

His style shows the man. Whether in speaking or writing, a gentleman is always known by his style.—From the Latin.

THE WEATHER West Texas, tonight and Saturday, partly cloudy to cloudy.

OLDEN'S NEW OIL WELL BEST BROUGHT IN

TRIAL OF MRS. FRANK COLLIER NEARING CLOSE

Mrs. Frank Wood, State Witness, Brought Into Courtroom on Cot.

HASKELL, May 29.—The fate of Mrs. Frank Collier, on trial here in connection with the death of her son-in-law, will be placed in the hands of the jury late this afternoon.

The jury was instructed to bring in a verdict of murder or complete acquittal. While circumstantial evidence was called to their attention, it was instructed against return of a manslaughter decision.

State counsel, in their argument, called attention of the jury to statements attributed to Mrs. Collier by Mrs. Frank Wood of "killing" Elzie herself unless Collier did."

Special Correspondence.

HASKELL, May 29.—After the defense had waived its constitutional right to a public trial while Mrs. Frank Wood, chief witness for the state, was testifying, Mrs. Wood, who is seriously ill, was brought into the courtroom on a cot. Mrs. Wood had begun her evidence last Tuesday, when she suddenly fainted and had to be removed from the courtroom. Beginning at the point where she left off Tuesday, Mrs. Wood said, replying to questions, that one day while at the Collier home Mrs. Collier had remarked to her that "Buster didn't leave Mary Frances alone she was going to have Mr. Collier kill him," and again during the summer of 1924 that Mrs. Collier had said in her presence that "she had rather see Mary Frances in her coffin than married to Buster."

After the killing Mrs. Collier, she testified, had said that if "Collier hadn't killed Buster she would have" or "probably would have killed him herself," the witness testified.

Exact Words Forgotten. "What is your best recollection as to what she said, 'would have' or 'probably would have?'" asked Attorney Alford.

"As to that, I can't be positive," replied witness.

District Attorney Alford proposed to read from the transcript of the testimony given by the witness before the grand jury to refresh her memory, but Attorney Murchison for the defense objected. The objection, however, was overruled and a paragraph from the transcript was read.

"Did you at any time discuss with Mrs. Collier what her objections to Buster were?" asked Attorney Alford. This was objected to by the defense and the question was withdrawn.

Cross-examined by Attorney Francis for the defense, the witness testified that Buster and Mary Frances were secretly married in Oklahoma and six or seven months passed before it was generally known. The first conversation with Mrs. Collier occurred before it was known that the couple had married, she said.

Figuratively Speaking. "Did Mrs. Collier make the statement that she would get Collier to kill Buster in a jocular way in a serious manner?" asked the defense attorney.

"I figured she was talking in a figurative way," replied the witness. "People are always saying I will kill this one or that one and I never dreamed that she meant what she said."

Witness stated that after the killing she went to the Collier home to get some money to purchase stockings for Mary Frances, who was staying elsewhere. Witness said Mrs. Collier was crying and said that "she felt that the killing was justified, and that a different light would be thrown on it when people heard their side of the story."

The defense attorney read a paragraph from the testimony of witness given before the grand jury in which she said that Mrs. Collier had said that "if Buster didn't leave Mary Frances alone she was going to have Collier kill him or knock him in the head." Witness was asked if it was correct, and replied that it was.

The witness was carried from the courtroom at 10 o'clock and the state announced that it would rest.

Defense Rests. Frank Collier, husband of the defendant, former mayor of Wichita Falls, was the only witness called for the defense and the court sustained objection to his testifying on the ground that he had been tried and convicted of manslaughter and sentenced to three years in the penitentiary for killing "Buster" Robertson. After a consultation between the attorneys, both state and defense closed.

Judge Bruce W. Bryant ordered the jury taken out, instructing the members of the panel that he would recall them to the courtroom when he had prepared his charge when it might not be until Friday morning. All witnesses were excused and court recessed.

New Senator

George H. Williams of St. Louis has been appointed United States senator from Missouri, succeeding the late Selden P. Spencer.

Court Cancels Oil Leases of Doheny On Naval Reserves

Special Correspondence.

LOS ANGELES, May 29.—Decision in favor of the United States government which sued to cancel contracts and leases by the Pan-American Petroleum and Transport Co., and the Pna-American Petroleum Co., in the Elk Hills Naval Reserve, California, was announced Thursday by Federal Judge Paul J. McCormick.

This was an equity suit against the Doheny oil interests, which opened here Oct. 24, 1924, and continued several weeks. It was the first case brought to trial of those arising from the investigation by the United States senate into the naval oil reserve leases. The government asked cancellation of two contracts and two leases which provided for operation of wells in the Elk Hills reserve No. 1, and the construction of tanks, pipe lines and pumping facilities for the storage of 1,500,000 barrels of fuel oil at Pearl Harbor naval base, Hawaii, for the deepening of Pearl Harbor and the building of docks.

Plans were under way today to appeal the case to the higher courts.

Practically all the disputed points were decided in favor of the government. The court held the government is entitled to cancellation of the lease given Doheny, both on account of fraud and conspiracy, and because of the illegal transfer of control of the naval oil reserves to the department of the interior.

The court held that payment of \$100,000 by Doheny to Fall constituted fraud upon the United States of America.

This decision marks the first big victory for the government growing out of the resolution relating to the naval oil reserve leases in the senate at Washington more than a year ago, when congress investigated the leasing of the Teapot Dome and Elk Hill reserves.

Miss Wanda Drago Is Married in Fort Worth To Dr. Claude Beahl

Special Correspondence.

FORT WORTH, May 29.—Miss Wanda Drago, Eastland, and Dr. Claude Beahl, Sweetwater, were married in Fort Worth Saturday night and are now visiting the bride's parents in Eastland.

Mrs. Beahl was a piano teacher at Texas Woman's college the past year and received her diploma there the year before.

Dr. and Mrs. Beahl will make their home in San Angelo.

Rising Star Women Win College Degrees

Special Correspondence.

RISING STAR, May 29.—Mrs. Frank Robertson has returned from Brownwood, where she received her A.B. degree from Howard-Payne college. She states that she will not teach again next year, but will enter Southern Methodist university at Dallas to take further work on an M.A. degree, having already done considerable work in the University of Oklahoma and also the University of Chicago.

I-G. N. TRAIN WRECKED, 3 MEN KILLED

Eleven Coaches Derailed Near Longview; Scores of Persons Injured.

By United Press.

LONGVIEW, Texas, May 29.—Three persons are known to have been killed and a score were injured in the wreck of the International-Great Northern Sunshine Special, Galveston to St. Louis, which left the track and plunged down an embankment near here last night.

The dead are: Leon Tarbutton, 65, Palestine, engineer; S. H. Griffith, 35, fireman, Palestine; one negro.

L. B. Howard of Palestine, train auditor, and R. E. Foster of Jacksonville were slightly injured, and J. B. Whitty of Fort Worth sustained a broken back and was sent to the hospital in Marshall.

The majority of the injured were negroes, advices said, as the negro coach was nearer the head of the train. Eleven coaches were derailed.

The train, which was running late, left the track at a curve. Wrecking crews from Marshall and Palestine were on the scene early today and the tracks had been cleared by noon.

Hugo Gets Funds For Her Shopmen, But Without Bank

By United Press.

HUGO, Okla., May 29.—Partial relief in the financial situation was established today when the First National bank of Boswell, Okla., near here, sent a representative with enough funds to pay off employees of the Frisco shops here. Hugo has been without a bank since the failure of the City bank last Thursday.

It was at first thought a branch bank was being established here, but after paying off shop employees the representatives went back to Boswell.

A&M Commencement Exercises to Begin At College Today

By United Press.

COLLEGE STATION, May 29.—The forty-ninth annual commencement exercises of the A. & M. college of Texas began today. Marked by elaborate celebration, the exercises will last until next Tuesday.

Having completed courses in engineering, agriculture, veterinary medicine, general science and military science, 244 men will receive their degrees.

Scheduled for tonight was the junior class dinner and dance in the auditorium. The dance and dinner this year takes the place of the annual class war with the sophomores, bearing out the wishes of administrative officials.

Saturday morning competitive drills executed by military companies will be the program and Saturday evening the senior class will present its annual drama, "Oscar Wilde's 'The Importance of Being Earnest.'"

Rev. I. E. Gates, pastor of the First Baptist church of San Antonio, will deliver the baccalaureate sermon Sunday morning. Monday will be alumni day.

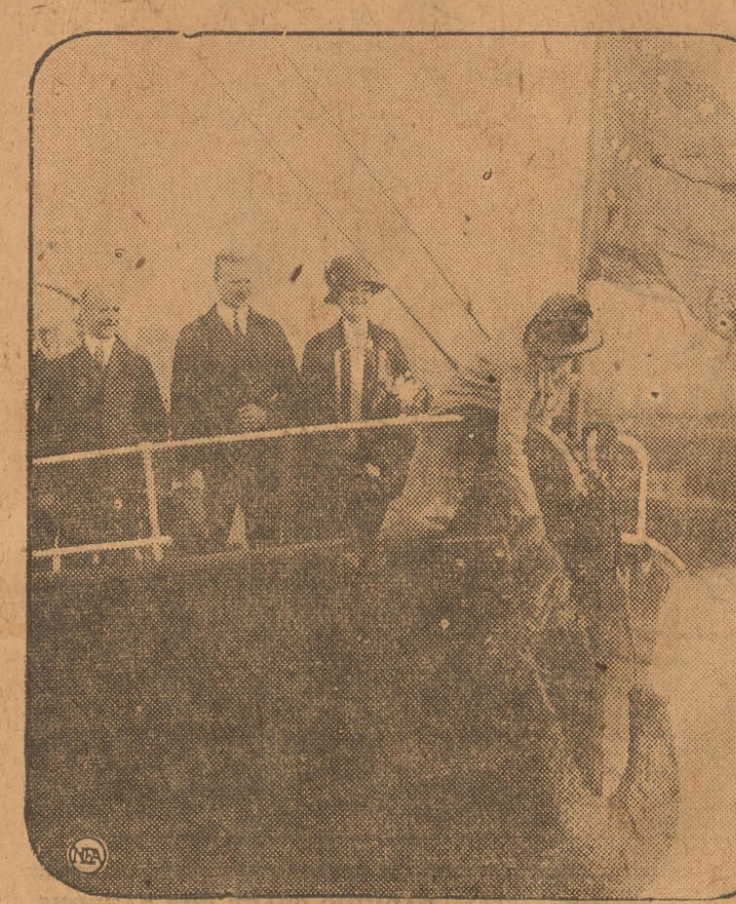

Tuesday morning Representative Tom Connally of the eleventh congressional district of Texas, will deliver the commencement address. Cadet Major W. R. Frederick of Fort Worth, will give the valedictory address and F. M. Law of Houston, president of the A. & M. board of directors, will confer the degrees.

After the last diploma has been received a call of taps will be sounded for seniors. They will not take their customary places in the military formation but will assemble to one side to receive a final salute from their commands.

BONES OF DEAD MINERS BROUGHT TO SURFACE

SANFORD, N. C., May 29.—Thirty bodies have been recovered from the shaft of the Carolina Coal company's mine near here, and all hope of rescuing alive any of those men trapped in the mine by the explosion have been abandoned. Probably 24 bodies are yet to be brought out of the mine.

Polar Ship Christened

Mrs. Marie Peary Stafford, the "Snow Baby," so named because she was born farther north than any other white woman, and the daughter of the late Admiral Peary, christens at Brooklyn, N. Y., the plane carrier Peary, which will be used by the MacMillan Arctic expedition.

The group, from left to right, are Dr. Donald B. MacMillan, Robert E. Peary, Mrs. Peary (widow of the explorer) and Mrs. Stafford.

Norway Organizing Relief Party to Search Arctic for Amundsen Party

By United Press.

OSLO, Norway, May 29.—A meeting of the Norwegian cabinet was called for today to discuss the question of relief for the Amundsen-Ellsworth polar air expedition.

Norway desires to take the lead in relief measures for the north pole aerial fliers, it was emphasized today, but a look-out by the American MacMillan expedition will be appreciated, it was said. The United Press learned that preparations for the Norway relief expedition are in full swing. Fliers are in readiness, the same who were at Spitzbergen in 1923 when Amundsen's proposed flight from Alaska across the north pole was postponed.

Since Amundsen left instructions that several weeks might elapse before any anxiety need be felt for his party, the relief fliers for the next fortnight scout the Arctic waste near the Spitzbergen base.

Pershing May Be Asked to Act as Arbitrator in Dispute

By United Press.

BERLIN, May 29.—The allies, according to reports in diplomatic quarters, contemplate inviting General Pershing to accept the position as arbitrator in the Allied-German controversy.

"Pershing would not be unwelcome to Germany," defense minister Gessler told the United Press today. "Asked how he would view the calling in of the American commander to determine the status of Germany's armament, he replied: 'I cannot answer directly, because the question not only affects my ministry, but also others, as well as the individual German states. Personally, however, I can say that Germany has always welcomed America's efforts to settle European difficulties.'"

RADIO PROGRAM

WFAA, Dallas, 475.9 Meters. Friday, 4:30 to 5 p. m.—Woman's hour, with varied program. 6:30 to 7:30 p. m.—Roy Leffingwell's orchestra in popular music recital. 8:30 to 9:30 p. m.—Musical recital by William DeBorde, baritone, and assisting Dallas artists. L.). 8:30 to 10:45 p. m.—East Broadway String band, playing old time music. (W. E. B.). Saturday, 1 p. m.—R. G. Dun's business report. 7 p. m.—Review of the interdenominational Sunday school lesson by Mrs. W. F. Barnum.

GOVERNOR FERGUSON GRANTS FIVE PARDONS

By United Press.

AUSTIN, May 29.—Five conditional pardons and one restoration of citizenship were granted today by Governor Ferguson.

Ferry in Houston Ship Channel Rammed, One Man Is Drowned

By United Press.

HOUSTON, May 29.—F. C. Schramm, 77, was drowned and 11 other ferry passengers thrown into the water at the ship channel late yesterday when the ferry was rammed by the tug Helen Henderson. Schramm was a watchman on his way to work.

CHAUTAQUA IN RANGER BEGINS PROGRAM TODAY

Parade of Youngsters Thursday Afternoon Arouses Interest.

The Chautauqua program for Ranger opened officially today, but was headed in advance by a parade yesterday evening. The parade was staged by the youngsters of Ranger, who were organized under the director of the Junior Chautauqua. Youngsters in costumes of every description conceivably followed the Ranger fire truck, on which two fairies were perched. Four decorated cars followed the procession of costumed boys with the prize winning costume awarded to one youngster wearing a barrel with the sign, "I sold by clothes for a ticket to the Chautauqua," inscribed on it.

Advance ticket sales with season tickets started in earnest today with the committee from the business men combing the town. Although the tickets have been on sale for the last few days the real drive started today and tickets may be obtained until the middle of the week. The price of tickets for the season are \$2 for adults and \$1 for children. Many of the programs are listed at \$1 each and the wise persons who intend to see more than two of the programs will buy a season ticket.

Scheduled to open the week's performance this afternoon and tonight are the Cathedral choir, afternoon and night, and Herbert Leif Cope for tonight only. Saturday, J. P. Burns, "Burns of the Mountains," will be on the program in the afternoon and the farce comedy, "Give and Take," at night.

Furniture Makers Face Anti-Trust Charges In Court

By United Press.

CHICAGO, May 29.—Between 300 and 350 furniture and refrigerator manufacturers in all parts of the country will be indicted here today by the federal grand jury on charges of violating the Sherman anti-trust law, it was indicated today at the federal building.

This will climax several months of investigation by secret agents of the department of justice of charges that furniture manufacturers are operating under a trust to keep up prices. They have been questioned by the grand jury for nearly a month, a total of about 2,000 witnesses having been summoned.

The indictment charges price fixing and curtailing of production to maintain high prices and destroy competition. About 2,000 dealers were cited before the grand jury and books from scores of concerns were seized in the hunt for evidence to support the charges.

The refrigerator and chair concerns are charged with unlawful price fixing and the third group, cabinet makers, case goods, radio manufacturers, clock cases, dining and bedroom furniture, are charged with price fixing and curtailment of production. Investigation was started several months ago to determine the why of high furniture prices.

Big Flow of Gas Near Rising Star

Special Correspondence.

RISING STAR, May 29.—A flow of gas estimated at 2,500,000 cubic feet has been encountered by the Mon-Tex company's No. 3 Goss well six miles east of this city and 300 feet from the old Goss No. 1. The strike was made at a depth of 2,743 feet. The strata of gas was drilled through Tuesday and the well will be drilled down to the 3,200-foot sand where pay was struck in the No. 1.

GREENVILLE MAN PLEADS GUILTY TO CHARGES

By United Press.

DALLAS, May 29.—William H. Camp, formerly cashier of the Greenville Commercial National bank, today was sentenced to two years in Leavenworth penitentiary. Camp pleaded guilty to charges of embezzlement and other banking irregularities.

WELL AT OLDEN IS FLOWING 360 BARRELS DAILY

Magnolia Shoots Hole at 1,588-Foot Depth, Bringing in Good Producer.

Drilling into the pay sand last night, the Magnolia Oil company this morning shot its Allmon No. 3, on the edge of Olden, at a depth of 1,588 feet, and within a half hour oil was flowing at the rate of 15 barrels an hour, or 350 barrels daily, and the flow appeared to be increasing.

This well is just a short distance east of north from the railroad station at Olden. It is said to be the best well brought in at Olden, where the shallow sands have been arousing interest among oil men for several months.

The Scott No. 4, on the Pearson lease, also near Olden, which was brought in and shot several days ago, is said to be making around 60 barrels of high grade oil daily.

SHALLOW SAND TO BE TAPPED FOR PRODUCTION

Barkley and Others to Drill New Well Adjacent to Pritchard No. 2.

The condition of H. F. Chriswell, tool dresser, burned Wednesday night, is favorable, according to Dr. W. C. Palmer, attending physician. Chriswell was seriously burned about the face, neck, arms, hands and back in the blaze that destroyed the rig of the Pritchard No. 2 of Barkley and others, located about 7 miles northwest of Ranger.

Work on rebuilding the burned rig was almost completed yesterday and the drilling will be resumed at once. The well is now down about 2102 feet, after having trouble in shutting off the flow from a shallow sand encountered at about 2,000 feet. Another well is to be drilled to tap the 2,000-foot pay.

The new shallow pay formation struck in the Pritchard well has been encountered in the other wells farther west, but with the production now extending in a southerly direction, it is thought by many operators that the shallow pay runs in a southeasterly course and will eventually average about 300 barrels per day. The flow from the Pritchard well was estimated at about 100 barrels a day.

Two different pay formations are now available for operators who have leases in that territory, making them doubly valuable, and indications point towards the goal of the new pool becoming more valuable and better than any uncovered during the hectic boom days, when numerous wildcat and fake promotion companies gave Ranger the reputation of having an exceedingly spotted production area. Operators claim, that while dry holes are as necessary to the oil game as producers, in order to determine the general direction of the pay formation, the new pool will suffer no ill repute from exploiting as the leases in all available territory are now in the hands of independent operators who operate out of Ranger and are known to all the oil industry.

Manchurian Chieftain On His Way to Peking

By United Press.

PEKIN, May 29.—Mukden messages today recounted that General Chang Tso Lin, the daring Manchurian chieftain, had left for Peking this morning. The report caused much concern here.

GRADUATES OF RISING STAR GRAMMAR SCHOOL NUMBER 24

Special Correspondence.

RISING STAR, May 29.—The Rising Star grammar school turned out 24 graduates this year as follows: Henrietta Alford, Edwina Anderson, Lena Bennie, Linwood Bishop, Annie May Buey, Agnes Bryant, Clark Coursey, Winston Cox, Hazel Glover, Doris Hale, Lucille Inabnet, Lewis Jackson, Harold Kimmel, Jim Lyon, Kanna Jane Lawson, Faye McClothin, Lorene Parker, Bill Shults, Claudis Stovall, Ila Smith, Bernice Taylor, Elmo Thompson, Walter Tomlinson, Johnnie Merle West.

DALLAS BALL PLAYER IS NOT SERIOUSLY INJURED

SAN ANTONIO, May 29.—Charles "Hack" Miller, member of the Dallas Giants, is recovering at a local hospital from injuries received when struck by a pitched ball during the game last Tuesday. Surgeons made an X-Ray picture and report that Miller had not been seriously injured.

**BIBLE THOUGHT.**  
Judge not that ye be not judged. For with what judgment ye judge, ye shall be judged; and with what measure ye mete, it shall be measured to you again.—Matthew 7: 1, 2.

**COMMUNITY PROSPERITY.**  
The prosperity of a community is not measured by population but by its civic loyalty and commercial progress.

A handful of workers achieve more than a regiment of drones—and it is the handful who usually do the things worth while. But what great benefits might result if every man and woman could be listed among the loyal workers.

A great football coach recently declared that if he "had a team of average ability who will work together, each with the other and all for the team, he could defeat any team composed solely of individual stars."

Individual ability counts for much—but it is mass co-operation of energetic determined men, imbued with civic spirit, home pride and community enterprise that builds a community. Such people do not mail their orders and do their shopping in some other town.

Men and women of this city, be ye more than mere residents—be citizens.

**TRAFFIC IN ARMS.**

After two weeks of "jockeying," the international conference for the control of traffic in arms, in session at Geneva, has finally decided to publish arms information in the different countries. Among the war materials exempted from license and publicity includes warships, battleships and submarines, airplanes, armored trains, gun powder explosives and many types of revolvers. The matters left for publicity are necessarily of minor importance.

The controlling factor of the conference seems to be the reluctance of arms manufacturing countries so to hamper their private arms factories with embarrassing restrictions as to international trade in peace time that these factories should fall into decay or disuse, and therefore be unavailable for intensive production in wartime.

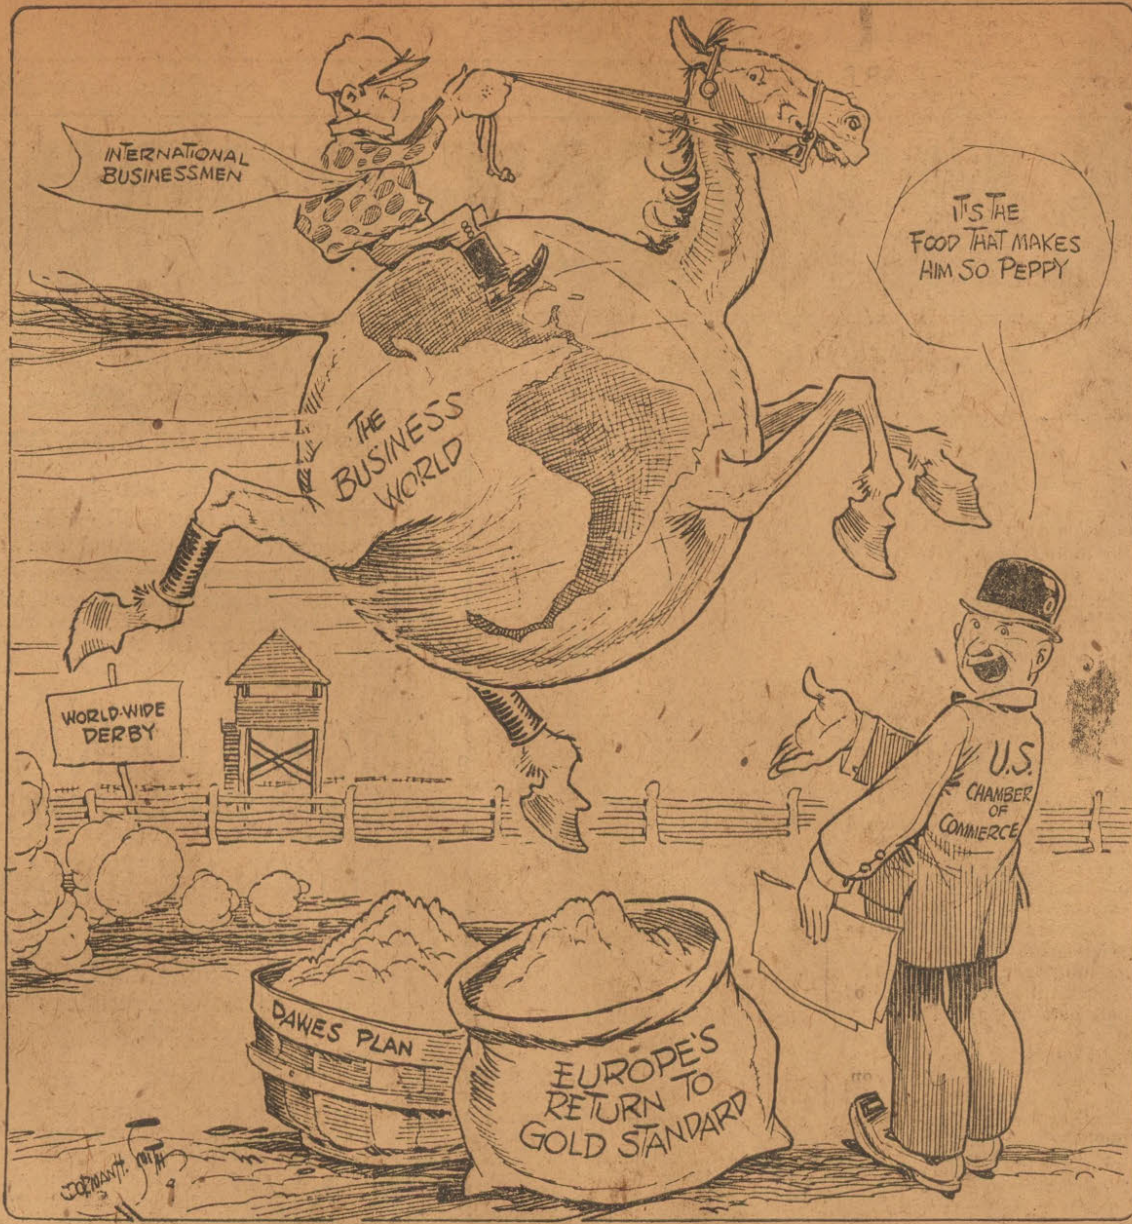

Inasmuch as war probability and preparation is stressed among the smaller nations, because of the lack of any agreements to the contrary, it is now apparent that the nations of the world will go on as usual trying to outdo each other, to the profit of the munition makers.

**TROUBLE LOOMS IN FRANCE.**

The war between France and Morocco, its causes and its purpose, are being pressed for explanation in the French chamber of deputies by the socialists and communists who are opposed to the conflict as unnecessary, holding that the trouble might be adjusted by negotiation. Premier Painleve and his cabinet is hard pressed for an answer, but point out that the determination to fight and preparations for the conflict were perfected last winter under former Premier Herriot.

The situation is extremely critical for the Painleve cabinet and may result in another overthrow. Viewing the preparations, the animosities and antagonisms Premier Painleve declares that European nations are rapidly drifting toward another war. It is because of this condition that England is insistent on getting America into the League of Nations, and it is because of this chaotic condition that certain American statesmen are opposed to this country becoming involved in any manner. They take the position that if America can't help as a free and independent factor, it certainly cannot when bound by rules and regulations.

**CHAUTAQUA IN EASTLAND WILL OPEN TOMORROW**

Three-Day Program, Afternoon and Night, In Methodist Tabernacle.

The local Chautauqua committee announces that the 1925 Radcliffe Chautauqua will open a three-day program in Eastland tomorrow afternoon at 3:30 at the First Methodist tabernacle. There will be two entertainments each day, the second one being at 8 o'clock in the evening. The program consists of 12 splendid lectures and clean, wholesome entertainments at an average cost of less than nine cents for each event.

This afternoon at 4 o'clock and tomorrow afternoon at the same hour a big free junior Chautauqua will be given for children ranging in age

from 6 to 16 years. This will be given on the grounds in front of the High school building.

The committee has gone to considerable trouble and expense in bringing these high class entertainments to Eastland and it is hoped that the citizens of the town will show their appreciation of their efforts by giving a liberal patronage.

The program tomorrow afternoon opens with a concert by Perry's "Ye Olde New England Choir," and a lecture by Dr. Guy M. Bingham.

**FLIER WILL START ON SEARCH FOR AMUNDSEN**

LIVERPOOL, England, May 29.—Plans of Grettir Algarsson for a flight to the north pole have been abandoned and he will concentrate on finding Captain Raold Amundsen instead, it was announced today.

**MRS. STEPHEN GOES TO C. I. A. REUNION**

Mrs. Joseph C. Stephen, president of the C. I. A. club, left today for Denton to attend the ex-students' reunion and banquet, at the College of Industrial Arts. She will be the guest of Misses Alois Da Lee and Leola Bigham, and will be present at the commencement exercises of the college Sunday morning, when 197 students will be applicants for degrees. From there Mrs. Stephen will go to Midland and other points in West Texas, as a guest to a house party, given by several students of the college.

**MOSLAH TEMPLE SHRINERS ON WAY WESTWARD**

Stops of About 20 Minutes Are Made at Ranger and Eastland

Moslah Temple (Fort Worth) Shrine special, en route to the imperial council at Los Angeles, arrived in Ranger today at 12:25 o'clock a. m. as it slowed down, white flannels and blue coats with red fez above started popping out from doors and windows. Ranger Shriner were out in force and from the large number of Moslah fezes adorning their heads it was evident that Ranger is a Moslah temple town and a royal welcome was extended to the visiting Shriner. The special train carried nearly 300 passengers. The band, drum corps and chanters formed in circles on the little park adjoining the Ranger depot and played and sang for the benefit of the crowd gathered to welcome them. Following the concert at the depot, the drum corps and band paraded up Main street and down Pine and back to the train.

The train pulled out of Ranger at 12:30 o'clock, about five minutes behind its schedule, and made a stop at Eastland, where another cordial welcome was given, for about the same length of time as in Ranger, repeating the musical program.

Accompanying the Moslah temple special are Potentate John F. Lyons in charge of the train and with Nobles W. S. Cooke, Frank Taylor and Jake F. Furr, the representatives to the imperial council session from Moslah temple.

Fifteen coaches composed the train and over 250 nobles with members of their families were aboard. The Moslah temple band under the direction of R. Wright Armstrong, famous as the leader of the Old Grey Mare band, were the center of interest along with the chanters under the direction of Sam S. Losh.

**ECZEMA**

You will be compelled to admit that the results of S.S.S. are really amazing!

MANY people imagine that eczema or tetter needs only some external application on the skin in order to get relief. This is because the attention of the sufferer is so violently directed to the intense burning and itching which accompanies this disease. Try as they may—permanent relief will never be theirs until the disease laden blood is thoroughly cleansed.

We know there is one thing that stops eczema and that is more red-blood-cells! S.S.S. builds them by the million! You can increase your red-blood-cells to the point where it is practically impossible for eczema to exist. We know that as blood-cells increase in number, blood impurities vanish! We also know that night follows day. Both are facts! But have you, eczema sufferers, ever actually taken advantage of this wonderful fact? Thousands just like you have never thought about it. Skin eruptions, eczema, with all its fiery, skin digging torture, and its soul-tearing, unreachable itching, pimples, blackheads and boils, they all pack up and go, when the tide of blood-cells begins to roll in! Blood-cells are the fighting giants of Nature! S.S.S. builds them by the million! It has been doing it since 1826. S.S.S. is one of the greatest blood-cell builders, blood-cleansers and body strengtheners known to us mortals! When you put these facts together,—then to continue to have eczema and skin eruptions looks more like a sin than a disease. S.S.S. contains only vegetable medicinal ingredients. Because S.S.S. does build red-blood-cells, it routs eczema, clears the skin, builds firm flesh, fills out hollow cheeks, and gives you that more up and going appearance.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

PEOPLE DON'T ADMIRE ROUGH, PIMPLY SKIN

Before you can impress some one of the opposite sex enough to get them to share the happy state of love with you, you certainly must keep your appearance pleasing and attractive. Pimples, blotchy, eczema skin seems ten times worse to strangers and new acquaintances. And even husbands, wives, parents and kin feel sorry for loved ones who suffer from such skin diseases.

SEEMINGLY ENDLESS SEARCH BY WOMEN HERE IS REWARDED

Many Who Had Given Up and Despaired of Ever Getting Relief Are Now Rejoicing and Praising St. Joseph's G. F. P.

Thousands more women every day are being rewarded for their constant search of that something which they simply had to have to revive their strength, energy and vitality. It is actually a revelation to see the many women who had been worrying through life, day after day and month after month, trying first one thing then the other to get rid of their trouble, who are now released from the clutches of the demon catarrh, which was really the cause of all their misery but they didn't know it.

The delicate generative organs must be free from the catarrhal inflammation which keeps them from being steady, strong and healthy. And the entire system must be kept free from any obstruction such as waste matter in the passages, so the food you eat can furnish nourishment to the delicate organs, nerves, muscles and tissues.

It has been proven beyond a doubt that the use of St. Joseph's G. F. P. quickly overcomes the irregularity, nervousness, irritability, cramps, pains in the sides and back, loss of weight, no appetite, easy to catch colds, and that run-down, don't-care, languid feeling all the time. Many hundreds of girls and women are making public statements every day telling of their happiness and robust health, with plenty of energy and vitality, since they are able to get G. F. P. on account of it being introduced here.

Women Now Depend on St. Joseph's G. F. P. To Restore Their Vitality

May-Day Becomes Child Health Day Rallying Period For the Children

By AMANDA STOLTZFUSS (State chairman May-Day child health program, and lecturer in the bureau of extension of the University of Texas) To the children of the state of Texas: Again the warm, sunny days have come. Everything around us seems to be taking on new life. We, too, feel happier and more joyous. These are the days that lure us out into the sunshine and the fresh air where we may become better acquainted with our Texas birds, trees, and flowers—out under the pretty, green trees where we may play some new games and crown our May queen. Then, I am very sure that your parents and teachers will be glad to celebrate this day with you for they know that "joy and beauty in the fullness of life are the fruits of the flowering of healthy bodies and healthy minds in childhood."

To the parents and teachers of the state of Texas: Since the first day of May has become Child-Health Day, a happy rallying day for the children of the nation, we ask you to join them in a May-Day Child Health celebration. Let us enter upon a democracy of health in which each child, no matter where born or how, may have a right start in life and an adequate protection throughout the years of manhood and womanhood. Let this day, the first day of May, be any early date in May, be a time for taking stock of the things that you consider assets for the protection of your children, and for examining into what other states and communities have done for their children. Thus you may be spurred to demand the best for your own children, and to work to make that best possible. We hope that every community in our state will join this nationwide demonstration of interest in child health and welfare. (For further information, address Miss Stoltzfuss, University of Texas.)

Not Guilty

Lucille Wunsch, 15, was cleared by a coponer's jury at Riverdale, near Chicago, less than 24 hours after she shot and killed Agnes Simmick for being too friendly with William Wunsch, her father. Wunsch and his wife, hit by stray shots, will recover.

make it a less costly form of paving in the long run than are the present materials.

That rubber roads are entirely practicable and highly satisfactory has already been demonstrated. A statement on this point by army officers follows:

"A rubber pavement laid in the city of London in 1870 was renewed for the first time less than two years ago. An experimental rubber roadway laid in a center of heavy traffic at Cuyahoga Falls, Ohio, was found to have worn down only one-eighth of an inch in eleven years. The catanaph at London is surrounded by noiseless rubber paving blocks. Boston is developing its use for bridge surfacing."

On bridges and steep grades where heavy continuous traffic is necessary, rubber has already proved itself not only as the most satisfactory, but most economical form of paving.

With noise rapidly becoming one of the serious problems of city life and the increasing desire of employers to reduce the nerve strain of employees, the advantage of silent rubber streets will decrease the number of accidents and prolong the life of vehicles.

The adhesion between rubber tires and a corresponding type of pavement is so perfect that slipping or skidding does not occur. The normal vibration developed by hard surface is done away with, thereby insuring a longer life to all surrounding structures.

RUBBER MAY BE USED TO PAVE CITY STREETS

WASHINGTON, May 9.—Roads and pavements in the future may be built of rubber, according to engineers here who point out the vast increase in the use of rubber products and the need to utilize waste residue and partly worn and damaged material.

If a sufficient supply of rubber can be secured through such salvaging and also through increase in raw rubber supply, there is no doubt that the country will soon be building its best roads and streets of rubber, these engineers say.

The army is looking into the possibilities of some such development because of its prime interest in good roads as a factor in preparedness.

Rubber is not only less noisy than asphalt and concrete but much more enduring, it is agreed. It may prove to be sufficiently more enduring to

Stewart's Washington Letter

BY CHARLES P. STEWART NEA Service Writer

WASHINGTON—A horse cab was passing. Just to see what it felt like to ride behind a horse again, I flagged it and got in. "Home, James," I told the driver, mentioning the address.

"The cab was of the phonon pattern and no rattle-trap, but spruce kept with a fat, sleek horse between the shafts and a dignified, white-haired, plug-hatted old darky on the box. As we jogged along, he gave me some information.

"De'y's eight of us left in Washington," he told me, "out o' a 'multitude. In summa we does vey well. Num'ous pussons rides with us jes' fo' th' experience, like you all's doin'. An' dey's fairly lib'ral mos' gen'ly, seein', I callate, as we's a novelty, an' dey reckon we oughta be reward'ed commensurately."

"But in winta things gits to'able oleaginous fo' us. Firs' place, ya can't heat dis yeah spece o' veehicles. An' second place, d' taction o' dis yeah asphalt on a hoss's feet gits te'ible when it's col' an' slippy."

"Ain' hossmanship vey dangerous, you ast, with all dese yeah mota cabs? Well suh, it's a fac' dey's a certain type o' homogeneity acts to'able reckless an' some o' 'em I s'pect o' right down m'ignancy. But gen'ly speakin', folks regahds us as a dyn' gen'us an' takes m'iddin' good care o' us."

"Why don't I git me a taxicab?—you all asts me. Lawdy, boss. It's too old to degenerate into no no shoots. Fo'ty-seven yeah I bin d'ivin' hoss cabs in Washin'ton. I reckons I'll keep at it lon's. I lings in dis yeah vale o' synthetic righteousness."

WHO'S entitled to credit for discovering the airplane?—its first discovery? Professor Langley? Or the Wright

brothers? Secretary Walcott of the Smithsonian Institution claims it for the former, Orville Wright claims it for himself and his brother, Wilbur. It belongs to neither, according to friends of Augustus M. Herring, whose application for a patent on a workable heavier-than-air flying machine is on record in the patent office under date Dec. 11, 1896.

E. C. Huffaker, who was Langley's assistant in all his experiments, is authority for the statement that the professor's machine which, after his death, proved a successful flyer, post-dated Herring's "by more than a year." The Wrights did not begin their experiments at all until 1901.

Herring didn't get his patent, however. The examiner refused it, on the ground that he "regarded the apparatus, as a whole, as incapable of practical use."

As good an authority as James V. Martin, world record holder for airplane efficiency, contends that it was perfectly practical. The machine flew, at any rate. Many witnesses testify to it. "We have hardly been able to improve to-day," says Martin, "upon Herring's disclosure in his 1896 patent office application."

Old and ill, Herring is spending his last years in poverty.

JACQUES-DALCROZE of Paris, Geneva and London expects to visit America soon. He's an educator, founder of the school of "rhythmic expression," which seeks to train mind, voice and body simultaneously. In Europe, where his method has a wide vogue, he's a famous man. Here he isn't known so well, but his expected visit, on the invitation of the Maret French School, in Washington, where his system is followed, may make him so.

Where Dawes Will Live

Charles Dawes, vice president, has leased the above home at 1629 Belmont street, Washington, D. C., where he and his family will reside during his term in office.

DID YOU EVER STOP TO THINK

By E. R. Waite, Secretary Shawnee, Okla., Board of Commerce.

That it is surprising to note how many old cities are taking on new life.

That at last they have realized the possibilities of their location and resources.

That they are showing a demonstration of faith in their city that will mean a great development.

That they are going ahead building for the future and will keep step with the constantly increasing commercial and industrial growth of a modern city.

That you should do your best to promote your city and its interests.

That your city will win through merit—it will fulfill all promises made.

That you should plan ahead and help to put your city in a class by itself.

That you don't want just a place in which to live, but you want a home city, a busy city, a good city in which to live and make a living.

That the foundation for a successful city is for it to be a city of homes; that are places of comfort and beauty—places that make home life a genuine pleasure.

To give it great development, all citizens should get behind the better business movement. Better business builds better cities.

Eastland County Court-at-Law Case Continued by Court

Judge Ely of the Forty-second judicial district, sitting at Abilene, Thursday, continued the case of the State of Texas vs. Lawrence et al., in which the validity of the Eastland county court-at-law is being contested, and ordered both sides to furnish the court with written briefs not later than next Monday.

DREADFUL PAINS

Georgia Lady, Who Had Lost Too Much Weight, Was Advised to Take Cardui and Is Now Well.

Columbus, Ga.—Mrs. George S. Hunter, of this city, writes: "After I married, thirteen months ago, I suffered with dreadful pains in my sides during ... My side hurt so bad it nearly killed me. I had to go to bed and stay sometimes two weeks at a time. I could not work and I just dragged around the house."

"I got very thin—I went from 125 pounds down to less than 100. My mother had long been a user of Cardui and she knew what a good medicine it was for this trouble, so she told me to get some and take it. I sent to the store after it and before I had taken the first bottle I began to improve."

"My side hurt less and I began to improve in health. ... The Cardui acted as a fine tonic and I do not feel like the same person. I am so much better. I am well now. I have gained ten pounds and am still gaining. My sides do not trouble me at all. "I wish every suffering woman knew about Cardui."

Take CARDUI THE WOMAN'S TONIC

Billy Evans Says

**SOUTHPAW'S FAIL**  
THE southpaws have disappointed during the first month of the major league races.

Prior to the start of the season, practically every big league club with the exception of the Chicago White Sox, boasted a pitching staff topheavy with left-handers.

Eddie Collins bemoaned the fact that he had only one port-sider, Mike Cyengros, and there was a question as to whether he would be able to place as a regular.

As a matter of fact, Collins frankly admitted that in hoping for success, he was more or less playing a hunch. He doped it that since so many clubs had from two to four left-handers, some of the novelty of that style of pitching might wear off, lessening its effectiveness.

If such proved to be the case, he figured his pitching staff, dominated by right-handers, might be that much more efficient.

So far Collins has gotten a good break in this respect. His capable right-handed pitching staff has kept his club in the first division.

FORM REVERSAL

LAST season at this time, Yde, the youthful southpaw of the Pirates, was the sensation of the National League. This year he turned in only one win in his first six starts.

During the first month of play, the veteran Cooper, one of the craftiest southpaws in the business, was unable to win a single ball game for his new club, the Chicago Cubs.

Two such sterling left-handers as Eppa Rixey and Rube Benton annexed only three victories in a dozen games in which they figured, Rixey doing all the work, getting an even break with three wins and as many defeats.

A similar condition exists in the American with a few exceptions. On the whole the work of the southpaws has not come up to the expectations of most of the managers.

Last season there was an epidemic of southpaw pitching and it was uniformly successful. In the world series, southpaws were very much the whole thing, particularly from a Washington standpoint. The veteran port-siders, Mogridge and Zachary, featuring:

The season of 1925 has produced a reversal of form on the part of the southpaws. Only a few have been able to win consistently. Perhaps the theory of Eddie Collins that the novelty had worn off is correct.

WELLS AND BARNES TO GO ON TRIAL MONDAY

The sheriff's department stated this morning that more than 80 witnesses had been summoned in Eastland county for the trial of Harvey Wells and A. F. Barnes, of Ranger, which is scheduled for Monday in the district court of Stephens county at Breckenridge. Barnes and Wells are to be tried on felony charges.

Descendants of History Characters

Descendants of prominent characters of early American history met in Lawrence, Kan. for the first time in more than a century when John Maxon, center, great grand-nephew of Meriwether Lewis, who commanded the Lewis and Clark expedition, met Bernice (left) and Esther Burnette, great grandchildren of Sacajawea, famous Indian guide. The sisters are grandchildren of Baptiste, the baby born to Sacajawea on the expedition, and whom she carried on her back from Fort Mandan to the Pacific ocean.

U. S. Perfecting System For Control Of All Highway Traffic In Country

WASHINGTON.—Motorists traveling on trans-continental highways will be warned of railroad crossings, treacherous curves and other danger points by signs painted in bright yellow, if plans tentatively drafted by the joint board on interstate highways are adopted.

A system of uniform marking, routing and numbering of all interstate roadways was recommended by the board after its recent sessions here and announcement of the recommendations was made today by the department of agriculture, which is sponsoring the movement.

A complete draft of the recommendations has been forwarded to the highway control departments of all states for approval or amendatory suggestions. Regional meetings will be called at New York, San Francisco, Kansas City, Chicago, Atlanta and Boston during the next two months for the purpose of acting upon the board's proposals. Action taken at these meetings will be reviewed and correlated when the joint federal and state board meets again early in August.

Under the tentative plan adopted by the board all interstate roadways would be designated by numerous uniform markers in the form of shields with white backgrounds and upon which "U. S." would be lettered in black. Large numerals on the shields would identify the route.

Danger signs at all railroad crossings would be octagonal in shape and warn the traveler to stop. A diamond shaped sign would warn the driver to slow down while a square sign would caution him to "look" or attention. Directional and informational signs would be rectangular in shape.

Colors tentatively adopted for non-luminous signs are yellow for warning and danger signs and white for directional and informational signs. All lettering would be in black.

For luminous and reflecting signs the colors tentatively agreed upon are red for danger, yellow for caution and green to indicate "go."

Standardization of the sizes of all signs and the lettering on them will be referred to a subcommittee of the board.

### MEMORIAL DAY SERVICES WILL BE HELD SUNDAY

Program Arranged to Be Held In Liberty Theatre and At Cemetery.

Memorial day services for the boys who gave their lives in defense of their country will be observed with fitting services by the Carl Barnes post of the American Legion of Ranger, Sunday afternoon at 3:30 o'clock, starting at the Liberty theater and ending at the Ranger cemetery.

Veterans of the various wars of the United States, including the world war in which several services men who died overseas are buried in the little plot of ground designated for the purpose and known as the Carl Barnes graves.

Services will be held Sunday, although Saturday is memorial day. Indications are that many Ranger people will gather to pay homage to those who went to their reward fighting bravely for the United States and their loved ones. Every member of the Carl Barnes post and ex-service men who are not members are urged to wear their uniforms, if possible.

The principal speaker of the day will be J. A. Burns, chautauqua lecturer, who is an ex-service man himself. James A. Burns, "Burns of the Mountains," with his quaint speech and rugged form. He is president of the Oneida institute of Kentucky. It was he who ended the Clay county feud, immortalized by dozens of American writers.

All persons desiring to bring flowers with which to help decorate the graves are urged to do so by members of the Carl Barnes post. Memorial day comes but once a year, and the silent tribute to the ones who gave their lives for those who are today living in the United States, is fitting and proper.

The program arranged for Sunday afternoon is: Invocation, Rev. A. L. Leake; America, congregation and band; remarks, Post Commander Dr. H. A. Logsdon; solo, Mrs. B. T. Granger; address, J. A. Burns; patriotic solo, Mrs. M. F. Peters; quartette, Central Baptist church; brass and vocal octette; Star Spangled Banner, congregation and band.

Leave for Evergreen cemetery, where the graves will be decorated with flowers and services held over the graves.

Boutonnieres composed of three flowers of varying shades are new. Sometimes three carnations, one deep pink, one pinkish beige and one red are worn. Another new boutonniere is the bunch of violets with a pink moss rose in the center of the bunch. Recently women have been wearing artificial flowers on their pockets, rather than on lapels. Pastel wool flowers are smart on the pockets of jumper sports suits.

### ACTIVITIES IN SOCIAL CIRCLES IN EASTLAND

MISS GERTRUDE HARWOOD Social Reporter. Phone 429

Mrs. Frank Perkins entertained her friends and the friends of her daughter, Mrs. Jack Perryman, and daughter-in-law, Mrs. Earl Perkins, in the spacious Perkins residence Tuesday afternoon from 2:15 to 5, with bridge and from 5 until 6 with a reception. The house was beautifully decorated in flowers of pastel shades, and beautiful ferns. Fifteen tables were arranged for auction bridge in the spacious living room dining room, music room and guest bedroom. Hand-painted flowers of pastel shades adorned the tallies. Delicious candies were served throughout the afternoon.

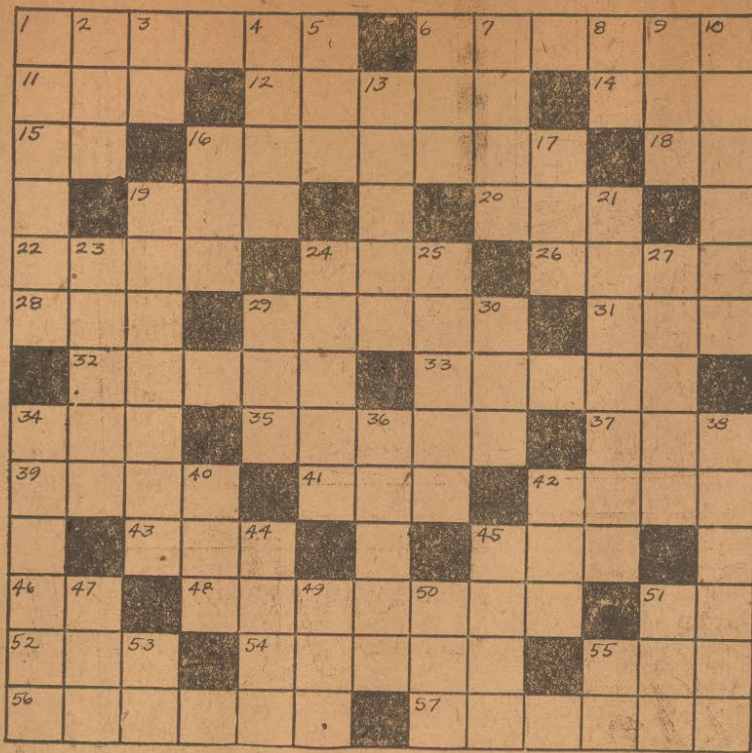

The parlor hostesses were Mrs. Scott W. Key, Mrs. John D. McRae, Mrs. Earl Conner, Mrs. Roy Townsend, Mrs. Walter Clark, Mrs. W. S. Poe, Mrs. Jep Little, Mrs. L. V. Dodson, Mrs. C. H. Carter and Mrs. W. K. Jackson. A delightful musical program carried out at the reception hour by Miss Anita Martin, Mrs. S. S. Noblett, Mrs. J. B. Leonard, and Mrs. George Taggart.

The favor for high score, a set of crystal sherbet glasses, was awarded Mrs. Milburn McCarty. Second high favor, an attractive wall vase, was awarded Mrs. George Donnelly. A book of menus was awarded Mrs. Mullins as the cut favor.

A delightful course of brick ice cream and small iced cakes and salted peanut in small pastel shade containers beautifully decorated with flowers was served to the guests at the reception hour.

Invitations were issued to the following: Mrs. J. D. Smith, Mrs. Kenneth Tanner, Mrs. H. B. Tanner, Mrs. Arthur W. Spear, Mrs. L. E. Edwards, Mrs. W. E. Chaney, Mrs. Austin Furse, Mrs. Frank Williamson, Mrs. Jack Williamson, Mrs. R. J. Bates, Mrs. Jess Pipkin, Mrs. M. Buchanan, Mrs. Harry Brelsford, Mrs. Curtis Corzelius, Mrs. Day, Mrs. Will Martin, Mrs. Gene Andrews, Mrs. Frank Day, Mrs. C. J. June, Mrs. W. C. Baker, Mrs. W. H. Hart, Mrs. James Horton, Mrs. Homer Slicker, Mrs. Mae Harrison, Mrs. E. C. Satterwhite, Mrs. P. L. Drago, Mrs. Green Hazel, Mrs. L. D. Hillver, Mrs. W. M. Hager, Mrs. Virgil Seaberry, Mrs. Carl Springer, Mrs. L. H. Lightower, Mrs. Walter Gray, Mrs. Freyschlag Sr., Mrs. Grady Pipkin, Mrs. Allen Barnard, Mrs. Meadows, Mrs. R. W. Fairhair, Mrs. Frank Loyett, Mrs. R. L. Perkins, Mrs. Charles Hubbard, Mrs. J. LeRoy Arnold, Mrs. D. P. Morrison, Mrs. George K. Taggart, Mrs. J. M. Ferrell, Mrs. Frank Beaty, Mrs. John Knox, Mrs. Bryan Brelsford, Mrs. J. S. Grisham, Mrs. R. N. Grisham, Mrs. E. A. Hill, Mrs. Laverty, Mrs. T. L. Fagg, Mrs. O. C. Funderburk, Mrs. W. B. Smith, Mrs. James Cheatham, Mrs. Homer Brelsford Jr., Mrs. J. P. Owen, Mrs. Scott W. Key, Mrs. E. E. Freyschlag, Mrs. Garrett Bohning, Mrs. T. L. Cunningham, Mrs. O. D. Caldwell, Mrs. John D. McRae, Mrs. W. H. Taylor, Mrs. Milton Lawrence, Mrs. W. S. Poe, Mrs. Joseph Leonard, Mrs. Milburn McCarty, Mrs. Alex Clark, Mrs. Walter Clark, Mrs. E. W. Rand, Mrs. H. P. Brelsford Sr., Mrs. William Gupton, Mrs. Theodore Ferguson, Mrs. George Donnelly, Mrs. G. L. Gillespie, Mrs. Frank C. Hoffman, Mrs. W. K. Jackson, Mrs. A. H. Johnson, Mrs. Jinks Garrett, Mrs. Joseph Weaver, Mrs. J. E. Lewis, Mrs. Earl Conner, Mrs. Jep Little, Mrs. C. H. Carter, Mrs. Oscar Chastain, Mrs. Joe Burkett, Mrs. C. U. Connellee, Mrs. Whitehurst, Mrs. E. G. Schreck, Mrs. Oscar Wilson, Mrs. Horace Butler, Mrs. Allen Dabney, Mrs. W. E. Stalder, Mrs. L. V. Dodson, Mrs. Mullins, Mrs. Adeline McDonald, Mrs. Frank Weaver, Mrs. E. Roy Townsend, Mrs. Hillen Simmons, Mrs. Lindquist, Mrs. George Davison, Mrs. Ford Alcus, Mrs. S. S. Noblett, Mrs. George Briggs, Mrs. Marshall McCullough, Mrs. D. P. Leary, Mrs. R. L. Young, Mrs. Tom Harrell, Mrs. Tiff Harrell, Mrs. W. Z. Outward, Miss Anita Martin, Miss Nellie Mae Lovett, Miss Lula Hubbard, Miss Tully Beth Conner, Miss Gertrude Harwood, Miss Willie Belle Williamson, Miss Agnes Harwood, Miss Carrie Brewer, Miss Cecille Haas, Miss Bess Chastain, Miss Belle Wilson and Miss Catherine Maloney.

### CROSSWORD PUZZLE

The only word you may find difficult in this puzzle is 33 vertical. But you'll be surprised to learn that it sounds almost like its definition, and in fact is spelled almost similarly.

- | HORIZONTAL   |  | VERTICAL  |                             |
|--|--|---|-----------------------------|
| 1. Prairies.   | 6. The man who borrows your money.     | 1. What every one loves to hear about himself.                      | 2. Cover.                   |
| 11. Edge.  | 12. Eagle's nest.                      | 3. Part of verb to be.  | 4. Copomen.                 |
| 14. Meadow.  | 15. Paid publicly.                     | 5. To observe.  | 6. Pine tree.               |
| 16. Daubed.  | 18. Musical note.                      | 7. Weed.  | 8. Hebrew name for Dolly.   |
| 20. Noise.   | 22. To move through water (as a boat). | 9. Fish bag.  | 10. Delicate.               |
| 24. Fashion (like balloon trousers).                       | 26. To the greatest extent.            | 13. Amount at which a person is rated with reference to assessment. | 16. Sun.                    |
| 28. Hen fruit.   | 29. Stories.                           | 17. Obscure.  | 19. Stiffly.                |
| 31. Small eye ball.  | 32. What the customer always is.       | 21. A pet remedy for some political evil.                           | 23. To promise.             |
| 33. Great artery.  | 34. Supplied with nourishment.         | 24. Deadly.   | 25. Distributed (as cards). |
| 35. Titles.  | 37. To tear a seam.                    | 27. Blot.   | 29. Cry for help at sea.    |
| 38. To depend upon.  | 41. Upright shaft.                     | 30. Bodily structures.  | 36. Forays.                 |
| 42. To make harmonious.                                    | 43. Affirmative.                       | 38. Pinion.   | 40. Nevertheless.           |
| 45. Eccentric wheel.                                       | 46. Myself.                            | 42. Sailor.   | 44. To rescue.              |
| 48. Later.   | 51. Half an em.                        | 45. Swollen area at base of bird's bill.                            | 47. Largest deer.           |
| 52. Measure of cloth.                                      | 54. Peak of a cap.                     | 49. To remove.  | 50. Electrified particle.   |
| 55. Since.   | 56. Glided on special ice shoes.       | 51. Self.   | 53. Melancholy note.        |
| 57. Actively swimming organisms on the surface of the sea. |  | 55. Preposition of place.   |                             |

Hate to be a joy killer, but we doubt if there ever was a gardener who planted fried potatoes.

Coolidge couldn't go to a circus. Now what little boy wants to grow up and be president?

Glad we are not a rich man's son. Driving too fast is dangerous.

The latest thing in women's spring dresses is women.

We know a man who would be broke if he didn't owe so much. (Copyright, 1925, NEA Service, Inc.)

CROSBYTON—Work begun on new \$85,000 high school building to replace building destroyed by fire. Federal reports up to April 9 showed excellent cotton planting conditions through most of the south. Planting was continuing in California and Arizona, with an increase acreage in sight.

Despite the fact that from 1910 to 1920 the population of the United States increased 15 per cent during this same decade the number of domestic servants decreased nearly 25 per cent. Their places, however, were taken by the various household electrical appliances and now there are approximately 689,500,000 worth of electric irons, cleaners and washers in use in the homes of the nation which are wired to the electric service.

New York city no longer rules its vehicular traffic by red, green and amber colored electric lights. The amber colored light has been eliminated from all the automobile traffic towers and now the city is ruled by just two colored lights—red and green. Thus, New York is now handling its automobile traffic just as Detroit and Chicago have been doing for several years, and will cut the maintenance cost a third.

**TOMATOES AND ORANGES ARE GOOD FOR CHILDREN**

Tomatoes and oranges prevent scurvy—a disease known to the ancients and prevalent also among moderns, and especially babies and young children. It has been found that over half of our young children suffer from scurvy in a mild or more aggravated form. Much so-called rheumatism common in the spring is probably really scurvy, resulting from too little vitamin C. found in fresh fruits and vegetables in the winter diet. Serve tomatoes or oranges to every member of the family at least once a day. Cooked tomatoes are practically as good as raw—one of the few foods in which the vitamin is not destroyed in cooking, due to the presence of acid.

The Abitibi river, which flows into Hudson bay, and eventually into the Arctic Ocean, has just been harnessed to produce electricity. At Island Falls, on this river, a hydro-electric generating station with a capacity of 24,000 horsepower of electrical energy has been installed to provide electricity for the Hollinger Gold Mines, Ltd. The station is so designed that two additional generating units may be put in place at a later date. The electricity generated at Island Falls is carried nearly 80 miles over a special transmission line. As the country crossed is flat and swampy, most of the work of building this line was carried on during the winter when the ground was frozen.

CHAS. O. AUSTIN,  
Banking Commissioner of Texas.

**HOLLAND DRYING UP ZUIDER ZEE**

Dutch Will Spend \$160,000,000 to Reclaim 540,000 Acres

By United Press.  
AMSTERDAM, Holland.—Holland is overpopulated, so she is drying up the Zuider Zee to provide room for her surplus people.

Thus are the peace-loving Dutch of today reversing the policy of their ancient forbears. Claudius Civilis the Batavian warrior who about 70 A. D. made a bold but futile effort to overthrow the Roman power in this one of Gaul's "three parts," would never have gone to all the trouble and expense of drying up seas to acquire more land. He would have gone forth to make fresh conquests abroad.

Were Claudius alive today to be a enemy for ex-Kaiser Wilhelm Hohenzollern at Doorn, he would see not many miles away, the first pegs already driven for a huge dam designed to choke off the famous Zuider.

**Gigantic Dyke.**  
The first part of the construction is nearly finished, between North Holland and the Isle of Wieringen—until recently the refuge of Germany's former crown prince. The dam is in the nature of a gigantic dyke connecting the provinces of North Holland and Friesland, via Wieringen. When completed, it will be 20 miles long, costing probably about \$28,000,000.

Along the dyke's wide crest there will run a double railway track, as well as a road for motor and other traffic. This new line of communication will reduce the distance between Amsterdam and Leeuwarden, for instance, from 128 miles to approximately 91.

The actual work of reclamation of the Zee began on June 29, 1920, with the deposit of the first cargo-load of clay for the dam between North Holland and Wieringen. Since that time approximately \$2,000,000 has been spent annually on the work.

**Means 800 Square Miles.**  
It is estimated the completion of the entire reclamation scheme, which includes a large number of minor dykes besides the main dam to Friesland, will cost something like \$160,000,000. The project is designed to add 540,000 acres, or over 800 square miles, to the land surface of Holland. On this new "conquest," Holland aims to take care of the excess from a population now increasing at the rate of 100,000 yearly.

Hydraulic Engineer C. Lely designed this mammoth undertaking. He was the first to draw up a complete scheme for the work and his plan was adopted. He was appointed minister of rivers and canals in 1913, and construction would have commenced forthwith, but for the world war.

The plan contemplates a series of locks in the main dam, for the passage of shipping and for the discharge of superfluous water. An auxiliary dyke, at right angles to the large one and running from Wieringen to the eastern hook of North Holland, will add 45,000 acres to this section of the Dutch nation.

Another dyke jutting off from the lower outside edge of the eastern

**MOM'N POP**

hook will circle out through the Zee to Amsterdam, adding 145,000 acres there. A third subsidiary dyke will clip 210,000 acres out of the sea to the north of Utrecht province and the northwest of Guelderland, this one zig-zagging from Amsterdam to the mouth of the Ysel river.

A fourth, circling out and around from the mouth of the Ysel to the Frieslandian dunes, opposite Wieringen, will make Friesland's soil 140,000 acres more extensive.

**Will Leave Only Lake.**  
Reclamation of these four huge chunks of sea bottom will leave a considerable body of water as a bare remnant of the Zuider. This will be known as Ysel lake, shaped like a two-pronged fork, with the tip of one prong at Amsterdam and the other at the mouth of the Ysel, while the base of the handle will be the North Holland-Friesland dam which is to hold back the North Sea.

Hundreds of fishers now earn their living on the Zuider Zee, especially in capturing herring and anchovy, and their protests against the new enterprise have been loud and

long. The warmer, brackish water of the Zuider suits herring and anchovy extremely well. As the water of Ysel lake grows fresher, the salt-water fish will disappear.

The government has arranged to allow a pension to all fishermen over 50 years of age thus thrown out of work. And government industrial schools will be opened to teach the younger anglers some handicraft.

While these will also be paid an indemnity. Some of the unemployed probably will be absorbed in the North sea fishery and in the freshwater fishing of the new lake.

In the days of lamp and candle light a city ordinance was passed in Joplin, Mo., prohibiting the holding of auction sales at night. This was intended to prevent buyers from being taken advantage of by reason of the darkness of the auction room. This ordinance, however, has now been repealed by the city commission because auction rooms are all well illuminated by electricity and the purchasers can see what they are buying.

The wooden pole for electric transmission lines seems to be headed in the same direction as the wooden bridge and the Concord buggy. A new metal pole made of copper-steel is now being tested, which will not only carry greater weights of transmission lines but does not corrode because the steel from which it is made contains a small quantity of copper.

### Auto Races to Be Held Tomorrow In Indianapolis, Ind.

By United Press.  
INDIANAPOLIS, Ind., May 29.—Twenty-three and possibly 27 cars will start tomorrow in the 500-mile international sweepstake auto races at the Indianapolis speedway. The starting bomb will send them on their way at 10 o'clock tomorrow.  
If the winning car sets the pace at around 100 miles per hour, which is expected in the race this year—the first car will flash in front of the judges stand by 3 o'clock.

### FRENCH PREMIER GETS VOTE OF CONFIDENCE

By United Press.  
PARIS, May 29.—The Painleve cabinet received an overwhelming vote of confidence on its Moroccan policy this afternoon in the chamber of deputies. The vote stood 527 to 29.  
It had been necessary, however, during the earlier part of the day for Painleve to remodel the vote of confidence.

### PRODUCTION OF OYSTERS ALONG THE TEXAS COAST

AUSTIN.—Oyster production around Galveston for the season just closed was more than 40,000 barrels, 28,000 barrels more than was produced last year, according to T. E. Hubby, game, fish and oyster commissioner.  
The increase of 230 per cent is due largely to the work on abandoned reefs where the oyster had become overcrowded, dwarfed and unsuitable for market.  
The smaller oysters taken from these reefs were utilized for canning purposes. Tearing up of the reefs will insure more mature growth next year.  
The high production of this season surpasses that of 1902 when the Galveston oyster output was 38,000 barrels.  
Records show nearly 8,000 barrels from Corpus Christi, over 18,000 from Matagorda and 35,000 for the combined output of Port Lavaca, Port O'Connor, Seadrift and Palacios.

### Forfeits Beauty

Lucille Woodward, Hollywood screen actress, has filed suit against Dr. W. E. Balsinger of Los Angeles, noted plastic surgeon, for \$25,000, charging that he caused her left eye to lose its "natural" expression.

### NIMROD NEWS

Special Correspondence.  
NIMROD, May 29.—On Saturday, May 30, the people of Nimrod and surrounding communities intend to work the Nimrod and Monroe cemeteries. The Nimrod cemetery will be worked in the forenoon and the Monroe cemetery in the afternoon. Everyone who is interested in the working is urged to be present and bring their dinner as it is the intention to have a spread at the church-house at the noon hour.  
Rev. Altie Hardin filled his regular appointment here Saturday night and Sunday and tendered his resignation as pastor to accept work in West Texas. He is a splendid preacher and his congregation here will regret very much to lose him.  
Mr. and Mrs. J. N. Broyles and Mrs. Conrad Schafer of Cisco and Mrs. Ernie Wilson of Dallas were visiting friends in Nimrod Sunday afternoon.  
Mrs. Carl Baird of Cisco spent several days here last week visiting relatives.  
Miss Pearl Wilson of Baird attended church here Sunday.  
Mr. and Mrs. A. E. Harrelson visited their daughter, Mrs. Alton Westerman, and their son, Herman Harrelson, Sunday.  
H. F. Meadows and wife of Plainview visited in the L. D. Stanaford home Saturday.  
Will Shirley and family spent Saturday afternoon at Cisco.  
Bruce Lasater and wife were dinner guests of Mr. and Mrs. T. L. Lasater, Sunday.

SAN ANTONIO—Surveying started on \$3,000,000 power plant of San Antonio Public Service company.  
KERENS—\$30,000 gin plant to be located here.

### U. S. to Have One Purchasing Agent

WASHINGTON, May 29.—A single purchasing agent for the entire United States government will be created by order of President Coolidge within a few days, said General H. S. Loyd, director of the budget.  
The post will have the title "co-ordinator of purchase." Savings of thousands of dollars annually are expected.

### TWO STORIES TOLD ABOUT THE TEXON OIL COMPANY

EL PASO, May 29.—Two stories, neither of which is vouched for, are related concerning the financial success of the Texon Oil company.  
According to one of the stories, company officers were trying to rush drilling equipment to their wild cat leases where a geologist had selected locations for prospect wells.  
Out on the prairies the Orient freight train hauling the drills and equipment broke down. While the locations for drilling were still miles away, the breakdown occurred on Texon acreage.  
The life of the leases depended upon drilling speed. So the equipment was unloaded and a well drilled on the spot. The well came in a producer.

The other story relates that members of a nearby church agreed to pray for oil if the company would name its first well for their patron saint. The well was so named, the prayers delivered and the drills brought oil.

### OUT OUR WAY

### MARRIAGE LICENSES

Trifilo Aldauce and Pas Munna, Ranger.

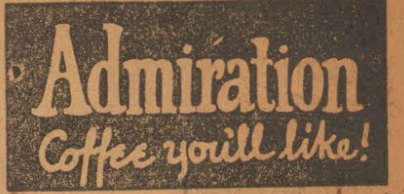

R. C. Jordan and Miss Pearle Barker, Cisco.

Homer W. Reese and Miss Pearl Milner, Holdenville, Ohio.  
D. M. Ware and Miss Faye E. White, Bowie, Texas.

### LATE COTTON PLANTING URGED TO STARVE THE BOLL WEEVIL

HOUSTON, May 29.—Plant your cotton late and starve the boll weevil, advises W. H. Wentworth, landscape gardener, who has been studying the life and habits of the pest for many years.  
He claims the present plan of early planting to beat the weevil is wrong. If the cotton is planted late the weevil starve to death before the tender plant appears above the ground.  
Wentworth said a young weevil would die in about ten days without food.

MIDLAND.—The city will soon vote on a new pavement law. If the law carries Midland will have streets, including the bankhead highway through the city.

# HOW MRS. ALEXANDER WON 280 PRIZES WITH CALUMET

## THE WORLD'S GREATEST BAKING POWDER

### Read what Mrs. Alexander says

"Baking Powder of course is one of the most important ingredients that goes into the baking of cakes and especially those intended for the rigid inspection of the judges of the Iowa State Fair.

"When I entered my first cake at the State Fair thirteen years ago I used Calumet Baking Powder and won a prize. I have been using it ever since and for the last eight years have won the greater share of first prizes for cakes at the State Fair, with my greatest success this year when I received 23 Blue Ribbons, 8 Seconds and 3 Thirds, or 34 winners out of my 37 different kinds of cakes entered.

"I have always found Calumet to be the dependable, reliable and consistent winner."

*Mrs. Pearl Alexander*

### \$700.00 in Cash Prizes

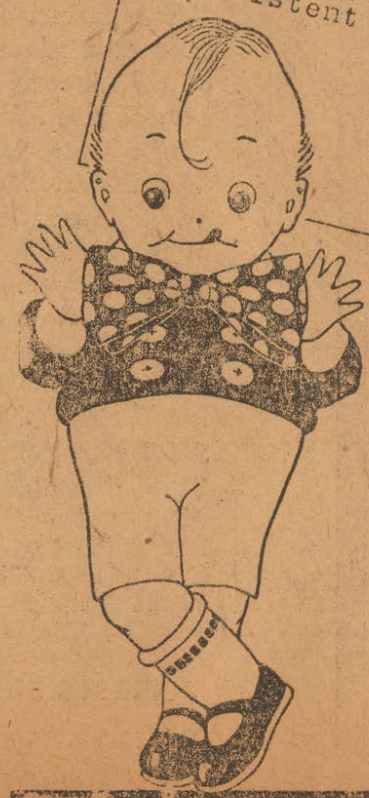

—that's exactly what Mrs. Alexander of Indianola, Iowa, has won with her Calumet Baking Powder cakes.

A few years ago, she decided to try for a prize at the Iowa State Fair. She baked a cake and she didn't neglect to use Calumet—she won and she's been using Calumet and winning ever since.

Calumet bakings have been winning prizes and praise for over thirty-five years. And today this perfect leavener is the preference of America's housewives.

Calumet goes farther, lasts longer and never fails to raise the baking to its highest nutritional value.

Contains only such ingredients as have been officially approved by U. S. Food Authorities.

Abilene-Ballinger Motor Car Service May Discontinue

ABILENE, May 29.—Application of the Abilene & Southern Railway company for authority to discontinue all motor car service between Abilene and Ballinger has been set by the railway commission for June 9. They authorized last month the discontinuance of one round-trip motor car service between the stations

CITY FISH MARKET SELLS ITS BRECKENRIDGE BRANCH

Ivo N. Novakovich, manager of the City Fish Market, Ranger, has sold the market at Breckenridge. "We formerly operated a branch house at Mexia, too, but due to the increase in West Texas business, we sold our place there," he said. "We are supplying fish to all parts of West

Texas now, shipping as far west as San Angelo, Brownwood and Sweetwater. We supply markets in the nearby towns. The Ranger business has picked up so much we have had to put on another delivery boy and another man to work in our shipping department. We expect to do a large business this year."

THREE HURT IN AUTO WRECK AT HOUSTON

HOUSTON, May 29.—Two Shriners and one woman guest were injured here today when an auto hit by a truck overturned. George Kopley, recorder of the Arabia Temple, Houston, sustained internal injuries and a broken arm. R. E. Banks, recorder of Alle Temple, Savannah, Ga., a broken rib and collar bone, and Mrs. J. M. Clifton Palm Beach, Fla., a guest on the Savannah Shriners' special, a broken arm.

MEXIA.—"White way" being installed.

AUSTIN.—Fish hatchery to be enlarged.

Health Brings Beauty

Roanoke, Texas—"I was ill for weeks, not able to do my work. I had feminine trouble of a serious nature. At evening I would have high fever and my back and head would ache day and night. The doctor wanted to give me treatments, but my druggist advised my husband to get a bottle of Dr. Pierce's Favorite Prescription. Before I had taken the first bottle I felt so much better I bought another, and before I was thru taking that I was well."—Mrs. R. E. Cunningham, Route 1. All medicine dealers. Tablets or liquid. No harmful ingredients.
