

DOES GOOD FLOW AT 4,367 MEET 'MOTHER POOL' BENEATH RAGER?

Latest Find at New Level in Frankell-Necessity vicinity is Langford No. 1 Which Was Being Drilled Deeper When Pay Was Struck.

Is there really a lake of oil or a "mother pool" beneath the Ranger field? Many oil men have held this belief and their theory may become a conviction by the discovery of a good flow of oil at 4,367 feet by the Magnolia company near Necessity. When the bit reached the sand it penetrated one foot and the well flowed sixty barrels. It flowed no more and has been put on the swab before drilling deeper, and is now swabbing thirty barrels daily. This is the greatest depth at which oil has been found in the Ranger field though other tests have gone deeper. The well is the old Langford No. 1, and was being drilled deeper when the pay was struck. The find proves three distinct horizons in the Frankell-Necessity pool.

The Stewart and Walker wells have proved the 2,000-foot level is very productive. The time at 3,570 has been tested and has produced big wells, and the find of the Magnolia proves beyond doubt that a deeper pay exists.

At this time no one will attempt to forecast the probable importance of the new depth. The line has not yet been tested out. It may crystallize the theory of many operators that a mother pool does exist and other efforts may be made to find it. However, such information along this line as can be obtained is of the non-committal variety.

While the Frankell-Necessity vicinity is taking the limelight, the discovery of deep pay in the Yellow Mound community is considered of almost equal importance and that vicinity may see some intensive drilling because of the J. Carter well of the Root, Rupp Duff company.

Making 1,800. The well which is ten miles west, came in and now is producing 1,800 barrels from a depth of 3,680 feet, where the sand was first encountered, with a string of tools in the hole. Upon the bringing in of the well the tremendous gas pressure forced the tools up into the hole with the result that when they dropped back again, the line snapped in two, leaving the tools in the hole, and preventing the drilling of the well deeper into the sand. The drillers are now fishing for the tools, and as soon as they are recovered and the well drilled into the sand, it is thought a three or four thousand barrel gusher will result.

Will Boost Drilling. The formation encountered in the drilling of the Carter well is the same as the wells in the Pleasant Grove district, and the probability it will prove to be the center of an intensive drilling campaign, such as Eastland county had in the inception of the fields.

It is already known that several additional locations are in contemplation on adjacent tracts. The Oriental company in the same community, a few days ago, struck a gas vein that is still flowing many millions of feet of gas daily.

One or two other wells in the neighborhood of the Carter are nearing the pay and may be the forerunner of another Pleasant Grove pool.

DESECRATION OF SABBATH IS ASAILED

Report Blames Commercialized Amusements and Enemies of Protestantism.

ST. LOUIS, June 1.—Sabbath desecration was described as "most distressing" in a report read here by the Southern Presbyterian General assembly, in session, the Westminster church. Commercialized amusements are "robbing a city of their quiet and holy Sabbath," the report declared.

The report was submitted by the standing committee on the Sabbath and family religion, advocated support of the program of the Lord's Day Alliance for Sunday observance. "Conditions are not distressing in the matter of Sabbath desecration," asserted the report. "All too prevalent in our congregations, and so nearly universal in our country at large, as to have become a mighty current, before which we find ourselves almost helpless."

Mentions Enemy to Faith. "The commercialized amusements of the time, in a most alarming proportion by the avowed enemies of the godly home and of our Protestant faith, are elevating for the floating of their dividends, on the swelling of their quiet and holy Sabbath and on drawing young and old to their amusement places by sensational and depraving allurement."

A general tide of worldliness which came with any money and with the rise of irresponsible rich, unfortunately has drawn itself a much younger part of our population than ever before. Now the high school boy and girl know all and do all that years ago may have been known and done by their college elders. Illicit traffic in intoxicants makes our young boys the shining marks for its attacks. The public promiscuous dance is the frequent recreation of our high school children."

Divorce Called "Reproach." Denouncing divorce, the report asserted this evil has made America "a reproach even to pagan lands."

The assembly also adopted standards outlined by the Association of Colleges and Secondary Schools of the Southern States, for the conduct of the denomination's educational institutions. The standards will be put into effect with the beginning of the 1922 school year. The new arrangement will annule requirements for admission to and graduation from colleges and also the requirements of faculty members.

Another report adopted censured parents who neglect to have their children baptized, and ministers who fail to foster religious vocations. It was recommended that the minimum fund for ministerial relief be \$2,500, 000 and that funds be advanced, when necessary, to woman taking up missionary work.

GORMAN MAN FOUND DEAD IN FORT WORTH

FORT WORTH, June 2.—The lifeless form of Dr. W. D. Morrell of Gorman, Texas, was found in his room at the Terminal hotel on Main street at 3 o'clock Wednesday afternoon, a bullet wound through his heart, and a revolver with one cartridge discharged by his side. The man had evidently been dead for several hours as his body was stiff.

The hotel clerk could not say when Dr. Morrell had registered, but according to Emmitt Moore, justice of the peace, who viewed the remains shortly after discovery of the body, death had occurred some time during the night. The body was found lying across the bed, and was dressed in a bath robe.

A note was found beside the body requesting that George Morrell of Denton be notified. A letter, sealed and stamped, addressed to George Morrell, was found in the pockets of the dead man, and is being held pending the arrival of George Morrell, who has been notified by Sloan-Harvson, undertakers, who have taken charge of the body.

After holding an inquest, Justice of the Peace Moore returned a verdict that the man had met his death by a gunshot wound, self inflicted.

Cruse, 30, guilty of murder in the second degree in connection with the death of his wife, Ella Cruse, whom it is alleged he strangled to death last winter so that he could wed Kathleen Foley, a Topeka girl, who died under mysterious circumstances within a few days after the death of Mrs. Cruse. Miss Foley was unaware of Cruse's marriage. She was a traveling salesman for a Kansas City, Mo., firm.

WEALTHY DALLAS YOUTH SENTENCED IN MANN ACT CASE

DALLAS, June 1.—R. L. Slaughter Jr., was sentenced to serve thirty days in the county jail and pay a fine of \$500 Wednesday afternoon by Judge James C. Wilson in the federal court after he had pleaded guilty to violation of the Mann white slave act.

Young Slaughter is the grandson of the late Colonel C. C. Slaughter, and heir to a part of the Slaughter millions. The sentence imposed is Slaughter's penalty for a romantic love affair with Miss Reita Jachman, said to be the daughter of a wealthy Philadelphia family. She toured Europe as Slaughter's companion, and on their return to New York he brought her to Dallas with him. Here, the glamour of romance faded, it is said, and Slaughter tried to break off the girl. She took her case to secret service operatives, and the grand jury indictment against Slaughter followed.

ORDER AGAIN RESTORED AND PROBE START

No Arrests Were Made During Savage Battle, Governor Robertson Is Told.

By United Press
TULSA, June 2.—The thousands of homeless negroes whose houses were destroyed by fire in the fifteen or more blocks which were burned to ashes during the race riot here Tuesday night and Wednesday morning in which sixty-eight negroes are officially reported killed and unofficially estimated from 100 to 175 negroes dead, based on the belief that scores were burned to death will probably not receive a penny for their losses, either life or fire insurance according to several insurance companies here.

The several companies interviewed by the United Press today stated that in both life and fire insurance policies a separate "riot" policy or clause must be attached to the policy in order that insurance would be paid.

By United Press
TULSA, Okla., June 2.—Governor J. B. A. Robertson today announced a Tulsa county district judge will be ordered to start grand jury investigation of Wednesday's race riot.

Further than this statement Governor Robertson was silent, but he gave every indication that all efforts will be made by the state to fix the blame where it belongs for the murder and arson that brought desolation to 7,000 negroes.

"Attorney General Freeling will be put in charge of the investigation," Governor Robertson said.

The fact that the national guard preserved perfect order in "order keg" town without the firing of a shot Wednesday night gave rise to the belief that part of the guard will entrain for home before Thursday night.

Race hatred which flared up for twenty-four hours in the oil metropolis of the southwest costing nearly 100 lives and \$1,500,000 property damage was burned out today.

Seek Shelter for 10,000. Whites who fought a furious battle with practically the entire male black population centered their efforts to finding shelter for the 10,000 negroes whose homes were destroyed when the torch was applied.

Although rumors flooded the city throughout the night of negroes congregating in the outskirts to make a massed drive to liberate their prisoners investigation by state troops proved the reports unfounded.

Negroes who fled the city when the rioting began Tuesday night drifted back into town today with pitiful stories of how they stayed hidden in the woods northeast of the city nearly two days.

Farmers rounded up many fleeing negroes and brought them to the detention camps.

Blacks Under Guard. Practically the entire negro population spent the night under guard. Men, women and children were herded together in public buildings. Four thousand blacks spent the night at the fair grounds.

Mother Cares Boy, 11, As State Asks For His Life

By United Press
KNOX, Ind., June 2.—The court room here today presented a picture that might have been taken from a fairy book or a children's play room, except for the tragic and deathly serious demeanor of the main actors.

Eleven-year-old Cecil Burkett, resting in his mother's lap with his head against her ample bosom was the center of this tragic children's picture. He was on trial on a charge of murdering seven-year-old Benny Slavin. His seven brothers and sisters, all of tender years, were cared for by the Russian immigrant mother as she sat in court.

The mother's chief attention was devoted to taking care of her eleven-year-old, however. She smoothed his hair and caressed him gently.

"Thin Girls Made Fat and Fat Girls Made Thin," Is Their Slogan.

By THELMA DILLINGHAM.
AUSTIN, Texas, May 31.—"Thin girls made fat and fat girls made thin" has been the slogan of the Nutrition Clinic which was operated for the first time this year under the management of the Department of Home Economics at the University of Texas. So successful and beneficial has been the clinic that it will probably be continued on a larger scale next year, according to Miss Jet Winters, adjunct professor of the nutrition courses and clinics.

Most of the work consists in "making thin girls fat" for the records show that the fat girls are easily discouraged if results are not immediate and drop out of the clinic. The girls who are under weight are weighed at the beginning of the clinic and a chart is kept of their weight each week. Each day they come by the dining room of the Department of Home Economics and have a mid-morning lunch of sweet milk and graham crackers at a price covering the actual cost. Lectures are given each week on food and nutrition to all those who are interested. On registering at the clinic each girl makes out a list of the things she eats for an average day. One of the instructors then figures up the number of calories represented by the food. By comparison of this data with the average exercise and work of the girl, she can approximate the number of calories the girl must have each day in order to gain. With the over weight, a calculation is made of the number of calories they should have in order to bring them down to normal weight.

Boys Overlooked. So far nothing has been done along this line among the boys. It is thought next year that the work may be enlarged to include them. "There are quite a number of astonishing cases of under weight and under nourished boys," stated Dr. C. W. Goddard, physician in chief of the University. "Such a condition is very dangerous. There is a very definite relationship between under weight and tuberculosis."

Girls enrolled in the clinic have been as much as 25 per cent under weight. In every case where the attendance at the clinic was regular, the girl gained in weight.

We will never make attendance at the clinic compulsory," stated Miss Winters, "but we hope that next year we can co-operate with the Physical Training Departments and accomplish something worth while for the students who are under weight or over weight. The work is certainly important from a standpoint of health and efficiency."

TWO WAGON LOADS OF "HOT" CASING SEIZED NEAR BRECKENRIDGE

BRECKENRIDGE, June 2.—Two wagon loads of four-inch casing believed to have been stolen from the Fensland Oil company were seized by Deputies Smith and Grimsinger a mile and a half east of the city last night. The driver of the first wagon taken said he believed the casing was "hot" but protested he was only hired to do the work. The second wagon was found in the brush. Both loads were brought to the court house.

KANSAS CITY, Mo., June 2.—Trial of Deanez Chester for the murder of Miss Florence Barton on the night of Oct. 2, neared its end today. Joe Aylward, attorney for the defense, closed his case shortly after court opened this morning. It was the tenth day of the trial.

DUBLIN, June 2.—Three British soldiers today lost their lives in a Sinn Fein ambush in county Kerry. The soldiers were trapped near the town of Killorglin, and shot down without a chance to respond to the shots of the Sinn Feiners, an inspector sergeant and two constables were killed and two constables wounded.

Claire Windsor, who a year ago was a popular Seattle society girl and who has been seen in the recent Weber picture as the leading feminine role in the picture. Her appealing wins charms are contrasted with the lure seductiveness of the languoro Mona Lisa. Phillips Smalley, real life Miss Weber's husband, turns to the screen after a long absence to play the role of Mona Lisa's hnd, while Louis Calhern a popular on the stage, plays opposite Mr Windsor.

The bells the story of a wife who risked her husband's faith in her in an effort to win back an old sweet heart whud happily married, and in parallel, tells the story of the other wife whose husband, though loving heartily, nevertheless was annoyed aer extreme attention to him and diled housekeeping. Two kinds of es are contrasted. The one who is everything she knows and one who does things she believes should ple him. One fails where the other sucs, and one wins where sheeps to fail. The finale is a surpris.

FIREMEN BURN RUINS; ARREST TWO FOR GOING OVER THE FIRE HOSE

The ruins of the J. R. Alford home on the Strawn road were burned Wednesday by the fire department. During the operation two men were arrested and charged with running over the fire hose. One was fined \$11.70 in police court Thursday morning. The other will offer a defense. His trial is set for Saturday morning. It is thought that his defense will be that he cannot see out of one eye and the sight of the other is defective and for that reason did not see the fire hose across the road.

YOUNGEST REPORTER 'ASKS TO KNOW' IF DOUG AND MARY ARE TO PROVIDE HIM WITH PLAYMATE

By International News Service
LOS ANGELES, June 1.—Guy Price Jr., America's youngest dramatic critic, claims the unique distinction of being the first newspaperman to sit on Mary Pickford's lap while obtaining an interview.

Young Price, who resides in Los Angeles, was assigned by a local newspaper to visit the studio of Mrs. Douglas Fairbanks (Mary's name in private life) and carry out the delicate mission of interviewing the film star on whether Mr. and Mrs. Fairbanks are expecting an heir.

As soon as Price Junior saw Mary he held out his arms to her. Although she was busy before the camera Mary stopped work right then and there and took the youngest reporter of them all on her lap and hugged him tight.

But then, you see, Price Junior is only fourteen months old.

The way he happens to be a journalist at such an early age is because he "inherited his liking for the stars," his father being widely known as the dramatic editor of a Los Angeles newspaper.

ATHENS, June 2.—Ministers of allied powers here have handed the answer of the Greek government to the allied note, which announced Constantinople, the Straits of the Bosphorus and the Dardanelles would be considered neutral territory during hostilities between the Turks and Greeks.

The note expresses confidence the step taken by the Allies will stop forwarding supplies to the Turkish Nationalists in Asia Minor from Constantinople.

NO, SAH, DIS NIGGAH WON'T GO TO TULSA

"George Washington, you are charged with being a vagrant. What is your plea?"

A negro stood before the bar of the police court.

"I wasn't doin' nuthin', judge," came the answer.

"That makes you guilty," chief of Police Reynolds broke in. "Doing nothing is the essence of the charge of vagrancy."

"If we release you will you go to Tulsa?" was the next question fired at George by the city attorney this time.

"No sah, boss. I wouldn't go to Tulsa, but if you turn me loose I shore will go back to Dallas."

"Do you shoot craps?" It was the judge talking now.

"Yessir cap, I shoots some dice."

"No sah; I never stole no chickens."

"Yas sah, I done stole some water-melons."

"Yo' all can see by my hands that I am a workin' niggah, if some white folks would give me a job."

The evidence was plain that George was a working nigger so he was turned loose after promising to return Thursday afternoon and paint the turning posts in the streets white.

He went away muttering that "white folks shore was funny, wantin' a niggah to go Tulsa."

WASHINGTON, May 31.—The Washington-New York air mail route will be abandoned after May 31, Postmaster General Hays announced today.

POCKETFUL OF SOAP, TOWEL AND SAFETY RAZOR BRANDS RIDERS OF RODS, ATTORNEY'S QUIZ SHOWS

The casual visitor to the police court each morning would almost reach the conclusion that Beverly S. Dudley, city attorney, was well versed in the ways of "swinging under." This conclusion would be reached by the expert knowledge Mr. Dudley possesses of those who do "swing under," other wise take an unsolicited ride as the guest of the railroad companies.

Thursday morning for example, four young men were lined up before the court charged with "riding blinds." He did not ask them, dear reader, if they were guilty or not guilty. No indeed. "Where is your cake of soap?" he asked instead. Two of the young men shared a community piece of the article, a third declared that he had finished his while doing his morning wash. The fourth pulled from his bosom a cake of Ivory, a towel and a safety razor.

Evidence of Guilt. "That evidence makes you guilty of being a vagrant as charged," the attorney declared, "because if you were not beating your way you would not have it."

It also separated the men from the regular panhandlers. "Those birds," according to the attorney, "do not bother to keep clean and a man down on his luck does his best to remain clean outwardly at least."

One of the men was just getting back home. He left Ranger two months ago, he declared, after being here two years, and he knew that he was coming back to the best town in the country; and, he had seen them all, he said, in his two months travel.

"Why in Eldorado they would murder a man for a job" he asserted, "and many other places are not much better. One of the other men, he of the safety razor, declared that he had been searching for a job since he left Detroit, Mich., last September, and in many towns the police would not even let him stop. The vast crowd of unemployed had to move on like cattle in a herd, he declared.

The attorney told them all they might stay in Ranger if they could find a job but they must not be caught in places of ill savor.

Harlow collected a two-bagger.

N. Y. YOUTH WINS \$1,250 AWARD FOR BEST ESSAY

A prize of \$1,000 and another prize of \$250 and a gold medal were presented at the high school of Commerce, New York, to David Koch, a 17-year-old graduate, for the best high school essay on economics written during the past year in the United States and Canada.

The decision of the judges was unanimous. The prize of \$1,000 was offered by Alvan H. Simonds, of Fitchburg, Mass., and the prize of \$250, accompanied by the gold medal, was offered by Clarkson C. O. W. S.

The subject of the essay, assigned by Mr. Simonds, was "The Teachings of Adam Smith in the Wealth of Nations and Present Day Economic Conditions." Koch, the prize winner, explained that he had studied economics for only half a year during his last term in high school and that he had read his way through forty volumes in preparation for the final writing of the essay. The essay would fill about two newspaper pages, and was of about 15,000 words.

MANY RESERVE ROOMS FOR GUN TOURNEY HERE

A large attendance at the Texas championship trap tournament, to be held here next week, is forecast by the reservations coming in to local hotels.

The Gohison alone has nearly fifty reservations, including fourteen from Houston, eight from San Antonio and more than a dozen from Fort Worth and Dallas.

Local shooters are busily practicing for the even and it is probable that at least twenty members of the Ranger club will enter. Grooms made the high score at the practice shoot held Tuesday, with 47 out of fifty. Other scores were:

Cook 50 43
Faubion 50 39
Gwyne 50 37
Lowry 50 37
Day 50 35
Wallace 50 34

A high wind was blowing across the grounds, making good shooting very difficult.

The loss of population in France due to the war has been estimated at 4,000,000.
