UN Planes In Biggest Air Raid Of War Lash At Supply Areas

SEOUL, Korea, May 8 (AP)—Day-long waves of American planes, in the biggest air raid of the Korean war, turned a major Communist supply base "into billowing flames and smoke" today, the U. S. Fifth Air Force reported.

The Air Force said the dawn to dusk rain of high explosives, rockets, jellied gasoline fire bombs and machinegun bullets destroyed 165 supply buildings and damaged 81 American and Australian jet

installations in break battles on the Central Front. The two big tank forces struck in a bright mid-day sun Wednesday on the Kumhwa-Kumson road, a vital transportation link. One force battled two Red battalions, which attacked the tanks with mortars and artillery.

Bookie Talks About Payoffs To N.Y. Police

NEW YORK, May 8 (AP)—Boss Bookie Gross, who has involved former top city officials in his multi-million dollar bookmaking business, testified today that William Whalen, former chief of detectives of the New York Police Department had been on his payroll.

planes screening the raiders shot down two MIG-15 jets and damaged another, the Air Force added. Target of the mass raid was Suan, 35 miles southeast of Pyongyang, North Korean capital. Suan is a feeder point to Chinese troops on the Western Front. Air Force photos had shown the area literally loaded with trucks and military supplies heavily guarded by anti-aircraft guns.

The tanks tumbled across rough terrain blasting the dug-in Reds. Tankers estimated they killed 49 Reds, wounded 133, and damaged 90 bunkers and 54 trenches. The second tank force reported it destroyed five buildings, damaged 20 bunkers and eight trenches.

Gross said Whalen went on his payroll right after he became an inspector, at which time Gross gave him a dinner and an expensive watch.

Jets and propeller driven planes drawn from four wings made well over 300 individual attacks, the Air Force said. They "tore the Communist supplies to shreds," a communiqué said. "Thousands of gallons of fiery napalm (jellied gasoline) were spread over the target, turning piles of supplies into billowing flames and smoke."

The WSB had returned the dispute to the unions and management April 6 for more collective bargaining after inability to get hearings under way. It retained temporary jurisdiction, however.

Gross took the stand for the second day in the police departmental trial of five officers accused of lying about their relations with Gross. All five of the men on trial have filed for retirement this month and unless the case is completed before the effective date of their retirement they cannot be punished by the police department.

The Air Force reported two MIG-15s were destroyed in two separate battles—both fought unusually far from the Reds' Manchurian bases. One MIG was credited to an Australian Meteor pilot in a fight 110 miles from the Manchurian border. The Russian-type MIGs rarely venture so far. The fight was over Kiyonpo, south of the North Korean capital, Pyongyang.

A pattern for settlement may be drawn from an agreement reached late yesterday between CIO workers and the Rock Island Refinery near Indianapolis. They settled for an 18-cent hourly increase. Pickets were to be removed today.

Gross reportedly paid one million dollars a year graft to police for protection until his 20-million-dollar-a-year bookie racket was smashed in 1950.

The second MIG and the damaged MIG were credited to American Sabre jet pilots near Pyongyang. Allied air losses, if any, are announced weekly.

The unions are asking a wage increase of 25 cents hourly and hikes in night shift differentials. Knight said that any company offer of 18 1/2 cents hourly probably would be accepted.

O'Brien, now in private business, quit as police commissioner during the graft scandal which broke after Gross' arrest. At the time of the resignation, O'Dwyer said "I believe Bill O'Brien is as honest a man as I have ever known."

Gross, who returns to the witness stand today, also testified he had "an arrangement with Inspector William P. O'Brien whom O'Dwyer later named police commissioner. The arrangement, Gross said, was for protection at the rate of \$50 or \$100 for him (O'Brien), plus the regular amount for the spot.

The nationwide oil strike expanded its Texas scope today with the shutdown of a plant at Kilgore. Continental Oil Company said it was prepared to resume operation of its refinery at Wichita Falls, but there was no union reaction reported.

It was reported the management offered about 15 cents an hour plus differential increases there.

Gross repeatedly paid one million dollars a year graft to police for protection until his 20-million-dollar-a-year bookie racket was smashed in 1950.

Oil Workers International Union (CIO) is striking in a nation-wide effort to back up demands for a 25-cent hourly pay boost. More than 25,000 workers are now believed idle in Texas alone, some 90,000 over the United States.

Union employees of the Pan American Pipe Line Company of Kilgore, quit work this morning at 12:01 as the shutdown expanded in East Texas. Already out in the vicinity were Cities Service, Sinclair, and East Texas Salt Water Disposal Company plants.

County, Area Candidates Plan To Join Rallies

Public Appearances In All Communities Arranged At Meet

Candidates for county and district offices outlined procedure for participation in area political rallies at a meeting Wednesday afternoon in the courthouse.

Walker Bailey was elected to serve as master of ceremonies for the candidates at the various public appearances during the campaign. Following considerable discussion, the candidates agreed that they would try to accept an invitation to one rally in each community of the county. However, rallies will be scheduled on Friday nights only.

Organizations which desire to sponsor rallies in their respective communities should submit requests to Bailey as soon as possible. In communities where more than one organization submits a request, the first presented to the master of ceremonies will be accepted.

May 30, which is Memorial Day, has been excluded from the political calendar, while July 25, the day before the first primary election, has been reserved for the final rally on the courthouse lawn in Big Spring.

"The candidates want to visit each community in Howard County during the campaign, but they must have some system to allot their time properly," Bailey said. "All of them will appreciate it if the organizations of the various communities will cooperate in the program they have outlined."

Union Plans Housing

NEW YORK (AP)—The AFL International Ladies Garment Workers Union has decided to use its own funds to finance a 7 1/2-million-dollar mortgage for a co-operative housing development under union sponsorship on the Lower East Side of Manhattan.

The shape this war could take—more prolonged stalemate on the existing battlefield, a blockade of Red China's ports, attacks on the China Coast—figured in several alternatives considered by the United States and its Allies.

A diplomatic effort outside Korea to settle the dispute remained at least a possibility. Deputy Defense Secretary William C. Foster was asked by reporters yesterday if direct negotiations with Russia had been considered. Foster replied that "every alternative has been considered," including that one.

The single package proposal submitted by Gen. Matthew B. Ridgway's negotiators at Panmunjom and supported by the U.N. Allies contains three points: 1. That there shall be no forced repatriation of prisoners of war—as the Communists have insisted—(the President's summary of the point). Interviews conducted by the Allies have shown that 100,000 of the 173,000 prisoners would oppose return to Communist hands. This is a bitter blow to Communist prestige.

2. The United Nations will not insist on prohibiting reconstruction or repair of airfields in Communist areas.

3. The commission to supervise an armistice shall include two Communist satellite nations—Poland and Czechoslovakia—and two chosen by the United Nations—Sweden and Switzerland.

It was the first point that was at issue and it was that one over which the President was precise and adamant. He said, "We will not buy an armistice by turning over human beings for slaughter or slavery."

He declared the U.N. had taken extreme care in separating the 100,000 prisoners who said they would oppose return from those who wanted to go back, adding that the U.N. would agree to an im-

WASHINGTON (AP)—President Truman left the Asiatic Communists today with the choice of accepting what is apparently the final Allied armistice offer or continuing a war that has gained them little.

While the Communists mulled over the President's declaration yesterday that the United Nations three-point truce proposal must be accepted in entirety, military and diplomatic officials considered what to do if it isn't.

If the Chinese and Korean Reds turn down the one-package proposal, including the point that there be no forced return of prisoners, the prospects for continued war seemed uppermost.

RED PRISONERS SEIZE ALLIED CAMP COMMANDER ON KOJE ISLE

PUSAN, Korea, Friday, May 9 (AP)—The Army announced today that Red prisoners on Kojé Island had seized the Allied camp commandant, Brig. Gen. Francis T. Dodd, and a fellow-officer on Wednesday and still are holding Dodd as a hostage.

The other officer managed to escape, but General Dodd was dragged inside the Red prisoners' stockade. The other officer's name was not available.

A report from the island prison off the South Korean coast said a note had been passed from the stockade, but its contents were not disclosed. This report said that Dodd had not been harmed. It was several hours old, however.

Kojé Island has been the scene of two violent prison disorders this year. On Feb. 12, 179 persons were killed in an uprising by Red prisoners in notorious "Compound 62."

On March 13, 12 prisoners were killed when anti-Communist and Communist prisoners engaged in a rock-fight.

Dodd, who was deputy chief of staff of the U. S. Eighth Army, took command at Kojé after the February riot.

President Notes Situation Grave

WASHINGTON, May 8 (AP)—President Truman, reflecting on world conditions on his 68th birthday, said today the international situation here at home doesn't seem to realize here at home don't seem to realize it.

He also said he is working very hard to get the oil strike settled and he is hopeful of a settlement. The President would not discuss the steel case in any form, saying he should not do so while it is before the Supreme Court—for a ruling on whether he had power under

the Constitution to seize the industry. The President, in an often philosophical mood, ranged over the general international situation in a news conference discussion.

Despite the difficulties he saw, he said as he often has before that he is still hopeful of ultimate peace. And as for himself and the fact it was his birthday, he commented that he has had a most happy, and he guessed as full a life as any man of his age.

When he leaves the White House, Truman said with a grin, he is going to spend the next 10 years having a good time and doing just as he damn pleases.

He suggested he might do a good bit of traveling abroad. In a scolding turn, Truman repeated what he had told the National Housing Conference earlier in the week—that some opponents of his defense program are playing right down the alley Russian Premier Stalin would like to lead them. He said the attitude of Congress toward economic and military aid and other defense legislation recently has been such as to imply that the necessity for those things no longer exists.

Truman went on to say if he could, maintain our industry on an even keel and continue the buildup of our own defenses and those of our allies there would be no World War III. He is still hopeful of getting all his program brought to its conclusion in which case, he said, we will have a lasting and universal peace.

General Says Cut Can Retard Defense Plans

Ike Sends Note Backing Truman To Sen. Connally

WASHINGTON, May 8 (AP)—Gen. Dwight Eisenhower told Congress today any cut in President Truman's \$7,900,000,000 foreign aid plan "would inevitably tend to curtail or retard" this nation's defense program.

The message from Eisenhower was made public by Sen. Connally (D-Tex.), chairman of the Senate Foreign Relations Committee.

The retiring head of the Western Defense forces did not specifically ask Congress to retain the full amount of funds Truman requested for foreign aid.

But he did say that any cut "would be heavily and seriously felt."

The Foreign Relations Committee has voted to cut a billion dollars from Truman's requests. The House Foreign Affairs Committee chopped off another 100 million.

Eisenhower said in his cable to Connally that "any cut materially greater" than the billion dollar reduction voted by his committee "would create such difficulties that a drastic revision of the whole program might well be indicated and might therefore endanger the proposed military build-up now visualized and which I consider essential in the interest of U. S. security."

Only an hour before Connally released the Eisenhower message, Sen. Russell (D-Ga.), chairman of the Senate Armed Services Committee, sent a message to Eisenhower asking him whether he thinks the \$4,900,000,000 voted by the Connally committee would be adequate for this nation's defense.

Russell is a candidate for the Democratic nomination for President. Eisenhower is a candidate for the Republican nomination.

By RUSSELL BRINES
WASHINGTON—The administration was faced with the possibility today that it will have to choose between building up American forces or those of its allies when it ships arms overseas.

This developed yesterday when the House Foreign Affairs Committee approved a \$6,800,000,000 foreign aid program for the year ending June 30, 1952—slightly over one billion less than the \$7,900,000,000 asked by President Truman.

Most of the cut was in proposed military assistance to Europe. This was slashed \$20 million dollars despite protests of military leaders that the full sum was vital.

However, the House group amended the measure in such a way that if shipment of all the arms requested actually is vital, military leaders could go ahead and provide the arms—from their own stocks.

Truman May Get Oil Strike Issue

DENVER (AP)—Refusal of 22 A.M. CIO and independent oil industry unions to call an end to their week-old strike may send the wage dispute to President Truman.

The Wage Stabilization Board scheduled a meeting today in Washington. Yesterday, WSB Chairman Nathan P. Feinsinger told the House Labor Committee the case probably would be sent to the White House if the board fails to obtain an end to the strike.

Feinsinger had asked the unions to send their men back to work. O. A. Knight, president of the Oil Workers International Union (CIO), said here last night the strike will continue. He added the unions will have representatives at the WSB meeting May 13 as requested.

"In light of the history of the dispute and of the WSB's apparent inability to affect industry participation in WSB hearings, we have no alternative but to continue our strike," Knight said.

"We have patiently attempted to achieve peaceful settlements, but to no avail. We have co-operated with the board, but to no avail.

We were finally forced to strike and we must continue striking until settlements are reached." Knight pointed out that the dispute dates back to September, 1951, and was postponed three times before refinery and pipeline workers went out.

The WSB had returned the dispute to the unions and management April 6 for more collective bargaining after inability to get hearings under way. It retained temporary jurisdiction, however.

A pattern for settlement may be drawn from an agreement reached late yesterday between CIO workers and the Rock Island Refinery near Indianapolis. They settled for an 18-cent hourly increase. Pickets were to be removed today.

Hottest Day Of Year Is Noted Here

Yesterday's high of 99 degrees came within two degrees of being the hottest May 7 on record in Big Spring. The highest recording for the date was 101 degrees in 1916.

But the 99 was enough to make it the hottest day we've had this year, and it was quite a coincidence that this was the day Big water from the city supply was restricted.

If this afternoon's high comes up to the expected 101 degrees predicted by the Weather Bureau then today will go down in the records as the hottest May 8 since weather records have been kept here because it will exceed by one degree the 100 rolled up on May 8, 1927.

A slight drop in the mercury is forecast for tomorrow with a high of 94.

GULF COAST HARDEST HIT Kilgore Oil Plant Joins Strike List

RESIDENTS TAKE A 'LAST FLING' AT WATER USE

Big Spring people apparently took a "last fling" at watering Wednesday.

For the 24 hours ending early Wednesday morning before word of the city's water restriction ordinance had been circulated, the production total was 3,437,000.

Thursday morning, after word had circulated, the total was 2,685,000.

City officials attributed this to that "last fling" on the guise of "not knowing" that the city had taken restrictive action.

Reaction To Water Ordinance Is Termed 'Splendid' By City

City Hall telephones have been ringing almost continuously since the word got around that the commission had passed the Tuesday night ordinance restricting the use of water from the city supply.

Many of the questions arose routine, but others present both legal and technical problems that can't be safely answered in an off-hand manner, according to city officials. Most of the questions in the latter category involve the use of water for construction and commercial purposes.

In answering these questions officials are referring the inquiring persons to the ordinance itself and to the information contained in a statement handed each city employee by H. W. Whitney, city manager, yesterday.

This letter tells the employees that the ordinance is "effective immediately" and details the uses of water that are prohibited. It also explains penalties that are provided including one requiring the Water Department to remove the meter and to discontinue service to any person convicted for the

Tanker Explosion Injures 6 Persons

CHELSEA, Mass. (AP)—The tanker Harold Heinauer exploded at its dock yesterday, injuring six persons, one a woman 300 yards away. The force of the blast hurled a five-ton section of the vessel 75 yards onto a busy thoroughfare.

The skipper, John M. Fyfe of Brewer, Me., estimated damage at half a million dollars. One crewman said he believed the explosion was caused by a spark from an acetone tank.

Shivers Blasted By Yarborough And Dickson

AUSTIN, May 8 (AP)—Gov. Shivers came under attack from two sources yesterday, but the charge was virtually the same in each case: that Shivers is trying to tell Texans how to run their national affairs.

That was the implication of a prepared statement by Ralph W. Yarborough, candidate for governor, who said he thought "the people of Texas can be trusted to pick their own President and vice president without dictation from me or anyone else."

Fagan Dickson, leader of the self-styled Loyal Democrats, said Texas voters must choose whether they will follow Shivers up a "blind alley" or continue their program of prosperity and the fight for world peace along Roosevelt-Truman lines.

Dickson gave warning that Shivers will be challenged not only in the state and national Democratic conventions but also at the ballot box.

He said Loyal Democrats "have a rendezvous with the governor on July 26 (the date of the first Democratic primary in Texas). There is no place on the Democratic ticket for candidates who are running against the Democratic Party."

Yarborough, who will draw the support of the Loyal Democrats faction, said he believed the people of Texas "are entitled to a full-time governor."

"That's what I expect to be, and I don't intend to try to tell the people of Texas how to run their national affairs," he added.

Dickson accused Shivers of trying to create a sectional party in opposition to the national Democratic Party through his insistence on an unqualified Texas delegation to the national convention and his opposition to a party loyalty pledge for the delegates.

Dickson said the people who controlled virtually all county Democratic conventions Tuesday were "Silvercrats."

"The Silvercrat conventions resolved against the United Nations and world peace; denounced the government's foreign policy; rejected resolutions requiring presidential electors to vote for Democratic candidates; rejected the principle of majority rule as applied to the national convention; opposed all resolutions calling for social progress of any kind; approved racial prejudice and embraced McCarthyism," Dickson said.

He promised the Loyal Democrats would continue their fight against Shivers' program at the May 27 state convention in San Antonio and at the national convention in Chicago.

Things Not Going Smoothly In Romania; Workers Unhappy

Editor's Note: Communist bosses ride high in Romania, but they never know what is fast around the corner. Romania's U. S. representative, Henry G. S. Gurnea, in a letter to the editor, writes that the Communist government is trying to force the people of Romania to work longer hours and to produce more goods than they are capable of doing. He writes that the fourth of his articles in the section.

By WILLIAM L. RYAN, Associated Press Foreign News Analyst

Slivers shrill, traffic and pedestrians scatter. A sleek green American car screeches to a halt opposite the State Bank Building on Bucharest's Kisselev Street. Three sentinels snap to military attention. Escort cars, crammed with bodyguards, pull up behind the green 1950 Oldsmobile as a guard opens the door.

Grim and unsmiling, the hammer-jawed first lady of Romanian communism steps out and walks rapidly into the building. She does not even notice the stiff salute of her personal security chief.

Ana Pauker, for all her new

riches—her four cars, her lavish villa, her legion of personal bodyguards and attendants—seems worried. Nominally, the foreign minister, who has just managed to get rid of a few high Communists who may have been her mortal enemies in high places—how many more are there?

The Russians have been watching her. Even the defense minister, Gen. Emil Bodnarec, a Ukrainian whom she has considered her ally—how long would he remain her friend if she should lose the confidence of Moscow? And there are rumors...

It was a close squeeze with Vastile Luca. The finance minister had a thirst for power. For Ana it was fortunate Luca's recent currency reform caused so much chaos in the country. It gave her a lever. She and Bodnarec had him fired as finance minister and vice premier. They put in a less ambitious man, Dimitru Petrescu, former president of the State Supply Commission.

Luca, at 54, had felt he was going places. A leading Communist since 1919, veteran of many jails, he had been a confidante of Gheorghiu-Dej, the present boss of the party. It took some doing to get rid of him.

As finance minister, Luca ran into trouble in January of this year. He decreed that old lei were to be exchanged at rates ranging all the way up to 400 old lei for one new, on a sliding scale. At the same time prices were reduced. The result was chaotic.

Before currency reform, the average Romanian worker earned 6,000 to 7,000 lei a month. Prices before currency reform were like this: a man's suit, rationed, up to 8,975 lei, or up to 19,000 on the free market; rationed shoes for women, up to 4,800 and a little higher for men; rationed sugar, 56 lei a kilo and 200 on the free market, jam, 240 a kilo, and so forth.

There were no wage increases with currency reform but prices were reduced 8 to 20 per cent. The result was a rude jolt for the workers. There was a humming undercurrent of indignation. Luca was fired. But the worker is still being sadly exploited.

East Germans Plan To Set Up An Army

BERLIN (AP)—The Communist rulers of East Germany disclosed last night they are going to set up an East zone army dedicated to "fighting preparedness" against West Germany's impending lineup with Allied defense plans.

The decision was announced in a personal telegram to Soviet Prime Minister Stalin from leaders of the Socialist Unity (Communist) party, which governs the Soviet zone.

The telegram did not set any size for the new army nor say whether soldiers would be conscripted.

A trained core of an armed force already exists in the Soviet zone's 50,000-man state police and 10,000-man sea police unit.

East German leaders told Stalin they would continue to work for German unity but declared an army would be needed to fend off aggression.

Wilhelm Pieck, East German president, already had announced on May Day that the Soviet zone would be compelled to organize its own armed force because of impending West German alignment with the Western Allies.

The West Germans now are negotiating a "peace contract" with the Allies to restore most of their sovereignty in exchange for German troops in the projected European army. Both agreements are expected to be signed this month.

The currency reform evidently had been dictated by the Moscow bosses who sit on the Romanian Communist government. Each Romanian ministry has a Soviet "counselor" who has more power than the minister himself. The Russians also direct the

Army. The Soviet parade step has been introduced by special Soviet inspectors. Soldiers find the peculiar step difficult. Soviet officers boss the Romanian Army but consider it unreliable. Romanian children at 14 are considered ready for manual labor. If a child is of "bourgeois" origin, he likely will be sent into manual labor rather than to secondary school.

Today there are reports of a new making. The Association of Romanian Journalists, an exile group with headquarters in New York, reports that in the past few months mass deportations from Bucharest have been resumed. Last November all identity and ration cards were called in by the Bucharest police and returned with special markings. At the end of February the Communist party decreed Bucharest was to become a "workers' city" from which all "unproductive people" would be deported. The expulsions are said to be on Soviet orders, to eliminate "unreliable elements," make housing available for industrial workers and functionaries, cut down on urban consumption of food and supply manpower for slave labor programs.

Credit Restrictions Are Lifted By U.S.

By CHARLES F. BARRETT
WASHINGTON (U.S.)—For the first time in 20 months, the government has given you free rein to buy that car, television set, or furniture on whatever terms you can get.
The Federal Reserve Board yesterday suspended controls over down payments and time-to-pay—on the ground that an easing of inflationary pressures made the controls no longer necessary.
Authorities on the reserve board said actually they expect the effects to be slight.
Some trade circles, happy over the suspension of controls predicted a boost in sales, which have been lagging.
A few dealers were expected to proclaim the \$10 down and \$1-a-week type of sale, but in most cases spokesmen for business said the changes probably will be moderate.
However, the Bank of America—the world's largest bank—quickly

announced much more lenient terms.
The government still will regulate terms for real estate purchases and officials said there is little likelihood of a suspension in this field.
An official of the Radio and Television Manufacturers Association said down payments probably will be reduced, especially on more expensive sets, but time to pay probably will remain about the same.
The National Automobile Dealers Association said finance companies are expected to continue to require about one-third down on most cars, but the payment period may be extended from 18 months to an average of 24 months.

TEXAS BRANDS

By JOHN M. HENDRIX
The Three S started in 1865 in Stephens County and was the property of Major Briscoe Scruggs, who originated it for the firm composed of him, his father, and his brother-in-law, William Simpson. It was probably of the greatest importance during the '70s and '80s.
Stephens County was of considerable importance in the early day cattle histories of West Texas, as it lay only one county away from Palo Pinto County from which so many early West Texas cattlemen made their start.

Russian Subs In Pacific Are Source Of Worry

TAIPEH, Formosa (U.S.)—America's Pacific Fleet commander indicated today his main concern, if the Korean War spreads, would be what Russia would do with her big Pacific fleet of submarines.
It "would be a threat if used offensively," Adm. Arthur W. Radford told a press conference.
In the event of such a general emergency, Radford envisaged close co-operation with British and French forces in the Pacific. He has conferred with Far East military commanders of both on a tour of the Philippines and Formosa. The area recently was transferred to his protective jurisdiction from Gen. Matthew B. Ridgway's Far East command.

Kefauver Sees Big New York Support

ALBANY, N. Y. (U.S.)—Sen. Estes Kefauver, claiming strong support among New York State delegates to the Democratic National Convention, opens state campaign headquarters today in New York City.
On a foray yesterday into rural Upstate New York, the Tennessee Democrat tossed a challenge at the state's Democratic high command, which is seeking to corral New York's 24 delegates for its "favorite son" candidate, W. Averell Harriman.
Kefauver told reporters he was

Dulles Sees General As Next President

SHANNON, Ireland (U.S.)—John Foster Dulles predicted today that Gen. Eisenhower will be elected the next President of the United States but said he himself doesn't count on being secretary of state.
He indicated, however, he considers himself the "obvious" man for the job.
The Republican party foreign affairs expert was interviewed here as he flew home after week-end conferences with the general in Paris. He had refused there to say

whether he would support Eisenhower's candidacy.
Nor did he at the airport here come out flatly for the general, but said, "There seems no doubt that Gen. Eisenhower will be elected."
"But when it comes to secretary of state," he said, "there are often factors which decide against the most obvious person. Sometimes the post has to be filled by one who will form a bridge between the President and certain political sections."
"I would be the last to say I am a certainty for the post of secretary of state."

Japs Ask Trading Agency In Manila

MANILA (U.S.)—Foreign Affairs Secretary Joaquin Elizalde said last night his office has received a request from Tokyo for the establishment of a Japanese government trading agency in Manila, pending Senate action on the Japanese Peace Treaty. The Philippines Cabinet will consider the proposal tomorrow.

Rail Unions Seek To Void Seizure

WASHINGTON (U.S.)—Three big railroad unions are asking the Supreme Court to rule President Truman's railroad seizure illegal at the same time the high court decides the legality of the President's steel seizure.
Truman took over the railroads under a law passed in 1916 but the steel mills were not seized under any specific law.

Ill. Democrats May Endorse Stevenson

CHICAGO (U.S.)—Democrats may vote today on a proposal endorsing Gov. Adlai Stevenson for the Democratic presidential nomination.
Indications were that the draft-Stevenson movement may come up for official approval at the party's state convention although the governor has vetoed such plans.
However, Jacob M. Arvey, Democratic national committeeman for Illinois, appeared not to have given up on getting the convention to endorse Stevenson, a candidate for re-election as governor.

Attorney Withdraws From Congress Race

KILGORE, May 8 (U.S.)—Attorney John W. Ford of Kilgore withdrew from the race for Congress in this Third Congressional District last night.
Ford said the race—in which eight other men have filed—would be too expensive for him to make a serious try.
Rep. Lindley Beekworth of Glade-water will not be a candidate for re-election, having announced as a candidate for U. S. Senate.

Atom Series Are Due To Be Continued

LAS VEGAS, Nev. (U.S.)—Five atom blasts down and perhaps five to go. That was the score today in the spring nuclear series.
After No. 5, yesterday's tower shot in the dark, the Atomic Energy Commission indicated the series would continue indefinitely.
Since April 1 there has been a shot a week, with the exception of Holy Week before Easter. Next week's shot will be an invitational event for 500 military observers representing all branches of service, the AEC said. They will be stationed in foxholes, but will conduct no maneuver.
The next maneuver—the third phase of Exercise Desert Rock IV—will involve some 1,500 Army troops, probably two weeks hence.

Mine Safety Bill Gets Senate Okay

WASHINGTON (U.S.)—A federal mine safety bill with all the sharp teeth John L. Lewis has been asking for years has received the Senate's approval.
The bill, passed yesterday on a voice vote, now goes to the House, where a somewhat similar measure is already awaiting action.
The bill, steered through the Senate by Sen. Neely (D-W.Va.), gives the federal government power to enforce safety recommendations of the Bureau of Mines' inspectors. These inspectors now may merely make safety recommendations. Enforcement is left entirely with the states.

Warren Takes Poke At Dem Inefficiency

ALBANY, Ore. (U.S.)—Gov. Earl Warren of California, campaigning in Oregon for the Republican presidential nomination, said last night that if voters retain the Democratic party in power it means they "condone inefficiency and financial irresponsibility in government."
"Instead of solving problems, the administration is standing them on end for someone else to solve, which means they are leaving them for our children," Warren told a meeting sponsored by civic groups and the Lane County Republican Central Committee.

'Fair Trade' Bill Faces House Test

WASHINGTON, May 8 (AP)—A "fair trade" bill, described alternately as a boon to small business and as an extortion on consumers, faces a final test vote in the House today.

The bill in effect would give federal sanction to the trade laws of 43 states which permit retailers and manufacturers to agree on minimum selling prices for many trade-marked articles. The agreements are binding on non-signers as well as on signers.

A recent Supreme Court ruling that the states could not enforce their trade laws against retailers who didn't sign the agreements brought on the legislation. If enacted, the bill would get around the court ruling by declaring that the Anti-Trust and Federal Trade Commission Acts do not apply to enforcement of state "fair trade" laws.

Heading the opposition to the bill, Chairman Celler (D-NY) of the Judiciary Committee told the House yesterday consumers suffer in the long run because they pay higher prices than might be charged otherwise.

Supporters countered that the main aim of the bill is to protect small independent local business from price-cutting by larger outside business.

Iowa Youth May Be Free To Return Home

AUSTIN, May 8 (AP)—The 15-year-old Iowa farm boy who went to prison by a mistake in his age may soon go back home on parole.

The State Pardons Board yesterday indicated agreement on recommending clemency for him. They disagreed, however, as to what jurisdiction might be retained over the youth.

Herbert Fletcher went to Texas prison last year on a 10-year sentence for filling station robberies in Freestone and Williamson Counties. He told officials he was 17. As a 15-year-old, he could have been tried only as a juvenile delinquent and sent to a training school.

Another robbery count had been pending against Fletcher in Milam County until yesterday when the grand jury there no-billed him because of his age and recommended his parole to Iowa.

Fletcher's mother and Georgetown Attorney W. K. McClain presented the Milam County Grand Jury's findings to the pardon board.

Board Chairman L. C. Harris and member T. B. White asked McClain to add a letter from the Milam County attorney showing no action was planned against the youth as a juvenile.

Harris and White maintained the board had power of parole over the youth who, they said, waived his right as a juvenile when he told officers he was 17. Board member R. A. (Smoot) Schmidt contended the board by law could only recommend the sentence be commuted as illegal and Fletcher be remanded to the courts where he was convicted.

All three appeared in agreement, however, that he would be released from prison.

Payments For Protection Are Claimed In F-W

DALLAS, May 8 (AP)—Protection payments of \$50 per month were claimed by a former Fort Worth gambler to have been given to A. L. Wardlaw, onetime Tarrant County assistant district attorney.

W. H. Getzsdaner testified at Wardlaw's trial for income tax evasion:

"I paid him \$50 a month for protection for whatever time I was open. But those places (bookie joints) don't stay open all the time."

Getzsdaner said he ran a bookie operation in Fort Worth during 1948 and 1949. His statements were the first indication in court of any protection racket in the Tarrant County district attorney's office during those years.

Getzsdaner's statements were made with jury out of the courtroom at the order of Judge T. Whitfield Davidson, Asst. U. S. Dist. Atty. Cavett Binion had asked that the jury be excused for Getzsdaner's accusation.

Wardlaw is the first of two Tarrant County men indicted by a special federal grand jury that met in Fort Worth. The other, named in similar charges, is Sheriff Sully Montgomery.

Water Complaint Filed By Texas Against N. M.

SANTA FE, N. M., May 8 (AP)—A complaint by Texas that New Mexico has violated water terms of the Rio Grande Compact was served on Gov. Mecham and Atty. Gen. Martinez yesterday.

The state has until June 27 to file an answer. The U. S. Supreme Court recently agreed to allow filing of the case before it.

Texas contends the Middle Rio Grande Conservancy District in New Mexico used more than its share of water allowed under the interstate compact, depriving water users in Southern New Mexico and Texas. Texas asks appointment of a water master to administer the compact.

New Mexico has maintained that circumstances beyond her control contributed to the situation.

Lions Note Music Week At Meeting

Music is one of the basic foods for the emotional side of which much of humanity is made, Mrs. Nell Frazier told Lions Club members Wednesday.

She spoke in behalf of observance of National Music Week. Objectives, she said, were to make people love music more; to afford greater opportunity for musical expression; to produce more musical participation; to have a better understanding of American composers.

Because music is the only universal language, it can be a means to promoting the ideal of international brotherhood and understanding, she said.

Mrs. Don Newsom favored the club with two selections, "If I Could Tell You" and "Lover," then was roundly applauded into an encore, "Summertime." Mrs. J. W. King Jr. was at the piano. Program for the day was in charge of Roy Worley.

Musical Program Is Set At Wagon Wheel Noting National Week

In a program especially arranged and dedicated to National Music Week, Bill Cummings will be heard at 6:30 p.m. today at the Wagon Wheel. Joining as tenor soloist will be John C. Little.

Cummings studied at Texas Wesleyan and at University of Indiana as an organ major and earned his degree at the latter school. He is assistant chaplain at the air base. Little is air chaplain at the base and took his training at Houghton College.

On the program are "The Girl with Flaxen Hair," a Strauss waltz, Schubert's "Serenade," a passage from "Carmen" and others.

Annual May Fete To Feature Dances By Some 2,000 Elementary Pupils

The annual May Fete, following a "World of Fun" theme, will be presented Friday at 8 p. m. in the football stadium by more than 2,000 elementary school pupils.

The music and dance festival will climax a week of activities sponsored by the Music Study Club in Observance of National Music Week.

Bill Dawes will be narrator, and the first number will be "Put Your Little Feet," a delightful example of the American round dance which was brought to this country by early settlers from other lands. Performing will be sixth grades from Washington Place, West Ward and Park Hill.

The winding of the Maypole, by the same group symbolizes the happiness which children express at the opportunity to play outdoors.

First grade pupils from all the schools will perform the Danish "Shoemaker's Dance," imitating the winding and snipping of the thread and the tapping of the nail.

Second grade children will present "Chimes of Dunkirk," chosen as a folk game by both the Belgians and the French. The Belgian version will be presented.

"Seven Steps," the Austrian version of one of the oldest and best known German folk games, will be presented by third grade children. Its title comes from the seven running steps forward and backward.

The lower grades of Kate Morrison will present "La Rapa," a colorful folk dance from south of the border, unusual in that the chorus

comes first in the music and figure second. The figures change but the chorus remains the same. A special number from the Kate Morrison school will be "The Mexican Hat Dance," and the upper grades will perform "Las Chiapanecas," a line dance which takes its name from the state of Chiapas.

Fourth grades will present "The Texas Schottische," and the fifth grades will perform the French folk dance, "Lili Mariene," a tune from World War I. The action put to it during the last five years in this country is really like the old time Gavottes, and this same is sometimes called "Susan's Gavotte." Probably Herb Gregerson of El Paso is responsible for its creation.

Lakeview pupils will give the circle "Virginia Reel," one of the oldest and most universal of folk games. It was brought to this country by the colonists and is sometimes called "The Sir Roger De Coverley."

Sixth and seventh grade students will present "The Texas Star." The western square is vigorous and hardy in style, reflective of the rugged individualism which characterized the pioneers who settled this section of the country. The title of the dance is indicative of the movement and the design and correlates with the study of Texas history. The caller will be Donnie Bryant.

As the finale, a Color Guard, consisting of one Cub Scout, one Boy Scout, one Explorer Scout and one Sea Explorer, will march onto the field, where all the children will be massed in a group, and as the audience pays respect to the flag Mrs. J. W. King will sing "The Star-Spangled Banner."

Mrs. Bill Grise is in charge of the program and in school recognition of the week she has been assisted by Mrs. Homer Willoughby, Mrs. Ruth Burnam and Elizabeth Cope.

Ethel Foster Is Guest Speaker At Hyperion Tea

Ethel Foster of Sterling City, candidate for treasurer of the General Federation of Women's Clubs, spoke on her recent trip to South America at a seated tea Wednesday in the home of Mrs. K. H. McGibbon.

Members of the 1905 Hyperion Club were hostesses for the affair. Miss Foster said the object of the trip, sponsored by the General Federation, and with the blessing of the state department, was to

promote international understanding between women.

"When understanding is strengthened, the threat of war is lessened," she stated.

The refreshment table was laid with a Margharb cloth and featured an arrangement of spring flowers. Silver and crystal appointments were used and Mrs. Harwood Keith, president of district 8, served.

The presidents, vice presidents and board representatives of the local federated clubs were guests.

DESIGNING WOMAN

New Upholstered Furniture Doesn't Overpower Room

By ELIZABETH HILLIER
Overweight is almost as bad for a room as it is for the figure. Too much heavily upholstered furniture makes a room look crowded and dowdy and out of step with today's style. New-upholstered furniture slims to trim silhouettes, chair and sofa arms are slender and often open rather than fully padded, cushioning is less thick and

straighter in outline than it used to be, more designs show legs rather than upholstery to the floor. The effect of this slendertized new furniture is a fashionably open and airy look for the room. Even the change of a chair or two from oversize to lighter weight does wonders, and no room should carry extra pounds it doesn't need. Bulk isn't necessary for comfort. This you can prove to yourself by sitting on the new slimmer furniture. It's so often more comfortable than older over-stuffed — because fit to the seated figure doesn't demand scale tipping, and the pitch of the back in relation to the seat plus the firmness or softness of upholstery filling matters more than thickness. Here interior designer Everett Brown shows how a small room can take two long sofas. With them he provides adequate seating space while freeing a maximum square feet of floor.

Lutherans Convene At Spring Rally Here

Mrs. Harold Wakehouse gave the welcoming address when the annual spring rally of the Lutheran Women's Missionary League, Zone 4, met at St. Paul's Lutheran Church Wednesday.

Mrs. Clinton Behrend of San Angelo gave the response. The Rev. A. H. Hoyer, pastor of the host church, led the opening devotional and Mrs. Norbert Harms of Midland, zone president, presided at the business session.

The newly organized women's society of Pecos was accepted as a new member of the league. The morning session closed with the group singing the table prayer. A luncheon was served at noon by the Big Spring women in the educational building of the church.

The afternoon meeting began at 2 p.m. with the Rev. Gilbert Baker of Midland giving the opening devotionals.

The Rev. Mr. Hoyer was the moderator at the forum that followed. The main topic was "Christian Women Conquering the World for Christ." Discussion leaders were Mrs. Harms, Mrs. C. K. Orleton of San Angelo, Mrs. Wakehouse, Mrs. Earnest Reich of Cisco and Mrs. Richard Lemmon of Odessa, vice president of the zone.

The Rev. Glen Kellmeyer of San Angelo offered the benediction. The day's activities were concluded with a tea honoring the guests in the educational building. The table was laid with a lace cloth and featured the silver tea service.

Mrs. Henry Fohler and Mrs. George Stone served the cake and Mrs. W. F. Paschall and Mrs. Leola Snow poured. About 85 members and pastors from the surrounding area attended.

Yankee Exes Dazzle Foes In American

Champs Look Bad, Though

By JACK HANCOCK
AP Sports Writer
Bucky Harris and his Yankee refugees are licking their chops over a six-game Washington win streak while the world champs squirm in the second division. Ever since the "big deal" sent Jackie Jensen, Archie Wilson and Spec Shea to Washington for Irv Noren, the ex-Yanks have been hitting and pitching like crazy. Wilson has hit .526, Jensen .450 and Shea has pitched 1-0.

Before they left New York Wilson was hitting .006, Jensen .308 and Shea was 0-0. Inflation must be catching on the banks of the Potomac.

Jensen cashed in two more hits last night in the Senators' 6-2 romp over feeble Detroit. The veteran Sid Hudson didn't need much help behind his five-hit effort.

While the Senators continued to spree, the Yanks still were shaking their heads over the strange sight of two straight Cleveland wins at Yankee Stadium. Mike Garcia got home with a 7-2 victory even though the Yanks nicked him for 12 hits.

The stadium is the place the Indians are supposed to fold their tepees and steal silently into the night. Last year their pennant boom grounded on the banks of the Harlem, where they won only one out of 11 starts.

For the fifth straight time Yankee Vic Raschi failed to go the route, yielding eight hits and five runs before retiring at the end of the fifth.

The Indians needed that decision to stink one game behind the league-leading Boston Red Sox, who crushed Chicago, 7-2, on outpitcher Bill Henry's pitching and batting. The rookie backed up his five-hit work with a triple and single that drove in two runs. It was his fourth straight.

Johnny Peavy's ground rules double with the bases loaded in the second inning clinched matters against Kenny Holcombe.

Philadelphia's Alex Kellner showed the St. Louis Browns a little closer to their old home with a fine 1-0 triumph over Earl Har-

ris. Eddie Joost's double, a sacrifice and an outfield fly accounted for the only run in the first inning. Kellner gave five hits, Harris only four.

Brooklyn headed home from its first Western trip, still in possession of the league lead, with the help of some strong-arm relief pitching by Johnny Rutherford. The righthanded rookie from St. Paul came on after lefthanded Chris Van Cuyk floundered in the third. Although southpaws are supposed to make the Reds curl up, this rightie gave them only three hits in a 3-3-inning stretch.

Leo Durocher used his two New York Giant aces—Sal Maglie and Larry Jansen—to subdue Eddie Stanky's St. Louis Cardinals last night, 3-1.

It was Maglie's win, his fifth straight, in 45 innings. "The Barber" has allowed only 22 hits and just five earned runs. He gave up only six hits to the Cards, two by Solly Hemus.

Howie Pollet broke into the win column for the first time this year with a five-hitter as Pittsburgh broke a six-game losing slump to whip the Phillies, 5-1. Five errors, two each by Gran Hamner and Connie Ryan, ruined loser Russ Meyer.

Bauman Powers Artesia Nine To 5-4 Win

ARTESIA.—Big Joe Bauman hit two home runs for a total of four runs batted in to lead the Artesia Drillers to a 5-4 win over the Big Spring Broncs here Wednesday night.

Bauman, the Drillers' huge first sacker, clouted a solo round trip in the fourth inning and then blasted another four-master in the fifth with teammates John Almonzo and Herb Harrow on the sacks in front of him.

His circuit clout tonight ran his total for the year to seven. The Drillers added another run in the fifth—their game winning tally—on consecutive doubles by Rudy Briner and Paul Halter.

Big Spring picked up its first run in the third inning on singles by Enrique Gonzales, Bert Bass and Buddy Grimes.

More singles by Bass and Grimes and manager Pat Stacey's two run double down the left field foul line in the fifth added a pair of runs to the Broncs cause, throwing them into a momentary 3-1 lead.

Their final tally came in the sixth when Gonzales and Bass led off with singles to chase Starter Glen McBride from the mound. Stacey then singled, plating Gonzales.

McBride was tagged for 11 hits in his five and two-thirds inning stint, but scattered them nicely to hold down the Big Spring scoring.

After Artesia reliever Tom Simons had yielded a single to Stacey in the sixth, he retired the next six men to face him in the same manner, on ground balls to Third Baseman Halter.

Armas Arencibia went the distance on the mound for the losers. The Broncs move on over to Roswell where they try to arrest their downward descent in the league race. They are now only a half game out of the league cellar.

LITTLE SPORT

Par Will Take Licking, Says British Star

WHITE SULPHUR SPRINGS, W. Va. (AP)—The winner of the 72-hole Greenbrier Open starting today is going to have to shoot really sub-par golf, says Max Faulkner, globe-trotting British Open Champ.

After comparing the 6,368-yard Old White Course with links of several countries he has played, Faulkner feels the par 70 for 18 holes should be easy to beat.

"The first nine is quite an easy par 34, and the back nine 36 is not very difficult," declared the Britisher. "There is no green you can't get on in two strokes without too much trouble."

This is Faulkner's first visit to the Greenbrier and he was enthusiastic about it.

"The greens are the closest to any like those in England I've ever played on," he said. "They're very fast and that's very good for me."

Yesterday morning Faulkner shot a practice round 71 for 18 holes and in the afternoon he teared only the back nine again and had a sensational 31.

Cary Middlecoff won the first 72-hole Greenbrier in 1949 with 265, 15 strokes par. Ben Hogan blasted 21 strokes off it in 1950 and Sam Snead was 17 strokes ahead of the game last year.

League To Contest Ruling By Judge On Stadium Use

WICHITA FALLS, May 8 (AP)—An injunction permitting the annual oil bowl football game to be played in Coyote Stadium at least until 1958 was granted yesterday by Dist. Judge Temple Shell.

He ruled for Midwestern University which sought the order against the Texas Interscholastic League and the Wichita Falls School District, owner of the stadium.

The league had ordered the school district not to permit the charity contests to continue.

An immediate appeal was filed with the Court of Civil Appeals in Fort Worth, said J. H. Hart of Austin, league attorney.

The court ruled that Midwestern University's contract with the school district must be carried out; the school's stadium must be made available for the game each year; and the Wichita Falls district may not be suspended nor put on probation by the Interscholastic League for failing to obey the all-star game rule.

Joe B. McNeil, superintendent of schools, testified that the district had no objections to the game but was afraid Wichita Falls Public Schools would "be booted from the league" if the league's ruling was ignored.

The contract between Midwestern and the school district expires in 1958, Judge Shell said his decision was based on the wording of a ruling which prohibits use of league member personnel in all-star games.

Testimony showed that no Wichita Falls School District personnel or equipment was used for the game. Rental of the stadium was the only issue, the judge ruled.

LOOKING 'EM OVER

With Tommy Hart
Max Patkin, the comic who shows at the local ball orchard the night of May 16 (that's a week from Friday night), is booked for an appearance in Houston the previous evening. That means he'll fly in here, in all probability.

That's one night Pat Stacey is hoping it doesn't rain. Patkin draws \$75, if the elements interfere with the contest. Max goes from here to Albuquerque, then to San Jose, Calif.

He gets \$250 for each performance. Stacey, incidentally, is of the opinion Odessa is the strongest team in the Longhorn League at this stage of the race.

Stacey says the Oilers have everything but most of all boast a great attack. ROBINSON SAYS IT MAY BE 'TAIL WAGGING THE DOG'

Speaking before High School and HCJC capers here last week end, Baylor's Jackie Robinson, referring to the highly publicized basketball "fixes" at several major colleges, suggested that in some respects American sports had reached the stage of the "tail wagging the dog."

Jackie added the youngsters can gain a great deal from their experiences on the athletic courts if they keep their sports in their proper perspective.

"The thrills that come with sports can spoil you," warned the one-time All-American, pointing out that most capers are forced to give up that sport in their early thirties.

Huck Doe of Our Town is back in Illinois playing baseball for Mattoon, and liking every minute of it. Doe is a catcher by trade and appreciates the chance to work regularly. To, he likes the treatment extended him by the Mattoon people, to be looked on with a great deal of interest when the Mattoon people rallied at the eleventh hour and saved their ball club from going to another city.

Riverside, Calif., which claims to be a lot of things, isn't the best baseball community in these United States. The bustling city drew less than 300 paid admissions in its first three games in the Southwest International League and the franchise was removed to another city.

Umpiring in the Longhorn League seems to be A-1 this season. The lads may not yet be ready for major league ball but they're hearing down on every play. The players must think they're getting the job done, too, because they're doing very little beefing.

Ed Stevens, the ex-Big Springer, never hit as often as he but he usually hits for distance. In his first 19 times at bat for Toronto, he managed only four hits but all were home runs. He's batting fifth for the Maple Leafs.

T&P And Cook Appliance Win Industrial Loop Goes

Texas and Pacific's Railroads and Cook Appliance Company emerged victorious in YMCA Industrial Fastball League play at the City Park here last night.

T&P had its hand full in beating Cabot Carbon, 7-5. The Carbon team's defense was leaky, which made the job easier for the Railroaders.

Rosson's Indians Win 18-3 Verdict

Harold Rosson's Indians achieved their second straight win in Little League play here Wednesday when they beat the Eagles, 18-3.

Ferry Graham bashed a home run and two triples for the Warriors. Jimmy Tucker went all the way on the mound for the Tribe. Jimmy Marin was also a standout in the Indian attack.

Justice Will Probe Testimony On Bases

By G. MILTON KELLY
WASHINGTON (AP) — Clashing testimony alleging and denying wide-scale graft and malpractice at huge U. S. airbases in French Morocco was marked today for Justice Department investigation. Sen. Lyndon B. Johnson (D-Tex.) announced his Senate Preparedness Subcommittee will hand a transcript of the testimony to the Justice Department "for appropriate action."

Johnson's group is exploring charges that corruption and mismanagement have added tens of millions to the cost of the bases, started as a rush project during a war scare in early days of the Korean fighting

Film Studio Plans To Make 'The Robe'

HOLLYWOOD (U.S.)—Ten years ago producer Frank Ross bought the film rights to "The Robe," a best-selling novel by the late Lloyd C. Douglas.

In the years since, one production problem after another has kept the picture from reaching the screen. Howard Hughes, boss of RKO Studio, reportedly spent more than half a million dollars on the project before it was shelved.

Yesterday Ross and Darryl Zanuck, head of 20th Century-Fox Studio, announced they've made a deal for filming the novel of the birth of the Christian era with Tyrone Power in the leading role.

Laborites Maintain Victories In Votes

LONDON (U.S.)—The Labor party is maintaining its heavy winning streak in nation-wide town and rural council elections now in their fourth day. Balloting will last through Saturday.

Results of the voting for local council members will not affect the Conservative party's control of the House of Commons, but the swing toward Labor has resulted in increased Laborite agitation for new general elections.

The Laborites last night claimed to have picked up 256 more council seats than they had held in England, Wales and Scotland. Conservative headquarters conceded them a net gain of 148.

Ten States Affected In Grayhound Tieup

SEATTLE (U.S.)—Greyhound Bus Lines employees walked off their jobs in a pay dispute today, adding three more states to the seven already affected by bus strikes.

Representatives of Northwest ground management and the AFL Motor Coach Employees union conferred right up to the midnight deadline in Seattle last night before deciding they were hopelessly

deadlocked. No further meetings have been scheduled.

Approximately 1,400 drivers and other employees left their jobs.

The strike cut off bus transportation for thousands of passengers in Washington and parts of Oregon, Idaho, Montana and Utah. Some 2,500 other employees of Pacific Greyhound, a separate company, struck in California, Arizona, Western Oregon and parts of Nevada, Utah, New Mexico and Texas March 2. Negotiations to settle the walkout still are being conducted in San Francisco.

Demands of employees in both systems are similar, a company spokesman said.

The workers are demanding a five-day week at the same pay formerly received for six days. Pay rates vary widely; some drivers receive \$1.87 an hour, others are paid .6728 cents a mile.

Judge Rules Youth Can Learn Flying

LOS ANGELES (U.S.)—Eleven-year-old Randall (Scooter) Salmon has court permission today to take lessons in instrument flying and navigation from his daddy.

The boy's mother objected yesterday at the trial of her divorce suit against Herman Salmon, Lockheed test pilot.

But Superior Judge George A. Dockweiler said: "In this day and age when youths are thinking in terms of jet planes that are propelled faster than sound, and our whole situation is geared to transportation via airlines, it is not out of order for children to want to be pilots."

Mrs. Evelyn Salmon won a divorce and custody of Randall.

Kin Of Local Woman Wins Govt. Award

When Reclamation Director E. A. Moritz received the Department of Interior's highest honor on April 30 at Boulder City, Nev., it held a special interest for Mrs. G. L. Jones, 1504-B Wood.

Mrs. Jones is the daughter of Mrs. Moritz.

The department's distinguished service award for "an eminent career of 31 years in Government service" was presented to Moritz personally by Reclamation Commissioner Michael W. Straus.

The award was made in the presence of reclamation personnel from Region No. 3 and from Washington, D. C.

Moritz directs the bureau's activities in Southern California, Southern Nevada, and small sections in Utah and New Mexico and in most of Arizona.

He began his career with the bureau in Garden City, Kans. in 1905. In 1941 he came to Boulder City as director of power and to administer the operation and maintenance of the world's highest dam.

When the bureau was reorganized in 1943, Moritz was named director for the region. He had taken out 13 years at one time to engage in private engineering in Illinois, returning to the bureau in 1934.

"Mr. Moritz's career in public service has been characterized by the highest order of technical and administrative competence," said Straus in making the award.

Assembly Points For May Fete Announced

Points of assembly and dispersal for the traditional May Fete program, which will feature more than 2,000 youngsters in folk dances drills Friday evening, have been announced.

By making note of these, parents will find it much easier to leave their children at the right place and, more important, to pick them

up at the close of the program. Dean Bennett, director of elementary education, said the latter was most important in that it would be easy to develop confusion unless parents and children alike understand where they are to meet.

He stressed that parents will be most helpful if they will not attempt to get their children until the children have returned to their points of assembly. If they are grabbed off enroute, teachers have no way of knowing if children have become lost or went on home.

Should any child become lost, he or she should go to the point of assembly for his group. If parents do not come to get them, teachers and supervisors will see to it that they are taken care of and ultimately returned home.

These are the assembly points:

CENTRAL WARD—Enter at the East center gate and assemble under the stands north of the gate.

SOUTH WARD AND PARK HILL—Enter at southeast gate and assemble under the stands up to the center gate where Central Ward is entering.

COLLEGE HEIGHTS AND WASHINGTON—Enter at Southeast gate and assemble south of the South goal post.

AIRPORT AND WEST WARD—Enter the northwest gate of the football field and assemble just inside and North of the West stands.

EAST WARD, NORTH WARD—Enter at baseball park entrance and assemble just inside and north of the West stands.

LAKEVIEW—Enter at the baseball field entrance and go south to center gate leading to football field.

KATE MORRISON—Enter at baseball park entrance and assemble behind board fence at southwest corner of baseball park.

SEVENTH GRADE GROUPS—All seventh grade groups will enter with the schools from whence they originally came before transfer to junior high.

MAY POLE DANCERS—Enter at east center gate and assemble just inside.

Three To Receive Honorary Degrees From McMurry

ABILENE—McMurry College will confer honorary degrees on two district superintendents of the Methodist Church and an outstanding national civic leader at commencement exercises, May 20.

The Rev. W. Carl Clement, district superintendent from Clovis, N. M., the Rev. H. Clyde Smith, district superintendent from Abilene, and D. D. Monroe, businessman and civic leader from Clayton, N. M., compose the trio.

Both the ministers are to receive the D. D. Doctor of Divinity degrees, while Monroe will be awarded the LL. D., Doctor of Law.

Rev. Clement served the North Texas Conference and also the Northwest Texas Conference before going to the New Mexico Conference. He acted as pastor in Midland, Stamford, Kessler Park, Dallas and in Albuquerque, New Mexico.

Rev. Smith was in the Texas Conference before coming to the Northwest Texas Conference. He served pastorates in Roaring Springs, Happy, Tahoka, San Jacinto, First Methodist Church, Big Spring, First Methodist Church, Pampa, and has been district superintendent in Abilene since 1949.

Cattle Ranches For Scotland Urged; Land Is Said Perfect

FORT WILLIAM, Scotland (U)—Here in the dour Highlands of Scotland, of all places, is a cattle ranch which would look pretty good in Arizona.

The ranch, about 10,000 acres of mountain, glen, burn, heather and peat, is a venture—now five years old—of Joseph William Hobbs, who learned his ranching more than 40 years ago near Calgary in Canada.

Hobbs has lived in Vancouver, where he built a skyscraper, and in Sault Ste. Marie, where as a boy he sold newspapers. Now he lives in Castle Inverloch near here, a wealthy man determined to teach the Highlands that one way out of their shabby economic state is to turn a lot of wild and craggy country into cattle ranches.

"Britain needs beef more than any country on earth," says Hobbs. "Why be so dependent on the Ar-

gentine when here in the wide open spaces of the Highlands there is just the right kind of setting for the right kind of dog?"

In 1945 Hobbs bought the busy Ben Nevis Distillery and the castle which has become his home. With cowboy tradition in his veins, he couldn't see the Highlands go to waste, and in 1947 he bought 5,000 acres. The holding, all in one piece, has been doubled since.

Only odd bits of the highland country are fit for agriculture. The rest of it, much of it standing on end, is a tangle of bracken (a tough and useless fern), heather, peat and rugged grasses.

Hobbs turned down the old Highland cow, long-horned, shaggy-coated and almost as sure-footed as a goat. The Highland cow manages to live comfortably in the 110-inch average yearly rainfall but

doesn't have energy to spare to make impressive steaks.

In the west of Ireland Hobbs found the Connemara cattle, short-haired and accustomed to even colder weather than is usual in Scotland. He bred Connemara cows with Aberdeen Angus and short-horn bulls, and produced the young stock which now roams his range. Short-haired, the animals dry quickly after rain and devote their energies to making steak.

The ranch is run on Wild West principles, but there are differences. Cowboy-in-chief Charles J. S. Palmer, who retains his Scottish title of factor (master of an estate) is a cowboy in a kilt. He can't remember wearing anything else.

There are other differences from America too. Cattle are not roped, for example, because Parliament thinks the practice is cruel.

Fur Industry In Eying Middle Income Group

NEW YORK (U)—After a mad whirl of postwar boom and bust, the fur coat industry is hopefully eyeing its neglected "middle income market."

Industry spokesmen are saying that mink is king no longer—that popular-priced furs are coming back.

"After the war everybody wanted mink," they explain. "It got so that mink accounted for more than half the business."

But the mink prosperity—at its frantic peak in 1946 and early 1947—was not of the enduring kind. It faltered late in 1948, then collapsed with a resounding crash in 1950.

The industry got little help from the scare buying prompted by the Korean War. After a brief pickup the sales picture got progressively worse. Sales last year were down 50 per cent from 1946.

Optimists maintain there are signs this spring of a return to "normal."

What's the outlook? For the next few weeks furriers hope for brisk sales of small pieces, capes and stoles.

For next fall they intend to "glamorize" rabbit and other lowest pelts.

"There are going to be some beautiful new blends and pastel shades—lots of color," one manufacturer says.

Fur coat linings will get a new look, he adds, with brilliant iridescent colors and fancy patterns replacing the usual drab brown.

And, he hints, prices may be lower.

Radio Operator On Corregidor Recalls Fight

By CHARLES E. LYONS
NEW YORK (AP)—"Tell Joe whatever he is to give 'em hell for us."
When Cpl. Irving Strobbe sent this last radio message from Corregidor in Manila Bay on May 6, 1942, he closed down his station and the garrison surrendered to the Japanese.
The message, intended for his Army brother, was received in Honolulu and relayed to his mother in Brooklyn.
Ten years later, the 32-year-old ex-G.I., now in school working toward an engineering degree, recalled some of the darkest days in American history.
"It was like an umbrella of steel," he said. "Those last four days the attack never ceased. They hit us by land, sea and air. We were a sitting bulleye. Someone said 400 shells a minute came in."
His final message was part of a 14-hour fragmentary description of the raging, one-sided battle he sent out from a tunnel on the island between relays of official bulletins.
On Corregidor, the "expeditionaries" repulsed two fierce assaults before capitulating by radio.
"I will never forget the day after we quit," Strobbe said. "Gen. Jonathan Wainwright walked with his cane down between the two rows of surrendered men to the dock to go to Manila to sign the surrender. He was crying and 99 out of 100 of us were too."
Then began for Strobbe exactly 1,218 days as a prisoner of war in the Philippines and in Japan. His treatment was good at first but gradually got worse as the tide of battle went against Nippon.
"I have a couple of scars that show," he said.
What does he think about his experiences?
"I don't regret anything that happened," he said. "I would do it all over again."

Damaged Wasp Arrives In New York Harbor

The battery bow of the aircraft carrier USS Wasp is headed into New York harbor on arrival in this country. The carrier, damaged in a collision in mid-Atlantic with the minesweeper USS Hobson more than a week ago, will be repaired at Brooklyn Navy Yard. The Hobson sank and most of her crew was lost. Italian Red Youth Banded Together In Pioneer Group

By JACK BRUSINI
ROME (AP)—Italy now has 250,000 of Stalin's children—card-carrying teen-age Communists and pro-Communists.
The Communists are organized in an association called Italy's Pioneers. Each pioneer group is the equivalent of a Communist cell.
At the age of 14, when American boys are much more concerned with baseball than politics, Maurizio Clementi, of Rome, told a reporter: "I can summon the 48 members of my Pioneer group in 20 minutes. In less than an hour I can pass a message to every party member in my area."
The Pioneer groups are most active in Rome, Milan, Modena, Reggio Emilia, Bologna, Genoa and Savona—all important Italian cities.
bottom of the nine-foot ditch.
Police and firemen were summoned quickly but their rescue efforts were hampered by sand which kept crumbling back into the hole.
The dead were Manuel Sanchez, 12; his two brothers Junior, 10, and Mario, 5, and Rito Bencomo, 8.

For the fifth straight year the state of Ohio ranks as the nation's leading producer of harness horses.

Doctor To Be Shipwrecked To Prove Survival Theory

By JOSEPH E. DYNAN
PARIS (AP)—A young French doctor who plays the cello an hour a day for amusement is about to play at being shipwrecked for two months to test his theories of survival at sea.
He is 27-year-old Dr. Alain Louis Bombard, who intends to drift across the Atlantic Ocean on a floating "laboratory" raft with four companions living on nothing but seafood.
For three, they will drink the doctor's own recipe of seawater mixed with juices pressed from fish with a fruit squeezer. He says it tastes something like French mineral water.
Already a double veteran at crossing the English Channel—once as a swimmer and once aboard a rubber life raft—Dr. Bombard estimates the 4,000-mile trip will require two months from Gibraltar to the Antilles by way of the Canary Islands and the Cape Verde Islands.
The doctor's craft, now under construction in Rotterdam, Holland, will be a special Polynesian-type raft—double parallel floats connected by planks. A cabin amidships will shelter bunks, a collection of books and the doctor's laboratory.
At sea, the raft will proceed under sail. It also will have a small auxiliary motor for use in entering ports or in case of grave emergency. The takeoff is set from Gibraltar, sometime around June 1.
For this trip, the doctor's principal equipment will be fishing tackle and the fruit squeezer.
What will he and the crew be doing all the time? The doctor explains:
"We will fish and take pictures. As for myself, every other day I will have to make tests of my companions and myself to study every slight reaction to our special mode of life. Besides, a survivor should do as little work as possible."
Luminous Object Is Seen By Weathermen
GALVESTON, May 8 (AP)—Galveston and Beaumont weather bureaus reported seeing a luminous object, flying at a high altitude, moving fast and swinging Tuesday.
A spokesman at the Galveston weather station said the object was "not a comet, not a star and not an airplane." He said the object headed south over the Gulf of Mexico.

AWOL Officer Is Allowed To Resign

TRAVIS AIR FORCE BASE, Calif., May 8 (AP)—The Air Force has permitted Second Lt. Clarence B. Wigley Jr., who went AWOL and lived in a church belfry nearly four

months, to resign instead of face a court-martial. An Air Force spokesman said yesterday that Wigley, 23, had been "separated from the Air Force under conditions other than honorable." Wigley was "paroled" to custody of his father, Clarence B. Wigley Sr., of Wichita Falls, Tex. Young Wigley, a B-29 co-pilot,

disappeared last Jan. 2. Police apprehended him last week and discovered he had been living in the belfry of the Seventh Day Adventist Church at Vallejo. The church had been searched several times, but no one looked in the belfry, believing it "impossible" for anyone to live there.

Red River Valley Group Holds Meet

PARIS, May 8 (AP)—A new project to make Red River navigable up to the Denison Dam was started here yesterday with election of a five-man study committee. The Red River Valley Associa-

tion's meeting, at which the election was held, had representatives from about 20 Texas and Oklahoma towns. Elected to head the committee's survey work were A. G. (Pat) Mayse, Paris; Cecil Hardy, Denison; H. F. Kohfeldt, Denison; Bill Schooler, Hugo, Okla.; and Joe Ed Russell, Annona. The survey will investigate the

possibility of navigation on the Red River from Denison to Texarkana.

THE SPRINGBOARD

News From Big Spring Air Force Base
By A-JC JEAN BROWN

PROMOTIONS

The May promotion quota for Big Spring AFB was announced Wednesday and the list included hikes in grade 99 airmen. Though the actual list of promotions cannot be fully released until the middle of the month, the procedure for allotting the rank has been completed.

ARMED FORCES DAY

Lt. Gen. Robert W. Harper, commanding general of Air Training Command, will be among the distinguished visitors at the Base dedication ceremonies, Sunday, May 12. Timed to coincide with nationwide observance of Armed Forces Day, the dedication activity, which includes an "open house" is expected to attract several thousand visitors.

Plans call for the gates to the base to be open from eight o'clock in the morning until four in the evening, with visitors having free

run of the base within necessary limitations.

SAFETY

Ground accidents for the month of April are reported to have cost Big Spring AFB some \$2,570. The cost figure was estimated as a result of twenty-two first aid injuries for both military and civilian personnel, three hospitalizations for military personnel and one ground accident involving an aircraft.

CADETS

The methodical cadence call of "hup, two, hup, four," is beginning to resound across the base as a physical training program for the aviation cadets here gets under way. The cadets receive two periods of PT every other day, one in the morning at 6:30 and another in the evening at 5:10. Besides the usual military calisthenics, the

Chilean First Lady Also Works For Poor People

SANTIAGO, Chile (AP)—Senora "Mitty," the blonde, attractive first lady whose formal name is Rosa de Gonzalez Videla has held up her social end as the President's wife, and meanwhile carried on a half-dozen other time-consuming activities.

It was her dedication to her country's poor and underprivileged and especially the children that won Senora Mitty (that's what all Chileans call her) the first international award of the Committee of American Mothers.

There is almost no publicity at-

ached to her work, she dislikes public attention and her secretaries say "she is almost afraid of the press and interviews." She arranged to travel to the United States next week "only because I consider it an honor done to Chile."

One of Senora Mitty's prime interests is the National Christmas Committee, started by the wife of her predecessor some 10 years ago. This group gives Christmas gifts to the children of Chile's poor—\$27,000 toys last Christmas alone. But she has enlarged the scope of the committee to include practical gifts of warm clothes and shoes.

She's concerned about women's rights, too, and founded the Women's Office a couple of years ago. "Chilean laws concerning women were backward," she explained, "and we have put through reforms which the times demanded."

Of all her projects, she admits the one closest to her heart is the Foundation of Emergency Dwellings. Housing is a problem in Chile which only 550,000 dwellings could solve. Senora Mitty found many of the working people live in "mushroom communities" of rude shacks "where people live in promiscuity, filth and utter poverty."

The object of the foundation is to find the most needy families and re-establish them in foundation built homes. So far there are five such settlements in Santiago and

four others in other parts of the country.

At 43, she's a grandmother. Her two daughters are married and have five children. She dresses simply, preferring tailored clothes which best suit her active life. Busy though she is, she finds time to spend with her family.

The President of Chile cannot be elected for two terms consecutively, so Senora Gonzalez Videla will retire to private life following presidential elections in September. However, she plans to keep up her work with the emergency dwellings foundation, since this is a legal entity apart from the government.

New Ideas Aid Restaurants To Gather Business

By SAM DAWSON
NEW YORK, May 7 (AP)—The restaurant business—hard hit recently by television, rising costs and prices, and the big baby crop—is looking for and finding business beyond its doors.

At the annual meeting of the National Restaurant Association in Chicago this week members are reported trading tips on two profitable fields some are exploiting: take-home food service and the coffee break in business offices and factories.

A big pick up in each is reported. Declining sales and profits have spurred promotion of both services. Sales by the nation's eating places last year were off by about one billion dollars from the peak year of 1948, when they topped 12 billion dollars. Now sales are picking up again, members report.

Take-home service is combatting the three chief troubles: 1. TV, which keeps many families home; 2. rising restaurant costs, which prices many families out of eating places; and 3. more babies, which means either hiring a babysitter if you eat out, or taking jumbo along and policing his manners.

The "pay-roll family" offers a prime market for take-home restaurant service, according to Fen K. Duschler, a paper cup firm vice-president, who is pretty interested in the idea, naturally, because his company is a supplier of containers for the food being taken home.

When both the husband and wife work, he says, the family is a set-up for sale of hard-to-prepare dishes around which the wife can assemble a quick and easy meal.

The National Restaurant Association is setting up a committee to study what foods are best for the service. Most restaurant men say it's best to concentrate on entrees, salads and desserts. They say beverages, and vegetables can be supplied easily at home and the patron balks at the paying restaurant prices for them.

It's a high margin of profit business for the restaurant because the take-home food can be prepared during the slack time between lunch and dinner, and carries with it no costs for linen, laundering, dishwashing, or for dishes and silver.

At the other end of the line, catering to the thousands who like to break the morning's work routine with coffee and cakes is fast growing into a big thing around the nation, according to W. F. Williamson, executive vice president of the National Coffee Association.

Mother's Favorite Will Be On Menu

Usually it's the children who gather to honor their mothers on Mother's Day.

But in the T. B. Clifton home the occasion will be one of mother honoring mother.

Mrs. Clifton, the mother of two and the grandmother of two more, will join with her sister, Mrs. Lillian Patton, and other relatives to pay homage to Mrs. A. J. Hilburn, the mother of 11.

Mrs. Hilburn, 80, makes her home with Mrs. Clifton and chances are that she will face the celebration with calm, born of years of similar celebrations.

Mrs. Hilburn's children are Lloyd 84, Lem, Nugent and Chester, all of California, Edwin of Houston, Mrs. Viola Stuercks of Houston, Mrs. Jessie Parker of Corpus Christi, Mrs. Lovene Phillips of Artesia, N. M., Mrs. Patton and Mrs. Clifton.

She also has 32 grandchildren, 22 great-grandchildren and one great-great-grandchild.

Mrs. Clifton is the mother of Dick and Lawrence Clifton and the grandmother of Katherine and Robin Clifton.

Mrs. Clifton is a driller and the couple has been married 34 years. His wife fondly remembers two of her earliest Mother's Day presents bought by her sons after they

were old enough to earn their own money.

One is a cameo ring that she still wears on her little finger. The other is a pin shaped as a wishbone and horseshoe.

Yes, Sunday will be a fine day for mothers. And regardless of whether the mother is 30 or 80 the best present she'll have all day is when the children pause to say "Happy Mother's Day."

Before the week is up Mrs. Clifton will probably prepare one of her mother's favorite dishes, a casserole.

MRS. CLIFTON'S CASSEROLE

Ingredients:
1 pound ground meat
1 onion
1 green pepper
1 cup bread crumbs
1 small can corn
1/4 pound grated cheese
Tomato sauce to taste
Salt and pepper

Method:

Brown the onions and pepper in skillet with small amount of fat. Then add meat and cook until brown. Fill a casserole with a layer of meat, layer of corn. Add crumbs and cheese until dish is full and garnish with more crumbs and cheese. Add tomato sauce, salt and pepper to taste. Sprinkle with paprika. Bake about 20 minutes or until cheese melts.

PINEAPPLE AND DATES COMBINE IN A PLEASING MIXTURE FOR EASY-TO-KEEP BREAD ... the bread is just as delicious 'held over' and toasted as it is eaten right away.

For Special Treat Try Yeast Breads

Every once in a while, through necessity or otherwise, the homemaker gets in a mood to make something for dinner or supper that is just a little bit special—something that will turn a plain meal into a treat.

Come spring housecleaning time, there is always an extra quota of luncheons, showers, picnics and informal parties. It is then that such special thoughts on the matter of food are especially appropriate.

Raisin Bread
When it comes to the subject of sweetbreads to help fill the bill, the homemaker's thoughts instinctively turn to Grandma's raisin bread. But there are many other recipes in this category that meet the double requirement of nutrition and good eating.

Nut bread is versatile, too. The cook may serve it with the main course if she likes, or team it with some of her best preserves for a simple, delicious dessert. Either way, she'll be glad she took the few extra moments to put it together. Somehow, it's one of those things that's always worth the trouble.

There's one thing to remember about nut bread, and with other sweetbreads as well. To be at its best, it must be accompanied by lots of fresh, fragrant coffee. And since no one ever stops with just one helping, there must be plenty of extra cups in the coffee department.

Buttermilk Pecan Bread
1 cup brown sugar, firmly packed
1 egg, well beaten
2 tablespoons melted butter or margarine
2 cups sifted flour
1/4 teaspoon baking soda
1/4 teaspoon baking powder
1/4 teaspoon salt
1 cup buttermilk (or sour milk)
1 cup coarsely broken pecan meats

Add sugar gradually to beaten egg; beat until light. Add melted butter or margarine; blend. Mix and sift dry ingredients; add alternately with buttermilk; stir just enough to blend. Stir in pecan meats. Bake in greased loaf pan (9 by 5 by 3 inches) in moderate oven, 350 degrees F., 1 hour.

Fruit Breads
Fruit breads are next in line of enjoyment, and everyone will like the flavor of this one. Dried fruit—apricots in this case—and whole bran make it a thrifty loaf, too.

The delicate fruit flavor is extended by making use of part of

the apricot liquid in the bread. Slice the bread thin for company sandwiches, and spread with cream cheese. Use it as a breakfast bread, as a luncheon dessert with a bowl of stewed fruit, or for lunchbox sandwiches.

If the hostess is in a showoff spirit, she may use extra apricot halves and nuts for dressing up the top of the loaf. She places these on top of the loaf just before baking. This loaf, as with most quick breads, slices easier on the second day.

Apricot Nut Bread
1/2 cup sugar
2 tablespoons butter or margarine
1 egg, beaten
1 cup sour milk
2 tablespoons apricot juice
1 cup whole bran
1/2 cup chopped nuts
1 cup chopped cooked apricots
2 cups sifted all-purpose flour
2 teaspoons baking powder
1/2 teaspoon soda
1/2 teaspoon salt

Cream together sugar and butter or margarine. Combine egg, milk, and apricot juice; add to creamed mixture. Add whole bran, nuts and apricots. Beat mixture well. Sift together dry ingredients, add and mix well. Put in greased 9 by 5 by 3-inch loaf pan and bake in moderate oven (350 degrees F.) 1 hour. The yield is one loaf.

Bananas are the different ingredient in one of the most delicious homemade hot breads that serves not only to dress up a plain meal, but can be sliced and middled with butter, marmalade or peanut butter for the best lunch sandwich ever.

A "good keeper" because of the moistness of the bananas in the batter, this bread is just as delicious "held over" and toasted as it is eaten right away. Toasting also revives the full aroma and flavor of this delicious bread.

Banana Bran Bread
1/2 cup shortening
1/2 cup sugar
2 eggs (well beaten)
2 cups bran
1/2 cup water
2 teaspoons lemon juice
3 cups mashed banana
3 cups sifted all-purpose flour
1 teaspoon salt
4 teaspoons baking powder
1 teaspoon baking soda
1/2 cup broken walnut meats

Cream shortening; beat in sugar. Stir in beaten eggs and bran. Add water and lemon juice to mashed banana. Sift together flour, salt, baking powder and baking soda; add alternately with banana mixture to batter. Stir in broken walnut meats. Pour batter into two well-greased heat-resistant glass loaf pans, 1-quart size. Bake in a moderate (350 degree F.) oven, for about 1 hour.

Pineapple and dates combine in a similar mixture for an easy-to-keep bread. The recipe makes one loaf.

Pineapple Date Bread
2 cups sifted enriched flour
3 teaspoons baking powder
1/2 teaspoon salt
3/4 cup sugar
1/4 cup shortening
1/4 cup crushed pineapple, drained
1/4 teaspoon vanilla
2 eggs
1 cup chopped dates

Sift together flour, baking powder, salt and sugar into mixing bowl. Add shortening, pineapple, and vanilla extract. Mix well, then beat 2 minutes. Add eggs. Beat 2 minutes more. Add dates and blend well. Bake in greased paper-lined loaf pan in moderate oven (350 degrees F.) 1 1/2 hours. Cool before slicing.

Cheese bread is one of the delights of the world. For a long time, experts have tried to find a recipe for it that can be easily and quickly made. The result is a new cheese bread that slices beautifully, keeps well, and is plain good besides.

There need be no "occasion" to serve this loaf. All that's needed is a big pot of coffee and an admiring family to share its goodness.

Cheese Bread
1 1/2 cups sifted, enriched flour
1/4 cup seedless raisins
1 3/4 cups sifted flour
1/2 teaspoon salt
1 teaspoon baking soda

1-3 cup sugar
1 egg, beaten
1 cup grated sharp cheddar cheese
Pour boiling water over raisins; let stand 5 minutes. Meanwhile, mix and sift the flour, salt, baking soda and sugar. Add raisins and water; mix well. Add egg and greased 8-inch tube pan in moderate oven.

A healthful sweet for the lunchbox is this applesauce cake, with enriched flour as its thrifty base. Raisins and nuts add chewiness. For special occasions, it may be iced and served with coffee.

Applesauce Cake
3/4 cup boiling water
1 teaspoon baking powder
1/2 teaspoon soda
1/2 teaspoon salt
1 teaspoon baking soda
1 teaspoon cinnamon
1/2 teaspoon cloves
1/2 cup shortening
1 cup sugar
1 egg
1 cup unswetened applesauce
1 cup raisins or currants
1 cup chopped nuts

Peanut butter bread is one more nutritious treat that's good for company or lunchbox alike.

Peanut Butter Bread
2 cups flour
1/2 cup sugar
2 teaspoons baking powder
1 teaspoon salt
1/2 cup peanut butter
1 egg, well beaten
1 cup milk

Sift flour, sugar, baking powder and salt. Cut in the peanut butter with a fork. Add egg and milk and stir just enough to moisten all the dry ingredients. Bake in a greased loaf pan in a moderate oven, 350 degrees F., for about 1 hour; or in 7 concentrated 6-ounce frozen fruit juice cans 30 minutes at 375 degrees F.

If you want to whip evaporated milk easily turn it into an ice tray and let it stand in the freezing compartment of your refrigerator until the edges are icy. Then turn it into a bowl, whip with a rotary beater until frothy, add a tablespoon of lemon juice to a cup of the milk, and beat again until stiff, sweetening to taste.

For a late party supper snack serve cold baked ham with a ring of tomato aspic filled with potato salad. As an extra salad you might have a bowl of mixed greens tossed with French dressing. To complete the menu serve crusty rolls, lots of good strong coffee, and small frosted cakes or fancy cookies.

From One Mother To Another ... a cup of coffee is just the thing for that brief break before Mother's Day festivities begin thinks Mrs. T. B. Clifton as she serves her mother, 90-year-old, Mrs. A. J. Hilburn.

Recipe Of The Week

Plan to serve eggs often while they are on the plentiful food list. They are one of the most economical sources of protein.

Peanut butter is rich in proteins and B vitamins. It is quite a concentrated food so combine with other foods to change its texture and to make it more easily digestible.

A tossed salad is a delicious and convenient way to use garden fresh vegetables, or odds and ends of leftover vegetables.

Egg and Peanut Salad
4 hard cooked eggs
1/2 cup peanut butter
1/2 cup mayonnaise
1 tablespoon lemon juice
1/2 teaspoon salt
Dash Tabasco Sauce
Salted peanuts

Cut the eggs in half. Remove yolks, mash and mix the peanut butter, mayonnaise and seasonings. Stuff the egg white with this mixture and serve on crisp lettuce leaf or water cress. A bed of crisp shredded cabbage may be used. A light French dressing is desirable. Garnish with salted peanuts.

For A Treat Butterscotch Pie Is Good

BUTTERSCOTCH PIE
1 8-inch baked pie shell
1 1/2 cups brown sugar
2 tablespoons white sugar
3 tablespoons enriched flour
3 tablespoons cornstarch
1 1/2 cups water
2 egg yolks
2 tablespoons butter
1/4 teaspoon salt
1 teaspoon vanilla
Mix brown sugar, white sugar, flour and cornstarch. Add water and cook until thick, stirring constantly. Add slightly-beaten egg yolks and cook 1 minute longer. Remove from heat; add butter, salt and vanilla. Cool. Pour into baked pie crust. Cover with meringue and bake in a moderate oven (350 F.) about 12 minutes or until slightly browned.

Meringue
2 egg whites
1/4 teaspoon salt
4 tablespoons sugar
1/4 teaspoon vanilla
Beat egg whites until frothy, add salt. Gradually beat in sugar a tablespoon at a time, beating after each addition. Continue beating until stiff and glossy.

Recipe For Pie Crust Is Easy
SINGLE PIE CRUST
1 cup sifted enriched flour
1 teaspoon salt
4 to 6 tablespoons lard
2 to 4 tablespoons cold water
Add salt to flour. Cut lard into flour until crumbs are about the size of small peas. Add cold water, a little at a time, mixing quickly and evenly through flour with a fork until dough just holds in a ball. Use as little water as possible. Roll to about 1/4 inch in thickness. Line 8-inch pie pan. Bake in a hot oven (450 degrees F.) for 8 to 10 minutes.

OAKY DOAKS

OAKY GOT PRINCESS POMONA TO COME OUT OF HIDING IN THE ROYAL DUNGEON, AND NOW SHE IS TELLING ABOUT THE ARRIVAL OF BOOBOO BITTERSWEET...
 IT WAS AWFUL, OAKY! HER MAGIC SHOOK THE CASTLE LIKE A SHIP IN A STORM!
 G-GOSH ALL HEMLOCK!
 I THINK SHE GETS HER POWER FROM HER CAT!
 GEE! THEN I'LL SCAT THAT CAT - OR ELSE -!
 NOW I MUST GO AND SIT ON MY THRONE. BOOBOO!
 SEE YOU LATER, YOUR MAJESTY!
 OAKY! HERE'S YOUR CHANCE!
 YEH!

POGO

TRAMMANNY A GUY ELOV HAS BEATEN POGO'S CANDIDATURE
 HE'S MADE A SPEECH?
 NO, HE WAS TALKIN' TO WITH SOME CHANGES! THE BECON CLAIMS H' BROTHERS POGO'S NAME -
 YES! IT WILL TAKE A MAN O' RE-SPROUGHTS MERT!
 A CRITIC WHO STAYS ABOVE THE CROWD... A FIGURE ADMIRED AND BELIVED BY ALL!
 IT'LL BE HARD TO GET A MAN TO SPEAK UP AND RISK HIS OWN GOOD NAME
 SAY NOT!! THESE ARE TIMES AN' RE-SPROUGHTS MERT! A CRITIC WHO STAYS ABOVE THE CROWD... A FIGURE ADMIRED AND BELIVED BY ALL!
 YOU SURE THAT FIGURE IS UNIVERALLY ADMIRED?

DONALD DUCK

THERE'S A TEN-BUCK DEPOSIT IN CASE Y' KEEP IT OUT OVERTIME!
 OAKY!
 HERE'S YOUR TEN BUCKS, BUT I'LL HAVE HIM BACK IN TWO HOURS!

Looking Up The Law

Judge James P. McGranery (right) holds a law book as he and Sen. Pat McCarran (D-Nev) discuss legal matters in a Senate Judiciary Committee hearing for a second day questioning by senators considering his nomination to be Attorney General. McGranery now is a federal district judge in Philadelphia. (AP Wirephoto).

Belgian Congo Due To See Its First Circus

BRUSSELS, Belgium (U)—Alphonse de Jonghe and his three brothers are going to give the Belgian Congo its first circus. It is costing the brothers \$240,000 and they hope that the natives, paying a minimum of 40 cents admission, will make it a profitable venture.

The circus convoy of 15 heavy trucks and several station wagons will move across the Congo jungle to make its various stops. Two ships and a plane were used in transporting the elaborate equipment and white personnel—30 men and women—to the Congo.

The De Jonghes encountered difficulties in planning a circus for the Congo that no Ringling Brothers ever encountered in the United States.

The Congo governor assigned one of his officers to act as adviser to the circus. Certain rules were established: No abbreviated costumes for white performers; no white clowns to be ridiculed by native actors.

De Jonghe could bring no lions into the Congo. A ban had been in effect because of rabid fever. But the ban has been lifted, and De Jonghe plans to train some young lions on the spot and introduce them into the show.

Every act must be clearly explained. For instance, if a horse is dancing to music a native ballet dancer will perform to the same music.

But there are advantages to showing a circus in the Congo. Because of the dry weather no tent is needed. De Jonghe has a portable open air stadium capable of seating 5,000.

He Only Seeks Little Things

FLEETWOOD, England (U)—John Barnes told the court he just liked to save things for a rainy day. So for 30 years he helped himself to little odds and ends that weren't fastened down.

The detectives who caught up with Barnes as he lifted a shaving mug and towel from a market place pushcart said he found the culprit's bachelor apartment stacked shoulder-high with the loot of 3 years.

Barnes didn't steal for profit, his lawyer said yesterday. He just liked collecting things. He admitted stealing goods worth 374 pounds 15 shillings 4½ pence (\$1,049.25). He was ordered held for medical examination.

THAT'S GOING BIT TOO FAR

SALINA, Kans., May 8 (U)—Claude W. Peters told police a prowler entered his garage and stole two fishing poles and rods valued at \$20. But that's not all—the thief also took a spade from the garage and dug for worms in Peters' back yard.
