Theory That She Fell While Bathing Is Borne Out by Nature of Wound.

Mabel Morris died at 6 o'clock last night at the Ranger General hospital. Death resulted from a blow of some nature on her head just back of the right ear, it was testified by Dr. J. M. Stucki at an inquest held this morning. How she received the blow is still a mystery. Dr. Stucki was the only witness examined before hearing was postponed until this af-ternoon. From his statement it is thought likely that a verdict will be rendered that the woman met death from a blow, probably sustained by falling in a bathtub.

On Wednesday night Mabel became suddenly ill shortly after bathing. She complained of intense cramps in the stomach. During that night she remained in a room in a local hotel and the part was in the stomach. and the next morning was carried to her cottage and a nurse installed. This information was gathered from

The fog of mystery hanging over the case became more dense this afternoon when the inquest was resumed. A girl friend testified that she and the dead girl had bathed at the same time on the night she became ill and she was positive that Mabel did not fall. She further testified that she combed Mabel's hair the next she combed Mabel's hair the next morning and there was no sign of a bruise on her head at that time. That evening Mabel was removed to her home and the wit-

San Angelo Named as Winner of First Half; Nitros Play at Abilene Next.

With tomorrow's games, the West Texas league becomes a four-club cir-cuit. That is the announcement of President Morris, received this morning after a trip which failed to place the Orphan franchise at Breckenridge. With Sweetwater having quit, that leaves Ranger, San Angelo, Ballinger and Abilene in the league. San Angelo is named as the first half winner. The schedule for the next three days as announced by Mr. Morris is:

Ranger at Abilene. Ballinger at San Angele. A new schedule for the circuit will be made this week and will be an-

nounced Sunday, Morris says. Fast baseball should result from the changes in the league's circuit and it is probable that new faces will appear on all the teams. With the two clubs to draw from, every one of the four remaining will be able to prop up weak spots and present well rounded aggregations - something

Bill Sorrels and Jim Price will do the calling of balls, strikes and put-outs for the balance of the season. While no announcement has been received, it is probable that the Nitros will return home after the games at Abilene.

James S. Fields won second prize for wheat at the 1915 Denver international show; first prize and sweepstakes at the 1917 Peoria erposition second prize at the big international in Chicago, in 1919, and took first prize at Kansas City the same year. First prizes and sweepstakes for oats were won at the Kansas City and Chicago expositions in 1919.

To the scientific development work of Mr. Fields is partly attributed the enlarged acreage production in the rich districts along the lines of the Canadian National railways. Upon is shoulders this year rests the task of making wheat growing more prof-itable in New Zealand. The government has sent a cargo of his best seed to that country.

He has followed a simple system of plotting grain for special seed, a system which has resulted in agricultural experts placing him among few grain wizards of the world. This year he will try for premier honors at the big international grain and hav show at Chicago. The prizes, offered y the Chicago Board of Trade, total \$10,000. His wheat runs as high as fifty bushels to an acre, while a twenty-acre tract of selected oats seed returned 142 bushels to the acre.

Who says that bargain tires are what the people want

MOST everybody knows the easy-going sort of man who never takes a tire seriously until he gets a blow-out.

How long he will resist universal tire education is a question.

But this is sure—

More people are finding out every day that between leaving things to luck and getting real economy there is a big difference.

Many a car-owner has come to U.S. Tires because he couldn't afford to keep on paying that difference.

Probably seven out of ten users of U.S. Tires came to them only after they'd had enough of "discounts", "bargain offers", "clearance sales of surplus stocks" and other similar appeals.

They have found economy—and they stick to it.

They pay a net price—not "something off list" that may not mean anything in the first place.

They get fresh, live tires, being made and shipped while this message is being written.

No matter where they live there's a nearby U.S. Dealer with his nearby U. S. Factory Branch.

U. S. Tires keep moving.

No opportunity to get old and dried out. No shifting here and there trying to find a market.

Blind Girl, Educated Through Fingers, Is Successful as Magazine Publisher

NEW YORK, July 6.—Have you ever seen a plant that was doing its best to thrive in a cellar? Miss Helen Day, a young magazine editor of this city, compares her past with that plant. Afflicted with the triple handicap of blindness, deafness and an over-sympathetic family, it was only by long and arduous groping that she worked her way into the light where she could grow and amount to something.

She went out and got herself an education and became an editor so that she could talk to a congregation of blind children all over the country.

saw possibilities ahead. And here I am. I expect to devote my life to freeing blind children from any silly Utopia where they are surrounded by sympathy and kept in the dark."

Miss Day was made editor of the Searchlight in 1918. It is the only magazine of its kind in the country. Since Miss Day took over the editorial chair there has never here. The photographer who sent us this picture just wrote, "A Cat and Dog "There is nothing else to say about it, excepting that animal lovers writer, who has been married twice, when asked for her opinion replied:

Until she was 22 years old Helen Day had been shoved back into corners and hidden from people. This, she understood, was to protect her from having her feelings hurt.

"When people snoke about my eyes I was offended. I shrank from them and never went near them again. Even after I was grown up and learned to read Braille I hid my hooks. I thought they were something to be ashamed of.

The most stable throne of all, apparently, is that of Holland. Queen Wilhelmina enjoys and cherishes the genuine affection of her people. The burg, is not popular, but the queen Prince Consort, Henry of Mecklendrives about The Hague in her carwith no guard. The men in the streets tip their hats and she bows pleasantly. There was an attempt not long ago to hold a demonstration against her, but she drove without any guard to the place where it was to be held and the Hollanders took the horses from her carriage and drewher through the streets in triumph.

King Albert of the Belgians also reigns with comparative quiet. King Victor Emmanuel of Italy, however, is in none too good a position though it has shown signs lately of strengthening. The king of Spain, also, manages to hang on.
