held in Moscow in July.

The Associated Press correspondent who recently crossed Russia talked to Reed at the Bolshevik foreign office in Moscow the day before the session began. Reed stated that he was one of the first accredited American delegates to the "Third International." It has been stated that Reed was elected by Russians in Moscow to "represent American communists in that convention."

During the first session Reed made a speech as a representative of the American communist party. He told of the work of the communists in America and of what he considered the wrongs in the American system of government.

Early this year Reed attempted to return to the United States, but was arrested by Finnish authorities as a Bolshevik agent and was confined in prison in Finland for three months. He had attempted to travel through Finland on seaman's papers, but a forged American passport which he carried, evidently for emergency use, gave him away. Diamonds valued at \$30,000 which Reed carried were confiscated by the Finnish government. After the prison term he was deported to Russia.

SPECIAL CHILDREN'S DAY AT TEXAS STATE FAIR FRIDAY

DALLAS, Oct. 13.—The children of Texas are to have a special day at the State fair, Friday, Oct. 15, has been set aside for the children and everything controlled by the Fair association will be free to them on that day. School superintendents or teachers, it is announced, can get all the tickets they want by writing to the Fair association. Special arrangements have been made for all orphans to see the fair on that day.

The United States Army Reserve officers may carry revolvers without obtaining licenses in New York state.

NAMED PRESIDENT OF NICARAGUA BY COALITION PARTY

Jose Esteban Gonzales.

Jose Esteban Gonzales of Diriamba, a prominent coffee planter and exporter, has been elected president of Nicaragua by the Coalition party. He is well known in New York and San Francisco.

Work Starts on Tube for Vehicles Under Hudson

NEW YORK, Oct. 12.—Construction of a vehicular tunnel under the Hudson river between New York and Jersey City started Tuesday with the breaking of ground for one of the tube's shafts. State, county and municipal officials from both states have been invited to participate in the ceremonies in Manhattan this afternoon.

The cost, estimated at \$20,000,000, will be levied for 20 years to pay for the tube and then it would be free for the use of all.

Larger Than R. R. Tunnel. Four driveways, two in each direction, will be provided. A sidewalk, two feet in width, also is planned. The tunnel, an external diameter of 29 feet, will be six feet wider than the Pennsylvania railroad tubes under the Hudson and East rivers.

Traffic blockades, now common on ferries, would be precluded by providing at each end of the tube derrick-equipped trucks to take stalled automobiles in tow. Three driveways in each direction will be furnished on the approaches, because slight inclines there are expected to slow down the movement of vehicular queues.

Ventilation to rid the tunnel of carbon monoxide gases from automobile exhausts will be furnished by four large shafts and also by an air duct under the roadway and an exhaust above. Smoky vehicles circulate poisonous gases. Freshly in closed places, but chemists working on the tunnel ventilation system estimate that at the highest point of saturation there will be only 3-1-2 parts of carbon monoxide to 10,000 parts of air in the tube. It requires eight parts of the gas to 10,000 parts, they figured, to give a man a headache.

In the United States navy, both the Atlantic and Pacific fleets now have well organized and complete "trains" of hospital ships, supply boats, repair vessels, refrigerating ships, ammunition and fuel ships, in addition to motor patrol vessels, submarine chasers, mine sweepers and mine layers, converted yachts, submarine and destroyer tenders and troop transports, practically undreamed of a decade ago.

The American stage has found places for many soldiers of the world war who displayed talent as entertainers back of the line in France.

WOMAN ORDAINED AS MINISTER BY UNANIMOUS VOTE

Mrs. Clemmie Ellis White.

Mrs. Clemmie Ellis White of New York, for the past sixteen years superintendent of the West Side Mission in that city, was ordained into the ministry recently by the unanimous vote of fourteen clergymen sitting in interdenominational council. As practically all denominations bar women from the ministry Mrs. White, who is secretary of the International Union of Gospel Missions, is one of the pioneers in that field.

MANY BOY BABIES

By International News Service. PARIS, Oct. 13.—The old theory that nature provides for the loss in man power after a great war by producing more boy than girl babies is borne out in Paris birth statistics. During the present year nearly 60 per cent of the infants born in the French capital have been boys. The same thing was observed in Germany after the Napoleonic wars.

BETTER THAN WHISKEY FOR COLDS AND FLU

New Elixir, Called Aspironal, Medicated with Latest Scientific Remedies, Used and Endorsed by European and American Army Surgeons to Cut Short a Cold and Prevent Complications.

Every Druggist in U. S. Instructed to Refund Price While you Wait at Counter if Relief Does Not Come Within Two Minutes.

Delightful Taste, Immediate Relief, Quick Warm-Up.

The sensation of the year in the drug trade is Aspironal, the two-minute cold and cough reliever, authoritatively guaranteed by the laboratories; tested, approved and most enthusiastically endorsed by the highest authorities, and proclaimed by the common people as ten times as quick and effective as whiskey, rock and rye, or any other cold and cough remedy they have ever tried.

All drug stores are now supplied with the wonderful new elixir, so all you have to do to get rid of that cold is to step into the nearest drug store, hand the clerk half a dollar for a bottle of Aspironal and tell him to serve you two teaspoonfuls with four teaspoonfuls of water in a glass. With your watch in your hand, take the drink at one swallow and call for your money back in two minutes if you cannot feel your cold fading away like a dream within the time limit. Don't be bashful, for all druggists invite you and expect you to try it. Everybody's doing it.

When your cold or cough is relieved, take the remainder of the bottle home to your wife and babies, for Aspironal is by far the safest and most effective, the easiest to take and the most agreeable cold and cough remedy for infants and children.—Adv.

REHART, RIG BILDER, SOUGHT IN RANGER

Ray L. Rehart is being sought in connection with a fire at 502 Exchange building, Los Angeles, Calif.

In a telegram received by the El Paso office, Rehart is stated that Rehart is a member of the B.K.K. and that his mother and wife are anxious concerning his whereabouts. He is said to be a big builder.

Anyone having information concerning Rehart may send it direct to The Times will forward it.

FREE AIRPLANE RIDE GIVEN EVERY PERSON WHO'LL BUY FOOTWEAR

FRIDAY, Oct. 15.—This scheme of a free airplane ride for every person who buys a pair of shoes is being carried out by the El Paso merchant.

Farmers who a few years ago were but eking out an existence, and whose fields this year are turning out a golden stream of wealth, put aside farm implements, poked tired feet into Sunday boots and started for town.

There was no "catch" to the offer. There stood Dan Allison, "Live Wire Dan" as he is called, pacing the entrance of his shoe store. "Step right in, gentlemen. Buy shoes for the family for the coming year. The plane awaits you. A free ride with every \$50 worth."

A few minutes later, E. Asberg was plunging the nose of his new plane through the clouds, the grasp of his rural companion being lost in the roar of the motor. One after another the farmers upon whom prosperity has been smiling, partly because of climatic conditions and largely through the new state laws which have given them aid, climbed into the plane and saw their country from an entirely new slant.

WORLD'S FAIR AT BARCELONA IN FOUR YEARS

BARCELONA, Oct. 13.—Catalonia has undertaken to present to the world approval one of the most extensive and comprehensive expositions ever held, and although it is not to open until 1925, all parts of the world in connection with preparations already are far advanced.

Under the supervision of General Rubio, an engineer officer recently retired from the Spanish army, the plans of the exposition are being transferred from an arid waste into an artistically laid out garden in the center of which the exposition buildings are being constructed.

The official title of the exposition is "The International Exposition of 1929."

One of the features of the exposition is to be the Palace of Light, where will be shown the most recent inventions from all parts of the world in connection with electric lighting. Other pavilions are to be devoted to exhibits of electrically produced implements for agriculture and industry.

In the exclusively Spanish department of Spain in industry, commerce, science, art and social life, while the South American republics are each to have a pavilion of their own.

CLARMOND IS 'GOODY-GOODY' NAME; INSISTS ON 'BILL'

CHICAGO, Oct. 13.—Mike Dick, Harry and Jack were fine names for boys, but when those at the Calhoun school here learned that there was a clarmond in their midst they made life miserable for him.

Clarmond White, 13, deserted school and was picked up by police in Cedar Rapids, Iowa, a few days later. He promised to return to school and mother if the latter would change his name to just plain "Bill."

Former bearers of Austrian titles are prohibited from using their range of nobility. They become just plain Mr. and Mrs. Smith.

WINCHESTER

Feathers Don't Fool the Winchester Shot Pattern

WINCHESTER precision methods of manufacture take care of that—giving you the perfect pattern, which completely and evenly covers the body of the duck, without loss of penetration.

Over 400 different gauges, minutely adjusted, and half as many searching inspections and tests, are used in manufacturing your Winchester Repeating Shotgun. Every step in the manufacture and loading of each Winchester Shell receives equally careful attention.

Come in today. Buy a Winchester Model 12 Hammerless Repeating Shotgun—or if you prefer, a Model 97 with outside hammer. And Winchester Shells—Leader or Repeater in smokeless, Nublack or New Rival in black powder.

SPORTS

RANGER HIGH PLAYS ABILENE HERE FRIDAY

Ranger high football team looks horns with Abilene high Friday afternoon at Municipal park, in the third game of the season.

The Ranger boys have lost to Strawn and Cisco, but the Cisco game showed a great improvement over the one the preceding week with Strawn. Coach Wickline has been working the boys hard during the past week and expects them to play the best game of the season against Abilene.

The local team has been handicapped by inexperience, as only three men of this year's squad have played in previous years. They are rapidly absorbing the tactics of the sport, however, and expect to make themselves among those present in the games yet to come.

Abilene has played four games this season, winning all of them, but the local footballers are confident of their ability to spill a few tacks into their pathway. Fans will enjoy the encounter and the boys will be pepped up by a display of interest. The place, Municipal park. The time 4 o'clock.

Hunting Bargains in Ranger

Bargains discovered in trips through Ranger show in department stores are here presented briefly, for the benefit of Times readers.

I.

Humes' has a line of coats ranging in price from \$17.50 to \$47.50, which may be just what you are looking for, either for a practical coat for yourself or a very wearable one for the school miss. The sizes of these are from sixteen to forty-four and are of such materials as Velour, Ya Llama and Bolivia with the fashionable big collars in fur or of the same material. Most of these coats are lined throughout with a good grade of pussy willow taffeta or saten lining. A pretty suit of brown Ya Llama has a clever overdraped effect in back. The bottom is cut triangular shape with long silk tassels hanging from each side point. The front is a belted panel and a round collar buttons up to a fashionable height. Square buttons of a matching shade trim this suit which is priced at \$37.50.

II.

Beginning today at Weiss Bros., you may have the benefit of a 25 per cent reduction on all suits, blouses, dresses and furs. A few original models of imported hand made blouses are also marked with a sale price tag. Jade georgette was the material some foreign designer chose for one of these. The elaborate beading is done in tiny beads of amber, crystal and mahogany around the bottom, sleeves and neck. A dived de laine suit of Sachow shade has as a new feature a three-cornered piece of Hudson seal trimming the coat in front just below the waistline. A small triangle of fur also trims the pointed front of the high collar.

III.

We are reminded of times way back when we can buy gingham at Richardson-Brown's for 13c and 30c a yard, bleached domestic for 25c and unbleached for 19c. A good grade of outing for 25c and \$2.00 mercerized madras for \$1.49 are some of the other bargains.

In France as a result of four years of trench warfare which has developed a peculiar nervousness, the consumption of tobacco, especially in the use of cigarettes, among ex-soldiers has caused an unprecedented increase.

Swimming Champs Shatter all Eating Records in Paris

Appetites of Trio Horrify the Hotel Manager and the Servitors.

By Associated Press.

PARIS, Oct. 13.—"Duke" Kahanamoku, Keoloha and Norman Ross, Hawaiian and American swimmers, not only smashed French swimming records during their recent visit to Paris, but established marks in another branch of sport that will stand for all times, according to the manager of the hotel at which they stopped. He is willing to hand them the eating championship of the world.

"Mon Dieu, their command to bite with pommes frites, three of them," said the hotel man. The waiter produced what is generally thought at the hotel as sufficient for three persons but Norman Ross is alleged to have confiscated the whole platter while both Kahanamoku and Keoloha were inquiring where their own steak was. All the gesticulating eloquence of the headwaiter failed to convince the trio that the steak was meant for three. Vegetables, ham and eggs, cheese, fruit desserts followed in turn while the manager moaned.

Drink Beer With Meats.

"Why, they drink beer with all their meals," said the headwaiter, horrified at the heresy of not drinking wine for dinner. "And right in the midst of their meal they absorb a huge bowl of sweet chocolate."

When informed that the men were champion swimmers of the world, regular sea-fins, the headwaiter said:

"Sea-fins? Not much, they are meat-eating tigers."

PACIFIC ISLANDS COULD SUPPLY ENOUGH ALCOHOL TO DISPLACE GASOLINE

By Associated Press.

LONDON, Oct. 13.—There is enough raw material for the manufacture of 50,000,000 gallons of power alcohol yearly in the Pacific Islands, particularly the Fiji and with that from British East Africa and Kenya colony, the total requirements of the world could be met, says the Autocar.

The three raw materials contemplated are maize, cassava and sugar cane, and it is estimated that the cost of these crops would be such as to enable the raw material for a gallon of power alcohol to be available at twelve cents.

The periodical estimates that after paying the cost of transportation the fuel could be marketed over here at the equivalent of sixty-two cents a gallon.

NO SPECIAL PRIVILEGE FOR CABIN PASSENGERS, SAY ITALIAN SAILORS

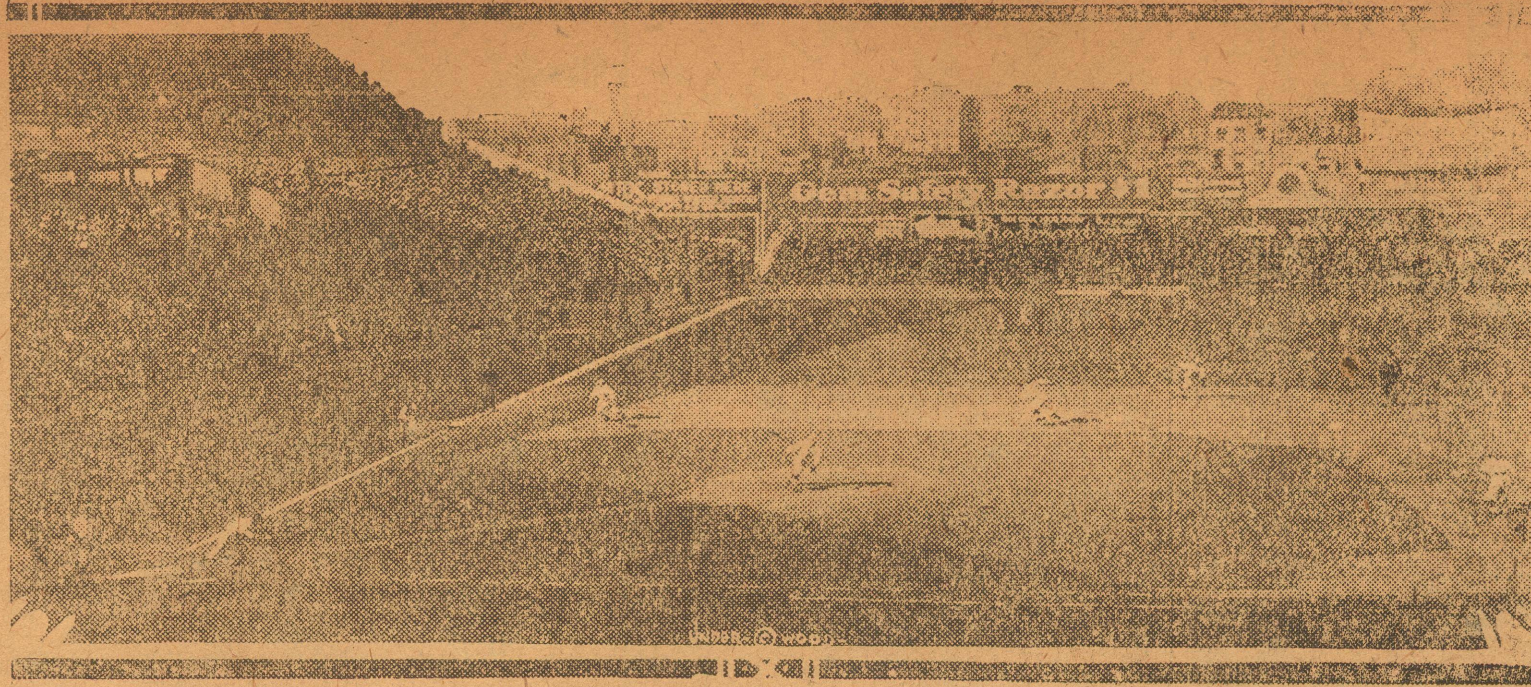

By Associated Press.

CONSTANTINOPLE, Oct. 13.—The crew of the Italian steamer Plucky went on strike upon the arrival of the ship here the other day because the health officers insisted that they should take a bath before landing, as steerage passengers must do. The crew refused to bathe unless first-class passengers also were compelled to go swimming. The strike ended when first-class passengers agreed to this.

Crew, steerage and first-class passengers all entered the Bosphorus, taking sea bath, then returning to the ship, which proceeded.

Approximately 300,000 boys in New York state were required to register recently under the provisions of the State's military training law. The ages for registration are between 16 and 19 years.

WHEN KILDUFF'S PRETTY PLAY ENDED INDIANS' CHANCES AGAINST GRIMES

It looked for a minute in the eighth inning of the second game of the world's series as though the Indians were set to out over the tying rallies, and perhaps nose out a victory. The score

View of the field from the grandstand while thrilling play was being staged

was 3 to 0 in Brooklyn's favor when that inning arrived. Grimes, Brooklyn hurler, lost his control and walked Jamieson and Burns as a starter. Speaker moved them up. With Smith and Johnston coming next the Indians

looked dangerous. But Smith fouled to Miller, Gardner walked filling the bases. Then Dave Kilduff ended the round by a wonderful pickup and throw toward home. A long hit by Johnston would have sent all three of these men in.

Johnston dashed for first after hitting the ball. Gardner is again it for second. Burns hiking to third and Jamieson starting toward home. A long hit by Johnston would have sent all three of these men in.

Ex-King Business Rather Pleasant for Ferdinand

By Associated Press.

BERLIN, Oct. 13.—Former King Ferdinand of Bulgaria, fearing the inroads of the tax gatherer is enjoying his wealth by spending it.

At Mergentheim, where he is visiting for the sake of the magnesia springs, he leads a jovial and unconcerned existence in striking contrast to the cloistered seclusion of the former German emperor at Amerongen.

Under the name of Count von Murrany, says a writer in the Zwofel Uhrblatt, Ferdinand is residing at the Kurhaus together with his suite, composed of chaplain, chamberlain, chauffeur, footman, valet and private secretary. His lavish expenditure has made him popular in the town and surrounding country, where the villagers see in him an emblem of the "good old times" and greet him with cheers as he drives past in an automobile.

Lots of "Company."

The fact that the British government has released the former King's sequestered property is known to all and has earned for him the reputation, frequently embarrassing, of being fabulously rich. His chief purchases are books, bronzes, pictures and jewels. His secretary has a difficult task in keeping off the host of people who want private audiences on business. A chimney sweep, for instance, has discovered the secret of turning chimney smoke into high class boot polish and wants King Ferdinand to advance him 3,000 marks for the exploitation of the invention.

Someone also has invented an ever-burning match and he wants money from the king to convert this theory into practice. The secretary has much trouble to make it clear that his master has finally retired from business. Other aspirants to munificence avoid the economically-minded secretary and waylay Ferdinand on his motor excursions.

A man whose ambition in life was to shake hands with royalty received one day a card ostensibly from the Count von Murrany inviting him to an audience. Overjoyed, he hurried to the Kurhaus in frock coat and tall hat. The victim of a hoax did not obtain the longed-for audience, but instead four new 50-mark notes which Ferdinand sent out to him as consolation money.

SINN FEINERS REVIVE OLD TIME PUNISHMENTS

By Associated Press.

BELFAST, Ireland, Oct. 13.—The Sinn Fein police resort to old or unusual methods of punishing minor offenders. They marched a prisoner to a telephone pole at the national bank recently and fastened him to the pole with a rope. A board affixed to his breast bore the inscription "I am a thief. I stole eggs and this is my just punishment."

Crowds gathered round and inspected the prisoner who vainly tried to effect his release. Ultimately his sister hearing of her brother's plight, came on the scene and liberated him. It is reported that she has also been placed under arrest.

An engine driver of a munition train

was similarly served in Dublin. He was tied to a lamp post opposite the railway station in Amiens street with the word "scab" on a card suspended round his neck. A large crowd gazed on him for half an hour when the police released him after filing through a padlock and handcuffs.

DOG ON HUNGER STRIKE WHEN MASTER IS JAILED

By International News Service.

SAN FRANCISCO, Oct. 13.—After seventeen years of friendship together in the woods and hills of the Sierras, David McBee, seventy-year-old prospector, and his dog are separated.

Prison bars prevent dog and master from seeing each other. For McBee is in the county jail at Sacramento and his canine is at the jail at Quincy. It happened when McBee was arrested for lighting a fire in a forest reserve. The

marshal who made the arrest also had to take the dog. He brought the two to the Quincy jail. Then by a ruse the old prospector was taken to the jail at Sacramento and the dog was left alone.

And now the aged prospector is worrying about his dog. Seventeen years in the lonely places with this dog as his companion has implanted an affection for the animal in the heart of the man. The dog has gone on a hunger strike because he has lost his master. McBee has even volunteered to walk to Quincy to get the dog and then return to Sacramento again, if permitted.

"If not, give him a real funeral if he dies," said the old miner. McBee is being held because he cannot raise his bail, and the date of his release is uncertain.

AMBULANCE DRIVER NOW IS CERTAIN THAT THIRTEENTH IS HOODOO

Undertakers are ordinarily not given to beliefs in hoodoos, hunches and the like. Their imaginations usually run in placid channels. However, there is one in Ranger who sees the thirteenth day of the month with cold horror. He knows something is going to happen to him.

Today he had a call to go for a dead man north of the city. He knew it was the thirteenth, and tried to avoid the call, but there was no one else to go.

Outwardly calm, but inwardly quaking, he totted up the ambulance and set out. A little thing like a blowout on the way out did not upset him much, but when on the return trip he discovered that he had lost the gasoline tank from his machine and was running from the force of some unknown agency—it was too much. He sent for a jockey and rode home.

The young man's name is deleted from sheer decency, but the John E. Milford company would appreciate any one returning a gasoline tank that will fit an ambulance.

MINIMUM WAGE LAW FOR WOMEN UPHELD

By Associated Press.

AUSTIN, Oct. 13.—The Texas minimum wage law, providing an industrial welfare commission to fix a minimum compensation to be paid women and minors in various industries in Texas, was upheld in the court of criminal appeals today when the court affirmed the judgment of the lower court in the case of J. Poye from Harris county, who was fined \$100 for discharging Bessie Lee because she testified before the commission.

"TOO MANY FLIES" WAS HIS DEFENSE IN BOARD BILL CASE

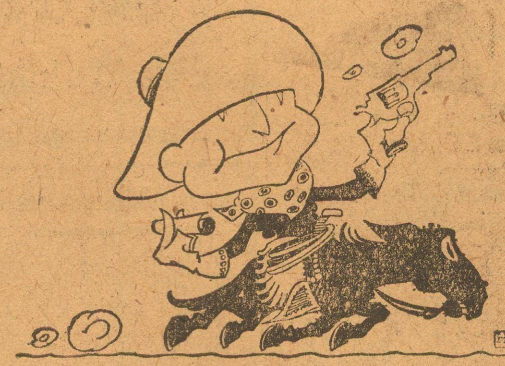

ALFRED, Me., Oct. 13.—A verdict for the defendant was directed by Associate Justice Hanson, in supreme court here in the suit of Lucius P. Williams, proprietor of the Colonial Inn, Orono, against Frederick A. Sweet, a Worcester, Mass., school principal.

In the summer of 1919 Mr. Sweet stopped for a short time at the inn and suddenly left, because, as he testified in court, the flies were so thick in the dining room that they drove him out.

Williams sued for board and a verdict of \$128.75 was returned in his favor. Sweet took the case before the law court and a new trial was ordered.

Testimony in court showed that a fly can fly 500 feet without stopping to rest.

Never again on the movie stunts

- I WATCHED a guy.
- IN A movie show.
- RIDE THE same plug.
- NINE THOUSAND miles.
- AND FIRE his six-shooter.
- ALL AFTERNOON.
- WITHOUT RELOADING.
- AND THEN, in a close-up.
- HE ROLLED a smoke.
- WITH JUST one hand.
- AND I tried it myself.
- FIRST WITH one hand.
- THEN WITH two.
- THEN WITH my mouth.
- AND THE forty-third trial.
- STAYED PUT long enough.
- FOR ME to light it.
- AND I thought I had it.
- AND THEN it spilled.
- LIKE A Roman candle.
- AND BURNED the rug.
- AND BURNED my clothes.
- AND EVERYTHING.
- SO I'M convinced.
- I'LL NEVER get.
- THAT ACTOR'S job.
- AND I know now.
- THAT THE only thing.
- I CAN roll with one hand.
- ARE ROLLICKING dominoes.
- AND I'M going to stick.
- TO MY regular smokes.
- FOR THEY satisfy.

EVER see a "close-up" of real cigarette contentment? Get next to any Chesterfield smoker, and watch him register "they satisfy!" It's all in the blend of those choice Turkish and Domestic tobaccos—and that's a secret that nobody can imitate.

KONETCHY

Ed Konetchy was supposed to be done when Brooklyn got him from the Braves in 1919. Played first for Cards seven years until traded to Pirates after the 1913 campaign in a wholesale swap. In 1915 jumped to the Pitt-Peas. Boston paid \$4,000 for him in peace negotiations. Played first for Braves three seasons. Born La Crosse, Wis., Sept. 3, 1885. Started there in 1905. Sold to Cards in 1907.

BROOKLYN "SCOREBOARD" FANS ARE EARLY BIRDS

Glimpse of Ebbets field showing fans packed about scoreboard.

This scene will be duplicated at Ebbets field when the Dodgers and Indians clash there in their first three games of the Big classic. The scoreboard in the outfield has its own coterie of fans. They stood by the Dodgers all season, getting to the games early to look over the visitors. The photo was taken while the Dodgers were clinching the National league flag.

Baseball isn't a business or a pastime with Tris Speaker. It's a passion. He lives on it. That's why he almost copped the batting title while carrying the cares of the manager of a pennant contender. Tris was born in Hubbard, Tex., April 4, 1888. Played ball while at Fort Worth Polytech. Was with Huston when Red Sox paid \$400 for him. Played with Little Rock in 1908. Then joined Red Sox. Became regular center fielder in 1909. Purchased by Indians April 12, 1916, for \$55,000 and two players. He succeeded Fohl as manager July 19, 1919.

WILBERT ROBINSON

The Dodgers' manager was born in Hudson, Mass., June 2, 1869. Began his baseball career with Haverhill, Mass., club at age of sixteen. Went to Athletics the next year, 1886. Moved to Baltimore team in 1890. His catching helped make the Orioles the wonder team. In 1900 he went to St. Louis. Then to the Baltimore American league team. Played with Baltimore in Eastern league before he retired in 1904. Played one year with Baltimore in 1908. Became Giant coach in 1913 and Dodger manager in 1915. Won first pennant the following year.

S. SMITH

COVELESKIE

Z. WHEAT

JOHNSTON

JAMIESON

MILLER

UHLE

When Jim Dunn obtained Larry Gardner and Elmer Myers from Connie Mack in 1919 the tall tactician threw Charley Jamieson in for good measure. Some measure, we'd say. He has proved a brilliant outfielder and a timely and terrific hitter. He alternated with Evans in left all season, playing against right-hand pitchers.

A real veteran Dodger is Catcher Otto Miller. Born in Minden, Neb., June 1, 1889, started with Sharon in O. & P. league in 1908. Went to Louisville next spring, thence to Duluth in Minnesota-Wisconsin league. Drafted by Brooklyn fall of 1909. Became club's leading backstop in 1912. Bats and throws right-handed.

George Uhle is a native of Cleveland. He was taken off the sandlots by Lee Fohl in the spring of 1919 and wound up that campaign by winning ten games for the Tribe. This year he has been handicapped by water on the knee. He proved effective in relief duty for the Tribe, having plenty of confidence despite his youth.

MITCHELL

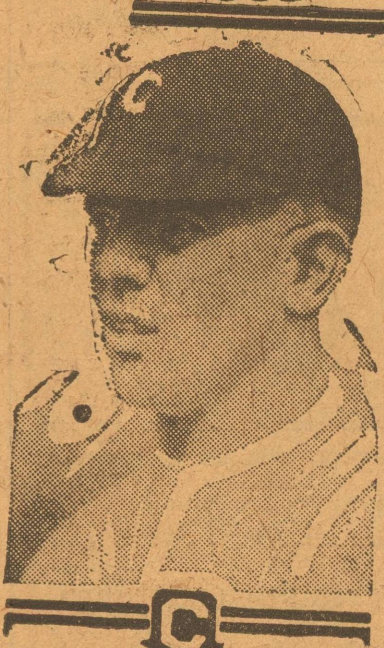

THE RUN THAT SAVED BROOKLYN FROM WHITEWASHING IN FIRST GAME OF SERIES

Wheat scoring Dodgers' only run in seventh inning

When Zach Wheat whaled out a double in the seventh inning of the first game of the world's series and talked on two infield outs he saved the Dodger from suffering a whitewash at the hands of the Cleveland Indians. No play was made at the plate for Zach, the Tribe contenting itself with getting the batter at first on the second out.

WELL

OLSON

EVANS

Joe Sewell, the rookie who was called from the minors to fill the position left vacant by Ray Chapman's untimely death, is a college boy. He was playing at Alabama University when Owner Dobbs of the New Orleans club heard of him last spring and signed him. Manager Speaker saw him at New Orleans on the training trip and got an option on him. Sewell was one of the Southern league's stars the past season.

Oh, how the Brooklyn fans ride and pan Ivy Olson. But, oh, how they swear by him, too. "Ole" has been shortstopping most of the time for the Dodgers since the Reds obtained him by the waiver route from Cleveland and released him to Brooklyn in 1915. Born in Kansas City, Oct. 14, 1885. First pro experience with Muskogee and then Portland. Cleveland obtained him from Portland in 1911.

Joe Evans came to the Indians from college as an infielder. Tris Speaker converted him into an outfielder this year. There was no place for Evans on the infield in the early part of the season. Graney's legs had gone back on him in left. Joe was slamming the ball at a 300 gait whenever he broke in, so Spoke sent him to left field to alternate with Jamieson. Evans is one of the fleetest men in baseball.

CLEAN SPORT DEMANDED.

Although the clay feet of many a baseball idol have crumbled under the chemie rays of the grand jury searchlight, baseball, the game, has not suffered.

Rather, the game has been bettered. It has been purged of unclean elements which, sooner or later, must have been shown in all their innate rottenness and duplicity.

Because base ball cannot readily lend itself to deceit, "fixing" and other forms of crookedness, is destined to be the old, great sport of the sportsmanlike American people.

The granting of the voting privilege to women will give rise to some situations which have serious as well as ridiculous or humorous phases.

FREE PRIVILEGES. The granting of the voting privilege to women will give rise to some situations which have serious as well as ridiculous or humorous phases.

THE WOMAN WHO SAW

In the Studio. Summer faded and fall's still summer, lingered in town, although September was on the wings as the Woman walked the west in 8th-street from the avenue to the artist's studio.

She knocked at the big door on the ground floor, found it invitingly ajar and went in with her hat for at a table in the big window set the Artist, busy with pen and brush at one of the humous drawings that enliven the pages of a certain Sunday supplement, while the girl she sought and another man, both bemused, sat working at tiny little dolls of wood.

It was a case of "Meet Mr. Sarg" first, and then another bow to his right hand man, Mr. Matt Scaries, puppet-maker, then engaged on a model of Rip Van Winkle as he looked after his years of slumber.

A Spanish Cavalier. It was Mr. Scaries who began by asking if she would like to see some of the puppets of his. "Would she?" She would. "Ever since a day last winter when she had enjoyed 'The Rose and the Ring' she had wanted to see them off stage.

"That fellow," answered Mr. Scaries, "nicking up the figure of a fully accoutred bull fighter, true in the tiniest detail of the boxes lay a marvelous Spanish puppet, unlike any other she saw. He must have a story.

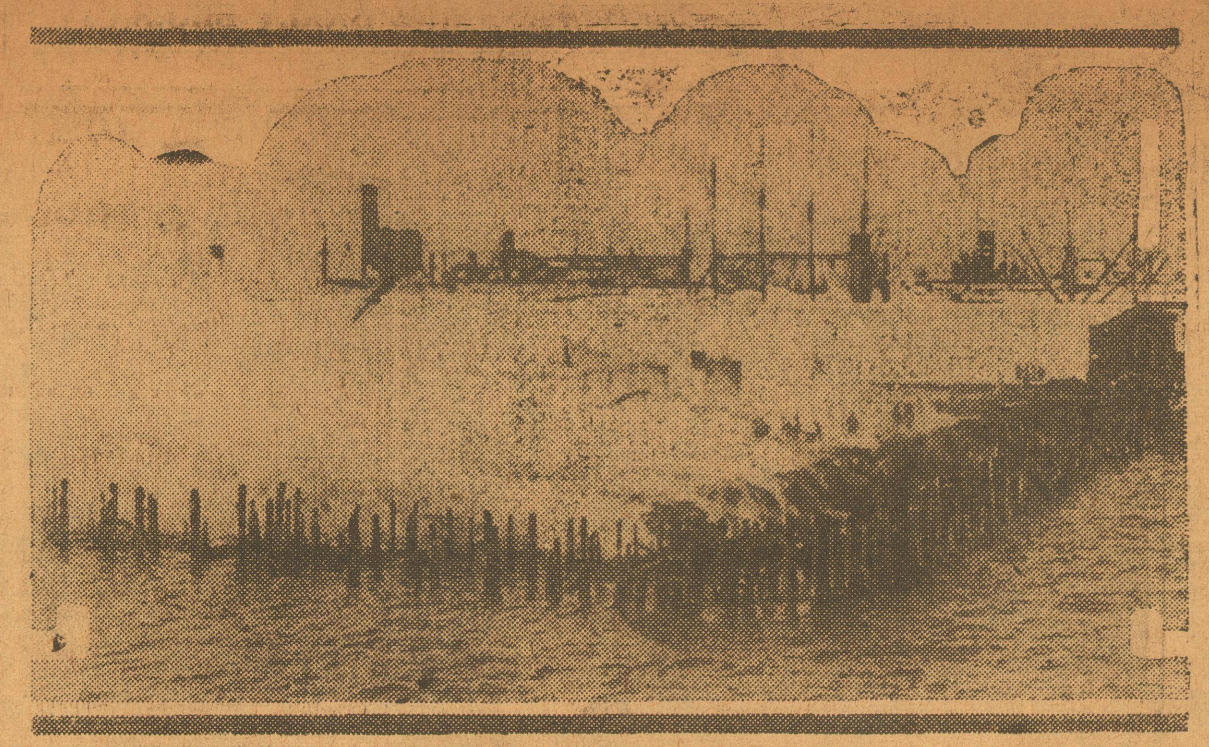

Good-bye. There were more dolls to see, many of them very old. One charming gentleman, with a face modelled in wax, dated back to Elizabeth's day, and might have been a replica of one of the gay gentlemen had crowded the court of "Great Eliza."

JOHN-A-DREAMS. CLXLIX. DREAMS OF NUNS. Two distinct meanings apply to dreams of nuns. The differentiation is easily made. One is visions in which you see nuns, talk to them or in any other way come in contact with them.

And though quite free, you will be held in thrall. The dream, then, does not mean that you will enter a convent, but that, for all practical purposes, and for all the hopes that may swell your young breast, you will be and remain as chaste and untouched by vain desires, as a nun.

Women will decide the course of government for the years to come, but they will not perform the drudgeries of citizenship. Masculine chivalry and feminine horriification at the idea will see to that. The sexes cannot merge into one course of action and conduct, regardless of any leveling legislation.

WHEN FLAMES SWEEP PIERS AT GALVESTON

One portion of the water front during the conflagration. Fire which started in a sulphur loading plant on Pier 35 at Galveston harbor, destroyed the plant, seven thousand tons of sulphur, thousands of bales of cotton, scores of freight cars and portions of the docks.

'Repopulate the Farms,' Move Just One of Ranger's Doings that Convince Drummer of City's Future

Ranger has become famous both in Texas and other states through its move to repopulate the farms. Yesterday a traveling man who visits nearly every town in the state, was in the city and declared that everywhere he went he heard the story, and comments upon what a wonderful thing it is for the county.

The traveler called especial attention to the large paving program that was going forward and other civic improvements, which are planned, completed and under way.

TINKER BOB

MR. TREE TOAD IN THE TREE. "Trep, trep, trep," sounded forth from a tree as Tinker Bob was going back to his Palace. "Trep, trep, trep," he heard it again.

I did this and the tree built a shelter of bark for me. "But there was one thing I had to promise and that was to sing to the tree every evening in the summer time and sleep with the tree every night in the winter time.

And then, with a farewell to the dolls and their makers, the Woman opened an umbrella and piloted the Prentice Hand landward.

And then, with a farewell to the dolls and their makers, the Woman opened an umbrella and piloted the Prentice Hand landward.

"Oh, I have turned my coat to be the same color as the tree's bark and Mr. Hawk cannot see me when he comes. Then, too, the tree always shakes its leaves so hard that Mr. Hawk does not like to stay very long."

Quite different, however, is the other class of dreams, wherein you see yourself in the somber garments of a sister. When you have such a vision, prepare yourself for love's bitter disappointment. I care not whether you are young or mature, single or married.

RELIEVES CATARRH of the BLADDER and all Discharges in 24 HOURS. SANTAL MIDY. Tomorrow—Red Head and His Master.

LITTLE BENNY'S NOTE BOOK. By Lee Pope. An advertisement for a notebook featuring a small illustration of a boy.

Us fellows was standing around the lampost talking about different subjects, and Skippy Martin came up all excited, saying, Hay fellows, holey smokes, wats you think, Sam Crosses cuzzin from the country has come to see him and they're eround in Sams yard now and jimminy Krissmas, wats you think, he's a funny looking kid and his hair is parted rite in the middle, holey smokes fellows.

Which was soon as the freckle face kid saw us setting on the fents he came over and started to jump eround rite underneeth, still making his fists go, saying, Well, wats you guys want? If eny of you guys want a fite come down heer and Ill show you a thing or 2, and if you dont want a fite get the heck down off of that fents before I pull you down.

side and spent their evenings together around the fire. How they had worked together for that fire, hauling wood over the prairies of Dakota, a distance of twenty-five miles. Bismarck, forty miles away was the nearest town.

RIPPLING RHYMES

PERIL. I fear to cross the village street, where all the autos wind and mix, for I am shaky on my feet, and can't do acrobatic tricks. I tried this morning, just for luck to dodge across to Johnson's store, and I got tangled in a truck, and broke three ribs, or maybe more.

DETAILS BURDENSOME TO FRENCH STATESMEN

PARIS, Oct. 13.—The immense amount of detail which must require action by French statesmen is shown by the fact that the signatures of President, premier and finance minister are attached to a decree just published allowing a collector for the official journal 150 francs a year for shoes and other equipment.

ONE MAN FOILS NINE IRISH TRAIN ROBBERS

By Associated Press
BELFAST, Oct. 13.—Henry Forbes, a railway traffic superintendent, recently foiled an attempt to rob a mail train at Drumbar, a lonely halt on the Donegal-Ballyshannon section of the line. Nine armed men sprang from concealment and held up the train crew. Some of them proceeded to ransack the mails, but Forbes left his compartment on the offside of the train and creeping along the footboard revolver in hand, surprised the men who were holding up the driver and fire fireman.
Forbes opened fire and the men bolted for the station waiting room, from where they returned his shots. The other robbers made off across the cornfields pursued by Forbes, who captured one man and eventually handed him over to the police.

7—SPECIAL NOTICES

CARPENTERS' work guaranteed. Estimate free. 336 Byron St. Riddle addition, or P. O. Box 1875.

GULF PIPE LINE EMPLOYEE DIES DURING NIGHT

E. E. Grimes, an employee of the Gulf Pipe Line company, was found dead in his bed this morning at the camp of the oil company near Tiffin. An examination of the body by a doctor led to the belief that death was caused by an internal hemorrhage of the intestines.
According to testimony given at an inquest held by Justice of the Peace J. N. McEater, Grimes went to bed last night in good health. There was no evidence showing that he suffered any pain. A bottle of turpentine was found in the bed with him.
The dead man appears to have been about 22 years old and would have weighed 145 pounds.
A brother, A. A. Grimes, of Winters, Texas, has been notified of the death. The Millard Undertaking company is holding the body pending funeral arrangements.

ANOTHER BASKET BABY LOOKING FOR HOME IN RANGER

A nine-pound boy basket baby is at the Theodor hotel awaiting adoption. Captain J. T. Lynn brought the baby today.
The youngster, according to the Captain, is big and healthy and fine as silk. As in former adoptions of babies brought to Ranger the first applicant that can qualify can get this baby.

AUSTRIA WILL AID WORKERS' EMIGRATION TO SOUTH AMERICA

BUENOS AIRES, Oct. 13.—Immigration of Austrian workmen to Argentina is being promoted by Dr. M. Fuchs, former consul general of Austria-Hungary here, who has been sent back to this country by the minister of the interior of the Austrian republic to establish credits to be used in aiding workmen to emigrate and in building up Austrian industries.
Dr. Fuchs said that the decline in the exchange value of Austrian money makes it almost impossible for workmen to pay their own passage in order to emigrate. At the same time, he says, the condition of the republic is such that it is imperative to reduce the population of the country.

THREW \$7,000 TUBE OF RADIUM INTO DRAIN PIPE

By Associated Press
THOMASVILLE, Ga., Oct. 13.—There was consternation among the doctors of the Radium Institute here when it was found that \$7,000 worth of radium had been thrown into a sewer.
The radium was being used in treating a negro woman for cancer at the hospital and was left attached for a certain length of time. Deciding that she did not like the odor of radium and saw no good in a little thing like that anyway, the woman, happening to be left alone, cut the string holding it and going to the bathroom threw the costly remedy into the sewer. When the attending physicians returned and found the radium missing an alarm of its disposition excitement reigned supreme.
Plumbers were hastily summoned, sewer pipes torn up and rigorous search made. After extended search the tiny tube, hardly larger than a needle, was found lodged against the sewer trap in the yard of the hospital.
A young plumber named Sullivan received the \$100 reward offered for the recovery of the radium.

WEATHERFORD

WEATHERFORD, Oct. 13.—The grand jury for the fall term of court has just completed its investigations and has been discharged from service, after having filed 116 indictments, forty-one of which were misdemeanors and seventy-five felonies.
Weatherford now has a self-serving grocery, R. W. Peckham of Eastland opening a store here today.
Home Burns.
The home of Miss Eudie King was recently destroyed by fire, together with all the contents. The fire was started by one of the members of the household throwing down a match after lighting an oil stove. The loss is estimated at \$2,500 on the dwelling and \$600 on the household goods, with some insurance on the house.
Paving Progress.
The paving on three of our principal streets has been laid and now the paving crew is working on the square, and they are making rapid progress with their work.
In the drive for new Chamber of Commerce members last Saturday eighty-five were added to the roll.
Weatherford Fats Win.
Weatherford's fat men defeated Mineral Wells' fats in a baseball game in that city last Friday. There was quite a representation of Weatherford citizenry present to witness the battle. That night the Rotary club of that city gave the visitors a banquet at the Crazy hotel, and subjects of mutual benefit to the two cities were discussed.

Look Out for Rheumatism As Winter Approaches

So many cases of Rheumatism come from a tiny disease germ that infects the blood, that physicians are beginning to realize that this source of the disease is becoming quite prevalent. Of course a disease that has its source in the blood cannot be reached by local remedies applied to the surface.
One remedy that has given splendid results in the treatment of Rheumatism is S.S.S., the fine old blood remedy that has been sold by druggists for more than fifty years. S.S.S. acts by driving out of the blood the disease germ that causes Rheumatism, thus affording real relief.
Begin taking S.S.S. today and if you will write a complete history of your case, our medical director will give you expert advice, without charge. Address Chief Medical Adviser, 151 Swift Laboratory, Atlanta, Ga.

BRYANT & COMPANY OF TEXAS
Capitalized at \$250,000.00

Offers to the public between October 12th and 25th, 1920

SOCIETY

COOPER SCHOOL MOTHERS' CLUB MEETS THURSDAY

The Mothers' club of the Cooper school will hold its first meeting of the year Thursday afternoon at the school building. At this meeting officers will be elected to serve during the current school term. Leaders in the club ask that everyone interested in the work the organization is doing be present.
Last year the clubs at the various schools did much for the good of the children. Among other things they installed playground equipment that is a source of joy to the children this year.
Many things are being planned and will be taken up during this session.

The club will hold its meeting at 4 o'clock, and after election of officers is completed the outlines of the year's work will be gone into.

HAND-PAINTED ROSES ON KNEES, HENNY-DYED LEGS, NO HOSE, LATEST

P. A. R. Oct. 13.—The record list of sartorial sensations was sprung Sunday by the feminine contingent at the paddock of the Longhorns race course which is crowded by the thousands who have come here to watch the running of the Prix de l'Arc de Triomphe, the biggest event of the fall season.
The most notable innovation is the absence of silk stockings. These have been replaced by ribbon-like streamers of elastic gold winding up the legs from the ankles. The bare skin of the legs is dyed with henna. The feet are encased in embroidered Chinese slippers, cut so that the perfectly modeled toes, dyed a light lavender, are seen.

One girl, in mounting the steps to the jockey club stand, revealed a hand-painted rose on each bare knee and fastened to each bare calf was a tiny jeweled stiletto.
A furore was caused by the introduction, for the first time since the days of Louis XIV, of white wigs. These were worn by a number of fur-coated women who were hatless and stockingless. The combination of henna painted bodies and pure white wigs was the greatest splash of the afternoon.

HARVARD TO TEACH SINN FEIN LANGUAGE

CAMBRIDGE, Mass., Oct. 13.—The official language of the Sinn Fein Republic will be taught at Harvard this year by Professor E. Norris Robinson, who will conduct two courses, open primarily to graduate students.
Grammar and a general introduction to Celtic philology will be taken up in the first half year; lectures on the history of Irish literature the second half year.

By keeping your liver and stomach in good order, you stand in little danger of catching serious ills that occasionally spread through town and country.
Get a package of Black-Draught and have it ready for the first symptom of a disordered liver.
Most druggists sell Black-Draught.—Adv.

Balkan Peoples Will Not Kill Flies, Rats, Mosquitoes; Think Americans Very Dirty Because They Bathe Often

SOEFA, Bulgaria, Oct. 13.—Disease in the Balkans is looked upon by the people as a result of fate. The peasantry has been educated in superstitions rather than in the laws of sanitation. They are opposed to the killing of mosquitos, rats, flies and vermin, believing that they are a part of life. They know nothing about the carriers of disease. The importance of protecting their food supplies from winged insects has not been impressed upon them. Little or no attempt is made to drain mosquito pools or marshes, so that the Balkan states claim the distinction of having some of the worst malarial sections on earth.

The peasant has little faith in medical science. "How can a bug give us typhus?" they ask. "Every living thing harbors insects. Why not man? If the good God sends us disease and misfortune, we believe that he knows best." In most districts in the Balkans, the houses of the rural population are small and poorly constructed through accidental imperfections in construction. A few of the houses have two stories, the lower floor being occupied by horses and cattle, the upper by the family. In such houses as these families live crowded together under the most unhygienic conditions.

Years pass without a doctor entering the huts. Disease goes untreated. In the country districts, dentistry is virtually unknown.

Bath tubs are rare in the Balkans, even in the larger cities. The people in that part of Europe rarely wash. "You must be very unclean, people in the United States," said a well-to-do store-keeper of Soeifa to an American, "if you find it necessary to bathe every day!"

THREE BROTHERS AMONG M'SWINEY'S RIVALS FOR HUNGER STRIKE FAME

CORK, Oct. 13.—Among the eleven hunger strikers in jail here are two brothers, John and Peter Crowley of Ballylanders, Bimerick, while another brother is hunger-striking in Winchester jail, England. Their father, aged 85, has just been arrested also and brought to Cork. Their house was also burned recently after a raid had been made upon it.

This family rents automobiles which the military officials assert were used for Sinn Fein activities. Up till the present one of their automobiles is missing and the father was informed that unless he revealed its whereabouts he would be arrested.

"If I knew I would not tell you," he is reported to have replied. Consequently he was arrested.

Two other prisoners from Ballylanders, Michael O'Reilly and Christopher Upton were arrested on July 16 when shots were exchanged there between the police and volunteers.

San Hennessy, one of the hunger strikers who is stated to be suffering severely was attending an Irish college at Ballygeary a month ago when a motor lorry was held up there and burned after its soldier occupants had been disarmed. Michael Burke, of Folkstown, Thurles,

arrested in connection with a raid there, told Deputy Mayor O'Callahan that he suffered severely from headaches which he attributed to a beating by an officer with his fists and a rifle after his arrest.

Lived in States. Another young hunger-striking prisoner, John Power, aged 19, of Cashel, Tipperary, was arrested at the village of Rosegreen, as a suspected Irish republican soldier, as was also Joseph Kenny, of Greenough, County Cork.

Kenny lived many years in Montana. He has seven children, the last being born a few days ago. Another hunger-striker,

Joseph Murphy, is a Cork lad who was arrested in connection with a raid on his house at which the police are reported to have found a part of a bomb and an incriminating document.

The first case on record where an enlisted man has jumped to the rank of a captain without having to pass through the lower commissioned grades in the United States army, recently applied to Private Samuel J. D. Marshall, of Philadelphia, where he received such honors. During the war Marshall became a major, but was later reduced and returned to the ranks.

118 Main St.

This section certainly owes a lot to the automobile

LOOK at it just from the business standpoint, compared with, say, ten years ago—or even five.

Everything speeded up—made easier. Nearly every business man depending on the automobile to transport himself and his products.

That is one reason, perhaps, why more attention is being paid to tires—why tire costs are being figured closer and people are beginning to look for better tires.

We believe that people are entitled to better tires—the best they can get.

Not only the man with the

big car, but the man with the small car, and the medium sized car.

We represent U.S. Tires for that reason—because their policy is the same as ours—every tire as good as you can get it, regardless of the size of the car it is to go on.

It was that policy which led to the introduction of the straight side automobile tire, the pneumatic truck tire.

And you can't beat it.

U. S. Tires are guaranteed for life, with no limitation of mileage.

It will pay you to talk to us about tires, if you are looking at them from a business standpoint.

Select your tires according to the roads they have to travel:

In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.

For ordinary country roads—The U. S. Chain or Usco.

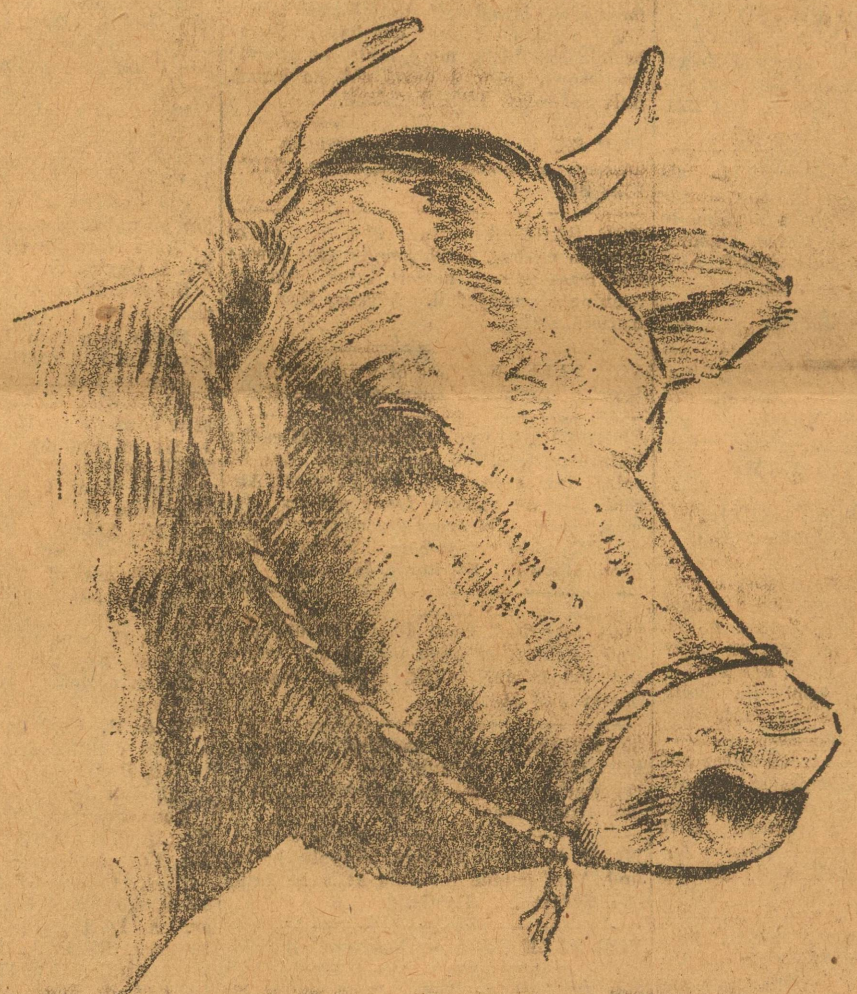

For front wheels—The U. S. Plain.

For best results—everywhere—U. S. Royal Cords.
