

## THIRTY-SIX MISSING AT FORT WORTH

### FLOOD MAKES 300 HOMELESS AT EASTLAND

Leon River Cuts Tracks of Texas & Pacific and Enters Houses.

Special to the Times.

EASTLAND, April 26.—Three hundred people are homeless today, the majority Mexicans and negroes, as the result of the high waters from the north and south forks of the Leon river. Approximately 150 persons were given breakfast and dinner today by the Salvation Army, who hurriedly turned their meeting hall into a dining room last night when reports of the flooded sections were received. About 150 Mexicans and negroes spent the rest of the night in the city hall, where temporary quarters were provided for them.

The waters of the south fork of the Leon river are still rising as the result of the heavy rains at Cisco last night, and a number of homes in the south part of the city are completely submerged. The north fork of the river, after washing under the Texas & Pacific tracks at the depot and flooding the negro and Mexican section and a portion of the white residential section, is stationary.

Several feet of water is pouring over both spillways at the Lake Eastland dam and the water at noon today was within five feet of the top of the dam.

**Relief Funds Raised.**  
Knights of the Ku Klux Klan here contributed \$50 to the Salvation Army relief fund for the care of the refugees and \$282 was collected on the streets this morning by Judge E. A. Hill of the Eighty-eighth district court, and Robert D. Gordon.

Three hundred feet of the Texas & Pacific track west of Eastland were washed out. Five hundred yards of the Katy tracks at Mangum were also washed out, it is reported.

The Mexican and negro inhabitants were awakened and routed from their homes with great difficulty by the police last night. In other sections of town, particularly in the south section, many families were removed in automobiles after the water had completely surrounded their homes. Most of the families in the flooded areas were warned of the rising water and made their way to higher ground without assistance.

The property damage here cannot be estimated at this time.

### PROMINENT MEN IN MASKED RAID AT LOS ANGELES

By United Press.

LOS ANGELES, Cal., April 26.—District Attorney Thomas Woolwine is prepared to secure the indictment of many prominent citizens who are members of the whitecap raiding bands in Los Angeles county.

The grand jury will be asked to investigate the night riding situation as a result of the coroner's verdict in the case of Constable M. B. Mosher, slain during a whitecap raid at Inglewood Saturday. Mosher is alleged to have been a member of the raiding party. The city council has before it measures to prevent the wearing of masks by any organization.

**QUAKE IN JAPAN.**

TOKIO, April 26.—Heavy earth shocks, centering around Tokio, occurred at 10:15 this morning. Considerable damage was done to buildings and contents.

### ORGANIZERS OF NEW CHAMBER OF COMMERCE MEET TONIGHT

The organizers of the New Chamber of Commerce here will meet tonight at the Cholson hotel to complete the final plans for the membership drive to be held this week. All merchants and business men of the city are to be visited and solicited for monthly subscriptions for the new organization, which is being organized along new lines and free from any liabilities of the old chamber of commerce. The need of a chamber

### FATIMA, WE SALUTE THEE

CONSTANTINOPLE, April 26.—A Turkish woman has been given the rank of lieutenant in the nationalist army, earning her promotion in action against the Greeks, says an Ankara dispatch. This is the highest rank ever held in the Turkish army by a woman. Fatima, the lady in question, was a corporal when she led a patrol composed almost entirely of women in an attack on the enemy's rear and returned with twenty-five prisoners, including an officer.

### CITY WILL FILE SUIT TO REMOVE SAFETY MENACE

Various Interests Pass the Buck on Commercial Hotel Building.

Suit will be instituted by the city at once to require the persons interested in the old Commercial Hotel building on Main street to put the ruins of the building, twice gutted by fire, into a safe condition. A motion to this effect by Commissioner Terrell was carried unanimously by the city commission yesterday, following the reading of an opinion from the city attorneys, advising against the city taking any summary action to wreck the ruins without first filing suit, because of the varied interests in the ruins of the building and in the ground.

The ruins have been condemned on several occasions, last winter by an inspector from the state fire marshal's office and later by a committee of contractors and carpenters appointed by the commission to make an inspection of the building. It was recommended that the front of the building be partially torn down to remove the menace of the weakened walls. The east side of the building, made of metal lath and plaster, was partially torn down several weeks ago by tenants in adjoining buildings.

**Title in Litigation.**  
The ground is owned by J. L. Halbert of Corsicana, who in the opinion of the city attorneys, is not responsible for maintaining the safety of the building, which was constructed by C. J. Harper and W. C. Barnes on a long-time lease. Following the two fires, the insurance company refused to pay the insurance, contending that the building was not irreparably damaged and offering to build it back. The ruins of the building are now involved in litigation.

The commission took up the matter of a city depository and decided to ask for sealed bids from the two local banks on interest-bearing deposits of the city.

The alley through the school property on Marston street, where the new high school is to be erected, was closed by the commission. No action was taken on the proposed addition of a motorcycle officer to the police department, nor was the matter discussed.

### FRENCH RESIDENT'S DEATH IS PLOTTED

By Associated Press.

TUNIS, April 26.—A plot to assassinate President Millerand of France upon his arrival here was unearthed today. Four communists have been arrested.

### City After Rate Cut on Water, Lights, Gas

Customers Too Scattered, Objection of Public Utilities Companies.

Gifford Clegg, manager of the Oil Cities Electric company here, and M. H. Hagaman, one of the owners of the Ranger Water company, were on the grill yesterday afternoon at the city commission meeting, in an investigation into the conditions of the two companies, looking forward toward a reduction in water and lighting rates here. Representatives of the gas company failed to appear before the meeting. No definite action was taken by the commission, the meeting adjourning at 7 o'clock following the argument of manager Clegg against any reduction in domestic rates at this time.

At the present time, Mr. Clegg stated, the company is losing money on the domestic consumers because of the fact that the consumers are so widely scattered over the town and so much equipment has to be used to reach them. The Oil Cities Electric company is purchasing current from the Oil Power company's plant on Leon river at a cheaper price than it could be generated here for, but the distributing company could not make a general reduction until the generating company had lowered rates, he said.

He declared that the Oil Cities Electric company, while capitalized at \$1,500,000, had an investment of \$2,270,000 throughout this section, made largely on borrowed money and that the company has been losing money each month. The equipment at Ranger, he explained, was installed to take care of 3,500 consumers, but the company has only a little more than 600 consumers on its books. The unavoidable transformer loss on domestic consumption prevents the company from making any money at the 20-cent rate, he said. The Ranger domestic rates, he said are cheaper than the rates in effect at Eastland or Breckenridge.

In reply to questions by the commission, the company's representative said that all of the better class houses in Ranger, with a few exceptions, are using electric lights, and that the company could not afford to install lights in the numerous two-room shacks because of the small amount of current used. The gross income of the light company here last month was given as \$9,800, with an operating expense, including the purchase of current, of approximately \$6,000; the expense not including depreciation and interest on the borrowed capital. The examination into the electric company was continued.

Mr. Hagaman said that the water company was in the same position of the electric company in respect to the cost of distribution, because of the wide separation of the consumers. Many of the water mains, he said, run for long distances without one consumer. He was of the opinion, that a cheaper rate should be in effect for water for lawns and gardens, but he explained that a plan to put this into effect had not been worked out. To be able to do business at lower rates, the company needs more consumers, he said.

Both the water company and the electric company were warned against decreasing the rates by increasing the monthly bills. Because of the lateness of the hour the hearing was continued until the next meeting of the commission.

### PUBLISHER OPPOSES FORTY-FOUR-HOUR WEEK

NEW YORK, April 26.—Placing the full weight of the American Newspaper Publishers' Association against any effort to introduce the forty-four-hour week in the newspaper shops, declaring that there cannot be any reduction in the newspaper advertising or subscription rates at this time, President Williams of the Pittsburg Press, today asked members of the annual convention to eliminate any waste in the newspaper plants over the country and to back the apprenticeship school movement in order to prevent any shortage of skilled help in the newspaper plant.

### Lawyers to Probe Criticism of Judge

Special to the Times.

EASTLAND, April 26.—"I can hardly understand how any man who has so conducted himself in life as to reach the position of a state district judge could ever persuade himself to do such a thing."

"Of course this court would not want to indulge in the presumption, or rather reach the conclusion, on an ex-parte hearing that the district judge acted corruptly in this matter. And yet it is apparent on the face of it that the judge was exceeding any rightful authority that he had."

**Lawyers to Investigate.**  
This and other criticism of District Judge George L. Davenport of Eastland county was made by Federal Judge Wilson recently in the order referring to Governor Neff the matter of the release of three federal prisoners held by Prohibition Agent Bendy, by Judge Davenport on writs of habeas corpus, is to be the subject of resolutions at the meeting of the Eastland County Bar association next Friday afternoon. At a meeting Monday afternoon a committee was appointed to investigate the facts and submit resolutions "concerning criticism which has recently been

published in the Fort Worth Star-Telegram, on, to-wit: April 20." The account referred to contained a brief summary of Judge Wilson's remarks. The committee is composed of Chairman D. G. Hunt, Eastland; John D. McRae, Eastland; H. P. Brelsford, Eastland; County Attorney Ove Overson, Ranger; Will Evans, Ranger; J. Curley, Cisco; B. W. Patterson, Cisco; and Frank Judkins, Eastland.

**Zweifel Reviews Case.**  
The remarks of Federal Judge Wilson followed a motion filed by United States Attorney Zweifel setting forth that the three prisoners arrested by Prohibition Agent Bendy for violation of the prohibition law had been released by Judge Davenport without bond, during the absence of the federal officer from Eastland, and asking that some action be taken to prevent other federal prisoners placed in the jail from being released in a similar manner.

All concerned were informed, the district attorney stated, that the prisoners had been placed in jail by Bendy and that the officer would return to Eastland at 6 o'clock on the

(Continued on Page Two).

### HAMON LINE GIVES CONNECTIONS WITH OUTSIDE; T. P. STILL TIED UP

Washouts Between Eastland and Cisco Stops Trains From West; Katy Reported Washed Out Near Mangum; May Be Days Before Service Can Be Resumed.

The first train out of Ranger will leave tomorrow morning at 8:24 over the Hamon line for Dublin, where connections can be made over the Frisco to Fort Worth and points north and northeast, and over the Katy to Houston, Galveston and points south, it was announced this afternoon by B. C. Morgan, local freight and passenger agent of the Hamon line. The regular schedule of the road was smashed early this afternoon when 200 feet of track was washed out three miles south of Breckenridge. Several hundred feet of track is also reported under water in that section.

The first train into Ranger today will come from Dublin over the Hamon line, arriving here at 4 o'clock. No return trip can be made until tomorrow and other trains are tied up at the Breckenridge end. All rail connection between Breckenridge and Ranger is cut off for twelve hours at least, it was stated at the dispatcher's office. Road officials explained that no crew was available to take the train from the south back to Dublin tonight and that on account of conditions, a night run was not desirable.

**Washout to West.**  
All traffic over the Texas & Pacific here from the west was cut off last night when the heavy downpour through this section swept away 300 yards of track between Eastland and Cisco, cutting off the plug train from Sweetwater to Mingo which made two trips through here yesterday.

### MINE OWNERS TO DEMAND CUT OF 25 PER CENT

CHICAGO, Ill., April 26.—A slash of 25 per cent in the wages of coal miners will be demanded by the employers in a new conference to reach separate state agreements is proposed by Frank Farrington, head of the Illinois Miners Union.

WASHINGTON, D. C., April 26.—The bonus legislation came to a dead stop in the senate finance committee today because of the pressure on the committee leaders for amendment to the tariff bill. It was indicated that it would be several days before further progress is made in the drafting of the bonus measure.

### ELECTRIC BOLT STRIKES HOME OF M. E. WAGNER

The home of M. E. Wagner, superintendent of the Mid-Kansas company, on East Main street in the Hodges Central addition, was struck by lightning last night and set afire during the electric storm that accompanied the heavy rain. The fire was extinguished, however, by the family with small damage. No one was injured.

The lightning struck the dining room about 8:30 and knocked the telephone from the wall and fired the house between the outer and inner wall. Mr. Wagner and two other members of the family were seated in an adjoining room. An ax was used to chop a hole in the wall and extinguish the blaze.

### THREE UNIDENTIFIED BODIES RECOVERED; WATER NOW FALLING

2,500 Homeless But City Pumping Plant Is Again Operating and Situation Improving; 200 Marooned on T. & P. Train

**FORTY-FOUR DEAD AND MISSING.**  
DALLAS, Texas, April 26.—Forty-four persons are unaccounted for or reported known to be dead, as a result of floods and windstorms that swept Texas the last twenty-four hours. The list follows:

Fort Worth, thirty-six missing; Grand Prairie, two missing; Palmer, two reported drowned; Waco, one reported drowned; Scovena, one drowned; Belton, one drowned; Mountain Creek, near Cleburne, one man reported killed by wind storm yesterday.

The actual casualties will not be known until after the flood waters go down.

Postal officials here have asked authority to transport mail between Dallas and Fort Worth by airplane temporarily.

FORT WORTH, April 26.—Danger of another flood here is believed improbable this afternoon. The Trinity has been falling for several hours and is now six feet below the high water mark.

Old residents along the river declared the rains upstream last night would not cause a further rise.

The first dead were taken from the flood waters this morning at 10:30 when the unidentified bodies of a man and a woman were found by rescuers lodged among trees, where they had been cast by the swollen waters. According to reports received by Mayor Cockrell from the other side of the stream, five other unidentified bodies have been recovered. The bodies will be brought to the city immediately for identification.

The body of an unidentified man about 25 years old, believed to have been a rescue worker, was recovered this morning from the levee. This is the only body recovered.

**First Dead Recovered.**  
Most of the victims bore no marks of identification due to the sudden onrush of waters Tuesday morning while most of the victims were sleeping in night apparel.

Thirty-six persons are dead or missing, according to an official list of flood victims this morning. A partial revised list of the missing includes:

Mrs. Cordie Rannels.

Farris, wife, three children and brother.

Billy Harris.

Mrs. G. W. Pettis, reported drowned when rescue boat capsized, and her 10-year-old son.

Mrs. L. Ferguson and Mrs. Davis, 70, missing from the same boat.

Shelby Sellers, wife, mother-in-law and three children.

Mrs. Rosie Hartmann and son.

Dan Handy and three children.

George Perkins.

Mrs. Pierce and Mrs. Reagan, living near the Chevrolet plant. They were seen in their house as the waters carried it away.

Miss Vesta Moore, 18, of Waco.

Henry Mittendorf.

Rescuers report seeing others on the wreckage floating downstream.

**Vindict May Fall.**

The river rose slowly until 6 o'clock this morning. Rain began falling shortly before midnight and continued until 5 this morning. Reports have been received that at Lake Worth dam the water is rising slowly up to the spillway. As the water fell it appeared that Seventh street bridge would fall, the side walks were bending and police officers ordered all rescue workers off the structure.

No official report has been received of the dead, reports varying from fifteen to fifty. Relief headquarters said "about" twenty. Members of the American Legion are patrolling the streets with loaded guns. No trouble of looting has been reported.

**2,500 Homeless.**

It is estimated today that there were 2,500 homeless.

Rescuers today began making attempts to recover the bodies of victims. "We have been confining our efforts to the living," Major L. G. White, in charge of the relief work, said. "Our job has been to get out those living. Our men have seen many floating bodies, but we let them go. Today we will recover all the bodies we find."

At Red Cross headquarters today a steady line of refugees poured in for food and clothing. Relief workers were exhausted from their twenty-four hours' of constant work.

**Pumping Plant Starts.**

The Holly pumping station which forces water from the Lake Worth mains into the city system, was put into operation again by 9:30 and by 2 o'clock the city mains are expected to be filled with water. Commissioner Lord declares that there is absolutely no danger to the Lake Worth dam.

Police and deputized citizens have been placed on guard in the devastated areas, with instructions to shoot plunderers on sight. The weather bureau predicts no more rains and states that the biggest part of the flood has passed.

**SEAPLANE IS SAFE**

MIAMI, Fla., April 26.—The seaplane Santa Maria, missing since early Monday when it began its flight from Key West to Nassau with six persons aboard, has been found at Wilson Island, according to a wireless message received from Havana today.

A RAILROAD LESSON Railroads get lots of cussing. Let a train which has come 500 or 1,000 miles be half an hour late, and there is enough fussing and fuming to run a factory, if it could only be harnessed and used as power.

But how well they do, even when they fall far short of perfection, is shown when floods and other acts of God prevent their operation altogether. Then the whole machinery of business seems to stop.

That Ranger is not now experiencing a shortage in perishable foods, an absence of mail, almost total isolation, is due to the fortunate circumstance that it possesses two railroads instead of one, and adverse conditions have not touched them both.

If all transportation routes were closed, Ranger would in a few days understand why there has been more progress in the ninety years since the locomotive was invented than in all the centuries that preceded that discovery.

If Russia ever does get well she'll have a lot of interesting stories to tell about the things she saw on the wall paper while the fever was raging.—Toledo Blade.

FIFTY LIVES AND \$20,000,000 ILLINOIS FLOOD LOSS

The citizens of Beardstown, Ill., refuse to have their spirits dampened, although the raging Illinois River put twelve feet of water into their houses, as was the case in the residence of H. C. Eads. Good old Illinois mud land sells at \$350 an acre and the sign indicates that the bidder must go the limit.

'JUST A FIGHT,' SAYS RICE OF DAMAGE SUIT

Denial is made by A. C. Rice of Ranger, that he struck down W. P. Torrans, rooming house proprietor, from behind and beat him with a pair of kicks two years ago, as was set forth recently in the account of a damage suit filed in Eastland by Torrans against A. C. Rice and Ward Rice.

In a statement yesterday afternoon, A. C. Rice further denied that his brother had conspired with him to attack Torrans and declared that Ward Rice knew nothing of the encounter until afterwards.

It is claimed by A. C. Rice that the encounter with Torrans was simply a fist fight and resulted from Torrans' threats against him. The suit for \$35,000 against himself and brother was filed, Rice said, after he had evicted Torrans from his property for the non-payment of rent.

85-Year-Old Woman Who Married at 84 Jailed as Bigamist

LOS ANGELES, April 26.—Mrs. Alice Parker, who gave her age as 85, has been arrested and placed in jail, charged with bigamy. The complaint was made by Philip La Tiez, who told the district attorney he was married to the defendant in 1918 and that he had learned she had married Nathan E. Parker in 1921.

GERMANY TOLD TO SUR-RENDER BOMB THROWERS

By Associated Press. PARIS, France, April 26.—The council of ambassadors has sent a note to Germany demanding immediate handing over of the persons guilty of bombing French soldiers at Petersdorf, in upper Silesia. If immediate action is not taken the note says, consequences for German authorities will be serious.

PAPER MAKERS REFUSE PROPOSED WAGE REDUCTION

By Associated Press. NEW YORK, April 26.—A strike vote taken by the International Brotherhood of the Paper Makers was overwhelmingly against the acceptance of the wage reductions proposed by the manufacturers of news printing paper, President Carey of the brotherhood announced today at a conference with the manufacturers.

DOG HILL PARAGRAPHS

By GEORGE BINGHAM

As he was trying to walk across the footlog across Gander creek last Monday Sile Kildew accidentally dropped a quart in the creek, and now seining is the order of the day in this vicinity.

The Excelsior Fiddling Band is feeling its importance more and more each day. One night recently it was asked to play a piece over four different times, but it was discovered later that the man who did the encouraging was as deaf as a post, and was wanting them to start.

Sim Flinders says spring got here just in the nick of time, as the last button was just ready to drop off of his coat.

LAWYERS TO PROBE CRITICISM OF JUDGE

(Continued from Page One).

day that the habeas corpus hearing was set, and that the court, county attorney and others were asked to continue the case until the federal officer could return and show cause why the men should be held, but that the court refused to postpone the case and released the prisoners about 3:30 in the afternoon.

Judge Davenport is quoted as stating that federal prisoners could not be placed in the Eastland county jail without being filed on in the state courts. This, the United States attorneys declared, "will greatly handicap the enforcement of the prohibition law in that section, where there is a great amount of violations committed owing to the fact that it is an oil field."

Men Not Rearrested.

The prisoners have not been rearrested by the federal authorities, Mr. Zweifel said, due partly to the fact that Prohibition Agent Bendy did not want to take a chance of being put in jail for again arresting the prisoners after they had been released by the district judge. Judge Wilson's remarks follow:

Wilson Is Surprised.

"Assuming that the statements made in this motion are true, it is surprising that any district judge would take such an action as is here reported. He clearly had no right—even if he did have the power—to take such action. Of course, this court would not want to indulge in the presumption, or rather reach the conclusion, on an ex parte hearing that the district judge had acted corruptly in this matter. And yet it is apparent on the face of it that the judge was exceeding any rightful authority that he had.

"It would be a great stretch of imagination for anyone to imagine this court, upon a writ being presented to it, to be releasing State prisoners held up here in jail. But it would have exactly the same right to do that thing that the district judge had to do this.

"It would occur to this court instantly, if any persons were presenting such an application to this court with the view of getting this court to discharge from the custody of State officers any prisoners being held for the State, that the parties so acting were acting with the view of getting the court to do something that it had no right or authority to do. In fact, it would impress this court that they were impelled with the idea that this court was willing to do an illegal and an improper, if not a corrupt thing.

Would Be Insulted.

"This court would consider such an application an insult and, of course, would refer the matter, upon a very suggestion that it was a state prisoner, to the state authorities for action. And that is the thing, of course, that should have been done in this case.

"I can hardly understand how any man who has so conducted himself in life as to reach the position of state district judge could ever persuade himself to do such a thing. But, as I say, upon this sort of a hearing I think this court should not reach any conclusions further than those expressed. If the district attorney is right in the report he makes that the district judge named is to further pursue this course with reference to federal prisoners held there temporarily, then it presents a very serious situation.

Had Right to Hold Men.

"The federal officer under the Volstead act had the absolute right to not only arrest those persons under the circumstances named without any warrant but he had also the right to hold them without any warrant until a reasonable time had expired for the procuring of a proper warrant issued by the court, authorizing them to be held, and this detention there in the jail at Eastland was only a temporary matter. The law would not say to an officer under such circumstances that 'You have the right to arrest a person without a warrant,' and then in the next sentence say that 'You have not the right to hold the person, after being so arrested, until proper warrants can be issued.' And it appears from the statement of the district attorney that the complaint had actually already been filed and the warrant already issued and in the hands of the deputy marshal of that division, although it had not been executed, if I understand it?"

Mr. Zweifel: "Yes, those are the facts in the matter. I don't know that the fact that the warrant was in the hands of the deputy marshal was brought to the attention of the district court."

Judge Wilson: "It was brought to

his attention that they were federal prisoners?"

Mr. Zweifel: "Yes, he knew that when he granted the writ."

Judge Wilson: "Another thing: The federal officer had as much right under the laws to have his prisoners in that jail as the sheriff had to have his prisoners there."

Refers to Governor.

"But I think first this matter should be referred to the governor of the State of Texas for investigation and for such action as he may see fit to take. I will say this, however: If this conduct is to be prosecuted, and it becomes common and persisted in, that the United States government has a remedy, and the remedy will be applied; but certainly not until—and I think it is nothing but proper—the governor has had the opportunity and the state authorities have had the opportunity to take such action in the matter as they may be authorized to take, or deem expedient to take under the circumstances.

"Until that investigation is made and that action is taken by the governor, there will be no further action taken on the part of this court. And that will be the order of the court—that a complete file be forwarded to the governor of Texas in connection with a complete report from the district attorney as to this occurrence, and along with it a copy of the order of the court referring the matter."

FLOOD

(CONTINUED FROM PAGE ONE.)

day night is still marooned at Trimble, twenty miles from this city, with 200 passengers on board. They have bought all food available at nearby stores and have secured permission to use perishable food on the train.

The relief funds obtained here now total \$5,000. Mayor Cockrell has appealed for additional contributions of food, money and clothing, in order that Fort Worth may not have to ask for outside aid.

North Side Hard Hit.

The heaviest damage is on the north side, where twenty-five square miles are reported flooded, virtually all connections with the city are cut off, telephone and transportation service is badly crippled. The flood is confined chiefly to lowlands adjoining tributaries of the Trinity river and is far from citywide. Marine, Sycamore and Clear fork creeks and the Trinity river are the swollen streams. The flooded area lies roughly in north, west and southwest portions of the city, known as North Fort Worth, Arlington Heights and Sycamore Heights.

CREST WILL REACH DALLAS DURING NIGHT

DALLAS, April 26.—The Trinity was gauging forty feet at 11 o'clock this morning, with the weather bureau predicting a crest of forty-two to forty-five feet Wednesday night. A stage of forty-five feet would endanger the Dallas power plants, cutting off street car service. So far the only property damage is in the river bottoms. No loss of life has been reported.

Heavy rains throughout the state were reported again last night. Fort Worth reported three inches additional, making ten inches in the last forty-eight hours. Waco reported more than four inches.

STORM AT BRECK.

By United Press. BRECKENRIDGE, April 26.—A heavy rain and wind storm Tuesday night did property damage estimated at \$25,000. One man was reported drowned but no confirmation can be had. Wire and rail communication are badly hampered.

WACO IS WARNED

By Associated Press. WACO, Texas, April 26.—Weather observers today received a message from B. Brunemeyer, of Houston, headquarters of the weather bureau, warning that the flood stage would probably be reached on the Brazos river here within twenty-four hours. Precautions are being taken.

SCHOOL TRUSTEES GET ELECTION CERTIFICATES

Certificates of election to the offices of county school trustee for precinct No. 1 and for the county at large, have been received here by Dr. R. H. Hodges and E. H. Mills, who received the largest number of votes in the school election here several weeks ago in the common school districts of the county. The certificates were signed by County Judge C. R. Starnes.

AMARILLO HURLER PITCHES ONE-HIT GAME

SAN ANGELO, April 26.—Ridings held the Brones to one hit yesterday, a single by Craig, and Amarillo won easily, 7 to 0. Muns was driven from the box with only one out in the second round, and Coker, who relieved him, stopped Amarillo after the third, when Fitzgerald drove in Byers with the final scores of the game. The score:

Score for Amarillo vs San Angelo game. Columns include AB, R, H, PO, A, E. Players listed include Moore, McKeon, Comstock, Johnson, Anheir, Byers, Chaney, Fitzgerald, and Ridings.

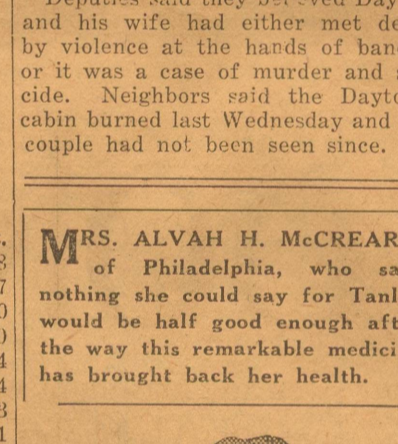

Score for Amarillo vs San Angelo game. Columns include AB, R, H, PO, A, E. Players listed include Butler, Scoggins, McBride, Robinson, Dean, Craig, Conally, Alexander, Muns, and Coker.

MURDER MYSTERY IS BARED IN FINDING OF TWO CHARRED BODIES

LOS ANGELES, Calif., April 26.—Two charred bodies, thought to be those of Clyde W. Dayton, 60 years old, farmer, reputedly wealthy, and his wife, Lulu Dayton, 50, were found by sheriff's deputies in the ashes of their home in Dayton canyon, Owens valley, about thirty miles north of Los Angeles, Sunday night.

Deputies said they believed Dayton and his wife had either met death by violence at the hands of bandits or it was a case of murder and suicide. Neighbors said the Dayton's cabin burned last Wednesday and the couple had not been seen since.

MRS. ALVAH H. McCREARY, of Philadelphia, who says nothing she could say for Tanlac would be half good enough after the way this remarkable medicine has brought back her health.

It is just glorious to have my health back, and in my opinion there is nothing I can say about Tanlac would be half good enough," said Mrs. Alvah H. McCreary, 1531 Locust St., Philadelphia, Pa.

"For two years I had all the miserable and agonizing symptoms that go with a bad case of stomach trouble. Although I lived on the strictest kind of diet I suffered torture from indigestion and finally my whole system seemed to give way.

"I certainly know how to appreciate the wonderful blessing of good health and I have such confidence in Tanlac that I wish it was in my power to put a bottle of it in the hands of every sick man, woman and child so that they might take it and get well and strong, as I have done."

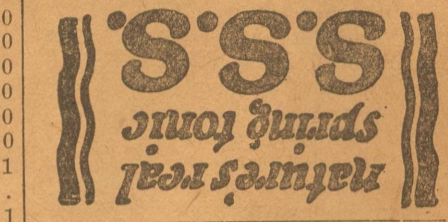

Tanlac is sold in Ranger by Phillips Bros. and in Eastland by the Palace drug store.—(Advertisement)

8-INCH DELUGE CAUSES SMALL FLOOD AT CISCO

CISCO, April 26.—Eight inches of rain fell here last night in a steady downpour and resulted in a number of families being driven from their homes in the lower section of the city and the flooding of stores on Avenue D and Sixth street. No one was injured and the property damage was slight.

Although the water rose three and four feet in some of the houses in the low part of the city, the residents had received warning earlier and had sought refuge in homes on higher ground. In the business section water rose several inches in some of the stores at Sixth street and Avenue D, but no loss resulted to the contents.

The average American consumes ninety pounds of sugar annually.

# MONSTER HUNT NEVER BANNED SAYS GOVERNOR

### Denies That Close Season Is Declared on Prehistoric Game.

BUENOS AIRES, April 26.—The plesiosaurus hunt is daily becoming more and more like a button, button, who's got the button, problem. First was the question whether or not such an animal existed. Then, whether or not the expedition should hunt it in the northern or southern part of Patagonia, since it was reported that the plesiosaurus was seen in both sections simultaneously.

Now the question before the national cabinet is whether or not the government of the territory of Chubut has issued an edict prohibiting hunting, fishing or trapping for the monster. The newspaper correspondents with the expedition and Curator Onelli of the Buenos Aires zoo say the edict was issued. The governor, says it was not issued. In the meantime two cabinet ministers are arguing whether the edict, if issued, should be allowed to interfere with the plesiosaurus, if it exists.

The expedition of scientists and near scientists is enjoying a holiday, camped in the beautiful lake region, known as the Argentine Switzerland, at the expense of school teachers, letter carriers and other underpaid wage earners, who donated the funds which made the expedition possible.

### MINE CONDITIONS IMPROVE.

MIAMI, Okla., April 26.—Conditions in the lead and zinc field of Oklahoma are steadily improving, according to leading operators of the district.

The improvement is borne out by simultaneous announcements that zinc ore prices had passed the \$30 mark, lead had touched \$70 and that the wages of miners throughout the district had been increased approximately 25 cents a day.

Several thousand workers are affected by the wage increase which will add more than \$8,000 weekly to the payroll of the district.

The ore market now stands at the highest point it has reached in several months.

Over 15,000 postoffices in this country have been discontinued in the past twenty years.

### LADY ASTOR BY WIRELESS SAYS HUSBAND IS "THERE"

Lady Astor

Questioned about husbands as she arrived in America after an eight-year absence, Lady Nancy Astor, first woman seated in Parliament, recommended her own Lord Astor and opined that they were pretty much the same everywhere. She thinks women here and in England have about the "same outlook"—in morality, politics and opportunity. Lady Astor returned to her native land to deliver a series of lectures.

### FIVE ARRESTS AFTER SLATON MAN IS WOUNDED

SLATON, Texas, April 26.—J. T. Williams, manager of Wilson Mercantile company at Wilson, eight miles southwest of here, is seriously wounded as a result of a shooting affair Monday night. One load of small shot penetrated his shoulder and a load of buckshot struck his face. Lloyd Crouch, Charley Richards, Dick Hendrix, Jim Harrison and a man named Smith are in jail in connection with the affair.

### BRICK FALLS 100 FEET, STRIKES MAN ON HEAD, HE IS UNHURT

PUEBLO, Col., April 26.—A five and one-half pound brick, dropped by workmen from a building under construction at a point 100 feet above the ground, struck R. E. Devoss, a laborer, on the head. Devoss was stunned but uninjured. The brick broke to pieces.

# RELIEF DRIVERS MURDERED AND HORSES EATEN

PARIS, April 26.—A number of American drivers of relief wagons in Russia have been killed in the streets by the famished populace, who seized the horses for food, according to reports received by American relief organizations in Paris from the Ufa, Bashkeer and Telyliabuisik famine districts. Two drivers for the American Relief Administration were killed this week, the reports said.

Several other employees of the Relief Administration, fearing for their lives, have quit their posts, the reports added.

The danger has become so great that it is no longer safe to venture into the streets. People are being killed every day, it was said, and the natives, maddened from starvation, strip the clothes from the bodies of their victims.

The reports said the Americans were feeding 150,000 sufferers in the Ufa district, but that the death rate was continuing unabated. Cholera, smallpox, typhus and dysentery are raging, and the hospitals are destitute of supplies and extremely short of helpers. Bitter cold and the complete absence of fuel are adding to the sufferings.

The hospitals, nevertheless, are choked with patients suffering from serious intestinal disorders due to the eating of poisonous food in their desperate impoverishment. The reports said people were eating bark, roots, hides, dogs, cats and even human flesh.

### BRITISH BOOSTER VISITS PRESIDENT HARDING

Arthur Balfour

Arthur Balfour—not the same Sir Arthur of arms conference fame—has arrived in America for a conference with President Harding. Balfour is president of the British Chamber of Commerce and will consult America's chief executive and members of Congress regarding the proposed 66 per cent import duty on steel.

### It Takes Real Horse Power

It often takes "real horse power" to pull the heavy mud stuck automobile out of a hole. But horses that have been fed right will have the extra power needed for such work.

If you want your horses and mules in the "pink" of condition for any kind of heavy hauling you must feed them right. Then they'll have glossy coats, bright eyes and they'll stand erect and firm. You'll get a full day's work, no lost working time.

Scores of horse and mule owners have found that Purina O-Molene feed produces healthier horses and mules and more work.

It costs no more to feed. Purina O-Molene is made of choice grains specially prepared, and balanced to get more work from work animals.

We'll be glad to tell you more about it.

### POWERFUL WORLD LEADERS AT GENOA ECONOMIC CONFERENCE

Problems of bringing world trade and money exchange back to normalcy are being considered by powerful world leaders at the Genoa Economic Conference. Here is the first photograph of the notables in attendance to reach this country. Lloyd George, in a characteristic pose, dominates the group. At his left is Premier Facta, of Italy. Just behind him is Sir Laming Worthington-Evans, tallest in group. At the British Premier's right is Sir Robert Stevens on Horne, with Signor Schanzer, Italian Foreign Minister, beside him.

### GRAND JURY TO MEET, FIRST TIME IN YEARS

PAWHUSKA, Okla., April 26.—A special grand jury will be drawn during the first week of May to investigate "municipal affairs of various cities in Osage county." This is the first grand jury that this county has had for several years and was being called upon a petition of 350 taxpayers.

### 21—LEGAL NOTICE

Office of Collector of Internal Revenue, Dallas, Texas, April 10th, 1922. The following described property seized from F. I. Clark and M. H. Smith, receivers for the E. J. Barnes Lumber Co., Ranger, Texas, under Warrant for Distrain for the Non-payment of assessed Taxes, due, will be sold as provided by section 3190 Revised Statutes at public auction, on Thursday, May 18th, 1922, at 10 a. m., in front of the U. S. Postoffice, Ranger, Texas.

Lots No. 10, 11, 12, in Block No. 18 in the town of Ranger, Eastland County, Texas, as shown by official plat or map of said town recorded in Vol. E, page 639 of Deed Records of Eastland County, Texas.

A part of the Francis Blundell survey in Eastland County, Texas, known as Patent No. 18, Vol No. 16, said part containing two and one-half (2 1/2) acres, more or less, and more fully described in a certain Deed of Assignment, executed by E. J. Barnes Lumber Co., Ranger, Texas, to F. I. Clark and M. H. Smith, dated July 13th, 1921, and recorded in Book 207, page 570 Deed Records of Eastland County, Texas.

T. J. ADAMS, Deputy Collector.

### NEW PRODUCER BETWEEN HILBURN AND PIONEER

RISEING STAR, April 26.—The Keystone Drilling company's B. F. Terry No. 1 after passing up a paying producer in the Pioneer sand one week ago, went on down to the Hilburn sand, finding a good showing of gas and oil. The company decided to shoot it with 200 quarts and has a 500 barrel well.

The new pool is about three miles southeast of the Hilburn pool and on a direct line from the Pioneer pool six miles southwest, and the Puett pool. The new well is seventy feet in the sand, getting the top pay at 2,951 feet, making the completed depth 3,021 feet. This well was completed in thirty-eight days' actual drilling time.

### TWO OFFICERS SHOT; AUSTIN NEGRO HELD

AUSTIN, April 26.—Chief of Detectives E. E. Young received a bullet wound in his arm, and Deputy Sheriff J. E. McCoy was shot in the shoulder when the two officers were

### CALUMET BAKING POWDER SAVES THREE WAYS

—A moderate priced Baking Powder of greatest merit. Honestly made. Honestly sold. Economical in every way. Every particle is full of actual leavening value. A full money's worth.

—You save time when you use it. Calumet is all baking powder. It begins to raise bakings the instant they are put into the oven. You don't have to keep "peeping" to see if bakings are all right. You know they are. Calumet is *sure*—never fails. That's economy. And true economy—in cost—in use—in time.

One trial will prove it and show you in results why millions of shrewd, thrifty housewives prefer Calumet to all other brands.

The unfailing strength of Calumet guarantees perfect results. Not only saves flour—sugar—eggs, etc.—but saves Baking Powder. You use only a teaspoonful—you use two teaspoonfuls or more of many other brands.

Calumet contains only such ingredients as have been approved officially by the U. S. Food Authorities.

HAVE YOU NOTICED THIS? A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

# WEEKLY PICTORIAL NEWS

Photos by International News Service

**TRAVELED 80,000 MILES WITH CUBS**—H. A. Snow, a curator of Oakland, California, photographed on board the S. S. Olympic with his two lion cubs with whom he traveled 80,000 miles. The cubs will be presented to the New York Zoo. They were caught in British East Africa, after Mr. Snow had shot their mother.

**A STUDY OF LACE**—One of the most startling fashion creations has just made its debut. The photograph shows Betty Compson in her new "All Lace Attire." For women as shapely as is the fair Betty, the "creation" would be a startling one, especially if worn in the ballroom or at the opera. The designer of the costume has not specified at what particular occasion it can be or may be worn.

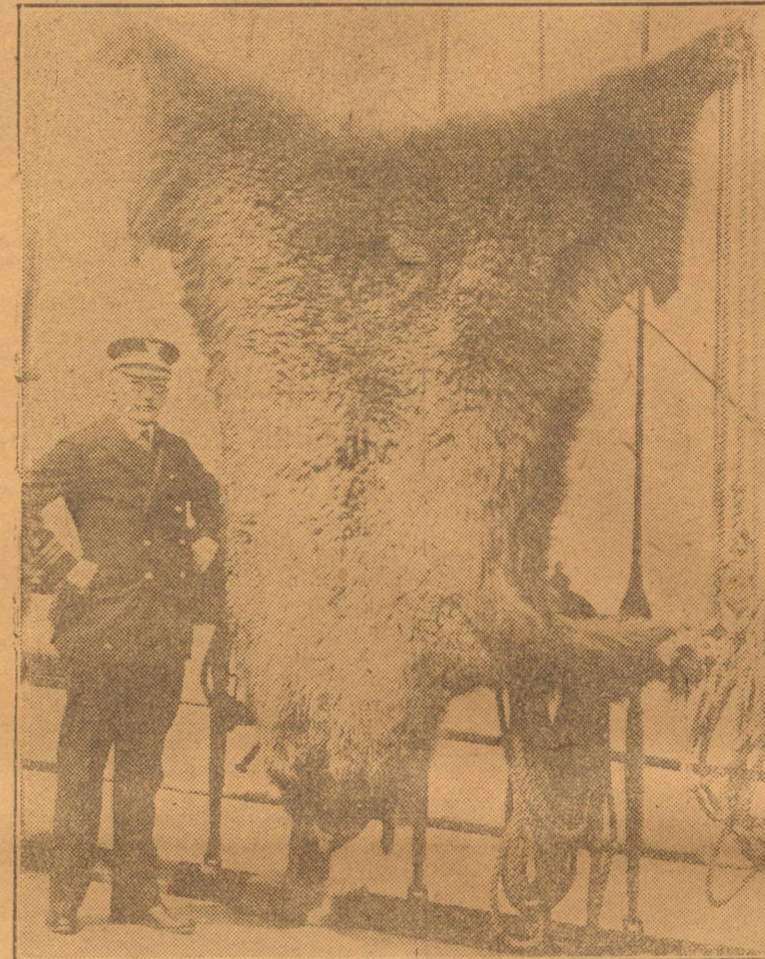

**REMEMBER WHEN YOU DID THIS?**—A young Dutch gallant fastening the skates to the feet of a little maid at Volendam, Holland, where mid-Winter conditions prevail. The children travel to school and home again on skates and thoroughly enjoy themselves.

**SOME CATCH FOR A WOMAN**—Who said women can't fish? Look at the picture and study the big monster caught by Mrs. Ketur Spalding at Santa Catalina, California. This is the second largest broadbill swordfish ever caught by a woman. It weighed 426 pounds and took Mrs. Spalding one hour and twenty minutes to land her prize. Holding the gift is Captain Walker, her boat captain.

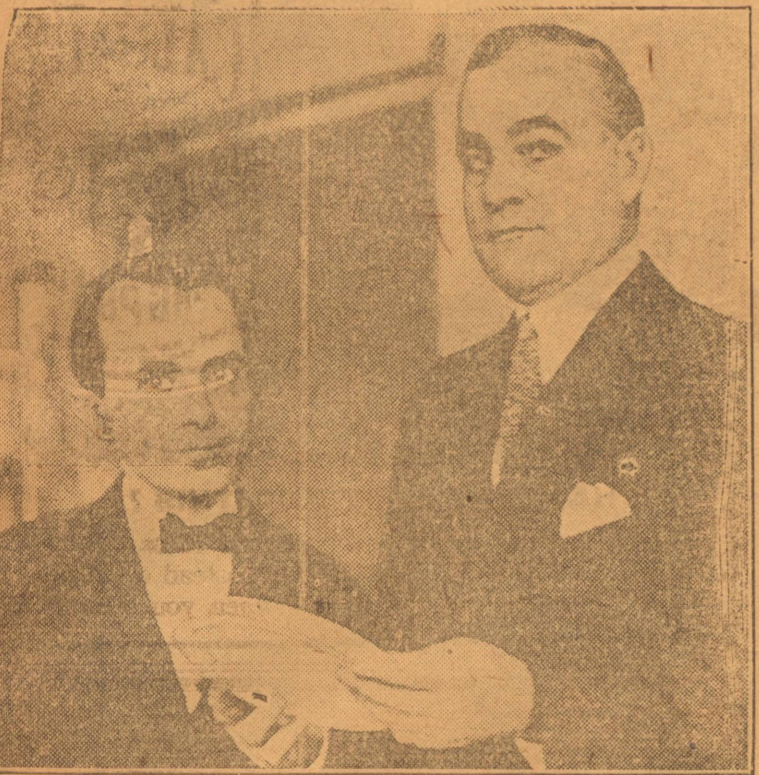

**SHE DON'T MIND THE ICE AND SNOW**—Miss Ida Schmitt just lights in romping around with only her bathing suit on in the snow and icy waters at Brighton Beach. She's a regular stowbird, and during these frigid days she can be seen taking her dip, which she claims is very invigorating and keeps one in the pink of condition. Here she is seen throwing a medicine ball around for exercise. "If everyone would do this they would be healthy," remarked Miss Schmitt, but we don't care to get our health in this way.

**BAGS ALASKAN BEAR**—Lieutenant-Commander Benjamin L. Brockway, commander of the United States Coast Guard cutter Unalga, and skin of monster Alaskan bear he killed near Unalaska. The Unalga recently arrived at Seattle, Wash., and Commander Brockway proudly displayed the skin of the bear as one of his trophies of the seven months' cruise of the Unalga in Bering Sea and Arctic waters.

**ROYAL BLUE AND GOLD BROCADE GOWN**—Colorful indeed is Milady's gown of royal blue and gold brocade with its graceful trim of ostrich designed at the Sheridan Smart Shop.

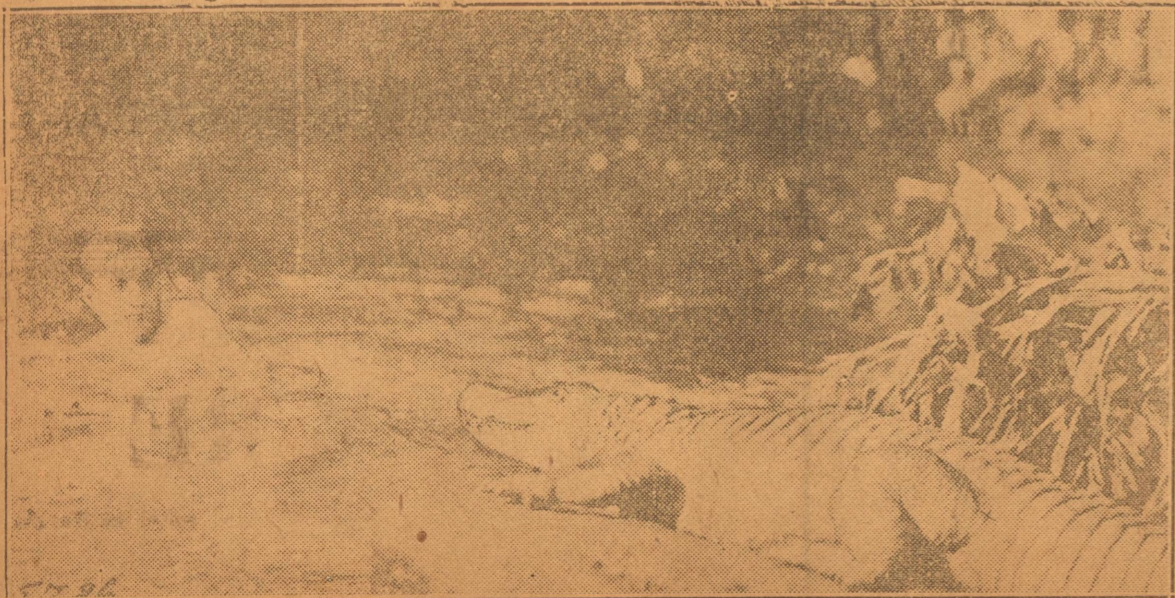

**THE NEW SILVER DOLLAR**—Raymond T. Baker, director of the mint, holding the design of the new silver "Peace" dollar for 1922. This is the first change in the design of the silver dollar since 1892. At the left is Anthony de Francisci, of New York City, the designer of the new dollar.

**NOTABLES OF DUBLIN PLEAD FOR PEACE**—Cardinal Logue (left) and Dr. Kelly, the Bishop of Ross, leaving the University Building at Dublin after the meeting called by the Cardinal, where he made an eloquent appeal in support of the Anglo-Irish Peace Pact. The meeting was attended by practically all the Catholic Bishops of Ireland.

**WEARS WEDDING RING OF WOOD**—When Joseph M. Robinson, of Los Angeles, made up his mind he was going to marry Miss Mable Drum he was so excited that he forgot the important little wedding ring. Judge Cox was called upon to do his duty and pronounce the couple man and wife. When it came to slipping the little gold ring on the wedding finger of the fair bride, Robinson almost swooned. He had forgotten all about it. The best man came to the rescue with his trusty little pocket-knife. Out of a piece of pine he whittled the little wooden circle and the wedding came off just as it would if the ring had been made of gold.

**UNEXPECTED HAPPENINGS WHEN MOVIE MAN FILMS WILD ANIMALS**—The life of a movie actor is not always a life of ease. This picture was taken in Berlin, where a large production using the famous Hagenbeck collection of animals was staged. Here we have an odd shot of the camera showing Mr. Crocodile making an attempt to follow the actor, who was swimming in the water. Is he scared? Can't you see the expression on his face? He is almost registering despair, and you would, too, if you saw Mr. Alligator getting too familiar.

**HEN BREAKS RECORD AND WINS \$5,000 PRIZE**—Fine feathers do not make fine chickens, they decide the fine points on the egg output for the year, and when it comes to laying eggs, Lady Victory "brings home the bacon." These are just a few of the cups the young lady has won. Lady Victory is four years old and in that time has laid 1,011 eggs. Her record for the year is 304 eggs, and at the present time she is a valuable bird. The Pennsylvania State Poultry Farm, where Lady Victory resides, takes a heap of pride in her.

**HEIR TO ITALIAN CROWN AS A CADET**—A new photograph of Prince Humbert, the heir to the Italian Crown, showing him in the uniform of a cadet. The Prince was born September 15, 1904. He is the only son of the King and Queen of Italy. He has four sisters.
