Dead Mexican Claimed to Be Former Bandit Leader

ABILENE, March 27.—Lopez Morales' brother, Pete, was not kill-ed by the dynamite charge which Thursday afternoon ended the life of the slayer of Sheriff W. W. Sat-terwhite and Constable George Reeves in a boxcar at Lawn.

Lopez Morales and his brother, Pete, arrived at the Mexican section gang camp, where the gun battle oc-curred, about 4 o'clock Thursday morning, Mexicans workmen said. Pete Morales made his get-away on a freight train Thursday morning,

ABILENE, March 27.—Battling to the last breath, Lopez Morales, wanted in connection with the shooting near Merkel last Tuesday of Sheriff W. W. Satterwhite and Constable George Reeves, was shot to death in a gun battle between himself and officers Thursday afternoon about 3 o'clock at Lawn.

Morales was found concealed in a freight car on the Santa Fe rail-way siding at Lawn about 2 o'clock (Continued on Page 2)

RISING STAR, March 27.—C. E. Hutson, farmer of the Rising Star country, says: "You can tell'em all to take in their little chickens and get on high ground before March 29th, which is next Sunday, for it is going to rain and then some." Mr. Hutson bases his calculations on the milky way and tys that it will be sitting just right for a "gully washer" on the 29th.

What is known as the season of the vernal equinox nearly always brings rain, which sometimes begins a week before the sun crosses the equinoctial line, which occurs March 25, and sometimes not un til two weeks later. Usually the rain comes later in Texas, so that the latter part of March or early part of April is likely to be rainy.

TASHINGTON - Many thousands of dollars could have been gleaned for Uncle Sam's treasury had provision been made for cashing in on the amusement value of the short spe-cial session of the Senate which convened March 4.

All the elements of drama, for which folks pay out hard cash, were supplied on a scale that has been equaled by no theatrical presentation seen in this city in a

Daily, long queues of spectators waited in line at the gallery doors for a chance for even a few min-utes of the free entertainment provided within.

But it was a case of first come first served, and those who came early and got seats stuck through hour after hour of the show, with the crowds of late comers getting never a look-in.

Would they have paid for admission? Well—one doorkeeper estimated if he had been able to cash in on the pleas personally made to him to "see what he could do," with the hint it would be worth his while, he could have spent the summer vacation on a Mediterranean cruise!

THE big crush, of course, came on March 16, when the Senate had agreed to vote for a second time on the Warren nomination, which had previously been lost, due to the mid-after-noon nap of Vice President

The Senate was to meet this morning at 10:30. By 9 a. m. Capitol Hill had much the same appearance as on March 4, when President Coolidge was to be in-augurated. A steady stream of automobiles was discharging excited and interested grand dames and gentlemen. More lowly folk packed the footpaths and over-flowed into the streets.

All the Senate elevators were closed, except to members, to prevent possible jams and accidents. Police were on all the stairways.

MET Senator Willis of Ohio on the gallery floor at 9:20. He was out of breath and his clothing was awry.

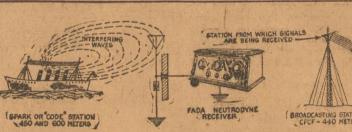

Only his old technique as a football player had enabled him, in spite of the right of way he was supposed to have as a senator, to get an influential constituent into the packed gallery.

"Looks as if you're going to have a good audience today, sen-ator," I observed.

Willis wiped a perspiring brow. "All I've done all morning," he said, "is help provide the audience. Eight million people have been in to see me. They all want seats. There wouldn't be half enough if I had 'em all. I'm going into hiding, right now."

### Everyday Radio

BY KIMBALL! HOUTON STARK

INTERFERENCE FROM SPARK TRANSMITTING STATIONS

Interference from spark or "code" transmitting stations, contrary to the average belief, is not due to radio amateurs or "Hams," but in most cases is due to commercial ship and shore stations operating on wave lengths within the bands given over to broadcasting stations. Nearby powerful spark stations may break through on any wave length on any type of receiver, although the particular wave length at which the interfering stations are transmitting is usually at the present day at or above 600 meters.

In the drawing as an illustration interference from a ship spark station is graphically shown. Such a ship station operating on 450 meters interferes with reception of signals from a broadcasting station operating on 440 meters.

The annoyance which this interference is causing broadcast listeners has been largely remedied by reallocating these ship and shore stations to wave lengths higher than those used by all broadcasting stations. Ultimately most all spark stations will probably be replaced by a different type of radio transmitter, which will free the air from this objectionable interference.

#### ATE TOO FAST

South Carolinian Took Black-Draught For Indigestion, and Says He Could Soon Eat Anything.

Ballentine, S. C.—Mr. W. B. Bouknight, of this place, gave the following account of his use of Thedford's Black-Draught.

"Just after I married I had indi-gestion. Working out, I got in the habit of eating fast, for which I soon paid by having a tight, bloated feeling after meals. This made me very uncomfortable. I would feel stupid and drowsy, didn't feel like working. I was told it was indigestion. Some one recommended Black-Draught and I took it after meals. I soon could eat anything any time

"I use it for colds and bilious-ness and it will knock out a cold and carry away the bile better and quicker than any liver medicine I

have ever found."

Eating too fast, too much, or faulty chewing of your food, often causes discomfort after meals. A pinch of Black-Draught, washed down with a swallow of water, will help to bring prompt relief. Bloated sensations, eructations, bad breath and other common symptoms of indigestion have disappeared after Black-Draught has been taken

JERUSALEM.-Frank P. Mac-Lennan, publisher of the Topeka (Kan.) State Journal, is spending two months in a personal survey of economic and political conditions in the Near East. He has visited a number of typical refugee concentrations at Athens, Constantinople and Jerusalem, and has inspected American orphanage work in Syria, Palestine and Greece.

"I have been a contributor to Near East relief since its inception," he said while here, "but the actual work being done has impressed me so favorably that I cabled my office in America to make a substantial crease in my subscription. This American work is the most constructive and helpful contribution that is being made for restoration of normalcy in Bible Lands."
