Democratic Convention Snap-Shots THE STORY OF 16 NOMINATIONS By A. H. Vandenberg

The Convention of 1884. Democratic opinion up and down the country had fixed on Governor Grover Cleveland of New York as the strongest available presidential candidate long before the clans gathered at Chicago on July 8, 1884. He was a New York majority of 190,000 to his credit in the state campaign of 1882, and he was generally looked upon as a sincere reformer of sterling dependability. He had opposed, however, in his home state from powerful Tammany Hall; and when this latter aggregation reached the floor of the convention, it sought to escape the time-honored "unit rule" (under which was bound by instructions to support Cleveland) in order to vitalize its hostility. But Tammany proposals to amend the rules were defeated by a majority of over 100.

On the first ballot, Cleveland led by 392 votes in a field of nine. His principal opponents were Bayard of Delaware, Thurman of Ohio, Randall of Pennsylvania, McDonald of Indiana, and Carlisle of Kentucky. On the second ballot, Thomas A. Hendricks of Indiana, with 145 1/2 votes, moved into second place—the third convention in which he had been a candidate. On the third ballot Cleveland went to 683. When this roll-call was finished, Cleveland still lacked 72 votes of the necessary two-thirds majority required by democratic rules, but numerous changes were made from the floor, and

his nomination resulted forthwith. Hendricks was nominated for vice-president by acclamation—the second time he had been thus honored. Richard D. Hubbard of Texas was temporary chairman of the convention, and William F. Vilas of Wisconsin was permanent chairman. In the light of modern problems, one interesting plank in the platform said: "We oppose sumptuary laws which vex the citizens and interfere with individual liberty." One of the most unique figures in this convention was General Benjamin F. Butler of Massachusetts. Butler a few years before had abandoned the republican party, with which he had acted since the Civil war, and as a democrat had been elected governor of Massachusetts in 1882. In 1884 he had already been nominated for president by the "greenback party" and the "anti-monopoly party."

### HILL CREST IS INVOLVED IN A SUIT IN COURT

Civil action has been instituted in the district court of Eastland county for the establishment and foreclosure of a vendor's lien note on the property of which a part is known as the Hill Crest addition in Ranger.

The First National bank is plaintiff and joins the Commerce Realty company composed of W. J. Connell, H. E. Colclazier, P. Learned, J. H. Swofford, S. C. French, Thomas Fluke and A. Davonport as co-partners and Hayden Neal and wife together with many lot owners in Hill Crest as defendants.

Other than to establish prior lien and have it foreclosed the citation of the plaintiff sets forth that it holds four promissory notes against the Commerce Realty company for the amount of \$8,100 which is asked. It is set forth in the citation that some credits have been made on the notes.

It is also asked by the plaintiff that the establishment of prior lien to foreclose be made to notes and contracts held by several persons who have contracts to buy lots in Hill Crest addition.

The conclusion of the citation reads: "There being a contract between Commerce Realty company and the makers of said notes respectively for the purchase of the lots above mentioned respectively."

"Plaintiff also sues to recover judgment as against the respective makers of

each of said series of notes above mentioned for the amounts respectively found to be due thereon, including principal, interest and attorney's fees and for the foreclosure of the vendor's lien and express lien securing the payment of said several series of notes as against the respective makers thereof.

Plaintiff also seeks all such relief, general and special, legal and equitable, and for cost of suit, as it may show itself entitled to at which time the Commerce Realty company agrees to deliver a warranty deed to the lot.

### HAZEL DENIES STATEMENT BY POLICE CHIEF

This letter was received today from County Attorney G. G. Hazel, Editor of the Ranger Daily Times:

In a recent issue of the Daily Times I see that I am quoted as having said that there were no grounds for the charge against Chief of Police Parrish for which he was indicted by the Eastland county grand jury. I wish to hereby unequivocally deny this and say that I have absolutely never made any statement. I would have preferred to not have been mentioned publicly in this matter, but inasmuch as I have been mentioned in this incorrect statement I would appreciate the favor if you would give publication now to this denial.

Yours very truly,  
**G. G. HAZEL,**  
 County Attorney.

The Times gladly makes this correction. The statement was based on Parrish's statement on his return from Eastland. An effort to reach Mr. Hazel at Eastland was made, but he could not be reached. The statement of the police chief was substantiated in Ranger by officials who said they had talked with Hazel.

Mrs. Annette A. Adams, federal district attorney of San Francisco, just appointed by President Wilson as first assistant United States attorney general, is the first woman in the country to hold such office. She will have charge of the enforcement of tax and custom laws, the way risk, pure food, quarantine and Adamson acts, and also will have supervisory control over federal prisons.

### Sisters Make Good Ranching in Panhandle

**BOVINA, Tex.**—From a palatial home in a large city to a little farm house in the Panhandle of Texas, from a life of social pleasures to a quiet pastoral existence, from wealth in the big city to wealth on a large sheep ranch, all in only six years, is the story in a nut shell of Miss Donna Gardner and her sister Mrs. Jeannette Hartwell of Bovina, Parmer county, Tex., daughters of John T. Gardner, a retired manufacturer of Cincinnati, O.

Six years ago a friend of the Gardner family came to West Texas and bought an irrigated farm. Having an urban soul, however, he soon yearned of the quiet of the country existence and sought a buyer. Declaring they were tired of city life, the Gardner sisters decided to purchase the property, notwithstanding the fact that they had never been away from a paved street and knew nothing of farming.

With the equipment on hand, and 10 Jersey cows, together with a registered male which they had imported from England, they went to work. Following the plow, milking the cows and feeding things, however did not appeal to them as much as they thought it would. But they were imbued with the spirit of the great West and could not make up their minds to return to the city life. So they disposed of their farm implements, bought 100 sheep as a nucleus for a sheep ranch, and got busy—which is the real beginning of the story.

**Women Back in Five Months.**

Within five months they had made back the money they had spent in buying the flock. With this cash in hand, and the proceeds of the farm, which they sold, considering it too small for sheep raising, they bought a ten-section ranch and several hundred fine sheep. On the place are located a large ranch house, stock barns, dipping vats and loading pens. The property is a part of the 3,000,000 acres of land that were granted to John V. Farwell by the state of Texas for financing the construction of the state capitol. The ranch is known as the "XII."

Last year Miss Gardner and her sister handled over 25,000 sheep. They now have 3,500 head of sheep pasturing in Tom Green county and 6,000 head of yearling breeding ewes under contract to be shipped from Arizona to their ranch this month. Only the best grade of sheep is handled and each year's lambs bring high prices, as do the muttons and the wool. During a recent visit to San Angelo, the sheepherders sold 100 head of registered Rambouillet ewes. Miss Gardner like the excellent sheep herder that she is declined to state the price received for the animals.

The labor problem doesn't worry these women. Miss Gardner speaks Spanish fluently and employs only Mexican herders.

In addition to the big sheep ranch which they operate, Miss Gardner and Mrs. Hartwell have placed 700 acres in cultivation. The management of this end of the business is under the supervision of John Hartwell, son of Mrs. Hartwell.

who is a widow. Very naturally these efficient and enterprising women use only the most modern equipment, including a big 75-horsepower tractor.

#### For Women's Suffrage.

"Certainly I am in favor of women voting," said Miss Gardner, when questioned on the subject. "They deserve equal rights with the men and need suffrage to improve living conditions among women workers and children. Women won't be hurt by politics, but may improve the order of things. My sister and I paid over \$1600 in taxes in Parmer

county last year, but I regret to say that I did not pay my poll tax. Never again shall I neglect this important item, sheep or no sheep."

The wages of women office workers embracing stenographers, typists, file clerks and general clerks average from \$13 to \$25 per week, stenographers being the highest paid, according to deduction drawn from replies to a questionnaire sent to seventy employees by the Industrial Bureau of Merchants' association in New York City.

Judge W. S. Simpkins of Austin, Texas, claims the distinction of firing the first shot of the Civil war. It was on February 10, 1861, just fifty-nine years ago, Judge Simpkins has been a member of the law faculty of the University of Texas since 1860.

### ALLEY IS GRADED BY SUBSCRIPTION OF MEN ABUTTING

The girl pupils of the Chico, Calif., high school not only voted down the movement to put a ban on the wearing of silk stockings as a blow to the high cost of living, but they have gone it one better by wearing half socks and boys' socks. The latter style has quite a following.

The alley leading from Pine street to the Shamrock bath house has been raised and graded by private subscription of property holders on the alley. The McKenzie Construction company will roll the gravel without charge. This alley has been in bad condition. After each rain it became a morass, standing wet for days before the sun dried it.

# FOARD COUNTY BELOW NORMAL IN ITS YIELD

**CROWELL, June 16.**—Foard county, one of the outstanding counties of the state this year, in 1919 raised 1,500,000 bushels of wheat against 1,000,000 bushels this year. In 1919 some of the products were 4,000 bales of cotton, 4,500 tons of cotton seed, 120,000 bushels of oats, 2,500 tons of maize and other feeds and 6,000 bushels of corn. The amount of wheat held over in mills, elevators and granaries from last year's crops, due to the scarcity of cars, is estimated at one million bushels.

The town of Crowell in 1919 transacted \$206,583.77 worth of business with the Orient railroad, the line which west Texas interests are trying to save by securing a federal apportionment from the revolving fund. Foard City, another town of the county, did \$37,300 worth of business and Margaret an equal amount. Total business transacted by the Orient in the county is estimated at \$281,184.

The local chamber of commerce in a statement to the West Texas chamber of commerce estimates crop conditions for 1920 as follows:

Wheat 800,000 bushels, 20,000 bales of cotton, 9,000 tons of cotton seed, 480,000 bushels of oats, 2,500 tons of maize, 6,000 bushels of corn. The decrease in wheat production is due to the decreased acreage.

The present population of Foard county has been estimated at 7,500 as against 4,000 in 1908. The county embraces 402,200 acres. In 1908 30,000 acres were in cultivation; at present 120,922 acres, or more than 300 per cent increase.

The labor situation due to the wheat harvest has been met successfully by the chamber of commerce assisted by the federal employment service of the West Texas chamber of commerce.

## JAPAN IS AFTER MORE TRADE IN THE SOUTH SEAS

**TOKIO, June 16.**—Japan is ambitious to obtain a large share of the trade of the South Sea Islands which is estimated at 2,000,000,000 yen a year. Of this Japanese exports amount to only one and one-half per cent but have increased rapidly since the war. Some Japanese commercial leaders are advising that in order to increase the sale of Japanese goods in the South Seas Japan must import from the islands rubber, sugar, chemicals, dye stuffs and spices in which these islands abound. President Kimura of the Singapore Japanese Emporium urges that Japan establish direct trade agencies with Sumatra and Manila for expansion of Japanese trade.

# "Tinker Bob" Stories

by Carlisle H. Holcomb

**THE KING CLIMBED THE CORN STALK.**

While Tinker Bob was climbing the roof of the palace, the corn stalk grew and grew 'till the leaves shaded the whole roof and the top was far above the roof. He could not see the nest that Red Ant had told him about because it was too far away from him. There was only one thing to do and that was to climb the stalk to the top where the nest was.

Tinker remembered the bean stalk that grew and grew 'till it was the largest

all around me. In the morning a boy came to me and I thought sure that the end of my life had come.

"I screamed and struggled but I could not get away. He took me to his home and I saw the cat—then I thought he was going to feed me to that dangerous fellow, and I think that is just what was on his mind 'till his sister came on of the big house. She talked to this boy 'till he at last opened the trap and let me go. My, but I was glad."

Who do you think these two creatures were? I'll tell you tomorrow.

Tomorrow—Tinker Speaks to Mr. Bobolink.

**OPERATOR KNOWN HERE WEDS IN VIRGINIA**

James T. Dolan, who formerly made his home in Ranger and is well known here, was married Wednesday, June 10, to Miss Dorothy Margherita Bradley of Parkersburg, W. Va.

This account of the wedding was published in the Parkersburg Sentinel:

"The marriage of Miss Dorothy Margherita Bradley and James T. Dolan, prominent young people of this city, was quietly celebrated Wednesday evening, coming as a surprise to many friends. The ceremony was performed at 8 o'clock at St. Xavier's church by Rev. John McBride, the attendants being Miss Ella Dolan, a sister of the bridegroom, and Mr. Allen Overton, his cousin.

"The bride and bridegroom left immediately after the marriage service for different points in the west where they will visit en route to Fort Worth, Texas where they will reside.

"Mrs. James T. Dolan is a daughter of Mr. and Mrs. C. G. Bradley of Parkersburg, a graduate of Salem college and for the past year or two has been connected with one of the local papers. Mr. Dolan is the son of Mrs. Mary Dolan. He served with distinction during the war as a member of the Ninth division and since his honorable discharge has been engaged in business in the southwest. He is a successful oil operator, a member of the Dolan-Jacks company, and is now located at Fort Worth. The congratulations of a host of friends will follow the young couple to their new home.

Grover Cleveland Bergdoll, the millionaire draft dodger, who made a sensational escape from military authorities while on a visit to Philadelphia, can be extradited from England should he go to that country. Great Britain is the only country which has an agreement with the United States whereby military prisoners can be returned.

**What's become of the prejudice against automobiles because they frightened the horses**

**N**OW cars are everywhere. The horses have gotten used to them—and so has everybody else. Think of it! This year the American people will spend *nearly a billion dollars* on tires alone.

Tires are one of the *biggest items* on the car owner's bills.

Hardly a Saturday, when you motorists drop in to "tune up" for a Sunday trip, that one or more of you doesn't tell us something of value to our business. Sooner or later it comes back to you in *Service*.

Service is what the car owners of this community are looking for nowadays.

And especially the *small car* owners, who put service

*first* in figuring their motor-ing expenditures.

Just because a man has a moderate-price car is no reason why he should get any *less service* out of his tires.

We believe that the man with the small car is entitled to *just as good* tire service as the man with the big car—and both are entitled to the *best tire service* they can get.

That's why we represent U. S. Tires in this community.

And why more car owners—*large and small*—are coming to us every day for U. S. Tires.

Come in and talk to us about tires. We're here to help you get the kind of tires you want.

## SYSTEMATIC TRASH DISPOSAL.

In back of many business houses facing Main street and other downtown streets a sanitary committee from the Chamber of Commerce found much accumulated trash and rubbish, and in some instances sanitary conditions that the committee considered a menace to the town.

On the present system of trash hauling the fault of this condition can be laid, in at least a part of the cases found by the committee.

The sanitary company has the exclusive right, granted by the city, to haul trash for pay. They maintain a large and expensive organization and naturally their rates are high. In order to get their rubbish disposed of as cheaply as possible, many merchants and business people let it accumulate until it amounts to a wagon load. They then notify the sanitary company to haul it away. Perhaps, in turn, the company waits until it is convenient, with the result that the pile

grows larger and the result is that at no time are the alleys kept clean.

In considering the situation, it appears that disposing of each day's trash is much the same problem as that confronting the street sprinkling company.

In this case, all the paved streets are sprinkled and each patron served pays each week by the front foot.

It would seem an easy matter to work out a plan whereby a trash wagon would call at the rear door of each business establishment each morning and remove the accumulated rubbish of the day before, with each house served paying a nominal sum.

This system is in vogue in many cities and has met with much success.

As it is worked out, the task is given to a company and it makes charges for the amount of work done and on the class of business served.

In these cities, no one is under any duty to patronize the company that makes the regular rounds, but all are forced by law to keep their premises clean. The trash haulers collect their bills each week and where a refusal to pay is met, the matter is reported to the proper officials and the company's wagon goes there no more. But the officer receiving the word watches that place and if all the laws are not complied with, arrest follows.

Ordinarily the plan is so simple and the charge so light that everyone is glad to have the problem so easily handled. In Ranger two wagons easily could reach all downtown business houses each day, thus dispensing with the need of ever letting trash accumulate.

## BACK TO TRIBAL DAYS IN STORE

## GRATEFUL BLUSHES.

No family ever was offended when told that one of its offspring was a handsome child, remarkably like its parents and abundant in promise. So the Times, which just celebrated its first anniversary with a birthday edition, feels a pleasant glow on the receipt of greetings like these, from P. J. Neff, general manager of the Wichita Falls, Ranger & Fort Worth railroad:

"I want to compliment you on the nice number you got out on the anniversary of your paper. It was a great advertisement for the city of Ranger."

And these, from a fellow craftsman and associate editor in our neighboring city of Eastland:

"Congratulations on the Times birthday and the wonderful paper you got out on that occasion. You got out a mighty fine paper. It almost convinced me that in time Ranger may be a modest little city."

Of course Sam Bagby, city editor of the Oil Belt News, had to qualify the truth about Ranger.

And this, from W. Hamilton Wright, publicity manager of the West Texas Chamber of Commerce:

"Permit me to congratulate the entire Times force on the very attractive and highly interesting first annual edition of the Times. It was a spicy sheet, full of pep, push and print."

"I consider the Times one of the best daily newspapers in the state. It has been especially friendly and assisting to the West Texas Chamber of Commerce, consistent in its editorials, and always fearless in its fight for the right, so that its success as a publication is assured. May it always improve as it has in the last year, and may its editor and his associates always prosper."

## RANGER TIMES YEAR OLD

(Cisno Daily News)  
The Ranger Times issued its first birthday anniversary edition Sunday. It was a 64-page paper, crowded with advertisements and photographs of people and buildings of the city to the east of us. On the whole the newspaper was not only a credit to the profession, but a credit to the city whose interests it is forwarding. It showed not only enterprise in newspaper work, but shows that the Ranger Times is getting sufficient business backing to enable it to exploit the city of Ranger.

Miss Mary Hansie, aged sixteen years, of Fairchance, Pa., holds a unique record for a girl of her age. Besides going to school and running a farm, she finds time to act as a "mother" to five children, all of whom have been under her care since her mother's death.

## Labor Problem Is Brighter in Stamford Area

STAMFORD, June 16.—The serious shortage reported in west Texas wheat fields last week has quickly taken a change for the better, according to the federal employment service co-operating with the West Texas chamber of commerce.

"Immediately that heavy orders began to come to the labor bureau here," said the examiner in charge, "requisition was made through the government's clearing house and through the press, with the result that hundreds of men surreptitiously appeared at the towns most seriously affected by a shortage. A great number of those who reported for work declared that they were brought to this section by the wiretaps which they saw in the press of Fort Worth and west Texas."

The examiner declared that the prospects are that a large number of farmers of central west Texas will be compelled to increase their price for farm labor if they are to get their cotton chopped. Most of the farmers so far, the examiner says, are offering \$2 and board for choppers. Very few men are willing to work for such low wages. In an effort to induce the farmers to increase their wages, the farmers declared that they were not able at the present price of the staple and the great amount which they have on hand left over from last year and which they cannot sell.

In the Haskell section as much as \$5 is being paid. However, most farm labor is drawing from \$2 to \$4 a day with board. A number of hands recently arrived at Haskell and refused to work for \$4 a day, laying around the town. Local labor was recruited and the wheat harvest saved. Thousands of acres of cotton in this county will soon require chopping. With fair weather it is believed that the labor that can be recruited in the west will be sufficient. However, the frequent rains of May have caused many of the farms to be very rank with vegetation.

## Interesting Facts About Telephone Operators

The Telephone Operator is selected from among many applicants, because every one who applies is not fitted for this work.

She is chosen because she has a good speaking voice, is free from nervousness, is quick-witted and blessed with poise. These attributes are necessary in order to insure service to the Telephone User.

After a young lady is accepted by the employment department she is given instruction and is taught the art of handling the switchboard.

Her health and general comfort are in the hands of competent and careful experts. She has good accommodations, a well ventilated, well lighted place to work and conditions surrounding her equal to many of the better class of homes.

Our operators are faithful and industrious. Noted men and women have visited our exchanges and have departed impressed with the remarkably bright, loyal and industrious personalities they have found at the switchboards and in our executive departments.

THE BEST EFFORTS OF THESE YOUNG LADIES are offered you in the telephone service; a kind word to them over the wires when you are calling will always bring a gentle "Thank You" as she instantly does her best to connect you with the number you are calling.

These are times of unrest and apprehension. The turmoil following the close of the war has found its reflection in unrest on the part of the people and an unusual irritability. Telephone patrons can assist us in swinging the telephone service back to normal by making it a point to encourage our young women with kind words.

# JOHN-A-DREAMS

## L. PRISON DREAMS AND DREAM PRISONS

The walls of a bedroom are narrowing until they seem to be a prison cell and you a captive within them. The feeling that comes over you is one of despair, of shame and unutterable distress. What does the dream mean? Strange, is it not, that it should foretell sweet fortune—that it should signify the happy slavery of hearts united? True, your days of freedom are gone—but in its place have come the pleasant chains of welcome duty and domestic obligation that spring from happy marriage. But wait—you are trying to escape—to burst through the locked door. In a moment, the meaning of the vision changes. It now means that, through force of circumstances, you are about to become the wife of a man you never could love and that you will strain away from him soon after the wedding, with all your might.

Married women who have such dreams are usually dissatisfied with their lot and the lot of their husbands and to them the bonds of marriage are fetters which oppress and hold them against their will. If they see the door open then the day of deliverance from a fate of hated marital servitude is near.

A vision which does not show you in a cell, and yet a prisoner, is a portent of days of trial and tribulation. But if, in the course of your dream, you regain your freedom, all will be well and the period of anguish but a short one. You need not worry, then, if some unhappy event seems to cloud your life, for the dark days will pass quickly. If man or woman dream that he or she is suddenly arrested, the next few weeks will bring a great surprise, a most unusual happening which, though it will force the dreamer to abandon much that was valued highly, will lead to the road of happiness and success.

Remember that—

Stone walls do not a prison make,  
Nor iron bars a cage.

To see prisoners, is a sign of much unhappiness in certain circles where you are well acquainted. Such dreams are frequent and their meaning depends entirely upon the surrounding circumstances and upon the part you play in the dream-drama. If you stand off idly, merely watching, these concerns will neither call upon you to help them nor will you offer to do so. If you seem grieved, you will extend an aiding hand. If they cry you will suffer with them, in some manner. If you shed tears over their fate, you will find yourself in a position of being able to relieve the sorrow of dear friends or relatives.

Good dreams are those in which you see some one person who is dear to you, behind the bars. This always signifies that some one is eagerly waiting for a kind word from you if, in your dream, you should happen to liberate the party in question. You will do so kindly and sweet a deed that its beneficiary will reward in the most generous manner.

Dreams of the outside of prisons are signs of jealousy. If no one is to be seen as the vision appears to you, you are the jealous one. If you see persons nearby, others are jealous of you. If you see a woman emerging from a prison gate, you will have a successful rival; and if a man, then someone is poisoning the mind of your husband or lover against you.

In the next chapter I will tell you of the mysterious and deep meaning of dreams of Eyes.

## PRIZE COW GIVES 10,239 POUNDS OF MILK IN YEAR

International News Service, FAYETTEVILLE, Ark., June 16.—This state's champion Jersey cow is at the Arkansas Agricultural college here. She is Pearl's Alpha. Her sire was dam Briarwood Pearl. Among her ancestors was the famous Jersey bull Golden Fern's Ladd.

The prize cow has been on a test for a year, during which time she gave 10,239 pounds of milk with an average test of 5.41 per cent butter fat. The total butter fat for the twelve months was 553.84 pounds, the highest record in Arkansas for any breed.

## BLOOD TESTS PROVE GIRL IS A NEGRO

OMAHA, Neb., June 16.—The hopes of Thora McCree, fourteen, were dashed recently when she was classed as a negro as a result of blood tests.

She appealed to the authorities in the belief that she was purely of white blood and asked to be taken from negroes, who said they were her parents.

Her request was granted, but she will be placed in an eastern home for negroes.

# RUMANIA IN NEED OF BRIDGE STEEL TO CROSS DANUBE

CONSTANTZA, Rumania, June 1.—Owing to the general destruction of bridges during the war there is an exceptional opportunity in Rumania for American bridge builders. A bridge over the Danube to connect Rumania with Serbia is being considered by the Rumanian government. There are eighteen important bridges in other parts of Rumania awaiting construction.

In addition, the great bridge over the Danube at Cernavoda, in many respects the greatest structure in Europe, must be reconstructed. This bridge, known as the King Carol bridge, is 1290 feet long and 114 feet above high water.

# BRITAIN SPENDING MORE ON CHARITY SINCE WAR ENDED

LONDON, June 16.—The cost of British charities has increased 1,000 per cent in the last 20 years despite the enormous expenditure on insurance, unemployment, old age pensions and various other forms of public assistance. J. R. Marriott, member of parliament, has told the charity organization society that he estimated the present charity total at 250,000,000 pounds sterling for the year as compared to 25,000,000 pounds sterling 20 years ago.

# VARDEN, BRITAIN'S PREMIER, GOLFER, PASSES 50TH YEAR

LONDON, June 15.—Harry Varden, Britain's golfing classic, has passed his fifty-year mark and joined James Braid in that distinction. J. H. Taylor is the youngest of the golfing triumvirate. He will not be fifty until next March.

Varden won his first championship in 1896, and as he won the British championship in 1914 and there has been no championship play since, he still holds the title.

Critics who are reviving his "form" now in sizing up his chances in this year's "open" at Deal, say he struck his form in 1898, 1899 and in 1911 and that he is now four strokes a round worse than in his best days.

## TIME TABLE FOR CANNING WITH A WASH BOILER.

Last week I wrote about the equipment needed for the general process of canning with an ordinary wash boiler instead of one of the water-seal outfits, steam-pressure canners or pressure cookers on the market. (For a wash boiler can be used with just as good results as one of these expensive devices for canning, although the latter are excellent if one can afford them.)

Today I am going to give the Time Tables for the common fruits and vegetables grown in the average home garden and canned with a wash boiler. Time Tables to use with water-seal outfits, steam-pressure canners and pressure cookers can be had by writing to the Division of Publications, United States Department of Agriculture, Washington, D. C., and asking for Farmers' Bulletin 839, entitled "Home Canning by the One-Piece Cold-Pack Method." This bulletin may be secured free of charge and will give, besides the time tables, additional information concerning the preparation of special fruits and vegetables, and includes recipes and directions for canning soups, meats and fruit juice preserves.

Time Table for Blanching Vegetables.—Blanch asparagus 15 minutes; beets 5 minutes; cauliflower 3 minutes; carrots

5 minutes; corn 5 to 10 minutes; lima beans 5 to 10 minutes; parsnips 5 minutes; peppers 5 to 10 minutes; peas 5 to 10 minutes; pumpkin 3 minutes; salsify 5 minutes; sauerkraut 3 minutes; spinach 15 minutes; squash 3 minutes; string beans 5 to 10 minutes; sweet peppers 5 minutes; swiss chard 15 minutes; tomatoes 1 1/2 minutes; turnips 5 minutes; vegetable combination 5 to 10 minutes.

Time Table for Processing Vegetables (that is, for boiling the jars containing the vegetables).—Process asparagus 120 minutes; beets 90 minutes; cauliflower 60 minutes; carrots 90 minutes; corn 180 minutes; lima beans, 180 minutes; parsnips 90 minutes; peppers 120 minutes; peas 180 minutes; pumpkin 120 minutes; salsify 90 minutes; sauerkraut 120 minutes; spinach 120 minutes; squash 120 minutes; string beans 120 minutes; sweet peppers 90 minutes; swiss chard 120 minutes; tomatoes 22 minutes; turnips 90 minutes; vegetable combination 120 minutes.

Time Table for Blanching Fruits (the figures refer to minutes).—Apples 1 1/2; apricots 1 to 2; blackberries none; blueberries none; cherries, sweet, none; sour none; currants none; gooseberries 1 to 2; pears 1 1/2; peaches 1 to 2; plums none; quinces 1 1/2; raspberries none; rhubarb

Time Table for Processing Fruits.—Apples 20; apricots 16; blackberries 16; blueberries 16; cherries, sweet, 16; cherries, sour, 16; currants 16; gooseberries 16; pears 20; peaches 16; plums 16; quince 20; raspberries 16; rhubarb 20; strawberries 16; fruits without sugar 30.

As will be observed, berries and other soft fruits are not blanched at all. Blanch delicate vegetables, such as lima beans, peas and greens, by steam instead of plunging them into boiling water; an ordinary colander which fits into a large covered kettle may be used for this. More mineral salts and flavors are retained by steam-blanching these delicate vegetables.

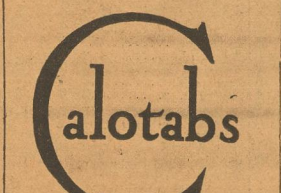

In canning corn, peas, beans and asparagus it is safer to blanch, cold-dip and pack only one jar at a time, so that the work may be done without allowing the product to stand in a warm place for a moment and deteriorate.

That Black-Draught is Excellent for Stomach and Liver Disorders, Hence Its Great Popularity—Mississippi Planter's Indorsement.

Houston, Miss.—Mr. J. A. Trenor, a well-known planter of this place, recently related his experience in using Theford's Black-Draught. I don't believe there is a better liver medicine made," said Mr. Trenor. "I use it for headache, stomach disorders and torpid liver.

"It is not bad to take, does not leave a constipated condition, as so many of the liver pills and medicines do. It does its work and leaves you feeling like a new person."

Thousands of others have found Black-Draught as helpful as Mr. Trenor describes, and a valuable remedy for derangements of the liver, stomach and bowels. It is purely vegetable, having an active effect upon the bowels, gently stimulating the liver, and helping to increase the flow of bile.

Black-Draught has been found to assist in the digestion of food, relieve constipation in a prompt and normal way.

On account of Black-Draught's long-proved merit and immense popularity, many imitations are being offered for sale. For your own satisfaction it will pay you to insist upon the genuine, and be sure the package bears the name "Theford's Black-Draught."

Tommy Lovelace made a good play on White in the seventh. He took the ball on a brisk run. Lovey beat himself out two hits yesterday, also.

Henke seems to be a good lead-off man. In five times up, he got on three and one of those was on a clean two-bagger to the autos in right.

That office boy was a good picker

IT WAS my busy day. AND I told the boy. I COULD not see. ANY VISITORS. AND HE popped back. AND SAID there was. A GENTLEMAN outside. WHO WISHED to see me. AND I said "No." BUT I guess the boy. IS LIKE my wife. AND DOESN'T know. WHO'S BOSS. FOR BACK he comes. AND SAYS the man. WANTS JUST a word. AND I told the boy. I COULD tell the man. JUST WHERE to go. IN JUST three words. BUT THE boy came back. AND SAID the man. COULD SPOT me one. HIS BUSINESS needed. JUST TWO words. AND I'M a sport. AND CURIOUS too. SO IN he came. AND HANDED me. SOME CIGARETTES to try. AND SAID "They Satisfy." AND I will state. HE SAID something.

STARTING FIRE WITH OIL CAUSES DAUGHTER'S DEATH

JEFFERSON, Iowa, June 16-The use of kerosene to start a kitchen fire resulted in the serious injury of Mrs. Richard Tilley of this place, and the death of her six-year-old daughter here recently.

The mother ran from the house and quenched the flames which enveloped her by leaping into a tank of water. Meanwhile the clothing of the child, who had stepped into the kitchen, became ignited and she was burned to death.

MADE SURE HIS SUICIDE WOULD BE SUCCESSFUL

EUREKA SPRINGS, Ark., June 16-Charles Buchanan, thirty-six, a department of justice agent, took no chances on failure in his attempt to shuffle off the mortal coil here the other day.

After placing a noose around his neck he shot himself twice beneath the jaw and then kicked away a barrel upon which he stood.

Life was extinct when his body was discovered and cut down.

### PECOS FIELD HAS ANOTHER WORKING CO.

PECOS, June 16.—Contracts calling for the transfer of twenty sections in Eastern Loving county to the Pinaldome Oil Co., of Santa Barbara, Cal., have been received signed. These contracts call for the development of this acreage by the Goodwin interests by means of two standard rigs. It is located in blocks 53, township 3; school block 21 and C-26. The land is in part of the Tom Jones and the Evans and Means ranches.

In order to reach this country, where several other concerns are planning development, the commissioners, court of Reeves county has ordered an estimate to be made on the Porterville bridge, to cross the Pecos river twenty-two miles above here, and on a new road which would reach from the bridge to Eastern Loving county. It is proposed to reinforce the bridge so that it will support the heavy loads that would pass over it during the period of development.

The Pecos Valley Oil Co., a Los Angeles concern, is now hauling a standard rig to their location on section 86, block 8, H. & G. N. Ry. survey, Pecos county, thirty miles east of Pecos. When erected this rig will be the sixth standard rig in that section, starting with the Trans-Pecos, now drilling, the three Dominion wells and the Victory of the Sunshine Oil corporation.

W. B. Lynch of Dallas has been in Pecos arranging for the first well to be put down on the big holdings of the Pecos Valley Alfalfa Land and Oil Co., H. & G. N. Ry., east of the river and about eighteen miles north of Pecos.

Harker and Hancock have spudded in a new well, which is to pass up the shallow Toyah sands and seek bigger production. They have started with a fifteen-inch hole in section 11, block 53, school survey. The rig for the Cleveland-Texas well has been shipped from Douglas, Ariz. They are to drill for the deeper stuff in section 46, school block 53, Culberson county, just west of the Toyah shallow field. The contract for the other Culberson county well has been let by C. O. Finley to be drilled on section 32, block 92.

### Tomlinson No. 1 Flowing 1,000; Will Go Deeper

SPECIAL TO THE TIMES.

LEERAY, June 16.—The Texas company's Tomlinson No. 1, in section 453 one mile northeast of Leeray, hit the lime at 3,180 feet and started flowing at the rate of 400 barrels daily. After being drilled in four feet, the flow increased to 1,000 barrels. The boiler is being moved back preparatory to drilling deeper.

### BRECKENRIDGE IS TO PERMIT WELLS IN CITY

BRECKENRIDGE, June 16.—Under compromise agreement by which oil wells may be drilled within the city limits, many new rigs are going up and several outfits have spudded in since the finding of oil in the Castleman well close to the business district.

The city ordinances provide that one well may be drilled to each block providing it is a defined distance from the fire limits and of a district in extension of the main business thoroughfare. This admits of wells in the middle of blocks first adjoining the district, or a block and a half out from the business street.

Inasmuch as the blocks of Breckenridge are regularly laid out and are 300 feet square, the state regulation is complied with in having wells a distance of 150 feet from property lines.

All owners living within a block drilled, share in the royalty, proportioned to the several holdings. A well anywhere in this district is counted good for 300 barrels, sustained, and the owner of a block well may confidently expect to realize nearly \$30 a day.

Canada's reparations claim against Germany, amounts to \$1,871,000,000. The claim is for losses sustained by the Dominion and its citizens and includes: Cost of war and demobilization, \$1,715,000,000; separation allowances, \$85,000,000; Halifax losses, \$30,000,000; army of occupation, \$7,000,000, and illegal warfare, \$31,000,000.

The use of high explosives in modern warfare has about reached the end of its development. Poisonous gases, it is indicated, cannot be made much more dangerous than were those contrived in the World war.

### GERMANS SEE SILESIA END AT ELECTION

OPPEIN, Upper Silesia, (By Mail).—German workmen in the plebiscite zone are tremendously excited over the election. Zealous patriots and firm in the belief that Germany soon will be on its feet again, they are dismayed at the possibility of Upper Silesia being added to Poland. A union of industry and an irremediable setback to German labor in the district is the dark picture they paint of Polish victory.

Seeking the views of Upper Silesian workmen on the plebiscite, the correspondent asked the editor of an Oppeln newspaper to arrange a meeting with labor leaders. The editor got together a dozen, all German. Here are the principal points of their arguments:

"Alliance with Poland would be a catastrophe for Upper Silesian workmen, as they would be deprived of the benefit of German social and labor legislation, such as workmen's insurance and compensation acts and the employes' representation in the operation of industrial and commercial concerns.

"Poland is an agricultural country and backward socially and economically. Lacking industries, the Poles have had little experience in the scientific management of mines and factories. Even in agriculture the Poles still use the most primitive methods and implements. In their unskillful hands the highly complicated industrial mechanism of Upper Silesia would be ruined.

"Polish labor is underpaid. Upper Silesia, compared to Poland, is a labor paradise. If it becomes part of Poland, Poles would flock in and overrun the country, reducing wage

and working standards and forcing the Germans out of employment.

"If Upper Silesia becomes Polish it goes with the East. If it stays German it goes with the West and its people will follow in the path of the democracies of England and the United States."

Much was said about democracy. No Bolshevist sentiment was expressed at all. These Germans professed great distrust of Poland's foreign policy, which they declared to be imperialistic. They conceded that Poland now was nominally social-democratic, but they asserted that the Poles were such an unstable people that their policy was likely to change overnight.

"German Upper Silesians want to remain with democratic Germany," they said. "German workmen want to settle down to work and restore German industries. They want to show the world that Germany can fulfill the obligations of the peace treaty. But the war indemnity cannot be paid if Germany is deprived of the raw materials Upper Silesia can supply."

### DESERTED TEAM AWAITS OWNERS AT POLICE DEPT

Several hundred feet of "bull rope" cable which has the appearance of being almost new is in the possession of the police department together with a wagon, team and harness for which the owner is being sought.

The outfit was picked up yesterday afternoon at the office of a junk dealer on West Main street. The proprietor of the junk yard told the officers that the owner had gone away just before their arrival. He had not returned this morning to claim his goods.

The police received no report of missing cable and are holding it pending identification.

### Times Want Ads Pay

Pop had a fearsome cold yesterday, and him and me was up in the sitting room waiting to be called down to supper, me saying, G. pop, don't that corn beef and cabbage smell good. Id drather smell corn beef and cabbage eny day wen Im hungry.

I can't smell a thing, confounded sutch a cold, sed pop, we never appreciate our sense of smell till we lose it. Id give 5 dollars jest to be able to smell one whiff of anything jest now. Me thinking, 5 dollars, G. whizz, I wonder if he could smell the smell of gas.

And I sneek out and turned on the gas to see the wall and pritty soon I could smell it plain as anything, saying, Can't you smell anything at all, pop?

Not a blame thing, sed pop.

And I waited a little while and the gas started to smell so strong it was fearsome, and I sed, can you smell anything now, pop?

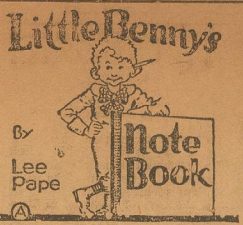

You jest asked me a minnit ago, use a little judgment, wy should I be able to smell now and not a minnit ago, sed pop. I thavt your smelling might of improved, I sed.

You have some wonderful thavts, its too bad theres no sense to them, sed pop.

Wich pritty soon the gas started to smell so bad I started to wonder if Id better turn it off, saying, Can't you smell anything yet, pop?

You'll smell the seat of your pants burning if your ask me that agen, sed pop, mad. Wich jest then may came running in, saying, Pew, pew, wy, its this room, its enuff to asfixiate the hole mabehood, do you 2 mean to tell me you never smelled that gas. And she turned it off and opened all the windows, going, Pew, pew, thats terrible.

The result being that I got ten sutch fearsome cracks with pop's slipper that they was equal to about 20 ordinary cracks.

### COAST TRADE FROM BRITAIN COMES TO U.S.

ST. JOHN'S, N. F., June 12.—The steady shifting of New Foundland imports from Great Britain to Canada and the United States is shown in foreign trade figures just made public here. Imports from Great Britain in 1909 were valued at \$2,493,670 and in 1919 at \$2,399,853. In the same period imports from Canada increased from \$3,957,000 to \$12,773,684 and from the United States from \$4,332,680 to \$16,599,236.

The climate of New Foundland is so severe that all of its food supplies, except fish, a few farm products and a small quantity of meat, have to be imported. Practically all clothing, furniture and household goods also come from abroad. Until about 20 years ago these imports were divided almost equally between Great Britain, Canada and the United States, but since then the tendency each year has been to buy less from the mother country and more from the nearer neighbors.

As the value of articles imported has doubled since the beginning of the war, the falling off in bulk of imports from Great Britain is much greater than indicated in the figures of value. Although the difficulties of transport across the

Atlantic, especially during the war, have had much to do with this, it is very largely attributed to the activities of American and Canadian commercial travelers.

Business interests here have been informed that British traders are trying to set up machinery to re-establish trade with various portions of the empire which was disrupted by the war and are expected to give first attention to New Foundland. Dealers in this city are sending buyers to the British Isles this summer and say that they are prepared to fill their requirements there to the greatest extent possible, if they can be assured of delivery.

### HUBBARD IN FIELD AS COUNTY JUDGE

G. Hubbard, an attorney of Olden, has announced himself as a candidate for the office of judge of the county court at law.

Mr. Hubbard is a graduate of the University of Texas, holding the degree of Bachelor of Laws.

During the war he was a lieutenant of the air service, stationed in England. In the course of his enlistment he also sat as judge advocate of the military court.
