GASSER DEVELOPS INTO BIG OIL PRODUCER

OPEN GOLF PLAY RESULTS IN SURPRISES

Francis Ouimet Turns In Lowest Score; Bobby Jones Makes Poor Showing.

By United Press.
WORCESTER COUNTRY CLUB, Worcester, Mass., June 3.—Francis Ouimet, who, as a mere youth, first won the national open golf championship twelve years ago, turned in a card of 70, one under par, for the first round of this year's tournament. Ouimet appeared to have the low score of the morning as he finished, the best previous score of 71 being by Jack Forrester of Deal, N. J. Gene Sarazen and Walter Hagen, former open champions, were tied with 72. Bobby Jones, last year's winner and the popular favorite to repeat, was 77.

Chinese Showing Marked Hostility To All Foreigners

By United Press.
SHANGHAI, June 3.—F. J. Tre-villian, a sergeant in the American volunteers, was found today locked in prison in the native section of the city. He had been hustled into prison after having been mistreated when he passed the foreign settlement boundary line in full uniform. The incident was taken as conclusive proof of the Chinese police hostility to foreigners. Twenty-one deaths and 100 persons wounded are known to have resulted since the start of the trouble last Saturday, but the casualties among the foreigners are slight. Small bands of rioters tonight were attacking foreigners in outlying districts with clubs and stones. Tram car service is being suspended, due to the smashing of car windows by strikers. With strikers on all lines increasing, British sailors took over the manning of the power plant. Student demonstrations were lacking when funeral services for the foreign district.

Eastland Lions Elect New Officers

The Eastland Lions, at their regular meeting Tuesday, elected the following officers for the ensuing year: J. E. Owen, president; E. E. Freyschlag, first vice president; S. De-Neir, second vice president; H. E. De-Lane, secretary-treasurer; Dr. W. S. Poe, lion tamer. For tail twister, N. N. Rosenquest received three votes and Andy Gump, 20 votes. Rosenquest was declared elected, however (Andy is used to being counted out). The directors are, W. Z. Bates and N. N. Rosenquest for the two-year term and W. H. Madden for the one-year term.

Father Of Arctic Flier Dies In Italy

FLORENCE, Italy, June 3.—James W. Ellsworth, Pittsburgh coal millionaire and backer of the Amundsen polar air flight, died here today. Ellsworth, formerly of Hudson, Ohio, divided his time mainly between New York and Florence. He owned a large villa in Florence. He helped finance the expedition after his son, Lincoln, undertook to fly with Amundsen to the north pole.

BURGLARS SURPRISED AT WORK KILL CHICAGO WOMAN.

By United Press.
CHICAGO, June 3.—Mrs. Bell Quinn Owen, 50, wife of a wealthy suburban real estate man, was shot and instantly killed today by a burglar, one of a pair looting her home. Because of the heat she was sleeping on the day bed in her living room. She awoke when the burglars began ransacking the drawers. She started struggling with one of them and the other fired a shot that entered her brain.

ALLEGED CONSPIRATORS TO KIDNAP HELD IN BIG JAIL.

By United Press.
LOS ANGELES, June 3.—Formal complaint charging conspiracy have been issued against C. Z. Stevens, Claude Holcomb and Adrian Wood, the three men alleged to have plotted to kidnap Mary Pickford and other movie stars. District Attorney Keyes, who issued the complaint, at the same time ordered a special meeting of the grand jury on Friday to consider the case. Bail for the suspects was fixed at \$50,000.

She Learns of Man's Faithlessness

Just six hours before she was to have been married Mrs. Sara Arma, Oakland (Calif.) society girl, learned that the groom, William T. Vellguth, had eloped to Mexico with a girl he had met ten days before. She received this news while holding a final rehearsal for the wedding with the bridesmaids. The church had been decorated, the trousseau was ready and a home had been built.

MERCURY VIES WITH WIND IN MIDDLE WEST

Heat Prostrations Occur In Chicago and Small Cyclones Near Omaha.

Continued unsettled weather over the south was predicted for Wednesday following a heat wave and scattered storms, which took at least 23 lives. Chicago is the only vicinity where relief from the excessive heat is in sight. Sioux City, Iowa, was the center of a violent storm, which extended into South Dakota and Minnesota, injuring many probably fatally. Heat records for June fell in many parts of the country, especially in Chicago and Cleveland. Chicago had four deaths from the heat and Cleveland one. Eight persons were drowned in Wisconsin, when they sought relief from the heat. Several prostrations were reported in New York. It was somewhat cooler in the western part of the country, an eight inch snow falling in the Rockies in Wyoming, being a heavy fall for the advent of June.

Forty-two deaths and hundreds of prostrations have occurred during the last 48 hours, due to the heat wave which continued to cause havoc over a large portion of the nation.

Violent electrical storms that brought temporary relief to some sections served only to augment the casualty list.

In New York City, five deaths occurred as a result of the heat. Four persons were killed and many persons hurt in a windstorm in Nebraska.

Six persons were overcome in Washington, where the 24 hour maximum was 106. Atlanta, Ga. reported that unless rain fell soon, severe damage would be done to the cotton crop.

CHICAGO, June 3.—No relief for the heat wave is in sight for the middle west, the local weather bureau announced today.

An additional death brought the Chicago heat toll to seven since the high temperature started. Three persons were overcome.

Four persons were killed and scores injured in a series of wind storms that reached cyclonic proportions near Omaha.

AGED INMATE COUNTY POOR FARM IS DEAD

John J. Vandyne Refuses to Last to Tell Where His Folks Reside.

John J. Vandyne, aged about 80 years, an inmate of the Eastland county poor farm for the last two years, died about six o'clock this morning at the City-County hospital in Ranger, to which place he was taken yesterday in the hospital ambulance of Edward J. Owens & Son of Ranger. Death is said to have been due to old age and stomach trouble. Little is known about decedent's history. He had lived in Eastland county only a little while, it is said, when admitted to the county poor farm. He has claimed to have a wife and several grown children living, but has always refused to give any information as to their home or where he formerly lived.

According to records of the county poor farm, the man's name was John J. Caradine and his age was given as 75 years, but he told hospital attendants that his name was Vandyne.

Decedent had been ailing some time and had been seriously ill about one week, according to other inmates of the farm. Among the charitable people of the county who make regular visits to the poor farm is Mrs. M. B. Zeigler of Ranger, who found the aged man suffering. He was lying on a bumpy mattress without sheets; was without adequate attention, and greatly annoyed by flies. Mrs. Zeigler rounded up the county commissioners' court and insisted they visit the poor farm. They saw something should be done. Mrs. Zeigler insisted the aged man be removed to the hospital, but the commissioners thought the cost of a hospital ambulance would be prohibitive.

Mrs. Zeigler said she would borrow an automobile and have him brought to the hospital if the commissioners would provide for his admittance. This they agreed to, so she enlisted the aid of Owens & Son and had the patient brought to the hospital, where he died peacefully after resting several hours in such comfort as he had not known for many years. Mrs. Zeigler accompanied the ambulance and sat beside the patient during the drive.

Sante Fe Offers Reward for Bandits Who Wreck Train

By United Press.
OKLAHOMA CITY, June 3.—Sante Fe railroad officials announced today they would pay \$1,000 reward for the arrest and conviction of those implicated in the wrecking of passenger train No. 6, a mile and a half north of here yesterday morning.

A posse combed the woods in which the accident occurred to no avail. Officers were of the opinion that the motive was either robbery or revenge. The theory was advanced that they wrecked the wrong train. The wrecked train northbound, runs between Galveston and Chicago. Twenty minutes before the wreck a train carrying a valuable cargo of merchandise passed over southbound.

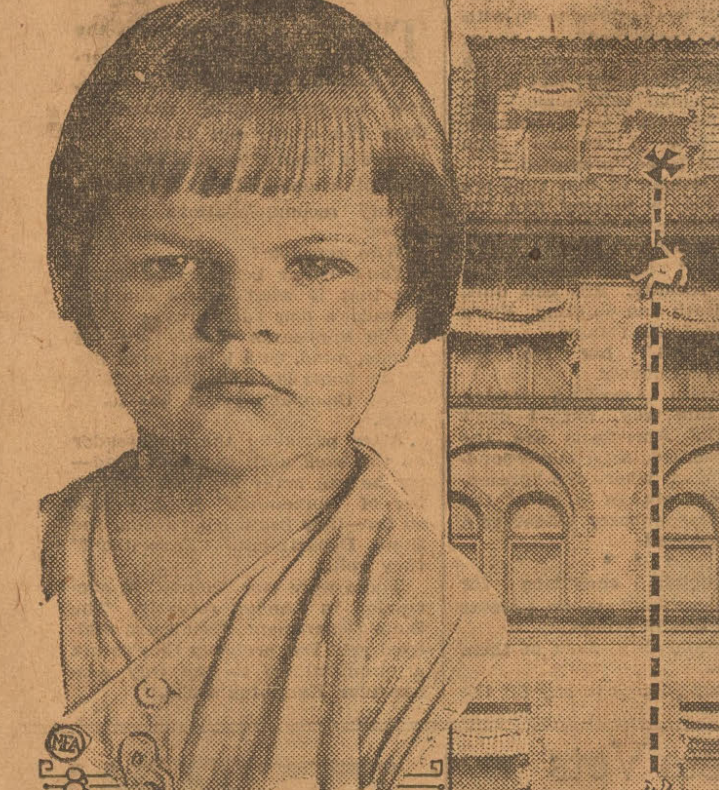

Two Ranger Men Given Five-Year Jail Sentences

By United Press.
BRECKENRIDGE, June 3.—A verdict of guilty on a charge of receiving and concealing stolen property was returned by a jury late yesterday afternoon in the trial of A. F. Barnes and Harve Wells of Ranger. Barnes and Wells were charged with automobile theft and receiving stolen property but the first charge was dismissed. Sentence of five years each was passed on the two men. The jury was out 45 minutes.

NEGRO SLAYER OF SHERIFF TO BE EXECUTED

Jury Finds Him Guilty of Killing Dick Pauley of Coleman and Sentences Him to Die

BROWNWOOD, June 3.—The jury in the trial of John Smith, negro, charged with the murder of Dick Pauley, sheriff of Coleman county, at Coleman two weeks ago, gave him the death penalty here today.

The jury was out only eighteen minutes after Walter U. Early, district attorney, had completed the state's plea. The verdict was signed by Rex H. Gaither, foreman of the jury. It was read before a crowd that packed the Brown county courthouse to the limit. There was no semblance of a demonstration among the spectators at any stage of the trial.

Mrs. Pauley and her son heard the verdict without a gesture. He has retained the same composure, and has never shown any fear, even when a mob attempted to take him from the Brown county officers.

Mr. Smith was taken to the jail here today. He is now in the custody of the sheriff. He is a native of Texas and has lived in Brown county for several years.

Diamonds Found In Craw of Chicken

About three weeks ago Mrs. Frank Jones of Eastland lost the set out of her diamond ring, which she valued at more than \$200. A diligent search about the house and premises where it was thought possible the stone could be made but all efforts to find it were in vain and Mrs. Jones gave up the search. Yesterday while a neighbor, Mrs. Raines, was dressing and preparing for cooking a frying chicken that she had purchased from Mrs. Jones the lost diamond was found in the chicken's gizzard, having worked its way through the craw. The stone was returned to Mrs. Jones.

Expert Golf Players Playing At Worcester For Championship

By United Press.
WORCESTER, Mass., June 3.—Whoever beats Bobby Jones wins this year's championship, experts agreed today as 96 of the country's crack golfers teed off at the Worcester country club for the 72-hole test, which will decide who is king of American golf in 1925.

Favorites are Bobby Jones of Atlanta, Ga., leading choice; Walter Hagen, greatest money player in the country, and MacDonal Smith, veteran of nearly a score of open championships, whose chances are favored by many because of his form. The three rank equally in betting. Five to one against each.

BIZZELL WILL RESIGN POST AT A. & M. COLLEGE

Accepts Presidency of the University of Oklahoma, Notifying Regents.

HUGO, Okla., June 3.—Dr. W. B. Bizzell, president of Texas A. & M. College, has accepted the presidency of the University of Oklahoma, according to a telegram received here late Tuesday afternoon by Judge A. McDonald of Hugo, president of the university board of regents.

"I hereby accept the presidency of the University of Oklahoma," Dr. Bizzell said in the telegram.

"I greatly appreciate the honor conferred by your board of regents and I shall exert my utmost efforts to justify the faith imposed in me. Under the guidance of Divine Providence and with the co-operation of the board of regents, the administrative officers and the faculties of the university and the good will of the people of your state, I hope to see your great state university continue the progress it has made under my able predecessors."

Dr. Bizzell is 48 years old. His greatest accomplishments have been achieved as president of the Texas A. & M. College. He was formerly president of the College of Industrial Arts at Denton, Texas.

President Coolidge Urges High Purpose of American Navy

By United Press.
NAVAL ACADEMY, Annapolis, June 3.—The American navy can only fulfill its highest functions if it exists as "an instrument of righteousness," protecting the property of this country while serving to maintain the world peace, President Coolidge declared Tuesday in delivering the commencement address to the graduating class of the naval academy.

"I do not believe the American navy can succeed if represents mere naked force, said the President. I want to see it represent much more than that. We want it an instrument of righteousness. If we are to promote peace on earth we must have a great deal more than the power of the sword. We must call in action the spiritual and moral forces of mankind."

The President seized the occasion to re-emphasize the universal peaceful aims of the United States.

"It is known of all the world that we have no present traditional enemies, that we covet no territory, harbor no imperialistic designs and are not arming ourselves with the expectation of attacking or being attacked," he said.

President Is Exempted From Income Tax

WASHINGTON, June 3.—President Coolidge has been exempted from paying an income tax on his \$75,000 a year salary. Congress overstepped its constitutional power by inserting clauses in the revenue laws, specifying that judges in the federal courts and the president of the United States must pay taxes. Mr. Coolidge is entitled to a refund on his salary tax so far.

The saving to the president is between \$5,000 and \$8,000 a year.

STATE SUPERINTENDENT MA YCANCEL CERTIFICATES

By United Press.
AUSTIN, June 3.—Validity of the statute empowering the state superintendent to cancel teachers certificates of any person he may deem unworthy to teach was upheld today by the supreme court when it refused a writ of error in the case of Mathews vs. Marrs, state superintendent, from Hopkins county.

The case grew out of cancellation by Marrs of certificates of a number of Hopkins county teachers.

TWIN GUSHERS BOTH PROVING LUSTY FELLOWS

Two Latest Wells in Carter Pool Show They Possess Real Stamina.
Flowing at the rate of 2,000 barrels a day, Barney Carter's Langford No. 3 bids fair to become one of the best producers in the Carter pool. With the terrific gas pressure from the sand and the top of the pay barrel scratched, operators are confident that the well will be the best that has been drilled in the Carter pool when it is drilled deeper. The gas was put under control yesterday afternoon and oil started flowing immediately. With the gas gradually subsiding in force, the oil increased its flow and at 6 o'clock yesterday afternoon was making about 1,000 barrels a day. The gauge at midnight indicated an average production of 80 barrels an hour, or 2,000 barrels a day, according to United Producers Pipe Line company officials. The well was to be drilled deeper into the sand today and all men of Ranger are watching it with intense interest. The drilling crew of O. C. Ochiltree, contractor for Barney Carter's Langford No. 3, actually drilled in their well by scratching the top of the sand about 8 o'clock Monday night, thus winning the race, according to reports. The gas that resulted from drilling in the top of the pay practically forced them to shut down by midnight. Jerome McLester's Pritchard No. 1, located on the northeast 40 of the Pritchard farm and offsetting the G. C. Barkley and others Pritchard No. 1, was reported by United Producers to be making between 150 and 180 barrels an hour at midnight last night. Plans call for the drilling a little deeper in of the McLester well this morning.

SPICER NO. ONE WELL DUE IN EARLY NEXT WEEK

The next well expected in is the Spicer No. 1, being drilled by Corzelius Brothers. Due to trouble when water was encountered, the Spicer well was materially delayed in drilling. The well is due to be drilled in about the first part of next week, according to present indications, as the drill is now about 3,100 feet.

Heat Wave Claims Victims in New York

By United Press.
NEW YORK, June 3.—Four dead and many prostrations have occurred in this vicinity in the last twenty-four hours as a direct result of the heat wave. Newark, Passaic and Livingston, N. J. each reported one death from the heat. A boy was drowned while swimming at East Elmhurst. Twenty persons were overcome at Trenton. The maximum temperature for the last twenty-four hours was eighty five.

FASHION PLATES TELL THIS FARMER WHAT TO PLANT

CANTON, Texas, June 3.—Instead of consulting the almanac before planting his crop, Lawrence Gillespie, Kaufman county farmer, takes a peep at the fashion plates for the coming season. "I am planting no cotton this year," Gillespie said, and followed with an explanation. "I have been studying the fashion plates for the last four months," he said. "There will be no cotton in demand from the knees down by either the men or women. From the knees to the waists the demand for cotton goods will be light—and from the waist up slimmer. "When women folks put the kibosh on cotton goods there is no use to increase cotton acreage," Gillespie said. "My advice to the Texas farmers is: Look over the fashion plates every winter—and plant your crops accordingly."

THREE DEATH PENALTIES AFFIRMED BY HIGHER COURT

AUSTIN, June 3.—Three death penalty cases were affirmed today by the court of criminal appeals, two of them being negroes and one Mexican. They are: Arnulfo Valles, Mexican, murder of Enrique Rivera special officer at El Paso, November 25, 1923. The killing occurred at a dance. Melton Carr, negro, criminal assault on a white woman in Walker county. H. P. Boxley, negro, murder of his step father, Tom Coleman, in Brazoria county. Boxley was the beneficiary of an insurance policy.

BIBLE THOUGHT
 Thou shalt keep therefore his statutes, and his commandments, which I command thee this day, that it may go well with thee, and thy children after thee, and thou mayest prolong thy days upon the earth, which the Lord thy God giveth thee, for ever.—Deut. 4:40.

AMERICANIZATION.
 A national press bureau has just been organized with headquarters in Los Angeles, for the purpose of carrying on a vigorous campaign of education to preserve the integrity of the constitution, maintain the principles of a representative government, and foster national and constructive thought.

As usual, the work of the bureau is directed toward the foreign, as well as the American-born citizens. The foreigner who adopts this country as his future home is required to pass an examination as to his knowledge of our constitution, while the American-born, after reading the preamble in high school, proceeds with his business affairs and gives little or no heed to the constitution or governmental practices.

While it is true that there is plenty of opportunity for Americanization among the foreign-born, the attention of this bureau is called to the fact that the 1,200 newspapers and periodicals printed in 42 different languages in this country, are said to be more loyal to the constitution and to American ideals than are many of the prominent publications that are included in the limited lists as "formulating and controlling the public opinion."

None of the foreign language publications has ever intimated that this country should have a monarchical form of government, or that the American and British nations should combine armies, navies, money and munitions to rule the world. Yet, that identical doctrine has recently cropped out here and there in our foreign-owned publications printed in the English language, and with great circulations.

While Americanization societies are engaged in this work, it might not be amiss to check up on some of the disloyal propaganda that emanates in "high society." It may be more difficult to combat, but it is the only real danger to this country.

A pay-clerk on board the U. S. transport Beaufort, on which 50 cases of liquor were found, has been declared guilty by a court martial. Neither the navy or treasury departments has made a perceptible squawk regarding the charge of an ex-governor of Maine that liquor is openly sold on shipping board vessels. Unless the "higher ups," set a rigid example in law enforcement, what can be expected of the lower ten?

Niagra Falls is now illuminated at night. The water of the falls will furnish the power for the battery of searchlights, which will throw back upon itself one and a third billion candle power of light. And the light thrown back will be the same as the sunlight. Under favorable conditions these lights will be seen one hundred miles away.

New York is returning to normalcy allright. Rents are coming down. The \$20,000 a year apartment may be rented for \$18,000. At that, many of the new structures are vacant. But it helps some.

FACE-WILLIAMS WEDDING SOLEMNIZED.
 The marriage of Miss Bertha Williams of Ranger to Mr. Charles Pace of Ranger was solemnized last Sunday afternoon at the Central Baptist church by Rev. A. L. Leake, pastor.

The ceremony was in the presence of a few close friends of the young couple. The bridegroom is an employe of the Pickering Lumber Company and the bride is the charming daughter of Mr. and Mrs. W. D. Williams of Wayland road, Ranger.
 The couple will make their home on Foch street, Ranger.

PERSONALS
 Mr. and Mrs. A. A. Diehl, who went with the Moshah Temple Shriners on their special train to Los Angeles for the meeting of the imperial council, have sent to friends here postal cards from Juarez stating they have been inspecting that border town.

Mrs. Joe Moore, nee Mabel Williams of Ranger, left today for her home in Abilene, after spending the week-end with her parents, Mr. and Mrs. J. L. Williams of the Ranger Shoe company.

Young Women at C. I. A. Study Bugs

DENTON.—The student of zoology at the College of Industrial Arts has few qualms as she picks up a potato bug and plops him into a cyanide bottle. And his wriggling arouses not even a faint wave of pity in her heart.
 For insects, she is told in class, each year destroy 10 per cent of all farm crops, equal in dollars and cents to the entire bonded indebtedness of the United States.

Miss C. I. A. learns many things about these pests. For instance: a spider is not an insect. A worm does not have legs. A lady bug is often spoken of as "he," and has a non-feminine fondness for plant lice. A bug does not mean anything scientifically, as it may be used to designate animals ranging from a typhoid micro-organism to a centipede. Most insects are near-sighted, yet they have eyes ranging in number from 12 in the lepisma to 20,000 in the dragon fly, and even 25,000 in a beetle.

One of the most important things for Miss C. I. A. to remember is the means for controlling the myriad specimens of wriggly life all about her.
 She is told that if the insect has biting mouth parts, paris green and arsenic insecticides are its enemies. If it has piercing mouth parts a spray that will enter the body pores must be used. Another great means of exterminating insects is called the indirect method, that of crop rotation, burning rubbish and plowing.

Avant with squeamish womanhood that goes into mild hysterics every time a many-legged crawling thing invades the sanctity of her kitchen or some winged creature buzzes into the depths of her limousine! Thus does the young woman student at C. I. A. view the invasion by air and land of the hosts borne by the zephyrs of approaching summer. In other words, "she knows her bugs."

HELMSMAN OF FERRY BOAT DIES AT HIS WHEEL

By United Press.
 PHILADELPHIA, June 3.—The ferry boat, Millville, pulled a out of the Camden, N. J. slip today with a dead man at her helm.

A deck hand who went into the pilot house to see why the signal of "full speed ahead," had not been given as the boat cleared the slip, found Charles H. Wells, the helmsman, dead from heart prostration.

TEXAS CRUDE OIL PRODUCTION IN APRIL

AUSTIN, June 3.—Crude oil gathered by pipe lines of Texas during April totaled 12,416,271 barrels, the oil and gas division of the railway commission reported today. The largest amount was taken from Limestone county field. Oil taken from university land in Reagan county amounted to 668,033 barrels.

Stewart's Washington Letter

BY CHARLES P. STEWART
 NEA Service Writer

WASHINGTON—Not even the biggest issues of international politics bother the State Department as it is bothered periodically by controversies over the "presentation" of American women at the royal court of St. James.
 Matters in dispute between governments can be argued, adjusted, compromised. Trained men talk them over rationally. There are rules and precedents to go by. Reason rules—at least some of the time.

REASON has nothing to do with being "presented" at court. The American woman who wants to be "presented" just wants to be "presented"—"because." The average American can't possibly imagine how a certain type DOES want to be "presented."

With a woman of that type it's an obsession, a longing like the longing of the confirmed dope fiend for his favorite drug.
 "Presented," that woman has "arrived" socially. She can quit. For her death has no sting. She's accomplished all things.

"Unpresented," her life has failed—ignominiously.

Other than American women may be this way, too. I don't know. The Americans are the ones I observed, as a correspondent in London, where the "presentation" fight always is on the United States embassy whenever a "court" is ahead.

AN eligible candidate for "presentation" must possess three qualifications.

1. Respectability. Most of them have that.
2. Money enough to pay for the

prescribed outfit. All have that or they wouldn't be candidates.

3. An adequate "pull" to get them a "command" to attend court.

That's where they fall down. You can count on your fingers the American women with "pull" enough of their very own to get the necessary "command." They include the diplomatic group, those who have married into the English peerage, a few who have spent decades and fortunes in England building themselves up socially and two or three of the super-elect here at home.

THE rest must depend on the recommendation of the American ambassador in London. His recommendation invariably does the work, but every time there's a "court" he has hundreds of applications and only a dozen or twenty recommendations to dispense.

Who gets 'em?
 You'd better believe that deciding that is what makes the ambassador's hair turn gray.

The applicants mostly are big people, mind, with lots of influence in the home land. It doesn't do to offend them and yet it has to be done.

After pounding the ambassador on the back until he's half dead—for he can make his limited number of "commands" go only just so far—they begin bombarding the State Department. "Favoritism!" they yell.

There were two "courts" in succession in London recently. The State Department officials are wild-eyed. But probably they're not a circumstance to the way Ambassador Houghton looks.

Helen Henriksen, the beauty of whose back is second only to that of her profile, is prominently identified with preparations in her home town, Omaha, for the convention of the Disabled American Veterans of the World War, to be held there June 22 to 27.

EASTLAND KILLING DOGS

Chief of Police H. E. Lawrence stated this morning that more than 100 dogs were killed in Eastland during the month of May and that unless the owners paid licenses on them a larger number than that would be disposed of within the next few days.

One of the new electric table cooking appliances is a toaster which toasts four slices of bread at the same time. This toaster has a pyramid shaped heating element and four compartments for the toast, each of which is hinged like a door so that it may be readily swung out to remove the toast when done or to change sides. With such an appliance four pieces of toast can be made just about as quickly as two pieces in the usual electric toaster.

Rheumatism

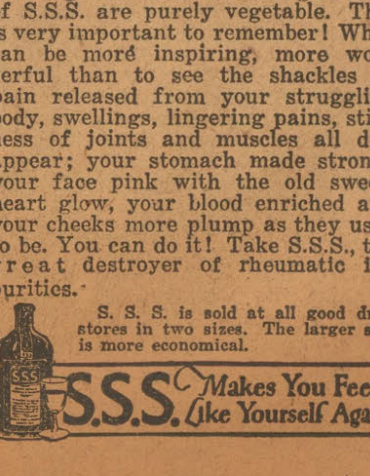

"Good-bye old crutch!"

THERE IS positively no longer any excuse for suffering the agonies of rheumatism! Especially in the autumn of your life, when the vital organs weaken, impurities multiply and linger in the muscles and joints, as never before. It is now, just now, when you cannot afford to guess. No day returns!

Here is a joyous fact which can mean to you a fond farewell forever to all the miseries, the tortures, the body-twisting pains that you have suffered from the demon of rheumatism. It is a fact that rheumatism means "blood poverty." It is a fact with the increase of red-cells in your blood, impurities are destroyed. It is a fact that S.S.S. will help Nature build these red-blood-cells! S.S.S. is one of the most powerful blood cleansers in existence. Its results in thousands of rheumatic cases have been nothing short of amazing! The medicinal ingredients of S.S.S. are purely vegetable. This is very important to remember! What can be more inspiring, more wonderful than to see the shackles of pain released from your struggling body, swellings, lingering pains, stiffness of joints and muscles all disappear, your stomach made strong, your face pink with the old sweet-heart glow, your blood enriched and your cheeks more plump as they are used to be. You can do it! Take S.S.S., the great destroyer of rheumatic impurities.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

TOURIST PARK IN RANGER TO BE IMPROVED

New Water and Sewer Mains Asked of Commission, Medicine Shows to Be Barred.

At a meeting of the City Commission yesterday afternoon it was decided to repair the Tourist Park. Mayor Hodges stated that the park "should be fixed up or closed up", pointing out that it was in a bad condition at this time.

It is planned to run a sewer and water line through the park and install lavatories and shower baths. It was pointed out that the material could be obtained from property owners, who use water, and that the only expense to the city would be laying the pipes. It was also shown that posts could be obtained for a small sum and a fence could be erected around the park. The city owns several shacks near the park and the cost of erecting the bath houses would be small.

Mrs. Whitehall appeared before the commission and asked that a water and sewer main be laid in the Lackland addition and across Strawn road to serve several families in the neighborhood. She was told that if the property owners along the proposed line would furnish the necessary material, the city would lay the lines. It was pointed out that streets were being graded in Ranger where property owners furnish the gravel and the city grades the streets and spreads the gravel.

J. T. Gullahorn appeared before the commission and asked for a reduction of taxes on the property belonging to him, across the street from the Gullahorn Motor Co. It was agreed that if he would pay the delinquent taxes on the property in the near future, he would be given a "square deal" provided he went ahead and erected a fireproof building, as planned.

It was decided not to grant any licenses to medicine shows or the like, because, said the commission, they were more detrimental to the welfare of the town than beneficial.

The commissioners present were Brown, Mayor Hodges, Teal, and Brashier, Commissioner Terrell being out of the city.

Ranger Retail Merchants Asso. Elects Officers

The new board of directors of the Retail Merchants Association met in their offices in the Ranger State Bank building, Monday, and the following officers were elected for the year 1925-26:

J. M. White, President; A. Davis, vice president; W. W. Housewright, treasurer; Alice D. True, secretary.

During the past year, the association has collected in slow and bad accounts and checks about \$3,750; answered several thousand inquiries; both locally and out of town; have saved the merchants several hundred dollars which they might have lost if they had not been able to obtain information on people who do not pay promptly or who make it a point to work the various merchants out of all possible.

Mrs. True, the secretary, said: This is a business organization and we earnestly ask the cooperation of every merchant, whether of not they have become members in helping those secure credit who are deserving, and protecting each other against those who are not worthy of credit. We also invite all the people in Ranger or those who have not established credit, to file with us their names, addresses, former address and any references or other valuable information, and we will be very glad to assist you in any way possible to secure credit accommodations.

LAWYER FOR ACCUSED MEN DECLARES IT "FRAME UP"

LOS ANGELES, June 3.—The alleged plot to kidnap Mary Pickford and other film stars was a "frame up", designed to "reflect glory" on the Los Angeles police department, it was charged this afternoon S. S. Nehn, noted criminal lawyer.
 Nehn is attorney for C. A. Stevens, Claud Holecomb and Adrian J. Wood, held on suspicion of conspiracy in what police claim was a gigantic scheme to abduct Miss Pickford, Jackie Goggan, Polo Negri and the grandson of E. L. Doheny oil magnate.

GRAND OINTMENT MAKES PIMPLES AND BLOTCHES GO

Ever since the introduction in this country of the wonderful Black and White Ointment, and Soap, skin specialists say that such troubles as pimples, blotches, bumps, rash, tetter, eczema, "breaking out," etc., are becoming fewer every year.

Wide distribution of Black and White Ointment, and Soap, has made it possible for millions of people to get the benefit of this wonderful, quick effect in clearing disfigured skin and making it smooth and good to look at. Dealers everywhere say they are selling faster than anything of a similar nature they have ever handled, and they attribute this popularity to the low prices at which they are sold, as well as their dependability. The 50c size Ointment contains three times as much as the 25c size.—Advertisement.

Army Supply Co. Changes Its Name to S. & S. DRY GOODS CO. Gigantic 10 Day Sale Starts Thursday

The Army Supply Co. of Ranger is changing its name to the S. & S. Dry Goods Co. this week, owing to the fact that many people have mistaken this store for a regular army store, handling army supplies. The management of the store will not change, nor the quality and grade of merchandise, simply the name. We are putting on a ten-day sale, starting Thursday, June 4th, and we invite the people of Ranger and surrounding communities to come and take advantage of some real bargains. We handle Ready-to-Wear, Dry Goods, Shoes, Hosiery, Notions, and everything any other department store handles. We assure you friendly accommodations, and sincere appreciation of your patronage.

 Dinner—Veal cutlets with tomato sauce, baked potatoes, beet greens, jellied vegetable salad, chocolate bread pudding, graham bread, milk, coffee.

Baked Hominny
 Three-fourths cup fine hominy, 1 cup boiling water, 1 teaspoon salt, 2 cups milk, 4 tablespoons butter, 1 tablespoon sugar, 1 egg.
 Add salt to boiling water and slowly add hominy, stirring constantly. Boil over the fire for two minutes. Then put over hot water and cook until water is absorbed. Stir in one cup of milk and cook over hot water for one hour. Remove from heat, add butter, sugar, remaining milk and egg slightly beaten. Beat well and turn into a well-buttered baking dish. Bake one hour in a slow oven. Serve with a milk gravy made in the pan the ham was broiled in. Young children must not be given this gravy.

WOMAN WANTS LAW GIVING HOGS PREFERENCE OVER DOGS

AUSTIN, June 3.-Governor Miriam A. Ferguson has been appealed to by one of her sex living at Cleburne, to "limit the number of dogs a man can raise." The appellant told the woman governor that she would appreciate it if a law could be passed forcing the men to raise more hogs and fewer hound dogs. "My husband has raised seventeen dogs since last December and we haven't a hog on the place," the woman wrote. "Also there is a man at Venus, Texas, who has forty gray hounds. Just imagine what an improvement it would be if it were that many hogs," she added.

Board Bill for Nation's Moths \$100,000,000 a Year

We are paying \$100,000,000 a year to feed our moths—a sum large enough to buy the 4,000 fighting airplanes that General Mitchell wants for national defense.

This startling statement is made by students of the moth problem, who claim that moth damage costs the nation a staggering sum annually. They demand a concerted effort to stamp out this astounding economic waste.

Albert Parsons Sachs, a prominent New York consulting chemist, who is a life member of the Swiss, Dutch, Belgian, French and British Chemical Societies, declared recently before a meeting of Philadelphia textile experts that the only effective measure that could be taken against these household pests was the impregnation of fabrics with chemicals that made them resistant to moths.

Most of the popular measures taken against moths, such as cedar chests, moth bags, camphor, naphthalene and other odorous treatments, are largely ineffective, according to Mr. Sachs.

"It is true that the close fitting construction of cedar chests makes it difficult for moths to reach the contents," Mr. Sachs declared.

a—Moth in harmless adult stage
b—Moth in destructive worm or larva stage

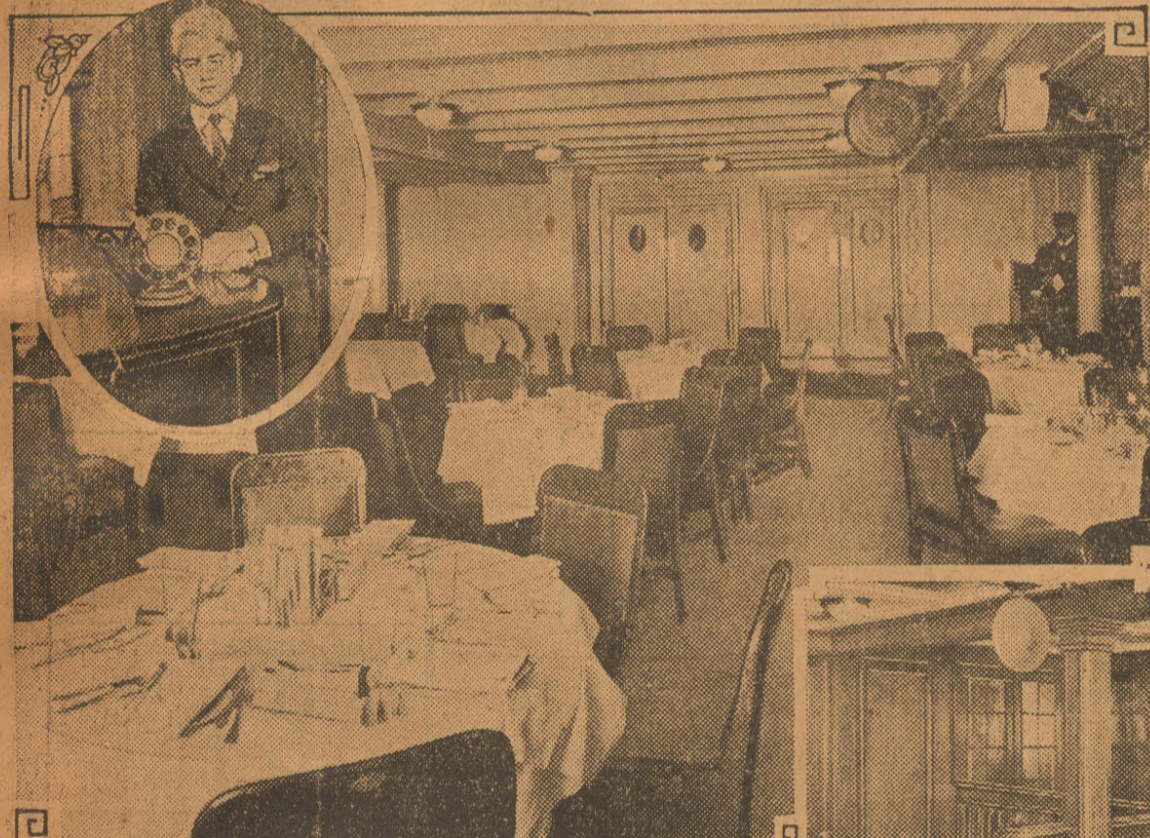

"But once they do get in, they pay little attention to the celebrated cedar wood aroma. The same is true of moth bags. They also make entrance difficult for the moth, but once this pest gets in, he achieves his purpose despite the odor.

"Moth preventives such as camphor, naphthalene and other odorous oils and solids are only effective when employed in quantities and in absolutely airtight containers. As commonly used in trunks and drawers they do not even annoy the moth. In fact, one French scientist was able to breed moths in a vessel containing naphthalene.

"The adult flying moth eats nothing. The damage is done by the worms or 'larvae' hatched from the eggs she lays. When newly hatched a moth worm is about one-fiftieth of an inch long. The only effective means to fight the moth in this destructive larva stage is to treat the fabric so that it is distasteful or deadly at the first nibble.

"Chemical solutions have been recently introduced to accomplish this end. Applied to the fabric while woven, or sprayed on the fabric in the home, these chemicals represent the only efficient and scientific method of preventing moth damage. When this method is nationally adopted by housewives, we will have eliminated the cost of feeding America's moths."

Phantom Orchestra Plays to Diners

Insert: Edwin Franko Goldman, Famous Bandmaster. The Leviathan's Second Class Dining Room With Its Invisible Orchestra. Below: Loud Speaker On Deck "D".

On the steamship Leviathan science has been called upon to help passengers in the second class dining room share the pleasures of the first class dining room. The music, which is one of the attractions of which the vessel is proud, would naturally be limited to the hall where the orchestra happened to be playing.

But a Public Address System has abolished the natural limitations. A microphone, suspended near the music gallery in the first class dining room, picks up all the precious sounds which are amplified by vacuum tube amplifiers and then carried to the second class dining room. Here,

away from the actual presence of the orchestra, passengers have exactly the same music as the diners who are within sight of the musicians.

The system was installed on the giant liner by Western Electric engineers, and a jury of distinguished musicians listened to the trials to determine whether the quality of the reproduction was satisfactory. Edwin Franko Goldman, the bandmaster, was unofficial foreman of the jury. He was distinctly impressed as he stood in the second class hall and heard the program as amplified and projected by the Public Address System. The enthusiasm of all the

jurors left no doubt of the fact that second class passengers will have as perfect music as the first class.

The use of this scientific apparatus on a steamship has been limited heretofore to a few temporary occasions. Now it is a permanent part of the greatest steamship in the world.

DID YOU EVER STOP TO THINK

By E. R. Waite, Secretary Shawnee, Okla., Board of Commerce.

That newspaper advertising has stood the test of time. That it possesses unusual merits as a business getter. That it pleases the people in its appearances, appropriateness and service. That quality goods well advertised, appeal to the good sense of all the people because of their practical economy. That the people know that business concerns who advertise keep step with progress. That stores who keep step with progress, carry merchandise that is in popular demand. That as these stores progress in popularity, newspaper advertising plays a big part in their progress. That newspaper advertising helps in increasing good-will for a business. Advertising creates a buying confidence; a confidence which means that buyers get a dollar's worth for a dollar spent.

MARIMBA BAND SHARES HONORS WITH SPEAKER

Judge George D. Alden Pleases Chautauqua Audience; Fine Programs Today.

"La Joya Guatemala" the national Marimba band from Guatemala, South America, proved to be a distinct and enjoyable surprise to Ranger chautauqua patrons who attended the fourth day of the circuit performances yesterday. The small bronzed Central Americans proved capable of rendering sacred music and of thoroughly interpreting the American dance numbers on their own instruments that was a revelation to those who crowded the Lib-

erty theater. The Marimba band was brought from Guatemala for the purpose of making an extended tour of the United States and were persuaded to go on the chautauqua circuit before starting its own tour.

The Marimba band was on the program both afternoon and night, precluding a wonderful lecture on America by Judge George D. Alden.

Today's program will be one of the choice numbers on the circuit, "Forty Five Minutes From Broadway," for tonight only. The afternoon program will be given by the Shannon quartette and the Stratford trio.

The final day's program, tomorrow, will be "Fathers and Sons' Day." The afternoon program will be given further enlightenment by the addition of R. B. Ambrose to the act of the first two.
