NATION-WIDE RAIL STRIKE LOOMS

ENGLAND ASKS TIME OF JAPS FOR NEW PACT

British Officials Have Not Considered Treaty Question Is Reason Assigned.

LONDON, June 28.—Great Britain has asked Japan for three months' delay in renewing their alliance, the United Press was reliably informed today. The reason advanced in a note asking the postponement was that the conference of the British premiers is just beginning to consider the question. Britain, it is said, desires that the premiers shall reach a decision before a new treaty is signed. No mention was made of the American attitude towards the alliance.

T. P. MAN WOULD DRIVE CAR IN ABILENE RACES

Does any Ranger man want to enter a car in the races at Abilene on the Fourth of July? If so, M. M. McCoy of the Texas & Pacific Coal & Oil company, an experienced race driver, has volunteered to drive it. He is now in Fort Worth on account of an injury to his eye, but will be back in Ranger in a few days, and may be communicated with at the Tee Pee's garage.

MANY ENTRIES EXPECTED.

ABILENE, June 28.—With indications pointing to an entry list of well over twenty cars and drivers, the West Texas Fair association, promoters of the July Fourth automobile races to be staged on the new speedway here, is assured of bringing together the biggest aggregation of racing talent which will be seen on a southern track this year. Fourteen signed entries already have been received, with last minute contestants expected to come in in considerable numbers. Those who have signed entry blanks so far are: Hilley, Abilene, Essex special; Reeder, Abilene, Essex special; Ahl, Sweetwater, Apperson special; King, Cleburne, Mercer special; Melan, Dallas, Ford special; Adkins, Sweetwater, Stutz special; Stewart, Dallas, Gillette, Horton, Cleburne, Ford special; Fields, San Angelo, Ford special; Shafer, Fort Worth, Dusenberry; Milburn, Fort Worth, Ford special; Kerley, Denton, Ford special; Kerley, entry No. 2, Denton, Ford special; Whitney, Albany, Ford special.

The races will be run under the rules and with the sanction of the contest board, A. A. A., Royal A. Ferris Jr., of Dallas, acting as official starter and A. A. A. representative. Cash prizes hang up for the events scheduled aggregate \$2,500. The races will begin at 1 p. m., and will last throughout the afternoon. Preparations are being made to care for the biggest crowd ever assembled at Fair park.

GAINES COUNSEL ASKS FEDERAL COURT FOR WRIT HABEAS CORPUS

DALLAS, June 28.—Every defense motion including a plea in abatement and change of venue having been overruled in the state courts, counsel for Charles E. Gaines, alleged participant in the Jackson street postoffice robbery, applied to the federal court today for a writ of habeas corpus to remove the defendant from the jurisdiction of Texas courts. Federal Judge James C. Wilson, in whose court Gaines is under indictment for mail robbery, opened hearing on the application today. Meanwhile a special venire of 300 men have appeared in the state criminal court, Judge Phippen having ordered selection of the jury to try Gaines on the murder charge. The defense counsel in applying for a writ of habeas corpus, asserts Gaines was removed from Indianapolis, where he was arrested, to Dallas on a federal warrant charging mail robbery and that Texas courts are without authority to try him on another charge.

AUTO FLIRTING

DALLAS, June 28.—Two young men were fined in corporation court here yesterday for "flirting with an automobile siren." Police officers said the pair sat in an automobile at a busy corner and attempted to attract the attention of fair pedestrians through honking the horn.

NO SNOW STORM!

By United Press. WASHINGTON, June 28.—The Dempsey-Carpentier fight will be held under a hot sun, unless all weather signs fail, the weather bureau stated today. Present indications point to a clear and hot day for Jersey City on July 2, the day of the scrap. A thunder shower may wander over the ring, the bureau warned, as showers were held probable in widely scattered parts of the middle Atlantic states.

ATTEMPT MADE TO STOP BIG FIGHT IN N. J.

Issuance of Counterfeit Tickets Charged and Injunction Sought in Court.

JERSEY CITY, N. J., June 28.—An attempt to stop the championship fight here Saturday was made in chancery court here today. Robert Watson, president of the international reform bureau, accompanied by counsel and five local clergymen, asked Vice-chancellor Stevenson to issue an order directing Tex Rickard and other promoters of the fight to show cause why an injunction should not be issued against it. There was no one present representing Rickard when the clergymen appeared. An effort was made to obtain a quick decision from the chancellor, and it was understood other cases being tried would be set aside.

H. C. Gilson, representing the reform bureau, declared that those promoting the fight were issuing the counterfeit tickets which have appeared in some eastern cities. It was announced that the motion to have the fight stopped would be urged on four grounds.

These allegations were: That the bout is to be a prize fight, not an exhibition. That the promoters are engaged in a gigantic swindling scheme through the issuance of counterfeit tickets. That the fight will attract undesirable to Jersey City. That it will be demoralizing to youths.

John Milton, corporation counsel of Jersey City, arrived at the court room shortly before the hearing opened. He said he had been asked by Tex Rickard to appear as attorney in opposing the motion. Gilson declared he was prepared to support the argument that the fight promoters aided in causing counterfeit tickets to be printed.

The clergymen with Watson were James B. Parker, Jorman Brace, Frank H. Potter, Wm. Parsons, Harvey Del Wyatt, all of Jersey City. An appeal was made to Prosecutor P. P. Garvin yesterday to stop the fight. A quick ruling was expected, as Chancellor Stevenson had another case to hear during the afternoon.

Vice-Chancellor Stevenson today declined to act on a petition for an injunction to prevent holding the Dempsey-Carpentier fight here next Saturday. Stevenson gave representatives of the international reform bureau permission to go before another judge with the application.

Stevenson warned the attorney for Robert Watson, president of the reform bureau, and five other applicants that the petition would have to be renewed before another chancellor.

Stevenson's reasons for not passing on the petition was that he was leaving on a vacation and would not have time to study the case. Before declining to act he stated that he did not see how a court of chancery could grant an injunction to prevent "damage to the morals of the community." He also said that a court cannot grant an injunction before crime is committed.

DALLAS, June 28.—Tony Manicchia, 22, was found dead in his bed early today, a bullet through his head and a 32-calibre revolver by his side. Mrs. Manicchia told police she was awakened by a shot and rushing into her husband's room found the body lying on the bed.

NO TYPHOID!

The public health in Ranger is in excellent condition, according to Dr. C. O. Terrell, city health officer. All cases of contagious diseases are supposed to be reported to the health physician and he said yesterday that his records only showed five cases of typhoid fever since Jan. 1 and no deaths. As far as Dr. Terrell knows there are no cases of this disease now.

COAL STRIKE IN BRITAIN HAS BEEN SETTLED

Miners Accept Government's Terms and Will Resume Work Immediately.

LONDON, June 28.—The British coal strike has been settled, it was officially announced today. The miners accepted the government's terms. Work in the coal pits, idle almost three months, will be resumed immediately.

The settlement was understood to have carried a government subsidy to guarantee wages and prevent losses to the colliery owners. The latter were said to have made important concessions in the matter of wages. It was stated unofficially that the miners abandoned their demand for nationalization of the mining industry. That demand was the principal obstacle in the way of a settlement at previous conferences.

Secretary Frank Hodges, of the miners' union, promised that the men will accept the settlement reached in conferences here. Parliament was expected to approve a subsidy, although conference look for a spirited debate before action is taken. It is understood that Lloyd George will ask parliament today, to authorize the granting of £10,000,000 subsidy to the mining industry. The miners will resume work generally on Monday if the subsidy is granted. The government offered the subsidy recently but withdrew it.

JUDD'S BODY TO BE CREMATED AT ROCHESTER

The body of B. A. Judd, Ranger citizen who died at the Mayo Brothers' sanitarium in Rochester, Minn., will be cremated. According to advices in Ranger, this was one of his last requests and has been acceded to by Mrs. Judd. The cremation will take place in Rochester.

With the death of Mr. Judd went a living example of indomitable courage. Legless, the result of a railroad accident many years ago, he did better than many men who are almost perfect physically. He produced a good living for his family and laid something by until at the time of his death he was comfortably fixed. He never at any time, his friends say, thought of asking or accepting aid because of his physical affliction. Rather the reverse.

In Ranger he was known as "The Popcorn Man," because operating an elaborate popcorn machine on Rusk street was his main day by day business. But he had other sources of income. He only recently built a two-story brick building on Rusk street. During the boom days he dealt in leases and in spite of the fact that he went about on two pegs he was known as a hustler. It is said by his friends that many times when they had a desire to win over their lot that just thinking of Judd facing the world on two pegs while they had two good feet made them ashamed and brought new courage.

STATE WANTS WOMEN JURY IN KABER TRIAL

CLEVELAND, Ohio, June 28.—Trial of Mrs. Katherine Kaber opened here this morning. Mrs. Kaber is the first of six persons to go on trial for first-degree murder, in connection with the killing of her husband, Daniel E. Kaber, wealthy Lakewood, Ohio, publisher, in July, 1919.

Two or three days are expected to be consumed in the selection of a jury. Counsel for Mrs. Kaber have publicly admitted they will do everything in their power to keep women off the jury, claiming they are merciless and cold-blooded when sitting in judgment on one of their own sex. The state is equally as insistent that the jury be largely composed of women.

Indications today were that Mrs. Kaber's trial will result in a battle of medical experts. A plea of temporary insanity will be entered by her counsel. Kaber was stabbed to death as he lay in bed, paralyzed with neuritis. The state contends that while Mrs. Kaber did not actually commit the murder, she, through Mrs. Colavito, also under indictment for first degree murder, hired two Italian assassins who killed Kaber. The state also will bring out that previous to the stabbing, arsenic had been sent Kaber.

BRITISH RULERS AT OPENING OF ULSTER PARLIAMENT

This recent photograph of the king and queen of England shows them in their royal robes. All of Belfast turned out to greet the British rulers, who came there aboard their yacht Victoria and Albert to be present at the state opening of the Ulster parliament. The greatest precautions were taken to safeguard the royal pair. At least 4,000 troops standing shoulder to shoulder, with bayoneted rifles, lined the route. These troops were supplemented by some 1,000 members of the Royal Irish constabulary.

REPUBLICAN ADMINISTRATION HOPES TO SAVE GOVERNMENT BILLION DOLLARS DURING YEAR

President Harding and Director Dawes of Opinion New Federal Budget, If Put Into Operation Immediately Will Effect Saving of 25 Per Cent.

WASHINGTON, June 28.—A billion dollar cut in government expenditures during the year beginning July 1, was the hope of the Harding administration today. Congress has appropriated about \$4,000,000,000 for the year beginning July 1. By putting the new federal budget into operation immediately, instead of waiting a year, as originally planned, President Harding and Charles G. Dawes, budget director, hope to make a 25 per cent saving. The plans will be explained tomorrow to a group of cabinet officers, bureau heads and chief clerks, where President Harding will preside. It is the first meeting of his kind ever held.

Ku Klux Klans Visit Orphanage in San Antonio and Leave \$100 Check

SAN ANTONIO, June 28.—The Ku Klux Klan in San Antonio has been heard from. At an early hour this morning, three unmasked strangers, garbed in citizens' dress, appeared at the Protestant orphan's home, and left a \$100 bill for the orphans. In handing the matron the money, the strangers gave her a letter, telling her to closely follow instructions. The letter, bearing the signature of Ku Klux Klan No. 31, San Antonio, stated the objects of the organization, and instructed the matron to use the money for the benefit of the orphans. Enclosed in the letter were copies for the newspapers.

HEARINGS HELD HERE ON RANGER REFINERY RECEIVERSHIP FUSS

June 29 is the date set for hearings in Ranger in connection with the receivership of the Ranger Refining & Pipe Line company. These hearings will be held in the offices of Marks & Flaherty, before William Berne of Fort Worth, special commissioner, who has been appointed to take evidence bearing on the dual receivership. At a recent hearing in Kansas City, evidence was taken to support the contention that the Kansas City court should appoint the receiver, and the Ranger hearing will largely present the side of those supporting the Abilene court.

After the hearing, Judge Berne is expected to render a report as to which receiver should have jurisdiction.

G. O. P. HOUSE LEADERS WILL SUPPORT BORAH DISARMAMENT PLANS

WASHINGTON, June 28.—House Republican leaders have decided to support the Borah disarmament plans, it developed today. This virtually insures prompt enactment of the proposal, which calls for a disarmament conference by the United States, Great Britain and Japan. Representative Kelly, Michigan, in charge of the naval appropriation bill, said he would ask the house to accept the proposal which has already been approved by the senate. He has the backing of the majority Republican leaders and Democrats in the house.

TEN GREYHOUNDS TAKE ALL OF CAT'S NINE LIVES

MINNEAPOLIS, June 28.—Cloves, famous as a beer drinking cat, known to frequenters of the once noted saloon row in the theatrical district, is dead here. Last night Cloves ventured into an alley near a theatre where she met ten greyhounds comprising a part of the show. She fought them all, but her proverbial nine lives were not sufficient to triumph.

SHOPMEN STRONGLY FAVOR REJECTING BOARD'S WAGE CUT

Decided Opposition of Shop Workers Comes as Surprise to Labor Leaders Who Believed Reduction Would Be Accepted by Small Majority.

CHICAGO, June 28.—Strike of railroad workers loomed today, when it became known that shop employees over the country had overwhelmingly voted to reject the 12 per cent wage cut ordered by the United States railroad labor board July 1. The result of the referendum taken among shopmen and forwarded here to the national headquarters of the railroad department of the American Federation of Labor today showed: For the decrease, 48,000. Against the decrease, 325,000.

SEND KU KLUX TO JAIL, GRAND JURY IS TOLD

Austin Judge Says Penalty Is From Three to Five Years.

AUSTIN, June 28.—Posting of anonymous notices intended to interfere with the rights of citizens is made a felony under Article 1189 of the penal code, which affixes punishment of three to five years in jail. This article of the penal code was cited by District Judge Jas. R. Hamilton of Travis county in his charge to the grand jury which is to investigate the posting of Ku Klux Klan notices.

"If the article in question is not strong enough, the governor may ask the special session of the legislature to strengthen it. He is known to be opposed to mob methods," the judge said.

TWO AVIATORS RENEW FLIGHT TO MINEOLA

FORT BLISS, Texas, June 28.—David R. Davis and Eric Springer, aviators who were forced to land here late yesterday on a transcontinental flight from Riverside, Cal., to Mineola, L. I., resumed their journey at 5 a. m. today. The big machine took off headed toward Dallas, Texas, where it was said the aviators might stop if further engine trouble developed. Springer said just before leaving this morning that they would attempt to make New York without stopping and hoped to do it in 22 hours. Distributor trouble forced the landing.

G. O. P. HOUSE MEMBER WANTS TO ELIMINATE PORTION OF RED TAPE

WASHINGTON, June 28.—Representative Anson of New York issued a statement today asserting that the new Republican members of the House are dissatisfied with the progress made by Congress at the special session and that ten others joined him in the call to approximately 100 new Republican members for a conference tomorrow night to discuss the situation. Representative Anson said: "We are not meeting in any spirit of revolt. The new members want to cut some of the red tape and substitute action for delay."

SOUND SLEEPER

While D. S. Thomas slept within ten feet of his garage, automobile thieves last night cut a log chain with which the garage door was locked and stole his Ford car. The theft occurred at Mr. Thomas' home in the Pleasant Grove neighborhood. He told police officials "that the chain was almost as thick as his little finger."

FICTITIOUS NAME BLANKS AT C. OF C.

Application blanks on which firms may file their reports to the county clerk under the fictitious name law have been received at the Chamber of Commerce. They will be distributed to all applicants. These blanks must be filled out by all firms and filed with County Clerk Bender by July 11.

Vote Is Surprise.
The decided opposition of the shop employees came as a big surprise to labor leaders, who believed the cut would be accepted by a small margin. There are 600,000 men who belong to the railroad department of the American Federation of Labor. These men work on every carrier in the country.

The attitude of the four big railroad brotherhoods towards the wage slash will not be known until the brotherhoods' chiefs meet here Friday. At that time the chiefs will vote to accept or reject the cut.

If the cut is rejected, then the proposal goes to a vote of the membership. The present rail crisis was precipitated when the railroad board, after hearings for several months, cut the men approximately 12 per cent, which is an aggregate saving to railroads of \$400,000,000 a year. The last big boost the men received amounted to \$600,000,000. Leaders, who will not allow themselves to be quoted, are against a strike at this time. They will, it was said, unofficially conduct post-vote negotiations with the men, to try to induce them to accept the cut.

LLOYD-GEORGE AWAITS ACTION OF DE VALERA

(United Press Correspondent.) LONDON, June 28.—Premier Lloyd George today awaited "President" De Valera's assent to a conference on Irish peace.

The British cabinet will meet tomorrow, and it is expected that it will then receive Ulster's acceptance of the premier's peace bid. British officialdom is prepared to see some of the most conspicuous Sinn Fein leaders at the conference. All reports from southern Ireland have been to the effect that De Valera will insist on having with him those Sinn Fein leaders who have been most obnoxious to the British.

There was believed to be a possibility that De Valera will demand permission to call a session of the Dail Eireann to consider Lloyd George's invitation. This permission would mean at least temporary release of a score of Irish prisoners.

BRECKENRIDGE WELL IGNITES AND DERRICK TOTALLY DESTROYED

BRECKENRIDGE, June 28.—A spectacular fire occurred Sunday when a brush fire ignited the Snowden & McSweeney Acker's No. 2, two miles north of town, and the flames spread to a nearby creek, where the heat broke two pipe lines. The grounds about the well were being cleaned when a shift in the wind caused the derrick to catch and in a few minutes it was a pillar of fire. Sparks ignited waste oil on the creek and the steady inflow of oil from the broken pipes caused a considerable conflagration. The blaze was extinguished by steam lines and cutting off the pipe lines. The derrick was a total loss but the control head and flow lines withstood the heat and the well was otherwise not injured. Principal loss in oil was sustained through the breaking of the pipe lines.

FICTITIOUS NAME BLANKS AT C. OF C.

Application blanks on which firms may file their reports to the county clerk under the fictitious name law have been received at the Chamber of Commerce. They will be distributed to all applicants. These blanks must be filled out by all firms and filed with County Clerk Bender by July 11.

STORE ROBBED WHILE STREETS ARE CROWDED

Humes Loses \$3,000 Between 8 and 9:30 p. m.; Robbers Knew Store.

With the store windows brilliantly lighted and the streets full of folks, burglars last night entered Humes' women's ready-to-wear store on Marston street and stole merchandise valued at \$3,000. The theft occurred between the hours of 8 and 9:30 o'clock.

So far as Mr. Humes has been able to check this morning, twenty-five silk dresses and ten women's suits, the highest grade merchandise, were taken. Many of the dresses and suits cost him as high as \$80 each wholesale, and none less than \$50, he said. Everything points to the fact that the burglars knew both the layout of the land and had expert knowledge of dress goods. The coverings of a rack containing popular priced dresses show that the thieves examined the goods on the rack and then left them. The covering was pulled down and four of the dresses had been allowed to drop to the floor.

Knew Where to Look.

The finer merchandise at the Humes store is kept in small lockers to prevent it from becoming soiled. The lockers containing the highest grade merchandise was the only one opened.

The method of entrance and egress also points to the fact that the persons doing the stealing knew just what they were doing. In securing entrance, one of the heavy bars at a back window was pried loose with a heavy piece of timber. Tinners' shears was used to remove the heavy wire covering the opening. With the removal of the bar an opening was made through which a small man can pass. This led into the lavatory, the door of which was locked. The lock was broken.

Leave Shears.

After securing their loot the thieves took the key which was found in the lavatory door and opened the door of the store, leading into the vacant lot behind it. Police officials found the shears behind the building last night after being notified of the robbery.

Mr. Humes left his store at 8 o'clock to attend a meeting of the Retail Merchants' association. An hour and a half later he returned to turn off the lights in his display windows and found that the robbery had occurred.

The police were notified and it is their theory that the merchandise was carried away in an automobile and this morning is many miles away.

INDIGNANT HUSBAND PLACES HIGH VALUE ON MENTAL ANGUISH

CHICAGO, June 28.—David B. Chittenden, a \$10,000-a-year executive, suffered mental anguish at the rate of \$200 a minute while under arrest here recently.

He placed this value on his sufferings when he filed suit for \$50,000 damages against his wife, Mrs. Nellie M. Chittenden, blaming her for his arrest. He was held four hours in the sheriff's office.

Mrs. Chittenden had previously brought suit for separate maintenance, alleging her husband had become infatuated with an unnamed woman. A writ issued in her suit was given to deputy sheriffs to serve. They took Chittenden into custody and held him for four hours before he arranged bond for the maintenance suit.

PARLIAMENT OF SOUTHERN IRELAND OPENS AT DUBLIN

DUBLIN, June 28.—The southern Irish parliament, established by the home rule act, opened here today.

PIE CHANGES HANDS.

GALVESTON, June 28.—Fred Pabst, collector of customs here, after serving seven years, has forwarded his resignation to Secretary Mellon. His successor has not yet been announced but it is believed that R. W. Humphries, a personal friend of President Harding, will be appointed.

OLD CORNFEDS GATHER.

BRYAN, June 28.—Hood's brigade, which served in the army of Virginia during the war between the states, met in the fiftieth annual reunion here today, Capt. W. C. Walsh presiding.

"SPOONERS' PARADISE" GOES UP IN FLAMES

CHICAGO, June 28.—Oak Park is in the throes of a desperate dispute—all hinging on a mysterious fire.

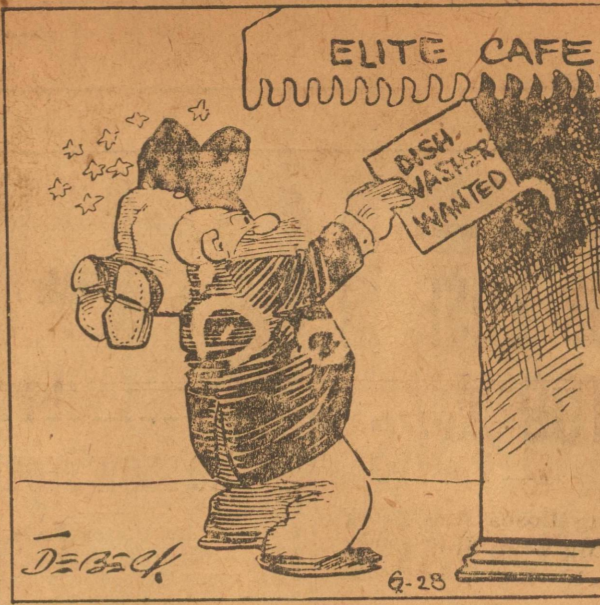

An abandoned church property recently caught fire at night. It was saved from total loss only through the valiant work of volunteer firemen—all very young men.

The youthful firemen said the building had been fired by an incendiary and are now staging amateur sleuth hunts throughout the fashionable suburb. They are aided by scores of blithesome lassies.

You guessed it—the building was Oak Park's "Spooners' Paradise."

Neighbors recently appealed to police to chase the spooners from the church property, but the police remained neutral. Now Cupid's followers declare the neighbors tried to take the law into their own hands.

Barney Couldn't Eat a Date Three Years Old

OH! DOUBLE CROSS! MORPHINE ADDICT WAS GUILTFUL DECEIVER!

String From Window Was Source of "Gratitude" for "Deliverance From Drug," She Says.

In respect to you, Oh! Double Cross! a humble world silently bows its head. Your tongue speaks soft words but your actions kicketh like a bay steer.

It came to pass some weeks ago that a girl, fond of the wicked god contained in morphine, was found penniless and alone on the edge of Ranger. She was carried to a hospital. Nurses became your friend, Oh! Double Cross! And one simple newspaper reporter, who long has prided himself on his knowledge of your ways, used up his best and highest priced adjectives telling a sympathetic city how that girl was fighting with rare courage against the morphine god. She ate and slept. And for ten days; she told nurses that the craving was going away; that she was being cured.

Soft Words.

Soft words, speaketh, Oh! Double Cross! Again the simple one sought one Noah Webster. Many adjectives that dripped with feeling were polished to the most brilliance of which the simple one was capable. She was found a job and went away from the hospital. Three days later she went away from her job.

Yesterday in a local rooming house she was arrested. The simple reporter came by and she, Oh! Double Cross! She told him how she let a string to the sidewalk, six stories below, and pulled up enough of the drug at one operation to last her during her entire stay in the hospital, even while nurses zealously guarded her door to keep fellow worshippers of the wicked god from slipping her the "dope."

Just Instinct.

Instinct told her to lower the string; instinct or former experiences had taught the one on the sidewalk where to find it. The rest was easy. Very subtle is your work, Oh! Double Cross, when driven by the craving that the drug habit gives its victims.

On the first night that the girl was in the hospital a man called to see her. He was refused. She knew that he was there. After that the thought of the string followed, and in perfect peace and contentment the girl ate and slept and waited until she was cured(?) so that she could be discharged.

NEGROES DIE TWICE AS FAST AS WHITES IN ST. LOUIS, REPORT SAYS

ST. LOUIS, June 28.—The death rate of negroes in St. Louis was double that of the whites during the last fiscal year, according to the report of John Schmoll, director of public welfare.

Director Schmoll attributed the condition to improper housing and a careless manner of living. Under-nourishment of children also is blamed.

In the report, Mr. Schmoll stated that deaths from tuberculosis among negroes was three times greater than the death rate tubercular whites. He disclosed that the death rate among negro children was fifteen times greater than among white children.

Warning that the "appalling" death rate from tuberculosis among negroes is a menace to the health of the entire population, Schmoll recommended that a commission of sanitation experts be appointed to investigate health conditions among negroes.

HOMEOPATHS WOULD SPARE HARDING AS A HANDSHAKER

WASHINGTON, June 28.—President Harding's task in having shaken hands with more than 1,500 persons during his reception to delegates to the American Institute of Homeopaths' convention aroused compassion among the doctors at their closing session today and a resolution proposing that presidents hereafter be relieved of that custom was introduced.

It was voted down, however, speakers declaring the president should be permitted to attend to his own business.

LESLIE ESTATE SPENT ON WOMAN SUFFRAGE

NEW YORK, June 28.—Mrs. Carrie Chapman Catt, who was the legatee receiving the \$1,354,389 estate of Mrs. Frank Leslie, has announced that \$500,000 of the estate had been spent for woman suffrage work in the United States and that the remainder would soon be consumed in the Philippines, Porto Rico and Hawaii.

EASTLAND MAN DEAD FROM EFFECTS OF ACCIDENT LAST SUNDAY

EASTLAND, June 28.—J. E. Cross, aged 45, an employee of the Texas Construction company, who built the \$5,000,000 power plant for the Oil Belt company near here, died last night from injuries received Sunday at the latter's plant.

Mr. Cross was changing some wires in the plant and was on a scaffold several feet from the floor. Accidentally his head came into contact with a live wire. The wire carried several thousand volts and the shock stifled his body and rendered him unconscious.

He fell from the scaffold and hit on his head, causing a bad fracture of the skull. He was immediately rushed to the Johnson & Payne sanitarium here where a clot of blood was removed from his brain.

Several thousand volts passed through his body and physicians have stated that either the shock or the fall, which fractured his skull, was sufficient in most cases to cause death. From the position in which Cross was found, it is thought that the shock paralyzed him, causing the muscles in his body to tense and he tumbled from the scaffold and fell squarely on his head.

Mr. Cross, whose home is in Fort Worth, has been an employee of the Texas Construction company for over a year in the capacity of electrician. He has relatives in Fort Worth, who have been notified.

GRAND JURY EXPECTED TO PROBE ROAD MATTERS

EASTLAND, June 28.—The Eastland county grand jury of the 91st district court reconvened Monday after a recess of several days and will attempt to wind up the business before it. It is said that in accordance with the charge of the judge that certain road matters will be looked into at this sitting, and other matters of importance are to come before the body.

Earth mixed with articles of food, is eaten by the natives of Borneo and some tribes of North American Indians.

FORT WORTH TRIP CAUSES FORGERY CHARGE AGAINST BRECK WOMAN

BRECKENRIDGE, June 28.—Three indictments for forgery were returned by the Tarrant county grand jury against Mrs. Dan C. Davis nurse at a local hospital, according to Sheriff Carl Smith, who requested her arrest.

Sheriff Head made the arrest yesterday and Mrs. Davis was taken to Fort Worth in charge of an officer. She is accused of forging three checks on a Breckenridge physician while on a trip to Fort Worth.

HIGH COURT JUDGE IN AUSTRALIA DOESN'T LIKE OUR SPELLING

SYDNEY, N. S. W., June 28.—Sir Adrian Knox, chief justice of the high court of Australia, does not approve of the modern American method of spelling a number of words.

Last month an affidavit was presented in the high court, containing an extract from a letter written in America, in which the English word "programme" was Americanized to "program."

His honor said he would like Americans to know that Australia was not a dependency of the United States. The spelling of English words should be done in the proper way. The high court, he said, was quite content to adhere to the good old style of English spelling. Having pointed to the spelling of "centre" as "center" his honor hoped that this method of orthography was not taught in the schools. "This is an Americanism I abhor," he added.

Referring to the incident W. F. Gates, inspector of schools in Victoria, declared that the chief justice had paced himself in antagonism to the Philological societies of Great Britain and America and to Murray, the recognized modern lexicographer. The Victorian education department had adopted a small number of simplifications of spelling such as "program," "center" and "plow." It had also adopted the ending "ize" instead of "ise." The diphthong "ae" had been dropped, too.

"But," declared Mr. Gates, "for every simplification there is the highest English authority and it is therefore not correct for Sir Adrian to refer to 'program' and 'center' as American spelling just because these words are so spelt in the United States publications."

MILLIONS IN TREASURE IN MEXICAN CAVE

SAN ANTONIO, June 28.—One man in the world knows the location of the Cavallo Blanco cave in old Mexico, and knowing it may result in his becoming a possessor of \$73,530,000 in gold and silver.

Adam Fischer, recently returned from Mexico, said he had re-located the Blanco cave, with its great treasure trove. He discovered it once before, but was unable to find it when he returned.

Fischer is now awaiting the decision of the Mexican government on his application for a concession to remove the hoard.

The story of the gold and silver bars and Spanish octagonal dollars dates back to 1810. At that time, during a revolution against the Spanish government, it is claimed that officers of the government and army took the gold and silver from the treasury and hid it in the Cavallo Blanco cave in the Cerro de Silla mountains, near Monterey, in the state of Nuevo Leon.

Hundreds have spent their lives in the search for the treasure, according to Fischer, but he alone has discovered its hiding place.

If Fischer gains possession of the great fortune he plans to erect a \$2,000,000 monument on Alamo Plaza to the heroes of the Alamo, and also make other munificent municipal gifts.

MOONSHINERS' PARADISE.

By International News Service
OREGON CITY, Ore., June 28.—It cost Clackamas county absolutely nothing to hunt moonshine. The occupation is self-supporting. Last month \$828 was paid in fines by brewers of the deadly concoction, which more than met the expenses of prosecutions, search and salaries of the officers employed.

RANGER SCHOOL OF MUSIC and ART

NITROS LOSE IN NINTH WHEN TOO MANY ACCIDENTS BEFALL

Home Gang Loses After Overcoming Big Lead and Going One to the Good.

ACCIDENT—A befalling; an event that takes place without one's foresight or expectation; contingency, often of an unfortunate character; casualty, mishap.

Accidents cost the Nitros a ball game yesterday. Accidents which plentifully besprinkled the ninth run.

Up to that time the Nitros had played a fair to middling game of ball. There had been a few befallings, but their effect had been offset by events without one's expectation, and contingencies of an unfortunate character were entirely unlooked for.

But in that fateful ninth, with the Nitros one run to the good, Robertson playing short and York covering first, accidents befall. There were too many mishaps and not enough casualties. As a result, the Nitros lost a ball game, 7 to 6, for expectations were not realized in the final half.

That the Nitros entered the last inning one run to the good was itself something to talk about. For they had overcome a five-run lead hammered out by the Swatters, while throwing the first three sessions into the discard, useless and no account. Then in the sixth, Charley Clapp had sailed the apple far over the wire netting, and with Carter turning in one of his best-pitched games this year—after the first round—that one score looked like enough. But then, things went wrong without one's foresight or expectation. One's friend returns from El Paso, or one's boss raises one's pay, for instance.

What happened in the ninth was this: Robertson booted Obst's grounder. Carter caught Obst off guard and had him scrambling for the bag in the dust—and York dropped the throw. Obst went out at second when Ezell hit to short. Ezell stole second, stayed there while Robertson, racing backward, leaped into the air and dragged down Neely's liner with one hand, but moved on to third when York dropped Thrash's fly into short right field. That was the third chance to get three out. The Swatters suddenly awoke to the fact that fortune was winking at them and set out to find if she really meant it. She did, for Byers hit a grounder to deep short which Robertson touched but could not handle and Ezell crossed the pan, knotting the score. Then Whitney lifted a high fly to right, not over, but just too high for Lovely to gather in, though he leaped his highest. That put Thrash over with the winning marker.

All Else Scenery. The story of the ninth, with its accidents, its hopes and fears, was the story of that ball game. Everything else was just scenery, but there was quite a little of that. Three hits in a row following a walk and Hamilton's miscue, allowed the Swatters four markers before the game had progressed through the first inning. Thrash's clear homer to the center field wall added another in the third. Then came the resurrection. Clapp's hit, a shot in the slats to York, Singleton's bunt toward first which he beat out, filled the bases. Tate drew a pass, forcing Clapp across with the first Nitro run. Hamilton and Lovelace followed with solid swats, putting three more runs over the pan. Robertson hit to Whitney, who tried to tag Hamilton, failed, but threw Lovelace out at second. Then with the double steal on, Hamilton slid home with the tying run. It was a feat well worthy of the Chattanooga salute.

Charley Clapp's homer in the sixth put the Nitros in the lead, where they remained until the accidents befall. The score:

Nitro Notes

Two catches good enough for any league were made yesterday, both in the ninth inning. They added a saving grace to an affair about which it is hard to say much. Our own Robertson pulled one when he turned his back to the stand, ran a few steps, leaped into the air and dragged down Neely's liner with one hand. It was sheer robbery. Then in the second half, Whitney, headed for the club house at full speed, took Charley Clapp's foul as it came down over his head. The play put an effectual plug in the Nitro attack.

Bill Sorrels is something of a comedian, at that. When some of the crowd began to help him umpire, 'long about the fourth inning, he just quit calling 'em. It took just about three serves for the hardest riders to be pleading for mercy. "Oh, Bill, tell us what they are," they said. "We're just playing with you." Then Bill relented and all was serene until a wild pitch took him on the shin in the sixth. After that he posted a "To Let" sign on the space back of the plate and moved out where the pitcher could protect him.

Error in grammar—baseball variety. "I HAVE it," yelled Jody Tate, as he took Mason's fly in the sixth. Thereby Jody gets credited with an error—in grammar, a la baseball.

"The bigger the chew the longer the knock" is the motto of one of Thrash, who left fields and home runs for the Swatters.

Popboy Smith sat in the pressbox yesterday. But then, things went wrong without one's foresight or expectation. One's friend returns from El Paso, or one's boss raises one's pay, for instance.

What happened in the ninth was this: Robertson booted Obst's grounder. Carter caught Obst off guard and had him scrambling for the bag in the dust—and York dropped the throw. Obst went out at second when Ezell hit to short. Ezell stole second, stayed there while Robertson, racing backward, leaped into the air and dragged down Neely's liner with one hand, but moved on to third when York dropped Thrash's fly into short right field. That was the third chance to get three out. The Swatters suddenly awoke to the fact that fortune was winking at them and set out to find if she really meant it. She did, for Byers hit a grounder to deep short which Robertson touched but could not handle and Ezell crossed the pan, knotting the score. Then Whitney lifted a high fly to right, not over, but just too high for Lovely to gather in, though he leaped his highest. That put Thrash over with the winning marker.

THUMBNAIL SKETCHES.

BILL BRENNAN GOT GOOD DAY'S WORK OUT OF JACK DEMPSEY

By Associated Press.
The only boxer that ever got a real good day's work out of Jack Dempsey was Bill Brennan. Usually Jack knocks an opponent out in the first two or three rounds and collects his day's wages. But somehow or other Bill is one of those fellows who can't get to sleep right away. Once it took six rounds for Dempsey to quiet his nerves and on another occasion Bill remained awake twice that long.

This second occasion was last December at Madison Square Garden. Brennan was sure feeling fine that night. He acted as though he had just taken a shower under the Fountain of Youth and instead of sticking around wondering which way to dodge next, he stepped up and showed the champion all his stuff.

Some of it didn't seem to sit very well with the king of fighters. Early in the bout Brennan handed him a

wallop that for a moment seemed to daze the head that wore the crown. A little later on his glove slashed Dempsey's mouth and after a while other corpuscles began to take the air in the vicinity of the champion's ear. The experts said Brennan carried the fight to Dempsey for ten rounds. Some skeptics believed the champion carried that long to give the movie fans a treat. Other people whispered that the real low down on the thing was that Dempsey had not trained hard for the scrap and was not in good condition. The fact remained that none of his caveman punches were in evidence during the early part of the fight.

He assembled one of these wallops in his left arm during the twelfth round and let it loose upon Brennan, squarely amidship. The big challenger's body assumed the posture of a half-opened pocketknife, his head dropping almost to his knees. Fighting hard against the approaching end, he spread out his legs and remained up. While swaying in this position Brennan received a sound smash on the jaw and fell to the floor.

BEARCATS NICK GASOLINE GUS; BRONCS LOSE

SAN ANGELO, June 27.—Ballinger Monday afternoon stopped the flying Bronchos, who had won nineteen of the last twenty-three games played. The score was 6 to 2.

Cantrell yielded only six scattered blows, getting perfect support, featured by the work of Fuller, who got eight assists and six putouts. Burleson on the other hand, was touched for nine hits, some for extra bases and in the pinches.

The visitors scored twice in the first inning and in the eighth broke the tie resulting from one Broncho run in the sixth and another in the seventh. Two more came in the ninth.

The score:

Players—	AB.	R.	H.	P.O.	A.	E.
Fuller, 2b	4	2	1	6	8	0
Briscoe, ss	5	1	1	1	6	0

THE NEGRO LEAVING THE SOUTH.

A strong side-light is cast upon the ugly tales of violence at Tulsa and East St. Louis by the figures of white and colored population in the United States made public yesterday by the census bureau.

The white population of the country from 1910 to 1920 increased 16 per cent against 22.3 per cent in the previous decade. The difference was due to the war, and the consequent cessation of immigration. If the excess of immigration over emigration were excluded from the totals the natural growth of the resident population would still show a substantial gain.

The negro population of the country gained only 6.5 per cent against 11.2 per cent in the previous decade and 18 per cent from 1890 to 1900. The birth rate has declined; the high death rate remains but little changed.

The altered distribution of the colored population is sensational. In the south it has increased but 1.9 per cent, which means in many cases actual decline; in the north it grew 43.3 per cent against 16.7 in the previous decade; in the west 55.1 per cent. These mass migrations have been mainly into cities and factory towns. In crowded centers an intensive study of racial ill-feeling would usually reveal a basis of economic rivalry between the races, neighborhood changes and social questions furnishing rather the occasion than the cause of shameful riots.—New York World.

DOG HILL PARAGRAPHS By GEORGE BINGHAM.

Four of the children of Jefferson Pollocks got into a difficulty this morning over a pup, which was badly used up in the trouble.

Dock Hocks, our wide-awake blacksmith, who also runs a barber shop and dental office in respective corners of his establishment, believes that a man should look the part of his profession or trade, and so hereafter, while doing blacksmith work he will roll up his sleeves and wear his hands and face soiled; but when doing barber work he will wear his false mustache, waxed at each end, and his hair roached up; and while presiding in his dental department he will wear his small mustache and part his hair in the middle, and talk sweet to the ladies.

Sim Flinders, who has not worked any for several years, still observes all of the regular holidays.

TUT, TUT! DUCK KIDS TO MAKE 'EM LEARN BIBLE? MEAN THINGS

BOSTON, June 28.—Threats of a ducking in the river may be an effective method of compelling children to learn their Bible but it does not meet the approval of the Massachusetts Society for the Prevention of Cruelty to Children. Agents of the society have recently induced a western Massachusetts mother to adopt more approved educational methods.

Investigators sent out in response to protests from neighbors learned that it was the woman's custom when any of the children failed to give strict attention to Bible study, to place the offender in a burlap bag, throw it over her shoulder and march down to the river bank. Dangling the bag over the cold water with threats of immersion usually brought quick acquiescence in her demand for closer perusal of the commandments and beatitudes.

The plan apparently had been in operation for some time for several of the older children in the large family were found to be able to recite long passages of Scripture without hesitation.

It was the application of the potato bag treatment to the youngest member of the family, a 4-year-old, that resulted in the system being brought to the attention of the Society for the Prevention of Cruelty to Children. No court action would be taken, officials said, so long as the mother kept her agreement not to repeat the performance.

THREE BRITISH BANKERS SENTENCED TO PRISON

LONDON, June 28.—Thomas Farrow, founder of Farrow's bank, the failure of which brought misery to thousands of small depositors, was today sentenced to three years' penal servitude on conviction of having published a false balance sheet.

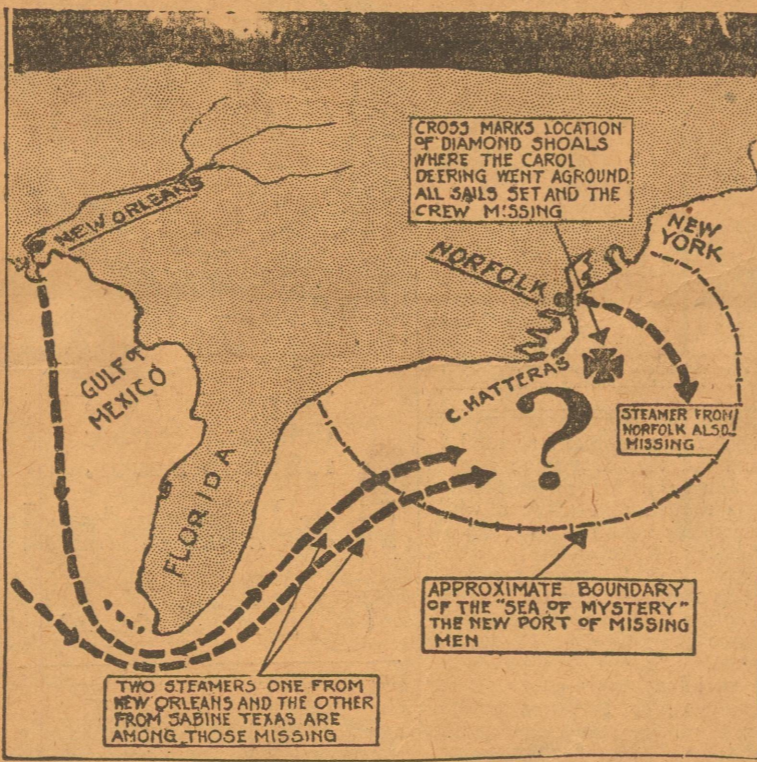

William Wainwright, a partner in Farrow's bank, and another partner, were also sentenced to three years' penal servitude.

"COMING EVENTS CAST THEIR SHADOWS BEFORE"

BY MORRIS

THE "SEA OF MYSTERY"

The seven seas are being searched by ships of the U. S. navy in the hope of finding some trace of the twelve or more vessels which mysteriously disappeared. Government officials in discussing the case hinted at piracy of the kind that harks back to the days of Captain Kidd. One theory is that bootleggers are using the craft in liquor running in the South. The map shows where the Carroll A. Deering is believed to have gone down, while the question mark takes in the territory of the mid-Atlantic seaboard, where other ships are thought to have disappeared.

"CRIME WAVE" GIVES COURT OF CRIMINAL APPEALS BUSY SESSION

AUSTIN, June 28.—With adjournment on Friday, June 24, the court of criminal appeals of Texas closed one of its busiest sessions. The summer vacation of the judges and the court employes began on that day and continues until October.

The "crime wave" which recently passed over Texas was the cause of the busy season, according to members of the court.

There were more than 500 cases for appeals filed in the court during the term from October, 1920, to June, 1921. This number was about 130 more than was filed during the previous term. When the court adjourned there were approximately twenty-five cases of appeals yet to be decided.

The docket this term was unusually crowded with death penalty cases. There were on the day of adjournment eight men in Texas waiting to pay the death penalty. The docket was also heavy with bootlegging cases and violations of the gambling laws.

The members of the court are: Judge W. C. Morrow, presiding, and Judges O. S. Lattimore and Lee J. Hawkins.

MOTHER EVE'S SISTER, OLDEST OF WOMEN, REACHES LONDON

By A. J. WEST, United Press Staff Correspondent. LONDON, June 28.—Eve's sister has arrived in London.

She lies in a square deal packing-case in the Egyptology section of the University College, Gower street, and she doesn't mind in the least being called the oldest young woman in the world.

Professor Flinders Petrie, who has been reawakening the centuries in Egypt, has brought this mummy to London. She is at least 8,000 years old. Beside her Moses is quite a modern young fellow, and to her the twelve Caesars are but yesterday.

She lived in pre-dynastic Egypt, a long before history had begun. She was thousands of years before the Pyramids and before men chipped on stone the record of their lives and times. Although other pre-dynastic skeletons have been discovered in Egypt, this is the oldest preserved body of a woman ever known.

Experts say she was about 20 years old when she died. She lies with her knees drawn up to her chin and one hand resting before her mouth. Her preservation is due to exposure in the sun. She has been sun-dried and then left in the sands of Egypt while empires rose and fell and centuries, like tides, washed over the world.

Most of her bones are exposed, a pale amber color, and here and there a few inches of neatly woven cloth adheres to them—her 8,000-year-old gown! Her head is wonderfully preserved. Her eyes were large, her head broad, and she was certainly a tall, slim girl.

The museum in which she lies, considered beautiful, soft Egyptian work of the period.

DISTRICT JUDGES PLAN TO TAKE VACATION

Special to the Times. Eastland, June 28.—Judge Geo. A. Davenport of the ninety-first district court announced Saturday that the minutes of the ninety-first court would be closed Saturday, July 2, at which time the court will go on a vacation for one month. During the vacation of Judge Davenport, Judge E. A. Hill of the eighty-eighth court, will hold court and will preside in cases where both sides agree for trial.

At the end of Judge Davenport's vacation Judge Hill will then go on a vacation and Judge Davenport will officiate, this agreement having been entered into obviously for the purpose of affording those in need of the services of one of the judges, same during the vacation period.

EDUCATORS CONFER WITH GOVERNOR NEFF

AUSTIN, June 28.—Leading educators of the state were in conference with Governor Neff here today presumably to discuss educational plans and appropriations for educational institutions by the special session of the legislature which will meet July 18.

The governor declined to state the nature of the conference and those participating said they had been invited to be present without being informed as to the nature of the meeting.

From the personnel of those attending, it is believed the governor is making an effort to reduce duplication of the work of

NEW T. & P. OIL TANK BEING FILLED RAPIDLY

Special to the Times. EASTLAND, June 28.—The new 55,000-barrel oil tank recently erected by the Texas & Pacific railway in this city, near the \$40,000 electric turntable recently installed, is being filled at the rate of about ten cars per day. The oil is being secured from the Ranger refinery. Loading racks have been put in and an engine's oil bunkers can be filled as easily as she is supplied with water, and almost as quickly. There is a well defined rumor going the rounds that the Gulf Production company's supply depot will be moved to the Ward lease in Stephens county,

and that the Texas & Pacific railway has bought the Gulf yards,

The Price of Meat Is Dropping—

—So much has the long looked for news evaded us that it is hard to believe, but we are glad to announce that the drop in price of beef and veal has at last reached the consumer. On cured meats we have sad news instead of glad. They are steadily advancing. The pork market is very unstable, going up and down and up again without any apparent reason, making it unwise to make any sort of change. We hope, however, to announce a drop in its price in the near future.

 Abilene, Texas, June 27, 1921.

OFFICE OF REFEREE

TO THE CREDITORS OF N. T. Thompson, in the County of Eastland and District aforesaid, bankrupt. Notice is hereby given that on the 30th day of May, A. D. 1921, the said N. T. Thompson was duly adjudged bankrupt, and that the first meeting of his creditors will be held at my office in the city of Abilene, Taylor County, Texas, on the 7th day of July, A. D. 1921, at 10 o'clock in the forenoon, at which time the said creditors may attend, prove their claims, appoint a trustee, examine the bankrupt and transact such other business as may properly come before said meeting.

D. M. OLDFHAM, Jr.,
 Referee in Bankruptcy.

21-LEGAL NOTI-E

AN ORDINANCE PROVIDING FOR THE CONSTRUCTION, RECONSTRUCTION AND REPAIR OF SIDEWALKS WITHIN THE CITY OF RANGER AND REGULATING THE SAME AND FIXING THE SPECIFICATIONS THEREOF.

Be it ordained by the Board of Commissioners of Ranger: That no person, firm or corporation shall construct, reconstruct or repair any sidewalk within the City of Ranger without first obtaining from the Commissioner of Streets and Public Property a permit to do so, and same shall be done under the supervision of the City Engineer and in accordance with the specifications hereinafter provided for or such other specifications as may be prepared by the City Engineer and adopted by the Board of Commissioners.

Article I. That no contractor, his agent, servant or employee shall proceed with work on any sidewalk in the City of Ranger without first obtaining a permit as provided in the next preceding Article hereof, and also filing a bond made payable to the City of Ranger in the sum of fifteen hundred dollars (\$1,500.00), conditioned that the said contractor shall faithfully and strictly comply with the specifications hereinafter mentioned and the terms of this ordinance and such other ordinances, resolutions or regulations that may be passed by the Board of Commissioners, governing and relating to the construction, reconstruction and repair of sidewalks. That by the term "sidewalk" the same shall include curbs, provided in each case the resolution shall state the kind of curb and sidewalk to be constructed or repaired, or may merely direct the construction, reconstruction or repair of a curb alone or sidewalk alone.

Art. II. The Board of Commissioners shall have the power in their discretion by resolution passed by a majority vote to order the construction, reconstruction or repair of sidewalks along any street, avenue, public place, alley or square or part or section thereof within the City or in front of any property abutting upon the same. The said resolution shall in general terms describe the sidewalk to be constructed, reconstructed or repaired, and the materials of which it is to be constructed or repaired, according to the class herein-after named, and the street, avenue, square, alley or place or part or section thereof any sidewalk is to be constructed, reconstructed or repaired, and the City of Ranger shall have the power to assess the whole

cost of said sidewalk or part of same against the property abutting or fronting thereon and against the owner thereof.

Art. III. Upon the passage of said resolution, it shall be the duty of the City Engineer to forthwith prepare and present to the said Board of Commissioners specifications for the said sidewalks or repairs for same, detailing the manner of construction, reconstruction or repair thereof, and the material or materials of which same is to be constructed, reconstructed or repaired. If satisfactory the Board of Commissioners shall approve the said specifications and the same shall remain on file in the office of the City Engineer.

Art. IV. That unless otherwise ordered by a resolution of the Board of Commissioners the specifications hereinafter set forth, and prepared and certified by the City Engineer shall constitute the permanent and standing specifications governing all work of construction, reconstruction or repairs of sidewalks which may be ordered by the Board of Commissioners, according to the respective classes of sidewalks referred to in said specification.

Art. V. That upon passage of any resolution by the Board of Commissioners for the construction, reconstruction or repair of any sidewalk, the City Engineer shall prepare and file with the Board of Commissioners, a statement consisting of the name or names of the owner or owners of property abutting upon the street, avenue, public place or square or part or section thereof where said sidewalk is ordered to be constructed, reconstructed or repaired, and briefly describe the property of each owner. Description may be by block or lot number or any other description which will be sufficient to identify the same together with an estimate of the cost of the said sidewalk or the repair of the same, in front of the property of each owner. Upon the filing of said statement, it shall be the duty of the City Secretary or such other officer as may be designated by the Board of Commissioners, to publish in a newspaper of general circulation within the City of Ranger, a notice to the owner or owners of property in front of the sidewalk or sidewalks which are ordered to be constructed, reconstructed or repaired, which notice shall briefly recite the fact that said sidewalks have been ordered to be constructed, reconstructed or repaired by the Board of Commissioners and the said street, avenue, alley, place or square or part thereof, along which the same has been ordered to be constructed, reconstructed or repaired, and that the plans and specifications for such work have been adopted by the Board of Commissioners and are on file in the office of the City Engineer; and notifying said owners of property abutting upon such proposed sidewalk or sidewalks to construct, reconstruct or repair the same in accordance with said resolution and specification within thirty days from the publication of such notice. That a copy of the specifications hereinafter set forth and prepared by the City Engineer and certified by him, shall, unless otherwise ordered by resolution of the Board of Commissioners, be deemed to be the specifications herein referred to.

Art. VI. That in addition to the notice above provided for the Board of Commissioners may notify the persons by personal service upon the property owners, and such notice may be served by any police officer or other person designated by the Board of Commissioners to serve same, which notice shall be in the following form:

Mr.
 City.
 Dear:

You are hereby notified that at a meeting of the Board of Commissioners of the City of Ranger, held on the day of 1921, the sidewalk or curb in front of the property owned by you, or of which you are the agent, located at No. St., has been ordered to be constructed, reconstructed or repaired in accordance with class of the permanent and standing specifications adopted by an ordinance passed by the Board of Commissioners on the day of 19....., a copy of which said specifications is hereto attached, and you are notified to have said sidewalk constructed, reconstructed or repaired within thirty days from the service of this notice, and same shall be done as provided by Section of Article and the subdivision thereof of said Section as is fully set out in the City Charter.

You are further notified by subdivision () of section above referred to, that if you fail or neglect to construct, reconstruct or repair said sidewalks within said thirty days you shall be subject to the penalty herein provided for which is any sum not exceeding \$.....

IN TESTIMONY WHEREOF, Witness my hand this day of A. D. 19.....

THE CITY OF RANGER,
 COUNTY OF EASTLAND.

On this day of 19..... came to the City Engineer and the City of Ranger shall have the power to assess the whole

cost of said sidewalk or part of same against the property abutting or fronting thereon and against the owner thereof.

Art. VII. It shall be the duty of the owner or owners of property abutting on any street, avenue, public alley, place or square or section or part thereof along which sidewalks are ordered to be constructed, reconstructed or repaired, to, within thirty days from the publication of such notice or the giving of personal notice as hereinabove provided for, to either by publication or personal service, said sidewalk is hereby declared to be a nuisance, and said owner or agent, as the case may be, shall be subject to a fine, upon conviction in the Corporation Court, of not exceeding \$..... and each and every day after the expiration of the said thirty days that said owner fails to construct, reconstruct or repair said sidewalk, as herein provided for, shall constitute a separate and distinct offense and the owner or agent, as the case may be, shall be subject to the penalty herein provided for.

Art. IX. That said sidewalk shall be constructed or reconstructed or repaired in accordance with the special specifications prepared therefor by the City Engineer. That the specifications for all sidewalks work shall be placed under the Board of Commissioners of the City of Ranger, which said specifications are hereby described as follows, to-wit:

Specifications for Concrete Sidewalks for the City of Ranger—General Instructions.

Bidders are cautioned to read carefully the specifications and examine drawings, plans and profiles. They will be adhered to strictly.

GENERAL UNDERSTANDING.
 Proposals for all City work must be made on forms furnished by the City Engineer, otherwise bids will not be entertained.

Bids: The right is reserved to reject any proposal submitted for any reason deemed sufficient by the Board of Commissioners.

In all bids made by a firm the individual name of each member of the firm must be written out and signed in full. The place of residence must be signed after each individual name.

All alterations or interjections must be explained or noted in the proposal over the signature of the bidder.

All prices must be written as well as expressed in figures, and writing and figures must be perfectly clear. Bidders must state price for every item of work. Otherwise no allowance will be made for such items.

A failure to observe and comply with any of the above instructions will be considered a sufficient reason for rejecting any bid submitted, should the City Commissioners deem it advisable.

Should any disagreement occur between the inspector and contractor, the decision of the Engineer-in-charge, or Inspector, shall be final and binding on all parties.

The contractor shall furnish one man whenever called upon to assist the Engineer in setting stakes.

All material now in the street will remain the property of the City and be deposited as directed by the Engineer or Inspector.

GRADING.
 The contractor will be required to excavate to sub-grade, as shown by stakes set by the Engineer. Contractor shall haul all earth excavated from the street to any point designated by the Engineer within a hauling distance of 1,000 feet. All spongy material must be taken out and replaced with good earth, and thoroughly tamped so as to make places in line with and compact like surrounding surface. Excavating will be paid for at the price bid by the contractor. Estimates being made by the Engineer after trench is dug and forms are in place.

CLASS "A" COMBINED CONCRETE CURB AND GUTTER.
 This course shall be of a thickness and size as shown by plan, and ordered by the Commissioners, and shall be composed of either gravel and cement, or crushed stone, sand and cement; if gravel is used it shall be composed of one part Portland cement to six parts gravel. Gravel shall be bank gravel and shall be free from chalk, disintegrated pebbles, loam, earth, and shall not contain more than 5 per cent of clay, and shall contain no pebbles larger than 1 1/2 inches in its largest dimensions. The ratio of the gravel to the sand shall not be more than 6 to 3 nor less than 5 to 4. The addition of acceptable stone or sand to make the required ratio will be permitted.

Concrete made of broken stone shall be composed of one part Portland cement, two parts of sand and

four parts of broken stone. The broken stone shall be of hard limestone of graded sizes not more than 1 1/2 inches in its longest dimensions nor less than 1/4 inch, and shall be free from dust, dirt, or disintegrated stone.

The cement and sand shall be thoroughly mixed dry. Then only enough water shall be added to give the mortar such consistency as will permit a thoroughly incorporation of the stone; the stone having first been wet, shall be added and the entire mass be turned over and worked by laborers, until the broken stone and cement and sand are thoroughly mixed. The concrete shall be mixed on platforms provided by the contractor in batches containing not more than one barrel of cement and the requisite quantity of sand and stone.

The concrete shall be placed in position and there rammed in layers if required, with proper rammers, until thoroughly compacted, and showing an excess of mortar on the surface; the surface being so graded that in its finished condition it shall present a contour parallel to and a distance from the surface of the surface of the proposed finish top coat.

CLASS "A" CONCRETE CURB.
 This course shall be of a thickness of six inches, as shown by plan; concrete shall be composed of same mixture as specified for curb and gutter.

CLASS "A" CONCRETE SIDEWALKS.
 The foundation shall consist of good gravel or cinders, wetted and tamped to solid bed not less than four inches in thickness, top surface to be true and parallel to what will be the finished surface of the sidewalk. Where walks are laid on sandy soil this sub-foundation of gravel or cinders will not be required.

This course shall be three and one-fourth inches in thickness, using same materials as specified for concrete curb and gutter.

The ratio of the gravel to the sand shall not be more than six to three, nor less than five to four. The addition of acceptable stone or sand to make the required ratio will be permitted.

TOP SURFACE.
 Top surface shall be three-fourths inch thick and shall be composed of one part Portland cement and one and one-half parts of clean, sharp sand and to be laid to a smooth and even surface. When curb and walk are completed, the walk shall be covered with one inch of sand and to remain covered for five days, and the sand must be sprinkled with water as may be directed, after which the contractor shall remove sand and leave the walk in good condition.

The finishing course for curb and sidewalks shall be put on while the concrete is in a soft and plastic condition so that it will be a homogeneous solid when set.

The contractor will be required to show no trowel marks, high spots or sags. Any serious showing of uneven places after being finished shall be condemned by the Engineer and must be replaced by the contractor.

REPAIRS—CLASS "A" SIDEWALKS.
 The places to be repaired must be cut out to make square joint and excavated not less than 5 inches below the adjoining walk, and a foundation of good gravel or cinders wetted and tamped to a solid bed, not less than 4 inches in thickness. Upon this course shall be same construction as is specified in concrete sidewalks Class "A."

FINISHING AND SHAPING UP THE WORK.
 After the curb and gutter have been finished and, in the opinion of the Engineer, become thoroughly set, the forms shall be removed by the

contractor and the sidewalk shall be "backfilled" and leveled off, less than the same in first-class condition. All tools, rubbish and unused material shall be removed by the contractor as soon as work is completed.

The party of the first part, expressly guarantees the above work of construction for the full period of one year immediately following its completion, and binds himself, his heirs and assigns for the entire expense of all repair which may result from any imperfection in the said work or materials, or become necessary within that time.

Art. X. That all persons constructing, reconstructing or repairing any sidewalks shall during the time that such work of construction, reconstruction or repair is going on, keep all gutters open so as not to interfere with the drainage of same, and shall remove from the work or from, in and about said work, upon the completion of said work, all building material or other accumulation of debris that may exist in and around such sidewalks by reason of the construction or repair of same, and persons failing to comply with this ordinance shall be subject to conviction in the Corporation Court, in any sum not exceeding one hundred dollars.

PENALTY.
 Art. XI. That any person violating any of the provisions of this ordinance where the penalty is not otherwise herein specifically prescribed, shall be subject to a fine not to exceed one hundred dollars.

RANGER DRILLER BACK FROM BURMA; TELLS STRANGE TALES

C. F. Dedrick, formerly with the Foley Drilling company, is back in Ranger after eighteen months in Burma with a British company.

He brings with him the lure of far places as well as an interest in Ranger no whit abated by the metamorphosis here since he went away. He will be here for several days.

Dedrick came to Ranger immediately after getting out of the army, and remained until January, 1919, when he and about twenty other Ranger men went to the Asiatic fields. Only three or four of these men are now in Burma, he says, but there are about 300 Americans there, many of whom have worked there for years. Dedrick himself will return after a six-months' leave in America, most of which will be spent in California.

Not Hard.
 Life in Burma is very pleasant, Dedrick says. All labor is done by natives and the white men, though called "drillers," supervise the operations. A native driller can "make just as much hole as anybody," but at the end of a tour he doesn't know what he has done or anything about the pipe or other details.

The company furnishes each driller with a house and five servants, and there is an American club there, making for enjoyable social life.

Burma is an old field, drilling having been going on there for forty years. It has twelve distinct sands, between 100 and 3,000 feet deep, and by the use of perforated pipe, oil is often taken from all of these sands by one well. These wells range in size from 100 barrels up to 17,000.

Let Women Do Work.
 Perhaps the most interesting feature is the tentative wells. These are about eight feet square, and are dug by hand to the depth of several hundred feet and walled with wood. Oil is brought to the surface by means of a five-gallon can. There are no pulleys, the rope merely passing over a smooth block of wood. The can is not drawn up hand over hand, but by several women taking the rope over their shoulders and walking away with it. All rough work in that country is done by women.

Dedrick, since leaving Ranger has been around the world. He sailed from New York via Liverpool and the Suez canal and returned through Singapore, Yokahama, Honolulu and San Francisco.

'NEAT DRESSING CLUB' HAS ATTRACTIVE PLACE

The Progressive Neat Dressing club has opened for business at the McGleskey hotel with W. J. Roach as manager. In addition to operating a pressing club the new firm will have shower baths for its patrons in the rear of its building and will sell tailor-made suits for men and women.

A reading room is provided for the benefit of customers and there is also a reception room for women. The new place has been made neat and attractive by its owners. Its pressing business will be operated under a club plan.

When washing silver use a wooden tub or bowl, if possible. There will then be less danger of silver getting scratched.

21-LEGAL NOTICE

BOND.
 The party of the first part, expressly guarantees the above work of construction for the full period of one year immediately following its completion, and binds himself, his heirs and assigns for the entire expense of all repair which may result from any imperfection in the said work or materials, or become necessary within that time.

Art. X. That all persons constructing, reconstructing or repairing any sidewalks shall during the time that such work of construction, reconstruction or repair is going on, keep all gutters open so as not to interfere with the drainage of same, and shall remove from the work or from, in and about said work, upon the completion of said work, all building material or other accumulation of debris that may exist in and around such sidewalks by reason of the construction or repair of same, and persons failing to comply with this ordinance shall be subject to conviction in the Corporation Court, in any sum not exceeding one hundred dollars.

PENALTY.
 Art. XI. That any person violating any of the provisions of this ordinance where the penalty is not otherwise herein specifically prescribed, shall be subject to a fine not to exceed one hundred dollars.

MIDNIGHT BALL ON JULY FOURTH AT SUMMER GARDEN

To a select list, invitations have been sent out to a midnight dance to be held at the Summer Garden July 4. It will be under the patronage of Messrs and Mmes. Ralph G. Stockman, A. N. Harkrider, C. O. Terrell, E. J. Barnes and J. F. Drienhofer.

The music will be furnished by Larry Conley of Dallas.

The Summer Garden will be opened to guests at 11 o'clock and dancing will begin on the stroke of 12. Caps, whiskers, horns and balloons will be provided in abundance. Couples will be admitted by invitation only. The hall will be decorated in the national colors and for this occasion the management will install twelve additional electric fans.

BOSTON, June 28.—Byron M. Caffrey, former registry clerk in the postoffice at Lawrence, pleaded guilty in federal court to the theft of \$30,000 mailed by the Bay State National bank of this city.

He was sentenced to three years in the federal penitentiary at Atlanta. He was arrested in New York June 8.

SUBMARINE BUREAU ASKED.
 WASHINGTON, June 28.—For the development of submarines as a naval arm, a bill to create a new bureau of submarines in the navy department was introduced today by Senator King.

BIGAMIST SENTENCED.
FIRST WIFE NOW SOUGHT
 MIDDLETOWN, N. Y., June 28.—J. L. Crowley was sentenced today by

Judge Wiggins at Newburgh, to serve not less than one and a half years and not more than three years in Sing Sing. He had pleaded guilty to a charge of bigamy.

Crowley married a young woman in this city last August. She discovered he had another wife in the South. The government is looking for the first wife on the charge that she illegally received a soldier's allowance from another man.

BEER REGULATIONS TO BE ISSUED SOON
 WASHINGTON, June 28.—Regulations governing the manufacture and sale of beer as medicine will be issued soon by the bureau of internal revenue, David Blair, commissioner, said today.

More people die of extreme heat than of extreme cold.

WHERE IS BEER SAFE IF NOT IN POLICE STATION? NEW QUERY

ST. LOUIS, June 28.—This is the riddle propounded by Victor Miller, president of the St. Louis board of police commissioners.

"If personal property isn't safe in the precincts of a police station, then where is it safe?" Silence.

The head of the St. Louis police department asked that question after the board had returned a verdict of "not guilty" in the cases of Motorcycle Policemen Joseph Knox and Phillip Keipp of the Dayton street station. They were charged with having appropriated to their own use a barrel of beer, seized by police in a raid on a saloon. "Conduct unbecoming to an officer," the indictment read.

Their acquittal was one development of yesterday's hearing. Others were:

"The refusal of the 'star witness' to shine.

A certain conviction on the part of Capt. Johnson of the Dayton district station that somebody ought to subscribe to one of those well-advertised "memory courses."

It was a tragic moment in the course of the hearing when Charles DeMoss, a watchman, lost a considerable part of his memory.

DeMoss was the "star witness" to obtain whose testimony a former hearing of the case had been postponed.

Notice how the stage was set. A study, as it were, in building up dramatic suspense.

The police board's chamber was crowded and sweltering. The thermometer read 90 in the shade.

Capt. Johnson had just given "hearsay evidence" connected with two bottles of real beer in a bucket of ice. DeMoss had told him, he said, that on the night the barrel of beer disappeared from the Dayton district station, Motorcycle Patrolman Keipp brought two bottles in a bucket of ice across the street, and together they drank it.

"Was it home brew?" the captain said he asked.

"It was better than home brew. And I'm a pretty good judge, too," he said DeMoss answered.

But DeMoss, when he took the stand, couldn't remember. "It was too far back," he said. "And besides it had been so long since he had seen any real beer he wouldn't know it."

Crash went the case. DeMoss was ordered from the room. Capt. Johnson was told to continue his search for the culprits. And the two accused officers were restored to duty and ordered paid for the time they were suspended.

WOMEN DANCED IN NUDE STATE 2000 YEARS B. C.

Evolution of Nudity Is Made Subject of Study by Paris Connoisseurs.

By International News Service

PARIS, June 28.—Ever since the French Senate decided to call upon the government to suppress "immoral" scenes in Paris theatres and to forbid nude women from appearing on the stage, French writers have been busy consulting history as to when women first appeared on the stage clothed only in "nature's robes."

They have discovered that women, and men as well, appeared nude on theatre stages as long ago as 2,000 years B. C. In ancient Syria during the Venus celebrations women absolutely naked and not even wearing a string of beads, as they do in some places in Paris, would sing songs of praise to the goddess. It was the custom, in those days, with the Syrians, once a show was over, to call upon actors and actresses to disrobe and dance and sing. Objectors to such scenes were either asked politely to leave or were thrown out.

From nudity and morals these same French writers stepped over to the history of marriage and Napoleon the First's morals. It appears Napoleon was a pure moralist and did not believe in love. "I do more than deny the existence of love," he would say, "I believe it to be detrimental to society and to the individual happiness of man, and I firmly believe it does more harm than good."

Evidently his wife, Marie Louise, was of a different opinion, for she was thrice married and had at last two illegitimate children—one, Count de Montenuovo, being born three months after Napoleon's death.

SENATE GIVEN WOOD'S NAME AS AMBASSADOR

WASHINGTON, June 27.—President Harding today sent to the senate the name of Cyrus E. Wood of Pennsylvania to be ambassador extraordinary and plenipotentiary to Spain.

PASADENA POLICE HAVE WIRELESS PHONES ON MOTOR FLEET

By Associated Press.
 PASADENA, Cal., June 28.—Wireless telephones installed on the automobiles of the anti-burglar motor fleet of the Pasadena police department recently enables officers to com-

municate with headquarters while their machines are in motion. Every machine operated by the department has been so equipped, it was announced recently.

The appliance enables officers to telephone for reinforcements, if necessary, while pursuing motor bandits. Installation of the phones on regular beats, to obviate the stringing of wires for enlargement of the old call box system, also is contemplated.

If your salesmen spend unproductive time going from prospect to prospect, because of slow transportation, it is money lost. Slow transportation robs them of part of their time—time that might just as well be turned into sales.

A Ford Runabout furnishes quick transportation at the lowest possible cost. By equipping your salesmen with Ford cars, you will enable them to devote more energy to selling goods.

I ought to know I grow tobacco

You can't beat a Camel, because you can't beat the tobacco that goes into Camels.

That's why Camels are the choice of men who know and love fine tobacco. They know what makes Camels so smooth, so fragrant and mellow-mild.

They'll tell you that the expert Camel blend of choice Turkish and Domestic tobaccos makes a cigarette smoke you can't equal—no matter what you pay.

But it doesn't take an expert to tell Camel quality. You'll spot it the very first puff. Try Camels yourself.
