KELLOGG TAKES FORMAL CHARGE SECRETARYSHIP

New Cabinet Member Expected To Follow Out Hughes State Policies.

By LUDWELL DENNY, United Press Staff Correspondent. WASHINGTON, March 5.—Frank B. Kellogg hung up his hat in the secretary of state's office today, faced a pile of important documents on the desk, cast a longing glance out of the window to the Washington monument and the Potomac, and then set to work.

He started the diplomatic wheels of the new administration in motion by calling in Under Secretary Joseph Grew, the four assistant secretaries and various departmental heads, and inviting them to remain and help him as ably as they had served with Secretary Hughes. They accepted.

TERM THOUGHT BRIEF. Although it is generally believed here that Kellogg accepted the chief cabinet post only for a year, with the intention of then retiring from public life, he gave no intimation of this today when he received his staff and the press.

Kellogg in appearance and temperament is unlike his vigorous and intellectually militant predecessor, who for four years conducted the foreign affairs of the nation almost single-handed. Apparently the new secretary intends to let President Coolidge share much of the burden of initiating policies and making critical decisions.

CRITICISM DIES DOWN. Criticism of Kellogg has died down since the announcement of his appointment in January. His record as ambassador during the last year to Great Britain has been one of quiet achievement, his critics admit.

He is credited with ironing out many of the difficulties between the various political delegations and the bankers at the London conference, which launched the Dawes plan for collection of German reparations and European stabilization. At the recent allied financial conference to allocate reparation payments in Paris, he headed the American delegation which overcame allied objection and secured 2 1/2 per cent of the Dawes fund to cover American war claims against Germany.

PENDING PROBLEMS. Many major problems of foreign policy have been allowed to pile up by Hughes during the last two months, pending the arrival of the new secretary. Though the president is known to be giving careful personal attention to these matters, Kellogg is expected to go over the latest department files on these problems and, on the basis of his recent European experiences, advise Mr. Coolidge as soon as possible.

Among the more important are:

1. The president's proposed Washington arms conference, which is expected to meet this year, probably in the autumn.

2. The debts owed this country by France, Italy and other allies, which have not yet funded.

3. Relation of this government under the Paris agreement and Dawes plan to alleged foreign entanglements connected with allied military occupation of Germany and contemplated "security pacts."

4. RUSSIAN RELATIONS. The appointment of a commission to negotiate with Moscow, leading to probable recognition.

5. Far Eastern problems growing out of the civil war and anti-foreign sentiment in China, Japanese suspicion of the United States, the potential Asiatic alliance of Russia, China and Japan, and the unratified Far Eastern treaties of the first Washington arms conference.

6. Latin-American questions, including withdrawal of American marines from Haiti and Nicaragua, the treaty with Panama, and regularization of relations with the revolutionary government of Cuba.

7. LEAGUE OF NATIONS. Relation of the United States to international activities of the League of Nations, including its proposed disarmament conference, its conferences on control of traffic in white slaves and arms hitherto participated in by America, and its opium conferences from which this country has just withdrawn.

FOLLOWS HUGHES POLICY. With the exception of a changed Russian policy, leading to eventual recognition, the Coolidge-Kellogg foreign policy is expected to follow along the general lines set by Hughes. The increased power of William E. Borah, as the new chairman of the important senate committee on foreign relations, however, will have an important effect on these policies, it is believed.

TRAFFIC COPS WILL GET YOU

County Officers Robason and Hammet Start Hunt for Reckless Motorists

Stringent enforcement of traffic regulations will be the rule of County Officers Robason and Hammet, according to a statement from them yesterday. Motorists who have been contemptuously disregarding the rights of others to drive on the highways and on the Main street of Ranger will be pleasantly surprised to have a motorcycle roll up alongside them and the quiet command to "pull up" given them by an officer.

The officers will work Ranger on different occasions and the law violators will not know just when to expect the officers on duty. Plans are now being discussed by the traffic police where they will work Ranger and other Eastland county towns at different times.

Police Commissioner Dr. C. O. Terrell recently extended an invitation to the county officers to include the city of Ranger in their work of enforcing state highway laws and the city traffic regulations.

COLLEGE USES FROGS FOR 'MUSCLE WORK'

DENTON.—If Browning drew inspiration from the rats of Hamelin of town, his poetic bent would find decided interest in the huge collection of frogs in the biology laboratory at the College of Industrial Arts. In the same box where many a hapless kitten has awaited execution, scores of long, lean, jumpy frogs, short squat, retiring frogs, black frogs, striped frogs and all the other kinds are awaiting the executioner's table.

They were brought from Louisiana for muscle-nerve work in the physiology classes and will be used in kymograph work.

PROMINENT BUSINESS MEN ALLEGED AUTO THIEF RING LEADERS

By United Press. ARDMORE, Okla., March 5.—Arrest of five leading business men of Ardmore and Wilson hourly expected today, promises to uncover the most daring band of automobile thieves ever known to the southwest.

Warrants charging receiving stolen property were to be served today on William Frame, attorney; Dr. W. M. Wilson, physician; Harry Sices and Ben Wortham, garage owners, and Fred Curtis, garage owner at Wilson.

Warrants for the men followed confession of Candy Renfro and B. T. Woodward of Grandfield, Texas, two of the eight men alleged auto thieves arrested Tuesday. Their confessions implicated the business men as members of the ring. Woodward and H. H. Campbell of Osceola, Texas, were brought here from Texas yesterday by Sheriff London. Raymond Garrett, son of Buck Garrett, former Ardmore sheriff, also is being held for auto theft.

Eighteen alleged stolen cars were recovered in Dallas.

AMNESTY BILL IS HALTED BY HOUSE ACTION

Advancement of "Ferguson's Vindication" Movement Is Apparently Blocked.

By United Press. AUSTIN, March 5.—Advancement of the Ferguson amnesty bill upon the calendar apparently was defeated today and the measure will have to await its turn for consideration by the house, while open efforts were under way today to bring the thirty-ninth legislature to an end in less than two weeks.

In a series of skirmishes that kept the house on the alert throughout Wednesday afternoon, opponents of amnesty defeated attempts to give the measure an early or priority consideration. Proponents of amnesty showed a majority of about 15 votes, but could not muster the necessary two-thirds votes to set the amnesty bill as a special order of business.

An attempt by amnesty proponents at the stroke of the afternoon session to table subject to call bills on the calendar ahead of the amnesty measure was blocked after two bills had been tabled. Charges were hurled at amnesty opponents that they were deliberately attempting to keep the bill from the house, while counter-charges were made that amnesty proponents were opposing legislation necessary to the state in the interest of a one-man bill.

The house today ended the skirmish by voting, 75 to 68, against a motion to set the amnesty bill as a special order for this afternoon.

Early Adjournment Prospect Shuts Off House Highway Probe

By United Press. AUSTIN, March 5.—Prospect of an early adjournment of the legislature virtually closed the house investigation of the state highway department today, according to Representative John T. Smith, leading investigator.

"Inasmuch as the end of the legislature is in sight, there will probably be no additional testimony taken, by the committee," Smith said in a statement read into the committee's record at last night's session. Core drillings may be taken upon some highways which have been under investigation, Smith said, to test the thickness of the paving and determine if it is up to specifications, and the investigation may be resumed in the event of a special session of the legislature.

Since adjournment of the thirty-ninth legislature has not yet been determined. The house defeated a resolution Wednesday to adjourn finally March 14, after having rejected to amend it by making March 21 the adjournment date.

SOLONS WOULD STOP LOBBIES

Legislator Presents Measure to Oust Harvey and Soule.

By United Press. AUSTIN, March 5.—Lobbyists were swatted in the house Wednesday, following a resolution by Felix A. Raymer asking the house to order two alleged lobbyists from the floor. The resolution, directed against Judge J. D. Harvey and David Soule, both of Houston, said to be working in the interest of the Ferguson amnesty bill, was argued long, all members apparently agreeing with its principle but many opposing its direct purpose.

Speaker Satterwhite said there had been some laxity in enforcing the rule of the house which permits only members of the legislature, employees of the house and certain members of the press to be on the floor when the house is in session, but he promised that, the house desiring it, the rule would be enforced strictly.

Tarrant Officials Alarmed at Nevada 'Wide-Open' Rumors

By United Press. FORT WORTH, March 5.—"Bar the gateway into Nevada so that that none may go thence from Texas or come thence from there." That is the sentiment voiced by Tarrant county officials with reference to the proposed law in Nevada providing for wide-open, licensed gambling halls, which it has been suggested might be made a law in Texas also.

Texas bars betting on horse racing, poker, craps and all other forms of gambling, forbids boxing bouts, a decision and has a strict Sunday observance law which is enforced somewhat less religiously than the anti-liquor laws. The proposed law of \$1,000 on every gaming table does not even tempt Texans, according to local officials, who claim it would be "blood money," inasmuch as a gambling table never loses.

HANDSOME DAVENPORT HOME AND CONTENTS CONSUMED BY FLAMES

Fire which was discovered about 2 o'clock this afternoon on the upper floor of the R. M. Davenport home in Highland park, Ranger, had destroyed the upper part of the house and was threatening the lower floor at 3 o'clock, with firemen working hard to save a portion of the building.

Defective wiring is blamed for the fire. Mrs. Augusta Gallo-way, mother of Mrs. Davenport, felt the heat, and going upstairs, found the entire upper section ablaze. An alarm was sent in and the firemen responded promptly, but a stiff wind was blowing and fanned the flames.

House had to be laid between eight and nine blocks to get water to the fire.

The Davenport house was one of the handsomest in Ranger. It was built about four years ago, a two-story structure, costing between \$15,000 and \$20,000. The loss will be covered in part by insurance.

Mr. and Mrs. Davenport had much handsome furniture which was also burned or damaged, but was partially insured.

Music for last night's meeting was furnished by the Eastland High school orchestra. Refreshments of Root & Fehl's No. 1 Will Hazel, located some four and one-half or five miles southwest of Eastland, is reported to have reached the pay Wednesday afternoon at around 3:25, making some gas and to have a splendid showing of oil. Preparations are under way to drill it in.

CHARGE DAWES WOULD ANNUL SOLONS' POWER

Both Republican and Democratic Leaders Insist Proposed Reform Impossible

By United Press. WASHINGTON, March 5.—The bomb, Vice President Dawes exploded in his inaugural address to the senate, in which he asked amendment of the senate rules to expedite business, may have some effect later on voting in that body, both democratic and republican sides of the senate believed today.

Disturbance of the policy in the senate which robs that body of its entire legislative authority and relegates it to the state of the senates of foreign governments, which in recent years have lost their power, seems to be really contemplated, leaders of both parties assert.

Senator Charles E. Curtis, republican floor leader, and Senator Reed Smoot of Utah, Moses of New Hampshire and Jones of Washington, have promised aid in the matter of senate regulations, although there appears a unanimity of opinion that it would be impossible now to carry out the Dawes suggestion. It is pointed out that the idea has been advanced many times in recent years, but has never been carried to a successful conclusion.

ITALIANS OVER EGYPT'S BORDER

LONDON, March 5.—Italian troops crossed the western border of Egypt and attacked a Ladonian caravan, killing 15 and taking the remainder prisoners, according to a dispatch from the Daily Chronicle Cairo's correspondent. All the camels in the caravan were either killed or carried off.

The Egyptians in the meantime, were busy strengthening their garrison at Sollun.

WELLS' TRIAL IS HELD UP

Officers and Attorneys Agree Preliminary Is Doubtful.

Owing to the fact that Justice of the Peace Sam Day was absent from the city, the examining trial of E. H. H. Wells, being held under \$1,000 bond on charge of murder in connection with the killing of Police-man Jimmy Daniels in Ranger on Sunday morning, Feb. 1, was not held Wednesday afternoon.

It was stated this morning by county officials and attorneys for Wells that it was not likely that the examining trial would be held at all, as the Eastland county grand jury now in session is investigating the case.

COUNTY ROADS GET STATE AID

County Judge Ed S. Pritchard today received a telegram from Senator Joe Burkett of Eastland, member of the state highway commission, and now in Austin, stating that the highway commission had allotted \$125,000 to Eastland county to be spent on the Rising Star-Carbon, Eastland-Deslemong and Cisco north roads with the provision that the commissioners' court of Eastland county furnish the balance of money necessary to complete the work. The message also stated that the roads from Rising Star to Carbon and Eastland to Stephenville had been designated by the commission as state highways.
 Judge Pritchard was endeavoring to get into communication with Senator Burkett by telephone and stated that he did not know at this time what the county commissioners' court would do in the matter.
 The roads designated to be surfaced total fifty miles and all of it, with the exception of the road from Cisco north, about seven miles, is already graded and in good condition. The additional funds would be used to re-surface them with gravel, except that from Cisco north which would be hard-surfaced. Cisco, however, proposes to build a considerable portion of this road at its own expense.

HOME LOAN BANKS
 The setting up of a system of national home loan banks to stir home building through loans at low interest rates is provided in a bill introduced in the senate by Robert N. Stanfield, republican, senator from Oregon.
 The plan follows closely that of the farm loan system, according to Mr. Stanfield. The banks could make loans on improved residential real estate up to 60 per cent of its value, not to exceed \$10,000 in any one loan, payable in monthly installments over a period of five to fifteen years, and at a rate of interest not more than 2 per cent above the rate paid by the bank on its bonds.
 Tax exempt bonds similar to the farm loan bonds would be issued, proceeds to be lent to home owners. The national home loan board would consist of the secretary of the treasury and four commissioners.
 Chambers of commerce, manufacturers associations and trade organizations will co-operate with the Arbitration Society of America in observing the week of April 20 to 26 as a "learn to arbitrate week."

Director of the budget, Herbert M. Lord, predicts a surplus for the United States treasury next June—that is, if congress does not vote it out. We have become so accustomed to appropriating the money of the tax-payers, both in state and nation, that it is difficult to apply the brakes. Under the best of circumstances it will be more than 25 years, if ever, that former levels of taxation will be adopted.

While the federal trade commission is inquiring into the prices of bread and wheat, comes the announcement that during the last year, and particularly within recent months, the mean level of living costs in the United States has materially advanced.

A piece of ground 50 feet wide and 125 feet deep on Fifth avenue in New York, has just been rented for 63 years. It will pay \$7,056,000 to the landlords, his heirs or assigns. Single taxers say that although this "rental value" was created by the community, the city of New York will realize only a comparatively small amount by the transaction.

GULF BIVALVES ARE HEALTHFUL

Eastland county epicures may safely indulge their taste for oysters to the utmost, according to federal authorities. Only the luscious bivalves served in this section are from southern waters, of which the following report has been filed with state and federal authorities:
 The oyster reefs in the Gulf of Mexico along the entire Louisiana coast were found to be in a most satisfactory condition, according to Major Frank T. Payne, head of the department of fisheries of the department of conservation, who headed the party from the Louisiana state board of health and of the United States bureau of chemistry special agents to examine the reefs. "No sign of a nature of infection that would in any way cause typhoid fever was found in any locality," Major Payne stated. "We visited every important region where the oyster is grown, took samples of water and analyzed it and examined the oysters. We are thoroughly satisfied with the examination."

PLAINVIEW.—The Plainview Chamber of Commerce has requested Senators Sheppard and Mayfield and the West Texas delegation in the national congress to use their efforts to secure additional appropriation for the operation of the United States employment bureau in Texas, including the operation of the office at Plainview. The service of the United States employment bureau wash worth thousands of dollars to the plain section last year, and the year before, and was directly responsible for furnishing this region with more than 25,000 harvest hands. The West Texas Chamber of Commerce has also filed application for additional appropriation for the service in Texas.

INSANE BROTHERS CAUGHT BY OHIO SHERIFF'S POSSE

BELLEFONTAINE, Ohio, March 5.—The siege of the Rushsylvania farm where Harry and Ray Wren held out against the law for three days, came to a sudden end today. Slipping upon the alleged lunatics as they went into a pasture back of the barn, Sheriff Wooley of Logan county and a posse overpowered the Wren brothers.
 The Wren brothers ran amuck several days ago.

MARY JANE'S MERRY JOURNEYS IN THE ENCHANTED FOREST

"Dear little Mary Jane," said the Rajah, "you have asked for the best my kingdom affords."

MARY JANE heard that in one corner of the Enchanted Forest a great Rajah held court and kept in his royal stables a large number of pachydermata for state parades.

So she visited the Rajah with the Queen of the Enchanted Forest and learned that what the great men of the realm called "pachydermata" were really the largest and handsomest elephants she had ever seen.

In honor of her visit the Rajah ordered a durbar which is a grand review and reception, and Mary Jane and the Queen of the Forest sat high up in a howdah on the back of the biggest elephant with the Rajah, to see the parade.

After the great reception, which the Rajah gave, he asked Mary Jane if there were any little gifts she would like to have from the Royal household. And Mary

Jane could think of nothing she would rather have than a plate of MARY JANE SYRUP with some bread to dip in it.

"Dear little Mary Jane," said the great Rajah, "you have asked for the best my kingdom affords, and I am pleased that we both like the same thing."

Then the Rajah clapped his hands and ordered as many cans of MARY JANE SYRUP and as much bread as could be carried, packed into the howdah, for you see the Rajah loved good things to eat and was determined that his guests be served bountifully.

So, riding through the Rajah's gardens high up in the howdah of the largest elephant, Mary Jane, the Queen and the Rajah ate MARY JANE SYRUP, on sliced bread, to their hearts' content.

Republicans To Dominate New Congress; Democrats, LaFollette Followers Both Lose Their Hold

By PAUL R. MALLON,
United Press Staff Correspondent.

WASHINGTON, March 4.—The turbulent sixty-eighth congress was shorn of its power automatically at noon today and the new republican congress—swept in behind the Coolidge landslide last November—assumed legislative authority over the nation.

The change marked the passing of coalition legislation and heralded the coming of straight-out republican rule.

Gavels Change.
At noon the gavels of President Pro-tempore Cummins in the senate and Speaker Gillett in the house, fell for the last time. With a tap the old congress, which had adopted a democratic tax bill, passed an insurance soldier bonus and repudiated in many instances the republican legislative program, was ushered out. The new congress, whose first duty will be to plan a new tax reduction, came in.

Dawes Takes Gavel.
The presiding officers stepped down from their places. Cummins handed his gavel over to Vice President Charles G. Dawes, who is to govern the senate for the next four years. The house of representatives, not being a continuing body like the senate, did not remain in session and may not convene again until December, unless President Coolidge calls it especially to reduce taxes.

Many New Faces.
Many new faces were seen in both chambers. The fatal fall of ballots had lopped off many heads and brought new men out of obscurity into the limelight.

Just what a numerical change was wrought can be understood from the following comparison of the strengths of the political parties in the old congress and the new:

| Senate. | | New | Old |
|------------------|-----|-----|-----|
| Republicans | 55 | 52 | |
| Democrats | 40 | 42 | |
| Farmer-Laborites | 1 | 2 | |
| House. | | New | Old |
| Republicans | 245 | 222 | |
| Democrats | 183 | 208 | |
| Independents | 1 | 1 | |
| Farmer-Laborites | 2 | 1 | |
| Socialists | 2 | 1 | |

But there is even a greater change

"America seeks no earthly empire built on blood and force. . . . The legions which she sends forth are armed, not with the sword, but with the cross. . . . She cherishes no purposes save to merit the favor of Almighty God."

"I welcome the co-operation (of congress) and expect to share with it not only the responsibility, but the credit, for our common effort to secure beneficial legislation."

"The collection of any taxes, which are not absolutely required, which do not beyond reasonable doubt contribute to the public welfare, is only a species of legalized larceny."

"Unless we wish to hamper the people in their right to earn a living, we must have tax reform."

"The physical configuration of the earth has separated us from all of the Old World, but the common brotherhood of man, the highest law of all our being, has united us by inseparable bonds with all humanity."

"Our country represents nothing but peaceful intentions toward all the earth, but it ought not to fail to maintain such a military force as commports with the dignity and security of a great people."

"We cannot permit ourselves to be narrowed and dwarfed by slogans and phrases. . . . It is not the name of the action, but the result of the action which is the chief concern. It will be well not to be too much disturbed by the thought of either isolation or entanglement of pacifists and militarists."

than the numbers can tell. The sixty-eighth congress came in two years ago with a bang. Senator Robert M. LaFollette, recent presidential opponent of Mr. Coolidge, had acquired control of a strong little group of republicans which with the help of the democrats upon some legislation could overrule the republicans.

LaFollette Group Powerless.
The LaFollette group dominated the entire session, just closing. They first tied up organization of the house, demanding liberalization of the rules, and elected a democrat the head of the senate interstate commerce committee.

The closing congress will be known in history chiefly for its sensational series of investigations. The Teapot Dome inquiry and the department of justice investigation resulted in the resignation of two members of the president's cabinet, Attorney General Daugherty and Secretary of the Navy Denby. A score of other investigations were undertaken, ending less conspicuously.

Bills Recalled.
The tax bill probably was the outstanding piece of legislation enacted, even overshadowing its companion piece, the soldier bonus. In enacting the tax bill the congress ignored the recommendations of Secretary of the Treasury Mellon and provided less reduction for higher incomes than for small incomes. The president termed the bill "unsatisfactory" when he signed it. Provision also was made in the measure for publicity of income tax returns.

A new immigration bill was passed

excluding Japanese. No important farm relief legislation was sanctioned. Early in the session the Norris-Sinclair bill was defeated in the senate and the McNary-Haughen bill was thrown out in the house.

In the new congress, LaFollette's strength will be so impaired that he will not be able to use it to real advantage. Even since the election he had not taken an active part in legislative affairs. His groups in both houses likewise were less in the foreground.

SPRING STYLE SHOW BRINGS LAST WORD IN SEASONABLE WEAR

Joseph's dry good store was in gala array Wednesday night for the opening of the annual Spring Style Show, and crowds of eager visitors thronged the store where the exhibit was made and the sidewalks where the models were shown in the show windows. The runway over the center counters, made a most adaptable stage, being raised so that everyone could see the models and the smart styles which they were showing.

Charming girls and young matrons, and several popular children were in the special group selected for this display, and each one did the part so well that rounds of applause greeted their every appearance.

In the showing of wool ensemble suits Miss Helen Brady was the first

model appearing in a suit of beautiful drab charmeen combined with reseda faille. Both coat and dress made in long straight lines the former having reversed tucks trimmed with buttons and mannish collar of same color, trimmed with flat band at edge over which buttons were laid. A wide tuck and center band of the wool goods trimmed the handsome green faille dress. With this was a hat of same shade in dark green and brim of lighter shade. Rosettes of pink and green with primroses and other flowers in shades to correspond ornamented the attractive shape. Handsome Simmons kid gloves in tan with stitchings and cuffs of lighter shade were worn with this, also two-toned shoes of black

and tan with hose to match. An unique nurse of handsome art craft leather in tones of tan and embossed with contrasting patterns, was carried with this suit.

Mrs. Tom Yonkers modeled a beautiful navy blue bengaline ensemble suit trimmed in printed crepe of rust color, conventional pattern. The apron front dress was of navy blue with two-toned shades of the printed crepe, and jabot of same on blouse. The short sleeves were bordered with bengaline to match coat which was lined with the flat crepe like dress, the turn-over collar having two inch knife plaiting and button trim. A Gloria Swanson blouse of rust shade with rosettes of straw braid in contrasting darker shades had center sets of velvet flowers to match, a braid-stitched brim with jaunty bow of maize gros-grain ribbon at back, was a fitting finish to this lovely ensemble. Bias cut patent leather black gloves with black and white ruffled cuffs, black satin shoes and gunmetal hose made this one of the most stylish costumes modeled.

Elizabeth Dillingham wore a dainty dress of flat crepe with body of dress in shades of roses and borders of hem, and sleeves in cinnamon. It was prettily embroidered with flowers and ornamented with gold buttons. With this she carried a soft brown wool coat and wore a hat of turban shape with brown silk and fancy straw panels. Black shoes and hose and vanity headed in many colors with gold frame gave the finishing touch.

Billie Terrell appeared in two stylish suits for young boys. One was of gray wool with green plaid and coat of straight front with rounding corners and short back belt. The trousers were of golf style, and cap matched. Light tan, square toed oxfords, brown hose, white shirt with drop stitch stripes and red tie, completed the ensemble. His second suit was a handsome wool of mixed brown in Norfolk style with patch pockets, knickerbocker trousers and high top shoes in brown with square toes. His esp matched the suit and completed a suit of splendid style.

Little J. P. Braisier Jr., wore first a tiny pongee suit of Peter Pan type with narrow ruffles on shirt and collar and big pearl buttons to button trousers onto. The roll brim of the tiny silk pongee hat which was worn with this gave a jaunty touch and the tiny brown Red Goose oxfords were worn with little hose that matched the suit. His second suit was of white in similar style with blue tie which matched the blue of the brim on the tiny white hat. Black patent leather oxfords with gray trimmings and gray hose made a complete suit for little boys.

Sport Clothes

A wonderful sport model in gray flat crepe was shown by Miss Helen Brady. It was trimmed with a full length jabot of flat crepe shot with flame and sprayed with flame colored flowers, an edging of crocheted tan trimmed at ends with tiny gold buttons.

Coats.

Modish coats in new shades and tailoring were seen at this splendid show, winning admiration from those who saw them. Miss Brady wore a coat in straight lines of charmeen, shades of roses colored faced with bengaline of same shade and lined with flat crepe of darker shade. Rosettes of corded charmeen trimmed the front in straight line, the collar and cuffs were shirred and banded with same goods, the edge of

collar being outlined with narrow band of squirrel.

Mrs. Yonker wore a handsome mode cloth model in ashes of roses trimmed with side tucks and folds at back to simulate panel. Bias bands of same cloth were laid on bishop sleeve and collar band of muskrat fur.

Miss Flahie wore a stunning model of ashes of roses charmeen in darker shade, with flat crepe lining of same shade. Buttons and heavy silk stitching ornamented side panels while collar and cuffs were outlined with band of vari-colored embroidery and narrow bands of squirrel. A side fastening closed with single button.

Mrs. K. C. Jones wore a beautiful model with slashed full sleeves inset with narrow bands of gold embroidery. The collar was of similar style edged with fur while narrow loops of the cloth formed side panels. Elizabeth Dillingham wore a pretty child's coat in tan wool with trimmings of tucks and straps ornamented with buttons of the same cloth.

All models wore hats to correspond with these coats, gloves, shoes and hose being of corresponding shades.

Evening Gowns.

No lovelier evening gowns have ever been seen in Ranger than were exhibited at the Joseph style show on Wednesday evening. A dainty pea green georgette was worn by Miss Brady. It was made in basque style with full gathered skirt on the flounce of which was a delicate outline of rhinestones. Around the waistline was a handsome ornament of pearl and rhinestone embroidery, while at the neck were two V-shaped insets of silver lace, and a panel at back of same lace. This was made over a shell-pink lining of satin-back crepe.

A beautiful orchid creation with silver tint, was worn by Mrs. Tom Yonker. Insets of lace on the basque waist and full skirt were outlined with ribbon petals in blue bannet shades, a rosette of same being at waistline. It was made in sleeveless style with plain neck.

A marvelous creation of orchid georgette, made in long, straight style with pointed hem, and heavily embroidered with white, iridescent and orchid beads, was worn by Miss Flahie.

An exquisite gown of canary yellow georgette, the long plain skirt paneled and heavily embroidered front and back with gold and bronze beads was worn by Mrs. K. C. Jones. Florence Alice Palmer wore a dainty and exquisite periwinkle chiffon georgette made over pink satin-back canton crepe, and embroidered with delicate festoons of flowers made of two-toned narrow brocade ribbon edged with silver. Tiny silver beads like dew-drops were placed

here and there and a sash of the same narrow ribbon added to the charming beauty of this costume. Hose of periwinkle and slippers of silver, head-band made of bead embroidery in periwinkle with insets of pearls and rhinestones, and white bracelet inset with sapphires added finishing touches to one of the loveliest costumes of the show. The dainty model entertained with several graceful dances which were greeted with hearty applause.

Throughout the entire exhibition the sidewalk in front of the Joseph store was almost impassable for the throngs which gathered to see the beautiful models as they appeared in the big show windows. The exhibition will be repeated tonight, with a number of additional showings.

A handsome arcraft under-arm bag in two-tones with embossed corners and center band, brown and tan stitched gloves with cuffs of tan, two-toned shoes of black and brown with cut-out sides and hose to match completed this fetching costume.

Mrs. K. C. Jones was charming in a wonderful tan charmeen ensemble suit. The coat of wool had collar and cuffs of same material trimmed with self-colored flat crepe. A drop skirt of charmeen was covered with long Ruchette blouse and georgette in same tones, the blouse being sleeveless and trimmed with tiny fringe of same shades. A three-toned boutonniere graced the lapel. A hat of turban shape in shades of tan and ashes of roses, stitched with straw braid and ornamented with applied flowers in velvet, had a narrow row of taffeta ornamented with tiny inverted plaits of ribbon ending in a bow of same in self-shade.

With this suit Mrs. Jones wore two-toned black and tan shoes and hose to match with gloves of lighter tan stitched with tan and mauve, having ruffled cuffs in two shades. She carried a handsome purse of black patent leather.

Elizabeth Dillingham displayed a handsome kasha cloth with gold stripes and gold buttons in youthful model for young girls. Decoration of gold buttons on the inset pockets and neck opening, with turnback collar and suede belt made a nobby style for young girls. With this was worn a tan sport hat with same colored band and bow, black slippers and silk ribbed hose.

Silk Ensembles.

A brilliant flame colored flat crepe in plain shade combined with flane and white printed crepe was worn by Mrs. Tom Yonkers. The coat was lined with the red and white crepe like dress. Cuffs and collar of same were edged with narrow bands of white and black crepe and a handsome camelia was on the lapel of the blouse. Bias cut patent leather gloves with wide bands of black and red, arm holes edged with same and neck bound with black from which to bottom of skirt were tiny white buttons edged with the red and white crepe. The hat was of tomato shade, milan straw trimmed with bands of tomato and shades of primrose and tomato with bow of taffeta and rosebud and leaves at side. Blonde saun shoes and hose, one of the newest of vanities in red lacquer with blackcord and tassel in which the lipstick was hidden, a red swagger stick of printed crepe, and corresponding gloves were shown with this striking and beautiful model.

Miss Marie Flahie appeared in Reseda green bengaline trimmed with amber buttons, the coat having side strips ornamented with same buttons which were also used on bands of flat crepe which ornamented the collar and cuffs, and also as front fasteners. The dress was a gorgeous combination of printed flat crepe in colors of reseda, flame, black and mauve. It was finished with a narrow center band of green and buttons and gathered apron front below the belt, fastening with a narrow tie-back at the waist. The hat of horse-hair braid, lined with green, had a turn-back brim with rosettes of tan on green taffeta. A band and bow of two-toned taffeta completed the hat trimmings. Black gloves with black and white ruffles and purse of tan arcraft leather with embossed corners, two-toned shoes and hose to match completed the model.

A stunning black and white costume worn by Mrs. K. C. Jones was of black flat crepe combined with black and white printed crepe in Japanese pattern. The coat, lined with the printed crepe, showed the lining through at the bottom where there were several flat bands set on separately and fastened at the top edge only. Cuffs of white crepe de chine finished with several bands of same caught together with cat-stitch and collar of flat crepe ornamented the coat while the dress had a col-

lure of white crepe with the same fine bands fastened at the neck with long cord and tassel of black, red and gold combination. The hat of black milan straw was a nobby turban shape with white rolled brim, the crown was trimmed with gros-grain ribbon in black which was bunched into a pom-pom at the peak. A black patent leather purse, black gloves with black and white ruffled cuffs, black satin shoes and gunmetal hose made this one of the most stylish costumes modeled.

Elizabeth Dillingham wore a dainty dress of flat crepe with body of dress in shades of roses and borders of hem, and sleeves in cinnamon. It was prettily embroidered with flowers and ornamented with gold buttons. With this she carried a soft brown wool coat and wore a hat of turban shape with brown silk and fancy straw panels. Black shoes and hose and vanity headed in many colors with gold frame gave the finishing touch.

Billie Terrell appeared in two stylish suits for young boys. One was of gray wool with green plaid and coat of straight front with rounding corners and short back belt. The trousers were of golf style, and cap matched. Light tan, square toed oxfords, brown hose, white shirt with drop stitch stripes and red tie, completed the ensemble. His second suit was a handsome wool of mixed brown in Norfolk style with patch pockets, knickerbocker trousers and high top shoes in brown with square toes. His esp matched the suit and completed a suit of splendid style.

Little J. P. Braisier Jr., wore first a tiny pongee suit of Peter Pan type with narrow ruffles on shirt and collar and big pearl buttons to button trousers onto. The roll brim of the tiny silk pongee hat which was worn with this gave a jaunty touch and the tiny brown Red Goose oxfords were worn with little hose that matched the suit. His second suit was of white in similar style with blue tie which matched the blue of the brim on the tiny white hat. Black patent leather oxfords with gray trimmings and gray hose made a complete suit for little boys.

AS YOU WERE!
Buster Keaton tells this one. For his new Metro-Goldwyn picture, "The Navigator," which is coming to the Connellee theatre today and tomorrow, more than 300 negroes were used as cannibals. In one scene they were supposed to jump from the deck of the ocean liner chartered for the picture.

Buster divided them into five classes, and when the signal for class B came to jump, one lone California cannibal remained on the deck. "Don't you know what class B means?" asked Buster.

"Yessir, I does," came the reply. "It means 'Ise goin' to BE here when the others dive, and Ise goin' to BE here when they comes back.'"

The Art of Cooking
NOW CLASSED AMONG THE SCIENCES

Back to the days when primitive man first cast the ruddy glow of firelight on his cavern walls through the rubbing together of sticks—on to the era of flint and steel, when venison turned over the glowing coals of a kitchen fireplace, to the present day when a world's attention is centered upon the nutritive value of various foods and the matter of their preparation—the art of Cooking has kept steadily apace with the Spirit of Progress.

All Foods Are Not Proper Foods

It all depends upon those who consume them. What is nourishing food to one may prove greatly detrimental to the well-being of another. What to one person may prove to be a builder of rich, red blood and strengthening tissue, may succeed only in creating a series of woeful physical conditions in persons differently constituted.

These are subjects every housewife should be interested in.

Did You Ever Think of This?

That the human being—man, woman or child—is after all merely a natural product of a highly organic nature—a product of that which he or she absorbs? This is obviously true.

And knowing this, is it not then easy to understand that a properly functioning organism must be maintained through foods in which organic substances still predominate?

In proper food preparation only can this be made possible.

MRS. IDA CHITWOOD

LECTURER AND DEMONSTRATOR

Will tell you all about these important matters during the course of her five-day lectures. She prepares foods as you watch and listen to her; tells you just how to prepare them to make them the most healthful and palatable.

Tells you how to budget your household finances in order that you may derive the greatest possible amount of benefit from your income. This in itself is a subject of vast material benefit to every woman in Eastland County.

Mrs. Chitwood is a lecturer and food expert of international prominence. Her experiences during the war, on the great plains, in the wilds of India, among the Chinese and people of other nations, have given to her an education in food values and food preparation that falls to the lot of but few.

July (1923), within three weeks, I lost ALL of my hair. It just dropped out. As I am a pharmacist and a doctor's patient, I tried everything that I had for sale and that doctors knew of. At last, in November, Van Ess was still naked on top and only twenty-three years old! At last I tried Van Ess. Two bottles—a little white fuzz.

There—in January, my wife left me for a 5 months' tour. When she returned in June I had seven inches of hair all over my head. I had used eight bottles. Van Ess daily, it's hair insurance. Yours faithfully,

CERTIFICATES, BONDS OFFERED

Special Correspondence.

DALLAS, March 5.—B. A. McKinney, governor of the Federal Reserve bank of Dallas, announced today the bank's March financing would take the form of a combined offering of nine-months treasury certificates of indebtedness and 4 per cent treasury bonds. The announcement says:

"The certificates are offered at par and bear 3 per cent interest from March 16, 1925, and mature Dec. 15, 1925. The bonds are an additional issue of the 4 per cent treasury bonds of 1944-54, dated and bearing interest from Dec. 15, 1925, maturing Dec. 15, 1954, and redeemable at the option of the United States on and after Dec. 15, 1944. The bonds are offered at 100 1/2 and accrued interest from Dec. 15, 1924.

"The combined offering is for \$450,000,000 or thereabouts. About \$500,000,000 of treasury certificates of indebtedness and treasury notes become payable March 16, 1925. There will also be interest payments on the public debt in March, April and May, totaling slightly over \$300,000,000. The present offering is intended, with the balances already on hand and the March tax receipts, to cover the treasury's further cash requirements until June, when further financing will be necessary."

IF YOU NEED A MEDICINE YOU SHOULD HAVE THE BEST

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments, corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcel Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores.—Adv.

Hunt's Washington Letter

BY HARRY B. HUNT
NEA Service Writer

WASHINGTON — Considering how badly the Democrats were beaten in the last presidential election it may seem as if there can be no justification whatever for the hopes their leaders express of gaining control of Congress next year.

Yet Democratic politicians are sincere in the confident predictions they make. What's more the Republicans are a little anxious.

And on second thought it becomes apparent that this naturally follows from the very fact of the last election's one-sidedness.

The Democrats already have lost about all they possibly can lose and if the situation changes at all from their standpoint it is bound to change for the better.

The Republicans at present hold not only all the normally Republican seats in Congress but a good many that are normally Democratic, so from their standpoint there hardly can be any change which isn't for the worse.

THE Senate illustrates this better than the House because the former is a smaller body and only a third of its members' terms expire at a time.

On March 3, 1927, then the terms of Senators Broussard of Louisiana, Caraway of Arkansas, Fletcher of Florida, George of Georgia, Overman of North Carolina, Smith of South Carolina and Underwood of Alabama will expire. All these are Democrats and all are sure of re-election, or if any of them should be retired other

Democrats would be elected in their places. No politician of either party looks for any such miracle as the victory of a Republican senatorial candidate in any of those states.

Also on March 3, 1927, the terms will expire of Senators Bingham of Connecticut, Cameron of Arizona, Cummins of Iowa, Curtis of Kansas, Dale of Vermont, Ernst of Kentucky, Goeding of Idaho, Hargrell of Oklahoma, Jones of Washington, Ladd of North Dakota, Lemmon of Wisconsin, McKinley of Illinois, Means of Colorado, Moses of New Hampshire, Norbeck of South Dakota, Oddie of Nevada, Pepper of Pennsylvania, Shortridge of California, Smoot of Utah, Spencer of Missouri, Stanford of Oregon, Wadsworth of New York, Watson of Indiana, Welles of Maryland and Willis of Ohio.

THESE are Republicans and everybody knows that Arizona, Kentucky, Oklahoma, Missouri and Maryland are Democratic a good deal oftener than they are Republican states.

So there are five Senate seats to begin with that the Democrats are hopeful of and the Republicans worried about.

The Democrats lay claim also to Connecticut, New York, Indiana and Ohio.

As to Connecticut this claim probably is pretty thin but Indiana and Ohio are at least doubtful chronically and Gov. Al Smith's influence unquestionably will weigh heavily in New York especially if he should make the senatorial run himself.

CHICKEN SHOW MEET CALLED FOR TONIGHT

Secretary Patterson of the Ranger Chamber of Commerce is today urging everyone interested in the forthcoming Eastland county poultry show to attend a meeting called by the chamber directors for tonight at 7:30 o'clock, room two, second floor of the Guaranty bank building.

The meeting will discuss and probably perfect plans for the annual chicken show, as well as to work out helpful methods of stimulating an interest in developing Ranger's and Eastland county's promising egg and poultry industry. Every idea or suggestion that may be offered is urgently solicited for tonight's meeting.

TOM SIMS SAYS

Have you heard about spring? It will be here soon, dashing toward us at the rate of 24 hours per day.

Spring is the marrying season. That's simple. A man feels so lazy he needs a wife to make him work.

Flowers and golfers grow wild every spring.

Fishing is better than golfing. You can't go to sleep by a golf ball waiting for it to bite.

A fisherman stretches his arms telling about his trip while a golfer stretches his imagination.

The one good thing about adding up a golf score is the same system will save you money on your income tax.

We never see a scarecrow in a corn field but that we think he is standing out there telling a fish tale.

Spring is the time of gardens. Some get vegetables out of their gardens. Some get chickens.

In starting your garden, make it small enough for your wife to do all the work later on.

You can combine golfing and gardening by using a midiron for a hoe.

Gardening, golfing and fishing are like faith, hope and charity, except you have the faith and hope and need the charity.

Perhaps the wildest of the wild spring flowers are the bathing girls. (Copyright, 1925, NEA Service, Inc.)

LUCKY STRIKE

IT'S TOASTED

Facts About Taxes on Cigarettes

TO the general public, we believe it will be surprising to learn that nearly half of what they pay for cigarettes goes to the government for taxes.

The internal revenue stamp on a package of twenty Lucky Strike cigarettes costs you six cents. On a 75c tin of one hundred the revenue stamp costs you thirty cents.

So nearly one-half of what you pay for cigarettes is spent by you for taxes.

This is certainly the heaviest tax on an article of daily and universal consumption.

The Tobacco Industry and Taxes

The aggregate tax paid by the tobacco business is with one exception, *income taxes*, the largest item of internal revenue the federal government receives. Last (fiscal) year it amounted to \$309,014,050.84.

Of this enormous amount of money the cigarette industry paid \$182,715,735.93, or nearly two-thirds of the total tax paid by the entire tobacco business.

We believe you will appreciate that when nearly fifty cents of every dollar paid by you for cigarettes goes to the government, you must receive in cigarettes a value in return for your money that is rarely given in any commodity.

That the public appreciates this great value is shown by the enormous increase in the consumption of cigarettes.

Our reasons for this tax free offer

We know this offer induces men to try Lucky Strikes—it "Wins More Friends."

We know that a large percentage of those who get acquainted with Lucky Strikes adopt them.

This isn't philanthropy nor propaganda—just good business, as you'll agree.

The offer is limited. We cannot afford to keep it up.

We make it generous, to attract attention.

Super-quality

Only by immense volume can we produce such an aristocratic cigarette as Lucky Strike at such a democratic price.

Its quality is supreme because it has that costly extra process, *toasting*, which improves the flavor and adds to the taste of even the finest tobaccos that are used in Lucky Strikes.

Cleanliness and Care in Manufacture

Every Lucky Strike factory is a model of sanitation. Read how Alfred W. McCann, the noted food expert, describes one of our factories: "White walls and ceilings, floors as clean as freshly chiseled marble, cutting machines and wrapping machines that take away from the human hand all detail and leave nothing to the human supervision but the watchfulness of trained eyes."

We know a trial will make you a permanent customer of ours.

**Unchaperoned Chicken
Parades Henceforth
Are Strictly Taboo**

Chickens are all right in their place, Wade Swift, Ranger's sanitary officer, concedes, but their place they must keep, he insists—speaking of the feathered variety.

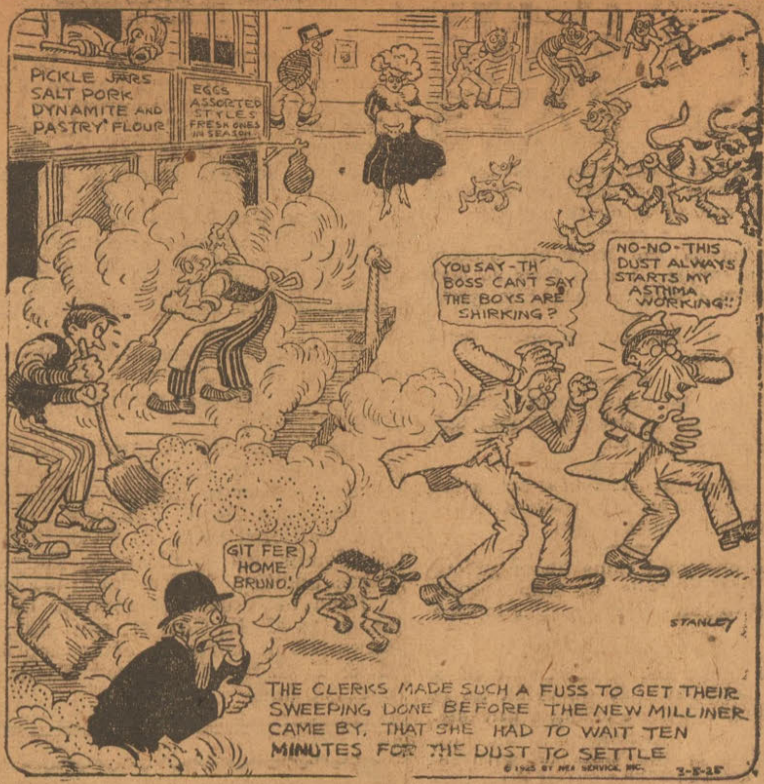

The guardian of Ranger's health even agrees that chickens will not be out of place parading the town, under proper chaperonage of the Eastland county chicken show officials next fall. But in the meantime—

Ranger folks are trying to get their flower beds and spring gardens under way, and the housewife has enough trouble getting hubby to spade the ground and set out the summer's greens supply without having a lot of inconsiderate loafing, fiendishly malicious fowls around scratching things up.

Numerous complaints of annoyance from roving fowls have been filed with Sanitary Officer Swift. City ordinances prohibit fowls running at large, and unless the owners immediately proceed to pen them up, they will be fined \$5 for each offense charged against them—that is, the owners, not the fowls, will be fined.

Special Correspondence.
CHICAGO, March 5.—The state has nolle prossed the case against Daniel F. Nugent, New York attorney made co-defendant with W. E. Stokes and two others in charges of conspiracy to defame the character of Mrs. Helen Elwood Stokes, and the case against Mrs. Mattie Johnson, negro, one of the two others, was also nolle prossed. Judge Genill overruled a motion to dismiss the case against Robert Lee, a negro, so that Stokes and Lee are the only defendants remaining.

Called as a witness, Stokes said he was 73 years of age, had lived all his life in New York and had been twice married, his last marriage in 1911 being to the present Mrs. Stokes.

**New Way to
Quickly Stop
Dangerous Cough**

It is almost criminally careless not to properly attend a persistent cough, which by seriously weakening the system lays you open to far more dangerous infections. For by a very simple treatment you can stop the coughing spells almost instantly and often relieve the stubbornest cough in 24 hours.

This simple treatment is based on a remarkable prescription known as Dr. King's New Discovery for Coughs. You simply take a teaspoonful and hold it in your throat for 15 or 20 seconds before swallowing it, without following with water. The prescription has a double action. It not only soothes and lessens irritation, but it quickly loosens and removes the phlegm and congestion which are the direct cause of the coughing. The prompt relief of the heaviest cough seems almost magical.

The prescription is highly recommended for coughs, chest colds, hoarseness and bronchitis, and is wonderful for children's coughs and spasmodic croup—no opiates or other harmful drugs. Economical, too, as the dose is only one teaspoonful. At all good druggists. Ask for

**Many Uses
For Vicks
In the Home**

First As An Effective "Outside" Remedy For Colds Then As A Liniment Or Poultice.

Vicks of course is primarily intended as an external treatment for cold troubles, and as such has gained world wide fame.

Actual use, however, by many persons has demonstrated that it is also an excellent application for many of the daily ills and hurts of the family.

For headache and neuralgia you rub the forehead and temples with Vicks, also melt a little in a spoon and inhale the vapors.

For burns and scalds apply Vicks as a thick dressing—cover with a light cloth. Apply gently—do not rub in.

For cuts, scratches, bites you cleanse first with warm water then apply Vicks as a salve.

For colds you just rub Vicks over throat and chest and cover with a warm flannel. When applied at night the trouble is usually gone by morning.—Adv.
