RANGER GAS DESTINED TO LIGHT UP ONE-HALF OF THE STATE OF TEXAS

Oil Producers In Several Texas Fields Voice Protests Against Present Unjust Price

EDITOR'S CRITICISM OF COURT IN NEW MEXICO LEADS HIM INTO CONFLICT WITH JUDGE ON BENCH

For Second Time Is Found Guilty and Draws Another Jail Sentence; Hope of Executive Clemency Is Held Out; Americans in State Almost Wholly With Him, but Mexicans in District Oppose Him.

Outstanding events at the trial of Carl C. Magee, New Mexico editor, were:

Last minute attempt of political gang to cause suspension of Magee's attorney, Judge R. H. Hanna, and thus leave Magee without competent defense.

Defeat of such purpose by ruling of Judge Daniel Leahy, ordering Hanna to answer to charges Friday instead of before the opening of contempt cases.

Receipt by Governor Hinkle of petition bearing 12,000 signatures for the calling of a special session of the legislature to impeach Judge Leahy.

Committee of cowpunchers rides 50 miles to present Magee fund. Leaders of both factions plead with followers to refrain from violence.

LAS VEGAS, N. M., July 14.—Ranchers, cowboys, farmers, politicians and Mexicans poured into Las Vegas early this week on horseback, afoot, by team and by train to watch the trial of Carl C. Magee, Albuquerque editor, who was arraigned before Judge David Leahy last Tuesday to answer 15 charges of contempt of court and, Friday, held guilty of contempt.

Magee was found guilty of contempt on four counts and sentenced to serve 90 days in the county jail on each, the sentences to run consecutively, and in addition was fined \$1 and costs on each count.

The Magee Publishing company, which issues the Tribune, was fined \$1,000 on each of three counts and \$1,050 on another, a total of \$4,050, in the same connection. The publishing company was a co-defendant with Magee, and the court found it was equally guilty.

Magee had charged in his writings that Judge Leahy's court and various county officials of San Miguel county were influenced by a so-called political machine, which, he asserted, was controlled by Segundo Romero, one-time sheriff, and now United States marshal.

Magee's attorneys went into conference to discuss taking steps toward securing a supersedeas to stay the sentence until the cases can be passed by the supreme court.

No case in recent years has so stirred public interest. A defense fund of \$15,000 has been pledged by friends of Magee, with donations from every county in New Mexico.

Magee's trial marked the culmination of a long session of attacks upon the judiciary of New Mexico. He is already under sentence of from 12 to 18 months at hard labor, convicted of libeling Judge Frank W. Parker, of the state supreme court. During the progress of the trial, Magee commented through the columns of his newspaper, the New Mexico State Tribune, upon his own case, accusing the court of bias and intolerance, and charging that he was not being afforded a fair trial.

Magee claims the jury consisted of 12 Mexicans, none of whom could read or write the English language, in which the alleged libel was written.

Magee and his chief counsel, former Judge Richard H. Hanna, held a long conference just before the trial and details of Magee's defense were decided upon.

"Our answer to the charge that we were trying to intimidate the court," said Magee, "will be a denial, but we will admit that we were seeking to

BURKETT PLANS KEEN CAMPAIGN FOR GOVERNOR

Expects to Stage Formal Opening at Tyler on January 16.

EASTLAND, July 14.—Senator Joe Burkett, candidate for governor, probably will open his campaign for the Democratic nomination at Tyler on Jan. 16 of next year. He said Saturday morning to a Ranger Times representative that he had been considering this place and date for some time and had practically decided upon it. Jan. 16 is the anniversary of his mother's birth. Tyler is in Smith county, his mother's native county.

Burkett's campaigning will carry him into every part of the Lone Star state. He will not start active campaigning until next January.

Speaking Almost Daily. At present the senator is speaking almost daily at picnics, reunions, fairs and gatherings of every description. Friday, in company with his three boys, he motored over to Throckmorton and spoke before a large gathering, estimated to be between 4,000 and 6,000 persons. Farmers, their wives and children

Abstract and Deed For New City Hall Ready for Deal

The abstract and deed to the Republic Supply company building at Austin and Pine Street, which the city proposes to buy and convert into a municipal building, arrived Friday. The abstract will be brought up-to-date and examined and the city will then be ready to negotiate with dealers in municipal securities for the city hall bonds for cash.

Two representatives of security houses were present at the last commission meeting with definite offers but the commission would not act until it was certain the ownership transfer would go through.

Standard Oil Charged With Responsibility for Alleged Injustice and Unfairness Both to Oil Operators and Consumers; Another Jim Hogg Needed.

MEXIA, Texas, July 14.—A protest by local oil operators against discriminating prices paid for oil is being circulated here. Much dissatisfaction prevails locally among independent oil operators and others interested in the development of the oil fields at Powell, Currie and Mexia because of the alleged discrimination in prices paid for crude petroleum in this district as compared with prices paid in other southwestern fields.

They assert that discriminatory prices have existed since the first wells came in at Mexia. Objections are, however, more pronounced now, with the coming in of the Powell pool with its enormous daily yield.

Discrimination Causes Loss. It is pointed out that this discrimination has caused a loss of many millions of dollars to operators here in the past two years and a vast loss in revenues to the state of Texas, and with the extension and growth of the Powell field, these losses are to continue to pile up, unless a new basis is established granting these fields the same gravity basis prices as are posted and paid elsewhere in the Southwest.

One leading operator, in discussing the situation, stated today that Mexia, Currie and Powell crude is being purchased on the "squeeze" basis rather than on the gravity basis. Particular reference is being made to certain Mid-continent fields, South Texas, Gulf Coast, Bull Bayou and others where the prices maintained, in most instances, are double those paid for the same grade of oil at Powell, and just about the same difference in prices for Mexia and Currie as compared with them.

Mid-Continent Price \$1.60. In the Mid-continent fields, composed of Oklahoma, Kansas and North Texas, excepting Healdton, Beavers Creek, Walters and Cement, for example, the prices paid for 36.9 gravity crude is \$1.60 per barrel.

In the Gulf Coast fields, they cite, coastal crude is bringing from \$1.25 to \$1.50 per barrel, the gravity of which is around 21.

The bulk of the Powell production tests around 36 gravity, with high gasoline content, and is now at 75¢ per barrel, and operators are fearful of a further decline.

The prices for Mexia crude, which is also testing around 36 gravity, are \$1.00 per barrel.

Throughout the Mid-continent and

Gary Forecasts 12-Hour Working Day's Early Doom

NEW YORK, July 14.—Elbert H. Gary, head of the United States Steel corporation, today stated that the abolition of the 12-hour working day in the steel industry, as recently pledged to President Harding, would probably be begun within the next two weeks. He said: "We shall probably commence actively taking steps to reduce the number of 12-hour records within the next six weeks." He would not reveal the machinery already set in motion or the number of workers that would be affected.

McAdoo's Boom for President Launched By Texas Democrats

DALLAS, July 14.—A "McAdoo-for-President" club in Texas was organized today at a meeting attended by more than 100 Democrats from all parts of the state and which will seek to send a solid McAdoo delegation from Texas to the Democratic national convention. Plans for campaigning the state for McAdoo were made. Thomas B. Love, Democratic national committeeman from Texas, presided at the meeting. Cato Sells of Fort Worth, formerly Indian commissioner, strongly endorsed McAdoo in a brief speech.

PHOENIX, Ariz., July 14.—Governor George W. P. Hunt of Arizona today endorsed William G. McAdoo for president of the United States in a telegram to Joseph Myers, labor commissioner of Texas, one of the leaders in the movement to organize "McAdoo-for-President" clubs in Texas.

SENATOR CAPPER HOST TO TEN THOUSAND CHILDREN

TOPEKA, Kan., July 14.—United States Senator Arthur Capper was host to thousands of children today on his fifty-eighth birthday. The Kansas senator leased all the concessions of a local amusement park and turned them over to the youngsters. More than 10,000 children flocked to the park and kept the concessions busy serving them.

ELKS BACK JUBILEE

Carnival Spirit to Be Rampant During Week of Feature Events, Exhibits and Entertainment.

An automobile show, industrial exhibit and probably a style show arranged by local merchants will be the main features of the Elks Jubilee to be set for a week in August. The Ranger order of Elks met Friday night and accepted the proposal of Harry B. Bolton to promote and direct the details of the Jubilee and appointed a committee of three men to work with him. They are: Dr. Clyde C. Craig, A. M. Jameson and W. H. Fouke. "The whole Elks lodge is back of the jubilee," Dr. Harry A. Logsdon, excited ruler of the Elks said. "There will be the carnival spirit to it but no outside shows will be brought in. It will be the biggest event Ranger Elks have ever put on here, if the plans advanced by Mr. Bolton

carry out." The tentative plans are to use Community hall and the grounds adjacent to the hall on the west for the week. The event will be advertised all over the county and it is expected that it will draw several thousand people from Eastland county. It is planned to stage an Elks minstrel show composed of local talent. Music and dancing will be featured each night and novelty stunts will be staged in connection. The most popular young lady in Ranger will be given the honor of being the Queen of the Elks Jubilee. It is expected that all merchants will co-operate with the event by having a harvest bargain carnival during the same week.

Alaskan Wonders In Summer Time Impress President

ON BOARD PRESIDENT HARDING'S SPECIAL TRAIN IN ALASKA, July 14.—The language of description was exhausted by President and Mrs. Harding and members of their party today as their special train carried them over the government built railroad into the heart of Alaska, which the President himself has termed "America's wonderland." The train, since leaving Seward yesterday, has passed a succession of beautiful mountains and lakes and through some marvelous valleys.

DRY AGENTS AROUSE MIGHTY HOWL OF WRATH

Seize Motor Boats on Running Highway Between Michigan and Canada.

WASHINGTON, July 14.—Federal prohibition agents and representatives of the treasury department last night seized a large number of motor boats at Flat Rock, Wyandotte and Trenton, in Michigan, although their operations were not conducted without difficulty.

The officers conducted the seizures in the face of an angry mob which not only threatened them with physical violence, but attempted to dynamite a small bridge.

The boats were seized on the ground that they did not comply with the government regulations regarding carrying agencies. It is claimed, along highways infested with rum runners, and crowds of these gathered last night in gangs compelling the officers to fight them off.

DETROIT, Mich., July 14.—The action of the treasury department in joining forces with the prohibition agents in fighting rum runners operating between Michigan and Canadian shores is expected to make the operations of river rum runners increasingly difficult.

Owners of all boats will be required to explain why they have not complied with the naval laws and will also be required to register their crafts, which will enable the government authorities to keep a close check on them.

President Given Hearty Welcome In Anchorage, Alaska

ON BOARD PRESIDENT HARDING'S SPECIAL TRAIN, July 14.—Several hundred persons welcomed President Harding at Anchorage today. They gathered about a stand in the center of the city and presented to the President and his wife a painting of Mount McKinley, North America's highest peak, which can be seen 120 miles from Anchorage. He was also given a paper knife with a gold nugget handle and walrus ivory blade.

The President referred to the fact that Anchorage was founded in 1915 as the best nine-year-old town he had ever seen. He assured his auditors that his trip to the nation's farthest north unit had convinced him and the three cabinet members with him that if the people there should fail to see their dream fulfilled they might be sure their children would see their dreams come true.

TEXT-BOOK CASE UP TO BOARD OF EDUCATION

AUSTIN, July 14.—No motion for a rehearing has been filed by the American Book company in the textbook case recently passed on by the supreme court. This leaves the question up to the state board of education which the supreme court held to have jurisdiction.

Lone Star Gas Company Will Come After It

Begins Work on Pipe Lines and Compressor Stations That Will Require More Than Million Dollar Investment. Believe Supply Here Has Long Life and Enough Available to Illuminate the Entire State.

"We hope to take all of the natural gas available in the Ranger and Eastland fields. "We hope to extend our lines into Stephens and Young counties within two years. "And we expect to be buying gas in the Ranger fields by October."

These were the outstanding statements made by William A. Moorhead, director of public relations of the Lone Star Gas company of Dallas Saturday in an interview. Moorhead made a flying trip to Ranger Saturday purely to lay the plans of his company before the public. He returned Saturday noon.

Rushing the Work. "There is only one thing that can prevent the Lone Star from buying gas in October and operating our compressor stations," he said, "and that is delay in the shipments of materials. We have, however, sent our men to the markets to get the materials. We are not writing letters but are going after it."

The Lone Star Gas company, he pointed out, sells gas only at wholesale, piping the gas to the "gates of the city" where it is distributed by a company in nowise connected with the Lone Star.

The company in putting in its pipe lines and compressor stations will expend approximately \$1,250,000 at the outset, he said. "We may be forced to spend \$2,000,000 before we are through but our present plans call for the expenditure of \$1,250,000."

Big Supply Needed. "We expect to take out of our new fields here between 40,000,000 and 50,000,000 cubic feet of gas daily," he said. "We think we can get that much without difficulty."

Moorhead declared it to be a "crime" to see so much gas going to waste in Eastland county. "I came over to Ranger last night from Eastland and I saw torches burning," he said. "To me that is a crime when there is a need of gas everywhere."

The Lone Star Gas company pipes gas to 64 communities in Oklahoma and Texas and takes gas from 13 fields. "Our consumers needn't fear they won't get gas if one, two or three of our fields fail for we are now taking gas in 13 fields."

Moorhead said some people have the idea that gas is "pumped" through the pipes. "Our compressor stations force the gas through by compression of the gas. The pressure varies and in the winter, it may be at 325 pounds and sometimes 375 pounds. Our 12-inch lines take on a cherry red color in winter when the pressure is great."

He told of an instance in one of the company's Oklahoma plants where an eight-inch gas line tore loose in the plant, just after all of the men had left the plant. The gas was chugging through the pipe lines when suddenly, without warning, the line was disconnected without, however, injuring the threads of the casing joints. It was due to the great pressure.

The gasoline manufacturing plant at Gordon, which will be constructed by the company, is for the purpose of supplying gasoline for drying the natural gas, and not primarily for a gasoline market. "The public may get the impression that we are in the gasoline business by the opening of this plant but it is not so," he said.

AMATEUR AND VETERAN TIE FOR OPEN GOLF CHAMPIONSHIP TITLE

INWOOD, N. Y., July 14.—Roody Jones, the wonderful young amateur of Atlanta, Ga., had the national open golf championship in his grasp today when he turned in a card of 197 for 72 holes, but along came the wee Scot, Robert Cruikshank, professional, and tied the score, necessitating a play-off of 18 holes tomorrow for the title.

EVOLUTION ALSO CAUSES TROUBLE IN TENNESSEE

Six Professors Dismissed From University to Have Hearing.

KNOXVILLE, Tenn., July 14.—The fight among faculty members of the University of Tennessee which resulted in the dismissal of six professors started over the doctrine of evolution, Dr. J. William Sprolls said today in an interview. Sprolls was the first of the faculty members to be dismissed by President H. A. Morgan of the university.

Dr. Sprolls' statement, the first since his dismissal last April, was made on the eve of the meeting and the board of trustees to consider granting a hearing to the dismissed professors. "Dr. Morgan told me," said Sprolls, "that he was not concerned about my belief in the doctrine of evolution, but he did not believe it good policy to teach it because Tennessee was going to have a 'monkey' legislature such as Kentucky had."

Harding's Speech Draws Fire of His Secretary of War

WASHINGTON, July 14.—A belated instance of apparently strained relations in President Harding's cabinet came to light tonight after Secretary of War Weeks had taken issue with the president's statement in Salt Lake City and Idaho speeches that 85 per cent of taxes are used for payment of war costs.

The secretary of war is said to have regarded Mr. Harding's statement as a repudiation of the stand of the war department on this question. The president's speech comes only a short time after Weeks' denunciation of a pacifist welfare organization which circulated a pamphlet containing what apparently were some statistics quoted by Harding.

Weeks is understood to have sent the president a telegram pointing out that Harding's statements were not borne out by the budget figures.

War department officials do not believe Weeks will resign, but those who know him say that he would take this step if his policies are not upheld by the president.

The Army and Navy Journal, recognized service organ, in its issue today bitterly attacks President Harding on his Salt Lake City speech. "Mr. Harding in his speeches in Idaho not only made a contribution to the pacifist propaganda but repudiated all the secretary of war has stood for. This is a rather strong statement but it is justified if the president has been quoted correctly."

WASHINGTON, July 14.—Definite steps toward fulfillment of the terms of the naval limitations treaty, which now has been ratified by all the powers, were taken today by Secretary of the Navy Denby. He has called a conference of navy officials to inspect the battleships that are to be abandoned.

"Color Line" In Republican Party Rises Up Again

WASHINGTON, July 14.—By giving signs of an intention to appoint a negro woman as associate member of the Republican national committee from Georgia, Henry Lincoln Johnson, negro Republican national committeeman from that state, has made it practically impossible, in the opinion of many onlookers, to induce a white woman to accept the post even if he ultimately should abandon his present design. It is believed that Johnson's attempt to name a negro woman as his associate has so generally advertised the fact that a white woman, if selected, will be his political partner in representing Georgia that none will consent to serve with him.

It is said to be Johnson's view that as negroes—women as well as men—of Georgia and other southern states constitute a majority of the Republican voters in those sections, they should have a fair share of the offices of honor and emolument. Johnson is a power among the negroes of Georgia and it is predicted that he will have his way in regard to the associate committeewoman or start a row that will greatly embarrass the Republican organization and President Harding. The Republican senate rejected his nomination as recorder of deeds for the District of Columbia about a year ago.

What is most painful to certain Republican leaders is the prospect of the "color line" in the Republican organization when the presence of white women makes it more conspicuous and at a time when negro delegates will have to be garnered for President Harding all through the south. This question of race and color, these leaders fear, is sure to be raised in a disconcerting way no matter what the final outcome of Johnson's plan to appoint a negro woman may be. If he chooses a negro woman as his associate on the national committee, it is foreseen that white women in the auxiliary body will resent her presence there and refuse to accept her. On the other hand, it is pointed out, even if a white woman is eventually nominated for the place, it is believed she will decline the appointment.

Johnson seems to realize the trouble he can make for the Republican national committee and the whole Harding administration if there is any attempt to coerce him, and it is likely that he will compel both to accept a compromise that will increase his strength in Georgia and elsewhere in the south. There is talk of redistricting Georgia and of talking other measures that will eliminate Johnson from the national committee, but these devices can not be adopted until the Republican national convention meets a year hence. Meantime the Republican members of the national committee and the women of the national auxiliary are faced with the problem not only of keeping a negro woman from becoming associate committeewoman from Georgia but of preventing developments that will deter a white woman from taking the position.

NEGRO BAPTISTS OF ST. PAUL'S CHURCH SAVE BUILDING

EASTLAND, July 14.—Judge E. A. Hill of the Eighty-eighth district court, Friday made permanent the injunction asked for by the Baptist Missionary and Educational association of Texas, the West Texas Baptist convention, and St. Paul's missionary society of the Baptist church against W. D. Davis et al., all colored parties.

The plaintiff asked that the defendants be restrained from tearing down the building occupied by St. Paul's church, and removing the lumber to another site for the purpose of erecting a church building.

Judge Hill granted the injunction on the grounds that the property of St. Paul's congregation was, from the time of its organization, the joint property of the Baptist church and also the B. M. & E. association and the West Texas Baptist association. The representatives of the two negro organizations helped to organize the church, and it was understood by the organizers that all of the property acquired was to be the joint property of the organizations concerned, the judge ruled.

L. H. Flewelen, who represented the defendants said Saturday that he contemplated filing a motion for an appeal in the case but that it had been given up. He said the property involved would not justify the expense of an appeal.

UTAH MINERS PAY MODERATE HOUSE RENT

WASHINGTON, July 14.—Discouraging news for city dwellers who pay from fifty to seventy-five dollars a month for rent comes a report filed with the United States Coal commission which shows that miners at Hiawatha and Mohrland, in Utah, are able to obtain modern stone or stucco houses at a rental of from \$2 to \$3 per room which would figure from \$12 to \$18 a month for a six-room home.

Editor's Criticism of Court in New Mexico

(Continued from page one.)

stir up public opinion so that the impeachment of certain judges might be brought about."

Governor Watches Case.
Gov. James Hinkle, familiarly called "cowboy Jim" throughout the state, indicated that he might make an important announcement regarding Magee's case. Petitions urging the convening of a special session of the legislature as a court of impeachment was signed by several thousand citizens and are now in the hands of governor.

Previously Hinkle had announced that he would wait until the conclusion of the contempt cases and until Magee's appeal had been acted upon by the supreme court before taking any action. Friends of the governor look for a pardon if the libel conviction is sustained. Feeling is bitter on both sides and is intensified because of the racial alignment. Mexicans generally align themselves against Magee, through their loyalty to United States Marshal Secundo Romero, who has been repeatedly characterized by the editor as political boss of San Miguel county. On the other hand, the white inhabitants, outnumbered 2 to 1 by the Mexicans, are almost solidly behind Magee.

The fourth of five contempt citations, containing two counts was called Tuesday. This case is based on an editorial in which Magee charged that the court was "influenced" by "Secundo Romero."

Magee, formerly a lawyer at Tulsa, Okla., came to New Mexico about six years ago and secured control of the Albuquerque Journal. His first bid for prominence came with attacks upon the various politicians of the state. He lined up at that time with the Republicans and later supported Holm O. Bursum in his campaign for the United States senate to succeed A. B. Fall.

Peculiar Situation.
Magee's desertion of Hanna, Democratic candidate a short time before election, brings out a peculiar situation in the present cases where Hanna is employed as chief counsel for the defense, and, according to his statement, now serving without compensation. His connection with the Journal was later severed and he became publisher of a semi-weekly, Magee's Independent, which supported the Democratic ticket during the last campaign. The semi-weekly was converted to a daily, the New Mexico State Tribune, after the election.

Criticism of numerous state officials has led the editor into a number of litigations. A mass meeting held here last Sunday night was part of the campaign made to enlist popular support and was given as the evening services of the Methodist church, South, in the Duncan opera house before a crowd that packed the place.

In introducing the editor, the Rev. M. P. Hines, pastor of the church, declared: "God is still on the throne and Carl Magee is still in New Mexico." The editor's address was an appeal to public support of his case as an "American citizen" and brought up his trial and conviction for libel of the supreme court justice. No solicitation of funds was directly made.

Rehearing Asked For Case Involving Tax On Oil Leases

AUSTIN, July 14.—Motion for rehearing in the case of Stephens county vs. the Mid-Kansas Oil & Gas company was filed today in the supreme court. The question involves taxes on leases. A recent ruling of the supreme court held that oil and gas leases were taxable. The contention set forth by the defendant company is that such leases are included in the taxes on the land itself and cannot be taxed separately.

This case is considered of great importance as it involves the payment of a large amount of taxes owed to the state and county.

NEW OIL WELL NEAR DESDEMONA CAUSING EXCITED FLUTTER

Several Ranger men, including J. L. Thompson and John M. Gholsen, have acreages in the neighborhood of the big Magnolia Petroleum company's well No. 2 on the L. G. Ross farm, which came in for an estimated 450 barrels Thursday. The well has been reported at 600, 700 and even 1,000 barrels, but men who have been to the well say it may be good for 500 barrels daily. Friday the well made 375 barrels. It is the biggest well in the Gorman pool since the boom days, according to Desdemona oil men.

The oil flow came from 2,284 feet and was preceded by a 2,000,000 flow of gas. The well is a quarter of a mile from any production and is causing quite a flutter in Desdemona.

DALLAS, July 14.—Less than one-half of 1 per cent of the negro population of Texas left the state last year for the North and East, according to John Wright, editor of a negro paper published here. The prospect of a good cotton crop is retarding the flow of negro labor from the rural districts, and reports indicate no great exodus of the negro race to industrial centers, according to Wright.

First of Two New Passenger Coaches For Railway Here

One of the two new passenger coaches of the Wichita Falls, Ranger and Fort Worth railway arrived in Ranger today. It was brought from Fort Worth via the Frisco road to Dublin and then up to Ranger. The second coach will arrive here soon, Acting General Manager J. R. Tolland said Saturday.

Clay and stone are being used to make a smooth and passable driveway in front of the freight and passenger station. Workmen are now engaged on the work.

J. A. Hillis, general manager of the road, who has been in Columbia, S. C., for several weeks on a vacation, is expected back this week.

BOOTLEGGERS LEAVE NEGRO TIED TO TREE FOR SLOW DEATH

By Associated Press
SAN ANTONIO, July 14.—Hal Will Browley, negro express driver, whose badly decomposed body, which was found tied to a tree Friday after his mysterious disappearance last April, may have experienced all the horrors of a living death, it was revealed today, following an examination of his body by Dr. T. N. Goodson.

No marks or bruises were found on the body. Careful examination of the spine revealed that he had not been strangled or his throat cut. In a report to Justice of the Peace Campbell, Dr. Goodson declared that he believed the negro had been trussed to a tree and left to die by starvation and exposure.

Browley is believed to have lived several days after being left to die a slow death by a revengeful gang of bootleggers some of whom he had reported on to federal authorities.

The federal officials announced tonight they would leave nothing undone to run down the assassins.

BRECKENRIDGE DANCERS WANT MARATHON RECORD

BRECKENRIDGE, July 14.—Dancing day and night and attended by a doctor, nurse and masseur, two men and one woman are striving for a marathon dance world's record here.

Miss Valerie Mulhall entered Tuesday night at 9 o'clock. W. E. McMillen and Archie Sneed started Tuesday morning and afternoon, respectively. Ten days is their goal.

"Blue" Sunday Pact Declared Violation of Anti-Trust Law

AUSTIN, July 14.—Business men here who entered a combination to make Austin a "blue" Sunday city suffered somewhat of a shock today when informed that to enter such a pact might result in suits being filed against them for violation of anti-trust laws.

This information was gleaned after a committee of business men called upon the attorney general today to learn if an oral agreement would result in such suits being brought. They were informed that an oral agreement was the same as a written agreement.

Following this decision several owners who previously announced their intention of joining with others and closing Sunday said they would open their establishments tomorrow.

A concerted fight was started Friday of this week to close the doors of all drug stores, restaurants, cafes and hamburger stands. Nearly all agreed to close until informed of the ruling of the attorney general today.

The "blue" Sunday movement has been termed a fiasco by many private citizens and business men. Others have alluded to the movement as a "village squabble."

J. W. STRINGER DIES IN HOME NEAR ELECTRA

WICHITA FALLS, July 14.—J. W. Stringer, a prominent oil man of Wichita county, died at his home here shortly before noon today.

The deceased, formerly a farmer in Electra district, was the owner of the famous Stringer lease, on which the first big oil well in Northwest Texas was brought in and which proved to be the most productive of wells.

Gasoline Demand This Year Going Far Ahead of Last

NEW YORK, July 14.—More than six billion gallons of gasoline must be supplied for automobiles alone this year, the American Petroleum institute says in a weekly summary completed today. It bases this figure on a survey recently completed showing 13,048,128 motor vehicles in the United States.

The gain in the number of cars is 2,440,000 over July 1, 1922, and 683,751 over the high mark of December, 1922. The estimated gasoline consumption by motor vehicles last year was over five billion gallons.

Nine years ago motor cars and all other consumers of gasoline called for the manufacture of less than 1,500,000 gallons of gasoline. The gain in the output involving multiplied refining facilities, has also been accompanied by a growth of marketing equipment which makes gasoline more readily available to the motorist when requirements were on a smaller scale, the institute says.

THREE VICTORS IN BALLOON RACE TO BE ENTRIES AT BRUSSELS

WASHINGTON, July 14.—The army won the national balloon race which started from Indianapolis, July 4, with a ship piloted by Lieut. R. S. Olmstead, the National Aeronautic association announced today. The balloon traveled 449.5 miles, official figures showed. The navy balloon, piloted by Capt. Bumbaugh, was in second place with 398.1 miles to its credit, and H. E. Honeywell of St. Louis, a civilian entry, in third place, being less than a mile behind. These three will represent America in the international balloon race at Brussels, Belgium, in September.

DEMOCRATIC LEADER IN KANSAS SUPPORTS FORD
By United Press
TOPEKA, Kan., July 14.—George H. Hodges, former Democratic governor of Kansas and members of the Kansas "Big Four" delegation to the last Democratic national convention, has come out for Henry Ford for president. The Hodges' announcement was made this week in the Johnson County Democrat, published by Frank Matthews, a brother of the former governor, and declares there is "a growing sentiment among Democrats of the state favorable to the nomination of Henry Ford as the Democratic candidate for President in 1924."

FORT WORTH.—Approximately 18,000 legal papers were filed in the county clerk's office during the first six months of this year, according to Clerk Ed Sorrels. This sets a new record for such work with prospects for breaking all yearly records, Sorrels reports.

DURANT TUBULAR BACKBONE FRAME

(Patent Applied For)

The DURANT line, of Durant and Star Cars, offers to the people of West Texas the most remarkable automobile values ever placed on the American market. The DURANT four, in closed and open car models, or the six in the same variety of styles, gives the motor car buyer a range of values to meet every need and at such a surprisingly low cost, quality considered that there can be no comparison.

SPORTS
U. S. TRACK AND FIELD STARS TO COMPETE ABROAD

Twenty-Three Athletes From Yale and Harvard to Compete in England.

BY PAUL R. MALLON
(United Press Staff Correspondent)
NEW YORK, July 14.—Twenty-three American athletes next Saturday will swarm into the Queens club, London, and show the best track and field stars of Oxford and Cambridge how good the United States is.

The American team, composed of 13 Yale and 10 Harvard track stars, is the best that the United States ever sent over for the combination clash. The only possible weak spots in the team are the two-mile run and the running high jump, but the Oxford-Cambridge team is not any better in these two events, and that makes matters even.

The former American athletes are starting with the Oxford-Cambridge gang. Billy Stevenson, former Princeton quarter-miler and national champion at that distance in 1921, will compete in both the furlong and the quarter. Tevis Huhn, entrant in the hurdles, is an old Princeton man, too, and the British are enthusiastic over his form.

Abraham, the English sprinter, is one of the best developed there in recent years, the London sport writers say. In the recent Oxford-Cambridge dual meet, he defeated Stevenson in the 400-yard run, after winning the 100-yard and the broad jump.

Milligan, another Englishman, is always good for 1:56 in the half-mile and close to 4:20 in the mile.

The Americans are led by Chapman and Gage, quarter milers; Hulman and Durant, hurdlers; Comins, Rusnack, Eastman, Scholpp and Douglas. The latter five are expected to do most of the scoring.

The scene of the Olympic games of 1924 will be finished soon at Columbus, France. The seating capacity of the stands will be 70,000, the French Olympic commission announces.

Special arrangements are being made in the construction work to care for the comfort of the scores of athletes gathered from all over the world.

Cotton Figures Announced by the Bureau of Census

WASHINGTON, July 14.—Cotton consumed during June exclusive of linters totalled 542,156 bales, compared with 509,218 bales in June of last year. These figures were reported by the bureau of census today.

Cotton consumed in cotton consuming states during June totaled 250,967 bales against 336,981 bales in June last year. Other comparative figures follow:

Cotton held in consuming establishments June 30 amounted to 1,335,066 bales against 1,330,903 bales in June last year.

Cotton held in public storage and compresses, 1,232,888 bales against 1,553,378 bales.

Cotton imported, 13,357 bales, against 12,657.

Cotton exported, including linters, 214,851 bales against 491,079 bales.

Linters held in consuming establishments 135,285 bales against 151,402 bales; held in public storage and compresses 32,014 against 76,386 bales; exported 1,902 against 12,678.

Spindles named as active in June, 34,833,721 against 31,882,542 in June last year.

HERE IS A HAND WITH A FIVE-TON GRIP

Ever see a manipulator? It's the most human like machine you ever saw. It is shown in "The Ford Age," the screen offering by the Ford Motion Picture laboratory, to be shown at the Lamb theatre, July 17 and 18.

The giant machine, which picks up red hot pigots, weighing five tons, and handles them in a way that is positively uncanny, will give you a thrill you'll not soon forget. It is just one of the marvels of the River Rouge plant of the Ford Motor company, which are shown in "The Ford Age," and comprises a part of hundreds of interesting scenes connected with the world's greatest automobile manufacturing institution.

BRECKENRIDGE PLAYS BALL AT THURBER TODAY

Ranger baseball fans, who want to see a game today, will go down to Thurber for the Breckenridge Dynamos-Thurber tilt. The Snappers are inactive today and many of the players will probably go down also to see in action two of the strongest teams they will face this season.

The next game at home is on Wednesday when the Snyder Tigers are here.

Misplaced Fire Causes Worry to Many Auto Drivers

An automobile tire was abandoned, lost or strayed at Main and Austin streets about 10:30 o'clock Friday night. It laid on the pavement southwest of the stone that rests in the center of the street as a traffic guide.

Along comes a car and hits the tire and gives the occupants a rise in their seats. A light car strikes the tire and is thrown in the direction of the stone. Dexterity in driving saves the driver from seeing his car collide with the big stone.

Although the city street light throws its rays across the street, other drivers kept running into that tire. As a result motorists were wondering if the streets had been torn up. A half hour later the tire was resting against the stone.

SNAPPERS AND DYNAMOS MAY MEET HERE SOON

Breckenridge Dynamos baseball club came over to Ranger from Thurber last night and put up at the Gholson hotel for the night. The Dynamos beat the Thurberites yesterday by a score of 2 to 1. The two clubs play again this afternoon.

John Shannon Jr., business manager of the Snappers, will meet the business manager of the Dynamos at the Gholson this morning to make arrangements for a game here between the famed Dynamos and the Snappers.

SUPREME COURT FINDS COUNTY ATTORNEY'S RULING IS BAD LAW

TOPEKA, Kans., July 14.—The Kansas supreme court today handed down a decision in which it is held that marriage ceremonies performed by probate judges are legal. The legality of such ceremonies has been questioned in Wyandotte county, where thousands of such marriages had been performed in Kansas City, Kansas. The county attorney of Wyandotte county had given an opinion that such ceremonies were illegal.

TOWNFOLKS

Mrs. Milton T. Lyman has gone to Lindale for a stay of six weeks.

Burkett Plans Keen Campaign for Governor

(Continued from page 1.)

from four counties, Haskell, Throckmorton, Baylor and Knox, had gathered for an all-day picnic.

Next Wednesday he will speak in Knox City. A two-day picnic will be held and Burkett and several other public speakers will address the crowds.

On Thursday he will be at Cross Plains, where a two-day picnic will be held. The next day will find him in Goldthwaite for an address before a picnic crowd. The Confederate veterans will also hold a reunion at Goldthwaite at that time.

Attends Golden Picnic. The annual watermelon carnival and picnic at Golden in Wood county, which brings together thousands of people, will be the place for the last speech of the week. Burkett has been asked by the secretary in charge of the carnival to remain over in Golden on Sunday and give a talk to the Business Men's Bible class of Golden. He has accepted the invitation.

Burkett's friends all through West Texas are planning to have him address people in their communities and are arranging speaking dates. He will probably have engagements on nearly every day he isn't occupied with his law practice during August. Saturday he received an invitation to address the Nacogdoches County Teachers institute on the afternoon of Sept. 4, at Nacogdoches, which he will accept.

Burkett's desk in his office in the Gordon building was piled with letters Saturday, being mostly about campaign matters.

FUTURE CITY HALL PROPERTY HAS CHANGED HANDS OFTEN

The two-story brick building at Pine and Austin streets, which will pass from the Republic Supply company control to the city of Ranger in a day or two is on property that has changed hands at least 50 times, Milton T. Lyman, city attorney, said Saturday.

Lyman worked on the abstract most of Saturday and he intends to spend part of Sunday going over the papers. He wants to have it ready to give the city commission a report on Tuesday. Salesmen representing houses, who deal in bonds, are expected to be here Tuesday to renew their offers of cash for the city hall bonds authorized by the voters of Ranger in 1920. The money will be used to pay for the building and convert it to its future use.

VALLIANTS ATTENDING FLORISTS' CONVENTION AND EXHIBIT AT WACO

Mr. and Mrs. T. R. Valliant, who have been attending the State florists convention at Waco, write to home folks that the week's experience has been full of interest and instruction. Lessons in formation of various set designs were held, and one funeral spray, valued at \$100, was laid on the grave of Tom Wolf, founder of the association. Mr. Valliant says he is coming home prepared to make all of these beautiful designs and corsages and has already purchased and will have on display in the early fall the most complete line of florist's supplies, baskets and potteries ever shown in Ranger, and equal to any in Texas. Added to these Mr. and Mrs. Valliant are bringing home quantities of beautiful ribbons, chiffons, and all kinds of fancy things for wedding bouquets and social functions.

Comparison with other dealers proved that the Valliant nursery was growing a greater variety of summer flowers than any other dealer in Texas. Beside Waco they will visit shops in San Antonio, Dallas and Fort Worth before returning home, which will be during the next few days.

WOMAN DETECTIVE GETS INTO FEDERAL CLUTCHES

CHICAGO, July 14.—Daisy Knox, known as "Detective Keene of the Burns agency," was arrested today by federal authorities here on charge of using the mails to defraud. Miss Knox, in private life the wife of Henry Lombard, a Burns operator, is alleged to have mailed false reports concerning an investigation in a \$6,000,000 suit by the Larsen Gum company against the William Wrigley Chewing Gum company, who charged infringement of trademarks.

The woman was declared to have been assigned to the case on the employment of Larsen company and she reported that she had won the confidence of Miss Ruth Masters, secretary to Master in Chancery Morrison, before whom the case was to be heard.

Edwin L. Weisell, assistant district attorney, asserts that the woman sleuth asserted that the secretary confided that Wrigley paid to have the court records changed. Weisell said he discovered that the reports were untrue, that the detective was not acquainted with Miss Masters.

The arrest of Mrs. Lombard was on the request of the Burns agency, the attorney announced. The hearing was set for July 28.

In the Groden Valley in the Dolomites, nearly every man, woman and child is a wood carver.

TIFFIN

Mrs. Lilly Smith of Tulsa, Okla., who has been visiting her sister, Mrs. W. W. Hearne, for the past month, returned home last week.

A. E. Flahe, an employe of the Prairie Pipe Line company, has moved into the Prairie camp at Tiffin, and his family occupy the house vacated by Frank Rarey.

A number of the older people of the Tiffin community met last Wednesday at the regular singing and made plans for organizing a Sunday school.

The Sunday school organized last fall had fallen during the inclement weather last spring and as so many had moved away it was thought better to reorganize. Those present also planned to give an ice cream supper next Wednesday evening to buy song books.

Mrs. Childs of South Austin street, Ranger, entertained the Good Time club Thursday afternoon. In the middle of the afternoon delicious refreshments, consisting of pimento sandwiches, "devil's food," "angel food," with iced tea and ice cream were served. Mrs. O'Donnell won high score prize, an ice tea pitcher. Mrs. Dunkel won second prize, a set of "Numbers." Mrs. Gates was the recipient of a birthday present, a beautifully decorated tea pot, given by the club. Those present were: Mmes. Wright, Perkle, Gates, Dunkel, O'Donnell, Hearne, Giller, and the hostess, Mrs. Childs.

Six Convicts Take Over the Wall Way From Penitentiary

PHILADELPHIA, July 14.—Six convicts escaped from the state penitentiary today. After beating a guard unconscious, they escaped over the wall, held up a motor truck and fled towards Fairmont Park. All were said to be armed.

It was one of the most daring escapes in the history of the institution. A woman, first on the outside to see the men, said they appeared on top of the 40-foot wall and lowered themselves quickly by means of a rope. Across the street was a closed car which the convicts tried to steal, but it was locked. A small motor truck came along. They stopped the driver at the point of a pistol, got into the car and forced the driver to drive on. They were seen later about a half-mile from the penitentiary.

CONVICTS NEAR WILMINGTON. WILMINGTON, Del., July 14.—Six men declared to have been dressed in prison garb robbed the family of a carpenter living about six miles north of here of all the men's clothing in the house and left in an automobile. They took a shotgun, a revolver and some ammunition and left \$9 to pay for what they seized.

'SELLING STRIKE' OF WHEAT GROWERS URGED BY KANSAS GOVERNOR

CHICAGO, July 14.—Gov. Jonathan M. Davis of Kansas tonight proposed a "selling strike" of wheat growers to force prices higher. Davis told the United Press that he was considering calling a conference of the governors to make such a strike general throughout the great wheat producing states.

"If farmers sell their wheat now at the ridiculously low prices they are offered they will lose from 5 to 10 cents on every bushel they harvest," Davis asserted. "The only way the farmer can fight for a fair price is to store his wheat and refuse to sell until he gets a price that is just. The miller, the baker, the retailer—they all must make a profit on wheat—yet the farmer is expected to labor throughout the year to produce wheat at a loss."

Davis, a good farmer governor, said he intended to see that the farmer was given a square deal. "I would go ahead and call a strike of Kansas wheat growers tomorrow, but that would be folly because other states would go ahead and sell their crops and we would be in the hole," said Davis. "What I am considering is a general strike. Farmers work long hours, have few comforts, no luxuries and are expected to do it all at a loss so that others may profit."

Davis said there was no reason for wheat prices to be so low. "Crop reports and rumors of enormous yields flowed above the tith in the grain exchanges and immediately the farmer was told he must be satisfied with less money for his wheat," Davis said.

Wheat prices dropped to a new low record today on the Chicago board of trade. All future deliveries sold at the lowest prices since 1914.

SWEETWATER FARMER IS WOUNDED WITH BUCKSHOT

SWEETWATER, Tex., July 14.—Jeff Honeycutt was seriously wounded with buckshot and his wife, standing near him, received several shots in her arm about 7 o'clock tonight on the farm of E. L. Wood, adjoining the Honeycutt farm near here. Wood surrendered to the sheriff and is being held on a charge of assault to kill. He claims that he shot in self defense.

OIL PRODUCERS VOICE PROTESTS

(Continued from page 1.)

other fields in the Southwest, where 40 gravity is produced, the prices paid range from \$2.00 to \$2.20 per barrel.

The bulk of the Currie production tests 40 gravity and better and the prices paid there are \$1.00 per barrel.

"The discriminating prices that have prevailed in the Mexico and Currie fields for the past two years have caused a loss to Texans amounting to many millions of dollars. All through these months, these two fields have represented the largest oil producing district in Texas. All through this discriminating tactics have been used, evidently with the ultimate goal of driving Texans and independent Americans from the oil horizon, leaving the great industry to the development of the major companies.

Loss to Texas Treasury. Had such discrimination not been tolerated, Texas today would not be perplexed with its own financial difficulties and its coffers would be swelled by larger revenues from gross production taxes, from income taxes and from all the other taxes that would have been enhanced as a natural result of this greater commercial and industrial prosperity."

"This discrimination today is greater than ever before. The resultant loss, therefore, is also greater, both to individuals and to the state. For example, during the month of June, the production of the Mexico district was 1,781,000 barrels. All during that period the prices paid for more than half of that amount was far less than the posted prices in other fields for the same gravity oil. Even the Humphreys Oil company, selling for \$1.50, sold and is yet selling under what the same oil is bringing elsewhere."

"During the current month, Powell alone will likely yield more than one and a half million barrels of crude petroleum, which will be sold for less than half the price paid for the same kind of oil in other fields. This estimate is based on the very conservative yield of 50,000 barrels daily, already exceeded. So in July, the entire production, under prevailing prices, will be more than a half million dollars less than if it had gushed up from the holes in the Gulf coastal or Mid-continent fields.

"This loss will be felt by the farmers who own the land on which the gusher pool has been discovered, by the lease holders, by the royalty owners, by individual operators, by independent operating companies and their thousands of stockholders, by the county of Navarro and by the state treasury at Austin.

"In the meanwhile gasoline prices show no decline. Mexico, Currie, Powell and Corsicana citizens pay from 22 cents up for gasoline today, the same as they did before the decline in prevailing prices. All through the United States, gasoline is not witnessing a decline, despite the fact that the country's facing over-production. Conditions continue to defy the law of supply and demand.

"Why? This question was doubtless answered not so long ago by the senate committee investigating the oil industry, which says:

"The dominating fact in the oil industry today is its complete control by the Standard companies. . . . Not only this, but two of the leading Standard companies, New Jersey and New York, divide the world between themselves, in marketing operations, and each carefully abstains from entering the territory of the other, while both refrain from competing with the Anglo-American company, Ltd., (one of the original Standard group), in the retail trade in the British Isles."

"This combine is noticeable every time a new price agreement is reached. All of the purchasing companies in this part of Texas usually post price changes the same day, to become effective the same date. The same is true of other fields which are served by the same companies that serve this part of Texas.

"Should such injustice and unfairness be practiced in any other line of business, our lawmakers would not rest until a solution had been found. "A similar condition as to railway rates in Texas existed prior to the appointment of the Texas Railway commission which struck the death blow to discriminating tariff regulations.

Country Needs Jim Hogg

"Texas ranks first in many products today. Agriculture is her leading industry. Her oil fields represent the next largest. Oil field prosperity is shared by state and citizen alike, by oil man, professional man, business man and farmer. They should be protected with the same justice and fairness as should be extended to every other legitimate industry and enterprise. Too much is at stake to permit the disregard of the rights of Texas. Special privileges for none and equal opportunities for all will assure the further development of the unlimited and inexhaustible resources of this state. Texas needs a Jim Hogg today to point the way to freedom and justice with particular reference to the oil industry, just as he was needed when her citizens were suffering under the discriminating policies of her railroads."

BACK IN 1855, WHEN IT WAS PROPOSED that the Belgian railway stations be lighted by electricity, a member of the Belgian legislative body arose and issued a diatribe against the idea, stating that "electricity was the invention of the devil."

Germany Admits Responsibility for Sinking Lusitania

WASHINGTON, July 14.—The German government has admitted to the United States that it accepts full liability for the U-boat sinking of the great liner, Lusitania, the act of Germany that was largely responsible for America entering the World war, it was learned here today.

Demand for Cars Never Slackens

BUICK REACHES NEW HIGH PRODUCTION AND DEMAND MARK IS HEAVY

Buick production reached a new high mark in May, according to a press story sent out of Detroit to Buick agencies and received here by the Goad Motor company. The story as carried originally in a Detroit newspaper said 19,500 cars were built. The press story said:

"Further figures show that the greatest Buick monthly production prior to September last was 13,200. In September, production exceeded 15,000; but that was made to look comparatively small the very next month when in excess of 17,500 cars were built.

New Daily Record.

"Average output for the following six months exceeded 16,700 automobiles per month, the top previous to May having been reached in April, with more than 19,000 cars. In this same month of April the record day's production of Buicks was achieved, 968 being turned out on April 17.

"With May exceeding all previous production accomplishments, it is particularly interesting to learn that early in June another Buick record had been smashed, shipments on last Wednesday, June 6, amounting to 356 freight carloads containing 1,237 automobiles. The best previous day's shipment was on Dec. 27, 1922, when 1,226 automobiles left the Buick plants. Since Jan. 1, there have been shipped 131 solid trainloads of Buicks, 50 flat cars to a train.

DATE FOR EDUCATIONAL CONFERENCE IS FIXED

AUSTIN, July 14.—The date for a state-wide conference on education to be held in Waco was announced today for Aug. 21 by Assistant Superintendent of Education Rogers. The date was fixed at a conference of educators and representatives of other agencies held here last night. Plans for a campaign in connection with state educational matters will be outlined.

TIRES WITH 500 NAIL HOLES LEAK NO AIR

Mr. E. J. Williams of Dallas, Texas, has a new puncture-proof inner tube, which, in actual test, was punctured 500 times without the loss of any air. Increase your mileage from 10 to 12 thousand miles without removing this wonderful tube from the wheel, and the beauty of it is that this new puncture-proof tube costs no more than the ordinary tube. You can write Mr. Williams at Commerce and Harwood, Dallas, Texas. He wants to introduce them everywhere. Wonderful opportunity for agents in unoccupied territory. Write him today.—Advertisement.

DEMAND FOR FORD AND LINCOLN CARS CLIMBS HIGHER AND HIGHER

The demand for Ford cars is vigorous, despite the talk of slackened activities in the oil fields was the statement authorized by the Leveille-Maher Motor company last week. The Ranger agency has experienced a shortage of open models.

This week at the Lamb theatre, a four-reel picture, "The Ford Age," will be shown under the auspices of the Leveille-Maher company.

According to a story sent out by the Ford Motor company of Detroit, the orders on hand at the Lincoln division of the Ford Motor company are "considerably in excess of the production schedule."

"Quality buyers in the market in growing numbers are showing a decided preference for the Lincoln and the leadership which it has always enjoyed among the higher priced motor creations is now more pronounced than ever.

"While manufacturing facilities have been greatly extended since the Lincoln came under Ford ownership and while they are being still further enlarged, production under the expressed policy of the company always will be more or less restricted because of the exacting high standards set for all details of Lincoln construction."

BELGIAN COURT-MARTIAL IMPOSES DEATH SENTENCE

AIX LA CHAPELLE, July 14.—A Belgian court-martial here today imposed the death penalty on Court Von Keller and Ludwig Kingender and imposed life imprisonment at hard labor on Herr Lader, all convicted of sabotage.

MOTORISTS' LEAGUE PLEDGES MEMBERS TO KEEP TRAIL CLEAN

"There are a few of us who, as we have driven along the roadsides of the country, have not been offended by the trail of paper, tin cans, paste-board boxes and other refuse left behind by careless motorists."

The foregoing paragraph appeared in the July number of the Kant Slip, house organ of the Kelly-Springfield Tire company, copies of which have been received by the Ranger Garage company, local dealers for the Kelly-Springfield tires.

A movement to discourage this sort of carelessness has been started with the formation of the Motorists' League for Countryside Preservation, with President Harding as honorary president and many other prominent men as members.

Anyone can be a member by subscribing to the following pledge:

"I as a member of the Motorists' League for Countryside Preservation, pledge myself to do what I can to preserve the countryside so that all may share in the enjoyment of it. To this end I will leave a resting-place or camp site clean; free from papers or litter of any sort. I will be careful of trees and shrubbery; of brooks and streams; in the making of fires. I will make every effort to leave the roadside in such condition that the pleasure to be derived from it is not lessened through any careless act of mine."

HUDSON AND ESSEX AGENCY HAS ORDERS AHEAD OF SHIPMENTS

Four Hudson cars—coach, two speedsters and one seven-passenger—have been sold by the Hub City garage, Ranger agency for the Hudson and Essex automobiles, the first 10 days of July, according to E. E. Dreby. He reports difficulty in getting enough cars for his territory.

"We have 10 prospects waiting on sedans," he said last week. "We lost two sales because we didn't have the cars. It will be next month before we can get coaches and sedans."

"The coach is popular as an enclosed car. It sells for only \$100 more than the open car. Buyers are going in for the closed car. I have a bulletin from the factory that says 80 per cent of the cars made by Hudson are closed cars."

Referring to the bulletin, it revealed that the Hudson-Essex production has been set at 100,000 for 1923, consisting largely of closed cars.

The same bulletin sent out by the factory, declares that there is a "distinct trend toward standardization and simplification in the automobile industry, coming in response to a demand by the motoring public which has come to regard its motor car as a matter of daily necessity."

PALESTINE, Texas, July 14.—T. W. Trelford, 68, retired newspaper man and prominent in Texas Masonic circles, died at his home here last night.

Home Building Campaign Is Fast Getting Under Way

"Anyone interested in the building of a home should leave their names with a member of the building committee," J. W. Sanders, chairman of the committee, said Saturday. He made the request that they do it at once.

"We won't use their names but we want to give the men back of the proposed building and loan association an idea of the prospective number of builders here," he said in explaining his request. "The more names of prospective builders we have the lower the rate of repayment."

The members of the committee, which is incomplete, includes the following:

Ed Maher, Ove Overson and J. W.

Sanders of the Chamber of Commerce, Joe Raborn and C. W. Harless of the Rotary club.

J. T. Killingsworth and F. A. Brown of the Lions club.

T. J. Holmsley, Peoples State bank. J. M. Dodson, Ranger State bank. M. H. Dyer, Christian church.

T. D. Wade, Wade's cafe. R. C. Guthrie, Electric Service shop.

The ladies' auxiliary of the Presbyterian church will hear the home ownership campaign explained Monday afternoon when it meets at 3 o'clock

at the home of Mrs. S. E. Baker. Tuesday morning at 9:30 o'clock, the Child Welfare association will listen to a speaker designated by the committee at the Gholson hotel.

SHERIFF AT CONVENTION
Sheriff Barton attended the state convention of sheriffs at Galveston last week.

CLAUDE.—Armstrong county cooks are to have an opportunity to display their ability in an old time biscuit baking contest in the near future. The contest is a part of the A. & M. college's club contest plan.

Four Buick Roadsters to Select From—

This distinctive Buick Sport Roadster is an excellent example of the skill that Buick has displayed in developing roadster types for all motoring tastes and requirements.

Both in the four and six cylinder models the Buick line of roadsters provides a wide range of selection for those who desire the intimacy of this particular design.

Whether for business, professional use or for pleasure driving there is a Buick roadster suitable and perfectly adapted to the need.

NOT GOOD ON SATURDAY OR SUNDAY

The New Hood White Arrow Cord and Hood Red Tubes

PURE rubber plastic. A straight tube of PURE rubber becomes round with two pounds of air, and a tube so made functions without strain AT ANY POINT.

The shape of a tube when made has no bearing upon eventual stretching or weakening in use. These troubles are caused by improper blending or vulcanizing.

A HOOD Tube retains its life because:—

- (a) It is pure rubber (floating) which guarantees maximum return to position, and insures the greatest resistance against tear or splitting when blow-out does occur.
- (b) HOOD Tubes have a breaking strength of 2700 pounds to the inch.
- (c) HOOD Tube Stock will stretch 8 times its length without harm. It is required to stretch but twice its length in a tire.
- (d) A HOOD Tube will return to its shape indefinitely under running conditions—in other words it will age well.
- (e) A HOOD Tube may be patched and vulcanized as often as necessary without detriment to the original stock.
- (f) The thickness and weight of a HOOD Tube is scientifically accurate. Bulk in a tube gives indication of its performance. In fact a tube that is too heavy and too big does not work or wear well, and may indicate a "loaded" instead of a pure rubber stock.

'OWN YOUR HOME' COMMITTEE DISCUSSES WAYS AND MEANS TO START BUILDING IN RANGER

"You've got to show them they are in a good town," Ray Leach, secretary of the Breckenridge Chamber of Commerce, a visitor to Ranger Friday evening, told members of the "Own Your Home" committee, when explaining how his organization has played its part in starting building operations in Breckenridge.

"In the last 90 days, between 50 and 60 houses have been started. To start this building we had to show people the town was a good one."

"The fellows in the oil fields never make up their minds whether to settle down. We have been helping them. Ranger, Cisco, Eastland and Breckenridge have got problems peculiarly their own. They are all oil towns. Each has its floating population. These towns must work out their problems in a different way than they do in Lubbock, Plainview or Abilene."

When asked by Chairman J. W. Sanders to give the committee the benefit of his knowledge of a building and loan association, he said: "A building and loan association will not function unless you sell a certain amount of paid up stock of from \$50,000 to \$100,000 to start with."

He said that if the committee or the organizers of the society got 50 business men to subscribe to stock, "nothing would stop Ranger."

Make Members Partners.
Breckenridge Chamber of Commerce has a membership of 730, Secretary Ray Leach told members of the Ranger Chamber of Commerce home ownership committee Friday evening.

Leach was prompted to tell about his chamber after Robert Mowat, advertising service, said that he was salesman for an "Own Your Home" advertising service said he was told by a West Texan that Breckenridge had a larger chamber of commerce than Wichita Falls, a city four or five times as large.

"Our success has been due to our weekly luncheons," Leach declared. "We keep our membership enlightened on everything done. Everything that happens from one Wednesday noon to the next Wednesday noon is told to the members. A memorandum of everything that is done is made."

"We have no luncheon clubs except the Lions. We have our luncheons of Wednesday. At that time our weekly report is made. Keeping our membership informed has made our chamber a success."

"You can't possibly begin to have

a chamber of commerce function unless you take the members into your confidence.

"When I went to Breckenridge four years ago, the chamber had a membership of 51 members, the next year 240, then 500 and now it's 730."

Campaign of Publicity.
Endorsement of a newspaper campaign of publicity to induce wage earners, salaried people, business and professional men to buy stock in the proposed building and loan society and to invest in a home was given the proposition presented by Robert Mowat, representing a concern which prepares this special service, by the "Own Your Home" committee Friday evening.

Mowat, in presenting his plan, said that his service had been used in home building campaigns in the most beautiful residential cities of California. He said that the copy and pictures of his service would fit local conditions.

Walter Murray of the publicity committee of the Chamber of Commerce, said that the Ranger Times would handle the publicity if it had the endorsement of the committee. He said that such publicity would be of educational value and would be stimulating.

Ray Leach, of Breckenridge, said that in "order to sell a proposition you've got to have something of this sort, or similar to it."

J. W. Sanders presented a motion to endorse the educational campaign through the medium of a newspaper

and it was seconded by Karl Jones and Ove Overson. Frank Brown and J. T. Killingsworth gave the proposal their approval.

Raising Money for Roads.
J. W. Sanders, chairman of the home ownership committee and Ray Leach, secretary of the Breckenridge Chamber of Commerce, have decided views on the respective merits of their towns to raise money for good roads.

Sanders was relating with pardonable pride the short time which it took to raise \$16,000 among Ranger merchants to improve a road into Ranger, so as to increase the radius of the city's trade territory.

"That was three or four years ago, wasn't it Sanders?" asked Leach. "She would do it tomorrow if needed," Sanders replied.

"We raised \$42,000 for roads this year," said Leach.

Spidewebbs, one-five-thousandths of an inch in diameter, were once used as cross-hairs in the most delicate and precise telescopic instruments.

HOW HOT IS LIGHTNING?
By Associated Press
BERLIN, July 14.—The question of the degree of heat generated by lightning has been agitated recently in German scientific circles because of the effect, observed after electrical storms, of lightning on the tips of lightning rods.

It was found that a platinum tip melted on being struck. Since the melting point of platinum is variously fixed at 1,700 to 1,800 degrees centigrade, it was clear that the lightning's heat exceeded that temperature. Later an instance developed in which an iridium tip was melted by a stroke. The melting point of this metal is said to be 2,000 degrees centigrade.

GEORGETOWN.—Acting Governor T. W. Davidson will be the principal speaker on the program of the annual convention of the South Central Texas Odd Fellows' association, opening here July 11. Other prominent speakers will be on the program.

THE WORLD'S END! "Millions Now Living Will Never Die" FREE LECTURE

Tuesday Evening, July 17, 1923, 8 P. M.
At the Liberty Theatre, Rusk Street
By J. A. Bohnet of Brooklyn, New York
Come Hear—Then Judge!

A misunderstanding and dread of this event has unbalanced many minds and caused many suicides. An understanding of the Bible broadens one's view and inspires cheerfulness and optimism.

For nine years the people of the earth have suffered greatly. The Lecturer will point out that this has been permitted to awaken the people of the fact that the "old world" is done—has really ended and the new is beginning.

There is special significance in the troublous days through which the world has passed since 1914. Well did the Apostle foretell:

"Upon the earth distress of nations with perplexity—Men's hearts failed them for fear, and for looking to the things coming upon the earth".

Let us assist you to a clear understanding of the meaning of
THE WORLD'S END

as well as the troubles the world has endured since 1914, for there is a silver lining to the dark cloud that now hangs as a pall over stricken humanity.

WORD TO OUR FRIENDS.

The Ranger Times appreciates the interest shown by its many friends in advising the society editor of social events to happen and that have taken place, and for their information announces that it is necessary to close the social column for the Sunday morning edition at noon each Saturday. Stories for the Times' social column should be in the office daily not later than noon, and by noon Saturday for the Sunday morning paper.

WOODMAN CIRCLE TO HAVE DRILL PRACTICE.

A meeting of the Woodman circle will be held Monday evening at 7:30 o'clock at Odd Fellows' hall for drill practice. All members are requested to be present.

MISSSES NAN AND CLARA HADEN GIVE DANCE.

The Misses Nan and Clara Haden entertained Wednesday evening with a dance in honor of their house guests the Misses Fleda and Marie Dupuy and Elsie Hildebrand of Houston. The hospitable Haden home was the scene of considerable enjoyment and the comfortable lawn was crowded with happy young people between dances. Punch, ice cream and cake were served during the evening. Paper caps and balloons of various colors were used as favors. Those attending from Ranger were, Louise Benton, Hortense Champion, Evelyn West, Frances Bunch, Marion Stubblebine, Bill Mills, Tom Yonkers, Tony Ward, Tubby Gullahorn, Ray Calvert, Raymond McMillen, Fred Hagaman, Dick Phillips, and Clyde Wagner. From Eastland, Pauline Falkner, Tully Beth Conner, Ernest Glenn, Bert Williams, Shedley, McDemond, and Maurice Stalton.

IN HONOR OF MRS. BURT.

Mrs. John Moyer entertained in honor of Mrs. M. O. Burt of Fort Worth at the residence of Mrs. Benton. Bridge was the recreation for the afternoon. High score was made by Mrs. Lavery and low score by Mrs. Bess Luke. The guest prize, a beautiful vanity case, went to Mrs. Burt. The guests: Meses. Jimmie Ward, R. D. Lavery, F. G. Yonkers, W. West, Ann Faires, Audrey Lamberston, J. H. Benton, H. A. Logsdon, J. L. Thompson, A. Ernst, Robert Kendrick, Bess Luke, R. J. Pleckenstein, Harold Whitbeck, Walter Cash, J. A. Martin, Dud Bishop, Loraine Mitchell, A. E. Stinson of Houston, Miss Louise Benton and Miss Thelma Jameson of Coffeyville, Kan.

CENTRAL BAPTIST BOETHIAN CLASS HAS MANY PLANS.

A business meeting of the Boethian class of young men of the Central Baptist church was held Tuesday night at the Tee Pee annex, when plans for furnishing the room and enlarging the class were made. Decorations of purple and white, the class colors, were in evidence. The members, who already number 24, were divided into two groups with Tom Blanton and John Tibbles as captains, and a contest for merit was started in which points will be made on Bible study, attendance, promptness and membership. On the last Tuesday night in the month the losing group will entertain the winning group.

ICE CREAM SOCIAL AT COLEMAN HOME TUESDAY.

The ladies of the Episcopal church will have an ice cream social Tuesday evening at 8 o'clock on the lawn of Mrs. Gus Coleman's home on the Strawn road. There will be tables for bridge, and a grand prize for the game. A fortune teller for the young folks, and a fish pond for the children will be a few of the special features of the evening. No admission will be charged and the entertainment is open to all who can come. There will be ice cream and home-made cake as well as other refreshments at the party.

ANNUAL PICNIC OF FIRST BAPTISTS ON THURSDAY.

The church and Sunday school of the First Baptist church will have their annual picnic next Thursday, July 19, the birthday of Rev. W. H. Johnson. Those who have no conveyance will find cars at the church at 5:30 to 6 o'clock. The picnic will be held at Russell creek beyond the steel bridge on the new Strawn road.

HARRIS-PENTECOST WEDDING SOLEMNIZED.

Mr. W. F. Harris and Miss Ruth Pentecost, both of Eastland, were married at the home of the bride's parents, July 10, at 9 a. m. The ceremony was pronounced by Rev. A. L. Leake, of Ranger, and the beautiful ring ceremony was used. An improvised altar of smilax and ferns, and hanging baskets of roses made an attractive setting. The bride was lovely in brown flat crepe and accessories to match. A number of intimate friends attended the wedding.

MILLS-LYNCH WEDDING SOLEMNIZED.

At the home of Rev. A. L. Leake, Mr. Joe H. Mills and Miss Ida Lynch were united in marriage Friday evening at 8:30. A number of close friends were witnesses.

ARTIST, HYPNOTIZED, SINGS BETTER

Miss Hazel Eden and Dr. H. N. Moyer.

Following reports from Paris that Mme. Ganna Walska, wife of Harold McCormick, had permitted herself to be hypnotized before she made her premier appearance at the Paris Opera House, Miss Hazel Eden, coloratura soprano of the Chicago Civic Opera company, submitted to a similar experiment at the hands of Dr. Harold N. Moyer, former president of the American Medical association and one of the leading alienists of the country. A striking change was noted in the performance of the artist, and she was able to sing in a range which, under normal conditions, would have been impossible.

SOCIAL CALENDAR

MONDAY.

Methodist Home Missionary society meets at 4 o'clock at church.
Woodman circle meets at 7:30 p. m. for drill practice.
First Baptist W. M. U. meets at 3 o'clock at church.
Central Baptist W. M. U. meets at 8 o'clock at Tee Pee annex.
Presbyterian auxiliary meets at 3 o'clock with Mrs. S. B. Baker.
Eastern Star meets at 7:30 o'clock at Masonic hall.

TUESDAY.

Child Welfare club meets at 9:30 o'clock at Gholson hotel.
Episcopal church ladies give lawn social at 8 o'clock, residence of Mrs. Gus Coleman.
Mrs. Gray Powell entertains with bridge, 2:30 o'clock, Gholson hotel.

WEDNESDAY.

Columbia Study club meets at 10 o'clock with Mrs. O. L. Phillips.
Royal Neighbors Needle club meets at 2 o'clock with Mrs. Nellie Read.

THURSDAY.

First Baptist church picnic, Russell creek at 6 o'clock.
Amor club meets at 2 o'clock with Mrs. R. E. Davis.

PERSONALS.

Mr. and Mrs. J. F. Garber left last week for Haskell and on their way home will stop at Colorado City to visit their daughter, Mrs. Monroe Herrington.
Bill Herrington and his mother motored to Haskell Friday for the weekend.
Mrs. J. R. Tolland left Saturday on her usual week-end trip to Fort Worth where she is studying art.
Mr. and Mrs. Glenn Jones and infant daughter, Peggy Louise, arrived Saturday from Dallas to spend two weeks with Mrs. Jones' parents, Mr. and Mrs. D. L. Jameson.
Mr. and Mrs. R. M. Schmuck returned Friday from Burbank, Okla., where Mr. Schmuck has been for the last four months and Mrs. Schmuck for a short time.
Misses Fleda and Marie Dupuy and Elsie Hildebrand of Houston have been guests for the past week of Mrs. J. B. Haden and daughters.
Mrs. A. E. Stinson of Houston is visiting Mrs. J. B. Haden.
Misses Nan and Clara Haden left Thursday with Mr. and Mrs. J. L. Dupuy and daughters for a motor trip to the Texas coast.
Mrs. J. F. Champion and daughter, Hortense, and son Donald, accompanied by Miss Emily Dreinhof, are motoring to Galveston, Sunday, for a month's stay.
Gray Powell left Friday on the Sunshine Special to attend court in Oklahoma for a few days.
D. L. Jameson received a telegram Saturday from his son Aubrey saying he would be in New Orleans Sunday and at home on Monday. He has been in Mobile attending the national convention of the B. P. O. Elks as special delegate from Ranger lodge.

NOT A TEE-TOTALER

A henpecked little man was about to take an examination for life insurance.
"You don't dissipate, do you?" asked the physician. "Not a fast liver, are you?"
The man hesitated a moment, looked a bit frightened, then replied in a small piping voice, "I sometimes chew a little gum."
Triangular coffins, the body being placed in a sitting position, were used by some ancient Greeks.

blondes can wear black, but this is a mistake, for many blondes look decidedly faded in black as it gives pallor to the face and seems to accentuate lines. Golden blondes with vivid colorings and dark haired women with ivory complexions wear black well. Sallow skinned persons should beware of black or white, or the combination of these two.
It is impossible to say that all blondes can wear one color and all brunettes another, for there are as many varieties of blondes and brunettes as there are pickles. If the pale blonde wore pastel shades, the medium blonde wore medium shades and the brunette wore vivid shades, they would be following a pretty safe rule. For instance, an ash-blond can wear pink; a medium blonde can wear rose and a brunette can wear flame.
For the Red-Headed Girl.
Auburn haired women are at their best in deep blues, reddish browns, black and white. There is a theory that all red-haired women look well in green but if the hair is too red one is apt to have a "port and starboard" effect as the contrast between red and green is too distinct. Hair that is slightly auburn, however, can stand certain bottle-greens and bluish greens nicely.
Gray-haired women should avoid gold or yellow tones as they give the hair a coppery look. Platinum, however, is lovely on gray-haired persons and all dark shades are becoming to them. Lavender should be worn only by the very young or the very old, as the middle-aged person is aged by it. Persons who have passed the bloom of life should not wear vivid colors, as shades that are slightly subdued are prettier on them. Browns are seldom becoming to the middle-aged, although all shades of blue are usually becoming.
Size is another fly in the feminine ointment which restricts one's color selections. A woman may have a peach bloom complexion, glistening hair and sparkling eyes, but if it takes two nickles to weigh her she knows that she can't wear light colors.

RIGORS OF WINTER MORE DEADLY THAN SUMMER HEAT
The rigors of winter are believed to cause more deaths than the heat and oppression of summer, according to figures compiled by the Metropolitan Life Insurance company. A table of these figures received by the American Child Health Association, which is concerning itself with the saving of lives and preserving the health of mothers and children, shows that in the last ten years the smallest drop in the death rate among the life insurance company's millions of industrial policy holders, was recorded during the winter season, January to March.
The report says, "The most pronounced decline in the death rate during the past ten years occurred during the summer months. Between 1913 and 1922 it declined 30.3 per cent in the months of July, August and September. The spring and autumn months are next with a decline of 26.4 per cent in the death rate."
"The drop in mortality during the summer season, when such factors as low temperature and humidity play an important part in determining the death rate, indicate perhaps more decisively the effect of public health work than does the drop in the other seasons."
The American Child Health association, which is setting its aim toward giving the individual good health from infancy, has its executive offices at 370 Seventh Ave., New York, and its headquarters at 532 Seventeenth street, Washington.

Women should never be content to place themselves on the "as is" counter! The woman who is content with what nature gave her is indeed vain. There isn't a woman living who can not improve upon nature if she wishes. Be she as drab as the proverbial church mouse, she can make herself attractive by wearing colors which bring out her best points and conceal her worst points.
Many women depend upon makeup to put over their otherwise colorless personalities. Others who do not believe in the use of makeup try to develop charming personalities. Neither of these two routes is entirely satisfactory, as too often rouge and lipstick cheapen without beautifying and the person who is continually trying to be "sweet" becomes tiresome.
Colors for the Colorless.
If one has eyes of no particular color, hair that is of no decided shade and a colorless complexion one must depend upon colorful clothes to bring out their personalities. Let the vivid person wear the drab shades. Colorless persons are usually prettier in pastel shades than in vivid ones. The pale, ashblond, for instance, is always lovely in Nile green, shell pink or orchid.
Many people believe that all

Panels and Bands for Straight Line Effect

By MARY BROOKS PICKEN

Straight lines are apparent in this frock and are achieved by means of the plaited panels and the length-wise bands.

The blouse portion is of white voile with lavender figure and the collar and cuff bands of white voile. Narrow embroidery insertion is used in joining the waist sections, giving length and smartness to an otherwise very simple blouse.

Georgette with lace may be used in preference to voile, if desired, or linen may be used if the plaited panels are omitted. The dress slips over the head. The back appears the same as the front.

In an attractive combination of colors, this hat with lavender moire draped softly for the crown and white Georgette crepe fitted severely plain over an opaque, foundation poke brim partakes of the ever popular drooping trim of flowers at the right side.

CANNIBAL RABBIT FIGHTS CATS AND DOGS IN STREET

PARIS, July 14.—A carnivorous cannibal rabbit has been discovered. It is the property of M. Barbaud in Due Brezin. The animal eats meat, cherries, cakes and jam. The correspondent inspected the rabbit Sunday morning, offering Lori, the rabbit's name, a bit of stewed rabbit on a fork, which the animal gulped down with a relish like a dog.
The rabbit is a tough guy, playing on the street like other animals and biting dogs and cats which attempt to attack it.

Fashion Ideas for Blond and Brunette; Color Suggestions

By HEDDA HOYT,

Fashion Editor of the United Press.
(Written for the United Press.)

NEW YORK, July 13.—Many women are like the little freckled-faced, read-haired lad who refused to wash his face and brush his hair because nature had made such a mess of him that it was no use trying.

Women should never be content to place themselves on the "as is" counter! The woman who is content with what nature gave her is indeed vain. There isn't a woman living who can not improve upon nature if she wishes. Be she as drab as the proverbial church mouse, she can make herself attractive by wearing colors which bring out her best points and conceal her worst points.
Many women depend upon makeup to put over their otherwise colorless personalities. Others who do not believe in the use of makeup try to develop charming personalities. Neither of these two routes is entirely satisfactory, as too often rouge and lipstick cheapen without beautifying and the person who is continually trying to be "sweet" becomes tiresome.
Colors for the Colorless.
If one has eyes of no particular color, hair that is of no decided shade and a colorless complexion one must depend upon colorful clothes to bring out their personalities. Let the vivid person wear the drab shades. Colorless persons are usually prettier in pastel shades than in vivid ones. Main Drag Stuff

BY P. C. T.

We are going to get away from the main drag today. This is Sunday and everyone wants a change. Everything is almost the same every other day and Sunday is a welcome relief to all except soda skeys, hashers, and gas-line jumpers.

A word about Mexico. No, not Juarez. Everybody knows all about Juarez, who has been talked to any one who has been there. It is the largest oasis in the arid Southwest. Nuf said.

When an ardent lover calls on a Spanish senorita the whole family is in on the party. Mamma, papa and all the children except the youngest, who must go to bed early. If a young Valentino wishes to take his best girl to the movies he must also drag the rest of the family along. It makes things tough for the boy, badly bitten by the love bug. Let's see—four bits for movies, two parents and four children (families are usually large in Mexico)—there are three and a half iron men disposed of right now. Then after the movies we have dinner, perhaps with light wine at a dollar fifty per pint. Say, wouldn't that knock an awful hole in a twenty-dollar bill. Of course the papa might have plenty of jack and be good sport enough to foot the bill some times. It's necessary to have a good standing with the family or go bankrupt in a couple of evenings.

Come to think about it, this system in our United States would put an awful crimp in the flivver business. Cut out this "just a little love, a little kiss" thing and there wouldn't be half as many flivvers about on Eastland road after dark. That would mean half the filling stations in Ranger would close up and soda fountains wouldn't have curb service any more. The love infected boys of America would have to cut out buying roadsters and go to purchasing omnibuses if they wanted to take their girls riding.

At one of the stops the Mexican Central made, just about dusk, a crazy boy ran up and down the right of way screaming most horribly and holding his hands out to the passengers. He didn't say a word in either Spanish or English but you instinctively knew he was howling for alms. Mental leprosy, I guess. That boy could cut out the most eerie screams I ever heard. It unnerved us a bit, so we bought a brace of bottles of "the beer that made Milwaukee jealous" (that

is the slogan of the brewery at Monterey) and felt better.

Our meals at the mining camp where we were to work were the worst in the world. A Chink who could talk neither English nor Spanish, but mixed them up so you had to know both languages to understand him, was the cook.

He had gone into the poultry business rather extensively in the kitchen and we could see tomorrow's dinner walking around over the place and picking up portions of their deceased brethren from the scrap heap. Cannibalism, I call it.

The principal fare in this camp consisted of chicken, goat flesh and horse blanket steaks. They were as big as a horse blanket and coming from range cattle were twice as tough. Also we had eggs. Whenever a fresh one was served to an old-timer he sent it back and asked for an egg with some flavor. These fresh eggs were alright for a tenderfoot, but a hardshell must have eggs with a kick.

Mexico is full of beggars. As a rule they are old, wrinkled women or men with black shawls who sit in a crouching position and ask for alms. Occasionally there is one who breaks the monotony. One old man who has seen about 80 summers kneels with his guitar and sings songs of Mexico in an attractive baritone voice. He plays the instrument well, too, and has several sleight of hand tricks he performs with coins given him while he sings. He may have been a lead in one of the Mexican operas in his youth; who knows? The Mexican temperament, as a rule, has no thought for the future. He lives for the day and does his planning for the future tomorrow, and tomorrow never comes.

The editor of the Times says that if Times readers like this stuff he'll keep on using it. If you like it do us a favor (by us I mean my typewriter and I) and slip the news to some of the Times' staff, but if you don't keep mum. Thank.

WOLFE CITY.—Wolfe City's annual three-day picnic and homecoming will be held this year on July 12, 13 and 14. The days have been designated as agricultural, educational and musical, respectively. Prominent speakers are scheduled for each day.

DARK CLOUDS COST \$1,000,000

Here is a close-up photograph of a \$100,000 oil well fire at Beaumont, Texas.

HAMON-KELL RAILROAD WAITING TO HEAR FROM COMMERCE CHAMBERS

General offices of the Wichita Falls, Ranger and Fort Worth road here have not yet received word from J. W. Mitchell, receiver for the road with offices in Fort Worth, whether the proposed new train between Ranger and Breckenridge has been acceptable to chamber of commerce organizations in Breckenridge

and Eastland, J. R. Tolland, acting general manager of the road, said Saturday.

The Wichita Falls road desires the approval of the commercial organizations of the new train before putting it on the schedule. If the additional train service should prove to be unprofitable, the railroad officials want to go before the state railroad commission and petition for its removal without protests from commercial organizations of the cities affected. The railroad desires this understanding before proceeding.

TRAVELER'S CHEQUES

When you start on your vacation you will want a safe way to carry your necessary expense money. We can furnish you with Traveler's Cheques at small cost, which is a safe way to carry your money. They are accepted by banks, hotels, shops and railroad agents and are self identifying.

BIBLE THOUGHT.
REVERE THE CREATOR.—Thou art worthy, O Lord, to receive glory and honor and power: for thou hast created all things, and for thy pleasure they are and were created.—Revelation 4:11.

THE VICTORIOUS TURK.
Once more the Turk is victorious. He leaves the long-drawn-out conference of Lausanne with the tread of the conqueror, just as Abdul Hamid and his long line of predecessors left other councils through the centuries after having played their enemies one against the other.

The termination of the Lausanne council leaves the Turk more firmly entrenched in Europe than at any time since Mahomet V. rode his horse into the great cathedral at Constantinople and dedicated it thenceforth to the service of Allah.
During the early days of the war Christendom fulminated a stirring proclamation to all the world—and the United States was a party to it—to the effect that the best interests of humanity demanded the expulsion of the Moslems from the soil of Europe, and that the time had arrived when the expulsion should be enforced.

But the Turk remains. The decadent oppression of centuries is to continue under the sanctions of an agreement as sordid and mercenary as any that was ever crystallized in a formal treaty. The Christian minorities in Turkey—for all the pompous declarations of the parties to this latest agreement—stand where they always have stood, and, in effect, stand as helplessly defenseless.
Even in the matter of their indebtedness the wily Orientals have been able to sidestep. They do not go on official record as confirming the obligations of their debt. But foreign troops will evacuate Turkish territory, and foreign warships will leave Turkish waters, and foreign business and educational interests will be, practically, left to the administration of the Turkish government, which now lords it from Angora as arrogantly as ever Moslem emperor lorded it from the imperial Ottoman throne at Constantinople.

Thus does it once more become apparent that in matters of diplomacy with reference to Turkey considerations of trade and mercenary interests outweigh and take precedence of those laws of higher morality and humanity which are so much extolled by the western world. The Turk wins, and chuckles, no doubt, over the human weaknesses of his immemorial adversaries.—Cincinnati Enquirer.

France is very much occupied by the occupation of the Ruhr.—Washington Post.
It should be just as much fun to play 26 shocks of wheat as it is to play an equal number of holes at golf.—Indianapolis News.

Jugo-Slavia announces that she will pay her war debts. Germany announces that she will not. And both are quite in earnest about it.—Cleveland Plain Dealer.
"Give till it hurts" may die, as many war slogans do, but men will cling to that other noble saying, "When do we eat?"—Baltimore Sun.

Ancient peoples were always profoundly interested in death and tomb building. Perhaps they didn't enjoy life much.—St. Louis Globe-Democrat.

"FATTY" ARBUCKLE APPEARS AT BEACH CABARET

Roscoe (Fatty) Arbuckle, former film comedian, who has not appeared on the screen since his acquittal on the charge of killing Virginia Rapp, in San Francisco, is shown with a group of youngsters on the Boardwalk in Atlantic City, where the rotund comedian is appearing in a cabaret at a reported salary of \$6,000 a week.

HOLMSLEY REPORTS TO LIONS ON LIONS' CONVENTION HELD RECENTLY AT ATLANTIC CITY

T. J. Holmsley, representing the Ranger Lions at the seventh annual convention of International Association of Lions clubs in Atlantic City four days the latter part of June, gave an interesting account of the proceedings at the Lions' luncheon last Thursday. Texas sent about 80 delegates, Fort Worth leading with 11 headed by President J. T. Farmer, and San Antonio being second with nine Lions headed by President W. G. Higgins. Taking up the story from the start at Fort Worth, Mr. Holmsley said:

"Three special cars, routed all the way from Fort Worth to Atlantic City, carrying delegates from 21 Texas cities after arrival in the convention city were joined by other Texas delegates, bringing the total of Texas cities represented to 26.

"Our train arrived in Memphis, en route, at 8 a. m. We were received by a committee from the Memphis Lions club and conducted to the Gayosa hotel. At 10 o'clock Memphis Lions called for us in their private cars and took us for a two-hour drive about the city. At noon we met at the lunch room of the Civic clubs and had an excellent luncheon. The program, which was ideal, consisted of singing by the entire assembly, which numbered some 250 persons, solos, serious talks, humorous talks and a novel stunt. At 3 o'clock we boarded a river steamer and took a 25-mile ride on the Mississippi river.

"Leaving Memphis at 8 o'clock, we arrived at Chattanooga at 7 a. m. the following morning and were met by sight-seeing busses and driven to the top of Lookout mountain, where guides gave us a complete history of the memorable events that took place there during the Civil war. Returning to town, we were conducted to the old L. & N. station and viewed the "General," a locomotive famous in Confederate history. Returning to our train some half-hour before its departure, all the Texas delegation gathered in one of the cars and held religious services under direction of Lion Webb of Dallas, assistant passenger agent of the Texas & Pacific railway system, and the man directly responsible for all our stop-overs and entertainment.

"Our next stop was in Washington early the following morning. We spent some 18 or 20 hours there, visited the capitol, congressional library and other famous public buildings and drove over the entire city. We also visited Alexandria, Va., and the Christ church in which George Washington worshipped, sitting in the pew he occupied and also the pew occupied later by General Robert E. Lee. We visited the Carlyle house in Alexandria, famous in history, and the Masonic lodge that was once presided over by George Washington as worshipful master. His apron, gloves and many other such things are preserved and are open for inspection by the public. We also visited Mount Vernon and Washington's burial place. The next day we spent several hours in Philadelphia and then went to Atlantic City, arriving at noon.

"Col. W. G. Higgins, father of Lionism in San Antonio, distributed Mexican sombreros to the Texas delegates and we also had large badges inscribed 'Texas Lions.' When we put on the sombreros and badges and stepped out on Atlantic City's board walk we were the most conspicuous and most talked of delegation in the city.

Texas Gives Greeting.
In our party was Miss Leslie Butcher of Fort Worth, wearing a typical cowgirl dress, hat, leggings, cartridge belt, gun, etc. When the convention opened Wednesday she led us in single file to the steel pier, the convention meeting place, and announced our entry by firing two shots, then starting the song, "The Eyes of Texas." We marched in single file around the hall and then assembled in front of the stage, where Miss Butcher led in a cowboy yell and fired three more shots, causing the chairman of the arrangements com-

mittee to duck for cover.
"The programs were good. Most of the speeches were limited to 10 minutes each. Retiring President Vaught of Oklahoma City is an exceptional man and kept things moving smoothly. His annual address was a masterpiece and every Lion in the world should have heard it and, hearing it, would have tried harder to become a better Lion.

"Alvin Owsley, of Denton, Texas, commander in chief of the American Legion, held the assembly spellbound for more than 30 minutes by his address. He was elected an honorable member in the Lions International. "It was claimed by a number of the delegates that this convention was un-

like other conventions in that there was no political faction running it, and, as Lion Brown told us last year when he returned from the Hot Springs convention, most of the Lions attending had been there before and knew the ropes. I had the honor of being made a member of the committee to select the next convention city, possibly because our district governor, Lion Perry of Terrell, is a friend of my family and obtained my appointment.

"Committee meetings were held at all hours of the day and night and I attended most of them. There was entertainment in abundance, boat rides on the Atlantic, picture shows, vaudeville, dances, amusement parks equal to Coney Island, bathing parties and many others and everything free to the Lions.

Lions Are Singers.
One of the things that impressed me is that the Lions are singers. Everybody attending tried to sing and most of them could sing reasonably well. It is my recommendation to our president that he insist on our singing more and better. We must not forget in the future that Lions

should always open their meetings by singing 'America.'

"Canada was well represented at the convention and out of respect and brotherly love for her the Lions sang with the Canadians, 'God Save the King.' We have some big men in Lionism today and the best thing is that Lionism is growing faster than any other similar organization.

"We here in our local club must keep up our membership and must have better attendance. I have invited Colonel Perry, our district governor, to visit this club at his earliest convenience.

"I attended the meeting of the club secretaries and got much useful information. There are now 685 Lions clubs in the United States and Canada, an increase of 200 clubs in the last year, and the membership was increased by 6,000. Every state in the union is represented. California ranks first, Texas second and Illinois third. Illinois had the largest delegation at the convention, Texas was next, followed by Pennsylvania and California.

Meet Next in Omaha.
"Omaha was selected for the convention city in 1924. Columbus, Ohio, also, wanted to entertain the Lions. Invitations for the 1925 convention have been given by Colorado Springs, Los Angeles and Ashville, N. C. John S. Noll of Grand Rapids, Mich., was elected president without opposition.

W. G. Higgins of San Antonio was elected first vice president, Ben Moore of Newark second vice president and Ray Bigelow, of Seattle, Wash., third vice president.

"Three directors were chosen out of eight candidates, these being: Julian C. Hyer of Fort Worth, Jesse Robinson of Los Angeles and Mr. Bird of Pittsburgh. Melvin Jones, international secretary, is chosen by the board of directors and his contract runs for another year. He is recognized as one of the best organizers in the country. His salary is \$10,000 a year and the Kiwanis club has offered him a larger salary to go to them, but he is absolutely sold to Lionism.

"The Kiwanis club of Atlantic City visited the Lions convention in a body and their president gave a nice talk. Among the interesting addresses at the convention were W. G. Higgins of San Antonio and Col. L. C. Perry, of Terrell, district governor of Texas."

AIRPLANES, POISON GAS AND HATRED WILL MAKE NEXT GREAT WAR ONE OF EXTERMINATION

DES MOINES, July 13.—Seeds of hate being sown throughout the world are causing it to drift into another world war, according to Frederick J. Libby, of Washington, executive secretary of the National Council for the Prevention of War, in addressing the International Christian Endeavor convention here recently.

"The world drifts toward a war of gas and airplanes and neither the government nor the churches nor organized women have taken one effective step to prevent it," said Mr. Libby. "The seeds of hate are the seeds of war and they are being sown again in the French seizure of the Ruhr. No fondness that we may feel for France can blind our eyes to the awful consequences of the policy she is pursuing. Many of you present at this convention will be drafted to be killed if the present drift toward war cannot speedily be stopped and law be established in the place of war as the accepted method of settling international differences.

"And it will be a war of gas and airplanes. Recently in Dayton, the home of the Wright brothers, a young man asked me if I knew about their little 'bug.' I said 'no,' and he went on to tell me that it is an airplane which they have sent from Dayton to Xenia, turned around there and brought back safely to Dayton with no one in it, guiding it by wireless. "And it might have been spraying gas all the way to Xenia and back? I asked. He nodded and said 'yes.' Airplanes, poison gas and hate make a trio of destructiveness so deadly that no one of us can contemplate the present drift toward war without horror.

"Our military men say: 'Prepare for war.' I am frank to admit that they are justified in their demand if we are not going to work far more effectively for peace in the next four

years than we have up to now. It is their task to make the nation ready for war when war comes. They know that if a great war splits Europe, whatever politicians may say, America cannot remain aloof. The world is too small for us to be unaffected by anything that affects Europe."

Mr. Libby urged the adoption of the world court as one step toward the prevention of war and also the reduction of armaments and education for peace.

Chicken Barbecue Drawing Nearer and Nearer—Yum, Yum!

Eastland county business men are being asked to join the Eastland County Poultry Raisers association. A letter addressed to the business men of the county appeals for a larger membership. Only a nominal sum is asked for annual membership dues.

The money derived from dues will be spent for coops and other equipment to be used at the annual poultry shows and will become the permanent property of the association.

The association is giving a chicken barbecue at Eastland on Saturday, Aug. 25. The chickens will be donated by the members. The barbecue will be free to all members and their families.

Eastland county should be one of the largest poultry counties in the United States, with the good roads and excellent rail connections available, R. L. Poe, president of the association said in the letter he sent out to the business men.

Between 5,000 and 6,000 motor vehicles of all kinds will probably be imported into South Africa this year.

This is a Studebaker Year
An Advantage to Both Buyer and Seller.
Here's Why --
A customer, we'll say, buys a Light Six. He likes it—everyone likes his Studebaker. He gets to know men in the Studebaker organization and like them. Calls them by first name—feels safe in leaving matters to their judgment.
Sooner or later the customer wants a larger car—most every owner of a smaller car decides some day to own a larger one. The Studebaker buyer doesn't have to go somewhere else to get acquainted all over again. He selects a Special Six, or a Big Six, and deals with the same good friends.
With a complete line of sixes, the Studebaker dealer is able to make these customers permanent customers—these customers bring other customers who become permanent and so on—sort of an endless chain.
When it comes to building a profitable business, there's nothing to compare with a good line of merchandising in a variety of the right styles, sizes and prices, and a volume of owners who are enthusiastic over the product and continue to buy it time and time again.
Studebaker now largest manufacturers of "Sixes" in the world
Due to this fact manufacturing cost has been reduced to a minimum. Studebaker owners profit by this saving.
THIS IS A STUDEBAKER YEAR

Swedish Riksdag Acts to Put Stop To Liquor Running

STOCKHOLM, July 14.—A severe blow has been dealt the rum running fraternity of Sweden through the adoption by the Riksdag of two bills which aim to curtail the activity of smuggling. One bill calls for the establishing of a special police force against liquor smuggling in the city and archipelago of Stockholm, and the other involves increased severity of punishment for violation of the liquor import laws.

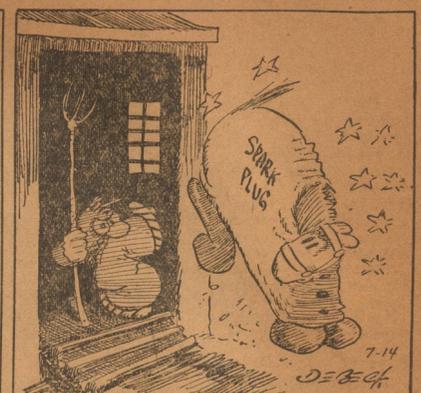

The creation of a special patrol for Stockholm and the appropriation of about \$35,000 thereto was passed only after considerable debate. The amendment to the smuggling law provides a maximum penalty of one year's imprisonment at hard labor for offenders found guilty of extensive smuggling of unlawful import for commercial gain. In certain cases also the master of a ship upon which smuggling has been attempted can be held legally responsible.

These restrictive measures by the Riksdag have been necessitated because of the persistent smuggling which has been carried on across the sea coast of Sweden. Large quantities have been brought in illegally, the principal purveyors being Estonia and Germany. Although Sweden is not a prohibition country, the illegal distribution of liquor has become profitable because, under the "Bratt system" of liquor rationing, Swedish subjects are not legally entitled to more than a prescribed quantity of alcoholic beverages a month.

ACCORDING TO PRESIDENT HARDING, the management of the American home, that is painstakingly carried on by 20,000,000 women every day of the year, is the greatest single industry in the United States. Out of this number, 18,000,000 do their own work without help. These 18,000,000 would be made happier and be given extra hours for other pursuits were they to take advantage of electrical service. Electricity will finally entirely emancipate the American woman from the necessary labor of housekeeping.

To control the Seine river when it is a source of danger to the communities along its banks and to Paris during the flood period, a new plan is to build 23 large reservoirs along its banks.

BARNEY GOOGLE—It's Barney's Day Off.

Peep Into the Future

National Health Survey, to Be Begun Next Year, Will Search Weak Spots in Effort to Lengthen Span of Life.

The National Health council, a combination of the 13 greatest medical and public health organizations in America, has announced says the United States health service, that during the 12 months beginning July 4 next it will endeavor to persuade every person in the United States to take a peep into the future to see what the condition of his health will be in a few years hence. Anybody who does not like what he sees will be told what he can do to better it.

For ages men have sought to probe the future by reading the stars, consulting the oracles, visiting fortune tellers and mediums, and even by watching for the groundhog and reading the goosebone. But always, in all ages, when men sought information concerning the future they coupled their request with the question, unspoken, but always understood: "Will I be there to see the prophecy fulfilled?"

It is not so difficult as it may seem to predict how long a man will retain his health or will live. His "expectation of life" is particularly easy to estimate: Subtract his age from 80, and if his health is good he will probably live for more than two-thirds of the difference.

"But is his health good? Is your health good?" asks the National Health council. "That is the question!"

A life insurance company can answer the question pretty accurately. Unless it does so it is bound to go bankrupt sooner or later. So it finds out the sort of work you are doing, inquires into your family history, and wants to be told what illnesses you have had. Finally it examines you physically, not merely to find out whether you are sound at the moment but whether you have any unsuspected disease whose existence neither you nor any one else could know from ordinary observation. It considers also whether your lungs, heart, stomach, etc., are able to prevent "germ" diseases from getting a foothold in your body or to drive them out after they have gotten a foothold.

Most persons think of death as coming from one of the great diseases—typhoid, fever, for instance. But it isn't these that do the real damage. It's the hidden things that weaken your organs without your knowing it till the test comes and you find yourself defenseless. It is, for instance, the abscess at the root of a tooth that manufactures the pus

that injures the kidneys; the infected tonsils that discharge a pus that causes rheumatism; the little lump beneath the skin that some day changes into a deadly cancer; the work that strains one's weakest spot till it gives way, when another sort of work would do no harm.

All these things can be and will be investigated under the council's plan by a reputable physician—by each person's family doctor, if he likes. The council hopes that a least 10,000,000 persons, say 30,000 a day, will have themselves examined during the 12 months beginning July 4 next. It is a big job; and to make it easier the council suggests that every one should be examined on his own birthday—even those born on February 29, for 1924 is leap year.

This national health examination campaign will unquestionably markedly lengthen the average human life. Its span in the United States was lengthened from 41 to 56 during the 50 years that elapsed between 1870 to 1920; and it will be lengthened during the next 50 years by at least 20 years more, according to the American Public Health association, which certainly ought to know what it is saying. This means that 60 years from now the average man will live to be 76 instead of 56, as at present; and that he will feel spry enough to enjoy life at 76—and for a good deal longer.

KELLOGG'S CORNFLAKES GOOD SUBSTITUTE FOR BREAD IN MEAT LOAF

The housekeeper often wants to make a meat loaf when no crumbs are available. With Kellogg's toasted cornflakes on the shelf she need never want for the best kind of a substitute for crumbs as the following recipe will show:

VEAL LOAF
One and one-half pounds prepared veal loaf, 2 cups cornflakes, 1 egg, 2 strips bacon, one-third cup milk, salt and pepper to taste. Mix veal loaf, egg, cornflakes, milk, and salt and pepper to taste. Form into loaf, place in baking pan, put strips of bacon across top, pour one small can of tomatoes around loaf, chop two onions, put them in slow oven for one hour, basting occasionally with tomatoes. When loaf is ready to serve thicken tomato and onion mixture with flour and serve around loaf.

VEAL OYSTERS
Cut veal steak in portions 1 inch wide by 2 1-2 inches long, dip in egg and cornflakes, fry in deep fat and serve with chili sauce or catsup.

One dollar will haul a ton of freight nine miles by horse and wagon, 24 by motor truck, 185 by railroad, 230 by canal, and 3,000 by ship, is the comparison made by the Society of Automotive Engineers.

WITH THE EVER INCREASING DEMAND for and use of electric service it will not be long before electrical power plants will be located at the pitheads of the country's coal regions, thus eliminating the slow and wasteful shipping of coal from the mines to far-off power plants. Out of approximately 17,000 coal mines now in active operation, 46 per cent are using electric current for hauling, while 51 per cent are using electric cutting machines and illumination.

NEARLY TWICE AS MANY ELECTRIC LAMPS are used in the United States as in England, France,

Italy, Switzerland, Hungary, Austria and Germany combined, according to report. The use of electric lamps is almost double per person in America to what it is in any other country in the world with the exception of Switzerland.

F. E. LANGSTON BARBER SHOP FOR SERVICE
We are the oldest shop in the city and try to be the best. Try us. NEAR THE DEPOT

NOTICE!

The Acme Grocery, located in Young Addition, will be open Monday under new management, with a full line of new groceries and the very best grade of fresh and cured meats that money will buy. I wish to give as good service and satisfaction as Odell Bros. did. By doing so I realize will be the very best. Every customer needed and highly appreciated. I, as all others, will make mistakes, but they will be gladly corrected if my attention is called to them.

"The Popular Price Store"

CHURCHES

CENTRAL BAPTIST CHURCH.

Tee Pee building—Rev. A. L. Leake, pastor. Promptly at 9:45 the class and departmental bells ring. Try to be on time if possible and help make your department 100 per cent.

At the morning service the pastor will occupy the pulpit, giving only a brief message, and you are welcome without your coats. Special music for this hour will be a trio by Meses. Job, Rowden and Leake. Cars and trucks have been provided by the congregation to meet at Lindsay mission and bring all those who care to come. Cars will also be at the Standard grocery on South Hodges.

The evening services will be on the church lawn and a large junior chorus will be one of the attractions. Special music by the choir. The pastor will deliver a message of importance. Reception of members at all services. Evening theme, "Six Pillars of the Nations' Greatness."

If you are a married woman, under 33 years of age and not attending Bible school any place, you are cordially invited to visit the Alathean class at Central Baptist church Sunday at 9:45.

METHODIST.

Elm near Marston—Rev. L. A. Webb, pastor. Sunday school, 9:45 a. m. The nursery is in operation now for tiny children so the mothers can come to Sunday school and stay to church. A new business men's class will be organized at Sunday school. Morning service at 11 a. m. Subject of sermon, "Every man in his place." Junior Epworth league meets at 4 o'clock. Senior Epworth league meets at 7 o'clock. Evening service at 8:15 o'clock with special address by Prof. Godbey of Ciseo. A welcome for everyone.

CHRISTIAN TABERNACLE.

Main near Marston—Rev. H. B. Johnson, pastor. Sunday school at 10 a. m. Preaching at 11 a. m. and 8:30 p. m. Subject for morning hour, "The Communion"; for evening hour, "The Rich Farmer." We will have the evening service out doors on the church lawn and it is nice and cool. Come and worship with us if your duties do not call you elsewhere. If you have been complaining about having to wear a coat at church, just leave it at home for we want you to feel comfortable.

PRESBYTERIAN.

Marston, corner of Walnut streets—Rev. A. N. Stubblebine, pastor. Sunday school, 10 a. m. Morning service at 11 a. m. with sermon subject, "A deep into the spiritual world. Will we be angels? Where are the disembodied spirits of the

MOTHER AND SON GRADUATE TOGETHER

Mrs. R. A. Pursell and Naomi, Jr.

Mrs. Rosalee A. Pursell, 56, mother of nine children and grandmother of six, a modest, gray-haired woman, stood among the graduates of the Los Angeles high school and received her diploma with her son, Frank. In the audience was her daughter Naomi, "baby" of the family, herself a freshman. A desire to keep up with modern education was the reason for her progress through high school.

FIRST BAPTIST.

Walnut, near Marston—Rev. W. H. Johnson, pastor. Sunday school, 9:45 a. m. Morning service, 11 a. m. Subject of sermon, "The Comforter." Sunbeams meet at 3 o'clock. B. Y. P. U. meets at 7 o'clock. Evening service, 8 p. m. Subject of sermon, "The Deliverer." Miss Laura Schmul will sing at the morning service.

dead? Are they our guardian angels?" Junior Christian Endeavor meets at 4 o'clock. Senior Christian Endeavor meets at 7 o'clock. Evening service at 8 o'clock with subject of sermon, "The Great Invitation." Immediately after the morning service there will be a meeting of the congregation and all members are urged to be present and to stay for this special meeting.

AT THE HOTELS

GHOLSON.

Paul W. Evans, M. W. Boyle, Fort Worth; L. O. Grigsby, C. W. Buster, Dallas; L. F. Mayo, Pioneer; H. C. Voss, Providence, R. I.; T. Rogosky, Milwaukee, Wis.; E. Brunson, Graham; H. A. Flawary and family, R. A. Winton and family, Dallas; G. N. Anthony, Henryetta, Okla.; T. C. Ramey and wife, W. C. Schults and wife, Fort Worth; Wm. A. Moorehead, Dallas; L. E. Hirt, M. S. Eldred, Fort Worth; P. C. Clark, W. F. Cortis, Breckenridge; G. W. Buchanan, Viant, Okla.

Weariness is due to a poison called kenatoxin which is accumulated in the muscles by overwork or excessive exertion, says Dr. Weichardt, of Leipzig, Germany, who claims he has found a cure.

CHURCH OF CHRIST. Rusk, corner of Elm—Bible class at 10 a. m. Preaching at 11 a. m.; also Wednesday evening at 8 p. m.

ROMAN CATHOLIC. Blackwell road—Rev. R. A. Gerken, pastor. Mass at 8 and 10 a. m.

EPISCOPAL. Opposite Young school—Sunday school at 10 a. m. Morning prayer with sermon, 11 a. m.

CHRISTIAN SCIENCE SOCIETY. 420 West Pine street—Sunday school, 9:45 a. m.—Services Sunday at 11 a. m. and Wednesday at 8 p. m. Reading room open Tuesday from 2 p. m.

SALVATION ARMY. Sunday school, 3 p. m. Y. P. L. meets at 6 p. m. Preaching at 8 p. m.

JULY Clearance Sale

Continued One Week

It was our intentions to close this sale after eight days duration. Although the sale has been a wonderful success from every standpoint, we find we are too heavily stocked for this time of the year, and have decided to continue this Gigantic Clearance Sale for one more week only.

Many new goods have been received in the last few days and in many cases prices have been lowered from those first quoted in our circulars.
