

GOVERNOR HOBBY IS NOT A CANDIDATE

SPERRY WANTS \$500 IN LUMP FOR SOLDIERS

Head of Privates' Legion Scores "Miserly" Payment Measures.

WASHINGTON, March 5.—Payment of a lump sum of \$500 to each man who served in the military or naval forces of the United States is urged before the house ways and means committee by Marvin Gates Sperry, national president of the Private Soldiers and Sailors' Legion.

He opposed the proposals of other soldier organizations for adjusted compensation varying from \$30 to \$50 for every month of service and said that the services of 4,000,000 young Americans could never be paid "by skipping, miserly additional compensation bills pending before congress."

He declared that the funding of \$400,000,000 annual interest due on foreign obligations proved that the government was "not weak financially but could give financial relief to all former service men."

BREAD PRICES GO SKYWARD THRU AUSTRIA

VIENNA, March 5.—The Austrian government has refused longer to bear the burden of the loss of about 13,000,000 crowns a week to cover the difference between the purchase and selling price of cereals and, consequently, has raised the price of bread and flour.

This problem of providing bread and flour at prices which the people can afford has been made much more difficult by the constantly declining exchange value of the crown. In the latter part of January the treasury was paying 260 crowns to a dollar while in some private trades as high as 310 crowns were paid for a dollar.

The food problem has been made worse by the failure of neighboring countries to live up to agreements and contracts. For months Jugoslavia has had some 3,000,000 real dollars of Austrian money which was given to pay for stipulated food supplies. In not one week, it is said, has more than a small percentage of the agreed upon amount of foodstuffs been delivered, although, according to Allied investigations, there is a food surplus in Jugoslavia.

Neither the pressure of the Entente, representations of the sub-commission of the reparations commission, nor the visit of Chancellor Renner to Prague has brought Czecho-Slovakia to the fulfillment of her coal agreements. The proportion of the agreed upon coal deliveries from that country has been negligible and is regarded as the principal factor in Austria's present plight.

The disruption of the railway system of the old empire also plays a vital part in present conditions. It was designed as a single system and adapted to the needs of the then existing state. But it has been broken into separate systems in each country. Austria, Bohemia and Jugoslavia, each is attempting to operate its portion as independent system while railway experts of the Allies have pointed out in vain that none of them can be made efficient under the circumstances. There has been an unequal distribution of cars and locomotives and while the Entente representatives and commissioners are struggling with the problem of a fair allocation of rolling stock and motive power, each country charges the other with diverting its cars when sent across the borders or using them to the delay of their return.

FANS ANSWER TO CHALLENGE IN TITLE RACE

Resolved to be first under the wire with the title for the Ranger baseball club of the West Texas league, applicants started besieging the sporting editor of the Times Thursday evening, shortly after the issue starting the contest was on the streets and in the homes of Times readers.

From as many angles as there are avenues to success in Ranger, are the names derived, and they have their foundation on good old baseball tradition, the oil industry, the rainbow and the war and the zoo.

They are still coming in, and the judges so far have expressed no preference as to the title which will carry off the \$25 hung up by the Times and Jim Galloway, manager of the Ranger club. Should the winning title be submitted by two, the first in gets it, the postmark to determine the winner. So the element of time enters into the game, but it is quite possible that the name which knocks all uncertainty from the trio of judges may come in on the last post.

Those favoring the oil industry have submitted: Drillers, Oil City Lads, Oil Jackies, the Wildcaters, the Case Riggers, the Gassers, the Greasers, the Skid Busters, the Oil Magnates and the Oil Snouters.

The favorites of baseball tradition are the Giants and the Pirates. The "Rangers" is a title that comes in for quite a play. The "Cowboys" also is submitted.

A note of admitted superiority is sounded in the "Champions" and the "Invincibles," which might not be without its effect on opponents.

The rainbow is not forgotten, as evidenced by the Reds, the Blues, the Grays and the Maroons.

There are suggestions of wartime nicknames, which were covered with glory.

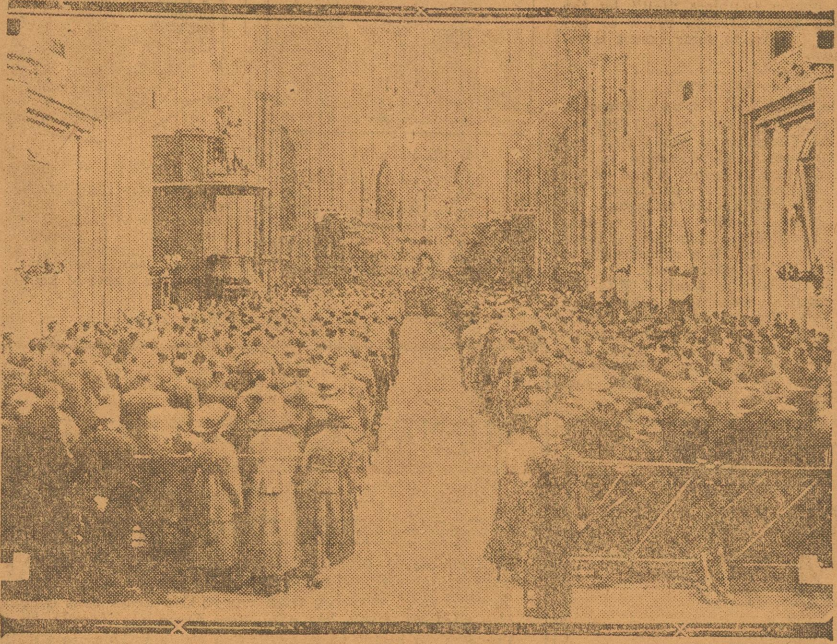

The contest is yet young. The name should be symbolic of Ranger, speedy and preferably short, though no-entries are barred.

Only a fraction of the names submitted are told here and none have been passed on by the judges. All entries will be held until the contest is closed before the judges pass on any of them.

BROOKS HEIRS WANT RETURN OF EARNINGS

EASTLAND, March 5.—The Brooks heirs, owners of the Brooks heirs tract near the Pleasant Grove district, are suing the Texas & Arkansas Oil and Gas company and the Little Giant Oil company for the recovery of property and for the recovery of past production. The petition alleges that the companies obtained the lease from the junior members of the family, who were minors. A receiver ship was asked for and granted by Judge E. A. Hill, who appointed H. P. The'sford receiver for both companies.

FEW REMAINING SOLDIERS IN FRANCE HONOR DEAD COMRADES

The memorial services in the cathedral at Bordeaux.

The photo above depicts one of the closing scenes in America's participation in the world war. A few straggling members of the American expeditionary forces remain in France gathered recently in the beautiful cathedral at Bordeaux to honor the memory of the thousands of U. S. boys who fell in the war. "Civilians" many of them relatives of some of the dead heroes, attended the services.

DALLAS BISHOP AT DEDICATION OF ST. RITA'S

The interior work on St. Rita's Catholic church has been completed. During the course of the week pews arrived and were immediately installed. The church will be dedicated next Sunday by the Rt. Rev. Joseph P. Lynch, D. D., bishop of the diocese of Dallas.

Besides a number of clergymen from various parts of the state, there will be in the bishop's party the Rev. M. S. Winnie, president of Dallas university, and the Rev. Joseph Keller of Slaton, Texas. The Rev. R. A. Gherkin, pastor of St. Rita's church, announces that the newly organized choir will be under the direction of Mrs. Falter Clooney and Mrs. John Maynie.

TURK CABINET MAY SCOFF AT ALLIES POWER

CONSTANTINOPLE, March 5.—The Turkish nationalists expected to be prominent in the new cabinet, now considered, will strongly oppose the ratification of the peace treaty, if it does not recognize the claims of the nationalists.

Even Mustafa Kemal, nationalist leader in Anatolia, and generally considered to be the real power of Turkey, may be on the cabinet. It is becoming clear that the Kemal forces in Asia Minor will not accept peacefully the partition of Asiatic Turkey which the supreme council is believed to be contemplating. The Kemal organized forces are estimated at from 700,000 to 1,000,000 with the co-operation of various Arab and Kurd bands. His supporters predict war this spring or sooner, if the Greeks are left in Smyrna and the French in Cilicia.

Though control of the Turkish chamber of deputies, it is asserted that Mustafa Kemal's nationalists virtually dominate the Constantinople government and laugh at the Allied threats of the sultan and the allied naval displays in the straits.

The real government is at Angora, beyond the reach of the naval guns, the nationalists boast, and the allies cannot recruit armies or raise sufficient money to carry on a war in the interior of Asia Minor or to retain the occupied sections.

MEN IN AUTO HEARSE WIN THRILLING RACE WITH DEATH

INTERNATIONAL NEWS SERVICE. ALIFXANDRIA, Ind.—Two men in a hearse won a thrilling race with death here the other afternoon. E. E. Davis, undertaker, and Harry H. Adams, president of the Commercial Bank, were riding in the cab of a motor hearse when the car slowed down on the railroad tracks directly in the path of a passenger train. Fearing he could not clear the tracks in time, Davis swerved the car along the tracks and sped ahead of the train, barely beyond reach, for several yards until the engineer was able to bring the locomotive to a halt.

BLOOD TRANSFUSION SAVES LIFE

INTERNATIONAL NEWS SERVICE. PROVIDENCE, R. I.—Lawrence A. Lyon, a commercial artist, owes his life to Karl Rittman, a fellow artist, who submitted to a transfusion of his blood that Lyon's life might be saved.

Lyon was at St. Joseph's hospital in a critical condition as the result of an internal hemorrhage when Rittman volunteered for the transfusion. Hospital physicians state that his condition is greatly improved.

STILL IS HOPE PEACE TREATY MAY BE SAVED

WASHINGTON, March 5.—Still hoping that the peace treaty may be saved from another deadlock, the democratic senators sought today to lay before the president the latest proposals discussed as a possible compromise in regard to article ten. Senator Hitchcock is understood to have written the administration senators and give them his views regarding whether he will accept the compromise proposals under consideration.

Efforts are being made today to take stock of the senate peace treaty situation on the basis of the Walsh reservation adopted yesterday after a sharp political tilt. The adoption of this reservation, providing that the American representatives before the league of nations be chosen by congressional action, marked the first break in the solid Republican ranks which stood firmly heretofore in favor of the Lodge reservation program.

STUDENTS ABANDON OKLA. AGRIC. SCHOOL, PRESIDENT LONELY

LAWTON, Okla., March 5.—With only twelve students remaining in school and the entire faculty except President Farley, Mrs. Farley and another teacher, resigned, the state board of agriculture here may be forced soon to close its doors. The exodus followed failure of the investigating committee of the state board of agriculture to sustain charges made by the students and faculty against President Farley.

LATEST NOTE TO ALLIES RECEIVED

LONDON, March 5.—President Wilson's note replying to the latest communication of the allied premiers on the Adriatic question reached the American embassy today to be delivered to the foreign secretary.

MEXICAN CADETS TAKE OATH OF ALLEGIANCE

EL PASO, March 5.—Cadets of the military school of Chapultepec, drawn up on drill field of Mexico's West Point, solemnly swore allegiance to the flag of Mexico, held aloft by President Venustiano Carranza, as part of the ceremonies in honor of the opening of the institution, held in Mexico City recently, according to Excelsior. The school had been closed for ten years.

The oath of allegiance was administered as the cannon of the citadel fired a salute of twenty-one guns in honor of the anniversary of the constitutions of 1857 and of 1917, which occurred the same day.

DRIVER KILLED TAKING CURVE AT FULL TILT

EASTLAND, March 5.—Lee Gerald was instantly killed when the automobile he was driving at a high rate of speed turned over while trying to take a curve on the Breckenridge road, about one and a half miles from here, at 1 o'clock Thursday afternoon. With him were Misses Mary and Mabel Campbell of Eastland and Ivory Johnson, a service car driver, also of Eastland.

According to the girls, Gerald had been drinking, and after being repeatedly warned by members of the party, opened the car wide open and tried to make the curve without slacking speed. He is said to be from Gage, New Mexico. The remains were taken to the Barrow undertaking establishment here.

AMERICAN DYES SERVE AMERICAN RESEARCH MEN

PHILADELPHIA, March 5.—Medical research libraries in this country in their search for a tuberculosis specific or cure for any other disease, are no longer dependent upon German-made dyes. "Made in America" dyes are now being used. They give as good results as did imported dyes used before the war.

This announcement was made at the Henry Phipps Institute, where laboratory experiments developed that certain dyes localized themselves in tuberculosis tissue. Efforts are being made to modify these dyes with other chemical agents that will kill the tuberculosis germs.

LONDON NOW THINKS OF "GROWING UP"

LONDON, March 5.—"It is time that London grew up," declares the London Evening News, a new convert to the idea that it is time for London authorities to consider seriously whether taller buildings would not be an improvement on an ever-widening ring of suburbs.

"Well-built skyscraper flats and office buildings would be a boon to Londoners and there is no reason why we should not be as happy in them as New Yorkers are in theirs," adds the paper.

WEDDING CAKE, BAKED 49 YEARS AGO, SERVED AT DINNER

COLUMBUS, Ind.—Small slices of a wedding cake baked forty-nine years ago for the wedding of Mr. and Mrs. F. M. Reed of Hope, were served as dessert the other day at a dinner given to Mrs. D. L. Russell, a daughter, in honor of the forty-ninth wedding anniversary of her parents. Another cake, baked twenty-two years ago for Mrs. Russell's wedding, also was served. Both cakes were of the fruit variety and were "excellent," according to the guests.

U. S. FACTORY MEN TO INVAD GREAT BRITAIN

LONDON, March 5.—A new company has been formed to arrange the manufacture of American goods in Great Britain for British and empire markets, it is stated by the American Chamber of Commerce in London.

With the growth of the movement for preferential tariffs and other preferential arrangements among the countries making up the British empire, many American manufacturers already have considered it desirable to establish factories in Canada. The new company is working, however, on the presumption that the advantages of a factory in Great Britain are greater.

The American chamber understands that the new company will encourage and assist American manufacturers of successful commodities to establish and assist American manufacturers of successful commodities to establish plants in Great Britain, but where the American manufacturer is not interested in doing so and is willing to sell his manufacturing rights, the new company will undertake to find British or French manufacturers who will take over these rights. Similarly it will introduce into America goods which have proved successful in Great Britain or France.

The new company is understood to have received many inquiries from manufacturers on both sides of the Atlantic who are anxious to have their goods produced in the other country. The function of the new company is to bring such manufacturers together, its profits arising out of a percentage of the royalty or a lump sum payable for the patent or the process.

RECOUNT POSSIBLE STATE SENATE RACE

HOUSTON, March 5.—A special count may be necessary to determine the state senatorial election. Returns at noon today showed that Davidson, Democrat, was just twenty-eight votes ahead of Murphy, non-partisan.

MOTHER CLAIMS CHILD ABANDONED 9 YEARS AGO

INTERNATIONAL NEWS SERVICE. URBANA, Ohio.—"What right has a mother to claim a child after having abandoned it in its infancy and left it in the care of others for nine years, the child having grown up to know its foster parents as father and mother?"

This question has been put up to Probate Judge Gibbs.

After having abandoned her illegitimate child when it was six weeks old, giving it into custody of Mr. and Mrs. William Houdyshell, habeas corpus proceedings have been instituted by the child's mother, Mrs. Hilda Karklin demanding the nine-year-old child, Margaret Louise, and preventing Houdyshell from legally adopting it, following the death of Mrs. Houdyshell recently.

PLAN TO INTRODUCE GOAT SKIN ATTIRE TO AMERICA

INTERNATIONAL NEWS SERVICE. NEW YORK.—The primitive clothing of Robinson Crusoe, who is rymed tradition "made him a coat of an old billy goat," will be introduced into America in modern guise that may be decreed to be fashionable, according to Jose Benitez de Usuale and Joaquin Hernandez, who arrived from Spain by the Royal Spanish mail steamship C. Lopez y Lopez. They represent Spanish manufacturers of goatskin clothing and will establish branches of the business here.

Some of the skins bear fine fur. Mr. Hernandez said, and certain grades are turned into men's clothing and women's dresses. He will hold exhibitions in several of the large cities, in which Spanish girls will display the beauty of the goat skin apparel.

Many of the goat breeders were formerly grape growers and gave up the latter business because of the decreased world consumption of wine.

HOBBY IS OUT FOR POSITION OF COMMITTEEMAN

Announcement Said to Fix Gubernatorial Field "As Is."

AUSTIN, March 5.—Governor Hobby today announced as a candidate for delegate at large to the Democratic national convention and stated positively that he would not be a candidate for re-election as governor. The announcement is accepted here as virtually assuring that the present gubernatorial field will remain unchanged until the July primaries.

The governor declared that there was "one candidate for governor who assailed the administration of which I am the head and the party whose mandate I hold. Having redeemed every party pledge, every promise made to the people, I am anxious for the people to determine the issue."

Governor Hobby praised the federal administration and said that the Democrats of Texas should sustain Wilson and endorse his magnificent leadership.

"The League of Nations," said Governor Hobby, "to avoid wars in the future, and save the young manhood of this country from offering their lives on the battlefield. It became a part of the peace treaty. Texas Democrats should favor such a covenant."

SENATOR BAILEY REFUSES CHALLENGE

FORT WORTH, March 5.—Former Senator Bailey, in a telegram states that he will not accept the challenge of R. E. Thomason that they leave the gubernatorial aspirations to a primary in their home county, Cooke, with the understanding that the loser in such a primary retire from the state race.

CITIES ARE RIVALS FOR OPEN BERTH IN WEST TEXAS LEAGUE

FORT WORTH, March 5.—President Morris of the Texas and West Texas leagues has accepted an invitation to go to Sweetwater Monday to assist in the organization of a club for the West Texas League. Candidates for the positions are San Angelo, Ballinger, Brownwood and Coleman.

UNABLE TO RENT HOUSE, OFFERS TO "SELL" CHILDREN

HUNTINGTON, W. Va.—After combing the city for three weeks for a house and failing to find one because of the landlords' objections to his three children, W. H. Miller in a public advertisement offered to sell his children or trade them for a rooodle dog. Miller said that he found there was no objection anywhere in his having a dog. The day following his advertisement Miller received many offers of places, the landlords "confiding" that "they never thought about the matter in that light before."

LONE STAR—William S. Hart in "JOHN PETTICOATS."

OPERA HOUSE—Corinne Griffith in "THE TOWER OF JEWELS."

HIPPODROME—Alamo Beauties and Will Rogers in "LAUGHING BILL HYDE."

LAMB—Katherine MacDonald in "THE TURNING POINT."

QUEEN—Stuart Holmes in "THE OTHER MAN'S WIFE."

HIPPODROME.

New Rex Beach Picture Unfolds a Gripping Story.

A thrilling story of a man's redemption is unfolded in "Laughing Bill Hyde," greatest of all Rex Beach-Goldwyn productions, which comes to the Hippodrome theater beginning today. Will Rogers, larriat-throwing wit of Follies fame, makes his first appearance on the screen in the name role.

Misfortune halts Bill Hyde and Danny Dorgan after they succeed in escaping from prison when Dan falls down a gulch and is mortally hurt. Bill carries his pal to a doctor's home, where Dan's last hours are made as comfortable as possible. Bill later makes his way to Alaska, where he meets the doctor, who acquires a claim for treating a dying man. Bill, while searching for work, rushes to the aid of a girl, whom a drunken rowdy is attacking, and beats him off.

She is Poncha, a half-breed, and she owns half of a mine, though the man in charge, Joseph Slayforth, is trying to rob her of her share. Bill gets a job in that mine and is instrumental in getting Ponotah her full share by methods not altogether scrupulous, but the proper kind to use in dealing with a scoundrel like Slayforth. He recovers a vast amount of gold that employes have stolen and later salts the doctor's claim with some of it, a scheme that fools Slayforth into purchasing it from the doctor. Bill's reward is the doctor's undying friendship, and what is greater, the hand and heart of Ponotah.

QUEEN.

"The Westerners" Powerful Drama of the Black Hills.

"All the world loves American western pictures," says Benjamin B. Hampton, the well-known producer, who specializes in large feature photoplays. "From the days of Broncho Billy's one-reelers to the time of William S. Hart, more net profits have been made by the manufacture of westerns than have come to any other group of picture makers. American audiences love the stories of our outdoors, and English audiences like them just as well. So do the Scandinavians and the South Americans and all the folks in between."

Mr. Hampton and Rex Beach produced "The Barrier," from Mr. Beach's novel. "The Barrier" photoplay made picture history the world over. Mr. Hampton's latest special production is "The Westerners," which comes to the Queen theater tomorrow. "The Westerners" is the novel that made the fame of Stewart Edward White, now known everywhere as a novelist, a sportsman and an explorer.

LONE STAR.

Thoughtful Modiste Shows Woe in "John Petticoats."

William S. Hart dons the "hair pants" and sombrero in his new Paramount picture, "John Petticoats."

HIGHBROW DOGGIL/ TAKES DAILY SWIM AT WINTER RESORT

Miss E. B. Johnson and her pedigreed dog on the way to the beach.

Fads are many at Palm Beach and the other fashionable winter resorts. One of the said fads at Palm Beach just now is to take one's dog in swimming in the warm surf when one goes for his or her daily dip. The photo shows Mrs. E. P. Johnson of New York with her dog going for their "swim."

amount-Artercraft picture supervised by Thomas H. Ince, "John Petticoats," which will be shown at the Lone Star theater today, and injects himself into the refined civilization of New Orleans, where he has inherited a modiste shop from a deceased uncle. As "Hardwood" John Haynes still starts out as a lumberjack in the northwest woods and is lured to the southern city largely because he believes it is a saloon that has been willed to him. His adventures there are said to furnish a thoroughly entertaining story in Mr. Hart's best style, involving his thrilling rescue of a girl from drowning in the Mississippi and dramatic exposé of the man who has caused the suicide. Of course he wins the southern belle who laughed at his crudities when he first made his appearance at her home as a boarder. Winifred Westover is the leading woman, and the picture was directed by Lambert Hillyer.

'LAMB.

Screen Favorite Entitled to Claim of "Most Beautiful."

When Howard Chandler Christy declared that Katherine MacDonald's title, "the most beautiful woman in pictures" was well earned and accounted for her beauty by saying it represented the glory of a dauntless character, he little knew that Miss MacDonald's next story would enable her to enact a role of this nature.

In "The Turning Point," the latest attraction of "the American Beauty," which will be shown at the Lamb theater, commencing today, Miss MacDonald plays the part of Diana Tennant, who greets the news of the loss of a fortune with indifference and becomes a professional society hostess. The events that come within her experience in this work are most unusual and interesting.

OPERA HOUSE. Safe Cracker Has Educated Fingers. A demonstration of what mechanics of crookdom and the police forces know as "educated fingers" is given by Corinne Griffith, Vitaphone star, in her latest feature film, "The Tower of Jewels." This production will be the big attraction at the Opera House today.

Miss Griffith plays the role of a high-class crook. She is known as Emily Cottrell, "The Princess of Diamonds," because of her dexterous skill as a safe cracker.

The young star appears in several tremendously exciting adventures, the aim and purpose of which is the cracking and looting of a safe, or the plotting for such projects with members of the high-class crook band to which she belongs.

Emily is seen working her shapely fingers on the combination of the safe. The process by which the intricate mechanism may be set in motion and the hidden tumbler "felt" by the sound and sensitized touch of her adept fingers, to some extent is revealed.

LIBERTY.

Irvin Willat Well Known as Director.

Irvin Willat, who directed Lila Lee in "A Daughter of the Wolf," her latest picture, which comes to the Liberty theater today, is one of the best known directors of today. Before he took up the megaphone he was a camera expert and his remarkable knowledge of the camera, lighting effects, etc., is a valuable aid to him in his directorial work.

Mr. Willat also directed Miss Lee in her last production, "Rustling a Bride." Perhaps his most notable work was the Paramount-Artercraft special, "False Faces," which was directed by Mr. Willat under the supervision of Thomas H. Ince, and starred Henry Walthall.

RADICALS FEEDING FIRES IN INDIA, SAYS Y. OFFICIAL

W. R. McCaslin.

W. R. McCaslin, just returned from a year with the Y. M. C. A. in Afghanistan, says serious disturbances confront British forces in India. Radicals are egging on the natives, he says and it will be some time before England will have quiet restored.

LAST ADMIRER OF GABY RETURNS TO U. S. TO "FORGET"

The Duke de Crussal.

To "forget" Gaby Deslys and to "carve out a career," the Duke de Crussal, son of Duchess d'Uzes, has returned to the U. S. from Paris. He was Gaby's last lover coming to the U. S. with her on her last trip much against the wishes of his family.

MINISTERS INVESTIGATE CHICAGO'S "WEDDING TRUST"

International News Service. CHICAGO—Baptist ministers have begun an investigation into Chicago's "wedding trust." They charge that a system exists whereby couples obtaining marriage licenses are coerced into having judges and other city hall officials tie the knots.

The British imperial bushel is about 3 per cent larger than the U. S. standard bushel.

The highest waterfall in the world is the Grand Falls of Labrador, which drop a distance of 2,000 feet.

QUEEN SIGNS FOR PANTAGES ATTRACTIONS

Pantages' vaudeville circuit, one of the best known and most popular in the south, has been secured for Ranger through closing of a contract by the management of the Queen theatre. This is the first legitimate, regular vaudeville circuit to come to this city, and it puts Ranger in a class by itself so far as amusements are concerned, no other town in this section having booked Pantages' circuit. The Oklahoma Tour, showing tonight at the Queen, is the first number of the new circuit. It is expected that as soon as definite arrangements can be made, the management will have the same bills here as are shown in Dallas, the shows coming direct from Dallas here.

Standard time was adopted by the United States in 1883 on the initiative of the American Railway association.

NEW QUARTERS BY JULY FOURTH GOAL OF CARL BARNES CHAPTER OF AMERICAN LEGION IN DRIVE

—NEW QUARTERS—D C 86 ... Carl Barnes post was told that now is the time to get out after the quarters which the legion plans to build for use of the 3,000 former service men whose headquarters are in Ranger. Rev. Johnson, pastor of the Baptist church, minced no words about it and added that he was "just fool enough Baptist preacher to give \$100." His advice and offer were cheered by the fifty members of the legion who attended Thursday night's meeting at the Baptist tabernacle.

The Rev. Harry Lee Virden, arch-deacon of the Episcopal diocese of Dallas, seconded the Rev. Johnson's suggestion. "Get on it now," he concluded.

H. J. Beshgetorian and Ed Cobelli, of the Ranger architectural firm of Beshgetorian & Cobelli, who have offered their services free to the legion for the new home, were at the meeting and Mr. Beshgetorian drew up for the men tentative plans for the quarters, including two-story facade in Colonial style, emblematic of the Americanism of the legion. An interior including reception rooms, auditorium, stage and dressing rooms.

"Into it by July 4," was the goal set by Major Leon D. Brooks, post commander, and every member was behind him. A committee was appointed to report on sites on Main street, on Elm near the fire station and other locations. Committee members are Hansford, Gault, Souris and Davis.

French war memorial certificates were received by the legion for relatives of men who fell in the world war and were sent out at once to J. E. Barnes, 403 Travis street, Ranger, father of Carl Barnes, for whom the post was named; W. T. Simons, Ranger; James O. Brockman, Brecken-

ridge; Mrs. Annie McGraw, Ranger; Robert Gregory Morgan, Ranger, and Robert L. McKinney, Comanche.

In appreciation of the use of the Baptist tabernacle, which has been given without charge for the legion meetings since last year, the legion voted \$100 to the building fund of the Baptist church and Finance Officer Hansford was instructed to dispatch the check at once. Rev. Johnson expressed his thanks for the contribution.

W. T. Cunningham of the legion bureau reported that of seventy-one applications for work, fifty-two men had been placed this week and seventeen applications for membership received. P. H. Souris, chairman of the membership committee, was presented with a gold legion fob for his work in bringing in new members and similar fobs were promised to the first four who brought in twenty-five new members. The legion assets were reported to be \$892.50; membership, 226.

The legion voted a letter of appreciation to the Opera House for the courtesy of the house at the Elsie Janis picture, "A Regular Girl," Wednesday.

Dr. R. H. Hodges, president of the Chamber of Commerce, gave his approval of the legion plan for new quarters and also asked the legion's help and a committee of five to aid in the Salvation Army drive Tuesday and Wednesday. A committee of ten volunteered and will report to the Chamber of Commerce offices at 9 a. m. Tuesday.

Edward Dugan, president of the Commercial and Industrial club, outlined that organization's plan and invited the legion to the next meeting, Tuesday night, at the fire station. He endorsed the legion's plan for a new home.

OHIO STATE CO-EDS MAKE DRESSES TO COMBAT H. C. L.

International News Service. COLUMBUS, Ohio—Co-eds attending Ohio State University are combating old H. C. L. by making their own dresses.

A style show has just been staged at the university. Its twenty-five participants were girl students. They displayed, as living models, their own handwork.

The girls passed in review, wearing dresses that were made in one day and did not cost more than the price of one good, square meal.

Although these dresses were made out of unbleached muslin, no two dresses looked alike, due to the individual finishing touches of their owners. Some dresses were low-necked and some high. On some of the dresses different material was used in making the collars and cuffs, while some were trimmed with embroidery.

The girls announced their intention of wearing these dresses next summer.

USE FIZZ FOR CHRISTENINGS.

PHILADELPHIA, March 4.—Roy L. Daly, who is in charge of prohibition enforcement in this district, has written to Washington for a ruling on the question whether champagne shall be used for christening vessels. He has suggested that this would be an admirable means of disposing of the stock of that beverage.

PERSONALS

Miss Mary Riles has returned to Ranger after a two months visit with relatives in Fort Worth.

WERE FOOLED INTO LEASING, LESSORS SAY

Special to The Times.

EASTLAND, March 5.—The district court is engaged in the trial of the case of B. A. Cotton and wife vs. Neill Epperson and the Invinible Oil company. The action is brought to cancel a mineral lease on eighty acres of land in the Jett survey, and it is alleged by plaintiffs that in December, 1917, they gave defendants a lease not knowing at the time what the provisions were. That they received 50 cents per acre and were to receive annual rentals of \$40, but they were getting only \$15 as rentals.

The charge that the lessee's agent at the time they gave the lease represented that his company held leases on property adjoining plaintiffs' lands and was about to drill wells and would eventually drain all the land within a radius of five miles of all the minerals, including plaintiffs' property, and that they were induced to give the lease because they feared that otherwise their lands would be drained of its oil and they would get no compensation.

The defense is a general denial of plaintiffs' allegations, and the Invinible Oil company alleges that if there were any defenses originally that it is an innocent purchaser for value and not chargeable on account of any representations made to the original lessee.

Right in the midst of the trial on last afternoon of the case of Laura Dunn et al. vs. T. W. Goss et al., a motion to amend was made by the plaintiffs' attorneys, and the defense pleaded surprise, and asked for a mis-

trial and continuance. The judge permitted the amendment but ordered a mistrial to be entered and the case continued till next term.

Cases filed in the district court Thursday are as follows:

Scott & Brelsford vs. C. B. Benson et al., trespass to try title; ex parte Paul Clark, a minor, to remove disability of minority; Charlott Mills vs. Owa Mills, for divorce; Home Life and Accident company vs. Mack Malone et al., to set aside judgment.

of the hands of everyone suffering with this disease.

Don't suffer with the aches and pains of rheumatism any longer. Thousands are crippled for life by this awful disease. You will always be glad you tried this wonderful preparation for it has given thousands relief where all others failed. You will get quick relief from the use of Breden's Rheumatic Compound. Sold by Ranger Drug Co.

Unable To Walk Without Crutches

Used Two Bottles of Breden's Rheumatic Compound and Was Completely Cured.

Mr. W. A. Martin of Waycross, Ga., says: "I was a sufferer with a very bad case of rheumatism for eight years. Fully one-fourth of the time was unable to walk even with the aid of my crutches and spent about \$400 trying the best physicians and various remedies but still got no relief. After using one bottle of Breden's Rheumatic Compound I found relief and after the second bottle was completely cured. I have sold two gross or more of this remarkable medicine and have never had a single complaint from anyone using it. I consider it by far the greatest remedy to be found for the curing of rheumatism, and it should be in

KEEPIN' ON.

At the start of a year that everyone recognizes as the most important in the city's growth of any to date, and possibly more important than any to come, no matter what progress they may bring, the Chamber of Commerce is headed by a new manager, one whose acquaintance, vitality and leadership

well qualify him for the position he has accepted and the arduous duties it carries with it.

Mr. Peters, of all the young leaders of action in the city and county, has the qualities to fill the position, which presages not only that he will make a success of it, but in doing so will make a success of the Chamber of Commerce's projects and of Ranger's expansion.

But the best leader without men behind him is bound to be lonesome. The future of the position of manager, the future of the chamber itself and of the growth of Ranger depends on the backing that is given Mr. Peters.

Without a dissenting vote, directors of the organization pledged their support to the new manager. The board is unanimous in its support of him and will follow that pledge with efforts that show that their words and parliamentary action are not meaningless.

Mr. Peters is the sort of manager who will be in close contact with the interests that his organization serves and which must serve the organization. His zone of activity will not be bounded by the walls of the chamber's offices, but will reach out to include the offices of men who are making Ranger, of companies who are big factors in what has been done and what will be done.

He will spend his time "with his feet under the desks of big men" what time they are not treading sidewalks and pavements of Ranger.

He will give all interests an opportunity to co-operate with him, with the Chamber of Commerce, with Ranger, as he means to co-operate with them. Ranger's claims will be presented by him, not as a plea, but as a straightforward, well defined business proposition should be presented.

Ranger, behind Mr. Peters, can do much.

It can vindicate its boasts to lead-

ership in West Texas, make the progress its assets make possible, answer the dubious prophet of calamity and Keep On A-Keepin' On.

—Although not a large assortment, you will find a smart collection of good, durable Shoes that are bound to bring joy to every mother's heart in this day of high-priced footwear.

RICHARDSON-BROWN CO.

"The Place Where You Will Eventually Trade"

NATIVES IN BRITISH INDIA SLAUGHTERED BY ENGLISHMEN DURING ANTI-BRITISH REVOLT

By Associated Press.

LONDON, March 5.—An official report regarding the seditious riots last April in Amritsar, Lahore and other districts in the Punjab, British India, has just been issued here by the India office. The disturbances at Amritsar were put down by Brigadier General R. E. Dyer, the British officer in command, with an iron hand, 290 persons being killed by rifle fire.

It is stated in the report that the shooting followed murderous attacks on Europeans and that General Dyer had not ordered the crowd, which had gathered in a public meeting place in Amritsar, to disperse but that 1,650 rounds were fired upon the thickest parts of the throng. It states that after natives had nearly beaten to death an English woman doctor, the general officer commanding the British troops in Amritsar ordered the street to be closed where this attack occurred and that persons who passed through it had to do so on their hands and knees.

News of these occurrences did not reach this country until the end of the year, and then created a big sensation and not a little controversy which has not yet died down. The report now given out comes from the Punjab government.

After describing the growth of the anti-British feeling at Amritsar, culminating in murderous attacks on Europeans, the report tells how General Dyer was at length given authority to take whatever steps were necessary to reestablish civil control. This was on April 13. General Dyer accordingly considered it his duty to disperse prohibited and unlawful meetings, such as had been held by the natives for some time in the Jappewalian Bagh, an open space regularly used for public meetings, with houses on all four sides and three or four passages leading into it. The report continues in substance:

General Dyer was not able immediately to provide for the purpose a larger force than fifty Indian troops together with forty Gurkhas, armed only with knives or kukris. Accompanied by the European superintendent of police, he took these to the Jappewalian Bagh. He had with him two armored cars in reserve, but the lane through which he entered was too narrow to admit them and they were left to stand outside. He took no machine guns with him.

When he arrived, at about five o'clock, he found that the crowd had swollen to several thousands and it was being addressed by a speaker on

a raised platform. His troops deployed on either side of the entrance, the ground on which they stood being some feet higher than the general level of the enclosure. He did not order the crowd to disperse, but proceeded to take action to disperse it at once by fire. There were 1,650 rounds fired, fire being directed on crowds, not on individuals, and re-directed from time to time where the crowds were thickest. The ammunition used was the ordinary .303 army cartridge. On the conclusion of the firing the troops retired; the number of casualties were not counted.

A subsequent inquiry indicated that 290 persons were killed. It was asserted that these included many small children, but inquiries have only been able to establish the death of one boy under ten and four under fifteen years.

Martial law was proclaimed at Amritsar on April 15 and its administration seems to have provoked a series of complaints, against which the Punjab government has found it necessary to defend itself.

The first charge is that relating to the Kucha Tawarian, a street in which Miss Sherwood, an English woman doctor, was nearly beaten to death by infuriated natives. The general officer commanding the British troops in Amritsar closed the street to public traffic, placing a picket at each end, and ordered that anyone passing it would have to do so on his hands and knees.

It was clearly understood by everyone that it did not apply to women. The order was actually in force between April 19 and 24 and in all about fifty persons complied with the order to go through on all fours. The sergeant in charge of the picket subsequently stated that one man crawled

through three times, and had to be stopped from giving further exhibitions.

A number of triangles (for flogging) were erected in the city and twenty-six men were sentenced by the summary courts to be flogged. The only floggings that could be considered to be in any way of a public nature were of six men who were flogged in the street in which Miss Sherwood was assaulted. Others were whipped at area headquarters, at the police or in private.

The major charges arising out of the disorder were tried by the Martial Law commissions, sixty-two cases in all being put before them, involving 298 accused. Of these, 218 were convicted. Fifty-one were sentenced to death, forty-six were given transportation for life, two to imprisonment for ten years, seventy-nine for seven years, ten for five years, thirteen for three years and eleven for lesser periods. In six cases whipping was inflicted.

ENGLISH DRINKERS FEAR U. S. WOOD ALCOHOL.

LONDON.—English saloon habitués are greatly relieved by an official announcement that no wood alcohol from the United States is being traded off as whisky.

After drinking rye and maize spirit from the United States, some Londoners swore they had been poisoned, but it is now officially pointed out that the blame must be placed on English traders, who have been mixing small quantities of Scotch and Irish whisky with the rye and maize spirit and selling it as the genuine of the two countries.

DOCTORS SO BUSY R. R. GIVES HIM SPECIAL TRAIN

CHARLESTON, W. Va.—The West Virginia Central Railroad company has placed a special train at the disposal of Dr. C. B. Gunn so that he may call on his patients in this county. The "fit" gave the doctor so much to do that he couldn't get around the country properly, and the railroad's summer interest were being affected by the shortage of labor. The special train solved the problem. When the train reaches the vicinity of a patient it is sidetracked and the physician makes his call. It then proceeds on to the next most advantageous point.

Perfect Health Is Yours If the Blood Is Kept Pure

Almost Every Human Ailment Is Directly Traceable to Impurities in the Blood.

You should pay particular heed to any indication that your blood supply is becoming sluggish, or that there is a lessening in its strength and vital force.

By keeping your blood cleansed your system more easily wards off disease that is ever present, waiting to attack wherever there is an

opening. A few bottles of S. S. S., the great vegetable blood medicine, will revitalize your blood and give you new strength and a healthy, vigorous vitality. Everyone needs it just now to keep the system in perfect condition. Go to your drug store and get a bottle to-day, and if you need any medical advice, you can obtain it without cost by writing to Medical Director, Swift Specific Co., 46 Swift Laboratory, Atlanta, Ga.

MOTHER RETURNING FROM FRANCE WITH SON'S BODY

CHICAGO.—It required just a year of struggling against governmental red tape for a gold star mother to obtain the body of her son from France.

She is Mrs. James T. De Vere, of Chicago. All three of her sons, James, Edward and John, went to war. James, who was 18 years old, was wounded during the fighting before Metz, three days before the armistice was signed, and died nine days later. The mother immediately requested that his body be sent to Chicago. Delay after delay intervened.

Finally, on December 16 last, the mother went to France. After agreeing to defray all expenses for exhumation and transportation, she obtained a permit to remove the body. He is returning with the body on the steamship Britannia.

President Wilson still believes that thirteen is his lucky number. It is certain that fourteen isn't.—Worcester Telegram.

COOPER SCHOOL GETS TOGETHER FOR A PROGRAM

School oratorical contests and talks from representative Ranger men composed the program of the Cooper school for a get-together at 1 p. m., Friday afternoon. The Rev. William H. Johnson of the Baptist church, Paul C. Yates of the Times, Ove Overson, and Mr. Moise were on the program of speakers, and acted as judges in the contests.

Talks on educational matters of interest were made by the judges to the assembled parents and teachers. Attractive invitations, decorated in water colors had been sent out by the pupils.

PRECEDENT SET AGAINST SUITS ON OFFICIALS

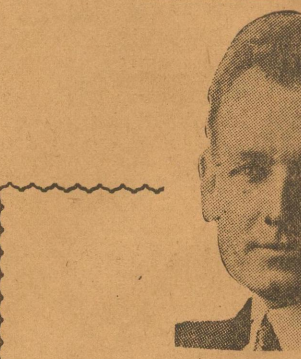

By Associated Press.
AUSTIN, March 5.—In addition to upholding the constitutionality of the state depository act on February 25, the opinion written by Justice J. W. Brady in the third court of civil appeals, in the case of H. S. Lawson vs. the state depository board, established what is declared to have been a precedent in Texas concerning injunctions against public officials, which, if upheld by the supreme court, will probably have considerable weight in future litigation of a similar nature.
In discussing Lawson's right to maintain a suit to enjoin the depository board from exercising duties delegated to it by law, Justice Brady said in part:
"From these decisions of our own courts (he quoted the decisions) it seems to be the recognized rule in this state that before a complainant may maintain a suit in equity against public officers, acting under color of authority, to restrain their action, he must show damages special to himself and different from those suffered by the public at large. This seems to be true whether such public officers are acting merely ultra vires or under void and unconstitutional laws.
"The plaintiff's case here, instead of showing some injury peculiar to himself in the operation of the law sought to be nullified, shows a benefit. There is neither an actual or threatened loss to the state or himself alleged as a result of which any burden would be placed upon him; but his petition shows that a profit to the state would rather result, which would benefit plaintiff in decreased taxes rather than burden him with increased taxation.
"The strong current of authority in this state, as well as elsewhere, sustaining the view announced, impels me to yield acquiescence to the decision (of the lower courts) upholding validity of the depository act. However, if it were an open question, I would consider that when a taxpayer and citizen seeks to enjoin the alleged misuse of power by public officials, through a void and unconstitutional law, equity should grant him relief from circumstances, even though he does not show an injury special to himself, or the invasion of some property right. I know no constitutional provision or statute which specifically makes it the duty of any officer or person to bring such a suit. In other words, there does not appear to be in Texas any general guardian of the public interest. If it might be assumed that the attorney general, by virtue of his great office as chief law officer of the state, may and should in proper cases assume that duty, it might well be replied in the instant case that the attorney general himself is made a member of the state depository board, and is not free to bring action."
A cubic foot of pure gold weighs 1,210 pounds and a cubic foot of pure silver 653 pounds.
One dollar deposited in a bank paying 4 per cent compound interest will earn \$50.50 in 100 years.

ENGLISH FARMERS OPPOSE SUMMER TIME ACT

International News Service.
LONDON, March 5.—English farmers are marshalling for a big fight against Summer Time act. The National Farmers' Union, with a membership of 80,000, has in preparation a memorandum against its continuance for presentation to the agricultural committee of the house of commons and the ministry of agriculture.
"The act hinders farming operations," said George T. Apps, general secretary of the union, in an interview. "It means working in the early morning while the dew is on the ground. You cannot now while the grass is very wet. Cows cannot be milked according to the clock."

CONTEMPT OF COURT IS OF CIVIL NATURE

By Associated Press.
AUSTIN, March 5.—Contempt of court has a civil instead of a criminal nature, even though the contempt arises from violation of an injunction issued to restrain a defendant from criminal action.
So decided the court of criminal appeals recently in dismissing application for a writ of habeas corpus made by ex-parte Lucile Houston of Bexar county. She had been fined \$100 and sentenced to three days in jail for alleged violation of an injunction restraining her from permitting illegal use of premises she controlled. The criminal appeals court held it had no jurisdiction and that relator must seek remedy in the supreme court.
Several previous opinions by both the supreme court and the court of criminal appeals were cited to support the decision.
The greatest distance at which thunder can be heard is fourteen to eighteen miles, and the duration of the longest roll of thunder on record was 45 seconds.
The theory that noise will make rain is disputed by leading meteorologists. Condensation will produce rain, but not in appreciable quantities.

TEAMSTER DIES AS RESULT OF BLOW ON HEAD

Wilbert Oliver, a teamster employed by Harry Lezier, died late Thursday afternoon as a result of injuries sustained when a hoisting apparatus with which he was loading a boiler broke and struck him on the head.

His skull was crushed by the impact. He was taken to the Ranger General Hospital and an operation was performed in an effort to save his life. He died about 6 p. m.

He was twenty-two years old and unmarried. He had been in the Ranger district for several months, coming here from Texarkana, where his father resides.

The body is being held at the parlors of the Milford Undertaking company pending the arrival of relatives from Texarkana.

GENERAL CONST. CO. CLEANING UP WORK SOUTH RUSK STREET

The south part of the block on Rusk street, between Pine and Main streets, is being finished today by the General Construction company. Work on a small strip of the block has been held up for several days by failure of the Texas & Pacific railroad company to spot a carload of paving brick which was in the yards, an official of the paving company stated Friday.

This block will end the work contracted for by the company. Machinery will be shipped to Fort Worth, on completion of the work here, and paving operations begun there.

PROHIBITION OFFICER HAS HEADQUARTERS AND FORCE AT AUSTIN

AUSTIN, March 5.—Clifford G. Beckham has assumed active duties as federal prohibition enforcement officer for Texas and has established headquarters at Austin.

Five inspectors will be assigned to Texas to work under Mr. Beckham. These inspectors and their headquarters include: Morris A. Moore, at Houston; Aubrey T. Stell, Texarkana; and Alley Bailey, Dallas. The other two have not been announced.

Mr. Beckham will issue all Texas federal permits for the purchase, transportation and prescribing of intoxicating liquors. He will also approve all applications for permits to use, sell and manufacture intoxicants.

LONE STAR STATE BUSY ORGANIZING CAVALRY DIVISION

By Associated Press. AUSTIN, March 5.—The Adjutant General's department is busily occupied with organization plans for the full cavalry division of the Texas National Guard, recently authorized by the war department. The division will consist of 12,833 officers and men, fully equipped by the federal government.

The nine regiments of cavalry and three brigades headquarters alone will receive 4,320 head of horses.

Equipment of the aero squadron, which will comprise nineteen officers and 154 enlisted men, will have twelve airplanes, 23 motor trucks, 24 trailers and two repair trucks, six motorcycles and twelve machine guns.

The motorized ammunition train will consist of 135 trucks with a combined capacity of 324,000 pounds. In addition it will have a number of repair trucks, automobiles, motorcycles and eighteen machine guns.

The supply train will be composed of 108 motor trucks.

The regiment of field artillery will be equipped with 75-millimetre guns.

ASYLUM INJUNCTION TO APPEALS COURT

By Associated Press. AUSTIN, March 5.—Contest of the temporary injunction granted by Judge G. C. Calhoun, in the fifty-third district court, to restrain the board of control from interfering with the board of managers of the Southwest Insane Asylum in the discharge of their duties, will be carried to the third court of civil appeals as soon as a transcript can be prepared, according to W. A. Keeling, assistant attorney general, who is representing the interests of the control board.

Judge Calhoun did not hand down a written opinion in granting the injunction recently, and there is uncertainty in the minds of some officials as to whether heard of managers of other institutions, who resigned when the board of control act became effective, may not also secure a similar injunction under the decision. Judge Calhoun stated from the bench that he was deciding only the question concerning managers of the Southwest asylum. Attorneys in the case will venture an opinion as to the possible result of the opinion.

Intention of the attorney general's department to appeal directly to the civil appeals courts is expected, however, to bring about early settlement of the question.

A certain gentleman thinks the whole universe is out of step on the League proposition. — Washington Post.

DEVELOPMENT ON THE GAIN IN FAIR DAYS

Lumber yards and oil well supply houses report more business than for some time past. During January and February impassable roads reduced business in oil well supplies, and the embargo on freight caused a scarcity of many necessities of the oil men.

Better weather and greatly improved roads, the opening of spring, and renewed activity caused by recent advances in the price of crude oil, have caused the oil business to "look up." Developments of the next few months will be on a larger scale than anything hitherto attempted in this district, in the opinion of men in touch with the situation.

Stephens county with its hundreds of new rigs will come in for a major portion of this year's development, while constant extensions of the Pleasant Grove district and the extensions of the proven area in the Desdemona field to the east and west, together with the discovery of a deep sand at Desdemona, will stimulate much activity there.

YOUNG SCHOOL TAGS FOR ATHLETIC FUND WERE AUTHORIZED

In regard to a statement from a member of the Central Mothers' club published in the Times to the effect that no tag day drive has been held in this city since Christmas and that children have collected funds without authority to do so, Miss McIntyre, principal of the Young school, says: "A recent drive for athletics for the Young school has been made. This is a correction of the statement in the Times that children have been collecting money on false pretenses."

BREAKS GOLF RECORDS. SYDNEY, Australia.—Australia believes she can justly lay claim to the only real "superman" of the golf links. He is J. H. Kirkwood, of the Riverdale club, who has broken no less than seven course records on as many courses in the Antipodes.

Kirkwood's record-breaking performances are as follows: Royal Sydney, 69; Riverdale, 69; Victoria, 66; Metropolitan, 66; Manly, 69; Killara, 67; Elsterwich, 66.

DISCHARGES OF SERVICE MEN COUNTY RECORD

The following additional discharges have been recorded in the office of County Clerk Earl Bender, Eastland: Wallace W. Shrophin, Pvt. first class, Co. C, 217th Field Signal Bn., Beauregard, La.

MACHINIST, HE SAID, "WATCH MACHINIST?" ASKS THE OFFICER

On a trip here County Sheriff Lawrence instigated a raid this morning on some shacks north of the Texas & Pacific depot and found about three dozen bottles of hair tonic that contained sixty-eight per cent alcohol, some dope, and several men with I. W. W. cards. All of the men and some of the women were intoxicated, officers said, and they were living in the most destitute state.

One of the men, while he was being searched, said that he was a machinist. When the deputy pulled five new watches out of his pocket, he asked him if he was a watch machinist.

LEGION O. K.'S BAND PLAN AND GIVES IT NAME

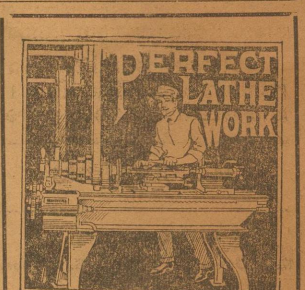

Charles G. Emmett, bandmaster with army experience, has been given the authority of the Carl Barnes Post of the American Legion to organize a band in Ranger known as the Legion Brass band and he will hold his first meeting of musicians and band aspirants at the Baptist tabernacle at 7:30 p. m.

Mr. Emmett will furnish instruction to beginners and is in a position to enable them to get their instruments readily. Bob Hansford came right to the front with the donation of a bass drum for the band, when the matter was brought up in the Legion meeting.

All engagements of the band will be made through the American Legion and ten per cent of the profits will go to the Legion treasury.

Barren, with an area of 3,723,561 square miles and a population of 464,681,000, is the most densely populated of the continents. It has 120 inhabitants to the square mile.

British India, on the basis of the number of persons employed, is the greatest agricultural country in the world. It has 90,803,575 inhabitants who engage in agricultural pursuits.

We Re grind Cylinders and Crankshafts. Brown Weld. & Mach. Co.

Will trade one-half of 25 acres located at Clermont, Lake County, Florida, for Ranger property. Call and see the beautiful Grape Fruit we raise at Clermont. 1400-foot frontage on Lake Minnehaha. Have had hundreds of offers for this property, but it is still on the market.

"UNITED STATES AND CANADA DO SISTER TURN IN THE VAUDEVILLE OF NATIONS," SAYS OLIVER HERFORD

The Sister Turn.

Oliver Herford, V. D. W. A.—standing for Very Delightful Wit and Artist, so designated by President Wilson—in his latest humorous book, "This Giddy Globe," published by George Doran and Company of New York, tells many truths about our relations with our neighbor to the north in his chapter on Canada, excerpts from which follow:

"Canada, with the exception of Mexico, is the only part of North America not ruled by the Irish. In former days it was a popular

Health Resort for frenzied financiers who wished to retire from private life.

"Its province of Quebec is now still more popular resort for Americans suffering from thirst.

"Though next door neighbors and rivals in business and, what is still more trying, near relatives, Canada and the United States are the best of friends.

"For over a hundred years there has not been so much as a picket fence or a policeman, much less a patrol or a fortification, on the bor-

der line between the two countries.

"Canada has not, like her sister Columbia, 'severed home ties'; she is perfectly happy under the parental roof, earns her own living, has a latch key and stays out as late as she pleases and has never been able to understand 'why girls leave home.'

"Though differing in many respects, the United States and Canada have so much in common and are so nearly of the same age and size that, in any musical comedy of Nations, the two might easily pass for a 'sister turn.'

Oil and Gas Leases, Mineral Deeds, Royalty Contracts—Eastland County

Instruments filed in the office of County Clerk Earl Bender, by Anna Vera Jenkins, deputy.

H. R. Wallace, trustee, to S. H. and E. W. Nance, assignment, 20 acres off the north end of E 1-2 of NW 1-4 of section 8, E. T. R. R. Co. survey, Eastland county.

W. E. Taylor to S. H. Nance, assignment, 10 acres, being the N 1-2 of the W 1-2 of the E 1-2 of the S 1-2 of the SE 1-4 of section 16, block 2, E. T. R. R. Co. survey, Eastland county.

Jackson Oil & Refining Co. to First State Bank of Eastland; assignment; land out of the William Murrah survey.

J. E. Finley to J. M. Finley et al.; warranty deed; lot 8, block C of the Bedford addition to Cisco; consideration, \$1,000.

RECORD JUMP IN DEMAND FOR RAISINS IN PITTSBURG

PITTSBURG, March 4—Since it became known that a raisin dropped into a "soft" beverage has the properties of relieving it of its softness, there has been a tremendous run on the raisins in this district.

One dealer has sold an average of \$5,700 worth of raisins each day for five weeks—or a total of \$173,000 worth in a month of business days. One packer's agent here sold \$2,500,000 worth of raisins in 1919.

The representative of one of the western fruit-growing associations who handles about eighty-five percent of the business here, reports that last year the increase in the raisin business in Pittsburg was sixty carloads over the highest year. Recently one of the systems of chain stores gave a single order for \$600,000 worth of raisins to supply momentarily its stores in three cities.

There is no argument as to the reason for the great increase. Prohibition gets all the credit, for the raisin supplies the "kick" which the thirsty craves for.

ALCOHOL FUMES FROM FLIVVERS IS LATEST "JAG" BUTYCHINSON, Kan.—Something new in the "jag" line was brought to light in the police court here the other day with the arrest of Clarence McMahan on a charge of being intoxicated.

"It's this way," McMahan explained to the court. "There's so many 'flivvers' with alcohol in their radiators steaming along that I just simply got dizzy from the fumes."

"Too thin," quoth the court. "Five and costs."

FRATERNAL HEAD IS SERVING ON G. O. P. WOMEN'S BOARD

Miss Bina West. Miss Bina West of Port Huron, known to many thousands of lodge folk as head of the benefit association of the Macabees, is serving with Mary Garrett Hay on the women's executive committee of the National Republican committee.

PRODUCTION AND PROTECTION BY THE ENTENTE

PARIS, MAR. 4.—Allied countries will be called upon to develop to the utmost their productive forces and are advised that laws improving the condition of workers must be applied to that end, it is said in a manifesto prepared by the economic section of the Supreme Allied Council, says the Echo de Paris. With this object in view, the newspaper says, the different governments will be told they must support each other to the utmost.

ANOTHER REASON WHY THE WAVES ARE ALWAYS SAD

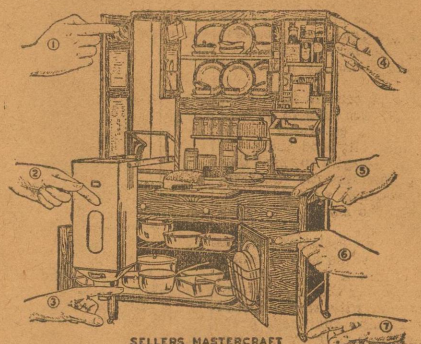

Do you blame the waves for being sad when they realize they can't get up on the beach and play with this bather who is luring them on with the hula hula. It isn't a hula hula dress Miss Flo Kennedy, California girl, is wearing. It's a new-fangled bathing suit with a fringe of long fibre silk. It's a one-piece suit. The trousers come just above the knees.

The year 1920 corresponds to the year 7428-29 of the Byzantine era and to the year 5680-81 of the Jewish era.

Mount Sahama, Bolivia, with an altitude of 21,000 feet is the highest volcanic peak in the world.

TULSA PIPE & SUPPLY CO

PLEBISCITES OFFER BRIBE IN SCHLESWIG

COPENHAGEN, March 4.—No election in history has ever offered so stupendous a bribe to voters as do the Schleswig plebiscites, say Copenhagen observers. These plebiscites are to decide whether a great part of Schleswig is to remain German territory or be restored to Denmark.

Denmark's interest in the outcome of the election in the three zones rose to fever heat on the approach of the date for the plebiscite in the first zone, the strip nearest Denmark. This was won by the Danes by a vote of three to one.

Intense interest centers in the result of the plebiscites soon to be held in the second zone of which Flensburg is the chief city and there the fight is fiercest. Despite the fact that the city is preponderantly German, only about one-tenth of the people are Danish, but the Danes are by no means disheartened.

Owing to the depreciation of the German mark, its value now is infinitesimal as compared to the Danish throne. It is asserted that if the election goes Danish, with the resultant accession of Danish currency, property in Flensburg will be worth sixteen times its present price.

No less weighty is the effect upon the citizenship of the inhabitant. A government official told the Associated Press correspondent that Denmark would not discriminate in Schleswig between Danes and "converted" Germans; that if the Danes won the plebiscite the Germans automatically become Danish citizens. Thus, they would not have to share in paying Germany's enormous debt.

But there are many Danes who fear to recover Flensburg if there is any chance of the contest turning on a question of the selfish interest of a small element of the electorate. The government official wore an anxious look as he discussed this possibility. "We want Flensburg," he said, "but not against its real sentiments. We must not have in Denmark a German irredenta."

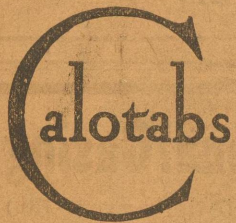

SHE'D STRIKE SEX FROM JURY TRIALS

Miss Helen L. Potter

Miss Helen L. Potter, the only woman lawyer in New Bedford, Mass., believes that the admission of women to juries is a part of the right of suffrage. She also believes that many women are far better fitted for jury service than some of the men jurors. "Women will be as impartial and fair-minded as men, and they are quite capable of grasping the legal intricacies of a trial. It seems to me that it's time people realized the sex question must be eliminated from certain aspects of life," are some of Miss Potter's arguments.

Alvin York of Tennessee

Sergeant
328th Infantry
A. E. F.

Colonel
Governor's Staff
Tennessee

On October 8, 1918, Sergeant Alvin York and seven privates, advancing on a German position in the Argonne, faced an entire machine gun battalion. Official records show that York killed 20 Germans with his automatic pistol and rifle, captured 132 prisoners, and put 35 machine guns out of action. York received the highest American military decoration—the Congressional Medal of Honor. Upon his return from France, the Tennessee Legislature commissioned him a Colonel, for life, on the Governor's staff.

A Black-Draught Family

To a reporter, who visited the York home, Colonel York authorized the publication of the following statement:

"My mother has used in our family for years, Thedford's Black-Draught for torpid liver, stomach trouble, headache and other troubles. We certainly can recommend it and gladly do so.

"We use it constantly and call it our family medicine. My mother doesn't think she could get along without it, and we, when children, dared not complain unless we wanted to be dosed with

Paris Women Dance to Forget

By MARCELLE TINAYRE,
Noted French Writer and Lecturer.
Written for the International News Service.

PARIS.—The only happy women in France today are those who were men in 1914. The war has left an indelible imprint on the minds of all the others. In whatever fashion they may try to wipe it out, one fact is certain—it will not lead to happiness.

The women of France are in process of adjustment to a new kind of life, one which they never expected. They are forced to accomplish in a few months a development for which years are necessary. Young women of the middle class, who were in their teens when the war began, had been brought up with the idea of marriage. They dreamed of nothing but the happiness of home. France lost a million and a half of the flower of her manhood in the five years of conflict. Owing to the enormous disproportion between the number of men and women today, our whole social life is changing. Women have had to take the places of their brothers in all branches of industry. Hundreds of thousands of young women are doomed to celibacy.

As for those who were married at the beginning of the war half of them are now "white widows," enjoying a kind of freedom which they have never asked for and which they are even regarding as

a species of slavery. And those whose husbands survived the slaughter are faced with a new problem. During the long separations both husband and wife were subjected to a process of evolution. The husband acquired habits of command, the wife those of independence. The Frenchwoman does not like that. She likes to obey, it is true, but she does not expect to be ordered.

You will tell me that the life of Paris has never been so gay as it is at present. It is a superficial gaiety. Dancing is not always an expression of joy. But dancing is practically the only amusement the French girls are capable of today. There has never before been such a riot of dancing. Under colored lights amid the voluptuous or lugubrious surroundings of the dance halls, hundreds of women, always the same, tango and fox trot in Paris, just as they are doing in London and Berlin. They are dancing in the restaurants of the boulevards and the cafes of the outskirts of Paris. They are tangoing in the wineshops where before the war one never saw anything of the terpsichorean art beyond the gyrations of a dozen Auvergnats, prouetting in the mazes of one of their provincial dances.

Never has the Frenchwoman worn so much jewelry, so many furs. Do not believe that this refers only to the women of society and the women of the semi-monde, the idle, the rich, those who in all times have led the lives of parasites. Even the women of the people are being engulfed by the torrent. Never have we seen so many gaily bedecked coquettes, so many powdered and painted minidettes, so many little working girls dashing from the factory to the hairdresser or the pastry cook.

Our parents have often told us how quickly France recovered after the disaster

of 1870-71. What we were able to accomplish in the dark days of defeat seems impossible of achievement on the morrow of victory. The heart of France is still torn. Her soul, after the sublime effort of the war, has not yet resigned itself to the less sublime but none of the less necessary work of peace.

Stop any of those little dancers in her gilt slippers and clinging gown, stop her in the midst of the gay whirl in which she seems to be trying to fly from herself. Look in her eyes, listen to her laugh. You will discover in her soul, with all its vain, pretty thoughts, a feeling of uneasiness and melancholy, the desire which is almost a disease to forget yesterday and tomorrow, to forget even that she is alive.

BLOOMERS CLASSED AS A LUXURY IN DETROIT

International News Service.
DETROIT, Mich., March 5.—Thru the indignation of Detroit women taxpayers may be aroused at the ruling of John A. Grogan, collector of internal revenue, who announces that he is going to be firm in maintaining that petticoats, knickerjamas, and bloomers and the like, in taxpaying nomenclature, simply "underwear." In making this ruling, the collector blushed.

Underwear is much more simple and comprehensive, Collector Grogan says. He advises Detroit women to list them as underwear to "avoid possible embarrassment later."

"There's a luxury tax on bloomers the same as underwear," said Collector Grogan. We are not curious to learn who in Detroit wear bloomers and who do not. The wearers can protect themselves by simply adhering to the rule.

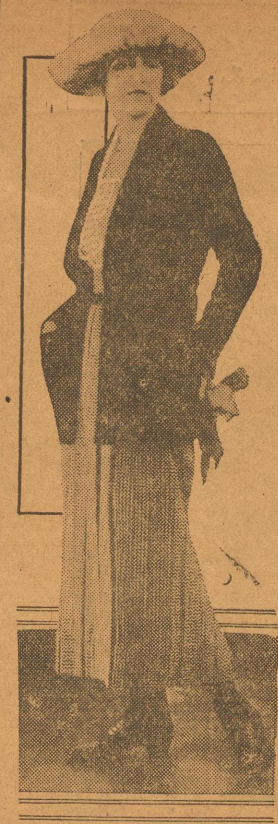

STATUTE O. K. IN NEW YORK, CLASSED INDECENT IN PARIS

International News Service.
PARIS, March 5.—There was a near riot in the art exposition of the "Independents" when Sculptor Brancusi arrived and discovered that his bronze bust of "Princess X" had been removed by the authorities on the ground that it was indecent.

"But I showed it in New York and the public was delighted," expostulated Brancusi.

He produced some press clippings to prove his assertion and "Princess X" went back to her pedestal.

NATTY OUTFIT FOR SPORTS WEAR NOW

This spring outfit combines qualities for southern as well as northern sports wear. The skirt is of black and white checked velour with box pleatings combined with accordin pleats at the sides. The coat is black velvet and is trimmed with facings of the checked material. Black walking oxfords and wool hose complete the outfit.

CLOCK WHICH TELLS THE WORLD TIME A CURIOSITY

International News Service.
AURORA, Ill., March 5.—This city has a clock that is the curiosity of sightseers from all parts of the world. William Blandford, its inventor, spent a lifetime perfecting it. The great clock simultaneously tells the time in all parts of the world and records atmospheric changes and astronomical conditions, besides it automatically lights up at night. It is driven by fifty-pound weights. Blandford recently died at the age of eighty-two.

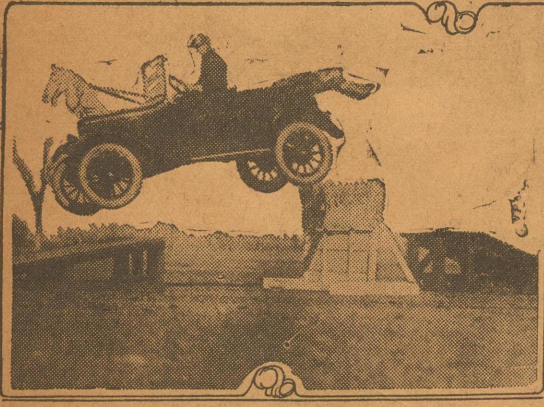

In Germany's new list of envoys there are said to be but two trained diplomats; but no training is better than a bad training.—Springfield Republican.

PAYS DIME DEBT AFTER 7 YEARS—CONSCIENCE HURT

International News Service.
MEMPHIS, Tenn.—Elmer Green, Mitchell, Ind., has sent Walter Simmons, Louisville hardware dealer, ten cents which he has owed him for seven years on a baseball glove. "I owe you ten cents on a baseball mitt I bought seven years ago," Green writes, "so I hope you will forgive me and let me know if you will accept the dime. The Lord has saved me, and I have had no peace because I haven't paid you. I want to make everything right so I won't have to come up short at the judgment bar of God."

STEEPLE-CHASING UP-TO-DATE

"Taking the hedge."

The above stunt created considerable interest at the recent annual horse show of the Denver, Colo., Country Club. The auto camouflaged somewhat as a "steed," with driver dressed as a jockey, ran up an incline, sailed over a hedge at an elevation of fifteen feet and landed on the decline. The driver had the jump figured mathematically. Going up the runway at twenty miles an hour, he spanned the gap and landed with the rear wheels at the edge of the landing.

American Medical Unit Introduces "Spotless Town" Idea in Holy Land

MAKING DOLLS FOR PALESTINE'S ORPHANS AT THE HEADQUARTERS OF THE PALESTINE SUPPLIES DEPARTMENT IN NEW YORK

Up-to-the-minute American doctors with all the ingenuity and skill of modern medicine, are now in Palestine redeeming the land of milk and honey from the disease and unsanitary conditions that have sapped its strength for hundreds of years.

These doctors, many of them noted as among the most skilled surgeons and sanitary experts in the United States, comprise the American Zionist Medical Unit, sent to Palestine by the Zionist Organization of America to make the Holy Land a fit place to live in when world mass-emigration to the Jewish National Homeland opens up on a large scale. This will be realized as soon as Palestine's political future has been settled by the Treaty with Turkey—a matter of a few months at most. The joint distribution committee helps maintain the unit.

They have waged war against the mosquito, responsible for most of Palestine's malaria, and practically driven the disease out of the country. They are draining the swamp lands

A. H. Fromenson, head of the Palestine Supplies Department of the Zionist Organization, with headquarters at 74 Fifth avenue, New York City, works in connection with the unit, furnishing supplies for the hospitals and clinics, and clothes for Palestine's 4,500 Jewish orphans, through their sewing groups.

To the war orphans of Palestine, Mrs. Fromenson is known as their "American mother," because through her organization the children are kept supplied with good-looking, up-to-date American clothes.

No "institutional" clothing is sent to Palestine, every effort being made to send as many varied designs as possible, so that the children will not all be dressed alike, as is characteristic of "charity" clothes.

To supply new-born babes with clothing, the women's organization has sent the medical unit thousands of layettes, containing twenty pieces of infant apparel, from blankets to safety pins.

All the work of the medical unit is non-sectarian, thousands of Arabs and Christians receiving treatment from the hospitals and clinics. The work of the unit is part of the great efforts of the Zionists to make of Palestine the Jewish Homeland.

and cleaning out the ancient wells—breeding places of most of Palestine's diseases.

Hospitals and clinics have been created in the principal cities of the Holy Land—in Jerusalem, Jaffa, Tiberias and Safed—and through the \$10,000,000 Palestine Restoration Fund being raised throughout the United States by the Zionist Organization of America, the work of the unit, now known as the Health Department of the Holy Land, is to be greatly extended.

An army of 5,000 women throughout the principal cities of the United States, under the direction of Mrs.

RESOLUTION.

Resolution of the City Commission of the City of Ranger, determining the necessity of levying an assessment against property and the owners thereof on portions of Main street from the west line of Rusk to the west line of Marston, Rusk street from the south line of Pine to the north side of Walnut, excepting intersections of Main street.

Austin street from south line of Main to north line of the alley between Main and Pine, and Austin from the north line of Main to the north line of Walnut, and

WHEREAS, the City Commission of the City of Ranger, by resolution adopted on the 21st day of August, 1919, ordered improved, Main street from the west line of Rusk to the west line of Marston, Rusk street from the south line of Pine to the north side of Walnut, excepting intersections of Main street, Austin street from south line of Pine to north line of Walnut, except intersection, and Austin street from south line of Pine to north line of Walnut street except intersection of Main.

WHEREAS, specifications for improvement of said streets out of said material have been duly prepared and approved as required by Chapter 11, Title 22, the Revised Statutes of Texas, and Ordinances and Charter of the City of Ranger, and

WHEREAS, as required by Statutes, Ordinance and Charter after advertising for bids on said respective materials had been made, said work was let to the General Construction company of Fort Worth, Texas, to improve with vertical fiber vitrified brick pavement as proposed by said specifications; and,

WHEREAS, a written contract has been entered into by and between the City of Ranger and the said General Construction Company of Fort Worth, Texas, on the 11th day of August, 1919, for the construction and performance of said work;

THEREFORE BE IT RESOLVED by the City Commission of the City of Ranger:

1. That plans and specifications and report or statement, describing the abutting property and giving the names of the owners filed by the city engineer with the City Commission and having been duly examined is hereby approved.

2. That the City Commission does hereby assess the entire cost of curbs and three-fourths of the cost of all other said improvements except street intersections against the owners of the property abutting thereon, and against their property, in accordance with the terms of Chapter 11, Title 22, Revised Statutes, Texas, 1911, and the Ordinance and Charter of the City of Ranger; that the said assessment shall be made after the notice to

such property owners and the hearing hereinafter mentioned and that the said portion of the said cost of improvement to be assessed against such property owners shall be in accordance with the front foot plan or rule in the proportion that the frontage of the property of each owners bears to the frontage of the whole property to be improved providing that after such hearing, if such plan of apportionment be found to be not just and equitable, the City Commission shall so apportion all of said cost as to produce a substantial equality between each property owners, having in view the enhanced value of their property and the benefits derived therefrom by such assessment and that in no event shall any assessment be made against any owner of his property in excess of the enhanced value of such property by means of such improvement.

That the total proportionate part of the cost of such improvement which is contemplated to be assessed against such owners and their properties, and the names of the owners of property abutting upon said streets aforesaid proposed to be improved, and the description of their property, for the several amounts proposed to be assessed against them respectively for paving and for curb and gutter, and the grand total thereof as follows:

That a hearing shall be given to said owners, their agents, and attorneys before the City Commission of the City of Ranger, as provided by Chapter 11, Title 22, Revised Statutes of Texas, and the Ordinances and Charter of the City of Ranger, which said hearing shall be had on the 16th day of March, 1920, at 3 o'clock p. m. in the City Hall in the City of Ranger, Texas, which said hearing shall be continued from day to day and from time to time as may be necessary to give all said property owners, their agents or attorneys, a full and fair hearing, and said owners, their agents or attorneys, shall have the right to appear and be heard in any manner concerning the said improvements or said assessments or the benefits thereof to their property or any other matter or thing in connection therewith, and to contest said assessment, and at such hearing a full and free opportunity shall be extended to the said property owners, their agents and attorneys, to be heard with respect to such matters.

That after the conclusion of the hearing above mentioned such sums or sums as may be determined by the City Commission to be payable by said owners shall be assessed against them respectively and against their respective properties by ordinance or ordinances in the manner prescribed by Chapter 11, Title 22, Revised Statutes of Texas, 1911, and the ordinances and Charter of the City of Ranger.

That the City Secretary of the City of Ranger is hereby directed to give notice to said property owners, their agents or attorneys, of said hearing, as prescribed by Chapter 11, Title 22, Revised Statutes of Texas, 1911, and the ordinances and Charter of the City of Ranger, by publishing said notice three times in a newspaper of general circulation in the City of Ranger, the first of said publications to be made at least ten days before the date set for said hearing, the

said City Secretary shall also mail a copy of said notice by registered letter to each of said property owners, if known or their agents or attorneys if known, said letters to be deposited in the postoffice at the City of Ranger, at least ten days before the date set for said hearing; however, said notice by registered letter shall be cumulative only, and notice by publication shall be full, due and proper notice of said hearing.

That this resolution shall take effect from and after its passage.

(Seal) M. H. HAGAMAN
M. H. HAGAMAN
City Secretary.

OWNER, GOING TO RESCUE OF HIS DOG, IS KILLED

WILKES-BARRE, Pa.—In trying to save his hound from being chewed by a much bigger and stronger dog, Frank Gutkowski, aged 21 years, lost his own life. When friends informed Gutkowski of the manner in which his hound was being treated he hurried to get his shotgun.

In rushing to the rescue of the dog he slipped and fell on an icy pavement and the gun was discharged, the load striking him in the abdomen. He died within a short time.

WHITE & HARVEY Architects

We respectfully solicit your patronage. We are prepared to design and engineer your buildings in an artistic and efficient manner.

If you contemplate building a home, apartment or business building call at our office and let us solve the problem for you.

HEAVY WEEK-END TRAVEL TO MONTREAL FOR BOOZE

International News Service. BURLINGTON, Vt., March 4.—High grade whiskey at \$1.75 per quart in Montreal is causing heavy week-end travel from this section on the railroads. Those who imbibe and find national prohibition a nightmare may go to Montreal for the week-end and for the price of a quart of the "knock em dead" brand, available here, enjoy a bang-up "toot."

They figure it is better to spend two hours each way on the Montreal flier than to take chances with de-natured or wood alcohol products. Although no extra trains have been put on, every seat is taken, and when the blizzard season passes it may be necessary to augment the railroad service with jitneys.

Why Girls Need REOLO

Every mother knows the danger of that critical period when her daughter approaches womanhood. She knows that the tenderest care is necessary and that her daughter's health and happiness, perhaps even her life are in the balance.

The wise mother will safeguard her daughter's health and not permit her to overstudy, overwork or undermine her health by worry, social affairs and tasks that are too heavy for her strength.

The healthy girl becomes the strong perfect woman—the successful woman—the happy wife and mother. It is every girl's birth-right to be happy and healthy and mothers should watch this danger period and make sure that overstudy or overtaxing the strength does not sap the energy, deplete the blood, exhaust the nervous system and lower the vitality.

Girls who are pale, anaemic, nervous, languid—those who lack vitality—or are overtaxing their strength—need a SYSTEMATIC TREATMENT OF REOLO. It is a wonderful tonic and supplies the invigorating iron, life-giving oxygen and reconstructive cell-salts that the body must have to maintain strength, energy and vitality.

The large package of REOLO contains 100 pleasant, tasteless tablets, enough for two weeks' treatment and only costs one dollar. It has given remarkably successful results for the systematic treatment of girls. Every package is guaranteed and your money will be refunded if it does not give complete satisfaction.

Ranger Income Property or Producing Royalty Wanted

We have a few choice tracts of land in Plainview shallow water belt of the Panhandle, which we can trade and take one-half in Ranger income property or producing royalty. Everyone has heard of this famous Plainview country, where they make forty bushels of wheat to the acre or a ton of maize. Several have already invested there from here and are buying more. We are going out in a few days with parties and what we have to offer will soon be gone.

We have tracts ranging from a half section to thirty-six sections and can match you for a trade. See us at once.
