BUD AMMONS NAMED AS NITRO MANAGER

18 GOVERNORS PROMISE AID IN OPENING MINES

Roads and Public Utilities in West and Southwest Feel Shortage.

WASHINGTON, July 20.—The center of developments in the coal strike is steadily shifting from Washington to the coal fields, where President Harding had called upon the operators to reopen the mines under state or federal protection.

White House officials today expressed gratification at the response met with the President's appeal to the governors of coal-producing states for cooperation. Out of nineteen state executives heard from, only one, Governor Morrison of South Carolina, refused the cooperation asked, it was stated.

Most of the operators who came to Washington to attend the conference called by the President had returned or were enroute to their homes today. The mine workers' attitude was announced today by President Lewis of the mine union. "Our people are determined to continue the strike," he said, "until the past procedure in the industry is remedied. The threat of military operation will not afford relief or satisfaction to the public."

The government was showing increased concern today over the continued falling off in the output of the non-union mines and railroads and public utilities in the West and Southwest are beginning to feel the effects of the coal shortage.

CLEVELAND LIGHT PLANT HAS ONLY THREE DAYS' FUEL

CLEVELAND, July 20.—Complete closing down of the city light plant in three days unless additional fuel is obtained was predicted today by city officials.

NEFF TO RECEIVE MESSAGE FROM PRESIDENT TODAY

AUSTIN, July 20.—President Harding's message requesting cooperation in the coal strike was received today at the governor's office and will be read over the phone or forwarded to Governor Neff at once, his secretary stated.

KLAN COUNSEL DOUBLE-CROSSED ON SENATE RACE

DALLAS, July 20.—E. J. Clark of Waco, has resigned as general counsel of the Ku Klux Klan in Texas, according to an alleged confidential letter published by local newspapers, said to have been exchanged between Clark and other high Klan officials.

In the letter, which is alleged to have been written to H. W. Evans of Atlanta, Ga., Clark said that in the light of conditions within the Klan as they pertain to the senatorial race in Texas, he cannot continue longer as an official of the Klan, but will continue as a member.

The purported confidential letter reviews the senatorial race at length, and charges that the Georgia official has actively circulated propaganda for Mayfield, after the "Waco agreement" that the Klan would adopt a hands-off policy for the first primary as between Mayfield, Henry and Strong.

BONHAM CLUB BLOWS UP

BONHAM, July 20.—The local Texas-Oklahoma league baseball team is now in the hands of President Roberts, according to an announcement today. Roberts will go to Denison tomorrow, where it is said a greater part of the money has been subscribed to take over the local franchise. This move is made on account of financial conditions, although the club is free from debt at present.

IRISH BATTLING AGAIN

DUBLIN, July 20.—A battle between rebels and free state troops on a seventy-mile front between Limerick and Waterford is raging today. Casualties were reported at 20 killed and 40 wounded.

Jimmy Flagg Gets Huffy and Quits When Lubbock Offers Job.

When the Nitros return home tomorrow, Bud Ammons will have stepped into the managerial shoes, as a result of some heart to heart talks that Sled Allen and Jimmy Flagg have been having up at Lubbock.

Sled needed a shortstop, badly, and he chose Jimmy. Yesterday he phoned down, offering to swap Battle and Brooks for the Nitro manager. Since both together are hitting about as much as Flagg, the offer was declined.

Flagg professed himself as being perfectly satisfied here, but this morning he phoned President Smith that he wanted to send Ammons and Conley home, as they were "having a bad effect on the younger players." Smith demurred, especially as Ammons has had a large hand in running the club for some time, and Jimmy thereupon quit. He will return tomorrow with the club and check out, after which he will join Lubbock as a player, presumably at the same salary of \$250 a month he is getting here as manager, if not an increase.

This thing of clubs in the same league tampering with each others' players is getting unbearable. It is reliably reported that Amarillo parties have offered Lefty Phillips \$350 a month, presumably hoping to tempt him to lay down on the Ranger club and get his release. Stamford and Ahilene and other clubs have sought to obtain Tom Pyle in the same manner, but failed, because the big boy isn't that kind of fellow. These overtures, of course, are not made directly by the club, except in Flagg's case, but the fact that they are made at all shows the clubs would not be averse to obtaining the players and would see that they didn't suffer for a job if released here.

That sort of thing demands stern measures. If President Northern does not stop it, then the national commission should have something to say. In connection with the outrageous fractures of the salary limit which the leading clubs in the league are notoriously engaged in, it is too much. A break up of such poor sportsmanship on the part of victory-mad clubs.

8 INCHES OF RAIN IN 45 MINUTES IN SOUTH TEXAS

HOUSTON, July 20.—Severe rain and windstorms over South Texas, which in some instances reached cyclonic proportions, last night damaged telegraph and telephone lines and flooded the streets of many towns.

More than eight inches of rain fell in some localities during the storm, which lasted only 45 minutes. Heavy damage was done at Thornton, where a score of small structures were blown down and many windows were broken by hailstones.

Reports from scattered towns in the storm area indicate that the heaviest damage was to growing crops. No lives were lost.

Telegraph and telephone communication between Galveston, Houston and Beaumont were interrupted for more than an hour. Information from Mexia states that a number of derricks were blown down in the oil field.

GEORGE T. JESTER FORMER LT.-GOV. DIES AT CORSICANA

CORSICANA, July 20.—George T. Jester, 76, former lieutenant governor of Texas and confederate veteran, died here today. He is survived by his widow, three sons and one daughter.

Mr. Jester served as lieutenant governor for three years under the Culberson administration and also at other times in both houses of the legislature. In the war between the states he served in Hood's Texas brigade.

DIVORCE WRECKING AMERICAN HOMES, EPISCOPALIANS ASSERT

NEW YORK, July 20.—The homes of America are in chaos because of divorce and lack of Christian teaching in families, according to a report of the joint commission on homes of the Episcopal church, to be presented to the conference in September at Portland, Ore., and made public today.

The report, compiled

EDITOR DEFIES KANSAS COURT

EMPORIA, Kan., July 20.—William Allen White, noted publisher, today defied the Kansas industrial court—brain child of his friend, Governor Henry Allen. Despite a warning from attorneys for the court, White posted in the front window of his paper, the Emporia Gazette, a placard expressing sympathy for the railroad strikers. White declared the court order against signs of the rights of free speech and a free press, and said if the court wished a test case, he offered the opportunity.

FORD PLAN WILL COST TAXPAYERS 14 1-2 BILLIONS

That's Claim Made by Senators in Urging Federal Control of Muscle Shoals.

WASHINGTON, July 20.—If congress accepts the Henry Ford offer for the power and nitrate plant at Muscle Shoals, Ala., taxpayers of the nation will lose in 100 years \$14,500,000,000, or more than half America's total cost for the world war, Senator Norris of Nebraska, charged in a minority report of the senate agricultural committee today, recommending operation of the proposition under a federal commission.

While the report, signed by Senator Norris, Gooding, McNary, Norbeck and McKinley, deals in great detail with the plan for government control, much of it is devoted to pointing out what is termed the "unreasonableness" of the Ford proposal. The 100-year lease period of the Ford offer drew particularly bitter attacks.

U. S. APPROVES CONFERENCE'S RUSSIAN STAND

THE HAGUE, July 20.—The conference affecting Russian affairs adjourned this afternoon with a plea from the non-Russian commission to all the powers to prevent their nationals from accepting concession in Russia that had formerly belonged to foreigners. A letter received from Washington expressed the approval of the American government on this stand.

NEGROES STORM JAIL AFTER FELLOW BLACK

MEALESTER, Okla., July 20.—A mob of several hundred negroes last night stormed the county jail here in an unsuccessful attempt to take Levy Webster, negro, 49, from the authorities. Webster, a few hours earlier, was charged with having murdered a 10-year-old negro girl.

The negro girl's body was found in a creek. She had been brutally assaulted, according to medical authorities. News of the crime spread rapidly and in a short while after the capture of the accused negro, the mob had gathered around the jail, their numbers augmented by a number of curious white persons. They were appealed to disperse by the sheriff.

Lacking a leader, the blacks turned the section into a bedlam with howls and shrieks, which they kept up for three hours.

Rotary Club Launches Buy In Ranger Move

THREE BOYS ARRESTED FOR \$3,800 CHECK THEFT FROM PRAIRIE CO.

Charged with being implicated in theft of \$3,800 in checks from the postoffice box of the Prairie Oil & Gas company, George Scarborough, 16, of Breckenridge, Lee Smith, 17, of El Paso, and Don Tudor, 17, of Breckenridge, were brought back here this morning from El Paso by Assistant Police Chief Gene Reynolds and locked up to await action of the federal authorities.

The checks, drawn on a New York bank and sent here on June 17 from Independence, Kan., to meet the payroll of the company, were stolen some time on the morning of that day by persons who had little difficulty in manipulating the combination on the box. At the request of federal and local authorities, no mention was made of the theft while the officers were working to apprehend the thieves.

Worked Oil Fields.

The three boys are said to have cashed many of the checks in various places over the oil fields and to have met at Electra, where they stole an automobile and drove to El Paso. Officers state that the car is being held in El Paso for the owner.

The Scarborough boy, who was captured at Douglas, Ariz., remarked this morning that he had cashed a number of the checks and realized about \$800 and still had a few checks left. He claimed to have lost or spent the money. The other two boys were captured in El Paso. It is stated that all three expect to plead guilty to the charge and that they will make complete statements regarding the theft. All appeared in good spirits on their return here this morning.

COUNTY JUDGE CANDIDATES GIVE STRAIGHT TALKS ON PLATFORMS

Few personalities crept into the speeches of the county judge candidates last night when they gathered for probably the last time here before the election Saturday. E. S. Pritchard and T. S. Ross confined their speeches mainly to the issues of the campaign and their stand upon them, and although J. S. Hankins continued a more or less personal attack, neither of the other two speakers were diverted to any extent by their opponent's remarks.

As preliminary events, Wiley Harbin and William N. Jones, candidates for sheriff; T. M. Toombs, candidate for treasurer; Miss Ulala Howard and C. E. Sims, candidates for county school superintendent, spoke a few minutes.

The county judge candidates followed in the order below: J. F. Hankins.

In again presenting his autobiography to Ranger voters, Mr. Hankins reiterated that he was born in the backwoods of Arkansas, and after pausing for a laugh, told of coming up from "poverty and obscurity" and of receiving degrees from a number of colleges over the South. He asserted that he had been a resident of Eastland county for 20 years, had taught school, punched cattle and played the oil game, attaining a fair degree of success in all three pursuits. A man who has made a success of his own business can be counted on to handle the financial affairs of the county, he pointed out. He told the voters that he was in the race on his own initiative and that if elected he could give free and untrammelled service to all.

He announced for conservation and economy in office and stated that he

was in a position to aid in the equitable distribution of taxation throughout the county. He touched on the uncompleted roads of the county and declared that serious mistakes had been made in the administration of the county affairs. In his rejoinder the speaker declared for the use of Eastland county labor on the roads at a fair wage and declared that the "sofa pillow pressers" in the county had got the money for the road work while the laborers had worked for \$2.25 a day and then been paid in scrip which had to be discounted from 40 to 75 per cent.

E. S. Pritchard.

Mr. Pritchard declared that he was running on the issues now facing Eastland county and that he was not asking voters to support him on the ground of friendship. The county judge must be familiar with the financial affairs, he said, and read in detail the obligations that the county must meet annually.

The county must raise \$300,000 annually for the sinking fund and interest on the \$4,500,000 road bond issue; must raise a sinking fund and interest on the balance of the \$86,000 due on the court house and must provide a sinking fund and interest on the \$66,000 worth of "Burkett road warrants," or a total of \$385,000 to be raised annually, he said, and declared in favor of placing the lid on the treasury.

The speaker announced against paying \$5,000 a year as salary and expenses of the road supervisor, stating that the commissioners could better look after the road work in their own precincts and at the same

(CONTINUED ON PAGE TWO.)

ARMY TO USE HELIUM GAS IN FLIGHT OVER COUNTRY

WASHINGTON, July 20.—A transcontinental airship flight will be attempted by the army this fall. The dirigible C-2, in which helium gas will be employed, will be used in the attempt. The flight will probably be made in September.

KIRBY FILLS VACANCY ON BRAZIL COMMISSION.

WASHINGTON, July 20.—John H. Kirby of Houston, Texas, millionaire lumberman and head of the Southern Tariff association, was today named deputy commissioner general on the United States commission for participation in the Brazilian centennial exposition by D. C. Collier, commissioner general, prior to his departure today for Rio de Janeiro.

CITY OWNED RAILWAYS PROVE SUCCESS IN DETROIT

DETROIT, July 20.—The success of the street railways operated by the municipality is assumed, Mayor James Couzens declared today in making public the report for June, showing a surplus of \$508,850.08 was on hand after paying all expenses.

THE WEATHER.

West Texas—Tonight and Friday, generally fair weather.

Move Includes Merchants as Well as Residents; Women Asked for Suggestions.

Plans for an extensive "Buy It In Ranger" campaign was launched yesterday at the noon luncheon of the Rotary club and a committee appointed to work out details and to raise a fund for the purpose of educating the Ranger public to the importance of keeping Ranger money at home, where a part of what they spend will eventually be returned to them. Other civic organizations of the city will be asked to work with the Rotary club in making the campaign a success.

The importance of Ranger residents buying in Ranger instead of through mail order houses and in Fort Worth and Dallas, will be stressed, and in turn the merchants of the city will be asked to carry out their part of the plan by buying from the Ranger wholesalers in preference to outside firms.

The retailers and wholesalers will be advised of the things wanted by the Ranger buying public, which it is claimed are not obtainable here at present and as a starter, to learn the needs along this line and to learn why purchases are being made out of the city, the wives of Rotarians will be asked to meet with the club next Wednesday, at which time they will write out suggestions and criticisms for the benefit of the merchants.

INSANITY PLEA WILL BE MADE BY HAMMER SLAYER

LOS ANGELES, July 20.—Filing of a demurrer to the indictment charging her with the murder of Mrs. Alberta Meadows was a prospect at the pleading here today by Mrs. Clara Phillips, accused of bringing about the young woman's death with a hammer. Her attorney's said if the demurrer was overruled, a plea of insanity would be entered. It is expected that insanity will form the basis for the defense.

Mrs. Phillips when arraigned denied in a formal plea. "Are you guilty or not guilty?" the court asked. Mrs. Phillips, her eyes flashing like a tiger's, swung around on District Attorney Woolwine, looked him squarely in the eyes and snarled, "Not guilty" in tones which sent a thrill of excitement through the court room.

The trial was set for Sept. 18, after Mrs. Phillips had waived her legal right of 60 days' delay.

DOPE SLIPS THROUGH

DALLAS, July 20.—Probably the largest shipment of narcotic drugs ever brought to the attention of police authorities has slipped through a cordon of federal and state officers into Dallas, it was learned authoritatively today.

The dope, said to have been brought here in a high powered auto, is valued at \$10,000. The "lightning express" as the automobile is known, is reported to have crossed the Rio Grande near El Paso, with dozens of bottles filled with morphine and cocaine hidden under the seat.

EIGHT INJURED WHEN TOURIST TRAIN WRECKS

ALBANY, Ga., July 20.—Eight passengers were injured, one seriously, when five coaches of the Southland Limited, a Florida tourist train from Chicago, turned over between Smithville and Leesburg, north of here, early today. A broken rail is said to have caused the accident.

PRICES STILL UP

WASHINGTON, July 20.—Cost of living is holding pretty steady, about 50 per cent above the 1914 level. Slight changes ranging from 1.4 per cent decrease to 1 per cent increase have occurred between March and June of this year, according to a statement issued today by the department of labor.

CAR INSPECTOR AT FORT WORTH GIVEN BEATING

T. & P. Employee Says He Won't Go Back to Work; Two Others Attacked.

FORT WORTH, July 20.—W. E. Smith, 40, employed as car inspector by the Texas & Pacific here, was lured from his home late last night by false reports of a wreck at which his services were needed, taken several miles into the country and flogged by a band of unidentified men. According to reports to the sheriff's office, the inspector was warned by his assailants after the flogging not to return to work.

Smith is in a local hospital but his condition is not serious. He is reported to have said that he has no intention of returning to work.

In a statement given out today by Superintendent Knightlinger of the Texas & Pacific, it was announced that three employees of the road had been flogged last night. One of the number was in Shreveport, the second in Texarkana and the third in Fort Worth.

CORNING OIL CUT.

PITTSBURGH, July 20.—Corning oil was cut 15 cents a barrel when the market opened today. The new quotation is \$1.75. Other grades were unchanged.

C. & O. CLERKS STRIKE.

CINCINNATI, July 20.—Five hundred clerks of the Chesapeake & Ohio offices in Richmond walked out at 10 o'clock this morning, when the strike orders of clerks and freight handlers went into effect. Reports have reached here that 75 freight handlers at Chicago walked out. Union chiefs said unofficial reports indicated the strike was 100 per cent at many points. No definite announcement will be made, however, until reports are received from the general chairman.

Approximately 4,000 clerks and freight handlers on the C. & O. are members of the organization.

GOVERNOR ENDS CAMPAIGN TO INVESTIGATE DISORDERS

DALLAS, July 20.—Assurances of state aid in checking lawlessness in Texas in connection with the railroad strike today were seen in Governor Neff's decision to call off his speaking tour and his scheduled arrival at Denison this morning to personally investigate the situation there.

STRIKERS' VICTORY IN TWO WEEKS PREDICTED

CHICAGO, July 20.—B. M. Jewell, president of the railroad shop crafts predicted today that the railroads will capitulate and settle the strike within two weeks. "The strike is becoming more effective daily," he said, "and the roads will yield as soon as we bring them to their knees."

Jewell denounced a railroad statement issued last night ascribing seniority as one of the evils of the present system of employment, as camouflage to cover up the real issue—a national adjustment board.

"The railroads know they cannot justify their fight against a national adjustment board before the public," Jewell said. "The board would take working rules disputes off the hands of the labor board, except for appeals, and would leave the labor board free to devote practically all its time to wage questions. The transportation act provides for adjustment boards and attempts have been made several times to have district adjustment boards organized."

Chairman Hoper of the railroad labor board late last night announced that peace negotiations had been halted by the refusal of the railroads to return seniority rights to strikers.

The railway executives in justifying their position declared that they were protecting the rights of the men who had refused to quit work and the ones who had been employed to fill the places of the strikers.

MAILS NOT HAMPERED.

WASHINGTON, July 20.—Postmaster General Work announced today that the menace to the distribution of the mails by the strike has passed and that where railroads had been unable to carry out the mail contracts, other means had been obtained.

The superintendent of the mails at Cincinnati reported today that the Wabash had discontinued six important trains. The Frisco road was also reported to have cut off two passenger trains between Birmingham and Memphis.

BERLIN, July 20.—Germany is willing to accept the guarantee commission's proposal of allied supervision of government finances, it was announced today.

GARVAN DEFIES U. S., REFUSES TO GIVE UP PATENTS

NEW YORK, July 20.—Francis
P. Garvan, president of the Chemical
Foundation, Inc., has notified Pres-
ident Harding that he would not give
up patents, trademarks and copy-
rights which the government has
demanded.

Garvan wrote a similar letter to
Thomas W. Miller, alien property
custodian, which was virtually a defi-
ance to the government to take the patents
which the United States is seeking
to recover.

The patents, trademarks and copy-
rights were gained by the chemical
foundation for a former alien prop-
erty custodian.

Garvan's letter to the president
concludes with these paragraphs:

"Mr. President, the information
upon which you have been induced
to act has been furnished by German
agents to an ex-German spy, and in-
terpreted by lawyers whose sole
knowledge of the war and its lessons
terpreted by lawyers whose sole
interest is derived from association with
German clients.

"I have not gone on with my dis-
closures of their activities, for I felt
that the great vital issue must not
become clouded with personalities,
but I beg of you to seek other coun-
sel."

In his letter to Mr. Miller he says:
"You are advised that this com-
pany is the owner in its own right of
all the aforesaid patents, trademarks
and copyrights and of the income de-
rived therefrom.

"The company denies that the
United States or you, as alien prop-
erty custodian, or anyone other than
this company, has any right, title or
interest in said patents, trademarks
or copyrights. The company there-
fore declines to comply with your
demand in any particular whatever."

SKETER IS FIRE ALARM

PRINCETON, Ind., July 20.—The
posthumous award of a medal to a
mosquito might well be contemplated
here.

The mosquito awakened a news-
paper reporter early in the morning.
While engaged in slaying his assail-
ant the reporter glanced out the win-
dow and saw flames high in the air
several blocks away.

The newspaper man telephoned the
fire department. A run was made
and Mrs. Lucinda Magee was carried
from her home, severely burned.

SENTENCED TO SLEEP IN HIS HORSE'S STALL

MALDEN, Mass., July 20.—A sen-
tence to spend two nights in his
horse's stall, meanwhile turning the
animal out to pasture, was imposed
upon Raymond W. Putnam of Wake-
field in the district court here today.

Putnam was charged with hav-
ing failed to provide proper food and
shelter for his horse. Judge Riley
said that if the horse showed improve-
ment at the end of two weeks he would
not be further penalized.

How London Greeted the Prince of Wales

The Prince of Wales Back Home.

The reception given the Prince of Wales when he returned to London from his world tour is said to have been the most enthusiastic any British prince ever received. Above, the Prince of Wales, Princess Mary and husband, Viscount Lascelles, and the Duke of York, with Prince Henry at the right, on the balcony of Buckingham palace. Below, part of the tremendous crowd that cheered him before the royal palace.

COUNTY JUDGE CANDI- DATES GIVE STRAIGHT TALKS ON PLATFORMS

(Continued from page 1.)

time save this money. He announced
against the county ownership and op-
eration of automobiles, claiming that
many employes used cars extrava-
gantly. He urged that the employes
needing cars be paid from \$25 to \$50
more a month and be required to fur-
nish their own machines and keep
them up, and that all the county-
owned cars be sold and the money re-
turned to the treasury.

Under other needless expense, the
speaker listed the number of certi-
fied accountants retained at various
times, holding that the county audi-
tor and his assistant should do the
work. The county spent over \$6,000
on certified accountants last year, he
said.

He condemned the expense of out-
side legal advice and urged that the
office of county traffic officer be
abolished in the economy program
and the work delegated to the sher-
iff's department. One engineer, he
said, had been paid \$10,000 a year
and furnished a car. Mr. Pritchard
called for Eastland county labor for
all county contracts, with fair wages.

The speaker denied that he had
stood in the way of bond deals or
had blocked the road program and
insisted that his difficulties with
County Judge Starnes was not per-
sonal but over the affairs of the
county. He claimed to have an op-
inion from the attorney general to
justify his stand in not transferring
funds.

T. S. Ross.

Mr. Ross declared that as the result
of the remarks from many persons
on the mudslinging in the speeches of
the county judge candidates a week
or so ago, he had resolved to confine
the remainder of his campaign to his
own stand and to the issues confront-
ing the voters. In answer to charges
that he had not made his position
clear to the voters and because a
number had misquoted him, the
speaker read from his statement writ-
ten on March 22, in which he ex-
plained his stand.

"As a matter of fact, I am stand-
ing for Eastland county's interest,
and her welfare will be my sole aim,
and this statement further means
that I will vigorously prosecute any
infringement upon the county's rights
and diligently defend against any
encroachment upon her resources by
any institution or individual who
might be guilty of attempting such
conduct," he read.

"I also stated in the beginning,"
Mr. Ross declared last night, "that
should I be elected judge, I would
diligently look into the records of
the county and that should any evi-
dence be found that any person, no
matter to me who they were, had de-
frauded the county out of any money
or thing of value, that they would be
prosecuted.

"I stand neutral in the fight or
controversy, between Mr. Pritchard
and his attorneys, and Judge Starnes
and the commissioners, and that I was
not responsible for what either had
done, or had not done that might
have affected the county's interest.
That I would do away with this con-
troversy and look after the county's
affairs with all diligence. That I
stood absolutely for right against
wrong every time, and would not tol-
erate any impositions upon the
county's rights and properties by any
one.

"I sincerely believe that any in-
dividual or official involved in the
continuation of any controversy will
lose sight of the county's best inter-
ests, in the prosecution of his spite
and prejudices."

Mr. Ross declared for an economi-
cal program, fair wages to Eastland
county road labor and an equitable
redemption of property for taxation.

Bowls or bowling is one of the most
popular and ancient of English pas-
times. It is traceable to the twelfth
century and in the eighteenth century
it was known as the royal game.

LOSS THRU AUTO THEFTS IN YEAR IS 100 MILLIONS

NEW YORK, July 20.—Automobile
stealing has increased so rapidly in
the last three years and grown to
such vast proportions that the urgent
need for federal regulation of this
modern form of piracy has become
recognized by state and municipal
as well as federal officials through-
out the country.

The New York Herald has made a
survey of the situation. The result
is startling. The theft of the motor
car has developed into one of the
greatest agencies for crime breeding.

Not only has the automobile bandit
placed a levy of nearly \$100,000,000
on the automobile industry—for that
is the estimated value of motors stol-
en last year—but with this vehicle
available for theft at almost every
street corner in congested cities and
at crossways in the rural districts, a
new means of flight and escape is of-
fered to the crook in whatever field
he practices.

The recoveries last year amounted
to 40 per cent of the thefts. Twenty-
one cities show a greater number of
stolen cars in 1921 than in preced-
ing years. The cities in which there
is a decrease are Cleveland, Portland,
Ore., Seattle, Salt Lake City, Colum-
bus, Ohio, York, Pa., and Richmond,
Va.

RAZOR-BACK SOON TO JOIN TEXAS LONGHORN

GAINESVILLE, Fla., July 20.—
"Somebody ought to have a genuine
Florida razor-back mounted before
they become extinct. They're hard to
find, now."

Thus does no less an authority than
the bureau of markets and crop esti-
mates of the United States depart-
ment of agriculture here officially
confirm the suspicion that the porker
around which so many yarns have
been spun soon will be a candidate for
the museum.

There is every indication that the
razor-back soon will be extinct. Floridians
have said his backbone
formed an edge sharp enough to cut
a fence rail and many tourists be-
lieved the old yarn that the hundreds
of thousands of pine trees on turpen-
tine farms in the state, with the bark
chipped off on two sides to a height
of several feet, were damaged by the
razor-backs sharpening themselves
preparatory to cutting another fence.
Snakes and alligators are rarely seen
outside of zoos and now the razor-
back is passing.

EVANGELIST'S WIFE ON STAND IN DIVORCE SUIT

GRAND RAPIDS, Mich., July 20.—
Mrs. Lottie M. Trotter was given a
brief examination by counsel and
dismissed as a witness today in her
suit for divorce against the Rev. Mel
Trotter, nationally known evangelist.
The crowd which filled the court-
room was disappointed. No more
scandal was brought out.

Witnesses for Mrs. Trotter have
testified that Trotter was the father
of a child born to his young woman
secretary and had been demonstra-
tive toward his wife's woman friends.

KEEPING COOL IN JULY.

DEFIANCE, Ohio, July 20.—C. T.
Luke, 34 years old, an employe of
Swift & Co., narrowly escaped suf-
focation when he was locked accident-
ally in an air-tight 34-degree refrig-
erator car here.

After more than an hour of con-
finement he was taken from the car
unconscious by fellow employes.

His cries for help had been muf-
fled by a windstorm that started
shortly after he was imprisoned.

YOUNG GIRL IS SLAIN BY UNCLE IN LOVE TRAGEDY

PASSIAC, N. J., July 20.—Realiz-
ing that he could never marry his
brother's 14-year-old daughter, Sad-
die, Irving Barnett, 29 years old,
entered her bedroom and shot and
killed her as she slept.

He then fired two shots into his
own head and died two hours later
in a hospital.

Lying beside the murdered girl,
was her sister, who was awakened by
the shots just as her uncle fell to
the floor.

Irving Barnett was considered pros-
perous. His brother, Hyman, lived
near and frequently visited him for
taking Sadie to motion picture shows
dinner. Recently Irving had been
and the girl had been seen frequently
about his store.

Then Irving told Hyman that he
wanted to marry Sadie.

"Why, she's only a girl. You are
kidding yourself," was the answer.

"No, I love her, and I'll get her,"
retorted Irving. The father said he
replied hastily to this, whereupon
Irving became angry and said as he
departed:

"All right, you'll see what is going
to happen. You'll feel sorry."

Hyman Barnett said he did not
believe his brother was in love with
Sadie. The father said: "He was
just crazy."

OHIOAN LEAPS FROM BATH INTO STREET

MARION, Ohio, July 20.—John
Donovan, 40 years old, of Akron,
bathing in a hotel here, felt an over-
powering desire to jump from the
open window of his bathroom.

Without stopping to don rainment,
police say, he leaped from the second
story to the brick pavement.

He regained his feet and defied
the timid crowd of pedestrians until
police arrived.

Physicians say he may have been
affected temporarily by the heat. His
left arm was broken by the fall. Hos-
pital surgeons say he will recover.

FRECKLES

Now is the Time to Get Rid of These
Ugly Spots.

There's no longer the slightest need
of feeling ashamed of your freckles
as Othine—double strength—is guar-
anteed to remove these homely spots.

Simply get an ounce of Othine—
double strength—from any druggist
and apply a little of it night and
morning and you should soon see that
even the worst freckles have begun
to disappear, while the lighter ones
have vanished entirely. It is seldom
that more than an ounce is needed
to completely clear the skin and gain
a beautiful clear complexion.

Be sure to ask for the double
strength Othine as this is sold under
guarantee of money back if it fails
to remove freckles.—Advertisement.

SOCIETY AND WOMEN'S ACTIVITIES

Conducted By
MRS. R. B. CAMPBELL
Telephone 418

TONIGHT.

Pastime club meets with Mr. and Mrs. E. E. Crawford.
Forty-two club has picnic.
FRIDAY.
Twentieth Century club meets with Mrs. Saunders Gregg.
INFORMAL BRIDGE PARTY.
Mrs. A. E. Ernst entertained very informally with bridge on Monday afternoon, having as her guests her neighbors and some other friends of her sisters, Meses, O. F. McGee and Charles Overley, the former leaving yesterday for her home in Oklahoma and the latter having just returned from her honeymoon trip.
Mrs. H. E. Coomer made high score and Mrs. Frank Champion received the cut prize. Mrs. Ernst served a delicious and cooling ice course to the following guests: Meses, J. Scott Blair, Mary C. Blair, A. S. Bergeee, Frank Champion, E. L. McMillen, H. E. Coomer, Garvin Chastain, Walter Burden, M. H. Clark, W. D. Conway, William Clegg, Charles Overley, O. F. McGee.

HONORING MRS. J. E. T. PETERS.

Mrs. Charles Conley entertained the Young Matrons club yesterday afternoon with a bridge luncheon, in honor of Mrs. J. E. T. Peters, one of the club members who leaves soon for her new home in Denison. Mrs. Conley entertained the club out of turn, on account of leaving the city herself this week, with her family, for an automobile trip to Oklahoma and Arkansas.
The dining table was very attractive in its beautiful napery and silver and its centerpiece of blue bells, from which the feathery balsam vine trailed its length to each place card. A three-course luncheon was served. Bridge followed, and Mrs. Karl Jones made high score, receiving as a favor a picnic hamper. Mrs. Frank Champion received the low score prize, a set of salt and pepper shakers. Mrs. Peters, was showered with a host of good wishes from all present for the greatest happiness in her new home.

B SHARP CLUB.

The B Sharp music club was entertained by Mrs. Hinton at her home on Spring road, Tuesday afternoon from 4:30 to 6 o'clock.
The home was artistically decorated with flowers, the state flower, the bluebonnet, predominating.
A brief review of stories told at previous meetings was given, which was followed by the "Life of Mozart." The musical program consisted of duets, trios, and piano solos.
After the program the hostess invited the club to the nearby park where, under the shade of the beautiful trees, delicious cake and ice cream were served to: Helen and Thelma Keeling, Norma Hinton, Frances Kouke, Ida May Haden, Harold Rickard, Jimmie Haden, Howard and Hubert Hinton, Meses. Shipp, Stuart, Copp, Rickard, Brooks, the host and hostess.

PURELY PERSONAL.

Mrs. Ted Dreinhofner underwent a serious operation Tuesday afternoon at the Clinical hospital, and while still quite ill is reported as doing nicely. Mrs. R. B. Barker of Weatherford, and Mrs. Mobley of Dallas, mother and sister of Mrs. Dreinhofner, are in attendance at her bedside.

Mrs. Fulton of Sherman, representing Kidd-Key college was in Ranger yesterday in the interest of the school. Her former pupil, Mrs. Robert Bates, came in from Desdemona to visit with her wife here.

Miss Douschka Bobo has returned home from a six weeks' visit to her sister in Mexia.

Miss Marion Hunt of Eastland is visiting Miss Douschka Bobo.

Mrs. J. E. T. Peters and children leave today for their new home in Denison.

Ireland is divided into two parts united by serious trouble.—Green-ville Piedmont.

AUTO INDUSTRY HEAD DENOUNCES WAGE REDUCTION

Reduction Policy Prevents Prosperity, Dayton Man Says.

CHICAGO, July 20.—Assertion that "a wage reduction policy is wrong in every way and unnecessary" was made today by Will I. Ohmer, chairman of the board of the Associated Motor Industries, an automobile merger embracing seven car and truck companies, formation of which was announced last week. Mr. Ohmer's headquarters are in Dayton, Ohio.

Outlining his wage policy, Mr. Ohmer said:

"Everybody should join now in harmonious work for production and prosperity for all. Talk of wage reduction is entirely out of harmony. Where is prosperity if there is wage reduction? We are building up now and not tearing down.

"We believe that wage workers should have the opportunity to earn more wages instead of less. Talk of cutting down wages of working men and women is the most harmful talk that could be indulged in now. It is contrary to what every constructive agency in this country is working for. Whoever is working for wage reductions now is pulling against the stream.

"What this country and the world wants is harmony, mutual good will, confidence and greater production. Wage reduction can only produce discontent, pessimism and limited production.

"The essential argument is that wage reduction is not necessary, but on the contrary, it is the very thing that would defeat what is necessary, namely, efficient production. The answer to the needs of the country is not wage reduction but more efficient methods of manufacturing. Put the factories on a thoroughly efficient basis and you won't have to cut wages. On the contrary, the workers can earn more and more product will result.

"Reduction of costs should not be brought about by reduction of wages. What the times call for is superior methods of manufacturing, not wage cutting.

"One reason that has enabled me to take this point of view and see the real economy of enabling the worker to make all the money he is capable of is that I have never felt myself any different from or better than the men at the benches.

"The truth is that we are all exactly alike. The wage earner at the bench and the head of the business at the directors' table have exactly the same feelings and reactions. If the wage earner looks around and sees prosperity and sees that he is not getting his share of it he will become dissatisfied just the same as the head of the directors' table would."

GASOLINE PRICE DROPS CENT IN NEW ORLEANS

NEW ORLEANS, La., July 20.—The skyrocketing price of gasoline, which soared several weeks ago, began its descent yesterday with a drop of 1¢ a gallon. The price late today at the filling stations was 26 1/2¢, whereas it has been 27 1/2¢.

"The reason for the drop today," announced L. P. Samoset, "was the reduction of 25¢ a barrel in crude oil."

Mother-To-Be, Read This—

Here is a wonderful message to all expectant mothers. When the Little One arrives, you can have that moment more free from suffering than you have perhaps imagined. An eminent physician, expert in this science, has shown the way. It was he who first produced the great remedy, "Mother's Friend." Mrs. C. J. Hartman, Scranton, Pa., says: "With my first two children I had a doctor and a nurse and then they had to use instruments, but with my last two children I used Mother's Friend and had only a nurse; we had no time to get a doctor because I wasn't very sick—only about ten or fifteen minutes."

Note: Write for valuable free illustrated book, "Motherhood and the Baby," containing important authoritative information which every expectant mother should have, and all about "Mother's Friend," to Bradford Regulator Company, RA-25, Atlanta, Ga. "Mother's Friend" is sold by druggists everywhere.

HEROES OF THE MARNE MEET AGAIN

Capt. Ralph Eberlin and Capt. Hamilton Johnston.

Two of the outstanding heroes of the world war were Captain Ralph Eberlin and Captain Hamilton Johnston, who served in the Thirty-eighth U. S. infantry (Rock of the Marne regiment), in the Third division. They met again at Plattsburgh, N. Y., where both are detailed as instructors at a reserve officers' training camp. Captain Eberlin, who is on duty during the college year at New York university, was awarded the Distinguished Service Cross on the Marne on July 15, 1918, for leading one of the very few actual bayonet charges of the war. Captain Johnston won the Distinguished Service Cross the same day for capturing a machine gun nest. He also was awarded the French Legion of Honor and the Croix de Guerre with palm. Captain Johnston is military instructor at Syracuse, N. Y., university.

MURDER DEFENDANT IS FINED FOR ASSAULT

STUEBENVILLE, Ohio, July 20.—Rosario Socco, 40 years old, section foreman, paid \$100 and costs in common pleas court for having killed Peter Urbano.

He was indicted on a charge of second-degree murder, but contended that it was self-defense. The jury, after long deliberation, returned a verdict of assault and battery. Judge W. W. Cowan, who passed

sentence, said Socco should have been acquitted or convicted of the crime charged.

FILM STAR'S MOTHER LOSES BIG WILL CASE

By Associated Press.
LOS ANGELES, Cal., July 20.—The jury in the contest over the will of Matthew P. Burns Wednesday rendered a verdict that the shoe merchant was mentally incompetent when he made a will leaving the bulk of his \$100,000 to his widow, who is mother of Gloria Swanson, film actress.

Wild Goat Mothers Infant Abandoned In Jersey Swamp

NEW YORK, July 20.—A semi-wild goat was the only friend a pretty 18-month-old baby girl had when she was found on a bank of Coney Island creek at dawn yesterday. Jerry Poynce, 15 years old, discovered her as he rode on an ice wagon along a little-used road on the back edge of the Coney Island district.

The goat bleated and attracted his attention to the forlorn mite, rumped and muddy, and tear-stained and with red spots all over her neck and face.

Jerry chased the goat and carried the baby to the Coney Island police station. He ventured the opinion she had the measles. The police matron corrected him. The marks were from mosquito bites. The police believe the child was abandoned the night before and was prey for eight hours or more to the mosquitoes and other insects infesting the swamp land thereabouts. It is the police theory that the goat may have mothered the baby before she was found. The child is American, well nourished and carefully but not expensively dressed.

BRIDE-ELECT KILLED ON WAY TO WEDDING

GREENVILLE, Penn., July 20.—All members of a family party of five, traveling by automobile from Altoona, Penn., to Bari, Penn., to attend a wedding ceremony, were killed near here when the machine was struck by a train on the Bessemer and Lake Erie railroad.

Among the dead was Miss Edith Schultz, who was to have been the bride.

WILSON BETTER DESPITE RUMORS OF HIS DEATH

WASHINGTON, July 20.—For several weeks Washington has been excited with recurrent rumors that Woodrow Wilson had died suddenly. These have caused much agitation in newspaper circles, until their falsity could be established, not an easy thing to do, in view of the secluded life which Mr. Wilson leads. How the rumors started is a mystery.

The latest of the reports was circulated a few nights ago. It was found on investigation that Mr. Wilson had been motoring that afternoon and felt particularly well. There seems to have been a striking improvement in his appearance. While he is still very lame and unable to walk without great difficulty, he is said to be cheerful and apparently in better health than he has been for some time.

Saturday night Mr. Wilson attended the performance at Keith's vaudeville theatre. When he left the playhouse he was cheered.

Mr. Wilson is passing the summer

at his home in S street. He has been continuously in Washington since he returned here ill in September, 1919. Since he stepped from the private car in which he toured the country in behalf of the League of Nations he has not been on a railroad train.

The industry of the ant of South America is more pronounced than that of any other of the species. Ant tunnels three miles in length have been found in Brazil.

HUSBAND'S STORY WILL AMAZE RANGER

He says: "Adler-i-ka helped my wife for gas on the stomach and sour stomach in TWENTY MINUTES. It works beyond greatest expectations." Adler-i-ka acts on BOTH upper and lower bowel removing foul matter which poisoned stomach. Brings out all gasses and sour, decaying food. EXCELLENT for chronic constipation. Guards against appendicitis. Adler-i-ka removes matter you never thought was in your system and which may have been poisoning you for months. Phillips Bros., Druggists.—Advertisement.

MOTORISTS KNOW THE MILEAGE OF THEIR GASOLINE

KNOW THE MILEAGE OF YOUR FEED

1/3 more "Mileage" per Ton of Feed

Two thirds of a ton of Purina O-Molene will go as far as a ton of corn or oats. Make a comparison and you will see that it pays to feed mules and horses a properly balanced ration, just as it pays in dairying or hog raising.

O-Molene is good ground grains, balanced to get more work from work animals. No medicine or stimulants in it. It's all real feed.

It's your move. Get a checkerboard bag of Purina O-Molene and see how far it will go.

Studebaker

BIG-SIX SPEEDSTER

THE new Studebaker Four-Passenger Speedster is mounted on the Big-Six chassis with the same dependable 60 horse-power motor that made enthusiasts of thousands of owners during the most critical buying period in history.

Every item of its complete equipment and finished detail suggests ultra style and riding comfort.

The front seat is tilted at the correct angle for comfortable riding. An upholstered armrest divides the tonneau into two individual seats which provide the comfort of an overstuffed armchair.

The touring trunk at the rear, with tray and suitcase compartments, is easy of access, because the two spare disc wheels are mounted on each front fender.

These disc wheels, complete with cord tires and tubes, are furnished without extra cost.

This latest Studebaker creation reflects Studebaker's seventy-year-old reputation for building fine vehicles.

In addition there is a handsome set of nickel-plated bumpers front and rear, a courtesy light on the driver's side, a built-in, thief-proof transmission lock which is operated by the same key that locks the ignition switch and tool compartment in the left front door. Ask for the Studebaker "Vardstick," a measure of the greater value that Studebaker offers
