

RANGER BUYS PROPERTY FOR CITY HALL

Financial Catastrophe Which Swamps Fight Promoters Alarm N. Y. Sport Circles

Looks Like Return of Old-Time 4th, Fatal to Children

Municipal Hall Acquired, Be Occupied Soon

Property at Pine and Austin Streets Purchased From Republic Supply Company for \$17,500 and Will Be Remodeled for Administration, Police and Fire. Only Small Portion of Bond Money Will Be Needed.

O. D. DILLINGHAM BUYS BLOCK OF NICE HOUSES

Has Faith in Ranger and Would Start Home-Ownership Campaign.

Purchase of six houses in the Hodges Oak Park addition by O. D. Dillingham from the Prairie Oil & Gas company was announced today by Mr. Dillingham. The houses are five, six, and seven-room residences, modern, and in good condition and he will resell them to prospective home owners.

Mr. Dillingham, who is president of the Peoples State bank, said today he was prompted to buy the houses and put them on the market that a home owning campaign might be inaugurated here.

"I have confidence in the future of Ranger," he said in explaining his investment. "I believe people who come here to make a living want to own their own home and if this will help them I will count the purchase a good thing for Ranger."

Negotiations for the purchase of the six houses has been pending for a week, he said. The deal was completed today.

The Prairie company is relocating the families of employes who have been living in the Hodges addition in the Prairie camp.

FOUR OIL PROMOTERS PLEAD GUILTY AND ACCEPT SENTENCES

FORT WORTH, July 5.—Four more oil promoters pleaded guilty in federal court today using the mails to defraud and today were sentenced by the court. The four men are: E. M. Hatfield, B. C. Hatcher, E. N. Smith and C. D. Spann. Hatfield and Hatcher were sentenced to one year and one day in the federal penitentiary, and the other two were fined \$500 each. Hatfield and his associates were connected with the Texas-Mexia Drilling syndicate. Asked if guilty, they replied "technically guilty." The court said a technical plea was not acceptable, so the plea was changed. Judge Wilson told the men that the system of paying dividends as advertised by them amounted to a fraud.

SHERIFF TESTIFIES IN OUSTER SUIT AND DENIES ALL CHARGES

MOUNT PLEASANT, Texas, July 5.—Sweeping denial of all charges by state's witnesses that he protected bootleggers was made by Sheriff John J. Reeves of Titus county on the witness stand in the ouster suit against him. He denied that he had at any time offered protection to any manufacturers of liquor.

John Fry, federal prohibition officer, testified that Reeves had always co-operated readily with federal officers in running down bootleggers and was never lax in enforcing the dry law. Arguments in the case are expected to start Friday.

MEXICAN BANDITS PAY WITH LIVES FOR CRIME

MEXICO CITY, July 5.—Summary vengeance has been exacted by the government for the attack on the Interoceanic railway passenger train June 8 between Amozoc and Senoret, near Puebla, in which two lives were lost. Five Indians, two of them residents of Amozoc, have been shot after summary court-martials and twelve others, whose names were given by those executed as members of the band of robbers, are being hurried through the mountains by numerous detachments of federal troops.

Family Prayers Suggested to Put Crimp in Divorce

DES MOINES, July 5.—The family altar, worshipped by families daily in homes, will prevent divorce, according to Rev. Stanley B. Vandersall of Boston, who spoke today before the International Christian Endeavor convention here. "An analysis of the homes that have been wrecked would no doubt show that family prayer was lacking in those homes," said Rev. Vandersall.

"The seeds of divorce can find no fertile soil in the homes where father, mother and children each day repair in unity of spirit for divine blessing," added Dr. Vandersall. "Divorce courts are a necessary part of our governmental machinery, but if the family altars are established in all the homes in America the divorce courts will be driven out of business. It is true that some benefit would follow the enactment of laws making it more difficult to get divorces, but this will not cure the divorce evil. What is needed is something to promote love and goodwill. Family prayer will do that very thing."

GOOD WILL AND FRIENDSHIP ARE GREAT PANACEAS

Their Influence Is Lifting Whole World Into Brighter Realms.

DES MOINES, Ia., July 5.—Christian good-will and friendship, exercised through the influence of the millions of members of the Christian Endeavor societies, is the remedy for an existing war-torn world, declared Dr. Francis E. Clark of Boston, founder and president of the movement, in his key-note speech which opened the twenty-ninth international Christian Endeavor convention here today.

Delegates in attendance from every state in the union, the provinces of Canada and many foreign lands, were told that the theme of the convention would be "The Harvest-Time is Here." A "Friends of Christ" campaign also is to be inaugurated.

"Members of the Christian Endeavor in all lands must band together for the promotion of world-wide Christian fellowship," said Dr. Clark. "There is unbroken unity in our ranks. Some organizations within the first four decades of their existence have lost their early zeal, soft-pedaled their Christian purpose, and divided into two or more factions. Not so Christian Endeavor. Its activities and methods have multiplied ten-fold, but its fundamental purpose, to train the young for Christian service in the church and for the church, never has been altered or overshadowed."

ARMY FLIERS AT KELLY FIELD MAKE FINE RECORD

SAN ANTONIO, July 5.—Officers stationed at Kelly field No. 2 have set up an enviable record with more than 30,000 airplane flights completed since Jan. 1, 1923. The approximate time put in actual flying on these trips totals more than 8,000 hours, which is said to be one-fourth of all the army air activity excluding the Kelly-MacReady flight and other long trips.

Nearly 800,000 miles have been covered during the past six months, records show, according to the speed of the machines used, which ranged from 60 to 100 miles an hour.

Only four fatalities occurred in the past eight months at the field and these were caused through loss of flying speed.

300-BARREL OIL WELL COMES IN 6 MILES SOUTH

Shut Down With Drill at Top of Sand to Await Better Demand.

The Panhandle Refining company has completed erecting steel storage for its new well on the Grey-Hightower tract, six miles southeast of Ranger, which came in last Saturday for an estimated 300 barrels. The drill was stopped at the top of the sand.

The well was shut down Saturday at the top of the sand. The Humble Oil company, in accordance with its announced policy, will not take oil from new wells, so the men were put to work erecting storage. The well came in at 1,205 feet.

The well is 1,200 feet north of Gray-Hightower well No. 2. The latest well is the best one to come through in this field, the others averaging from 30 to 50 barrels.

The Andy Urban well on the Spire-Dooly tract is reported to be down 1,400 feet today. The Urban well on the Y. L. Williams farm, several miles northeast of Ranger, is at a depth of 3,780 feet.

State Rangers May Help Investigate Killing of Lange

AUSTIN, July 5.—A court of inquiry into the killing of Otto Lange, farmer and railroad employe, Monday night near Somerville will be conducted by the state, Acting Governor T. W. Davidson announced today on his arrival here.

Lange was assaulted and killed by three masked men. A personal account of the affair was given the governor by Sheriff Lewis of Burleson county.

The entire legal machinery of the state will be used if necessary in investigating the affair. Details of the investigation are being worked out today in a conference between the governor and Attorney General Keeling.

Rangers have not been sent to Somerville yet, Davidson said, but they would be held in readiness for any emergency and a detachment may be sent to aid in the inquiry.

PRESIDENT HARDING SAILING ON TRANSPORT FOR VISIT TO ALASKA

TACOMA, July 5.—President and Mrs. Harding arrived here today about 7 o'clock. After an address the President and his party went aboard the United States transport Henderson and sailed for Alaska this afternoon, the ship leaving the lock at 2 o'clock.

SCRIVNOR REARRESTED ON ORDER ISSUED BY THE FEDERAL COURT

DALLAS, July 5.—W. S. Scrivnor, confessed participant in the \$2,000,000 robbery at the Jackson street postoffice, Jan. 14, 1921, who was released Tuesday on \$5,000 bond by Judge Charles A. Pippen, was rearrested today by Sheriff Harston. The arrest was made on the authority of Federal Judge Wilson, Scrivnor being under indictment both in state and federal courts. The sheriff said Scrivnor would be held until the conflict between the two courts had been straightened.

Two Hundred Thousand Dollars Sorrow

New Orleans Boxing Fans Take Fright Less Easily and Talk of Half Million Dollar Purse for Another Dempsey - Gibbons Bout.

NEW YORK, July 5.—The financial disaster that has attended the Dempsey-Gibbons fight in Montana probably has sounded the death knell for exorbitant purses for title matches, sporting circles here today are convinced.

A reaction from the promotion of expensive bouts and from high finance in the prize ring has been apparent for some time, and is said to have reached its climax in the financial catastrophe at Shelby yesterday, where approximately \$200,000 was paid by the promoters and backers of the bout to enrich the holder of the fight title, and they got no profit from the transaction.

NEW ORLEANS TALKS OF HALF-MILLION DOLLAR PURSE

NEW ORLEANS, July 5.—An offer of \$500,000 for a 20-round boxing bout between Dempsey and Gibbons in New Orleans next Thanksgiving day may be made by the Young Men's Gymnasium club, it was said here today. The suggestion was wired to Chairman Cooker of the Louisiana boxing commission, who went to Shelby to see the two men box on July 4.

DEMPSEY SAYS HE ADMIRES GIBBONS' ABILITY

GREAT FALLS, July 5.—Jack Dempsey was preparing today to leave Montana for a two-day vacation with his mother in Salt Lake City for relaxation after his period of hard training for his match with Tommy Gibbons in which he was given the decision on points after 15 rounds of fighting.

Dempsey expressed his admiration for Gibbons' ability as a boxer and credited him with having made a wonderful showing in the Independence day bout.

PORT ARTHUR WOULD BID FOR DEMPSEY-GIBBONS FIGHT

PORT ARTHUR, July 5.—The Port Arthur Chamber of Commerce will make a bid for the holding of the return fight between Jack Dempsey and Tom Gibbons for the heavyweight championship, the chamber president announced today.

LEAGUE CITY MAN SHOT NINE TIMES, PROBABLY FATALLY

GALVESTON, July 5.—J. R. Salmon, League City garage man, was shot nine times and probably fatally wounded while riding in an automobile near his garage this morning. He was taken to a hospital in Houston. No arrest has been reported.

GOOSE CREEK TROUBLE BRINGS MORE CHARGES

HOUSTON, July 5.—Seven more indictments, charging assault with pistols, were returned by the grand jury of Harris county today in connection with the investigation of whippings in Goose Creek.

By United Press

Celebration of the Fourth of July yesterday cost approximately 75 persons their lives and injuries to more than 600, chiefly children, according to figures obtained in a nation-wide survey conducted by the United Press. Of these deaths, 12 were caused directly by fireworks, 17 by drowning, 41 by automobile accidents and the others were miscellaneous.

At noon today reports were continuing to come in from isolated districts, indicating that the total number of deaths may run above 100. Fireworks caused injuries to 173 persons and automobile accidents to more than 154 persons.

RECOGNITION OF MEXICO MAY BE NEAR AT HAND

Dispute Over Confiscation of American Oil Properties In Way of Settlement.

By United Press

WASHINGTON, July 5.—American and Mexican commissioners, meeting in Mexico City, have reached an agreement in principle, to save the property of American oil companies in Mexico from confiscation.

This policy of Mexico, the confiscation of American oil properties, has been under fire since it was first adopted in 1917 and recently has become the chief difference between the two nations.

It was decided that an agreement would be immediately drawn up by the commissioners promising that the Mexican congress will definitely and finally enact a law providing that Article 27 is not to be retroactive and that during the period until this law is passed no retroactive interpretation shall be given to it.

Article 27 provides for ownership by the nation of all oil properties. It is believed that recognition to Mexico will be extended as soon as this settlement of the question has been definitely agreed to.

Senator Fess Shows No Fear of Foreigners' Frowns

Special to the Times

TOLEDO, Ohio, July 5.—That confiscation of liquor and arrest of parties concerned, regardless of the country from which they come, will follow continued violation of the prohibition law on the part of steamship companies operating from foreign lands, was the statement of Senator Simeon D. Fess at the convention of the Ohio State Christian Endeavor union. He said:

"If foreign governments permit their companies to openly violate the eighteenth amendment, pronounced constitutional by the federal court of the nation, as they have been since the 10th of June, this government not only will seize the illicit liquor and take possession, but it will arrest the companies, no matter under whose authority they bring it."

FOUR PERSONS BURNED TO DEATH IN PENNSYLVANIA

M'KEESPORT, Pa., July 5.—Four unidentified persons were burned to death and six injured, three seriously, in a fire that destroyed the Schmidt hotel here today. Two were women and two men. The fire started in the basement and spread rapidly, trapping many persons including numbers of women and children, on the top floor. Many had to jump and were saved by life nets; others were rescued by the police. The property loss was estimated at about \$35,000.

TWO BROTHERS SHOT AS SEQUEL TO ARGUMENT

LINCOLNTON, Ga., July 5.—Investigation was being made today into the shooting of Wayne and Frank Cullers, brothers, near here yesterday. The young men were returning home when they met a man with whom they engaged in an argument, the shooting following.

Negotiations for the purchase of the Republic Supply company building at Pine and Austin streets, to be used as a city hall building, were practically completed yesterday by the city commissioners. The abstract has been sent for and will be examined by City Attorney Milton T. Lyman. The purchase price, according to Mayor Hodges, is \$17,500. This is \$2,500 less than the original amount asked for by the Republic company's attorney and secretary, A. B. Judd, who has been in Ranger two days in connection with the transaction.

The police and fire departments and all of the administrative offices will be located on the first floor of the building, Mayor Hodges said.

All of the commissioners except Dr. C. O. Terrell, who is in Chicago, are firmly in accord with the proposition of acquiring the building, the mayor said. The building was examined late Wednesday morning by the commissioners and Judd. Tuesday evening, preceding the city commission meeting, Judd was closeted with the city commissioner relative to the proposed purchase of the building.

People Voted Bonds in 1920. The building will be paid for out of the city hall bonds voted at a general election in 1919 and which were to be used to erect a city hall. The building was never started and out of the \$30,000 bond issue, \$65,000 still remains, the balance having been automatically retired.

In addition to the purchase price of the building, alterations to be made to adapt the building to its new uses must be added to arrive at the total cost of the building. This is unknown at present.

The commissioners have not yet passed upon the interior building plans. City Engineer Seward will probably be detailed to this work. Occupancy is planned by Aug. 1.

The fire engine house on West Elm street, the property of the city, will be rented, Mayor Hodges said. Necessary repairs will be made.

The police department offices and jail, located on South Austin street, is on rented property.

Will Save City Rentals. The purchase of the building will represent a total saving in rentals of \$100 monthly. The rental on the building used by the police is \$25 monthly. Four rooms used by the city in the Marston building costs a total of \$75 monthly.

Through the new arrangement, the city will get a rental from the tenant of the present fire engine house and also the rental from the management of the Hazzard hotel, which is on the second floor of the Republic building. The hotel management is paying a monthly rental of \$100.

There will be no city, county and state taxes on the building, exemption being granted to buildings used for municipal purposes.

The lot is 115x66. The building covers the entire plot except for a narrow strip in the rear, which is used as an alley for loading and unloading purposes.

The Republic company came to and in 1919 erected the present brick Ranger early in the oil boom period structure at a cost, said to be between \$68,000 and \$72,000. The lot was bought for \$25,000. In addition sidewalks were put in around the building on two streets.

It is the intention of the company, which has offices in Houston, to retire from the Ranger oil field, R. G. Miller, the manager, said today. He said he would be transferred to the Breckenridge oil area.

DETERMINING CAB FARES IS A HAZARDOUS JOB

BERLIN, July 5.—Taxicab fares in Berlin are now seven thousand times the number of marks registered on the taximeters.

Taxicab drivers all carry printed tables showing the totals the multiple produces with various possible registrations on the indicator. Every time the multiple is changed there is endless confusion, and many disputes ensue which the police are often called upon to settle.

Clerks in shops are provided with similar tables. In every trade an agreement is arranged as to the multiple which will be used in computing the price of articles in depreciated paper marks, as against the gold mark price.

LIONS LICKING THEIR CHOPS IN ANTICIPATION

Whether Eastland or Ranger Den Be Fed Fresh Meat Tastes Good.

"We'll romp away with that game," J. E. Owens, secretary of the Eastland Lions club, told A. N. Larson, manager of the Ranger Lions club baseball team yesterday while he was giving the latter his lineup for the game here tomorrow afternoon at the city ball park.

Larson asked him where he got "that stuff." He pointed out that his team had been in three affairs and while victorious in only one game, the Eastland aggregation has yet to meet a team on the diamond.

"Better men," was Owen's defense of his sweeping statement.

"You'll have to show us," was Larson's final rejoinder.

Here is the Eastland Lions club lineup:
Kinaired, c; Nunnally, p; Jones, ss; Barnes, lb; Madden, 2b; Little, 2b; Poe, lf; Freyschlag, cf; Simmons, rf.

Manager Larson did not announce the Ranger lineup today. Either White or Galloway will start the game. The pitcher not starting will be held in reserve. So far the Lions have not had a relief pitcher on the bench.

K. C. Jones, who played baseball in fast circles some years ago, will be a new player for the Lions. He will be seen at shortstop.

Ranger Rotarians will root for the Eastland Lions, was the standing claim of Owens today over the telephone. The Ranger Rotarians lost to the Lions in May and if the Eastland advices are correct, it is assumed by the Lions that this is in retaliation for the defeat administered.

But how could the Ranger Rotarians root for the Eastland Lions when Rotarian Jones is playing with the Ranger Lions?

RANGER BOY SCOUTS NINE DIVIDES HONORS WITH PUTNAM JUNIORS

Ranger Boy Scouts defeated the Putnam Junior baseball team at the city park Tuesday evening. The game was featured by the errorless playing of both sides, according to the scorer. The final score was 2 to 1, it was announced.

R. Halley, playing shortstop for the scouts, made a sensational running catch in the seventh inning that saved the day. With three men on base, a Putnam player hit the ball for what looked like a safety. Halley made a hard run and scooped the ball up less than a foot from the ground.

This was the second game in the series. Putnam won the first game. The next contest is with Baird in Ranger on Saturday afternoon.

This is the scouts' lineup:
C. Cooper, c; Buster Mills, p; M. B. Taylor, lb; Harry Britton, 2b; R. L. Phillip, 3b; Roma Halley, ss; Glen Hawkins, lf; Philip Shis, cf; Henry Halley, rf.
Clyde Manning umpired the game.

Troop Movements For Texas National Guard Encampment

AUSTIN, July 5.—Troop movements for the various units of the Texas national guard infantry brigade which will hold its annual encampment here during the latter part of July at Camp Mabry under command of Major General John A. Hulen, of Houston, have been tentatively announced by local railroad officials of the Missouri, Kansas & Texas lines.

Movements already arranged are in general as follows: The Seventy-first infantry brigade will begin its embarkment for the camp July 15, 10 units to be assembled, beginning at Amarillo, the troop train picking up various other units on the route here.

Arrival at Camp Mabry of seven units of the 142nd infantry is scheduled at 5 a. m. July 16. Other units to report at that time include ambulance company of 111th medical corps, signal corps of the Thirty-sixth division and military police of this division.

On Aug. 2, Texas national guard organization consisting of the Seventy-second brigade, 111th engineers, including 20 units, will embark at various points over the state for Camp Mabry, arriving here at 5 p. m., Aug. 3, according to the railroad officials.

Troop movements for the sectional guard encampment at Camp Stanley, near San Antonio, were also announced. Troops of the Sixty-first field artillery began their movement for Camp Stanley today and were scheduled to reach San Antonio this morning. Thirteen units of artillery are scheduled to report at Camp Stanley for training under regular army officers and enlisted men of the artillery.

Regular army officers will also compose a large part of the instructors' staff at the infantry encampments here during the latter part of this month and the early weeks of August.

FORT WORTH HIGH TO IMPROVE CADET WORK

FORT WORTH, July 5.—High school cadets, in all probability will do more hepping than heretofore as a result of a recent meeting of the school board here. The board ruled that military training in the local high schools will not be "scrapped." And going further, the board decided to enlarge the war work, employing two additional instructors and encouraging enrollment in the course by allowing more credits toward graduation.

It was recently suggested that cadet work either be improved or abandoned. The American Legion posts here vigorously opposed discontinuance while the opposite stand was taken by the League of Women Voters.

CHAMPION COTTON CHOPPER ABOVE 3-SCORE AND 10 YEARS

GAINESVILLE, July 5.—The champion cotton chopper of the country is claimed by the Valley View section in the person of D. L. Dunn. Dunn is 92 years old—that is he will be next January—yet he wields a hoe with all the agility and aplomb of a man three score years younger than he is.

The aged chopper hoes more than an acre each day and is ready to take on all comers of his age in a marathon cotton chopping contest.

FORMER EMPEROR RELUCTANT TO PAY DUTCH TAXES

AMSTERDAM, July 5.—William Hohenzollern is quarreling with the Dutch over the payment of taxes. He is now engaged in a dispute with the municipal authorities of Doorn over the question of local assessments. The former German emperor refuses to pay, contending that the municipality is not entitled to its demand because he came to Holland under compulsion.

The Doorn city fathers maintain that he came there voluntarily, and have decided to enforce the law with retrospective effect.

FINGER PRINT EXPERTS TO HOLD ANNUAL CONVENTION

DES MOINES, July 5.—Expert criminologists from all parts of the United States will gather here Aug. 15 to 18 for the convention of the International Association for Identification, which includes in its membership from virtually all the police departments and penitentiaries in the country. The organization is international in scope, having on its membership list members from Scotland Yard and operatives from some of the largest detective agencies in Europe.

DEATH FOLLOWS SEIZURE OF SWIMMER BY CRAMP

HOUSTON, July 5.—One death, five injured and one attempted suicide was the toll of Independence Day celebration here yesterday. F. S. Cello, 15, was drowned while seized with cramp while swimming in deep water.

GANNA WALSKA SINGS WHILE HYPNOTIZED

Ganna Walska.

In the famous old Latin Quarter of Paris, where Svengali hypnotized the heroine of George du Maurier's "Trilby" to make her sing, Mme. Ganna Walska underwent a similar treatment on mental suggestion before she made her Paris debut in a charity rendition of "Rigoletto," in which she took the role of Gilda, in the Paris opera house. Auto-suggestion was urged by the hypnotist, though her actions on the stage were perfectly normal. Mme. Walska, who in private life is Mrs. Harold F. McCormick, wife of the Chicago multi-millionaire, was not favorably received by the audience.

FARMER-LABOR PARTY TO NAME CANDIDATES

CHICAGO, July 5.—A national convention of the National Federated Farmer-Labor party will be held in December or next January for the purpose of nominating a presidential candidate and other offices for the 1934 election, if the report of the organization committee is adopted by the delegates in session here.

CALIFORNIA OIL WELLS ARE BURNING FIERCELY

LONG BEACH, Cal., July 5.—Six wells of the Union Oil company are burning and the whole of Signal Hill is threatened by the spreading flames. Oil in storage tanks caught afire and soon became menacing. The Long Beach fire department responded and oil workers are assisting in fighting the flames.

NEW YORK NEGROES ALARMED FOR TUSKEGEE NEGROES

NEW YORK, July 5.—Declaring that the lives of R. R. Moton, president of Tuskegee institute, and a

negro United States army surgeon had been threatened by a masked mob, the Association for the Advancement of Colored People today wired President Harding to send federal troops to Tuskegee to protect their lives.

The communication is supposed to have originated from a parade of 700 Ku Klux Klansmen, who paraded the streets protesting the appointment of a negro surgeon to a government hospital. Spokesmen for the paraders said they opposed the placing of a negro employe at the hospital.

Employment of federal troops was said by officials at Washington to be very unlikely.

RANGER MAN GOES TO SEE FIRPO-WILLARD FIGHT

L. P. Uhrey, who is leaving Saturday for Pennsylvania to visit his folks, will attend the Firpo-Willard fight in Jersey City on July 12. Uhrey made arrangements today with a Ranger bank to secure seats at the ringside by a bank draft deposited with a Jersey City bank.

Uhrey said he expected to be gone about a month.

FRIDAY EVENTS

Twentieth Century club meets with Mrs. W. R. Lowe. Thursday Bridge will meet at 10 o'clock with Mrs. J. T. Gullahorn.

ROTARIANS ENJOY FOURTH OF JULY PICNIC

The Ranger Rotarians, their families and friends enjoyed a picnic Wednesday evening in a beautiful grove on the Bankhead highway. While the men were running races, playing leap frog and renewing their youth generally, the ladies prepared the supper, which was a bountiful and delicious repast. Ice cold water melons and brick ice cream were served in addition.

It was a jolly crowd, not too large to be sociable, although many friendly faces were missed from the membership. A number of children of the various families were along to enliven things and as the dark came on fireworks were set off for their amusement as well as for that of the grown-ups. The party broke up when it became too dark to see on the grounds without lights, everyone pronouncing it a most enjoyable way to celebrate Independence Day.

THURSDAY BRIDGE TO MEET ON FRIDAY

The Thursday Bridge club will meet Friday morning at 10 o'clock with Mrs. J. T. Gullahorn, the day being changed on account of the holiday being so near the regular meeting day.

DR. AND MRS. TERRELL ENTERTAIN RECREATION CLUB

Dr. and Mrs. S. D. Terrell delightfully entertained the Recreation club and a few guests with a "42" party on Tuesday evening. The house was beautifully decorated with the national colors. In the dining room where lunch was served during the evening, the table was especially attractive with red, white and blue streamers dropping from the ceiling to the four corners of the table. Garden flowers were used profusely in all the rooms. Tiny pin flags were used to pin the score cards on each guest.

Angel cake and devils food with red, white and blue brick cream were served at the conclusion of the games.

PERSONALS

Miss Nan Haden has returned from Fort Worth where she attended a house party at Lake Worth given by Miss Margaret Harrington of Plainview, and Miss Katherine Hill of Renner.

MRS. GOULD BRINGS HUSBAND'S BODY

Mrs. George J. Gould, Sr., second wife of the late multi-millionaire, who died in Nice, France, is shown on her arrival in New York with her children, Jane and George 3rd. She brought back the body of her husband for burial in this country.

Miss Marguerite Novakovich is visiting friends in Parks and Breckenridge.

Mrs. Novakovich and son, drove to Abilene Wednesday to attend the races, enjoying the trip and the events at Abilene very much.

W. L. Downing of Weatherford will be connected with the Boston Store in capacity of gents furnisher. He comes to Ranger well recommended.

TOWNFOLKS

John M. Gholson returned to Ranger yesterday after a three weeks stay in South Texas. He spent most of the time in the great outdoors.

Candidates for the presidency are never wanting in tooters.—Boston Transcript.

TWO FATAL ACCIDENTS OCCUR AT JACKSONVILLE

JACKSONVILLE, Texas, July 5.—W. R. Allen, 69, local agent for the Texas company was instantly killed here yesterday when he was struck by a bullet from a pistol in the hands of boys practicing in a ball park several hundred yards away.

Mrs. F. M. Inge, 39, was drowned in the Neches river yesterday afternoon while attending a picnic.

E. B. PERKINS HEADS TEXAS BAR ASSOCIATION

BEAUMONT, July 5.—E. B. Perkins of Dallas was elected president of the Texas Bar association at the closing session today.

ROLLING THE IVORIES SOMETIMES IS COSTLY

It was a quiet day in Ranger for the police on the Fourth of July. Five negroes, who slipped into the rear of a shoe shining parlor when business got dull to roll the ivories, couldn't restrain their joys and sorrows and as a result fell into the toils of the law.

Officer Jim Daniels escorted all five to the police station, where Chief O. V. Davenport acquainted them with the dire penalty of the law. Only one of the negroes had money to apply on the fines of \$20.70 each.

Realizing that if they couldn't raise the necessary amount, it would mean working the fine out on county roads, the negroes hustled about and got two Ranger men to "stand good" for them.

DEMPSEY GIVEN DECISION OVER TOMMY GIBBONS

Wins On Points Only, in 15-Round Battle with Much Lighter Fighter.

By Associated Press

SHELBY, Mont., July 5.—Jack Dempsey, world's heavyweight champion was awarded a 15-round decision over Tommy Gibbons. St. Paul challenger, late yesterday in one of the most surprising upsets in a heavy-weight match in years. Gibbons was on his feet, apparently very tired and holding on desperately when the 15-round battle ended.

The result was distinctly a surprise as Dempsey was an overwhelming favorite in the meager betting to win by a knockout within six or seven rounds. The game Gibbons astonished even his most ardent supporters by carrying the fight to the hard-hitting Dempsey in some rounds and out-boxing him in spots.

Dempsey outgassed Gibbons and landed the hardest punches, always trying desperately to whip over a knockout punch. When the battle ended, Gibbons was tired and rapidly fading from the cruel punishment Dempsey inflicted around the body. The challenger hung on constantly in the fifteenth round to avoid a knock-out punch.

A tabulation of newspaper experts at the ringside gave Gibbons a shade in the fifth, eleventh and thirteenth rounds, while Dempsey was out in front in the remaining 12. The result was evidently a surprise to Jack Kearns, manager of the champion, who stuck his head between the ropes after the fight and shouted to the newspaper correspondents at the ringside:

"It was a nice fight, wasn't it? Gibbons is a good man."

HOW THEY STAND

TEXAS LEAGUE.

Standing of the Teams.

Table with columns: Team, W, L, Pet. Fort Worth, Wichita Falls, Dallas, Houston, San Antonio, Galveston, Beaumont, Shreveport.

Yesterday's Results.

Dallas 15-11, Shreveport 5-2. Fort Worth 9-4, Wichita Falls 0-1. Beaumont 12-1, San Antonio 5-2. Beaumont 12-1, San Antonio 5-2. Houston 2-0, Galveston 1-1.

Today's Schedule.

Shreveport at Dallas. Galveston at Houston. Beaumont at San Antonio. Fort Worth at Wichita Falls.

AMERICAN LEAGUE.

Standing of the Teams.

Pittsburgh 7-6, St. Louis 5-1. Cincinnati 6-3, Chicago 3-6. Brooklyn 4-9, Boston 1-5. New York 7-5, Philadelphia 3-3.

Today's Schedule.

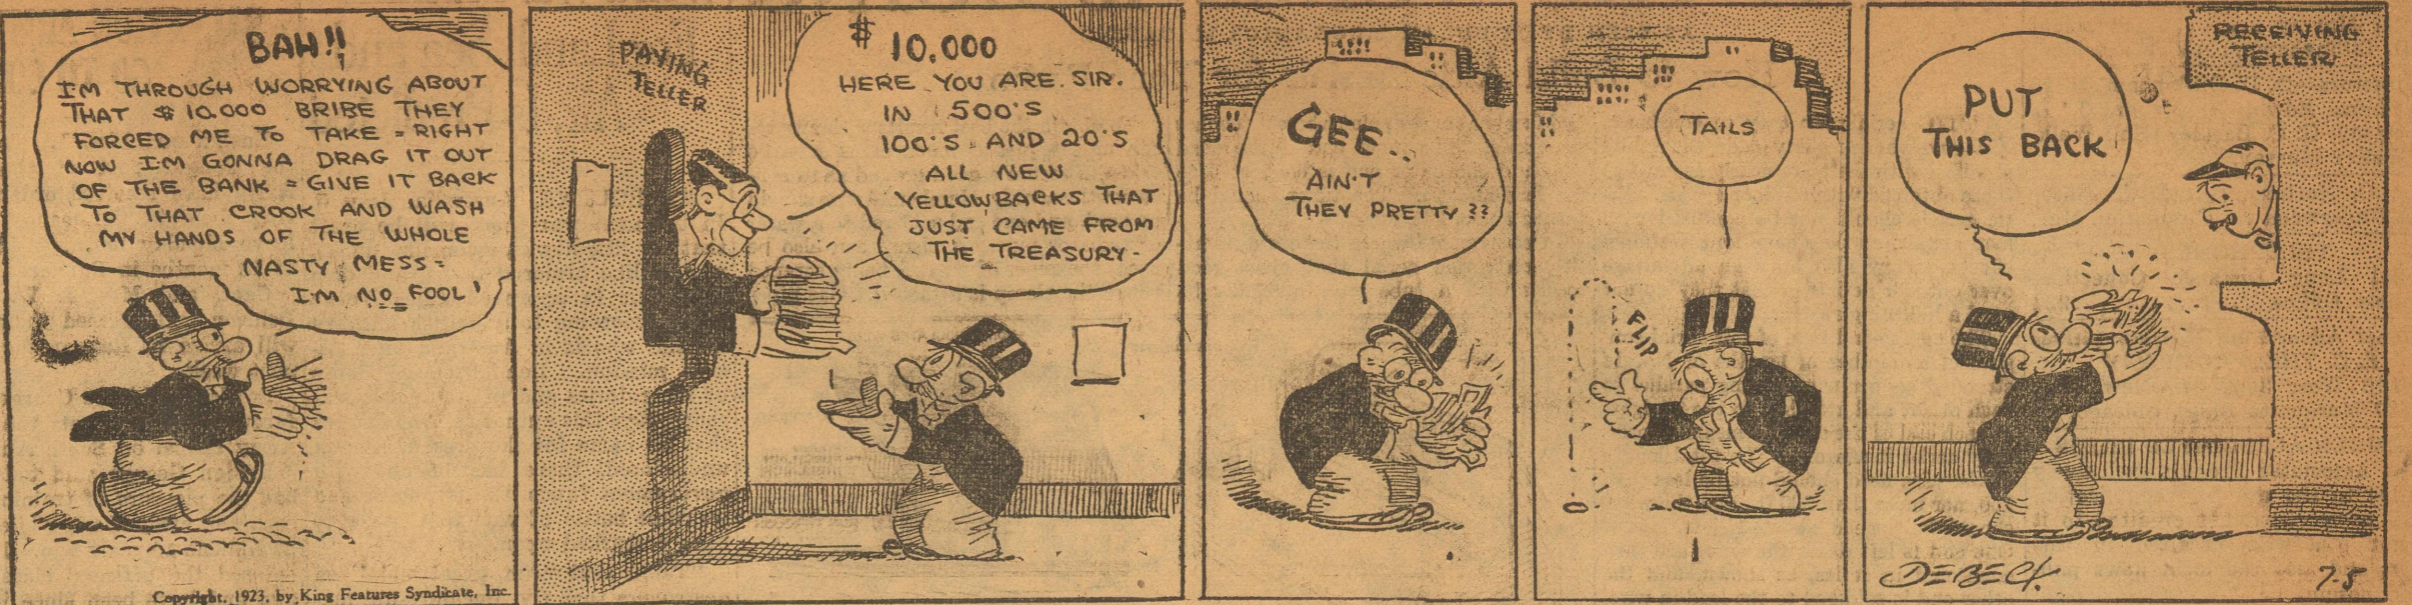

St. Louis at Philadelphia. One scheduled.

AMERICAN LIQUOR SHIP POLICY UNCHANGED.—MELLON

LONDON, July 4.—Andrew Mellon, American secretary of treasury, who arrived here last evening on the Majestic, told newspaper men that his government had no intention of relaxing its policy of seizing liquor on incoming steamers. He said there could be no change until congress met in December.

RANGER OUTHITS OLDEN BUT TOSSES GAME AWAY

Lack of Team Play Hurts Snappers in 16 to 8 Loss; Snapp Swats Pill.

Hitting the ball when hits meant runs, Olden ran away from the Ranger Snappers yesterday afternoon in the Fourth of July tilt and took the third game between the two teams. The last three innings of the game were, without a doubt, the poorest exhibition of baseball seen here this season. Olden ran up a total of 12 runs in those three innings and with four runs amassed earlier in the game, it gave the visitors 16 runs. The Snappers hit the ball in lively fashion also and got a total of eight runs.

The series between the two teams now stands two wins for the Snappers and one for Olden.

Snappers Deserved to Win. The Snappers deserved to win the game up until the seventh. In that frame Nugent walked two out of the first three men to face him, Fuller and Embree. Lemma took first on a bad play. Rosenberg batting for Ray, left fielder, lined the ball squarely over second and when the ball was recovered two men had already crossed the plate. Randall got one of those luck third base line hits (both sides shared in them) and Lemma came home. Hornbuckle flew to O'Keefe but Rosenberg taking advantage of the long fly made the home plate safely. Groves grounded to Stevens and the ball took a bad bounce out of Stevens glove and the runner was safe. Rainey fanned and the seventh was over. The four runs made put Olden ahead.

Nugent Taken Out. Manager Snapp removed Nugent in the eighth, after two errors, a single and a two-bagger resulted in one score and put two on base. Redus walked the first man to face him, filling the bases. A single by Randall scored Embree. Hornbuckle was walked, Groves got a two-bagger and more runs. Rainey took first on what should have been an easy out. Lanning flew to Cope and Fuller to Redus, retiring the side after six runs had been made. Olden made two more runs in the final frame, including a homer by Embree, who got three hits out of four times up, Redus walked him on one occasion. Snapp's hitting was easily the feature of the game. The popular manager garnered four hits out of five trips to the plate, including one homer, one three-bagger and two doubles. His three-bagger was good for a homer but his legs couldn't take him around all four bases. McCarty Strong at Bat. McCarty, the new second baseman, looked good as a hitter. He got a single, a double and a three-bagger out of four trips to the plate. He also stole a base while on. Copeland catching his first game for the Snappers cut off one run at the home plate in the fifth when Gibbons made a pretty throw from left field, cutting off Randall when Hornbuckle flew to Gibby. There was an unearned run in the third that Olden wouldn't have had if the bases had not been left unprotected.

JOE DUGAN IS TRYING TO STAR AT HOT CORNER

By PAUL R. MALLON, United Press Staff Correspondent.

NEW YORK, July 5.—Jumping Joe Dugan is out after the title of the best third baseman in the history of baseball. The fuss he is raising up at the Yankee stadium these hot afternoons approximates a riot. He is snagging blistering drives with a cool, calm glove, running down bunts like a keen-eyed deer, shooting them over to first base as fast as anyone ever did before and socking the ball for a snappy .280.

The New York sport writers claim he is better than Willie Kamm, who cost the White Sox \$100,000; Walter Lutzke, the \$35,000 star of the Cleveland Indians; the veteran Kid Foster, or the youthful Haney of the Tigers. There is no doubt that the old Athletic star is playing the best ball of his career and getting better every day. There is no doubt that he is the best fielder around the hot third corner.

His style of covering ground re-creates vision of Bill Bradley, the old Cleveland Blue star, and Collins of the Boston Bean Eaters. He kills many drives that would be hits if they were sent down to some of the other third basemen of the league. One thing that strengthens his claim to the title is the fact that McGraw has switched Frankie Frisch over to second base instead of letting him play at his old stand.

Ed Leader came to Yale last winter a total stranger and undertook the none-too-easy task of making a championship crew. The first thing he did was to sweep out the English system that had long been in use and show them how he rowed when he went to school out at University of Washington. They call it the "Leader system" now that his crew has defeated Pennsylvania, Columbia, Cornell, Princeton and Harvard. The new stroke which supplanted the English technique has its main feature in the apparent rigidity of the body with the power in the leg drive and the strong arm pull. There

BIBLE THOUGHT.
JUST BALANCES, JUST WEIGHTS.—Ye shall have no unrighteousness in judgment, in measure, in weight, or in measure. Just balances, just weights, a just ophah, and a just hin, shall ye have.—Leviticus 19:35, 36.

GREATEST THING NEGLECTED.
 For education in all kinds of schools the United States spends a thousand million dollars a year—less than \$10 per capita.

Since the foundation of our government the outlay for education has been only a little more than we spent in the one year and five months we were in the recent war.

We spend for tobacco twice as much as for education. For joy rides, pleasure resorts and races we spend thrice as much.

For cosmetics, three-fourths as much; for soft drinks and scented soaps, three-fourths as much; for jewelry, half as much.

Dr. Claxton, when commissioner of education, figured that our bill for luxuries was 22 times our bill for schooling.

The world has never seen another experiment in government comparable with our own.

Here tropic, semi-tropic, temperate and semi-arctic zones, inhabited by peoples gathered from everywhere, are developing a cosmopolitan civilization founded on self-rule.

Its cornerstone is power to think—a power developed by education.

We dare not skimp this fundamental process if "government of the people, by the people, for the people" is not to "perish from the earth."

The people cannot rule unless they are educated. The bureau of education should be made a federal department with a seat in the cabinet.—Fort Worth Record.

The militarists in China are not so military when it comes to defending China's honor against the aggression of her neighbors.—Boston Transcript.

Mr. Bryan is awakening a vast amount of interest in evolution that never would materialize but for him.—Cleveland Times-Commercial.

Henry Ford says he does not expect to be President, which seems to make it unanimous.—Indianapolis Star.

Trotzky says Russia is "ready to resume ties with U. S." but red ties are not worn here.—Wall Street Journal.

This is a heroic age. Just consider the courage required to dare a drink of moonshine.—Pittsburgh Gazette-Times.

The first thing a rum-runner is trained to be is a good shot.—Indianapolis News.

It is reported that Secretary Mellon will recommend to congress that it reduce taxes. The "Ayes" seem to have it.—Detroit News.

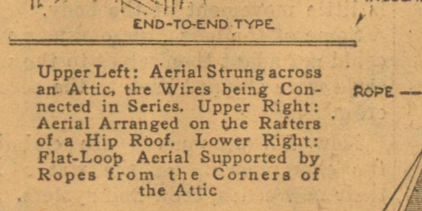

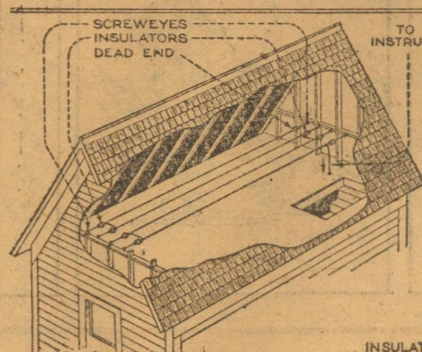

WHAT THE WORLD IS DOING

AS SEEN BY POPULAR MECHANICS MAGAZINE
How to Build Attic Aerials for Your Radio

ATTIC aerials are easy to construct, and when properly made, the results obtained with them are nearly as good as those obtained with outdoor aerials. Attic aerials should not be confused with loop aerials, as they have no directional effects. They also have an advantage over outdoor aerials in that they do not need a lightning switch.

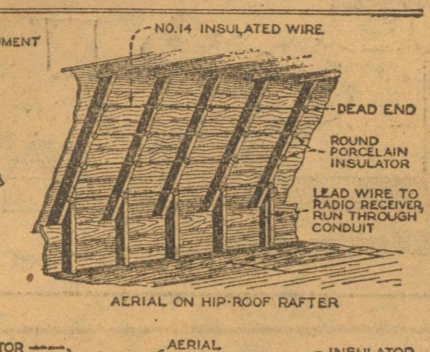

The end-to-end type of this aerial consists of a number of lengths of No. 14 stranded copper wire, strung parallel to each other, and attached to the uprights at each end of the attic by means of ordinary aerial insulators. The total length of the wire used should not be less than 150, nor more than 200 ft., and the wires should be spaced about 1 1/2 ft. apart. One end is left dead; the wires are then connected in series, as shown, and the other end is soldered to the lead-in wire, which is brought down to the instrument through a length of flexible loom.

In attics where less space is available, such as those with hip roofs, the aerial can be strung along the rafters, as shown in the upper right-hand drawing. One length of No. 14 wire, 150 to 200 ft. long, is strung in four parallel rows as indicated, the wire being attached to the rafters by means of round porcelain insulators, which can be purchased at any electrical-supply store. One end is left dead, and the other is connected to the lead-in wire, as before.

Upper Left: Aerial Strung across an Attic, the Wires being Connected in Series. Upper Right: Aerial Arranged on the Rafters of a Hip Roof. Lower Right: Flat-Loop Aerial Supported by Ropes from the Corners of the Attic.

To obtain the best results with any receiving set, just as much pains must be taken to secure a good ground as to construct the aerial. Number 14 wire should be used, and one end soldered to a water or radiator pipe. A clamp can also be used, the pipe, of course, being scraped where the clamp is attached. Gas pipes

made by running several turns of annunciator wire behind the picture molding, leaving one end of the wire dead, and bringing the attic from corner to corner, and are tied together at the point where they cross. The aerial wire is attached to the ropes, as shown in the drawing, being

Weird War Machine For Land, Sea and Air, Is Predicted

MELBOURNE, Australia, July 5.—In the next war there will be craft that fly like hawks, swim like ducks, waddle like armored tanks, and dive like seals in approved Jules Verne style, according to a British military official who is in Australia on a secret mission. Behind closed doors of laboratories and in secluded workshops, says this authority, who desires that his name for the present remain undisclosed, there has begun, with government funds, the strangest and weirdest battle of wits that has ever been embarked upon.

"Tanks that swim, great metal sea destroyers that fly, uncanny air machines which dive silently beneath the water to hide themselves," he says, "and crews who must learn to live and fight in three different elements (land, sea or air) are all necessities of the future." He states that Great Britain is building a great airplane which cleaves the surface of the water prior to taking wing and develops 3,000 horsepower, and is also constructing the largest flying boat in the world. This winged vessel is intended to go out with the fleet for long periods.

"The hull of this new flying monster," says the British army man, "when resting on the water will ride out rough seas. It will taxi along the water like a surface ship, or speed through the air. It is to have anchors, foghorns, riding lights, and all the equipment of the ordinary vessel of the sea, while its crew within the hull will eat and sleep on board just like the crew of an ordinary naval craft."

The new machine will fight like a tank on earth, will be a super-destroyer on water, and climb to give combat in the air, and when concealment is required it will fold its wings, seal its hull and dive like a submarine beneath the surface of the sea. Science is striving to make these craft both silent and invincible.

This well-known country is getting along so well that it is Europe that feels isolated.—Toledo Blade.

OWNERS OF AIREDALES ARE WARNED AGAINST USING THE CLIPPERS

NEW ORLEANS, July 5.—Vehement expostulations against the turning of Airedales into Irish terriers by the New Orleans citizens came from Dr. W. J. Ratigan, veterinarian at the municipal zoo. The burden of the veterinarian's complaint is that mistakenly compassionate owners of Airedales are having their dogs clipped, with the erroneous idea that such treatment will cause less suffering from heat during the summer months.

It isn't so, says Dr. Ratigan, for the Airedale differs from other dogs in that has two coats of hair instead of one. The outside coat is of wiry texture while the inner one is soft and downy. Steel clippers perceiving no distinction, shear away the soft lower coat as well as the upper one, and, according to the veterinarian, rob the Airedale of its position as a rare specimen and transform it into oversized Irish terrier, for when the lower coat is clipped the distinguishing black saddle of the breed grows back as a pale yellow or white.

Dr. Ratigan warns Airedale owners that their dogs should be plucked like a goose instead of clipped. The plucking removes the outer wiry hair and preserves the inner coat of distinguishing down. The veterinarian neglected to say how many muzzles would be required to hold the Airedale's jaws during the plucking process.

SOCKS SHOW STRENGTH.

BRECKENRIDGE, July 5.—The original pair of "strong" socks were displayed in the window of C. H. Grollman's store here. To prove how strong the stockings were, a 65-pound rock dangled from the toe of one of the "garments."

The display was made during a sale of women's hosiery.

BEFRIENDED MAN MAKES VICIOUS RETURN FOR AID

SANTA ANNA, Texas, July 5.—Wronged by the man he befriended, C. A. Woods of Placencia is willing to forgive his wife if she will return home with their two children, he declared in a petition filed in superior court.

Some time ago, Woods befriended a man who was hungry and without shelter by taking him into his home. Within a few weeks, Woods declares, that man disappeared with his wife.

Woods asserts he does not want a divorce but he is afraid his wife may seek possession of the children. This possibility induced him to appeal to the court.

PORT ARTHUR.—More than 50 men here entered the whisker growing contest which will be the feature of the Fourth of July centennial celebration here. Each contestant was required to deposit \$10 with the contest committee as proof that he would not shave his whiskers before July 4. Cash prizes will be offered to the winners.

STUDEBAKER

PLANT No. 2 South Bend, Indiana The Light-Six Plant

PLANT No. 1—South Bend, Ind. Open and Closed Bodies, Springs, Windshields, etc. For all models.

(Plants 3, 4, and 5, Detroit, where the Big-Six, the Special-Six and Service Parts are made, are not shown in this illustration.)

The Studebaker Light-Six

was designed by Studebaker engineers and is manufactured complete in the NEW STUDEBAKER PLANTS AT SOUTH BEND, IND., which are notable in design, size and equipment for efficient and economical manufacture.

The South Bend Plants contain 4,875,000 square feet of floor space.

They employ 12,000 persons.

They cost \$33,250,000.

The South Bend Forge Plant cost \$4,000,000, which alone is more than the total assets of many automobile companies.

And then there are:

- The machine shops which cost \$7,000,000.
- The stamping plant which cost \$4,000,000.
- The new foundries which will cost \$2,000,000.
- The power plants which cost \$2,500,000.

The assembly and stock plants which cost \$5,000,000, as well as closed and open body plants, spring shops, etc.

Studebaker plants, in cost and size, are the second largest of the world's automobile plants.

Studebaker is the second strongest financially of the automobile manufacturers of the world.

These facts show why it is possible for Studebaker to produce the Light-Six—a truly remarkable car—and sell it for less than a thousand dollars.

In actual car value per dollar of price the Light-Six is in a class by itself. No prospective buyer of an automobile should decide on anything until he has seen and driven this car.

It is backed by a corporation with \$35,000,000 of actual net assets and a 71-year reputation for honest product and fair dealing.

Vast Resources Make Possible High Value at Low Price in Studebaker Light-Six

Studebaker's vast resources are utilized to manufacture (not assemble) the Light-Six complete in the newest and most modern large automobile plants in the world.

The Corporation's resources, consisting of \$85,000,000 of actual net assets, including \$45,000,000 of plants, make it possible for Studebaker to offer a six-cylinder car, at less than \$1,000, that is emphatically superior in design, construction, performance, comfort and dependability, to any car within hundreds of dollars of its price.

By complete manufacture, Studebaker not only guards the quality of each part, but saves the middlemen's profits, with the result that no other make of car ever built, by anyone, at any price, represents so great a dollar-for-dollar value as the Light-Six.

Evidence of its mechanical superiority is found in its practical freedom from vibration. This is accomplished by the perfect balance of the motor. Perfect balance is obtained largely through the complete machining of all surfaces of the crankshaft and connecting rods. This requires 61 precision operations.

This method is followed exclusively by Studebaker on cars at this price. In fact, very few other cars have this feature, and their prices are from three to ten times as great as that of the Light-Six.

It is significant, therefore, that the sale of more than 80,000 Studebaker cars during the first six months of this year broke all records.

Buyers are justified in expecting more for their money in a Studebaker than in any other car.

THIS IS A STUDEBAKER YEAR

ENSIGN GEORGE OF SALVATION ARMY WILL GO TO CORSICANA

Ensign and Mrs. W. T. George of the Ranger post of the Salvation Army have received orders transferring them to Corsicana. They will leave Monday morning after a stay of 18 months in Ranger.

Capt. and Mrs. J. W. Batson of Denison will succeed them here and will arrive in Ranger the middle of next week.

Sunday night the Georges will hold farewell services at the Salvation Army chapel on South Austin street.

Ensign George said today that he had the pleasure of training the Batsons for army work while stationed at Abilene 16 years ago. The Batsons entered the officers' class six years ago and have been since in Sherman and Denison.

Speaking of his stay here in Ranger, he said he would always remember the "host of friends" made here, and that his stay here was a pleasant one.

Old World shouldn't think it has all the mysteries. Haven't we got the boll weevil?—St. Louis Globe-Democrat.

Child-birth

Here is a wonderful message to all expectant mothers!

When the Little One arrives, you will have that moment more free from pain than you have ever known before. It was he who produced the great remedy "Mother's Friend" Dr. C. J. Hartman, Scranton, Pa., says:

"With my first two children I had a doctor and a nurse and then they had to use instruments, but with my last two children I used other's Friend and had only a nurse; we had no time to get a doctor because I wasn't very sick—only about ten or fifteen minutes." Use "Mother's Friend" as our other grandmothers did. Don't wait, start today, and meanwhile write to Bradford Regulator Co., P. O. 48, Atlanta, Ga., for a free illustrated book, containing information every expectant mother should have. "Mother's Friend" is sold by all drug stores—everywhere.

The glasses grand-father wore

The Glass of fashion

Iron-bound lenses of William Penn's iron-bound viewpoint

When brass bound the glass of fashion, in the days of Ben Franklin

Here lies Salvino degli Amati, inventor of spectacles; May God pardon his sins. (Epitaph on tomb in Florence, 1317 A. D.)

SALVINO DEGLI AMATI, Florentine monk and inventor of spectacles, discovered the freedom of the sea. The writer of his epitaph considered that he had much to answer for.

But there is little doubt that the freedom of the sea is more important to the peace of the world than the freedom of the seas. Old Salvino put a burden on the nose of humanity, but liberated its eyes.

When he studied the laws of refraction and ground his lenses, he little imagined that he was affecting the styles of women's dresses in 1323.

But he was, "What shall I wear with my glasses?" is a live question of the hour.

The style producers have discovered that glasses tend to give to the wearer an appearance of dignity. Perhaps it is the association of spectacles school ma'ams and masters.

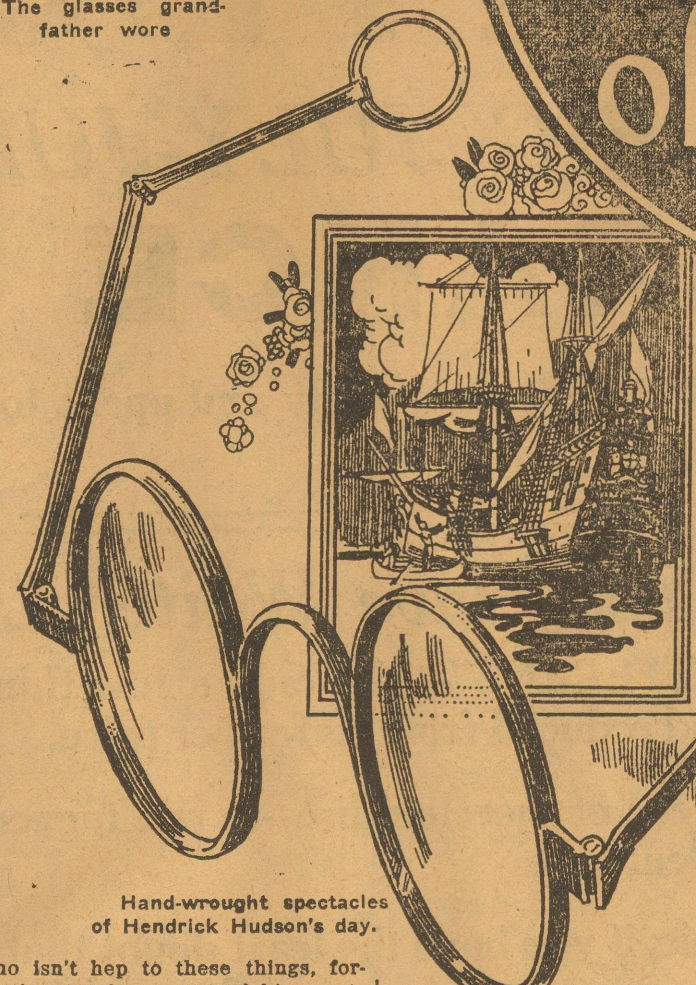

At any rate, eye glasses are tied up with the idea of dignity. And a general appearance of dignity calls for dignified clothing.

Outfitting the Eyes
"Oh, but no, Madame!" Mademoiselle Modiste exclaims, as her prospective patron casts a speculative eye on a fluffy ruffled garment. "It is not suitable. It does not express the poise, the personality of Madame. Now something like this—" And she skillfully directs the spectacled attention of Madame toward a costume of simple, flowing lines. It is well.

Salvino Degli Amati, a monk in old Florence, started it all in the year 1285. May God pardon his sins!

We have glasses for formal dinners, afternoon tea glasses, business and shopping glasses, and heavy-duty glasses for rough sports wear.

Imagine the faux pas of father,

Hand-wrought spectacles of Hendrick Hudson's day

who isn't hep to these things, forgetting to change out of his sports glasses when he puts on his dinner coat. What a humiliation to mummy and the girls!

The Glass of Fashion must now wear the glasses of fashion.

Moreover, a careless blond can easily wreck his social future by allowing an unscrupulous salesman to unload a pair of brunette glasses on him. The sight of glasses is no less important than the sight through them.

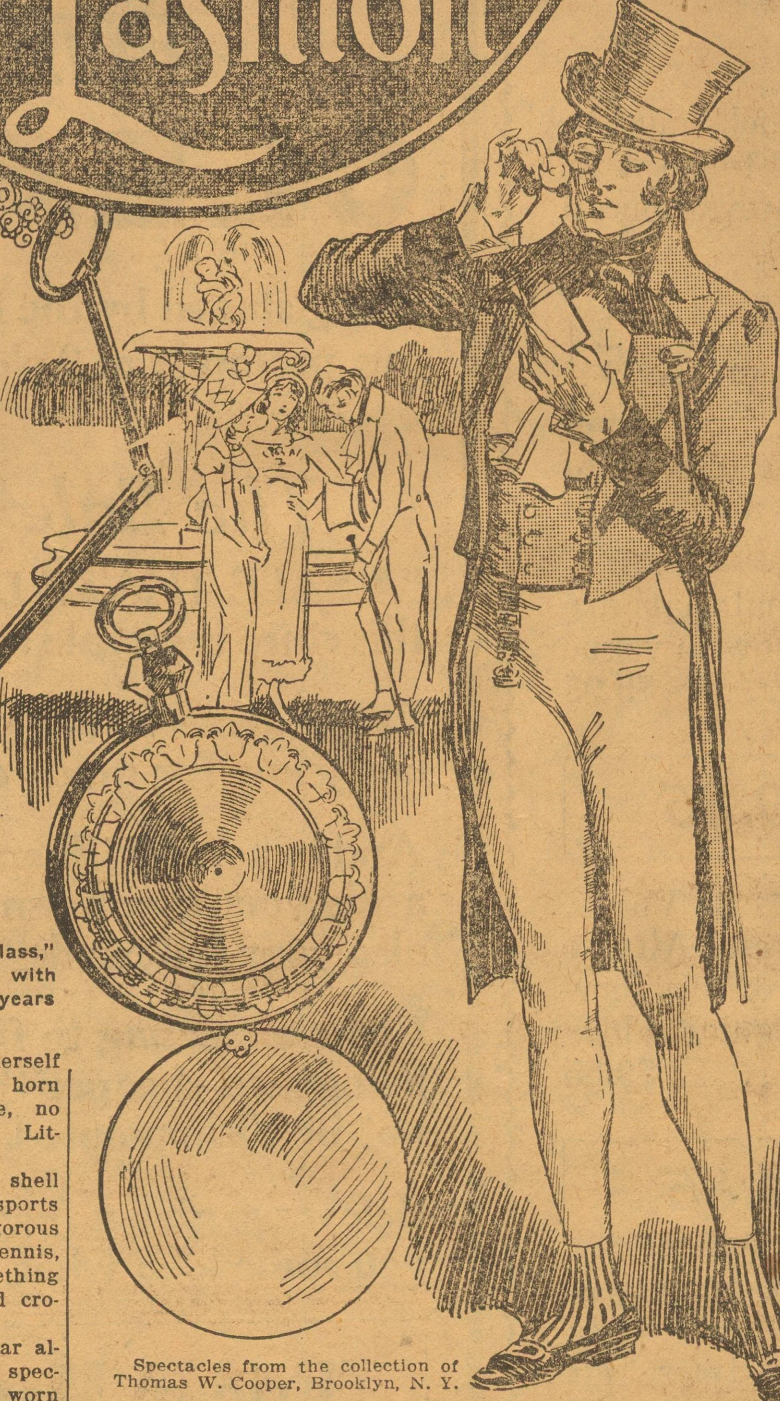

Spectacular Reducing
If you are one of those chubby, round faced persons, don't in a fit of stubbornness or mental aberration have yourself fitted with a pair of rimless glasses, or glasses with light rims. They widen the appearance of the face. They are just the ticket for the long, lean, lantern-jawed boys. An underweight stripling can easily put on ten pounds by removing his rims. Inversely, one of the most convenient methods for a—ah—plump

lady to reduce is to have herself outfitted with a pair of heavy horn rims. No diet, no exercise, no sweating in Turkish baths. Little helps to the hefty!

Spectacles with heavy shell frames are the thing for sports wear—that is, active, vigorous sports such as bowling, golf, tennis, riding or motoring. Something lighter will do for bridge and crocheting.

Semi-dress and business wear allow more latitude. Either spectacles or eye glasses may be worn—spectacles are the ones with hooks. Rimless eye glasses with yellow gold mounting, eye glasses with a very thin shell frame, rimless spectacles with yellow gold mounting or thin shell frame—all

The dainty "quiz glass," intimately associated with the fopperies of 200 years ago.

Spectacles from the collection of Thomas W. Cooper, Brooklyn, N. Y.

are recommended by the sight arbiters as being decidedly chic. Good usage has prescribed rimless eye-glasses with white gold

mounting as the only correct outfit for the soup and fish, or its feminine equivalent. This applies for all select entertainments where

food is the compelling motive, and for the dance and opera. Lorgnettes are also very good for listening to the opera.

A Backward Glance
None of this is remarkably new. Styles have changed, but since the time of Salvino himself there have always been styles. Two hundred years ago the nobles of France and England indulged their eyesight with an exceedingly dainty little lens, which they called a quiz glass. The name is pertinent. The little glass itself, mounted in its beautifully chased gold frame, something like a watch, indeed hath a quizzical look. One can picture flounced, brocaded, and powdered ladies of the Court training it with telling effect. The lorgnette is its granddaughter, and the monocle, so natty with stick and spats, aw, rully—its grandson.

These sporting glasses—the great, roistering fellows with heavy horn frames—are a direct importation from China, but not the China of today. The same China which supplied the world with gunpowder and the compass. The creative China of the middle centuries. A great many scholars credit China and not Salvino, the Monk, with the invention of spectacles.

Suiting Sight to Circumstance
The Chinese ground their first lenses out of solid blocks of topaz, and the greater the man the larger his spectacles. The Chinese still wear horn rimmed spectacles, for they buy them in America, for this far-sighted young country dominates the eye glass market, as it does a number of others.

Horn and leather goggles were popular in Europe in the Seven-

teenth Century, the leather frames being particularly convenient for horsemen. Aviator's goggles are a harking back to the general principles of the leather frame goggles.

When Henry Hudson sailed past the wooded tip of Manhattan Island scholarly members of his crew looked up the Indian trail which was to become Broadway through spectacles with crude iron frames chiseled from solid metal by hand. There was a joint in the long ear pieces just back of the ears and an extension which folded around the back of the head. This clinging type had great favor during that hectic period in history. The kick of a blunderbuss fired at a reconnoitering Indian would probably unseat the type of glasses now recommended for select evening wear.

Freedom Restricted
William Penn wore heavy iron frames, like Hudson's, with the exception that the extension ear piece was a sliding arrangement instead of hinged. Ben Franklin's frames were brass and of better workmanship than Penn's. Incidentally the good Ben, always a scientist, invented double focus lenses, thereby giving him a second look at his surroundings. He liked to make friends with his environment and even struck up a valuable acquaintance with lightning.

Abraham Lincoln put on a pair of octagonal-framed spectacles before signing the Emancipation Proclamation. They were better to look through than at.

So even the freedom of the sea has always had its restrictions if one desired to be—and wear—the Glass of Fashion.

MEXICO SOON WILL BE WEIGHING IN THE BALANCE CANDIDATES FOR PRESIDENT TO SUCCEED OBREGON

CHIHUAHUA, Mexico, July 4.—The presidential succession in Mexico which will be decided in a general election in August, 1924, is attracting great attention already in all parts of the Republic. Under the terms of his acceptance of the presidential nomination in 1920—"No Re-election"—President Obregon will not be a candidate.

Discussion of probable candidates fills the columns of the newspapers, and is a leading topic of conversation in all circles.

As yet there are no openly avowed aspirants, although a number are mentioned.

Certain elements in the labor world have proposed the nomination of General Plutarco Elias Calles, secretary of the interior and prime minister in the Obregon government but, as yet, the general has not signified his acceptance. At present he is in San Francisco under medical treatment.

Castro Asks Selection. Recently, General Jose Castro, gov-

ernor of the state of Durango, sent a circular letter to all state governors throughout Mexico, and to many other prominent supporters of the revolution of 1920, which put Obregon into the presidency.

This letter suggests a conference in the federal capital to consider the presidential succession, and agree upon a candidate now, rather than wait until a number had been announced, thereby making a division among the supporters of the revolution, by getting them committed to various candidates. This, he said, would leave an opening for reactionary elements to unite on a candidate and slip him into the presidency.

The Castro circular letter has started a veritable storm among leaders in the revolutionary party in 1920 most of whom deplore any agitation of the succession question at this time.

De La Huerta Objects. Secretary of the Treasury Don Adolfo de la Huerta, who, as governor of Sonora, precipitated the revolution of 1920 and was provisional president

SAVING LARGEST TYPE FOR JUDGMENT DAY
A certain city editor of a Kansas newspaper desired to turn the spotlight of fame upon himself. To do so, he decided to emulate the policies of those well-known journals which are designated as "yellow." He waited until the time was ripe. One day a murder occurred in Kansas City which attracted a great deal of attention. It gave him his chance. He called in a carpenter to make him extra large headlines—nothing smaller than a foot. Bubbling over with exultation, he took them up to the managing editor, expecting not only his O. K. but an enthusiastic word of commendation. The managing editor

looked at them and nodded. "Yes," he said; "marvelous, my dear fellow. Most striking. But," he went on, "I had rather hoped to keep these for the second coming of the Lord."—From Everybody's Magazine for July.

TWO WILDCATS.
Two hunters in the North Carolina woods had chased a wildcat to a clearing, and were terrified to see the beast jump through the window of a cabin from which the sound of a woman's voice had just been heard. On the porch, rocking comfortably and apparently unperturbed, sat Friend Husband.

"For heaven's sake, is your wife in there?" cried one of the horrified hunters.

"Yeah."

"Good Lord, man, get busy! A wildcat just jumped in the window!"

"Yeah? Well, let him git out the best way he can. I got no use for the pesky critters, and danged if I'm going to help him."—From Everybody's Magazine for July.

SHORT-LIVED HAPPINESS.
KANSAS CITY, June 30.—Mrs. Mabel Odam was married on Thursday; her husband failed to return home on Friday and she spent the day without food or companionship; on Saturday she caused his arrest on a non-support charge.

DALLAS.—Extensions of lines by the Lone Star Gas company and by local companies in cities of North Texas that are supplied by the Lone Star are being made this summer with a view to assuring gas supplies for all the territory the coming winter.

ABLENE.—A series of open house events in the several cities served by the West Texas Utilities company will have resulted in every customer of that company in more than thirty communities having been a guest of the company during this year.

Building of the Capitol at Washington, D. C. was begun 131 years ago.

THE PAID CIRCULATION OF THE RANGER DAILY TIMES
Going Into the Homes by Carrier is the Largest in the History of the Paper

When an advertiser buys newspaper space he is buying circulation. Home circulation is the kind of circulation that pays the advertiser. The total net paid circulation of the Ranger Daily Times is the largest of any paper published in Eastland County. The per cent coverage is very high, reaching as it does practically every worth while family in the Ranger territory.

More Than 75 Per Cent of The Times Circulation is Home Delivery

It is an acknowledged fact that the Times commands a reader interest second to no other paper.

The Times regards itself as a vital part of the community. In its news and editorial pages it seeks to serve solely and unselfishly the interests of the community.

PROGRESSIVE, AGGRESSIVE AND ABSOLUTELY INDEPENDENT IN ALL ALLIANCES

Read This Bible

To encourage such an end, leading newspapers throughout this country have joined forces to promote the distribution of the great Book of Books, and have adopted a plan that should readily place the Bible in the hands of every reader. Two exclusive editions have been chosen for this purpose—first, the famous large print Red Letter Bible, illustrated above, and a beautiful plain print, medium large type edition that will be distributed for a nominal sum.

RANGER DAILY TIMES Big Offer to Its Readers

STYLE A—The large print, large size, Red Letter Edition, \$1.98 as illustrated, three coupons and only

STYLE B—The medium large print Edition, with all the Bible helps, flexible binding, round corners, printed elsewhere, three coupons 98c and only
