AUSTIN, July 20.—Plans for the removal of state troops from Galveston will be discussed at a conference to be held in Galveston tomorrow between citizens and the governor, and the attorney general. Both leave tonight for Galveston.

RED EMISSARY IS 'BOURGEOIS BOL SHEVIST'

LONDON, July 20.—Leonid Borisovich Krassin, who came into the public attention when he came to London this summer as head of a commission to negotiate the reopening of trade relations between Soviet Russia and the outside world, has been one of the few "moderates" to be given a place of responsibility in the Soviet governmental machinery and has been characterized as a "bourgeois Bolshevik."

For engaging in a students' demonstration, Krassin was expelled from the Petrograd Technological institute. Subsequently he engaged in a number of plots against the czarist regime, but continued to advance in his profession, that of an electrical engineer.

WASHINGTON, July 20.—Retail food prices continue to show a steady increase, according to the government survey.

HARVEST TIED UP BECAUSE NO BALING WIRE TO TIE IT UP

WASHINGTON, July 20.—Something new in the way of shortages has developed. This time it is a shortage of baling wire for this season's hay crop.

The bureau has communicated with the principal manufacturers of wire and leading baling wire factories urging them to increase production.

As distribution is one of the main reasons for the present shortage the department of agriculture has suggested plans to manufacturers by which it is hoped to supply those sections of the country first where the need is most pressing.

BAD HEAD WORK.

International News Service. LONDON, July 20.—An Enfield motor tester who had burglar ambitions sits in his cell and curses his headwork. He invited a couple of likely looking men to help him break into a garage. They even accompanied him on a second "job," and he conducted a "school of burglary" for them, criticizing their wearing of white scarfs on a night job. Then they nipped him. They were policemen.

BEING ON ACCOUNT OF A CLEAN BLOCK AND A RANGERITE

A native of Ranger who has seen the down town streets changed from a sea of mud to solid paving, then return to mud or dust again, was on North Austin street the other day. He had just come from Main street. He had a feeling that something was wrong. Something about Austin street did not appear natural. He looked again and wondered what was missing. Then it came to him, one solid block of the city's paving shone like a polished floor. On either end of the block the brick was hidden by a coating of mud. He wondered about the matter and asked himself how it became so clean. He knew that while this was the city's duty it had no funds available for the work. On inquiry it developed that the property holders along that particular block took pride in their street, regardless of the fact that the city could not sweep the street. Straightway this native went to a hardware store and purchased a pick and shovel.

Six Bits Plunder Two Mexicans Arrested On Holdup Charge

J. G. Garcia and Pancho Mogars, two Mexicans, were arrested this morning by Patrolman Mullinax and charged with highway robbery with firearms. The arrest followed information furnished the police by another Mexican who alleges that at 10 o'clock last night the men now in custody held him up at the point of a pistol near the Texas & Pacific depot and relieved him of seventy-five cents, American money. He also identified the arrested Mexicans as being those who robbed him.

AMERICAN LEGION NETS GOOD AMOUNT FROM CLARK SHOWS

The net receipts of the American Legion from Clark's greater shows, a carnival which was in Ranger last week, under the auspices of the legion, total \$165. The gross receipts due the legion under the arrangements made with the carnival company were \$845. Of this amount \$480 was paid out for state, county and city license, ground rent, lighting bills, wages for ticket takers and other expenses all of which the legion had to pay under their contract with the company.

The report of Finance Officer R. H. Hanford shows that the gross receipts of the shows were \$1,950, of which the legion received 15 per cent from forty-seven concessions they received \$362.50.

To Mrs. Lottie Kolboski, a Polish American patriot of Wilburton, Okla., falls an unusual record for war work. During the war she knitted 113 sweaters, two mufflers, two pairs socks and one pair mittens. Besides this she served one day a week in the American Red Cross sewing room, two days a week in the surgical dressing room, and devoted much of her time to aiding Liberty Loan and Red Cross campaigns.

FUNERAL SERVICES HELD TODAY FOR PIONEER RESIDENT

Robert Frost, a pioneer resident of Eastland county, died at his home in the west edge of this city at 3 p. m. yesterday. He was 70 years old and is survived by his wife and a grand-daughter, Fay Frost. Funeral services will be held at the residence of the deceased at 4 p. m. this afternoon. The Rev. Webb, pastor of the First Methodist church, will officiate. Burial will take place in the family plot at the old cemetery, east of the T. & P. railroad tracks. Mr. Frost was well known throughout this section of the country.

LOOK AT THEIR EARS AND KNOW NEWLYWED'S CHANCE OF FELICITY

AKRON, Ohio, July 20.—Would you know whether newlyweds are going to be happy? Look at their ears. This advice is given by William Woodbridge, local marriage license clerk. Listen to the Woodbridge verse. "Ears that wiggle denote versatility. They should be coupled with the mall, flat, domestic car, which lies close to the head and which can listen to the same jokes year in and year out, or to slide trombone practiced for hours at a time without quivering. "Ears which are not mates denote complexity of disposition. "This complexity is most likely to manifest itself in a preference for mending his neighbor's chicken coop rather than seeing of his own radish bed. It will, generally, be too ill to go to church Sunday morning, but will always miraculously recover in time to go to a baseball game Sunday afternoon. Such an ear should be associated with what is popularly known as a deaf car. "Then, there is the ear which lops over the edge, like a setter pup. It denotes kindness to children and stray cats and an aversion for the popular institution known as the Saturday night bath. To fulfill its mission in life it is absolutely necessary that this ear should be made up with the red, or common garden variety, which always denotes a pillar of the church and a worker in the Ladies' Aid."

"Pardon me, neighbor," said Mr. Snapp, to the man sitting next to him in the smoking car, "but do you know that that cigar you are smoking reminds me very much of prohibition?" "Prohibition? How's that?" "Because some of us can stand it and the rest have to."—American Legion

but five hits and holding the Resorters scoreless after the second. He walked three men and breezed seven. He was opposed by the best of the Resorter staff, Mead, who was nipped for eight blows, half of which number were collected by Charlie Copp, long left fielder of the visitors.

Clopp has been in a hitting slump, but got his eye on the old apple today and batted a million, with four hits in four times up. He also furnished the fielding sensation of the day with a one-bag catch of a long fly which the fans thought was sure for a hit.

"SHUFFLIN' PHIL" CAN SHUFFLE NOW TO MINOR LEAGUES

Phil Douglas, erstwhile pitcher of the New York Giants, has done his last dance at McGraw's expense. That's the dope out of New York town. McGraw slapped a suspension on Douglas the other day when he failed to join his teammates on their departure for the west.

McGraw would have suspended him sooner but for the plans of some of his team mates. "When he is in shape, he is there," National league fans have always said of Douglas. He has shown flashes of being a great hurler with two or three clubs, but the spirit of wanderlust at critical times has ruined his career.

Douglas had failed to live up to expectations, however, having won only five or six games and losing about the same number, but he was getting better. His caper with the Giants leaves but two dependable pitchers, Toney and Nell, and practically knocks in the head the hope McGraw had for making a fall drive.

BIGGEST STAR IN TENNIS FIRMAMENT

William T. Tilden, 2d, of Philadelphia, looms up today as the biggest star in the lawn tennis firmament because of his wonderful victory in the recent British lawn tennis championship tourney. TAD'S TID-BITS

THE BEST THING THAT EVER HAPPENED.

There is no Dempsey-Carpentier match in sight and the chances are that there never will be. Years ago Pope wrote, "Whatever it is right," He said a monthful.

Mr. Deschamps, the manager of Carpentier, after a lot of bunk talk, toured the country with his charge, filled his knapsack with gifts and departed as he came yelling "we want Dempsey."

On the other hand, it can be truthfully said that Carpentier would really like to meet Dempsey for the title. He told one of his party on the tour so.

In broken English he said: "All my life I have longed for a chance to box for the championship of the world. It is my one ambition to be the real champion. If I do not fight Dempsey I know that some time I shall regret it. I am in my prime now and I should fight him soon if I am to fight him at all, but that is up to my manager."

What Could Be Fairer Than That? Dear Tad—The following struck me as being rather good: A friend of mine had some fine rabbit sausage in a Chicago hotel. He liked it so well that he asked the head waiter where the sausage was made. He was told in Oskosh, Wis. My friend happened to be in Oskosh the following week and sought out the sausage plant. Upon approaching the plant he saw a man leading a decrepit horse toward the gate.

BROAD SCOPE OF BELGIAN OLYMPIAD PROGRAM PRAISED BY AMERICAN COMMITTEEMAN

NEW YORK, July 17.—President Gustavus Kirby, of the American Olympic committee, is filled with praise for the fine co-operation of the Belgian Olympic committee and the American army of occupation in connection with the coming visit of the American team to Antwerp.

Kirby has just returned from a trip to Belgium, where he found preparations under way that, because of their scope, frankly astounded him. On landing here from Europe, he said: "I am tremendously impressed with the preparations made by the Belgians for the staging of the seventh Olympiad. My only fear is that America will be unable to live up to our host's expectations, due to a lack of funds to properly finance the athletic expedition."

Training facilities will be available for the track and field athletes at the Olympic stadium, the Antwerp football park and an immense aviation field not far from the center of the city. Similar arrangements have been completed for the swimmers, equestrian, gymnasts, boxers, wrestlers and other contestants. For the army polo, rifle and riding teams special provision has been made to give the individual members every training benefit of the great army camp, Collez.

President Kirby's statement that the Belgians and America's army officials abroad are working unceasingly to make America's participation a complete success is borne out by an analysis of his report. During his stay in Belgium the president of the committee completed almost every detail necessary for the reception, housing and training of the score of more teams which will represent this country in the Olympic games.

Garment Workers Propose to Establish Own Factories

NEW YORK, July 19.—Profiteering in the women's garment industry will be fought by the union owned shops, factories and stores by the International Ladies' Garment Workers' union.

This became known here today when officials of the union announced that it has a committee at work laying the foundation for the first group of union owned factories, which are expected to be in operation by next spring.

These factories are to be established, according to Benjamin Schlesinger, international president, to demonstrate that the workers can be paid first-class wages, work less hours and enjoy better working conditions than they are now getting and reap a "reasonable profit" from their product and still sell it considerably under the regular market price. The union proposes to sell its output to consumers through its own stores.

The first group of six factories will be established in New York, together with a number of union stores, union officials said. Others will be located in Chicago and Philadelphia.

Funds From International.

Ample funds for the factories have been provided by the international union, Mr. Schlesinger said, and later as more money is needed "union shop and factory assessments" will be levied to finance the project until it is put on a paying basis.

"We expect to be turning out medium and high priced garments for the spring trade," said Baroff, secretary of the union. "The first factories will probably employ about 1,000 workers to be selected by the union." They will pay higher wages than are paid by the employers in the garment industry and a seven-hour day will be in effect," he added. The workers now work an eight-hour day with a half-holiday on Saturday.

The local unions of the Ladies' Garment Workers, according to Mr. Baroff, are also taking steps on their initiative to beat the high cost of living by establishing co-operative stores and restaurants. A number of stores have been started in New York and a restaurant is being operated by unions in Philadelphia, he said.

Garment Workers Alliance.

Definite steps toward formation of a great alliance of all the garment workers unions in America have also been taken by the International Ladies' Garment Workers' union.

Schlesinger announced today that a call had been sent out for a conference to be held the latter part of October for the purpose of organizing a federation of the 500,000 clothing workers in the seven international unions in the clothing and garment industry.

"The logic of events and the legitimate causes which have prompted the formation of national departments in the mining, building, printing and other industries point with directness to the identical necessity of forming a similar federation in our industry," said the call sent out by Mr. Schlesinger.

The membership of the following international unions would be represented in such an alliance: United Garment Workers of America, Amalgamated Clothing Workers, International Journeymen Tailors' Union of America, United Cloth Hat, Cap Makers and Millinery Workers' Union, International Fur Workers' Union, Neckwear Workers' Union of New York, and the International Ladies' Garment Workers. All are affiliated with the American Federation of Labor.

NEW RULER OF PALESTINE GOES TO TAKE UP DUTIES

Sir Herbert Samuel and wife, photographed on departure from England. Sir Herbert Samuel, the noted English statesman who has been named the first high commissioner of Palestine under the British protectorate, left recently to take up his new duties. Sir Herbert was post-master general in the British cabinet, 1910-14 and 1915-16; president of the local government board, 1914-15; secretary of state for home affairs, 1916; chairman of select committee on national expenditure, 1917-18, and British special commissioner to Belgium, 1919.

Boots Made in '58 for Grandfather Worn by Coolidge

PLYMOUTH, Vt., July 19.—Governor Calvin Coolidge of Massachusetts, Republican nominee for vice-president is "on a rest." With Mrs. Coolidge and their two sons, John and Calvin, he is on his father's farm in the hills of Vermont. He finds the best way to rest is to rise early and help his father do the farm work.

The farm, a hilly one situated on the top of Plymouth notch, consists of over 200 acres, partly wooded and partly cultivated. Long meadows of hay and oats are banked with fruit trees, heavily laden with sweet Vermont apples and juicy plums.

The governor has risen at 6 o'clock every morning since his arrival on his forty-eighth birthday, July 4. He usually puts on his grandfather's togs, consisting of an old flannel shirt, denim trousers and an old-fashioned pair of cowhide boots, made at the Plymouth tannery in 1858.

He recites with interest the history of the boots. They were made for his grandfather when he was elected to the legislature at Montpelier in 1858 and he wore them continually throughout the session. Governor Coolidge wears them now when he "tinkers" about the farm.

A frock which the governor wears when he works in the fields is also a relic of his grandfather's days. It is of denim and slides over the head like an army shirt and is not unlike the frocks worn by the artists. In it, the governor portrays an entirely different man from the one who sits in the Boston capitol, immaculately attired.

By way of adding to his hearty appetite for the sordid country cooking prepared by his father's housekeeper, the governor frequently goes into the meadows before the mist has cleared and mows a good sized corner of the field before the breakfast bell rings. He says it is much more invigorating than golf and fully as remunerative although he humorously adds that "some claps make more at golf than they would at farming."

Governor Coolidge first learned of the nomination of Governor Cox and Franklin D. Roosevelt for the Democratic ticket the day after the nominations were made. The stage driver, driving the old-fashioned stage from Ludlow to Woodstock, brought the news from Ludlow. It was nearly a day old then. The governor had no statement to make regarding the Democratic selections. When asked for

FOX TROT GOOD FOR TUBERCULOSIS SAYS SCIENTIST

PARIS, July 20.—The fox-trot is one of the most effective methods of fighting tuberculosis, according to Dr. Gautiez, a thesis by whom has just been read before the academy of science by Professor d'Arsonval. The tango is not quite so good, but it is better than nothing. The curative value of the fox-trot is due to the fact that the dancers, rising on their toes, inhale a greater quantity of air than otherwise and this strengthens the lungs.

Dr. Gautiez declared that it is not even necessary to perform an actual dance. All that is needed is to walk on tiptoe a few minutes each morning. When we walk in the ordinary fashion the lungs are comparatively inactive and this is said to be one of the "favoring causes" of tuberculosis. Laboratory experiments have demonstrated:

1. When the weight of the body is inclined toward the toes pulmonary ventilation is increased 17 per cent.
2. In the same conditions the intensity of respiratory exchanges is increased 14 per cent.

Instead of going to a sanatorium, according to this view, the patient should join a dancing class and get well.

Navigators leaving Los Angeles harbor are advised to keep their eyes open for a nice, tame iceberg. One is needed in "The Furnace," a William D. Taylor special to be released by Re-Alert.

HE TRAVELED ALL OVER THE WORLD

But Tanlac Helped Him More Than Treatments Here, in Europe and in South America.

"I have been treated for indigestion in France, Italy, Switzerland, North and South America and in fact all over the world, but Tanlac is the only thing I have ever found to do me much good," said H. L. Finniger, watch maker for Nathan Dohrmann & Co., San Francisco, Cal., living at 36 Plato St.

"Always after eating," continued Mr. Finniger, "I would have such cramps in my stomach that I could hardly stand it. I had fallen off until I weighed only ninety-eight pounds and was so nervous the least little thing would upset me. I could sleep but little and got up in the mornings feeling all fagged out. My strength and energy left me and I felt like I would have to give up entirely. Besides taking everything in the way of treatments and medicines I tried dieting and the rest cure, but never got more than a little passing relief.

"The way Tanlac brought me out is marvelous. I can eat anything now without any trouble afterwards. I have gained twenty pounds and my nerves are steady as a clock. I sleep fine every night and get up in the mornings ready for a good breakfast and a full day's work, and am enjoying better health than I have in years.

Tanlac is sold in Ranger by Phillips Bros and in Eastland by Butler Drug Co.—Adv.

Leprosy Cure Believed Found; Tests Indicate Two are "Clean"

PENIKESSE ISLAND, Mass., July 20.—Has the dream of the leprosy cure come true?

This question will be answered this afternoon when a special commission of New York and Boston specialists visits the State leper colony on the island.

Dr. F. H. Parker, in charge of the sixteen lepers confined here, believes he has cured two of them—two young men under treatment for three years. Every indication points to the fact that both men have been cured. Several tests have been made upon them for traces of the disease, and all of them show that it has disappeared. Both suffered from average cases when they were sent to Penikese.

To make sure that the men are cured, Dr. Bernard Carey, director of the division of communicable diseases of the Massachusetts State Department of Health, arranged for the commission to examine the two, beginning today.

Thorough tests covering a period of a week will be made. Those who comprise the commission are Dr. Victor Heiser, of New York, member of the International Health Board; Dr. Victor Safford, of Boston Board of Health; Dr. Algonzo Coolidge, of Massachusetts General Hospital, nose and throat specialist; and Dr. Townsend Thordike, Boston skin specialist.

SCIENCE LOSES IN TUFF WITH RELIGION ON CAUSE OF WAR

International News Service. BERLIN, July 20.—Science and religion have come into conflict in the Berlin suburb of Steglitz.

Dr. Goldstein, a general practitioner of Steglitz, delivered some time ago a sensational lecture on the limitation of families.

The surplus population of Germany, he maintained, was the main cause of the war. Germany had far too many people for her natural resources.

Every woman, he urged, who had brought three children into the world should have the right to refuse or avoid having more.

A local person named Weyman is suing a vigorous attack on Goldstein from the church standpoint.

He said Goldstein was "advocate-essce and reports that the oil outlook is ing sexual Bolshevism and the de-very promising in that territory.

"Twenty gowns—count 'em! That's the total of feminine finery worn by Agnes Ayres in "The Furnace," a William D. Taylor special production to be released by Re-Alert. It comprises the most extensive wardrobe of recent motion picture releases.

Ringling Officials Plan Extensions and Electrifying

Special to The Times. EASTLAND, July 20.—John Ringling, president of the Ringling Eastland & Gulf Railroad; C. W. Wilson, vice-president; W. F. Brown, general manager; J. C. Ramsey, assistant general manager, and Frank Kelly, superintendent, together with a party of business associates of Mr. Ringling from New York were in Eastland in the private car "Jomar" during the last week looking into the matter of extension of the Ringling road.

They left for the East Saturday night and are to return again about the first of August. While here Mr. Ringling authorized the statement that he had instructed Chief Engineer Chamberlin to immediately proceed to survey and locate three tentative routes to the north of Wayland and two south of Mangum and one from Carbon, with a view of extending the road.

The traffic department has under consideration the installation of motor car service between Mangum, the present southern terminus, and Eastland with a view of making all M., K. & T. and T. & P. connections with a view of extending the service north as soon as the northern terminus is determined.

Mr. Ringling expressed himself as very highly pleased with the prospects of the local field through which the road runs and states that recent developments in northern Stephens county and in southern Eastland county in his judgment will justify early extension in both directions.

Mr. Ringling has some local interests at Eastland which he found in very satisfactory condition and expressed himself as generally pleased with prospects.

AND HUSBANDS LIKE THIS ARE MUCH IN DEMAND

International News Service. LONDON, July 20.—A husband who lent his wife and paid her an allowance of \$3 a week while she lived with another man has been revealed in a case before the Clerkenwell magistrate.

The loaned wife's allowance didn't arrive last week. Brown, the consignee, so to speak, found her taking his clothes out to pawn them, and lost his temper.

When she brought him into court for assault and explained to the judge that she merely borrowed the clothes and would have reclaimed them when her allowance arrived, the judge ruled that the husband "must be a remarkably good chap," and fined Brown \$10.

Overcrowded Train Schedule Delays Breckenridge Trip

The trade excursion of Ranger citizens to Breckenridge, which had been planned for today by the Chamber of Commerce with the help of other civic organizations has been postponed. The committee who had been appointed to arrange the trip could not make the necessary arrangements for train service with the Denver & Rio Grande railroad. As it was explained by the officials of the company, their present equipment of passenger service between Ranger and Breckenridge is badly overcrowded now and they have not the additional equipment to run a special train. The plan of the committee was to take 200 or 300 Ranger citizens into Breckenridge for a one-day visit. The committee is still working on the project and expect to make the necessary arrangements within a few days.

JUDGE FLEWELLYN DISMISSES CASES OF STRONG LANGUAGE

Four cases of using abusive language were tried in police court this morning and four verdicts of not guilty were returned by Judge Flewellyn. The defendants were A. H. Bowers, Mrs. S. C. Cunningham, W. P. Tommons and James Nickleson. The charges against the first three hinged around an occurrence in the Guaranty State bank yesterday, in which it was alleged that all three persons used abusive language. According to the testimony, Mrs. Cunningham entered the bank for the purpose of getting the cash on some checks she had in her possession. Seeking a familiar face, she hesitated for a moment and Mr. Bowers asked her if he could attend to her wants. In the course of the conversation, Mr. Bowers suggested that his bank would like Mrs. Cunningham to open an account there. She replied that she would were it not for that Bowers' Mr. Bowers did not make himself known. Later Tommons entered the conversation. Mr. Bowers stated that he only made an effort to assist the affair. Mrs. Cunningham also denied using abusive language to Mr. Bowers. The judge ruled that the evidence was not sufficient to sustain a conviction in either of the three cases. The fourth case set out that Joe Henson entered the restaurant of Nickleson for a meal. After it was eaten Henson said he discovered he had not enough money to pay the bill which was 80 cents. Nickleson then called him dirty names, he said, and threatened to have him arrested. Judge Flewellyn decided for the defendant.

GIVEN IMPORTANT JOB BY UNCLE SAM

Robert Watson, a native of Massachusetts, who came to Washington as chief clerk of the department of labor in 1913, is the new president of the U. S. Housing Corporation, whose chief concern now is to dispose of government property worth approximately forty million dollars. The property was acquired and built by the government during the war as a part of the military program and includes homes for government workers, both in Washington and elsewhere throughout the country.

DESTITUTE TRIO RECEIVE HELP AND GO ON TO CISCO

Two women and a little boy slept last night in the Texas & Pacific passenger station. They had come from a point in Louisiana and arrived in Ranger with their last penny gone. One of the women is old and crippled, the other, who is her daughter, is afflicted with tuberculosis. Both are widows, the younger one by desertion. The story was told in the Chamber of Commerce. Without breakfast, they were directed there. They had come here in search of John Neville, who is an uncle of one and a brother-in-law of the other. They knew nothing of his whereabouts, but with a blind confidence that he would be found, they came on. They said he would help them. Money was forthcoming for meals and more besides. They decided to go to Cisco, where there is a cousin they hope to locate.

WAR DEPARTMENT BUYS FLYING FIELDS AT SAN ANTONIO SAN ANTONIO, July 20.—Purchase by the government of approximately 1,000 acres of land in Kelly field No. 2 and Brooks field, is officially announced. The cost was \$108,000. Negotiations are reported under way for governmental purchase of an additional 1,200 acres in the two fields. Captain Eric Eades, of the judge advocate's department, Washington, who handled the transaction, just completed, said he was without official information as to what military usage would be made of the two fields other than that they probably would serve as air stations. CHANGE IN BALLOT PLEDGE DISFRANCHISED ABSENTEE VOTERS Special to The Times. BAIRD, Texas, July 20.—Following the form of primary ballot adopted by the Democratic state convention, will cause the disfranchisement of several Callahan county absentee voters. With the pledge, "I am a Democrat, and pledge myself to support all the nominees of the Democratic primary at the November election, both state and national," at the top, the ballots for the twenty precincts in the county have been printed and were about to be distributed, when a wire from Attorney General C. M. Curton declared such ballots illegal and unconstitutional. A new ballot was prepared and is being printed with this pledge at its head, "I am a Democrat and pledge myself to support the nominees of this primary." Several absentees had already voted the old ballots, and these votes must be thrown out.

Public Intolerance Aids Tuberculosis Spread, Charge

(Bulletin from State Tuberculosis Sanatorium). A conclusion, far reaching in its effect on the handling of the tuberculosis situation, has been reached concerning infection in tuberculosis or consumption. It has been established that infection in this disease takes place most easily and most frequently in childhood. Tuberculosis disease often results from such infection in the form of lumpy necks, scrofulous condition, hip and joint disease, on through a long list of conditions including pulmonary or lung tuberculosis, the last, however, not often appearing in childhood. In the majority of children, very fortunately, the infection remains dormant, or if there is disease it is so slight as not to attract attention. In such cases the germ of tuberculosis lies buried in the tissues, encapsulated, to use the medical terms, with its days of mischief ahead. In adult life tuberculosis more often manifests itself in the pulmonary type rather than as surgical tuberculosis (glandular, joint, bone, etcetera), and occurs most frequently in that period of life when there is most stress and strain—the age period from 16 to 30, infection having taken place in childhood. With this preliminary explanation clearly in mind it should not be difficult to appreciate the importance of the adoption by the public of an intelligent interest in the anti-tuberculosis campaign, an interest now lacking, and further that there should be a complete change of attitude towards the tuberculosis individual. Considering that not less than one death in ten is due to tuberculosis, a curable and preventable disease, there is no excuse for any but a serious view of the situation. Spitting Spreads Disease. As infection begins with the child, great importance should be placed on health work with children, not only to limit infection as much as possible, nine-tenths of which might be eliminated if careless coughing, sneezing and spitting were controlled and the production and distribution of milk properly supervised, but to overcome defects dangerous in themselves or possible causes of future trouble. The last is done through medical inspection, dental hygiene, correct posture work and efforts toward secur-

ing for the child proper nourishment, rest, fresh air and recreation. Such work is best done in the schools and is desirable among all classes. Every one of these items has an important bearing on tuberculosis and if tuberculosis is to be eliminated this work must be undertaken. Fears to Use Care. The connection between the attitude of the public toward the tuberculosis and the spread of tuberculosis is this—for the consumptive to observe reasonable care in the disposition of sputum and about his person makes it safe for others, but for him to observe such care at once makes him a leper would be avoided, yet if he is at all dangerous it is because of carelessness on his part, whereas his very efforts to protect others work hardships on him. Is it surprising then that the average man or woman with tuberculosis will conceal the fact, spitting wherever it is convenient, coughing and sneezing without covering the face, in these ways scattering the germs of disease broadcast over the land? There must be a complete change of front on the public's part. A more intelligent attitude must be adopted in its treatment of the consumptive, and when that occurs not only will the consumptive undertake all necessary precautions for the protection of others, but others, not known invalids but nevertheless hawkers, coughers, and spitters, all spreading respiratory disease, will be ready to take up the use of the sputum cup and the handkerchief.

CUTICURA HEALS SCALP TROUBLE

In Pimples, Burned and Itched, Could Not Sleep, Hair Came Out.

"I was troubled with a severe scalp affection. At first there appeared small reddish pimples with watery blisters at the apex. The blisters enlarged, spread and sometimes burst and became very sore.
