WASHINGTON, April 19.-E Mont Reily of Kansas City, will be removed as governor of Porto Rico in the near future, it was learned today from a source close to Presi dent Harding. The President also was said today by one of his confidants on the Porto Rican situation to be convinced Reily is not able to reconcile the factions there and has declared he is unwilling to leave him there much longer.

Reily is guilty of any wrong-doing, as charged in Porto Rican reports, but he believes the only solution of the friction there is the appointment of a new governor.

This time the trial will take horns just outside the court room, shortly after the court had sent the jury back to make another attempt to reach a verdict in the case. Houston was placed under arrest.

In the contest over the will, Houston and several other sons and daughters are seeking to break the will of their mother, who left her entire estate, consisting of 160 acres near Pleasant Grove, to her daughter, Mrs. Norton. At the first trial in district court the jury returned a verdict breaking the will. The case was later reversed and remanded by the court of appeals.
