

LEGION WILL CONTINUE WITH BONUS FIGHT

Defeat of Senate Motion to Re-Commit Bill, Sought by Emery.

INDIANAPOLIS, Ind., July 14.—The soldier bonus bill will carry on. The American Legion will not be swayed from its course in fighting for adjustment of compensation by President Harding's message to congress, opposing the enactment of bonus legislation at this time.

John G. Emery, national commander of the legion, after conferring with department heads and other legion officers, wired Senator McCumber in Washington that the Penrose motion to re-commit the bill to committee must not pass. Senator McCumber is piloting the bonus bill through congress.

EL DORADO OIL PRICE BOOSTED, IS REPORTED

El Dorado crude oil has taken a 20-cent jump, according to reports in Ranger. The offices of the local companies, however, state that they have no knowledge of the reported increase. At least one pipe line official's opinion is that if such an increase in price had been made, it would not mean anything because the El Dorado field has no pipe line connections, and there has never been any standardized valuation put on crude in that field.

The same office states that it does not expect a raise in Ranger crude soon for the reason that production has not declined in the oil centers to any great extent with the exception of Breckenridge, and an increase in price is not expected within the next thirty days.

A. S. BURLERSON CAN'T SEE CENTRAL EUROPE AS CASH CUSTOMER

WASHINGTON, July 14.—A. S. Burlerson, former United States Postmaster General, who has investigated the commercial, industrial and financial conditions of Germany, Poland, Austria and Czechoslovakia, is of the opinion that there is little hope of selling Europe large quantities of cotton and other raw materials until Germany and other countries of Central Europe balance their budgets and make definite arrangements to discontinue the issuance of paper money and to retire that currency until its volume is only three times that of their gold reserves.

"I can't see any indication that the statesmen of Central Europe are facing their problems frankly and trying to formulate plans which get at the fundamental problems and might insure the resumption of the industries and the renewal of the export trade," said Burlerson. "It is not reasonable to talk about foreign loans to Central Europe as long as the printing presses continue to pour out paper money without any gold guarantee or any prospect that it will be retired."

"Germany is in far better condition than the other countries of Central Europe, and I personally believe Germany could improve its exchange situation very speedily if it would stop issuing paper money and levy a tax over a period of 10 years to guarantee its retirement and the creation of a larger gold reserve. Foreign bankers want to see definite plans before they take a chance on the countries of Central Europe."

CHICAGO COPPERS ARE DEPRIVED OF THEIR CLEAN-EASY COLLARS

CHICAGO, July 14.—The celluloid collar was banished from the Chicago police force in an edict by Chief Fitzgerald, who declared the Chicago police must be the best dressed in the world. A well dressed man does not wear a celluloid collar, the chief said.

"With the salaries the members of the department are securing at present," Chief Fitzgerald said, "they can afford to look neat."

"I am tired of seeing an otherwise spick and span policeman with a celluloid collar around his neck hanging by one string," the chief declared.

TIRE PEOPLE BEST HEARERS, SAYS PASTOR

LOUISVILLE, Ky., July 14.—Working people who are tired Sunday and go to sleep during the sermon are better listeners than restless, bored and distracted churchgoers, the Rev. Dr. J. W. Johnson declared.

Sunday sleepers are the best listeners. They always go away from church refreshed. They declare that the sermon and the theology were "fine."

GENERAL SMUTS ENTERS IRISH PEACE PARLEYS

General Jan Christian Smuts, Premier of South Africa, who is now in Dublin attending the preliminary peace parleys now being conducted. He is a guest of the Sinn Fein Lord Mayor. General Smuts, it is said, is representing the British government at the parleys.

BURKBURNETT OFFICERS FACE BRIBE CHARGES

WICHITA FALLS, July 14.—The third arrest in connection with bribery indictments involving Burk Burnett constables was made this afternoon when Texas rangers arrested Slim Studemeyer, charged with conspiring to accept a bribe and acceptance of a bribe. He was indicted jointly with Shannon Lane and L. S. Brannon, constable and deputy constable, respectively, who were arrested late Tuesday night.

The indictment charges that the three men conspired to accept a bribe and did further accept a bribe from one Viola Taylor. It is further alleged that the purpose of the bribe was to permit the sale of spirituous liquors.

The indictments against these officers were among fifty-one indictments returned late Tuesday by the Thirtieth district court grand jury. The report made strong recommendations for stricter regulation of the Wichita county jail, with inspection by the sheriff.

Complimentary mention was made of the work of the police in ridding the city of the redlight district, and to Rangers Gonzales and McCormick, for their assistance to officers of the city and county.

W. P. Honaker, president of the East Wichita Oil company, and Joe Zoldek, director at one time of the same company, were arrested late Tuesday on charges of swindling, following their indictment returned by the grand jury Tuesday afternoon. The swindling charges, according to the indictment, are in connection with their alleged activities in the operation of the company.

STRATEGY OF JAILER CHEATS LYNCH NOOSE

GREENVILLE, Texas, July 14.—The lynchers' noose was cheated here shortly after midnight when a mob of more than a hundred failed to find their victim.

The men, one of whom carried a noose, assembled outside of the jail, and demanded that Jailer Caldwell turn over to them Matt Olinson, negro, who several weeks ago killed a white man near Celeste.

Olinson, however, had been moved to a place of safety, and after a representative of the mob searched the jail, the party dispersed.

Olinson's case, called for last week, was postponed until the fall term of court.

ABILENE TO VOTE ON CHANGE IN CHARTER

SINN FEINERS PLEASED WITH PEACE PARLEY

Lloyd George and De Valera Hold First Conference in London.

LONDON, July 14.—The first session in the Irish peace negotiations this afternoon was "completely satisfactory" to the Sinn Fein representatives, it was stated at the conclusion of the conference.

Eamonn de Valera and Premier Lloyd George conferred alone at 10 Downing street for two hours and forty-five minutes, completing their conversation at 7:15 p. m.

"The conference was completely satisfactory from our viewpoint," declared Arthur O'Brien, who accompanied de Valera, although he did not participate in the negotiations.

The conference will be resumed tomorrow morning.

OKLA. DISTRICT JUDGE CHARGED WITH BRIBERY

SAPULPA, Okla., July 14.—Judge Lucien B. Wright of the district court, was arrested here last night on information charging bribery in the famous Tommy Atkins oil land case, involving millions of dollars. The information containing the charge was sworn to by Attorney General Freeling, who came here last night for that purpose.

Judge Wright had asked to appear in the court of Justice A. E. Piltz. He came with his attorneys, and when the charge was filed gave bond of \$10,000. He and his attorneys emphatically assert that he is innocent, and his attorneys declared that the charge grows out of a frame-up resulting from a bitter fight for the rich oil lands.

There has already been \$1,960,000 worth of oil taken from the land in controversy, which lies in the Cushing field. Saturday the court held, was legal heir of Tommy Atkins, an Indian, and she was given judgment in the sum of \$1,960,000 for oil taken from the lands in litigation, and title to the property.

FIVE-FRANC SHOES INVENTED IN FRANCE

PARIS, July 14.—Shoes at five francs a pair and they'll last forever! In these days when a pair of pre-war American shoes costs 150 to 250 francs and when a Paris shoemaker won't consider an order under 350 francs, the invention just announced, of a method of manufacturing footwear at five francs, with the added advantage that the material can't wear out, is exciting interest in anti-H. C. L. circles.

It is due to a blind worker in a factory near Lyons. He discovered, so the report goes, an alloy which permits him to make a pair of shoes weighing three and one-half ounces, water and fire-proof, as solid and elegant as the finest product of the American shoe factories and so simply designed, that a child can put the parts together.

M. Paul Michel, the inventor, is keeping the secret of the alloy to himself.

GOVERNMENT EXAMINER RECOMMENDS LOWERED RATES ON LIVESTOCK

WASHINGTON, July 14.—Rates on livestock were held to be unreasonable from an economic standpoint and recommendation was made to the interstate commerce commission that carriers make substantial reductions for the benefit of business in general, in a report today by Examiner Dietz. The case which was brought up by the shippers of the Western states and in which various state commissions are involved, will be heard tomorrow.

ROOSTER ALARM CLOCK RILES THE NEIGHBORS

MARTINS FERRY, Ohio, July 14.—Residents of one section of Martins Ferry are protesting against a "two o'clock rooster." The bird, a thoroughbred, begins crowing at 2 o'clock each morning, much to the disgust of the protestants. The owner says the bird is so progressive it goes on daylight saving time, and then some.

JAPS FINALLY AGREE TO JOIN OTHER NATIONS

Reference to Discussion of Pacific Problems Omitted in Acceptance.

WASHINGTON, July 14.—The state department today was notified of Japan's acceptance of the invitation to a disarmament conference. The Japanese communication, however, omitted any reference to a discussion of problems in the Pacific, which was also included in the tentative invitation sent out last Saturday.

It was stated on high authority that Japan's failure to include the Pacific questions in her acceptance was not necessarily regarded as an expression of disapproval of the American proposal.

It was added, however, that the Japanese government would have to agree beforehand to include Pacific problems, because any practical results of disarmament would have to be based on an amicable settlement in the Pacific.

Officials were plainly perplexed by the Japanese answer and it was assumed that no formal invitation naming a date for the conference will be prepared until the Japanese attitude is cleared up.

A possibility of Japan making some such answer had been foreseen and discussed here but it was believed that she would finally accept unreservedly.

Formal notification that China would partake in the conference also was received today.

All the five nations which received the American query as to whether invitation to a conference would be welcomed have now replied with an unconditional affirmative except Japan.

MEXICAN TAX ON EXPORT OIL IS RESCINDED

Obregon is Making Efforts to Stimulate Production in All Fields.

GALVESTON, July 14.—President Obregon today rescinded the export tax on crude oil, according to dispatches from Mexico City.

After an all-night conference with a committee from the Mexican congress, Obregon issued a proclamation rescinding the tax. This was done, dispatches said, after Obregon had received semi-official assurances that the United States would not impose an import tax on oil.

Obregon urged immediate resumption of work in all the oil fields to relieve unemployment, and invited foreign oil company officials to a conference to work out a plan to stimulate production.

MILLIONAIRE BURGLAR MAID TRIES SUICIDE

CHICAGO, July 14.—Mrs. Etta Heil, millionaire wife, recently convicted and paroled as a "burglar maid," was in the hospital today, following her attempt at suicide last night by swallowing poison at a depot.

She has been living apart from Joseph Heil, broker, who paid out thousands of dollars to persons whose homes she sacked while employed as a maid.

PETERS NAMED AS OFFICER OF C. C. WORKERS

J. E. T. Peters, manager of the local Chamber of Commerce, was elected vice-president of the Texas Commercial Executives' association, which has been in session at Austin. It adjourned last night. Other officers are: F. H. Clifford, president; Walter E. Lord, secretary-treasurer.

The convention adjourned without deciding upon a meeting place for next year. An executive committee will decide next year's meeting place. Mr. Peters went to Austin Monday.

TOM WINN IS GIVEN 14 YEARS FOR MURDER

BRECKENRIDGE, July 14.—Nine hours after the first witness took the stand in the trial of Tom Winn, charged with the murder of Jack Sloan, the jury returned a verdict of guilty and assessed punishment at 14 years in the penitentiary.

Sloan was employed by Winn on a casing crew near Ivan. On June 3 Sloan was killed after he asked Winn to pay him a debt of \$80, claiming that he was penniless and that his wife and children were at the point of starvation.

After the killing, Winn surrendered to officers and asked protection. The trial began at 3 o'clock yesterday afternoon. The case went to the jury at 10:30, and the verdict was reached shortly after midnight.

COURT SUSTAINS NEFF'S RIGHT TO REVOKE PAROLE

EASTLAND, July 14.—Judge E. A. Hill of the Eighty-eighth district court, returned a judgment in the Jewel Redwine habeas corpus proceedings, in favor of the contention of the state and remanding Redwine to the custody of the sheriff.

Counsel for Redwine gave notice of appeal to the court of criminal appeals, and the state announced it would contest bail, assuming that Redwine was a convict and not entitled to bail.

Redwine, who had been convicted of a murder committed in Gorman, was sentenced to the pen, and had served a small part of an eighteen-year term when paroled by Governor Hobby. Recently Governor Neff revoked the parole, thereupon counsel for Redwine swore out a writ of habeas corpus, declaring the governor had no right to revoke a parole without cause.

This case is of state-wide importance due to the fact Governor Hobby paroled a number of prisoners, about eighty of which have been revoked by the present governor, hence this is regarded in the nature of a test case.

Counsel for Redwine maintaining that the governor has no right to revoke a parole except for cause, while the state maintains that a parole may be revoked at any time, and Judge Hill so held in his judgment.

The state was represented by County Attorney W. V. Dunning, Assistant States Attorney General L. C. Sutton and W. W. Meachum, and by Mr. Humphrey, counsel for the prison commission, while Burkett, Anderson and Orr represented the defendant Redwine.

The question of bail bond for appeal when brought up, brought forth notice from counsel for the state that such would be contested on the ground that his status was that of a convict, and that he was not entitled to bail.

WATCHMAN IN LINE OF DUTY BEATEN TO DEATH

GALVESTON, July 14.—Theodore Debnor, night watchman, died acting in the line of duty, it was believed here today.

Debnor's body was dragged from a fire in bales of cotton stored in the Liberty Press & Warehouse company, late last night. His lifeless form was lying beside a fire alarm box when found by searchers. His skull was fractured, hands and face lacerated. A fire hose nozzle coated with blood, found near the body, was believed to have been used in attacking Debnor.

Police believe Debnor was killed by men who had come to rob the company office, after setting fire to the cotton.

COAL MINER KILLED BY A FALL OF ROCK

DURANGO, Colo., July 14.—Gus Hampton, a miner, 26 years of age, was instantly killed by a fall of rock in the Black Hawk coal mine of the Triangle company, Friday night. A rock weighing 100 pounds fell upon him from the roof, crushing his head.

MODERN EVE SAYS FIG LEAF NO PROTECTION FROM EDEN'S CHIGGERS

CHATTANOOGA, Tenn., July 14.—Asserting that her husband compelled her to imitate Eve while he impersonated Adam, upon a tract of land in the Ozark mountains that was infested with chiggers, Mrs. Mary King Young, 23 years old, obtained an absolute divorce here this afternoon upon the grounds of cruelty and inhuman treatment. The court held that a leaf was not adequate protection against chiggers.

HIGHWAY OF COUNTY UNDERGO AN INSPECTION

About thirty-five representative citizens from all the towns in Eastland county are today touring the highway system with Judge Stinson and the county commissioners. The party assembled at Eastland at 9 o'clock and came to Ranger where the Strawn-Thurber road was gone over and the rock work on the Caddo road inspected.

From Ranger, the party returned to Eastland, where a barbecue was served by the Fleming Construction company at the rock crusher in a highway system with Judge Stinson and the county commissioners. The party assembled at Eastland at 9 o'clock and came to Ranger where the Strawn-Thurber road was gone over and the rock work on the Caddo road inspected.

All those who made the trip were supplied with a folder descriptive of the road system and giving figures as to the work that had been done on each road.

SUGAR IS SOUR WHEN COMPARED WITH THESE BOTANICAL CREATIONS

LONDON, July 14.—In a greenhouse at Kew Gardens are growing three plants, new here, which possibly may cause sugarcane growers to weep and sugar refiners to gnash their teeth.

The plants belong to a species now styled *Stevia rebaudiana*, which was discovered about twenty years ago by an Italian botanist, Dr. Bertoni, in Paraguay, where the leaves are used by Indians to sweeten tea, coffee and other beverages.

The leaves are remarkable for their extraordinary sweetness—said to be about 200 times greater than that of sugar—and they are easily prepared. All that seems needed is to collect the leaves, dry them in a hot sun or cool oven, and reduce them to a powder. This powder, it is claimed, can be kept dry for an indefinite period without losing any of its sweetening properties.

The plant could apparently be cultivated with ease under glass in this country and would probably thrive best under conditions suitable for such remote botanical cousins as the Mexican asters.

If all the tales are true, a dozen full grown plants should furnish a household with sufficient sugar for a twelvemonth.

MME. SCHUMANN-HEINK IN JAPAN, FAVORS JAZZ

TOKIO, July 14.—Madame Schumann-Heink is now visiting Japan, giving concerts in the Imperial theatre at Tokio. On learning that American jazz is a fad in Nippon, she said:

"Jazz! Why, bless them, let them have their jazz and plenty of it. I am not one of those persons who are always criticizing. I detest criticism. This is a world so full of troubles, why shouldn't people forget them by having grand, jolly times?"

MURPHY AND KECK ONLY NITROS HERE

Frank Keck and John Murphy are the only members of the Nitro crew remaining in Ranger, except Manager Allen, who expects to leave today.

There is a possibility that Keck will make Ranger his headquarters while pitching independent ball for the balance of the season.

Murphy is still somewhat laid up with a sprained ankle.

Jack York left Ranger for Cleburne but was not certain whether he would sign up there or return to his home in San Antonio.

Hamilton is in Oklahoma City, his home town. He will not play any more ball this summer.

SOMETHING'S WRONG WHEN BUNTS HIT FENCES, SAYS BRAVES' CHIEF

Fred Mitchell Condemns Lively Ball and Restrictions on Pitchers.

BOSTON, July 14.—Manager Fred Mitchell of the Boston Braves, who are trying to overcome the Pirates and Giants in the National league flag chase, is one who believes that powers of baseball should do something that will result in the curbing of the terrific hitting now in vogue in the major leagues.

"The lively ball now in use," says Mitchell, "has made science almost obsolete. If something is not done by next year skill will not figure as prominently as in past years.

NORFOLK, Va., July 14.—Aviators from Langley field are flying so close to the girls bathers at Ocean View that the girls have become frightened. The army aviators who have gathered at Langley field in large numbers since the bombing of German warships take several "hop-offs" every day, flying only a few feet above the heads of bathers, impelling many of them to scurry ashore.

The authorities of Norfolk county want the aviators to cease their fun and keep a proper distance from the bathers. The county supervisors say they have been appealed to by bathers, who fear that one of the airships may fall on and crush them.

Figures show that 20,000 women paid an income tax in Maryland for 1920, an increase from the last official report in 1918 of 100 per cent.

WOMAN GETS RID OF HER FAITHLESS SPOUSE BY 'GIVING' HIM AWAY

CHICAGO, July 14.—Mother love won out over the love of a wife for her husband in one of the strangest "eternal triangles" ever revealed in the Chicago courts.

Mrs. Lynn N. Hitchcock "gave" her husband away to the "other woman" that her children might not suffer from a faithless father. She was granted a divorce here with custody of her two children—John, 8, and Evelyn, 7—and \$400 alimony a month. Hitchcock will marry the "other woman."

Mrs. Hitchcock blamed her marital troubles on the fact that her husband was a "traveling salesman."

"If I had insisted on living with him he might have starved me and my children. I wouldn't want them to live under the stain of a faithless father."

"It was hard at first to decide. It seemed impossible to give him up. I knew a lot of women would have wanted to punish him for wasting my love. But I couldn't do that for the love of my children was greater than that. There is no love greater than mother love."

Program

LAMB—Doraldina in "Passion Fruit," also Rollin comedy and Pathe Review.

TEMPLE—Douglas MacLean in "One a Minute," also comedy, "High and Dry."

LIBERTY—Will Rogers in "Boys Will Be Boys," also animal comedy, "Her Circus Man."

LAMB.

"Passion Fruit," a strong photodrama of pulsing conflict, love and hate in the heavy-scented tropics, comes to the Lamb theatre today only as the feature attraction. This production stars the famous Doraldina.

Doraldina, known as queen of dancers, is a creature of lithe grace and beauty who has enthralled thousands upon thousands by her unique interpretative Hawaiian dances. She popularized many hula dances, and earned fabulous sums teaching the wealthy these dances. In this, her first Metro starring picture, she has wide scope for her terpsichorean activities, for the picture begins with an insult to a girl at a charity vaudeville performance and comes to a climax when Doraldina, acting the part of Regina Dominant, has to dance one of her wildest dances to save the life of the man she loves.

Here she acts the extraordinary role of the fascinating Regina, the Hawaiian beauty whose father has been poisoned by his plantation overseer, Anders Rance. Rance hopes to win Regina and the plantation. A wreck of an American, Pierce Lamont, is regenerated through Regina, and wins after being at death's door, with clamorous thousands of wild natives shrieking for his sacrifice to the gods.

Supporting Doraldina are the following notable actors: Edward Earle, known as "The O. Henry Man," Stuart Holmes, Sidney Bracey, Florence Turner, and William Bainbridge. The picture was adapted from Carey Wilson's original story and scenarized by Edward Lowe, Jr. John Ince directed. Rudolph Berquist photographed, and the special art interiors and effects were done by John Hughes.

TEMPLE.

Douglas MacLean has a lively comedy drama in his latest starring vehicle, "One a Minute," which will be the feature attraction at the Temple theatre today and Friday.

The curative properties of faith, a popular picture subject, are made the basis of a comedy drama which stresses most strongly the comedy element. Many amusing situations are developed and where the association of the star with his fellow workers is shown it is particularly amusing. Douglas MacLean gives a characteristic performance in the leading role and Marion DeBeck is charming as leading lady.

The story sets forth the adventures of Billy Knight, college graduate, who returns to the small town of his birth, takes over his deceased father's run-down drug store and combats a trust store which has eclipsed the older institution in favor. He falls in love with the daughter of the druggist magnet controlling the trust and fights against elimination for her plaudits.

As a desperate means of defeating competition he places on sale a harmless concoction which he names "Knight's 99," representing it as his father's secret formula and a panacea that will cure every ailment. Townspeople try the formula and it never fails to effect a cure. Billy becomes wealthy almost overnight, winning the girl's hand when her father finds that he can not buy the formula. In the end it is found that a fifth ingredient, which has been held responsible for the curative properties of the medicine is faith.

AMESBURY, Mass., July 14.—"Go slow and see our town; go fast and see our jail." This combined invitation and admonition posted conspicuously along the State highway has proved an effective means of stopping automobile speeding.

NEEDS AN ANNEX FOR NEWEST MEDAL

"Ha! ha!" says "Stubby," smiling, as you plainly can see by the photograph. "Maybe there's something in this dog's life they talk about, after all." General Pershing just pinned a medal on me. Maybe you can't see it, because kings and others had stuck so many others on me. But it's there. Because I'm a wounded hero and everything. I'm a life member of the Y. M. C. A., with three bones a day and a place to sleep guaranteed. Pretty soft. What? That's the way "Stubby" feels about it all. "Stubby," a bull terrier, went through the world war with veterans of the One Hundred and Second infantry, has been wounded and is the wearer of three service stripes. "Stubby's" latest medal came from the Humane Education society and was presented by General Pershing at Washington.

OIL FIELD "SPOTTER" SEES WHERE RIVERS OF PETROLEUM JOIN AWAY DOWN BELOW, OR HOPES HE DOES

A "spotter" in oilfield parlance is a man who can look at the surface of the earth and "see" the interior, or

in other words a man who can by some occult science tell where heavy production of oil is to be found.

The Breckenridge field has at least one "spotter." He says the reason he isn't already as rich as the rest of Breckenridge's magnates is because he only found out a short while ago how "spotting" ought to be done.

"Oil in Channels," he says. "It is found in channels. Of course, there is some oil under most Breck territory, but heavy production is found only in underground rivers. There are channels of oil, veritable rivers, flowing with a rush that, if it could be seen and heard, would remind one of the vast downward sweep of Niagara Falls. In places two streams cross.

"That rig there," indicating a greasy derrick on the dividing line between producing and dry territory in one direction, "is just eighty feet too far south and east. If it was over yonder by the fence it would be good for 4,000 barrels."

The "spotter" has faith in his ability. With two associates he is drilling a well in territory which has been condemned by thirty-two dry holes. His rig is not more than 150 yards from a well abandoned as dry by one of the big companies.

"It will be the biggest well so far

drilled in Stephens county," he declared. "Two fifteen-foot channels of oil cross each other at the exact spot where the drill is punching down."

According to an old farmer living near the well, the spotter's two associates sometimes have qualms.

Much Depends. "They are keeping a close watch on him," the farmer confided. "If the well turns out to be a dry hole they aim to kill him."

The well is underreaming at 3,200 feet. If the farmer is correct, it looks as if Breckenridge will have a new prophet or the undertaker a customer.—Breckenridge Democrat.

BIG DOIN'S PROMISED AT SHRINE DANCE BY COMMITTEE IN CHARGE

The secrecy of the seven veils has been thrown around the "stunts" that are to be loosed on the unsuspecting guests at the Shrine club dance Friday night by the committee in charge.

If any Shriner misses the fun he needn't blame those in charge, the committee said this morning, as all and sundry have been given fair warning the dance will be a dance like no Shriner ever attended before. It will be held at Shamrock park. Extra fans will be installed and the

floor waxed. Punch without a "punch" and real ice water will be available.

The reception committee is composed of Mesdames Garrett Bohning, Fred Draehof, Howard Gholson, Ross Hodges and A. N. Harkrider.

LEGION MEMBERS TO BE HONORED GUESTS OF FRENCH REPUBLIC

By Associated Press

NEW YORK, July 14.—The 250 members of the American Legion, who will visit France in August and September at the invitation of President Millerand, will represent every section of the United States and all arms of the fighting forces in the war. Every state will have its quota and if possible every combat division will have representation, says an announcement by the Legion.

A fixed quota, based on Legion membership, has been allotted to each state. Not all who have asked to be included can go, but it is the purpose of Franklin D'Olier, the former national commander of the Legion, who is in charge of the pilgrimage, to make the party "a cross section of our former fighting forces." Selection of the members is in the hands of the state organizations of the Legion.

Details of the tour in France which have just been made public show that the Americans will visit again the principal American battlefields, attend various dedicatory ceremonies and will be entertained at numerous receptions.

The party will sail aboard the steamer George Washington on August 3 and will return about the middle of September. The principal events of the visit will be the dedication at Fierey of a monument to the American army, which is the gift of the French municipality and the people of Lorraine and the laying of the corner stone of the new bridge "Pont Roosevelt" over the Marne at Chateau Thierry.

Under the terms by which the Legion accepted the hospitality of the French government, the expenses of the expedition will be borne by the delegates themselves or by the Legion organization.

Mr. D'Olier says that the proposal for the visit has been received with such enthusiasm by the American veterans as to constitute a striking and spontaneous tribute to France as a former ally.

Nearly one-half of the \$1,354,389 estate of Mrs. Frank Leslie, left to Mrs. Carrie Chapman Catt, already has been spent for woman suffrage work in the United States.

HISTORY OF PIRACY SHOWS BLACK FLAG HAS FOLLOWED IN WAKE OF GREAT WARS

WASHINGTON, July 14.—The theory that pirates are again infesting Atlantic waters has been put forward in connection with the grounding of the Carol Deering and the mysterious disappearance of three other American steamships.

"An epidemic of piracy has followed in the wake of nearly all of the great wars. Even as recently as 1815, restless souls who had smelled the blood of battle and felt the intoxication of danger become loath to settle down into the peaceful ways of men and commerce, and chose the wide seas as an asylum because they refused to live under the law," says a bulletin of the National Geographic society from its Washington, D. C., headquarters.

"Besides the broad oceans which offered infinite chance for escape there have always been the island-dotted areas which furnish excellent lurking places from which these exponents of absolute freedom might direct their efforts and to which they might take their quarry for examination and long division among them. The Greek Archipelago, the Barbary coast, the East Indies, the China shores and the Spanish Main, within the shadow of our own doors, have been pirate bases for centuries and given to the world a wealth of stories of breathless interest.

"In ancient times these sea robbers off the coast of Greece, Italy and Asia Minor with their thousands of light, swift vessels, or 'sea mice,' as they were called, 'taxed' merchant shipping so heavily that they lightly and rightly termed their base of operations the 'Golden Gulf.' They flaunted their black flag in the face of mighty Rome, which remained impotent against them until Pompey with almost unlimited resources at his command curbed their operations.

"Moors Stern Avengers. "Ferdinand and Isabella, unwittingly in their decision to drive the Moors from Spanish soil, let loose upon the world, and particularly upon Spanish shipping, then at the height of its pride, a fearful horde of daring, unscrupulous avengers. "In the early days of Moslem power one of the Kalifs wrote to his general and asked him what the sea was like. The general answered, 'The sea is a huge beast which silly

heart of Cuba and took it despite every resistance. He outwitted with uncanny cunning, the officers at Porto Bello in Panama, one of the strongest cities near the Caribbean shores, and the storehouse for the riches which had been brought by Spanish galleons and mule packers from the interior. He escaped with an estimable amount of gold and jewels, ingeniously employing a fire-ship against the Spanish to accomplish his escape when he was bottled up in Maracaibo Lake. Finally he took and sacked the city of Panama. Then leaving his companions in the lurch, he slipped away at night with all the booty to Jamaica, ingratiated himself with the governor, and was clever enough to get himself into the good graces of the English

king, who knighted him and made him lieutenant-governor of Jamaica for his 'long experience of that colony.' Capt. Kidd Well Known. "In our boyhood, stories of Capt. Kidd were frequent. The subject of the narratives was really a respectable sailor in the merchant service with a wife and family in New York when he was commissioned by the English king in 1690 with power to seize and destroy off the American coast all pirate ships. Having been given ships and crews to accomplish the purpose, he gayly set sail across the Atlantic, around the Cape of Good Hope to Madagascar and the Red Sea to ravage East India waters and convert to his own

JOHN H. KIRBY LAUDS SMALL OIL PRODUCER

HOUSTON, July 14.—John Henry Kirby, president of the Southern Tariff association, declares the United States owes her place in the world's affairs in part to her oil production and that her national position can be maintained only through encouragement to the small producer. In a telegram to J. A. Arnold, representing the Southern Tariff association at Washington, D. C., Mr. Kirby says: "Petroleum oil industries of the United States employ directly a million men and indirectly three or four times that number. The average life of pumping wells in the United States of which there are more than a hundred thousand, is about twenty years. These pumps have been and are the main dependence for production and have made the United States independent of the world in times of both peace and war."

"This production and the millions of men who depend thereon, are menaced by the big gushers in Mexico and will probably be further menaced by large developments in Colombia. National disaster must follow the destruction of American production, which will be accomplished if America leaves her home producers to the mercy of the big gusher product of foreign countries. When our country has lost its position as one of the principal oil producers of the world and we become dependent upon products of foreign lands we lose our national position, and I repeat that the national position can only be maintained through encouragement to the small producer."

YOUR FACE HURT YOU? 'DOC' CAN RUB IT OUT AND DRAW IT AGAIN

LONDON, July 13.—What kind of a face shall I have this season? This question suggests itself to many modern women, for the beauty culture craze is increasing. A

THINK OF IT! 302 BOTTLES OF HOOTCH AT 27 CENTS PER QUART

There was weeping and wailing and gnashing of teeth in exclusive bootlegging circles when Uncle Sam, doughty arbiter of destinies and thirst, unlocked the doors of his high class bar at Los Angeles and sold his stock of fine liquor at an average of twenty-seven and a fraction cents per quart. The stuff had been seized on ships and from other sources by the custom house officials. There were 302 bottles of the finest imported stock and it sold for \$82. What a haul it would have been for the bootleggers who could have sold it at \$20 a quart. Ben Aaron, the auctioneer, presided over the sale which went to the highest bidder of licensed dealers in liquor.

woman who has the necessary fee of about \$250 and courage in proportion to undergo the operation can decide whether she will resemble a Botticelli angel, a rustic maiden or a Roman Empress. The beauty specialist has come to London from Paris and New York and is waiting to do her facial alterations. He can straighten noses, broaden chins and flatten ears; he can make women pert, dignified or wistful, which she will.

Old faces can be exchanged for new by plastic surgery. Sometimes wax paraffin is injected into a hollow cheek, or used to build a nose, so that a middle-aged face takes a roundness of sweet 17, but this method is not permanent, and needs constant and expensive renewal.

Many women who want reconstructed faces visit an aesthetic surgeon, who undertakes certain structural alterations within an hour. Women of 50 to 60 years are promised that they will look 25 years younger after the operation, with the guarantee that the alteration will be permanent.

"I first of all tell a client to look in a mirror and pull her skin tightly down," said an aesthetic surgeon. "Then I raise her hair and inject a local anaesthetic that is absolutely harmless. This deadens all pain during the operation. I remove the necessary amount of skin by special surgical instruments, and stitch up the place afterward with silk, so that the joint is not visible."

"The majority of my clients are between the ages of 50 and 30. I can alter noses, eyebrows, and cheeks, but I never undertake an alteration that I do not think would become a woman."

KILLS HUSBAND WHO WANTED TO PUT POOL TABLE IN HOME

LOS ANGELES, July 14.—Mrs. Julia Lee Johnston, 25 years old, was arrested yesterday charged with murdering her husband as the result of a quarrel which grew out of Johnston's plan to install a pool table in the basement of their home.

SOCIETY AND WOMEN'S ACTIVITIES

STORY HOUR CLUB MEETS AGAIN FRIDAY

The Story Hour club, under the auspices of the Young school Parent-Teachers' association, will meet on the school campus Friday, from 5 to 6 o'clock.

Mmes. Houghton, Brewer and Chaney will be the entertainers. There will also be games. Last Friday there were eighty-two children present. The story hour is proving to be a wonderful success. All children in the city are invited.

BIRTHDAY PICNIC.

Early Tuesday morning a crowd of happy children and grown-ups, twenty in all, motored out to Winsett springs to enjoy an all-day picnic, given by Mr. and Mrs. W. P. Brookes, in honor of the twelfth birthday of their little daughter, Mary.

This was an occasion long to be remembered by the children, who enjoyed every moment of the day—climbing rocks and trees, wading and bathing to their hearts' content. Then the dinner; the table was simply loaded with all that makes a picnic complete, with the added birthday cake and a large packer of ice cream. The afternoon was just as full of pleasure as the morning. A bountiful supper was served before returning to town. All came away declaring Mr. and Mrs. Brookes royal entertainers and wishing Mary many happy returns of the day.

PERSONALS.

Mrs. J. H. Fraser and daughter, Miss Frances, have returned to Ranger after several weeks spent with friends at Springfield, Ohio.

Mrs. A. N. Stubblebine left this morning for Waxahachie, where she will be on the faculty of the Presbyterian encampment, being held at Trinity university from the 14th to the 22nd. Her subject will be "The Teen Age," and instruction will be given to adults who work in both the church and Sunday school departments.

Miss Marion H. Stubblebine is visiting friends in Dallas. Miss Katherine and John Fisher Nelms of Dallas, are visiting their grandparents, Mr. and Mrs. R. R. Nelms.

Miss Elizabeth Wilhelm, superintendent of the Clinical hospital, left yesterday for a month's stay in San Antonio, her old home. During her absence Miss Dorothy Lehmann of Fort Worth, will be in charge of the hospital. Miss Lehmann arrived Sunday.

ST. MARY'S GUILD.

St. Mary's Guild will meet with Mrs. Clegg on Summit avenue, G. H. addition, Friday afternoon at 3 o'clock. All members of the church are requested to attend.

As soon as the national parliament of the Assyrians is organized it is expected that they will elect Lady Suma as president.

OWNER SAYS HE WON'T GIVE LAND FOR MIRROR LAKE ROUTE FOR ROAD

J. W. Jones of Mineral Wells, who owns 320 acres of land on Eastland Hill, stated yesterday that he positively would not allow a right-of-way over the land if the Pleasant Grove highway left Ranger by way of Mirror lake. It would be necessary for the road to pass over the land if this route was chosen.

Mr. Jones said that he had never favored the Mirror lake site himself and since he had heard the contentions of the Eastland Hill folks he would not grant a right-of-way over his ground. Mr. Jones was asked to come to Ranger by the advocates of the Mirror lake site. He gave it as his opinion that the county already had a right-of-way over Eastland Hill which would involve no future expense and it should use that route.

NEGRESS IS CHARGED WITH LIFTING BANK ROLL OF WHITE MAN

A complaint of robbery was filed this morning against a negro woman who is charged with having taken \$28 from the pockets of a white man to whom she was talking last night.

It is said that the man missed the money at the time and when he accused the woman of having taken it she ran. Five negroes were rounded up by the police and kept in jail overnight while the affair was being probed.
