BIBLE THOUGHT.
 And some of them of understanding shall fall, to try them, and to purge, and to make them white, even to the time of the end: because it is yet for a time appointed.—Daniel 11: 35.

FATE ON A RAMPAGE.
 We are living in a mile-a-second gait! Humanity has not fully awakened to the terrific pace which progress has set. For this reason there are an appalling number of accidents which are increasing day by day.

One of every 10 of our entire population fall victim to some form of accident.

Every minute of the day records the accidental injury of 23 persons.

Over 12,000,000 persons suffer from accident every year.

Two hundred and forty persons are killed every day.

Automobiles blot out lives at the terrible toll of an average of 38 souls daily. You may think you are reasonably free from this liability—but your chances are only one in 10.

It's just Fate—fate on a rampage—and most difficult to dodge.

OUR AIR SERVICE.
 No matter if airplanes can or cannot destroy battleships at present—and most experts think they can—the fact remains that Europe is spending millions upon new planes and each week is bringing forth something which will create a better and safer plane than the week before.

The future of the airplane is just beginning while that of the battleship is past. But while this goes on in Europe, we, the country which gave the airplane to the world, lags behind and all because of political red tape.

In Europe these matters are placed in the hands of men of practical experience—men who know the most about them, and who must make good by delivering the goods. When Uncle Samuel's air force is put in the hands of experts something worth while may result, but so far it has only resulted in the expenditure of a thousand millions of dollars and a few lives experimenting.

RATTLESNAKES INVADE CISCO HOME, ONE KILLED

Special Correspondence.

CISCO, April 24—While the small baby of Mr. and Mrs. Bob Herron of this city was sleeping on the sleeping porch, the mother saw a huge rattlesnake slowly crawling towards the child. The screen door was slightly ajar and the big snake had crawled in at the door. Mrs. Herron killed the rattler with a floor mop. Later in the day the head of another rattler was seen to appear above the floor of the Herron home and then make its escape. A close watch is being kept for the second snake, as it is evidently seeking its mate, which was killed by Mrs. Herron.

No advance dope on the Weatherford team was available today and they will go on the field an unknown quantity.

Appellate Court To Have Offices In Bank Building

It was stated today that the commissioners' court had finally settled upon the fourth floor of the Texas State bank building as the location for the new court of civil appeals and that workmen would be put to work at once re-arranging the offices to suit the convenience of the court.

This report, however, is not official.

Concerted Action Being Planned To Smash Communism

By United Press.

LONDON, April 24—A continental drive to smash communism has started. The French cabinet is reported in Paris dispatches to be discussing means to prevent repetition of the outrage in Montmartre today when 2,000 communists ambushed and opened fire on friends of ex-President Millerand. Warsaw reports tell of the arrest of hundreds of communists suspected of arranging a terrorist program in eastern Poland. Twenty thousand communists are in jails, cellars and dungeons in Bulgaria and 250 of them have been summarily shot, according to Josia Wedgewood, who was in Sofia this week.

The Balkan states are reported to be exchanging information regarding communist activities with a view of burying national differences long enough to smash communists in their midst. Even Bulgaria and Jugoslavia are doing this. The conservative British press takes the view that a "red" uprising threatens and that the time has come for concerted action.

ITCHING ECZEMA GOES QUICK WITH USE OF THIS

People who have endured tortures from itching eczema will be happy to learn that a means of relief has been perfected and is already enjoying unheard of popularity on account of the quick way it gets rid of the awful disease of the skin which nobody seemed able to figure out before. It is called Black and White Ointment.

Most all dealers have Black and White Ointment, and Soap, on account of the tremendous demand which has already reached the rate of more than two million packages a year in its sales, because it relieves eczema so quickly.

They are economical, too. The big 50c package of Ointment contains three times as much as the liberal 25c size.—Adv.

TEXAS F. W. C. DELEGATES AT HOME AGAIN

Report Delightful 8th District Convention in Alpine; Guests At Fort Stockton.

Returned delegates from the sixth district convention, Texas Federation of Women's clubs, report enthusiastically of the hospitality shown them as well as of the wonders of scenery they were shown.

The result of the convention was the election of Mrs. H. B. Broadus of Colorado City as president; Mrs. W. S. Douglas of San Angelo, first vice president; Mrs. George W. Baines of Alpine, second vice president. Mrs. C. C. Thompson of Alpine was appointed secretary-treasurer by the incoming president.

An outstanding feature of the three-day convention was the talk by Mrs. Elizabeth Speer of Dallas on "Prison Reform." The convention also voted to accept the universal membership plan which provides for a payment of fifty cents per capita of each federated club member which is distributed as follows: 10 cents to universal membership; 10 cents to state; 10 cents to district; 10 cents to local club, and 5 cents to scholarship and loan fund. This plan does away with so many calls for money and takes care of all dues. All philanthropic organizations will continue to pay the annual fee as before.

The delegates were royally entertained, there being 13 from Eastland county alone. This number had been increased to 29 before Alpine was reached and the train on the Orient road was turned over to the delegation. A message wired ahead to Fort Stockton brought out the club of that town with an invitation to stop there for dinner, Sunday, it being followed by a drive to the marvelous springs, which flow 35,000-000 gallons a day and irrigate 7,000 acres of farm land. Some of these irrigated farms were seen on the return trip when the party stopped over at Fort Stockton again and were entertained at breakfast.

On Tuesday the visitors were driven through the mountains to Fort Davis, where they were entertained at dinner by the Fort Davis club. They were guests of the Alpine Rotary club on Tuesday, and on Wednesday were guests of the Chamber of Commerce at luncheon and of the study club at the Holland hotel in the evening, there being a novel and delightful "camp-fire dinner" arranged in their honor. The wonders of West Texas, and the splendid hospitality of the district delighted all who attended.

The Eastland school board held a meeting last night at which all members were present. It is understood that a number of teachers for the ensuing year were elected, but it was stated by the secretary, Mrs. A. H. Johnson, that public announcement of the action taken by the board at last night's meeting would not be made at this time.

Women Taking Up Study of Geology

By MABEL MANSELL

AUSTIN, April 23.—Today there is a great opportunity for women in geology, and many of them are taking it up as a profession, according to Dr. H. P. Bybee, professor of geology at the University of Texas.

During the past few years, Dr. Bybee has had several calls for women to take positions as geologists of a certain type. The university has supplied several women geologists who are now working in Texas, most of them being employed by oil companies.

In lecturing to a freshman geology class consisting of about one hundred students, Dr. Bybee told the students of the various opportunities which geology as a profession holds for both men and women. With reference to the kinds of work engaged in by the two sexes, Dr. Bybee said:

"It is for the man to get out and do the dirty work, sidestep the rattlesnakes, and the hard-boiled farmers; but there is also a place for the women. The girls should go in for

the office work, involving microscopic study of bugs, protozoans, and other such horizon markers. Women are particularly suited to this kind of work."

He explained that there is another type of work which will be both interesting and profitable to the girls. It is a combination of geology—library science, shorthand, and typewriting. With this sort of knowledge, Dr. Bybee believes that a girl would be excellently fitted for a position with many smaller oil companies, where part of her time could be devoted to geological work and part to office management.

Child-birth

Here is a wonderful message to all expectant mothers!

When the Little One arrives, you can have that moment more free from suffering than you have perhaps imagined. An eminent physician, expert in this science, has shown the way. It was he who first proved the great remedy, "Mother's Friend," Mrs. C. J. Hartman, Scranton, Pa., says: "With my first two children I had a doctor and a nurse and then they had to use instruments, but with my last two children I used 'Mother's Friend' and had only a nurse; we had no time to get a doctor because I wasn't very sick—only about ten or fifteen minutes." Use "Mother's Friend" as our mothers and grandmothers did. Don't wait until today, and meanwhile write to Bradford E. Kilgus, Inc., BA 46, Atlanta, Ga., for a free illustrated book containing information every expectant mother should have. "Mother's Friend" is sold by all drug stores—everywhere.

India Enters the Far Eastern Games At Manila In May

NEW HAVEN, Conn., April 24.—Details of the seventh biennial Far Eastern games, modeled after the

world Olympic games, which will be held in Manila, P. I., from May 10 to 20, this year, have been received at Yale University.

In other years the games have been contested between China, Japan, and the Philippines, but this year will witness the entry of a new rival—India. India's delegation will probably not be a full one, but they are expected to upset the "home" on the games which had previously been figured as a fight between the Philippines and Japan. The team from India will probably consist of track and field athletes and tennis players and they are expected to take away some of the laurels in these events, especially tennis.

The Far Eastern games consists of track, field, baseball, basketball, tennis, swimming, soccer football and volley ball. China has nearly always been the winner in football and volley ball, but the Chinese delegates this year are likely to be an almost negligible quantity on account of the internal troubles in that country. In the last Far Eastern games held in Osaka, Japan, in 1923, the Philippines lost the track and field championships for the first time and although tied with Japan in the number of events won, lost three of the four major ones. The Philippines are preparing to turn the tables this year.

The Woman Who Knows

Houston, Texas.—Because of my father-in-law having been benefited by taking Dr. Pierce's Golden Medical Discovery while living with us, I knew about Dr. Pierce's remedies. I knew about his poor health and how he gained strength, could rest and sleep better and was more active and cheerful. Later on it became necessary for me to take a woman's tonic, and I chose Dr. Pierce's Favorite Prescription. After the first few doses I felt better, and now recommend it very highly for women during middle age.—Mrs. Fannie Disher, 2211 Center St. All dealers. Liquid or tablet form.

TWO ATHLETES WHOSE INCOMES ARE HANDSOME

Jack Dempsey and "Babe" Ruth Need Not Worry About Employment.

By HENRY L. FARRELL, United Press Sports Editor.

NEW YORK, April 24.—Babe Ruth's obituary notice in the London papers declared him to be the highest paid professional athlete in the world. The extraordinary interest that was shown in London in the false report of his death was said to have been the result of the interest in a baseball player who could make more money than the president of the United States.

The Babe is the highest paid baseball player in the game and he has sources of outside revenue that equal the pay given him by the New York Yankees, but he is not the highest paid professional athlete.

Jack Dempsey is the greatest money maker in the history of sport. Ruth gets a salary of \$52,000 a year from the New York Yankees, and the revenue that comes from the use of his name on medicines, smokes, articles of wear and over literary masterpieces, must increase his income more than \$100,000 a year.

Dempsey wouldn't consider an offer of \$100,000 for a fight against a set-up that he could flatten with one punch at the expense of about five seconds' labor. In figuring the rate per minute a fighter makes it must be remembered that he has to spend a lot of time and money getting ready for even an ordinary fight.

No one will ever know how much Dempsey could have made. His earning capacity is unlimited but his activity is restricted by the large tax on exorbitant incomes. Dempsey has been fighting only once a year and less because greater activity in the ring would put him in a class where he would be fighting almost exclusively for the United States treasury and there are others besides Dempsey who do not feel any such obligation toward the government.

Dempsey now has to restrict his income for business reasons. Under conditions where it would have been good business to accept every offer for his services that was made, he might have made \$10,000,000 before he retired. He has made over \$2,000,000 now and he has a fixed income of perhaps \$250,000 a year

**GIRL AND MAN
BEING SOUGHT**

By United Press.

GOOSE CREEK, Texas, April 24. Solution of a murder mystery involving a world-war romance of two men and a girl and the burial of a "dead" man who probably is still alive seemed possible today. Lewis A. Robertson, and the "father" man in the case were rivals for the love of a girl. The war came along and the other man enlisted. Robertson was excused by the draft board and remained at home. During the war, Robertson and the girl were married.

Interwoven into the case is the story of the other man who came home after the war and induced Mrs. Robertson, his former sweetheart, to leave her husband. Mrs. Robertson, it was said, soon found that the early ties were not as strong as she had thought, so she asked her husband to come after her. The soldier rival learned of these plans and went to meet Robertson. This was last September. About two weeks later the body of a man was found near Daytown, Texas. Some doubt as to the identification was expressed and the body was held nearly eight months

by the coroner. It was finally buried as that of a New York engineer. Recent investigation has proved that it was the body of Lewis A. Robertson. The other man and Mrs. Robertson are sought in a North Texas town.

**Wheeler's Counsel
Attacks Testimony**

By United Press.

GREAT FALLS, April 24.—A charge that the government had introduced perjured testimony against Senator Burton K. Wheeler was made by J. F. O'Leary, defense counsel, in an argument to the jury which is trying the Montana senator on a charge of misuse of his office. He declared:

"I am surprised that the prosecutor did not display a proper loyalty to his United States senator instead of trying to convict him of a ridiculous charge on testimony of a perjurer."

**Rev. J. C. Carter Is

Rev. J. C. Carter, aged father of Dr. Charles H. Carter of Eastland and several years ago pastor of the Eastland Methodist church, was buried Wednesday at Iredell, following his death there Monday. The Rev. Mr. Carter made his home in Eastland for a number of years after retiring from the ministry and had many devoted friends in the city.

The funeral services at Iredell were marked by the presence of a number of Methodist ministers, who were said to have been converted through the preaching and ministry of the Rev. Mr. Carter, who in his day was known as one of the most eloquent and convincing of Methodist ministers.

ATE TOO FAST

South Carolinian Took Black-Draught For Indigestion, and Says He Could Soon Eat Anything.

Ballentine, S. C.—Mr. W. B. Bouknight, of this place, gave the following account of his use of Theodor's Black-Draught.

"Just after I married I had indigestion. Working out, I got in the habit of eating fast, for which I soon paid by having a tight, bloated feeling after meals. This made me very uncomfortable. I would feel stupid and drowsy, didn't feel like working. I was told it was indigestion. Some one recommended Black-Draught and I took it after meals. I soon could eat anything any time.

"I use it for colds and biliousness and it will knock out a cold and carry away the bile better and quicker than any liver medicine I have ever found."

"Eating too fast, too much, or faulty chewing of your food, often causes discomfort after meals. A pinch of Black-Draught, washed down with a swallow of water, will help to bring prompt relief. Bloating, constipation, eructations, bad breath and other common symptoms of indigestion have disappeared after Black-Draught has been taken for several days." NC-164

GIRL KILLED AND SIX
HURT IN AUTO CRASH
By United Press.
SAN ANTONIO, April 24.—One girl was killed, her brother is expected to die, and five others are seriously injured as the result of two automobiles meeting head on, fifteen miles east of the city, on the Concoro road, during the night.
Juanita Ayalla, 18, was killed and her brother, Emilio, suffered a fractured skull. The lighter of the two cars was completely wrecked. Two men in the larger car were arrested.

Dressmaking Contest
Begins In Austin
The state dress-making contest, entered into this year by Texas girls from 118 towns, is now in full force at Austin. Miss Lillian Peek, director of the contest, originated the idea six years ago, its size and significance increasing each year. In spite of the fact that Gov. Miriam A. Ferguson vetoed the \$600,000 appropriation to be matched by federal aid for vocational education, it is deemed by directors of this special work that this will be the last year for such a contest. As the work progresses it attracts more and more attention from other states, and is expected this year to maintain its interest in home economics in spite of adverse action of the Texas governor.
The entries are arranged in three classes, each subdivided according to grade, which includes a designing department and a feature division in which the girls will wear the dresses they have made and be judged for their various merits. The delegates are each winners in their own towns and proud of the fact that they have been sent to the state capital for this annual event.

To the Sheriff or any Constable of Eastland County, Greeting:
You are hereby commanded to summon Ed King, Wm. M. Kelly, T. R. White, J. M. Cox, Harry Lafferty, J. M. D. 1925, the same being the 1st day of June, A. D. 1925, then and there to answer a plea of intervention of Southwestern Oil Development company, filed in said court on the 1st day of April, A. D. 1925, in a suit, numbered on the docket of said court as No. 11,437, wherein Mrs. Bulah Connelley, joined by her husband, G. U. Connelley, are plaintiffs, and Texland Oil company, a private corporation, Ed King, Adeline McDonald, a feme sole, Harvey E. Bryant, Carl Bryan, Mrs. Bertha Tanner and her husband, K. B. Tanner, Harry Lafferty, William N. Kelly, J. M. White, Joe Gabler, Homer Burkett, E. P. Murray, Roy Reynolds, S. B. Kress, and J. M. Cox, K. B. Bryan, E. T. Murray, Murray Tool company, E. T. Murray, trustee, and T. R. White and Wm. M. Kelly are defendants, and Southwestern Oil Development company, by and through its receiver and agent, Roy A. Reynolds, Joe Gabler, M. J. Brannon, and Gabler & Brannon, a co-partnership composed of Joe Gabler, and M. J. Brannon, are respondents, said petition alleging that the defendants against whom intervenors complain are, to-wit: K. B. Bryan, S. B. Kress, Adeline McDonald, a feme sole, Harvey E. Bryant, Mrs. Bertha Tanner and husband, K. B. Tanner, E. T. Murray, Murray Tool company, and E. T. Murray, trustee, Ed King, Wm. M. Kelly, T. R. White, J. M. Cox, Harry Lafferty, J. M. White, and Tex-Land company, incorporated.
That intervenors and defendants herein are the joint owners of an oil and gas lease and well located thereon and the equipment of said well on the following described land, located in Eastland county, Texas, to-wit: A certain tract of land out of survey No. 1, block 2, H. & M. survey, described by metes and bounds as follows: Beginning at the southwest corner of the James W. Finley survey, which is the northwest corner of survey No. 1, block 3, H. & T. C. Ry. Co. survey; thence south along the east line of G. H. Ry. survey, 354 vrs. to its southeast corner; thence east 319 vrs.; thence north 354 vrs. to south line of the James Finley survey; thence west 319 vrs. to the place of beginning, containing 29 acres, more or less.
That on the 30th day of March, 1923, said owners by written agreement, appointed E. T. Murray as their trustee for the purpose of operating said well and for the purpose of receiving and disbursing funds derived therefrom; that for several months last past, the said well has ceased to produce, and that said property does not seem worthy of further operation.
That there are a number of claims against said property which are due and should be paid, but that said trustee cannot pay such claims without making a sale of the personal properties located on said lease, and that under said trust agreement, he is not empowered to make such sale.
That it is necessary that the court appoint a receiver to take charge of said properties and to sell the same and pay the indebtedness and distribute the remainder of the funds among the proper owners thereof.
That the property is reasonably worth \$4,000.00, and that the indebtedness claimed against said property is about \$3,500.00.
Wherefore, intervenors pray that the court appoint a receiver to take charge of the above described property, and that the said receiver so appointed should immediately advertise all the said leasehold interests and interests in said well for sale and sell the same at public or private sale to the highest bidder therefor; that the said receiver should then pay the said indebtedness and then distribute the balance of the proceeds among the rightful owners thereof. That the claims of intervenors, to-wit: Southwestern Oil Development company, 51-503-84, Gabler & Brannon, of \$73.00, and Joe Gabler, of \$120.00, be classed as preferred claims secured by liens on said property, and that they be paid from the first proceeds derived from the sale of said properties, and for such other and further relief, that they may be entitled to receive.
Herein fail not, and have before said court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.
Given under my hand and the seal of said court, at office in Eastland, this 8th day of April, A. D. 1925.

RANGER MAN CHARGED WITH VIOLATING DRY LAW

F. M. Prock is at liberty under a \$1,000 appearance bond charged with manufacturing and selling intoxicating liquor as the results of a raid on his home in Glenn addition, Ranger, yesterday afternoon by the constable and city police. Ten gallons of wine were brought in for evidence and 15 gallons poured out on the ground when the raid was made, according to officials.

Date of trial has not been set, according to justice of the peace I. H. Ervin, as some of the so-called wine has been turned over to a chemist to analyze.

FOURTEEN TRAPPED MINERS BELIEVED TO BE SAFE

WALLACE, Idaho, April 24.—The lives of fourteen miners, trapped by a fire in the Hecla Lead and Silver mine at Burke, 10 miles north of here, were today believed by mine officials to be safe. Communication has not been established with them up to a late hour this morning, but the fact that air pumps were kept running sufficiently to provide a strong draft gave basis to the belief.

At 8:30 a. m. rescue crews were at the 1600 foot level, where thick smoke kept them from penetrating further into the mine. The fire broke out at 11:15 Thursday night when timbering caught fire in the shaft, supposedly from faulty wiring or a short.
