

Open Baseball Season Here Tonight

The Big Spring Broncs (above) are primed to open the 1952 Longhorn League season here against the San Angelo Colts tonight. The 1951 club wound up in third place in regular standings and is shooting for a higher finish this time out.

President Warns Steel Shutdown Can Hinder Effectiveness In Korea

UN Claims Reds Won't Talk Over Airfield Problem

Truce Supervision By Four Nations Is Reportedly Okayed

MUNSAN, Korea, (AP)—The Allies charged that the Reds in today's armistice talks refused to "discuss or even acknowledge" the issue of military airfield construction in Korea during a truce.

The United Nations Command wants to ban the building of military airfields during a truce. The Reds have called this interference in the internal affairs of North Korea.

A UNC communique said the matter of which nations shall supervise a truce "has been solved" by the UN suggestion that only four nations—Sweden, Switzerland, Poland and Czechoslovakia—form the neutral nations supervisory commission.

The Reds want Russia on the list. The Allies do not. Staff officers discussing truce supervision stayed in session an hour and four minutes Monday.

Other staff officers conferring on prisoner-exchange—third stumbling block to a truce agreement—held an hour and 47 minutes off the record discussion.

Pat McCormick Is Successful In Latest Bull Fight

Pat McCormick, Big Spring's lady bullfighter, won added acclaim in her professional Sunday

when she was awarded an ear for her expert handling of her second bull in an appearance at the Plaza de Toros in Juarez, Mexico.

Her "pass work" Sunday was reaped by experts as of a "professional caliber."

It was her second appearance in the Juarez ring. She won nationwide headlines in her debut there in 1951.

Her only difficulty came when she attempted to kill her first bull. She refused to use picadores, who stick long poles into the bull's neck to weaken the huge animal for the kill.

The bull held his head high and Pat was unable to kill him properly.

A near capacity crowd was in attendance and gave Miss McCormick a huge ovation.

Victim Of Beating

Francisco Villa, victim of a severe beating administered by hoodlums here Saturday night, is shown in a hospital bed at the Cowper Hospital-Clinic. Villa suffered multiple head injuries, had both arms broken and internal injuries. Part of one thumb was also cut off.

Officers Probing Brutal Beating

Victim of a brutal beating by hoodlums, Francisco Villa, about 40, lay in serious condition at Cowper Hospital Monday.

Officers described it as one of the worst beatings they had seen.

Villa's attending physician said he probably would recover but he said his injuries were serious as well as extensive.

His scalp had been shredded with 12 lacerations from one inch to four inches long.

His right arm was broken above the elbow and below the elbow. His left arm was broken, probably with a piece of timber with which he said assassins beat him.

Moreover, he had several ribs on the right side broken where someone apparently kicked in his chest.

Sheriff Jake Bruton and Chief of Police E. W. York, together with District Attorney Elton Gilliland, who were spearheading the investigation, said that robbery appeared to have been the motive.

Benny Marquez was picked up by the sheriff's office and police shortly before noon and was charged with robbery by assault. He was being held in the city jail.

Villa told officers that he thought three men had worked him over. The attack occurred in the 600 block of N. W. 4th Street. Villa lives at 613 NW 4th.

From the account he gave to officers, Villa was jumped by the hoodlums and beat with some object which he thought might have been a piece of 2x4 lumber. The ugly wounds about his head were inflicted by a knife, and the tip of one of his thumbs was slashed off.

Villa, who had no record with police, had been cut once before. Last year at a September, dies y seis celebration in Coahoma, he was involved in an altercation when a third party interceded. He suffered some painful cuts in that affair but they were not serious.

Taken from Villa was about \$4, he said. Monday his condition was such that he talked incoherently when a

Tactical Air Forces Set Up In W. Europe

FONTAINEBLEAU, France (AP)—The first two Allied tactical air forces have been formed to help defend Western Europe from Communist attack. They embrace squadrons from the United States, Canada, Britain, France, The Netherlands and Belgium.

The two new air forces, both with headquarters in Germany, will be under the command of Lt. Gen. Lauris Norstad, commander-in-chief of Allied Air Forces in Central Europe.

Urges Congress Not To Refuse Operation Funds

Lashes Out At GOP Plan To Cut Money; New Meeting Held

WASHINGTON, April 21. (AP)—President Truman told the Senate today if it restricts use of government funds for operation of the seized steel mills it may result in "paralyzing the operations of the government in an emergency."

In a letter to Vice President Barkley, the President hit out vigorously at Republican-sponsored moves to deny any funds for government operation of the mills.

He said enactment of the GOP proposals might lead to a complete shutdown in steel and "immediately reduce the ability of our troops in Korea to defend themselves against attack."

Further, the President contended, much of the debate on the matter has been of "extreme and misleading character."

He warned: "If the Communists stage another offensive in Korea this spring, the success or failure of that offensive may well depend on whether or not we have kept our steel mills in operation. This is a consideration over and above the drastic effect a steel shutdown would have on our total defense effort."

Truman repeated what he had said in a message April 8—that he ordered "temporary operation" of the steel mills by the government "with the utmost reluctance; that the idea of government operation of the steel mills was thoroughly distasteful to me; and that I wanted to see it ended as soon as possible."

His letter to Barkley reminded the Senators, too, that he had indicated his willingness to "cooperate in developing any legislative proposals the Congress might wish to consider" for dealing with the steel crisis.

The message was sent to Barkley while Truman continued his cruise aboard the presidential yacht Williamsburg.

Meanwhile, Nathan Feinsinger, chairman of the Wage Stabilization Board, and Ellis Arnall, price stabilizer, met at the White House with the National Advisory Board on Mobilization Policy for a discussion of the steel situation.

John R. Steelman, aide to Truman, is now acting chairman of the advisory board.

Republicans sponsoring the move to cut off funds for government operation of the steel industry claimed growing Democratic support.

They have put forward two proposals:

1. Forbid use of any federal funds for salaries of officials to run the steel mills under seizure.

2. Forbid use of any federal funds for salaries of officials to run the steel mills under seizure.

Vandenberg To Talk Over AF 'Strikers' In Visit To Randolph

SAN ANTONIO (AP)—Court martial action against six pilots who refused to fly was expected to be discussed here today when Gen. Hoyt S. Vandenberg meets with Randolph Air Force Base officials.

The Defense Department reported in Washington last night that courts martial of pilots who refuse to fly have been called off pending a new policy statement.

There was speculation in San Antonio Air Force circles that Vandenberg, Air Force chief of staff, might announce softened action toward Air Force reservists who have refused flying duty.

Do Your Part In CLEAN-UP WEEK

WASHINGTON (AP)—The Defense Department today identified 142 additional battle casualties in Korea in a new list (No. 547) that reported 33 killed, 107 wounded, one missing and one injured.

Patsy Freeman, Acute Leukemia Victim Is Dead

The long and hopeless fight of Patricia Marie Freeman, 19, was over Monday.

Six months ago the talented young co-ed, who had just regained her footing after cheating death in a grade crossing mishap at Cleburne, learned she had leukemia.

Sunday at 10:10 a.m., her strength gone after a valiant struggle to overcome the dread blood cancer, Patsy died in a hospital here.

She was the daughter of John A. Freeman, member of the Big Spring High School faculty and former psychologist at the Big Spring State hospital.

Services were to be held at 2 p.m. Monday at the Nalley Chapel with Dr. R. Gage Lloyd, pastor of the First Presbyterian Church, where Patsy was a member, officiating.

The remains will be taken to Kosse for services at 10 a.m. Tuesday with the Rev. W. R. Sealey, Baptist pastor and long time friend of the family, in charge. Burial will be beside the grave of her mother, who passed away in 1945.

Patricia Freeman was born in Leesville in 1932. She attended high school three years in Waco and then was graduated at Gatesville when her father became chief psychologist for the state boys school there and the girls school at Gainsville.

She was in the process of completing her second year at Tarleton College at Stephenville when she was involved in the crossing mishap in Cleburne. She had gone there to spend the weekend with friends. The car in which she was a passenger plowed into the side of a moving freight and Patsy sustained two broken legs.

She did, however, complete her work. Meanwhile, she continued her interest in music as a vocalist and a pianist. On several occasions she sang over radio stations WFAA and KRLL in Dallas, the last time being over WFAA on Easter morning a year ago. It was an occasion her father remembered well.

When leukemia struck her, it was of an acute type. For the past few months, as the white blood cells were destroyed and power to resist infection destroyed, aureomycin helped. Cortisone and other of the new drugs were employed, but to no avail.

Besides her father, Patricia leaves her step-mother, Mrs. J. A. Freeman; a sister, Gwendolyn Freeman, who is a student at Sul Ross College in Alpine; two uncles, Fred Freeman of Kosse and Virgil Mahan of Waco; and one aunt, Mrs. Lucille Hall, Nixon.

Ike To Stay In Bed

SUPREME HEADQUARTERS, Allied Powers in Europe (AP)—A heavy head and throat cold will keep Gen. Dwight Eisenhower in bed for another day.

THE WEATHER

BIG SPRING AND VICINITY: Partly cloudy with showers and scattered showers today and tonight. A little cooler tonight and Tuesday. High today 83, low tonight 64, high tomorrow 84. Highest temperature date 86 in 1951; lowest date 60 in 1949. Highest date 86 in 1952; lowest date 60 in 1952.

THREE GUARDS HURT Another Flareup Reported As Prisoners Mutiny In Michigan

JACKSON, Mich. April 21 (AP)—Rioting spread in the beleaguered Southern Michigan prison today while convicts on a mutiny held four guards as hostages.

Three prison guards were injured trying to subdue rebellious convicts in the prison mess hall at breakfast.

Yelling rioters seized the mess hall, driving out the guards, and at the same time another group of prisoners took over a mental ward.

Two other guards were reported in the second flareup. An estimated 400 prisoners were said to be involved in the two new outbreaks at the big prison, one of America's largest.

As tension mounted, armed state police took stations on the prison roof.

The troopers, under command of Capt. William Hansen, were under orders of "don't shoot until further orders."

The police had been mobilized at the Jackson post near the prison as the crisis grew during the night.

Twelve hours after the first riot broke out last night four guards were still held as hostages by the original mutineers.

The four were prisoners of convicts in an isolated cell block reserved for the toughest criminals.

Notorious "Crazy Jack" Hyatt, robber who once tried to escape by making Gov. G. Mennen Williams a hostage at knife-point, was leader of these mutineers.

The mutineers demanded that authorities call in a newsman to talk to them. They claimed inmates had been mistreated and mental cases "beaten with rubber hoses."

They made a hostage guard, a knife at his throat, pose for photographers at a barred cell window.

There were 179 convicts in the cell block, all but 29 of them there for violating prison rules of discipline. Guards reported, however, that a group of 15 or so seemed to be fomenters of the uprising.

The rioters picked Earl E. Ward, 38, serving 15 to 20 years for armed robbery from Detroit, as their spokesman. His deputy was Russell Jarbo, serving auto theft and breaking and entering terms running from four to 15 years.

Grabbing and overpowering the guards at 7:20 p.m. Sunday, the convicts called the prison office on the inter-prison telephone system to announce their mutiny and to make demands.

They demanded to speak to Assistant Warden George Bacon, chairman of the prison's disciplinary board, and a newspaperman—"representative of The Associated Press."

Reporter Ed F. Smith of the Jackson Citizen-Patriot was called. He and Bacon conferred across a 30-foot pathway with Ward and Jarbo. Smith had to convince them he was a newsman through bylines in Sunday's paper and to assure them he could get their story to AP and radio stations.

SOGGY DIKES HOLDING More Rains Could Add To Flood Woes

By LARRY HALL. KANSAS CITY (AP)—Tricky weather posed new problems today along 700 miles of the flooded Missouri River, one of the world's most unruly streams.

All the experts would say was that a chance of heavy rain exists. But they couldn't tell yet whether it would hit the Missouri Basin, especially the overloaded area from St. Joseph, Mo., to Kansas City.

Even if it rained a full inch in the Kaw (Kansas) Basin, they said, it would raise the Missouri at Kansas City only about a foot. That would still be well below the

level the protecting dikes were built to stand.

The Kaw, a fast-acting river, was what gave Kansas City, Mo., and Kansas City, Kan., their worst flood when it poured into the Missouri here last July. It's rolling along at a low level now.

Blair Gen. D. G. Shingler, division engineer at Omaha, stuck to his prediction that the Kansas City would be safe this time. But while the downstream battle was not as spectacular as the fight to save Omaha and Council Bluffs last week, it was still a hard one.

Men still fought to confine the river which has driven thousands from their homes and caused millions of dollars of damage.

"We really have one terrific flood," Shingler said after an aerial survey. "Today we're in flood stage from Blair, Neb., above Omaha almost to the mouth near St. Charles—a distance of about 700 miles."

Another weather threat developed on the northern Mississippi River. A flood crest of 15.3 feet—lower than originally predicted—reached LaCrosse, Wis., yesterday.

Soggy dikes held but repair work went on around the clock. Weatherman A. D. Sanial said today and tomorrow would be critical times because the river won't start dropping much until tomorrow night.

A wind which might climb to a stiff 25 miles an hour was forecast for today in that area. That would pile up the waves and let them slosh against the eroding dikes.

But the flood peak was long and slow moving. Army Engineers wouldn't pin it down definitely.

"It's not a knife edge," said C.R. Van Orman at the engineers' flood headquarters. "It's more like the back of an elephant."

St. Joseph, with a population of 78,500 is on high ground and in no danger. Residents there prayed in church services yesterday for the endangered areas and asked that downstream sections be spared from destruction.

Jesse Gulick, district weather forecaster at St. Joseph, said the

Application of the Mutual Construction Company of Mineral Wells for allocation of 300 rental units in Big Spring was approved this afternoon.

Announcement was made by E. T. Stearns, Fort Worth, district director for the Federal Housing Administration but who was acting on behalf of the Federal Housing and Home Finance Agency in making the allocations.

IN MONTICELLO ADDITION Allocation Made For 300 Housing Units

BULLETIN. Big Spring, who holds the land on which the houses will be constructed, also is a party to the application.

Mutual Construction Company is currently building a large number of housing units in Mineral Wells, Stearns disclosed.

Rents for 30 of the units will be \$75. These are the 2-bedroom units. On 190 of the 2-bedroom units, the rent will be \$65 per month. The remaining 80 of the 2-bedroom units will rent for \$57.50.

Under terms of the defense housing act, which applies since Big Spring and Howard County were declared a critical defense area, the units must be rented to in-migrant defense or Air Base workers for at least two years. After that they may be rented to anyone or will be eligible for sale.

The application of Mutual Construction was approved on the basis of its location and that it offered more than others for the proposed rental charges, said Stearns.

The allocation was delayed pending further study so that the FHHA could satisfy itself as to the ability of the applicant from the point of finances and building experience.

Listed as the principal stockholders in the concern are Larry Blackmon, Mineral Wells; H. A. Young, a builder; Warren Pickens, Austin lumberman; Otis Grafe Sr.,

HOSPITAL NOTES

BIG SPRING HOSPITAL Admissions—Inez Gusman, Vincent; Peggy Callahan, Odessa; Carl Green, Odessa; Mary Trotter, City; Ruth Crain, 1604 State; Mrs. Juanita Carothers, 1000 Stadium; M. C. Dismissals—Mrs. Ralph Shetter, Odessa; Polly Ann Sherrill, Crane; L. D. Dorich, City; R. C. Shank, Levelland.

Visitor To Russians Thinks They Fear Us

WASHINGTON, April 21 (AP)—A reference he had a chance given few American visitors in recent years: A close look at life and attitudes behind the Iron Curtain. May said "pretty trustworthy people" told him Russia was sincere when it suggested the Korean truce talks but "The Communist Chinese have lost their heads and are drunk with power." "I think that the Russians are applying restraint," he said. "It is the Chinese who are making the trouble in these peace talks." Secretary of State Acheson has called such Russian peace feelers "golden apples"—a reference to Greek mythology in which the Goddess of Discord breaks up a party with a golden apple tossed to the floor and immediately fought over by the guests, Acheson has called for "tangible evidence" of Kremlin sincerity. May said, regarding the Soviet attitude toward the United States, that the people are "really scared" and the Stalin regime would "have much more to lose than to gain from war."

Rotarians Take Part In District Parley

Big Spring Rotarians are participating today in the annual district conference at Odessa. Among those participating on the program are Dan Krause, Dr. P. D. O'Brien, and Elmo Wasson, a past district governor. Other delegates to the conference include Dr. Frank Dillon, president of the local club; R. W. Thompson, president of the club; Chester O'Brien Sr., Otto Peters, Olen Puckett, Bob Kountz, and Champ Rainwater.

STEEL

(Continued From Page 1) Sen. Ferguson (R-Mich.) introduced this one. 2. Deny use of any federal funds, regardless of the source, to seize or operate any plant without specific consent from Congress. This tougher version was proposed by Sen. Knowland (R-Calif.), a leader in the anti-strike maneuvering. The proposed amendments would be tacked onto a 960-million-dollar bill to finance operations of most government agencies until June 30. Among them is the Commerce Department, operating the seized steel mills under Truman's orders. The bill is now before the Senate. Knowland's Senate forces contend Truman had no legal right to seize the plants, and say the government has no authority now to grant steelworkers any pay raise while it is operating the mills. Before today's session began, Knowland said an effort would be made to push through the Ferguson amendment first, his own later. Meanwhile, there was no major development on the steel front itself. Mills continued to operate under nominal government management. As far as was known, no new labor-union talks were scheduled. Prospects of a showdown on the wage issue today or tomorrow faded with an announcement by Secretary of Commerce Sawyer that nothing had been decided yet. Sawyer said there would "certainly be some wage increase" but he did not say how much, or when it would be granted. In fact, he added, the amount had not been decided upon by the president, who would make the final decision on this and also on the union demand for compulsory union membership, one of the most explosive issues. CIO President Philip Murray's steelworkers are holding out for the full wage boost suggested by the Wage Stabilization Board—including and immediate 12 1/2 cents for 650,000 union members, two 2 1/2 cent boosts in July and January, and other benefits. Average earnings now are about \$2 an hour. The steel companies say they cannot afford these increases without boosting steel prices around \$12 a ton—a boost the administration contends is too much.

DALLAS 2 Hours 18 Minutes 4 flights daily NEXT TIME FLY PIONEER AIR LINES Timed by Baylor Phone 2100 for reservations

Good Showers Noted In Area Over Weekend

Only a trace of rain was recorded at the Big Spring station of the Weather Bureau last night, but unofficial reports from over the area report good showers through the week end. The Texas Electric Company's sub-station east of the city reported .48; a rain gauge at 16th and Nolan showed .68; the Weather Bureau's week-end total was .21; the gauge at the Experiment Farm noted .31, and Colorado City reported a total of 1.10 inches. Foran reported a heavy Saturday night rain. The R-Bar community listed .30 and heavy showers were reported in the oil fields to the southeast. The official forecast lists the possibility of showers or thunderstorms in the Big Spring area this afternoon and tonight with a low of 50 degrees tonight and cooler weather tomorrow. One rancher to the southeast said the week-end showers put 10 feet of water in a stock tank on his place. A number of the silver iodide generators set up to increase precipitation in the area were in operation Saturday night at various locations.

KEFAUVER SEES ELECTION WITH SOUTH BACKING

TUSCALOOSA, Ala., April 21 (AP)—Sen. Estes Kefauver believes that with substantial Southern support he can win the Democratic nomination and be elected President. He told a deep South audience here yesterday that he believes he has taken "more of the national viewpoint" than Sen. Dick Russell of Georgia, and has a better chance that Russell on a nationwide basis. Both are seeking the Democratic nomination.

Seeks To Keep US Troops From Jap Prostitutes

TOKYO, April 21 (AP)—Japan's foremost woman leader appealed to the wife of Gen. Matthew B. Ridgway to help keep American troops away from prostitutes and prevent seduction of Japanese girls. In an open letter published yesterday in the monthly magazine, Women's Forum, Mrs. Tamaki Ueyemura accused American servicemen of "corrupting Japanese morals." "Please cooperate with us Japanese and protect your own young Americans," she asked Mrs. Ridgway, who declined comment. Mrs. Ueyemura continued: "Such prostitutes (including U. S. troops) now total between 70,000 and 80,000 in Japan and earn 200 million dollars. This is a big business—next to the Korean War business which totals 400 million dollars. "These poor girl victims—the end product of the war defeat—have reportedly mothered 200,000 illegitimate children and deserted many."

Two Men Charged With Assault Here

Charges of robbery by assault were lodged here Monday against Ray Hall, 51, who gave his address as Seminole, Okla., and Rufe Autry Fautt, 53, Waxahachie. They were picked up the sheriff's officers shortly after J. D. Dorich, Odessa, said he had been beaten and thrown from his automobile. In a statement to District Attorney Elton Gilliland, the defendant said that they were in Odessa when they decided to return to Big Spring and catch a fast freight west. They were hitch-hiking when Dorich picked them up. They said that there had been some drinking by the time they reached Big Spring. Dorich was given treatment at the Cowper Hospital but apparently suffered only minor injuries. He was returned to Odessa for treatment Monday.

Two Divorces Granted As 7 Cases Dismissed

Two divorces were granted and seven cases were dismissed in 118th District Court Monday. The Court granted a divorce to D. G. Hart, Jr. from Billie Vernell Hart. Jacques Phillips was given a divorce from Stanley A. Phillips and was given custody of the minor child. Dismissals included: Another divorce case which had been filed by D. G. Hart, Jr. versus Billy G. Hart; Pearl F. Kerr versus Jack W. Curtis, child custody; Betty Norrell versus J. W. Norrell, divorce; Earnestine G. Wilson versus David A. Wilson; Susie M. Harrell versus Louis G. Harrell; J. T. Galan versus Manuella Galan; James W. Whately versus Polly Sue Whately.

Woman Is Bitten By Rattlesnake; Said Resting Well

Mrs. Clarence (Benita Fay) Good, about 31, of Big Spring descended from the family automobile Saturday night to help her family push the vehicle from a sandy stretch on the Snyder-Big Spring highway, and wound up in the Big Spring Hospital. Mrs. Good was bitten on the leg by a rattlesnake. Her husband sacrificed a chance to kill the rattler in order to rush his wife to the hospital. The incident occurred about 9:30 p.m. Mrs. Good was reported resting well in the hospital this morning.

DOKK Area Meeting Slated Here Apr. 23

An area meeting of the Dramatic Order of the Knights of Khorassan has been scheduled here for April 23. Eight tyros have been listed for the eighth order to be given at the session. Work in this degree begins at 4 p.m. Dinner will be served at 6 p.m. All ceremonies will be in the Castle Hall at 1407 Lancaster. Knights from Odessa, Lamesa, Lubbock, Abilene and San Angelo, as well as Big Spring, are expected here for the annual convale.

INSTALLMENT BAN END IS SEEN SHORTLY

WASHINGTON, April 21 (AP)—An end to government control over installment buying is expected soon, informed officials say. This would mean that there would no longer be any federal regulations over how much you would have to pay down on automobiles, radio and television sets, refrigerators, furniture and other items. And, too, there would be no limit fixed on how long—gr. short—time you would get to pay back your loans. The officials pointed out, however, there is no move afoot to end government regulations involving down payments and mortgages on houses.

Vealmoor Voters Approve School Improvements

Voters in the Vealmoor County line district Saturday gave approval to a \$75,000 school improvement bond issue. Results of the election were canvassed Monday morning by the Commissioners Court and declared official. The total had been 31 favoring the bonds and three against. Improvements contemplated include two classrooms, a combination gymnasium-auditorium, and a cafeteria and auxiliary storage. Should the issue be insufficient for the contemplated building, Vealmoor has a healthy local fund balance of more than \$30,000. The district, once beset by financial difficulties, now has valuations exceeding \$3 due to the Vealmoor oil pool. Two other districts have voted recent improvements. The Center Point district approved a \$6,000 issue to make repairs and to stucco its building. Gay Hill district approved a \$110,000 issue, which almost may fall short of enough to build a contemplated plant of four classrooms, offices, a bookroom, cafeteria, and combination gymnasium-auditorium. However, like Vealmoor, the district has ample local funds. Its valuations have been swollen by the East Vealmoor oil pool.

\$150 Fine Given On DWI Charge

Arthur Millsap entered a plea of guilty in County Court Monday to a charge of driving while under the influence of intoxicating liquor. Judge Waker Price assessed a \$150 fine and costs, plus six months suspension of his drivers license. R. L. Wells, who had entered a plea of not guilty on March 31 to a charge of driving while intoxicated and was released under \$500 bond, entered a plea of guilty in County Court and was fined \$100 and costs Monday morning. His driver's license was suspended for six months. Two other DWI cases were filed, one against Edward L. McCall and the other against H. S. Proctor. Henry Mike Reynolds entered a plea of guilty to driving while intoxicated and was fined \$100 and costs and had his drivers license suspended for six months.

Midland

Humble Oil and Refining No. 3-D TXL will be a Drivler location 960 from the south and east lines of section 11-37-4s, T&P, rotary to 7,900. Gulf No. 7 C. A. McClintic will be a Tex Harvey location 600 from north and 2,100 from the west lines of section 59-J. R. Ray A-912, rotary to 7,290.

Sterling

A location in the Spraberry General field (probably same as Wedell Spraberry) is Delta Drilling of Tyler No. 1-A Herbert Cope. It will be 660 from the north and 231.1 from the west and east lines of Scrap Fiel section 15,295. Delta Drilling No. 1-B Herbert Cope, in the same area, will be 660 from the west and 162.6 from the north and south lines of Scrap Fiel No. 15,300. Both will go to 5,300 and are 24 1/2 miles southwest of Sterling City. Honolulu No. 5-A C. H. Sugg will be a Wedell Spraberry tract 600 from the south and 438 from the east lines of Wm. B. Dean survey. Contract depth is 5,200. This test is 25 miles southwest of Sterling City and is on a 3,520-acre lease.

Three Break Out Of Co. Jail At Alice

ALICE, April 21 (AP)—Three men broke out of the county jail here today by escaping through a window over the kitchen. One of the men—Richard Don Barnes, charged with assault with intent to murder in a knife attack on his wife—was caught soon after the break was discovered. The other two—Andrews (Blackie) Cardenas and Windie Lamar Johnson, both charged with burglary—were still at large. All were from Alice.

MUTINY

(Continued From Page 1) called out and 100 state troopers flocked to the scene. Machine guns were turned on the door of the building housing the cell block, which is separated from others inside the walls. Road blocks were thrown up to thwart escapes during the disturbance. As Smith's story spread, newsmen flocked here from Detroit, Lansing and other cities. So did photographers. Warden Frisbie let them into the yard, but told them to keep away from the building's front door, "because if it opens somebody's liable to get full of holes. Hyatt's rioters told their story, parade fashion, shouting to newsmen outside the cell block. They posed at barred windows for photographers. Finally they brought up a guard. Newsmen saw a knife at his throat.

Bedsheet Signs Tell Convicts' Demands

New Jersey state troopers and a prison guard stand on the wall at the State Farm in Rahway, N.J., and look at signs on bedsheet hung up by rebellious convicts on dormitory windows. The convicts, taking nine guards as hostages, captured the wing of the prison the night before in what was the fifth rebellion in New Jersey prisons within three weeks. (AP Wirephoto).

AREA OIL

Locations Staked in Southwest Sterling And Glasscock Areas

Three Spraberry tests for Southwest Sterling County were staked Monday along with a wildcat for Southwest Glasscock County. An exploration in Central Martin County had some bleeding oil in a core, but there was no porosity. The section was the Grayburg. Testing continued in Northern Glasscock wildcats, and plugging back for tests higher up the hole was in prospect for an exploration southeast of Big Spring. Borden Phillips No. 1-A Dennis, C NW SE 62 Georgetown RR, drilled to 6,393 in sand and shale. A drill stem test was taken from 6,196-6,310 with recovery of 90 feet of mud and 3,270 feet of salt water. DAWSON Seaboard No. 1 Dean, C SW SW 30-34-5n, T&P, cleaned out to 6,780. It shot above the plugged back depth of 8,892. Seaboard No. 1 Weaver, C NE NE 48-35-6n, T&P, drilled to 9,215 feet in lime and shale. Stanolind No. 1 Bodine, C SE NW 43-33-4n, T&P, drilled past 9,177 in lime and shale. Glasscock American Republics Corp. No. 1 Bucker Orphans Home will be a Southwest Glasscock County wildcat projected to 8,475 to test the Mississippi. Location is on a 640-acre lease and is 17-35-5s, T&P, or 17 miles southwest of Garden City. Phillips No. 2 McDowell, C NE NE 31-34-2s, T&P, pumped 14 barrels in 24 hours and is still pumping above the plugged back level of 8,485. Phillips No. 1 Berry, C NW NW 35-36-2s, T&P, drilled cement to 10,720 and was mixing mud. Plugged back depth in this hole is 10,752. Phillips No. 2 Woolsey, C SW NE 26-36-2s, T&P, drilled to 213. Sinclair No. 1 Clark, C SW SE 41-35-4s, T&P, drilled to 6,565 in Spraberry sand. No results were obtained from hydraulic fracturing above 6,550. Howard Stanolind No. 1-D TXL, C NE NW 23-32-1s, T&P, which has been swabbing above plugged back to depth of 7,282, was preparing to plug back further and resume testing. Stanolind No. 1 Snyder, C NW NW 20-30-1s, T&P, drilled to 3,904 in lime. Martin Craig No. 1 Schnecker, et al, 330 from the south and east lines of section 18-38-1n, T&P, cored from 4,263-93 with recovery of dense Grayburg dolomite, slightly bleeding oil. However, there was no porosity in the core. The core hole is being reamed and the test will deepen. Contract depth is 4,500. DeKalb No. 1 Knox, C NW NE 253 Ward CSL, was milling on junk at 8,375. Pan-American No. 3 Breedlove, C SE NE Briscoe CSL, drilled at 11,031 in lime. Phillips No. 1-C Schar, section 324 LaSalle CSL, drilled to 8,013 in lime and shale, and started a core at that point.

ACHESON BELIEVES

Firmness Expected Over German Issue

By JOHN M. HIGHTOWER WASHINGTON (AP)—Officials predicted today that Britain, France and Western Germany will stand firm with the United States in rejecting Russia's "golden apple" move to wreck the unification of Western Europe. The governments of the four countries are now working on a reply to the latest Soviet proposal for making peace with Germany in a manner which Secretary of State Acheson said would prevent the integration of the German nation into "the free community of Europe." The reply is expected to make clear their determination to proceed on their present course of unification until shown what Acheson called "tangible evidence" of a change in the Soviet's basic policies toward the rest of the world. Acheson stated the American position on the Russian proposals for Germany and on recent Kremlin offers to engage in expanded trade with Western nations in a speech Saturday to the American Society of Newspaper Editors, meeting here. It was in this address that he described recent Soviet "peace" moves as "golden apple" tactics. He reminded his audience of a story in Greek mythology in which the Goddess of Discord threw a golden apple into the midst of a party to stir up trouble among the guests and break up the gathering. Referring to the Russian proposals to Germany and trade and to various other Kremlin maneuvers, Acheson said that "several apples have been tossed over the Iron Curtain this spring." But, he said, they have not resulted in discord. On the German issue, currently the great diplomatic problem, Acheson said three things are outstanding: 1. The Soviet Union has never been willing to relax "in any respect whatever" its control over Eastern Germany. 2. The Soviet government is "bending every effort to infiltrate into Western Germany." 3. The Soviets have insisted that "every major exercise of power by an all-German government should be subject to a Soviet veto." He said that, in Russian proposals to form an all-German government through elections, there is no evidence the Russians "wish to have a Germany any less under their control."

RAIN

(Continued From Page 1) forecaster at Kansas City, said the rain situation was like sitting on a keg of dynamite. This was the picture: Warm, moist air was streaming up from the Gulf of Mexico; cooler air was pushing in across the Northern Rockies. But the storm centers hadn't jelled. Along the main stem of the Missouri, more than 1,000 men fought a dramatic battle to save Sherman Air Force Base near historic Ft. Leavenworth. Even instructors in the Army's Command General Staff School were pressed into patrol duty last night. It was a hand-to-hand battle up the river to save three miles of threatened dike. One observer said it looked like a New Guinea beach landing operation—except there were no mosquitoes. If the dike broke, the wandering Missouri might cut a new channel across the field, leaving part of it an island. At Omaha and Council Bluffs, the Missouri was dropping about one-tenth foot an hour. By midweek the first of some 30,000 evacuees in the two cities were expected to return to their homes. Below there, more than 10,000 persons have moved out, the engineers estimated.

# Texas Seeks To File In Water-Use Suit

WASHINGTON, April 21 (AP)—The Supreme Court hears arguments today on whether Texas should be permitted to file a complaint charging New Mexico violated water-use provisions of a Rio Grande compact.

The compact calls for an equitable apportionment among Texas, New Mexico and Colorado of the waters of the Rio Grande and its tributaries above Fort Quitman, Tex. It was signed by the three states in 1938.

Texas, in asking permission to file its complaint with the court, said the Middle Rio Grande Conservancy District of New Mexico had violated the compact.

Atty. Gen. Price Daniel of Texas in a statement at that time said the conservancy district "has ignored the desires of both Texas and New Mexico officials, and continues to hold more than its share of the Rio Grande waters."

Texas wants the Supreme Court to take jurisdiction over the dispute, under the Constitution's provision giving it authority to decide controversies between states.

If the court permits Texas to file the complaint, the state will press for an injunction to end the asserted violation of the compact. The state said that, if necessary, the Supreme Court should then appoint a special master to see that the injunction is enforced.

New Mexico in a reply brief said troubles of the Upper Rio Grande basin "will never be solved in a court of law." It added:

"New Mexico has stated an intention to comply with its obligations. The Middle Rio Grande Conservancy District has contracted to convey its works and water rights to the United States. It should be presumed that the United States and New Mexico will in good faith extend every human effort to solve the complex problems involved."

Solicitor General Philip B. Perlman in a memorandum submitted on behalf of the United States said:

"The major interest of the United States in the portion of the Rio Grande here involved arises from its obligations to Mexico under existing treaties and its duty to protect the rights of the Indian tribes."

Perlman said Article 16 of the compact provides that nothing in it may affect obligations of the United States to Mexico or to the Indian tribes.

"The relief sought by Texas," he added, "may interfere materially with the rights of the Pueblo Indians."

Counsel for the states involved will take part in the arguments, expected to get underway after the justices have announced their decisions for the day.

# AT ANNUAL MEETING AP Board Reviews Oatis Confinement

NEW YORK (AP)—The Board of Directors of The Associated Press said today it is confident the United States government "will explore and exploit any opportunity to end the unjust confinement" of AP reporter William N. Oatis in a Czechoslovakian jail.

Oatis was jailed a year ago this week—April 23—on charges of espionage. He was sentenced last July 4 to 10 years imprisonment. The AP directors said the trial showed he was guilty "only of endeavoring, honestly and objectively, to gather and report information which in the Western world is legitimate and essential news."

One effect of retaliatory measures invoked by the United States against Czech trade, the directors said, has been a substantial decline in exports from Czechoslovakia. These dropped, the board said, from more than nine million dollars in the first quarter of 1951 to slightly more than 2 1/2 million dollars in the last three months of 1951.

The AP directors reviewed the Oatis case in their report to the annual meeting of members of The Associated Press, world-wide news-gathering co-operative, held in the Waldorf-Astoria Hotel.

The AP business meeting and luncheon ushered in Newspaper Week in New York. Gen. Alfred M. Gruenther, chief of staff to Gen. Dwight D. Eisenhower, will speak at the AP luncheon.

Meetings of the American Newspaper Publishers Association will be held tomorrow through Thursday.

The board noted also that Frank Noel, AP photographer, is a prisoner of war in Korea, and it commented that he "has the unique distinction of having been able to continue, at least temporarily, his professional work for The Associated Press while in enemy hands."

As a prisoner, Noel took pictures of other U.N. prisoners. They were used widely in the nation's press.

The past year was one when many new problems arose "to plague the minds of men and to harry their governments," the board said.

The AP has a larger staff of foreign correspondents today than it had before World War II and is spending nearly three times the 1938 figure for obtaining and transmitting foreign news, the report said.

Newspaper membership during the year increased by 13 to a total of 1,733. There was a net increase of 58 radio station memberships, bringing the total to 1,126. In 72 countries outside the United States, 2,705 newspapers, radio stations and periodicals received AP news and newsphoto services.

# TEXAS BRANDS 7N

By JOHN M. HENDRIX  
One of the outstanding pioneer cattlemen of Crockett County was John W. Henderson. He drove a herd of 3000 cattle to the Howard Wells country and established his headquarters here in 1888. Henderson operated his ranches under the brand of 7N which became noted throughout Texas. Before his death in 1931 Henderson operated approximately 100,000 acres of ranch land. Crockett County became a most important sheep raising district, but Mr. Henderson continued strictly in the cattle business.

In 1881 the State Legislature passed a law providing that each county should have a definite brand for livestock. The Crockett County brand was C3.

against Czech trade, the directors said, has been a substantial decline in exports from Czechoslovakia. These dropped, the board said, from more than nine million dollars in the first quarter of 1951 to slightly more than 2 1/2 million dollars in the last three months of 1951.

# Oil Pipeline Construction Record Seen

FORT WORTH, April 21 (AP)—A government official predicted today 1952 would witness "the greatest oil-pipeline construction activity in history."

John E. Boice of the Petroleum Administration for Defense (PAD) said present industry plans call for laying about 10,000 miles of pipeline this year—6,000 miles of crude oil lines and 3,500 miles for petroleum products.

Boice, special assistant to the director of the PAD's supply and transportation division, in an address before a conference of the American Petroleum Institute said that the PAD already has approved the projects.

He said prospects for the year, barring unforeseen circumstances, are in sharp contrast to the actual 1951 record, when 2,866 miles of principal oil pipelines were completed and put in service.

Chief obstacle to pipeline construction in 1951, he said, was scarcity of line pipe resulting from a shortage of plate steel.

The average mileage of petroleum pipelines built during the five postwar years, 1946 to 1950, was 3,825, he said.

The United States supports Chiang Kai-shek's government on Formosa while Britain recognizes the Communist regime in Peking.

Washington (AP)—John Foster Dulles, a top American expert on foreign policy, urges a "compromise between American and British policies toward China."

The lawyer-diplomat, who negotiated the Japanese Peace Treaty, said in a letter to the weekly Observer that whatever merit there may be in either country's position on China is cancelled out by the other.

# Texas Republicans Also Having Trouble With The Party Pledge

By The Associated Press

The badly split Texas Republican party "agreed" briefly over inviting Democrats—dissatisfied ones—to its precinct conventions, May 3.

Both said over the week end they welcomed the Democrats into the fold, but the factions' agreement stopped abruptly right there.

The "I Like Ike" boys said the Taft leaders were misinterpreting the GOP party pledge, and added their own interpretation. Come on and attend the Republican precinct conventions, they said, then—if you can stand it—vote in the Democratic primaries.

Meanwhile, Texans looked to Martin Dies today for an announcement for his intentions, if any, in the forthcoming Democratic primaries.

Dies, former chairman of the House Committee on un-American Activities, has repeatedly said he would run for office this year, either for the seat to be vacated by U. S. Sen. Tom Connally or for Congressman-At-Large.

On April 13, he said he would announce his intentions within 10 days. That gives him until Wednesday to come out under his own deadline.

To date, timid Texas politicians have declined to get their feet wet with an announcement opposing

# Jet Gas Gun For Use On Burglars Is Now Perfected

HALIFAX, Nova Scotia (AP)—A local Marine engineer and master mechanic has invented a "jet gas gun" to mark both bank robbers and their loot.

The inventor, J. Dan Pride, has patented his gun in Canada and has patent applications pending in other countries.

Not intended to kill or injure permanently, it would be installed under tellers' counters in banks. In a holdup, a quick foot movement by the bank employee would blanket the robber with dyed ammonium hydroxide shot from a tiny nozzle under 2,000 pounds of pressure.

The ammonia would blind and sicken the robber. The purple dye wouldn't wash off him for several days, and would never come off any money he hid.

Pride considered giving the gas a strong, objectionable odor but couldn't figure out how to get it out of the bank after a holdup.

William R. Dawes, Representative of Southwestern Life Ins. Co. Phone 1653-W or 1212

# Racing Car Accident Fatal To 4 Persons

DAYTON, O. (AP)—A racing car spun crazily out of control into the Dayton Speedway grandstand yesterday.

It killed four persons, including the driver, Gordon Reid, 29, of Burbank, Calif. At least 50 spectators were hurt.

It was one of the worst accidents on American tracks since 1929, when four persons were killed and 20 hurt at Winchester, Ind.

The crash hopped off Reid's head. It also incapacitated Mrs. Ruby Ellen Shaffer, 43, of Springfield. The other victims were Robert Thatcher, 22, a track guard, and Gene Lawson, 19, of Dayton.

Some among the 14,000 attending the opening AAA sprint car program at the speedway had narrow escapes.

Herman Cottrell, 40, a spectator said "I saw him leave the track. I turned and jumped as far as I could. God must have been sitting there with me."

The Dayton man was bruised when a wheel of the racer struck him.

Reid had planned to drive the car in the 500-mile speed classic at Indianapolis May 30. He had been driving since the end of World War II, mostly in midget and "hot rod" competition.

The first trial heat. Reid's racer went out of control near the top of a bank for a turn. It spun through a retaining wall, shot through a standing-room crowd, ploughed into a paint barrel, and hit the grandstand.

Track officials said they did not think Reid's car had mechanical trouble, but they gave no immediate explanation for the crash.

Reid's wife Betty, 26, became hysterical at her home in Burbank, Calif., when told of the accident. They are the parents of four children, the youngest two weeks old.

Increasing Crime Accented By Youth Says FBI Report

WASHINGTON (AP)—Crime is increasing in the nation, says the FBI and—"a tragedy of our times"—the accent is on youth.

FBI Director J. Edgar Hoover yesterday released a compilation of statistics from police departments throughout the country. They show rate increases for 1951 of 5.2 per cent in cities and 5 per cent in rural areas.

Of persons arrested during the year, Hoover said, most were aged 22 to 34.4 per cent were under 21; there was a 7.7 per cent increase among the under-18 group, and 44.9 per cent of 20-year-olds had previous fingerprint arrest records.

The FBI estimated there were a total of 1,882,160 major crimes in 1951, an increase of 92,130 over the previous year.

# Idaho Democrats To Pick Delegates

LEWISTON, Idaho (AP)—Idaho Democrats pick 12 delegates to the national convention today with their selection overshadowed by a battle for control of the party in the state.

Sen. Kefauver of Tennessee and Sen. Kerr of Oklahoma made the strongest bid for support of the delegation, which is expected to be unopposed.

Kefauver's supporters were aligned with the liberal wing seeking to unseat the conservative faction, which holds the party reins.

South Negro Leaders Say No Candidate Is As Yet Acceptable

ATLANTA, April 21 (AP)—A group of Southern Negro leaders indicated yesterday that none of the men now running for President is acceptable to the Negro vote of the South.

"None of the avowed candidates for the presidency has, as yet, demonstrated any genuine concern for civil rights," said 50 representatives of the National Association for the Advancement of Colored People.

The delegates, concluding a two-day political action institute sponsored by the NAACP, claimed to represent 50,000 members of the organization in Virginia, North Carolina, South Carolina, Georgia, Alabama and Texas.

BUSINESS TELEPHONES HELP MAKE YOUR HOME TELEPHONE WORTH MORE THAN IT COSTS

"YOUR PRESCRIPTION, MA'AM." How much easier and quicker it is to let a simple telephone call go shopping for you. Think of the time and steps to be saved by being within telephone reach of practically every business in your community. You can place orders by telephone; make appointments; make reservations; make inquiries. And the Yellow Pages of the telephone directory are a storehouse of valuable shopping information.

MANY A MERCHANT rings up extra sales that couldn't possibly come to him without the help of the telephone. Today's businessman employs telephone service as a right-hand man—a dependable, hard-working partner that ties together all his business affairs. No other means of communication comes close to delivering the speed and accuracy he needs for a profitable business operation—at anywhere near the low cost of telephone service.

IN THE PAST TEN YEARS, the busiest we've ever known, the number of telephones in service has doubled. And as we add new residence and business telephones, your service grows in value. You can call more people, more people can call you. At the same time, telephone rates are up far less than our costs of providing this expanded service. So... your "up-in-value" telephone service today is the best buy it has ever been.

A Bible Thought For Today—

He has by no means stopped doing wonders; he could do wonders with us if we would let him. "Sanctify yourselves, for tomorrow the Lord will do wonders among you." — Joshua 3:5.

Fear And Gold-Bricking Might Affect Degrees Of Discipline

Refusal of some reserve officers to take up airplanes when ordered has been attributed to various factors, including the admission of some that they are afraid to fly, or their wives are seriously shaken emotionally to have them fly.

"The increasing risk is dampening the enthusiasm for flying," Vandenberg declared. "I would not like to give the impression that our youth is losing its sense of duty or its zestfulness. But the fact cannot be blinked that the Air Force is meeting increasing difficulty in attracting sufficient numbers of young men physically and mentally qualified for flying."

Floods Create Great Damage, But— They Also Waste Needed Water

"Fear of the river—the mighty Missouri—can be felt miles away as you approach flood-threatened Omaha by train from Chicago," wrote one correspondent from the scene.

By overflow four years in succession. The loss of crops is bad enough, but when the floodwaters invade the home even to the extent of a few inches, that's when you get the feeling of fear that never quite leaves you.

Merry-Go-Round—Drew Pearson

Eisenhower's Influence Is Said Badly Needed In Western Europe

PARIS—Most of the newsmen around Paris seem to think that the most important story in Europe is Eisenhower—when he will leave, where he will speak, what he had for breakfast. I don't think so. To me, the most important story on either side of the Atlantic today is that the peace of Europe may be within our grasp.

After World War I a great leader, Woodrow Wilson, got sick and with him sickened the world's aspirations for peace. After World War II the administration in Washington swallowed too much corruption and became sick. With that sickness evaporated its prestige for leadership, its ability to influence foreign policy, and its power to obtain congressional appropriations.

ALLY NO. 2—Is French fear and apathy. Though he lives with a potential enemy across the border and though his land has suffered two devastating invasions in three decades, there is no man more provincial than the Frenchman. And today, though most French leaders are for unity with Germany, the man in the street is skeptical. "Do not arm Germany with anything more than a wooden sword," he says.

ALLY NO. 3—Is the German Socialists. They are deadly opposed to German rearmament of any kind; in fact, German youth have laid down in the streets to demonstrate against the proposed German army. So far, Chancellor Konrad Adenauer, who favors a European army, has the majority of West Germany with him, but his margin of votes is dangerously slim.

ALLY NO. 4—Is a religious one. It's the opposition of French Socialists to a West European Army, which they claim would be an arm of the Catholic Church. Jules Moch, former French minister of defense and leading Socialist, outlined this view recently to the American officers at SHAPE. He pointed out that Foreign Minister Schuman and Georges Bidault, the French architects of the unified army, were strong leaders of the Catholic party, that Adenauer was a leader of the Catholic party in Germany, that Premier Alcide de Gasperi of Italy was trained in the Vatican, and that the leaders of the Belgian government are strong Catholics.

A lot of things probably ran through the old gal's mind but she apparently decided she couldn't live with her conscience, if she jettisoned the identification within the purse and pocketed the money, so she upped and reported it to the gendarmes.

Notes On A Cruise

Commercial Banks Are Ordinary Vaults In Economy Of Portugal

LISBON, Portugal—The story of Portugal is the story of the accomplishments of Dr. Antonio de Oliveira Salazar, the economics teacher with the peculiar idea that a sound fiscal policy is the first essential of prosperity for a nation.

Portuguese do not understand stocks. The only joint investments are made by limited partnerships. This is not a modern way to do business. It would not develop America, and until Portugal gets a better system of funded debt finance, its economic development appears to be slow.

Lord, Please Tell Us Why Put Up With These Things?

and the garbage that insists upon clogging the drains. Teach us, O Lord, in the beautiful spring to take the little and the big in stride, to appreciate the shower as well as the flower, to look at both sides of the wonderful gold coin of life.

Our people here believe that if Portugal could shake the fear of long term loans the country would be ready for a great commercial development. Whether conservative Portugal can get up its courage to make more than a 90-day loan, is anyone's guess, but if it does, the Americans here think it will be headed into a considerable business boom—but a boom based on sound fiscal policies.

WASHINGTON (AP) — Since the voters know they're not choosing between Shakespeare and Shelley, they can hardly complain if campaign speeches occasionally lack a little literary luster.

Published Sunday mornings and weekday afternoons except holidays by APPLICATED NEWSPAPER, INC. 1306 at the Postoffice at Big Spring, Texas, under the name of March 2, 1952.

# "WELL, I NEVER!" Harriman Sentiment Is Noted In Penna.

By JACK BELL  
PHILADELPHIA (AP)—Pennsylvania's primary tomorrow may leave in doubt until the July Republican convention the trend of this state's powerful 70-vote presidential nominating delegation.

Gen. Dwight D. Eisenhower's name is on the Republican ballot. He is opposed by former Gov. Harold E. Stassen of Minnesota. But there are indications that an unofficial write-in campaign is under way for Sen. Robert A. Taft of Ohio.

Taft has repudiated any such campaign, saying that it doesn't mean anything so far as the state's delegation is concerned.

Sen. James Duff, one of the chief Eisenhower backers, has limited

his home state predictions to a forecast of a "substantial" vote for the five-star general.

And Gov. John S. Fine, who might have the decision on how the majority of the state delegation goes at Chicago, hasn't said a favorable word for any candidate, with the possible exception of Gen. Douglas MacArthur, who claims he isn't running.

Democrats are just as confused about their primary, in which some 100,000 party members are expected to go to the polls. A million Republicans may vote.

There is no name on the Democratic ballot, a situation in which some Democrats believe Sen. Estes Kefauver of Tennessee will be able to shine again as a write-in candidate.

**Never Dreamed They TUMSO Work So Fast**  
"Just imagine me eating all my favorite foods with none of the usual indigestion, heartburn or gas," says Asunt Mas. "If Cousin Harry hadn't given me some TUMSO that time I visited him and had that bad case of sour stomach, I wouldn't believe anything could work so fast."

TUMSO does work in record time. No minding, no waiting, no soda to cause acid rebound. Remember, keep TUMSO handy like candy. See if you don't have less more fun eating favorite foods and enjoying life.

**First Time Aloft**  
Convair's new YB-40 eight-jet bomber, shown in its maiden flight at Fort Worth, presents a sweeping picture. The pilot described her as a "Cadillac" compared to the "Ford"—the B-36. This photo was retouched and copied by the Air Force just as the giant plane took off for its first one-hour trip and was the only picture cleared by the military of the huge bomber. (AP Wirephoto).

## SET FOR TUESDAY 'Troopers To Jump In Atomic Exercise

By BILL BECKER  
ATOM BOMB SITE, Nev. — History's first atomic smoke jumpers, with one eye on the weather, made final preparations today for their spectacular part in Exercise Desert Rock IV.

Scientists and military men promised to provide a nuclear test guaranteed to furnish thrills for more than 300 invited observers tomorrow—if murky clouds and tricky winds will dissipate.

The maneuvers against "enemy" positions behind imaginary hills on Yucca Flat will involve an atom bomb drop of more than ordinary proportions between 9 and 10 a.m. Pacific Standard Time.

Nearly 1,500 troops—dug into four-foot deep foxholes about three miles from ground zero—will attack the enemy positions. As the troops advance to ground zero, (the point directly below the bomb burst), four C-46 planes will drop 120 selected paratroopers of the 504th Regiment, 82nd Airborne Division, well behind the enemy lines.

Then the two elements will combine to wipe out the enemy stronghold.

That's the tactical problem which has been set up. But if winds run more than 15 miles per hour or clouds continue to hang low, the paratroopers may stay on the ground.

Ahead of the dug-in combat battalion will be machine guns, small planes and trucks. They will be inspected before the blast, then re-examined afterward to determine the effects of the thrust, heat and radiation of the bomb.

Before ground troops advance or paratroopers jump, radiological safety monitors will move into no-man's land with ion chambers and geiger counters to make sure that it is safe to occupy. This may be an hour after the detonation.

## Attack On Home Front Will Open Total Atom War

LAS VEGAS, N. M. April 21 (AP)—Total atomic war against the United States probably would start with "an all-out attack on our home front," Civil Defense Chief Millard Caldwell said today.

Caldwell, former governor of Florida, spoke at a briefing session prior to an Atomic Energy Commission (AEC) test here. The meeting was attended by civil defense leaders—governors, mayors and local leaders—and representatives of the press, radio, television, newspapers and magazines.

"That's the only kind of attack that, from the enemy's point of view, would make sense," Caldwell said. "The power behind the punch that won two world wars in this century came from the people who man farms and factories in America."

Caldwell pleaded with reporter-witnesses of the test to give neither exaggerated nor played-down accounts of what they see. He asked especially that they avoid what he called "purple gates of hell" sensationalism. He said the American public is ready now more than ever to undertake civil defense work, but cannot be frightened into action and wants only "the exact truth."

Caldwell said most civil defense materials and equipment "already are in place in our cities and need only to be organized," only a small but essential part of total needs are yet to be bought, he said.

## Atomic Blast To Be Shown On Television

ATOM BOMB SITE, Nev., April 21 (AP)—Over the tops of the three snow-capped mountain peaks, television is set to bring the nation the first video view of an A-bomb tomorrow.

The job was said by experts to be impossible, and the accomplishment was almost incredible.

There are no television lines from the bomb site, and no stations between Yucca Flats, where the bomb will be exploded, and Los Angeles, nearly 300 miles away which will relay the pictures.

The credit goes to one man, Klaus Landsberg, vice president of Paramount Television and general manager of station KTLA-TV Los Angeles. Last year, on top of Mt. Wilson, near Los Angeles, he made a television shot of the flash of a high altitude bomb here. The U. S. Atomic Energy Commission liked the picture and Landsberg asked if they ever decided to try television.

The 140 delegates chose Amarillo as their fall meeting place.

## Elizabeth Celebrates Her 26th Birthday

LONDON, April 21 (AP)—Elizabeth II celebrated her 26th birthday today as quietly as a queen can.

This was officially a private celebration—the birthday for the queen's own family. Later, on June 5, the people will celebrate her birthday-by-decree.

But there was still a full program of 103-gun salutes today, a parade of Grenadier Guards and thousands of greetings and gifts.

By custom her father set, the public should have ignored this date. The late King George VI's real birthday fell in the bleak cold of December. He decreed a day in June as a warmer, more suitable time for public celebrations.

## Photographers Meet In Ft. Worth Session

FORT WORTH, April 21 (AP)—Photographers here for the Southwestern Photographers' Association's convention were to name new officers today at a luncheon.

More registrants were expected today from Oklahoma, New Mexico, Arkansas, Louisiana and Texas to augment the 400 registered yesterday when seven new directors were named.

## Burglary Is Reported

The War Surplus Store reported a burglary last night.

Among the items listed as stolen was a Smith & Wesson .38, special revolver, chrome finish; a 25 calibre automatic pistol; three sets of socket wrenches and two pairs of field glasses.

## Give Him Time, He'll Find Out Meaning Of Rain

A young fellow dropped into the Big Spring office of the Texas Employment Commission a few days ago to inquire about a job.

He was told by Leon M. Kinney, manager, that jobs were pretty scarce around Big Spring but that if he could just get a good rain there would be plenty of work available.

The young fellow scratched his head and looked at Kinney in a puzzled sort of way. "Why is it so important, what's it got to do with jobs anyway. Everybody says the same thing?"

Kinney asked him where he was from and the answer was explanation enough. The boy was from the lower part of Mississippi, where rain is the rule and not the exception and where there's a shower or so almost every day or two. He said that when he had left home a few days before the river near where he lived had risen 10 feet.

Rain had always been such a common and expected thing in his life he just didn't attach any importance to it at all.

This young man, Kinney said, was one of the 306 visitors at the office last week during which 48 persons were referred to jobs and 42 of these were placed in non-agricultural employment. Thirty-one new applications for employment were filed during the week and there were 15 claims for unemployment compensation listed.

## CHARGE MUZZLING TRY Battle Over Courts Rages In S. Africa

By ARTHUR GAYSHON  
JOHANNESBURG, South Africa, (AP)—Prime Minister Daniel F. Malan's Nationalist government is expected to introduce into Parliament tomorrow a bill to muzzle South Africa's courts, informants report.

The two-part bill likely will propose:

1. Removal of the courts' present right to test the constitutionality of laws passed by Parliament whose authority would be defined as unchallengeable.
2. Establishment of a parliamentary court superior to the Appeal Court—presently South Africa's highest—to pronounce finally upon disputed legislation.

The political correspondent of the Sunday Times, which favors the opposition United party, wrote yesterday that the "idea of a court superior to the Appeals Court, consisting of a majority of government supporters, would mean a fundamental change in the system of government in South Africa. It would alter this system so radically that an entirely new system approaching a dictatorship would be introduced."

Malan and some of his colleagues have denied that they have undemocratic intentions. They contend that their aim is to place Parliament's sovereignty beyond dispute, especially as the South African Appeal Court in the past has given conflicting judgments.

The immediate intention of their bill is to let the government slash the voting rights of some 80,000 Cape "coloreds" (persons of mixed blood), whose franchise had been pledged in the nation's constitution, its "Act of Union."

The new measure was prepared in defiance of a ruling by the presently unfettered court, which set last month in the face of government protests that a parliamentary majority of two-thirds is needed to change two basic or entrenched clauses of the constitution.

The two clauses pledge equal voting rights for certain elements of the union's multi-racial society and equal language rights for English and Afrikaans-speaking people.

Malan won only a slight majority in Parliament last year for the law trimming the coloreds' voting rights. The Appeal Court struck down the law because it hadn't mustered the two-thirds vote.

**\$100 Fine Is Imposed Today On One Driver**

A \$200 fine wouldn't have been too much for him, a motorist admitted to Patrolman Kirby as he left the Corporation Court this morning, after having been fined \$100 by Judge W. E. Greenlee.

Police Sgt. Rogers had testified that the motorist had crossed Main Street on 4th at an excessive rate of speed and then turned south on Gregg Saturday night. Rogers said rain was falling at the time and that the motorist drove south on Gregg for several blocks before the police car could stop him, and that he was driving through heavy traffic on the left side of the street part of the time.

Officers arrested him and took him to the police station where he executed bond for his appearance. The man's eight-year-old son was riding in the car with his father at the time and officers took the child home.

Other traffic cases brought a \$10 fine for speeding; a \$5 fine on a U-turn; a \$5 fine for failing to stop, and a \$15 fine for speeding. Another reckless driving charge is to be heard at 5 o'clock this afternoon.

Thirteen persons charged with drunkenness were fined and two charged with vagrancy were fined \$6 each.

One of those charged with drunkenness, a resident of Marfa, made two calls at the city jail yesterday. He was arrested soon after midnight Sunday morning and when he sobered up was released on bond. Soon after sundown he was back in the bull pen again. This morning he was fined on both charges.

Another who was released Saturday morning to return to his home in East Texas was also back this morning. He told the court that he really intended to leave but that when he saw the rain starting to fall Saturday he just couldn't get away.

"The Best Remedy for Spring"

Fever Doesn't Come In A Bottle
It came with four wheels, a smooth running engine and a bright, shiny paint job. Here is a selection of "surf cures" for your case of Spring Fever. Priced so low they'll amaze you.
1951 FORD Fordomatic 4-door sedan. Get that Spring back in your step. Step on the gas in this 10,000 mile beauty.
1950 BUICK Super 4-door sedan. Fully equipped. This car will make you feel young again. Stop mooning and start driving. See the country in the open.
1950 CHEVROLET Fleetline 4-door sedan. Radio and heater. Never a cheaper nor nicer way to get away from your troubles. Just take a spin, away from it all.
1950 PLYMOUTH Club coupe. It's in the air, spring fever and fishing and romancing. This car will take you where you want to go.
1950 BUICK Special Sedanette. Ride with the comfort that only a BUICK can give. Glide away on that vacation trip without a worry or care.
1947 FORD 4-door sedan. A Georgia peach. Has lived in Georgia until the Air Force caught its owner. Cleanest car of the model in West Texas.
1946 PLYMOUTH 4-door sedan. Radio and heater. Take off for that mountains or coast. This one will make it.
1948 CHEVROLET 2-door sedan. A really nice car inside and out. Radio, heater and a typical spring painting. Green and brown.

**More Rain Said Needed In W-T As Dust Blows Again**

By The Associated Press  
Thundershowers hit East Texas today; dust started blowing in West Texas; and the unfamiliar warning of high water in Texas went up for the upper Sabine River.

It was Texas' weather getting closer to its usual wacky self after a week end of general rains that eased the prolonged drought situation.

But West Texas still needed more rain. Skies cleared in the El Paso and South Plains areas today, and Big Spring reported blowing dust in the distance. The Weather Bureau said it would get worse as the day went on.

The Weather Bureau reported heavy rains in the Mineola area of East Texas, warned that the Sabine would crest at 17.5 feet at Mineola by Friday. Flood stage there is 14 feet. A crest of 24 feet on the Sabine was forecast for Wednesday, April 26. Flood stage there is 26 feet.

Mineola had two inches of rain over the week end. Marshall had .56 of an inch up to 8:30 today, and rain kept spattering down.

Heaviest rainfall in the 24-hour period ending at 8:30 a.m. today included .99 at Dalhart, .90 at Tyler, .50 at Wichita Falls, .46 at Palestine and Texarkana, .35 at Lufkin, .33 at Waco and Childress, .27 at Beaumont, .23 at Lubbock, .17 at Fort Worth and .13 at Houston and Dallas.

Other points had less than .10, and the rains were scattered. The Sunday rains missed the lower Rio Grande Valley. They got light steady rain Saturday.

With the "dusting season" due over in about two weeks, Louis P. Merrill, regional director of the SCS at Fort Worth, said at least an inch of rain was needed in drought-stricken West Texas.

It would take that much to stop the almost daily sandstorms, Merrill said.

**East Reich Coal Mine Explosion Fatal To 13**

BERLIN (AP)—A coal mine explosion behind the Iron Curtain in East Germany has killed at least 13 miners and injured 37. An undisclosed number of miners are listed as missing.

An official statement by the East German government said the blast Saturday was in a shaft of a hard coal mine in Southern Saxony, an area closed to West-erners.

THE STATE OF TEXAS  
TO: EARL WILLIAM HUNTER,  
Plaintiff.  
You are hereby commanded to appear in a written answer to the Plaintiff's petition for divorce filed in the County of Harrison, Texas, on the 12th day of March, 1952, at 10:00 a.m. in the County Court at Big Spring, Texas, and to show cause why the same should not be granted.

# OES Grand Matron Pays Official Visit

Mrs. Flora Best Boone of Littlefield, worthy grand matron of the Grand Chapter of Texas, Eastern Star, was honored Saturday at 6 p.m. at a banquet in the Settles ballroom.

Mrs. Boone, made her official fraternal visit to the 12 member chapters in District 2, Section 8 and addressed the group at a meeting

in the Masonic Lodge following the banquet.

At the banquet, Mrs. Gladys Dalmont, chairman of the state welfare committee, served as mistress of ceremonies.

She introduced the grand matron and a duet was sung by Ruby Read and Mrs. Tinnie Mae Bohannon. They were accompanied by Gail Bonner.

Mrs. Boone was then presented a corsage by Mrs. Beulah Carnrike. Physical education students of Arah Phillips presented a series of tap dance routines.

Mrs. Dalmont introduced the grand officers and Dorothy Driver, worthy matron of the local chapter, introduced the worthy matrons and patrons of the district.

The speaker's table was centered with a fan-shaped arrangement of blue, yellow, white, green and red gladioli. Down the length of the table were rows of candles tied with green ribbon.

On the other tables were candles tied with green ribbon and interlaced with gold fern.

Plate favors were miniature yellow roses and fern.

Preceding the opening of the meeting, Irene Barnett, chairman of the Rainbow advisory board, presented Mrs. Adele Roberts, mother advisor, who in turn presented 20 Rainbow officers in a flower drill.

The grand officers of the order attending were introduced. They include Mrs. Agnes V. Young, past grand matron, Big Spring; Florence Reed, past grand matron, Big Spring; Pat Boone, past grand patron of Littlefield; Pauline Smith, grand Ruth of Lubbock; Annie Daniels of Lubbock, member of the educational committee; Esie Bills, grand examiner of Fabens; Mollie Goodpasture of Brownfield, district deputy grand matron; Mrs. Lulu Wyeoff of Midland, deputy grand matron; and Mrs. Dalmont.

Lora Duke of Odessa sang "The Holy City" accompanied by the Holy City" accompanied by Rosamond Webber of Odessa.

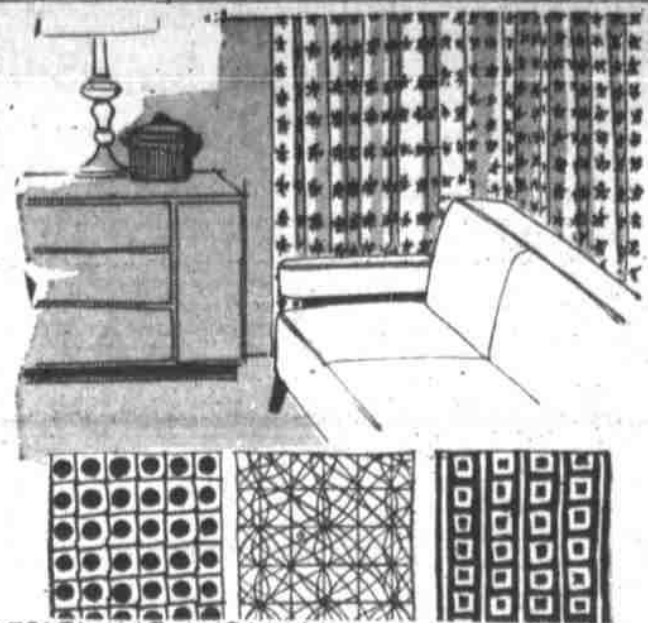

Mrs. Wyeoff gave the welcome and Mrs. Goodpasture, the response.

A drill was presented by the Big Spring corp of officers while Mrs. Read sang, accompanied by Naomi Aender.

Following the address by the worthy grand matron, Alice Lindsey of Lamesa sang "Just for Today" accompanied by Mrs. Webber.

The meeting was concluded with greetings extended by the other grand officers.

The guests were honored following the affair at a formal reception. About 180 attended.

## DESIGNING WOMAN New Fiberglass Draperies Have Design Importance

By ELIZABETH HILLIER  
Glass fibers can be spun into threads and woven into fabrics, just as other fibers are. The first glass that was spun and woven in this way made white, cream and pale blue semi-sheer fabrics but it was much later that the variety of fabrics increased and ways of dyeing were perfected to widen the color range. Now new developments make possible heavier weight drapery fabrics that can be printed. When designers Estelle and Erwine Laverne adapt their distinctive ideas to the new fabrics to make 80 new pattern and color combinations, as they did recently, the fiberglass draperies have new design importance to add to their great practical advantages. These are many. Fiberglass draperies resist soil just as glass does in other forms and dirt cannot penetrate the fibers. When they need cleaning, they can be wiped off with a damp cloth or washed in a machine. Fabric cannot burn, rot or mildew. Colors cannot fade. The draperies need no lining and transmit light beautifully in a special effect of their own. Sketched are four Laverne designed patterns, Daystar to make 80 new pattern and color combinations, as they did recently.

## Mrs. Harley Grant Is Feted Rev. Alsie Carleton Speaks

FORSAN, (Sp.)—Mrs. Harley Grant was honored Thursday afternoon with a pink and blue shower in the home of Mrs. S. C. Cowley.

Co-hostesses were Mrs. Bob Cowley, Mrs. Kenneth Cowley, Mrs. C. V. Wash, Mrs. Ray Shortes, Mrs. Burt Griffith, Mrs. Sammie Porter and Mrs. Frank Thieme.

Mrs. Bob Cowley presided at the guest register which was made by Mrs. Jimmy Hagar of Pecos.

Placed at vantage points in the entertaining rooms were arrangements of pink gladioli, white stock, lilies, iris and fern.

The refreshment table was laid with an ecru crocheted cloth over yellow centered with an arrangement of pinks and ivy surrounding a stork.

Attending were Mrs. Ray Prater, Mrs. O. W. Fletcher, Mrs. J. P. Kubecka, Mrs. Dan Hayhurst, Mrs. Forrest Winget, Mrs. A. P. Oglesby, Mrs. J. W. Skenen, Mrs. Hoyt Andrews, Mrs. Dave Knight.

Mrs. J. R. Howard, Mrs. Sam Rust, Mrs. H. E. Peacock, Mrs. R. A. Chambers, Mrs. T. T. Henry, Mrs. John Cardwell, Mrs. O. A. Jones, Mrs. V. W. Hedgpeth, Mrs. L. W. Moore, Mrs. C. W. Howard, Mrs. Pearl Scudday, Mrs. M. M. Fairchild, Mrs. G. G. Green, Mrs. Frank Singer, Mrs. C. L. Gooch, Mrs. W. B. Dunn, Sue Jones and Ann Green.

The Rev. Alsie H. Carleton of Big Spring spoke to the Forsan Study Club and their guests Thursday evening at the school.

His topic was his impressions of the economic, political and religious life in France, Germany and England.

The speaker was introduced by Mrs. Gene Smith, program chairman.

The second grade was in charge.

## BABY DUE SOON?

## Hemphill-Webb Co.

## Forsan Senior Class Feted At Annual Banquet Saturday

FORSAN, (Sp.)—A Stork Club theme was used Saturday evening when the annual Junior-Senior banquet was held at the Forsan school gymnasium.

Guests entered under a canopy erected over the walk and they were met by two doormen, Robert Robertson and David Wise.

Narrow strips of pale blue crepe paper covered the walls and the ceiling was papered with dark blue paper and sprinkled with stars.

The speaker's table featured a large black top hat filled with white daisies and pink gladioli.

Other guests were seated at tables for four that were centered with smaller top hats holding candles.

Table covers and napkins were white decorated with blue stars. Program booklets had stork decorations.

Ruth Calley acted as a cigarette girl and Nancy Huestis checked hats.

Freshmen and sophomore boys were waiters.

Jerry Fowler was master of ceremonies and the invocation was given by Glenn Whittenberg.

Arlen White gave the welcome and Larry Shortes the response.

The class history was read by Corrine Starr, the will by Glenn Barnes and the prophecy by Betty Ruth Sewell.

Music for the occasion was furnished by the Big Spring High School stage band.

Jan Masters and Billie Sue Sewell each sang two songs.

A tap dance number was presented by the girls of the Big Spring High School physical education class, under the direction of Arah Phillips.

The room mothers of the junior class prepared the meal. They are Mrs. J. D. Leonard, Mrs. Dan Hayhurst, Mrs. C. L. Fowler, Mrs. O. A. Jones, Mrs. W. J. White, Mrs. Jesse Overton, Mrs. E. B. Thorpe, Mrs. L. E. Rosser, Mrs. Dave Knight, Mrs. T. R. Camp, Mrs.

R. A. Fullen, Mrs. J. R. Pike, Mrs. S. J. Willis, Mrs. E. C. Sewell and Mrs. A. Z. Dean.

Attending were 130 guests.
