

COMMON LABOR ON RAILROADS TO BE REDUCED

Decision of Labor Board Will Practically Wipe Out Raise Granted Last Year.

Special to the Times CHICAGO, Ill., May 17.—In an unexpected resolution adopted late today by the Railroad Labor board wages of common labor on practically every railroad in the United States will be cut July 1, and wages of all other classes of railroad labor, affected by decision No. 2, granting the \$600,000,000 increase of last July, also will be announced on July 1, the board announced.

The decision making the cut in the wages of common labor will be made public on June 1 and effective one month later. On June 6 the board will hear the applications of the railroads for reduction of wages on all other classes of labor and announce its decision on July 1.

May Wipe Out Raise. The decision to be announced on July 1 will greatly modify, if not entirely wipe out the \$600,000,000 wage increase granted employees last year, it was stated on highest authority. After reciting in its preamble the status of the cases filed and other information connected with the wage hearing, the resolution says:

"Whereas, the Railroad Labor board has this day, by formal resolution, declared that, in its judgment, based upon the evidence before it in the disputes already heard, prevailing conditions justify to some extent, yet to be determined, a readjustment downward of the wages of the employees of the carriers which are parties to the disputes already heard by the labor board; therefore, be it

Resolved, That this board will, on June 1, 1921, announce its decision, covering the disputes as to wages between carriers and their employees, which have been heretofore heard by the board, to become effective July 1, 1921.

"That Monday, June 6, 1921, be set as the date when this board will hear the representatives of the parties to disputes filed since April 18, 1921, or which may yet be filed and docketed prior to June 6, 1921, it being the purpose of the Railroad Labor board to make its decision of the disputes heard June 6, 1921, effective July 1, 1921."

A new and complete occupational classification of all railroad labor was announced tonight by the board. This classification, considered of vital importance in settlement of disputes between carriers and employees, is believed to be the forerunner of a decision to be made shortly which is expected to order reductions in the wages of common labor on railroads and otherwise to modify the \$600,000,000 annual increase in wages granted last July.

The classification gives all railroad positions and grades of labor uniform titles on all railroads. Each class, group and grade is given a standardized nomenclature and the work of the labor board and the Interstate Commerce commission will be simplified in settling disputes over wages, jurisdiction and duties of all employees, according to the announcement of the board.

Josephus Daniels Tells Story of American Navy's Exploits In World War

ARTICLE XXXV.

A SUMMING UP STUPENDOUS WAR WORK OF OCEAN FIGHTERS

By Josephus Daniels

Former Secretary of the Navy—1913 to 1921

Copyright 1921, by John F. Dille. Copyright by National Newspaper Service. Copyright in Great Britain, Canada and throughout Europe. All rights reserved, including translation into foreign languages, including the Scandinavian. Unauthorized reprinting for any purpose forbidden.

Let me tell you a few of the big things the navy did in the world war, some of which you may not realize. Even in peace times the navy's operations extend over a considerable portion of the globe, with fleets in the Atlantic, the Pacific and the Far East.

During the war our ships operated from Archangel and the White sea, in northern Russia, to the Adriatic and the Mediterranean; in the North sea, in English and Irish waters, all along the coast of France, Spain and Portugal, in Italian waters, in the Azores; patrolled our own coasts and the western Atlantic, the Gulf of Mexico and the Caribbean sea, the South American coast, guarded the Panama canal, and maintained a vast fleet of troopships, cargo transports and conveying vessels carrying troops, munitions and supplies from America to Europe.

Guarding against possible raiders and German activities in the Pacific, our operations extended from our own west coast to Hawaii, Guam and the Philippines, and the few vessels left in the orient co-operated with the Japanese and other allied naval forces from Manila to Vladivostok.

L. George Threatens Poles and French

GOLD TO BE PAID TO ALLIES AS INDEMNITY.

Herewith is a most unusual photograph and one of momentous interest showing part of the gold to be paid by Germany to the allied nations as indemnity. The photograph was made in the strong room of the German National Bank in Berlin, and shows custodians checking over the gold bullion.

GROUND BROKEN FOR NEW BRECK CHURCH

Special to the Times. BRECKENRIDGE, May 18.—Ground has been broken for the new Baptist church building here, which will be erected at a cost of \$100,000.

Construction also is under way on the Presbyterians' \$30,000 building.

ALLIES DEMAND GERMANY MUST DISCARD ARMS

By United Press. BERLIN, May 18.—Germany must disarm by June 15, according to allied terms handed the government here today.

The demands presented by M. Nollet, French representative, were: Reduction of the army to 100,000 by June 30th.

Surrender of all surplus war material by June 30th.

Delivery of all arms by the civil population by June 1st.

Dissolution of self-protection organizations by June 3rd.

The note also demanded that the "green" police be divested of all the characteristics of the mobile military force.

Germany's police force for the entire nation is to be held under 150,000.

F. K. LANE, ONCE SEC'Y INTERIOR IS DEAD AT 57

End Comes Early This Morning While Under Treatment At Rochester, Minn.

By United Press. ROCHESTER, Minn., May 18.—Franklin K. Lane, former secretary of the interior, died here today.

Dr. Mayo said the former secretary was recovering rapidly from the operation, and was "up and around."

He expressed a belief that the operation had nothing to do with the cause of death.

BORN IN CANADA.

It was often said of Franklin K. Lane that if he had been born in the United States instead of Canada, he would have been a presidential candidate.

After serving seven years in President Wilson's cabinet as secretary of the interior, he resigned his \$12,000-a-year post in expensive Washington early in 1920, "in justice to his family," to become vice president and legal adviser of the Mexican Petroleum companies, controlled by Edward L. Doheny.

Born near Charlottetown, Prince Edward Island, July 15, 1864, the son of a Canadian doctor who removed to California during the boy's childhood, young Lane was educated at the University of California, from which he was graduated in 1886.

By reason of his scholastic achievements the honorary degree of LL.D. was conferred upon him some years later by his alma mater and by New York and Brown universities and the University of North Carolina.

Was Newspaper Man. Upon leaving college he engaged in newspaper work, becoming part owner and editor of the Tacoma (Wash.) Daily News. In 1889 he was admitted to the bar of California and from 1897 until 1902 served as corporation counsel of San Francisco.

In the latter year he was the Democratic candidate for governor of California but was not elected. He received the party vote of the state legislature in 1903 for United States senator.

Appointed a member of the Interstate Commerce commission by President Roosevelt in 1905, later becoming chairman, Mr. Lane was serving in that capacity when he was made secretary of the interior.

During his service on the Interstate Commerce commission he earned the

SAYS TREATY OF PEACE NOT TO BE SPURNED

Warns France Also British "Forces" Ready at Moments' Notice If Needed

By United Press. LONDON, May 18.—British forces will be available if Poland tramples on the peace treaty, Premier Lloyd George warned in a statement issued today.

The statement was directed also at the French, who have exercised a "benevolent neutrality" during the spasms of Upper Silesia by Polish insurgents.

The premier declared that Germany had been threatened by the British fleet if she should disobey the supreme council's order. His declaration was regarded here as an indication that others disobeying the council's orders would meet the same forces.

"It is temporarily difficult to send troops," he said, "but that is a difficulty soon mended."

Lloyd George again challenged French procedure in Upper Silesia.

The allied supreme council, not the Polish leader, Koranyi, must decide Silesia's fate, Lloyd George declared.

"Likewise," he said, "the allies co-operating must decide the fate of the world."

"The treaty of Versailles is an infinitely momentous document. Those who treat its provisions as the sport of passion and prejudice may not have to live long before they regret their headheadedness."

UNITED STATES REFUSES AID.

By United Press. WASHINGTON, May 18.—Poland has sent a formal note to the American government asking its support in the Silesian question, and Secretary of State Hughes has replied, refusing such support, it was learned today.

FIGHT OVER BONES.

By CARL D. GROAT. United Press Correspondent. OPEL, Upper Silesia, May 18.—A German police war impeded today in Silesia.

Minor engagements with numerous dead have occurred already between Polish forces and German irregulars, each side claiming this rich mining district.

Heavier fighting that might mean the start of a new European conflagration was expected from hour to hour.

"Only the voluntary retirement of the Poles can prevent the Germans from attempting a big counter offensive," General Marinis, commander of the Italian plibicite troops, declared in an exclusive interview with the United Press.

Marinis said he had heard the Germans had organized a self-defense league of 10,000 men at Krusberg and elsewhere in Silesia.

"It is a question how long they can be held back," he declared. The Italian said his forces were interested in maintaining peace. "They have fought the Poles," he said, "but they have held the Germans back also."

SMUGGLERS!

By United Press. DALLAS, May 18.—With the arrest of six Spaniards and seizure of \$10,000 worth of narcotics at Galveston, Will Wood, San Antonio, and W. C. Guinn, Dallas, federal narcotic inspectors, believe they have broken up another international drug smugglers' ring, Guinn announced here today.

Guinn said the drugs had just been smuggled from a German ship. One ringleader of the gang was declared to have fled from Dallas, headquarters of the ring, and the border is being closely guarded in an effort to capture him, it was announced.

Wood, according to Guinn, obtained evidence against the smugglers when he disguised himself as a fisherman bootlegger and was admitted to the gang's secrets at their meeting place at Virginia Point, near Galveston.

Chief Justice White of Supreme Court is Dying

WASHINGTON, May 18.—The chief justice of the United States supreme court was dying today. Edward Douglas White, former confederate soldier, one time United States senator, and a member of the most powerful judicial body in the world, long enough to see a generation of famous lawyers rise and pass, cannot recover from the effects of an operation, his physicians say.

A bulletin issued by attending physicians shortly after 10 a. m., definitely stated that hope for White's recovery was abandoned. It read:

"Chief Justice White was operated on Friday last. Although in a serious condition for some months past, he postponed the operation as

he felt his presence at the court imperative. His progress was satisfactory with normal pulse and temperature until Tuesday afternoon when acute palpitation of the heart occurred. He has not rallied from this condition and his recovery is not expected."

Only three weeks ago White delivered a vigorous partial dissent from the opinion of his colleagues in the government's prosecution of Senator Truman H. Newberry, of Michigan.

Last Friday the chief justice went to Garfield hospital for an operation. For a younger man it would have been considered a minor one.

White's operation was for a bladder ailment. He is 75 years old.

COPIES OF NEW SANITARY LAW ARE RECEIVED

Makes It Misdemeanor to Employ Restaurant Help Who Have Contagious Disease.

A copy of the law making it a misdemeanor for public eating places and others to employ help infected with contagious diseases, has been received by the city's sanitary department. Steps are being taken by Sanitary Commissioner Dr. R. H. Hodges and Wade Swift for its enforcement.

The Law. The preamble of the law reads: An act providing that persons, firms or corporations, who operate or conduct hotels, cafes, restaurants, dining cars or other public eating places, bakeries and meat markets in this state, shall not work, employ or keep in their employ any person who is infected with or affected by any infectious or contagious disease; and further providing that such persons, firms or corporations, or common carriers, operating or conducting any public eating place heretofore named or operating any bakery, or meat market, public dairy or dairies, shall have made a medical inspection for all their employees at intervals of time of not more than six months, and if such examination discloses the fact that any person in their employment is infected with or affected by and infectious or contagious disease, that such person shall be promptly discharged from such employment; and further providing that all dishes, receptacles or other utensils used in eating or drinking, or for the conveyance of articles of food, shall be thoroughly cleaned and sterilized by heat or in boiling water since used by another person, and prohibiting the use of dishes, receptacles or other utensils that are cracked or broken in such a manner as to render their sterilization impossible or doubtful, and providing penalties for a violation of the provisions of this act, repealing laws in conflict and declaring an emergency.

The Penalty. The penalty for the first offense in violation of the law is a fine of not less than \$5 and not more than \$100. The second offense calls for a penalty of not less than \$25 and not more than \$200.

The law also states that employers of the above enumerated classes of business must receive a certificate of health for persons they employ which has been issued not less than one week before employment. In every case the certificates must come from reputable physicians.

LOYD GEORGE TAKES RAP AT "IMPERTINENCE" OF FRENCH NEWSPAPERS

By ED L. KEEN. United Press Correspondent. LONDON, May 18.—Premier Lloyd George in a statement today declared "impertinence" of French newspapers towards anyone disagreeing with them would be "fatal to any entente."

Lloyd George reiterated his statements in commons regarding the handling of Upper Silesia.

"I am not responsible for distorted reports in the French newspapers," he said.

Lloyd George declared that the British, American and Italian press had approved his statements with "unprecedented unanimity."

TWO TIRES STOLEN.

Two automobile tires, one a new horseshoe cord, were stolen during the night from the home of I. E. Silkwood in the Berger addition. The police have been notified.

EXTENSION OF FRANKELL POOL IS IMPORTANT

J. W. Harmon No. 1, Comes In For 2,500 Barrels at 3,600 Feet.

An important extension to the newly discovered pool around the Stewart-Walker tracts was made when the Quaykins Petroleum's J. W. Harmon No. 1 came in Monday night for 2,500 barrels at the 3,600 foot depth. This well directly adjoins the townsite of Frankell on the south and is a mile and a half southwest of the Nannie Walker tract.

Advices from Frankell are that the proven territory in this pool curves to the southwest around the town. This makes it the center of the new pool, which promises to be one of the big sensations of the Ranger field.

Two more of the White company's little fellows at 2,000 will be sent down immediately, following the big success with the Walker No. 3. One of these wells is now between 2,200 and 2,800. In the other casing was badly jimmied up by a shot and this will have to be taken out before drilling can be started.

FOOD CONDITIONS WORSE IN RUSSIA NOW THAN FORMERLY

By Associated Press. BERLIN, May 18.—Lenine's abandonment of government control of foodstuffs came too late to relieve the situation in Bolshevik Russia, according to letters received in Berlin from a family which has lived in Petrograd throughout the Bolshevik regime.

"The conditions are worse for us than they were when food was issued or cards," one letter states. "We are told now that we may buy food and the peasants are told they may sell food without violating government regulations. But there are no foodshops. And the peasants about Petrograd have little food to sell. They don't want paper rubles."

"They even refuse all sorts of manufactured articles in exchange for what little food they may have. They are afraid to give it up, as they are not sure that they can get another crop the coming year."

"The Petrograd district is so sterile that little is produced here in normal times. Transportation is so bad, and the peasants in the grain districts have been so badly treated by the Bolshevik requisitioning parties that the government simply couldn't continue the small rations it was issuing on cards. So it told us to do for ourselves a job which it could not accomplish with all its power and military force."

"The re-establishment of free trade and the announcement that government requisitioning has been reduced will not put food into cities which have no supplies, which have no adequate railway connections with grain districts and no means of reconciling peasants who attribute most of their troubles to the two great cities in Russia and want to starve them out."

"HOT" STORAGE MAY BE MADE AS BENEFICIAL SOON AS COLD STORAGE

By Associated Press. MORGANTOWN, W. Va., May 18. "Hot" storage as opposed to "cold" storage for many things affected by insects, but not by heat, may be realized soon if the experiments of Professor L. M. Peairs, of the department of entomology of the University of West Virginia prove entirely satisfactory.

Professor Peairs has met with a great degree of success in showing the practicability of hot storage for such articles as carpets, clothing, particularly woollens and furs, as well as cereals, dried fruit products and other materials unaffected by dry heat.

Professor Peairs has used grain and carpet beetles and other insects of a similar nature in demonstrating that they do not develop at a constant temperature of 100 degrees Fahrenheit, and in some cases at 95 degrees. Even such forms of insect life as could endure higher temperatures could not survive a constant temperature of from 95 to 100 degrees he said. Thus, he has concluded that hot storage with a uniform and constant temperature of 100 degrees would prove more effective than cold storage in many cases.

LOWER TAX REPLACES LEVY OF FIFTY PER CENT IN GT. BRITAIN

Special to the Times. LONDON, May 18.—A Berlin dispatch to Reuters says that, while the British Government will retain the act empowering a levy of 50 per cent on German exports, the levy will virtually be suspended in favor of the collection of the 25 per cent tax prescribed in the ultimatum to Germany.

As the act does not stipulate the precise percentage to be collected, this can easily be accommodated to new circumstances.

PRYOR WON'T QUIT!

HUNTSVILLE, May 18.—W. G. member of the state prison commission, announced today he would not resign in compliance with Governor Neff's request. Pryor said he was preparing a formal answer to the governor.

BERGDOLL'S LAWYER CITED FOR CONTEMPT

By United Press. WASHINGTON, May 18.—The House committee investigating the escape of Grover Cleveland Bergdoll today cited for contempt, Harry Weinberger of New York, attorney for the slacker. He will be brought before the bar of the House for trial.

MAY OPEN GRAVE OF VICTIM IN ROWAN TRIAL

By United Press. ARILENE, May 18.—The grave of G. W. Street, postal clerk who died from wounds received in the Dallas Jackson street postoffice robbery, must be opened, if Street's death certificate is introduced as evidence in the trial of Albert L. Rowan on a charge of murder here it developed today.

The undertaker at Caddo Mills who buried Street said he left the death certificate tacked to the lid of the coffin because he thought it a permit to bury.

The Rowan trial night sessions are offering strong competition to the movie shows here. Standing room was at a premium last night in the court room while attendants at the moving picture house was reported to have fallen off considerably.

Following receipt of his pardon papers from Austin, W. S. Scrivner was placed on the witness stand after Jeff C. Adams, defense counsel fought from every angle to keep him from testifying. Scrivner's testimony was practically the same as that he gave yesterday when the judge ordered it withdrawn following actual receipt of pardon papers.

MAD DOG SHOT; OTHER DOGS BELIEVED BITTEN

A dog said to be bearing unmistakable signs of hydrophobia was shot about noon Wednesday in the 400 block on Mesquite Street by Patrolman Jim Daniels. It is not believed that any person was bitten by the animal, but it is probable that several other dogs were and the police say owners of dogs in that vicinity must keep them tied up until it is determined that they are not affected. This applies to all dogs, whether licensed or not. It is probable that a campaign on stray dogs will be staged to keep down any possibility of a mad dog epidemic.

BIG BOOZE PLOT!

By United Press. CHICAGO, May 18.—Evidence involving three congressmen, seventy-five prohibition enforcement agents, and forty gangs of booze runners in four states, has been uncovered by department of justice agents investigating the illicit liquor business in Chicago.

Investigators made public evidence which had been gathered with announcement of a shake-up in the personnel of the prohibition enforcement department for the central states.

Seventy-six prohibition enforcement agents were dismissed, many of whom were under suspicion.

Ralph Stone, retired as prohibition enforcement officer for the central states and for Illinois.

United States District Attorney Charles Clyne announced that evidence gathered would be presented to a federal grand jury.

PRYOR WON'T QUIT!

HUNTSVILLE, May 18.—W. G. member of the state prison commission, announced today he would not resign in compliance with Governor Neff's request. Pryor said he was preparing a formal answer to the governor.

COMMISSION FAVORS BUYING WATER WORKS

Will Appoint Committee of Citizens to Make Survey and Report.

The city commission is in favor of working out plans to take over the plant of the water company, provided Hagaman lake can be made adequate to supply the needs of the city under all conditions and can be made pure. This, it is thought, can be done by adding five feet to the existing dam. When the matter was placed before the commission by a committee from the Chamber of Commerce composed of H. S. Cole, Raymond Teal, and M. H. Smith, Mayor John M. Gholson suggested that a committee of four be appointed from the citizenship to act with the mayor and four commissioners to make a survey of the situation and find out if the present lake can be made pure and if it can be made adequate to the city's needs. If these details can be worked out satisfactorily the committee is to consider a basis and the price upon which M. H. Hagaman, president of the water company, will sell the plant.

Lake Was Dry.
Mr. Hagaman, who was present at the meeting, said that before oil was found here the lake was dry, the dam having burst and that the Texas & Pacific Coal and Oil company sent a crew of engineers here who surveyed the entire watershed and the capacity of the lake basin.

These figures Mr. Hagaman thought he could secure for the committee which would give it all data necessary. From the survey it was said the committee could calculate just how much additional water would be impounded if the dam is raised five additional feet.

Mr. Hagaman was certain that the present supply of water would last the city more than one year if no more rain falls and it is believed that with five feet added to the dam an inexhaustible supply would be made available.

Watershed Is Ample.
Mayor Gholson stated that the lake is situated on one of the most extensive watersheds in the country and from a personal knowledge of thirty years of the rainfall of the country and the action of the creek when it did rain, there is no doubt in his mind that the watershed is ample if the impounding basin could be made large enough. It was also his opinion that the water could be made pure.

It was the opinion of the commission that the city could own and operate the water works on a profitable basis at a cheaper water rate than is now being charged, and it was also the opinion that it could take over the entire plant including the construction of a filter for less money and on better terms than it could build for a supply on Russell creek.

Before the committee takes any action it will want to secure the figures made by the Texas & Pacific engineers. If it is found from that data that Hagaman lake cannot be made to impound an ample and pure supply of water the whole situation will rest where it was when it began since the commission did not consider any alternate plans.

Helps Library.
The plans of the library association and several women's clubs to install the library in down stairs room of the Marston building and to operate a ladies' rest room in connection with it, were made almost certain yesterday by the city commission granting the plan \$43 a month to be applied on the rent of the rooms.

This amount as explained by Mrs. Hagaman and Mrs. Wood who appeared before the commission is now being spent by the city to pay storage on the books which are housed in an upstairs room of the building but which are not accessible, because no one is in charge. By using this money downstairs they explained, the library could be made to function. Their request was granted without argument.

Passes Sidewalk Law.
Among other business the commission passed the compulsory sidewalk law to its final reading, and amended the traffic ordinance under the emergency clause. The sidewalk ordinance only needs to be published before becoming effective.

The amendment of the traffic ordinance reduced the minimum fine for violating the traffic law from \$10 to \$1. Under the existing law the total fine that had to be assessed was \$20.70, including costs. Under the amendment it will be \$11.70.

Police Commissioner A. Davenport stated that the speed laws and others had to be enforced and that the penalty that must be charged under the old order was too severe.

"DOVIE" SAYS HER MAN COPPED HER BANK ROLL

Charging he had left Ranger with \$2,100 community funds leaving her penniless, Dovie Sears, negro, yesterday filed a complaint in Justice of the Peace Fennell's court charging Milton Sears her husband, with wife desertion. The complaint was placed in the hands of J. B. Ames, city detective for execution.

MERCHANTS TO ALTER BY-LAWS CONSTITUTION

Changes in the constitution and by-laws of the Retail Merchants' association, to be voted on Thursday night, promise to make the special called meeting perhaps the most important of the year. For the past week a committee has been going over the present laws, and changing them to meet conditions, which differ in many ways from those existing a year ago. The special meeting is called to pass on the committee's report and clear the way for the annual election of officers on Thursday, May 26.

The principal change in the association's laws, it is said, refers to the manner of electing directors. Under the present system, there are eighteen directors, each from a different line of business. The body was found to be cumbersome and did not function well. Under the proposed change, there will be a directorate of seven members, elected from the membership at large. Several other changes of importance are contemplated, and it is the association's desire that a full membership be present, in order that any disagreement may be aired then rather than thereafter. The meeting will be held at the Chamber of Commerce assembly room.

FARRELL AGAIN OFFERED SHIPPING BOARD POST.

WASHINGTON, May 18.—James

A. Farrell, president of the United States Steel Corporation, again has been offered the chairmanship of the Shipping Board, this time to take effect July 1.

President Harding always has been desirous of "drafting" the steel corporation head.

duct of such an enterprise. Four arrests were made but no names were given out.

WOMAN SUES HAMON ROAD FOR DAMAGES

BRECKENRIDGE, May 18.—A damage suit of Mrs. Edna Baker against the Hamon road is on trial here. Mrs. Baker alleges she received personal injuries as the result of a wreck last fall, when a northbound passenger train swerved into a switch at Frankell and collided with a freight train. A number of witnesses are here from Ranger, including R. H. Hansford, Tom Pigg and Dr. Lauderdale. Nominal damages are asked.

MODERN SCIENCE PROVES "RICH MAN'S LUXURY" TO BE EVERYBODY'S NECESSITY.— FORMER RELISH GETS HIGH HONORS.

"The good cook is the butter cook" has been common knowledge for years. That flavor and delicacy not otherwise obtained could be secured by the use of butter in cooking, was admitted by every good cook, but there was also a feeling that butter for cooking was an extravagance that could be ill afforded by any but the most wealthy.

Modern science has shown that butter as a food is indispensable to the best health of any family. That butter contains within itself all of the usual food properties of other foods in great abundance and in addition a vital food substance indispensable to proper growth of children and proper health of adults.

The housekeeper who gives her family plenty of butter, both as a spread for bread and in their cooked food, is safeguarding their health as she should.

PATTY SHELLS.

½ cup Mistletoe Butter.
1 ¼ cups flour.
4 tablespoons ice water.

Have Mistletoe Butter and flour very cold. Put the flour in a bowl, set the bowl in a pan of cracked ice. Chop Mistletoe Butter into it until it resembles a fine meal. Cut in the ice water until you have a dough. Roll thin, cut in rounds, fit over inverted muffin cups. Bake fifteen minutes in a moderate oven. Remove, invert and cool before using.

SANITARY CONDITION OF THIRTEEN DAIRIES IS DECLARED PERFECT

Thirteen dairies have been inspected by Sanitary Commissioner Hodges and Wade Swift, sanitary inspector, within the past week, and improvement suggested.

For the first time in his seven years' experience Dr. Hodges declared that in all the dairies inspected he found the milk vessels in a perfect state of cleanliness. This he considered a record, more especially since there has been no regular inspection of dairies. "In every place visited," Dr. Hodges said, "I found improvements under way which were begun after the notice in the Times that the places would be inspected. However, in spite of the good conditions found, our department is going to expect much improvement which I am sure the owners will be glad to give."

Within a short time the department is going to start an examination of the water that is sold in Ranger and also the containers in which it is hauled from the source of supply. For this work Dr. Hodges expects to secure help from the state. He is going to ask that a man be sent here for this purpose.

THINGS A GIRL CAN'T DO AND BE A LADY ARE LISTED FOR GUIDANCE

CHARLOTTE, Mich., May 18.—To be a perfect lady a girl cannot use rouge, wiggle, toddle, chew gum or cross her legs in public, nor sing ragtime.

So says Mrs. James Randolph, Clubwoman and head of the Eaton County League for Reforming High School Girls.

A "Manual of Manners" has been prepared by the league Mrs. Randolph says. It will be supplied to every high school in Eaton county and later it is planned to extend the work of the organization to other cities.

The manual, which contains forty-two pages, deals with everything from a "home higher eye" to eating two pieces of cake at parties.

According to the manual how can a girl be a perfect lady if she:

- Crosses her legs in street cars or other public places?
Chews gum in public?
Receives her boy friends on the street corners or in dark nooks in the parks?
Powers her nose in public?
Tells her girl friends in shrill tones in the movie theatre what her boy friend said the previous night?
Uses rouge or a lip stick?
Toddles or wiggles at dances?
The manual says "it can't be done."

The "modern Hoyle" also points out to girls that their boy friends are not "Chesterfields" if they:

- Lol in front of pool halls, flicking admiring eyes at passing girls.
Insist on monopolizing a popular girl at dances.
Ignore the "wall flowers."
Remain at girls' homes after ten o'clock at night.
Dance cheek-to-cheek.
Hold their hands in their pockets.
Whistle in public.

Parents also come in for a few don'ts, including one which warns them not to bar daughters' sweeties from their home and thus encourage her to meet him on the corner.

The longest battle of the Civil War was that of Spottsylvania, Va., from May 8 to 18, 1864.

TAKIN'S HAVIN,' IS POLE LEADER'S VIEW OF TERRITORIAL FUSS

VILNA, May 17.—General Lucien Zeligowski, who still defies the League of Nations and who last fall marched into the Vilna district at the head of 20,000 or more Polish soldiers and proclaimed himself dictator of Central Lithuania, is a great believer in the old time proverb that possession is nine tenths in ten when it comes to law, international or otherwise.

For seven months the general has been supreme in the occupied country while the League of Nations, through its military commission of control, has been endeavoring to act as mediator in the territorial dispute between Poland and Lithuania.

The general looks upon league members who have visited the district as intruders. On the other hand the league representatives apparently view Zeligowski in the same light and have refused to deal direct with the general, all negotiations pertaining to a settlement of the Vilna affair from the one side being carried on through the Polish government in Warsaw, the Zeligowski soldiers in the meantime holding onto the fort.

His Reasons. "I am a Pole, and Vilna is my home," General Zeligowski said to the Associated Press correspondent. "I was born in Vilna. Most of my soldiers are natives of Vilna or adjacent territory. Our reasons for being here are simple these: "In 1919, when Poland was attacked by the Bolsheviks, I went to war for Poland, together with thousands of other Poles from the Vilna district. For two years we fought the Bolsheviks, who in the meantime had occupied Vilna, robbed and destroyed our homes and committed atrocities upon our relatives and friends. Eventually came the armistice between Poland and the Soviets, and then many conflicting reports regarding Vilna's fate. "It was some weeks after this that I decided to take action myself, knowing my men felt as I did in the matter. I resigned my commission as a general in the Polish army by telegram, took command of the Vilna Polish troops and occupied the country. We received a glorious welcome, and we've been here ever since, and naturally we feel perfectly at home, as we are at home, and I don't know of anything which is strong enough to pry us out."

Disputed City. From the time of the ancient state of Lithuania when Vilna was the capital of that state, Vilna has been a much disputed city. In the great war and during the struggle between Poland and the Bolsheviks, Vilna was a much sought prize and changed hands

many times. Within the last few years, Vilna has had streets named in four different languages at various intervals. Since Vilna was occupied by Zeligowski troops, names famous in Polish history have adorned the street corners, replacing Lithuanian names put up after withdrawal of the Bolsheviks. In 1915 Vilna was occupied by the Germans, who apparently had hopes of remaining and "Kaiser Wilhelm strasse" and "Bismarck strasse," and various other German names replaced the Russian street signs.

In the spring of 1920, when Poland was at war with the Soviets, Lithuania made a separate peace with the Bolsheviks, and the treaty signed in Moscow gave Vilna, at that time occupied by the Bolsheviks, to the Lithuanians. News of the signing of this treaty created a stir throughout Poland, which considers the Vilna district, about the size of the state of New Jersey, a part of ethnographical Poland.

Leaders Prove Claim? The Poles point out, to back this claim, that Kosciuszko, the Polish patriot and friend of America in revolutionary days, was born near Vilna, and that Joseph Pilsudski, the present Polish chief of state, and Prince Sapieha, minister of foreign affairs, and various other Polish statesmen of note, were born and reared on the land now in dispute. It is also contended by the Poles that the majority of the population throughout Central Lithuania is Polish.

While Vilna looks upon Warsaw for support and supplies, General Zeligowski prefers to have the district known as Central Lithuania, and has set up his own little government. There is a representative of the Polish government who stays in Vilna and is known among the natives as the "Polish-ambassador." Soon after taking over the affairs of Vilna, the Zeligowski adherents printed their own Central Lithuanian postage stamps, but the Polish mark has continued as the local currency.

General Zeligowski is of the opinion that the majority of the population favors annexation to Poland but he is perfectly willing that the question to determine whether Vilna should become Polish or Lithuanian may be decided by plebiscite.

But General Zeligowski, who in appearance somewhat resembles pictures of the late General U. S. Grant, has

little faith in the efforts put forth by the League of Nations to settle the affair.

"Frankly, I haven't any confidence in the League of Nations, so far as our affairs are concerned," said the general, "and why should I have? What have they ever done, anyway? No, I have never recognized the League of Nations!" And then, with a twinkle in his eye: "The league has never recognized Central Lithuania, nor Zeligowski either, and I guess we can settle our own affairs, if they will let us alone!"

the circus men got the worst of it. At Baltimore a couple of days ago there was just one Texan, Joe Williams, a six-foot cowpuncher from Henrietta, but he came near breaking up the John R. Robinson show at Baltimore. Some trivial matter irritated Williams and the fight started. When it was over several were wounded, but only Joe Lynch, 21 years old, a clown, residing at Saivers, Mass., went to a hospital. Williams paid a fine.

SCRAPPIN' TEXAN PUTS UP HE-FIGHT, NEARLY BREAKS UP THE CIRCUS

WASHINGTON, May 17.—Years ago Texas broke up the John Robinson show at Jacksonville. The battle between a group of East Texans and the circus men is famous in the annals of showdom—the attempt to stop the show by trying to burn the bridge at Palestine, the safe arrival at Galveston leaving Texas never to return for many years—are all familiar. There was a crowd to fight at Jacksonville and history records that

Disordered Blood a Common Cause of Rheumatism. Medical science has demonstrated that many of our rheumatic pains, aches and twinges are due to disorders of the blood stream—often to poisons and impurities that should have been cast out. Plainly, the remedy for such ailments lies in driving forth these impurities and correcting the disorders. To use any other form of treatment would be overlooking the cause of the disease. To reach the blood stream itself, you need an internal remedy; outside treatments don't go deep enough. Thousands have gotten complete relief from their torturous rheumatic pains due to disordered blood, by taking S.S.S., the famous old herb remedy of fifty years standing. S.S.S., which is compounded of fresh herbs, is just the thing to drive out the impurities from your blood and help enrich it with red corpuscles, as it has done for so many others. If you suffer with rheumatism, don't wait longer, but get S.S.S. from your druggist today and start cleansing your circulation at once. Then if you would like individual medical counsel free, write a complete history of your case to Chief Medical Advisor, 868 Swift Laboratory, Atlanta, Georgia. He will gladly advise you. S.S.S. FOR THE BLOOD Standard for over 50 years. Swift Specific Co., Dept. 868, Atlanta, Ga. Please send me your free booklet on S.S.S. Name: St. or R. F. D.: Town: State:

PERSPECTIVE.

The trouble with a lot of folks in Ranger is lack of perspective. They came here when men and money were piling in; when times were good and the pickings easy, here as elsewhere.

Ranger folk, it would appear from the testimony of those who have been and seen, should be congratulating themselves upon their comparative good fortune, rather than looking upon themselves as spiritual companions of Job.

With every cop scanning a fellow's hip it's about time for the inventor of the invisible book and eye to kick in with an invisible pocket carrier.—Buffalo Express

The Kansas judge who holds that women ought to get men's pay hasn't discovered anything. If women don't get it, who does, by gum?—Houston Post.

It must be a relief to a natural born "knocker" like Senator Pat Harrison to have the opposition party in control of the government again.—Indianapolis Star.

Government ownership has called attention to a number of points which a satisfactory railroad management must avoid.—Washington Star.

Viviani says the League of Nations will be relieved of its cumbersome, objectionable features. What will be left of it?—Pittsburg Gazette-Times.

Among the other optimists is the man who thinks he understands the Einstein theory, although he cannot explain it.—Boston Transcript.

THE WOMAN WHO SAW

The woman has no comment to make on the following aspect of Mother's week. She tells it only because it amused her:

Business had called her to a near by town, and there she passed a florist's window decorated for the occasion. In it was a waxen figure that carried her back to other days—a dear lady with a box of carations on her lap, wearing a black alpaca dress with a long full skirt, and shoes of the plain, flat-heeled type.

While she pondered, two girls breezed up. They were sophisticated and overdressed, but lovely, none the less. "For heaven's sake!" cried one. "What's the idea? 'Mother's Week.' Say, do you know a mother like that?"

"Number two giggled. 'If I did, her daughter would have her locked up! Isn't she a sketch? Can you imagine a mother—' They went away, amid peals of laughter.

Came two matrons who passed and stood with their backs to the woman. "Look at this Alice!" cried one. "Isn't she the picture of Aunt Abby, who used to live with us. What's the reason?"

"Mother's Week," said the other. "Well do you know a mother who looks like that?"

"If I did I'd have her interned! Isn't she terrible? Fancy any one thinking mothers are like that?"

They turned and the woman saw their faces. Mothers both—but, thought she, mothers have certainly changed since the old days!

It Runs in the Family. The woman's small friend has excellent manners. Her little individuality—the intense but elusive individuality of a ten-year-old—never obtrudes itself, and at luncheon only her rising flush and sparkling eyes betrayed an excitement that might easily be traced to her vicarious interest in the conversation, which centered in Uncle Henry's play.

"I think you might all like to know," she announced, "that I am writing a play."

"You, too?" groaned Father. "You, darling?" began Mother. "What's it like?" growled Big Brother.

"It's a good deal like Shakespeare," replied the young author. "At least it has a good many of his words in it, and it's pretty nearly all about love and its effects."

Without Fail. The Business Girl's employer sent her up to Stamford the other day a bundle containing some important papers. There had been no time for lunch before she left; the work in hand would take all afternoon, and the girl was hungry.

ANGLO, the vegetable man, is beset by the host of difficulties attendant upon doing justice in an alien tongue to the excellence of his wares.

TINKER BOB STORIES

By CARLYSLE H. HOLCOMB.

A NEW HEAD LIGHT.

"Croak, croak, croak," said Mr. Frog. "The next ferry leaves in 15 minutes. The Hollow Stump is the waiting room and a bit of food is the fare."

Now there came Dwellers from all parts of the Forest to see the new ferry that the King had established. With eyes wide open they each watched Long Neck, the Turtle, pull up to the wharf and load up with passengers.

"I don't know whether I want him to carry my baggage or not. I remember when he wanted to step on me and if I hadn't crawled under a log he would have killed me sure. I don't know about him taking it."

Mr. Beetle took his baggage to Billy Mink and told him to be very careful if you wait much longer. All aboard for across the river."

Tomorrow—The New Messenger.

Joseph Daniels Tells Story of American Navy's Exploits in World War

(Continued From Page One.)

number assigned to the European forces was over 400. Big Force Engaged. Over 80,000 officers and men of the navy were in service in Europe.

But that by no means covers all the service we performed for the allies and our own forces in Europe. The entire cruiser and transport force, with its 83 vessels manned by 3,000 officers and 41,000 men; and the naval overseas transportation service, with 378 vessels in operation manned by 4,692 officers and 29,175 men, were in trans-Atlantic service, carrying troops and supplies to our armies and our allies.

220,000 Officers and Men. Thus, a total of 834 vessels and approximately 220,000 officers and men of the United States navy and marine corps were engaged either in actual European service or in transatlantic service to and from Europe.

The builders were breaking all records in construction; a number had been completed and put into service before the armistice. But we were just reaching the peak of production when the war continued another year.

600,000 Men in Navy. The navy had grown, by the time of the armistice, to a force of over 600,000, including marines. Beginning with 4,376 officers and 62,667 men in the regular navy when war was declared, and 13,000 reserves and naval militia, the total increased to 62,931, including the 6,000 of the coast guard.

Recruiting and training this immense personnel, the largest by many thousands ever possessed by any navy, was a tremendous task, carried out with a success that surprised even our Sir Eric Geddes, first lord of the British admiralty, who said:

"The dauntless determination which the United States has displayed in creating a huge, trained body of seamen out of landsmen is one of the most striking accomplishments of the war. Had it not been effectively done, one would have thought it impossible."

HOME BOMBED CHICAGO, May 18.—A dynamite bomb was exploded on the porch of the Evanston home of Edward Hines, wealthy lumberman, Saturday night, it became known today with the arrest of two suspects. Only slight damage was caused because of a defect in the bomb.

WORLD'S CHAMPION CARRIER OF HEAVY WEIGHTS CLAIMS HE'S 147, STILL GOING STRONG

By Associated Press. CONSTANTINOPLE, May 18.—Zora, the "human pack horse," who claims to be 147 years old and still can carry 200 pounds with ease, attributes his long life and health to hard work and proper diet.

His rules of health are: Hard work, sleep, cold baths at night, no tobacco, no alcohol, no coffee, no meat, no oils, no butter, no drinking water but plenty of hot tea, honey, sugar cakes, bread and cheese, particularly butter-milk or clabber. Every five years he takes a three months' rest in his native home in the country.

He is five feet ten inches tall, deep breasted, and has the carriage of a sheik. He is almost bald, his face is long and covered with a shiny nut-brown skin.

CHICAGO, May 18.—An estate of \$6,000,000 was left by Charles H. Morse, scale and machinery manufacturer, who died May 5, according to the will filed for probate today.

And, remember, this was all done not in years but in eighteen months. The navy-manned and operated over 2,000 vessels, more than five times as many as were in naval service previous to the war.

Big Ship Yards Built. To build these vessels new facilities had to be created—new ship yards, new plants to build engines and forgings and all the complicated machinery to propel and operate vessels.

Build 400 'Sub' Chasers. The navy built more than 400 submarine chasers, fifty of which were turned over to the French government and fifty more built on its order.

The navy converted 1,597 merchant vessels, yachts and other craft for naval purposes. This work was continuous all during the war.

The navy built up an aviation force of more than 45,000, of whom 19,000 served in Europe, where we had fifty-one aviation units, including twenty-seven bases and stations, in operation, on the coasts of France, England, Ireland and Italy, and in the Azores.

Took 911,000 to Europe. The navy transported to Europe in naval transports 911,000 American troops, and brought back from Europe some 1,700,000. Of the 2,079,880 American troops sent to Europe 1,720,360—82.75 per cent—sailed under escort of United States naval vessels.

The navy supplied 5,352 guns to 1,868 vessels, of which guns 2,502 were of three-inch calibre or larger. In addition it furnished 326 guns of various calibres to the allies.

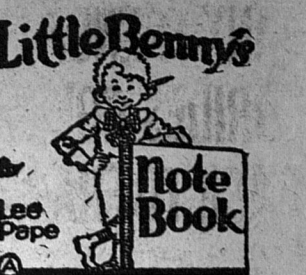

The navy organized and operated the most extensive radio system in existence, maintaining communication with Europe, the east and south from Panama to Alaska. High-powered stations were built at Annapolis, San Diego, Pearl Harbor, Hawaii and Cavite, P. I., and the navy erected in France the most powerful wireless station in the world.

The navy carried out a shore-construction programme involving over \$346,000,000, including the building of a score of training camps, with the largest naval training station in the world at Great Lakes, Ill., with a capacity of 50,000 men; fleet operating base at Hampton Roads, Va., a vast projectile and armor plant at Charleston, W. Va., the largest of mine-loading stations at Yorktown; dry docks at Norfolk, Philadelphia, Pearl Harbor and other points.

There is a new girl working in the millinery store at Tickell now, and Slim Pickens, as an excuse to get to talk to her the other day, went in and told her he had made a mistake as he thought he was entering the feed store.

The unexpected has again happened to Raz Barlow. Just as he was on the brink of buying another collar, they found his at the laundry.

Fletcher Henstep went down to his pond the other night to listen to the frogs a while, and was aiming to brag to them, but they were so bashful they all stopped when they saw him coming.

Pop came home today and hung up his hat, saying to me, I don't know how it is, but I feel like some French peez today?

You don't look like them, hee hee, how that for a look? sed ma. Awfill, sed pop, do you happen in any strange and mysterious coincidents to have French peez for supper?

No, Benny can run errand and get a can, sed ma. Me thinking, Heck, a errand. Thinking rite, ma saying, Benny, run er-round to the grocery store and see if you can get a can of French peez.

Well for Peets sake, that fello must of had this on his shelf for years, there hasn't bin a tin can imported from Germigny sints before the war, take it back again, sed pop. Me thinking, Aw Heck, gosh, darn the luck, another errand.

WOODROW WILSON IS REAL FAN; SLIPS INTO PARK AND SEES GAME

WASHINGTON, May 17.—Statecraft and baseball go together! When Woodrow Wilson was President he used to attend American league games here regularly. He slipped in to the American league park the other day to see a game and stayed until the last man was out in the ninth inning.

President Harding is also a frequent attendant at games. If Washington's pitching staff rounds a and the heavy hitting National thereby get some boy aid in the flag chase President Harding is likely to become a regular attendant.

SPANISH DEPUTY FEARS U. S. RULE OF AMERICAS MADRID, May 17.—Deputy Augusto Barclay Trelles, writing in La Libertad today makes complaint against actions of the United States in connection with South and Central America.

DOG HILL PARAGRAPHS

There is a new girl working in the millinery store at Tickell now, and Slim Pickens, as an excuse to get to talk to her the other day, went in and told her he had made a mistake as he thought he was entering the feed store.

The unexpected has again happened to Raz Barlow. Just as he was on the brink of buying another collar, they found his at the laundry.

Fletcher Henstep went down to his pond the other night to listen to the frogs a while, and was aiming to brag to them, but they were so bashful they all stopped when they saw him coming.

MANY FRENCH BRIDES GOING BACK TO FRANCE

Their Passports State They Are Going Home "For a Visit."

By Associated Press.
CHICAGO, May 16.—Many French brides of American soldiers are taking wing back to sunny France, according to the April records of the local passport office.

"Presumably they are going back to visit," said Thomas Sells, deputy clerk of the U. S. court in charge of passports here. "At least that is the reason most frequently assigned on applications."

Swedish girls, too, are making the pilgrimage to the land of their birth. In fact, the number of women of all nationalities now applying at Chicago for return to Europe decidedly exceeds that of men. American school teachers are also swelling the flow to foreign shores.

The hegira to Sweden, thinks Mr. Sells, is largely traceable to the handsome wages paid domestics during 1920, which gave them funds for the trip.

Many to Germany.
But by far the largest number of passports now being issued here have Germany as destination, Mr. Sells said. "Since we are still technically at war with Germany however," he pointed out, "passports cannot be issued to Germany from this office. Invariably, though, the applicants for German passports come to us first, and in this way we know approximately the number of people going there. We send them, of course, to the local Swiss consul, who has charge of German affairs, pending the declaration of peace; he issues the passports without further formality."

The flow toward Germany is largely women, who are returning to visit relatives or seek them in case they have not been heard from. Very few men are returning—practically none on business missions.

Passports to Poland are being issued only in cases of extreme necessity, and no passports whatever are being issued for soviet Russia.

The daily grist at the Chicago passport office averages now sixty-five against twenty-five last January. This office is the second largest dispenser of passports in the country, Mr. Sells said.

FRENCH GENERAL SAYS AMERICANS ARE BRAVE BUT VERY IMPRUDENT

By United Press.
DUSSELDORF, Germany, May 17.—General Gaucher, who commands the French and British forces of occupation in Dusseldorf, has a warm spot in his heart for the American army. By the medium of this dispatch he wants to be cordially remembered to General Cameron, to General

Flanders War Orphans Make Poppies for American-Franco Children's League

Some of the children who made the poppies with which the American and French hero dead will be honored on Memorial Day.

On a day early this spring the ruins of an old chapel in Flanders buzzed with the hum of unusual activity. Children, some frail and rather worn and women whose faces were lined and whose shoulders were bent, came from cellars and impoverished dwellings and gathered at a broken stairway leading to a chapel vestibule.

Then came a nun, who held up a hand that hushed them into silence, and said: "My children, the privilege of helping France has come to us in our weakness and our poverty. We are to have the honor of making the flower that will be worn in both America and France in memory of the beloved ones who gave their lives while fighting on our soil." She told them of the "Wear a Poppy" movement, which had met

with general approval, and of the adoption by patriotic societies of both nations of the red poppy of Flanders Fields as the tribute flower to be worn on Memorial Day. The women and children set to work. Since then millions of replicas in silk of the Flanders poppy have been made and shipped to America. They will be worn on Memorial Day, and the proceeds from their sale will go to the American-Franco Children's League, an organization of men and women prominent in the philanthropic work of both nations, to be used in relief work among the children in the war torn areas of France. The movement has been endorsed by the National Information Bureau, in this country, and by President Millerand, of France.

Menoher, to General Johnson and to General MacArthur.

It was under Gaucher that the famous American 42nd, or Rainbow division received its baptism of fire. Gaucher's eyes light up when he speaks of the Rainbow lads, and particularly when he mentions that fine young soldier, "the MacArthur," a general who was oftentimes ahead of his own first line infantry in an advance.

Then he was in command over Cameron of the 4th division in the famous counter-attack of July 18, 1918. He tells with relish of how he and Cameron shared the same "P. C." during that operation and controlled the development of their share of it. Later the general was shifted to Belgium, and there had under him the 91st or Pine Tree division of the Yanks, hailing from the Pacific coast and mountain states in general, but from "Powder River" in particular.

"Your men are brave," says General Gaucher, "but sometimes too brave, and a bit imprudent. I remember once they went into a town without arranging for their water supply—coats off, fighting in their shirt-sleeves—and took the place in short order. But like all Americans, they had been eating too much sugar, either in their coffee or elsewhere, and they got thirsty. So they abandoned the town and fell back to get water and supplies.

"That doesn't matter, general,"

they told me when I remonstrated. 'Now that we've had our water, we'll go back and take it all over again!' "Yes, but my children," I told them, 'you may take it back again, but in that way you'll have a big cemetery. And that is worth thinking of!'"

JAPS DENY THEY PUT BIG GUNS ON MINDANAO

By Associated Press.

MANILA, P. I., May 18.—Official denial has just been made of many recent reports that Japanese had landed fourteen high-powered guns at Davao, Island of Mindanao. The provincial commander of the Philippine constabulary, after an investigation, reporting to Brigadier General Rafael Crame, chief of the Philippine constabulary said:

"With reference to the fourteen large cannon reported to have been found in the interior of Davao, I have found none, except a few old obsolete lantakas (Moro brass cannon) of large calibre now being used as park decorations. Some of these were found by Spaniards in the hands of the Moros in 1848 when Davao was conquered. Others were brought to the place afterwards."

QUIRKY PLAY AND HEAVY MAULING FEATURE NITRO WIN FROM SCOUTS

Play New to Baseball Comes Up When Lyall Steals Home in Seventh.

Fans at Nitro park yesterday got an eye full in many ways. They saw a play new to baseball when Lyall stole home with two out, the bases full and three-two on the batter. Perhaps that has happened before, but it is doubtful if the events surrounding the play have been ruled on.

They saw of Jawn King, who busted 'em in this league last year, back from Galveston.

They saw a fly moved into shortstop and make a fair to midding stab at the job.

They saw Lefty Adkins pound two over the fence at just the time those things should be done.

They saw Singleton hit a homer inside the park, which is evidence that the kinks are coming out of the aged warrior's legs, for Johnny has been getting only three bases on knocks of the same length.

They saw Lefty Adkins' kid brother go out on the mound and for three innings stop the Scouts dead in their tracks.

They saw a lot of baseball which was funny because the Nitros were in the lead.

And perhaps most important of all, they saw the Nitros by force applied through the willow, win the game which maintained the triple tie for the lead. The final score was 11 to 6.

The score:

Cisco	AB. R. H. P. O. A. E.	
Flagg, ss	1 0 3 0 0 0	
Westfall, c	2 0 0 4 1 0

Summary—Two-base hits, Clapp, King; home runs, Adkins 2, Singleton; sacrifice hits, Murphy, Lyall; stolen bases, Bratcher, Beard; Earnshaw, Lyall, Clapp 2, Allen; innings pitched, by Boyer 0 (none out in first), hits 0; F. Adkins 4 (none out in fifth), hits 4; by Billings 4, hits 8; struck out, by Adkins 3, by Billings 3, by Cruise 3, off Adkins 2, off Carter 2, off Billings 2; hit by pitcher, by Boyer 2; double plays, Cruise to Beard to Brooks; left on bases, Cisco 12, Ranger 5; time of game, 2:30. Umpire, Fillman.

Nitro Notes

The freak play occurred in the seventh inning when Bratcher headed for home on the decisive pitch, the ball struck him as he crossed the plate and bounded over toward the Cisco bench. Phillipot also scored. Billings thought the ball remained in play and both counted. Allen thought it was either a dead ball or the runner was out for interfering with a pitched ball. He reasoned that it could not be called a ball or strike because it had not passed the plate. Fillman, at all appearances, split the difference. He called it a ball, walking Westfall, and sent Phillipot back to third. That happened after a lengthy wrangle, during which Sled looked like the maddest man in the world as Johnny King enjoyed himself immensely. The Sporting News and Empire Evans of the American league have been written to see what ruling should be made.

Through the ineffective hurling of Smoke Boyer, the Nitros were mauled around in the first inning. Smoke walked Flagg and King. Then he let Bratcher's bunt filter through his fingers, filling the bases. It took about an hour for him to walk Beard, forcing in a run, as Sled had set young Adkins to warming up directly after the second walk, and he gave him all the time the rules would permit. That third walk finished Boyer's day almost before it had begun, and the youngster in his first entry into league circles faced the toughest proposition a pitcher can have—three on and none out. Adkins is a right-hander, with considerable leaning toward the spitball. His moistened slants were too much for Earnshaw, and the skies brightened. But Lyall drove a long fly to Singleton and another run crossed the pan. Then Phillipot hit a high fly straight down the right field line. York cut under it after a long run, but sat down in making the catch. It went for a hit, scoring the third run.

Made Crowd Happy. Three to the bad, the Nitros came to the bat, and errors by Brooks and Earnshaw, plus Teet Tolar's safety, scored two runs. Adkins' first homer came in the third, with Murphy on. It put the Nitros in the lead and netted Lefty a little over \$16. From there on out the crowd was happy, for in the fourth, three walk-ons, climaxing in Singleton's liner to the left field fence, drove home three more runs, putting the Nitros away to the good. It was too much for Josh Billings, so he jerked himself and put Cruise in. Cruise fared some better, but his support had been weakened when Flagg had gotten the "rungs down" sign from Umpire Fillman while at bat in the fourth. It was the second time the Scout shortstop had gotten the gate in two days. Lyall, who succeeded him, allowed two runs by errors, in the fifth and errors donated the eleventh run in the seventh after Lefty's second knock had cleared the fence.

Johnny King led off Cisco's fifth with a double down the right field line. Bratcher was safe at first when Adkins Jr. forgot to cover first on a rap to York, and Beard's clean drive scored King. That finished the day's work of Ranger's newest hurler. The Nitros were only three runs ahead, and no chances were taken. Nick Carter went in and held the Scouts except in the seventh, when errors by Allen and York after Brooks had struck out gave them one run and the chance for the steal of home which netted them another.

SIPE SPRINGS TAKES RISING STAR INTO CAMP EIGHT TO FOUR

Special to the Times.

RISING STAR, Texas, May 18.—A game between the Sipe Springs Gasers and the Rising Star ball team was staged in Sipe Springs last Sunday, to the score of 8 to 4, in favor of the visitors. Jones, a new man on third base, showed to good advantage for Rising Star. The former third baseman, D. L. Beatty, local manager of the Atlas Supply company, has resigned from that position because it is soon to leave Rising Star, or to be away a large part of the time. He umpired the game at Sipe Springs, and after it was over staged a little fight with a disgruntled spectator, who insisted upon "beefing" at a decision, and finally charged Beatty with being afraid to fight, whereupon the umpire proved himself a court of appeals equal to the task of sustaining his decision.

Ed Bucy, the manager of the Rising Star team, is very popular with the players and puts much pep into their work. A great many cars from Rising Star carried visitors to the game at Sipe Springs. Local enthusiasm for the ball team is increasing with each game they play.

HARDING TAKES ORDER. WASHINGTON, May 18.—President Harding was initiated into another Masonic order today, a special committee from Gallipolis, Grotti No. 15 of Washington administering the initiation ritual of the Mystic Order of Veiled Prophets in the executive office.

BRONCHOS AGAIN MAKE DOORMATS OF RESORTERS

MINERAL WELLS, May 18.—San Angelo won the third straight of the series today, 4 to 2. Both clubs played errorless ball. The locals were unable to hit Treadway. Brown of San Angelo robbed Briscoe of a probable base hit in the sixth when he caught the ball on the center field fence. Higginbotham was chased from the park by the umpire in the sixth.

FIVE WATCHES ARE 'FROZEN' TO TIME SPRINTER

Much Pains Taken to Make Official Record of Charles Paddock's Speed.

By Associated Press.

LOS ANGELES, May 17.—Five watches, "frozen" at the fifth second mark, which denotes the time made by young Charles Paddock when, on March 26, he finished 220 yards at a Berkeley race in the world's record time of 20-4-5 seconds, are part of the testimony which will be considered by officers of the A. A. U. in adjudging Paddock's record as official, according to Robert S. Weaver, of Los Angeles, president of the A. A. U.

The watches, with supplemental evidence substantiating the time, are in the hands of Frederick W. Rubiens, secretary of the A. A. U., at 144 Broadway, N. Y., who, in a telegram to the twenty-year old Californian, a student at the University of Southern California in Los Angeles, informally announced recently that he "saw no reason why the Berkeley meet record should not stand."

This is the first time since 1912 that the A. A. U. has had to consider allowing a new world's record in the 220-yard event, it is said, and before granting recognition of a record the necessary steps are many.

Judges Must Swear.

Following a race, the judges swear to affidavits stating all conditions were fair and equal, the timers make signed statements giving the time involved and the watches are checked at the points marked by the timers. These then are sent to the secretary of the A. A. U. in New York, together with all the affidavits, including one from the starter and a special engineer who swears the track was level, the distance exact and physical conditions as required.

Received in New York, these are considered by the secretary who makes recommendations and refers the matter to a special committee. After a few months, if favorable consideration results, the record is "allowed."

If Paddock's record stands, it will officially supersede the three former records of 21-15 seconds made respectively by Bary Wefers in 1897, Ralph Craig in 1910 and E. J. Lippincott in 1912.

RHINE ARMY BOXING CHAMPS SELECTED

By Associated Press.

COBLENZ, May 17.—The boxing championships of the American army of occupation for 1921, have been concluded and no section of the United States was slighted by not being represented, except perhaps the south.

Philadelphia has an edge on any other city, the champions of two categories calling it their homes. Quinlan of San Francisco, is the fly-weight champion; Myers, bantam-weight, Pittsburg; Higgins, featherweight, Davenport, Ill.; Murray, lightweight, Philadelphia; Sonders, welter-weight, Philadelphia; Gilstrap, middle-weight, Seattle; Staab, light heavy-weight, Spokane; Schaffer, heavy-weight, New Jersey.

F. K. LANE, ONCE SEC. OF INTERIOR, IS DEAD AT 57

(Continued from Page One)

reputation of being a progressive. His decisions in the railway cases were said to have been almost invariably pleasing to men of advanced ideas. He favored for years a national corporation commission similar to the Interstate Commerce commission with power to regulate all business enterprises engaged in interstate commerce as the most effective remedy for trust evils. He also advocated a commission form of government for Alaska. He was elected a member of the permanent International Railway commission, organized in 1910 at the International Railway congress in Berne, Switzerland.

Headed Delegation. In 1916 Mr. Lane headed the American delegates at a joint conference with high commissioners from Mexico, as a result of which a protocol was signed at Atlantic City and United States troops were withdrawn from that country.

When the United States entered the war in 1917, Secretary Lane in a number of public speeches outlined the country's purposes and urged business men to show "sacrifices as worthy as those of the men on their way to the trenches." In numerous addresses in behalf of the Liberty loans, he declared the defeat of the United States was "unthinkable" and that the government was determined to see the war fought to a finish. When peace came he devised plans for the employment of returning troops, urged Congress to federalize the Americanization of the foreign-born, aided in the reconstruction of France and other war-torn nations and advocated immediate passage of a bill to give farms to soldiers. He was also active in the Council for National Defense and the American Red Cross.

Secretary Lane was a keen supporter of the League of Nations covenant and advocated ratification of the peace treaty of Versailles.

In the summer of 1919 Secretary

Lane recommended to the President the calling of a conference of representatives of American capital, labor and industry to discuss economic problems. The National Industrial conference, of which Mr. Lane was made chairman, was the result. As chairman of the Railroad Wage commission in 1918 he helped to settle a number of strikes and avert threatened walkouts.

Mr. Lane married in 1893 Miss Anne Wintermute of Tacoma, Wash. Two children were born to them, Mrs. Nancy Lane Kauffman of Washington and Lieutenant Franklin K. Lane Jr., U. S. A., of Los Angeles, Cal.

Suicides in the United States during 1920 numbered 6,171, including 707 children.

CARPENTIER, BROKE AFTER WAR, IS RICH

By Associated Press.

PARIS, May 18.—Georges Carpentier, who emerged from the war ruined and practically penniless, is now reported to be worth more than 3,000,000 francs, or a little over \$200,000 in real money, all of which he has made since his fight with Joe Beckett.

All his property in Lievin, just outside of Lens, was destroyed during the war and while mobilized he spent what savings he had to keep his mother and family, even getting into some debts, which his share of the purse for his fight with Dick Smith in June, 1919, just evened up. Carpentier has been touring Belgium, Holland, Denmark, Sweden, Norway, Switzerland, Northern Africa and Spain and, under the keen business management of Descamps, has been raking in the paper francs. Descamps is working with Carpentier on a 40 per cent agreement.

In the summer of 1919 Secretary

AMERICAN HOSTESS HOUSE TO BE OPENED IN LAON, FRANCE

By Associated Press.

LAON, France, May 18.—An American hostess house for the convenience of Americans planning to tour the battlefields of the Aisne and the Somme will be opened here in May by the American committee for devastated France. For fifty-two months the mansion it will occupy was the headquarters for the German command and it has now been remodeled for the American traveler.

From the hostess house special motor trips under the direction of American girl chauffeurs will be arranged to the centers of the American committee at Soissons, Blercourt, Aisne, Vie and Coucy.

The hostess house is near the Chemin des Dames region which saw some of the hottest fighting of the war. It is on the route to the battlefields where Americans of the First, Second and Third armies fought under General Mangin.

SWATTERS WIN TIGHT BATTLE WITH EAGLES

Special to the Times.

ABILENE, Texas, May 18.—Fleaharty slowballed the Eagles to a 2 to 1 defeat here Tuesday. The locals could not hit his slow curves for anything but long flies. The visitors, on the other hand, got to Cronson for 9 safeties and fielded faultlessly.

The Swatters scored first in the fifth when Milam muffed Whitney's clean single and Byers came in from second, and again in the sixth when Mason doubled with Thrash on second. The Eagles gained their lone tally on Whitehead's double up against the fence. There were many fielding features.

FRENCH HERO DYING OF PUZZLING AILMENT

By Associated Press.

GENEVA, May 18.—Emile Froidevaux, hero of the French Foreign Legion, is dying of an ailment that has puzzled specialists for two years. Little by little his legs and parts of both arms have been amputated in a series of thirty-three operations that have not stopped the spread of the malady.

He is soon to be moved from a hospital to his home, where, it is hoped, he may receive in ceremony before he dies, the Croix de Guerre awarded him by the French government.

You'll enjoy the sport of rolling 'em with P. A.!

FIRST thing you do next — go get some makin' papers and some Prince Albert tobacco and puff away on a home made cigarette that will hit on all your smoke cylinders!

No use sitting-by and saying maybe you'll cash this hunch tomorrow. Do it while the going's good, for man-o-man, you can't figure out what you're passing by! Such flavor, such coolness, such more-ish-ness—well, the only way to get the words emphatic enough is to go to it and know yourself!

And, besides Prince Albert's delightful flavor, there's its freedom from bite and parch which is cut out by our exclusive patented process! Certainly—you smoke P. A. from sun up till you slip between the sheets without a comeback.

Prince Albert is the tobacco that revolutionized pipe smoking. If you never could smoke a pipe — forget it! You can—AND YOU WILL—if you use Prince Albert for packing! It's a smoke revelation in a jimmy pipe or a cigarette!

21-LEGAL NOTICE

NOTICE of first meeting of creditors, in the district court of the United States for the northern district of Texas, in Bankruptcy, Abilene, Texas.

In the matter of Barney Bronstein, doing business as Select Shoe, bankrupt. No. 762 in bankruptcy. Abilene, Texas, May 17, 1921. OFFICE OF REFEREE. To the creditors of Barney Bronstein, of Ranger, in the county of Eastland, and district aforesaid, a bankrupt: Notice is hereby given that on the 16th day of May, A. D., 1921, the said Barney Bronstein, was duly adjudged bankrupt, and that the first meeting of his creditors will be held at my office in the city of Abilene, Taylor county, Texas, on the 27th day of May, A. D., 1921, at 10 o'clock in the forenoon, at which time the said creditors may attend, prove their claims, appoint a trustee, examine the bankrupt and transact such other business as may properly come before said meeting. D. M. OLDHAM, Referee in Bankruptcy.

SHIPMENTS OF MEXICAN OIL DECREASING

WASHINGTON, May 17.-During March a total of 15,544,178 barrels of petroleum were shipped by the three terminals of the Tampico Consular district, Tampico, Port Lobos and Tuxpam, according to a report by the Vice consul at Tampico, Jack D. Hickerson. This represents a decrease of 607,294 barrels from February shipments and 3,065,420 barrels from the record exports of January 1921.

The shipments from Tampico showed an increase of 121,758 barrels over the February exports, the total reaching 9,104,158 barrels. The shipments from Port Lobos and Tuxpam declined 585,000 and 144,052 barrels respectively. In the division of the shipments the United States, Mexico (coastwise shipments), Cuba, Chile, Canada, England, and Argentina led in the order named. Of the total net shipments (exclusive of bunker oil used as fuel by transporting vessel) of 15,101,424 barrels, the United States received 11,095,090 barrels or 73.4 per cent of the total. Coastwise shipments to Mexican Gulf ports reached 1,190,545 barrels, considerably more than has ever been the case before.

The Gulf coast received the greatest part of the shipments to the United States, totaling 5,545,955 barrels, as against 5,318,103 barrels to the Atlantic coast ports, 207,864 to the Pacific ports and 114,168 to the possessions of the United States.

HIJACKER'S VICTIM IN BRECKENRIDGE HAS SMALL CHANCE TO LIVE

BRECKENRIDGE, May 18.-Ernest Gary, Prairie Pipe Line engineer, who was shot and probably fatally wounded Saturday night, has identified a suspect as the hijacker who shot him, officers here announce, but because of his semi-delirious condition, it was ruled that the identification cannot be accepted as positive. Two other suspects were dismissed. Gary was shot in the stomach because he did not get his hands up quickly enough. He is in a local hospital and doctors say there is small chance for his recovery.

SPAIN NEGOTIATES BUSINESS ARRANGEMENT WITH BRITAIN

MADRID, May 18.-El Sol reports the government is negotiating a commercial arrangement with Great Britain based on the existing customs tariff. The newspaper says such an arrangement might be extremely prejudicial to Spanish industry, which, it argues, is suffering immense injury through delay in completing a new customs tariff.

MRS. NANCY WESTCOTT, of Syracuse, N. Y., who declares Tanlac is the greatest medicine on earth. Says it built her up to where she is just brimful of new life and energy.

THEFT OF AUTOMOBILE TIRES FROM RANGER COMPANY IS CHARGE

Charged with theft in connection with automobile tire losses from the warehouse of the Oilbelt Motor company, G. B. Hinkle has been placed under arrest at Lawton, Okla. He has waived requisition, according to Justice of the Peace Fenlow, who issued the complaint. Deputy Sheriff W. H. Edmondson is on his way to Lawton and will return Hinkle to Ranger.

Tires to an amount of \$3,000 have been stolen from the cars of the motor company which are stored in its warehouse, it is said. According to officers several men were implicated in the steal. Hinkle was a former employe of an automobile service station here. A man has been located who bought two tires known to have been stolen from cars stored in the Oilbelt company's warehouse.

LIBRARY DRIVE IS MAKING HEADWAY

No figures were available on the library drive at noon Wednesday, but it was estimated that \$500 had been realized at that hour. This estimate is made from the work of one committee who stated that much success had rewarded their efforts.

Team captains and committees putting on the drive are J. M. White, Mrs. C. D. Woods and Mrs. Hagaman on Rusk street; A. Joseph, Jells F. Castellaw, Mrs. John Gholson and Mrs. Fred Drienhofer, Main street; T. E. Henshaw, Mrs. Taggart, and Mrs. Stockman, Austin street; D. Joseph and Mrs. Mills Davenport, Marston street.

Only the business section is being covered in the work Wednesday. The residence section has already been worked by the members of the 1920 club and others.

The funds secured will be used to open the library and a rest room in the lower floor of the Marston building.

Before painting wood it should be rubbed all over with sandpaper in order to procure a smooth surface.

In Luxembourg there is a penalty for those who do not record their votes at elections.

MRS. NANCY WESTCOTT, of Syracuse, N. Y., who declares Tanlac is the greatest medicine on earth. Says it built her up to where she is just brimful of new life and energy.

"I just think Tanlac is the greatest medicine on earth and I can never praise it enough for what it's done for me.

"For two years I was in a badly run-down condition. I had no appetite, and after every meal I would be in awful distress from indigestion and bloating. My nerves were on edge, and I could never get a good night's sleep. I felt tired and worn out all the time, was losing weight, and many times I was so weak I couldn't look after my household. I just felt miserable.

"Tanlac helped one of my friends so much that I began taking it and it has certainly built me into splendid health. My appetite is so big I can hardly get enough to eat now, and I am never troubled a particle with bloating or indigestion. My nerves are as steady as clockwork, and I sleep like a child at night. I have recovered my strength and am just brimful of new life and energy. In fact, I feel better than I have in years. My gratitude towards Tanlac is unbounded."

The above statement was recently made by Mrs. Nancy Westcott, 121 Market St., Syracuse, N. Y. Tanlac is sold in Ranger by Phillips Bros., in Eastland by Butler Drug Co. (Adv)

GREEK MET GREEK BUT THEY OPENED WARFARE AND NOT RESTAURANT

After a dispute on Main street yesterday in which a pistol played a part, Pete Gavatos and Peter Paul were placed under arrest. Paul pleaded guilty to a charge of disturbing the peace while Gavatos made an appearance bond under a charge of rudely displaying a deadly weapon. His case has been set for trial May 19 in police court.

After a dispute with Paul, Gavatos is said to have entered a shop and returned with the pistol. The arrest followed.

REP. OLDFIELD OPPOSES TAX ON PETROLEUM

Arkansas Tells Congress Would Only Help Exhaust American Industries.

By BASCOM N. TIMMONS
Times Washington Correspondent.
WASHINGTON, May 17.—The proposal of a group of Oklahoma oil men who appeared before the House Ways and Means Committee and urged a tariff of \$1.50 a barrel on importation of petroleum was given vigorous treatment in a statement issued today by Representative William A. Oldfield of Arkansas, Democratic member of the Ways and Means Committee.

While recognizing the present plight of the petroleum industry, Oldfield declared its condition was little different from other industries that are going through a period of depression.

He declared that this is not the time to accelerate the exhaustion of American resources by preventing foreign shipments and that America should regard the Mexican oil fields on our border as a blessing and not a pestilence. His statement follows:

Napoleon's Motto.

"Napoleon said on the morning of the battle of Austerlitz, 'when you see the enemy committing a blunder do not disturb him.' This is a wise maxim in war. Perhaps it is a shrewd maxim in politics for those who place their party above their country. If I should consult political consideration alone, I would rejoice to see the present congress adopt the proposed tariff of \$1.50 a barrel on petroleum with a compensatory duty of ten or twelve cents a gallon on gasoline. I have no doubt that such a tariff would be unpopular and would hurt the party in power. But I am convinced that it would hurt the entire country.

"A tariff on gasoline is a tax on automobiles. It would lay a new burden on each of the 8,000,000 automobile owners in the country. Automobiles are no longer a luxury. They have become a necessity. Is this the time to impose new burdens on necessities?" Oldfield declared such a tariff would also place a burden on each of the 400,000 farm tractors and 2,500,000 stationary engines. Since American farmers are resorting more and more to the use of machinery to speed up production, a tariff on gasoline would increase the cost of that production, Oldfield said. "Is this the time to increase the cost of production on the farm?" he said.

"A tariff on gasoline is a tax on the source of industrial power" declared the Arkansas. "Such a tax is indefensible. It inserts itself into the cost sheet of every factory. It increases the cost of production in every manufacturing plant in the country. This tax is intended either to increase or keep up the price of gasoline. This would increase the price of all other fuels. Whatever increases or sustains the price of one commodity tends to increase the price of its substitutes. Is this the time to increase the price of manufactured articles?"

Taking up the question from the standpoint of natural resources, Oldfield asserted that petroleum is both definitely limited and rapidly diminishing. He pointed out that during

MME. CURIE, FOREMOST SCIENTIST, HERE TO ACCEPT GIFT OF RADIIUM

Mme. Marie S. Curie & daughters Irene & Eve

Mme. Marie S. Curie, the greatest woman scientist the world has ever produced and one of the greatest scientists of the age, has arrived in New York. Mme. Curie, discoverer of radium, is here to receive from the hands of President Harding a gram of radium purchased with \$100,000 supplied by Americans through a fund raised by women of this country who admired her work. The significance of the gift is better appreciated when it is known that there is but five ounces, or 141 grams, of radium in the world. Mme. Curie is accompanied by her two daughters, Irene, 23, and Eve, whom all France knows as "Petite" 16. The mother and her two daughters were escorted here by Mrs. William Brown Meloney of New York, chairman of the Marie Curie Radium fund.

The year 1920 production of crude oil in this country exceeded 1,000,000 barrels a day, while consumption approximated 1,500,000 barrels a day, making heavy inroads on supplies in stock. "Shall we speed the day of exhaustion by imposing a tariff on imported petroleum?" he asked.

"While we import considerable quantities of crude oil we export large quantities of gasoline," he said. Last year we exported 65,000,000 barrels of refined oils. Mexican oil is of a comparatively low grade but the Mexican field is one of the most productive in the world.

The Mexico Fields.
"It is situated on our border. We ought to regard it as a blessing, not a curse. Shall we quarantine against this blessing? Shall we treat it as an economic pestilence? What American would like to see this oil field transported to Great Britain, France or Italy? What would those nations give for such a fountain of fuel within their limits or on their borders? Yet we are urged to treat the Mexican

oil field as a calamity rather than a benediction."
Oldfield said that the oil business today is one of the largest industries in America, which produces 65 per cent of the world's output. Much of this exceptional growth, he said, has occurred during the last ten years, during which time both petroleum and gasoline have entered the United States duty free.

"If it did not need petroleum in its infancy does it need petroleum when it has grown to be a giant of industry?" he asked. "This unexampled progress has been due to the enterprise of the men who have devoted their talents and capital to the business and not to governmental favors.

Depletion Clause.
"If the business has enjoyed such favors, they are to be found in the depletion clause, in the 20 per cent tax limitation on the profits of sales, and in the immunity of gasoline from taxation—forced into the present law by the Senate over the protest of the House.
"Would the industry be willing to

exchange these privileges and immunities in the existing law for tariff protection in the forthcoming law? The threat recently made that if congress did not vouchsafe tariff protection, the oil men would incite the Mexican government to impose heavier duties on exported oil, would better become a veritable than a great national industry.
"The truth is, the oil business is but sharing the depression common to all other industries. It has not suffered more than agriculture, which is unprotected. It has not suffered more than manufacturing which is unprotected. Its plight is, of course, to be regretted but it is not to be remedied by short-sighted fiscal policies nor by the imposition of extraordinary burdens upon the farm and factory or upon the entire industrial life of the nation."

EVANGELIST SAYS CHRISTIAN INFLUENCE FLAVORS CIVILIZATION

At the Church of Christ Tuesday, Evangelist Wallace addressed the audience on "Ye Are the Salt of the Earth," an expression from Christ in the "sermon on the mount." He pointed out the fact that Christian influence gives to civilization its flavor. Tuesday evening the subject was, "The Opening of the Kingdom of God to the Gentiles." In this it was clearly shown when the Gentile people were first recipients of God's law. The subject tonight is, "Our Debt to Grace." Service begins at 8 o'clock.
