WHISTLES TO SOUND ALARM OF HI-JACKS

Boilers of Oil Rigs in Breck Field to Be the Signal for Man-Hunt.

Steam whistles to sound the alarm when crews working on night towers of oil wells in the field around Breckenridge are hijacked, soon will be installed at the suggestion of a detective who has been retained by private interests to stem the forays and intimidations of the bandits. As soon as one of these whistles shrills, according to the plan, crews in all adjacent rigs will gather in around the area of disturbance and begin a man-hunt for the hijackers. Any one found who cannot furnish an account of himself will meet with certain and immediate retribution, it is understood. The fact that a considerable period of time has elapsed before adjacent agencies could be warned of the sorties of hijackers has been one of the obstacles in the way of apprehending them and checking their depredations. It is expected this new means of sounding an alarm will do much to discourage further hijacking.

NEW RAILWAY'S SURVEYORS AT ELIASVILLE

Special to the Times. ELIASVILLE, Texas, Oct. 30.—That the work of building the Wichita Falls, Graham & Elsasville railroad will be pushed with all haste was shown here this morning by the arrival of a party of right-of-way men and surveyors who started laying out the right-of-way, depot site and switch yards. From information given out by Mr. Kell, president of the road, the work will be carried on from both ends of the line, a large construction camp already having been installed at Newcastle, where the road will connect with the main Wichita Falls division. The assurance that the railroad will be built into this city has caused numerous large oil supply and equipment houses to seek locations here, as they realize the greatest development will be in the Elsasville pool upon the drilling completion of the Breckenridge route, which work should be done within the next sixty days.

SHORT STAPLE COTTON HAS TIED UP BANKS, SAYS MARKET EXPERT

By Associated Press. COLLEGE STATION, Oct. 30.—In a circular letter to cotton classifiers and county agents of Texas, L. A. Huff, field supervisor of the bureau of markets, United States department of agriculture, says that the immense amount of short staple cotton grown in many districts, on which money had been advanced by bankers and others, and for which no market can be found, is the direct cause of much of the cramping of the money market in the regions so affected. The result has been "cramping and affecting every line of business and limiting the funds of farmers to an insufficient amount to operate properly," Mr. Huff says. Urging the planting of longer staple cotton and uniformity in grading, Mr. Huff says of the short staple situation: "All cotton unobtainable on contracts is no longer subject to laws regulating the market of this country and is left open to circumstances. If an outlet is found, the cotton can be sold for whatever this outlet affords. At this time this kind of cotton has an unknown value." He urged the growers to work for improved grades and longer uniform staple "and proper care by both the farmers and gins to improve the grades."

CHARLTON MURDER CASE GOES TO JURY TONIGHT

By Associated Press. DALLAS, Oct. 30.—Taking of testimony in the trial of Allen Charlton for the murder of Charles Eubank closed last night, with the exception early today that the case would be in the hands of the jury by midnight tonight. Continuous court sessions until the jury begins its deliberations have been ordered. Charlton, who is a prominent attorney, was the last witness called by the defense last night. He declared he fired the shots which ended Eubank's life last June in the belief that his own life was endangered. He said he had been threatened because he had sued Eubank for \$250 for attorneys' fees.

ARKANSAS STOCKMAN PRISONER FOR WEEK, SIGNED BIG CHECK

ST. LOUIS, Oct. 30.—A man who says he is Joseph Alexander, a stock raiser of Fort Smith, Ark., reported to officials of St. Louis that he escaped early today from a farm house in the county where he had been held a prisoner since last week. He asserted his captors told him compelling him to sign a check for \$25,000 on a bank at Fort

MAN CHARGED WITH ATTEMPT TO POISON LANDLADY'S SON

By Associated Press. GAINESVILLE, Texas, Oct. 30. Charges of assault with intent to murder were filed yesterday against H. W. Moore, who is alleged to have attempted to feed poison in a cake to J. D. McCracken, aged 12, son of Mrs. Vera Taylor, at whose home Moore boarded.

THUGS FIRE CLOTHES OF REFORM MAN

Pastor of Church Lured to Lonely Spot, Slugged, Soaked in Oil and Fire—Saved.

COUNCIL BLUFFS, Iowa, Oct. 30.—Lured to a lonely part of the city by a fake telephone call last night, Rev. D. E. Cleveland, pastor of the Dodge Memorial church, who is prominent in civic affairs, was lured, bound and gagged by four thugs who threw him into an automobile truck, soaked his clothes in oil and then set fire to the car. The minister saved himself from being burned to death by rolling out of the truck. He is in a critical condition today at a local hospital. Dr. Cleveland said he was certain revenge was the motive for the attack. He had been waging a fight for the suppression of crime.

American Legion Will Celebrate Armistice Day

Rodeo at Municipal Park and Dance Will Feature the Entertainment.

The American Legion is planning a big event for Armistice day, Nov. 11. One of the features will be a rodeo put on at Municipal park by J. L. Fletcher for the benefit of the legion. In the evening a dance will be given in the Moose hall. Tickets for the occasions will be sold for legion members and it is hoped that enough funds may be realized to pay the outstanding debts of the organization. Full plans for these entertainments will be gone into by committees appointed at the meeting of the legion Sunday afternoon at the Elks home, medals will be bestowed upon fifty ex-soldiers.

LEGION WILL FIGHT BRINGING OF JAPS TO RIO GRANDE VALLEY

By Associated Press. HARLINGEN, Texas, Oct. 30.—Determination of land promoters to place Japanese colonies on farm lands being sold in this vicinity in the Rio Grande valley, on the one hand, and the equally strong conviction of the local post of the American Legion that such action would be the forerunner of a "yellow peril" or the valley, reached a climax recently at a public meeting held here.

The meeting had been called by one of the land promoters in order that he might explain his reasons for desiring to bring in a few Japanese farmers. H. L. Oler, commander of the Harlingen post of the American Legion, publicly denounced the land men for selling property to the Japanese, assured him that the members of the post would use every means to keep the Japanese from settling in the valley and told him to warn the Japanese not to come here.

The promoter, after listening to Mr. Oler, and hearing the cheers of the crowd, which included many farmers, left the meeting. He is said to have declared his determination to carry through the agreement in which papers already had been signed. The legion members declare they will take every legal means to keep the Japanese from coming to the valley.

HARDING SUMS UP ISSUES IN CAMPAIGN'S FINAL ADDRESS AT COLUMBUS

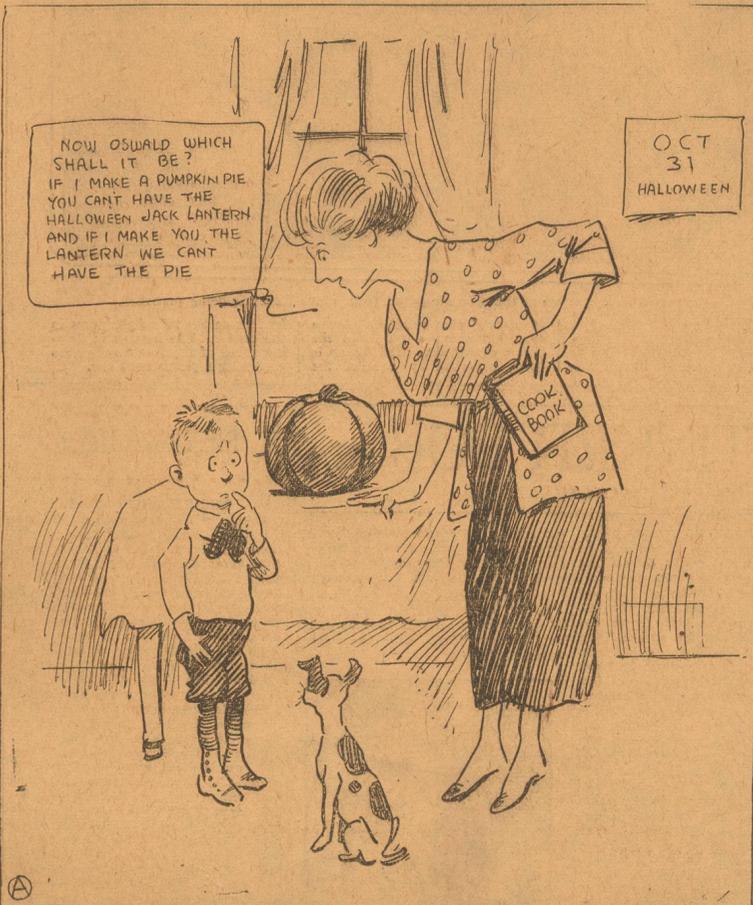

By Associated Press. CINCINNATI, Oct. 30.—On the last lap of his campaign travels, Senator Harding conferred with Ohio Republican leaders today as he completed preparation of his last speech before the election, to be delivered tonight at Columbus. Leaving here at noon, the senator will make several stops at smaller cities on his way to the state capital. He planned, however, to conserve his voice for the night address, in which he will sum up the campaign and define the issues upon which he will rest his plea for the support of the American people.

GOVERNOR PROCLAIMS NOV. 11 AS HOLIDAY

By Associated Press. AUSTIN, Oct. 30.—Armistice Day, Nov. 11, has been designated a legal holiday in Texas in a proclamation by Governor W. P. Hobby.

The High Cost of Living Again

BY MORRIS

TORCHLIGHT PARADE WILL HONOR COX

Governor Makes Six Speeches on Final Day of His Campaign.

CHICAGO, Oct. 30.—Five speeches in Chicago, one in Gary, Ind., and an old-time torchlight parade are on the schedule of Governor Cox today in winding up his campaign for the presidency. One of the greatest demonstrations of the campaign is planned preparatory to the evening speech at the Chicago Coliseum, where Senator Harding was nominated.

Governor Cox made public today a telegram to a woman supporter in which he declared his intention, if elected, to consult both Democrats and Republicans in order to secure ratification of the peace treaty, and to consult other leaders regarding the Irish and Jewish racial questions. "I shall recognize the mandate for entrance into the League of Nations," the telegram asserted. "I shall work out a solution by conference with the senate, and will accept such helpful reservations as are necessary to that end. I shall consult Woodrow Wilson, Elihu Root, William Howard Taft and any others who by virtue of experience can render helpful service."

M'SWINEY'S DEATH NOT SUICIDE, SAYS RELIGIOUS PAPER

SAN FRANCISCO, Oct. 30.—The Monitor, official organ of the Catholic church in the San Francisco arch diocese, in an editorial discussing the hanging of Terence MacSwiney, makes it clear that in the eyes of the Catholic church the Lord Mayor of Cork has not committed suicide, and characterizes his action as "an exalted act of heroic virtue." The editorial states in part: "While the noble mayor of Cork lies heroically struggling with death in an English prison, there are those who scoff at his sacrifice and call him a fool, like the Protestant Bishop Quale. Some well-meaning persons, even Catholics, are inclined to think that a hunger striker, like Mayor MacSwiney, by his refusal to eat bread is guilty of the sin of suicide. It is difficult to follow their reasoning, as it is not founded on solid principles of Catholic moral teaching. There are times when it is allowable, and even laudable, indirectly to offer up one's life in a great and noble cause."

WOMEN MAY OCCUPY PULPITS IN SWITZERLAND

GENEVA, Oct. 30.—Women's right to occupy pulpits has been recognized by the cantonal government of Basle. Two other cantons already have taken this action and it is expected in church circles that the Geneva synod will do likewise. Interest in the question was quickened some months ago when Miss Maude Rodden, of England, was permitted to preach in the cathedral here during the last International Congress of Women.

NINETEEN LOST WHEN CONCRETE STEAMER SINKS

NEWPORT, R. I., Oct. 30.—Members of the coast guard crew stationed here reported early today that no trace had been found of any of the nineteen members of the crew of thirty-four who have been missing since the concrete steamer Cape Fear sank last night in Narragansett bay, after a collision with the Savannah line steamer City of Atlanta. Coast guard men searched all night but found only quantities of wreckage. Points along the shore also reported wreckage but no word of the missing men. The Cape Fear was struck amidships and sank bow first three minutes after the collision. The City of Atlanta's bow was badly damaged but she is anchored in the bay. The Cape Fear went down so quickly that a majority of the crew had to jump into the water.

Skeleton Gives Mute Evidence In Murder Case

LONDON, Kan., Oct. 30.—A bag of human bones, the supposed skeleton of John Woody, exhumed from a meadow ground on an alleged "murder farm" at Maple Hill, will form the state's most damaging evidence in the trial of Rufus King, owner of the farm, on charges of murder. The skeleton was brought into court Tuesday when the state began its prosecution. The defense will contend that the bones are not those of Woody, who was a farm hand working for King. Three bodies were found buried on the farm, but King disclaimed all knowledge of them. He maintained an indifferent attitude when the skeleton was displayed in court. The state charges King murdered three of his farm hands and buried their bodies in a meadow on his farm. Eighty-five witnesses have been summoned for the trial and Lyndon is crowded to capacity with hundreds of curiosity seekers.

DYNAMITING OF OLD CASTLE IS PROTESTED

MADRID, Oct. 30.—A dispatch to El Sol from Granada, in Andalusia, reports that the ancient walls, which are older than those surrounding the Moorish palace of the Alhambra, are being destroyed with dynamite by a contractor in order to obtain some stone for a roadway. A public protest has been sent to the minister of public works. DENISON BEATS BONHAM. DENISON, Texas, Oct. 30.—When the Denison high school football team defeated Bonham 14 to 0 here recently it was the first time in fourteen years that a Denison team had won from a team representing the Bonham school.

POLICE MUM ON ARSON CHARGE DEVELOPMENTS

Suspect Released After Investigation; Shows No Connection; Another sought.

Detectives Pearl Hunt and Dick Rust of the police department, while refusing to talk for publication this morning, promise some startling developments in the Pine street fire case within the next twenty-four hours. The man they were holding yesterday has been released. The detectives and Chief of Police Cooper said this morning that they are sure that he did not have any part in setting the Prince Rupert hotel fire, wherein Jake Houghton, the blind fiddler, lost his life. No doubt exists in the minds of the officers that the Pine street conflagration was the work of a fire-brand but they refuse to say what the motive might have been. A part of the police department, several men on the street express the belief that revenge for some wrong inflicted in the neighborhood was the cause that influenced the man who struck the match to the gasoline-saturated upper story of the Prince Rupert hotel. The police refuse to acknowledge or deny this opinion. They maintain a non-committal attitude with the statement when there is any new developments they will be given out.

MIDSHIPMEN, 'DRUNK,' NOW FACE DISMISSAL

ANNAPOLIS, Md., Oct. 30.—Running astool of the Naval Academy regulations two or more midshipmen face possible dismissal from the naval service. Recommendations in a number of cases of students who have been imbibing are now before the navy department for final action. Rear Admiral A. H. Searles, superintendent of the academy, would not reveal the names. Several of the students, it is said have been allowed to resign in the last few days, but cases now pending before the department for final review are said to result from flagrant violations of regulations. Report has it that at least two midshipmen were apprehended on the streets in such an intoxicated condition that it became necessary to remove them to their quarters on the government reservation. Naval academy authorities admit that at least two midshipmen have been recommended for dismissal.

CHALLENGES RIGHT TO BAR R. R. MAN FROM POLITICS

OTTAWA, Oct. 30.—Canadian workers will look to the government for a guarantee of their right to participate in politics. Tom Moore, president of the Trades and Labor congress of Canada, declared here today. He characterized the recent order by the president of the Canadian National railway forbidding employees from taking part in politics or holding public office as a "destruction of the principle of democratic government."

UNIONS TO SEEK IMPEACHMENT OF GOVERNOR KILBY

By Associated Press. BIRMINGHAM, Oct. 30.—The Alabama Federation of Labor in convention here today adopted a resolution demanding impeachment of Governor Kilby for sending troops to the district affected by the coal mine strike. The vote on the resolution was unanimous.

OIL LEASE ON HILBURN TRACT DECLARED VOID

Discovery Well in Rising Star District Involved in the Suit.

By M. McCULLOUGH. EASTLAND, Oct. 30.—The case of Red Star Oil and Gas company vs. S. J. Hilburn, which has been on trial two weeks, was finally concluded Friday, when the jury came in with a verdict in favor of the defendants. The plaintiff in the case claimed that it held an oil and gas lease over the land by virtue of an assignment from one Wideman, who claimed that he secured the lease from S. J. Hilburn at Palatka, Fla. The defendants claimed that S. J. Hilburn did give a form of lease and did deliver same to Wideman but did so with the express agreement and understanding with Wideman that he was to bring the lease contract to Eastland county, where W. C. Hilburn and wife lived, and get them to sign the lease also, and that unless W. C. Hilburn and wife should also sign the lease it was to be void. Wideman claimed that he agreed to get W. C. Hilburn and wife to sign the lease provided they had placed of record a purchase contract they had once had from S. J. Hilburn, but that he found that this old sale contract had never been placed of record, and he then had his lease placed of record. The jury decided that the Wideman lease is void and that S. J. Hilburn is the owner of the 107 acres of very valuable oil lands in the southwestern portion of Eastland county. The tract is said to be valued at from \$150,000 to \$200,000.

DESDEMONA MAYOR SAYS GROWTH OF RANGER WILL BENEFIT ENTIRE FIELD

That the whole of North Central Texas looks to Ranger for leadership making toward the advancement of this part of the state, is the belief of Mayor Elliot of Desdemona. In an interview with a member of the Daily Times staff yesterday, Mayor Elliot declared that unless Ranger achieves the ends toward which it now is striving, the whole territory will suffer for the want of some focal point which outsiders may look to as the place from which their movements and trading in North Central Texas must begin. "No stable territory ever gained prestige away from home," Mayor Elliot declared, "until it had some central point, some 'port of entry' for outsiders. This function I believe to be the highest mission of the city of Ranger. Unless Ranger meets the expectations of the rest of North Central Texas and assumes unchallenged supremacy of the situation, the whole territory will suffer."

MEMORIAL SERVICES FOR LORD MAYOR HELD THROUGHOUT COUNTRY

By Associated Press. WASHINGTON, Oct. 30.—Memorial services for the late Lord Mayor MacSwiney of Cork, will be held throughout the United States tomorrow, it was announced today by the friends of Irish Freedom. Locals of the organization, it was announced, will set the time for the services. Bishop Thomas Shahan, rector of the Catholic university, in a sermon at solemn requiem mass sung for the repose of the late lord mayor at the university today, declared that never in the history of mankind has there been an individual act of self-sacrifice equal to that of MacSwiney. Emmon de Valera, president of the provisional Irish republic, attended the mass.

SLAYING OF MAN'S WIFE FIRST INKLING HE WAS PROFESSIONAL BURGLAR

KANSAS CITY, Oct. 30.—There is one heart-broken woman in Kansas City. She is Mrs. Eunice Dean, whose bubble of happiness burst when her husband, Claude Dean, was shot to death while robbing the home of D. I. Parsons, banker. Parsons wounded Dean in an exchange of shots and the burglar died in a general hospital. The wife's first intimation of her husband's "night activities" came when she was led to the stricken man's side. "Oh, I want to die with Claude," she told officials. "He gave me the only happiness I ever had and I want to be with him." Mrs. Dean is approaching motherhood.

LUMBER DROPS 35 PER CENT AT LOCAL YARD

New Price Is Prompted by Latest Wholesale Quotations.

A thirty-five per cent reduction in lumber has been posted by at least one lumber company in Ranger. This reduction followed immediately after the mills had reduced the wholesale price a corresponding amount. The price of builders' hardware and plumbing supplies have not followed the lead of lumber in building materials. The greatest reduction in these lines has been less than 10 per cent. However, it is believed that the lesser price of lumber will give an added impetus to building activities of all kinds. Many folks who have waited for this moment will begin the construction of homes and other constructions that have been planned will go forward. It is the opinion of the manager of the lumber company where the lesser price has been posted that no further reductions will follow. This is supported by the knowledge that labor at the mills has not been reduced and probably will not until the reduction of all commodities reach local centers. The advance guard of this reduction was in clothing. Many local merchants have reduced prices until they are on a plane with those that will be asked for merchandise in the spring provided there is no further drop. The reductions in groceries, such as flour, meal, meat and bacon, have not been appreciably felt in Ranger yet but it is expected that there will be a downward trend in these commodities soon. The price of beef cattle has steadily fallen until at present it is said that beef on the hoof is worth about 12 cents a pound. Pork is said to be worth 11 cents per pound. Corn, oats and other grains have all suffered substantial reductions.

Eastland County Farmer Exhibits Large Pumpkin

Special to the Times. ABILENE, Oct. 30.—Agricultural prodigies reported recently to the West Texas Chamber of Commerce include a 104-pound pumpkin raised by Ben Tune near Rising Star and which will be exhibited at the West Texas Chamber of Commerce booth at the Waco Cotton Palace. 136 fine Japanese persimmons raised on one tree by Rev. George Ross of De Leon; and a "valler yan" tuber raised by J. L. Lanham of San Saba and weighing 4 1/2 pounds. The pumpkin is now on exhibition at the Rising Star Chamber of Commerce. The persimmons are of splendid quality, exemplifying that the De Leon country is well adapted to their propagation as sections of California, where as much as \$5,000 an acre has been realized from their sales. The tuber grower lives in the famous San Saba valley. His potato crop is an exceedingly large one.

MONEY ASKED TO SAVE HISTORIC BUILDING OF TEXAS REPUBLIC

By Associated Press. SAN ANTONIO, Oct. 30.—A fight for preservation of the old administrative building of the province of Texas, now heavily mortgaged and in danger of being sold or torn down to make way for a modern structure, has been inaugurated by the De Zavala Daughters of the Heroes of Texas and the Texas Historical and Landmarks association. The historical old structure, whose walls are four feet thick and the entrance of which still bears the Texas coat of arms, was connected intimately with the stirring days of the state's early progress. It was completed in 1749 and served as headquarters for the army of Texas after the capture of San Antonio in 1835. From its doors Seguin went with his small escort to collect the charred bones of his friends, the heroes of the Alamo. In the appeal for funds to safeguard the building the two societies plan to inscribe the names of all contributors on a roll of honor.

'RAGGED STRANGER' WANDERER KILLED IS IDENTIFIED BY PAL

By Associated Press. CHICAGO, Oct. 30.—The "ragged stranger" for whose murder Carl Wanderer is still under indictment, was identified today as John Barnett, former Canadian soldier. Identification was made by Herbert Potter, also a Canadian who said he had known Barnett well for some time prior to the murder. He led detectives to a hotel where Barnett had been staying prior to his death and showed where "John Barnett" had registered daily until the murder. Members of the district attorney's staff said today they were undecided whether to prosecute Wanderer for the murder until the outcome of the first trial yesterday which resulted in a verdict of guilty.

ISSUES SHOULD WIN FOR COX.

Betting odds and such like indications would lead one to the belief that the Republicans will win Tuesday's election by a large majority. Yet it may be like the advance dope on a football game, when every so often the team adjudged to have no chance is returned the winner.

Analyzing the issues in the campaign, it would seem that Governor Cox should win by a reasonable majority, unless the voters are actuated solely by an unreasonable prejudice against the Democratic party and belief that a change of administration would be beneficial. True, there is the usual financial depression which seems to bob up during a campaign, and is laid to Democratic incompetency if they are in power, and to fear of an adjustment being made necessary, if they are out, but might come in. Then, too, there has undoubtedly been waste of public money and perhaps some graft in the handling of government property acquired during the war. That is the fault of the bureaucracy and would be true whatever party were in power, but many persons will be inclined to blame it on the administration.

But to return to the issues: It would seem that Cox should win the labor vote because of his well known and consistent stand for the nation's sociological welfare and the laws he has sponsored for the welfare of the toiler. Women in general favor the League of Nations, so they should support him as strongly as they did Wilson in 1916. The ex-service men also favor the league, and it would seem that he should get their vote. The South will go for him, regardless of its sentiment on the league, although most states express themselves as favoring it. Those who still have hopes of a modification of the prohibition laws will support the Democratic nominee, not because they believe he will aid their cause, but because they believe he is somewhat friendlier to them than is Harding. On the other hand, anti-prohibition leaning he may have probably will not cost him any votes that he would otherwise obtain, because of the general opinion that the liquor question is settled and is not an issue in the campaign.

Cox also has won personal adherents everywhere he has spoken. His uniform courtesy, his willingness to declare his stand without equivocation, his aggressive argument for the principles in which he believes, his outspoken thrusts at Republican evasions and unethical methods, have impressed many thousands.

If the voters make their choice on issues and personal qualities, the Democrats will be retained in power. If they are swayed by prejudice and blinded to the many laudable acts of the Wilson administration by the few mistakes that it has inevitably made, the normal Republican majority will sweep the minions of privilege and pillage back into a seat around the neck of the people.

Next Tuesday, we shall see what we shall see.

RAT PSYCHOLOGY.

Gainesville, Texas, has exterminated 10,000 rats within the last few weeks, for which the Rotary club of that city offered a bounty of 5 cents each. The community is well pleased with the results of the campaign, and asserts that it has saved hundreds of thousands of dollars in material damage alone, to say nothing of the disease risk being lessened.

Ranger seems too busy with its multitudinous activities to enter upon a campaign of rat extermination. Perhaps there is a feeling that since this is not as yet an agricultural country, there is not so much damage that can be done here. Nevertheless, if the figures of the

losses caused by the pests in this vicinity were compiled it would probably reach an imposing aggregate.

In this connection, a gentleman who has, like a few of the rest of us, lived on a farm, gives out a little advice on trapping rats. He says that the rat is possessed of an uncanny intelligence, but has qualities of cupidity and jealousy which render it an easy prey to one who caters to these qualities. A trap, no matter how well baited, if placed in the open is obviously a trap, and nothing more. Mr. Rat cannot be persuaded to enter it. But, our informant continues, if the trap is placed beneath a pile of trash or otherwise covered up, in such manner that the rat can work his way into it, it will be filled every night. This is explained, he says, because one rat sees another disappear from sight and fail to return. Believing the first one has found something, another follows, and also is trapped, and still others, desirous of grabbing their share of the hidden spoils, follow in their footsteps.

It's at least worthy of trial. If human effort can thin the rats out a little bit, the cats of the community may roam the streets and yards with some degree of security.

JOHN-A-DREAMS

CLXXVIII DREAMS OF WINDOW SHADES.

Your actions of the next few days are foreshadowed when your vision brings a windy shade before your mind's eye or in some manner conjures up an action on your part connected with one.

Should you find yourself in the act of pulling down a window shade, you will incline to do one of two things, against both of which the dream warns you: either to plan something with a friend or associate which will mean harm to a third person, or else to do something in company with another, that you would, for nothing in the world, confess you accused of it.

A dream of this sort should always be considered as a last guide post in the right direction. If you do not follow it, you will live to regret the day of your deed.

To roll up a window shade is an excellent sign. It proves that at the moment of danger or temptation you will find the right way to meet the situation and nothing will dissuade you from your plan of clean and upright living.

To find a window shade torn down is a sign that a plan which you have long cherished has been frustrated. Do not think, however, that this means any harm to you. On the contrary, you will be saved from your self and from bad associates through an accidental happening for which you should be truly grateful.

A dream of a torn down window shade is a sign that through your desire to keep the truth from those who are entitled to know it, you will do yourself more harm than you could possibly imagine.

A dreamer who sees herself hurrying through many rooms and observing the position of the window shades in each case, may rest assured that exciting days are in store for her. She will find herself in a turmoil of strange experiences.

If she remains in the house or in the same rooms, she will always remember the happenings of that period with regret or even remorse. If, however, she dreams that she steps out of the house or she climbs down a flight of stairs, she will emerge unharmed from the dangers many others could not have withstood.

It is an excellent sign to see a number of window shades rolled up on the floor. This indicates a change of home leaving one in which many things are lacking for another where everything is plentiful.

In the next chapter I will tell you of dreams of Looking for Addresses.

ARABIANS ARE PHOTOGRAPHED AT PRAYER IN DESERT

Arabs seated in prayer about the open air pulpit from which Koran is being preached. The opposition of the devotees shown above to having their picture taken while worshipping makes this photo a unique one. It shows the religious Arabs clustered about a pulpit in the desert of Algeria. The Koran is being preached by one of the leaders on the raised platform in the center. The hoists and flowing robes of the Arabs make the gathering a picturesque one.

TINKER BOB
 BY CARLYSLE H. HOLCOMB

JERRY THE JAY COMES ALONG.

Mr. Loggerhead was so sad that he knew not what he would do at first when Tinker Bob told him he would have to gather a bundle of food for Rufus the Tree Mouse. But you can guess that Rufus was glad, for it was a long hard journey for such a little fellow from his grandfather's house to the top of the tall tree where he lived. Rufus, however, thought it was better to go back and tell his grandfather, Old Mr. Rat, all about it, so that is just the thing he did.

Tinker Bob, King of the Forest, told Major Pole Cat to watch Mr. Loggerhead and see to it that he replaced the bundle of food. Now I want to tell you it kept the major very busy trying to keep Mr. Loggerhead in sight. Really, it was almost impossible, for he had to run all the time back and forth over the hills and into the valleys. Major became so exhausted that he had to rest and then he lost sight of Mr. Loggerhead. This worried him very much, for he was one that always did as he was told, and Tinker Bob knew that the major would follow Mr. Loggerhead till he dropped over.

"Thief, thief," came the cry through the Forest, and with it came a bright idea to Major Pole Cat. Thief, thief! It sounded closer and closer till the creature was just above the head of Major. Of course you know who it is—yes, Jerry the Jay Bird.

"Come down here," cried Major, "and come quickly." Well, it doesn't take Jerry very long to get anywhere if he thinks there is a bit of news to hear, and he was by the side of Major instantly.

"I want to tell you something that is very important," said Major. "Thief, thief," cried Jerry. "I haven't heard anything for so long that I'm wild to hear somebody's trouble." "Listen carefully, and you must not tell it to anyone in the Forest, either. I want you to watch Mr. Loggerhead the Shrike. Keep your eye on him at all times and if he starts to leave the Forest come to me with the message at once. For he must not leave the Forest till his work is done. Now tell me whether you will do this or not."

HENRY THE GREAT.

I have a hat that cost a pile—hat prices have soared—and I take off that treasured tile, and bow to Henry Ford. Like many patriotic gents, the people's cause I'd aid, unless 'twould cost no five cents—and then I am afraid. I'd gladly make the welkin ring demanding prices fair; wind doesn't cost me anything, and I have lots to spare. But when it comes to selling rhymes at any pre-war rates, why, I have use for all my dimes, like all the other skates. But Henry took a nobler view, and he had higher plans; he said, "I'll cut the price in two, on my nice tin sedans. What though it means a mighty loss? My spirit won't be grieved; the cause is good and coin is dross, when good may I achieved." So he indulged in slashing jags, cut prices many beans; and poor folk brought their shopping bags and bought his limousines. And other plutes beheld the sign, and their price schedules smashed, and merchant princes fell in line, and slashed, and slashed, and slashed. And while we still have breath and life, we must not this forget—'twas Henry took the pruning knife and an example set.

"I want to tell you something that is very important." "Tell it to no one or you will be in as bad as Mr. Loggerhead. Now go find him at once for I am tired out and I'm afraid he will try to leave the Forest, and if he does there will be trouble for more than one creature."

Jerry the Jay was off in a minute. The first fellow he met was Red Fox, and he was so anxious to tell Red Fox what he was going to do that he stopped him in his tracks. We'll see what happened next time.

To be continued.

RIPPLING RHYMES

PASTOR'S WISH TO DIE 'IN HARNESS' IS GRATIFIED

ERIE, Pa., Oct. 30.—Stepping from the pulpit at Park Presbyterian church, where he was attending the sixty-fifth anniversary of the church's founding, Rev. Robert S. Van Cleave, expressed a wish to friends that he might die in the service and not be retired.

A few moments later his head dropped down and he was found to be dead.

GOLF BALLS HAVE SENSE. THIS PLAYER IS CONVINCED

LONDON, Oct. 30.—People who don't believe that golf balls have some sense of their own would stand small show just now in an argument with a player on the Roundfords links, who made a badly-sliced tee shot, which carried the ball across the roadway into the open upstairs window of a house.

When the golfer went to retrieve the ball he found it on the mat of the front door of the house, waiting for him like a good child. After entering the bedroom it had bounded out through the door and rolled downstairs to the mat. The golfer says if it hadn't had sense it might have gone through a closed window, breaking the glass and then stuck in the room, making all sorts of possible trouble for him. As it was, the people of the house were none the wiser for the trespass of the golf ball.

No reason for the attack is known by Mr. Larkin.

SOUTH PLAINS COUNTIES WANT COTTON PICKERS

Special to The Times.
 STAMFORD, Oct. 30.—Distress signals have been hoisted at Lamesa and Pahola county seats of Dawson and Lybick counties, respectively, signalling the West Texas Chamber of Commerce free employment service to send them all the available cotton pickers of the country. The cotton crop of this section is just now beginning to open in earnest, with darningly few pickers on hand. The crop in Dawson county will be somewhat smaller than in 1919, due to early hail storms and August rains, while fields that of Lynn county will be about 70 per cent better than last year.

Farmers in the two counties are offering snappingly good inducements to all pickers, including houses, fuel, etc., together with \$2 a hundred pounds. The lint production per boll is much greater than it was in 1919, it is stated.

FIND AMERICAN FARMERS ARE BEST IN THE WORLD
 SACRAMENTO, Cal., Oct. 30.—American farmers are more efficient than those of any other country in the world. A comparison of the work accomplished per man on American farms with the output of other countries shows some surprising facts, says the California Agricultural Legislative committee.

The American farmer produces about three times as much as the farmer of European countries. He does this because he employs more labor-saving machinery than any other farmer and more efficient methods.

Thousands of Chinese girls are being taken to England to act as domestic servants.

SOAP MANUFACTURER SHOT; REASON UNKNOWN

William Captured, Shoots, Escapes, Recaptured and Escapes Again.

BUFFALO, Oct. 30.—City-wide search is being made to find a man who twice escaped from the police this morning, after an unsuccessful attempt upon the life of John D. Larkin, founder and President of the Larkin Company, nationally known concern and mail order house.

The man was discovered peeping into the Larkin mansion shortly after midnight, was captured and taken into the house where Mr. Larkin was reading in the library.

The mail order magnate started toward the man, seated in a chair. "What have you there in your hands?" Mr. Larkin asked.

Without a word the man pointed a pistol and fired several times, one bullet grazing Mr. Larkin's head. He then turned and fled.

The police hurried to the Larkin home and detectives found a man hiding behind a tree. They started with him for headquarters. As the auto reached the station the man jumped out and made another dash, bullets from policemen's guns flying thick about him. He escaped.

DEMOCRATIC ELECTOR IN MASSACHUSETTS DOESN'T WANT JOB

By Associated Press
 BOSTON, Oct. 30.—A complication in the vote of the Massachusetts members of the electoral college in the event that this state should go Democratic in the November election is possible. This is because of the inclusion on the ballot, among the Democratic candidates for electors for Cox and Roosevelt, of the name of Charles Francis Adams, treasurer of Harvard college and skipper of the yacht Resolute in the America's Cup races, who had requested that his name be withdrawn.

Mr. Adams said that he had been selected by the Democratic state convention without his knowledge, and that he did not wish to stand as a candidate for elector.

The vote of Mr. Adams, should he be elected, is in question. He has said that he understood an elector had a legal right to vote as he wished. Chairman O'Leary expressed the opinion that Mr. Adams, if elected, would vote in accordance with the apparent wish of the people who elected him.

Every Dollar you spend at home helps to build our roads, schools, churches and other public institutions. Your local merchant pays his taxes here to keep up these institutions.

Every dollar you send to the mail order house helps tear down the public buildings we have and keeps us from putting up new ones. The mail order kings do not pay their taxes here.

Every dollar you send to the mail order house helps tear down the public buildings we have and keeps us from putting up new ones. The mail order kings do not pay their taxes here.

Read your home merchants' ads in this paper and find the best place to spend your money—at home.

LAMB.
The hardest of all screen villains to play, according to actors who have undertaken such parts, is the bad man who, the audience is supposed to believe, is good. This sort of part is most capably handled by Arthur Nelson Millett, in "Drag Harlan," William Fox's latest starring vehicle for William Farnum, according to persons who have seen the picture.
Millett is seen in the role of a rancher who champions the cause of a helpless girl under the guise of friendship when in reality he is one of the mostpicable villains imaginable, even in motion pictures. Naturally his portrayal is unusually interesting to the spectator.
"Drag Harlan" is the announced attraction at the Lamb theatre for today and is said to give Farnum, the popular Fox star, one of the most magnetic parts he has had in pictures. The story was written by Charles Alden Seltzer and directed by J. Gordon Edwards.

OPERA HOUSE.
Divorce Laws—Are You Legally Married?
Playing at the Opera House Sunday, Monday and Tuesday.

A joint resolution has been introduced in Congress proposing an amendment to the constitution giving Congress authority to enact uniform marriage and divorce laws throughout the United States. The proposal of amending the federal organic law has been popularized lately, as witness the progress made by the equal suffrage amendment and the rapidity with which the national prohibition amendment was ratified. It well may be that objections, which only a few years ago would have proved potent against the invocation of this process to deal with the divorce evil, now will have lost their strength. The chances for adoption of the resolution by Congress and its acceptance by several states have assuredly been greatly improved.

It is not proposed to close the doors of relief against petitioners who with good cause seek severance from the marital tie. It would be a grievous thing to condemn innocent men and women to the bondage of life-long unhappiness in forced union with mates whose misconduct might present thoroughly sufficient causes warranting a judicial severance of the matrimonial bonds. That would be an act of wanton cruelty society has grown too enlightened and too humane to commit. There is a great difference, however, between the procedure proposed by the friends of this reform and the disgraceful conditions now existing. Divorce should be granted for certain clearly specified causes, and these causes should be the same in all states of the union, no other receiving recognition. Present requirements as to residence and sufficiency of cause, found in some states to reduce the holy state of matrimony into a casual alliance to be flung at pleasure.

HUBBARD VAGRANCY CASES TRIED TODAY

Two cases against Jimmie Hubbard, charged with habitual associating with women of immoral fame will come up for trial today before Judge J. H. Flew, clerk's court. Two cases against Pearl Rutledge, charged with being a vagrant is also set for trial today.

A special venire of twenty-four men have been summoned from which to choose a jury in the Hubbard cases.

Hubbard was arrested twice during the same night for the offenses of which he is charged. He was arrested again last night under a charge of abusive language and paid a fine of \$30.70.

AUTO SHOP FOREMAN CHARGED WITH SELLING STOLEN ACCESSORIES

Three magnetos and two automobile springs were taken from the Duggan-Brown automobile company this morning by detectives Pearl Hunt and Dick Rust after they had secured a confession from Oliver Wilson, now under arrest that the articles had been stolen. Albert Allman the shop foreman of the automobile company has also been placed under arrest.

The detectives say that Wilson has confessed that he stole the accessories and that the shop foreman sold them and the proceeds were divided. The owners of the garage are in no way connected in the affair.

Two of the magnetos are the property of the Sun Oil company, the other belongs to the Gladstone company, and the two springs to the Panhandle Oil company.

WRAITHS TO RISE FROM MAW OF GRAVES AND STALK ABROAD TONIGHT ON MISTIC HALLOWEEN

Tomorrow night is the regular night when the ghosts are supposed to arise out of their graves over the land. But because Halloween comes on Sunday the human spirits will parade tonight.

Halloween is the night before all Saints Day. One myth connected with the day is that if a lady sits on the steps of a church just at the ghostly hour of 12 o'clock her lover will come to her in a vision. It is also the night when the young of the country do innocent little tricks like removing the hubs from wheels of vehicles and they call it the work of ghosts who were on parade. Signs are often exchanged by these earthly ghosts. It is not uncommon to see a "for sale" sign hung on the police station or an undertakers' advertisement hanging from

the city hall on the morning after Halloween night. In Ranger, however, these innocent amusements will have to be dismissed with. Chief of Police Cooper has issued a warning that all such ghosts are liable to languish in the bastle from which steel walls even a ghostly wraith cannot escape without paying the price of \$11.70.
Monday night many social events have been planned for the occasion. Perhaps the largest event will be staged at the Summer Garden. Here will be staged the Black Cat ball. All guests will be masked and will come in costume. The masks will be furnished at the entrance to the dance hall.
Private dances over the city have also been planned.

HERO MEDALS TO TEN PERSONS WHO LOST LIVES

By Associated Press
PITTSBURGH, Oct. 30.—Ten persons, some of them boys and one a girl stenographer, lost their lives in deeds of heroism which today were recognized by the Carnegie Hero Fund commission at its regular fall meeting here.

Thirty-three medals were awarded by the commission which, in addition to minor financial appropriations, recognized seven heroic acts by appropriating \$10,000 for education of those responsible. An additional \$10,000 was applied for the liquidation of indebtedness and to other worthy purposes for heroes.

The young woman who lost her life was Karin S. Ludenow, 19 years old, of 12 Cradwick avenue, Hartford, Conn. She was drowned in the Farmington river while attempting to save Evelyn M. Anderson, July 5 last. A silver medal was awarded to her father.

To the others who lost their lives bronze medals were awarded in each case. They were:

LOCAL SHRINERS TO HELP FORM SHRINE CLUB AT EASTLAND

The Shrine club of Ranger will go to Eastland Tuesday night to help organize a similar club in that town. The outgoing delegation will leave Ranger on the 7:20 Sunline Special and will return on the 11 o'clock train.

All local Shriners are asked to be a part of the delegation.

TWIN MOTHERS, 70, HAVE HUSKY BIRTHDAY PARTY

CHICAGO, Oct. 30.—The twins had a birthday party. Seventy-seven grandchildren and their wives and husbands came for the party of the twins, Mrs. Mary E. Stuber and Mrs. Cecelia Shea, who were celebrating their seventieth birthday.

Each is the mother of seven children and each is a widow. On Calumet avenue where they live they are known as "the twins."

The membership of the American Red Cross is more than ten million. This is more than twenty times the pre-war membership of the society.

Denver Cemetery Is Headquarters for Booze Clique

DENVER, Oct. 30.—Among the tombstones of Riverside cemetery, the headquarters of a huge bootlegging ring have been discovered, the Denver police announced Tuesday.

Where the white shafts tower spectral-like against the beams of the moon, a clique of leaders gather to trade in moonshine to fix the price of booze for the underground trade, like the coterie in Wall street rules the price of exchange on the markets of the world, the police declare.

New York City has a wall street with a river at one end and a grave yard at the other.

But Denver goes Wall street one better.
Stock Exchange in Cemetery.
She has a stock exchange in a cemetery.

For weeks the police have searched hootleg trade. Large stores of "white mule" and other illicit liquors have been going the underground route, coming to the surface in stagers on the Denver streets, who, when arraigned in police court, refuse to reveal the source of their supply.

At last the police were made suspicious by the reports of motorists along the

Brighton road, who declared they had seen darkened shadows flitting among the tombstones in the hours of early mornings.

"There isn't the least doubt but what sales are made, wholesale operations are conducted within Riverside cemetery," said Police Sergeant James Jones of the stockyards station Tuesday. "While my men never have seen the liquor exchanged, we have sufficient evidence to reveal the plot."

Most of the time Sergeant Jones said, the liquor brokers muffled the motors of their cars while stealing to their spirituous rendezvous. The "bulls" and "bears" of the cemetery exchange are strong on secrecy. A few times, however, they are said to have left the lights on their automobiles burning while conferences went on.

When the price of moonshine soars mysteriously in Denver, the reason can be traced to the "board of directors" sitting in the cemetery, the police say. Likewise, when the quotations take a drop, the cemetery plotters are declared to be responsible. For it is a fact well known to the bootleg squad that an underground system keeps the various "dealers" informed and they increase or decrease their rates uniformly.

Automobile loads of booze are said to have been exchanged at Riverside cemetery while only the moon looks on, for who would suspect such a transaction in that quiet, holy place?

NEW-BORN BABE FOUND IN HOTEL BUREAU DRAWER

NEW YORK, Oct. 30.—A newly-born baby was found yesterday in a bureau drawer in a room of the Grand Hotel, Third and Hudson streets, Hoboken. Police who investigated said they learned that a well-dressed couple registered at the hotel late Friday night as Mr. and Mrs. Kenney of Philadelphia and were assigned to the room in which the infant was picked up.

According to the hotel authorities the man came downstairs in a great hurry at 10 o'clock yesterday morning and asked to be directed to a good doctor. He was told where to go, but returned after a few minutes alone. The couple departed yesterday afternoon.

State-Rice Game Will Clarify Title in the Southwest
Three Texas Teams Have Not Yet Met Defeat, Oklahoma Teams Eliminated.

AUSTIN, Oct. 30.—Two football squads of the Southwestern conference who have not met defeat this season clash tomorrow when Texas University plays the Rice Institute at Houston, and the third undefeated members of the conference, Texas A. & M., will meet another conference member, Oklahoma A. & M., who was defeated by Texas U. 21 to 0.

The game between the Texas and Oklahoma Aggies is expected to give open play on the Texas University-A. & M. game on Thanksgiving day, as the score of the former game will give the first real basis for comparison between the two big Texas conference members.

Rice also has been going strong this season, defeating Baylor 28 to 0, while Baylor defeated Oklahoma A. & M. 7 to 0. The fact that Texas U. defeated Oklahoma A. & M. by only two touchdowns more than did Baylor, which previously had been defeated by four touchdowns by Rice, gives a comparison of the relative strength of the Longhorns and the Rice Owls for tomorrow, and, on the percentage basis, would indicate that Rice has the stronger team.

State Relies on Ends. However, Texas football fans remember that Rice went through an undefeated season and kept their goal line unbreached last season until they met Texas U. and went down under an overwhelming score, and in Austin fans are contending over the number of points Texas will beat Rice instead of over who will be the victor.

The star Texas backfield had the string line with McCullough, an all-A. E. F. man, on one end, while the other end is flanked by Hart, captain, who has been showing almost as well as McCullough, seems to give the Longhorns the edge on the Ows. Watson and Elam have been consistently spectacular this season in their games, and fans declare that the only hope Rice has is to keep the line so tight that they cannot slip through, and, at the same time, be on guard against Watson's passes to McCullough and Hart, which contributed considerably to the defeat of Oklahoma A. & M.

Tomorrow's games will have a decisive effect upon the championship race in which four undefeated teams remain. If Texas A. & M. is defeated by Oklahoma A. & M. both teams will be practically out of the running for the title. If the Texas Aggies win, the winner of the Rice-Texas clash will be between them and the coveted goal. The Rice-Texas game is practically certain to eliminate one contender for the championship, as the leading teams in most of the past seasons have been undefeated. Phillips, an Oklahoma member, is considered to have been practically eliminated by the 47 to 0 defeat administered by Texas A. & M. If the Texas Aggies and the Longhorns both are victorious today, the Texas U-Texas Aggies game in Austin on Thanksgiving is likely to be the decisive game in the conference race, as it has been for several seasons.

Trinity Painted Ball TO OFFSET CAMOUFLAGE
By Associated Press. DALLAS, Oct. 30.—The time-honored football ruse of wearing jerseys with imitation pigskins sewed on the chest, brought into prominence years ago by the Carlisle Indians, lost its effectiveness in the game between Trinity university and the Texas Christian university last Saturday. The camouflage has been ruled out in a number of conferences for several years. When Coach Goodman of the Trinity eleven saw the uniforms of the opposing team, he smiled and made no protest. A few minutes later he chuckled as he tossed the ball on to the gridiron for the kickoff. It had been painted snow white.

The T. C. U. men won the battle but they worked hard for their victory.

HALF-MILLION DOLLAR GYM PLANNED AT TEXAS
By Associated Press. AUSTIN, Oct. 30.—Agitation for a \$500,000 gymnasium and athletic field for the University of Texas has been renewed and tentative plans for the combination have been completed. They call for a building large enough to allow for expansion. It would contain full gymnasium equipment, locker rooms, trophy rooms, offices, swimming pool, handball court, etc. An athletic field of about 50 acres with three gridirons, six baseball fields, twenty tennis courts, a mile track and a stadium with a capacity of 15,000 is planned.

L. T. Belmont, director of physical training for men, said that there is about \$40,000 in the treasury as a nucleus around which to build the needed fund.

21-LEGAL NOTICES. PLANS WANTED. Notice is hereby given that on Nov. 5, 1920, at 2 p. m. in the office of the mayor of the City of Ranger, Texas, plans and specifications for a city-county hospital will be received. Dated Oct. 28, 1920. Signed: M. H. Hazaman, Mayor; C. R. Starnes, County Judge.

General Townshend, Hero Kut-el-Amara, Will Join Wrangle

FREDERICK, Md., Oct. 30.—When Sir Charles Vere Townshend, a hero of ten campaigns and one of England's most popular veterans, has resigned from the British army in order to make effective his protest against any compromise with the Russian bolsheviks. He has tendered his services to General Wrangel and will join him in the struggle to reconquer Russia from the rule that now oppresses that country. He is nearly sixty but as full of fight and spirit as ever.

General Townshend comes of good military stock, being a descendant of Lord Townshend, who fought with Wolfe at Quebec. His father was the late Lord George Townshend and his cousin is the sixth Marquis of Townshend.

In the recent war Gen. Townshend distinguished himself in Mesopotamia, where acting on his own initiative he conquered the country. He fought and won the battle of Kurna, Amara and Ctesiphon, as commander of the Sixth division. Then, acting under superior orders and against his personal judgment, he occupied Kut-el-Amara with 15,000 men, and was besieged by a force of 20,000 Turks officered by Germans. He held out for five months, when he surrendered by order of his government. His force had been reduced to 7,000, rations were cut to five ounces of flour per day and his men were dying with starvation and disease at the rate of twenty a day.

While a prisoner in Constantinople for more than a year, he made three unsuccessful attempts to escape. Toward the end of the war, while still a prisoner, he arranged details for the surrender of Turkey.

His military career has been filled with honors for gallant service. Entering the Royal Marines in 1884, at the age of 20, he became a major in 1895, a lieutenant-colonel in 1904, a brigadier general in 1909 and a major general in 1911. He was with the Royal Fusiliers in 1900 and with Shropshire Light Infantry in 1908.

In Africa and India. He served in the Sudan expedition at Suakin with mounted infantry, in the Nile expedition with the Guards' Camel Regiment and in the Desert Column action of the Abu Klea and Gubat in 1884 and 1885. For this service he was mentioned in dispatches and received a bronze medal with two clasps and a baronetcy. A medal with a clasp was awarded him for his work in the Hunza Nagar expedition in 1891-1892.

During the siege of the Chitral fort he commanded the garrison, was thanked by the government of India, commended in dispatches, received a medal with two clasps and was breveted a lieutenant-colonel. He was mentioned in dispatches and received a clasp for his Atbara and Nile work in 1898, where also the medal of the Distinguished Service Order was conferred upon him. He served through the Boer war in 1899-1900 and commanded a division of the territorial force in 1912-13. His gallantry in Mesopotamia in 1914, 1915 and 1916 won him commendation in dispatches and a knighthood in the order of K. C. B.

Girl Walks 2,000 Miles. HURON, S. D., Oct. 30.—Miss Clara Johnson, a former Huron girl recently returned to Minneapolis after a vacation of two months, which she spent on a walking trip, covering 2,000 miles. She left Minneapolis July 13, starting on her walk on foot and traveling 2,000 miles in just sixty days, never during the time traveling on a conveyance of any kind. Dressed in walking clothes and carrying only a small box containing her toilet articles, she travelled in South Dakota, North Dakota, Wisconsin, Illinois and Iowa. She arrived home safe.

WM. WEIGEL, of Seattle, who says he had no idea anything on earth could do for him what Tanlac has done. Declares he has gained 30 pounds and that his health has been completely restored.

"I had no idea that anything on earth could do for me what Tanlac has done, and I just feel like telling everybody I see about this wonderful medicine," said Wm. Weigel, 2602 Third Ave., Seattle, Wash., with the widely-known New Washington hotel. "When I began taking Tanlac," continued Mr. Weigel, "my condition was so rundown that I could not work. I was never hungry, and my stomach was so disordered that the little I forced myself to eat disagreed with me. My kidneys bothered me, and the pains across my back were so severe that when I tried to bend over and straighten up again it would nearly kill me. I had splitting headaches, and such dizzy spells at times I would almost topple over. Then to make matters worse, I began to suffer with rheumatism in my legs. I was nervous, weak and listless, was rapidly losing weight and strength and seemed to be going down hill every day. "I began to improve after the first few doses of Tanlac. I seemed to feel better each day, as I continued the treatment. In a few weeks I was like a brand new man. Now, I have a big appetite, eat anything I want, enjoy every mouthful and I don't suffer in the least afterwards. I sleep like a child every night and feel just fine on arising in the morning. I haven't a pain about me, my strength has been wonderfully increased and I have actually gained thirty pounds. "If anybody doubts this statement, just tell them to see me and I will give them the names of some of my friends who will verify every word of it." Tanlac is sold in Ranger by Phillips Bros., and in Eastland by Butler Drug Co.—Adv.

OIL

General Townshend, Hero Kut-el-Amara, Will Join Wrangle
WILLIAMSON Well Makes 800 at Top of Sand

Wichita Falls Field Northwest of Ranger; Top of Sand is Barely Touched.

With an initial production of 800 barrels of pipe line oil, the Williamson No. 1 of the Eldorado Oil and Gas company blew itself in Wednesday night. The well is located eight miles northwest of Ranger and is in semi-wildcat territory. The flow is coming from the Ranger sand.

The well was drilled to the pay several days ago and shut down. Wednesday night it blew itself in. Yesterday representatives from the majority of the oil companies visited the lease. It is expected that this discovery will be the beginning of considerable activity in that section.

Increased production is expected to follow deeper drilling.

ELIASVILLE WELL EXTENDS PROVED AREA

Special to the Times. ELIASVILLE, Oct. 30.—G. L. Donnell No. 2, well, two miles west of Eliasville, is standing with 1,000 feet of oil in the hole. The pay, which was struck at a depth of 3,200 feet, was drilled in twelve feet when the tools were lost. As soon as the fishing is completed the well will be finished and promises to be a big producer. This well is of great importance to oil men as it proves up considerable territory in the Eliasville pool.

UNIVERSITY TO RESTORE MASTER OF LAWS DEGREE. AUSTIN, Oct. 30.—Preparations are being made by the faculty of the school of law at the University of Texas to re-establish the graduate courses in law leading to the Master of Law degree, according to Judge J. C. Townes, dean of the school. These courses have not been offered since the war period. It is probable that they will be given in the next long session. A committee is at work on the plans.

COLLEGE STATION, Texas, Oct. 30. The act of the Mid-Continent Oil & Gas association in giving to the A. & M. College of Texas an annuity of \$12,500 to be used in paying for a lectureship on the oil industry in the college and their announced decision to furnish summer employment in the oil fields and in the refineries during the summer vacations to all students of the college taking the courses in industrial chemistry is in fact a recognition of the importance of chemistry and chemical engineering as taught in the A. & M. college by the oil industry in Texas. Dr. C. C. Hodges, professor of chemistry and chemical engineering, announced on his return from the meeting of the association held in Wichita Falls last week.

INTEREST IN STATE ELECTION CENTERS ON SHOWING MADE BY FERGUSON'S AMERICAN PARTY

By Associated Press
AUSTIN, Oct. 30.—Several features
operate to create interest in the general
election next Tuesday and raise it above
the perfunctory affair similar elections
have been in Texas for many years past.
No one has ventured to predict that
Texas, one of the most solid states of the
"solid South" will fail to elect Demo-
cratic presidential electors, and only the
enthusiastic opponents of the Democratic
party have declared there is a chance of
defeating any of the Democratic nominees
on the state ticket. However, some
political observers are inclined to believe
that American party candidates may
gain a few seats in the House of Repre-
sentatives and elect a few local officers
in certain localities. This would be sig-
nificant, as both branches of the legisla-
ture have been solidly Democratic, with
the exception of one Republican senator,
since the decline of the Populist party
in Texas.

G. O. P. Shows Little Strength.
There have been no considerable in-
dications that the Republican party will
show an unusual strength, according to
political observers. On the contrary, the
fact that the party is split, and has two
state tickets, and in some places two lo-
cal tickets—the Republican party, the
Black and Tan Republican party, they
are listed on the ticket—will tend to di-
vide the block of Republican votes.

Republican congressional candidates
have not been nominated in all districts,
and the Republican campaign has cen-
tered in two districts—the ninth and the
fourteenth—where pre-election claims of
election have been made. In these dis-
tricts J. J. Mansfield and Carlos Bee,
the Democratic incumbents, are opposed
by J. G. Rudgeley and Harry Wuzbach,
respectively. The Republican claims also
list as "doubtful" the sixth congressional
district, where Rufus Hardy, the Demo-
cratic incumbent, is opposed by Dr. D.
M. Merrill.

The fifth party on the ticket—the So-
cialist party—never has developed con-
siderable strength in Texas, their vote
at the last general election being less
than 2,000.

Interest in American Party.
The main subject of speculation among
politicians is the probable strength of the
American party, which has been organ-
ized since the last general election.
James E. Ferguson, former governor of
Texas, who was impeached and who later
was defeated by slightly more than two
to one by Governor W. P. Hobby in the
Democratic primary two years ago, heads
the ticket as candidate for President.
Politicians concede the American party
a considerable portion of the support
that went for Ferguson in that primary,
and some of them declare that the Amer-
ican party's strength is largely com-
posed of Mr. Ferguson's personal fol-
lowing. Both Mr. Ferguson and T. H.
McGregor, the party candidate for gov-
ernor, are opposed to national prohibi-
tion and woman suffrage.

The prohibition amendment to the
state constitution had considerable oppo-
sition and the woman suffrage amend-
ment to the state constitution was de-
feated less than three years ago. The
amount of strength the American party
will draw from opponents of these issues
is problematical, the political observers
say. American party supporters point
to the comparatively light votes in the
Democratic primaries this year as an in-
dication that former members of the lat-
ter party stayed away from the polls in
order to be free from the pledge to sup-
port the nominees of the party.

Approximately a million voters in Tex-
as are eligible to participate in the gen-
eral election, according to estimates of
officials of the state comptroller's depart-
ment, but for a number of years past
only about one-fourth of the qualified
voters have entered the general elections,
which have, in practically all instances,
been merely a matter of form to confirm
action of the Democratic primaries.
However, this presidential election

year, the appearance of the American
party, and the fact that women are
voting in the general election for the
first time, are expected to increase the
volume of the vote.

Around 1,000,000 Voters.
Approximately 900,000 poll taxes and
exemptions have been reported to the
comptroller's department, and officials
estimated that former soldiers who may
vote upon their discharges, and women
who paid poll tax under the law passed
by the last special session of the legisla-
ture, will bring the number to 1,000,000.

Press reports from various sections of
the state indicate that the woman vote
will be comparatively light, as a number
of them failed to pay their poll taxes be-
fore Feb. 1 of this year, and failed later
to take advantage of the new allowing
them fifteen days in which to pay poll
tax after the federal woman suffrage
amendment was ratified.

The vote for governor by parties in

Texas at the general election preceding
this one was: Democratic, 148,982; Re-
publican, 26,713; Socialist, 1,000; total,
277,355, or approximately one-fourth of
the voting strength of the state. How-
ever, campaigns of all parties following
the Democratic primaries have been more
active this year than formerly, owing to
the fact that the American party was
in the field, and this in connection with
the fact that a constitutional amendment
which also has been supported by an in-
tensive campaign, and presidential elec-
tors are to be voted upon, is expected
to bring out a larger vote in proportion
this year.

Texas has twenty presidential and vice
president electors—two at large and
eighteen by districts.

No Texas national senators will be
voted upon, as the incumbents are both
holders. Eighteen congressmen, two at
large, and sixteen by districts, are to be
voted upon.

These amendments to the state consti-
tution are also to be voted upon, the
school amendment attracting the most at-
tention. It would remove the constitu-
tional limit of taxes which may be levied
for school purposes and allow school dis-
tricts the privilege of voting any school
tax they desire upon themselves.

The other two amendments would give
the legislature power to fix salaries of
all state, district, county and precinct
officers; and would authorize towns of
5,000 or less population to vote a one
and a half ad valorem tax.
