Sales to date	1,839,411

## Long War Yet, Says Stilwell

By ROBERT GEIGER and AL DOPKING  
OKINAWA, June 7 (Delayed)  
Gen. Joseph W. Stilwell, making a frontline inspection of the stubborn Okinawa battle, declared today that the war with Japan easily could last at least two years longer.

"It is quite possible that we will have to fight in Manchuria," he said, even after the Japanese home islands are conquered.

"Personally I believe it will require ground action in addition to anything done by bombings," said the commanding general of army ground forces, in disagreeing with a belief he said was held by many Americans that bombing alone could defeat Japan.

Stating that he saw no reason to expect the Japanese to break,

Stilwell remarked, "I cannot see how, when they are so tenacious individually, we can expect their mass morale to crack."

"Vinegar Joe," who already had watched the U.S. Sixth Army in action on Luzon in the Philippines, has been here several days, living at the front and watching the hard struggle of the troops whose training is his responsibility.

He had "seen nothing here that would call for a change" in training methods and expressed belief that troops with proper basic training could master readily the Japanese methods of fighting from caves.

He said that while the Okinawa battlefield reminded him of France in the first World War, the Germans in either war had not shown the stubbornness of the Japanese.

## Japan Smoulders From Its Worst War Weekend

Home Islands Hit For Four Straight Days By Bombers, Fighters

By LEIF ERICKSON  
GUAM, June 11 (AP) — The Japanese homeland smouldered today from its worst weekend of the war—four consecutive days of devastating attacks by American warplanes ranging from gigantic B-29 Superfortresses to speedy Mustang and Thunderbolt fighters and navy carrier planes.

Thursday, Friday, Saturday and Sunday the American struck again and again, hurling high-explosive bombs and bullets into Japan's aircraft factories, rail yards, airfields and other military targets in five separate raids on widespread areas.

Radio Tokyo said 30 Mustangs, led by two B-29s, fired installations at Tachikawa and Atsuki airfields in the Tokyo-Yokohama area Monday. It reported the fighters strafed the fields for an hour.

Sunday's strike was made by 250 to 300 B-29s on five factory and military targets in the already ravaged Tokyo and Yokohama districts. Reconnaissance photos showed that the Hitachi engineering works and adjacent railway yards at Sukagawa alone were struck by 820 bombs.

Results were reported good on the other targets, although photographs were not yet available.

Japanese anti-aircraft fire was reported meagre to moderate. One Superfortress was lost, but two-based Mustangs on escort duty destroyed 26 Japanese interceptors and probably destroyed 10 more without loss.

Okina-wa-based Thunderbolts in a foray over Kyushu on Sunday, destroyed 17 Japanese planes, making the day's total bag at least 43 over Japan.

In the four days of raids, total American losses were announced as 10 planes, including three Superfortresses, three Mustangs and four carrier-based planes from Adm. William F. Halsey's Third Fleet. All four carrier pilots and one of the Mustang pilots were rescued.

Radio Tokyo, acknowledging the bitter weekend of war come-home-to-root, complained that already one out of every 15 Japanese was homeless—4,930,000 of the 72,000,000 inhabitants of the home islands.

# Aussies Invade Borneo

**SUPERFORTS SHOWER INCENDIARIES ON KOBE**—Incendiary bombs from B-29's rain down on Kobe June 4 as Superfortresses carry out their third incendiary attack on Japan's sixth largest city. Fires are already burning in the commercial dock area. (AP Wirephoto from XXI Bomber Command).

## Japs Caught Off Balance By Move

By The Associated Press  
Veteran Australian assault forces have made a surprise, three-way invasion of northwest Borneo, seized control of the entrance to strategic Brunei Bay and driven 4,000 yards inland, Gen. Douglas MacArthur announced today.

Defending Japanese troops caught completely off-balance by the second invasion of the oil-rich Borneo area, offered only negligible resistance to the landing, which Tokyo previously announced was made Friday.

Troops of the Ninth Australian division, veterans of African desert fighting, stormed into the jungles of Labuan Island, at the northern entrance to Brunei Bay; Brooketon on the tip of a cape forming the southern arm of the bay, and at Maura. First dispatches from Manila did not specify whether this was Maura Island inside the bay from Brooketon, or a town of the same name next to Brooketon.

Labuan town and airfield were quickly seized from the unprepared Japanese on Labuan, and presumably the field will soon be in use by Australian fighter planes.

The main force hitting at Brooketon drove 4,000 yards down the peninsula toward Brunei town, major city and governing seat of Brunei.

Assault forces landed under cover of a heavy Allied naval and air bombardment. Naval gunfire came from the combined power of units of the U. S. Seventh fleet and elements of the Australian navy. Bombers and fighters from the Royal Australian and U. S. 13th air forces, which have been neutralizing Borneo for months, furnished the air cover.

MacArthur listed Brunei Bay and Labuan as targets for more than 213 tons of bombs dropped by more than 100 heavy, medium and fighter bombers, resulting in fires and explosions.

The bay, as an outlet for the petroleum wealth of Borneo, once was a refueling point for the Japanese fleet.

If the Allies could obtain Borneo oil readily, it would be equivalent to a gigantic increase in the tanker fleet that now must haul fuel across the Pacific. Borneo's oil, besides being closer to the war fronts, is highly-purified for its purity, requiring little refining for some purposes.

## Showers Revive Crop Prospects

Thundershowers revived hopes of crop production in northern Martin, Howard and Mitchell counties early Monday.

While the fall was measured at only .32 of an inch at the US weather bureau, it was one inch at the US Experiment Farm, a mile to the northeast.

In the northern half of the county showers ranged up to as much as an estimated two inches, but in the south half there was scarcely a sprinkle. City lakes received no water, according to available reports.

Most of the county north of the T. & P. tracks had sufficient moisture for planting. Since comparatively little planting had been done due to one of the most tenacious spring droughts in years, the showers were considered life-savers.

Hail, accompanying the rain, did some damage to small row crops and gardens, but this was spotted and not extensive. Violent electrical displays decorated the storm.

Stanton had light showers but north of that point in the farm belt around Lenorah, 1.32 inches fell.

Ackerly, near the common corners of Howard, Martin, Dawson and Gordon counties, had three-quarters of an inch and there were unconfirmed reports of approximately two inches of moisture in the Vincent area, in northeastern Howard county. In spots, there were terrific downpours that left tanks brimming.

Coahoma reported an inch and a quarter, and the showers extended far enough south to cover part of the farming belt in that area.

Colorado City, suffering with only .05 of an inch in season in May, reported 1.32 that helped revive crop prospects. While April, in contrast to other towns in the area, had produced 2.34 at Colorado City, more than half of it was purely local and the area was beginning to suffer.

Forsan reported only a sprinkle and Garden City had no rain, nor were there reports of rain in Glasscock or Sterling counties.

The rain here was the first since May 8-9 when only .31 fell.

## Truman Asks 39 Billion For Army

WASHINGTON, June 11 (AP)—President Truman asked congress today to provide the army with \$39,019,790,474 to finance the accelerated attack on Japan.

He transmitted the military budget for the fiscal year, beginning July 1, calling for new appropriations of \$21,963,093,400.

The reappropriation of unobligated balances from prior appropriations totaling \$8,818,195,574, and estimated recoveries from contract cutbacks and terminations totaling \$8,238,501,500.

The total program, a White House statement said, represents a reduction from a preliminary estimate of \$45,500,000,000 which was included in the regular budget submitted by former President Roosevelt last January, contemplating continuance of the war on the European front.

The estimates contemplate maintenance of an army reduced in strength from 8,320,000 on June 30, 1945 to a maximum strength of 6,968,000 on June 30, 1946.

Reductions were based on a revised estimate of needs as a result of the unconditional surrender of Germany.

The White House noted that 2,182,000 men will be discharged from the army during the coming fiscal year and approximately 1,000,000 will enter it for the first time.

"The budget not only contemplates financing the war against Japan throughout the fiscal year," it was stated, "but it provides funds for munitions and equipment to be delivered through Dec. 31, 1946. Heavier types of aircraft are financed through June, 1947. Included is approximately one billion dollars for international aid requirements (military lend-lease) and for relief of civilians in areas occupied by our forces."

## Okinawa Defenders Fire Big Guns In Last Stand

By RICHARD O'MALLEY  
GUAM, June 11 (AP)—Rapidly dying defenders of Okinawa brought all their remaining artillery into play today, firing at point-blank range in a thus far futile effort to stop a full-power assault launched by the U. S. 10th army.

Guns of as heavy caliber as 105 mm. were being used by the Nipponese in their last stand attempt to halt the American attack on heavily fortified Yaeju-Dake escarpment. On the east flank the enemy directed fire against 7th and 96th division tanks.

Even in the tightly encircled Broku pocket, Japanese field guns shelled the Naha harbor bridge, causing some minor damage to the American-built structure.

The Seventh regiment of the First U. S. marine division ran into heavy Japanese machinegun and mortar fire as it moved through Itoyan town, capture of which has not yet been announced by Fleet Admiral Chester W. Nimitz, Pacific fleet commander.

Headquarters reported the 96th U. S. infantry division is under fire from mutually supporting Japanese positions and a cave while the 17th battalion of the 7th division is using flame throwing tanks against 88 enemy-held caves.

The Nipponese, who Admiral Nimitz said are being killed off at the rate of 1,000 a day, are heavily dug in along the white chalklike Yaeju-Dake escarpment, looking down the throats of the oncoming Yanks who are meeting a deadly fire.

Tokyo radio claimed its Kamikaze suicide planes attacked Allied shipping off Okinawa yesterday and today, sinking one warship and damaging another.

The Nipponese radio also reported that Minami (south) Daito, 225 miles east of Okinawa, was bombarded from the sea and air Sunday. Admiral Nimitz announced that on Saturday a battleship force bombarded Okino Daito, 300 miles southeast of the Ryukyus.

Lt. Gen. Simon Bolivar Buckner, Jr., commander of the 10th army, replied to the Japanese artillery on Okinawa with virtually every weapon at his command. Flame throwing tanks led ground charges, aircraft rocketed, strafed and bombed enemy ground forces and their well protected gun positions.

Offshore, battleships lobbed their big 14-inch shells into the Japanese positions and cruisers and destroyers supported the troops with their 8- and 5-inch guns.

Maj. Gen. James L. Bradley's 96th infantry division, spearheading the front assault, gained 800 to 1,000 yards yesterday in the face of the Japanese's heavy fire. Forward elements of the New York division succeeded in scaling some of the steepest slopes.

## Two Bases May Be Abandoned By Jap Forces

By SPENCER MOOSA  
CHUNGKING, June 11 (AP)—Chinese assault forces battled the Japanese within the outer defenses of Liuchow today and closed in to within 10 miles of Kweilin, 90 miles to the northeast, amid a growing belief in the Chinese capital that the enemy planned to abandon both of these former American air base cities.

The Chinese high command announced today that two prongs of a Chinese drive were advancing on Kweilin. A thrust from the northwest reached to within 10 miles of the city yesterday, while another aimed from the west advanced 12 and one-half miles to reach a point 12 and one-half miles from Kweilin.

The Chinese command announced the capture of two more unidentified towns on the highway to French Indo-China and said Generalissimo Chiang Kai-shek's troops were moving on Pingsiang near the border of the French colony and Kwangsi province.

The communique said the Japanese had attacked toward the Kwangsi border from the Indo-China town of Caobang, and were engaged at the border town of Chungkingfu, 19 miles northeast of Caobang. The Chinese previously had reported the capture of Chungkingfu.

The high command said regulars and local militia on June 3 captured Tenyun, on the West river 40 miles west of the former treaty port of Tsangwu (Wuchow), through which the Japanese forces in Kwangtung invaded Kwangsi last year.

Inconclusive fighting continued in Homan province at the Japanese bastion of Hsiashiakow, guarding the approaches to Hankow and the Peiping-Hankow railroad, the communique said.

## Suzuki Given Broad Power

By The Associated Press  
The lower chamber of the Japanese diet today passed an amended wartime emergency bill, the Tokyo radio broadcast, giving Premier Kantaro Suzuki's government virtual authority to rule Japan by decree.

The broadcast, recorded by the FCC, said the house approved the measure after a six-hour delay caused when members of a house committee took exception to certain remarks made by the premier.

Radio Tokyo said it was believed the house of peers would pass the bill in its revised form.

## Hopes Brighten At Conference

SAN FRANCISCO, June 11 (AP)—Fresh signs that the big powers can compromise even sharp differences in the interest of peaceful cooperation sent the United Nations Conference into the home stretch today with brightened hopes for the world future.

There remains the problem of winning small nation acceptance of the veto voting formula by which the big-five would retain control of the proposed 11-nation security council with its machinery designed to keep peace.

This is before a conference committee (scheduled to meet 4 p. m. EDT today) in which Foreign Minister Herbert V. Evatt of Australia is leading a fight for restricting the veto so that, while each of the big powers would still have to agree on use of force, peaceful measures to settle disputes could be taken even over some big power objections.

Russia, France, Britain, the United States and China, having agreed that discussion of disputes could not be blocked by a veto block, stand solidly against Evatt and those who share his view.

Senator Tom Connally (D-Tex.) is leading the big power side of the committee debate aided by C. K. Webster, a British adviser.

Those who argued with Evatt in a heated discussion Saturday night which blocked a Connally proposal for immediate acceptance of the veto formula were Chairman Hector David Castro of the El Salvador delegation and Mamdough Bey Riaz of Egypt.

## Poll Tax Foes Win Early Test

WASHINGTON, June 11 (AP)—Poll tax foes scored an initial victory today in the house by discharging the rules and judiciary committees from jurisdiction over legislation outlawing the taxes.

By a roll-call vote of 223 to 95 they forced the issue before the house. The size of the vote left no doubt that they would succeed in ordering procedure making an actual vote on the legislation an order of business for tomorrow.

The legislation, passed several times by the house in recent years only to be sidetracked by the senate, makes it unlawful for any state or community to require the payment of a poll tax as a qualification for voting in any election for president, vice-president or members of congress. Seven states now levy poll taxes.

## Landlord Settlements Total \$7,050 For May

Landlords in the Lubbock district, which includes Big Spring, made settlements through area rent offices amounting to \$7,050.03 during May, C. N. Sullivan, district rent executive for the OPA, has announced.

Of this total, refunds to tenants for rent overcharges amounted to \$5,953.45, and \$1,096.58 was paid to the US treasury.

Most of the refunds represent settlements made by the landlords out of court.

## Lt. Anderson In On Airport Fight

Lt. (jg) Gerald Anderson, son of Mr. and Mrs. C. E. Anderson, was in on the annihilation of Japanese forces which attempted parachute and crash landings on an Okinawa airfield by American forces.

In a letter received by his parents, he said that "I've been to Okinawa once and had a little fun there. The Japs crash-landed some troops on the airfield and we stayed up all night killing Japs. Really we stayed all night in foxholes."

During the period he was bombed and had hand grenades tossed in the general direction of his foxhole.

"I also have had a crash landing," he said, indicating he was piloting a navy plane which put down on the Okinawa port when it was seized. Lt. Anderson added that there was more good excitement than at a football game for "there was never a dull moment."

As a carrier based fighter, he has seen considerable action in the Pacific theater. Last April, operating from a land base in the Marshalls, he was forced down at sea and it required the better part of a day before he made land.

A graduate of Big Spring high school, Lt. Anderson also is a McMurry college graduate.

## Biddle Files Report On Foreign Propaganda Activities In U. S.

WASHINGTON, June 11 (AP)—Attorney General Biddle told congress today that foreign government propaganda activities in this country have become costlier and of a more polished type.

In a 560-page report on administration of the Foreign Agents Registration Act from June 28, 1942, through last December 31, Biddle estimated that more than 12,000 different items of propaganda in 26 languages have been filed annually with the justice department.

He added that organizations and individuals associated directly or indirectly with 34 foreign governments are participating in propaganda or publicity activities in this country.

The most important propaganda organizations, Biddle said, are official information centers maintained in the United States by 18 foreign governments. He said the 15 principal ones increased their annual expenditures in this country from \$2,873,000 in 1942 to \$4,303,000 in 1943 and to \$5,368,000 in 1944. The number of their employees grew from 643 in 1942 to 846 in 1943 and to 1,124 in 1944.

The Soviet Union, the report said, does not maintain an official information agency "but conducts parallel activities by other means in large part not subject to the (Foreign Agents Registration) act."

## Houston Blaze Causes Damage Of \$50,000

HOUSTON, June 11 (AP)—Two men were burned and more than \$50,000 damage in property and stock loss was caused by a fire that razed a two-story brick building and a warehouse on Katy highway early today.

The building housed the Warwick grocery store, cafe and plumbing shop on the first floor and apartments upstairs.

The fire broke out at 4:24 a. m. and was put out three hours later. Otto Jarvis, 42, a roofer, was trapped on the second floor and jumped to the ground, deputies said. He suffered third degree burns on the back and shoulder and was admitted to a hospital.

Richard Kasper, 32, owner of the stores, was burned seriously trying to save his property.

## Held For California

C. D. Burge is being held in the Howard county jail after the local sheriff's office was notified by telegram that law officials in Riverside, Calif., holding a felony warrant for his arrest in connection with a swindling by bogus check charge. Burge was picked up here shortly after the wire was received by A. D. Bryant, deputy sheriff.

## Good News In Polish Problem Is Indicated

MOSCOW, June 11 (AP)—Foreign diplomats said today they understood that news of the Polish question which would be welcomed in all Allied capitals would be forthcoming soon.

Foreign observers here said they had noted a "considerable improvement" in the atmosphere of Russian-American relations growing out of Harry Hopkins' visit.

Russians got their first reports of the possibility of a Big Three meeting in a story by Tass, official Soviet news agency, from Paris. This quoted Pertinax, the pen name of Andre Gerard who writes from Washington for French and American newspapers.

In the same article, the Russians also learned progress may be expected on the Polish situation and that Hopkins played a part in bringing it about. It quoted Pertinax as saying that most or all of the Poles recently arrested on charges of diversion behind the Red army lines had been released.

(The French press agency, in a Paris broadcast Saturday night, said Hopkins had obtained the release of 16 of the 17 leaders of the Polish resistance movement who were arrested by the Russians and accused of subversive activities.)

(The arrests apparently have delayed negotiations for formation of the new government which the Big Three at Yalta agreed would be organized. The Paris broadcast said Moscow already had agreed to enlargement of the Warsaw government by the addition of representatives of the Polish peasant, socialist and Catholic parties.)

(A British foreign office communique said today that he had no confirmation of reports that the 16 Poles had been released.)

Altogether, Pertinax's article occupied two columns on the international news page of Pravda, communist party organ. Its publication here was regarded as significant.

## Professor Leaps To His Death

AUSTIN, June 11 (AP)—Alton Parker Thomason, 41, instructor in English at the University of Texas, leaped to his death today from the 24th floor of the 27-story main building of the university Justice of the Peace Mace Thurman inquest verdict of suicide and said that Thomason had slashed his wrists and his throat before jumping from the window of his office.

Thurman said Thomason left no notes, and that he could not yet establish a possible motive for the act.

Thomason's body was found by a library employe at about 8:15 a. m. It was in what is known as the east court, between the university tower and library.

Born in Nacogdoches, Thomason had taught English at Louisiana State University and at Tulane. He came to the University of Texas in the fall of 1943 as a temporary instructor, and had taught there since.

## Daniels Opposes Peacetime Draft

WASHINGTON, June 11 (AP)—Opposing a peacetime draft, Joseph Daniels, former secretary of the navy, said today "the imperative preparedness of tomorrow is that which will give conquest of the skies."

The 83-year-old Raleigh, N. C. newspaper publisher who directed the navy during the last war, defended the house postwar military policy committee this formula as "the best protection" against the possibility of future attack.

"I would place the main emphasis on a navy that flies, with adequate military strength on land and sea. x x x I would take leave to be strong in the air. If our country dominates the sky, no enemy can land on any part of our terrain." He felt air volunteers would meet the need.

The committee is in its second week of hearings on the subject of universal military training.

Since there has been no suggestion of the need of a draft to provide personnel to man a large postwar navy, Daniels said, "the only argument left for the proposal is the need for inductions to make up the land forces."

"At the most there will be need only for a small, compact land force," he contended.

## Four Divorces Are Granted By Court

Four divorces were granted by the 70th district court in hearings held Saturday.

Tessie McCarty has been granted a divorce from Oscar J. McCarty and her maiden name of Harris was restored to plaintiff. Charles A. Ryerson has been granted a divorce from Mary M. Ryerson, and Ruth Holley has been granted a divorce from Roy Lee Holley, Jr. Neoma Wright was granted a divorce from Weldon Wright and custody of one minor child was awarded to the plaintiff with the defendant paying \$20 monthly support.

## "FIGHTING LADY," BOND SHOW, TO BE PRESENTED AT RITZ TUESDAY

Scheduled for Tuesday at the Ritz theater is the famous technical show, "Fighting Lady" featuring narration by a movie actor and navy lieutenant, Robert Taylor. The bond premiere show is free to bond buyers holding tickets.

The tickets are good for any one performance throughout the day and evening and it is said without fear of contradiction that the show which was filmed by navy photographers is one of the finest of its kind to ever be shown.

Filed in technicolor, the story is about the true adventures of an adventures lady—an aircraft carrier. Thousand dollar bond buyers are entitled to a free lounge seat.

Only six days remain in the official drive to meet the E bond quota of \$885,000 and the overall quota of \$1,475,000. Sales to date are \$445,794 in E bonds and \$1,039,411 in overall sales. At this rate, Howard county will have to purchase bonds to the tune of \$23,000 a day in order to meet their obligations to the fighting men in the Pacific.

Many bond pledges made Friday night at the infantry show have still not been picked up at bond headquarters and if funds for these bonds can be attained before the end of the week, it will help the E bond total considerably. At least three thousand dollars, two five hundred dollar, two hundred dollar and numerous smaller bonds remain to be picked up.

### Chapter Of National Secretaries' Association To Be Organized Here

A chapter of the National Secretaries' association is to be formed in Big Spring within the next two weeks, Miss Virginia Marquardt of Austin and formerly of Midland, said Monday.

Miss Marquardt arrived here after establishing chapters in San Angelo, Abilene and Lubbock. She will be at the Settles hotel during her stay in Big Spring, and may be reached there by Big Spring women secretaries interested in the organization.

The association is a professional organization designed to serve secretaries in the same manner as national associations serve other specific professions. The purpose of the organization is to unite socially, educationally and protectively members of the secretarial profession.

Chartered in Missouri in May, 1942, as a non-profit corporation, the association has approximately 65 chapters in the larger cities of 24 states. Texas now has 16 chapters.

Local activities will consist of participation in civic and national affairs, and at least one business and dinner meeting a month. Its journal, "The Secretary," gives secretaries information relative to new developments in secretarial methods, letter writing and personality development.

An employment committee assists members to obtain employment and employers to obtain secretaries without charge to members or employers.

The organization has been cited by the Treasury Department for its work during war loan drives.

VIRGINIA MARQUARDT

### Activities at the USO

**MONDAY**  
8:30-9:30—Dance class instructed by Mary Ruth Diltz with Clarinda Mary Sanders in charge of arrangements.

**TUESDAY**  
7:30—Music appreciation class instructed by Cpl. Don Hoyt, Mrs. J. R. Farmer in charge.

**WEDNESDAY**  
6:15—Hospital visiting hour at the post with Lillian Jordan, chairman.

8:30—Shellcraft class taught by Mrs. Mary Locke.

9:00—Informal dance with orchestra.

**THURSDAY**  
7:30—General activities.

**FRIDAY**  
9:00—Bingo; three minute free telephone call home.

**SATURDAY**  
9:00—Bridge tournament.

### Today's Pattern

New formula for a more abundant wardrobe! Pattern 9033 has smart play suit for beach and sportswear; wraparound, side-tied jumper.

Pattern 9033 comes in sizes 12, 14, 16, 18, 20, 30, 32, 34, 36, 38, 40, 42. Size 16, play suit, takes 2-7-8 yds 35-inch fabric; jumper, 3 1-8 yards.

Send TWENTY CENTS in coins for this pattern to the Big Spring Herald Inc., Pattern Dept., 232 West 18th St., New York 11, N. Y. Print plainly SIZE NAME ADDRESS, STYLE NUMBER.

JUST OUT! The Marian Martin Summer Pattern Book, a collection of all that's new and smart in wearing apparel for the family. Free night gown pattern printed in book. Send Fifteen Cents for your copy.

Gail and Paula Martin of Shreveport, La., are here visiting their grandparents, Mr. and Mrs. S. Y. Jordan.

**DRY SCALP**  
ITCHING RELIEVED  
**MOROLINE**  
HAIR TONIC 25¢

### Social Calendar Of Events For Week

**TUESDAY**  
PAST MATRONS will have a social at 7:30 p. m. in the Masonic Hall with Mrs. Lera McClenny and Mrs. Nora Williamson as hostesses. T.E.L. CLASS of the First Baptist church will have a covered dish luncheon at 12:30 p. m. at the church.  
BETA SIGMA PHI sorority will meet at 8 p. m. at the Crawford Hotel.  
REBEKAH LODGE will meet at 8 p. m. in the IOOF hall.  
**THURSDAY**  
ROYAL NEIGHBORS will meet at 2 p. m. in the W.O.W. Hall.  
**FRIDAY**  
TRAINMEN LADIES will meet at 2:30 p. m. in the W.O.W. hall.

### Radio Program

**Monday Evening**  
6:00 Fulton Lewis, Jr.  
6:15 Raymond Gram Swing.

### Large Crowd Hears Program On Scenic

Approximately 45 persons attended the "Concert in the Sky" on top of Scenic Drive Sunday evening in the first of a series of classical recorded concerts.

Jose Iturbi was the featured artist and also on the program were the Boston Pops orchestra, Berlin state opera house orchestra and the Cleveland Symphony under the direction of Arthur Rodzinski.

Personnel Services section at the field is in charge of the entertainments and another program will be given in two weeks.

### Social Scheduled For Church Class

Mrs. George Hall and Mrs. Ross Blanchard will entertain the Homemakers' class of the First Christian church at 8 o'clock this evening in the Hall home.

All members are invited.

### Dies In Crash

SAN ANTONIO, June 11 (AP)—Flight Officer Kenneth Rosenfield, son of Mrs. Florence Cohen of Detroit, was fatally injured in the crash of a training plane four miles south of Marble Falls, according to announcement from Randolph Field today. Rosenfield, who was stationed at Randolph Field, took off Saturday afternoon for Austin and crashed a short time later.

### Scientists To Meet

NEW YORK, June 11 (AP)—Dr. Harlow Shapley, director of the Harvard University observatory, and 15 other scientists and members of American-Soviet good will organizations left New York yesterday by plane for Moscow to attend the 220th anniversary of the Russian Academy of Sciences, June 15 to 28.

### Truck Quotas Allocated

DETROIT, June 11 (AP)—The Regional War Production Board announced today that commercial truck production quotas totalling 238,472 units have been allocated to truck manufacturers for 1945. Chevrolet will build 62,312; Ford 53,837; International Harvester 32,686; and Dodge 21,774 of the total.

### Skeeters Wins

ODESSA, June 11 (AP)—Bill Skeeters of Dallas defeated Doug Jones of Duro 1 up yesterday to win the championship flight in the sixth annual Odessa Country Club golf tournament. Skeeters had a 73, Jones a 74.

Mrs. Virginia Baker and son, Carl of San Antonio and Louise Sanders of Idaho Falls, Idaho, are visiting Mr. and Mrs. T. E. Baker.

### SAY YOU SAW IT IN THE HERALD

### To the People of this Community

Okinawa is an example why your greatest investment in War Bonds of any of the war loans is needed now.

Homer Bigart of the New York Herald Tribune, reporting from the Pacific, makes these astounding comparisons in connection with the Okinawa invasion.

A giant task force, consuming 50 per cent more fuel (600,000,000 gallons) than ever needed in any previous single operation in this war, led the assault. Planes burned enough gasoline to fill 16,000 trucks and trailers. Our men had on hand on Okinawa D-Day the equivalent of 1500 freight cars of ammunition, 2600 tons of food (enough to feed the entire population of Vermont and Wyoming three times a day for 15 days), and sufficient medical supplies to provide 60 days of treatment of the entire population of Columbus, Ohio. In addition planes brought 1200 pints of whole blood to take care of severe casualty cases.

You don't need to be told that billions of dollars in War Bonds are represented by the Okinawa invasion, and yet the operation is only another stepping stone to victory from a military standpoint. There will be more and greater attacks before the Pacific job is finished.

### Fatally Injured

MARSHALL, June 11 (AP)—Emmett Eugene Bennett, 9, son of Mr. and Mrs. Ernest Bennett of Beaumont, was injured fatally yesterday when he was run over by an ice truck at the home of his grandparents nine miles south of here. His grandmother, Mrs. A. E. Bennett, said the accident occurred as the truck was backing up to her house about 8:30 a. m. The child died in a hospital here about 11 a. m.

### Stubby SCORCHY SMITH

### GRIN AND BEAR IT

"Getting 5 daughters married off these days is an admirable feat, I must say—but what other qualifications do you have for a sales manager?"

### Final Signature Awaited On 76 Bills

AUSTIN, June 11 (AP)—Gov. Coke Stevenson said today he still had before him 76 bills and resolutions of the 49th legislature for final action. He has until June 23 to sign, reject, or file without his signature these acts of the legislature. Remaining on his desk without action were 29 senate bills and 42 house bills. They included the district judge pay raise bill, about which there has been some talk of a veto.

### RAF RECORD TOTALLED

LONDON, June 11 (AP)—The RAF bomber command flew 691,137 sorties during the war and dropped 1,079,643 tons of bombs, of which 736,594 tons were unloaded on Germany, according to a recapitulation by the air ministry. In addition the RAF laid 47,250, credited by the ministry with sinking or damaging more than 1,000 enemy ships.

### PETAIN EXPLAINS ARMISTICE

PARIS, June 11 (AP)—Marshal Petain said today he had asked an armistice as "the only way to preserve France." He told a commission, questioning him in prelude to his trial, that the action "prevented France from becoming another Poland."

### Pfc. Shirley Hatcher of the Marine Corps returned to her base at Oceanside, Calif., Sunday after spending a leave here with her parents, Mr. and Mrs. S. V. Jordan. She also visited relatives in Shreveport, La.

### Here's a SENSIBLE way to relieve MONTHLY FEMALE PAIN

Lidia E. Pinkham's Vegetable Compound is famous not only to relieve periodic pain but also accompanying nervous, tired, highstrung feelings when due to functional monthly disturbances. Taken regularly—it helps build up resistance against such symptoms. Pinkham's Compound helps nature! Follow label directions. Try it!

### Two Killed In Wreck

DENISON, June 11 (AP)—Two persons were killed and five injured in an auto-truck collision one mile south of here at midnight last night. The dead were Alma Marie Luke of Muenster and Detores Flusche, of Gainesville. In a hospital here are Johnnie Schmitz, Lindsay James Beznar, Lindsay; Ray Lee Zwinggi, Jerome Plute, and Clara Mae Mosman, all of Gainesville.

### JINX FALKENBURG MARRIES

NEW YORK, June 11 (AP)—In a romantic pause between their war duties overseas, Film Starlet Jinx Falkenburg, 26, and Lt. Col. John R. (Tex) McCrary, 34, former editorial writer of the New York Daily Mirror, were married here yesterday by Supreme Court Justice Ferdinand Pecora.

### SENATORS VISIT POPE

VATICAN CITY, June 11 (AP)—Pope Pius XII today received in audience members of the U. S. senate military affairs and appropriations committees who are touring the Mediterranean theater.

# UNTIL JAPAN IS WHIPPED telephone factories must still work for war

THERE'S still a vast war to win in the Pacific, and it will be a long time before we can serve the last person on the waiting list for telephones.

### Telephone factories must continue hard at work for war

Huge quantities of new telephone and electronic equipment are needed in the Pacific. For instance—in the first five days on Iwo Jima, the marines built a telephone system big enough for a city of 65,000. The bigger the armies in the Pacific war, and the longer they must fight, the more they need telephone equipment, radar, automatic gun directors—all the things that telephone factories are making. That's why, even though the war in Europe is over, the amount of such equipment required in the Pacific theater is greater than anything sent there so far.

### Cuts in war demands for telephone equipment will help, but...

...the war load on telephone factories will continue to be heavy. If all war demands ended tomorrow, it would be many months before everyone who wants a telephone could get it without delay.

Telephone factories must switch to making "civilian" equipment again—dial central office equipment, switchboards, cable, wire, telephones—all

quite different in many ways from war equipment. And of course, the factories can make the switch only as fast as the war load permits.

### It takes time to put new equipment to work

Putting equipment to work can take more time than making it. More than 1,000,000 connections go into dial central office equipment to serve only 10,000 telephones. And 225,000 people are waiting for telephone service right now in the Southwest.

Just to install that many telephones alone would take a long time, despite every effort to speed up the job. Before the first "all-war" year of 1942, our biggest increase in telephones was only 117,000. That was in 1941, when there was still plenty of equipment of all kinds.

### These things are sure

Of course, the end of the German war brings us one step closer to the time when we can again serve everyone who wants a telephone without delay. But as long as the Pacific war lasts, the armed forces' needs come first. That's the way we know you want it.

We can promise you this. We'll continue to do our level best to provide telephones as fast as we can, to as many people as possible.

# Home Owners Advised To Protect Their Property

"Now is the time to put the home into repair while the home owner can be sure of stocks," O. L. Nabors, owner of the Big Spring Paint and Paper company, advised Saturday.

Papering and painting supplies are not at their fullest right now, but Nabors predicted that lines are as complete as they will be before the end of the war. He reminded that houses can deteriorate just as rapidly without paint and its protection during war as during peace.

People are doing rejuvenation jobs on their homes, but on a moderate scale—that is, they are not buying expensive papers and paints, Nabors said. He added that some of the most attractive designs in wall paper can be employed to brighten and freshen a room for summer enjoyment at a very moderate cost.

The Big Spring Paint and Paper shop offers the best known brands of paints and the Pittsburgh, Charm Studio and Pan American wallpapers are included in their

stocks.

Artists headquarters are at Nabors's, who have all types of paints, oils and brushes. Nabors added, however, that there is no artist's canvas available, either in Big Spring or any other part of the United States. He did receive a large, attractive shipment of picture moldings last week.

Nabors is especially proud of his glass work, and he said Saturday that fortunately there have been no shortages in glass. Fancy or elaborate edges may entail some delay, however, he stated.

Formerly a painter himself, Nabors passed along a bit of advice on the care of paint brushes to amateur painters. The best solvent he has discovered for softening

hardened brushes is lacquer thinner. "Good brushes didn't just become scarce with the coming of war," he informed. "They were frozen." Old, pre-war brushes, no matter how hard, may be made useful again if softened for a week or so in a can of lacquer thinner.

When the brush has been used, the painter advised that it be washed in kerosene until thoroughly clean and until the kerosene is no longer discolored. The brush should then be completely dried, wrapped in paper and laid flat.

Nabors has been in the painting business for many years, and though the Big Spring Paint and Paper Shop at 120 Main has been in operation for only two years, he can tell you what you want to know in that line.

# Arnold Garage Has Welding, Parts Service

General machine work, body work and ox. and portable electric welding is offered by Arnold's Garage, 201 Northwest Second. The garage is run by Joe Arnold who is an authority in the business since he has 18 years experience as a mechanic.

Arnold moved here in 1940 from Quitaque and has been running his garage at the present address since then. Although he has been short-handed for the last two years, he has managed to keep his customers satisfied and wishes to thank them for their kindness shown and their patience.

Some new parts and all automobile equipment is available at Arnold's. By calling 1476, economic pick-up work is yours. Arnold is anxious to help you even if you have pick-up work outside of town.

Arnold is assisted by four experienced mechanics including George Heffington, Alfred Pachepo, R. C. Runyan and Thomas Howard.

He resides here with his wife and his three daughters, Earlene, Claudia Mae and Mary Jo. They belong to the North Nolan Baptist church.

# Floral Service For June Brides

America is known for its June brides, and war or no war they continue in abundance.

Perhaps wedding ceremonies lack in elaborate decorations and beautiful church settings, but the brides are unchanged.

Carrie Scholz, owner of Caroline's Flower shop at 1510 Gregg, has had the experience of furnishing floral decorations for these June brides for four years now and has seen a good many changes come to pass in war-time. The elaborate ceremony has given way to simple services performed here in local churches and at the AAFBS post chapels.

The change-over came about when the Bombardier School opened and young bride-elects from all

over America came here to marry. service personnel at the school.

The decorations must be just right and no one is better qualified to furnish just the right flowers for the right occasion than Miss Scholz.

The owner opened her shop on September 8, 1941 and since that time has offered to the public the best cut flowers obtainable for weddings, party decorations and funeral services.

At their peak in abundance and beauty at the present time are gladioli, carnations, daisies, agapanthus, roses, marigolds, snapdragons in cut flowers.

The shop is outstanding in its telegraph service which has been in use sometime. Miss Scholz reports the largest Easter and Mother's Day in many years with soldiers overseas using the telegraph service to make sure that their loved ones were not forgotten on both days.

Miss Scholz has a 12-hour delivery service on orchids which are sent from Abilene and Fort Worth. These flowers are also obtained from Denver, Colo., and Los Angeles, Calif.

# RED CROSS OFFERS SERVICES FOR AID OF RETURNING VETS

Because the American Red Cross is the only civilian organization operating on posts and in hospitals of the army and navy, the veterans' problems from the time of discharge can best be viewed in his relationship to that organization.

It is for this reason that the Howard-Glasscock Red Cross chapter has made a summation of services which can be rendered to these men.

Mrs. Moree Sawtelle, executive secretary of the Red Cross unit here, reminds that since the beginning of the war more than a million servicemen have received disability discharges, and virtually all of these men have been assisted in post-discharge planning by Red Cross social workers stationed at all discharge centers. Both the War and Navy departments have issued directives calling the attention of commanding officers to the service which is given by the Red Cross in preparation and filing

claims for pensions for men discharged from the armed forces on certificates of disability.

According to Mrs. Sawtelle this all-important first step in post-discharge planning previews for the veteran the essential facts about claims service, vocational rehabilitation, re-employment, conversion of insurance and continued medical and psychiatric care. "If he is desirous of filing a claim, he is assisted in completing the application," Mrs. Sawtelle states.

He is also asked to name the organization he wants to represent him in the processing of his claim. All available documentary evidence including his clinical records is then forwarded to the Veterans Administration for speedy adjudication.

The idea that temperatures on earth are controlled by the sun was held by ancient Greek philosophers.

# Election Called On Account Of Rain

MANCHESTER, Mont., June 11 (AP)—Election Judge Oscar Johnson sadly penned this report on a recent election:

"No election—mud."

Only Johnson battled the quadsired roads to the polling setup, then maintained lonely vigil as the other election judges and voters failed to appear. The cruelest out: One man cannot constitute an election board and Johnson himself could not cast a ballot.

# Lefty Wilken Tops Ropers At Midland

MIDLAND, June 11 (AP)—Lefty Wilken turned in best time for all calf roping events of Midland's rodeo with a 16.2 seconds average. Wilken roped Saturday. Jess Slaughter of Gall was a close second with a 16.9 average made yesterday.

Winners in the cowgirl's sponsor contest were Helen Barron of the Lazy S Bar ranch, Miriam Parrish of the Midland Army Air Field and Jessie Myers of Hamlin, who designated Margaret Montgomery of Ozona to take her place in the finals.

Other winners included Louise Bennett of Big Spring, and Mary Harris of Odessa.

# Hopkins In Paris

PARIS, June 11 (AP)—Harry Hopkins, president Truman's personal representative, arrived in Paris last night from Moscow and diplomatic circles speculated today that he was taking back to Washington plans for an impending meeting of the "Big Three." Hopkins declined to comment but he appeared in high spirits.

# Yanks Finally Hand Boo Ferriss First Beating

By JOE REICHLER  
Associated Press Sports Writer

The Ferriss wheel has stopped turning. After gathering eight straight victories, Dave (Boo) Ferriss, the Boston Red Sox sensational rookie, finally was defeated yesterday, 3-2, by the New York Yankees in the first game of a scheduled double-header. The second game was postponed by rain.

Hank Borowy gained the Yankee victory by putting his team back in first place, a half-game ahead of the Detroit Tigers, who split with the White Sox.

A crowd of 38,114 paid, who braved incessant rain, saw Ferriss fail to overtake the league rookie record of Atley Donald of the Yankees who won 12 straight victories from the start of the 1939 season. Ferriss tied the American league mark of Johnny Whitehead of the White Sox who won his first eight major league starts in 1936.

Diszy Trout gained his first victory in more than a month when he pitched the Tigers to their fifth straight triumph in the opener against the White Sox, 3-2, but he needed the help of Tal Newhouser in the ninth. Catcher Paul Richards hit a grand slam homer for the Tigers in the nightcap, but the Sox came to life to pound three Tiger tossers for 15 hits and a 9-4 decision.

Pittsburgh's Pirates came from

behind twice to win two 10-inning games from the St. Louis Cardinals, 8-6 and 4-1, and take over second place in the National league, only two games behind the New York Giants.

Homers in the extra-frames accounted for each of the Braves' victories. Babe Dahlgren hit one with a mate aboard to win the opener, and Jimmy Russell duplicated in the finale. Rip Sewell, in relief, won the first for the Pirates, while Preacher Roe went the route in the nightcap.

The Braves moved into sixth place as Mort Cooper and Jim Tobin defeated the Giants, 8-5 and 3-1, for the Braves' sixth and seventh straight victories and their ninth in the last 10 starts. Cooper won his fifth without a defeat in the opener, and Tobin aided his own cause with a homer in the second game.

Brooklyn, led by Coach Charley

Dressen, who acted in the place of Manager Leo Durocher, handed the Phillies a 10-4 defeat in the opener of what was scheduled to be a double header. The game was halted after seven innings by rain. It was the Phillies' 14th straight setback.

The Chicago Cubs moved into the first division by taking two from Cincinnati, 10-7 and 7-4, to sweep the four-game series. Thirty hits were made by the two teams in the second when Bill Nicholson homered with two on in the eighth. After Jim Bagby won his first game of the season following five straight losses by pitching Cleveland to its third straight 2-1 victory over St. Louis in the opener, the Browns won the second 4-1 behind rookie Weldon West.

The Washington - Philadelphia twin bill was postponed by rain.

## Poliomyelitis—

# Finger Points At Flies As Carriers

By PAUL BOLTON  
Herald Austin Correspondent

With Texas facing a polio epidemic, it may be a matter of chagrin to some Texans to realize that Texas has not a single laboratory set up for the study of this disease, about which science knows so little.

About all that public health authorities can do is to gather and attempt to interpret the statistics; and such a study furnishes strong circumstantial evidence in support of the one fact about the disease concerning which medical men are agreed.

That fact, according to S. W. Bohls, director of laboratories for the state health department, is that flies can carry the disease after contact with excreta from a polio victim. That mode of transmission would seem to explain the apparent "bunching" of counties which show on a current map of Texas as reporting polio cases.

This map, prepared after reports for the week of June 2 shows the "bunched" counties like this: The four southernmost counties, around Hidalgo's 16 cases; Nueces with 11 cases, and 1 or 2 each in Kleberg, Jim Wells and Duval; seven adjoining counties stretching from Medina on the west to Calhoun on the east; a coastal bunch composed of Matagorda, Brazoria, Galveston and Harris; a Central Texas group with 4 in Williamson (now six) and 1 or more in eight others; and a Northeast Texas group of six stretching from Navarro to Fannin.

Knowing that polio has been transmitted to apes by means of a fly which had contact with excreta from a human victim; watching the slow spread from county to county, the health authorities feel they are on safe grounds in advising every precaution against flies, and every precaution of cleanliness in food handling, including that of individual cleanliness before eating food.

Dr. Bohls says that properly chlorinated pools are safe for swimming.

If the incidence of polio has started people generally to thinking about public health, the state health department would be pleased if they'd think about other diseases which in terms of human lives are equally if not more deadly. For instance during the week of June 2, when 24 new cases of polio were reported, the same reports had 452 new cases of dysentery. And this was compared with the 7-year median for this season

of 185 new cases. There were 431 cases of tuberculosis reported—against the average of 74.

Both of these diseases are killers. From dysentery, 2,339 deaths occurred last year. Polio is thought of as a childhood disease while dysentery is not thought of in respect to any age group. Yet last year 1,531 of the victims of dysentery, diarrhea and enteritis, all of which are grouped under the general term of dysentery, were less than 2 years old. It is definitely a childhood disease.

The fact is that except for the assistance of the federal government Texas would be one of the lowest ranking states in the nation in public health work.

As has been pointed out time and again . . . without obvious effect upon those who make the laws—Texas spends vastly more on improving its game and fish resources than on improving its people's health—more on livestock sanitation than on human sanitation.

This year was no exception to the rule. This year less than a half million dollars was allocated to public health work—against a request for a million and a half.

## SPORTS ROUNDUP

By HUGH FULLERTON, JR.  
NEW YORK, June 11 (AP)—Hazena body here seen Kelly? . . . Apparently he was the only G.I. who wasn't in on the fun when a team from Battery C, 955th Field Artillery battalion recently played a 10-10 tie with the Letiny Athletic club at Pilsen, Czechoslovakia, in the Czech national game of hazena . . . Pvt. Jim Lindsey, former San Angelo, Tex., scribe, described the game as a combination of soccer and basketball with the same defensive rules as ice hockey.

Monday Matinee  
Baseball Commissioner Happy Chandler was the guy who scouted Harvard for Centre College when the Fraying Colonels upset the mighty Crimson back in 1921 . . . He also built the "Charlie Moran" highway, on which Moran, former Centre coach and major league umpire, now lives.

Service Dept.  
Dee Moore, former major league catcher, tried his hand at hurling for the Fleet Marine team in Hawaii recently and turned in a one-hit shutout. When he tried again he was hammered off the hill. Must have been the pitcher who went to the well too often . . . W.O. Victor Dyrvall, former Millrose A.A. and U. of Idaho runner, busted the local 3,000 meters record by more than six seconds in the recent Icelandic championships but didn't get credit because he was merely a "guest participant."

## Goodfellow Field Is Softball Champion

ABILENE, June 11 (AP)—Winner of the Abilene Army Air Field's GI Invitation softball tournament is Goodfellow Field of San Angelo.

Goodfellow defeated the Fort Worth Army Air Field 2-0 in a closely contested game yesterday.

SAY YOU SAW IT IN THE HERALD

# Hoop, Jr. To Run In Preakness

BALTIMORE, June 11 (AP)—Fresh from his easy Kentucky Derby triumph, Hoop, Jr., moved on Pimlico today, ready to battle it out with Pavot and perhaps ten other thoroughbred three-year-olds next Saturday in the 55th running of the famed Preakness stakes, certain to have a gross value close to \$90,000.

Pavot, owned by Walter M. Jeffords and unbeaten as a two-year-old although he dropped a photo decision in his first 1945 start, now is considered the chief threat to F. W. Hooper's Derby winner.

From Louisville, along with Hooper's star, five horses of the Derby field of 16 are expected. They are:

Mrs. W. G. Lewis' Darby Dieppe, third in the Derby; Col. C. V. Whitney's Jeep; Christiana Stables Alexis; Col. E. R. Bradley's Burning Dream and C. S. Howard's Sea Swallow.

Polynesian, owned by Mrs. P. A. B. Widener whipped Pavot in the Withers mile at Belmont a week ago and it was announced that he would be shipped here Wednesday from Trainer Morris Dixon's farm at Kennett Square, Pa.

Other possibilities include Bobanet Stables' Bobanet, Brookfield Farms' Brookfield, Pentagon Stables' The Doge, Greentree Stables' Coincidence, and H. C. Hatch's Fair Jester, who was scratched from the Derby because of the heavy track.

## Corsicana Horse Wins Dallas Title

DALLAS, June 11 (AP)—Five-galtd championship in the Dallas horse show was won by Corsican Miss, owned by Mrs. R. L. Wheelock of Corsicana, in final performances here last night.

In second place was double trouble, owned by the Northwood Farm, Fort Worth. Loving Genius, owned by Jack McCracklin, took third place money.

Other winners and their owners included:

5-galtd championship—Victory Star, Mary Miller's Stables, Pauls Valley, Okla.; Bold Knight, Pat Cameron; Donald; 4'8 Farm, Amarillo.

Palominos — Phoebe, E. V. Schaub, Dallas; Pete, Jack Finley, Greenville; Junior Topaz, W. E. Williams, Denton.

## ELEVEN STRAIGHT

WACO, June 11 (AP)—The Waco Army Airfield Wolves extended their winning streak to eleven games last night by defeating the War Workers two to one. Relieving Spike Schneider in the first frame, Red Scott pitched less ball for the Wolves.

Keep spices in tight containers away from the light and heat.

## Texas Today—GROCER SHOWS OFF REFRIGERATOR AND SPENDS ENTIRE NIGHT IN IT

By JACK RUTLEDGE  
Associated Press Staff

This experience can or can not be sneezed at. It depends on the point of view.

K. F. Null, a Brownsville grocer, was conducting a Mr. Dody through his new grocery store. Mr. Dody is a soap salesman.

It was, unfortunately, closing time and everyone had gone home. Mr. Null had bought a big new refrigerator, and wanted to show Mr. Dody what it looked like inside. They entered, turned on a light—and the door somehow slammed shut.

That was the last anyone saw of the two men until 8:30 next morning when a boy heard shouts "like from the bottom of a big bottle." He called the fire department, and firemen finally found the grocer and the salesman and let them out.

They had disrobed, wrapped themselves in newspapers, dressed again, and weren't much the worse for wear.

Chief Quartermaster James A. Hunnicut told friends in Brownsville he owes his life to two cups of coffee.

He was on a carrier in the Pacific when he got thirsty and went below to drink a cup of coffee. It tasted so good he took a second cup.

When he returned to his post, it had just been shattered by a Jap shell.

He says he believes one cup of

## Fort Worth Team Beats Bombers

Cpl. Edward Purrello, a gangling twirler from the Fort Worth AAF, put the quietus on the Big Spring Bombardier School Bombers with a no-run, no-hit game Saturday.

With his perfect game, this tall pitcher effectively concluded the winning streak of the Big Spring all-star aggregation; 3-0, in the Abilene G.I. softball tournament. Previously, the Bombers had whipped the Abilene Has Beens 9-1 and won over Transition of the Big Spring Bombardier School by a 3-0 count.

Cpl. Leon Bredemeyer allowed only 6 hits in the semi-final game, but the Fort Worth boys bunched them in the fourth and fifth innings to score three runs that gave them the game.

An excellent fielding job was turned in by Lt. Shasteen in left field but no one on the Bomber team could solve Purrello's fast ball.

Goodfellow Field turned the Fort Worth team back for the title.

## GERMAN CHURCHES REOPEN

BERLIN, June 10 (Delayed) (AP)—Berlin's war-scarred churches are being reopened for Protestant, Catholic and Jewish worship with Soviet approval, Arthur Werner, 68-year-old German educator and Russian-appointed burgomeister of the city, said today.

Claire Booth Luce, Republican Congresswoman from Connecticut, once worked in a shop making paper flowers and cups.

## Sky Giants Win

WICHITA FALLS, June 11 (AP)—The Amarillo Sky Giants baseball team defeated the Sheppard Field Eagles 6-3 yesterday. It was the Sky Giants' 19th consecutive victory.

James Ligd, an 18th century physician, eliminated scurvy from the British navy by his insistence on cleanliness and proper food.

George Bernard Shaw wrote for nine years before he was able to make a living at it. His total income for that period was \$30.

Volume Foreign Trading

The move in the senate last week to strike from the reciprocal trade treaties bill the power of the president to slash tariffs, will, if allowed to stand, emasculate the measure.

Apparently, the only chance of restoring this vital section of the proposed law is through a minority report and a fight on the senate floor. It is an extremely difficult maneuver, but, owing to its importance, it is one which certainly should be attempted.

As expected, the voting on the amendment to delete the tariff cutting powers was pitched along party lines, but the amazing part was that three democrats, Sen. Gerry of Rhode Island, Sen. Johnson, Colorado, and Sen. Walsh, Massachusetts, went along with the republicans. Without the support of one of them the move would have failed.

Thus, it begins to shape up along sectional and economical lines as well as along political lines when the bill comes up on the senate floor.

It seems to us that it is vital that something be done about our tariffs, especially in the first decade after the war. Certainly we will have a demand for our goods, whether we have high or low customs, for the world is out of goods and we are in the best position to produce them.

But this demand cannot be sustained for any length of time unless the nations of the world are able to sell us materials in return for those they buy. This will be difficult almost to the point of impossible if high tariffs are bucked.

A lot of people profess fear of what free trade will do to our labor, business, etc. The same people have been apostles of volume business in their own country, yet they cannot vision the same possibilities in a brisk world trade.

The truth of the matter is that we will come out of the war with an expanded production in many fields that only through world trade can we hope to maintain them on anything like a sound basis. We do a lot of talking about full employment. If this is to be more than mere talk, we had better set the stage for a maximum commercial activity in every possible legitimate field.

A Long Time Yet

Americans can take a kick in the stomach better than a pat on the back with more equilibrium. We may gripe a bit, but we can square off and make the most of a bad situation; but in the face of good news we just go off the deep end.

Witness the recent speculation about resumption of very limited production of new automobiles. What happened? Automobile repairs the nation

Today And Tomorrow—

An Historic State Paper

By WALTER LIPPMANN

The report which Mr. Justice Jackson has just made is much more than an account of how this country proposes to deal with the men, accused of war crimes, who are in our hands. Having been approved by the President, the report is a declaration of national policy, nobly and largely conceived, powerfully and persuasively reasoned. This historic state paper will, if it is acted upon efficiently and resolutely, contribute greatly to making real and convincing the world organization which is being founded at San Francisco.

Mr. Justice Jackson is chief of counsel for the United States in prosecuting the principal Axis war criminals—that is to say the men who designed and directed "the Nazi master plan" of conquest, exploitation, oppression, and enslavement. They are to be judged for having done what the war was fought to stop them from doing

The War Today

By J. M. ROBERTS, JR. AP Foreign Affairs Analyst

Woven into Justice Robert H. Jackson's plans for the prosecution of war criminals are ideas of such import that they are likely to become historic.

Justice Jackson proclaims the right to try the makers of war for making war, the right, when civilization itself is outraged, to impose sentences which were not provided prior to the crime, and the right of humanity to sit in judgment.

In answer to those who fear we cannot reach the Nazi criminals through present international law, and who feel the sanctity of legal precedent is more important than any miscarriage which may occur through its preservation, he says that there is no reason international law should not be built up as we have built our own common law—through the application of public conscience to incidents of the moment.

The justice proposes to try whole organizations—the Nazi party, the SS, the Gestapo—and then put it up to the members individually to offer mitigating evidence as to the effect of their connections.

He does not believe that anyone who commits a new crime, or who devises variations on an old one with which public conscience is only now catching up, should go free until a law is passed (especially when there is as yet no organization for passing the law) which would only catch the next offender.

Mr. Jackson is insistent that all we do in this case shall be capable of standing the searching light of history—that aggressive war-making shall stand from now on as prima facie crime, established as such in passionless dignity, and punishable.

He is preparing for the United States to proceed alone in individual cases if necessary, but is hopeful for establishment of an international tribunal which can truthfully be said to represent the peace loving peoples of the world.

over took a sharp decline. Hard, cold facts substantiate that it will be a mighty long time yet before the rank and file will be getting new cars. Meantime, it is still pretty smart business to keep your old jalopy in the best possible running condition.

The Timid Soul

MR. MILQUETOAST IS AFRAID THE BIRDS MAY OBJECT TO THE CHLORINE IN THE CITY WATER

With The AEF: Hamburg Strange Place But Far From Totally Ruined

By WILLIAM F. BONI (Substituting for Hal Boyle)

HAMBURG (AP)—This once-proud Hanseatic city, second largest in the reich, is a strange place these days.

In it you see German soldiers in uniform giving directions to British dispatch riders, two huge smoke-blackened flak towers that stand out like fortresses of the future amid the rubble of St. Paul, the once electric-lighted dancing girl still outlined on the facade of a burned-out theater and commuters pouring out of the huge shell of the main railway station.

Despite its many and heavy bombings, Hamburg is by no means flattened. Large sections still stand and the docks are in good enough repair so that the first Allied ships bringing bunker coal for British occupation forces are expected to dock any day.

Yet there are huge areas where nothing lives except possible stray rats and other sections where there still is the odor of roasted coffee from warehouses smashed in air raids long past.

Washington—

The Back Row Comes To The Front

By JACK STINNETT

WASHINGTON — If, a little more than ten years ago, some member of the Senate had said, "see what the boys in the back row will have," the answer never would have been, "President of the United States," and "secretary of labor."

Yet, that is exactly what happened. Side by side in the back row of the Senate chamber (they being freshmen) sat Senators Harry S. Truman (D-Mo.) and Lewis Baxter Schwelbenbach (D-Wash.).

Tall, slightly stooped, booming voiced "Lew" Schwelbenbach was one of Truman's good friends from the moment they first clasped hands.

When the death of President Roosevelt elevated Truman to the Presidency, Judge Schwelbenbach was one of the first persons on the scene and the only non-member of the family to become a guest at Blair House where President Truman resided until the Roosevelt family had moved out.

From the first, it was apparent that Judge Schwelbenbach wasn't just another "man who came to dinner." He was there on invitation and he stayed on to advise and help through those first tempestuous days. Observers freely predicted that he would be invited to stay on as a member of the President's official family, either as attorney general or secretary of labor.

A little more digging would have convinced any one that Schwelbenbach's labor record earmarked him for the head of that department. In his 16 years of law practice before coming to the Senate, he often represented the American Federation of Labor. When he ran for that office in 1934, he had the backing of the AFL, the Railroad Brotherhood and several other labor and liberal groups. He had devoted his legal, forensic and political talents to public power development, the right of strikers to picket, the Wagner Act, old age pensions, unemployment insurance and several

the responsibility of proving their crimes, and within limits to give them a hearing, could open the way to obstruction which would cheat justice. The members of the international military tribunal and the prosecutors have, therefore, a great moral responsibility not to let the process become a mockery.

But if they do their duty, as Mr. Justice Jackson has defined it, they can make an epochal contribution to reinforcing the moral foundations of international society.

Incongruously, street cars run over most of the main lines. Subway and elevated trains also are operating at about 60 per cent normal. The electric railway to Altona and other suburbs is operating virtually on a normal basis.

In the city you see hundreds of German officers and soldiers going about their business. These are capitulated troops, not prisoners of war, so you see them in staff cars, trucks and other automobiles, on bicycles and on foot. Because you are in Allied uniform, a German soldier on police traffic duty quite likely will salute as you go by.

There were 1,000,000 persons in Hamburg at its population peak. There are only 700,000 less than that here now.

There are many persons, who, from their reactions to noise or a jeep horn, may be "bomb happy." But there is no one on the street who looks as obviously underfed as the persons you see in Amsterdam or Rotterdam. A vast majority of them here are far better dressed.

other "liberal" movements. He has been called "Communist" by his opponents, but his backers tush-tush any such allegations.

But if they do their duty, as Mr. Justice Jackson has defined it, they can make an epochal contribution to reinforcing the moral foundations of international society.

Washington Merry-Go-Round—

Margaret Is Whisked To Independence

By DREW PEARSON

WASHINGTON — It came as something of a shock to Washington dowagers and socially-minded young naval officers when attractive, dynamic Margaret Truman suddenly was whisked out of Washington at the very height of the gay June season and went back to Independence, Mo.

After all, June in Washington is full of weddings and romance, and with the war over in Europe, a lot of cave-dwellers were just beginning to hit their stride.

However, a very wise presidential papa wasn't happy about the featured newspaper pictures of his daughter shagging at this party, cocktail party, and, fitting merrily through Washington society with the war still bitterly contested in the Pacific. It was only natural exuberance on the part of a young college girl who suddenly found herself the first daughter of the land.

But all this didn't jibe with the president's own ideas or his pleas to the nation to get the war over in the Pacific.

So came the back-to-the-earth-movement-and-Missouri immediately after Margaret's college term was over.

As Margaret herself explains: "Father says I have to finish college. I have one more year at George Washington and Father considers college important."

Washington's Sacred Cow Meanwhile Washington has been getting a real kick out of the way Margaret has been putting Wash-

ington dowagers in their places and running rough-shod over that most sacred of all capital sacred cows protocol—the ritual of where who should sit where at dinner.

The other day Margaret telephoned Mrs. Evelyn Walsh McLean, owner of the Hope diamond and the only Washington hostess brave enough to entertain much during the war. Mrs. McLean, who goes in for John L. Lewis, the British ambassador, the Senator Burt Wheeler and a various assortment of bigwigs, has been making a special play for the Trumans; so Margaret asked if she could bring Reathel Odum to dinner. Mrs. McLean said, "Delighted."

Then an hour or two before dinner, Margaret called a second time to ask if she could bring Edward D. McKim, her father's new secretary. Again Mrs. McLean said, "delighted," and the social secretaries began re-arranging the place-cards, which at a dinner of 200, featuring senators, cabinet members and supreme court justices, push Washington formality which is some job.

Finally the Truman contingent arrived. Mr. McKim had a marvelous time. In fact he had started having a marvelous time well before he arrived.

But several ladies of rank and distinction did not have such a marvelous time among them was Mrs. Walter George, wife of the senator from Georgia. Mrs. Millard Tydings, wife of the senator from Maryland and Mrs. Joseph E. Davies, wife of the former American ambassador to Russia.

For Reathel Odum, the extra guest brought at the last minute by Margaret Truman sat at the honored table. Perhaps Mrs. McLean didn't know who she was, perhaps she did. At any rate one distinguished lady remarked: "Does Mrs. McLean take dope? Then why does she seat that little Odum stenographer at the head table with Senator George and Justice Murphy?"

Reathel Odum happens to be Mrs. Truman's secretary. According to capital protocol she does not rank. So the ladies glowered while she sat at the head table, and even Joe Davies sat the second table. "In the old days of the Dolly Gann-Allee Longworth social war," whispered one guest, "people have been known to walk out of dinner parties for less than that."

Anyway, Margaret Truman, dressed in black chiffon and orchids, looked lovely and had a lovely time. And when someone asked, "where are your father and mother tonight?" she replied a little pityingly: "Oh, they're just sitting at home alone." That is one penalty of being president. You can't go out to dinner; other people must come to dine with you.

Sixteen Imprisoned Poles Though the Harry Hopkins-Josef Stalin talks at the Kremlin are still a closely-guarded secret, one significant story has now been transmitted back to the diplomatic corps.

Hopkins naturally raised the question of the 16 Poles who had surrendered to the Russians with the idea that they were to discuss the formation of a new Polish government, but who since then have been imprisoned. Stalin admitted that not all 16 were implicated in any charge of working against the Red army. He also admitted that the only charge against them was that they had used a secret radio to contact London.

However, Stalin pointed to the possibility of the Poles passing valuable information on to the

Germans who were at that time monitoring all broadcasts. He said that only those believed guilty would be tried, and that the others would be liberated soon. Stalin did not specify the number or date.

Army Shake-up During the Roosevelt administration one sure way of top promotion in the army was through General "Pa" Watson, the late president's genial military aide and secretary. Pa, whom everybody loved, but who had a hard time getting through West Point, had a host of army friends and he did not forget them.

One of those friends is Virgil L. Peterson. It was Peterson who coached Pa in West Point and finally got him through with the graduating class of 1908. Peterson graduated the same year.

So more than 30 years later, Pa Watson, then in the White House, didn't forget his friend. Virgil Peterson became inspector-general of the army with the rank of major general—a most important post.

But now some of Watson's classmates of 1908 were finding themselves out in the cold, and General Peterson is going to be one of them. Not a brilliant success, he is being dropped as inspector-general.

Note—Most people don't realize it, but General George Marshall largely owes his appointment as chief of staff to Pa Watson and Senator Carter Glass of Virginia. Watson was a staunch Virginian. Marshall then only a colonel was a Virginia Military Institute graduate. Senator Glass and Pa Watson gave the push necessary to put Marshall over the heads of General Hugh Drum, who had the backing of Jim Farley and General John L. DeWitt.

SAV YOU SAW IT IN THE HERALD

Today On Home Front—Congress Looks For Improvement Everywhere, But Outdated Itself

By JAMES MARLOW WASHINGTON, June 11 (AP)—Congress trojs along like a one-horse shay, looking for improvement everywhere else, but out of date itself.

A congressional committee has been holding hearings for months—and will for months to come—to find a way of modernizing the law-making branch of government. Look at the personnel system in congress, the way in which capitol employes are hired and paid. No big business could operate like that.

Capitol pages—boys in their teens—get \$5 a day, which is more than the capitol policemen with families—get. And the cops on the senate side of the capitol get more than those on the house side.

Yet those cops, working under the same roof, do exactly the same kind of job. There are 189 different rates of pay—it depends on the whim of the individual congressman—for the 1,373 people employed by congressmen in the house and senate office buildings.

Some of the most important committees—like the house banking and currency committee or the

Cravat was the name given by the French in the reign of Louis XIV to the scarf worn by the Croatian soldiers. The doctrine that the earth is spherical can be traced back to the Pythagorean school of Greek philosophy, in 500 B. C.

"If it hadn't been for Wheaties, it would have been the same old story!"

This time it's a cereal story, Grandma, you see, has learned that Wheaties. She's wise to all that's packed in those whole wheat flakes. And here's the moral to this story: have your Wheaties every day. It's a knockout breakfast dish.

**Hospital Hands Get Pay Hikes**

AUSTIN, June 11 (Sp) — Appropriations for the Big Spring State Hospital for the next two years will amount to \$606,400, compared with \$520,036 for the current biennium. Most of the increase is in salaries.

While the superintendent is unchanged at \$4,500, the assistant was boosted from \$2,750 to \$3,162. Physicians or psychiatrists were given base rates of \$2,760 to \$2,990. Last year only \$7,600 was appropriated for these positions; the new appropriation is \$23,000 a year.

The chaplain gets a good increase—from \$320 to \$640 a year. Attendants' appropriation is raised from \$30,000 to \$38,820 a year, with the base boosted to \$65, a maximum of \$75 and two at \$77.

Nurses get a \$15 boost, to \$95 base. All other workers are raised in proportion.

The total appropriation for salaries is \$136,700, compared with \$109,378 a year for the current biennium. The support and maintenance appropriation is unchanged at \$150,000 a year.

**Hopkins Is Due Home Tuesday**

By ERNEST B. VACCARO  
WASHINGTON, June 11 (AP) — Harry Hopkins is due to reach Washington tomorrow to report on his special mission to Moscow.

White House Press Secretary Charles G. Ross told his news conference today that Hopkins would confer with the president either tomorrow afternoon or tomorrow night. Hopkins left Paris by plane today. He reportedly carried, among other things, Marshal Stalin's views on plans for a Big Three meeting.

Hopkins was sent to Moscow May 23 to lay the groundwork for an early meeting of the Big Three and iron out other problems involving the American and Russian governments.

Ross said that the president planned to confer with Hopkins tomorrow afternoon, and if not then, tomorrow night.

**MacArthur Visits At Front Lines**

By The Associated Press  
CBS Correspondent John Adams reported today that Gen. Douglas MacArthur visited the Labuan beachhead on the west coast of Borneo only a few hours after Allied troops landed and was at the front lines during a brief skirmish in which two Japanese were killed.

Broadcasting from Manila, Adams said that when he had left Brunei Bay eight hours earlier, Australian forces were still driving forward at a steady pace.

Veterans of Tobruk and El Alamein had broken through enemy lines at Victoria town, seat of the former Straits Settlement government, and captured the airport with light casualties, he said.

**Mexican Students Protest Texans**

PUEBLA, Mexico, June 11 (AP) — The University of Puebla student body went on strike today protesting the presence of 42 summer school students from Texas and other matters.

The Mexican students, numbering 2,000, refused to attend classes, and said they would remain away until their demands, including "cancellation of the registration of 42 Texas students," are met. They object to the Texans, they said, because Texas allegedly discriminates against Mexicans.

The visitors sat in regular classes Friday and Saturday, and were to have started their own classes, separate from the others, after a welcome assembly in their honor this morning.

"There have been no incidents involving the Texas students," Rector Roberto Larragolli said today. "The Mexican students have been perfect gentlemen to them."

The striking collegians also demanded the resignation of Facundo Martinez as university secretary, but did not give reasons.

**Allies United In Desire For Peace, Says Eisenhower**

FRANKFURT ON THE MAIN, June 11 (AP)—Soviet Russia and the Allies are united in a desire for a lasting, firmly-based peace which will afford for the common man of all nations the "opportunities that we fought to preserve for them," Gen. Eisenhower asserted yesterday before high ranking leaders of Britain, Russia and the United States.

The supreme Allied commander and Field Marshal Sir Bernard L. Montgomery both received from Marshal Georgi K. Zhukov the jeweled Order of Victory. It was the first time that Soviet Russia's highest award had been presented to any but Russians. Eisenhower was the eighth person to receive the award, and the British field marshal, the ninth.

Eisenhower, addressing a luncheon at his headquarters which honored Marshal Zhukov, conqueror of Berlin, declared:

"Speaking for the Allied forces, I say we are going to have peace even if we have to fight for it."

"On two occasions now I have had the great honor of meeting high officials of the Soviet government. It is my feeling that in the basic desires of all of us they are one with us."

The supreme Allied commander bestowed glowing praise upon Marshal Zhukov, who in turn described Eisenhower as an American belonging to the immortal great of all time for welding the victorious Allied armies from so many different peoples.

The glittering Order of Victory, a diamond and ruby medal, is said to have a money value of at least \$12,000.

**Cub Day Camp To Start Tuesday**

Pete Hardeman, colored cook of many Boy Scout camps, arrived in Big Spring Monday to set up his equipment for the field kitchen at the camp site of the Cub day camp.

D. M. McKinney, camp director, was expecting around 250 Cubs from the eight packs of the Big Spring district to register Tuesday at 9 a. m. at the camp site. He reminded Cubs to bring a fork, spoon, knife, plate, cup, comb, soap, towel, tooth brush, tooth paste and swimming trunks. He said that a cloth sack should be brought for storing equipment.

**Rural Life Program Well Attended Sun.**

About 100 persons attended a program held at the city auditorium Sunday at 2:15 p. m. which was presented here as a county-wide observance of Rural Life Sunday.

J. H. Greene, chamber of commerce manager, gave the welcome address, and Ray Echols recited the 4-11 club pledge. Wayne White gave the club pledge, and J. D. Harvey, minister of the Church of the Soil, discussed "Parables of the Soil." Durward Lewter, Howard county agent, read "A Date With Destiny," and prayers were offered by Albert Darby and J. B. Collins. Songs were led by Sgt. J. D. Foster of Lubbock.

Lewter, in reporting the meeting, stated that the Sunday program was the first observance in the section of Texas and that Rural Life Sunday would probably be an annual observance.

**Firemen Called Out For Two Grass Blazes**

City firemen were called to extinguish two grass fires Saturday. The first was at the home of Dr. R. B. G. Cowper on Cedar Road at 5:40 p. m. The second was at 307 E. 3rd street at 10 a. m. and was caused by burning trash. Neither fire caused any damage, firemen said.

Fire Chief H. V. Crocker said Monday that last night's rain will do a great deal for fire prevention, since continued dryness would tend to create fire hazards all over town.

**MARK WENTZ INSURANCE AGENCY**

**Infantry Badge Is Awarded Sgt. Stroup For German Fighting**

Mrs. Mattie Lou Stroup, whose four sons are serving in the armed forces, recently received the combat infantryman's badge which was awarded to her son, S/Sgt. R. M. Stroup in Germany. Sgt. Stroup is a member of the anti-tank 275th infantry, stationed at Frankfurt, Germany, and has been overseas for six months.

Another son, Walter Stroup C 1/C has participated in the Okinawa campaign and has been overseas 21 months, serving at Russell Island for 14 months and at New Caledonia.

James Stroup, petty officer, third class is a mail clerk in the post office at Pearl Harbor and has been overseas for the past six months.

Cpl. Merle Stroup, gunsmith technician on a B-24, is stationed in California and has been in service for the past two years.

**Attendance Record Set At Clinic**

Setting an attendance record, Nurses Ann Fisher and Louise Horton, and Dr. Neil Sanders gave immunizations to 138 Latin-American children at the well child clinic last week.

Typhoid shots total 132, diphtheria inoculations were given to 26, 56 were given whooping cough serum, and 19 smallpox vaccinations were given.

**Local Scouts Voted Into Arrow Order**

Three Boy Scouts were elected to the Order of the Arrow, Boy Scout camping fraternity, at the Sweetwater lake camp last week. They included William Thomas, R. H. Carter, Jr., and Rex Shive.

Nine boys passed the swimming merit badge requirements, and four completed life saving requirements. Boys winning merit badges at the Court of Honor held at the camp on Thursday were Hal Hensley, William Thomas, R. H. Carter, Jr., Lee Axtens, Rex Shive, Wendell Shive, Maurice Duncan, R. J. Echols and Pete Chambers.

Twenty-one boys from Big Spring and Coahoma and four from Colorado City attended the Sweetwater camp which began last Monday and ended Saturday.

**Durocher Is Charged With An Assault On Discharged Veteran**

NEW YORK, June 11 (AP)—Some 200 non-cheering Brooklyn Dodger fans jammed Brooklyn felony court today for the arraignment of Leo (Lippy) Durocher, 39-year-old Dodgers manager accused of feloniously assaulting a medically discharged soldier.

Magistrate John F. X. Masterson adjourned the case until next Monday.

Durocher and Joseph Moore, 50, a special policeman at the Brooklyn ball park, were arrested yesterday on charges of assaulting John Christian, 21, a spectator at Saturday night's Brooklyn-Philadelphia game.

A short affidavit, signed by Detective James Callery, said the two men struck Christian on the head and face "with a dark object in their hands" and that Durocher also hit him with his fists.

Christian, said by police to have received a medical discharge from the glider troops because of a knife injury, said he was beaten because he heckled the Brooklyn manager.

**Stamford, Pampa Rodeo Dates Set**

Stamford and Pampa have announced dates for their annual rodeos, cowboy reunions and horse shows which will be held in July and August.

The 15th annual cowboy reunion will be held in Stamford July 2-4, and will feature rodeo performances, fiddling contests, sponsors dances, the American quarterhorse show, sponsors contest and an opening day parade.

Members of the Texas Cowboy Reunion association from Big Spring include S. O. Cauble, H. L. Derrick and Dock Stephens.

The Top O' Texas rodeo, horse show and fair association, recently formed at Pampa is planning a rodeo and horse show for August 17-19, according to word received here from Wade Thomason, president of the new organization.

The program will include regular rodeo events, sponsors' contest and a horse show judging Aug. 17.

**CARBON BLACK**

... the Miracle of the Modern Age!

Carbon black—"dusky queen" of the synthetic industry, is performing miracles in this modern age. Termed public necessity No. 1, carbon black is a vital ingredient for synthetic rubber used in urgently needed tires for battlefronts.

It is a basic requirement for over 100 other rubber items including gas masks, life rafts, surgeon's gloves, and bullet sealing fuel tanks. Not only does carbon black fill the needs of a rubber-hungry world, but it is an essential ingredient in paint, printer's ink, lacquer, and the hundreds of new plastic articles.

Fifty of the 57 carbon black plants of the nation are located in Texas, Oklahoma and Louisiana... it is a "must" item whose transportation must be expedited to meet military and civilian needs.

From carbon black plants to manufacturer, the Texas and Pacific serves the industry... We salute this great industry... We are proud to serve them.
