SEEK TO OUST DESDEMONA MAYOR

Cleveland Evens up the Series, 5 to 1

Four Dodger Pitchers Fail to Stop Indian Batting Onslaughts

Coveleskie Stars Both in Field and in Pitcher's Box; Largest Attendance of Fans During Series Sees Hard Fought Game.

By Associated Press.
CLEVELAND, Oct. 9.—Brooklyn's star pitching staff crumbled today before the onslaught of Speaker's Tribe. Four slabsters essayed to hold the rampaging Clevelanders and all were made miserable. Cadore started for the Brooklynites. He was bumped for two runs in the first round and nicked for two blows in the second with none down, when he was relieved by Marnaux.

The relief twirler proved equal to the occasion for one inning only. He fanned Coveleskie and his teammates saved the day with a double play on Jamieson's fly, which looked good for extra bases until Hap Myers got under it. Successive singles by Wambsganss and Speaker greeted the Dodgers in the next round. Robinson called it a day for him and Marquard tried his hand. Burns promptly slammed the ball into left field and when Wheat fumbled the drive two men came home. Marquard pulled out of several tight holes until the sixth, when he was taken out to permit Lamar to try his hand as a pinch hitter.

Pfeffer then essayed to block the avalanche of hits. He was bumped for one score in the seventh, but held Cleveland scoreless in the eighth, when a pinch safety would have scored additional tallies for the Indians. Coveleskie, aside from a splendidly twirled game, made two sensational fielding plays and delivered a hit which blossomed into a run. His support was wobbly in one inning but he pulled through without damage. Brooklyn's one run was earned by the coupling together of Johnston's single and Griffith's two base knocks. In all other rounds the Dodger safeties were very lonesome.

FIRST INNING.
Brooklyn—Olson swung at the first ball, fouled the second and grounded out to Gardner on the third. Johnston was thrown out by Sewell. Griffith, with the count three and two, popped out to Gardner. No runs, no hits, no errors.

SECOND INNING.
Brooklyn—Wheat flew out to left and Myers to right. Konechky rolled to Wambsganss and was out at first. No runs, no hits, no errors.

THIRD INNING.
Brooklyn—Kilduff struck out, after fouling two. Coveleskie made a remarkable stop of Miller's solid smash and tossed him out at first. Marnaux struck out. No runs, no hits, no errors.

FOURTH INNING.
Brooklyn—Burns went in at first and Wood in right field for Cleveland. Olson hit a high fly to Speaker. J. Johnston singled to left for Brooklyn's first hit. Griffith followed with a double to the right center wall, on which Johnston counted. Speaker's long run robbed Wheat of an extra base drive, but Griffith went to third on the catch. Sewell fanned off a second score by going behind second to seize Myers' grounder. It was a pretty play. One run, two hits, no errors.

FIFTH INNING.
Brooklyn—Myers got a great hand when he came in from the field. Evans went to left field for Cleveland. Coveleskie shot over two strikes on Konechky and then walked him on four straight balls. Kilduff fanned. He did not attempt to sacrifice. Miller hit into a double play when he grounded sharply to Sewell. No runs, no hits, no errors.

SIXTH INNING.
Brooklyn—Lamar, batting to Marquard, rolled the first pitch to Sewell. Olson singled to left on the first pitch. Johnston's grounder to Sewell forced Olson, and Burns' error lost a double play. Griffith hit to Wambsganss and Sewell muffed badly when the play was made to second. He ran the ball down in time to catch Johnston at third. No runs, one hit, two errors.

SEVENTH INNING.
Brooklyn—Wheat was thrown out by Gardner. Myers struck out. Konechky flew out to center. No runs, no hits, no errors.

EIGHTH INNING.
Brooklyn—Graney in right for Cleveland. Kilduff hit safely to center. Miller hit to Gardner, who started a first double play. Gardner to Wambsganss to Burns. Pfeffer fired a hot one back at Coveleskie, who knocked it down and retired the batter. It was a great play. No runs, one hit, no errors.

NINTH INNING.
Brooklyn—With Olson disposed of, J. Johnston beat out a bunt. Neise ran for him but was forced at second by Griffith. Wheat forced Griffith at second. No runs, no hits, no errors.

TICKET SCALPING IS CHARGE MADE AGAINST MARQUARD
CLEVELAND, O., Oct. 9.—Richard "Rube" Marquard, once star left-hand pitcher for the Brooklyn National League pennant winners, was arrested here today charged with ticket scalping.

COACHES IN DITCH AFTER T-P COLLISION

No One Hurt in Wreck Though Cars Are Thrown From the Rails.
A head-on collision of two freight trains on the Texas & Pacific line early last night caused all night passenger trains to be running twelve hours late today. The wreck occurred at Pershing, a side track twelve miles west of Fort Worth, and was caused from a misunderstanding of orders, it is said. No one was hurt. Several cars went into the ditch when the trains met. A wrecking crew was sent out from Fort Worth to clear the line.

USE OF DRUGS AMONG ALCOHOL ADDICTS IS ON INCREASE IN NEW YORK

By Associated Press
NEW YORK, Oct. 9.—Increase of deaths here from sleep-producing drugs, use of which, it is said, has been acquired by many persons since the advent of prohibition, has led Health Commissioner Copeland to order an investigation of sales of such drugs. Additional restrictions may be placed on their sale, he said. The investigation was ordered because of a statement by Chief Medical Examiner Naggis regarding the increase in deaths attributed to this cause. He said that alcoholic addicts, finding themselves nervous and sleepless in many instances where they have been unable to purchase liquor for their customary "nightcaps" before retiring and the "eye opener" arising, had resorted to other artificial and dangerous ways of wooing sleep. The desired relief, he said, was obtained through the use of the nerve-quieting effects of certain drugs.

Dr. Copeland, in instructions to the bureau of foods and drugs to begin an investigation immediately, referred to most of the drugs about which complaint has been made officially as "treacherous somnifacients," fifteen grains of one of which he said were sufficient to cause death. He admitted that fatalities from the use of these drugs were "altogether too frequent."

Dr. Morris declared that deaths from sleep-producing drugs occurred in hospitals and in what formerly were sanitariums for treatment of alcoholism. Deaths from such causes also had been recorded as suicides, he said. Sale of drugs, he added, should be governed by the same strict regulations as those governing the sale of poisons.

VETERANS TO GIVE PLACE OF COMING CONVENTION SOON

By Associated Press
FORT WORTH, Oct. 9.—Commander-in-Chief Van Zandt of the United Confederate Veterans upon his return from the reunion of veterans at Houston today announced that the next meeting place of the organization will be announced in several weeks following a conference with his brigadier generals. Louisville, Little Rock, Savannah, Memphis and Chattanooga have invited the veterans. The ability of each city to properly care for such a large convention will be thoroughly canvassed before a decision is made, according to the commander in chief.

Moving pictures have been adopted by the war department in vocational schools as part of the occupational training.

DEPOT ROBBER NOW IN MEXICO, BELIEF AT BRECKENRIDGE

Confession Implicates Man Who Disappeared as Principal in Holdup.
By Staff Correspondent.
BRECKENRIDGE, Oct. 9.—Anxiety that L. B. Perkins, thought by Sheriff Sears to be implicated in the robbery of the Hamon-Kell depot here of \$4,000 on Sept. 27, has fled to El Paso and across the river into Mexico, is entertained by county officials here. It has been learned that Perkins disappeared from Breckenridge immediately after the robbery and the theory of officials is that he sought safety and immunity from arrest by crossing the Rio Grande river into old Mexico.

With further developments of the case, it has been learned that Perkins, previous to the time of the depot hi-jacking, was suspected of having aided in the snatching of a purse containing \$190 from a woman near the depot. Perkins' name was mentioned by the woman when she notified the police of the theft. It was this 'clue' that eventually aided members of the sheriff's department to trace further details of the depot hi-jacking and secure a written statement from an acquaintance of Perkins which shed considerable light on the case generally.

T. D. Tarkington, the night ticket agent at the depot at the time of the hi-jacking, who has been detained pending further investigation of the case, was given a hearing before a justice of the peace yesterday afternoon. The inquiry was secret and officials refuse to comment on the case until it develops further.

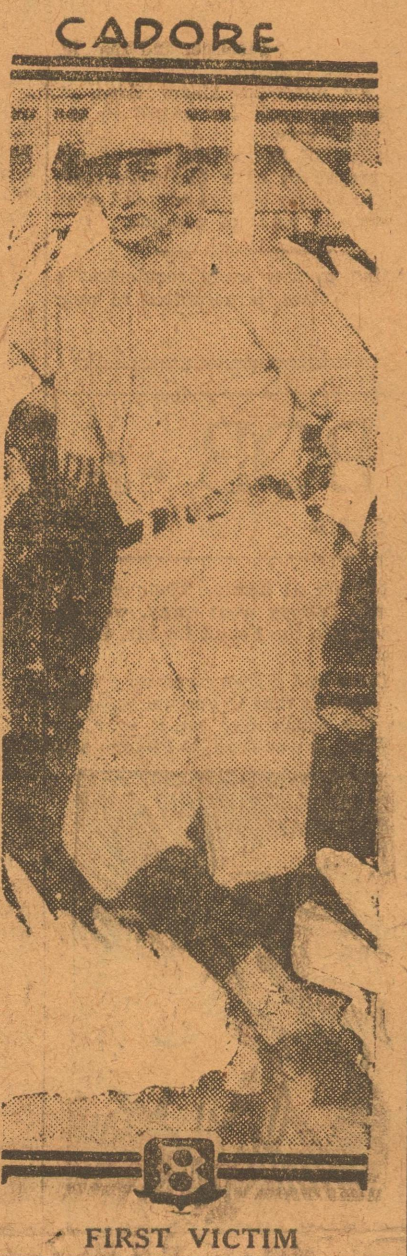

WHEAT MEN WILL REFUSE TO SELL UNTIL PRICE LIFTS

WICHITA, Kan., Oct. 9.—The Wheat Growers' association of the United States, with a membership of 70,000 in Kansas, Oklahoma and Texas, today issued from its office here a proclamation urging all members to refrain from selling any wheat after 8 p. m. Oct. 25 until such time as the price of good wheat is raised to \$3 a bushel at the growers' terminal markets.

CHIEF CUBAN BANK SUSPENDS DURING RUN AFTER RUMORS

HAVANA, Cuba, Oct. 9.—The International bank of Cuba today provisionally suspended payments. Rumors yesterday caused runs on several banks. The Havana exchange suspended business during the crisis.

Meighan Champ Commuter.
There is no use trying to keep Thomas Meighan on the west coast or in New York either. It can't be done. Now that Tom has finished "Easy Street" at the Hollywood studio, Paramount will permit him to make another picture in New York. This makes the third trip across the continent in the last six months.

FELIX DIAZ TO BE SENT TO EUROPE

Revolutionary Refused Offer of Money at Moment of Deportation.
By Associated Press
VERA CRUZ, Oct. 9.—Felix Diaz, nephew of the former president, Porfirio Diaz, who has been under virtual arrest since Wednesday, will be paced aboard a French steamer plying between Mexico and European ports next Monday, it has been announced. Diaz has declined to sign passports and other papers and maintains a passive resistance to deportation. Government officials offered him approximately \$10,000 to defray expenses of the voyage, but their offer was rejected by Diaz. He asserts that he is innocent of the charges in connection with the assassination of President Madero. He declares he was attempting to reclaim what he had lost through confiscation of property and secure indemnity for injuries suffered at the hands of the several different governmental regimes.

BERGDOLL'S ABANDONED AUTO FOUND ON BORDER

PEMBINA, N. D., Oct. 9.—An automobile abandoned in St. Vincent, Minn., early this spring, is the car used by Grover Bergdoll, Philadelphia draft evader, in escaping to Canada, according to federal officials working on the case here. Bergdoll, according to belief here, went to Winnipeg from St. Vincent and there obtained a passport from a returned soldier which enabled him to cross to Holland. Four pistols and two bottles of whiskey were found in the car which has been shipped back to Philadelphia.

VICTORY MEDALS MAY BE OBTAINED AT POSTOFFICE

All ex-servicemen who failed to get a Victory medal are requested to apply for one at the Post Office where Sergt. W. C. McQueen, of the army recruiting service, will care for their wants. The recruiting office here is still open and Sergt. McQueen announces that a number of good assignments in Alaska, Hawaiian Islands, the Panama Canal and a number of other places, are still open.

NOBODY WANTS GRAY'S TOMBSTONE AS SOUVENIR

SLOUGH, England, Oct. 9.—The monument to Thomas Gray, the poet, on which is inscribed some verses of the "Elegy" and which is situated in some fields adjoining the Stoke Poges church, failed to attract a bid when put up for auction here.

The monument consists of a large sarcophagus and was erected in 1799.

MISCONDUCT IN OFFICE ACCUSATION AGAINST OFFICIAL BY CITIZENS

Claim Is Made That Bootlegging and Gambling Run Open With Knowledge of Mayor; Incumbent Obtains Restraining Order.

With three newly elected aldermen of Desdemona trying to impeach its mayor, H. W. Elliott, and remove him from office on charges of misconduct and incompetency, and the mayor armed with an injunction restraining the hearing, the citizens of Desdemona have appealed to Governor Hobby to send Rangers into the town to replace all civil officers. One of the charges against the mayor alleges that he is the lessee of the American hotel and that it is a house of ill-resort, with his knowledge and consent. Other charges allege that when the chief of police, J. W. Wiley, ordered four gambling houses, which are said to be running wide open, to close their doors, he was suspended by Mayor Elliott.

The injunction, held by Elliott and granted by Judge E. A. Hill at Eastland alleges that the three aldermen were illegally elected and were not qualified to sit on the alderman's board. The trial of the mayor was set for Thursday, when it was stopped by the injunction.

The city lawmakers effected by the restraining order were elected by the law and order league and are making an effort to enforce the law. They are: J. D. Stakely, of the Desdemona bank, J. C. White of the First Guaranty State Bank and R. V. Nabors of the Clay-Butler Lumber company. The chief of police, Mr. Wiley is also a prominent man, owner of Wiley's theatre. These men were recently elected and took office and are trying to enforce the law, it is said.

Charge Gaming and Bootlegging.
Citizens of Desdemona declare that four gambling houses are operating there so openly that people who pass in the street can see the games running. Also that whisky is being sold without restraint, and that immoral women ply their calling with impunity.

The request was sent to Governor Hobby yesterday and has not been answered yet, in the meantime the situation remains unchanged. The citizens of Desdemona ask that all civil officers be replaced with Rangers and that the law be enforced.

This is the third time it has been necessary for the better class of that city to appeal to the governor for aid.

NEW HI SCHOOL WOULD BE ASSET, SAYS M. H. SMITH

"Ranger today occupies a place of pre-eminence in regards to schools, but to hold that place and go forward to greater eminence it is absolutely necessary that a high school building of ample quarters fully equipped be constructed. The measure of a school's greatness is the number of pupils who attend because it is a school which parents know will give their children greater advantages from their matriculation. For Ranger to reach that measure it must have ample buildings and all the equipment that goes with a high school of the first rank." This statement has been made by M. H. Smith, former educator and now a member of the board of trustees of the Ranger district.

Mr. Smith for several years was the superintendent of Ranger's schools and can speak on subjects pertaining to educational matters with a great deal of authority, and he is indefatigable in his work for the upbuilding of the city's schools.

He can see in the organization now before the upbuilding of a system that will bring families here from many sections in order that their children may have the full benefits of a nearly perfect school system. Mr. Smith, however, is frankly doubtful that this condition can be brought about so long as high school pupils have to attend the sessions in the present buildings that are being put to use on the school property even though they all every requirement and more of the state board of health regarding light, circulation and sanitation.

DIETRICH APPOINTED DISTRICT DEPUTY OF ELKS FOR WEST TEXAS

C. J. Dietrich has received his appointment as district deputy of the Elks lodge. His district will extend from Ranger to El Paso. The lodge at that city made a determined effort to have the appointment made from their city, but failed.

The work to be done is important to the organization and the appointment of Mr. Dietrich shows the high regard that is held for his ability and is a pleasing recognition of the Ranger lodge, which is only one year old.

The Medal of Honor (American) and the Victoria Cross (British) are the two highest honors which can be bestowed by any country for valor.

STEEL PLANT TO LOCATE IN RANGER SOON

City Asked to Furnish Site for Industry Which Will Employ 80 Men.

A fabricated steel plant that will employ a minimum of eighty men will be secured for Ranger provided a location can be obtained for the plant.

The Chamber of Commerce this morning, with a full attendance of directors, decided to secure the location for the new industry and the necessary trackage. The Fort Worth chamber has been making the owners of the plant attractive offers to bring it to that place, but since Ranger is the center of the sheet metal market of Texas, its owners will locate it here provided the proper location can be secured. The equipment of the plant is sufficient to construct any article from sheet steel or iron, and has a process for fabricating structural steel. The new industries committee of the Chamber of Commerce has been working on this project for several weeks.

TAKE UP "GULF" SUPPLY

During last meeting the directors appointed a committee to investigate and find out why the Oil Cities Electric company was not supplying the city with the proper amount of current. It is said that the company has a reserve supply at Eastland that it is planning to turn into the Breckenridge district of the Ranger oil field for pumping purposes. This move, the Chamber of Commerce feels, is an unfair discrimination against Ranger while its present facilities are inadequate.

On Monday the road bonds committee will begin securing right of way for the Pleasant Grove county highway and construction will begin at once.

TIMES PUBLICITY SPREADS FARM STORY ALL OVER AMERICA

Ranger's need for farm has gone to all points of the United States and Canada and from every section letters are coming to the Chamber of Commerce concerning the move and the opportunities here.

A press service that serves newspapers in all parts of the world picked the story up from the Times and sent it to all its subscribers.

Letters have been received by the chamber as far away as Canada and many are coming from nearer points. From the mass it is expected that every farm in the county will find a tenant, and perhaps many farms will be sold to permanent residents.

LEAGUE NOT MAJOR CAMPAIGN ISSUE, HOOVER DECLARES

By Associated Press
INDIANAPOLIS, Oct. 9.—The League of Nations and the tariff problems are merely subdivisions of the main issue of the present campaign, according to Herbert Hoover, in an address that marks the former food administrator's formal entry into the campaign.

LEAGUE NOT MAJOR CAMPAIGN ISSUE, HOOVER DECLARES

By Associated Press
INDIANAPOLIS, Oct. 9.—The League of Nations and the tariff problems are merely subdivisions of the main issue of the present campaign, according to Herbert Hoover, in an address that marks the former food administrator's formal entry into the campaign.

"As a government must be based on parties, it is fundamental that when a party fails in statehood or fails to carry out promises it must be neutralized by retirement in order that leadership may be reformed," he declared.

ALIENS NOT PRIVILEGED.

The "Red" or communist cause in America has not flourished. It has dwindled and dwindled because it has been drowned in a sea of apathy and indifference to its doctrines.

This being the case, it is surprising—or would be surprising were it not for the known single-mindedness of fanatics—that the efforts to further these doctrines do not die from the exhaustion induced by beating against the stone wall of inertia.

Yesterday two men were arrested in Chicago with half a ton of the most violent Bolshevik literature in their possession. When reduced to individual copies, that is a vast number, probably half a million.

Therefore the conclusion is inevitable that the money for this activity comes from some other country, presumably Russia, since the doctrines promulgated are Russian, and they alone have the time and inclination to further such propaganda.

Free speech and the right to criticize governmental policies is one thing. Extending this privilege to the point of calling on the foreign elements to overthrow the government and spare no means of violence in so doing, is another.

STATISTICS AGAIN.

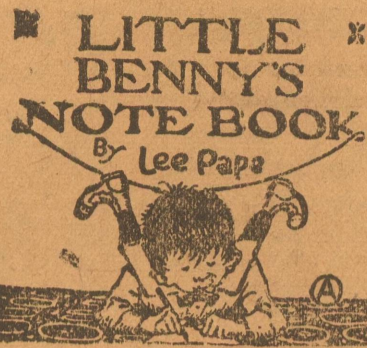

Figures announced by the Texas & Pacific railroad of business for September must contain disconcerting facts for those who have heard the rumor in other places that Ranger is "on the hummer."

This maintenance of shipping, in view of the vastly changed conditions, is indeed a cause for optimism. A year ago the building activities of Ranger was at its height. The city was being transformed from raw land and hurried frame construction into substantial bricks, with paved streets instead of bottomless bogs of ooze.

in all lines. Freight shipment today represent not the bringing in of new supplies from dealers at other points; they are replacements to keep the stocks now accumulated in this city up to standard.

Governor Cox contributes \$5,000 to the Democratic campaign fund. He evidently believes in the old adage that the Lord helps him who helps himself.

If Debs desires free room rent in a government building, he might as well refuse any clemency extended him. He's as near the White House now as he'll ever get.

TINKER BOB

By CARLYSLE H. HOLCOMB

THE KING FINDS LADY DUCK.

When Major Pole Cat arrived with O Possum, strange to say there was not a sign of barbed wrapped about his foot. Tinker Bob noticed it, and spoke to O Possum at once: "It must be, Mr. O Possum, that your foot got well the moment you dipped it into the river. You have even thrown away your cane."

O Possum didn't know what to say, so he was wise and said nothing. Major Pole Cat held to his ear and kept him moving on his way.

"Now we're off for Lady Duck's home, and I shall see who is guilty." Tinker called Jack the Rabbit to watch Snoopy. Bob Cat till Dr. Coon arrived. Snoopy could hurt no one, for his mouth was full of thorn quills, so Jack watched him until the doctor came.

"This is the fellow, Oh, King, that started all of the trouble." Major Pole Cat wanted Tinker Bob to know that O Possum was guilty. "He had poor Lady Duck down and began to pull her feathers out one at a time, trying to make her promise to remain here all winter. Think of it, Oh, King, and last winter he slept all the time and wouldn't even get up to come to dinner. He will be sorry for all that!"

"What is this I see before me?" cried the King. "O Possum, do you mean to tell me you pulled all of the feathers out of Lady Duck and then left her to die?" They were very near Lady Duck's home and the King could see feathers all over the ground. O Possum began to think it would be very serious for him before the King was through with him.

"Oh, Lady Duck is not here. She is just where she was before it happened," said Major Pole Cat. "Mr. Chuck is taking care of Lady Duck from the hands of O Possum when she was walking with Snoopy, by telling them that the best place to get her was to find her at home. So Chief Porky and I arranged to help

speshil to do with it ony says so out of pure jellissy. POME BY SKINNY MARTIN Do Your Ashkin Erly The leaves are falling off the trees To prove that fall is near And thaws of Kriasmus presents Fill my anxious mind with cheer.

RUPTURED APPENDIX CRANKING AUTOMOBILE

International News Service BOSTON, Oct. 9.—Charging that the tank of his automobile was filled with kerosene instead of gasoline, and that he in consequence cranked the car until it ruptured his appendix. Harry Carp, of Rochester, filed suit for \$5,000 in the superior court here.

The defendant in the suit is Morris Schloss, proprietor of a hardware store where Carp alleges he was supplied with the kerosene in place of gasoline.

According to new army regulations a private, first class, is permitted to wear one chevron.

STREET SWEEPER FOR RANGER WILL BE HERE SHORTLY

A horse power street sweeper will be installed by the Ranger Sanitary company within the next few days to sweep the paved street. The sanitary company has purchased the sweeper from the city of Fort Worth and expect its arrival within the next few days.

Until the city gets into a position to stand the cost the upkeep of sweeping the streets will be borne by business people and merchants. Each will be asked to donate a small amount each week. The amount probably will not be more than \$1. With the installation of the sweeper the downtown business section will be swept clean each night.

TWO MOUNTED MEN ARE ADDED TO POLICE FORCE

Two mounted men have been added to the police force, who will patrol the outskirts of the city. These men will report to the police station every hour and are subject to the call of citizens.

Chief of Police George T. Cooper wants the people to understand that all they have to do to get one of these men is telephone or otherwise get the word to the department and they will be given the call. They are also subject to the request of residents wherever there is need for police protection.

Chief Cooper is trying to impress the fact on all residents that the men and himself are the servants of the people and their sole province is to see that life and property is protected. He wants anyone any time to feel free to call for an officer whenever they believe there is need for one.

CATHOLICS PURCHASE BUILDINGS; WILL OPEN PAROCHIAL SCHOOL

The Catholic congregation in this parish has purchased a sixteen-room office building and a five-room residence from the Phillips Petroleum company and will begin the operation of a parochial school within the next thirty days.

The school will have grades from the first to the eighth and one high school course. Six Catholic sisters will be brought from San Antonio as instructors.

The buildings at present are located in Cooper addition, but will be moved to ground adjacent to St. Rita's church. The school is primarily for children of Catholic parents, but if conditions will permit, others will be taken in.

Of the 25,000 ideas and suggestions for inventions received by the General Staff of the United States Army from the public during the world war, only twenty-five were of value.

HAND CAR STRIKES COW AFT OF FORE BOWSPRIT MIZZEN

Forty Mexicans, members of a section gang, and the gang foreman, Mr. Martin, while traveling along the course of the Hamon-Kell railroad on flat cartowed by a gasoline hand car, hit a cow Thursday. Mr. Martin has a broken leg and four of the Mexicans were injured seriously enough to accompany him to the hospital.

Just how they hit the cow on Thursday is not entirely clear. Thursday has always been known as a bad day to hit a cow with a vehicle that is traveling swiftly. They might have hit the cow on Friday, say, and hit her over the eye or slugged her in the jaw, but they didn't do that. They insisted on hitting this perfectly peaceful cow on Thursday and amidships as it were.

Bossie herself sent in no report concerning her condition after the accident but she is probably a casualty. Even a cow can't stand in the center of a railroad track and be hit with a high-powered hand car without suffering from the

SISTER OF MAN WHO DIED HERE HAS BEEN FOUND

A sister to Ed C. Barton, the man who died suddenly Thursday night at the Ranger hospital with complications of the throat, has been found three miles north of Ranger. Her husband, J. T. Mahan,

is an employe of the Prairie Pipe Line company.

A suitcase check was found in the dead man's effects, which led to the discovery of the bag at a local check stand. Among its contents was a letter addressed to Mr. Mahan.

Funeral arrangements under the direction of the Milford Undertaking company have been completed for tomorrow afternoon at Evergreen cemetery.

The Victory medal can be worn on the uniform only upon occasions of military ceremony. Each army medal issued bears a serial number which is recorded in the Adjutant General's office at Washington, under the name of its owner.

During the world war, Germany manufactured articles entirely of paper for her army. They included paper twine, paper cloth, feed bags, artillery packs, water buckets, blankets, kit bags, saddle bags, canteen covers and knapsacks.

RIPLING RHYMES

THE FAT SUFFERER.

The fat man sickens and like the dickens his tortured system feels; he has the danders and yaller janders and gout in both his heels. When convalescent, his woe senescent, he'd like to tell the tale of ailments gandy that racked his body, and make his hearers pale. He'd fain be telling his blood congealing pain epic by the week; but none will listen, no tears glisten on sympathetic cheek. And

when he pauses, for any causes, he hears some horse-laugh sounds; his yarn seems yellow, for he's a fellow who weighs two hundred pounds. He may have verses from does and nurses to prove diseases three; it doesn't matter—the man is fatter than sick folk ought to be. We grin and simper when he would whimper his doleful snobbed tunes; we mark his figure and snort and snigger and say he's full of prunes. If he were slender, with ritz tender, we'd mix our tears with his; we'd hear him twitter of oricals bitter, and sigh, and say, "Gee whiz!" But he is fatter than any hatter or plumber in the town; so when he'd babble and idly gabble, we promptly turn him down.

SOCIETY

Missions Society Meeting. The Ladies Aid and Missionary society of the First Presbyterian church will hold its semi-monthly meeting at the church Monday afternoon at 4 o'clock.

William P. Carlton has been engaged as leading man for Clara Kimball Young's next production.

9-HOUSES FOR RENT FOR RENT-Two room house furnished, or unfurnished. Gas, apply L. D. Kinard, Ranger Tobacco Co.

FOR RENT-Two room house with gas, near Prairie O. & G. Co. C. P. Hall.

FOR RENT-4 room bungalow, nicely furnished, in Young addition. Inquire A. N. Larson, care Oil Cities Electric Co., 324 Main St.

FOR RENT-Small house, close in, all conveniences; cheapest rent in town. Apply 309 Pine St. between 5 and 6 p. m.

11-APARTMENTS HOUSEKEEPING apartments, \$10 and \$12 a week; water, gas and lights furnished; 2 unfurnished rooms, cheap-115 1/2 N. Marston.

FOR RENT-One 2-room apartment, soft water, gas. 416 N. Rusk St.

FURNISHED two-room housekeeping apartment, water, gas and lights, \$10 per week; one block west Ranger Steam Laundry, 408 Cypress St. The Home Apartments.

12-WANTED TO BUY WANT to buy 2 or 3-room house for cash. 219 N. Marston.

13-FOR SALE-Miscellaneous ONE CARLOAD new Avery Oil Gear Wagons, size 3 1/4x3 1/2, will sell one or all at less than factory cost.

NATIONAL Cash Register for sale, Armour & Co. See F. H. Williams, Georgia Hotel.

FOR SALE 700 feet 1 1/2 in. casing, 50 lbs.; 1500 ft. 10 in. casing, 40 lbs.; has been run one time, good condition. R. B. Melton, Willes, Texas.

FOR SALE-2 Cash Registers, one adding machine, gasoline pumps and tanks and vulcanizing outfit, filling station Cherry and Marston.

35-HORSEPOWER gasoline engine, 2 wrist mills, 1 feed mill, corn sheller, Avery tractor engine. P. O. Box 202, Chapell Hill, Texas.

TENT FOR SALE, walled and floored, size 12x14; original cost \$85; sale price \$25. See J. A. Stamps at Prairie Oil & Gas Co.'s material yard.

14-FOR SALE-Real Estate FOR SALE-4 frame buildings, two two-stories and two store rooms. All nice new buildings, for sale at a sacrifice, or will trade for good teams; 220 1/2 N. Persian St.

15-HOUSES FOR SALE \$150 DOWN Four-room house, closets to each room; also 1-barrel and 50-barrel water tank with platform.-204 Hubbard street. Page Adm.

FOR SALE-House, large room, kitchenette, two screened porches, basement, gas, city water; beds, stoves, tables, etc. Fine location. Price \$400. Apply 520 Hodges St.

FOR SALE CHEAP-New two-room house, sleeping porch, shingle roof, house painted yellow, trimmed in white. Edge of Eastland hill, west of Purity Water company.

16-AUTOMOBILES FORDS, DODGES and Buicks, brand new cars. "Quick sales and small profits" our motto. Ford sales room, W. J. Odum Prop., 1315 Commerce St., Fort Worth

NEW Buicks, Fords, Dodges. Immediate delivery. Easy terms. Roy Gardner, McCleskey barber shop.

FOR SALE-Roo Speed Wagon, late model; will trade Buick \$8K for late model Ford. Filling station, Cherry and Marston.

18-WANTED-Miscellaneous WANTED-Second-hand furniture. Call or phone 110. J. M. Wilson, 114 N. Rusk.

FURNITURE-Will buy, sell or exchange. BARKER'S FURNITURE STORE, 312 Pine St.

19-FOR TRADE OR EXCHANGE WANTED-To exchange a small house now rented, for lease or stock, Box 1082, Ranger, Texas.

20-OIL, GAS AND MINERAL WANTED TO LEASE-A complete string of cable drilling tools for drilling a 2,500-foot well will pay part cash, part stock and part acreage in territory where oil has been found. Address Box N. O. C. Daily Times

Sports

RANGER HIGH LOSES FOOTBALL GAME TO CISCO

End Runs Upset Local Defense; Browns Grabs Pass for Ranger Score.

A hard fought game on the gridiron of the Municipal park yesterday was won by the Cisco High School football team from the Ranger High, 34 to 7.

The feature of the game was the long end runs made by Cates and Turner of Cisco who kept the Ranger boys on the "go" during the entire game.

Very little excitement prevailed until the last part of the third quarter, when Brown of Ranger, grabbed down a forward pass, going 40 yards for a touchdown. Huffman did not fail to kick goal, thus giving the home boys seven points. Herndon of Cisco failed to kick goal only once out of five chances.

Out of eleven attempts at forward passes tried by both teams only two were effective.

A great deal of squabbling was done by the Cisco team, who, when penalized fifteen yards for tripping, caused Fefere Pollock to be taken out of the game and Wickline put in his place.

Cisco scored three touchdowns in the first quarter, one in the second and one in the fourth. The third quarter was Ranger's.

The lineup: Cisco Position Ranger Tucker Right End Alworth McCarty Right Tackle Terry Hale Right Guard Getts Cogdon Center Henshaw McNeill Left Guard Patterson Robinson Left Tackle Heasley McCrene Left End Olson Pass Quarterback Hoffman Cates Right Halfback Morris Turner Full Back Collins Herndon Left Halfback Brown

Oil

ELECTRIC PUMP SERVICE WILL AID STEPHENS

Oil Fields Electric Company Will Extend Lines to North.

BRECKENRIDGE, Oct. 9.-A new era in oil field development will soon be ushered in by the electrification of all pumping machinery, if the plans of the company building a power plant near Ranger and running feed lines and establishing smaller stations in other parts of the Ranger-Breckenridge territory are carried out.

As now contemplated, a number of high tension wires will be laid from the power plant of the company to the fields of the Ranger-Breckenridge districts. In this way stupendous savings in the way of gas and water expenditure will be effected according to the men putting the proposition into working order.

At the present time gas costs the operator approximately \$15 a day. This apparent high price is due to the fact that in most cases, though gas is plentiful in many parts of the field, the laying of pipe to carry it to the different wells is costly. Water also has to be carried long distances in many instances and is correspondingly costly.

Saves Labor Also There is still another phase of the proposition of electrical pumping that proves an attractive factor to operators. This is the labor question. Under the present system of pumping one man can attend to only one or two pumping wells. If electrical pumps are installed a single employe can attend to six or eight wells with the same amount of time and expenditure of energy required now to take care of two wells. This will reduce the cost of labor in the fields and aid operators in handling many more wells than up to now has been possible, because of the shortage of oil field workers, which has been operative for many weeks.

It is the intention of the new company to locate auxiliary stations of the power line at intervals in the oil fields wherever a demand for electric current exists. Because the small amount of mechanical apparatus used at wells where electric current is depended upon for pumping, considerable savings in transportation costs also are expected to be in effect by the installation of the new system of pumping.

WRONG CLASS FOR STEPHENS CRUDE, IS OIL COMPLAINT

BRECKENRIDGE, Oct. 9.-With the recent alteration of the system of transporting Stephens county crude oil to the refineries a fact of importance to every operator is demonstrated, according to authorities here. The demand for a pure product from the fields in this section has caused an absolute change in the operation and it is now possible to reach the eastern refineries without the product being lowered in grade by being mixed with other mid-continent crudes.

This is further evidenced by the fact that Stephens county crude reaches the refinery and yet is only bringing the post-war price of \$3.50 or thereabouts from the pipe line companies, the same as the inferior grades, which are posted at approximately the same figure, but with much lower gravity tests.

High Gasoline Content. It is the great value of the Stephens county crude in the production of cylinder stocks and because of its high gasoline content which places it out of the class of the mid-continent crudes. This value has been recognized by large refineries since the West Texas fields have been opened, but the fact, according to oil authorities, that Stephens county crude has a longer haul than that of other fields has been made the excuse by pipe line companies to make a separate classification, while the other crudes in this class is of a much lower grade but require a few miles less transportation.

Pipe Line Oil to Gulf. It is admitted by oil men that the pipe line capacity of West Texas to the north is twice as great as the present run, but in the face of this fact it has been reported, the oil which formerly went north through the Prairie pipe line from Ranger has now been diverted in the other direction and now, instead of going by way of Bowie and Drumright, Okla., in the direction of Whitney, Ind., it is sent by the Humble pipe line to the south where it reaches a seaport in the Gulf of Mexico and is loaded into tankers of the Standard of New York and the Vacuum people, this making it possible to reach the eastern refineries with the product of the Stephens county fields without its being adulterated by a lesser of an inferior gravity test and a cruder gasoline content.

Should Effect Reclassification. Taking these facts into consideration, it is the belief of many oil men that, if a scale was adopted giving an increase of 10 cents a barrel additional for each full degree of gravity, Stephens county crude would be posted at a considerably higher price over the mid-continent crude which makes a 28 degree gravity test as against the Stephens county crude gravity test of 41 1/2, a difference of 3 1/2 points.

Should Effect Reclassification. Taking these facts into consideration, it is the belief of many oil men that, if a scale was adopted giving an increase of 10 cents a barrel additional for each full degree of gravity, Stephens county crude would be posted at a considerably higher price over the mid-continent crude which makes a 28 degree gravity test as against the Stephens county crude gravity test of 41 1/2, a difference of 3 1/2 points.

PROGRAM

TEMPLE—George Walsh in "From Now On" also "Elmo, the Fearless."

LAMB

A company of extraordinary strength appears in "The Untamed," a big Tom Mix feature produced by William Fox.

Pauline Stark, who has played in many of the biggest productions in the history of the motion picture art, supports Tom Mix in the role of Kate Cumberland.

"The Untamed" was filmed from the well known novel by Max Brand.

TEMPLE

Editor of Tokio Paper Pays Tribute to Fox Productions.

That George Walsh's popularity has spread to the Orient is evident from the letter directed to him by the editor of one of the foremost film fan publications in Japan.

Washington to Stop Japanese Influx on Coast

WASHINGTON, Oct. 9.—Steps have been taken by the state department to make drastic and absolute the restrictions against Japanese immigration.

This development in the negotiations over Ambassador Shidehara's protest against the proposed California law for prohibition of ownership of land by Japanese is regarded as highly significant.

Holand S. Morris, American Ambassador to Japan, has brought to the negotiations with Shidehara a study of the "gentlemen's agreement" for the purpose of devising some means for an airtight exclusion of Japanese immigration.

While no plan is known to have been agreed upon it is understood the state department has taken the position that the "gentlemen's agreement" is not entirely satisfactory.

Gov. Stephens of California charges that despite the "gentlemen's agreement" the Japanese population in that state is rapidly becoming larger.

A revision of the "gentlemen's agreement" or its abandonment for another pact is regarded as likely.

In France, no less than 1,500 deserters from the American army are living in the Paris district.

FIFTEEN YEARS OF BLACK-DRAUGHT

Black-Draught Highly Recommended by Illinois Man for Liver and Stomach Disorders.—Used It for Fifteen Years.

SINGTON, Ill.—"For fifteen years we have used Thedford's Black-draught, and have not as yet found anything that could take its place," writes Mr. W. F. Rister of this town.

"For sour stomach, a heavy, bloated feeling, it is splendid. And when the liver gets torpid, so that when you stoop and raise up suddenly you feel dizzy, a few doses will set you straight."

"We keep it and use for constipation and the above troubles, and find it most satisfactory. I can recommend it to others and gladly do so. For the number of years I have used Black-Draught now, I ought to know."

In its 70 years of usefulness, Thedford's Black-Draught has relieved thousands and thousands of persons suffering from the results of a disordered liver. And, like Mr. Rister, many people feel that, after using Black-Draught nothing can take its place.

If you haven't tried Black-Draught get a package today. Nearly every druggist keeps it.—Adv.

State Commission Will Rigidly Enforce Gas Conservation and Fire Prevention Rules at Breckenridge

By Staff Correspondent.

BRECKENRIDGE, Oct. 9.—Rigid enforcement of the conservation code of the oil and gas division of the Texas Railroad Commission will be insisted on in Stephens county, especially in the Breckenridge township, according to Clarence E. Gilmore, of the commission, who visited the field yesterday and made a trip into all sections of the oil area in company with several of his associates on the commission.

Actuated directly by the disastrous fire on the Cleve Johnson well on block 15 and 16 Tuesday night, in which three men lost their lives and a heavy property and oil damage inflicted, Mr. Gilmore in an interview here declared that Rule 29 of the commission's regulations, bearing on the matter of reducing fire hazard, will be rigidly enforced even if the commission has to resort to drastic measures.

"I do not wish to work a hardship on operators in this field," Mr. Gilmore said. "But the experience of Tuesday night shows that some drastic measures must be taken to remove the fire jeopardy from the city of Breckenridge and at the same time insure conservation of oil by preventing wastage through burning."

The rulings which will meet with the most imperative enforcement are those relating to the buying of pipes carrying oil and gas, and those relating to the location of storage and flow tanks with respect to derricks.

Not to Deviate From Rule. In cases where operators are drilling on small township leases where their leased area does not permit of the distances set forth in the ruling, they must make provision for tank locations elsewhere, according to Mr. Gilmore, who is firm in his determination not to deviate from the regulations.

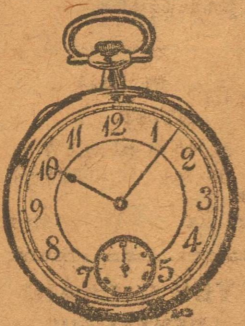

"Had the wind blown from a different direction Tuesday night it is highly probable that the fire damage inflicted on Breckenridge would have been tremendously great," Mr. Gilmore said. "At the present time the city is virtually without water to protect it from a fire of major proportions and its only safeguard in this respect lies in the enforcement of the rulings of the commission against fire hazards."

Express Company IS SEEKING NEW BRECK. QUARTERS. BRECKENRIDGE, Oct. 9.—Ousted from their quarters in the Hamon-Kell depot here, the American Railway Express company is hard put to find new quarters in which to store a large volume of express already on hand and constantly coming in.

D. B. Merchant of Fort Worth, general superintendent of the express company, was in Breckenridge today and conferred with real estate and business men here concerning a new site on which headquarters for the express company may be built.
