CRUZ, MEXICO, IS SWEPT BY STORM

NO LIVES LOST, HIT BY FLOODS

New Orleans Receives Two Messages Over Cable From that Area

By United Press.

Vera Cruz, Mexico, has been struck by a hurricane and the usual tidal flows whose destructive powers have not yet been defined in the incomplete reports received today and last night by wire and word of mouth from the storm stricken area.

Whether any loss of life has resulted from the flow which began at 9 o'clock yesterday morning and reached its climax at 11 o'clock had

First Messages

office would have been exposed to the full sport of the storm, and that in as much as the office apparently

ton reported that the message from Vera Cruz said there had been little, if any, loss of life, and property damage had been estimated at \$2,-

No American was injured.

Reports Indicate

TUSCON, Ariz., Sept. 29.— Hundred Ariz. Sept. 29.— Hundred British and Ariz. Sept. 29 stroyed and small streams were on a rampage, causing suspension of railroad and highway traffic in an area of more than 400 square miles, following violent wind and rain storms. Telephone and telegraph communications have suffered.

Northern Mexico, the central west coast, Southern Arizona, and Western New Mexico, comprise the area affected.

Ninety are homeless in Tuscon and in the community south of here.

How I make good pies every time

For a medium size pie I use 21/2 cups flour, 34 cup Crisco, 1 teaspoon salt. To measure 34 of a cup of Crisco I take a measuring cup, put in 1/4 cup of cold water, then add enough Crisco to bring the water to the top of the cup, pour it off and I have an exact 3/4 cup of Crisco. Then I cut the Crisco into the flour with two knives, criss-cross fashion. (If I used my fingers the heat from them would soften the Crisco and blend it with the flour too closely to make a flaky crust.) As the Crisco is cut into small particles each one becomes covered with flour, and when enough cold water is added (4 to 6 tablespoons) the dough will then be composed of these small particles, which when rolled become layers of flour and Crisco. Then if baking is started in a very hot oven to set mixture before the Crisco has time to melt, the result will be a tender, flaky pastry.

Chocolate Meringue Pie

Make the pastry with Crisco and your pie shell will slip off the outside of the plate into the inside without breaking, and be tender

Cover an inverted pie plate with pastry; turn back the edges to make it firm. Prick well with a fork to prevent bubbles. Bake in a hot oven (450° F.) about 15 minutes. Then fill with Chocolate Cream made as follows:

2 squares from ½ lb. cake of chocolate 4 cup sugar 14 cup corn starch, 2 cups milk 3 egg yolks 34 cup sugar 1 tablespoon vanilla 1 teaspoon Crisco Melt chocolate in double boiler. Blend sugar, salt and corn starch. Add milk. Cook until thick, stirring constantly. Add beaten egg yolks, melted chocolate and Crisco. Continue cooking a minute or two. Pour into the baked shell, cover with meringue made by beating the 3 egg whites until stiff and dry, and add 6 tablespoons granulated sugar. Return to slow oven (300° F.) for 15 minutes or until brown. Serve when thoroughly cold. Makes one medium sized pie.

ALL MEASUREMENTS LEVEL Recipes tested and approved by Good Housekeeping Institute.

Be careful about water

Have the water cold and use only enough to make a paste which will easily clear the bowl and is soft enough so it will not break at the edges when rolled. It is easier to tell when you have just the right amount of water if you use your fingers to mix it. Now take half the dough, dust the board with flour, using as little as possible, and roll the pastry very lightly from the center outward, each motion of the rolling pin ending in the air, not on the board. It should be about an eighth of an inch thick. Fold it over one-half, lay over a Criscoed plate, fold back over the plate, smooth into shape with the fingers and trim the edges.

To prevent the filling from soaking into the bottom crust

Brush it over with melted Crisco, dust a little flour over that, then add the filling prepared according to the recipe you are using. Moisten the edge with water, then roll the other half of the dough, fold it over one-half, make slits with a knife in the center of the fold for steam to escape. Lay over the pie, with the fold in the center, turn back to cover it, press edges together with thumb and finger, trim, then press together again.

6340 Deep Dish Apple Pie (a pie without an undercrust)

Serve in dishes they are baked in. Or when they are baked, turn them upside down on plates, cover with sweetened whipped cream, sprinkle with chopped nuts and call them Apple Crow's Nest.

Prepare 3 cups of sliced apples, then mix in 1 cup of sugar, ½ teaspoon cinnamon. Divide into 4 or 5 individual baking dishes. Add \(\frac{1}{8}\) teaspoon salt to each. Dot with bits of Crisco. Cover with the pastry, making slits in the center for steam to escape. Bake in hot oven (450° F.) until pastry starts to brown. Then reduce heat to moderate (350° F.) until apples are done. (About one-half

An Astonishing Blindfold Test

SEE if this doesn't give you the greatest surprise of your whole cooking ex-

Put a little Crisco on the tip of one spoon. On the tip of another place a little of the fat you are now using; have someone blindfold you, and give you first one, then the other fat to taste.

Now, did you ever imagine there could be such a striking difference in the taste of raw cooking fats? Think what a difference Crisco's sweetness and freshness will make in your own cakes, pies, biscuits and fried foods.

Take a strip of plain cloth about three inches wide, wet it in cold water and put around the edge of the plate, letting one half lie on top of the edge of the pie crust and the other half just under the pie plate. Have the strip long enough so that the ends will lap over each other two or three inches. For very juicy fillings, make a little funnel of paper or take pieces of macaroni and stick into two or three of the slits you have made. The juices will bubble up into these and return to the pie as it cools.

To keep the juice in

When pie is partly cool remove cloth and

When juices run out they will burn on the bottom of the oven, causing a smudge which is likely to add a smoky taste to the pie and leaving the oven hard to clean.

Butterscotch Tartlets

Use Crisco in making the pastry for these tarts and the tender, flaky crust, blended with the delicious filling and fluffy meringue will fairly melt in your mouth.

Take bits of dough about the size of an egg. Roll; cover the bottom of inverted muffin pans which have been greased with Crisco. Prick well with a fork to prevent bubbles. Bake in a hot oven (450° F.) about 15 minutes. When baked, slip shells off, turn pan over and put in a muffin tin. Fill with the following Butterscotch filling:

the following Butterscotch filling:

1 cup brown sugar
3 tablespoons flour
2 egg yolks
1 teaspoon Crisco
Wix sugar, salt and flour. Add water. Cool until thick, stirring constantly. Just before removing from stove, stir in beaten egg. Add Crisco and vanilla. Cool slightly and fill the tatt shells. Cover with a meringue made by beating 2 egg whites stiff and dry; add 2 tablespoons granulated sugar; cover tarts, return to slow oven (300° F.) for 15 minutes or until brown. This amount will fill 12 tarts or until brown. This amount will fill 12 tarts

FUNERAL SERVICES HELD
FOR MRS. S. S. BARROW
Funeral services for Mrs. S. S Barrow 33, who died Tuesday near Parks Camp in Stephens county, were held this afternoon followed by the burial in Eastland cemetery.

Mrs. Barrow was formerly Miss Leona Duncan and lived in the Union community, southeast of Eastland.

College has started and many are taking steps toward learning the new fall dances.

Folks Don't Think Blotches are Pretty

You can't expect people to say you re "good-looking" as long as your appearance shows you are careless about keeping your skin free from blotches, pimples, rash, "breaking out" and eczema.

You may feel like you have no hope of getting rid of these things, but you should not give up because Black and White Ointment, and Skin Soap, are proving to thousands of people every day that they can depend on them to keep their skin clear, smooth and lovely.

Black and White Ointment and Skin Soap are nominally priced, in liberal packages. The 50c size Ointment contains three times as much as the 25c size. All dealers have both the Ointment and Soap. (Adv.)

STAMFORD, Sept. 29.—Numerous of this reading has been in trolley cars who going to and from his office.

chiefly in—whos going to pitcl?

Now that some of the life has been taken out of the ball, the battery strength of baseball teams has gained in importance and in the coming series when two slugging teams are to battle for the rich prize, the com-parative strength of the batteries is of vital importance.

cupying the spotlight.

Strawn at Eastland is slated to no little attention. The strength of Eastland's eleven may be better known following this encounter. Since Stephenville and Ranger have taken the Strawn eleven to defeat, it is considered that Eastland will come out in top place. This game will take place Friday.

The Ranger-Stephenville clash in the Yellow Jacket, nest, is of major importance. It is the first conference tilt for both teams. It will be played Saturday.

The week end program opens. Thursday morning at Breckenridge when Brownwood and Breckenridge battle as a feature of the Oil Belt fair. The Oil Belt fair game will be unusual, in that it will be played in the morning.

Thursday afternoon, Randolph college will play Weatherford college at Cisco.

What is Accomplished

Mrs. Chitwood With Gebhardt's Eagle Chili Powder

is easy of accomplishment By You

Ladies in attendance at this week's cooking school no doubt are marveling at the many ways Mrs. Chitwood is employing Eagle Chile Powder, the beautiful finishing touch she gives to salads with it and the delightful flavor it gives everything on which it is used.

Of course all have used Eagle Chili Powder for making home made Chili con Carne and other Mexican flavored dishes. But to many it is a revelation to find Mrs. Chitwood using this unique condiment in place of paprika, giving not only a more beautiful color and decoration to salads and other dishes, but adding a distinctive and pleasing flavor.

Be sure and get a copy of "Mexican Cookery for American Homes" and make careful notes of what Mrs. Chitwood has to say about Eagle Chili Powder. The combination of this unique cookbook and the splendid recipes of Mrs. Chitwood will enable you to secure unusually pleasing results in cookery.

Eagle Chili Powder is absolutely pure and wholesome. It is made from only selected genuine Ancho peppers that are grown especially for and under the direction of Gebhardt.

Squirrel Season Is Near at Hand, Ducks to Follow

Ducks to rollow

Now that the squirrel season is nearly here and with the duck season next in order, Ranger followers of the shooting art, are eyeing their equipment with longing glances. The squirrel season opens October 1 and squirrel season opens October 1 and closes December 31. The duck sea-son will open October 16, the same as

the quail.

The annual warning to hunters to secure hunting licenses has been sounded by officers. Licenses are not required of persons under 17, according to a new set of game laws 1926-27 issued by the United States department of agriculture and received in Ranger, Wednesday, by the Chamber of Commerce.

Ten squirrels a day is the bag limit, the rules provide. Fifteen is the limit on doves; 25, ducks; four

singing day at Cheney, and every-body is urged to attend. Mrs. J. F. Mosley and children of Ranger were visiting their old home

at Cheney Sunday. A good rain is neede for turnips

and fall planting.
Dr. Duffer of Ranger was in our community recently buying feed. Its very nice to have feed to sell, but

not so nice to have to haul it in.
Farmers should always be sellers
and not buyers of feed.
The thresher is to start to work
soon and then we will have peanuts and popcorn, potatoes and pumpking and a little pork to eat.

Mrs. Chitwood prefers the FRIGIDAIRE above all other refrigeration. There must be a mighty good reason for her preference, a woman of such prominence in the cooking and lecturing field. The reason is very simple. You can always retain an even temperature at any temperature you want.
