DIAZ PLANS TO INVADE MEXICO WITH 15,000 MEN

SAN ANTONIO, May 29.—A revolutionary move having for its object the overthrow of the Obregon regime and the placing of General Felix Diaz as provisional president of Mexico is under way, according to United States agents on the Mexican border.

Diaz plans to enter the southern republic from Guatemala within thirty days, with approximately 15,000 well armed men to further his cause, reports say. The revolutionist's plan of attack was begun by the issuance of proclamations by the revolting generals in the southern states and has gained great impetus through the southern part of the republic, it is said.

INITIAL ISSUE OF NEW ELKS' MAGAZINE IS RECEIVED HERE

Copies of the first issue of a new monthly periodical, "The Elks Magazine," which has just made its appearance as the national publication of the Benevolent and Protective Order of Elks, were received in Ranger this morning. The magazine begins its career with a circulation of 850,000. Its purpose, as set forth in the opening pages, is to provide a medium through which the grand lodge may bring home to each individual member the fact that he belongs not merely to a local lodge but to a nation-wide organization. By keeping the members in touch with the activities of their fellows in all parts of the country and by voicing the principles of the order in word and picture, "The Elks Magazine" is intended to inspire and promote that spirit of unity which is the motive force of every fraternity.

It is not to be a mere bulletin or calendar of events, but a vigorous, high class, literary and fraternal journal—to contain matters of interest and information to all the members of an Elk household, it is announced.

Beginning with a letter of God-speed from President Harding, who is an Elk himself—and a message from William W. Mountain, Grand Exalted Ruler, to the order at large, the first number swings into fiction and timely articles, followed by features. Among the contributors are Charles M. Schwab, Ben Ames Williams, Albert Payson Terhune, William Almon Wolff and others. The whole magazine is well illustrated.

CIVIL WAR VET'S PLEAS LODGE HIS PET TURTLE IN NEW YORK HOSPITAL

NEW YORK, May 29.—Many strange patients have been brought into Bellevue hospital in the years it has existed, but the strangest of all is General, a fat, squat, ugly and inarticulate turtle, who arrived Monday. The turtle was brought in to gratify the earnest plea of Ike Brown, 80 years old, a Civil War veteran, whose pal and pet the turtle has been for eight years. Brown was brought in Sunday night, but pleaded so hard for the companionship of his turtle that attendants were sent after the testudine reptile. Ambulance men finally lifted the turtle from the bath tub, after he had snapped a few chair legs in two. He was wrapped in several folds of blankets and taken to the hospital. As soon as he and the old man were reunited both began to improve, and promptly went to sleep.

FORT WORTH MAN'S KIDNAPPING WAS 'JOKE,' HE TELLS POLICE

FORT WORTH, May 29.—A reported kidnapping of H. C. Hamilton, paint salesman, in Polytechnic last night, was a "joke," according to a telephone message police said today they had received from Hamilton. Miss Pearl Livingston of Polytechnic informed officers last night that after Hamilton had taken her home in his car, two

masked men, carrying pistols, ordered Hamilton into their machine and drove away with him. "Get into the house, we don't want you," she said the men told her. "Go and tell the police if you want to. It won't do any good." Police said their information was that Hamilton was separated from his wife.

PORTLAND, Ore., May 29.—Seven sailors were killed and two firemen were injured in a collision in a fog last night in the Columbia river off Altona, Wash., between the British steamer Welsh Prince and the American-Hawaiian steamer, Iowan, according to information available early today at the naval radio station at Northend.

The Iowan is reported making her way up the Columbia river early this morning under her own steam.

BALLINGER FIREMEN STOP PAINT ROCK BLAZE

PAINT ROCK, May 29.—Half the business section of this place was destroyed by fire shortly after 3 o'clock Sunday morning. The loss is estimated at \$30,000, partially covered by insurance. Four of the principal business buildings were consumed. The fire started in the Curtsinger drug store from an undetermined cause, and before it could be extinguished about half the business houses of the town had been destroyed.

Had it not been for fire fighting apparatus from Ballinger, eighteen miles away, the entire business district would probably have been destroyed. The Ballinger department was on the job in forty minutes from the time of the first alarm.

The decision is in favor of the Southwestern Bell Telephone company and sustained increased rates put in effect in Houston in 1920. The Texas district court also held against the city.

WOMAN ELECTION JUDGE IS SENTENCED TO JAIL

CHICAGO, May 29.—Refusal to explain discrepancies in the returns of their precinct in the recent primary election brought jail sentences to three election officials.

One of the officials was Mrs. Mae Victor, who served as Democratic judge, was given a two months' jail sentence.

Before they were remanded to jail, however, the three officials obtained their release on writs of habeas corpus, claiming that Judge Frank S. Rigeheimer had no authority to pass sentence on them.

The habeas corpus proceedings were tried in the superior court, where Judge Timothy D. Hurley will hear the cases next Wednesday.

During the investigation of alleged frauds fifteen women officials were before Judge Rigeheimer. Several of them became ill when they were questioned and had to be sent home in taxicabs.

TWO WOMEN AND RESCUER HELD PRISONER BY OMAHA MADMAN

OMAHA, Neb., May 29.—Police today rescued two women and a man from a lonely shack on the outskirts of the city, where they had been captured and chained by Gus Grimes, a maniac. The woman, Mrs. James Jenkins and Miss Gertrude McLeman, had been without food since Saturday. The man, H. E. Boyd, was captured by the madman Sunday when he heard the women's screams and attempted to rescue them.

Grimes dug a hole in the eathen floor of the shack and told Boyd: "That's to be your grave." Then he threw the women in the hole and assaulted them, Boyd told police. Boyd succeeded in freeing himself and escaped and notified the police. While he was away, Grimes escaped in Boyd's automobile. A blacksmith filed the chains from the two women.

TEMPORARY POLICE CHIEF TO BE CHOSEN BY COMMISSION TOMORROW

The selection of a new chief to have charge of the police department until a new police commissioner is elected and installed, will in all probability be made at the regular meeting of the commission tomorrow afternoon. Chief of Police Luther Davidson, who expects to resign the first of the month to accept a position with an oil company, is anxious to be relieved of his responsibility as soon as possible. Assistant Chief of Police Reynolds is likewise resigning in order to make an active canvass for the sheriff's office.

The city commission is also expected to call a special election to fill the vacancy created by the resignation of A. Davenport as police head. Commissioner C. O. Terrell, who was reassigned by Mayor Gholson from the office of street commissioner to head of the police department, has expressed his desire to turn the police job over to a successor as soon as one can be elected.

A number of applicants are in the running for the chief of police job and two or more candidates are being groomed to make the race for police commissioner.

Evelyn Insulted at Being Named In Taxi Man's Divorce

ATLANTIC CITY, N. J., May 29.—Evelyn Nesbitt, former stage beauty, for whom Harry Thaw shot and killed Stanford White, wept when informed here today in a boardwalk cabaret, where she is singing, that she had been named co-respondent in a divorce action instituted by Mrs. Harry Schneider, wife of a New York taxi-cab driver.

"Oh," she cried, with tears streaming down her face, "it is just impossible. How could this woman, how could any woman make such a charge? It must be something sinister. It sounds like blackmail."

Miss Nesbitt declared that she barely remembered the taxi driver and that he was "a kind of an errand boy" in a restaurant she formerly conducted in New York. She and her associates threw odd jobs in his way, she said.

"Oh, to think of her speaking like that of me," continued Miss Nesbitt sobbing. "It is fiendish, that's what it is. To think of it. This poor little taxi-cab driver. Why at times his hands were unwashed and they were black and dirty. To think of her saying I was interested in him."

Then Miss Nesbitt declared that the news would kill her mother. She called for a telegraph blank and sent her a message to come at once.

The former stage beauty has been playing the role of a cabaret performer in a boardwalk cafe since early spring.

CAN'T DEPORT SEMENOFF ON PRESENT EVIDENCE

WASHINGTON, May 29.—General Semenov, Russian Cossack leader whose deportation is sought by Senator Borah for alleged brutality to American soldiers, cannot be deported, it was announced by Commissioner General of Immigration Husband, in a decision to Secretary Davis.

General Semenov was legally admitted to this country, it was held and cannot be deported unless it is shown that he has committed some act against the government. The immigration department, however, will investigate the case further to determine if any evidence has been overlooked.

LITTLE FISH FIRST!

WASHINGTON, May 29.—The federal grand jury empaneled here to consider evidence in the war fraud cases will get to work Wednesday, it was announced today. The first cases presented, it was learned, probably will be those in which several former army officers are charged with accepting bribes in transactions involving disposal of surplus army materials. It may be weeks, it was officially admitted, before any steps are taken to begin the big prosecutions—those demanded in the senate and house.

In the meantime, criticism of Attorney General Daugherty shows no signs of abatement.

COUNTY QUOTA NOT FILLED FOR TRAINING CAMP

DENISON, May 29.—Two robbers entered the home of Pete R. Riley Saturday night, chloroformed Mrs. Riley and robbed her purse of \$203.

Mr. Riley is employed at the Katy shops and leaves work at midnight. On returning home he found his wife with a towel over her face, her hands tied behind her and apparently dead.

Policemen and a doctor were called and it was found the woman had been chloroformed. Mrs. Riley remembers of hearing two men talking, but says it seems as though it was a dream. She did not see the men, who gained admittance to the home through a rear door.

STRIKE VOTE TO FOLLOW CUT IN R. R. WAGES

Maintenance of Way Chiefs Meet to Consider Reduction Order Effective July 1.

CHICAGO, May 29.—Maintenance of way employees of the nation's railroads face a \$48,000,000 yearly wage reduction July 1, as a result of last night's order of the railroad labor board. The order affects 400,000 men.

Pending decisions governing the wages of 500,000 shopmen and 200,000 clerks, telegraphers and station employees and other classes were expected to follow close behind last night's order, which reduced maintenance of way wage scales from 1 to 5 cents an hour. The majority are reduced 5 cents.

Strike Vote Predicted. Immediate consideration of the order by the executive council of the United Brotherhood of Maintenance of Way Employees was in prospect for today. It was predicted by B. M. Jewell, head of the railroad department of the American Federation of Labor, that the decision would be rejected and submitted to a vote of the membership.

The money saved by the wage reduction will be expended in much needed work, according to the railroads' statements to the board. The start of this neglected work will mean employment of 200,000 additional men, it was said.

COUNSEL IN SESSION

DETROIT, May 29.—The belief that a strike vote will be ordered by the executive council of the United Brotherhood of Maintenance of Way Employees and Shop Laborers was expected today by E. F. The lightning struck about 5 o'clock Sunday afternoon and the fire burned all night. Unless the wind changes, another tank and the pump station will also be destroyed. The loss, if the fire is confined to the three tanks now burning, will be about \$300,000.

Wise county is covered with a dense pall of smoke this morning as a result of the fire.

THE DALLAS WAY

There is a story in today's Dallas News of the new railroad which recently purchased the Katy's Shreveport branch. "It is believed the general offices will be located here, because of the large volume of business Dallas has to offer," the story says, in effect.

In other words, no general offices, no business.

Dallas has become the greatest city of the Southwest by looking out for itself. She helps those who help her. Therein is an example to other towns which aspire to grow.

A town should look to its intricacy dealings as the first step in progress. If it is supporting enterprises elsewhere, it should ask: Why shouldn't we have something of the sort here, with its attendant payroll? Probably Ranger, by a survey of the opportunities, could obtain the location of several industries, catering first to the home trade, and then enlarging their business to include work for the surrounding territory. Thus would Ranger not only be rendering a service to herself, but by the advantages of price and service which conveniently located and larger plants would have to offer, would be doing service to the adjacent territory.

VIRGINIANS CELEBRATE PATRICK HENRY'S BIRTHDAY

By Associated Press.

RICHMOND, Va., May 29.—Today is the 186th anniversary of the birth of Patrick Henry in Studley, Hanover county, Virginia, and the 157th anniversary of his submission to the Virginia house of burgesses here of a series of resolutions which inflamed the public mind against the stamp-act and made him leader of the colony. He offered the resolutions nine days after taking his seat in the house, and they were opposed by all the members who had been leaders of the body up to that time.

The resolutions proposed by Henry on May 29, 1765, defined the rights of the colony and pronounced the stamp act unconstitutional and subversive of British and American liberty. Henry advocated the resolutions in a speech which Thomas Jefferson described as surpassing any he had heard. Five of them were carried, the last by a majority of one. All of them were published, and inspired open antagonism to the existing British rule.

MAN WITHOUT A COUNTRY ASKS U. S. TO RELEASE HIM

NEW YORK, May 29.—Charles Johnson, who says he is a man without a country, has protested to the authorities at Washington against being long held at Ellis Island.

He demanded that he be set free by the immigration authorities under the ruling of the United States circuit court of appeals that four months is the limit for lawful detention when it is impossible to deport. Johnson told this story to Commissioner Tod:

"I have been followed by a hoodoo since July 15, 1921. I was a man of the sea and had been sailing on the schooner Viola in the West Indies. We put in at St. Andrews, Fla., and because there were Chinese aboard our ship all members of the crew were arrested.

"They turned me over to the immigration authorities. I have now been a prisoner for more than a year, and I ask to be set free if there is no way to deport me."

Johnson said he was a Norwegian, an orphan who could not remember either parent. He had been in an asylum in Norway, but was adopted and taken to Germany by a family named Peterson.

Neither Norway nor Germany would give a passport for his deportation without proof of his being a subject. Commissioner Tod is trying to arrange for Johnson to "re-ship foreign" on some outgoing ship.

MRS. FRANK WILKIE of Syracuse, N. Y., formerly matron at the State Reformatory at Industry, N. Y., who says she is delighted with Tanlac since it restored her health after she suffered eight years.

"This is the first time in eight years that I have been free from stomach trouble and it is all because of the wonderful good Tanlac has done me," said Mrs. Frank Wilkie, 229 Cedar st., Syracuse. Mrs. Wilkie formerly resided in Buffalo and for two years was matron of the State Reformatory at Industry, N. Y.

"I was eating scarcely enough to keep alive," she declared, "for I would rather not touch a bite than suffer the misery I knew would follow. I was sick in bed for two and three days at a time, and gas on my stomach made such awful pressure on my heart it almost cut off my breath. I had horrible dreams at night and in the morning was all tired out."

"Well, the longest day I live I will praise Tanlac, for my improvement has been simply remarkable. I have no more heartburn, my appetite is wonderful, I can eat most anything I want, and my sleep is sound and restful. I am thoroughly delighted with Tanlac. It is wonderful!"

Tanlac is sold by all good druggists.—Advertisement.

To be sure of a chance to earn a living should be your chief consideration. Without it, your wife will be a failure. To have a trade or profession is absolutely essential unless you are to live from hand-to-mouth—unless you are to be uncertain at times whether you can get the necessities for existence.

The course of study in the typesetting school at Macon, Ga., is getting remarkable results. The diploma is accepted in the trades as the equivalent of an apprenticeship. The publishers of this paper will gladly advise with you if you want to go into the work. Write TYPESETTING DEPARTMENT, GEORGIA-ALABAMA BUSINESS COLLEGE, MACON, GA.—Advertisement.

Firestone CORD TIRES

The tire section above at the left shows the condition of a Firestone 33x4 1/2 Cord Tire after 20,994 miles on a Yellow Cab in Chicago.

The section at the right was cut from a new Cord of the same size. Careful measurements show that only 1/3 of the tread of the tire on the Yellow Cab has been worn away after this long, grueling test. The carcass is intact after more than 11,000,000 revolutions.

Firestone Cords have averaged over 10,000 miles on Chicago Yellow Cabs (1,200 cabs all Firestone equipped). In thousands of instances, they have given from 15,000 to 30,000 miles.

Look at the tread—scientifically angled against skid, massive and heavy in the center where the wear comes, tapered at the edges to make steering easy and to protect the carcass against destructive hinging action of high tread edges. The carcass is air bag expanded to insure uniform tension and paralleling of every individual cord. It is double "gum dipped" to make sure that each cord is thoroughly insulated with rubber.

This is the reason why Firestone Cords unfailingly deliver extraordinary mileage. It explains the unanimous demand of thoughtful tire buyers for these values. The local Firestone dealer will continue to provide the personal service that makes Firestone tire comfort and economy complete.

STUDENT HIKER SETS NEW MARK; WINS \$100 BET

AUSTIN, May 29.—A new pedestrian stunt and feat of endurance was put on record last week at the University of Texas when W. Bennett Flanagan, student from Palestine, took a "hundred dollar hike" from Austin to San Antonio, making good on his wager to walk the distance of some eighty-five miles in forty-eight hours. He arrived in San Antonio with two and a half hours to spare, according to reports from there, and he spent one night in sleep at New Braunfels, so that the actual walking time was much less than forty-eight hours. In accomplishing this feat Mr. Flanagan made the distance between the two cities in about the time required by the stage coach of former days.

Flanagan set out from Austin at 12:30 Monday night for the Alamo city shortly after a purse of \$100 had been made up by his fraternity brothers, following his assertion that he could walk to San Antonio by Wednesday night. He arrived at New Braunfels Tuesday night at 8 o'clock, and stopped for rest and food for the first time. The only nourishment which he took Tuesday was two bottles of coca-cola and much water.

S. S. S. Fills Out Hollow Cheeks, Thin Limbs!

Men and women, whether you will ever build yourself up to your normal, just-right weight depends on the number of blood-cells in your blood. That's all there is to it. It's a scientific fact. If your blood-cell factory isn't working right, you will be run-down, thin, your blood will be in disorder, and perhaps your face will be broken out with pimples, blackheads and eruptions. S. S. S. keeps your blood-cell factory working full time. It helps build new blood-cells. That's why S. S. S. builds up thin, run-down people, it puts firm flesh on your bones, it rounds out your face, arms, neck, limbs, the whole body. It puts the "pink" in your cheeks. It takes the hollowness from the eyes, and it fools Father Time by smoothing out wrinkles in men and women by "plumping" them up. S. S. S. is a remarkable blood-purifier. While you are getting plump, your skin eruptions, pimples, blackheads, acne, rheumatism, rash, tetter, blotches are being removed. The medicinal ingredients of S. S. S. are guaranteed purely vegetable. S. S. S. is sold at all drug stores in two sizes. The larger size is the more economical.

HERE'S ROMANCE FOR THE EXACTING

A far-reaching maternal complex has this hen, owned by Mrs. Maud Switzer of Oakley, O. When the "lady of the house" failed to provide the mother hen with eggs to sit on, she asserted her right to "mother" something and immediately adopted a litter of fox terrier puppies. Since adopting the canines "mother hen" has indignantly thwarted the incursions of the rightful mother into her domain.

Mysterious Air Fleet of Hooch Runners Baffles Dry Navy Ship

NEW YORK, May 29.—As Eagle Boat No. 17, a unit in the new "dry navy," was ponding to her death on the sandy bars off Amagansett, Long Island, today after driving ashore in a fog and gale, residents of this and other Long Island towns began to piece together the story of a mysterious air fleet, whose presence had baffled them, and which now is said to have been used to aid rum runners.

Presence of the Eagle boat in Long Island waters was a mystery until today. The wreck gave the first inkling that Eagle boats had been attached to the dry navy and were engaged in hunting rum runners along the coast. Sailors admitted their duties and told of airplanes which rum runners were

into the sea and then watched men from the yacht fish it out with boat hooks. The yacht and plane both sped away.

The Eagle boat tonight was almost a total wreck. She was not built to withstand heavy seas, and she was broken partially under their power and force.

Over at Orient Point the General John Wilkins, a re-enforced concrete army transport, also was broken. She struck bow on, her oil tanks exploded and a hole was torn amidship. She has sunk by the stern, and there virtually will be no salvage.

The hearts of sedentary workers are apt to become soft and flabby.

NITRO BATS BEAT CLOVIS IN TIGHT GAME

Eighteen Hits off Mickey Give Nitros 8 to 5 Victory; Clovis H.'s Timely.

Pestling Mickey's offerings in every round for a total of eighteen hits, the Nitros managed to ease another victory over Clovis yesterday, 8 to 5. However, the flying Nitros had their heels badly trampled on all through the fray, for the Buzzers, while compiling only half as many hits, grouped them in salvos, with telling effect.

The Buzzers jumped off in the lead with a tally in the opening round only to have it tied. Then added another in the second, only to have the Nitros make two and take the lead, and they knotted the count again in the fifth with two runs, and the Nitros again forged to the front in the last half. Thereafter they maintained the lead all the way, by the steady accumulation of a score an inning, while Clovis' last marker came in the seventh when Buzzer Wetzel—himself—propelled the pellet beyond the palings.

The Nitros counted in every inning except the fourth, by putting one hit behind another, or rather, two or three behind the first one. The knocks, while clean, were mostly short, and ten of them came after two men were out. Thus there was no chance for lost motion to aid in the counting.

Both teams put up a fast fielding game, though errors figured in two runs for each. Hoffman pegged one man out at the plate, and a long relay from Hoffman to Roberts to Clayton had another nailed, but the ball was brushed from Clayton's hand. Pyle saved trouble in the opening round when he blocked Tucker's fast bounder and headed Baker off at third for the final out of a troublesome inning.

NITRO NOTES

By beating Clovis yesterday while Abilene was dropping a double bill to Sweetwater, the Nitros edged into sixth place by half a game. In the last seven days they have played eight games, won five and lost three. That's a .600 gait.

During the last week the Nitros have shown their ability to bump the ball hard against ordinary pitching. Now, with a little more speed on the bases to put the runs across when they go up against the hurlers who are going at top form, they will present an offense second to none.

The Clovis pitchers are suffering from overwork, Buzz Wetzel says, in accounting for the Nitro batfist. One thing about it, though: Their extra labors have certainly given them a batting eye. Anderson failed to hit but Wetzel got 3 out of 2, Vick 3-2 and Black 4-2, while doing mound duty. Pinch hitting for pitchers would be an easy job for the Clovis team.

It has been the same way with the Nitros, however. Crawford 4-1, York 4-1, Zapata 3-2 and Roberts 5-2 is their contribution to the onslaught on Clovis hurlers.

Craig wasted no time yesterday in spanking his homer. He set his spikes and casually laid into the first ball over.

The Nitros got four singles in the eighth and only one run. Clayton led off with a safety, but was caught when Roberts popped a bunt to Mickey. Then the Nitros had to start all over again.

Lubbock comes tomorrow! Ah, revenge! She is sweet!

If Nitro bats function as they have in the last several affrayings, there will be revenge.

WEST TEXAS GAMES

EAGLES LOSE TWO. ABILENE, May 29.—Dropping their second double-header in two days, the Eagles slid into seventh place yesterday. In the first game, the Swatters by a powerful assault in the fifth frame counted four times, giving them enough runs to stave off Eagle rallies in the eighth and ninth. In the second game, they bunched hits off Ward in the fourth and fifth and won easily, 7 to 2. Shaw's homer with two on was the swat that clinched the matinee. The scores: First game— R. H. E. SISLER SHOWS HE'S REGULAR ONE-MAN TEAM

CHICAGO, May 29.—George Sisler continues to prove himself a one-man ball team, for the St. Louis Browns' first sacker again occupies a leading position in almost every column of the American league statistics which include games of Wednesday. Sisler heads the batters with a mark of .429, despite the fact that this is three points lower than last week's average. He has scored the most runs—39; made the most hits—65; leads in total bases with 96; heads the base stealers with 18, has batted out ten two-baggers against eleven for the leaders and his circuit drives total five—enough to place him near the top.

Ed Miller of Philadelphia has been climbing steadily and is second to Sisler in batting with an average of .402. Miller now has ten home runs against twelve for Ken Williams of the Browns. Ty Cobb is third with .298. Other leading batters in twenty or more games are: Speaker, Cleveland, .397; O'Neill, Cleveland, .395; Witt, New York, .377; Clark, Detroit, .358; Schang, New York, .352; Jamieson, Cleveland, .341; Blue, Detroit, .338.

George Toporec, the slugging infielder with St. Louis, by pounding out thirteen hits, boosted himself to the top of the National league batters with an average of .404.

Tommy Griffith of Brooklyn is the runner up with .385, while Rogers

Hornsby of St. Louis and Bigbee, Pittsburgh outfielder, are tied for third place with a mark of .372. Hornsby leads the run getters with 33 tallies, is out in front in total bases with a mark of 86, and leads home run drives with nine.

Other leading batters for twenty or more games: Maranville, Pittsburgh, .370; Hargrave, Cincinnati, .370; Kelly, New York, .368; J. Johnston, Brooklyn, .353; Southworth, Boston, .351; Grimes, Chicago, .348; Hollcher, Chicago, .347.
