**AN END TO WORRY.**—Be careful for nothing; but in everything by prayer and supplication with thanksgiving let your requests be made known unto God. And the peace of God, which passeth all understanding, shall keep your hearts and minds through Christ Jesus.—Philippians 4:6, 7.

**WHERE SUCCESS IS FOUND.**

"The sweetest grass is on the other side of the fence; the prettiest girls are over in the other village; the best farm land is in some other community; the only chance the farm boy has is to go to the city, and the only hope for the city man to get ahead is to go on the farm." This is the belief of many people says The Farm Journal.

"Where is the best country in the whole world? Where are opportunities to get ahead the greatest? Where are conditions just right to successful farming and happy living? Where should the young man go in order to make the greatest success? The answer is easy and quickly told; he shouldn't go at all. The best opportunities, and the best people in the world are right at home.

"The best section of the country is the one where you reside at this moment. It has taken you half a lifetime to make your many friends and establish your reputation for honest dealing. Your neighbors are the ones you grew up with and one old friend and neighbor is worth a multitude of strangers. The loneliest place in the whole world is in a crowd where you are unknown. Heart-breaking loneliness abides in the great city and never in the country. The best land is the land you are familiar with. The best methods of farming are those you grew up with. Eastern methods will surely fail in the West; northern methods are failures in the South and vice versa.

"Opportunities are all around you; success awaits you right at home and not at the end of the rainbow."—Farm Journal.

**MRS. LACKLAND LIVES NINETY YEARS IN TEXAS AND UNDER FOUR FLAGS**

Mrs. S. M. Lackland of Waco, the mother of Sydney C. Lackland of Ranger, now 91 years of age, has lived under four flags. She was born in Alabama in 1832, under the Stars and Stripes, and became a resident of Texas, under the Mexican flag, in 1838, when her parents moved to this state and settled in Montgomery, near the present site of the town of Montgomery. There she grew to young womanhood, married and moved to San Antonio during which period the state had gone successively under the Lone Star flag of the republic of Texas, under the flag of the United States, then under the Confederate flag, then back to Old Glory. Her first husband dying, she married again and moved to Waxahachie, where she spent the larger part of her life with Texas as a state of the union and under the flag of the United States.

Mrs. Lackland was a first cousin of Sam Houston and he was often at her father's house. After the death of Mr. Lackland she moved to Waco, where she expects to live yet many years.

**TEXAS LEAGUE ALL-STARS WILL NOT COME HERE**

Because the Thurber baseball management would not enter into a proposal of the Ranger club to make an All-Star team to meet the Texas League All-Stars here in Ranger next week, J. C. Smith, who has been active in an attempt to bring the team here, headed by Jim Galloway of the San Antonio Bears, said the proposed series has been abandoned.

**IF OIL CAN SLIPS, SOLDER ON TWO METAL CLIPS**

When using the ordinary type of oil can, the outside surface of the can offers a very insecure hold when the hand are greasy. In case the can should leap from the owner's hand, the spout is often seriously damaged. By soldering two metal clips on the top of the can for the fingers to catch, this difficulty can be overcome.—Automobile Digest.

**Cattle Thieving In Eastland County Is Reported Increased**

"Cattle thieving is on the increase in Eastland county," County Attorney W. J. Barnes told a representative of the Times Saturday. He declared that one cattle owner came to him last week, telling of the disappearance of 30 cattle, another one of the loss of seven head, and numbers of others, of thefts of two, three and four head.

"The thieves are taking the fat cattle," he said "It seems evident then that they are taken for slaughter. I have issued warnings that all of those in that business must register with the county clerk. This is required by the state statute.

"They must keep a record of all their cattle taken to slaughter. Also a piece of the hide to identify the cattle."

Barnes said that there is cattle thieving going on at all times, but now that more complaints are being received, he intends to see that all provisions of the state laws on identification of cattle are observed.

**STORY BEYOND BELIEF EXCEPT FROM CHICAGO**  
 CHICAGO, Sept. 15.—"Where are you going with that barrel of beer?" policemen asked Andrew Grom as he drove through Irving park with a large keg on his wagon. "To my saloon," declared Andrew. "I've just been to the brewery." "Don't you know anything about prohibition?" asked the policeman. "No," came the reply that astonished the officers. Then they broke the news to him.

**J. C. SMITH COMMENTS ON SPLENDID SUCCESS OF CLEARANCE SALE**

That the Ranger trade territory is as strong as it ever was in the past was the deduction of J. C. Smith, proprietor of the J. C. Smith store, late Saturday night in commenting upon the first day's results of a clearance sale held by him.

"The sale was as good as any I've had," he said. "It surprised me. It rained and the day was threatening, but in all my five years in business in Ranger, no sale ever exceeded the success of the present one."

The season's initial meeting of the 1920 club will take place Thursday afternoon with a reception from 4 to 6 o'clock at the home of Mrs. M. H. Hagaman, retiring president. No formal invitations have been sent out, but an invitation is extended through the Times to the entire membership of the New Era, Symphony, Child Welfare and Delphian clubs.

There will be a musical program and other entertainment features of interest.

**TIFFIN PARENT-TEACHERS CLUB TO MEET THURSDAY.**

The members of the Parent-Teachers' club of Tiffin will meet next Thursday afternoon at 3:30 o'clock at the Tiffin schoolhouse. Every member is expected to be present to take part in starting of the work for 1923-24.

**MISSIONARY CONFERENCE AT METHODIST CHURCH.**

The Cisco district of the Methodist church will have a conference of missionary workers here on Tuesday. It will be an all-day meeting and will be addressed by Mrs. J. S. Stewart and other officers of this conference, Mrs. Hall of Weatherford and Mrs. Severbaugh of Cisco.

**CLUB SEASON WILL BEGIN THIS WEEK.**

With the opening reception of the 1920 club at the home of Mrs. Hagaman on Thursday, the Ranger club season may be said to formally begin. This event will be followed by the first meeting of the Delphian club at the Gholson hotel on Thursday, Sept. 27. The New Era club, which is to study Southern literature this year, will meet on the first Wednesday in October. The first study meeting of the 1920 club, which is to delve into psychology during the present season, will be held the first Thursday in October.

The Symphony club, will meet the second Tuesday in October, and will then evolve plans for the winter.

Invitations have been extended to the district officers of the State Federation of Women's clubs, Mrs. Wm. Reagan of Cisco, president; Mrs. S. Kelly of Cisco, secretary, and Mrs. Broadus of Colorado City, second vice president. Mrs. Hagaman is first vice president.

**ALATHEAN CLASS MEMBERS**

The Alathean class of the Central Baptist church entertained Thursday evening in the parlors of the church with a social, honoring Mrs. H. V. Cole, who has been the popular president of this class of young matrons since its organization last March.

The husbands were also invited, making an exceedingly merry group as informal games were engaged in until a late hour. Two little boys knocked on the door and were admitted with the statement, "We have brought Mrs. Cole's washing."

A large sheet filled with lovely gifts was looked into with interest and Mrs. Cole made gracious remarks about the class, and her deep appreciation for their courtesy.

The class has grown from an enrollment of eight to 65. The parlors were decorated beautifully in the class colors, rose and white, hanging baskets of ferns and flowers also adding to the attractiveness.

Plates of cherry pie a la mode and coffee were served. About 70 were in attendance.

The Coles are to leave soon for their new home in California. They will be greatly missed, especially in their church circles where they have been so active and useful. The keenest regret is felt by their many friends because they are going.

**ST. RITA'S ALTAR SOCIETY MEETS WEEKLY.**

Weekly meetings of St. Rita's Altar society are now being held, the hostesses for last week being Mrs. Edward R. Maher and Mrs. Anna Barman, who entertained at the home of Mrs. Maher. **ROTARY CLUB INVITES ALL TO THEIR DANCE.**

The Ranger Rotarians have extended an invitation to the people of

Ranger and others in Eastland county to attend their dance next Tuesday night in the Gholson hotel. Tickets will be on sale at all the drug stores tomorrow, it is stated. Each Rotarian is expected to buy a ticket, whether he dances or not, and if he is opposed to dancing he need not attend; others who wish to dance are invited to buy tickets.

Gus Coleman, president of the Ranger Rotarians, announced at the luncheon last week that it would be a very enjoyable affair. This he promised along with good music. The Coleman orchestra will play for the dancers. All money taken in will be used to buy equipment for the medical and dental examination rooms in the high school.

### MAIN DRAG STUFF

**Comments on Boxing Bouts in New York and Ranger With Explanation for Failure of Two Principals to Appear Why White Paint Is Applied to Curbings.**

Jack Dempsey knocked the "bull from the pampas" down five times and out once in the second round. Does that make Jack a teardrop or cowboy, or is he still the same old bull thrower.

The crowd, as a whole, was very well pleased with the bouts at the Majestic Friday night. Several, however, expressed disappointment at not witnessing the promised bout between Carl (Whipper) Snapp and Walter (Nutmacker) West.

The "Nutmacker" stated after the fight that he had been too hasty in accepting "Whipper's" challenge and no stakes had been agreed upon. Snapp returned from Abilene late yesterday afternoon and it was agreed between him and the "Nutmacker" that the "Nutmacker" would enter the ring for a half interest in Chestnut & Smith Corp., win, lose or draw. West stated that he believed he was as good as Dempsey and entitled to this purse and Snapp backed him up in his belief.

Unfortunately it was impossible to get the officials of Chestnut & Smith together at such a short notice to sign the necessary papers and consequently the fight was not staged.

Happy Shertz, official referee for the evening, held a whispered conversation with one of the challengers from Dublin. Some one, thinking it was an answer to the challenge, asked Happy what his favorite flowers were.

Later, at a private interview, Happy said he liked roses but only wanted four and wouldn't care to have them after he was dead.

Also Referee Schertz announced a coming bout between Hymie Fair and Abe Davis to take place the second Tuesday of the first week in October. Ranger fight fans are looking forward to this battle with great interest and the promoters will do what they can to see that there are no large machine bolts concealed in Hymie's gloves.

Ranger awakened Saturday morning to see parts of the street curbing decorated with a coat of nice clean looking white paint.

"My goodness," mentioned a prim lady on her way down to the city hall to pay taxes. "This is where my tax money goes. What a silly idea to paint these curbings white. They look nice enough the way they are and I can't even afford to have my house painted."

The lady don't know what a wonderful investment this few dollars worth of paint is going to be for our fair city besides making spots on the curb look sanitary.

Those white spaces mean, "Don't park here. If you do, it will cost you a dollar." Sometimes it's worth a dollar to park any place on Saturday night. If you think you can make any money that way, try it. Coppers are going to be on the job and their new duty of collecting ought to pay their wages.

In the city of El Paso they use the dollar fine system and two or three officers don't do a thing all day but collect. Some forgetful busy business men pay the city two or three dollars a day for parking privileges, overtime parking in most instances. They don't mind paying a dollar a forget very much and the city don't mind taking it—very much. Nice and convenient all around and causes no hard feelings.

If the city feels as though it would like to lease Main street collecting privileges we feel that we can get some takers right away. That'd be just like finding dollars all day long—even better—you wouldn't have to pick 'em up, people would hand 'em to you.

**THEFT REPORTED TO POLICE**  
W. M. Cross reported the theft of a Hood tire and tube from his automobile which he left parked in front of the Tee Pee building Saturday.

**MACHINERY TO MAKE KELLOGG CORN FLAKES SEEMS ALMOST HUMAN**

"Remember you are making food for others to eat" is the slogan for employees at the great factory where Kellogg Corn Flakes are made.

If you were one of the small army of employees in a great factory preparing food for millions of persons, don't you think the above would stimulate you to greater effort?

For those who consume this same food it is a nice thought to carry, a nice thought to feel that the man who controls this enterprise gives to those who handle the food eaten by countless millions.

This is one of the impressive things about a visit to the Kellogg immense factories in Battle Creek, Michigan. Those who visit the factories are tremendously impressed and enthused

over what they see there.

One sees the huge buildings on steaming into the station, but the real impression of bigness comes when one gets inside and feels the real spirit of co-operation that exists between the employers and employed. There one hears "we" or "ours" not "theirs" and the "bosses" and there is immense joy in workmanship and pride in the task of the individuals who work for the Kellogg company. This is one reason for the success of Kellogg's Corn Flakes. Others will be told in another story.

### Princess Collapses After Jury Finds Her "Not Guilty"

LONDON, Sept. 15.—Princess Marquerite Fahmy collapsed in the courtroom this afternoon five minutes after a jury declared her not guilty of the murder of her husband, "Sybarite Sheik," Prince Ali Kemal Fahmy Bey.

The princess was carried downstairs and attended by her physicians. It was 45 minutes before she was able to be put into a taxicab and she was escorted through a huge crowd which surrounded the building.

**MEXIA MAN DIES SUDDENLY.**  
*By United Press.*

MEXIA, Sept. 15.—Pat Hearley, 38, employe of a construction company, was found dead in the bathroom of his boarding house here today. Death is believed due to heart disease.

Hearley's home was in Koutzdale, Pa.

### KARO SYRUP ALWAYS GOOD AND ESPECIALLY SERVED WITH HOT CAKES

Karo syrup, all three flavors, is the finest possible covering for hot cakes, which become so popular at this time of the year. Now that it is getting colder, buckwheat cakes and waffles will be just the thing for breakfast, and the following recipes will help you make them.

**Buckwheat Cakes.**  
Four cups buckwheat flour, one-third cup Argo or Kingsford's cornstarch, 2 teaspoons salt, 1-3 yeast cake, 1-2 cup lukewarm water, 1 tablespoon Karo (blue label), 2 cups lukewarm water, 2 tablespoons Mazola, 1-2 teaspoon soda. Add Karo and yeast to the one-half cup of lukewarm water and when dissolved add to the 2 cups lukewarm water. Sift together buckwheat flour and cornstarch and add to liquid. Beat thoroughly and set away in a warm place to rise overnight. In the morning add the Mazola and salt and soda. Beat thoroughly and bake on a hot griddle oiled with Mazola.

**Waffles.**  
Two cups sifted pastry flour, 4 teaspoons baking powder, 1 teaspoon salt, 1 1-2 cups milk, 3 tablespoons Mazola, 3 eggs. Sift together all dry ingredients. Beat egg yolks, gradually add milk and Mazola. Stir liquids into dry ingredients and mix well. Cut and fold in whites of eggs beaten stiff. Have waffle iron hot; oil with Mazola. This makes twelve medium-sized waffles.

### Carload Shipment of Willys-Knight and Overland Cars

Ranger Motor company, representatives of the Willys-Knight, Overland and Haynes automobiles in Ranger, will receive a carload of Willys-Knights and Overland cars the latter part of this month. In the shipment will be two Overland touring cars, an Overland DeLuxe, which have already been sold, and two

Willys-Knight open models.

The company has two Haynes models on display at their salesrooms and service station at Main and North Commerce streets, including a sedan and a touring car. A Willys-Knight roadster and an Overland touring model are also in the company's showrooms.

Parts for all of the automobiles sold by the company are gradually coming in, the stock being added to from time to time.

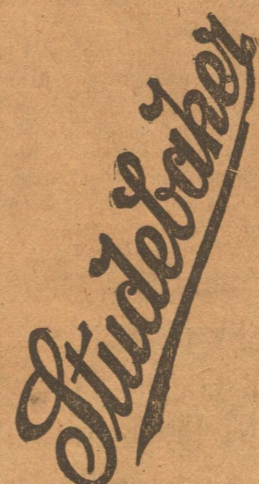

Several prospects for Haynes cars are virtually on the point of being signed up, and it may become necessary to order another carload shipment before the one now en route arrives here.

### COLD WAVE'S VISIT BRIEF, SCURRIES OFF TO SEA

WASHINGTON, Sept. 15.—The cold wave which hastened the harvesting of crops, brought winter's snow to many cities, prevented baseball games and set people to shivering, lasted longer in some parts of the country than in others, but it will be followed by warmer weather within the next 24 hours, according to the weather bureau. The cold wave was moving rapidly off to sea this morning.

## KEEPING THE PURCHASE VALUE IN THE CAR YOU BUY

The price of an automobile—its purchase value—includes local responsibility for the continuous daily serviceability of the car.

A car always has a higher re-sale value if it comes from a dealer who is solidly and permanently established, and who is known to have a continual interest in the performance of the car he sells. We try to give the permanent local value to every Studebaker we sell.

### HUBBARD COMES FROM PECOS TO PRACTICE LAW WITH OVERSON

W. W. Hubbard of Pecos has become associated with Ove E. Overson in the practice of law and the firm name will be Overson & Hubbard, according to an announcement yesterday.

Hubbard has practiced law for more than 20 years, 16 of which have been in Texas. He is a native of New York. For the last six years he has been associated with Judge J. F. Ross of Pecos. He is married. Overson was prosecuting attorney of Eastland county, preceding W. J. Barnes.

The office of the firm will be in the Ranger State bank building in the same suite of rooms occupied by Overson.

### AUTO THIEF GETS AWAY WITH VISITOR'S COUPE

While attending a motion picture show at the Lamb theatre Friday night between the hours of 8:30 and 10:30 o'clock, a thief stole the coupe of J. L. Schaffer of Eastland. He reported the loss to the Ranger police department. It was a Ford.

Say! Felice is some girl. She is coming for the Ranger Style show, Sept. 26 and 27.—Advertisement.

## RANGER MERCHANTS TO EXCEL ALL PREVIOUS EFFORTS IN DISPLAY OF THE BEAUTIFUL FALL AND WINTER STYLES

Ranger merchants are staging a beautiful Style Show which will vie in beauty and richness with those staged in New York and other style centers. Yes, and they will have some models imported direct from—(no we won't tell now), anyway, there will be beautiful models to display the costly raiment, including many local beauties who have graciously consented to assist in the colorful display.

The annual style show will be staged September 2 and 27 at the Liberty theatre, these nights being Wednesday and Thursday. There will be five snappy acts of vaudeville in connection with the style display, assuring a delightful evening's entertainment to all who attend. Men models will display the latest in masculine apparel for the coming season.

**Evening Gowns.**  
A display of costly and imported evening gowns will make up a striking scene in the style show. Merchants have gone to great lengths to get the loveliest creations on the market, and these will be shown to the admiring feminine (and masculine) audience, when this scene takes place. Rumor has it that there will be some surprises in displaying these gowns, and without doubt it will be a dazzling and splendid picture to all who attend the show. Great preparation has been given the display of these creations, and those who love the beautiful will not be disappointed with the evening gowns modeled.

**Costly Furs.**  
It would seem that Ranger will have a treat this year in the display of furs, and statements have been made that the largest and most expensive fur shipments ever received in Ranger have come in recently for the style show. Coats, throws, fur pieces, etc., that run into hundreds and, yes, thousands of dollars, must be beautiful, and mi-lady will, of course, be on hand at least to admire them. Ranger has always been a town where good wearing apparel has been sold, and indications from the styles and garments to be shown are that such is still the case.

Beautiful styles in woolen dresses, silk dresses, suits, coats and last but not least, the children's apparel, will make up the balance of the style showing. All is beautiful, and has been procured by Ranger merchants in the best style centers and markets of the world. Men's apparel will not be slighted, and models will show how it all looks from street suits to full dress with all the fixings. All in all a most enjoyable evening for those who love the beautiful, and with the splendid vaudeville entertainment fitted in through the show, what more could a person ask this side of heaven.

### THEFT AND BURGLARY INDICTMENTS RETURNED

*Special to the Times.*  
EASTLAND, Sept. 15.—Indictments returned by the grand jury in the Eighty-eighth district include a number for theft and burglary. Capias against all of the men indicted have been returned to the district clerk's office by the sheriff's department.

The men indicted and the charges are:

R. H. Towbridge, possession of a belt, 90 feet in length, the property of Phillip Towsley. Also alleged to have fraudulently received from Joe Smith, a drilling belt, 90 feet long.

F. B. Mansell, alleged to have embezzled certain monies from the Oil-belt Motor company.

Hill Stapp, alleged to have stolen one 12-inch elevator and oil well spider, the property of James McCamey.

Roy Williams, charged with taking six tires, rifle and pistol from house of James Horton.

George Burton is charged with

theft in the removal of 50 joints of 8 1-4-inch oil well casing, valued at \$500.

Bob Butler is charged in the indictment with breaking and entering the house of Frank Vance and

"appropriating for own use personal property" of Vance's.

ON DISPLAY NOW in our Ready-to-Wear section, hundreds and hundreds of beautiful Coats, Capes, Muffs, Throws, Scarfs, Chokers, Dolmanos, etc., and during this sale will be sold at a sheer saving of 25 per cent from their real value. In this event we are giving every possible inducement to select your Autumn and Winter Furs now, with these discounts, with selections never more beautiful and so attractive, makes this an opportunity no woman or miss can ignore. Below we quote only a partial list of the many superb pieces included in this Sale, together with the regular prices. Remember, Sale opens Monday morning, Sept. 17, and continues to the 29th, inclusive. Anticipate your Fur needs and make all preparations to attend.

### Lovely Long Coats, 45 & 48 In.

Perhaps one reason for the great popularity of the Fur Coat is that every woman looks so attractive and feels so cozily comfortable when she is closely wrapped in her furs and ready to meet the plustering winds of winter.

Our showing of Long Coats most complete. Here you will find a full list of everything represented in the big fur centers. Made after fashion's latest decree. In fact, we know that you will be pleased and agreeably surprised.

Comprised in the list of Coats are the Hudson Seal, Mink, Marmount, Musk Rat, Civit Cat, Jap Mink, Coney, Super Seal, Leopard and Near Seal. Made in combinations as a Hudson Seal, with large Mink Collars and Cuffs; Super Seal, with Fitch Collar and Cuffs; and various other pleasing contrasts.

The regular prices of these Coats range from \$49.50 up to \$550.00. Will be on sale Monday at—

25% REDUCTION

### The Jacquettes

Another fascinating Fur garment, and one which is gaining in popularity is the Jacquette.

The style of this popular Fur is not only dashing and sporty in effect, but also a very comfortable and indispensable garment and can be had in any furs of the longer coats at a much less price.

We are showing the Jacquette in Mole, Erminetto, Lynx, Seal, Coney, and Beaver.

Price range of \$45.00 to \$165.00, Special Sale Price—

25% REDUCTION

### The New Fur Capes

Capes are also great favorites in the winter fur mode. And surely there is nothing more attractive for afternoon and evening wear than a luxuriously beautiful Fur Cape. However, the silhouette of the cape makes not the slightest attempt to follow that of the Long Coat. The capes are cut to fit very snugly about the shoulders. They do not have a chin chin collar, but it does follow the fashion for the high collar in a rolling collar, which comes high in the back of the neck, over the ears and crosses almost at the point of the chin.

For the Long Coat and Capes almost any fur is good, but among the most popular are, Jap Mink, Mole, Coney, Neutra, Hudson Seal and the lengths range from waist line length to full length, 45 inches; and are made in both self trimmed and also clever combinations.

The price range of Capes is from \$45.00 to \$550.00. Will be offered in this Annual Sale—

25% REDUCTION

### Chokers

There is not a piece of Fur or style so popular or universally worn as the LITTLE CHOKER. Whether the lady contemplates the purchase of a full set of furs or only a coat, she will be interested in our wonderful collection of Chokers.

We are showing perhaps a greater number of styles and qualities than was ever shown in Ranger before.

The collection comprises, among other things, the Red Fox, and extremely popular number this season; the Kit Fox, Brown Fox, Black Fox, Manchurian Wolf, Grey Squirrel, Stone Marten, Hudson Bay Sable, Fitch, Coney, Mink, and Raccoon. Can be had in various lengths in both single and double.

Price range from \$2.95 up to \$75.00. Sale price

## GRAVE QUESTIONS AFFECTING CATHOLIC CHURCH REQUIRE THE POPE TO CALL ECUMENIC COUNCIL

By CAMILLO CIANFARRA (United Press Staff Correspondent)

ROME, Sept. 15.—As is its custom and in keeping with its old traditions, the Holy See is gradually acquainting the world with the true purport and importance of the event which, under the name of the Ecumenic council, is destined to mark a new era in the history of the church, and, incidentally, detain in Rome for a long time all the American cardinals and bishops.

The announcement of the Ecumenic council was made in a few words by the Pope himself in the allocution delivered at the last secret consistory. The announcement gave no details and it was a month later that the church organs announced that the coming council would easily eclipse the last one, that of 1869-70.

**A Long Council.** Such councils, which only the Pope can call and are actually called only when grave questions affecting the church are to be discussed and settled, are very rare events in the history of the Catholic church. In 2,000 years only about 20 are registered, and the most important one was that of Trent, called by Clement VII. The church was then going through the gravest crisis in its history, owing to the advent of Lutheranism, and the Reformation. The council, which lasted from 1545 to 1563, and in the course of which five Popes died, sifted the whole dogmatic matter of the church and drafted the present constitution and the largest part of the canon laws.

The second long one was that of Basle, which sat from 1431 to 1443.

As to the agenda and duration of

the coming council, very little has so far been revealed. Catholic officials say that the Pope is enthusiastic and determined to hold the council during his Pontificate.

The opening date is also uncertain, but the Pope has repeatedly told his collaborators that he will personally question all the bishops of the world on their visit to Rome in 1925, which is a jubilee year, and will afterward set the date. Christmas day, 1925, has been suggested as an appropriate day for the opening of the council.

As to the agenda, very little has been said except that this time no dogma would be discussed, and the council would confine itself to religious questions, and the education of the modern priests.

**Last One Hurried.** During the last few years the Vatican circles have discreetly hinted at probable important debates. As is known, the council of 1870, besides ratifying the dogma of the Immaculate Conception, and establishing the infallibility of the Pope, closed its works in great hurry, owing to the capture of the city by the Italian troops and the detronization of the Pontiff as ruler of the Pontifical states. The council branded the fact as an act of military robbery, and practically bound Pope Pius IX to defend to the last the patrimony of the church.

Vatican prelates explain that the Roman question dates from that day and that it is only another ecumenic council that can authorize the Pope to renounce the territories once belonging to the church and empower him to sign a treaty with Italy.

**Harmonize Policies.** But will the Roman question be

placed on the agenda? The question is hard to answer today, but as the council will undoubtedly revise the policies of the church from the point of view of harmonizing them with modern times, a decision on the subject is extremely likely.

As to the duration of the coming council, very little can be said now. The one that closed in 1870 opened late in 1869 and would have continued for some months yet had not the Italian troops entered Rome on the 20th of September. What is certain is that over 1,200 bishops out of the 1,500 existing will be in Rome, and that the council will be presided over by the Pope himself. The proceedings will be strictly secret.

### EAST BEHIND PACIFIC COAST IN ITS READING

By United Press.

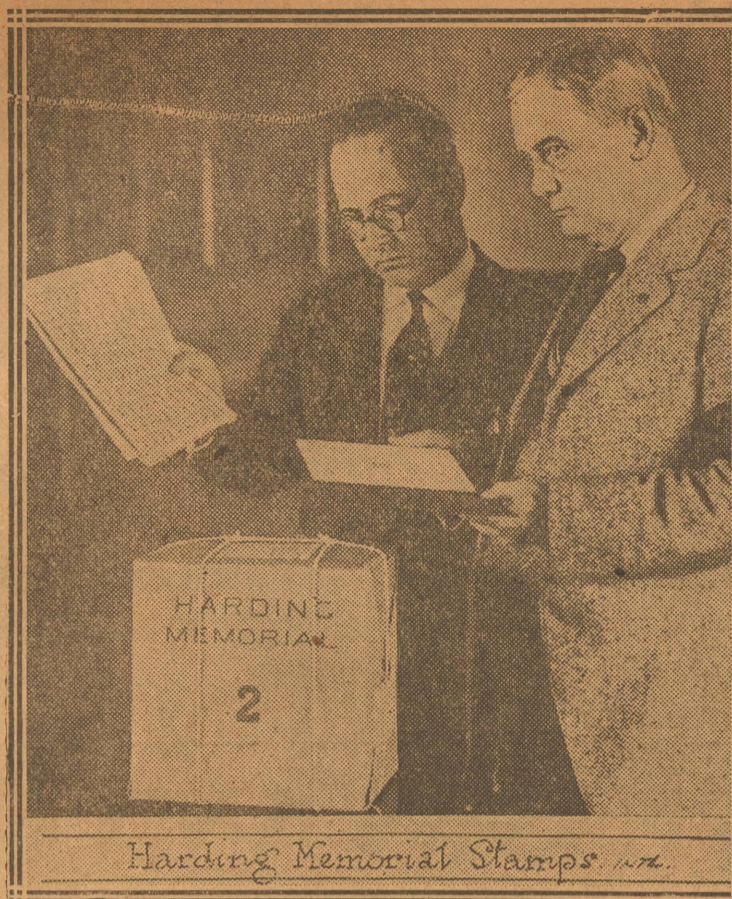

COLUMBUS, Ohio, Sept. 15.—For all its many colleges, universities and libraries, the so-called effete East, falls sadly behind the West, if quantity magazine reading is any indicator.

A survey made by Ward G. Reed, assistant professor in the department of school administration, Ohio State university, shows that the people of California lead the nation in the consumption of magazine reading matter. The survey was based on the circulation figures of the 10 magazines having the largest circulation. It shows that Californians read about six times as much as Mississippians, who bring up the rear.

It is a curious fact that based upon the combined circulation of these magazines in each state contrasted with the population, eight western states place among the first 10. Only Connecticut and Massachusetts are there to represent the East, where most of the magazines are printed. Ohio, the next eastern state, ranks eleventh.

In similar fashion most of the

### COWS FORBIDDEN TO EAT TURNIPS IN CALIFORNIA

SACRAMENTO, Sept. 15.—California cows can no longer legally eat turnips, according to an opinion submitted to Agricultural Director Geo. H. Hecke, by Attorney General U. S. Webb.

Under the state pure milk act, ruled the attorney general, Hecke is authorized to forbid this vegetable as a relish for milch cows if he can establish without question that the turnip makes milk "unpalatable to human beings" or gives butter a "disagreeable odor and repulsive taste."

Turnips, declares Hecke, have exactly this effect.

### THREE FLORIDA RIVERS FLOW IN STRANGE WAY

By Associated Press.

TALLAHASSEE, Fla., Sept. 15.—The traveler in West Florida, unfamiliar with the scenery of that section, should prepare himself for some curious freaks of nature. Otherwise he may waste unnecessary time groping for an explanation of the strange behavior of three of the state's rivers. The old pea and shell game expression, "Now you see it and now you don't," applies to parts of all of them.

A description of these streams has been written by W. A. McRae, commissioner of agriculture, who quotes a young man who spent his life on the banks of the waterways. The substance of it follows:

#### Goes Underground.

The Wacissa rises in "Beautiful Springs," near Thomas City, on the Tallahassee-Southeastern railroad, not far from the state capital, and flows due south to within three miles of the Aucilla river, where it disappears underground and then reappears in the Aucilla. Logmen have cut a small canal from the point of disappearance to the Aucilla.

The Aucilla rises in Georgia and flows in a southwesterly direction, forming the eastern boundary of Jefferson county, Florida. About three miles south of where the Tallahassee-Southeastern forms a junction with this river, the Aucilla sinks and runs underground in a winding way for possibly 12 miles, rising about three miles north of where the Wacissa comes into it from below the earth.

#### Course Is Traced.

The course of the river is traced by sink-holes, and it can be seen plainly. As proof of this, an object dropped into the stream where it first sinks is seen to rise and pass through the various sinks to the point 12 miles below where it finally comes to the surface.

The St. Marks, the third of the "sunken rivers," is a few miles to the west of the Wacissa and Aucilla. It also sinks and rises again a short distance away, making Florida's "Natural Bridge." At this point one of the state's hardest battles was fought in the Civil war, mostly by old men and cadets from the West Florida seminary at Tallahassee, on the Confederate side. A monument was erected there in 1922 by funds appropriated by the legislature, and was dedicated Memorial day, 1922, to the memory of the Confederate soldiers who lost their lives in the fight.

### HOME GARDENS THAT PAY

How to Get Crisp, White Celery From the Celery Patch, Which Is Yet to Be Developed in Texas on a Commercial Scale.

By SETH SHOEMAKER

Director School of Agriculture, International Correspondence Schools, Scranton, Pa.

Blanching is perhaps the most important step in celery growing. At this stage in the plants growth the quality, which means the crispness and whiteness of the stalks is made. Crisp and tender celery is a great delight to the home gardener. Tough, stringy celery is good only for soup.

All varieties of celery will not blanch as readily as some of the better varieties. Giant Pascal and some of the similar kinds require the exclusion of all light before they can be properly blanched. On the other hand, the smaller varieties like the Golden Self-Blanching usually blanch much easier.

#### Blanch With Darkness.

Blanching is accomplished by excluding light from the stalks and part of the leaves after the plants are grown as tall as desired. Two or three weeks of this will usually blanch the smaller varieties of celery sufficiently for table use.

The old-fashioned method of blanching celery was to hill the plants up with soil. The first step in doing this is to loosen the soil on each side of the plant with a spading fork. Then any suckers or shoots between the stalks are removed. Each plant is grasped near the top firmly to keep the soil in place. The soil should be turned up against the stalks firmly and pressed down with the hand. Stalks that are scratched while this is being done are liable to decay, showing dark spots on the stem. For this reason, stalks should be kept away from the stalks. Celery should not be hilled with soil when it is wet or when the morning dew is on the plants. Both of these conditions are liable to start decay.

#### Boards Most Satisfactory.

Blanching with boards, all things considered, is usually the most satisfactory method. This is the one most widely used commercially because the plants are blanched well and require very little washing and less labor in preparing them for market.

The boards are easily put in place. Take two 12-inch boards and place them against the celery as near as possible without touching the stalk. Place heavy wire hoops over the tops or drive two sticks in the ground beside the boards to keep the boards in place. If you wish to blanch the entire plant have the boards high enough so that another board can be

placed on top to exclude the light.

Celery should be kept growing steadily from the time it is planted in the ground and should be liberally supplied with water. A lack of water will check the growth and make the stalks stringy. An ample supply of water will encourage a good growth and will make the stalks crisp and tender.

A small sprinkle of nitrate of soda along the rows just before the watering will help the growth of the plants. Liquid manure made in the proportion of about one-half bushel to a barrel of water will also be useful for this purpose.

### BED OF PETRIFIED OYSTER SHELLS FOUND IN MAVERICK COUNTY

EAGLE PASS, Texas, Sept. 15.—A new and valuable discovery of road materials for Maverick county has been made by the county engineer here, county officials announce. Recently the engineer was conducting an investigation of materials with which to construct a hard surfaced highway in the county. The result was the discovery of a bed of petrified oysters covering several acres of land.

The material is proving superior to any yet found in this section, the engineer reports. After being placed in position and rolled, the shells cement into a hard, smooth layer, it is stated.

The bed is attracting attention in that it was discovered at a point approximately 1,000 feet above sea level. Croppings of oyster shells have been found in other parts of the county also. Authorities declare this is proof that that this section was at one time a part of the sea and that the land was, probably, thrown up in some pre-historic period.

PORT ARTHUR.—Russell H. Dunn of Port Arthur, has been appointed collector of customs for the Sabine district. He succeeds R. H. Latimer. Dunn's appointment was from Washington officials. He formerly was mayor of Port Arthur.

TERRELL.—The Terrell Rotary club is staging a "Back to School Week." Short talks will be made at theatres and other public meetings and before schools. The campaign is designed to encourage boys and girls to return to school this fall.

### PACKAGE LOAN LIBRARY OF TEXAS UNIVERSITY FOR STATE CIRCULATION

AUSTIN, Sept. 15.—Material on vital questions of the day chosen by experienced librarians is loaned free of charge to schools, women's clubs, libraries, community and civic organizations and individuals by the University of Texas through the package loan library of the bureau of extension, in charge of Miss Le-Not Dimmitt.

This literature is taken from standard current magazines, from back numbers of magazines and from bulletins and reports of various kinds and is made into what are known as package libraries. Fifteen hundred such libraries are in circulation at the present time.

When demand arises for them, special libraries are often made upon subjects on which libraries have not already been prepared. Calls come constantly for material to be used in school and club work.

SAN ANGELO.—Dr. Charles Webster, who has been sheep inspector for the federal government in Texas, has been named inspector of the Livestock Sanitary commission with headquarters here. Webster will have charge of the West Texas district. He formerly was stationed at Fort Stockton.

The first phonograph consisted of a cylinder coated with tinfoil, upon which was impressed vibrations caused by the human voice.

DALLAS.—The Dallas community chest, including 29 civic bodies, has been organized. The group will conduct financial drives on a co-operative basis. A combined drive for funds which will be distributed among the various organizations, will be undertaken next month. The chest includes, among others, the following bodies: American Legion, Salvation Army, Chamber of Commerce, United Charities, Humane society and Boy Scouts.

GALVESTON.—Additional bond issues aggregating nearly \$2,000,000 will be necessary to meet the total expense of filling in low sections in West Galveston, according to a report of the county engineer. The city has voted \$1,250,000 in bonds for the purpose.

HOUSTON.—Gross receipts of the Houston postoffice for August were \$109,165, according to the monthly summary prepared by Postmaster Roy Nichols. This is a gain of \$6,000 over receipts of last August and \$2,600 over July, this year.

—The public utility company has nothing to sell but service. It cannot make more money than enough to pay its operating expenses, keep its plant in good condition and pay the wages of the money it invests.

—The amount of investment in a public utility company is high compared with its revenues. Five dollars of capital must be put permanently into the average public utility property for every dollar of gross annual income.

—The public utility turns its capital once in five years. Every other business in the community turns its capital from two to ten times a year.

### Tales of Buried Treasure In Mexico Again Stir Country

By Associated Press.  
MEXICO CITY, Sept. 15.—Hunting for buried treasure, and a revival of legends of hidden wealth, is noted throughout Mexico. The death of Francisco Villa in an ambush at Parral, with the resultant disappearance of the fear of that dread outlaw's vengeance if any of his supposed hidden hoards were discovered, is one of the causes of the revival.

From Acapulco comes a story of the discovery by an unnamed German of 15,000,000 pesos worth of gold and silver bars popularly reported to have been hidden by the Mexican revolutionary General Villullion, it is said, from treasure cente Guerrero. He captured this train hurrying from the Guerrero mines to Acapulco when it became plain that Spain's days of domination in Mexico were numbered.

An expedition has left San Pedro de las Colonias, Coahuila, in search of several million pesos worth of bullion, jewels, money and other valuable objects reported to have been buried in 1914 by Villa somewhere along the Parras road.

Ancient documents are being republished to prove the existence of a treasure said to total 20,000,000 pesos in gold and silver, hidden in a cave on the banks of the Rio Honda, between Mexico City and Toluca. This hoard is reported to have been accumulated by the revolutionary leader Antonio Balzán in raids conducted between 1912 and 1815 against Spanish bullion trains carrying metal from the mines of Saltepec and Temascaltepec. It has been sought before, and again is being hunted with renewed vigor.

### OIL BELT NEWS AT EASTLAND PASSES TO NEW MANAGEMENT

Special to the Times.

EASTLAND, Sept. 15.—Transfer of the controlling stock in the Oil Belt Publishing company, publishers of the Oil Belt News, daily newspaper of this city, was announced this morning by R. K. Phillips, one of the chief stockholders and manager of the company.

He typed the following statement in connection with the sale of stock for a representative of the Times:

"A majority of the stock in the Oil Belt Publishing company has been purchased from H. L. Moseley of Weatherford and R. K. Phillips of Eastland by C. L. Garrett, R. N. Grisham, J. A. Beard and T. L. Overbey of Eastland and Dr. A. K. Weir and H. S. Cole of Ranger."

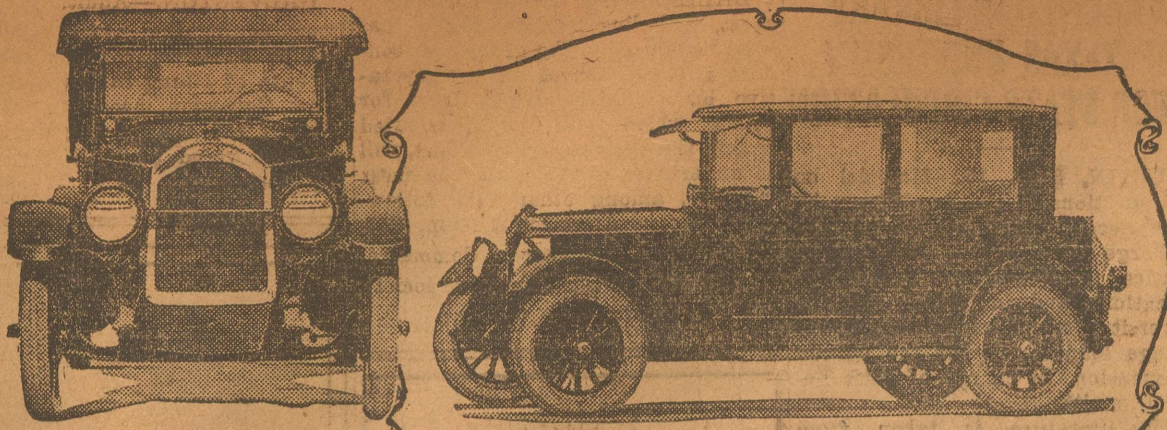

Garrett was made president of the reorganized company. When asked for a statement of the paper's future policy, he said: "Until we have settled several details, we won't make an announcement."

Phillips will be manager and Boyce House, at present a news writer for the Oil Belt News, will be editor, Garrett said.

Phillips came to Eastland in 1919 and bought a weekly paper and on March 1, 1920, converted the weekly into a daily. He has been continuously at the head of the company since its establishment.

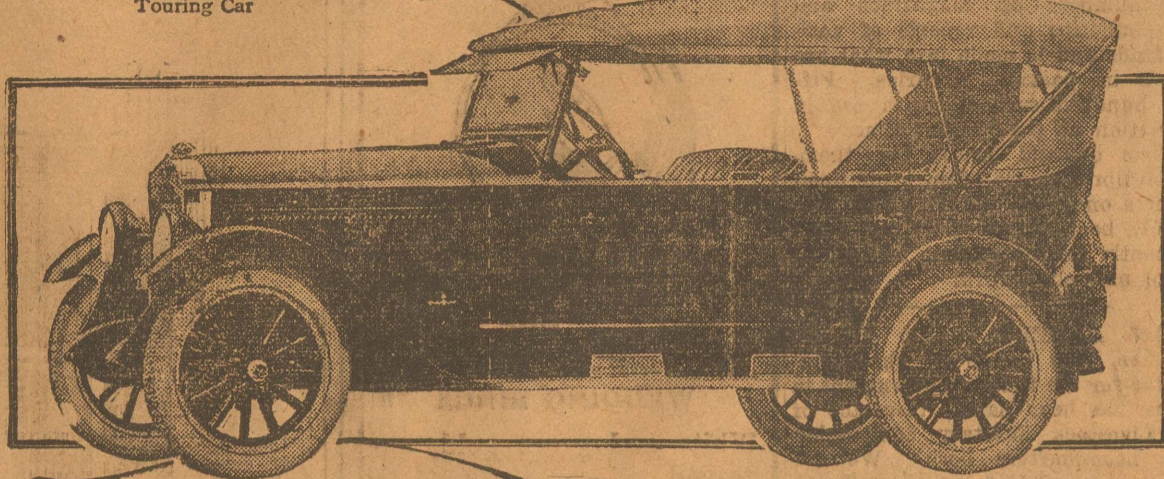

Garrett is city manager of Eastland, Grisham is an attorney, Beard a real estate man and Overbey is vice

### OSAGE INDIAN WINS BRIDE FROM CHOCTAWS

By Associated Press.  
DEL RIO, Texas, Sept. 15.—An unusual marriage took place here recently. Two Indians, Thunderbolt Flowers, and Miss Effie Lee Andrews, both staying at a tourist camp here, were the principals. Thunderbolt Flowers is an Osage Indian from Pawhuska, Okla.; a graduate of Carlyle Indian school, and a World war veteran. Miss Andrews is a Choctaw Indian from Tulsa, Okla. Neither understands the language of the other, but both understand English.

Thunderbolt was here with a party of gold hunters from southern California, who were looking for treasure said to have been buried by the Indians on the Pecos river in an early day. The Indian was employed to read Indian signs and the rocks of the canyon where the paintings, said to have been made on treasure is supposed to have been buried. Miss Andrews was touring with a party of relatives when she met Thunderbolt Flowers.

EASTLAND. — A new filtration plant for the city water supply is almost completed. It will have a capacity of a million gallons and in addition to assuring plenty of pure water, it is expected to save the city twenty to thirty thousands dollars a year.

UVALDE. — Contracts have been made by the city for the installation of lights in the city park. The Uvalde Electric and Ice company is co-operating in the lighting plans.

PALESTINE. — Rebuilding of the power and light and telephone lines in this city is employing a large force of men. Both services are to be much improved by the new work.

### Four Years Ago In Ranger

Taken from the files of the Ranger Daily Times, Sept. 16, 1919:

Two days before the officials of the Gulf Production company hoped to have the roaring oil fire at the Calvin Perkins No. 5 under control, after the well blew in unexpectedly Saturday morning and caught fire from the hot plates under the oiler, the gusher fire was put out and the connections between the flow and the storage tanks. The estimated production of the well is between 1,500 and 2,000 barrels.

A large number of new residences is embraced in the building permits issued by Building Inspector S. F. Owens in the last 13 days, aggregating around \$50,000.

Taken from the files of the Ranger Daily Times, Sept. 16, 1919:

Carclay et al., on the Turner tract, west of the Albers Oil company lease, have a 1,500-barrel well from the 3,526-foot sand.

The Western Supply company, a concern organized by five Ranger men, with a capital stock of \$100,000, will soon be located in the company's new building at the corner of Rusk and Cherry streets. The new company will handle a complete line of plumbing, steam and gas supplies.

## End Bad Health by Chiropractic

CHIROPRACTIC teaches that there is a "power within," which they call "innate intelligence" (subconscious state of the natural intellect), which builds the body from a parent cell or blastoderm, and that through all the circling "three-score years and ten" this intelligent power co-ordinates the physical functions, heals the body's wounds, mends its breaks, adapts it to the change of seasons, occupations and pursuits, and performs the miracle of changing common food into living, breathing, senate bone and flesh.

This power works through the brain and nerve system, and when it wants any organ to act, or a part of the body to move, it sends a command or impulse over the nerves to the proper muscles or organs. When it wishes the liver or spleen or any other secretory organ or cell to secrete, it sends secretory impulses to that organ or cell. In like manner it sends excretory impulses over the nerves to the excretory organs; sends calorific impulses to heat the body; nourishes or feeds with tropic impulses; repairs with reparative and reproduces with reproductive impulses.

Chiropractors do not cure. The simply ADJUST THE MISALIGNED VERTEBRAE, thus permitting NATURE to cure, heal and repair the diseased member.

#### Buick Four-wheel Brakes

Buick four-wheel brakes meet the demands of present day traffic conditions by having power in reserve to insure a rapid, safe and reliable "stop".

Actual braking effectiveness is practically doubled by Buick four-wheel brakes. This is accomplished by slowing down the two front wheels. Each brake band has a three-quarter wrap or grip on its brake drum, rather than the half-way wrap in common practice.

The Buick four-wheel brakes are an integral part of the Buick front axle design. Their arrangement and operation are simple. The front brakes are coupled in relation to the rear so that when the brake pedal is operated more pressure is put on the rear brakes than on the front.

Buick four-wheel brakes (on all models) are one of many definite advances in motor car operation and maintenance that the 1924 Buicks have contributed to automobile transportation.
