GERMANY THREATENED WITHIN -- WITHOUT

COUNTY AGENT WANTS FARMERS TO WRITE HIM

Wishes to Help Them With Their Crop Problems and Ready at All Times.

R. H. Bush, county agricultural agent, in Ranger Monday conferring with C. C. Patterson, secretary of the Ranger Chamber of Commerce, and others in Ranger, is optimistic over crop prospects. He said conditions pointed to a very favorable crop year. Spring has come late, according to Mr. Bush, because of the protracted dry weather, although low temperatures prevailed no later than usual. But the absence of moisture from the soil kept the seeds from sprouting and many farmers delayed their planting. But with the coming of the spring rains, delayed, but here at last, all planted life is flourishing and farmers everywhere in Eastland county, as elsewhere in Texas, are busy planting. The rain has been just enough to put the ground in splendid condition for seeding, and the rain that is yet due should bring the plants forward rapidly, so fast, according to Mr. Bush, that the farmers will have to work hard to keep the weeds down, for when crops grow apace, the weeds do, too. Mr. Bush said he wanted the farmers in the Ranger territory to know they could command his service at any time to help them solve their problems. They can communicate with him through the chamber of commerce at Ranger or the chamber of commerce at Eastland. He wants to hear from all of them, to learn how they are doing and what crop questions are on their mind. "If any are in difficulty over their lands or doubtful about seeds or kinds of crops suitable to their soil, I feel sure I can help them," said Mr. Bush. "I hope they will communicate with me."

"It's his way, judge," he declared. "I never sold a bottle of dat beer in my life. I jus gives it away—plain donates it. De boys pay their forty cents for the chili."

FISHERMAN ATTACHES WHISTLE TO HIS LINE

PORT ARTHUR, April 28.—While one blast on a ship's whistle may mean many numbers of things to others, it only means one fish on the line to Captain Keyes, fisherman and ocean going skipper. Captain Keyes has rigged up his fish lines so that when a fish swallows the hook and starts down towards Davy Jones' locker his ship's whistle blows. One end of the line is attached to the whistle valve. The captain sails the Balabutte between Port Arthur and St. Thomas. He says he likes his sistas but fishing interferes, so he had to improvise some kind of a fish line alarm clock.

Salary Allotment Insurance Comes

NEWARK, N. J., April 28.—Salary allotment insurance, the newest thing in life underwriting, is just now engaging the attention of 200,000 or more insurance agents operating in the United States. Several of the larger companies have adopted the idea, while others are watching its development with the keenest interest. In a short time, actuarial and sales experts predict, the new form will be hiding its place alongside of wholesale and group insurance and the other, and older, offspring of the parent companies, the simple ordinary, and industrial life insurance policies. Essentially the plan is but the voluntary application of the "check-off" system to the payment of life insurance premiums. Five or more employees of an office, store, plant, or other establishment or institution get together and agree to take out individual policies for sums ranging from one to ten thousand dollars. Then, with the co-operation of their employer, they arrange for the deduction of the premiums periodically from their pay, just as hospital and other dues are deducted in many instances in large commercial or industrial plants. Medical examinations are eliminated, usually, in cases where ten or more employees constitute a salary allotment insurance group, exceptions being the case in which applicants are more than 50 years of age, and those in which the number of applicants is less than ten, or in which applicants desire the amounts above the non-medical limits.

Merriman Girl Writes "Health Work" Essay, Her Subject, "A Healthy Girl"

Essays on "Health Work" to emphasize the importance of observing health day, May 1, have been turned in by many of the children in the Ranger schools. No prizes were offered, but each essay was judged on its merits and the best in several grades in the various schools in the Ranger school district will be published.

"A Healthy Girl" is the subject chosen by Ruby Nell Poe, aged 9, in 5-A grade at the Merriman school, awarded honorary mention at that school. She wrote:

"A healthy girl has rosy cheeks and lustrous hair, and sparkling eyes full of fun and mischief. "To be this, one must drink a glass of water when getting up, before each meal and before going to bed. She must keep her finger-nails clean, and her hair brushed and clean. She must take a bath every night, followed by frequent changes of underclothing. "This clean body must be properly nourished for food is the body builder.

"Though of course our health girl knows to select her food for food value, not to satisfy her sweet tooth. She eats vegetables and fruits and drinks plenty of wholesome milk. She is an enemy of cheap candies, too many sweets or any tea or coffee. "Our health girl plays, she fills her lungs with pure air. She wants to be graceful, so she takes plenty

of exercise each day. She opens the windows wide at night—more than this she thinks more of her health than she does of exciting parties and shows at night—so she seeks bed early.

"Our health girl knows that people admire a cheerful body, and that a bright smile goes a long way in winning friends, so she brushes her teeth regularly in order that when she smiles, a set of pretty teeth will be displayed.

"Our health girl just radiates buoyancy, cheer and good will".

In identifying themselves with the Christian church the members of the president's cabinet are supporting civilization as we know it in America.

They owe such identification as an example to the young people of the country.

The Christian religion is the only religion under which woman is honored, under which hospitals and schools flourish.

For selfish reasons, if for no other men and women who want to be good citizens, should support the church even when their lack of faith does not permit them to identify themselves personally with it.

PEOPLE WHO WERE ONCE GOOD LOOKING. A heart rendering and yet interesting thing happened in a downtown

store when a middle-aged lady got into a loud argument with a clerk. "I know what I want," she kept saying. "I have tried all those other things, but I know from what I saw it do for some friends of mine that it is Black and White Ointment which gets rid of these pimples and blotches."

I was just as pretty as any girl when I was young, but I got careless and now I am in the fix you see.

So many people are now insisting on Black and White Ointment, and Black and White Soap, to get rid of pimples, blotches, eczema, rash, tetter, ringworm, "breaking out," etc. because they see and hear of the thousands of others who now know they can depend on it.

And they are more economical, too. The 50c size Ointment contains three times as much as the liberal 25c size. All dealers have both the Ointment and Soap.—Advertisement.

Crooks From U. S. Invading Britain

By United Press.

LONDON, England, April 27.—Criminals of the worst class, thrown out of the United States, have entered England in large numbers and are a troublesome complication to the crime question in Britain.

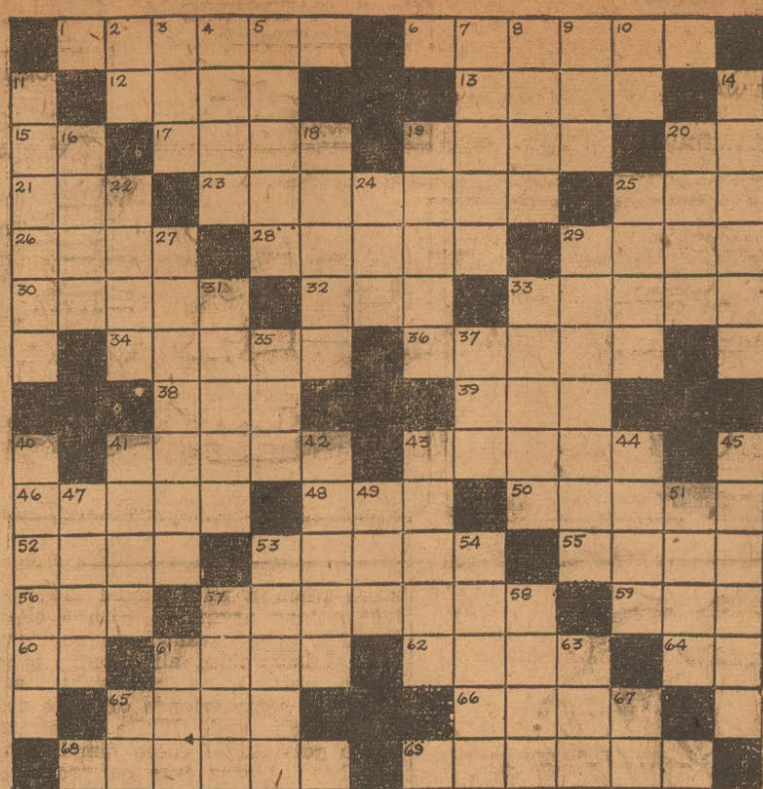

Hunted out of America, crooks of the most dangerous character, according to Scotland yard, now infest London.

They are believed to be responsible for almost the whole of certain classes of crime that have been increasing lately—especially pickpocketing, operation of con games, and hold-ups, by motor bandits—and English detectives find it difficult to capture or baffle them.

When they are caught, they are deported if American citizenship is proved; otherwise tried and sentenced to British jails.

The inroads of these Americans have added vastly to the difficulties of the London police. Until an American crook performed a "safe-blowing job," the metropolitan authorities had never had a case of

Thousands have cleansed their systems of constipation's poisons.

Constipation exacts a telling price. Its hideous poisons lead to over forty devastating diseases. But let Mrs. Rench, of Iowa, tell her story:

Kellogg's ALL-BRAN is the very best I ever used for chronic constipation. I have used all kinds of medicine and nothing helped me like ALL-BRAN. It has such a nice flavor and it is cheaper than paying out hundreds of dollars seeking relief.
