SAN ANTONIO, Sept. 27.—Tom Stacey, chief special agent for the Southern Pacific lines in San Antonio, is dead and Mrs. Stacey is near death as result of a shooting at their home early today.

Stacey died shortly after an operation for a bullet wound through his body. Mrs. Stacey also has a bullet wound through her body.

Two pistols were found at the Stacey home. One shot had been fired from the smaller pistol and three from the larger. Bullet holes were found in the walls and a window of the kitchen.

were found in the walls and a window of the kitchen.

The only information officers were able to obtain was given by neighbors who said they were attracted by cries from Stacey who said he was shot. They found him lying on the front porch. Mrs. Stacey was found on a bed at the rear of the house.

Stacey had first telephoned a hospital asking for a doctor and declaring he was shot. The operator notified police.

Authorities Are Investigating F Postal Robbery

AUSTIN, Sept. 27.—Robbery of a postal car on the Missouri Pacific railroad en route from St. Louis to San Antonio is being investigated by postal authorities.

It is supposed the ear was entaged.

It is supposed the car was entered and declared very delicious by the

between Texarkana and Longview Junction. The robbers are thought to have been searching for possible packages of money en route to banks in the cotton buying districts.

A lock on the car had been broken open and several packages were rifled. These were removed when the train reached Austin Monday and a check is now being made in an effort to learn what was taken.

And declared very delicious by the crowd.

Mrs. Chitwood stressed the importance of making perfect pie crust and pastries. In the course of her lecture she said "Pie crust is made light and flaky by the expansion in the heat of the oven, of cold air incorporated between the particles of shortening and the flour that make the paste. In mixing the paste, there fore, the object is to incorporate as fort to learn what was taken.

the paste. In mixing the paste, there fore, the object is to incorporate as much air as possible, and once having incorporated it, not to press it out by too heavy handling. "Air is incorporated into pastry by cutting the shortening into the sifted flour and salt. The ordinary way of working the ingredients with the fingers warms the shortening so that it absorbs the flour, thus eliminating all air space. The Star-Telegram, Record-Telegram and the Dallas News will send staff men to Ranger on Oct. 18, to remain here all during the oil jubilee, it was announced this morning on the return of W. C. Hickey, Raymond Teal and Howard Gholson from Dallas and Fort Worth.

George Hunter, general passenger agent of the Texas & Pacific railroad, when interviewed in regards to rates, promised reduced rates on the Texas & Pacific and all associated lines.

Theatres and theatrical men were visited in regards to booking some high class vaudevilel stunts for the jubilee and a number of other matters were attended to that will go toward putting over the jubilee in the style expected of it.

The Star-Telegram, Record-Telegram and the ablass News will send that it absorbs the flour, thus eliminating all air space. To prevent this, the dry ingredients, utensils and water for pastry always should be cold.

Like Mother, Like Daughter

So successful has Mrs. W. H. Pasell of Oklahoma City, Okla., been in a career as a working woman that her 18-year-old daughter Ferrishas forsworn society life to follow the painting trade. Mrs. Pasell for several years has "lived in overalls," starting with a truck garden, buying and renting houses, then starting a motor car painting business. Mother and daughter are shown above.

Enjoy your food

as it nourishes your body

If your appetite is not keen you owe it to yourself to take S.S.S. regularly before each meal. It will give you a good appetite.

In these days of fast competition, only full-blooded, robust, healthy people can keep to the front, and success comes to those who have the snap, vigor and magnetism that go with a wholesome, healthy life.

Don't despair because others forge ahead of you. Start right now to regain the health which will help you progress. A hearty appetite will restore your energy, build you up and give you "pep."

TATHAT is the quality that Mario Chamlee, Florence Easton, Marie Rappold, Reinald Werrenrath, Giuseppe DeLuca, Fritzi Scheff, William Hodge, and other famous singers, actors, broadcasters and public speakers have found that makes LUCKY STRIKES delightful and of no possible injury to their voices?

For the answer we turned to medical men and asked them this question:

Do you think from your experience with LUCKY STRIKE cigarettes that they are less irritating to sensitive or tender throats than other cigarettes, whatever the reason?

11,105 doctors answered this question "YES."

Consider what these figures mean; consider that they represent the opinion and experience of doctors, those whose business it is to know.

Reinald Werrenrath,

Famous Baritone, writes:

In my concert work, I must, of course, give first consideration to my voice. Naturally, I am very careful about my choice of cigarettes as I must have the blend which is kindly to my throat. I smoke Lucky Strikes, finding that they meet my most critical requirements.

Nothing Too Large, Nothing Too Small

No Difference of Opinion When Supremacy is so Outstanding

In its repertoire of brilliant abilities, the New Hudson Super-Six asserts its supremacy in vivid performance facts that stand free and clear of opinion or debate.

Here is a new power in motordom—totally different in development and expression-totally new in range and efficiency-the smooth and mighty power of the steam engine delivered with silky ease and vivacity.

The basis of this great Hudson capacity is a new companion invention to the Super-Six principle which turns waste heat to power. Together they combine the highest efficiency in power generation and transmission ever achieved within our knowledge.

In the new Hudson motor, spark

knock heretofore characteristic of

the high-compression motor is eliminated, and ordinary gasoline gives the performance results sought through special and higherpriced fuels.

It is receiving the greatest public reception in Hudson history, because in all ways it is the greatest Hudson Super-Six ever built.

WHOLESOME Fried Foods -without smoke or odor

TATURALLY when it comes to frying, the most important ingredient is the fat, so I am going to tell you why I

In the first place, Crisco fries the food to perfection before it is hot enough to smoke. So there will be no smoke or unpleasant odor in your kitchen or the rest of the house-no smoke to heat your face while you are frying and smell up your hair and clothes.

Another thing, when food is fried in plenty of Crisco, it is beautifully fried with a crisp, golden brown outside and a tender, digestible inside.

Crisco is odorless, too, and does not carry the taste of one food to another, so you can use the same Crisco over and over again for frying different things.

Crisco Cheese Balls

2 cups grated American cheese

1 teaspoon salt
1/2 teaspoon Worcestershire Sauce
4 egg whites well beaten

Mix in the order given. Form into balls lightly with the fingers. Make them about the size of a small egg. Then roll in bread crumbs using fresh bread. Drop in deep, hot Crisco (375 to 385 degrees F.) or when a piece of bread browns in 40 seconds. Fry intil a golden brown. Drain on soft paper and serve hor.

This recipe will make ten balls.

Crisco Potato Cakes

These cakes are delicious with chops or cold meat and it is a good way to use left-over mashed potatoes, or even to cook more than enough and save cooking potatoes the next

To every three cups of cold mashed potatoes add one well beaten egg. Shape into flat cakes about one inch thick. Put enough Crisco into a frying pan to cover the bottom well. When hot, put cakes in and brown on one side. Add more Crisco if necessary. Turn with pancake turner and brown on the

Three cups of potatoes will make nine or ten cakes.

Crisco Apple Fritters

2 cups pastry flour 1 teaspoon baking powder 1 teaspoon sugar 1/4 teaspoon salt melted Crisco ½ cup milk
6 ripe apples

Peel and core apples. Cut in quarters. Beat eggs, add Crisco, then milk, then all dry ingredients sifted together. Dip each piece of apple in the batter and fry until soft in deep kettle of Crisco heated to 375 to 385 degrees F., or when a small piece of bread browns

Crisco Apple Griddle Cakes

2 cups bread broken 2 tablespoons in pieces
2 cups hot milk
2 eggs separated
1 tablespoon Crisco
1 cup flour

baking powder
1 tablespoon sugar
1 teaspoon salt
1 cup chopped ripe
apples

Soak the bread and milk together over night or until soft. Then rub to a paste. Add the Crisco, sugar and salt; then the egg yolks beaten until light. Add flour and baking powder sifted together. Fold in the stiffly beaten egg whites. Stir apples into the batter with a fork. Drop by spoonfuls on Criscoed griddle. Cook until partly done and then turn and finish cooking. Turn only once.
