## STAR OF 'EMPTY GRAVE' CASE TO FILM THE YARN

Cochrain, Now Penniless, Hopes to Recoup Fortune Through Thriller.

By W. HAMILTON WRIGHT, Times Staff Correspondent.  
**BUFFALO GAP, May 24.**—Byrd J. Cochrain, central figure in the notorious "empty grave" swindling case of Stonewall county, is here rehearsing for the filming of the sensation which will be shown on the screen throughout the country, according to a local cinematograph promoter. According to the latter the filming of the "case" will require a large expenditure.

Cochrain, it will be remembered, figured in a fight as a ranger in New Mexico against a group of cattle rustlers. In this engagement two of the alleged rustlers were killed. Cochrain was shortly afterwards arrested by officers of Mexican blood, incarcerated in a dungeon, and held incommunicado for some time. Later he was released on bond. The Mexican element was so strongly allied against him and the fear of not receiving a fair trial weighed so heavily on his mind, that he is alleged to have jumped his bond. He later showed up on his farm near Aspermont, Texas. His life had been insured heavily in three companies. He is alleged to have faked death, to have been laid out on a cooling board, and apparently interred in the family plot nearby. Some time later after his wife had collected the insurance money, Cochrain was seen at night in the community. Some believed that they had seen a ghost.

Grave Opened.  
 So insistent became the tales about his being seen in the flesh that the grand jury at the instigation of insurance officials ordered an inquiry which resulted in the grave being opened. The casket was inside the grave, but the coffin had disappeared. Soon thereafter Cochrain was arrested in Sterling county where he had purchased a goat ranch. His five sons, ranging in age from one to seven years were with him, but Mrs. Cochrain, his wife, had died in a San Angelo hospital a short time before his arrest. In a trial at Aspermont several months ago Cochrain was given two years in the state penitentiary in connection with alleged embezzlement from the Woodmen of the World of which he was a member and in which he held an insurance policy. A number of companion cases are pending. Cochrain is now out on bond awaiting a new trial.

Cochrain Will Be Star.  
 Arrangements were made by the promoter of the local studio and Cochrain is to re-enact the stirring scenes beginning with his New Mexico troubles down to and including his simulated death, burial and "resurrection," together with his arrest, and some trimmings thrown in. The circumstances surrounding his burial and "resurrection" were not vouchsafed at the trial at Aspermont as the counsel for the defense did not introduce Cochrain or any of the defense witnesses. Whether or not the pictureization of the episode will be anything like what really occurred is a matter of some conjecture, and those who are watching the rehearsings now are trying to get a peep into a mystery that is as wonderful and unsolvable to the masses as it was when enacted.

Dopester Hired.  
 A New York woman writer, it is said, has been engaged by the promoter of the film to write a scenario which will be the foundation for one of the most sensational screen plays that have engaged the attention of the American theatre going public.

Cochrain is said to be almost penniless. Before his troubles he was reputed to be worth not less than \$15,000. If the film adventure proves a success and Cochrain secures his freedom from the laws of the land, he will probably recoup the loss thrust upon him through his desire to escape being returned to New Mexico to stand trial for the killing of cattle rustlers whose friends seemed determined to mete out punishment to him.

## DRUGS HIDDEN IN HOLIDAY CARDS, IS A NEW TRICK TO FOOL POLICE

Detectives who arrested Antonio Concilio in New York City recently noticed a peculiar form of Christmas card in the house. The card bore a picture of a woman's shoe with one of the toes puffed out. In the puff, they said, they found a "deck of heroin. Such cards are probably used to send drugs to men confined in prisons, the detectives said.

## GROCCERS SEEK TO GARNISHEE U. S. PAY CHECKS

**KANSAS CITY, Mo., May 24.**—Resolutions urging federal legislation permitting the garnishment of government employes and barring aliens from engaging in business in the United States until after they have taken steps to become naturalized will be considered at the three-day annual convention of the National Association of Retail Grocers, which begins here June 6. About 1,500 delegates are expected.

Business conditions affecting the distribution of food products and the part of the retailer in the general movement back to normalcy and lower prices will form the ground work of the convention discussions. "We are very much alive and ready to defend the retail grocers from the scurrilous attacks upon this essentially necessary business," John A. Ullner of Toledo, president of the organization, declared in calling the meeting.

## QUEEN OF ALL MINING CAMPS IS NOW ONLY AN EMPTY SHELL

**TYRONE, N. M., May 23.**—Tyronne, queen of the mining camps of the state, built at a cost of \$3,000,000 and given an artistic atmosphere through the influence of Mrs. Cleveland H. Dodge, is an empty shell. A few short months ago 4,500 men, women and children worked, lived and enjoyed life in what probably is the most beautiful mining camp in the world. Now the Phelps-Dodge corporation big copper mines are closed, there is no ore awaiting shipment, no means of livelihood remains, stores have been closed, inhabitants are leaving, the railroad has served notice that trains no longer will run. Within a short time only a dozen men, left to guard the mines and their expensive machinery, will be left. Even the Phelps-Dodge Corporation general store has closed and the entire stock has been shipped to Douglas.

Tyrone boasts the most beautiful railroad station in the state, built by the mining corporation. Homes of miners are bungalows, not the usual shanty type of western mining camps. Company houses were not built of one type. They are all different. The camp was the pet of Mrs. Dodge and largely through her influence a Southern California type of building was carried out. Closing of the town, however, is considered only a temporary measure, according to company officials, who point out that the shutdown will continue as long as the copper market remains in its present state of stagnation.

A hospital, theater, library, elabor-

ate school building and one of the best electric lighting and power States in 1920 aggregated 442,162,954 plants in the state are among the barrels, according to figures compiled by the Oil City Derrick.

# MEXICO IS NOW IN FAIR WAY TO BE RECOGNIZED

### Last Obstacle to Recognition of Obregon By U. S. Believed Removed.

By A. L. BRADFORD, United Press Correspondent  
 WASHINGTON, May 24.—The last obstacle to American recognition of the present Mexican government has been removed, it was believed here today.

The United States has been insistent that any recognition must hinge upon definite assurances that American lives and property in Mexico would be adequately protected.

President Obregon has been equally insistent that he cannot sign a set of written guarantees because of the impression of "coercion" that would result in this country.

The communication from Secretary Hughes, which George T. Sumnerlin, charge d'affaires, is bearing to Mexico City, however, was authoritatively stated today to contain merely the suggestion that certain steps should be taken by the Mexican government, preliminary to recognition.

 MANILLA, P. I., May 23.—The balance of trade during the calendar year of 1920 was in favor of the Philippine Islands, the exports exceeding the imports by approximately \$1,684,000, according to the report of the customs bureau just made public.

The total exports for the year

amounted to approximately \$151,123,000 and the imports to \$149,439,000, compared with exports of \$113,000,000 and imports of \$118,000,000 during the year 1919. The exports of sugar were the largest of any single product, being \$49,000,000 for the year 1920.

# ALL-NIGHT WIRE SERVICE BY W. U. IS INSTALLED

An all-night wire service will be maintained by the Western Union and the Texas & Pacific passenger station beginning Wednesday according to an announcement made by C. C. Street, local manager.

The Pine street office of the company will close at 9:30 p. m. week days and after that hour commercial messages may be filed at the station. Messages may also be filed there at any hour of the day, according to Mr. Street.

In the past the public has had access to the yard office of the railroad company for sending commercial messages. Under the new arrangement this will be dispensed with. The Sunday hours at present of the Pine street office will remain from 8 a. m. until 7 p. m.

However it is the opinion of Mr. Street that this under the station arrangement will be changed shortly and the office will only be open on Sunday from 8 to 11 o'clock in the mornings and from 4 until 7 in the afternoon.

With the change effective the operators at the station will receive messages but no effort will be made to maintain a regular delivery system through the night. Only death messages and others of like importance will be delivered.

# WHAT IS THE LIFE OF A REPORTER OR AMBULANCE MAN WHEN FIRST BREATH OF A BABE'S AT STAKE?

Consider for a moment the life of the ambulance driver who takes a hundred chances with his own life that another may be saved. To him his calling is prosaic. In a little while it loses its thrill—the only remembrance that his speed may be the means of saving a life.

Whether that life is more valuable than his own does not enter into his calculations. He will risk death a hundred times to save a single second, because experience has taught him that that a second in many cases means the difference between life and death for some sufferer.

But to the casual passenger who rides with the driver, Ah, there is a thrill that lasts a lifetime. A siren call, for example: A street crowded with traffic. An open siren that shrills a warning that its machine alone has the right of way. Violations of traffic laws, with the dread that any moment, a policeman may appear and waste precious time while it is explained to him that speed and more speed is essential that the faint breath of a new born child may grow stronger.

# EARLY MORNING BLAZE DAMAGES BLUE MOUSE

The fourth fire within forty-eight hours occurred Tuesday morning at 3 o'clock in the rear of the vacant building on Austin street which was formerly occupied by the Blue Mouse Cabaret. The fire department assigned no cause for the blaze.

The damage done was slight and was confined to the outside of the rear wall. It is said that the blaze was directly beneath the comb of the building in the gable end.

Harry Applewood, owner of the building has only recently moved his stock and fixtures to a Rusk street location.

# BURLESON PLAN FOR COTTON IS WATCHED

By BASCOM N. TIMMONS, Times Washington Correspondent.

WASHINGTON, May 23.—Government officials here are watching with interest the negotiations of former Postmaster General Burleson in Germany for the sale of American cotton. Except for the brief cable dispatches officials of the war finance corporation, the department of state and the department of commerce, all of which are interested in cotton exportation, knew nothing of Burleson's plans.

These cablegrams say that the Burleson plan is the arrangement for advance of credit to the German manufacturers until the finished cloth is sold. The Texas growers, in addition to receiving the market price for their cotton, would share in the profits of the finished product, if negotiations are successful, cablegrams say, deliveries will begin immediately and continue until November.

Some Optimism.  
 Some officials express the belief that Burleson will be successful in solving the problem which has baffled economists and will save thousands

# RANGER MINISTERS MEET TO ORGANIZE
