GHOLSON NAMED HEAD OF CITY'S BUSINESS BODY

Chamber of Commerce Officers Chosen; Secretary to Be Named.

John M. Gholson, prominent in the oil development of the Ranger field six years ago, was elected president of the Ranger Chamber of Commerce Monday morning by the new board of directors.

Gholson, elected as the mayor of Ranger three years ago, entered the Chamber of Commerce room a few minutes after he had been chosen for the post by his fellow directors. He succeeds O. D. Dillingham, who has been active in the development of Ranger.

Dr. L. C. G. Buchanan was made first vice president and M. H. Hagaman, second vice president. C. E. May was chosen as secretary-treasurer.

R. Q. Lee of Cisco, capitalist, was endorsed for the office of president of the West Texas Chamber of Commerce by the board of directors and the representative of the Ranger chamber will be instructed to vote for Lee at the annual convention.

A resolution of thanks to B. P. Bennett for services performed during his incumbency of the office of manager of the Ranger chamber for the last 13 months was ordered drawn up by the board. Dr. Buchanan is chairman of the committee to draft the resolution.

There will be regular meetings of the board of directors the second and fourth Tuesday nights of the month.

Action on employing a secretary will be taken at the next meeting of the board, which will be on April 8. More than five applications for the office have been received.

FIFTH SUNDAY MEETING DRAWS BIG ATTENDANCE

B. Y. P. U. of Cisco Association Meets in Central Baptist Church, Ranger.

The fifth Sunday meeting of the Baptist Young Peoples Union of the Cisco association was held Sunday afternoon in the Central Baptist church of Ranger, bringing to a brilliant conclusion the meeting of the Baptist laymen of the three counties of the district, which was begun last Thursday night.

Miss Moore, of Eastland, president of the district organization, presided at the session in the afternoon, when representatives were in attendance from many parts of Eastland, Stephens and Shackelford counties. A delightful musical program featured the exercises. Many inspiring and helpful addresses were made, and the young people themselves taking the chief part in the session.

Sunday night 12 deacons, previously examined and found qualified and of sound faith and doctrine, were ordained. It was an impressive ceremony. The Rev. Ross Payne, evangelist for the Cisco association district, preached the ordination sermon. Between 600 and 800 people were fed Sunday in the Central Baptist church annex, for they were given luncheon at noon, a staying course during the afternoon and supper before the evening service. Arrangements had been made to care for a large number of guests, but they came in larger numbers than expected, requiring some to wait occasionally until more supplies were procured. All were taken care of, however.

The fifth Sunday meeting in Ranger, beginning last Thursday night and continuing steadily through Sunday, was said to have been one of the largest attended and most successful in the history of the Cisco association.

PENNSYLVANIA FLOODS SLOWLY RECEDING, BUT LEAVING RUIN BEHIND

PITTSBURGH, Pa., March 31.—Devastating floods of the Monongahela, Allegheny and Ohio rivers were slowly receding today, leaving in their wake a path of ruin and human suffering. The floods at 2 o'clock Sunday afternoon stood at the highest stage in 11 years, 29.2 feet, then they began slowly to recede.

Thousands of families were made homeless by the high waters and many living near the river were forced to seek refuge in the upper stories of their dwellings.

The plane was flying from Rome to Athens, when forced down on the island of Corfu.

RICHEST NATION WORLD HISTORY HAS EVER KNOWN

Property in United States Estimated Above 320 Billion Dollars Value.

WASHINGTON, March 31.—The department of commerce announces, for the United States, its preliminary estimate of the value, Dec. 31, 1922, of the principal forms of wealth, the total amounting to \$320,803,862,000, as compared with 186,299,664,000 in 1912, an increase of 72.2 per cent. Per capita values increased from \$1,956 to \$2,918, or 49.6 per cent. The total amount of the estimate for 1912 as here shown is less than the amount shown in the report for that year by \$1,439,407,000, due to a revision now made for that year in the value of taxed real property in the state of Oklahoma.

All classes of property increased in value from 1912 to 1922, except live stock, which decreased from 6,238,359,000 to \$5,807,104,000, or 6.9 per cent. The estimated value of taxed real property and improvements increased from \$96,923,406,000 to \$155,908,625,000, or 60.9 per cent; exempt real property (exclusive of national parks and monuments) from \$12,313,520,000 to \$20,505,819,000, or 65.6 per cent; farm implements and machinery from \$1,368,225,000 to \$2,604,638,000, or 90.4 per cent; manufacturing machinery, tools, and implements from \$6,091,451,000 to \$15,783,260,000, or 159.1 per cent; and railroads and their equipment from \$16,148,532,000 to \$19,950,800,000, or 23.5 per cent. Privately owned waterworks from \$290,000,000 to \$360,885,000, or 24.4 per cent; and that of gold and silver coin and bullion from \$2,643,000 to \$4,278,155,000, or 63.5 per cent. These three items have not been distributed to states, but appear only in the totals for the United States.

In making these estimates the department followed in general the methods employed in making the estimates for 1912, though it is believed that in some respects the work in 1922 has been more thorough. It should be borne in mind that the increases in money value are to a large extent due to the rise in prices which has taken place in recent years, and so far as that is the case they do not represent corresponding increases in the quantity of wealth.

TWO AUTOS COLLIDE ON STRAWN ROAD, ONE OCCUPANT IS BRUISED

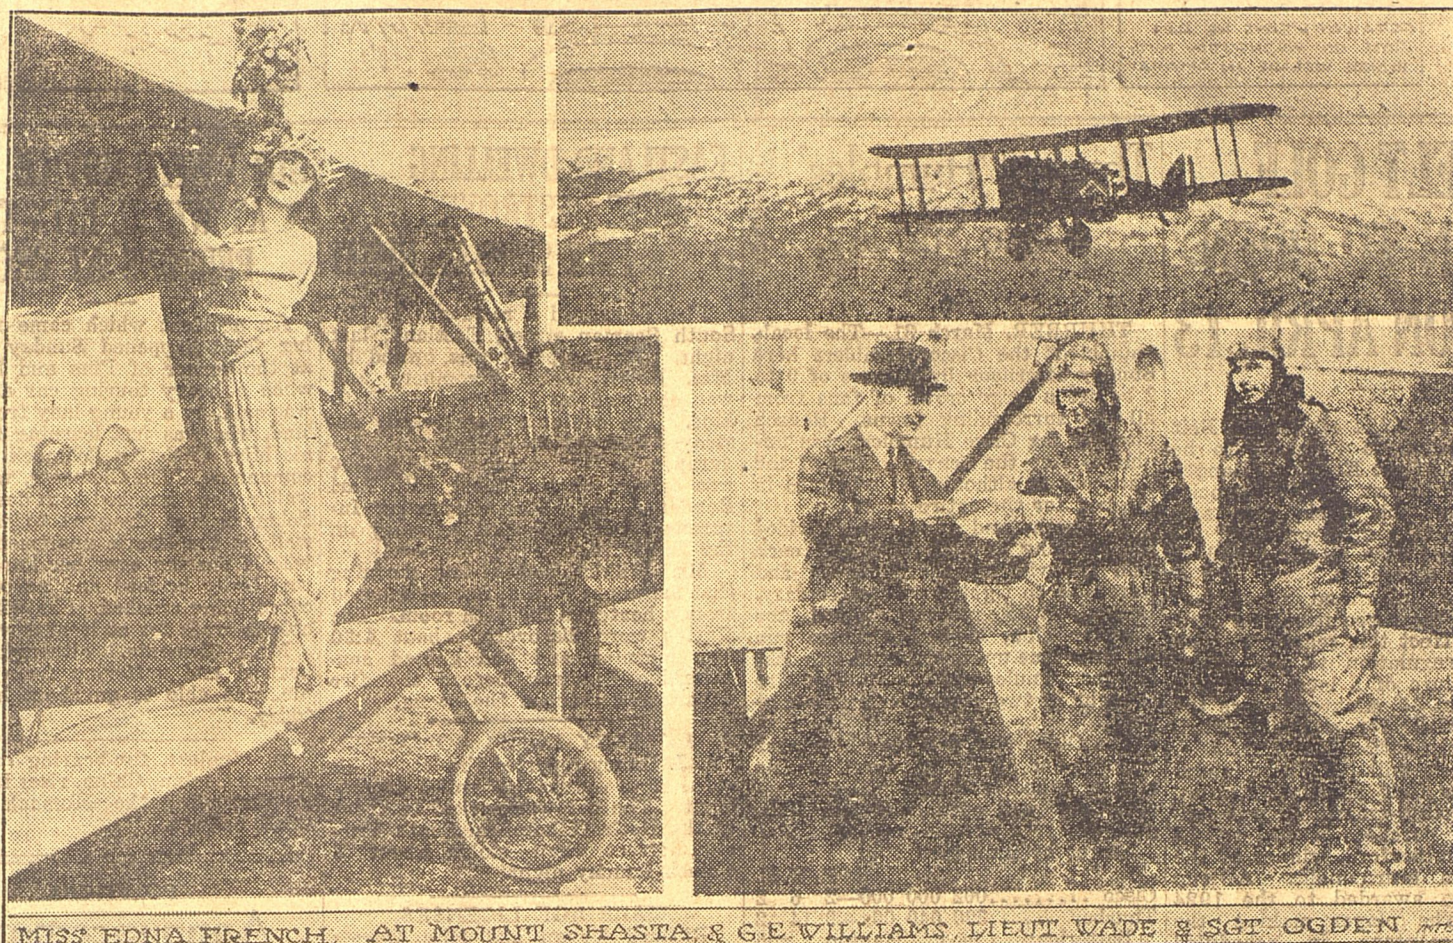

Mrs. R. D. Garrett of Ranger was bruised about the knees, head and back last night on the Strawn road in an automobile collision. She was removed to the City-County hospital in a Jones-Cox ambulance, but will be able to leave the hospital today.

Mrs. Garrett was hurled from the roadster in which she and her husband of the Texas Pacific Oil & Oil company were riding and landed on the highway. Her husband received a small cut above his left eye.

According to an account given by Garrett, he was driving east and a touring car preceded by a coupe were going west. The touring car swung onto as if to pass the coupe at about the same time the roadster reached the two cars. The coupe driver swung the car over to the left side of the road and Garrett found himself between the two cars.

Garrett's roadster was demolished and the touring car's front right wheel was badly damaged.

"GODDESS OF FLIGHT" FOR 'ROUND-THE-WORLD FLIERS.

Nominated by the Aviators' Club of Pennsylvania, Miss Edna French, New York City actress, has been chosen as the "Goddess of Flight" for the U. S. Army 'round-the-world fliers. She is shown here before a flight from Mineola, Long Island, when, following an ancient custom, she scattered flowers to the four winds as official mascot of the world fliers. One of the great Douglas world cruisers is shown here on its flight toward Seattle, Wash., just clearing the snow-clad peak of Mount Shasta, California. The four ships halted at Seattle to have pontoons attached for the flight around Alaska, across the Behring Sea and to Japan and China. On arrival at Seattle the fliers got mail from home. Superintendent of Mails George E. Williams is shown handing letters to Lieutenant Leigh Wade and Sergeant Ogden as they landed at Sand Point Field.

SHERIFF KILLED WHILE TAKING PART IN PLAY

Former U. S. Sailor, Believed Mentally Deranged, Confesses to Shooting.

ANDERSON, Texas, March 31.—Commodore Bullock, 33, believed to be mentally deranged, confessed today to the murder of Sheriff L. E. Morehead during a community entertainment at the Steep Hollow schoolhouse, near Bryan, Saturday night.

In a weird, disconnected story, Bullock said that "officers of the navy with whom he had served" told him to do it. Later on he said, "my dead sister in heaven sent me word to do it." As he was being brought to jail Bullock told officers where he had hidden a screen he had used when he shot the sheriff and gave the officers other information which they later verified as corroboration of his confession.

Sheriff Morehead was taking part in the entertainment at the schoolhouse and was walking across the stage when the report of a shotgun was heard and he crumpled to the floor. Members of the school class giving the entertainment rushed to his side, while many of the audience, thinking it a part of the play, applauded.

The shot was fired through a window and entered the back of the sheriff's head. Bullock was quickly trailed to his home and found in bed. He at first denied all knowledge of the tragedy. He is understood to have been an inmate of the Southwestern Insane Asylum at one time and later was in St. Elizabeth's Hospital at Washington. He joined the U. S. Navy just before the world war. At one time he was confined in the jail at Bryan and is said to have made threats then against Sheriff Morehead, but no one took them seriously.

LONDON, March 31.—Premier Mussolini of Italy predicts "sooner or later" an uprising of the middle classes in England in a somewhat different form from the fascist revolt in Italy. Sir Eric Hambro, prominent English banker, said today in an interview.

Sir Eric referred to a recent conversation with the Italian premier in which Mussolini visualized an entire Europe under the spell of fascism. "The keynote of fascism is a realization that capital is the friend of the people," Mussolini said. "For this reason they will eventually work for eliminating the oppressive taxation on capital, thereby hastening the revival of industry."

POINCARÉ GETS FLUSTERED WHEN DEPUTIES LAUGH

PARIS, March 31.—Premier Poincaré received a cool reception from the chamber of deputies today when he read his ministerial declaration and presented it to the new cabinet. Frequent interruptions and laughter came from the left.

Premier Poincaré was not his old fighting self. His hands trembled and he appeared over-strained. He became angry at the many interruptions and stopped reading.

"Name of a dog," shouted a radical leader, "cannot we laugh?" The premier retorted that he would read his sentences at each interruption. There were 20 of these sentences and one time he read over one paragraph several times. He shook with rage as radical deputies ridiculed his announcements as the new minister. Several of his tormentors were opponents for his office and political adversaries.

When the reading was over, the premier demanded that the chamber of deputies postpone interpellations on the left until tomorrow. The deputies finally agreed to this and to a discussion of provincial credits which are badly needed by the devastated region.

Scattered applause greeted Poincaré occasionally and hearty applause when he referred to the continuation of the Ruhr occupation policy.

HARRY SINCLAIR TOO BUMPTIOUS, MEETS REBUFF

Federal Grand Jury Indicts Him on Charge of Contempt of Senate.

WASHINGTON, March 31.—Harry F. Sinclair was indicted today by the federal grand jury on a charge of contempt of the senate oil investigators.

Sinclair refused to answer questions on the ground that the committee was without constitutional authority to compel a man to divulge his private affairs.

Involved in the legal fight which is expected to follow is the important point of authority of a congressional investigating committee—a point which never before has been finally decided by the courts.

Sinclair must appear voluntarily before the courts for arraignment or a warrant will be issued for his arrest.

Dill of Washington, Democrat, Offers Resolution to Tell Coolidge About It.

WASHINGTON, March 31.—While the federal grand jury here prepared to act on the contempt indictment against Harry F. Sinclair, a drive was opened in the senate to oust Col. Theodore Roosevelt as assistant secretary of the navy, for his part in the oil scandal.

Senator Dill, Democrat, of Washington, introduced a resolution expressing it to be the sense of the senate that President Coolidge should request Roosevelt's resignation. The resolution charges that Roosevelt was associated with the Sinclair oil company before his connection with the navy department. It also states that Roosevelt carried the draft of the executive order to the White House which, when signed by President Harding, permitted the leasing of the naval oil reserve lands and that he had participated in sending armed marines to Teapot Dome to protect the Sinclair lease.

Senate Probers To Keep On Trail Of Harry Daugherty

WASHINGTON, March 31.—At an executive session called for the purpose of outlining its future course, the senate investigating committee decided to continue its inquiry without regard for the resignation of Attorney General Daugherty. The committee tomorrow will continue its hearing of Capt. H. L. Scaise, former department of justice agent, and then will call on B. Means to the witness stand again.

The committee plans another executive session later today to decide what course it shall recommend in the case of Mal Daugherty, a brother of the former attorney general, for his refusal to produce the books of his Washington Courthouse, Ohio, bank for examination by the investigator.

Means and Scaise both reported to the committee today that they believed themselves under surveillance by secret service agents. Scaise said he had been robbed of a bag of documents which he had left at Senator Wheeler's office. Means said he was intimidated in ways he did not disclose during his search for evidence around Washington under the committee's orders.

PRIZE WINNING ESSAY ON THE AMERICAN FLAG

Jack Galloway Gets First of Awards by Ranger Elks.

The origin of the American flag is traced in the introduction of the winning essay of the contest conducted by the Ranger lodge of Elks, written by Jack Galloway. In his discussion, he defined what an American's respect should be in war and peace for his flag. Concluding he declared that America's youth should be healthy, so that if America must ever engage again in war for the rights of liberty loving people, she will be prepared.

The paper, which was awarded the first prize of \$10 over all other papers entered by high school students, follows:

The American Flag.
 In 1776 the need for a national flag became evident to the American colonists who had freed themselves from England. A committee, composed of George Washington, Robert Morris, and Colonel George Ross was appointed for the choosing of a flag suitable for the new nation. To Betsy Ross, niece of Colonel Ross, was given the task of designing the flag. Mrs. Ross, having had experience along artistic lines, designed a flag from which our present flag originated. The present flag was formally adopted by the American congress June 14, 1777, and in several states that date is celebrated as Flag day.

Who can look upon the Stars and Stripes without giving thought to the loyalty, patriotism and devotion that have been so freely given by the founders of our nation; of the thousands that have perished to uphold which the flag stands?

America has never gone into a war with a guilty conscience. Her sons have always gone to the battlefield with their heads up, hating war and the destruction that symbolizes it, but always ready to uphold the liberty and freedom that is the right of every man.

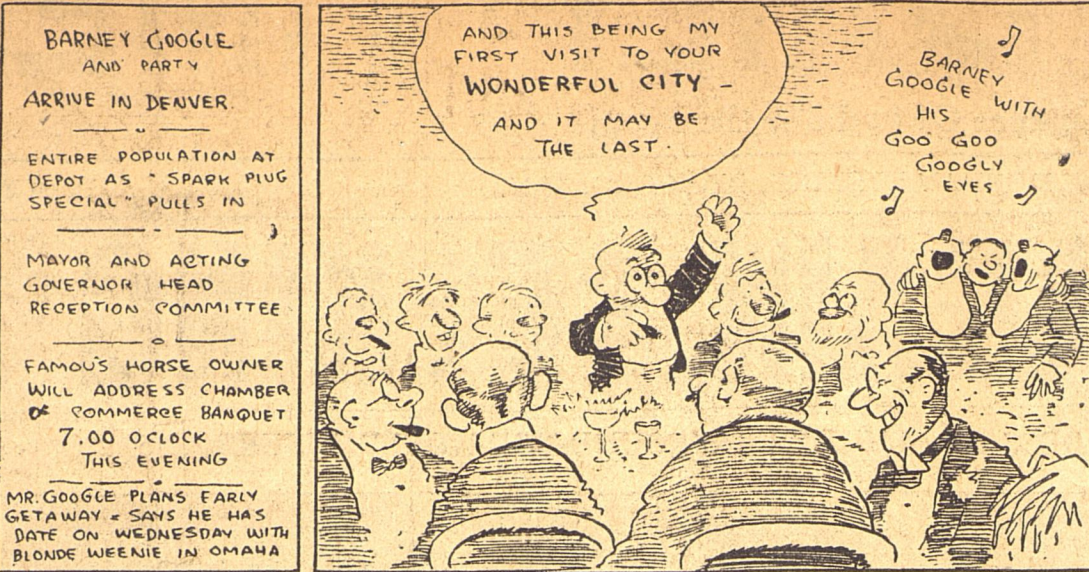

War, however, is to be avoided by all liberty-loving people except where it is necessary in order to uphold liberty. Peace, with its refining influences that differ so greatly from the animal savagery of war, is one of the things for which our forefathers have fought, and for which the flag stands. The role of man is not to destroy, but to engage in the earnest pursuit of work and to have a part, large or small, in the upbuilding and improving of our nation. This labor, however, should not be in the direction of armed conflicts, but with the foresight and resolution to make this country a nation not marred by the blood of her citizens, but blessed with a permanent and everlasting peace.

George Washington, when explaining what the flag symbolizes, said: the red from our mother country, separating it by white stripes, thus showing that we have separated from her, and the white stripes shall go down to posterity representing liberty. Generally the red is considered as meaning bravery, the white, purity, and the blue, truth.

All of our efforts should be directed toward the betterment of ourselves and others for the use of our country. American youth should be healthy and strong, so that if another war looms in the future America will be prepared. With all this energy and desire for betterment, however, we must not work with the special thought of preparing for war, but on the other hand, we should work with the thought, desire, and determination to win universal and lasting peace for our country and for the flag which symbolizes it.

INTERSCHOLASTIC LEAGUE PLAN FOR NEXT FOOTBALL SEASON IN TEXAS EMANATES FROM AUSTIN

Special.
AUSTIN, March 31.—The football plan for 1924, calling for a division of schools into two conferences, has just been announced by Roy B. Henderson, athletic director of the University of Texas. Interscholastic league. According to Mr. Henderson, this plan has been carefully worked out and will more nearly fit the needs of the small as well as the large school than any similar plan yet proposed for Texas schools. Last year 282 teams took part in the football contests, and it is expected that approximately 350 schools will participate this year. The number has increased every year since 1920 when interscholastic football was started. A complete list of the new rules as they have been sent to schools, which are members of the league, follows:

shall be classified as follows:
A high school with enrollment of 350 or more the preceding year shall compete in "Conference A."
A high school with enrollment of less than 350 the preceding year shall compete in "Conference B," unless it wishes to compete in "Conference A," in which case the league shall be notified by June 1, 1924.
Sections.—The state shall be divided into eight sections for Conference A and 16 sections for Conference B.
Conference A Sections
Sub-sections may be arranged when eight or more participating schools are in the same section.
Section 1.—Amarillo, Electra, Lubbock, Plainview, Vernon, Wichita Falls.
Section 2.—Abilene, Breckenridge, Cisco, Comanche, San Angelo.
Section 3.—Cleburne, Fort Worth, Gainesville, Mineral Wells, Weatherford.
Section 4.—Corsicana, Ennis, Hillsboro, Terrell, Waco, Waxahachie.
Section 5.—Dallas, Denison, Mc-

Kinney, Greenville, Paris, Sherman, Sulphur Springs.
Section 6.—Lufkin, Jacksonville, Marshall, Nacadoches, Palestine, Tyler, Texarkana.
Section 7.—Beaumont, Galveston, Houston, Orange, Port Arthur.
Section 8.—Austin, Corpus Christi, San Antonio, Temple.
Schedules.—A Conference A team shall play as many as one-half, or, if an uneven number, a majority, of the other member-schools in its section not later than Nov. 8 or in its sub section not later than Nov. 1.
A Conference B team shall play at least four games with different high schools in its section not later than Nov. 1. These games shall be with teams truly representative of the section judged on strength shown last season.
Each participating school shall submit its schedule to the state office by Oct. 1, showing games that have been arranged up to and including Nov. 8. If necessary, the league shall rearrange schedules in order to have the sectional championship determined at the proper time.
Championships.
Championships, How Determined.—Sectional championships shall be determined by the percentage method. The team in each section having the highest percentage, on Nov. 1 for Conference B and Nov. 8 for Conference A shall be declared the sectional champion.
If two or more teams are tied for this honor, the league shall announce the method by which the championship shall be decided or select the team to proceed in the series.
Eliminations.—The sectional championships shall participate in the final series for state championship, according to the schedule which shall be arranged by the league as follows: The first week of eliminations adjoining Conference B sectional championships shall be matched for bi-sectional championships. In the next round, Conference B bi-sectional champions shall be matched with Conference A sectional champions. The relative locations of surviving teams shall determine the remaining eliminations.
Games That Count on Percentage.
Inter-conference games (an A vs. a B team) between member-schools on or before Oct. 25 shall not be counted on a team's percentage. A game with a member-school in same conference whether in or out of the section, shall count on a team's percentage.
On account of location, El Paso cannot participate, and this rule shall not apply to games played with the El Paso high school.
A game which is not on an announced schedule, or one to which no admission is charged, or one which is not regularly conducted by an official or officials, is a "practice game" and shall not count on a team's percentage.
Reports.—Each team shall report every game to the league office as soon as possible or arrange for the home team to do so. Report of score by wire will insure inclusion in press summary.
Observe Rules.—Each team shall observe faithfully all rules contained in Article 8 of the constitution and rules.
Suspended Teams
Attention is called to Section 13 which refers to playing suspended teams. The North Fort Worth and Denton high schools have been suspended in football for 1924.
Football Code—By accepting this plan, the coach and other officials of each school pledge themselves to act in the spirit of the "Football Code," and to foster this spirit among the players.
Eligibility Blanks—Each player shall fill out an eligibility blank furnished by the league, these blanks to be signed by superintendent or principal and mailed to the state office before the contestant is allowed to take part in any game. At the end of the season the superintendent or principal of each school shall send to the state office a list of all players who have participated in football during the season as representatives of the school.
Guarantees.—The visiting team always has the right to demand a guarantee sufficient to cover all expenses and in addition 10 per cent of the net gate receipts of the contest. A demand of a flat guarantee which is clearly in excess of expenses shall

DEMPSEY WANTS TO MEET WILLS IN TITLE BOUT

By HENRY L. FARRELL, United Press Sports Editor.
NEW YORK, March 31.—Harry Wills will be the one to benefit most if Luis Angel Firpo should carry out his threat to retire from the ring.
The right of Wills to challenge for the heavyweight championship was firmly established before the advent of the Argentine senator, but it was overlooked as long as Firpo held the dominating position among among the challengers.
With Firpo out of the running, there can be no question but what Dempsey will have to fight Wills or retire. He can't evade the issue without having the truth told.
Dempsey either would have to come out and declare that the politicians would not let him fight Wills—and he would have to name the politicians—or he would be forced to admit that he is afraid of Wills.
There never has been a question in the minds of Dempsey's friends that the champion feared Wills. There is every reason to believe that he would rather fight Wills than any of the contenders.
However, there have come up recently good reasons to believe that Jack Kearns, the champion's manager, is afraid of Wills. Perhaps his realization that Wills is the most dangerous challenger causes him to prefer risks less hazardous for his million dollar investment.
Kearns has steadfastly maintain-

ed that he didn't want to fight Wills because it would be a bad show and that it wouldn't help the business. He says he managed Wills once and he knows what kind of a rotten fighter he is, and he says that Dempsey would beat him with one hand.
Such talk, of course, is foolish. Dempsey probably would beat Wills if they met, but he wouldn't have a cinch in doing it. True, he might take Wills in one punch, but one-punch knockouts are lucky, and Dempsey would have to be lucky to win that quickly.

Olden Wins From Desdemona, 9 to 7

Olden Magnolias took a close game from Desdemona Sunday afternoon, 9 to 7 at Olden. The fine weather was to the liking of baseball fans and a \$75 gate was realized.
Catcher Raney of Olden was spiked in the left leg in the first inning at the home plate and he had to retire from the game. He was hobbling around on crutches today.
Hunter, Copp and Koch all took a turn on the mound. Next Sunday Olden will meet Thurber at Thurber.
Batteries—Olden, Koch, Hunter, Copp and Raney, Rosenberger; Desdemona, Smith, Moore and Holmes.

Women to attract must Radiate Health!

BEAUTY is the magnet which draws all eyes—and back of beauty—Health—working silently—Red blood tingling through the veins—the glow of youth in the cheeks—the spring of eagerness, of vim, of vitality in the walk—the ever graceful air, unrestrained by care or worry.—All the charms of beauty. All the works of health.
Men are fascinated by the charms of beauty. Women gaze with envy, secretly jealous, perhaps—wondering—hoping—praying for that attractiveness that is not theirs.
But why the wondering—the hoping—the praying for that craved-for attractiveness—that beauty. Good looks is the harbinger of one's condition. Good health radiates beauty. S. S. S. purifies the blood—creates new red blood cells—rids the system of impurities which make beauty and attractiveness impossible. As women to attract must radiate health so must they keep their systems free from impurities and their red blood cells ever increasing. S. S. S. does both.
S. S. S. since 1826, has been ridding the system of impurities—pimples, blackheads, boils, eczema and rheumatism—building red blood cells—aiding women to be attractive by radiating health. S. S. S. is made of carefully selected herbs and barks, scientifically prepared and proportioned. All good drug stores carry S. S. S. It is more economical to purchase the large size bottle.

MILLANS GIVE PARTY TO NUMBER OF FRIENDS.
Mr. and Mrs. John McMillan, who have been living on the Markham-Tidal lease a few miles north of Ranger, entertained recently for 40 or 50 of their friends in the various towns of Eastland county at their home on the lease. The party was a farewell event as they are leaving

soon for Fort Worth to reside. The evening was spent in playing various games and in dancing to victrola music, and a light supper was served. This event was one of the many hospitable affairs which have been given by the McMillans during their residence here, and was much enjoyed by the friends who regret their leaving for another part of the state.

POULTRY MEN MEETING IN EASTLAND TODAY TO TALK MARKETING

Poultrymen of seven counties are meeting today in Eastland to consider the question of co-operative marketing as proposed in a meeting at Ranger two weeks ago and suggested at various other times. The morning was devoted to preliminaries, at noon a buffet luncheon was served by the Eastland Chamber of Commerce, and this afternoon the meeting was to hear from the committee appointed to investigate the proposition offered to the Oil Belt poultry breeders. Judge N. N. Rosenquest, president of the Eastland County Poultry association, is presiding.

QUIET RESTORED IN MEXICO AND LAST OF INSURGENTS FILE OUT

WASHINGTON, March 31.—The state department today asked Ambassador Warren in Mexico City for full information on reports that the Aguilar Oil company's property in Mexico had been seized by disgruntled workmen. The department took this step on the basis of press reports that the property had been seized.
A cable from the American consul at Progreso, received at the department, stated that the Mexican revolution had finally ended with complete victory for the federales. De la Huerta, the rebel leader, was reported either in a small town near British Honduras or in Cuba.
Leaders of the De la Huerta forces and his commissioners have left the country for Galveston, reports said. Communication lines have been restored and the federales are in control of the entire country. Quiet has been restored even in the strongest of the rebel strongholds, the report said.

BOBBED HAIR CONTINUES POPULAR AT C. I. A.

DENTON, March 31.—Bobbed hair shows no decline in the affections of students at the College of Industrial Arts. One Denton barber declared last week that he personally cut the hair of 135 girls during the month of February, and when one calls to mind the fact that there are eight barber shops as well as numerous beauty parlors in Denton, the average is assuredly a high one.
C. I. A. girls wear the bob in all its varieties. Some of the heads are curled, others frizzed to almost a kinky degree, and still others of the Valentino classification.

Mary Grigsby, Galveston, is secretary of the board of nurse examiners.

"BEST MAN" AT WEDDING DID NOT IMPRESS MINISTER

EL PASO, March 31.—He was the best man at the wedding, but it didn't mean anything in police court. Ernest Mahle was fined \$16.50 for using abusive language, disturbing the peace and simple assault. He had accompanied a couple to be married by the Rev. J. R. Campos. "He was so rough and abusive," Rev. Mr. Campos said, "that I performed the ceremony without permitting him to be best man."

The "Flaming Cross," the Ku Klux Klan play brought to Eastland from Kansas City under the auspices of the Eastland Klan who guaranteed the owners of the play \$750 for the performance, was staged at the city hall Saturday night and was fairly well attended, according to reports, and is said to have been an excellent play.

STUDEBAKER IS WINNING CAR IN ARGENTINE RACE

Captures South American Classic for the Third Consecutive Time.
BUENOS AIRES, March 31.—Pushing ahead of a field of 25 American and European contestants, a Studebaker special-six won, for the third consecutive year, the spectacular Gran Premio of Argentine, South America's foremost racing event.
Sr. Mariano de la Puente drove the Studebaker to victory over a course twice the distance of former years and along roads in so hazardous condition that only 13 of the 25 entries finished the complete distance.

Distance Was Doubled.
De la Puente has driven in a number of previous Gran Premios, but this was his first year behind the wheel of a Studebaker. In the 1922 race he was beaten out for first place by a special-six and last year again finished unsuccessful. So he concluded that this year he would cast his lot with Studebaker.

Third and fourth prizes went to Giannini and Ferreyra respectively, both of whom also drove Studebaker special-sixes, making a total of three places won by Studebaker in this year's race.

Studebaker's winning time was 24 hours and 46 minutes over a treacherous course of 1,520 kilometers (about 950 miles). The race last year was 750 kilometers (465 miles). The racers started from here and made their way to Rosario; thence to Cordoba, and returned by the same route to Buenos Aires.
The Gran Premio is held annually under the auspices of the Argentine Automobile club. The hard service to which cars are subjected in this grind is greater than many months of ordinary driving.
So gruelling was the race this year that nearly half of the entries were compelled to drop out, due to mechanical difficulties brought about by the road conditions over which the race was run. The famous Gran Premio is more than a test for speed. South American motorists consider it a final contest for gauging motor car endurance.

Wins for Third Time.
The fact that Studebaker, for the third time, won this speed-flight against some of the most expensive European and American makes was commented on by the judges.
In 1922 the race was won by Antonio Ovares in a Studebaker. William T. Burke's special-six was the first car over the line last year. The Studebaker's victory here comes on the heels of similar achievements in South Africa, the Syrian desert, Australia and Florida.

BUY IT AT HOME TO DARKEN HAIR APPLY SAGE TEA
Look Young! Bring Back Its Natural Color, Gloss and Attractiveness.
Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.
While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.—Adv.
