'DEPOT INADEQUATE,' SAYS GILMORE

R. R. RECEIPTS AT RANGER MORE THAN LAST YEAR

T. & P.'s Income Exceeds Half a Million; H.-K.'s Also Large.

Total receipts of the Texas & Pacific offices for the month of September were in excess of a half million dollars, and \$13,000 in excess of the preceding month, August. The tabulated receipts show an income of \$55,000 for passenger fares and \$400,000 revenue from freight receipts.

This total is \$100,000 less than that of the corresponding month last year, but at that time every operator, supply house, wholesaler and those in other lines were making an effort to get vast supplies of merchandise into Ranger at the same time. No extensive stocks were on hand as is now the case, from which to draw from to supply the demand.

Replenishments Now. At present nearly all incoming freight is to replenish depleted stocks of the oil fields.

Students of economic conditions in this section feel very optimistic over the showing made by the railroad last month and see in the increase made in receipts in September over August a steady upward trend in every activity.

It appears that freight and passenger business has settled into a steady volume that is increasing as the city and vicinity expands.

In addition to the T. & P.'s totals, if the figures from the Hamon-Kell railroad were made available, it seems certain that the city's total receipts would exceed those for the corresponding month of last year, notwithstanding the fact that much of its freight business is taken from the Texas & Pacific at this point.

This road has two other feeders at Dublin, the Frisco and the Katy, and its outgoing passenger business from Ranger should reach a good total.

OLD CONFEDS MARCH THROUGH LANE OF COLOR

Cheering Crowds Greet Gray-Haired Veterans of the Civil War.

HOUSTON, Oct. 8.—Soldiers of the Confederacy who assembled here today were not the countless thousands who tramped buoyantly to battle more than a half century ago, but there were enough of them to make an imposing column. Despite gray hairs and stooped shoulders the marchers made up in spirit what they lacked in physical strength. Some were forced to fall out of the ranks and automobiles were provided for these in which to trail the procession.

The line of march, about two miles long, led through veritable lanes of bunting and cheering crowds. The stars and stripes floated from the poles of buildings along the line of march and hung from overhead alongside the stars and bars of the Confederacy. Several bands marched alongside the old soldiers.

General K. M. Van Zandt, of Fort Worth, was re-elected to lead the veterans for the next year, despite his announced wish to retire and leave the town he found who would gladly accept the honor to someone else.

Ranger Bank Failure Case to Be Tried Soon

Special to the Times.

EASTLAND, Oct. 8.—The cases of Charles H. Butler and Thomas E. Rowland, indicted by the grand jury in the district court on four indictments each charging them with receiving money in the Ranger bank, when this bank was in failing circumstances, will be called soon. A further count in each indictment charges that these men being owners of the bank gave their assent to the receipt of the deposits when they knew that the bank was insolvent and about to fail. The man from whom the deposits are alleged to have been received is Oscar Saied.

Both men are under bond to appear before the court and answer the charges. Rowland is said to be in Fort Worth and Butler is in Ardmore, Okla.

CHILDLESS COUPLES BARRED IN THIS APARTMENT HOUSE

INDIANAPOLIS, Oct. 8.—No children? Then you can't live in the new apartment house on the E. K. Spink interests are erecting in the beautiful north side residence section here. It was announced Thursday that none except married couples having children will be permitted to occupy the new flats, which are being designed with a view especially to the safety and welfare of the children. A large kindergarten room with a competent teacher in charge will be a feature.

Speech Gone, Man Taken to Hospital

Notebook in Hand of Man in the Street Asks Medical Aid; Dies.

With his power of speech gone, a man was picked up on the streets last night by a service car driver, and carried to the Ranger hospital, where he died a few hours later from a complication of the throat. A notebook in his hand said, "Take me to the hospital. A sister lives—" and the writing quit off as if he had lost the power of thinking.

There was nothing found in the man's personal effects to identify him further than he was a veterinary surgeon who had recently come to Ranger from Wharton, Texas, and his name is E. O. Wharton.

The body is being held by the Milford Undertaking company pending investigation.

TEXAS GUARD AT GALVESTON IS WITHDRAWN

Movement of Men Started Early Today, After Being Delayed by Fire.

By Associated Press.

GALVESTON, Oct. 8.—Five hundred men of the Texas National Guard, who have for four months been maintaining martial law in Galveston, entrained here early today for Houston. The guardsmen, after participating in the Confederate parade there today, will return to their homes.

Martial law ended at noon today, under the terms of the governor's proclamation. Plans were originally made to withdraw the troops last Monday, but the disastrous fires on the water front created conditions which rendered their retention for a few days advisable.

BOMB EXPLOSION SEEMS DESTINED TO REMAIN UNSOLVED

NEW YORK, Oct. 8.—As far as outward indications go, the Wall street explosion of Sept. 16 seems destined for the port of unsolved mysteries. The only direct clue to the perpetrators, the head and shoes of the horse that drew the bomb wagon, and the few pieces of wagon and harness, have been exhibited all over the metropolitan area, especially in New Jersey, for the horse was a New Jersey board of health tag guaranteeing that he was sound. No result has been attained.

Horseholders here declared that any horseholder who put the shoes on the horse would be able to recognize his own work. Only one man claimed to have recognized them, but his identification was not taken seriously.

It is assumed that the federal secret service is still working on the case, as it never lets go when it once takes hold, but its officials are making no announcement of progress.

No one knows just what the local police are doing, for there is a strict rule at headquarters against giving any information to the press. This was established by way of reprisal against newspapers for calling attention to the fact that the police had arrested a Russian journalist named Brailovsky, who had been seen laughing in the neighborhood of the explosion within an hour after it occurred, and then released him without the formality of arraigning him before a magistrate, as called for by law. The publication of this angered the police and the official silence was placed on all departments.

TULSA OIL MAN AND WIFE REUNITED WHEN SON PLAYS CUPID

KANSAS CITY, MO., Oct. 8.—James A. Stinson, millionaire oil man of Tulsa, Okla., and his wife, Viviana Stinson, a noted Southern beauty, were reunited here Thursday in wedlock, after a two-year estrangement, all because their 10-year-old son, Jimmy Stinson, played the role of "Cupid."

Jimmy, hearing that his father was undergoing an operation in a hospital here, persuaded his mother to bring him here. The couple met in the hospital and their reconciliation followed.

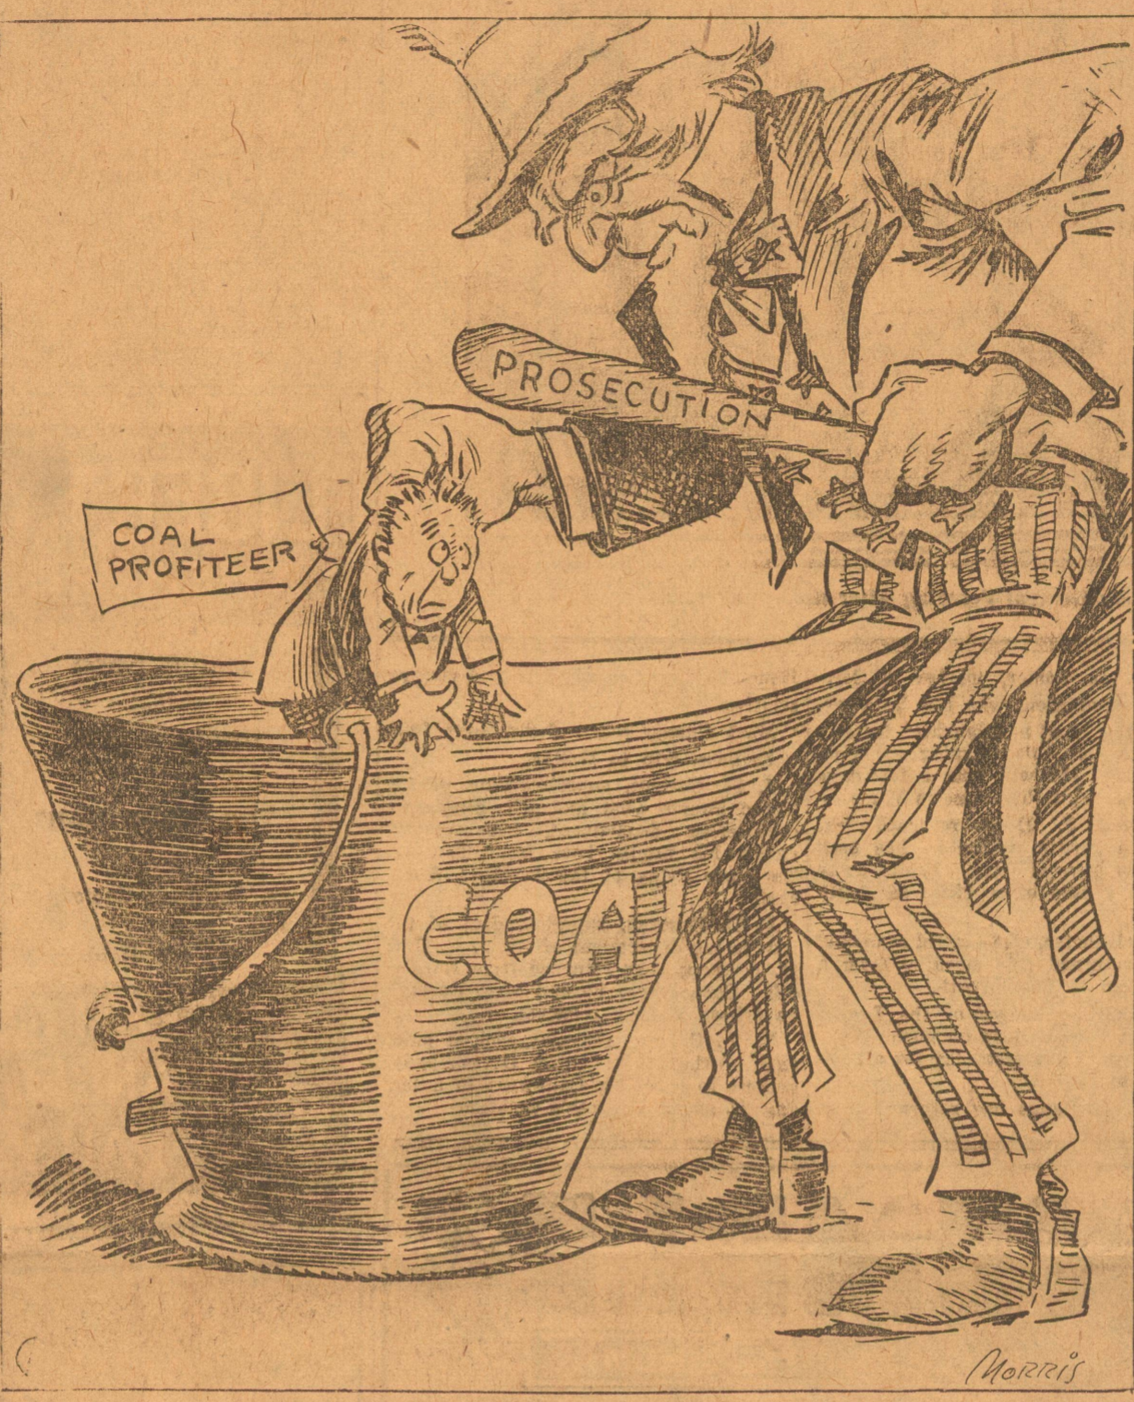

The couple had been divorced in 1918 on the grounds of "incompatibility." Stinson was paying his wife \$1,000 a month alimony.

By Associated Press.

NEW YORK, Oct. 8.—Pears are entertained in shipping circles for the safety of the steamship Lake Lilienson, which left here Sept. 23, with a cargo for Tampico. The last report received of the vessel was on Sept. 29, when it entered the Gulf of Mexico, at the time of the tropical hurricane.

Come Out of There!

BY MORRIS

CHICAGO BREWERIES MAY BE CONFISCATED FOR MAKING REAL BEER

By Associated Press.

CHICAGO, Oct. 8.—Confiscation of seventy-five breweries and a thousand saloons in Chicago, valued at millions of dollars, was predicted today by Harry Mager, collector of internal revenue. Cases involving these places will be presented to Judge Landis when he opens his court here Wednesday. It is alleged that their owners manufactured and sold beer containing 3 1/2 per cent or more of alcohol, in open violation of the Volstead act.

DANGEROUS 'REDS' LOSE LIBERTY AND LITERATURE

CHICAGO, Oct. 8.—John Jazinski and John Holonyak, arrested here last night, are declared by department of justice officials to be two of the most dangerous radicals in America. Vast amounts of "red" literature was found in their possession.

In Jazinski's possession was found nearly half a ton of communist articles, including samples of a new pamphlet advocating an armed revolution by the foreign elements in this country.

One hundred thousand of these pamphlets were said to have been shipped from Chicago yesterday by Jazinski.

Agents of the department of justice said that the documents found in Jazinski's possession include a proclamation to the Union of Russian Workers calling upon the members to rise and overthrow the government of the United States by force of arms, utilizing murder and destruction to gain their ends.

GIN BURNS AT WORK IN SOUTH CAROLINA

COLUMBIA, S. C., Oct. 8.—The "Black Seventy-Five" has been brought officially to the attention of Governor Cooper in a letter from I. W. Harris, solicitor of the Tenth judicial circuit, which advises the governor of threats against owners of cotton gins in various parts of the state.

Some letters warning giners to discontinue operations after Oct. 7, have been received, signed "Black Seventy-Five." In other cases papers with matches attached were pinned on the gin owners' doors.

MINE-DAMAGED WARSHIP SAILS FROM COPENHAGEN

COPENHAGEN, Oct. 8.—The American torpedo boat Kane, recently damaged by striking a mine off Riga, left here today for Landskrona, Sweden.

Another Basket Baby To Ranger

Another basket baby will be in Ranger tomorrow morning seeking a Ranger home. This youngster is a boy baby and perhaps ten days old. He is being brought here by Captain J. T. Lynn, who will be at the Theodore hotel with his charge.

Captain Lynn was in Ranger two days ago with a girl baby and found her a good home almost at once.

The first applicant that is of good Christian character and who is in a position to care for the child may have the pleasure of adopting the boy baby tomorrow morning.

ROBBER SPANKS MAN WITH HAIR BRUSH; TAKES HIS PINK SILK SHIRT

ST. LOUIS, Oct. 8.—One of two men who entered the room of Henry Cannon, 3088 Delmar boulevard, to rob him after he had gone to bed last night, had the habits of a parent. He gave Cannon a spanking with the back of a hair brush to make him tell where his money was.

Cannon said he made quite a noise with his shouting, but apparently it was of cap-nistol calibre, for no one in the house heard it. The two men bound Cannon with his neckties, took \$2.50 from his pockets and 50 cents from a dresser drawer. One of them spied Cannon's pink silk shirt and took it also.

Henry Hildenbrandt, a roomer in the house, found Cannon tied up when he came in.

WIRELESS EAVESDROPPING AIDS SINN FEIN ATTACKS

LONDON, Oct. 8.—Wireless is playing a prominent part in the Sinn Feiners' campaign in Ireland and they are manufacturing portable sets in hundreds, says the Daily Sketch.

This accounts for the rapid concentration of men in unexpected places, and the Sinn Feiners' knowledge of the movement of troops. The collapsible aerial which Sinn Fein is employing can be quickly set up and taken down.

PLAIN QUESTION, PLAIN REPLY.

GREENVILLE, S. C.—"Sam, I heard you is dead; if you is, telegram me; if you ain't send me \$10," this is the copy of a telegram received here by a negro, John Collins, from another negro living in North Carolina.

Collins, who has about recovered from recent gunshot wounds, drafted this answer: "I is dead, your ten will be clipped to a coffin."

C. C. MACHINERY AT WORK ON FARM RE-POPULATION

Is Obtaining Data From Land Owners and Prospective Tenants.

More than one hundred letters have been received by the Chamber of Commerce concerning its efforts to repopulate the farms around Ranger and in Eastland county. In the majority of cases the writers of the letters are substantial farmers who are in a position to take the farms and care for them properly.

M. A. Dillard, of Floydada, Texas, is in the city today as a result of the publicity given the move and is ready to do business provided he can find a place that suits him. Mr. Dillard has every attribute that makes a good citizen and farmer. He is financially able to care for himself. He has twenty five cows, sixteen blooded hogs, three teams of good mules, and hundreds of blooded chickens.

To carry out its plan, the Chamber of Commerce is mailing out 10,000 letters, reaching every land holder in the county, and is asking that they fill out a blank which will give every detail of the land they have for rent.

It is also writing to those requesting farms asking that they state just what their conditions are, the terms they have, their references and other data necessary.

By this method it is hoped that every farm will find a tenant suitable to its condition.

The Chamber of Commerce realized the asset the farms re-populated would be to Eastland county and is preparing to use every effort to reach this end.

DEBS IS TOLD HE'LL GET OUT BY NOVEMBER

ATLANTA, Oct. 8.—Prospects are bright for an early proclamation of a general amnesty for all political prisoners, Eugene Debs, in the Atlanta federal prison, was told by Mrs. Lucy Robins of New York, executive secretary of the "amnesty committee" of the American Federation of Labor.

Mrs. Robins based her statement upon developments of a conference on Sept. 15, between Samuel Gompers, Meyer London, former socialist congressman from New York, and Attorney General Palmer, and a subsequent conference she had with Palmer. There is likelihood of such a proclamation being issued before Nov. 1, Mrs. Robins said.

Debs, who is serving a ten-year term for violations of the espionage act during the war, expressed "deep gratitude and appreciation" for the friendly offices of the federation, in behalf of himself and similar prisoners.

EVEN ONE WORD GIVES M'SWINEY MUCH DISTRESS

LONDON, Oct. 8.—Lord Mayor MacSwiney appeared more refreshed this morning at Brixton prison after passing a fairly good night, during which he had some sleep, says a bulletin of the Irish Self Determination league. To relatives MacSwiney seemed weaker and much more exhausted by his ordeal. He suffers great distress after saying even a single word, the bulletin declares.

This is the fifty-sixth day of his hunger strike.

HE RESENTED KISSES AND HAS GIRL JAILED

NEW YORK, Oct. 8.—When a young woman insisted every day on stooping him in front of his school and kissing him, Ignace Levinson, of 284 South Ninth street, Brooklyn, a teacher, felt it was too much. He had her arrested on a charge of disorderly conduct.

When arrested yesterday in the Bridge Plaza court, she gave her name as Miss Mollie Tepper, 22, of 328 South First street, Brooklyn. Magistrate Folwell sent her to Kings County hospital for observation.

CHICAGOAN ASKED TO EXPLAIN 100 PER CENT PROFIT BUSINESS

CHICAGO, Oct. 8.—Raymond Bischoff was summoned to explain to District Attorney Clynne today how profits of 100 per cent were paid on loans of two and three days.

Clynne began an investigation of Bischoff's business affairs following complaints that some failed to get their profits or their original investment.

STATE RAILWAY COMMISSIONER VISITS RANGER

Chief of Oil and Gas Division Inspects T. & P.'s Facilities Here; Lunches With Business Men.

CARELESSNESS CAUSED BRECKENRIDGE FIRE

Broken Headlight Caused First Explosion, Miner's Lamp the Second; Gas Wells Closed.

Lancaster Here Next Wednesday

James L. Lancaster, general manager of the Texas & Pacific railroad, will be the guest of the Chamber of Commerce at a dinner on Oct. 13. On this date he is expected to render the final decision as to what the railroad company intends doing towards building a new station here.

On a recent visit of a committee from the chamber to Mr. Lancaster, the question of a new station was placed squarely up to him and he promised an answer in ten days.

"The present station of the Texas & Pacific railroad is wholly inadequate for a city of Ranger's population and if the matter is ever brought before the Texas railroad commission it will receive every consideration."

This statement was made this morning by Clarence E. Gilmore, member of the railroad commission, when questioned as to his opinion of the present station. The railroad commissioner would not make any further statement because, he said, he could not tell what action the body would take. He gave every assurance, however, that the commissioners would give the matter due consideration if the city of Ranger ever found it necessary to bring the matter to its attention.

Commissioner Gilmore, who is at the head of the gas and oil conservation department, is returning from Breckenridge and stopped over in Ranger for a half day to look conditions over her, and to also go over the new Hamon-Kell road.

Investigates Explosion. While in Breckenridge he cleared up the cause of the disastrous fire which resulted in the death of three men several days ago. Both the explosions he declared were caused through carelessness. In the first instance a truck driver drove his machine up to the well, where the explosion occurred, to remove a second truck that was not in running order. The machine being driven, Mr. Gilmore said, had presto lights, and one of them was not protected by glass. The flame from the light ignited the gas with which the air was surcharged.

After the fire was extinguished caused from this explosion, a man with a miners light on his head, walked upon the floor of the well, causing the second fire and the death of two men. One man died from the result of the first fire.

Only one gas well was found by Mr. Gilmore in the entire field which was being allowed to run wild and it will be closed in a few days.

In discussing Ranger generally the commissioner stated that he had been watching it since he took office in 1919 and that only an outsider could appreciate its wonderful growth and expansion. The city, he continued, has been settled into a normal business condition since his last visit.

Mr. Gilmore was the guest of the Chamber of Commerce for luncheon at Cole's Cafeteria, and was the main speaker. He was introduced by Sanderford J. Dean, a friend of years' standing. Mr. Gilmore said he had looked the situation over but naturally could not make any promise for the body which he represented.

Following his speech, the guests, about thirty in number, were addressed by A. Davenport, C. C. Chenoweth, and Mayor M. H. Haggaman, each of whom dwelt on the recent visit made to James L. Lancaster at Dallas and advised that the railroad commission not be called on until Mr. Lancaster had had an opportunity to act. Everyone present was in accord with this view.

Mr. Gilmore will leave tonight for Austin.

COX KICKS IN; GIVES \$5,000 TO CAMPAIGN

NEW YORK, Oct. 8.—Governor Cox, the Democratic candidate for the presidency today contributed \$5,000 to the Democratic national campaign, it was announced at campaign headquarters here.

A change was announced in the governor's speaking dates. He will speak in Detroit on the night of Oct. 15 instead of at Toledo.

PROGRAM

TEMPLE—George Walsh in "From Now On" also "Elmo, the Fearless."

LAMB—Tom Mix in "The Untamed," also Sunshine Comedy and Pathe News.
OPERA HOUSE—William S. Hart in "The Devil's Double" and Comedy.
MAJESTIC—Fritz Field's Follies—"The Girl and the Drummer" and Five Acts of Pantages Vaudeville.

PERSHING GETS HIGHEST FRENCH HONOR—AND A KISS

General Fayolle kissing General Pershing after decorating him.

In the presence of a distinguished party of U. S. officials and foreign diplomats General Pershing was recently decorated by General Fayolle of the French army with the Medaille Militaire, the highest military honor the French government can bestow. The ceremony occurred at Fort Meyer. After pinning the medal on General Pershing's chest General Fayolle followed the usual French custom by kissing the U. S. hero.

LAMB.
 Film Daredevil Explains Secret of His Success in Dangerous Stunts.

Tom Mix, the daredevil cowboy screen star, whose hair-raising stunts for the camera have won him an immense following all over the world, was recently asked to explain the secret of being able to perform his seemingly miraculous feats of daring without bodily injury. Mix gave a most logical explanation of his ability, which he declares is only the result of a close study of the human body. Briefly, the secret is, "Advance constantly; never back up."
 "You will note," said the Fox star, "if you follow my movements in a picture carefully, that I never back up doing a stunt. I go forward constantly, for the reason that the bones and muscles protect the front of the frame. Man was made to advance. Interpret this any way you choose. But if you aspire to do hazardous stunts, interpret it physically. Study your body. Everyone knows that a blow delivered back of the ear is liable to be fatal, while another blow planted a few inches to the front amounts to little or nothing."
 Mix will open at the Lamb theatre today in a picture which supplies a good example of the truth of his logic. "The Untamed," adapted from Max Brand's well-known novel, provides the star with more than the usual number of thrilling feats.

TEMPLE.
 "From Now On" to Be at the Temple Theatre.

A photoplay alive with action is "From Now On," the William Fox feature which comes to the Temple theatre today for a three-day run.
 The picture tells the story of a young man who has come into a fortune and of his efforts to regain the money out

of which he has been swindled. Dave Henderson, finding that Booky Sharvan and Martin Tydeman have robbed him, deliberately burglarizes the latter's home, knowing that the man is compelled to keep at hand large sums of cash because of his shady transactions. Discovering their loss and suspecting Henderson, the men capture and torture the boy in an effort to make him confess. A clever ruse enables him to escape, but later he is recaptured, "framed" and sent to prison for a term of years. However, Henderson has succeeded in hiding the money in a lovecote.

From the moment of his release, Henderson is shadowed day and night by both the men of the underworld and the police, in efforts to discover the whereabouts of the money. A friend whom he trusts condemns him to death through a bit of traitorous work. Another whom he trusts comes through and helps restore to Henderson his faith in mankind. Not until the very last scene does the action let up.

George Walsh is the star.

Mrs. J. L. Laster, mother of Mrs. George Hemmingson, who has been visiting the majority of her daughter for several weeks, left this morning for Fort Worth, where she will visit a few days before returning to her home in Waco.

Sanderford J. Dean returned last night from Austin, where he has been visiting for several days. While away Mr. Dean visited other cities in South Texas.

Fred Driehofer, city tax collector and assessor, returned this morning from a business trip to Fort Worth.

Oscar Saied, manager of the Leader store, is in Breckenridge on business.

E. Buchwald left yesterday for a business trip to Dallas.

Mrs. D. M. Bangs has returned from

Waco, Texas, where she has been visiting relatives.

Mack Palmer returned yesterday from a business trip to Dallas.

J. H. Corbett, superintendent of the Texas Pacific Coal and Oil company's engineering department, has recently moved his family here from Thurber. They are living at the T. P. C. & O. camp.

F. D. Bostaph, superintendent of the purchasing department of the F. P. C. & O. company, has returned from Barnesville, Ohio, where he and Mrs. Bostaph have been visiting relatives.

E. A. Sperry, assistant general manager of the T. P. C. & O. company, expects to leave for California in a few days to spend a month's vacation

LAST 5 WORDS TELL THE STORY

Cardui Assisted Mississippi Lady Recover Her Health. Other Treatment Had Been Without Result. Read Her Story.

Erahta, Miss.—Describing results from the use of Cardui, Mrs. W. L. White, of this place, says: "When only a girl I suffered a great deal with . . . My mother decided then for me to take Cardui. I took nine bottles in all and became . . . a strong, healthy girl.
 "After my marriage, I . . . so began to take Cardui. I was soon stronger, and passed the danger period all right, and my boy was strong and healthy.
 "First of last year . . . I was in a desperate condition. I . . . almost to death.
 "We used medicines without results.
 "I was so sore across the bottom of my stomach, and so weak.
 "For three months I lay in this condition.
 "I told by husband Cardui had helped me once, maybe it would again. He went and got it.
 "I began to take Cardui and very shortly I began to improve and get my strength.
 "The . . . stopped the soreness left me.
 "My present health is good."—Adv.

SPORT

They Hit Em Across

Z. WHEAT

ZACH WHEAT.

The idol of Brooklyn fans is Zach Wheat. The veteran left fielder is by far the most popular player of any who wears the sangles of Charles H. Ebbets, and there is a reason—a very good reason. Wheat is a very fine outfielder and his hitting is one of the salient features of the team's playing.

Zach tried hard to get out of baseball a year ago, but numerous messages sent him and offers of a better salary finally turned the trick and the Missouri farmer returned to the game.

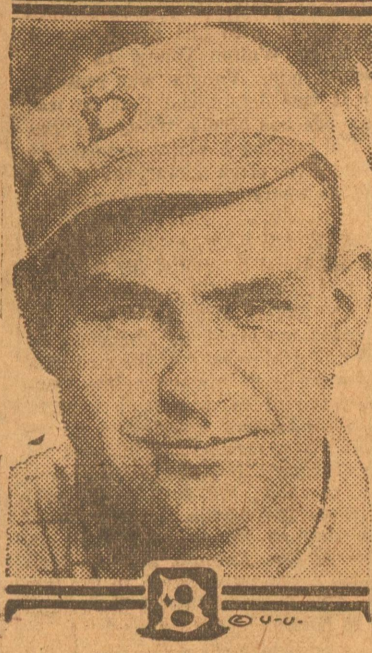

Zach was born in Hamilton, Mo., a little town a short distance from Kansas City, and he makes his home on a fine farm near there.

He broke into professional baseball as an outfielder with Ft. Worth in 1907 and in 1908 turned up with Shreveport. His next year was with Mobile, which sold him in 1909 to Brooklyn for a price reported to be \$1200. He took part in twenty-six games for the Dodgers that year and then became a regular.

Three times during his career as a member of the Dodgers, Wheat's batting average has fallen under the .300 mark, but on two of these occasions the average was so near .300 the difference was practically nothing.

Wheat, unlike many excellent hitters, hits them in the pinches as well as when runners are on bases, another factor which helps endear him to Brooklyn fans. He will provide plenty of entertainment for American League pitchers in forthcoming world's series games.

MYERS

HI MYERS.

Those who watched the Dodgers in their vain effort to beat the Red Sox in the world's series of 1916 will remember vividly the frantic work of Hi Myers to undo the best of Bill Carrigan's pitching. As a matter of fact, Hi was about the only member of the Brooklyn team who measured up to the standard generally set in the minds of fans for a pennant winning ball player. He hit hard, fielded his head off, and was generally useful to small purpose.

Hi is the same roaring player he was in those days, perhaps a little better as a hitter. He will be in center field when the Dodgers start this fall's world's series.

Hi had plenty of trouble getting started off just right with Brooklyn but when he finally did make the grade he made it strong enough to atone for the lean years.

This outfielder was introduced to professional baseball by the Connellsville club of the West Virginia League in 1909. Brooklyn bought him at the end of that same year and he played nine games at the tag end of the season. He was released early in the season to Rochester, which dropped him to Sioux City of the Western League in June. He made the Sioux City team with ease and batted .345 for the season. Brooklyn recalled him in 1911 and sent him to Mobile, where he played that season, reporting to Brooklyn again in 1912. Back to Sioux City he went for 1912 and went back to Brooklyn in August, finishing the season with Newark. He started off

Twirling Star

S. SMITH

SHERROD SMITH.

Put him down as a smart left-hander who will give any club in any league a lot of trouble at any old time.

So don't be surprised if Sherrod Smith gives the American league champions something to worry about in the world's series, as he has been going good for the Robins all season and because he has not been worked as much as some of the other hurlers he will be in prime condition and ready to go.

Smith's trouble this season has been wildness. That accounts for the fact that he has not been started as often as he might have been—that and the abundance of pitching talent that graces the staff of the Brooklyn.

It was Smith, by the way, who pitched the world's series record game of fourteen innings against Babe Ruth in Boston in 1916 and lost it after a heart-breaking battle, and all who remember that game realize what kind of stuff Smith is made of.

Sherrod was born in Mansfield, Ga., broke into professional baseball at Greensboro, and came to the Dodgers via a number of minor league clubs, the last two of which were Grand Rapids and Newark. He has been with Brooklyn since 1915 and has been better than a 500 per cent winner, with the exception of last year, when he was off color, with Newark in 1914, but was recalled by Brooklyn. He has been with the Dodgers ever since.

Women are at present ineligible for jury duty in Washington, D. C., because Congress, in writing the code, used the term "man" in connection with such duty.

LOW PRICES CAUSE FARMERS TO LEAVE COTTON IN FIELDS

AUSTIN, Oct. 8.—The decline in the price of cotton and cotton seed has brought a tendency among Texas farmers, especially the smaller ones, to discharge their pickers and save only a portion of the crop that they are able to harvest with the aid of their families, according to reports of field men of the Texas department of agriculture.

Evel W. Davis, commissioner of agriculture, wrote from central Texas that owing to the tendency to leave cotton in the fields, there will not be so much "holly" or other low-grade cotton on the market this year. The commissioner expressed indignation at what he called a "conspiracy to cut in two the prices of cotton and cotton seed" at the action of the higher financial powers in lending encouragement to the conspirators by restriction of credit to producers.

DESTROYER MAKES BLIND PASSAGE BY USING SOUND GUIDE

NEW YORK, Oct. 7.—The United States destroyer Sumner, swept port through Ambrose channel today blindfolded with the windows of the pilot house shrouded. The navigator steered the course by listening to the high-pitched hum of a submerged electrically charged channel cable. The Sumner made the blind passage safely in this test of the Navy Department's new "sound guide" for vessels designed to aid in the steering of vessels in thick weather.

TEXAS BOYS TO COMPETE IN LIVESTOCK JUDGING CONTESTS

COLLEGE STATION, Oct. 8.—After two weeks' training under W. B. Cook, livestock specialist at A. & M. college, Jack Turner, Hillsboro; Gilbert Wieting, Marlin; Gordon Gillespie, Coleman; and Alva Dehman, Lamesa, have been chosen as the Boys' Club Livestock Judging team from Texas, and are on their way to meet the teams from other states in the national contests to be held at Waterloo, Ia., where the boys will attend the Dairy Cattle congress. Then they will go to Des Moines for two days at the national swine show. Their next stop will be at the state college of agriculture at Ames, Iowa, where they will spend a day judging dairy cattle in preparation for the national dairy cattle judging contest at Chicago.

After the Chicago contest the Texas team will have workouts at the University of Illinois, Purdue and Kentucky. October 19 marks the beginning of the big contest at Atlanta. The grand prize of this contest is a trip to Europe for the winning team and its coach.

 TELEPHONES AT LAST.
 One of the greatest handicaps under
 which Ranger has labored during its ex-
 istence as a city has been the telephone
 service, or lack of it. The greatest irri-
 tant of the patience of Ranger has been
 the seeming indifference with which the
 Southwestern company has greeted ap-
 peals for improvement. They have gone
 steadfastly on their way, dispensing
 smooth talk but refraining from activity.
 Rumors have it that at one time the
 company's officials decided that Ranger
 "would not make a town," that they de-
 cided to spend no money in a mushroom
 settlement which had no future.
 Ranger has proved its permanence,
 proved it, despite the handicap thrown
 upon the city by the telephone company's
 procrastination. And now this handicap
 which has hampered the city during its
 formative stages is to be remedied. Evi-
 dently the telephone people have at last
 convinced themselves of a fact that was
 apparent to less conservative men some
 time ago. They have decided that Ran-
 ger being worthy, they will invest and
 share in the wealth it produces. Therein
 lies a matter for congratulation to Ran-
 ger. It is at once a recognition and a
 compliment.
 Ranger will be glad to furnish busi-
 ness for the Southwestern company, pro-
 vided the company will put in the equip-
 ment to handle the business. The city
 has a rightful grievance against the com-
 pany, in that its procrastination mate-
 rially hampered its advancement at a
 crucial stage in the city's history, but any
 lingering animosity can be speedily wiped
 out by the public service corporation if
 it will now adequately care for the city's
 needs. It will be a long step toward civil-
 ization when one can transact business
 and pleasure calls without resorting to
 the archaic personal messenger system.
 CRIME POOR CAREER.
 Dan Hamilton laughed when given
 twenty-five years for robbery with fire-
 arms. But it is doubtful if that laugh
 had any ring of mirth. No man faces the
 idea of spending the remainder of his life
 behind stone walls and iron bars with
 any pleasurable feeling.
 His laughter may indicate a stout
 heart, the courage that led the boys in
 France to joke in the face of death. For
 that we can give him credit. But to have
 a stout heart cast away in a losing cause
 is to no man's credit. Dan Hamilton
 could have worked steadily and honor-
 ably. True, he would not have had the
 wild excitement of a moment; he would
 not have had easy money to spend in a
 day or two of riotous living, but he
 would have had the gradually increasing
 rewards of an honorable course.
 The highways of crime are very rough.
 Viewed from afar they may appear
 smooth and easy to travel. But never
 yet has one followed this road to success.
 Temporarily one who travels it may fare
 well but fear and other ghosts of the evil-
 doer will bring about the criminal's
 downfall.
 Hamilton's fate should be a warning
 to the youth who thinks of "easy money."
 He has entered upon lifelong slavery in
 payment for a moment's pittance.
 EDUCATION NEEDED.
 That the general level of education in
 America is sadly in need of elevation is
 shown by such incidents as the burning
 of gins in West Texas, in the belief that
 if cotton is not ginned, the price will ad-
 vance.
 Ginning is a legitimate industry, vital
 to the harvesting of the cotton crop.
 Without gins, raising cotton would not
 be practicable. Those who take matters
 into their own hands and destroy the
 gins not only fail lamentably in com-
 prehending the magnitude of the cotton in-
 dustry, but give no thought to it as a

future source of revenue. To destroy the
 gins destroys property, truly destroys it.
 The gin is gone, the cotton is valueless
 without being ginned, and either the
 farmer is out the money he has paid for
 harvesting or the laborer is without
 work.
 Direct action of this sort is a blot upon
 the name of justice and reason. It is
 a reflection on the intelligence of a com-
 munity. The men who burned the gins
 are most probably men who listened to
 avarice and rejected the advice of gov-
 ernment agents and other experts to plant
 less cotton and more feedstuffs. Cotton
 was high and they wanted all the money
 they could get. Now when conditions of
 their own making stare them in the face,
 they would pass the blame.
 Texas should vote for the amendment
 to the constitution which will admit the
 levying of more taxes for the support
 of rural schools. They are sadly reeled
 in such display of childishness as this
 to be eliminated from our national life.
 THE DRY HECKLERS.
 Senator Harding and Governor Cox
 are both being heckled by the prohibi-
 tionists. Possibly they deserve to be.
 Both of them are evasive in their re-
 sponse. Both of them are trying to avoid
 offense. As if a rabid prohibitionist
 would be satisfied with anything less
 than an oath of vengeance against aught
 above one-half of one per cent!
 Yet neither Mr. Harding nor Mr. Cox
 is a prohibitionist. Nor are the parties
 that nominated them. The prohibitionists
 failed to get a dry plank into either
 platform. At Chicago the prohibitionists
 were foiled by stealth, or, possibly, in-
 advertence, but, anyhow, they were foiled.
 At San Francisco the Democrats listened
 coldly to impassioned eloquence, looked
 unmoved upon copious tears and proceeded
 to bury Col. Bryan's heart in a deep,
 damp grave.
 But the prohibitionists are not fet-
 tered to either of the old parties; their
 choice is not restricted to the old party
 candidates. They have a party of their
 own. They have a candidate of their
 own, too. The admirable Mr. Watkins,
 we suppose, is as dry as the law requires,
 or, to put it otherwise, is no wetter than
 the law allows. Why don't the prohibi-
 tionists gather around their own stand-
 ard bearer?
 That honest and desirable alignment
 might be effected if the Republican and
 Democratic presidential candidates had
 the courage to reply candidly and curtly
 to the impertinent questions of the
 prohibitionists.—New York World.
 The Bolsheviks are being Poled back
 to Moscow.—Wichita Eagle.
 A stogie is one of the few things that
 travel on their merits and not on ap-
 pearances.—Canton (O.) News.
 PORTO RICO SUGAR
 IS BEING HOARDED
 By Associated Press
 SAN JUAN, Porto Rico, Oct. 8.—
 No Porto Rican sugars are being forced
 on the market. Whatever sugars there
 are here are being held—for better or
 worse.
 This is evidently being done to prevent
 refiners from reducing the price of raw
 sugar, as the Cuban growers have asked
 the Porto Rican producers to join them
 in an attempt to prevent a cut in prices.
 For the first time in many years, two
 weeks have gone by without the ship-
 ment of any sugar from the island. Ap-
 proximately 640,000 bags, or 80,000 tons,
 remain in the island for export.
 Porto Rico produced in this year's crop
 485,887 short tons of sugar, according to
 a final statistical statement just issued
 by J. Ruiz Solar, secretary of the Por-
 to Rican Sugar Producers' association.
 This is 7,000 tons in excess of his esti-
 mate at the commencement of the grind-
 ing season and about 80,000 tons greater
 than the production during the crop
 season of 1918-19. It is also 20,000 tons
 in excess of the production during 1917-
 18.
 Export figures show 367,000 tons of
 sugar shipped from this crop. Local con-
 sumption is estimated at 35,000 tons.

**DISPUTE OVER LEAGUE ARTICLES SHOWS
 WOMEN ARE POSTED ON POLITICAL ISSUES**

Mrs. George Bass, at left, and Mrs. Arthur L. Livermore.
 That the women are going "to the bottom of things" in politics and are already familiar with the big issues in the fall campaigns is shown daily. A clash between Mrs. Arthur L. Livermore, chairman of the New York state Republican women's committee, and Mrs. George Bass, national Democratic chairman for women has already occurred over Article XXIII in the League of Nations covenant. Mrs. Livermore charged the article legalizes international traffic in women. Mrs. Bass produced reform associations' reports stating that the article was designed to halt such traffic.

:-: TINKER BOB :-:
 By CARLYSLE H. HOLCOMB

MAJOR LEADS O POSSUM BY
 THE EAR.
 The fellow that made the marks on
 the trees is the fellow that the King
 wanted to see. No Forest Dweller ever
 made such marks as these unless he is
 very angry, and of course no Forest
 Dweller ever gets angry unless there is a
 reason. Some one either teases him or
 tries to do him harm, or hurts his fam-
 ily, and he never forgets it. So this sign
 to Tinker Bob was the sign that some-
 one was anxious to meet the fellow that
 had done him wrong.
 Before Tinker Bob could hardly see
 why Snoopy the Bob Cat had crouched
 in the path, something happened. It hap-
 pened so quickly that Tinker himself
 could not tell how it happened. The fur
 began to fly and Snoopy began to cry,
 and on the ground there was a rolling
 mass and the King could not tell one
 creature from another.
 The fight stopped about as sud-
 denly as it began, and there was Snoopy
 the Bob Cat with his mouth full of thorn
 quills, and the fellow that made the
 marks on the tree was none other than
 Chief Porky.
 "Why do you fight this way? What
 has Snoopy the Bob Cat done to you,
 Chief Porky—what does all this mean?"
 Tinker Bob did not understand.
 "Oh, King of the Forest, I have
 found him guilty of the most terrible
 thing that could ever happen in the
 Great Forest. He told Lady Duck that
 he wanted to take a walk with her out
 in the Forest, just to lead her away
 from her home. And down by Three
 Oaks, near where Sammy Squirrel lives,
 the terrible thing happened. There is
 where he met Old Man O Possum, who
 had tied his head up in a burdock leaf
 so no one would know him. Little Sammy
 sat on a limb and saw it all. Then he
 called Red Fox, who had been hiding
 since he had been killed by a hunter. He
 tried to make Lady Duck believe
 he was doing all he could to protect her.
 Then suddenly Jerry the Jay came along
 and began to cry out at the top of his
 voice. Then the deed was done. Poor
 Lady Duck; she thought Snoopy was her
 friend!"
 Tinker Bob, King of the Forest, listened
 to Chief Porky's story and paid
 little attention to Snoopy, who was suf-
 fering with a mouth full of thorn quills.
 When he thought Snoopy was punished
 he sent Jerry the Jay to find Dr. Coon.
 He Told Lady Duck That He Wanted
 To Take a Walk With Her.
 While Jerry was gone for the doctor
 a little breeze came along and whis-
 pered to Chief Porky that Major Pole
 Cat and Old Man O Possum were com-
 ing.
 "Oh, King," said Chief Porky, "Ma-
 jor Pole Cat is bringing that dangerous
 fellow that Lady Duck has laid an egg
 for every day." There was a rustle in
 the leaves and sure enough, Major Pole
 Cat and O Possum came along. Major
 was leading O Possum by the ear.
 Tomorrow—The King Finds Lady
 Duck.

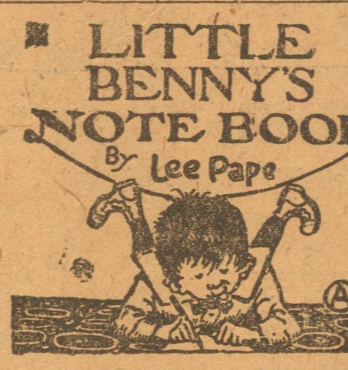

**PATENTS PROCESS
 OF MAKING NEW
 VALUABLE METAL**

Dr. W. D. Coolidge has patented the
 process for the making of Duxtille tung-
 sten, a new metal which is invaluable to
 many every day American industries.
 This metal is used namely by electric
 companies and has doubled the efficien-
 cy of electric lamps. It is worth from
 \$50 to \$150 a pound, according to the
 treatment it receives.
 The new searchlight, developed by
 the United States army engineers, is a
 60-inch light of the "dishpan"
 type and weighs 700 pounds.

RIPLING RHYMES

THE RATTLESNAKE.
 We were camped beside a lake, by a
 cypress tree; someone hollered, "There's
 a snake! It's a rattler! Hully chee!"
 Then we dropped our divers chores in
 the twinkling of an eye; sane and use-
 ful tasks are hore when a rattlesnake
 is near. And we formed a ring around,
 round the human race's foe, and our
 fingers clawed the ground for some
 boulders we might throw. And we threw,
 with bated breath, at five feet of writhing
 sin; battle, murder, sudden death, done
 up in a mottled skin! Rocks were flying
 thick and fast, some thrown crooked,
 others straight; and the serpent, to the
 last, dared us with a deathless hiss. He
 is Ishmael, this snake, with his rattlers
 on behind, which, when playing tunes,
 can walk tercers in the bravest mind.
 Harried to the barren lands, driven from
 the field and farm, even snakes of other
 breeds view the rattler with alarm. He
 has not a friend at court, where snake
 advocates appear, but he is a dead game
 sport, and a stranger to all fear. And I
 felt a sense of shame when we'll killed
 that mottled thing; we had played a tin-
 horn game, throwing boulders in a ring.
 And the recollection makes lukewarm
 pains slide down my neck; even when
 we're killing snakes sportsmanship should
 be on deck.
 When the street commissioner of Lan-
 caster, Pa., announced that he was unable
 to secure enough men to clean the streets,
 women residents there volunteered to do
 the job.

Me and Leroy Shooster and Skinny
 Martin was wawking along jest wawking
 along, and who did we see coming but
 the new skinny guy that jest moved in
 in the next block, me saying, "There he is,
 Skinny, look at him, do you still want
 to say he aint any skinnier than you?"
 sure 'a do, he aint even as skinnny, sed
 Skinny.
 Aw, sed me and Leroy Shooster as if
 we didnt believe it. Wich we didnt, and
 jest then the new skinny guy started to
 go past, and I sed to him, Hay, fello,
 wats you think, this guy wunts to say
 he's skinnier than you.
 He must have rong eye sight, sed
 the new skinny guy.
 O is that so, sed Skinny, well then
 you must be blind and deff and every-
 thing else.
 O you dont say so, well ware I used
 to live I was the skinniest fello in the
 hole nayerhood, sed the new skinny guy.
 That dont say youre the skinniest
 around here, it couldnt of bin a very skin-
 ny nayerhood, sed Skinny, and the new
 skinny guy sed, Wy, Im so thin every-
 body around here used to call me Skin-
 ny, jest as if it was my name.
 Well, wad of that, dont everybody
 around here call me Skinny? sed Skinny.

**CHICAGO GRAIN PIT'S SIGN
 LANGUAGE IS BACK AGAIN**

International News Service.
 CHICAGO, Oct. 8.—Sign language,
 with its mystery to the lay mind and its
 vital importance to the trader, came back
 into the wheat pit after an absence of
 three years with the recent resumption
 of dealing in wheat for future delivery
 on the Chicago Board of Trade.
 By the simple movement of the fingers
 buyers and sellers in the world open mar-
 ket where supply and demand are the
 dominating influence make transactions
 involving thousands of dollars within the
 limits of a few seconds.
 "There is seldom an error, despite the
 volume of business each day," said Israel
 P. Rumsey, who became a member of the
 board just sixty years ago this month.
 "Under the board's rigid rules, no con-
 tract, oral or written, is more binding
 than the contracts to which a board mem-
 ber is a party.
 "Raise a clenched fist, a palm turned
 outward, and you are signaling that you
 will sell at an even price of, say, \$2. A
 finger extended means an eighth, two
 fingers spread apart, one-fourth cent, and
 so on. Turn the palm inward and it
 signifies a desire to purchase. When the
 fingers are held vertically the quantity
 is indicated, each finger representing 5,
 1000 bushels. To the outlooker it is con-
 fusion to see a hundred arms and several
 hundred fingers in the air at one time.
 But to the official reporters who record
 each transaction and to the traders them-
 selves there is no doubt or misinterpre-
 tation.
 Well then, wats you say we call it a
 few? sed the new skinny guy, and Skin-
 ny Martin sed, All rite, shake hands.
 Wich they did.

**POSSE SEARCHING
 FOR MORON TRUSTY
 WHO KIDNAPPED BOY**

By Associated Press
 MICHIGAN CITY, Ind., Oct. 8.—A
 posse of police, prison guards and social-
 ly sworn deputies are today searching for
 John Vaughn, 50 years old, a life-terminer
 in the Indiana penitentiary, who escaped
 yesterday taking with him a boy who is
 believed to be Walter Young, 13 years
 old, a school boy. Vaughn was senten-
 ced after it was determined that he was
 a moron. He has been a trusty thirteen
 years. The missing boy was reported to
 have been seen often about the prison
 water works where Vaughn was engineer.

**MEMORIAL AT SAN ANTONIO
 FOR TRAIL BLAZERS OF TEXAS**

SAN ANTONIO, Oct. 8.—Erection of
 a permanent memorial in testimony of
 the work and achievement of the men who
 blazed the trails of commerce into Tex-
 as was proposed at a meeting here of
 the Old Trail Drivers' association, an
 organization whose membership included old
 cowmen of Texas, New Mexico and Okla-
 homa. The shaft, 100 feet high, would
 be placed on the Alpine drive, a scenic
 highway through Breckenridge park, in
 the heart of San Antonio, and the trail
 over which cattle were driven in the late
 60's and 70's from southwest Texas and
 Mexico to Kansas and other markets.
 Funds with which the monument would
 be erected would be raised through the
 sale of a book, "The Old Trail Drivers
 of Texas," written by George W. Sand-
 ders, president of the association, and
 through private subscriptions from cattle-
 men of the present day as well as the old
 timers.

**"AMMUNITION RUNNERS"
 ARRESTED IN BOSTON**

BOSTON, Oct. 8.—Waterfront police
 looking for "rum runners" last night,
 surprised a small-sized ammunition run-
 ning expedition headed for South Amer-
 ica, and today Severino Sarto and Dem-
 etrio Marcos were charged with carrying
 explosives in violation of law. In the
 suit cases which the police believed to con-
 tain liquor, they found instead 3,000
 rounds of .38-caliber cartridges. The men
 said they were on the way to take pas-
 sage on a steamer for South America, and
 intended to sell the ammunition there.
 They would not say what their exact des-
 tination was, nor whether they had pre-
 viously taken part in the contraband
 traffic.

**CHAPLIN SUIT NOT DROPPED
 Wife of Movie Star Is Still Determined
 on Divorce**

Shown in a dispatch from Los Angeles
 saying that Mrs. Mildred Harris Chap-
 lin's divorce suit against Charlie Chaplin
 had come to a sudden halt because the
 movie comedian could not be served, Hen-
 ry Goldsmith, of counsel for Mrs. Chap-
 lin, said yesterday that the suit will not
 be dropped. He added that it will be
 pressed as soon as Charlie can be served
 with the papers.
 Chaplin has been living at the Rit-
 z-Carlton in this city under the name of
 "Mr. Spencer," but has been held strictly
 incommunicado. Mrs. Chaplin also is in
 the city at present, stopping at another
 hotel.
 Two sisters of presidents have had
 charge of the White House—Mrs. McEl-
 roy, sister of President Arthur, and Miss
 Rose Cleveland, sister of President Gro-
 ver Cleveland.

\$50.00 suits on sale at \$37.50	\$90.00 suits on sale at \$67.50

Bolsheviki Will Again Attempt to Overrun Poland

All Observers Agree That Russians Will Not Accept Defeat.

BERLIN, Oct. 8.—Close observers of the Russo-Polish situation say the Russian Soviet army will not content itself with defeat but will either launch a counter-offensive this winter or will launch a fresh campaign in the spring. An American army officer who toured Poland from Warsaw to Soudau and then visited the Russian internment camps of East Prussia, said he found virtual unanimity of opinion among the Poles, French and Germans that the Russians would not give up their ambition to conquer Poland without further fighting. A French officer serving in Poland told the correspondent he believed the Russians would come back in the early spring, and that they would be better organized for invasion than they were this summer. A Polish officer, graduate of an American university and serving with General Joseph Haller's army, declared he believed, and this belief prevailed among the Polish officers, that the Russians were badly beaten but would be able to reorganize and prepare for another campaign within six months. A number of Germans, who held the opinion that Poland cannot endure as a nation, said that they were confident that Russia would soon begin a counter-offensive.

Cossacks Not Bolshevists.
The American officer said information he had gathered led him to believe the Russians would renew the fighting early this winter. Through an interpreter he learned the attitude of the Cossacks interned in East Prussia.

"Strangely enough these Cossacks say they are not Bolshevists and that few Russians are real Bolshevists," he said. "They declare they are not fighting for Bolshevism but for Russia against the Poles. They appeared to be in excellent condition and well equipped. Most of them were young fellows, apparently between 25 and 30; bronzed, healthy, strapping. On the whole they showed to much better advantage than the Polish soldiers."

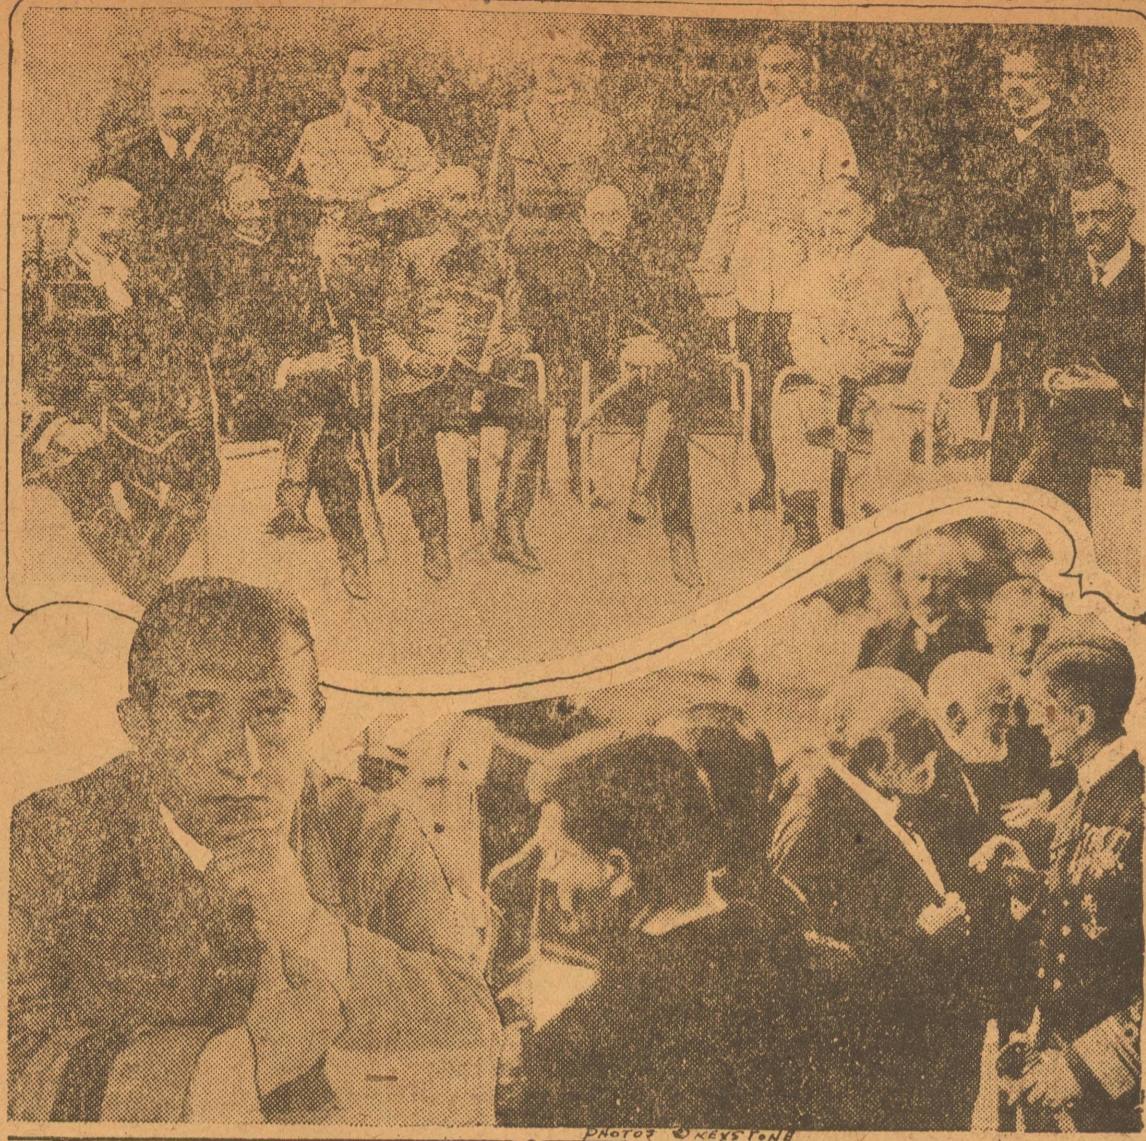

The American said he saw many Germans, some of them officers, laughing and talking with the Cossacks and that it was evident that there was much good feeling between them.

STRONGEST WIRELESS.

MOSCOW, Oct. 8.—A high-power wireless station, capable of direct communication with America, will be constructed about 270 miles from Moscow.

Since 1902 there has been a steady increase of women entering the educational profession.

'CITY COTTON CROP' IS BIG MONEY MAKER REGARDLESS OF PRICE

AUSTIN, Oct. 8.—Criminal prosecution will be necessary to stop the harvesting of the "city cotton crop," declared F. C. Weinert, commissioner of markets and warehouses, unless an improvement in conditions is made.

Commissioner Weinert declared that numerous complaints concerning cotton losing weight between the public weigher and the concentration point have been received. He said that investigations have disclosed that in numerous instances as much as five pounds of cotton has been taken from a bale in sampling.

"This is an unnecessary and wilful practice," he added, and cannot benefit

anyone except the person who unlawfully appropriates the cotton for his personal gain." The commissioner said that what is known as the "city cotton crop" cost the cotton industry of Texas approximately \$8,000,000 a year.

"Of course, some of the loss in weight," he modified, "is caused by the inking of green cotton, but this condition only lasts for a month or six weeks during the early picking and the buyer can protect himself from this source of loss, but he is powerless to protect himself against the 'professional loose rafter,' and it is my opinion that when apprehended he should be prosecuted the same as any other violator of the criminal laws."

New Bank at Corsicana.

AUSTIN, Oct. 8.—The Central Bank of Corsicana, capital stock \$100,000, surplus \$25,000, has been granted a certificate of authority to do business in Texas.

LANDLADY'S LISLE BANK BANDIT BREAK INTO

NEW YORK, Oct. 8.—The faith of Mrs. Mary Reader in her "first national bank" has been shattered. So she took the family's \$1,300 from beneath its elastic safe-guard today and transferred it to a downtown bank chartered by the state.

Mrs. Reader conducts a boarding house at 147 Wythe street, Brooklyn. Soon after her husband and one of the boarders left yesterday three strangers appeared. One of them struck her across the mouth with a wrench while a second tore down her stocking and snatched the \$1,300 on deposit there.

The three fled with Mrs. Reader close behind. A patrolman saw the chase and joining in, captured one of the bandits. The Reader savings were found on the prisoner, the police say.

Mrs. Reader started early today to seek a new bank.

OFFICIAL BALLOT AGAIN STOPPED BY INJUNCTION

AUSTIN, Oct. 8.—The Texas secretary of state was today temporarily restrained from certifying the names of candidates of any political party on the ballot for the November elections, pending final decision on the application for an injunction to prevent certification of the candidates of the American party.

The court announced that it would remain in session, recessing from time to time, until a decision has been handed down. Meanwhile certification of the ballot is held in abeyance. The order was issued at the conclusion of a hearing on the application of A. T. Morris of Bastrop county for a permanent injunction to restrain the printing of the American party candidates on the ballot.

Miss Sadie Isaacs, a blind school girl student at the Central Foundation school, has passed the London university matriculation examination, doing her papers in Braille.

OIL

DEEPER SAND IN STEPHENS FLURRY CAUSE

Operators Declare Rich Pay Underlies Known Oil Sand There.

BRECKENRIDGE, Oct. 8.—A flurry of excitement has been brought into being among oil men by the well-known fact reported that a prolific oil-bearing sand underlies the one from which all of the Stephens county production is now coming.

This far debate on the matter is of a conjectural nature, but it is a fact that the Sinclair company which a few days ago pulled tools from the well on the Jesse E. Smith tract near the Gulf No. 7 has begun to replace the tools to go deeper instead of shoot in the sand, as was its first intention.

The report that another pay sand underlies the Breckenridge sand from which oil now comes is in line with the reports of geologists who have gone over the field. The exact extent of the sand and its longevity are still matters upon which accurate data is still unavailable.

Last week the Fensland company, holding on its Harris lease, southeast of the city, brought in an 800-barrel producer right in the midst of a group of 50-barrel wells. Although such an occurrence is not without precedent in the oil world, it is by no means an ordinary experience, and the report of its occurrence spread rapidly among oil men who tend to place more faith in the heretofore baseless notion that a rich pay sand exists beneath the present producing level.

Coincident with the spread of opinion, it was reported that a number of operators are contemplating going deeper with their tools in wells already producing but not in sufficient volume to justify the expectations of their developers.

Cooper-Henderson Well Increases Flow to 3800 bbls.

Special to the Times. BRECKENRIDGE, Oct. 8.—The Cooper-Henderson well on the Goodwin tract No. 1, which on the sand yesterday and today is in at 2,146 feet, fifteen feet in the sand, and is making 3,500 barrels of oil. The well came in natural but the tools will remain in the hole for the well can be drilled deeper.

NUECES BAY WILL BE SPANNED BY CAUSEWAY

CORPUS CHRISTI, Oct. 8.—Final plans for the causeway to join Corpus Christi with the San Patricio county town of Nueces Bay have been approved by the state and federal engineering departments in Texas and are to be sent to Washington soon for the consideration of the Bureau of Public roads. Of the \$400,000 to be expended on the structure, a sum approximately 64 per cent of the total cost will be for permanent construction of concrete with concrete piers. The remaining 36 per cent will be wooden construction. There will be 2,700 feet of the permanent type, spanning the main channel, while 5,800 feet will be of wood. The wooden portion is planned to stand heavy traffic for five years, by which time it is believed that Nueces county will be in a position to replace the wood with concrete construction. The former causeway, which was destroyed in last year's storm, has been studied very carefully in order to avoid defects in the plan insofar as storm resistance is concerned.

STRIKE OIL WITH SHOVEL JUST LIKE MOVIE SHOW

By Associated Press. SAN ANTONIO, Oct. 8.—For years Thomas E. Cooper, whose home is in the heart of San Antonio, noticed oil seeping through the floor of a cellar at his home. Not until recently when Texas became a great oil producing center and when oil prices began to soar, did Mr. Cooper begin saving the oil. Now he is marketing from two to three barrels daily from the seepage that once went to waste.

On the same property a few days ago two Mexicans were digging a cistern for Mr. Cooper and struck oil at a depth of about nine feet.

The Boston Store A. Joseph THE SHOPPING CENTER OF RANGER PHONE 50 RANGER, TEXAS.

SINCLAIR CO. OPERATIONS

J. R. Smith No. 4 has been shut down at 2,136 feet, awaiting pipeline connections.

J. R. Smith No. 3 is drilling at 2,116 feet. Heavy gas pressure is causing much trouble.

G. W. Hill No. 1 at Ellenville is underreaming at 3,056 feet. 6 5-8. Total depth 3,305.

S. L. Moon well one mile northeast of Ivan is drilling in shale at 2,800 feet, 6 5-8 casing set at 2,712 feet.

R. O. Lee No. 2, three miles south of Caddo, was plugged back to a shallow sand around 1,700 feet and 60 barrels were swabbed out yesterday, only lowering the oil level about 300 feet.

T. J. Ernest No. 8, nine miles northwest of Ranger is rigged up complete. Drilling will start immediately. No. 9 is building rig.

It has been reported that a well on the Wheeler tract three-quarters of a mile south of the Sinclair's Foote lease came in with 3,200 barrels.

NORTH TEXAS WELLS NOT CROWDE DCLOSE ENOUGH TO INJURE

BRECKENRIDGE, Oct. 8.—Unlike other fields in Texas and other parts of the country, the Ranger-Breckenridge districts, particularly the area within the boundaries of Stephens county, there is no disposition on the part of operators to crowd the producing areas with rig and drill wells close enough together to be a detriment to one another. It is the history of other fields that richly producing centers were crowded with wells and operators raced with one another in the hurry to pump the sands dry before the opposition operators did the same thing.

GUESSING THE PITCHER FANS PASTIME TODAY

NEW YORK, Oct. 8.—The Brooklyn Dodgers and the Cleveland Indians, contenders for the world's championship honors, left here today en route to Cleveland, where the series will be resumed Saturday, weather permitting.

The popular pastime among the fans is guessing who will pitch tomorrow's contest. The general guess is that Covelleskie will again attempt to withstand the Brooklyn onslaught and that Marquard or Pfeffer will do the serving for Brooklyn.

KAISER'S SON NAMED IN PLEA FOR DIVORCE

CHICAGO, Oct. 8.—Mrs. Violet Trumbull Lyon, noted Chicago artist, was today named as the German Kaiser's son, according to William Henry Lyon, her husband, who sued for a divorce.

H. C. Lyon, father of William Henry Lyon, was the star witness for his son. To him Mrs. Lyon had confessed her friendship for the royal prince. The elder testified:

"My daughter-in-law told me that when she was in Germany in 1903 and 1904 she was on very friendly terms with the Kaiser and all of his family. She admitted that she was especially fond of one of the Kaiser's sons. I don't know which one, and that he was a prince of a fellow."

Mrs. Lyon denied undue friendship for the German prince, but admitted that she had been a favorite in the royal household.

"One of my music masters in Europe told me that I had the smallest hands of any great piano player," she said, holding up her hands.

Mrs. Lyon, who at present is a music teacher in Minneapolis, studied piano in Germany under Theodor Leschetzky and Carl Hofmeister. The former, now dead, was at one time teacher of Paderewski

MOTHER TRAILS SON TO FOUR ARMY CAMPS THEN DISCOVERS WRONG MAN

SAN FRANCISCO, Oct. 8.—Mrs. Mary Erickson, searching for her son, heard he was in an army hospital at Camp Mercedes, Texas, suffering from shellshock.

She went to Camp Mercedes and was told he had been sent to Council Bluffs, Iowa.

She went to Council Bluffs and was told he had gone to Wenatchee, Wash.

So she went to Wenatchee and heard he had been sent to Aleutraz Island, Cal. Out of funds, Mrs. Erickson agreed to drive an automobile to San Francisco as a means of getting here.

She reached San Francisco and hurried to Aleutraz. Yes, James Erickson was there. He was brought to headquarters to see his "mother."

It was another James Erickson.

London chorus girls lay claim to having the smallest ankles of any women in the world.

Republican Editor Tells of G. O. P. Scouts Preceding Cox and Asking That News Be Colored Against Him

The Post Dispatch has received a copy of the Albuquerque Morning Journal of Albuquerque, N. M., of last Friday, Sept. 24, in which appears a front page statement that two men, introducing themselves as representatives of the Republican National Committee, called upon the management of the paper a few days before and asked that the meeting of Gov. Cox thereon the night of Sept. 23, be handled as lightly as possible and that his welcome to New Mexico be minimized. The personal owner, Carl C. Magee, a Harding supporter, also prints his opinion of Cox upon the front page, expressing the belief that Cox has the qualities which would make a good president, but that he carries "too much political excess baggage."

Gov. Cox in nearly every speech in the West has charged that Chairman Hays of the Republican National Committee has been sending "scouts" four days ahead of the Democratic special, urging Republican editors to "ask Cox questions but don't publish the answers. Say he had a poor meeting and was coldly received."

Answers Questions Readily.

The statement in the Albuquerque paper, headed "The Journal Answers," was as follows:

"We asked Gov. Cox a half dozen questions yesterday morning. He answered them courteously, even if not satisfactorily. We will discuss his answers a little later. He said we asked them graciously."

"He, in turn, asked us a question in a gracious and courteous manner. We are a good sportsman and will answer it. It was this:

"Did not two gentlemen named Headley and Smith, representing Will S. Hays, National Republican Chairman, call upon you a few days before my arrival and ask you not to emphasize my welcome in New Mexico and to handle my meeting here as lightly as possible in order to minimize its effect and add that they were traveling ahead of me to interview Republican papers for that purpose?"

"Two men of some such names did interview us and so represent themselves. They did make such a request and such a statement."

Request is Refused.

"We refused their request; said any distinguished visitor to Albuquerque would receive a gracious reception from the Journal and the widest and fairest publicity, regardless of politics; that we owed the National Committee nothing and would conduct the Journal as we chose."

"They then said, 'Of course you will; you misunderstood us.'"

"We are supporting Harding and Coolidge, but disapprove the methods of such overzealous partisans."

"That such is the attitude of the Journal is proven by our handling of the news of the Cox visit, both yesterday and this morning."

The sketch by Owner Magee, printed under his name and headed "Carl Magee Likes Gov. Cox, but Not 'Excess Baggage,'" was as follows:

Hunting Bargains in Ranger

Bargains discovered in trips through Ranger shops and department stores are here presented briefly, for the benefit of Times readers. If any of the articles described meets your needs, you may learn the shop where it may be purchased by calling the Times, telephone 224, and giving the shopping editor the number of the paragraph which tells of your particular bargain.

I. A very wearable hat is a chin-clip model. The crown is black velvet and the underfacing of the upturned brim is of chow velvet. A small bead ornament dangles from the side.

II. If you would like a strikingly stylish hat of Parisian appearance look this one up. A soft black beaver hat that is neither turban nor tam but has the effect of both, with beautiful glycerine ostrich feathers trailing down the side. These are fastened to the hat with a handsome jet ornament.

III. A Paris house surely designed the original model for this lovely coat of brown velveteen. The drapery, which falls be-

low the waistline in a straight capelle effect in the back, crosses over the shoulders in front and forms the sleeves. This is stitched in rows of brown silk thread.

IV. Black shadow lace and charmeuse is the very fashionable combination of materials for one of the very new blouses. Lace forms the foundation and sleeves, which are to the elbow with a square of lace for the cuff, while the panel front and back crush girdle is charmeuse. A narrow gresgrain ribbon of Chinese blue ties over the girle and small hand-made silk flowers of matching color trim the neck.

OKLAHOMA MINERS PLAN WALK-OUT TO FORCE WAGE DEMANDS

MUSKOGEE, Oct. 7.—State officials, coal operators and miners' union officials are today watching the coal fields of Oklahoma following reports that miners would suspend work and go on "vacations" because their demands for increased pay have been rejected by mine operators. The walk-out was predicted last night by E. R. Ross, secretary of District 21 of the United Mine Workers of America.

BROWNLEE GOES TO MUSKOGEE; CRAIG NEW MANAGER AT TEMPLE

Ollis Brownlee, manager of the Temple theatre for the past six months, left last night to assume a position as manager of one of the largest picture theatres in the Southern Enterprise circuit at Muskogee, Okla. Mr. Brownlee is the youngest theatrical man on the Southern Enterprise circuit and his ability is worthy of praise.

He has made many friends here who are sorry to see him go. He is succeeded by "Billie" Craig of Dallas.

RANGER HIGH FOOT BALL TEAM TANGLES WITH CISCO TODAY

The Ranger and Cisco high school football teams will defend the honor of their respective cities this afternoon at Municipal park, at 4 o'clock.

Still smarting under the sportsmanlike score of 70 to 0 laid up against them last Friday at Strawn, the local warriors are crying for blood. They have promised themselves that Cisco will pay for what they lost last Friday. They have another factor that will lead them into the fight with a do or die spirit. The warriors say, to win from Cisco could not be a very great honor, but to suffer defeat at its hands—oh, the disgrace.

The game starts at 4 p. m. and an admission charge of 35 cents will be made.

The National Woman's party is urging that a woman be appointed either secretary of war or secretary of the navy, as a means of assuring peace.

HOMESPUN SUIT IS NOBBY FOR SCHOOL

By ELOISE.

The "first suit" or school suit is always a difficult problem. It must not be too grown-up looking and yet it must have an air of smart girlishness which will not be too juvenile to suit even the most particular flapper. This year the suit problem has been settled by many

methods by getting, not a suit at all, but one of the pretty new plaid skirts and a smart little navy or tan coat. There is one other way the suit problem may be solved and that is by getting one of the very English homespuns which are now in the shops. Here is an attractive model in an odd shade of blue which is quite the thing for frosty days and school wear. It gives plenty of warmth and makes it unnecessary to wear a heavy coat. Four pockets bound in gray and a gray scarf set it off nicely. A gray and blue knitted hat forms the finishing touch to complete the costume.

BRECKENRIDGE GETS FIRE PLUGS; LESSEN DANGER OF NEW FIRE

BRECKENRIDGE, Oct. 7.—To prevent a duplication of the disastrous fires that swept Breckenridge on two occasions and to reduce the fire hazard now operative in a city where all but a few buildings are of readily combustible construction, a number of fire plugs have arrived in Breckenridge and will be soon installed at strategic points in the city. Several chemical engines already are possessed

SATURDAY'S GAME "PLAYED" IN RANGER AT 1 O'CLOCK

The transfer of the world's series contests to Cleveland will make the games an hour later, Ranger time. The Brooklyn game started at 12 o'clock, which proved inconvenient for many fans who would enjoy seeing the play as depicted on the Star ball player at the Majestic. The 1 o'clock opening hour is expected to give many persons an opportunity to witness the games.

BRONCHO BUSTING AT ROARING CAMP TONIGHT

Roaring Camp's dance halls and other haunts of the festive forty-niners will open tonight at 7 o'clock. Just like its prototype of the Sierra foothills, it brightens up at sundown and revelry abounds. Dancing begins at 8:30. The best jazz band

ever heard in the city has been imported from Galveston. The Elks Saturday night the grounds will promise a clean, enjoyable evening, supervised by floor walkers and with no tag dances. Broncho busters will enliven up the "street" at 9:30. Saturday night the grounds will open at 8:30, with a five-round boxing contest at 8 o'clock and dancing at 8:30. The Elks' automobile will be disposed of at 10:30.

HORRORS! MILLIONAIRE'S WIFE FORCES HIM TO EAT HER COOKING AND WASH DISHES; DIVORCE

SAN FRANCISCO, Oct. 8.—Tucked away in the secret files of the San Francisco superior court, but brought to light accidentally today, are the papers in the divorce action of Christopher P. Hensley, millionaire insurance man and ranch owner, against Pauline Ouida Penrose, noted New York society beauty, revealing the story of how the alleged

1919. So impetuous was his wooing that the object of his affections agreed to elope with him, and they were married in San Francisco April 5, 1919.

The 23-year-old bride displayed a tendency to keep close and jealous watch upon her spouse, according to the complaint. He testified that she denied him the slightest liberty of action and always was keeping a hawk-like vigil upon him. She refused to allow him to visit his former friends and was possessed of a frenzied fear lest feminine smiles and dainty ankles should tempt him away from her company, he asserted.

After the honeymoon they lived at the fashionable Haywood apartments, though the husband, according to his story pleaded unavailingly that his bride live with him in a palatial residence which he was to purchase.

The wife insisted upon cooking their meals herself, declared Hensley, who added that the arrangement would have suited him but for the fact that the meals thus prepared were unpalatable. The domestic storm raged fiercely in the Hensley apartment April 20, when the bride accused her husband of infidelity and pulled off her wedding ring and threw it in his face, the husband declared.

Further grief was caused Hensley, he testified, when his wife compelled him to eat his meals off the end of a trunk, refusing to set them upon the dining room table, and insult was added to injury by her requiring him to wipe the dishes.

Soon after they had separated, he told the court he was presented bills aggregating \$250 for goods purchased by his wife concerning which he had not previously been informed.

Mrs. E. C. Harrington, attorney, represented Hensley in the action. There is no mention in the papers in the case of property settlement.

Double-Decked Subway Planned for New York

NEW YORK, Oct. 8.—This city will have a new double-decked subway running most of the length of Manhattan Island if the plans proposed by John Delaney, transit construction commissioner, to provide for the increasing traffic for the next twenty-five years are put into effect.

It will be necessary to resort to this double-decked subway construction, in the opinion of the commissioner, because the congested section of Manhattan borough has only eleven north and south arteries to serve more than 100 cross streets. His plans call for an eight-track double-decked line on the west side of the city from the Battery to 155th street running under Eighth and Amsterdam avenues. Only four tracks would be constructed at first, but these would be so located that another four-track unit could be built under or on top of it.

Mr. Delaney also proposes the building of another north and south subway of four to six tracks under Fifth and Madison avenues, on the east side, and extending from the Battery to the Harlem river. Both these arteries would have connections extending to the boroughs of the Bronx, Brooklyn or Richmond.

The commissioner advocates the construction of forty-two new single-track river tunnels. As the present system has thirty-four such tunnels, this would make a total of seventy-six.

He says that passenger traffic on the surface of the main arteries, north and south or crosstown, will soon have to be discontinued because of the great increase of traffic of vehicles and pedestrians; with the result that all passenger traffic on these streets would be forced into subways or on elevated lines.

FERRIS WHEEL OF PARIS DOOMED TO COME DOWN

By Associated Press.
PARIS, Oct. 8.—The Ferris wheel which has attracted much attention among foreign visitors in Paris for the last twenty years, but which according to landscape artists and architects has been a desecration to the artistic horizon of Paris, is doomed. The work of demolishing the wheel is to be started in a few days. It was built at the time of the Paris Exposition in 1900; is more than 300 feet in diameter and contains several million pounds of steel which will be used in the reconstruction of devastated regions.

*Fold it up—
take it with you—
typewrite anywhere—*

THINK of a writing machine that will handle all your correspondence or confidential business in clean, legible, business-like form—yet a machine that you can fold up and tuck away in a desk drawer. A machine for your individual use, so light in weight that you can carry it home from the office, or take it with you when you travel.

Figure what this six-pound time-saver would mean to you, in your work or your personal affairs. Then come in and let us give you the whole story.

'Black and Tans' More Brutal Than Irish Constables

DUBLIN, Oct. 8.—The importance attached by the government to the maintenance of the morale of the Irish police is shown by the fact that it has taken the unprecedented step of publishing a newspaper called the Weekly Summary, for circulation in all police barracks. Three numbers have already appeared and been distributed to the police.

It contains brief and striking editorials eulogizing the force and assuring them of support in the trying situation.

The resignations from the Royal Irish Constabulary and the additional pressure of patrol work have led to recruiting large numbers of men in England, principally former soldiers attracted by the high wages. The attitude of the Sinn Fein toward them is one of extreme bitterness, while the old members of the force are more favorably looked upon, and attempts made to induce them to resign.

How Name Arises.

The new men could not be provided with the ordinary police uniform, and have had to be content with a uniform partly police and partly military. This has earned them the nickname of "the Black and Tans." The Weekly Summary has special encouragement for them. Extracts from it have been published in the Dublin newspapers, one of which says that the "Black and Tans will go on with their job—the job of making Ireland once again safe for the law-abiding and an appropriate hell for those whose trade is agitation and whose method is murder." This exhortation is denounced in the Nationalist press as an encouragement to the reprisals which provoked the condemnation of General Macready.

Another editorial comment in the police organ referring to hunger strikers in the prisons says: "Those who plot and participate in the murder of policemen, who are only doing their lawful duty, must not expect much sympathy when they are caught and get the punishment they richly deserve."

The Irish government has now appointed three well known English journalists as their means of communication to the press accounts of outrages and statements of the attitude of authorities. One is located in Dublin Castle, one in Belfast and one in Cork. In Dublin the newspapermen were asked to call twice daily for communications. After a time the Journalists' association passed a resolution of protest and declined to attend any more. The newspapers, however, are able to print the communications which they obtain from the men who do not feel that they are bound by the resolution. The Sinn Fein newspaper Young Ireland warmly commends the attitude of the Journalists' association.

AIRPLANE NEW WEAPON AGAINST FOREST FIRES

WASHINGTON, Oct. 8.—Airplane forest patrols in California were able recently to reach the scene of a fire forty-five hours sooner than had they proceeded by train and pack mule, a report to the army air service shows. An aerial observer spotted a blaze in Lassen forest while all foresters were engaged in fighting another fire in the Merced forest. Planes picked up the fire fighters in the Merced zone and rushed them to the Lassen fire.

"In three hours," says the report, "the fire fighting personnel was on the job fighting the flames, whereas had they proceeded by train and pack mule, forty-eight hours would have been consumed."

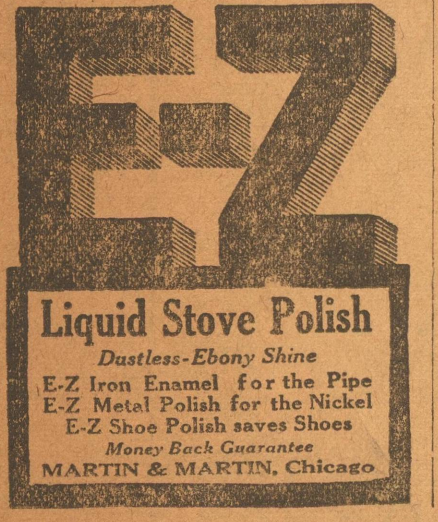

"The day will come when men and equipment will be carried by airships to the scene of fire, both men and equipment dropped by parachute, while the airship will rain down fire extinguishing chemicals from above."

ANTONIO DISTRICT MAY GO REPUBLICAN

By Associated Press

SAN ANTONIO, Oct. 8.—The fourth congressional district, including the city of San Antonio, is one of the two districts in Texas to which the Republican national campaign committee proposes to send their leading spellbinders, according to an announcement made here by local Republican leaders. The fourteenth district lacked only about 1,500 votes going Republican in 1916 and is considered this year an excellent field for the Republican aspirant for a congressional berth.

BETTER THAN WHISKEY FOR COLDS AND FLU

New Elixir, Called Aspironal, Medicated with Latest Scientific Remedies, Used and Endorsed by European and American Army Surgeons to Cut Short a Cold and Prevent Complications.

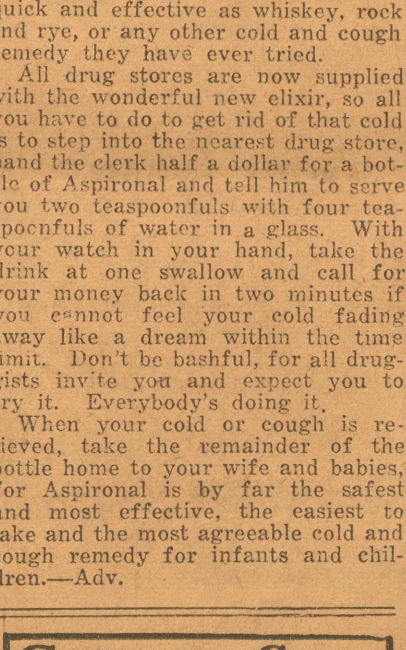

Every Druggist in U. S. Instructed to Refund Price While you Wait at Counter if Relief Does Not Come Within Two Minutes.

Delightful Taste, Immediate Relief, Quick Warm-Up.

The sensation of the year in the drug trade is Aspironal, the two-minute cold and cough reliever, authoritatively guaranteed by the laboratories; tested, approved and most enthusiastically endorsed by the highest authorities, and proclaimed by the common people as ten times as quick and effective as whiskey, rock and rye, or any other cold and cough remedy they have ever tried.

All drug stores are now supplied with the wonderful new elixir, so all you have to do to get rid of that cold is to step into the nearest drug store, hand the clerk half a dollar for a bottle of Aspironal and tell him to serve you two teaspoonfuls with four teaspoonfuls of water in a glass. With your watch in your hand, take the drink at one swallow and call for your money back in two minutes if you cannot feel your cold fading away like a dream within the time limit. Don't be bashful, for all druggists invite you and expect you to try it. Everybody's doing it.

When your cold or cough is relieved, take the remainder of the bottle home to your wife and babies, for Aspironal is by far the safest and most effective, the easiest to take and the most agreeable cold and cough remedy for infants and children.—Adv.

WIFE'S DOWRY WAS THREE CONCEALED CHILDREN

TOKIO, Oct. 8.—What saves the world today in the crisis through which it is passing is the "social dynamic" of the Bible, declared Professor Henry E. Doster of the Presbyterian Theological Seminary of Kentucky in an address here tonight before the delegates to the World's Sunday School congress.

"A complete break with it," said the speaker, "would spell a return to paganism and chaos. A comparison between Christian and non-Christian lands at once indicates the forces of this dynamic. Could resolutions like these, adopted by American representatives of more than thirty Protestant denominations, ever be adopted anywhere in the world, except under the banner of Christianity? I mention a few of the principles enunciated: "Equal rights and complete justice for all men."

"Protection of the family by a single standard of morality, binding on men and women alike.

"Abolition of all child labor.

"Absolute antagonism to the drink traffic for the protection of society.

"The right and opportunity for self-maintenance for all.

"A living wage for all workers.

"The application of Christian principles to the acquisition of property.

"Could anyone dream of such principles as the outcropping of non-Christian religion or ethics? Here then the social dynamic of the Bible is in full operation.

Where does woman cease to be the man's wife and take her place by his side, as his true helpmate, but here under the operation of this social dynamic?

Where does the child attain its full rights but here? Where does education flourish free alike to rich and poor? Where do all men have an equal chance? Where do we find hospitals, asylums and charitable institutions? Where does human right reach its highest level and achieve its greatest results, but here?

"The ideals expressed in the scriptures, venerable with age as they are, are still acquiesced with interest for our own day and our own environment."

BOXING WILL BE REGULAR SPORT AT TEXAS UNIVERSITY

AUSTIN, Oct. 8.—Boxing will be introduced as one of the regular sports at the University of Texas this year, according to the announcement of Walter M. Simmons, former feather-weight champion of the navy, who will be in charge of the boxing classes. Students desiring to enter the boxing classes may be transferred from their regular physical training classes and receive credit for the work done in boxing.

Arrangements are being made for bouts between the leading colleges of the state, and men making the team which will represent the University in these bouts will be awarded the coveted "T." This, together with the fact that several of last year's champion boxers are again in school makes the prospects bright for a successful year, in the opinion of Mr. Simmons.

SUMMER EARTHQUAKES PUZZLE SCIENTISTS

WASHINGTON, Oct. 8.—Frequent earthquakes in North and South America and Europe during the last few months have puzzled government scientists. They regard the disturbances as a geological anomaly for they say that the greatest seismic disturbance is known definitely to be in February, March and April. Their opinion coincides with that of Father Tendorf, director of the Georgetown University of Seismic Observatory.

The government scientists have no particular scientific reason to suggest for the frequency of the recent earthquake disturbances. They are making no special study of the earthquakes, and their opinion is that geology is too young a science and too little is known of it for anyone to attempt an explanation of the cause of the anomaly. Geologists recognize that the earth's surface is in a state of continual unrest, and explain that whenever the accumulated force passes the "breaking point" earthquakes follow. The disturbances which recently have occurred in three continents are regarded by scientists as movements of the earth's crust and yet they say that some of the shocks may have extended to a depth of 200 miles. Fault lines or weak places in the earth are well known to geologists, according to G. B. Merrill, curator of the National Museum who explains that because of this knowledge a general prediction regarding the area of disturbance can be made by the scientists. But, he adds, "no sane man" would attempt to say exactly where or when, for a fault may extend for several hundred miles. During the world war, 11,880 women were enrolled in the United States navy department, navy yards and naval stations.

OVERALLS, SPECIAL \$2.00 PER PAIR

Starts Saturday at 8 A. M. Tomorrow

When the S. & H. Store has a sale, it is a Real Sale. Come early, bring your friends.

We want every mother, father, brother, sister, aunt, uncle, niece, nephew and sweetheart to come to our store and examine our stock of Ladies' and Gents' Ready-to-Wear, that we INTEND TO OFFER AT SACRIFICE. We have one of the best and most up-to-date stores in Ranger.

We have solved the high cost of living problem. We are putting on one of the most unusual sales in the history of the oil fields. Think of it—at the time you are going to supply your Fall and Winter needs. Our intention is to give everybody in Ranger and vicinity an opportunity to purchase their wants at the most reasonable cost. We realize that Winter Merchandise prices have dropped; we're taking our loss now instead of later. Our misfortune is your gain. Supply your Fall needs now.

The S. & H. Clothing Company stands behind every piece of merchandise that leaves the store, and if any article does not comply with every reasonable first class feature, we will make it good by exchanging it, or refund your money.

We have too many bargains to enumerate in the limited space allotted to us. Briefly, it is this: Every Article in the store will be cut and reduced. Any article that is not enumerated, a discount of 10 per cent can be obtained and cheerfully granted by us.
