

## BIG SLUMP IN BANK CLEARINGS PAST 3 MONTHS

### Drop of 300 Millions Said to Show Extent of Business Depression.

International News Service.  
WASHINGTON, March 26.—The extent of the business depression was reflected today in a big drop in bank clearings for the past three months. Figures made public today by the federal reserve board showed that the volume of clearings through the gold settlement fund of the federal reserve system aggregated \$18,134,000,000, nearly \$300,000,000 below the figures for the preceding three months.

A further sign of the business depression the ninety days reviewed by the board was seen in the fact that inter-bank transfers declined more heavily. The drop in such was from \$2,487,000,000 to \$1,418,000,000. The net gold deposits of reserve banks in the settlement fund amounted to \$356,277,000, while the net transfers of gold were \$255,520,000, thus showing an increase of more than \$100,000,000.

## LODGE NAMED LEADER FOR G. O. P. FORCES

WASHINGTON, March 26.—Senator Lodge of Massachusetts will be chairman of the Republican steering committee as well as senate floor leader for the majority, according to plans of the Republican organization, Senator McCumber, who was a "mild reservationist" on the treaty controversy and not in harmony with the majority Republicans in that contest, is given a place on the committee on committees.

## NON-PARTISANS WIN TOP PLACE ON BALLOTS FOR COMING CITY ELECTION

Candidates on the Non-Partisan ticket will hold first place on the election ballot for the April 5 election; the independent candidate for mayor will be second and the Citizens' candidate third. The places were settled this morning by a drawing held by George Hemmingson, city secretary. The names of the candidates for mayor were written on a slip of paper, placed in a hat and with her back to it Miss Billie Sullivan, undersecretary in the city offices, drew the names—the first name drawn receiving first place. This afternoon Mr. Hemmingson will place the order to have the ballots printed. In contrast to primary elections, the city bears the expense of having the ballots printed and other incidentals of the election.

The drawing was held this morning in order that every candidate would have a fair show for first place which is thought to have some advantage from its location. However, the candidates themselves seemed unconcerned.

## SLUMP IN COTTON DOES NOT STOP SNYDER FOLKS FROM MAKING GOOD LIVING

Special to the Times.  
SNYDER, March 26.—For the week ending March 12, 85,000 eggs, 3,000 pounds of cream and several hundred pounds of live poultry were marketed in this place, bringing in the aggregate about \$3,000. This represents more than the proceeds of 100 bales of cotton.

One farmer is now milking nine cows near Snyder and selling over \$100 worth of cream monthly, and his "porkers" are enjoying the skimmed milk and making meat. Another farmer with 450 leghorn hens is fattening his wallet to the tune of \$70 a month. It is said that there is not a half section of cotton land in Scurry county that will average this return over any five year period. It is only another answer to the question uppermost in the minds of many business men, several months ago, "What will our farmers do now that the bottom has dropped out of cotton?"

## CRYSTAL FALLS FOLKS BUSY KILLING COYOTES

CRYSTAL FALLS, March 26.—Wolf and coyote hunts are now all the "rage" in the vicinity of this town. Large packs of the animals have been aimlessly wandering about for the past three weeks, apparently undecided in which direction to travel, with a result that oil men and ranchers are carrying on a "war" with them. It is believed the recent development in the oil fields in the neighborhood of Crystal Falls Co. has heavy travel across country, driving the animals from the

## EISELEBEN POLICE DEFEAT COMMUNISTS

By Associated Press  
OBERDOEBLINGEN, Prussian Saxony, March 26.—Reports that Communist forces, which have been fighting in Eisleben against security police for three days have been driven from the city, were brought here last night by men who were breathless after running twelve miles. They said the Communists were retreating across the fields, for the most part in good order. Some threw away their guns and others were captured.

## NOTED SINGERS HERE TONIGHT AT M. E. CHURCH

The Leiter Light Opera company appears tonight at the Methodist church, under the auspices of the Chamber of Commerce. Admission will be 75 cents for adults and 50 cents for children.

This company has a high rating in eastern theatre circles and is brought here by the chamber in the belief that Ranger people will welcome a chance to hear real music, excellently rendered. Martha Cook, the prima donna with the Leiter Light Opera company, is one of the Lyceum "finds" of the year. She is a distinguished young artist with a voice of wonderful clarity and flexibility. She was recently presented in concert at Orchestra Hall, Chicago, and won lasting favor with the metropolitan critics.

Seldom can a mixed quartet boast of the individual talent which is found in the Leiter Opera company.

In addition to Miss Cook, there are Joe Kendrick, tenor; Hazel Huntley, contralto; and Clayton Quail, baritone. Mr. Kendrick has for ten years soloist in the Chicago Woodlawn Park Presbyterian church. Miss Huntley is a recognized artist of exceptional talent and with a most beautiful vocal organ. She sang for several years as contralto soloist in the First Congregational church in Evanston. Mr. Clayton Quail, baritone, possesses a voice of rare, rich quality, and, like the others, he too is an artist of extensive training and experience. All are soloists with unusual voices and unusual abilities, consequently the ensemble effects of the Leiter Opera company rank high. Their effects are characterized with a fine finish and with a melodious beauty which is seldom enjoyed in mixed quartets. The fact that a large part of their program is presented in costume adds to the charm of their evening.

Mr. Harrison Burch, at the piano, holds an enviable place among the younger American artists. He is a thorough musician and has an excellent way above the average in lyric work. He is a fitting assistant to the remarkably artistic of the four vocalists.

## BUDDHIST PRIESTS IN JAPAN PROTEST NOT BEING ALLOWED TO VOTE

TOKIO, March 26.—Rejection of universal man suffrage by the Japanese diet has been followed by a meeting of Buddhist priests of Japan to protest their exclusion from the vote. They objected vigorously when a government member of the diet told them it was a great mistake to meddle with politics.

Tucking up their robes, some of the priests rushed to the platform demanding the expulsion of the speaker, Representative Matsukata. In reporting the incident several Japanese newspapers declared that Mr. Matsukata was not only dragged from the rostrum but was "beaten up" as well.

The 120,000 priests of Japan are awakening politically and the nation should listen to their cry for political freedom. Naohiko Seki, a member of the Kokumintei opposition in the diet, declared.

The meeting adopted resolutions that the priests desired to fulfill their responsibility as teachers of the people and actively to serve society but that to accomplish their work in life the offensive election law should be amended to give the right of voting.

## DENISON MOVIES MAY BE OFFICIALLY CENSORED

DENISON, Texas, March 26.—An ordinance providing for a board of censors which will pass on all moving pictures, vaudeville acts and road shows appearing in Denison has passed its first reading without opposition. It must pass a second and third reading to become a law.

Under the provisions of the ordinance, sex plays, pictures of banditry and lawlessness and the showing of nude and semi-nude pictures are banned. Vaudeville and shows of all kinds with naughty jokes and lines and undue display of the human figure are also taboo.

## WILL BE THE "WHITE HOUSE BABY"

Miss Pearl Harding, 13-year-old daughter of S. E. Harding, of Chicago, a distant relative of President and Mrs. Harding, who has been asked by the President and Mrs. Harding to make her home with them in the White House at Washington. The photo shows Miss Harding playing with her pet cat, which she is going to take to Washington with her.

## Wife, Suing For Divorce, Kills Husband In Ft. Worth

FORT WORTH, March 26.—Pete Yanes, 33 years old, is dead and his wife, Mrs. Marie Yanes, is in the city-county hospital with her throat and chest badly cut after a knife and pistol duel at their home, 509 Grove street, about 10 o'clock this morning. Mrs. Yanes had filed suit in the Seventeenth district court for divorce from her husband, and the case was to have been heard by Judge Roy this morning.

Yanes' attorney had not filed his answer to her pleadings. Both were in the courtroom and according to those living at the house the fight started soon after they came home. Mrs. Yanes told Jesse Martin, assistant district attorney that as soon as they returned from the courtroom and reached their home, Yanes started to cut her while she was in the front room. She ran back to her mother's room and got a gun and started firing. She did not know how many times she fired but the pistol has five empty shells. She hit him twice in the back. The room in which she obtained the pistol was splattered with blood.

## FIVE MORE SOX INDICTED FOR DUMPING GAME

CHICAGO, March 26.—True bills against eighteen men were voted today by the Cook county grand jury as a result of the second investigation into alleged throwing of the 1919 world's series to Cincinnati by the Chicago White Sox. The state's attorney announced the true bills which named thirteen players indicted in the first investigation last fall and the following men in addition: Carl Zork, Ben Franklin, Ben Levi, Louis Levi and David Zelser.

## SMITH COLLEGE GIRLS EXPRESS DESIRE FOR MORE MODEST CLOTHES

NORTHAMPTON, Mass., March 26.—Desire for more modest and more becoming clothes expressed by the sophomore class of Smith college took shape in a fashion show held in the students' building at which 115 young women of the college entered their favorite gowns.

The competition was limited to gowns for afternoon and evening occasions but many girls came with clothes that were held to be more nearly appropriate for street wear and were ruled out. A prize was offered by Dr. Joel E. Goldthwait of Boston.

The student-competitors were their own manikens, wearing the gowns that they had entered for the prize, walking across the stage before a numerous and critical audience, and turning this way and that on a low platform for better display, then repeating the moves before passing out.

Marking for lines, color, modesty, suitability and becomingness, the judges, of whom three were undergraduates, found their choice difficult to make. After several exhibits, the first award was given to a girl of the East, Carolyn Hinman of East Orange, N. J., a senior, with honorable mention for a representative of the Middle-West, in Dorothy Hickman of Lafayette, Ind., another senior.

Each wore an evening gown, the prize-winner being a white lace dress with a jade girdle and train. Miss Hickman wore a flowered white taffeta with a very full skirt and simple bodice.

## AGRICULTURE'S FATE DEPENDS ON MARKETING

DALLAS, March 26.—Upon the solution of marketing farm products at a profit to the producer, a matter vitally affecting the welfare and prosperity of the entire citizenship, depends the permanency of agriculture, the stability of business, and the perpetuity of free institutions, according to E. F. Shropshire, director of the cotton division of the Texas Farm bureau federation.

"Those engaged in the field of agriculture cannot much longer be expected to endure the deprivations and losses heaped upon them by the present so-called system of marketing," he said. "The Texas Farm bureau, through its Cooperative Cotton Marketing association, is putting forth an honest, intelligent effort, backed by sound business, for the solution of this problem and is entitled to the co-operation and support of every farmer, banker and business man. The basis of our plan has brought success to similar farmers' marketing efforts in California, Florida, and other states and countries. It is based on bonafide contracts, and the option is squarely up to the farmer. He can choose for himself; sign for five years with his brother farmers and intelligently merchandise his products at a profit, or remain single for life to the present system which has robbed his Southland of her wealth, a major portion of his co-laborers of comfortable homes, and his children of educational and social advantages."

## EX-PRESIDENT WILSON RECOVERING FROM ATTACK

WASHINGTON, March 26.—Former President Wilson is recovering from an attack of indigestion suffered yesterday, Dr. Cary Grayson stated today. Mr. Wilson still considers himself upset and his condition weakly, but he is looked for. The former president was up at the usual hour, and had breakfast with Mrs. Wilson.

## BALLOON AND FIVE MEN STILL MISSING

PENSACOLA, Fla., March 26.—Naval officers today were discouraged at the failure of a two-day search for a missing balloon with five occupants, but have not lost hopes of finding the craft. Airplanes, dirigibles, eagle boats and subschairs still continue to scour the air and coast in the vicinity of the place the balloon was last reported.

## DISABLED VETS THREATEN TO GO ON STRIKE

### Protest Cut in Compensation and Accuse Organized Labor.

WASHINGTON, March 26.—Now there is threatened a strike of disabled world war veterans. The National Disabled Soldiers' league is today considering action in protest of a decision by the federal board of vocational education to cut the compensation of disabled soldiers in classified service.

J. B. Nolan, one of the local leaders of the disabled soldiers, declared that 75,000 disabled veterans employed on the vocational guidance basis in shops and factories throughout the country will go on a peaceful strike and that the White House will be picketed.

"Organized labor is attacking us in a secret campaign," he declared today. "They are trying to use the vocational board as a tool. 'With healthy union men out of work all over the country and some on part time, they are jealous because disabled men are kept at work. They have stood a cut because of the industrial depression, and want the same thing to happen to us. 'They forget we were paid \$30 a month with the privilege of taking gas and shrapnel into our bodies, while they got \$20 to \$600 a month in the security of their own home towns.'"

U. W. Lankin, director of the federal board for vocational education, stated today there is no general cut contemplated in the compensation of disabled men who are under the board. A small number of men are in classified service and draw wages from these positions and compensation from the board, he said.

He stated the law forbids one person receiving more than \$2,340 a year from two government positions, and that steps will be taken to conform to this law. The proposed cut in the compensation of those disabled men in classified civil service will come during April, it was expected.

## SCRIBE FROM 'BOSTON' HAS HARD TIME PICKING OUT MR. ARCHDEACON

GALVESTON, March 26.—Outfielder Archdeacon, a recruit acquired by the Boston Nationals from Charleston of the South Atlantic league, has discovered he has a double in Galveston.

According to players and sport writers, the two men wear the same kind of clothes, resemble each other as to features and are of the same build.

Walking up to Archdeacon at the lobby of the hotel at which the Boston players are staying, James C. O'Leary, Boston sports writer, began talking of matters concerning the Braves. The man proved to be the "double." Later O'Leary met "Archdeacon" strolling along the seawall and hailed him.

"You know, a funny thing happened just now," he said. "I stopped a fellow at the hotel. I thought you and began talking to him about the team. After a few minutes I found out it was another man. He looked enough like you to be your twin brother."

"That so," responded the supposed Archdeacon; "he ought to; I'm the fellow with whom you were just talking."

## GEORGE SENT STARVING BROTHER NEEDED CASH, BUT IT FED THE FLAMES

BUDAPEST, March 26.—Stephen Nemeth, a clerk, wasting away on the little food his salary would buy, appealed to his almost forgotten brother George, who went to America years ago and is now in Chicago.

When months later, there came from George simply a large photograph, Stephen Nemeth, disappointed and angry, threw his brother's picture in the fire. The next day there came a letter. It read:

"My dear Stephen: If you will carefully divide in two the photo I sent you yesterday you will find a \$5,000 bill concealed between the two sheets. Enjoy it in good health and don't forget your loving brother. GEORGE."

## RED CROSS AIDS 11,119 VETERANS IN FIVE STATES

ST. LOUIS, Mo., March 26.—Assistance was given 11,119 former service men by the Red Cross last February, breaking all previous records for this character of relief work in a single month, according to Edward B. Orr, division director of civilian relief. The division takes in Arkansas, Oklahoma, Texas, Missouri and Kansas.

The increase in eight months has approximated 75 per cent. Unemployment and the financial stringency are principal causes for it, Mr. Orr said. When employment was plentiful and wages high, Mr. Orr said many of these ex-service men failed to seek assistance for obtaining hospitalization, compensation and disability allowances.

## STRIKES SPREAD THROUGH GERMANY

International News Service.  
BERLIN, March 26.—Strikes are spreading throughout the country in the neighborhood of Berlin. Great mass meetings of Communists are being held this afternoon in the suburbs of the city.

Advices reaching here at noon today said fighting again had broken out in Eisleben between the Communists and government troops. The government forces were said to have been victorious, but there were many casualties on both sides.

## BAD WEATHER FOR EASTER IS LATEST DOPE

WASHINGTON, March 26.—The weather bureau today forecast anything but favorable weather for the annual Easter fashion parade. An unexpected storm of marked intensity with its tail swinging low over southeastern Colorado, caused a revision of preliminary forecasts for fair weather tomorrow.

The storm is sweeping east and northeastward. Pressure is high today off the Atlantic coast, high winds are rising rapidly in the northwest and the weather is acting badly elsewhere with showers and thunderstorms in New York, the Great Lakes and lower Missouri valley. Everywhere east of the Mississippi unsettled weather is promised.

## FARM BUREAU HEAD HAS SUIT OF AMERICAN-GROWN WOOL FOR EASTER WEAR

CHICAGO, Ill., March 26.—Jim Howard, president of the American Farm Bureau federation, has a new Easter suit. It is tailor made and every thread of it is virgin wool grown in America. The cloth is beautiful in finish and woven at a mill in the west. It cost him \$36, made to measure.

A label attached to the inside coat pocket of President Howard's coat declares that the suit is "Guaranteed All American Virgin Wool—No Shoddy—National Wool Growers' Association." The \$36 suit is better than the one for which Mr. Howard paid more than twice as much last year. But even this is not the main reason why he is pleased with it. He is especially happy because the members of the County Farm bureau who produced the 7½ pounds of wool which went to make up his suit will get \$2 for it, about twice as much as if they had sold their wool through the ordinary channels of trade—when they could have sold it at all.

## 'MARSE HENRY' SPINS NEW MARK TWAIN YARN

GALVESTON, March 26.—A new Mark Twain anecdote is told by Colonel (Marse) Henry Watterson, who, with Mrs. Watterson, will leave here today for their country home near Louisville, Ky. Colonel Watterson and Samuel Clemens were cousins, an uncle of the one marrying an aunt of the other.

When Colonel Watterson resided in London, Mark Twain inadvertently invaded a parochial workhouse, mistaking that building for the home of his cousin, who lived next door. He was directed next door where he found that both the colonel and Mrs. Watterson were out. Thereupon he left a note which informed Colonel Watterson that his relative had called in his absence, adding: "I've always feared it," referring to mistaking the workhouse for the home of the Kentucky journalist.

Colonel Watterson, who arrived here late in December, described himself as being in the best of health as a result of his stay in Texas.

## MRS. HAMON MERELY ON OUTING; RETURNS HOME

Mrs. Jake L. Hamon and son, Jake Jr., returned to Ardmore last night after spending several days in the oil field. The trip has no significance, Mr. Fraser of the Hamon road said, being merely a periodical inspection and really more that of an outing than anything else.

While in this section the two visited Jimkum and Breckenridge and spent a night and a day in Ranger. Yesterday afternoon they drove around the country near Ranger and last night the evening was spent with Dr. Wilson and his mother at their home and at the theatre.

Jake Jr. plans to begin the study of law, Dr. Wilson said this morning. He probably will spend a month in the Ranger section this summer, as the doctor's guest.

## COCHRAN GUILTY; IS GIVEN TWO-YEAR TERM

Special to the Times.  
ASPERMONT, Texas, March 26.—After more than eight months of the jury "grave case" four persons were found guilty by a jury of Cochran to two years.

## RED RIOTERS IN GERMANY FLEE TO HILLS

### Blowup Railroad Station Then Retire With Machine Guns.

By Associated Press  
BERLIN, March 26.—The German government announced today, order was restored in Eisleben and Hettstadt.

Rioters at Hettstadt blew up the railroad station, however, before they retired to the hills near town, setting up machine guns which were reported to be firing at the Security police in the city. Halle was quiet last night and municipal and utility plants were operating again.

Organizations known as "councils of action" were being organized in Bitterfeld. Government troops have not participated in the operations of suppressing the Communists in Central Germany, it was officially declared. The work of restoring order was executed by the Prussian Security police and local organizations.

## MEXICO SECRET SERVICE TAKEN OUT OF THE U.S.

AUSTIN, March 26.—Mexican secret service forces are to be immediately withdrawn from the United States, personal envoys from President Obregon today told Governor Neff.

The Texas government held a two-hour conference with Eduardo Ruiz, Mexican consul at San Francisco, representing President Obregon. The envoys told Neff that Obregon's decision in the matter rested on the amicable relations established between Mexico and Texas, and that Obregon would depend upon Governor Neff to take care of any conspiracies which might develop against his government.

Governor Neff also placed his approval of county commissions Obregon is establishing in Texas among Mexican people, all for civil purposes only, and to be non-political in character.

The object is to name a commission of Mexicans in each county to whom labor and kindred Mexican interests may be brought, in this way making more effective the solving of problems of the Mexican race which may arise in Texas and elsewhere. In the event the Mexican county commissions cannot dispose of matters at issue they in turn would call them to a meeting of proper authorities of Texas.

## GIRL WITH BABY IN ARMS WINS BIG SUM IN COURT FROM FORT WORTH MAN

FORT WORTH, March 26.—Miss Mildred Alexander of Monroe, La., was given a verdict of \$30,000 against W. A. Shuffield of Fort Worth in district court here, in a breach of promise suit. The girl brought her 6 months' old baby into the courtroom, although the court ruled it could not be introduced as evidence.

Testimony showed the young woman had left her home with Shuffield, on his promise to marry her at the next town. Arriving there, he persuaded her to go on to Marshall, Texas, before the ceremony could be performed. They did not arrive at Marshall until 3 a. m., and Shuffield told her he had no money and she should go home. She loved him and believed his promises that they would be married the next day, she submitted to the arrangement, the young woman testified. The next day, she continued, Shuffield argued that they could not be married there, as they had already been married, and after they had left a week, and after they had left there he refused to marry her, the plaintiff concluded.

## GUARANTY STATE BANK OF BRECKENRIDGE CLOSSES

BRECKENRIDGE, March 26.—The Guaranty State bank of Breckenridge closed its doors at noon today, and its affairs are in the hands of the state banking and insurance commissioner, according to a sign on the door. Several hundred persons were waiting at the entrance of the bank at noon.

Depositors were advised that their funds are in no danger as a result of the closing, which is said to be temporary. Announcement was made that arrangements are being made to reopen the doors Tuesday and pay all depositors.

Officers of the bank were also re-assured that the bank's funds are held under the state guaranty fund, and there is no cause for uneasiness.

COME AND SEE.

The Times is now getting straightened out in its new home on Elm street, in quarters which it finds well suited to its needs and well located, both for service to the community and for convenience to its business. It is only two minutes' walk from Main street and is within one minute of the police and fire stations and the post-office. The news gang needs to be in touch with all of these and the circulation department needs quick access to the latter.

The building itself is ample, provides for good arrangement and is practically safe from fire. That was one of our worries for many months. It is no joke to have a valuable equipment, which could not be replaced for months, at the mercy of any blaze.

The Times will not have a formal reception at its new home. Its facilities for service could not be exhibited satisfactorily to some hundreds of persons at the same time. However, the paper's friends are invited to come around and look us over and see how exceptionally well we are equipped for service. We will take pleasure any day in showing the machinery and its operation to those interested. We believe you will see that there is no paper in any town of its size in Texas which is so well equipped to turn out a paper as large and good as the Times.

Consider yourself welcome at any time.

MAKING TALK EASY.

About one-half of Ranger's telephones have been out of order for a couple of days, because a cable was burned in two. That has been inconvenient, but it is a reminder of a condition that has existed in Ranger for several years, so far as the residence district is concerned, but which is soon to be remedied.

Within a few days cables will be strung into the residence districts. Within a few months the modern exchange in the Poe building will be in operation, and practically everyone in town who desires a telephone can have one.

When that is done, Ranger can declare that it has in part become a city, and not merely a densely populated district. For a city is a place where communication is easy and well ordered, where there are devices which promote comfort and reduce human labor and inconvenience. And a telephone is perhaps chief of these. With a telephone, one is in touch with the community. When one must see friends in person or send notes by hand, communication is slow and tedious. Many of the social and business amenities go unattended to.

Of course, telephones are not alone, there are lights and gas and sewerage in part. With telephones in, a long stride will have been taken.

The paper hanger expects pay for putting up at a hotel.—Chicago News.

THE WOMAN WHO SAW

Costly Christian Conduct.

It represents real happiness to the Business Girl when she is urged to spend a week-end with a much loved aunt and uncle in their suburban home. Aunt Nellie is plump and rosy, always radiating a bustling yet restful cheeriness. Uncle John, tall and gaunt, tries to conceal an "easy mark" nature by affecting a brusque manner that fools no one, but seems to give him much satisfaction. Always he has a well planned story to unfold to the Business Girl regarding some escapade of "Ma's," which he describes with great gusto and an assumed disapproval.

This time "Ma" had been driven to purchase an acousticon because of growing deafness. Dreading to acknowledge even to himself that the affliction really existed, Uncle John scoffed at it as fancied, insisting that "she hears too much now," and referring to the hearing device as "that accursedicon."

The Business Girl, having noticed the increasing difficulty her aunt had when listening to group conversation, was moved to make careful inquiry as to the real helpfulness of the new purchase.

"I wanted it especially for church," explained Aunt Nellie. "If I sit down in front I can hear the minister pretty well without it, but I wear the acousticon so I will know when he stops praying. That sounds ridiculous, I know," and she laughed in sympathy with her husband's unconcealed "smort."

"You see, I was brought up to kneel, and once or twice I kept on kneeling when everybody else was up and doing. It might look devout, but was embarrassing."

Uncle John's surprised face indicated this was the first he had heard that particular reason for the acousticon's being, but he met it in his own way. Vigorously piling more wood on the open fire, he boomed forth, "Glad you get some comfort out of that contraption, but I'd say it makes plain prayin' come pretty darned high."

A Straw in the Tide.

Of course every woman knows, if she has even canine intelligence, that if she is not ironcladly obligated to use the subway at rush hours, she had better landscape garden her commings so as to transit some other time or some other way. But the carnist is caught, now and then, and so it happened that the Woman was in the thickest of the jam one afternoon when ran above and below drove even greater crowds than usual underground. Having luckily been given a seat by a polite office boy she sat more or less comfortably and around her neckpieces caught glimpses of the war of wet humanity that at Fourteenth street burst into the side door of the car like an undammed freshet.

RIPLING RHYMES

By WALT MASON

A NEW DEAL.

The new administration administers in style, and all the busy nation hangs out a hopeful smile. Upon our jaded shoulders the burden lighter seems; and only office holders are dreaming mountain dreams. We're great on swamping horses if there's a trade in view, and everyone indorses whatever may be new. We like to see new faces around us, we confess, although great charms and graces the old ones may possess. New whiskers are supplanting the beards we long have seen, new feet are gallivanting new brooms are sweeping clean. And we distribute folders to tell how glad we are, and only office holders are looking black as tar. It's good to king is reigning in this star spangled land, or we'd all be complaining until we saw him canned; he'd find us growing cooler, he'd hear us kick and cuss; five years of any ruler is quite enough for us. We're fond of making changes and old things are a bore; whatever new and strange is, we welcome at the door; we have no bricks or boulders at any unknown guest; and only officeholders seem weary and distressed.

—It is with pleasure that we offer you the best food at the very lowest prices.

We have recently cut our menu prices to where they are appealing to everyone. Our food is the very best and our service is unexcelled.

"Tinker Bob" Stories  
by Carlyle H. Holcomb

JERRY RELATES HIS EXPERIENCE.

Jerry, the Jay Bird, thought he was going to be killed by the great Lion of the Forest, but he was mistaken. "Now Jerry, why did you do such a thing as that? I thought you were going to be a good bird while you were down here in the Southland. Let me tell you something, if this is the way you are going to act and talk I will see to it that you never go back to the Great Forest of the North."

It was Tinker Bob who was speaking and he was very serious too. Poor Jerry did not know what to do or say. He was so sorry to think the King knew what he had said and done, for he was angry when he had said it. "Thief, thief," cried Jerry, "if you had been made so angry that you couldn't think you would say more things also."

"But Jerry, you have no right to get angry with the creatures of this land. Did any one do you wrong, or try to harm you in any way?"

"That Ant Bear wouldn't talk to me. He just sat there and winked his eyes and wiggled his long nose and never said a word. I thought he was making fun of me so I told him a few things that he ought to know."

"What did you tell him, Jerry?" asked the King of the Forest.

"I just told him his nose looked like a fish worm, and his tail looked like a snake and he was as dumb as a toad, and didn't know enough to make a living only by eating ants, and then I told him that the ants were of more value than he was and I would eat all the ants I could find in order to starve him to death."

"When anyone tries to talk nicely to a Creature of the Forest like I do, and then has them listen without making a move or without making an answer, it's time they were put out of the Forest to make room for someone else that knows how to be polite and treat other creatures right."

"Jerry was quite a speech maker

The First One to See Him Was Silky. and all the creatures who listened began to thing he was never going to stop. But he was interrupted by the announcement that another creature was coming into the circle. This was a surprise to Jerry.

It was not only a surprise to Jerry but to all of the others—even Tinker Bob—for they thought this fellow a great way off. The first one to see him was Silky the monkey and he went to him at once throwing his arms about him as though he had not seen him for a year or more. Silky hugged and hugged him, then picked him up and carried him into the midst of the creatures that had assembled to hear Jerry the Jay speak.

"There he is now," said Jerry, "let him speak for himself."

"I was afraid someone might harm me in numbers," said the Ant Bear, "so I came O king to tell you not to do it. I like to hear him talk, it puts me to sleep."

DEAD LINE

Advertisers' Attention

It is our intention to issue an early edition of the Daily Times to catch the 1:26 p. m. T. & P. trains going east and west, and the 2:00 p. m. Hamon & Kell train for Breckenridge. In order to do this it will be necessary that all our advertising copy is in earlier, in order that all our time may be devoted to putting the latest news in this edition.

Beginning Monday, March 28, we will solicit advertising for the next day's paper. The "dead-line" being 6 p. m. on the day previous to insertion. In other words, to run a display advertisement in Tuesday's paper the copy must be in our office by 6 p. m. Monday. This deadline affects all days with the exception of Mondays, when copy will be accepted for that day's insertion up to 10:30 a. m. Classified advertising will not be affected by this ruling. The "dead-line" now being 12 noon on day of insertion.

We hope to increase our circulation 25 per cent in this way, and feel confident that our customers will appreciate our efforts to give them more for their money by cooperating with the above plan.

This additional circulation will go to the nearby towns and will give our neighbors an opportunity to learn of values offered by Ranger merchants.

This plan will necessitate an additional expense which we cannot hope to get back in the beginning, but feel that our customers will profit eventually and will in turn reciprocate by increasing their advertising.

This plan may seem inconvenient to our customers at first, but we ask that they bear with us as they are the ones deriving the greatest benefit. Remember, all copy must be in our office by 6 p. m. on the day previous to date of insertion, with the exception of Monday.

Teacher—Robert, which is the shortest day in the year?  
Bobby—The day your father promises to give you a lickin' afore you go to bed.—Boston Transcript.

RANGER DAILY TIMES

DELEGATES FROM RANGER TO ATTEND ROTARY MEET

The Eighteenth district Rotary convention will convene in Paris March 18 for a two-days' session. The district covers all of Texas and delegates are expected from every point where a club is in existence.

Delegates from Ranger are: H. S. Cole, president of the club; J. E. T. Peters, Edward Maher, C. E. May, E. J. Barnes and J. B. Owens.

A committee of forty men have been working preparing entertainments for the visitors when they arrive in Paris.

COPPER WORM AND CORN 'LIKKE' TAKEN IN RAID

A copper worm and five gallons of corn liquor were captured in Stephens county, five miles north of Ranger, Thursday by John Barnes and Shell McDowell of the constable's department. Evidence showed that the still had been demolished shortly before the arrival of the officers. This led to the belief that the owners of the layout had pre-knowledge of the officers' intentions.

AUTOMOBILE IS STOLEN FOR FIRST TIME IN WEEK

Last night for the first time in a week an automobile was stolen in Ranger. The car, a five-passenger Ford, 1920 model, belonged to O. E. Weaba, and was stolen from in front of the Leader store on Austin street.

In the past it has been noticed frequently that automobile thefts came in numbers. Days would pass without a theft being reported then it would break out and several would be reported missing almost at the same time.

If the theft of last night presages a recurrence of this custom car owners would do well to be on the watch, according to officers.

6 o'clock as he sat in his chair in the Clinical hospital. Death was due to heart failure, according to physicians. The dead man has one son in Ranger, Carl Stenberg.

The man suffered a fall from a scaffold several weeks ago and was in the hospital recuperating from this fall at the time of his death.

The McFord Undertaking company is holding the body pending funeral arrangements.

NEW BARBER SHOP.  
The new Gholson hotel barber shop opened for business this morning in the basement of the hotel building with full equipment of sanitary barber appliances. The shop opens off the stairway as the visitor enters. Eight chairs have been installed also manicure and shoe shining equipment.

The basement of the hotel building will be occupied by several other businesses as soon as it is completed.

FEMININITY has been the keynote of the styles during the late winter months, and flounces, frills, basques and laces persist in the spring styles.

Fabric hats will be of lace, chintz and satin; gowns, a resplendent array of poiret twill, tricotine, Swiss and transparent organdies. Indeed, hats and gowns will suit every temperament, taste and fancy.

But because of this wealth of materials and styles to choose from—more than ever before—it will be necessary for the discriminating woman to select discreetly—to shop wisely—if she would wear what suits her best.

Of course she likes to shop—every woman does—but few women really like to tramp through store after store and, at the end of a strenuous day, have failed to find the gowns that blend with particular personalities, the hats that best set off distinctive charms—or anything else they happened to have sought.

It would be a true satisfaction to know when one enters a store that within would be found the particular object sought. This would mean all the pleasure of shopping without the tiring disappointment of fruitless search.

And you can have this satisfaction simply by reading regularly the department store and shop advertisements which are published day after day in the Times.

The successful and progressive merchants who advertise in this newspaper know in advance what the styles will be.

And they place this knowledge—this real fashion news— at the disposal of their patrons through the advertising columns of the Times.

Read the advertisements and from the models pictured or described, choose what suits you best. Then go directly to the store that advertises what you have selected and shop for it.

Why take the selection of your spring wardrobe a task when reading the advertisements of progressive shops and stores in the Times will turn it into a real pleasure.

# RANGER GAS CO. PUTS LINE, IVAN TO SOUTH BEND

The Ranger Gas company started work today on a four-inch gas line from Ivan to South Bend, a distance of seven miles. The primary purpose is to supply fuel to drilling wells, of which there are expected to be several hundred within a short time. It also could carry gas for domestic users into South Bend.

All the pipe is new and is being hauled out today. It will take twelve men about two weeks to complete the work.

# DIVER'S INVENTION TO PERMIT WORK MANY FEET UNDER WATER, HE SAYS

VANCOUVER, B. C., March 26.—That he can dive five hundred feet into the ocean and still work comfortably and easily is the contention of Frank Walters, diver and inventor of an aluminum diving suit. In a recent test he reached a depth of 696 feet, said here to be a world's record. The suit is built of 5-8 and 1-2-inch material and weighs over 300 pounds. In making his recent descent Mr. Walters added fifty pounds of lead to the soles of his shoes.

Owing to the rigidity of the suit, pressure at the depth attained was but forty pounds to the square inch inside the suit while it reached 170 pounds on the outside.

The suit has ball-bearing joints and artificial hands. It cost about \$3,000 to build. Mr. Walters is a well known diver.

# JAP NAVY STORES FUEL AGAINST FUTURE NEEDS

TOKIO, March 26.—The Japanese navy has a well-organized policy concerning the supply of petroleum oil and the navy is taking special measures to store oil, year by year, to provide against any future emergency, Admiral Kato, the minister of marine, told the diet yesterday.

The above explanation followed an interpellation by Representative Oshikawa, Independent, who declared that while the United States controls 65 per cent of the petroleum output of the world, Japan has only 0.18 per cent of the world's output. The speaker declared that the matter of a sufficient supply of oil closely concerns the welfare of national industry and

the prosperity of the empire, and furthermore that when Japan's 8 and 8 unit fleet is completed the navy will need at least 3,000,000 tons of oil a year. To import this from the south seas, he added, would mean a great addition to the state expenditures.

Mr. Oshikawa pointed out that while the League of Nations has been organized to promote peace and disarmament, Great Britain and the United States are straining every nerve to control sufficient oil supplies and consequently the League of Nations and talk of peace cannot be offered as an excuse for neglecting the establishment of a proper oil policy.

# HAWAII WOULD GIVE FREE MEDICINE TO LEPERS

HONOLULU, March 26.—Free dispensaries, throughout Hawaii for ad-

ministering refined chaulmoogra oil to lepers would be established under two bills which have been introduced in the territorial house of representatives by Norman K. Lyman, representative from Hilo, Hawaii. The bills provide for opening chaulmoogra oil dispensaries on the islands of Hawaii, Maui and Kauai, in addition to those already operating successfully in Honolulu and at the Kalaupapa leper colony on the island of Molokai.

# PEEKABOO DRESSES ARE PROHIBITED BY CHURCH

BUENOS AIRES, March 26.—Bare arms and low-necked dresses have been outlawed by the ecclesiastic governor of Argentina. A notice has

been posted in the doorways of all the Catholic churches reading: "After Sunday, March 27, no priest for any reason will be permitted to administer holy communion to any married woman, girl or child who approaches the altar without having completely covered the breast, shoulders and arms with material that is not transparent."

# Go to Church Sunday

To God, His Son, and profoundly religious pioneers of deep conviction, we owe a debt of gratitude for all the many blessings which are ours as American citizens. To the forefathers who grew tired of tyrannical oppression, determined in their hearts to throw off this yoke and guarantee to their progeny and posterity religious freedom, and braved the dangers of a virgin land that this condition might obtain, we owe a debt of appreciation which can never be paid by indifference to the church and its services. The religious ardor, fervor and zeal of these progenitors are reflected today in the outstanding features of the services of the church and the profound regard for the principles of truth, right and justice to all, upon which the greatest nation in the world has been built. To the churches of America are all business men, professional men, tradesmen and all classes of workers indebted for the high state of civilization which exists here and makes possible the successful pursuit of their occupations. There is no enterprise to which you lend aid which merits your support so greatly as does the work of the church. Your money is accepted by the church for the purpose of furthering its cause. It is commendable in you that you are so liberally disposed to contribute to so worthy a cause; it is an expression of your recognition of the worthiness of church work. But, there is something to be more desired than your money by the church, and that is your presence at its services. Contributions might be made regularly and liberally, but without the literal presence of the contributors the work would soon cease. And yet, there is something of more importance to the church than your money or your presence, and that is the ultimate salvation of your soul. THE CHURCHES ARE INTERESTED IN YOU, WILL YOU REPLY THAT INTEREST? Lay aside the cares of business, the pleasures, transient, and the desire to exercise your personal liberty in gratifying selfish desires, and—GO TO CHURCH SUNDAY. J. W. MCKINNEY, Minister, Church of Christ.
