KLAN ACTS NOT ILLEGAL, GRAND JURY TOLD

Sober Dies of Wounds

Loser in Battle With Ranger Officers Tells Little of Self.

Earl Sober, alias Johnson, fatally wounded early Saturday night in a duel with Officers Reynolds and L. E. Davenport of the police department, south of the city, died at 11:30 last night at the Clinical hospital. The body is being held at the Milford Undertaking establishment pending efforts to locate Sober's wife and children in Vici, Okla. Two other men, one of them living at the house near Olden where Sober sought assistance on escaping from the officers, are being held at police headquarters for investigation.

The second man was arrested yesterday afternoon in Breckenridge, after Sober had implicated him in connection with the alleged stolen car over which the fight occurred. Sober died last night refusing to add anything to the statement he gave to the county attorney Saturday night, although that official was present just prior to his death and attempted to obtain additional information from the dying man.

Arrested in Fort Worth. According to word received from the Fort Worth police this morning, Sober had been arrested there several times on charge of automobile theft but so far as has been learned here had never been convicted there. The dead man is also said by the police to have been implicated in an attempted bank robbery at Ivan some time ago. He was shot by the officers about 7 o'clock Saturday night after he had been surprised seated in an alleged stolen car hidden in the brush some four miles south of town, just off the old Olden road. He reached for his revolver as the officers came up and replied to a shot from Reynolds' revolver by shooting that officer through the hat.

"I saw them coming—and then it started," was Sober's laconic story of the battle.

Sober escaped in the brush when the officers ran out of ammunition. He was located late Saturday night at a house two miles east of Olden. A pallet was made for the wounded man on the porch of the house and here ambulance attendants found a revolver beside him.

Engine Number Chiseled Off. The engine number of the Ford touring car that was found at the scene of the shooting had been chiseled off and the two license plates bore different numbers. A receipt for payment of Masonic dues was later found near the spot by Mr. Munsey of the Pure Oil company and is expected by the police to aid in locating the owner of the machine.

Two other Ford cars, which the police believe were stolen by a gang of thieves and which were recovered Friday night here are being held. The grand jury which convened this morning will be asked by the officers to make a full investigation of the shooting.

CHICAGO PUG IS DEAD AFTER SALOON BRAWL

CHICAGO, April 10.—Detectives rushed to Melrose Park today on reports that a man named Friedman had been found dead with three bullet holes in his head. According to detectives, the description of the dead man fits William ("Sailor") Friedman, contender for the lightweight boxing championship of the world. Efforts to locate the pugilist, wanted for questioning in connection with a saloon brawl yesterday in which one man was killed and four wounded, have been futile.

FEDERAL TAX UPHELD. WASHINGTON, April 10.—Constitutionality of the federal estate tax as applied to municipal bonds was upheld today by the supreme court. The suit decided was brought by Mary Greiner, administratrix, against the collector of internal revenue at Pittsburgh.

FLOOD AT OKLAHOMA CITY. OKLAHOMA CITY, April 10.—Hundreds of lowland dwellers have been driven from their homes by the high waters of the North Canadian river here. Protecting levees are holding, however, and it is believed that danger has passed, as the water has begun to recede slowly. The water reached a stage about a foot below the big flood eighteen months ago.

HE'S NO KU KLUX!

Says Ranger Cook, Who Admits Knowing Only Three Words of English; Negro Culprit Thinks Court Is Minstrel Show.

For the first time in Eastland county, a witness was asked on the stand this morning if he was a member of the Ku Klux Klan. The question was propounded by Judge Flewellyn of corporation court. No answer was forthcoming—neither was any fine or jail sentence, for his honor was in a gracious mood and the witness was John Varthis, Greek dishwasher who understood no English except "yes," an epithet, name or description which the witness testified, through an interpreter, had been applied to him frequently. The interpreter understood the question as somewhat of a pleasantry; the court evidently felt the same way about it, for the question was not pressed. The spectators settled back against the door jambs and the trial continued.

The trial ended when Frank Brown and Walton Berry, negro porters at the Bernardo hotel, who seemed to find the proceedings very amusing, were fined \$10 and costs and \$5 and costs respectively for an attack on the Greek as the latter left his room in the McCleskey hotel several days ago. The attorney for Varthis, who was charged with previously striking the negro, demanded a jury trial for his client. The court, however, dismissed the charge against him.

L. Theoharis of the Ranger cafe, acting as interpreter and later as a witness, declared that the Brown negro had come to the

restaurant about 3 o'clock one morning and while waiting in the kitchen for an order to take out had put his hand in an order that was being prepared for a patron seated in the restaurant. He had been ordered to keep his hand out of the dish and a quarrel ensued in which the Greek struck him, the witness said.

The negro, Frank Brown, smilingly admitted that he had gone to the McCleskey to "whip the Greek" and had taken the other negro along with him. He admitted to striking Varthis over the head with a stick. The Greek had used one English word and one Greek, he said, in giving him some very uncomplimentary advice in the cafe, and had struck him.

The Berry negro likewise testified to the encounter, but claimed that he went to the McCleskey as a spectator only, although prepared to join in the fray if any of Varthis' countrymen came to his rescue. The restaurant proprietor protested to the negroes' remarks that they did not "whip a white man but a Greek," and declared that in one other instance, Greek employes of the restaurant had not received full justice, but that the assailant of one had been allowed to plead guilty and pay a \$10 fine in justice court for chopping the Greek with a cleaver. The negroes were warned by the court that a repetition of their offense would mean heavy fines.

G. W. CRUTCHER, PIONEER, DIES AT EASTLAND

EASTLAND, April 10.—The funeral of George W. Crutcher, 73, former mayor of East Dallas and well known through this section, who died Saturday morning at his home here, was held yesterday afternoon at 3 o'clock from the residence. The services were under the auspices of the Masonic lodge and attended by a large number of people.

Mr. Crutcher came to Eastland county in 1875 from his home in Kentucky and taught the first school in the county. After residing in this county for some time he moved to East Dallas and in 1886 was elected mayor of that city. When East Dallas was annexed, he was elected alderman on the Dallas board. He later moved back to Eastland county and for many years was engaged in the insurance and real estate business.

He is survived by his wife and six children, Perry Crutcher of Dallas; Tom W. Crutcher, president of the Eastland Rotary Club; Richard Crutcher, also of Eastland; Mrs. Tom Crutcher of El Paso; Mrs. Robert Moore of Chihuahua, Mexico, and Mrs. Richard Barton of Mobile, Ala.

He is registered at a hotel under the name of Van Dyke.

The king's physician announced that he is suffering from acute inflammation of the nerves as a result of his experiences during the war. Complete rest has been prescribed.

Albert and Elizabeth have just returned from a trip to Italy.

ROSES FALL ON TRAIN BEARING BODY OF BECK

Army Planes Join Impressive Demonstration for Slain Officer.

An imposing demonstration by officers of Post field, where Beck was commandant, marked the farewell tribute to their comrade. Showers of red roses were dropped on the train from four airplanes which circled above.

Day was exonerated Saturday by a coroner's jury which found him justified in slaying the officer when, according to his testimony, Day found him in an attempt to assault Mrs. Day. The jury recommended that no charges be filed against Day and County Attorney Hughes is to make final decision in this respect today.

ORANGE FIELD THREATENED AS OIL FIRE RAGES

Oil on Water Menaces Derricks for Miles Along Bayou; Loss Is Heavy.

ORANGE, Texas, April 10.—A serious fire raging in the local oil field threatens to destroy millions of barrels of stored oil, derricks and drilling equipment.

The fire, starting in some unknown manner at a Sinclair well, centrally located, spread immediately and at 11 o'clock had destroyed five rigs. The roaring flames, leaping high into the air, were fed by oil and gas continuously emitted from the Sinclair well. Waste oil on the ground flared up, widening the danger zone. Floating oil on the Cow bayou, in the center of the field, caught fire, threatening rigs up and down the bayou for several miles. Barges also were endangered.

Damage already done will amount to well over \$150,000, at a conservative estimate. Scores of men narrowly escaped injury when the fire spread rapidly. Efforts to stop the blaze so far have been futile.

Four Masked Men, Bearing Fiery Cross, Appear at First Presbyterian.

"If this is what the Ku Klux Klan stands for, there is no American citizen who cannot subscribe to the sentiment in it," the congregation of the Presbyterian church were told last night by the Rev. A. N. Stubblebine after he had been handed a letter by four klansmen who entered the church during the singing.

The entrance of the klansmen was preceded by the darkening of the building, the lights being turned off from outside the building. The four robed klansmen, the first bearing a fiery cross of tiny electric globes, and the second bearing a letter commending the stand of the minister for a cleaner city, marched up the aisle as the singing was suspended; handed the communication to the minister and then filed out. The lights flashed on again a few seconds after they had left the building and disappeared.

As in the communication delivered at the Christian church a week previous, the Knights of the Ku Klux Klan "forceably denounced mob violence in any form whatsoever and will do all in our power to prevent same."

"Give us men, men whom the lust of office cannot kill, men whom the spoils of office cannot buy, tall men, uncrowned men. Men who will not lie. Behind the Christian ministry of Eastland county stands 1,000 red-blooded American men. Be assured that we heartily endorse your stand for righteousness, good government and law enforcement," the letter said.

The laxness of officers in their official duties is denounced by the klansmen in the communication and the minister commended for his recent statement that "if the police officers of Ranger and the police officers of Eastland county would enforce the law without fear or favor, law violation would be stamped out. The principles of the Klan are set forth as in the previous letter. The communication was written on the official stationery and bore the official seal of the Klan.

Pentecost.

INVESTIGATION ISN'T NEEDED, JUDGE'S VIEW

Calls Attention to Lack of Confidence in County Officials.

EASTLAND, April 10.—The Ku Klux Klan of Eastland county was to all intents and purposes given a clean bill of health this morning by Judge George L. Davenport of the Ninety-first district court, in charging the grand jury which convened this morning. The court declared that no acts of the Klan had so far been called to his attention that would "justify or authorize criticism from the court as long as the organization or kindred organizations are willing to assist the officers of organized government in the enforcement of the law." If the organization commits unlawful acts it should receive public condemnation, he said.

In view of the parade of klansmen at Gorman several weeks ago, the statement of the court is taken to mean that Judge Davenport does not agree with the opinion handed down by the attorney general's department last fall to the effect that parades of klansmen in regalia were unlawful.

The court further declared that while he was not called upon to express his personal opinion, that the principles of the Klan as announced met with his approval although he did not believe that the members of the organization should conceal their identity.

In referring to the shooting of Earl Sober by Ranger officers Saturday night the court told the jury that the shooting appeared to be justified, as the officers were apparently acting in the protection of property.

Lack of Confidence. In the course of his charge, the court stated that there appeared to be, whether well founded or not, a lack of confidence on the part of the public in the officers and constituted authorities. He told the grand jury to investigate crime wherever it was found; that no favors would be shown office holders or anyone else. He told the jury that they would be given the co-operation of the court in every way. Following the charge the jury was dismissed to convene again at 1:30 o'clock this afternoon.

The jury is composed of the following: Lew White, Cisco, foreman; J. E. T. Peters, Ranger; A. G. Jury, Ranger; Ben Reed, Gorman; Calvin Browne, Eastland; Joe Raborn, Ranger; Jack Williams, Eastland; I. N. Hart, Cisco; John Garrett, Cisco; J. T. Harris, Rising Star; M. V. Crossley, Carbon; J. T. Coppedge, Eastland.

IRISH UPRISING SCHEDULED FOR EASTER SUNDAY

LONDON, April 10.—The spectre of open rebellion in Ireland during Easter week, similar to that of 1916, was raised in the house of commons this afternoon. Many questions were hurled at the government bench concerning the uprising which is said to be scheduled for Easter Sunday or Monday.

Winston Churchill, who replied for the government, merely said the British government would not agree to any Irish republic.

INJUNCTION AGAINST MINERS. SEIZED ALIEN PROPERTY

CHARLESTON, W. Va., April 10.—One of the most drastic injunctions against labor in recent years was handed down by Federal Judge McClintic here today.

TELLING THE TIMES.

Some time ago, the Times printed a request for aid from its readers in obtaining news of local happenings. The response was immediate and highly gratifying. For several days information and "tips" poured in and several of the best stories of the day may be laid to interest shown by friends of the Times.

As is natural, however, this request slipped the minds of readers after a few days; for one does not normally think of doing things outside his own routine, however much he would be willing to render service.

Therefore, the Times again makes the same request: If you hear of anything happening, let the Times know. By this co-operation on the part of readers, the paper will thus be able to more fully fill its mission of telling Rangerites what is going on.

Just remember this: What interests you will also interest others.

DALLAS KLAN WON'T DISBAND MAYOR IS TOLD

DALLAS, April 10.—The Dallas Klan sees no reason why it should disband, according to a statement sent to Mayor Aldredge following the Klan meeting and initiation at the coliseum Saturday night. The Klan was recently asked to disband by the mayor in a public statement.

The communication also stated that the Klan is also willing to discontinue masked parades; that it upholds the constituted government; is against all forms of law violation and is willing that a committee of non-Klansmen, the personnel of which it suggests, to attend a meeting of the organization and observe all the secret work, provided that the committee will give their word not to reveal it unless it is of an unlawful nature. Catholic, Jewish and Protestant bishops are suggested as members of the committee. Reference is also made to the charitable work of the Klan, which, it is pointed out, raised \$40,000 for Hope cottage, an institution for unfortunate children.

Nearly 4,000 men, many of them from out of town, attended the Klan meeting and the streets for blocks around were lined with cars. Two hundred or more people were standing in front of the building at one time and cars filled with others drove repeatedly past during the meeting.

Police quieted a disturbance in front of the building when a newspaper man and another man engaged in a fight in which several blows were struck.

ANCIENT CHINESE IDEOGRAPHS FOUND ON IDAHO LAVA ROCKS

BOISE, Idaho, April 10.—Symbols and signs chiselled, it is believed ages ago, were discovered recently on lava rocks in a remote section of Owyhee county, southwestern Idaho.

Many of the inscriptions bear striking resemblance to Chinese alphabet characters of today, it was said, although archaeologists say they may be anywhere from 400 to 30,000 years old.

Two distinct types of carvings, ideographic and pictographic, have been noted. Archaeologists believe the ideographic antedates by many years the pictographic. Both systems have been found together on one rock and near them can be discerned what appears to be a third system, supposed to antedate both of the others, but which has weathered beyond possibility of deciphering.

Resemblance of many of the inscriptions to the characters of the Chinese alphabet, was taken by some to substantiate the theory that the North American natives descended from a race which came from Asia by way of Bering Straits.

Indians now living in Idaho, when questioned regarding the carvings, say the more modern or pictographic are the work of their forefathers, but they assert the others to be the work of spirits.

SCIENCE TO REVEAL PROPER VOCATIONS

CHICAGO, April 10.—Science is making rapid strides in perfecting means of informing boys and girls how their talents trend and along what lines their paths of success will lie, according to an announcement from Northwestern university, telling of mental alertness and vocational tests that have been made.

As the result of one test an orchestra of twenty boys and girls from the public schools of Evanston, a suburb, has been formed. The pupils were selected by means of machines for detecting their musical ability.

Special instruments recorded rapidly of motion, pitch, appreciation of harmony, visual and auditory reactions to a fine degree, the announcement stated. One simple instrument to determine the time between the receipt of a stimulus to action and the action itself was the invention of Dr. Walter Dill Scott, president of the university, it was stated. Professors Osburn McConathay and Elmer E. Jones have perfected certain of the means used, and they assert the psychological tests that have been given to indicate the great advance toward predetermination of vocational inclination.

"The day is coming," President Scott said, "when, by mental alertness and vocational tests of this type, the boy and girl will be able to learn before they have finished high school exactly how their talents trend."

CHICAGO CLAMPS LID ON WOMEN GAMBLERS

CHICAGO, April 10.—"Ladies night" is under the ban in Chicago.

Police captains scoured their districts in search of women's poker parties, following a raid in which several women were arrested while playing "dollar limit" poker.

Mrs. Minnie Mysewski was to appear in court on charges of being the 'hostess' of the game.

Orders to clamp down the lid on women gamblers followed the raid on Mrs. Mysewski's apartment and the holdup of poker players in the home of Mrs. Julia Magden which netted \$5,000.

SAND STORM STOPS BUSINESS AT BRECK

BRECKENRIDGE, April 10.—This section of Central West Texas is being swept by the most severe sand storm of the year. Business is almost suspended.

MAGNETO INVENTOR SUES HENRY FORD FOR ELEVEN MILLIONS

MIAMI, Fla., April 10.—Damages in the sum of \$11,000,000 are sought of Henry Ford by Edward S. Huff, Miami electrical engineer, in a suit initiated here. Huff says that he originated the magneto now in use on motor cars manufactured by Ford, and contends that Ford has not paid him in full for the invention.

Huff says he holds the patents on the magneto used on all motor equipment manufactured by the Ford Motor company, of Detroit, and asserts that he has been paid only \$10,000 in royalties on his patent.

According to Huff's counsel, Huff was employed in the Ford plant in 1908, as an electrician, and it is asserted that Ford told him in the presence of Dr. W. E. Sanborn, of Detroit, that he wished Huff to invent a magneto which could work on a fly-wheel, adding that such an invention would make Huff a rich man.

Huff thereupon left Ford's employ, went to work on the invention, and finally perfected the magneto now in use, his counsel says.

SCHOOLS TO CONVERT LEFT-HANDED CHILDREN

DETROIT, April 10.—In an effort to eliminate "left handedness" among school children in the city, T. J. Knapp, superintendent of schools at Highland Park, a suburb, has ordered that a census be taken to learn which of the children use their left hands in preference to their right. Following the census the left-handed children will be taught to write with their right hands, it is announced.

"The world is much more conveniently arranged for the right-handed persons," Mr. Knapp said in explaining his action.

The superintendent scouts the theory that left-handed persons are in danger of stammering in their speech if they are "made over" into right-handed persons.

"There is no evidence to support this theory," he said. "No persons should be left-handed. It is an inconvenient habit."

TARRANT GRAND JURY FAILS TO INDICT MOB SUSPECTS

FORT WORTH, April 10.—The grand jury has refused to indict the four men held for the lynching last winter of Fred Rouse, packing house employe, who was taken from the hospital after he had been injured by a mob, and hanged. One of the men, G. H. Tiller, was elected chief of police at Niles City Tuesday.

THE WEATHER.

West Texas—Tonight fair, colder in east portion, probably frost except in southeast. Tuesday fair.

NO MARKET FOR SMALL AMOUNT OF COAL MINED

WASHINGTON, April 10.—Production of bituminous coal in the United States dropped to 3,500,000 tons—the lowest in modern coal history—while work in the anthracite fields "ceased entirely" during the first week of the coal strike, according to a review of the industry issued today by the United States geological survey.

Reports received by the survey indicated that from 60 to 65 per cent of the bituminous tonnage of the country has been closed down by the strike while of the remainder "a significant portion has not been operating recently for lack of demand."

Bituminous coal production the first week of the coal strike was estimated at slightly under 4,000,000 tons by the National Coal association, which declared that while this tonnage was below the capacity of the non-union fields, the only reason for the restricted production is to be found in the inability of the operators to find a market for their coal.

SIBERIANS YIELD TO JAPANESE DEMANDS

TOKIO, April 10.—Indications today were that the Chita government of the Far Eastern republic had yielded to all the demands made upon it by Japan. Official announcement has not yet been made. The Japanese troops are to be kept in Siberia until after the Genoa conference, however.

HUNTINGTON, Pa., April 10.—Emerging from a mental haze, Dr. Herbert Bryson was horrified today when informed by police he was accused of killing his young wife at Cassville, near here. After exhaustive questioning of

THE MERRY JOURNEYS OF MARY JANE Mary Jane Gives A Party to Her Little Friends "Oh, they were having a good time. They made a lot of golden brown pancakes served with Mary Jane Syrup."

ONE night, Mary Jane invited all her little friends to a wonderful party. Dotty Dots, the turtle, came up out of the mud and got one of his feet frostbitten before he got to where the nice warm fire from the hearth threw its glow to the inside of the room. Billy Bushytail and his wife, Maria, came along with lots of pecans. And Billy Stinger, the porcupine, sat right alongside the fire where nobody could push against him. All of Mary Jane's little friends came and brought their jews-harps and accordions and bass drums. And Kammer Kammenzind, the forest shoemaker, came to beat time with his little shoemaker's hammer. They sang "Way Down Upon the Swanee River" and "Dixie" and "Old Folks at Home" and "Carry Me Back

to Old Virginia". And Dotty Dots, the turtle, gave a toe dance. Then they made a lot of golden brown pancakes served with lots of Mary Jane Syrup on them. And when this was all gone they got five loaves of bread and cut them into nice thick slices, toasted them, and then they spread Mary Jane Syrup all over them. And how they smacked their lips over that. Because Mary Jane Syrup, as you know, is the most de-li-cious syrup even fairies ever tasted. And then they shook hands with one another—all except Billy Stinger—and kissed each other good-night and went home. And to this very day Mary Jane remembers the wonderful party she had with all her little friends of the woodland. BRITAIN AND GERMANY MAY JOIN HANDS AT GENOA ECONOMIC MEET

FACTA WELCOMES DELEGATES. GENOA, April 10.—The economic conference was opened formally this afternoon in the historic palace of St. George by Premier Facta of Italy. Agreement was reached among the delegates that Premier Facta be elected president of the conference and Signor Schanzer vice president.

interests for loss which has been caused through the confiscation of property and establish legal punishment to assure the impartial execution of all commercial or other contracts. If the Russian government claims official recognition the allied powers will accord the same only upon acceptance of the foregoing stipulations.

GENOA, April 10.—Representatives of more than forty nations, including Russia but minus the United States, are here today prepared for the opening of the Genoa economic conference, regarded as the most momentous assembly since the Versailles deliberations. All eyes are upon Russia, for it is the first time this great nation has participated in world affairs since the overthrow of Kerensky's provisional government in the spring of 1917. After more than four years of experimental government, Nikolai Lenine, Russian premier, has abandoned much of what he previously considered essential to Bolshevism and has consented to participate in a conference called by "capitalistic nations."

WASHINGTON, April 10.—The bill to provide a score more of federal judges, advocated as a measure to relieve congestion in the federal district courts and a political patronage "poor barrel," has been passed by the senate and sent to conference with the house. On reconsideration the senate struck out Senator Frelinghuysen's amendment for another judge in New Jersey and adopted without a record vote Senator Fletcher's proposal for an additional judge for the southern Florida district. The senate on a second vote reversed its previous action and agreed to give an additional judge for the district of New Mexico under an amendment proposed by Senator Bursum, Republican, of that state. The vote was 33 to 26.

On the ground that the gathering will be political rather than economic, the United States has declined Italy's invitation to send representatives. The American people, Secretary Hughes said in declining the invitation, are anxious to assist Europe in recovering its economic life but feel that they cannot involve themselves in European politics. Germany, represented in a passive capacity in nearly all European conferences since Versailles, is expected to play a more active part at Genoa. Many observers even go so far as to predict that Great Britain and Germany will dominate the assembly by working hand in hand for the salvation of their industrial lives through the resurrection of their markets in the east and south.

The senate on a second vote reversed its previous action and agreed to give an additional judge for the district of New Mexico under an amendment proposed by Senator Bursum, Republican, of that state. The vote was 33 to 26. The provision for another judge for New Jersey finally was restored to the bill on a redecision, moved by Senator Curtis, Republican, Kansas. The vote putting the amendment back into the bill was 39 to 22. The senate adopted without a record vote an amendment by Senator Dial, Democrat, South Carolina, requiring federal judges to devote their time to their duties and prohibiting them from engaging "in any other employment" for compensation.

Briefly, the conference will seek to accomplish some means for the granting or extension of foreign credits to the most feeblest countries and will then attempt to set up machinery for assuring such foreign capital that the fruits of its investment will not be lost. The resolution calling the conference sets forth that the nations of Europe cannot presume to dictate to one another the principles under which they must conduct their internal affairs but adds that foreign capital cannot be expected to come in unless the nations recognize all obligations and public debts previously contracted or to be contracted in the future, agree to indemnify all foreign

PROVIDENCE, R. I., April 10.—On evidence that Lowell Sherman, film star, had left his wife in destitute circumstances although he was earning \$1,000 a week, Judge Barrows in the superior court granted a decree of divorce to Evelyn Booth Sherman. Mrs. Sherman was given permission to use her maiden name, Evelyn Booth. The case was heard on depositions, neither of the parties being present in court. Mrs. Sherman in her deposition, said her husband was very cruel to her—that he often struck her, leaving marks on her body, and that he used abusive language. Sherman did not contest the case.

ALL-NEW TYPE BEING PLACED IN TIMES JOB SHOP

"The best printing office in West Texas," is the Times' ideal for Ranger. For that reason, it has ordered an entirely new assortment of job type, borders and rules, with a view to harmony of faces for any kind of work, and with a complete assortment of sizes. The new equipment is now arriving, and as it comes, the Times is junking its old type, although this latter itself is in first class condition, the equal of any assortment in this section. In addition to a completely new assortment of type in this department, the Times has recently obtained Mont Somes, known in printing circles throughout the state as one of the most expert in the business, as head of the job department. Mr. Somes was with the Hill Office Supply company here for more than a year. Between the excellence of workmanship and the quality of material, the Times is now in a position to say without boasting that the products of its job department can be excelled nowhere and equalled by few. This statement applies not only to commercial printing but to social and fancy stationery as well. The new equipment includes rules, borders and the like and the Times is in a position to handle any ruled form, no matter how complicated.

CLOTHES CATCH IN ENGINE; MAN SERIOUSLY HURT

J. W. Hanks, an employe of the Crystal Water company, is at the Ranger General hospital seriously injured as the result of an accident Saturday afternoon at the company pump house. Hanks' clothing is said to have been caught in the fly wheel of the engine and the man hurried around twice before his feet struck the battery and broke the connection. He was pulled from the engine, after it had stopped, by several children who summoned aid. Three ribs were found to be broken and his head badly battered following an examination at the hospital. He is expected to recover.

ARNOLD DEAD AFTER FRUITLESS SEARCH FOR MISSING DAUGHTER

NEW YORK, April 10.—Funeral services for Frank R. Arnold, father of Dorothy Arnold, whose disappearance twelve years ago brought about a worldwide search, will be held today. Arnold, who never ceased searching since the day his daughter left home, ostensibly to go on a shopping tour, died at the age of 86. Intimate friends of the family attribute his death in part to grief and the strain of his untiring search. No word as to whether the search would be continued could be obtained at the Arnold home. It was said by a friend, however, that Arnold was convinced shortly before his death that his daughter was dead.

RANGER MAN TAKES WEATHERFORD BRIDE.
A boy and girl romance that began in the early days of the oil boom in this county, culminated in the wedding of Ted Dreinhofer, son of Mr. and Mrs. Fred Dreinhofer of Ranger, and Miss Winifred Barker, daughter of Mr. and Mrs. R. B. Barker of Weatherford, Saturday night, at the First Baptist church in Weatherford, Rev. M. E. Weaver of that church officiating.

The church was very beautifully decorated with cut flowers and potted plants. The bride's sister, Mrs. D. C. Motley of Dallas, served as matron of honor, and Warren Smith, a former Ranger man, acted as best man to the groom. Mrs. Frances Carroll sang "I Love You Truly," and Miss Juanita Jones played the wedding march. Those witnessing the ceremony were the most intimate friends of the bride and groom, who after the ceremony followed them to the T. & P. station, where the young couple left for Ranger, accompanied home by the groom's parents, Mr. and Mrs. Fred Dreinhofer, and Warren Smith.

Mrs. Dreinhofer was married in a blue taffeta going away gown, with hat to match. Mr. and Mrs. Dreinhofer are both well known to Ranger folks, as Mrs. Dreinhofer has visited Mr. Dreinhofer's parents here several times, and they count their friends here and in Weatherford by the scores.

Mr. and Mrs. Dreinhofer are now keeping house at the McElroy apartments.

Webb performing the ceremony that made their man and

wife, Miss Mavis Douglas sang "At Dawning," and Miss Geneva Armer played Mendelssohn's wedding march. Only a few intimate friends of the bride and groom were present. Mrs. Latham's home was in Valley Mills, prior to her coming to Ranger. Mr. Latham is now located at Goose Creek, where he is doing construction work for the Humble company. When in Ranger he was with the Walsh & Burney company, who were the builders of the Gholson hotel and the Hodges-Neal building here.

MONTE CARLO HIT!
By Associated Press.
PARIS, April 10.—Monte Carlo casino stock is dropping on the stock exchange and the company is considering passing or reducing its dividends. It is said the croppers have not raked in bank notes at the roulette and baccarat tables fast enough to meet the high cost of fast living. The casino's percentage of profit have remained unchanged, it is claimed, while everything else has gone up. Its dividend, if any is declared, will be only 5 per cent of the book value of the stocks.

Monte Carlo is not the only resort to be hard hit. This season also has been dull at other similar resorts along the Riviera.

PRINCESS MARY WILL HAVE SEAT IN LORDS

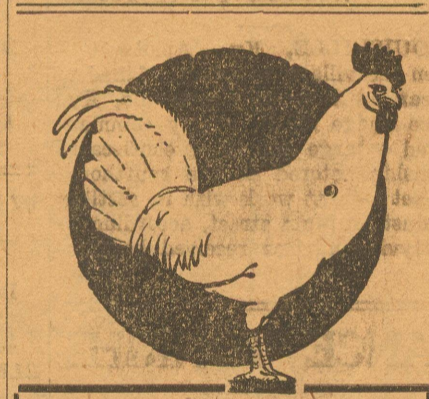

LONDON, April 10.—Though Princess Mary will never rule the British empire, because of her marriage out of royalty, she may have a seat in the house of lords.

The decision of the privileges committee of the house of lords to grant a seat to Lady Rhonda has led to consideration of the possibility of Princess Mary ascending to a seat in that dignified legislative body.

King George is expected sooner or later to bestow a peerage upon Princess Mary in her own right, as he has given peerages to his sons. With such a peerage the princess would be entitled to a seat in lords. Whether she would care to occupy this seat is quite another matter. This English girl, who has been the toast of London for the past three months, is of a shy and retiring nature. Like her mother, the queen, she cannot be described as a progressive in this day, when some of the women of England are affecting canes, monocles and cigarettes.

Taste is a matter of tobacco quality

We state it as our honest belief that the tobaccos used in Chesterfield are of finer quality (and hence of better taste) than in any other cigarette at the price.

if nature could speak she would say:—
I have provided the only real tonic for Spring
to cleanse your system of the stagnant waste of winter, purify your blood and bring to you that glorious feeling of perfect health:
—and it is S. S. S.

SPRINGTIME is the season when Nature intends all living creatures to be charged with new life and energy. But you cannot enjoy the glorious feeling of renewed strength and vigor if your system remains clogged up with the impurities which have accumulated during the winter.

At this time your blood is overloaded with stagnant waste; you are drowsy; you hate work and you are denied that irresistible energy and enthusiasm that made every moment of your childhood days bubble over with happiness and the joy of living.

Nature's Warning
This tired feeling is often accompanied by disagreeable symptoms such as boils, pimples, rashes, eczema or rheumatism. You call it Spring Fever; but that is only Nature's way of saying—Cleanse Your System. And, just as Nature has provided everything else for our comfort and well-being, so She has given us the only really effective remedy for this draggy, let-down feeling.

Ninety-six years ago these wonderful vegetable herbs, roots and barks, of which S. S. S. is composed, were found to possess remarkable power to purify the blood, eliminate skin eruptions, strengthen and aid in supplying every cell and tissue with the rich, red nourishment that is so necessary to vigorous life, health and happiness. Then it was that Nature's own great remedy for Spring fever was given to us in the form of S. S. S.

And ever since, S. S. S. has gone on converting hundreds of thousands of tired, worn-out, run-down people into strong, healthy, red-blooded men and women with the power and capacity to accomplish things and to enjoy the beauties of Nature and the happiness of life to the very fullest.

Do not be fooled into taking compounds, such as metallic iron, etc. These minerals crash into the system, attack the delicate tissues and oftentimes leave you in worse shape than before.

Nature Intended A Vegetable Remedy
Always insist upon S. S. S. for this wonderful vegetable tonic is the remedy Nature has intended for you. The soothing, healing powers of the vegetable ingredients first cleanse and then tone up the entire system without one particle of distressing after effect.

S. S. S. overcomes your tired, drowsy feeling in a natural, easy way and without the slightest harm to the most delicate membrane of your body.

S. S. S. brings you back to where you feel like a new person; you walk with a spring in your step, a sparkle in your eye and with perfect health radiating from every pore of your skin.

Don't be cheated out of your natural Spring-time heritage. That wonderful feeling of new-born energy, life and strength is yours! Simply go to your druggist and get a bottle of S. S. S. now, today.
