

TRAINS READY TO TRANS-
PORT ARMY GUARDS

(CONTINUED FROM PAGE ONE.)

he will confer with President Harding in reference to the threatened walkout of the men of his union.

Grable expressed confidence before leaving that he could prevent a general strike of the men of his union.

President Harding and his cabinet today discussed the rail strike with particular reference to the interruption of the mail service.

Governor Neff has declined to call out state troops to protect the property of the Katy road in Texas and Secretary Weeks has indicated that federal troops will be called out in the event that the governor stands pat.

Chairman Hooper of the railroad labor board is continuing his peace overtures to the railroad executives, with little success, and the Northwest carriers are continuing negotiations with local unions.

Claiming interference with interstate traffic and transportation of the mails, the Baltimore & Ohio and Big Four railroads have filed petitions for temporary restraining orders in the district court at Indianapolis.

A mass meeting at Cleburns has condemned the assault by union forces on M. J. Fitzgerald of the Santa Fe road.

Warrants will be issued for all union officers who post or transmit orders for strike on any of the railroads in the state by the Kansas court of industrial relations, it is announced by Governor Allen.

8,000 JOIN WALKOUT.

By Associated Press

CHICAGO, July 14.—A strike call to 8,000 stationary firemen, engineers and oilers employed on railroads throughout the United States has been issued by President Healy of the organization, he announced today. The strike is to go into effect Monday, July 17, at 8 a. m. The call was made in conformity with a recent referendum which favored the walkout, Healy's announcement said.

Stationary firemen and oilers on various roads have already joined in sympathetic walkouts with the shopmen.

"We are into the fight and we intend to win," Healy said.

400 U. S. MARSHALS TO
GUARD RAILWAY PROPERTY

By United Press

DALLAS, July 14.—More than 400 men have been deputized as United States marshals for the Northern district of Texas to act as railroad guards, it was announced here today. The number is expected to reach 500 before night.

HUNDRED STEVEDORES ON
STRIKE AT HOUSTON DOCKS

By Associated Press

HOUSTON, July 14.—Stevedores employed by the Southern Steamship company were off duty today following a disagreement on the question of wages. The men leaving their work are said to number about 100.

An agreement was reached later between the company and the striking longshoremen on the wage question and the strike which began at noon yesterday has been called off.

The men struck for an increase from 45 cents an hour to 65 cents an hour, to equalize their wages with those in effect at other ports. Union leaders state that their demands were met.

SAYS 1,000 AIRPLANES ARE
AVAILABLE FOR MAIL USE

By Associated Press

NEW YORK, July 14.—One thousand commercial airplanes are available for the distribution of the mails, Postmaster General Work has been informed by the Aeronautical Chamber of Commerce of the United States. The communication received from the chamber states that by using the existing air mail service as a nucleus, that within a few days 1,000 planes will be available with a carrying capacity of 8,000,000 first class letters.

CHICAGO, July 14.—Postmaster Reeder conferred today with the superintendent of the air mail service for this district and airplane manufacturers, to determine the number of planes available for carrying the mails.

YOUNG CHILD DIES
WHILE ON VISIT TO
RANGER RELATIVES

Death saddened a reunion of brother and sister here this morning when Billie Poole, 4, son of Mr. and Mrs. W. H. Poole of Buffalo, Kan., died at a local hospital. Mrs. Poole is a sister of E. J. Wiss of the Prairie Oil & Gas company, and she with her husband and son arrived here on July 3 for a visit, coming through in their car. The child was taken ill only a few days later.

The body will be sent to the family's home in Kansas tonight by the Jones-Cox company.

GIVEN UP TO DIE AT 19, HE
CELEBRATES 100th BIRTHDAY.

NASHVILLE, Tenn., July 14.—John B. Murray, prominent Frank, Tennessee farmer, was told at 19 that he would die within two years of tuberculosis, but last week he celebrated his one hundredth birthday. His grandchildren and great-grandchildren, together with the entire population of Williamson county, joined in honoring the centenarian at a birthday picnic.

Seated in his rocker close to a slow fire that dispelled the chill of an unusually cool July day, he recalled with perfect accuracy, events that took place ninety years ago.

Mr. Murray said he has never gambled, danced or attended a theatre. He never drinks intoxicating liquor except for medicinal purposes.

SCHOOLBOYS MUST WEAR
COATS EVEN ON HOT DAYS

PORTSMOUTH, N. H., July 14.—The school rule that all boys, no matter how high the temperature, must be fully dressed before they enter the school was enforced in the Lawrence and Portsmouth (N. H.) high schools by Principals Horne and Gray.

During a warm wave several of the boys went to school in their shirt sleeves. They were sent home by Principal Horne.

The men struck for an increase from 45 cents an hour to 65 cents an hour, to equalize their wages with those in effect at other ports. Union leaders state that their demands were met.

NEW YORK, July 14.—One thousand commercial airplanes are available for the distribution of the mails, Postmaster General Work has been informed by the Aeronautical Chamber of Commerce of the United States. Russian Mothers Kneel in Thanks
for Life-Saving American Corn

Mothers knelt in gratitude before workers of the American Relief Administration when American gift corn, provided by a \$20,000,000 government appropriation, arrived to halt the famine which has been decimating the Russian people. The Americans had to demand that such demonstrations cease.

These women pictured above were among the hundreds who came to the village of Vasilevka in the Samara district for corn which meant life in a district where famine was exacting its largest toll. The American Relief Administration

SALONIKI, Greece, July 14.—American sailors calling at this port are collecting quantities of a Greek coin worth in exchange less than one cent. A frank seafarer explained the habit by saying the coins just fitted the slot machines in the United States.

ONE-PIECE SUITS
BARRED AS MERMAIDS
GET TOO RECKLESS

ATLANTIC CITY, N. J., July 14.—Mayor Charles Sleetman of Somers Point has forbidden one-piece suits for women. Mayor Cressy allowed them last year.

"But no more," said Sleetman Friday. "The mermaids have become positively reckless. Reason has been thrown to the winds, and with it all sense of modesty. Something simply had to be done. 'September Morn' spectacles were becoming altogether too common for the people hereabouts who, while they favor a degree of freedom, are still opposed to unrestricted license. While we do not approve of the drastic regulations in force on the Atlantic City beaches, we are convinced that new regulations are urgently needed. We will appoint a committee to enforce the regulations."

SPORTS

INNER SECRETS OF LION-ROTARY FUSS LAID BARE BY GUS COLEMAN

Ranger, Texas, July 13, 1922. Mr. H. E. Bozeman, Editor Ranger Daily Times.-Dear Boze: I have just read your article containing some of the facts and some purported facts concerning the proposed baseball game between the Lions and the Rotarians, frequently referred to as the Grippers and the Bellyachers, respectively, and in the capacity of General Helletcher, Deputy Field Marshal, and Assistant Pigtail of the Rotarians, I wish to add a few remarks.

First of all, we, the Rotarians, were not the challengers, as might be assumed from your article but we were challenged by the Lions' and in such an overbearing manner that we could not refuse to play. They said they could beat us without practicing.

One of our star outfielders, Abe Davis, never had a bat in his hand until yesterday (and has not had a ball in his hand yet). Some of our players have excellent records in the big leagues-in fact Sleepy Gholson, Cheese Waggonman, and Tubby Pitcock have the highest batting averages of any of their contemporaries in the Knife and Fork league. So you see it is a difficult matter to coordinate the efforts of the majority of our team in so short a time, but we feel that by the use of strategy in placing our players we can preclude the possibility of an onslaught because when the big boys squat they cover lots of territory and it will be impossible to knock a ball through the infield.

Claims Real Hurlers. Our pitching staff is super-excellent. When Giff Clegg was a boy back in Missouri and they wanted fresh meat for dinner they would give Giff three rocks and tell him to bring back two rabbits and a squirrel. Hot Shot Baker got his skill throwing at nigger babies at the county fair-and, by the way, he is barred from all carnival grounds on this account. Bill McDonald is not in the big league today because he throws a ball so fast the umpire can't tell if it is a ball or a strike, and he has agreed to pitch from second base to overcome this difficulty should it become necessary to use him to save the game.

When we get in a tight with the bases full and need a pinch hitter we will call on H. S. (Dutch Cleanser) Cole to clean the bases, because he cleaned up the town on a whole lot less provocation than the necessity of having to win a ball game for the Rotary club-at least certain parties feel that way about it.

Mister Jeremiah Thomas Gullhorn of Ranger Retail Merchants fame will be on the coaching lines provided we can borrow a uniform of sufficient size to cover his corpulence and a pink umbrella to protect that "complexion you like to feel of" from the blistering effects of the sun's rays.

A certain Republican lawyer-politician who always has his nose in Democratic politics and who takes an active part in seeing the town's loafing properly done may be allowed to be bat boy provided, however, that he can keep his identity from becoming known to certain other citizens who are generally thought to have similar proclivities. The bat boy's job will be one of endless labor, too, because when we get in bats we intend to run our score up to the safety mark before we ever knock any easy grounders easy enough for the Grippers to handle. Not "Sport" Chasers.

This is serious business with us, because we are an organization of business men who have to make a living, and don't have time to get out and knock a little white ball a block or so and then chase it down and then call it sport. If we have that much time to waste we would rather dig a ditch and then fill it up, or work the road in front of the post-office. But the Lion has snarled at us and we have our Rotary Wheel geared up to a sausage mill preparatory to making hamburgers out of the said Lion. The Nitros are welcome to the financial benefits, what we want is the satisfaction of defeating the challengers. Yours as truly as customary, GUS L. COLEMAN.

NITROS RAINED OUT

AMARILLO, July 14.-Rain prevented the second game of the series with the Nitros yesterday. A double-header probably will be played today.

WEST TEXAS GAMES

EAGLES STILL WINNING.

SWEETWATER, July 14.-McAbee's pitching was too much for the Swatters in the pinches yesterday and Abilene won again, 6 to 3. Fleaharty pitched steady ball but lucky hits aided the Eagles in scoring. Johnny Frierson robbed McAbee of an extra base hit by a one-handed stab after a long run.

BRONCS DROP ANOTHER.

LUBBOCK, July 14.-The Hubbers downed the Broncs yesterday, 5 to 2, in a well played game, with plays by Brooks, Battle, Dean and Scoggins as the outstanding features. Briscoe, who played shortstop for Ballinger last year, pitched for the Hubbers and turned in a good game for six innings.

CLOVIS SLUGS VICTORY.

CLOVIS, July 14.-The Buzzers slugged Edgar hard yesterday and took the second straight from Stamford, 8 to 2. Clary led the assault with two homers, each with a runner on.

JOHNNY FRIERSON SUCCEEDS 'POP BOY'

SWEETWATER, July 14.-Johnny Frierson, outfielder, has been appointed Swatter manager to succeed Pop Boy Smith, who resigned at the end of Wednesday's game. No reason has been given for Pop Boy's resignation, though it is presumed to be because the team got off to a bad start in the second half. Smith came to the West Texas league when it was organized, taking the management of the Gorman club, which later in the season was transferred to Sweetwater. He has been with this club ever since, with the exception of the last half of the 1921 season, when he managed Ballinger. Except for the latter half of the 1920 season, his teams have always been well up in the running.

STAMFORD COLONELS MAY CHANGE HANDS

STAMFORD, July 14.-Intimation was made here today that the Stamford West Texas league team, which has been owned by local stockholders among the merchants and professional men, would be sold to a private individual, who has signified his intention to carry the team through the season and make a strong effort to win the 1922 pennant. The Stamford team is possibly the only one in the league this season that has broken even in a financial way, despite the fact that the club has been hugging the bottom practically ever since it opened the season in April.

THE REASON. "Why is it that you never ask your lady customers what size they wear when they come in for new shoes?" asked a friend. "Well," replied the shoe dealer, "it is a lot easier to measure their feet than to argue with them." Cincinnati Enquirer.

THAT RAILROAD CROSSING.

When the Lions club recently advocated opening of another downtown crossing over the Texas & Pacific tracks, it raised a question that sooner or later Ranger will take up in earnest.

If it were not for trains, the Main street crossing, though more than 400 yards from the nearest crossing in either direction, would be sufficient to handle traffic. But there ARE trains, and owing to the position of the railway stations, every one that stops blocks the crossing. Sometimes there are two trains passing here, and on occasion this crossing has been blocked for as much as ten minutes.

To prevent interruption of traffic, an underground crossing of course would be preferable, if it is not too expensive from an engineering standpoint. Possible such a crossing could be constructed near the foot of Elm street without prohibitive expense. If not, then a grade crossing at the foot of Cypress would appear to be the best alternative. It, with a little grading of streets, would give direct access to the east side, which cannot now be had when the Main street crossing is blocked.

Ranger might as well take time by the forelock, investigate the possibilities and have its proposition ready for the railroad officials. The shop strike will end some day, and then they will have time for the argument that must always precede performance.

Gifford Pinchot gets a slice out of a \$13,000,000 estate. Being in Pennsylvania politics, Giff is in a position to appreciate the helpful and thoughtful transition of wealthy relatives.—Houston Post.

After Colonel Bryan has disposed of the Darwinian theory, he may content to set at rest any doubts that remain as to the Einstein theory.—Washington Star.

"Garman Profiteers Rob United States Tourists," says a headline. But why pick on the Germans? Other Europeans are doing the same thing.—Philadelphia Record.

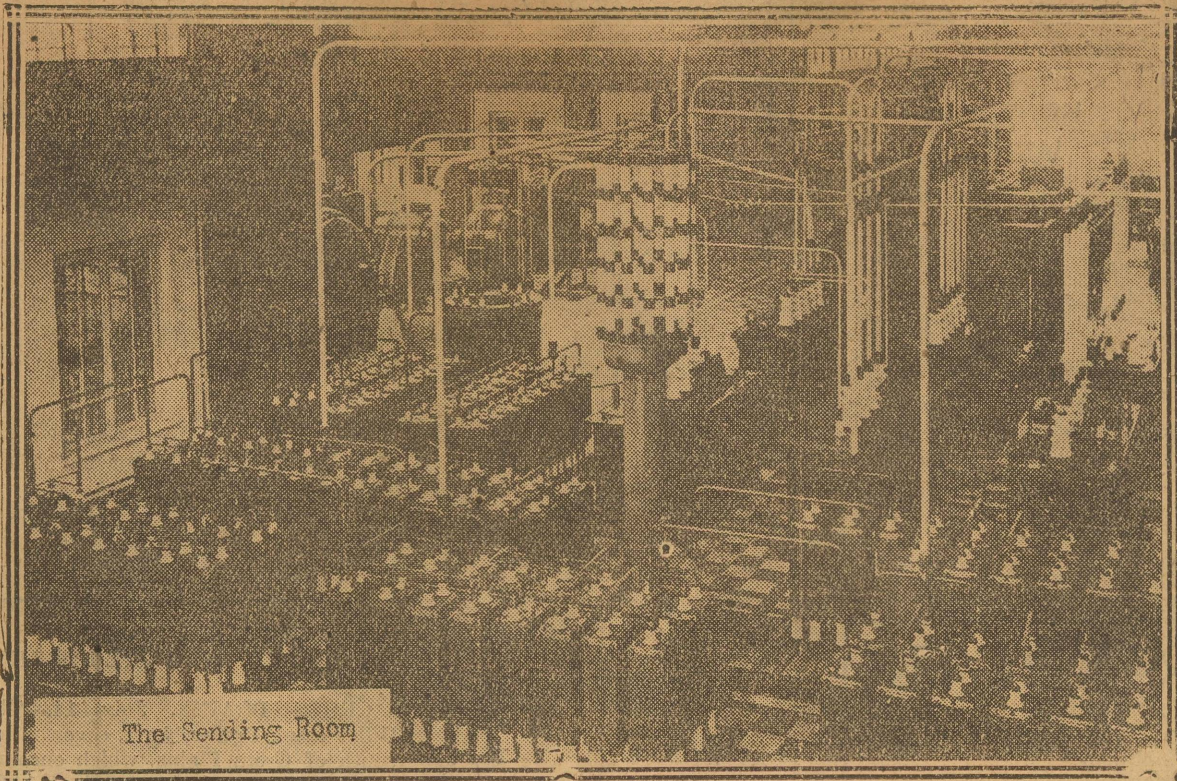

Mr. H. G. Wells should be given credit for remarkable restraint. He picked the six greatest men in history and failed to include H. G. Wells.—Nashville Tennessean.

THIRD SOLDIER BONUS PETITION REACHES SENATE

WASHINGTON, July 14—The senate has received its third mandate from the people to pass the soldier bonus bill before adjournment.

It was a petition signed by more than a million citizens, representing every state in the union. It completed a total of more than three and one-half million signatures gathered by newspapers and presented to congress in the interest of soldier legislation.

Veterans of the world war themselves delivered the document with a precise, impressive ceremony staged on the east portico of the capitol in the presence of a large assemblage.

"Lassie" Assists Him. Ivan D. Berry, of Iowa, veteran of the Rainbow division, who lost a leg at the battle of St. Mihiel, was selected by his comrades to turn over to the senate copies of the mammoth petition.

He was assisted up the long flight of steps by Mrs. Hilda I. Smith, Salvation Army worker, who formerly served doughnuts to the Rainbow division in the trenches.

Senator McCumber, chairman of the finance committee, and Senators Cameron and Caraway, officially received the petition on behalf of the senate.

As private Berry turned over the petition to Senator McCumber he said: "Without in any way criticising the senate, we wish to again impress upon you the fact that millions of soldiers throughout the United States have not been given a fair deal. We know that you have done your best for us, but you have been unable to overcome the obstacles thrown in your way by selfish interests."

McCumber's Assurance. As Senator McCumber took a heavy bundle of petitions in hand, he remarked, "this seems to be a pretty weighty document."

"I trust it will have more weight than that with the senate," Mrs. Smith of the Salvation Army flashed back.

"Just as soon as the tariff bill is disposed of the bonus bill will be taken up. Nothing will be permitted to interfere with it. It is the unfinished business and I can assure you that it will pass."

"But I wish to thank you for bringing this petition here and in this manner. It is extremely doubtful if so much interest ever before has been shown in a measure of this kind. It assures us and gives us the confidence we need. We feel that we are doing what the people want us to do."

TWO TO CONSIDER. One day Smith was complaining that he was not feeling as fit as usual, and a friend suggested that he should go in for more exercise.

"There's horse riding, for instance," said the friend. "It's one of the best exercises on earth."

"I know," was the doubtful rejoinder. "But I am afraid I couldn't afford it."

"Couldn't afford it!" exclaimed the other, wondering. "You already have a horse, and just think of the appetite it would give you."

"Yes," responded Smith, with a sigh; "and just think of the appetite it would give the horse."—London Weekly Telegraph.

much interest ever before has been shown in a measure of this kind. It assures us and gives us the confidence we need. We feel that we are doing what the people want us to do."

LOST! 250 Pimples, 736 Blackheads and 3 Boils! No reward is offered, because they are lost forever! No question will be asked, except one question. "How did you lose them?" There is but one answer. "I cut out new fad treatments and guesswork; I used one of the most powerful blood-purifiers, blood-purifiers and flesh-builders known, and that is S. S. S. Now my face is pinkish, my skin clear as a rose, my cheeks are filled out and my rheumatism, too, is gone!" This will be your experience, too, if you try S. S. S. It is guaranteed to be purely vegetable in all its remarkably effective medicinal ingredients. S. S. S. means a new history for you from now on! S. S. S. is sold at all drug stores in two sizes. The larger size is the more economical.

WOMAN FORCED TO DRINK POISON BY ROBBER DIES
LOUISVILLE, Neb., July 14.—Poison forced down her throat by a robber resulted in the death Thursday of Mrs. Georgia Lutz. Mrs. Lutz was robbed Monday of \$800 by a man who represented himself as a furniture polish salesman. The robber bound the woman to a chair and forced her to drink a cup of his polish.

AFRICA, CONTINENT OF MYSTERY, HAS JUNGLES HOLDING CREATURES HITHERTO UNKNOWN TO MANKIND

NEW YORK, July 14.—Africa is the "mystery" continent. It is there that the most curious and unlikely animals and human beings may be found—from real giants—two of them can kill and eat an elephant—go two-toed monkey men, who live in tree-tops. From the half hippopotamus and half horse, that is a survival of a species of gigantic monster, the fossil remains of which are dug up in North Africa.

In Central Africa, as in the great valley of the Amazon and the hinterlands of the Guianas up in the north-east of South Africa, there is in the dense roof of the lofty jungle overhead another world, unknown, unseen and forever far out of the reach of puny man, a world about which we know very little, for it is populated by a host of creatures that never come down to earth.

Animal Can't Face Daylight.
The African natives tell strange and gruesome stories about some of these living things. For instance, they declare there is an animal, something of the leopard kind but striped like a zebra, that cannot face the daylight, so used it to the twilight overhead. This animal is particularly fierce and agile, and attacks the natives from behind.

In the same part of unknown Africa a race of tree beings are said to exist, who live in the tops of the trees and are sheltered from enemies by the dense foliage. The folk, two-toed and clawhanded, pass from tree to tree with the ease and activity of monkeys, and are of a particularly ferocious nature.

Then there are dwarfs in Central Africa which live like wild animals among the rocks and bushes. Their

projecting jaws and protruding lips, slender, ill-shaped legs and protruding bellies give them the true ape-like appearance. They are singularly timid and flee at the sight of strangers.

Race of Giants.

As mysterious is the race of gigantic natives in the unknown deserts north of Uaso Nyiro, and the Lorian Swamp, East Africa. This strange race is known by tradition to the natives now inhabiting the land. Their name appears to be "the Maarthirle," and tradition has it they are Christians and originally came from Abyssinia.

Until pestilence and native wars broke them they are said to have cultivated large areas, used irrigation to raise crops, owned camels and lived in great circular houses, the huge stones of which testify to their strength. Their hoes, it has been stated, were so large and strong that a local native of the present day could not lift one. Two of this giant race could not only kill an elephant with spears, but eat it up afterward.

Just as the dat regarding these giants cannot be denied, neither can data concerning the hippo horse be cast aside merely because they refer to what appears to be a survivor of prehistoric ages.

A short time ago the press was an-

nouncing that an explorer in Africa had been put to flight by a weird and formidable animal such as we come across in a nightmare or a dream. The fugitive stated his strange enemy must have had a body more than twenty feet long and of great girth, an upright tusk on its nose and with the foreparts of a horse and the hind parts of a cow.

An explorer, H. E. Lee, first encountered it, the natives have always spoken of its existence. He was creeping into position for a shot at a hippopotamus when he saw in the background of the pool slowly and meditatively chewing water weed, the strangest animal yet known.

On its nose it carried two very sharp pointed horns or tusks, not curved but sticking up straight. The front of its head had all the appearance of a hippo, but the cheeks and ears and mouth were like those of a horse.

It had a mane of red hair while its upper body was that of the hippo, yet the legs and feet were those of the horse. Its neck was short and thick like a hippo's, but gracefully arched and elongated like that of the horse. Its tail, long and bushy, was covered with red hairs.

Lee shot this amazing animal and found it measured more than twenty-one feet in length, with a girth of eighteen feet. Skeletons of a creature of similar build have been unearthed in America.

AFFLICTED GIRLS SLEEP WITH POODLE DOG, CURED

DENVER, July 14.—Curing St. Vitus dance by having a poodle dog sleep with the patient has been announced by a Denver woman as the most effective remedy she has found yet for her two daughters.

The woman, Mrs. J. C. Morris of 2064 South Grant Street, declares that for six years she has kept a French poodle dog that alternately sleeps with her young daughters, both of whom are afflicted with St. Vitus dance. One of the daughters, the elder one, now is virtually cured of the disease, according to Mrs. Morris, and the other is showing rapid improvement.

"An old-time physician told me about this remedy," Mrs. Morris said, "and as an experiment I tried it and found it more soothing to the nerves of a St. Vitus dance patient than any medicine ever prescribed."

HUNGARIANS WATCH FIRST "DEADLY" BASEBALL GAME

BUDAPEST, July 14.—Hungary witnessed the first baseball game ever

played in this country when a team from the American legation and consulate here, captained by Consul Vaughn, lost to a similar team from Belgrade, captained by Consul Patton, by a score of 29 to 1. The Budapest team had as mascot a goat painted red, white and blue, while the Belgrade team had two camels serving in similar capacity.

The American minister, Theodore Brentano, pitched the first ball. A great crowd attended, but the Hungarian sporting writers were of the opinion that the game was too exciting for the Hungarian temperament, and declared that Magyar teams would be sure to leave too many dead on the diamond.

A combined lock and time clock has been perfected for store and office doors. The time is registered by insertion of a key by the employe when arriving and departing.

"SWEETIES" INVITATION TO PARTY 30 YEARS LATE

DUQUOIN, Ill., July 14.—After 29 years of waiting, A. T. E. Haines, now living in St. Louis, has received an invitation to a party from a sweetheart of long ago, who at that time lived in Smithland, Ky.

The invitation was neatly folded and scented, having reached Cairo March 23, 1893, when Haines was in knee breeches. The letter lay hidden securely in the crack of an old-fash-

ioned desk in the Cairo postoffice undelivered for three decades.

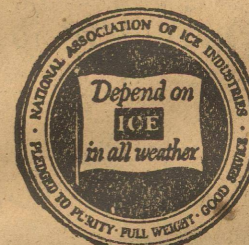

Wireless burglar alarms are in use in London.

THE JAMESONS

A Few Simple Rules for Saving Food in Hot Weather

- 1: In the first place, keep the ice chamber of your refrigerator well filled all the time. That enables the ice to keep it cold with the least amount of melting. Too little ice, compared with the size of box, lets the heat outside overbalance the cold. That melts your ice quickly.
- 2: By all means, have the refrigerator large enough. Never crowd it full of food. Food is a heating element, just as ice is a cooling element. When there is too much food the heat gets the upper hand. Too much food in a refrigerator also obstructs the flow of cold air which purifies its contents.
- 3: It is a good plan to keep the refrigerator in a cool spot, away from drafts. Even a draft of cool air melts ice rapidly.
- 4: Close the doors tightly and keep them closed. That prevents the warm air outside from seeping in. Open the doors as little as possible; it is estimated that opening a door for just a moment raises the temperature inside two degrees.
- 5: Never put any food on the ice or in the ice chamber. That melts the ice. Leave the ice uncovered.
- 6: Putting hot food in the ice box makes a sudden and overwhelming demand upon the melting ice. Always cool the food a bit first, say in cold water.

Sliced peaches

with Kellogg's Corn Flakes!
Well—just try them!

Can you imagine anything so good to eat early on a warm morning or for lunch as sliced peaches and milk, all-cold and fine—and Kellogg's Corn Flakes, crispy and delicious! Why—it makes you hungry just to think about it!

Eat plenty of Kellogg's Corn Flakes and fruit and know the happiness of feeling sprightly, despite the heat! Kellogg's Corn Flakes are exactly the sort of a diet you need. They are not only satisfying, but nourishing as well and just wonderful for little folks, in particular, because they digest so easily.

Be certain to get Kellogg's Corn Flakes in the RED and GREEN package bearing the signature of W. K. Kellogg, originator of Corn Flakes. None are genuine without it!

SATURDAY.

Bake sale at the Texas Drug store. Saturday Night Bridge meets with Mr. and Mrs. Charles Conley.

LIONS HAVE LADIES' NIGHT.

The golf links were invaded by the wives and sweethearts of the Lions yesterday afternoon and prior to the club members coming out, they amused themselves putting and following the course of the little white sphere. It was ladies' night for the Lions' club and since each of these meetings grow in interest, the feminine club members regard their approach with a great deal of pleasurable anticipation. Another thing that especially appeals to the ladies is that they do not have to be bothered with preparing a lunch, all that is done by the entertainment committee and the reports of the supper served last night are so "mouth watering" as to make those who were present glad

they were living and those who were not present, wish they had a Lion of their own, so they might be eligible.

Mr. Aubrey Jameson presided over the culinary department and there were sandwiches, potato salad, ice cream, watermelons and a lot of other good things to eat. There were about fifty present and after supper they gathered around a big bonfire and played games, such as "Droo the Handkerchief," "London Bridge is Falling Down." There were races, ladies' races and men's races, and the Lions roared and the hills and valleys echoed to their roars, intermingled with the lesser roars of their lady guests. It is needless to add that everybody had a gorgeous time and the hosts were highly complimented on the success of the evening and accorded a tribute of thanks from each wife and sweetheart present.

A NEW CLUB.

There is a new club in Ranger clubdom and while its initials are similar to another club that exists here, it must be entirely different, as its motto is "Powder your nose and Smile."

This club is called the K. K. K. club and was organized at the home of Miss Hortense Champion Thursday afternoon. The officers elected were: Miss Hortense Champion, president;

Miss Helen Albin, secretary and treasurer, and Miss Gladys Barnes, club reporter.

Refreshments of orange sherbet, cake and punch were served to the following members: Misses Mabel Mills, Betty Dutton, Katherine Hodges, Gladys Barnes, Nellie Child, Helen and Lydia Albin, and the hostess. Misses Nila Jennings and Edna Brashier were out of town, and Miss Evelyn West and Miss Bessie Brock were absent on account of sickness in their homes. Misses Helen and Lydia Albin will entertain the club next week.

HONORING MENARD GUEST.

Mrs. Robert Westbrook was the honoree of one of the prettiest parties of the season, yesterday afternoon, when her hostess, Mrs. R. M. Schmuck, opened her home to some 40-odd guests. Bridge was the diversion for the afternoon. House decorations were simple and effective, with a color motif of pink and blue being carried out in the refreshments. Pink and white angel food cake, served on blue plates, with devil's food and pineapple ice and ice tea refreshed the guests at the close of the game.

Large midsummer parties are a rarity these hot days and not many hostesses have the courage to give

one, but that Mrs. Schmuck was fully equal to the weather and the care of a large party was fully proven by the many expressions of good times that were said to her at going home time.

Those invited to meet Mrs. Westbrook were: Mmes. Walter West, P. T. O'Donnell, J. Dunkle, J. T. Landers, John Moyer, W. J. McFarland, Charles H. Endicott, M. O. Burt, W. S. Adamson, H. D. Woods, S. W. Bobo, Harry Reed, F. E. Langston, H. S. Cole Jr., Charles Conley, Frank Brahaney, Howard Gholson, William Stone, Stewart, M. H. Hagaman, J. B. Stackable, Jack Shannon, Walter Cluney, William Moore, C. Satterwhite, R. B. Campbell, M. O. Wagner, T. M. Dodson, M. K. Collier, J. B. Haden, J. A. Martin, Garrett Bohning, Charles Scott, W. J. Summers, O. L. Phillips, M. L. Holland, Lytton R. Taylor, R. B. Waggoman, Clyde Davis, T. J. Holmsley, A. E. Avery, F. E. Duncan of Breckwalker; Misses Berna Avery, Winnifred Dunkle, Maybelle Dunkle, Veda Byrd of Ardmore.

FORTY-TWO CLUB MEETING.

Mr. and Mrs. Spurgeon Reynolds delightfully entertained the members of the Forty-two club Wednesday evening. Mrs. Reynolds was assisted in entertaining and serving by Mrs. A. W. Townsend.

Mrs. V. E. Ashford made the high score in progressive forty-two for the ladies and Mrs. A. White made the low score. A. W. Townsend carried off high honors for the men and Spurgeon Reynolds low. Shrimp salad, cheese sandwiches, and caramel pie, served on lace-covered plates, and ice tea, were greatly enjoyed by the players after the games were finished.

Those present were: Messrs. and Mmes. C. I. Webb, J. L. Heydon, J. C. Ghyton, J. W. A. Cox, Dr. and Mrs. W. O. Tibbels; Mmes. A. White, D. E. Klinger, V. E. Ashford, B. A. Meek.

On next Thursday night the club will vary its program by having a picnic at Winsett springs, instead of the usual meeting.

PURELY PERSONAL.

Mrs. Walter Campbell, who has been the guest of Mrs. C. W. McLaughlin, returned to her home in Cisco yesterday afternoon.

SOUTH TEXAS ACTIVE IN TICK ERADICATION WORK

By Associated Press.
SAN ANTONIO, July 14.—The district between San Antonio and Houston, comprising Bastrop, Brazoria, Colorado, Fayette, Fort Bend, Gonzales, Guadalupe, Jackson, Lavaca, Lee, Matagorda, and Wharton counties is being rid of ticks, as is shown by the dipping of 1,688,635 head of cattle during June, according to W. L. Endsley, district supervising inspector of the bureau of animal industry, United States department of agriculture. The work is being conducted under the joint co-operation of the Texas live stock sanitary commission and the United States bureau of animal industry.

"The credit for the splendid showing of progress made is largely due to the earnest efforts of the cattlemen in getting out to the dipping vats every 14 days as near to 100 per cent of the cattle as possible," Inspector Endsley declared, "to the fine spirit of co-operation shown by the county officials in enforcing the tick eradication law; the ever-willingness of the press to publish articles pertaining to tick eradication and boost the work at every opportunity; and the good co-operation on the part of the legal profession by advising their clients to obey the law."

"The counties of Matagorda and Jackson dipped over 200,000 each. The total number of cattle dipped in the district was 1,688,635. The total number of vats in operation was 963 and the area in square miles of the territory was 11,319 square miles."

Four-fifths of the world's halibut supply comes from the waters of the United States' Pacific coast.

Vote for Miss Ulala Howard for County Superintendent

With assistance of trustees, teachers and patrons, she has made an efficient officer, despite the shortage of teachers the first year, of text books the second year, and of funds the third year of her term.

It could not possibly be undemocratic to show our appreciation of her service by giving her a term under more nearly normal conditions, especially as we now have promise of better roads to all the schools.

There are now in Texas nearly three times as many lady county superintendents as we had three years ago, and only one election between. Included in this number is Miss Ada Pierce, who finished Mr. Sims' term for him in Taylor county, serving the last four or five months, and is now making good on her own elected term. This proves that the question of sex should not enter into the consideration of a suitable person to fill this office; only qualifications and previous records should be considered.

Miss Howard has kept the only promise she made during her previous campaign—that of service. She regrets exceedingly that she cannot make a house to house canvass and see all the ladies in their homes, but has no office assistant during the summer, and a limited time in which to turn in term reports to the State Department of Education. She will appreciate your vote and influence. (Political Advertisement.)

from shock as a result of their experience and all Scranton is marveling at their miraculous escape from death or serious injury.

Papa Mullen was awakened by the cracking and tearing of the walls of his home. He quickly aroused the other Mullens and had just gotten them into the street in night dress, when with a crash that was heard for a mile, attracting many hundreds to the scene, the two-story brick house fell into the crater until only a part

of the roof appeared above the level of the surrounding terrain.

The home of Mrs. Thomas Judge, adjacent, was badly damaged.
