

GERMAN SOCIALIST PARTIES DEMAND MILITARY LET-UP

CLEAN-UP CREW ATTACKS MAIN, HOSE AND PICK

Business Streets and Central Alleys Get First Attention.

Wagons, trucks and men responded to the call sent out by the mayor and the Business and Working Men's club to clean Ranger of all trash Wednesday.

Main street was thoroughly wet by the fire department and a large force of volunteer workers are busy cleaning it of all accumulated dirt.

John H. Moore, director general of operations, gave first attention to the business section of the city.

Wednesday night the clean-up workers will be the guests of the Business and Working Men's club at a dance to be given in the American Legion hall.

SCHOOL LEAGUE HAS ONE THOUSAND NEW MEMBERS THIS YEAR

AUSTIN, March 31.—With an increase in membership of over a thousand schools more than last year, and with the addition of several new features to the contests, the University of Texas inter-scholastic league has opened its spring activities with unusual interest displayed by all contestants.

The membership of the league this year is approximately 3,300 schools, which represents nearly every county in the state.

During the month of March the different county meets were held over the state. Five hundred thousand people attended 190 county meets.

The winners in the county meets are the contestants in the district meets, and winners in the latter will go to the university for the final state meet on May 6, 7 and 8.

In the district meets, approximately 2,000 delegates will be chosen to compete in the final state meet on May 6, 7 and 8.

Besides the athletic events comprising all of the usual track and field contests, contests in debating, in declamation, in essay writing, spelling, and in various industrial and home economy exhibitions will be held.

This year two new features have been added. For boys, a contest in extemporaneous speaking will be held. This consists of speeches for which the materials have been previously prepared, but the wording of the speech must not be previously prepared or memorized.

Preparations are already under way for the reception of the delegates to the state meeting at the university in May.

GENERAL STRIKE IN DENMARK NOW SEEMS INEVITABLE

COPENHAGEN, March 31.—Offers by responsible trade unionists of a compromise by which the general strike might be averted if Rigsgad is called immediately was not accepted by the king and new Danish ministry, and a general strike in Denmark seems inevitable.

The police have been able to disperse hostile street crowds thus far. Independent socialists are joining the majority socialists in demanding a general strike.

The Liech ministry is appealing to the population saying it will resign as soon as elections are over and the new Rigsgad has met.

A general strike throughout Denmark will start Tuesday as a result of the king's action.

ROME, March 31.—The Italian chamber of deputies today voted confidence in the cabinet.

F. O. Kelly Turns Postoffice Over to J. F. Connell

J. F. Connell, who has recently been appointed postmaster for Ranger, came from Fort Worth Tuesday night and received the transfer of the office Wednesday.

Mr. Connell was a resident of this city before going to Fort Worth to engage in the oil business.

F. O. Kelly, present temporary postmaster, has been in the charge of the office for the past six months and has been very efficient in the discharge of his duties.

CAMPAIGN PLANS TAKE ATTENTION OF DIRECTORS OF C-C

The consideration of the plans for the expansion campaign of the Chamber of Commerce and the appointment of various committees for campaign duties will take up most of the time of the board of directors at the regular meeting scheduled for Wednesday afternoon.

The Chamber of Commerce has arranged to give practically its entire efforts to the expansion movement during the next four or five weeks. Only matters of the utmost importance will be handled by the chamber during this period.

The preliminary work of the campaign will require a number of committees. The various committees and their duties will be outlined to the board by D. H. McFarland, manager of the campaign.

He said that he was much pleased with the prospects for the drive, and believes that a better time could not have been had.

Much progress in the preliminary work of the campaign has already been made by J. R. Meeker, office manager, who has been in Ranger for over a week.

NECESSITY SEEING BUILDING ACTIVITY

NECESSITY, March 31.—There is a big rush on in building operations in Necessity. C. H. Hall has started building twenty small houses in the residence district.

They are California bungalow style. Peter Rivoletto began today a double store building, two stories high, thirty foot front, on Crowley and Houston streets. Devoux, O'Connor and Buckler have just completed a large building on Main street, three stories and a hotel.

They have also built six cottages on the same street. J. A. Crowley has today moved into his new office building, 2450 feet on Crowley street. The First National Bank of Necessity has started their building on Crowley and Wilson streets. It is to be stucco, two stories, with room for the bank, offices and a hotel.

Benjamin Scott is erecting a hotel and grill on Houston street. The Barnes Garage is now practically finished. It is sheet iron, fifty foot front.

STOCKYARDS DULL WITH CONTINUANCE OF STRIKE ORDERS

CHICAGO, March 31.—There are no fresh receipts and no livestock market today, owing to the continuance of the strike by stock yards employees.

Federal mediators today took a hand in an attempt to settle the strike of the employees of the Union Stock Yards & Transit company. Union officials stated that the men would remain out until the increase of \$30 to \$45 per month was granted, and declared that if the strike continued, livestock handlers in yards throughout the country would be called upon to strike.

SCHOOL NEAR CISCO BURNS; SMALL INSURANCE

CISCO, March 31.—The Liberty Hill school building, situated in the northern portion of the Cisco independent school district, was burned late Saturday afternoon.

The building has been idle this term, because the school board was unable to secure teachers.

Law of Values Protects Coal Consumer, Says Vice President of Operators' Ass'n.

Assure Sufficient Production and Problem of Price Regulation Automatically Solves Itself; Margin of 46 Cents Per Ton Left Operators Last Year Not Excessive.

By J. D. A. MORROW, Vice President, National Coal Association.

Recently, when the bituminous coal operators declared that they could not meet the demands of the miners for a sixty per cent wage increase and a thirty hour week without inflicting a tax of a billion dollars a year upon the public, the charge of profiteering was made against them.

Perhaps the best answer to this charge is contained in the figures which Fuel Administrator Garfield presented to the joint conference of miners and operators in Washington. Dr. Garfield's figures showed that during 1918, when 579,385,820 tons of bituminous coal were mined, the average cost of production was \$2.15 per ton, leaving an average margin of 46 cents per ton to the operator.

But this margin of 46 cents per ton, the production advocate and the Fuel Administrator explained, did not represent profit, because interest charges, selling expense, Federal taxes and sundry other items not allowed in computing costs of production were paid out of it.

This year, on account of the falling off in production, and the increased costs of production, the average margin left to the operator will be much less and his profits correspondingly reduced. In many of the mine fields the operators are making less than four per cent upon the actual capital invested by them.

One phase of the operators' business which has not been thoroughly understood to date by the public is the necessity for a difference in the price of high grade and low grade coal. The high grade coal naturally costs more to produce. In addition, it lowers the value of the other coal from which it is screened out.

Consequently, although an operator may sell his high grade coal for much more than his low grade, the average profit on his entire output is not increased because he lowers the value of his remaining product and his profits on his high priced grades are offset by his losses on his low grade coals.

In this country, bituminous coal is one of the necessities of life. Factories, mills, public utilities, apartment houses and hotels are dependent upon it to provide work, trans-

J. D. A. Morrow, Vice President, National Coal Ass'n.

ports and homes for millions of people. With so important a commodity, it is essential that both the production and the prices be right—naturally, normally and inevitably gravitate to the lowest level of production cost. Then, just as soon as any factor begins to limit production—scar shortage, labor trouble or anything else—you find that the price level begins to rise.

That being the case, with bituminous coal there is only one thing that needs to be done to take care adequately of any question with respect to prices, and that is simply to assure enough production. You do not need any price regulation whatever, under those conditions, because the market itself will regulate the price and make it low. The United States Government could not put it up, even if it fixed the price. With an unlimited production, the bottom would drop out of prices in spite of the Government.

That being the case, with bituminous coal there is only one thing that needs to be done to take care adequately of any question with respect to prices, and that is simply to assure enough production.

That being the case, with bituminous coal there is only one thing that needs to be done to take care adequately of any question with respect to prices, and that is simply to assure enough production.

CISCO EXCURSION TO STEPHENS CO. MONDAY, APRIL FIFTH

Special to The Times. CISCO, March 31.—The Cisco and Northeastern railroad will run a free excursion from Cisco to Leary, through the co-operation of the Young Men's Business League, Monday, April 5, and plans are being made to make it the biggest sale day excursion ever attempted by such an organization.

Music en route and at the townsites will be furnished by the Cisco Chamber of Commerce band.

Col. Rufus J. Lackland and Will D. Love, Leary townsites sales managers, have arranged with the business league to hold a tag sale of business and residence lots in the new town, on the day of the first railroad excursion into Stephens county.

BUSINESS CONTROL BY BIG INTERESTS GROWS IN ENGLAND

WASHINGTON, March 31.—Amalgamation of department stores in England is noted in official trade reports received here as the latest development of a tendency toward combination in each branch of England's national industries. Big stores, especially those in the more important cities, are combining through purchase or consolidation and already it has become apparent to some observers that the business soon will be concentrated in the control of a few big interests.

The American Chamber of Commerce in London reports that one of the largest department stores of that city recently absorbed three competitors and has branched out in South America through the opening of a large establishment in Buenos Aires.

"The value of advertising as a selling force is becoming more realized in England," the report said. "This movement towards amalgamation is not expected to destroy competition, though it may tend to narrow its scope."

STORM SWEEPED AREAS SLOWLY RECOVERING

CHICAGO, March 31.—Districts of the Middle West and South which were swept last Sunday by a tornado, with loss of 164 lives, are recovering and have already begun to rebuild homes. Property loss from the storm is estimated at from \$10,000,000 to \$15,000,000.

Roads Officials of Two Counties Confer Thursday

The good roads committee of the Chamber of Commerce will be hosts at a luncheon at the McCleskey cafe at 2 p. m. Thursday. Stephens county officials who have accepted the invitation are: County Judge J. W. Darden, County Commissioners McMillan, Hodges, Brown and Whitmire; County Engineer B. T. Quarles; C. O. Hamlin, president, and Curtis Hancock, secretary, of the Breckenridge Chamber of Commerce; B. S. Walker, president of the First National bank of Breckenridge and Cliff Caldwell, Eastland county officials who will be present include County Judge C. R. Starnes, County Commissioners Webb, Kemp, Robertson and Eppler, and County Engineer Eeles.

The object of the luncheon is to reach a thorough understanding as to how the best interests of Ranger, Eastland and Breckenridge can be served in the good roads which Eastland and Stephens counties are preparing to build.

It is the intention of the good roads committee from the local Chamber of Commerce to agree with the commissioners and good roads committee from Stephens county upon a point, preferably Bullock school, on the Stephens county line, where the highways to be built will join. By settling this point before actual construction begins there will be no gap in a continuous highway from Eastland, by way of Ranger, to Breckenridge.

After the luncheon the visitors will be carried on a tour of inspection over the city and immediate vicinity.

SAYS RECEIVER FOR BORDER LANDS WILL CLARIFY SITUATION

AUSTIN, March 31.—Acting Attorney General W. A. Keeling in regard to the proposed intervention of the United States in the border controversy today said that Texas did not want to appear in the attitude of asking a receiver for territory which she contends belongs to her, but that the appointment by the supreme court of a receiver for all land involved in the issue would clarify the situation and relieve Texas of the necessity of maintaining a guard on the land.

STEWART WELL IN PALO PINTO COUNTY IS GOOD PRODUCER

On the Stewart lease of the Ranger oil fields, Palo Pinto county, the Texas & Pacific Coal and Oil company drilled well No. 98 into the sand at 1,643 feet several days ago. At the time the sand was reached the production was 750 barrels. Tuesday the flow by gauge had reached 1,400 barrels.

On the Stewart lease which has an area of about 1,300 acres the T & P company has begun operations on well No. 115.

BRIDE PREVAILS ON ESCAPED CONVICT TO SERVE OUT SENTENCE

PITTSBURGH, March 31.—Heeding the request of his English wife that he serve the remainder of his penitentiary sentence which was interrupted by his escape from Rockview prison in 1917, Walter Dress is in a cell in the Western penitentiary today. He asked admission yesterday.

CISCO ATTORNEYS COMBAT HIGH TONSORIAL PRICES

CISCO, March 31.—Soaring tonsorial prices have met a telling counter attack from two Cisco attorneys, Winfrey J. Barnes and O. D. Montgomery, the attorneys, have formally vowed to cut each other's hair "until such time as both shall reach a state of baldness." Damages are waived, and the "howl method" is stipulated in the contract. A shaving clause in the original agreement was eliminated "for mutual benefit."

QUAIL SHIPMENT FROM MEXICO IS RETURNED

AUSTIN, March 31.—The first shipment of 259 quail from Mexico to restock preserves depleted by droughts of the past few years was found to be infected with quail disease and was returned to Mexico, according to an announcement from the game, fish and oyster commission. This means, said J. J. Jefferson, chief clerk, that no quail will be available for distribution this spring.

DALLAS CONSUMES 1,000 LBS. RABBIT MEAT WEEKLY

AUSTIN, March 31.—In urging the organization of a Travis county rabbit breeders' association here recently, the president of the Texas County Rabbit Breeders' association said that more than 1,000 pounds of rabbit meat are consumed each week by Dallas residents.

BERLIN GIVEN TO THURSDAY FOR DECISION

General Strike Will Follow Rejection of Proposal.

By Associated Press. BERLIN, March 31.—Leaders of the three Socialist parties today sent an ultimatum to the government requesting that it respect the Bielefeld convention and immediately suspend military measures in the Ruhr valley. It gives the government until Thursday afternoon to answer. Should it reject the proposal, proclamation of a general strike will follow immediately, the Socialists informed the government.

Leaders in Secret Session. DUSSELDORFF, March 31.—Revolutionary leaders in the Ruhr district have been in secret session many hours trying to find some way out of the corner in which they feel they have been driven by the government's measures. Most of the leaders admit defeat.

Some leaders, however, resolved to pursue the course of sabotage in regard to the mines, and possible destruction of factories, if the government troops advance. There has been a sudden tightening of food restrictions in the Ruhr area.

The rebellious German workers' army besieging West fortress, in Rhinish Prussia, has received reinforcements and has made new attacks, according to dispatches. The town of Hamm, in Westphalia, and several other places are reported to have been plundered.

NO PERMISSION GRANTED. PARIS, March 31.—France has denied the request of the German government for permission to send troops into the Ruhr district, in the neutral zone near the German border.

The reply handed the German representative said that to grant the request would be a violation of the Versailles treaty and that only an imperative and evident necessity could justify the step. It further stated that military intervention in the Ruhr district would be useless as well as dangerous.

Berlin evidently expected France to grant the request. A Berlin dispatch Tuesday said that it was announced that the national assembly of France had abandoned the demand for allied operations in the neutral zone, and had consented to grant Germany from two to three weeks to employ a strong force in the Ruhr district.

TO SURVEY SITE FOR IMMENSE DAM IN PECOS VALLEY

PECOS, March 31.—The addition of 150,000 acres of tillable lands to the Pecos valley that will mean an increase of as many bales of cotton, and a great increase in the alfalfa crop of Texas is believed to have been assured as a result of the meeting of the Pecos Valley Water Users association of Texas, of this city.

The association agreed to expend the sum of \$10,000 for a survey to determine whether the large natural reservoir, back of the Red Bluff gap, just north of the Texas-New Mexico state line, on the Pecos river, will hold water. The structure in the vicinity of the gap, which is less than a quarter of a mile across, is of hard rock, and will hold the water, but one problem is to survey the hills to the rear to determine whether or not the back waters that will find their way into eddies on the hills, will find alkali banks that will soak up the water.

The sum to be raised was divided among the seven irrigation districts that are now using water from the Pecos river, according to acreage in each district along the territory that is to be benefited.

The districts now under water have raised from one and one-half to three bales of cotton per acre during the past year, and from four to five cuttings of alfalfa.

Should the project be found feasible, the government plans to build the dam with money obtained under the terms of a bill now before congress, and introduced by Congressman Claude Hudspeth, which would permit the issuance of certificates of indebtedness by the government in return for bonds provided by the district. The dam is expected to cost in the neighborhood of \$1,500,000 but the bill asks for \$1,000,000 for the necessary canal, and taking over of the seven districts now under irrigation. T. Y. Casey of Pecos, president of the association, was instructed to accept the contract proffered by the government at the meeting.

JEALOUS WIFE WOUNDED AND HUSBAND IS DEAD

DALLAS, March 31.—J. R. Bright, attorney, was shot and instantly killed as he lay in bed and his wife is at a hospital with a bullet wound under her heart.

HUNGARY WAS "FINEST UNIT" IN PREWAR DAY

PARIS, March 29.—Count Albert Apponyi, head of the Hungarian peace delegation, in the second and concluding article on the Hungarian peace treaty which he prepared for the Associated Press, calls for a plebiscite of the inhabitants of the regions severed from Hungary by the Versailles treaty. He says:

"Comparing Hungary as she was before the war with the new states created or aggrandized through dismemberment, the situation is this: The Hungary of old is the finest natural geographic unity in Europe, whose limits are fixed by mountains and rivers; whose parts are economically interdependent, so as to make the whole almost self-supporting. For more than 1,000 years this part of Europe never gave trouble to the remainder, rather averting from it whatever trouble threatened its tranquility and safety from the east. While historic Hungary stood, the troublesome area of Europe was as distant from the center as the Balkan peninsula.

"Cohesion Almost Perfect. To make the moral cohesion of her people perfect, one factor alone was wanting: racial unity. On this plea was her dissection planned. New constructions arise on her ruins, based on the racial principles, irrespective of geography, history or political economy. We make the astonishing discovery that these constructions are racially quite as mixed as Hungary has been."

Count Apponyi declares that 54.5 per cent of the 18,000,000 inhabitants of "Hungary proper" were Magyars, 16.1 Rumanian, 10.7 Slovak, 10.4 German and the rest Serb, Ruthenian or miscellaneous. Comparing these to the newly organized or aggrandized states he says that the population of Czechoslovakia has claimed parts of Hungary containing 3,570,000 persons of which 47 per cent are Slovak and 37 per cent Magyar or German. Rumania claims territories on which live about 5,260,000 souls of which 53 per cent are Rumanian and 43 per cent Magyar or German. The population of parts of Hungary annexed by Jugoslavia, says Count Apponyi, is only 22 per cent Jugoslav, 33 per cent Magyar and 27 per cent German. Count Apponyi continues:

"These figures show that the only principle of organic unity that has been wanting to Hungary's racial unity is likewise wanting to the states artificially built up on her ruins; the difference consists only in this, that Hungary was possessed of every other principle of unity, while the new states have none, absolutely none. What is still worse, the leadership in them will be transferred to races of inferior culture, the results of which we may already notice, after one year's occupation of the territories torn from Hungary. There is a wanton destruction of cultural values, universities, high schools and

others. On the territory occupied by Rumanians, 5,000 grammar schools are deserted, the former teacher having been expelled and nobody being found to supplement him, in consequence of which more than 200,000 children are left without education of any sort. There is a conspicuously lower level of public functionaries and the general prevalence of semi-barbarous methods of government.

"What can result from this state of things? Will those people who are violently severed from their beloved old associations only to be subjected to alien government of an inferior sort—those 4,500,000 Magyars and German torn from Hungary—will they ever be reconciled to denationalization implying economic losses and cultural retrogression? Can the conscience of humanity tolerate such a downfall of millions? Anyhow it is certain that those new constructions, with no vital principle in them will be distracted by the permanence of a most violent, because most legitimate, irredentism and that through them eastern and central Europe will know no rest, till the equilibrium represented by old Hungary is restored.

Racial Matters Worse. These facts answer the question how far the destruction of Hungary and the constructions planned on her ruins might promote the general welfare of mankind? It would confer on our part of Europe the following 'blessings':

"Racial discussions, not assuaged but embittered; permanent unrest, implying danger of new wars.

"Economic difficulties enhanced; thereby social dangers aggravated.

"Cultural retrogression in government, learning, general standard of education.

"But how does liberty fare in the proposed peace treaty? In its terms millions of men would be driven from one allegiance to another, without being consulted as to their wishes. In the case of nearly half of them, of Magyars and Germans who should become Czechoslovak, Rumanian or Jugoslav subjects, you may confidently assert that it would be done against their will, that it means moral torture to them. But even the Slavs and Rumanians who would be transplanted to states racially more homogenous, can simply be 'supposed' to long for such change and there are many symptoms indicative of the reverse, chiefly among the Slovaks, Ruthenians and the Roman Catholic Jugoslavians.

Plebiscite the Answer.

"There is only one way to settle that question with a result that can no more be challenged: it is the plebiscite. And the plebiscite is what Hungary asks for and insists on. In every region claimed by our neighbors, so do we say, let the people decide; we unconditionally submit to its decision; we do not want a single soul to remain with us but by an act of free will. We have been charged with oppression of the non-Magyar nationalities; well, instead of going into argument we propose to make these same people whom we are alleged to oppress, judge of our case. If we have really been oppressors, they will gladly seize upon this occasion to break away from us; but if

they stick to the old country, then the charge of oppression is belied by those who know best. We accept this crucial test, we are anxious that it should be applied; if our opponents shrink from it, judgment goes against them by default. The good faith of both parties is then put into such clear light that in fairness the discussion must be considered as ended.

"The plebiscite offers the only solution which combines justice with expediency. It would insure the tranquility of Europe, since everybody would be where he desires. On the liberty of nations on their right of self-determination rests our whole case. Our principle is in any case foreordained to prevail after a passing hour of darkness and we feel proud of having thrown in our lot with whatever is most sacred to humanity."

LIP READING CLASSES AT AUSTIN NEXT FALL

By Associated Press

AUSTIN, Texas, March 30.—The Texas School for the Deaf at Austin will institute an adult class in lip reading with the beginning of the next term on September 15, according to a recent announcement in the annual report from the institution.

"The establishment of this course," said the report, "will enable us to make contracts with the federal government for the teaching of soldiers who have become deaf in the late war and help to rehabilitate them in civil life."

The institution now has the largest enrollment in its history, there being 246 boys and 232 girls in attendance. According to Superintendent, its capacity and the next legislature will be asked to provide more buildings.

SMYRNA IS AWARDED TO GREECE BY COUNCIL

By Associated Press

PARIS, March 30.—Smyrna and the Egean along that section of the coast have been awarded to Greece by the council of ambassadors, according to Le Matin.

NEW TOWN LOCATED IN "BIG PASTURE," WESTERN OKLAHOMA

Special to The Times.

TILLMAN, Okla., March 31.—Another event that will carry the "Big Pasture" of Oklahoma, with all its romance, back into the pages of history, is scheduled for April 6, when the Rock Island runs its first train into the baby town of Tillman, Tillman county.

Tillman is just halfway between Chattanooga and Grandfield, and the Rock Island is building an extension between the two towns which, when completed, will cut hours of running time from the schedule between Oklahoma City and the Tillman county and North Texas oil fields.

Tillman is located in what once was known as the "Big Pasture"—480,000 acres of the richest land Uncle Sam ever threw open to white settlement. The "Big Pasture" was opened in 1907. At the time of the opening it was filled with long-horned steers. It was from the excellent water and grass that filled the district that the "Big Pasture" received its name.

Now, however, the short-horn, the hereford and other breeds of beef cattle graze over the acres that once knew the long-horn and buffalo. Great herds of beef animals are raised in the vicinity of Tillman, and because its pioneers believe it will be an important cattle shipping point, they are making arrangements now for loading facilities.

Tillman is to have a celebration in honor of the first Rock Island train on April 6. Crowds from all northern Tillman and adjoining counties are present.

The Rock Island will build a molen depot as soon as the town has grown sufficiently large to warrant one, and Tillman business men say that time is no further off than next fall. They expect that most of the cotton, grain and cattle raised in a large part of northern Tillman county will be shipped from Tillman this summer.

DALLAS, March 30.—Plans are progressing for the eleventh annual convention of the Texas Cotton Ginners' association, which will be held here May 13 and 14 at the Fair Park coliseum.

ACCORDIAN PLEATS VOGUE FOR SPRING

The one-piece frock, though not as popular as last season, is still shown in many charming styles. Here is one, which bids fair to be popular. It features accordion pleats and metal thread embroidery and a naxtan leather belt.

GOOD OL' LUNCH FAIL, WITH REAL FOOD, BACK

By Associated Press

CHICAGO, March 30.—The dinner pail and lunch box are coming back in Chicago. Disguised as baskets and boxes of sporting design, in many cases, they travel the elevated and surface lines incognito nowadays. But they carry homemade lunches—slices of bread held

apart by real meat and pies covered with crust instead of dough.

Girls working in downtown stores and offices are taking the lead in this movement but the men are not slow to follow. They are content, however, to wrap their lunches in plain paper.

High cost and low satisfaction of eating in loop restaurants is said to be responsible for the return of the portable lunch.

SURE RELIEF FROM ITCHING SKIN DISEASES

Will Never Come From Salves, Ointments, or Other Local Treatment.

A million gallons of lotions, ointments, salves or other forms of local treatment will not give any real permanent relief from skin diseases. Get this fact firmly in your mind, and there is hope for you.

If you have ever been afflicted with eczema, tetter, boils, eruptions, or other similar skin irritations, you can appreciate the real terrifying discomfort that comes from these disorders. And what you are looking for is not merely temporary, palliative relief that may cause the terrible burning and itching to abate for awhile, but real genuine relief that shakes off the shackles of the disease, and restores the skin to its former healthy condition.

Follow the teachings of science, and you will learn that the skin is fed by the blood, and naturally, then, the condition of your skin will depend upon the condition of your blood. If the blood becomes

infested with millions of tiny disease germs that attack the skin, then the fiery irritation and intense itching will remain with you until these germs are attacked at their source and removed from the blood.

Genuine relief, therefore, can only be expected from a treatment that goes right to the seat of the trouble, and strikes at its cause. Such a remedy is S.S.S., the reliable old blood purifier that kills the germs of disease, and sends a new supply of rich red blood coursing through the veins.

S.S.S. has been used successfully in some of the worst cases of eczema and other skin disorders, and it can be relied upon to cleanse the blood thoroughly of the germs which cause these complaints. S.S.S. is also a splendid tonic and system-builder, and it builds up and adds new vigor to the whole system.

Go to your drug store and get a bottle of S.S.S. today, and begin the right treatment for skin diseases. Then if you feel that your case requires special medical advice, you can obtain same without cost, by writing to Chief Medical Adviser, 13 Swift Laboratory, Atlanta, Ga.

217 South Commerce

At the Leading Amusement Houses TODAY

LIBERTY—Henry B. Walthall in "THE LONG ARM OF MANNISTER."

LONE STAR—Irene Castle in "THE AMATEUR WIFE."

LAMB—Blanche Sweet in "THE DEADLIER SEX."

OPERA HOUSE—High class VAUDEVILLE and pictures; seven attractions.

HIPPODROME—Harry Feldman's "Whirly Girly" Musical comedy.

QUEEN—Bessie Barriscale in "THE ROSE OF THE RANCHO" and Tom Mix in "Love in the West."

LONE STAR

A Different Castle Picture.
Irene Castle has ample opportunity in the later scenes of "The Amateur Wife," her new picture at the Lone Star theater today, to wear the gowns for which she is famous and prove her right to be called a beauty of the screen, but in the opening scenes of the photoplay she is far from an alluring creature. This is not Mrs. Castle's fault, but rather that of the author of the story. She portrays a French convent maid—awkward, grotesquely dressed, and wearing her hair in braids, who comes to America and is injected into the gay life of New York by her mother, who is a musical comedy queen.

"The Amateur Wife" is described as a Castle picture that is entirely different from any screen work the dancer-star has done so far and as possessing an unusual appeal. Edward Dillon was the director, and William D. Carlton the leading man. It is a Paramount-Artcraft production.

LAMB

"The Deadlier Sex" at the Lamb Today.

Illogical Story Lacking in Many Points.
Just an average program feature which should get by in most any house and attract. The scenes are laid in the big city and the north woods, with preference given to the latter.

Bayard Veiller, who is the author, has given us a fair though illogical story. He has not much to tell and becoming short in ideas has resorted to the old fault, padding, thus lengthening a three-reel story into six. And his characters are not of the strong, virile type but are rather of the weaker kind in that they resort to cunning and treachery to obtain their ends. Of course there is always a fascination in scenes which picture the great outdoors and many authors knowing this seem to have built their stories around them, thus neglecting or being unable to deal with the situations suitable to the situations. This appears to be the defect in this narrative. Then again there is no strong love interest and with the exception of two fist fights between hero and villain, there are no thrills.

She wanted to teach him a lesson and at the same time protect her stockholders' interest. So she had him kidnaped and brought to the north woods where she taught him that the female of the species is more deadly than the male. After she had tamed him she promised to become his wife in order that they might fight life's battles together.

LIBERTY

"The Long Arm of Mannister," a Henry B. Walthall production showing today at the Liberty will also show tomorrow night as a part of the program given by the Glee club of the John Tarleton college of Texas.

HIPPODROME

The "Whirly Girly" Musical Comedy company at the Hippodrome this week is playing to full houses daily. Their shows have seemed to be pleasing the large audience very well. They have been using several specialties with the regular bill that as a whole are good acts.

LOTS OF COMEDY Company of 12 People

LIBERTY

At the Liberty theater all next week there will be something new in the amusement line. A bewildering, perplexing performance of mystery, mirth and melody. The Great Travelutte, the most marvelous exponent of the seemingly impossible. He shows you the mysteries of the Orient. If you are in doubt, are troubled over any question, just ask him, he knows. He is playing to turn-away crowds everywhere. Lots and lots of comedy. Fifteen people on the stage.

OPERA HOUSE

The vaudeville bill which closes tonight at the Opera House was very good and drew packed houses for nearly every performance. In connection with the vaudeville, a big Brentwood production, "Poor Relations," is being shown. This is an exceptionally good picture.

During this week the Oilbelt Motor Company will give 25 per cent discount on 32x3 1/2 Firestone, United States and Goodyear tires, while they last.

AUSTIN—Students registered at the University of Texas for the spring term number 3,986. This is an increase of 284 over the fall term and 103 over the winter term.

During this week the Oilbelt Motor Company will give 25 per cent discount on 32x3 1/2 Firestone, United States and Goodyear tires, while they last.

EARLY BURSTS OF SPEED MADE BY LONGHORNS

Special to The Times.

AUSTIN, March 31.—Track work at the University of Texas is progressing nicely in spite of handicaps imposed by the recent rains and high winds. Fairly good time is being made in several of the events and it looks now as though by the time of the first meet a good team can be assembled. Two 10 1/2-second 100-yard dash men have been shown up in the past week in addition to the veteran from year before last, Herbert Beavers. Joe Moss is back on the hurdles with every prospect of cleaning up on all comers as he has done for the last two years. DeWitt Walton has cleared five feet, five inches in the high jump and twenty-one feet, three inches in the broad jump. Other events have strong representatives.

The first meet, as now scheduled, comes on April 7, when the Longhorns and the Owls meet in Houston. This will probably be a hard meet, as there is practically no information on the Owls, but continuing rumors give them credit for having worlds of stuff. Baylor comes next in a meet in Austin. This will be close if present expectations are lived up to. The Bears have several noted athletes on the string, especially Frazier, who placed four times in the Southern intercollegiate meet last spring, and they may be able to work havoc in the Longhorn pen.

April 24 will see the Farmers in Austin. So far they have not given out much information with regard to their team, but have boasted they are going to get four undefeated teams this year. They still have track and baseball to win. A good, hard-fought meet is certain to come from them.

Prospects of the Southwestern intercollegiate athletic association for the season are good. Better material this year than in two or three years is out for training, and, consequently, better records should be hung up. It is too early, however, to predict on this branch of sport. The only factor worth noting is that Oklahoma university is out and that a new team, Phillips university, is taking her place.

SPRING BRINGS BASEBALL FEVER TO UNIVERSITY

Special to The Times.

AUSTIN, March 31.—Intramural athletics for the spring term at the University of Texas will begin early in April with the opening of the inter-fraternity baseball season. At least one game a day has been scheduled for the five weeks beginning April 5, and on several days two games have been scheduled. A total of thirty-six games will be played.

In order to facilitate the playing, four leagues were formed of the teams and these will compete for the league championships. The four champions thus selected will then play for the inter-fraternity cup. This will take the playing well into May. Keen competition is expected in all of the leagues, since in the past there has always been more interest in inter-fraternity baseball than in any other intramural sport.

MOVING CONSTRUCTION HOUSE TO WIDEN TRAFFIC LANE

The construction building in front of the Hodges & Neal building on Main street is being moved against the sidewalk. E. G. Walsh of the firm of Walsh & Burney stated that desire to co-operate with the city he was taking this action through a desire to co-operate with the city commission. The moving of the house will allow about eight feet more traffic space on Main street at that point.

WICHITA FALLS GIVES TO PAY ITS TEACHERS

By Associated Press.

WICHITA FALLS, March 31.—One hundred Wichita Falls citizens have underwritten a \$100,000 fund to be used to supplement school revenues for increased teachers salaries in city schools.

During this week the Oilbelt Motor Company will give 25 per cent discount on 32x3 1/2 Firestone, United States and Goodyear tires, while they last.

Red Cross Issues Warning Against Shyster Lawyers

Red Cross Home Service officials at Southwestern Division headquarters at St. Louis yesterday issued a warning cautioning former soldiers, sailors and marines against profiteering lawyers who exact exorbitant fees from the poor and ignorant for legal services of trifling character in connection with filing of claims against the government.

"It has come to the attention of the Red Cross," said a Home Service official, "that among a certain class of attorneys, formerly known as 'ambulance chasers,' a practice has grown up of charging fees ranging from \$100 to \$250 for filing compensation claims of former soldiers against the Bureau of War Risk Insurance. Naturally, the only ones to be taken in by these sharpers are people of the poorer classes who are vastly unfamiliar with legal formalities.

"A case in point is to be found in the illustration concerning a soldier whose claim, amounting to \$1,000, had been granted but who had been adjudged mentally incapable. It was necessary that a guardian be appointed. The family went to a lawyer. He told them the court costs would amount to \$50, which was about right. But then on top of that he exacted two more payments of \$50 each and a final one of \$25 for 'legal charges.' The family was compelled to go out and borrow the money, which they paid for at usurious rate of interest. If they refused further payment, the attorney notified them that it was all off—their claim had been disallowed. At this point they communicated with the Red Cross and matters were finally straightened out satisfactorily.

"Now it is only fair that attorneys who handle such claims should be reimbursed to some extent for their time and trouble. Court costs in such cases do amount to about \$50. Many people are unable to raise even that small amount and have to apply to the Red Cross for a loan until their claim is paid. If persons who are about to press such claims will apply to the Home Service section of the local chapter of Red Cross, they will be di-

PRESBYTERIANS WILL CALL NEW PASTOR SUNDAY MEETING

Formal steps toward the installation of the Rev. Charles M. Collins as pastor of the First Presbyterian church were started Wednesday with the issue of a call for a meeting.

"The congregation of the first Presbyterian church is called to meet at the church Sunday, April 4, at 11 a. m. to vote on calling a pastor. The session will submit the name of the Rev. C. M. Collins, D. D., for consideration. Every member is requested to be present.

"Byorder of the session. (Signed) F. W. Melvin, clerk; L. A. Jennings, Lytton R. Taylor, A. A. Abney, elders."

The call, as submitted by the church will be sent to the Abilene presbytery at Anson, Texas, April 13. A representative from the First Presbyterian church of Ranger will attend and two representatives of the Women's Missionary society. The presbytery will appoint a commission to install the new pastor.

B. AND W. M. CLUB ENTERTAINED AFTER REGULAR MEETING

The Business and Working Men's club will hold its regular meeting at the American Legion hall Wednesday night.

After the regular business meeting, the members and their wives together with workers in the clean-up campaign and their wives will be given a dance. Refreshments also will be served.

TAYLOR TAXPAYERS VOTE \$234,000 SCHOOL BONDS

TAYLOR, March 31.—Taxpayers of the city of Taylor overwhelmingly voted in favor of the issuance of bonds in the sum of \$234,000 for the purpose of building a new high school building annex to the present building on Davis street and the erection of a new ward school building in the west side.

The bonds will be sold, contracts let at the earliest possible moment in order to hasten the erection of the new buildings.

ected to competent attorneys of well-known integrity who will prosecute their claims expeditiously at fair and equitable charges."

Balmorhea Shows New Garden Place Through Irrigation

Special to The Times.

PECOS, March 31.—A passenger in an airplane gliding in the exhilarating atmosphere over Balmorhea, forty-five miles southwest of Pecos, would be surprised to see a "patch" of 10,000 acres of alfalfa in west-most people have considered as a wilderness in the "wild and woolly West." The Davis mountains have cast a shadow over the Balmorhea country which has been its success and redeemer. Irrigation from springs and flood water have transformed this peaceful valley into a wonderful land of promise as grand and productive as the Garden of Eden.

The Balmorhea irrigation district has conclusively proved what can be accomplished where brain and brawn have teamed. The ravines and defiles of the lofty Davis mountains were provisionally cut there to let out the flood waters from the sometimes torrential rains which fall only in these sentinels of the West. They have been so constructed, for engineering skill has encompassed them about with mounds of earth to convey their waters into a mammoth earthen receptacle further down the hills, where this collection of water may be called upon at any time to refresh growing alfalfa and other vegetation. And near these gorges have sprung up wonderful springs which carry forward life to parching vegetation. Phantom lake, near Toyahville, on the Pecos Valley Southern, is a considerable spring. Where it boils up from the earth it makes a miniature lake, which is well stocked with fish. The lake has an outlet through a canal that reaches into the farming fastness for more than ten miles.

Three cuttings a year of alfalfa are taken from these Balmorhea, Drogada and Saragossa farms. Land sells for not \$10 to \$30 an acre, as you would think, but an even \$1,000, or even more. Yet land in the vicinity of the irrigated district, which is not irrigated, would hardly bring \$5. It is, therefore, a question of water entirely.

Closer to Pecos irrigation of considerable tracts of land from shallow wells has been attempted with all the earmarks of success. John Wendt's farm is an illustration. It is ten miles south of this city. This year he will plant 120 acres

in cotton, all of which will be irrigated by one well whose water is lifted by a centrifugal pump. Last year Wendt's land netted him \$20 an acre planted in cotton. The water in his well was found at seventy-two feet and rose to the 30-foot level, below which the pump has been unable to lower the water. There is only one farm in that section now irrigated by wells, but the example of Wendt will not be long left unfulfilled.

In this city are 200 artesian wells which jet water ten feet into the air. A few years ago these wells were strong enough to force water into the second story of a building. The pressure has been weakened by the more liberal use of water in this section for irrigating new farms.

Barstow. All the land which will be benefitted is at present unproductive because the rainfall is too light. It has been figured that this land, now worth about 50c to \$1 an acre, would then rapidly advance to \$1,000 an acre. Outside of the additional valuation placed on it, the production would be sufficient to pay the government the first year. When an acre of Pecos land, watered, will produce 19,000 pounds of tomatoes, which readily sold at from 5 to 10c a pound, one can imagine what this great

project will mean to Pecos, Barstow and other points in the Pecos valley.

THE NEWSPAPER REPORTER

It is the custom for the layman of limited knowledge of the world and the people in it to speak of a newspaper reporter disparagingly; to talk with him condescendingly; and to take unto himself an air of superiority when one is near. Reporter?—he says to himself—Oh, reporter is a young chap trying to make an honest living until he gets into some more business-like line of work. In other words, a creature to be tolerated. Thus is his own ignorance shown.

Yet we wonder, does the "average business man" fully understand the functions of a reporter, his business ideals, and the power which he may wield at times? Not all reporters are young chaps "trying to make an honest living." Some are old men maying magnificent incomes.

Several years ago we were traveling with one of these older men, who has reported every great world event in the last generation; a man who knows intimately some of the great statesmen of five countries, and a person who paid an income tax on a year's salary of over \$25,000. A fussy little chap, who looked as though he might be a vendor of suspender buttons on commission, came puffing into the smoker and inquired:

"What's your line, brother?"

And the man whose name was a household word among readers in America and England answered casually: "Oh, I'm just a reporter."

"Must be pretty bad to be a reporter at your age," was the response. "Well, I live in Cincinnati, and if I can ever do you a good turn, come in and see me." The older man thanked him gravely. Half an hour later the fussy little man was telling the smoking-room crowd that "so-and-so is one of the biggest writers in America." And there was "so-and-so" sitting opposite him, having been ignored after the opening sentence, because he had had the modesty to label himself "just a reporter."

Reporters? Yes—they range from the youngster just out of college to the veteran Frederick Palmer, who calls more famous generals by their first names than any other living man; from the quiet fellow in the small town who goes about his business without puffing out his chest, to genial Irvin S. Cobb, whom the Germans thought important enough to be sentenced to death in 1914—but whom they didn't dare shoot.

We've read many interesting books, but we believe that the most interesting volume that could be written just now would be one compiled by one of our reporters, who could write with facility on "The Four-Flushers I Have Met." To the average man chronicling the day's activities for the press, brass is seldom mistaken for glittering gold, though the rest of the public may frequently be deceived.—The Nashville Tennessean.

Principles, Wells and Old Man Jones' Surveyor's Account

Old Man Jones was a carpenter by trade. His work was that of a master. Other than this he was wise in many ways. He was fond of saying that he had built his reputation on principle, and from a principle that he had set for himself he would not deviate.

Jones had a family of five sons who he was sending through school and college, consequently he had not gathered much of the world's goods. To carry five with him to the top of the ladder was too much load, he often said. Still he was wise and set a lot of store by principle.

Near Old Man Jones' home there was a piece of land that he had wanted for a good, long time, but he was afraid of debt and hesitated to buy the land. Nevertheless he finally persuaded himself that he could make the payments in buying and his principles would not be violated. A deal was entered into with the owner of the tract. But before the sale could be carried through the land had to be surveyed. Nothing was said as to whether the buyer or seller would bear this expense. After the survey was made Jones would not pay the surveyor. Neither would the owner of the land. Jones declared he did not mind the two dollars charged, but it was the principle of the thing.

The five sons finished college. Old Man Jones is still a good carpenter. The land has several oil wells upon it. Because he was honest and believed in principle, Jones later paid the surveyor.

GRADUATE NURSES AT UNIVERSITY OF TEXAS

AUSTIN—Twelve graduate nurses have registered for the course in public health nursing at the University of Texas for the spring term. The students of the winter term who completed their theoretical course March 20 are now in Houston engaged in field work under the direction of Miss Sabina Fritsch, supervisor of public health nursing.

DEDICATION OF TWO NEW BUILDINGS AT TEXAS UNIVERSITY

Special to the Times.

AUSTIN, Texas, March 31.—Dedication of the Wrenn library and the Education building of the University of Texas last Friday were held by Texas was held last Friday. The dedication of the Wrenn library, Major George W. Littlefield's gift to the university, took place at 3:30 p. m. The dedication exercises of the Education building were held that night. The two buildings housing the Wrenn library and the School of Education are the first of a quadrangle of buildings planned for the University, each of which follows a type of Renaissance architecture.

The library building of the University of Texas was erected in 1909 and 1910. It is built in the style of the Spanish Renaissance, of brick, faced with cream-white limestone. Concrete pillars and floors are used throughout. On the outside of the building iron grills and balconies relieve the severity of the architectural style. A border of polychrome terra cotta adds greatly to the beauty of the design, standing out boldly against smooth white walls. The Wrenn library was purchased by Major Littlefield from the estate of the late John W. Wrenn of Chicago, the consideration being \$225,000.

The building is three stories in height including the basement, and contains seven tiers of book stacks. The ground floor is 120x43 feet. The general reading room on the second floor will seat approximately 300 students. The cost of construction was announced at the time of completion as \$250,000. J. E. Goodwin is librarian.

The corner stone was laid November 2, 1910, the Masonic lodge having charge of the ceremonies. Governor T. M. Campbell delivered the principal address. The building was planned largely by N. L. Goodrich, at that time librarian, and now at Amherst college.

At the dedication of the Wrenn

library, R. E. Vinson, president of the university, H. A. Wroe of Austin, representing Major George W. Littlefield, Richard F. Burges of El Paso, and Dr. R. H. Griffith, curator of the Wrenn library, delivered addresses. After the completion of the program the Wrenn library was thrown open to visitors.

The Education building was first planned under the administration of Acting President J. W. Battle. Construction was started in 1916, and the building was completed the following year. The style of architecture is of the modified or new Renaissance type. The ground floor is of Lueders stone, a white limestone quarried in Jones county. The upper stories are constructed of tan brick. The building, fixtures and incidentals cost approximately \$246,000. It was planned under the supervision of Cass Gilbert of New York, and George Endress, resident architect of the university. The building is 100x400 feet in size. The structure is fireproof throughout with concrete floors, marble and plaster walls and red tile roof. The furnishings of the building cost \$25,000.

Besides the administration offices, which occupy the entire first floor, the building contains class rooms on the second and third floors.

Dr. A. Caswell Ellis, professor of the philosophy of education, presided

at the dedication ceremonies of the Education building. The following program was carried out:

Address—Dr. Frederick Eby, acting dean of the department of education, University of Texas.

Address—Dr. Robert E. Vinson, president University of Texas.

Dedicatory Address—Dr. Elwood P. Cubberley, Leland Stanford Jr. university.

Immediately after the exercises the Education building was opened to visitors for inspection. It was illuminated by spotlights from the outside, with all offices and classrooms lighted.

During this week the Oilbelt Motor Company will give 25 per cent discount on 32x3 1/2 Firestone, United States and Goodyear tires, while they last.

G. C. Scott, owner of the DeGross hotel, is in Ranger from his home, Waco, visiting his brother, Ben S. Scott, manager of the DeGross.

TWO DAYS ONLY—FRIDAY AND SATURDAY

IS SHE STILL ALIVE?

For over four years a young Greek in America had not heard from his aged mother, who lived in Constantinople. Eagerly he watched the mails for a letter. Month after month he sent her money for food and clothing, but never knew whether she received it or not. Four years passed without a word from his dear old mother and he was frantic with grief and despair. Then the war ended and he hastened home on the first boat that sailed for Constantinople to find out if his mother was still alive.

The terrible strain of the war has affected nearly everyone. American fathers and mothers have suffered in silence, waiting day and night for some word from their boys far away in the army. Thousands of foreign-born Americans have waited in vain for a letter from their father, mother, sister or brother across the sea in war-torn Europe. Grief gripped their hearts when they thought of their loved ones cold, hungry and despairing amid their ruined homes and the graves of their dead.

How could they laugh when they were sick at heart? How could they help grieving as day after day went by and no letter came. The mother, whose son was grievously wounded and at the point of death somewhere in France, could not go to her boy. She could but wait and pray for him.

With the clutch of fear at their hearts and nerves strained to the breaking point, many fathers and mothers have bravely smiled, but the strain and suspense have brought the gray hairs, lowered their vitality, exhausted their strength and undermined their health.

Many soldiers have returned home to find their mothers, fathers, sisters or brothers have broken down under the terrible strain of the war. Many have found vacant chairs in the family circle when they came back from France. The "flu" has left thousands of people weak and exhausted, as if they never will get their strength back again.

If you feel weak and lack strength, or are nervous, rundown, tired out and exhausted, REOLO, the wonderful discovery of Dr. A. L. Reusing, will renew your strength and make rich red blood, vitalized with life-giving oxygen and the cell-salts that nature requires to rebuild the exhausted nerve cells.

REOLO has remarkable tonic and strengthening qualities. It tones up the heart and nervous system, stimulates the appetite, aids digestion and sends through the entire body a stream of rich red blood, vitalized with oxygen, that makes the cheeks glow, the eyes sparkle and the whole body thrill with vigor and vitality.

REOLO is sold in sealed packages containing 100 tablets, sufficient for two weeks' treatment. It only costs one dollar a package and is Positively Guaranteed to give beneficial results or we will gladly refund your money. Thousands of people, who have been suffering from nerve strain and enervating diseases, have been restored to health by Dr. Reusing's wonderful formula.

Too Weighty for Stage, Elephants Amuse Children

In the vaudeville bill at the Opera House this week four massive elephants are supposed to make their appearance on the stage. The stage at the Opera House is not considered substantial enough to bear their combined weight and they are not being used in the bill.

But to please the children the elephants are being placed on exhibition at the schools. On Tuesday they were shown at the Central school, and on Wednesday they were at the Young school. Thursday the Cooper school will be visited.

FRANCHISE GRANTED TEXAS PIPE LINE CO. BY CITY COMMISSION

An ordinance granting the Texas Pipe Line company a franchise to use the streets and alleys for the purpose of installing private telephone and telegraph lines was passed Tuesday afternoon by the city commission which met in regular session. This ordinance must be published and passed to the second and third reading then published twice before it becomes a law.

In the course of business R. D. Clancy presented his plans to build Shamrock park into an amusement park and asked the commission to approve his plans. The approval was granted.

Before adjourning, the sanitary inspector was instructed to enforce the law which directs residents who live within 150 feet of sewer and water connections to connect with the sewer.

JOHN TARLETON MEN'S GLEE CLUB TO ENTERTAIN HERE

Theatergoers of Ranger will be given an opportunity to hear the Men's Glee club of John Tarleton college tomorrow night, at the Liberty theater. It is composed of twenty high class singers and entertainers.

H. Andre Smith is personally directing the work of this glee club, on a tour of the state. Music lovers are given a splendid opportunity for hearing a concert of real merit.

COMING SOON— "SEX" The Greatest Picture of All—See the "Runner" at THE LIBERTY

Noted Naval Hero Gives Lecture at Baptist Church

Richard Pearson Hobson, hero of the Spanish-American war, will lecture at the Baptist church, Wednesday evening at 7:30 p. m. The subject of the lecture will be "America and the Destiny of the World." No admittance charge will be made.

Admiral Hobson is making a coast to coast speaking tour of America. Ranger, El Paso and Fort Worth are the only stops to be made in Texas.

FEBRUARY REPORT OF RED CROSS HERE SHOWS ACTIVITIES

The February report of the Ranger branch of the American Red Cross as rendered by Mrs. Philip Pettit, executive chairman, is as follows: Sixty-seven cases carried over from January; eight class A allotment cases, five closed; four class B allotment cases, three closed; three class C allotment cases, two closed; twenty-one vocational training cases, twelve closed; twenty-six government compensation cases, six closed; eight lost discharge cases, eight closed; four bond cases, three closed; seven fourth liberty bond cases, none closed; fourteen family cases, twelve closed; ten insurance cases, none closed; twenty-eight cases furnished information; two cases of tracing lost men, one closed; ninety-six total number of cases on books for February; sixty-seven cases brought forward; 163 total number of cases; sixty-three cases handled in Ranger office; thirty-four cases handled by mail; 146 letters written on Ranger cases.

SATTERWHITE SHOWS NEW SHALLOW SAND BUT DRILLS AHEAD

NECESSITY, March 31.—The Aubayne Oil and Gas company well on block 21, townsite, was shot Saturday night but bridged. It is being cleaned out, but shows indications of being a good well. The Gulf Production Co's well on the Satterwhite tract back of the school house, townsite, has struck a sand new to this district, at 2,200 feet. There is now oil standing in the hole. The well is being drilled deeper, although it could be brought in now. It looks as though this well might come in naturally. The Crowley No. 3, Gulf Production, townsite, will be shot this week.

During this week the Oilbelt Motor Company will give 25 per cent discount on 32x3 1/2 Firestone, United States and Goodyear tires, while they last.

Early Arrivals Making Most of Balmly Weather

Bill Lynch heaved one over and Big Boy Browning lean on it. The ball rose in a clean line and traveled to deep left, calling for more leg work on the part of Mooney, who was tending that pasture.

Though the regular tryouts will not start until Thursday, the Nitros that are at hand are making the most of the ideal training weather. "Mac" McCormick, late of the Wichita Falls Spudders, was out with the boys yesterday. Marshall, a new outfielder, was also out for the first time. He played with Snake River, Idaho, last season, the company from which Chick Gandil went up and where hick now holds a managerial berth.

Mooney, outfielder, who worked out with the Minneapolis Millers last season, but was hit with such a severe charleyhorse that he could not play all season, is proving that last season's soreness isn't bothering him this year.

Thursday's workout will end with a good cross-country run and then to the showers. Work on the field and stand is progressing and it is hoped that the stand will be in good shape by the start of the season.

FALL FROM HORSE PROVES FATAL

J. M. Clark, fifty-one years old, who suffered a broken neck from his horse falling with him last Friday, died at a local hospital Tuesday.

The Milford Undertaking establishment will send the body to Weatherford, the dead man's home, Wednesday, for interment.

Three sons, W. P. Clark, Roy Clark, and Bryan Clark, together with two daughters, Ollie May Clark and Mrs. J. K. Hatcote, survive the deceased.

OIL WELL SUPPLY CO. MAN TO BURMA, INDIA

Mr. and Mrs. Eugene Carney left Thursday for Burma, India. Mr. Carney is with the Oil Well Supply Co., and is being transferred to their branch in India.

They will visit their parents in West Virginia before sailing. Mr. and Mrs. Carney have made many friends during their stay in Ranger.

PERSONALS

Leon D. Brooks has returned from two weeks visit in Los Angeles, California. Dr. T. C. Terrell, brother of Dr. C. O. Terrell, city health officer, arrived from Dallas Tuesday. Dr. Terrell is connected with the Terrell Laboratories of Fort Worth, Dallas and Ranger.

Edward L. Marston, president and general manager, and J. R. Penn, secretary of the Texas Pacific Coal and Oil company, of New York City, were in Ranger Tuesday on a tour of inspection of the companies properties.

M. T. Clements, manager of the architectural firm of David S. Castle, has returned from a several days business visit to Straun and Gordon. Mrs. Clements accompanied Mr. Clements upon his trip.

Mr. and Mrs. W. A. Foster of Los Angeles, California, are registered at the Hotel Theodore.

David S. Castle is in the city from Abene, who has extensive property interests in Olden, Eastland and Abiene, was on business in Ranger Tuesday.

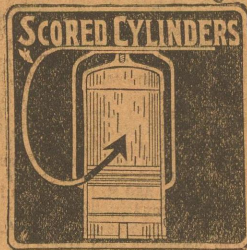

Mills Davenport, a local real estate dealer, is in Fort Worth for several days on business.

C. E. Black, of the firm of Black Brothers, has been in Shreveport for several days on business for his firm.

E. A. Gault, attorney of Ardmore, Okla., is in Ranger on legal business.

During this week the Oilbelt Motor Company will give 25 per cent discount on 32x3 1/2 Firestone, United States and Goodyear tires, while they last.

SOUND ADVICE ABOUT EATING

Alabama Lady Says We impose on Nature by Over-eating, But Thedford's Black-Draught Will Make You Feel Better.

Paint Rock, Ala.—Recommending Thedford's Black-Draught to her friends and neighbors, Mrs. Mary Manning, of this place, says: "I never have and never expect to find a better medicine than Black-Draught. When I've had a cold and needed a laxative, I used Black-Draught. I use it for sour stomach, headache and indigestion, and it does the work."

"I believe most ills we have are caused from inactive liver. We impose on nature by over-eating, and then the liver don't act. We get lazy and no-account. It is hard for us to do our work, and we'd get real sick if we didn't take something. The best remedy I have found yet is Black-Draught. It doesn't leave you constipated, and I feel better after taking a round of it."

Made from purely vegetable ingredients, Black-Draught acts in a natural way, and is free from the bad after-effects of so many mineral drugs.

Get a package today. Be sure that it bears the word "Thedford's." Thedford's is the only genuine Black-Draught liver medicine.—Adv.

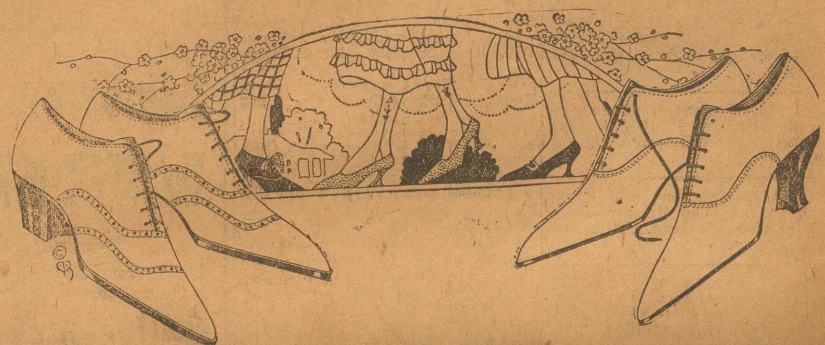

Just take a certain sum, ever so small, and put it in the bank each pay day, and soon you'll be surprised to see the size of your balance.

That will stimulate your interest in saving, and soon you will have your first thousand dollars, and the only hard thousand to accumulate. More thousands to your credit will follow easily.

Try it. Begin now.

Brief Texas Notes

SAN ANGELO, March 30.—J. M. Pfluger, who has just moved to San Angelo, is in possession of a thin, faded copy of the Ulster County Gazette, a newspaper published in New York state in 1800. It contained many interesting accounts of sessions of the United States Congress of 1800 and a description of the funeral of George Washington in December of the previous year. Accompanying the latter account is a poem upon "the father of his country," contributed by a young lady, and an address of President John Adam.

The advertisements include one man advertising "one-half of a saw mill and a stout, healthy, active negro wench." The old English style of letters was used in spelling and the letter "f" appears instead of the "s" in all places.

GALVESTON, March 30.—Imports valued at \$969,192 came through the ports in the Galveston district during the month of January, according to a statement issued by the customs officials. Foreign exports of \$97,397 were handled during the same month.

AUSTIN, March 30.—The legislature which allows chambers of commerce to pay a blanket license of \$100 for carnival companies operating under their auspices is confined to strictly to chambers of commerce, according to a recent opinion by the attorney general, and does not include volunteer fire companies, clubs or other organizations.

FORT BLISS, March 30.—Dirigible balloons are soon to supplement airplanes on patrol duty along the American-Mexican border, it is understood here. Border residents, long since grown calloused toward mere airplanes, will thus be given an opportunity to twist their necks in watching the big cigar-shaped bags whirl overhead.

Two dirigibles are said to have been shipped from Langley Field, Va., to Brooks Field, the lighter-than-air station at San Antonio. Here they are to be inflated and tested out prior to taking the air for Fort Bliss, where it is understood they will be stationed.

The advantage of the airship over the airplane for patrol work is that it can stop its engines and hover over one spot if the pilot chooses. Also they are said to be much safer than the plane.

EL PASO, March 30.—A cardboard sign inscribed "Fourteen Blocks to Hell" was recently strung on an electric wire at the corner of El Paso and San Francisco streets. Before it was removed two days later some person subscribed the word "Juarez" for "Hell." Police say the joker evidently attended a recent sermon here in which alleged vice in the Mexican city was attacked, the minister's text being "Seven Ways to Hell."

Juarez is fourteen blocks from the corner where the sign was found. Saloons and gambling prevail there.

GALVESTON, March 30.—The Texas State Historical society has started a movement for the establishment in Texas of a great public museum, which will hold collections of antiquities, historical records, coins, rare books, art treasures and other valuable public records. The need for such a museum was pointed out at the annual meeting of the association at Austin and a committee headed by Mrs. A. B. Looscan of Houston, president of the association, appointed to consider ways and means for its establishment. If present plans mature, it is said, the proposition of the American Legion to establish a "battle abbey" in the museum will be adopted. This room would be a memorial to Texans who gave their lives in the world war.

GALVESTON, March 30.—Debutantes of this city will observe Belgian forget-me-not day, April 3, by selling tags decorated with the colors of that country at downtown booths, the proceeds to be turned over to the Queen Elizabeth fund.

EL PASO, March 30.—Border sprint records were fractured recently, according to immigration officials, when a young man from Fort Worth "made" the Stanton street international bridge from Juarez in something "less than ten seconds."

Hatless and coatless, the sprinter flashed by both Mexican and American border guards and piled into the American immigration bridge office "panting like a steam engine."

"They stole my hat—and my coat—and my necktie—and my money—and my tobacco," he panted, "and they told me they'd give me ten seconds to get back into gringo territory. And I guess I didn't need all that time!"

Inquiry developed that "they" were three unidentified Mexican hold-up men operating in Juarez.

The victim was taken to police headquarters for investigation and was later released. He said it was his first and last trip to Juarez.

DALLAS, March 30.—Not satisfied with ten chickens stolen from Nick Broganza of Dallas, a thief added the chicken house for good measure. The police have a description of the hen and their abode.

SPORTS

By JACK VELOCK.
International News Sporting Editor.
NEW YORK.—Little Johnny Coulon, former bantamweight champion failed in his attempt to come back.

Reports of his recent meeting with Harley Ledoux in Paris indicate that the little Chicago boxer is but a shadow of his former self. Ledoux disposed of Coulon easily in six rounds, but it was not the Coulon of yesterday.

Bald Johnny was strongly advised against taking on such a vigorous opponent as Ledoux in his first attempt to come back. But he insisted on the match which proved so disastrous. He was lured back to the ring by the greatly inflated values that are ruling in Boxiana since the war. He probably thought, also, that the present crop of bantams is below the standard of the old days when he reigned as champion.

Coulon is thirty-one years old. He was born in Toronto, Canada, February 2, 1889, but moved to Chicago with his parents in his early years. He was recognized bantamweight champion of America for some seven years, although a pretty rugged little fighter he was.

Johnny laid claim to the title when Jimmy Walsh retired in 1907. He has the distinction of defending it at weight varying from 105 to 116 pounds, and it was at the latter poundage that he finally relinquished his crown to Kid Williams, the sturdy Baltimore bantamweight.

Managed by his father, Coulon was skillfully steered away from dangerous opponents for a long while, but in 1912 he must have seen the handwriting on the wall forecasting the demand that he come out and battle the best of the coming crop. At that time Kid Williams was just beginning to bask in the fistic limelight, but it was not until 1914 that the Baltimore Kid got Coulon into the ring.

Williams overpowered Coulon in three rounds in the knockout route. There was no denying the Baltimore boy, and he surely had a clean claim and a tight hold to the title. In order to get the match Williams was forced to hand Coulon \$1,000 when the articles were signed.

The previous year Williams had knocked out Ledoux, the boxer who so recently beat Coulon, and when Johnny succumbed to Williams punches the boy from the Oriole City became the recognized world's champion, for in beating Ledoux he defeated a boxer who had beaten the best bantams in the other half of the world.

Coulon practically retired after his defeat by Williams. His attempt at a come back was a big mistake.

Nineteen-twenty is going to be a banner year for the trapshooters. Thirty-six states and four Canadian provinces have been granted registration.

for championship matches and tournaments during the year.

The first trapshooting event of any importance will be held in Arizona in April, starting the 9th, and from this date on until the Grand American Handicap is shot off at Cleveland, Ohio, August 25-28, the shooters will be busy at the traps almost continually. Sectional handicaps are on the schedule this year and the many state championships are expected to bring out bigger fields of shooters than ever before.

The big events to be held under auspices of the American Trapshooting Association, not including the state events, which are sanctioned by the ruling body, are as follows:

Grand American, Cleveland, Ohio, August 25-28; Southern, Washington, D. C., July 29-31; Pacific Coast, Walla Walla, Wash., June 14-16; Eastern, Lancaster, Pa., July 22-24; Great Lakes, Mason City, Iowa, July 27-29; Prairie, Omaha, Neb., August 31 to September 2.

KANSAS REPUBLICANS MEET TODAY TO SELECT "BIG FOUR"

International News Service.
SALINA, Kan., March 31.—Will Governor Henry Allen be given the entire support of the Kansas Republican delegation to the Chicago national Republican convention?

This question will be answered probably today at the state convention of Republicans, meeting here to select the "big four" delegates to Chicago, and to instruct them. Efforts are being made by friends of the governor, led by William Allen White, the Emporia editor, to back Allen.

The governor, on the other hand, has declared himself for Major-General Leonard Wood for the nomination. Opposition to Wood, however, is based almost altogether on his military training plan.

GREATEST LOOM-END SALE

SALE COMMENCES THURSDAY, APRIL 1st 9:00 A. M.

.. THE WINNER STORE ..
RANGER, TEXAS
\$100,000 WORTH OF MERCHANDISE, CONSISTING OF NEW SPRING AND SUMMER LADIES' READY-TO-WEAR, MEN'S AND BOY'S CLOTHING, SHOES, DRY GOODS, Etc.

15 DAYS ONLY TAKE ADVANTAGE OF THIS OPPORTUNITY

The Greatest Sale ever installed in the State of Texas will open at the WINNER STORE in Ranger, Texas, on Thursday, April 1. The LOOM-END SALE will continue for 15 days only. We want everybody to make a visit to our big store while the LOOM-END SALE is on and see for yourselves what a wonderful stock of goods you have to make your Spring and Summer purchases from. Our warehouses, storerooms, and shelves are crowded with goods. They are all going in this tremendous LOOM-END SALE. Everything will be marked in plain figures, so the youngest and most inexperienced buyers can get the same value for their dollar that the experienced buyers get. We invite you to figure for yourself the great buying advantages this LOOM-END SALE means for you. Never in the history of our mercantile business have we bought goods in such large quantities. We could not today go on the market and buy goods at such astounding low prices that you will find on our counters during this sale. You will meet with courteous treatment in every department by experienced gentlemen and lady salespeople. You will find them ever anxious to serve you. We feel sure that in putting this LOOM-END SALE on just at the beginning of Spring and Summer season that we are going to have a tremendous rush of business, so come early and make your selections before our big stock is broken. Remember the sale starts Thursday, April 1st. We have not mentioned all our bargains.
