

THE WEATHER.

West Texas — Tonight fair, colder; cold wave in north portion with temperature 14 to 22 degrees. Thursday fair, colder in southeast portion.

VOL. VI.

MR. HARDY GIVES STOCKMEN MUCH VALUABLE DATA

Packery Representative Had Educational Advice for Ranger Audience.

STRESSES VITAL INDUSTRY

European Markets Promise to Greatly Aid Market.

C. D. Hardy of the public relations department of Swift & Co., coming to Ranger as the guest of the Ranger Rotarians and Lions and the Chamber of Commerce, addressed a representative gathering of Ranger citizens Tuesday night in the Gholson hotel, speaking on livestock marketing and livestock products. While his address contained many statistics and was general in its terms, the essential purpose, to show the relation of the packers to the public, was brought out very clearly.

Mr. Hardy is a rapid speaker, he knows his subject thoroughly, and while he did not speak at great length he covered a wide range and gave his hearers much material for thought. He spoke in Weatherford yesterday at noon and came to Ranger on the Sunshine, being met at the station by Dr. L. C. G. Buchanan, president of the Rotarians, and W. W. Housewright. He was the guest of a number of Rangers, business and professional men at dinner in the Gholson and afterwards was introduced by Dr. Buchanan to his audience.

Few Realize Importance
Few persons realize, probably, the importance of livestock industry, and therefore of livestock production in this country. Mr. Hardy presented some figures to illustrate this. The country's food bill in one year is about fifteen and one-half billion dollars, he said, and about 20 per cent (Continued on page three.)

RANGER GOLF LINKS TAKE ON LIFE WITH ADVENT OF SPRING

With the approach of spring, members of the Ranger Country club are taking a renewed interest in golf. Many were seen on the golf course last Sunday and at one time about 25 cars were parked about the clubhouse.

During the last two months the weather has kept the golfers off the links and this has given the club an opportunity to improve the greens. The sand was formerly only a few inches deep, but greens have been dug out and refilled with sand to a depth of 18 inches. The sand has also been mixed with oil, which keeps it from blowing away and gives it a firm, smooth surface. The condition of the greens has been a constant annoyance heretofore, but it is claimed they will now rank with the best in West Texas.

The grass over the course has been cut, fallen leaves and twigs removed and the grounds improved in every way possible.

The schedule of games for the Oil Belt Golf league will soon be arranged, it is stated. The league has six country clubs in its membership, Eastland, Breckenridge, Mineral Wells, Weatherford, Strawn and Ranger. Each team plays one match on its home course with each of the other teams, which makes a total of 10 matches for each.

The league has been organized two years and each year the pennant has been won by Weatherford, which has a large number of experienced players.

Ranger has few golfers who have played the game very long, and most of them have been too busy to give as much time to practice as is necessary to gain efficiency, but some of them have shown remarkable improvement during the last year and they expect to make a better showing this year.

WOMAN NOW DIRECTING MANY RAILROAD LINES

Special Correspondence.

WASHINGTON, Feb. 25.—Helen Lucille Welsh, assistant secretary of the El Paso & Southwestern railroad, has been granted permission by the interstate commerce commission to act as director on 24 railroad boards. Her appointment is heralded as a marked achievement in woman's entry into big business affairs.

It is not contrary to the public interest to be at the same time a director of the Southern Pacific, Oregon & California, Central Pacific and a series of subsidiary corporations of the Southern Pacific system, according to the commission.

SWIMMER BATTLES WAVES FOR MILE

Special Correspondence.

FORT WORTH, Feb. 25.—After swimming a mile through the waters of Calverton bay for help rather than have a party of friends spend a night of hardship in an open launch that had run aground, Archie Poston of Fort Worth, is suffering from an attack of pneumonia.

Ousts Trotzky

M. FUZZE, 1917.

JIM ACCUSATION BRANDED FALSE

Special Correspondence.

AUSTIN, Feb. 25.—Denial of an application from Governor Fuller of Massachusetts for the extradition of Albert P. Russell of Wichita Falls, indicted in Middlesex county, Massachusetts, for the alleged desertion of his wife and daughter in 1923 and their non-support, has brought a protest from District Attorney Arthur K. Reading of Cambridge, Mass., who quotes the detective who came to Texas after Russell as saying the matter had not been heard by Governor Ferguson but had been denied by her husband, former Governor James E. Ferguson, who gave as his reason that it might harm Russell's business in Wichita Falls.

Chent Sanderford, the governor's private secretary, denies that former Governor Ferguson acted on the application. He said the request for extradition had been considered and denied by Governor Miriam A. Ferguson, who had conferred with him about it, and that her husband had nothing to do with it.

In the statement issued at Cambridge by District Attorney Reading he is quoted by press reports as saying: "The question of extradition was held before the governor's husband instead of before the real governor and he acted as governor without authority and denied Governor Fuller's extradition application. I shall leave no stone unturned to get this man Russell back from Texas to face the charges against him here."

Ft. Worth Air Men Will Aid Mitchell's Air Defense Battle

Special Correspondence.

FORT WORTH, Feb. 25.—Strong endorsement of Brigadier General Mitchell in his fight for an adequate air defense will be drafted at the weekly meeting of the Fort Worth Flying club Thursday evening, it was announced Tuesday. The stand of the club has been determined and resolutions are being prepared for adoption at the meeting, which will be held at 1915 West Seventh street. It is likely that the endorsement will contain an offer to assist in any way possible.

Hollywood Colonists In Huge Booze Raid

Special Correspondence.

LOS ANGELES, Feb. 25.—Police raiding gambling and vice dens in Hollywood and other suburbs of this city arrested more than 135 men and women.

Cards, dice, a sum of money and a quantity of liquor were seized at the Jack Reilly hotel, a fashionable hostelry in Huntington Park.

PROMINENT PYTHIANS WILL VISIT ABILENE TOMORROW

Special Correspondence.

ABILENE, Feb. 25.—Charles E. Baughman, grand chancellor of the Knights of Pythias of Texas, will visit this city Thursday to attend a district convention of the order. Representatives will be here from Stamford, Clyde, Baird, Haskell and other places.

Prior to coming to this city, Mr. Baughman will attend a special meeting at Spur, which is to celebrate the opening of the new Knights of Pythias home there.

LONGWORTH SEES DEATH OF MUSCLE SHOALS BILL

Special Correspondence.

WASHINGTON, Feb. 25.—Suffocation of the Underwood Muscle Shoals bill to its death in conference is forecast by Representative Longworth, republican house leader, who said it appeared unlikely an agreement acceptable to the senate would be reached before March 4.

Gorman Couple Badly Hurt In Midnight Motor Crash

Poe Watson and Miss Maudie Mahan, two Gorman young people, are in the Richardson sanitarium in Eastland, suffering from injuries they received in an automobile accident about 1:30 o'clock this morning on the Bankhead highway between Eastland and Ranger and just east of the Morton filling station. Watson has a broken arm and other bruises about the body and Miss Mahan had a number of her teeth knocked out and her face and head injured. Another young lady occupant of the car whose name was given as "Billie," was not injured. Passersby brought them into Eastland to the hospital.

Watson and his two young lady companions were in a Ford touring car, which collided with a Studebaker roadster driven by Aubrey Jameson of Ranger, who was enroute home from Eastland. The Ford, according to officers, was coming from toward Ranger. Both cars were knocked from the highway and badly wrecked.

The sheriff's department, notified of the wreck, went out and made an investigation of the circumstances surrounding the accident. The Ford touring car which collided with the Studebaker roadster, had only one headlight which was visible for only a short distance from the car and was on the left hand side of the highway when the two cars collided, according to Mr. Jameson.

"I was driving about 35 miles per hour," said Mr. Jameson, "and was going down the short hill just after passing the Morton filling station, where the lake road and the highway diverge, when I hit the Ford. The first time I saw the car was when it came around the short curve near the top with only one headlight visible."

"Tracks of my tires show that I was clear out of the road with the outside wheels grazing the ditch. The Ford swerved out to the left fender hit the rear of their car and lifted it into the ditch.

"In the collision my left arm was injured and I was thrown clear out from under the wheel. I tried to control the car with one hand as it was coasting down the hill, and after swerving into the ditch on one side, I cut across and landed in a deep ditch on the opposite side, knocking my wheels back up under the car and smashing the frame."

A passing motorist carried Mr. Jameson on in to Ranger.

C. W. PRICE KILLS TRAVELING SALESMAN AT BRECKENRIDGE

Special Correspondence.

BRECKENRIDGE, Feb. 25.—W. C. Edwards, 40, a traveling salesman for Stikes Bros. of Des Moines, Iowa, was shot and killed at 2:15 o'clock this afternoon at Albany road and Park avenue.

C. W. Price, local manager for the Oilbelt Motor company, surrendered to Sheriff Thornton immediately after the shooting. He refused to make any statement.

Edwards was seated at the

Agricultural Clubs Formed By Cheney Active Young Folks

Miss Ruth Ramey, Eastland home demonstration agent, organized a boys' and girls' agricultural club Monday at Cheney, 10 miles south-east of Ranger, with 14 boys and 11 girls as members.

The boys' and girls' agricultural clubs are being organized in the county and the girls with gardening as their productive project. The boys will plant pure-bred seed and the same kind for each member. The girls will have the required clothing, food work, and home improvement with the productive work. All of the girls are planning to enter the 4-H appropriate dress contest.

After signing up for the work the members elected the following officers: Inez Melton, president; Fred Scott, vice president; Lillie Love, secretary; Alta Fae Moseley, vice secretary; Dutch Burrows, Nettie Seay, yell leaders; Lucille Love, reporter; Inez Grice and Fred Scott, representatives to the county federation.

Delays In Action On Dean Bill May Force Extra Session

Special Correspondence.

AUSTIN, Feb. 25.—Efforts on the part of strict prohibitionists to include in the amended Dean liquor bill measures, introduced by Senator Stuart of Fort Worth, prohibiting drug stores selling patent medicines and nostrums containing more than 1 per cent alcohol, threatens to hold up the measure even to the point of requiring a special session of the legislature to finally pass the amendment, it is predicted. The less ardent champions of prohibition are striving to prevent the severe drug stores restrictions becoming effective.

THEEVES STEAL AND BURN EASTLAND COUPE

A Ford coupe belonging to Louis Roper of Eastland was stolen from his home last night and later found burning at the side of the road on the old Eastland-Breckenridge highway near the Texas & Pacific railroad.

Oil field workers, coming off tower at about 1 o'clock this morning, saw the car on fire at the side of the road, where it had been run off a bridge, and reported the matter to the sheriff's department. Investigation disclosed it was Roper's car. The coupe was destroyed.

ADMINISTRATORS LAX IN FILING REPORTS

An order has been issued by Judge Tom J. Cunningham of the Eastland county court-at-law in which he calls attention to the fact that many persons charged with the duty of making annual reports in matters of public duty have been delinquent in their duty and that reports and orders incident thereto have not been made.

The order also states that much costs have accrued and are unpaid and that other discrepancies may appear upon closer investigation. Continuing, the order states that a strict accounting should be had upon all of said matters and that it is incumbent upon the court to inquire into the conditions of said matters.

The order is addressed to all administrators, administratrix, executors, executrix, guardians, and bondsmen.

Rich Lawmaker

F. TRUBEE DAVISON

This is the latest photograph of F. Trubee Davison, who represents Nassau County, of Long Island, in the New York Legislature. Mr. Davison, of the Morgan banking firm and head of the American Red Cross during the World War, left him the larger part of his millions so he could engage in politics as a life career.

EUROPE ALARMED OVER UPRISINGS

Special Correspondence.

Reports from alleged fugitives that a revolution has broken out in Bulgaria, together with the report of widespread alarm in the apparent strength of the Kurdish revolt, which has prompted Mustafa Kemal, head of the Turkish government, to mobilize troops in the danger zone, are causing great alarm in Europe, according to United Press dispatches from the Old World today.

Strict censorship appears to be maintained over dispatches that are sent out from the insurgent area, and "uncensored" messages received at several European capitals are looked upon with suspicion as tending to bolster up a cause that, temporarily at least, has control of the fire and mail facilities.

Will Build Mammoth Lake To Serve Rising Star Oil Territory

Special Correspondence.

PHILLIPS PETROLEUM COMPANY OF Bartlesville, Okla., which has large oil interests in this and other sections of Eastland county, has let a contract to Bucy & Son of this city for the construction of a large lake on the Foster farm, five miles west of this city, which is to be completed about May 1. This lake, when completed, will be approximately one mile in length, half a mile wide and 26 feet deep in the deepest portion.

The construction of a large pumping plant near the lake site is to begin soon and will be used for pumping water to the gasoline plants, two in number, of the Phillips Petroleum company, and other industries of this section of the Eastland county oil fields.

A number of new oil wells are being drilled in the Rising Star territory and the Western and Peerless Carbon Black companies have just completed two large plants for the manufacture of carbon black from residue gas, taken from the fields of this section.

SENATOR M'CORMICK DIES AT WASHINGTON

Special Correspondence.

WASHINGTON, Feb. 25.—Senator Medill McCormick, of Illinois, died suddenly here today at his hotel of gastric hemorrhages. He was born in Chicago in 1877.

His political life included the vice chairmanship of the progressive national committee from 1912 to 1914. Two terms in the Illinois general assembly and one term in the national house of representative 1917 to 1919. He was elected senator from Illinois in 1919.

McCormick married the daughter of the late senator Mark Hanna of Ohio in 1903.

Rio Grande Frauds Trial Is Under Way

Special Correspondence.

KANSAS CITY, Feb. 25.—Selection of a jury in the second trial of W. E. Stewart, charged with using the mails to defraud in the sale of lands in the lower Rio Grande valley in Texas, is under way in the federal court.

Ninety witnesses, most of them farmers from the lower Rio Grande valley, have been subpoenaed by the government. It was indicated the trial would last more than three weeks in view of the number of witnesses summoned by both sides.

Compromise Reached On Postal Amendment

Special Correspondence.

WASHINGTON, Feb. 25.—Senate and house conferees on the postal salary and rate increase bill have compromised virtually on the bill as passed by the house with the Oddie newspaper rates and a two-cent special fee on parcel post matter included.

Under the agreement newspapers will be charged two cents a pound in the first and second zones, four cents a pound in the third and fourth zones, six cents a pound in the fifth and sixth zones, and nine cents a pound in the seventh and eighth zones.

State Rangers Given Old Standing by Court Ruling of Judge Fly

Special Correspondence.

AUSTIN, Feb. 25.—The legal status of the state ranger force was restored in a decision handed down by Chief Justice W. S. Fly in the fifth court of civil appeals at San Antonio today, according to advices received by the attorney general's office here.

The question of the appellate court reversed the ruling of the Fifty-seventh district court, setting aside the injunction granted by the court against ranger operations. The appellate court's ruling is based strictly upon the constitutionality of the law providing for state police.

Judge Fly took occasion, however to criticize and condemn the sending of rangers to a community to spend their time arresting petty offenders against the Volstead and Dean laws.

HIGH OFFICIALS IN BOOZE PROBE

Special Correspondence.

CLEVELAND, Feb. 25.—Indictments naming high officials and implication of a former congressman in a liquor permit scandal were expected momentarily here today. The probe, aimed on the withdrawal of 15,000 cases of whiskey from the Hayner distillery, Troy, Ohio, during 1921 and 1922, is being personally conducted by Mrs. M. W. Willibrand, assistant United States attorney general.

Indictment of the five men, two of them federal prohibition agents, was regarded as certain as the result of testimony before the federal grand jury by five girls. The girls were clerks in the federal offices in Ohio and permits for the whiskey withdrawals passed through their hands.

Special Correspondence.

WASHINGTON, Feb. 25.—Senator Medill McCormick, of Illinois, died suddenly here today at his hotel of gastric hemorrhages. He was born in Chicago in 1877.

His political life included the vice chairmanship of the progressive national committee from 1912 to 1914. Two terms in the Illinois general assembly and one term in the national house of representative 1917 to 1919. He was elected senator from Illinois in 1919.

McCormick married the daughter of the late senator Mark Hanna of Ohio in 1903.

ORIENT ANNOUNCES VAST IMPROVEMENTS

Special Correspondence.

KANSAS CITY, Feb. 25.—Following action of the interstate commerce commission in granting the Orient railroad an increase in a share of interchange freight rates, extensive plans for the road's development were announced today by Clifford Histed, general counsel.

Among the improvements under consideration is the possible extension of the road to Kansas city, construction of a station at Wichita, Kansas, purchase of many new locomotives and cars and a general rehabilitation of the road.

The increase granted by the commission will net the Orient between \$300,000 and \$400,000 annually. Histed said and will enable the payment of operating expenses.

ABILENE WILL INCREASE PRESENT WATER SUPPLY

Special Correspondence.

ABILENE, Feb. 25.—A "booster" pump for the increasing of the water pressure is to be bought and installed at once by the city commission. The pump will be the means of supplying water to many residents here who are unable at this time to get water.

Bids for the pump are to be received and opened by the commission at its next regular weekly meeting.

SENTENCE SERMON
The art of being able to make a good use of moderate abilities wins esteem, and often confers more reputation than real merit.
—La Rochefoucauld.

DYNAMITE KILLS EIGHT, INJURES SEVEN IN BLAST

Premature Explosion Takes Heavy Death Toll Near Langtry.

LOHN W. HARSHAW VICTIM

Tragedy Occurs Rock Quarry Tuesday Afternoon.

Special Correspondence.

DEL RIO, Feb. 25.—John W. Harshaw, El Paso, division engineer on the G. H. & S. A. railroad, was instantly killed when a heavy charge of dynamite prematurely exploded in the rock quarry at Langtry, Tuesday afternoon, according to telegraphic reports received by Supt. C. R. Morrill. Seven other men were killed and four seriously injured.

The relief train from here met the freight train bringing in the dead and injured at Comstock, 35 miles west of Del Rio. The surgeons and nurses rendered first aid to the injured on the train as they were being rushed into Del Rio.

The dead:

John W. Harshaw, El Paso, division engineer.

G. P. Puddy, El Paso, drilling contractor.

P. A. Dorris, Langtry, foreman of the quarry.

Silverio Rangel, Alfonso Zapata, Catarino Ruiz, and Ezaristo Valdez. The injured:

D. Stokely, driller; F. D. Vincent, Arnulfo Cisneros, and Mariano Luna.

Officials of the Southern Pacific railroad were today to begin an official inquiry into the explosion.

HOUSE ENDORSES PRISON OUSTER

Special Correspondence.

AUSTIN, Feb. 25.—The house today voted 93 to 12 for adoption of the resolution by Representative T. K. Irwin of Dallas, placing the legislature upon record as demanding the immediate discharge of 25 officials and employees of the state penitentiary system.

Irwin's resolution was based upon the finding of the committee during the recent survey of the system and outlined charges of gross mismanagement and mistreatment of the system and inmates.

Insurance and Loan Offices Are Removed

C. E. May, insurance man, and the Southern Loan company moved their offices today from the Guaranty bank building to 216 Main street. Carpenters were busy getting fixtures and furniture placed and the sound of hammer and saw made it a little difficult to transact business today.

But when a customer stepped inside the door and remarked "I want to pay a note," John W. Thurman of the Southern Loan company heard him above all the noise from way in the rear and came running with a cheery welcome. "Glad you called," he said.

Mrs. R. B. Campbell, who looks after the office details of C. E. May's insurance business, has a nice desk location at the front of the building and when any parade goes along Main street she will have an advantageous position from which to view it. Miss Mary Massa, with the Southern Loan company, has an imposing place behind her bank-like grill, while Mr. Thurman and Mr. May have their desks further in the rear.

KELLOGG DENIES ANY DISARMAMENT PLANS

Special Correspondence.

NEW YORK, Feb. 25.—Denial that he will bring to his post as secretary of state a plan for the limitation of armament was made by retiring Ambassador Frank B. Kellogg upon his arrival from London today. His talks with British officials regarding the proposed disarmament conference at Washington was always unofficial and informal, Kellogg said.

Mr. Kellogg arrived on the Berengaria, which docked last night. He will become secretary of state March 4.

CHICAGO WILL IMPROVE OFFICIALS AND BUILDINGS

Special Correspondence.

CHICAGO, Feb. 25.—The city of Chicago will spend \$13,500,000 in public improvements as a result of yesterday's municipal voting, according to the ballots tabulated today. The largest item in the budget calls for the improvement of the law enforcement.

BIBLE THOUGHT
 Be kind to the erring: Brethren, if a man be overtaken in a fault, ye which are spiritual, restore such an one in the spirit of meekness; considering thyself, lest thou also be tempted.—Galatians 6:1.

Aerial Stowaway Thrills Vast Army Of Radio Patrons

An interesting innovation on the program of WAHG was the recent appearance of Lieut. Linton Wells, newspaper correspondent and photographer, who rejoices in the fact that he earned the title of "first aerial stowaway."
 The title came about through his unique feat in stowing away aboard the American "round the world plane," the Boston, piloted by Lieut. Leigh Wade, and riding with the flight for 2,800 miles across India to the Persian border. The story of how he covered the flight for an American news association was full of thrills.
 That the radio audience enjoyed Lieutenant Wells was indicated by some 1,500 wires and letters addressed to the station.

PLATE GLASS DEMAND IS INCREASING STEADILY

PITTSBURGH, Pa.—Plate glass manufacturing in the United States, which broke all records in 1924, is expected to hang up a new high score in 1925, according to P. A. Hughes, secretary of the Plate Glass Manufacturers of America.
 Production in 1924 was 91,554,474 square feet. This was 2,485,033 square feet more than was produced in 1923, and is a continuation of the progress made in the last four years. The total production in 1921, for instance, was 53,578,682 square feet.
 Says Mr. Hughes: "The demand for plate glass is good and the outlook for the next six months is excellent. It is estimated that the production for 1925 will be considerably larger than in 1924. A substantial increase will be brought about when the new factories that are nearing completion get into operation."
 "While there is every indication that the demand will increase there will be plenty of glass, as manufacturers have made provisions to take care of requirements and to give good service."

EASTLAND EXES POSTPONE ELECTION OF OFFICERS

The election of officers for local organization of the ex-students of the state university, was postponed until the meeting to be held in Breckenridge on March 2, at last night's meeting of Eastland ex-students.

Plans for the Breckenridge meeting were discussed at Miss Pearce of the Eastland High school was selected to represent the Alcaide, instead of Mrs. Woodward, who has moved from the city.

EBERT IS RECOVERING.

BERLIN, Feb. 25.—Recovery of President Ebert from his appendicitis operation "is taking a normal course and his temperature and general condition are satisfactory," says a bulletin issued here today.

A Hartford, Conn., man has had two electric lights installed over his wife's grave. These lights are turned on twenty-four hours a day and, as a memorial to his wife, he hopes to make arrangements to have them kept lighted as long as the world lasts.

Electrification of the Lackawanna railroad from the Jersey shore of New York Harbor to Dover, N. J., is to be started in early spring. This stretch of the Lackawanna's track is the road's main line into New York. It is estimated that this electrification will cost about \$20,000,000.

Applications to develop hydro electric generating station sites along rivers in the United States, with a total capacity of two and a half million horsepower were filed with the federal government during the fiscal year that closed June 30 last.

TYLER.—Work started on \$450,000 street-paving program.

TEMPLE.—1925 building program estimated at \$1,100,000.

JUNIOR NEW ERA HAS INTERESTING PROGRAM
 The regular meeting of the Junior New Era club held on Monday night at the Gholson hotel, was in charge of Mrs. A. G. Jury, with the colonization and conquest of South America as a subject. Papers of interest were read by Mrs. Hight, Miss Ross and Mrs. Maxey. Mrs. Jury gave as an "extra" a clever sketch of happenings in the club. Mrs. Roger Fenlaw was present and gave a short talk. Miss Helen Howdeshell was elected secretary for the balance of the year. The ladies sewed during the afternoon until a late hour when little Elizabeth Patterson appeared drawing a "covered wagon" decorated with pretty yellow top in which sat "Raggedy Ann" holding the yellow reins and guiding the car while she guarded the contents. Many lovely gifts were discovered inside the wagon by the honoree who was quite overwhelmed by the generosity of her friends who seemed to divine her every need. Following the presentation delicious refreshments were served, the plates each carrying a beautiful jonquil favor, vases of the same flowers being about the room with a bright suggestion of the springtime. Little Elizabeth Patterson was also in yellow to match, the color scheme being an attractive part of the sunshine and happiness reflected. Those present were, Meses, H. A. Logsdon, Roy Jameson, J. A. Massa, W. J. F. Bailey, K. C. Jones, W. H. Burden, W. H. Cozoo, George Armer, C. C. Patterson, C. G. Norton, and Miss Sue Dean and Miss Helen Stafford.

DELIGHTFUL PARTY AT HOME OF MRS. PATTERSON
 The attractive home of Mrs. C. C. Patterson, on Cypress street, was the scene of a merry "sewing bee" and a Tuesday afternoon when the hostess, assisted by Mrs. George Armer and Mrs. Wilfred Cozoo, entertained in honor of Miss Eleanor Norton, who is leaving early in March to attend the state university at Austin. The ladies sewed during the afternoon until a late hour when little Elizabeth Patterson appeared drawing a "covered wagon" decorated with pretty yellow top in which sat "Raggedy Ann" holding the yellow reins and guiding the car while she guarded the contents. Many lovely gifts were discovered inside the wagon by the honoree who was quite overwhelmed by the generosity of her friends who seemed to divine her every need. Following the presentation delicious refreshments were served, the plates each carrying a beautiful jonquil favor, vases of the same flowers being about the room with a bright suggestion of the springtime. Little Elizabeth Patterson was also in yellow to match, the color scheme being an attractive part of the sunshine and happiness reflected. Those present were, Meses, H. A. Logsdon, Roy Jameson, J. A. Massa, W. J. F. Bailey, K. C. Jones, W. H. Burden, W. H. Cozoo, George Armer, C. C. Patterson, C. G. Norton, and Miss Sue Dean and Miss Helen Stafford.

PERSONALS.

Miss Geneva Blount returned Monday to her home in Cisco after spending the week-end with Miss Olga Mitchell.
 Mrs. Charles B. Schramm left Tuesday noon for St. Louis where she will visit her mother for several weeks.
 Mr. and Mrs. J. B. Fitch and family left today for Fort Worth where they will make their home. Their going is regretted by a large circle of friends in Ranger.
 Mrs. F. D. Hicks and children moved Tuesday to a farm in Erath county.
 Mr. and Mrs. J. A. LaPrelle and family are moving into the house formerly occupied by the Fitch family.
 Mrs. R. T. Kendrick, who returned recently from a visit in Fort Worth is leaving this week for Corpus Christi for several weeks.
 Miss Geneva Blount returned Monday to her home in Cisco after spending the week-end with Miss Olga Mitchell.

WOMEN HERE ARE DEPENDING ON G. F. P. TO RESTORE VITALITY

Success of St. Joseph's G. F. P. Here Shows Women Are Quick to Take Advantage of Proven Relief From Distressing Ailments so Common Among Them Nowadays.
 It is quite easy for the producers of a medicine to show instances of the remarkable performances of their product—remarkable results accomplished in a few isolated cases. There is nothing particularly wonderful about that. The real test of a medicine lies in its average day-in-and-day-out reliability to bring about real, lasting results.
 The fame of G. F. P. is being spread principally by word of mouth from woman to woman. As women learn how quickly and easily it relieves them of headaches, backaches, nervousness, pains in the sides, nausea, cramps and that awful feeling of depression and weariness, it is natural for them to become so enthusiastic that nothing can keep them from telling every woman they know about the extraordinary merits of St. Joseph's G. F. P.
 There is something romantic about the thought that real worth always gets its deserved approval. A few weeks ago G. F. P. was practically unknown, now it is on the lips and in the hearts of thousands of grateful women and to them all it means the same thing: that they at last have something they can depend on and which really does get rid of their "female troubles," such as irregularity, which is brought on by the vicious attacks of catarrh of generative organs.

Women Now Depend on St. Joseph's G. F. P. To Restore Their Vitality

St. Joseph's G. F. P.
To Restore Their Vitality

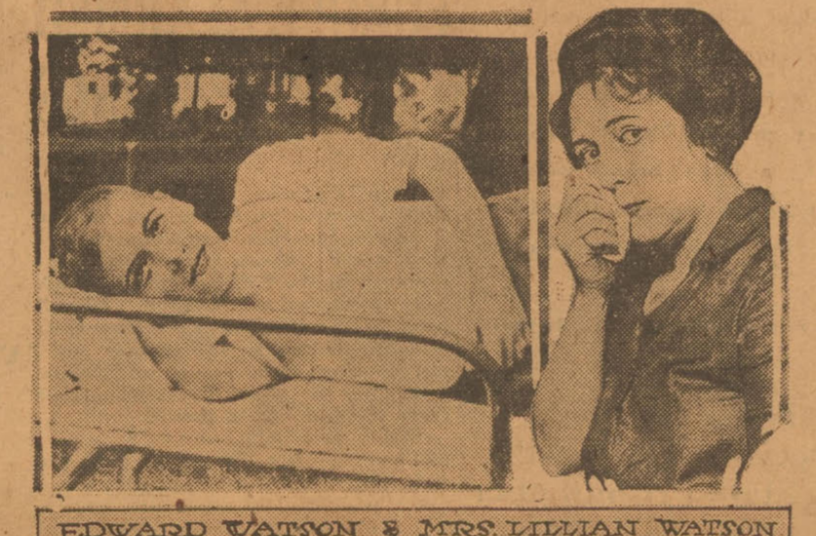

Hunt's Washington Letter

BY HARRY B. HUNT
 News Service Writer

WASHINGTON—Congress is always ready to resent any mention of "pull in politics."
 Congressional intercession in behalf of certain causes or individuals, it is always insisted, is merely to get attention to the "merit" of the case.
 Any "pull" or "influence" in the sense of striving to land special favors for special persons or interests moves members to hot and indignant denial.
 And yet, to the man outside looking in, there always seems to be a great mass of measures more or less tinged by the personal interests of members or of certain of their constituents.
 The bias, if bias there be in these cases, may be entirely subconscious.
 But to outsiders, the effect of personal favor in the advancing of many measures makes the opinion inescapable that "pull" rather than merit decides many matters.

A CASE in point is that just disclosed in a report by the Senate committee on pensions.
 Because of the clear-cut factors in this case, it illustrates the situation more effectively than could pages of exposition.
 Two applications came before the committee for increases in pensions.
 Mrs. Edith L. Quick, St. Louis, Mo., widow of a veteran of the Spanish-American and World Wars, sought an increase from \$12 to \$50 per month.
 George Curry, El Paso, Tex., veteran of the Spanish-American War, sought an increase of from \$12 to \$50 a month.
 The committee recommended the increase sought by Mrs. Quick be denied. It recommended the increase asked by Curry be granted.
 "Mrs. Quick," the report stated, "is now drawing compensation at the rate of \$30 per month as a World War widow, and is only 44 years old."
 Of Curry, the report said: "He is now physically unable to earn his living by manual labor."
 On the face of the report, the recommendations seem entirely fair. The report says Mrs. Quick "is only 44 years old," suggesting she should be able to supplement her pension by personal employment.
 It does not state she suffers from an ailment which prevents her from working and that she has no child or other relative to contribute to her support.
 The report says of Curry that "He is now physically unable to earn his living by manual labor." It does not state that Curry is now on the government pay roll at \$5000 a year as the United States commissioner on the Mexican boundary commission.
 Curry never had to earn his living by manual labor. But he has held many political jobs, including that of high sheriff of Manila, governor of New Mexico and member of Congress from that state.
 Curry at one time served as private secretary to Senator Bursum of New Mexico. Bursum obtained for Curry his appointment as boundary commissioner.
 And Bursum is now chairman of the Senate pension committee.

Cannot Go Home to Die

EDWARD WATSON & MRS. LILLIAN WATSON
 Edward Watson, a fourteen-year-old Portchester, Long Island, N. Y., youth, dying in a New York hospital of tuberculosis of the spine, begged his mother to take him home to die. When she sought to do so the hospital authorities stopped her, declaring the act would more quickly kill the youth. Mrs. Watson appealed to the court, which ruled that the mother love must be denied and the boy kept in the hospital, where she may visit him daily and bring him toys and goodies.

Clara Barton Memorial Founder Visits Ranger

Mrs. Dixie W. Owen, of Oakland, Calif., founder and president of the Clara Barton Memorial association, will speak Thursday night at 7:30 o'clock in the Methodist church, her topic being "A Recipe for the Blues."
 There will be musical and recitation selections by Mrs. A. L. Leake, Miss Laura Schmuck and Miss Lella Giles, singing by a male quartet and a duet by Spot Schmuck and Scratch Allison, accompanied by Barbara Schmuck and George Allison. Mrs. Owen will sing pantation songs which she does after the manner of the old south.
 A free will offering will be taken at the door, any amount from 10 cents to \$10 being appreciated and thankfully received for Mrs. Owen's work in perpetuating the name of Clara Barton, founder of the American Red Cross.

SICKLY, PEEVISH CHILDREN. Take Advantage of Proven Relief From Distressing Ailments so Common Among Them Nowadays.

Children suffering from intestinal worms are cross, restless and unhealthy. There are other symptoms, however. If the child is pale, has dark rings under the eyes, bad breath and takes no interest in play, it is almost a certainty that worms are eating away its vitality. The surest remedy for worms is White's Cream Vermifuge. It is positive destruction to the worms but harmless to the child. Price 35c. Sold by Phillips Drug Store and Texas Drug Store.—Adv.

SEVEN ARE INJURED IN MEXICAN CATHOLIC FIGHT

MEXICO CITY, Feb. 25.—Seven persons were wounded when a group of Roman Catholics made another attempt to expel separatist priests from the Church of the Soledad here. Police were called to interfere.
 A similar inter-factional conflict resulted in the killing of one person and the wounding of five others this week. Women have been active in the rioting.
 The separatists belong to a Catholic order which does not recognize the authority of the pope.

WEATHERFORD PIONEER, AGE 81, PASSES AWAY

FREE PRIZES!

FIRST PRIZE
Set of New Cord Tires for Studebaker
Value \$80

To the person turning in the largest list of prospects for new and used cars that we sell during our special sale of cars on the McCleskey Hotel lot.

SECOND PRIZE
 To the person turning in the second highest list of prospects sold we will give free a new set of Cord Tires for Chevrolet,
Value \$50

THIRD PRIZE
 Lock Steering Wheel for a Chevrolet or Ford.
Value \$15

All prospects should be registered at Prize Booth, located on the McCleskey Hotel lot.

This contest is open to any man, woman or child. Get busy and think over a list of your friends or acquaintances who are contemplating purchasing a car now or in near future, and turn them in with address at our Prize Booth and you may be the lucky person who will win one of these valuable and useful prizes.

OILBELT MOTOR CO.
 THERE AT NIGHT PLENTY OF LIGHT

MR. HARDY GIVES STOCKMEN MUCH VALUABLE DATA

(Continued from page 1.)

of this is spent for meat. The daily requirements are about forty-five million pounds of meat, which requires about 125 million head of livestock each year.

This livestock is produced by about six and one-half million stockmen and farmers in the United States. The collecting, manufacture and distribution of this livestock is the task devolving upon the packers.

"We live in a very large country," said Mr. Hardy. "The middle west and far west is the great producing area for food and clothing, while the largest population is in the east. About 70 per cent of the livestock production is west of the Mississippi and about 70 per cent of the people live to the east of the great dividing river. This means an abundance of raw material in one part of the country and the majority of consumers in another part."

Illustrates His Talk.

Mr. Hardy showed a chart to give emphasis to this thought, explaining it briefly. For instance, the state of Pennsylvania consumes each year about four and one-half million hogs and raises one million, therefore must go outside the state for three-fourths of its pork. He pointed out that the cities in the east had to ship in most of their meats from the west.

Referring to the comment frequently made about the wide range between the price paid for beef on the hoof and the price of meat in the market, Mr. Hardy said a steer weighing 1,000 pounds would produce about 500 pounds of meat, which often brought the packers little more than was paid for the live animal and sometimes not quite so much, the profit on the investment coming from the by-products. He pointed out that the packers had to

High Kid Boots From Paris

SMART high boots of kid are quite the season's sensation in footwear, for they answer the demand of women for shoes that are both comfortable and stylish. Their initial appearance on the avenue created a flurry—first of curiosity and then of approval, until now they are not an uncommon accessory of the street ensemble. Quite different from the high shoes of old, these are not stiff or binding, for they are fashioned of soft, pliant kid, the only leather that is flexible enough to conform to the lines of foot and ankle. Like the popular French boots, they lace snugly up the inside so that the fastening is practically invisible.

High shoes are considered not only smart by women of discrimination, but beneficial as well. Women instinctively question style if it embodies correction, but this shoe successfully combines these

qualities and the correction works as if by magic—unseen. Thick and heavy ankles, occasioned by the constant wearing of low shoes, become trim and slender without forfeiting a moment of chic. The shoes in this photograph are of beige kid combined with black kid ramps and heels and they lace to the new fourteen inch hem line. The straight silhouette of the season is carried out to perfection in this street ensemble. Since Paris has decreed that rich shades of brown shall predominate in furs and fabrics, this entire costume is fashioned in shades of golden brown. The long kolinsky coat which wraps closely around the figure is self-sufficient in its graceful pattern of diagonal stripes. The small felt hat with just a suggestion of a brim is tied in two-toned golden brown and beige satin ribbon harmonizing with the beige kid of the boots.

COUNTY ODD FELLOWS, REBEKAHS MEET MARCH 6

The Odd Fellows and Rebekahs association of Eastland county will hold its semi-annual meeting in Eastland at Odd Fellows' hall on Friday, March 6. The program will be informal and will have to do with business and club work.

H. A. Collins of Eastland is president of the association; H. C. Wipperm of Cisco, vice president, and Mrs. Barbara Wood of Gorman, secretary.

RANGER EXES TO MEET AT GHOLSON FRIDAY NIGHT

For weak Run-down Condition!

THE DOOR of opportunity flings wide its portals only to the man who is up and doing—who is filled with pep and punch—with rich, red blood tingling through his system. Mountain size obstacles divide to ant hills and ambitions become accomplishments to these sort of men.

Where is the employer who seeks the man who is physically run-down? The man without stamina to withstand the knocks and gaff of the hurrying, scurrying world of business?

S.S.S. is the long established and time honored creator of red-blood-cells. You cannot expect to get very far up the ladder unless you are equipped with a body that is strong and vigorous. S.S.S. will start you on your way. Don't allow the "Door of Opportunity" to be closed to you because you have not the stamina to withstand the gaff—because your nerve power is lacking. Build up your system!

S.S.S. made of carefully selected and scientifically prepared and proportioned herbs and barks makes you fit! Get back that old time punch! When opportunity knocks be ready to answer the call!

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.
S.S.S. Makes You Feel Like Yourself Again

look ahead all the time, keep posted on conditions that would affect prices for months in advance, must estimate whether production would be limited or abundant and be informed relative to marketing demand and competition throughout the world.

European Market Promising.

For instance, enormous quantities of pork products are exported to European markets, and the steady improvement in European conditions would soon, it was believed, remove the pressure in this country on pork products.

Replying to a question by Dr. Buchanan regarding the effect of the South American market on the live stock or meat industry in the United States, Mr. Hardy said it had virtually none, as very little is imported from South America. Most of the South American meats are frozen, he said, and go to European markets. But the United States imports about 50 per cent of the hides and most of the goat and sheep skins, which go into the making of the finer grades of shoes.

Leather Business Bad.

Frank C. Brown asked why the price of hides is low and of finished products high, to which Mr. Hardy replied that the leather business had gone to smash after the war and enormous supplies accumulated which were only beginning to be diminished. In 1920 and 1921 it was necessary to hire tanners and there had been no market for hides since 1920 until recently. Most of the packers' hides have been used for harness and belting, he said, very few of them going into shoes except for soles, and harness and belting were in less demand now than formerly.

Mr. Hardy expressed his pleasure in having the opportunity to visit Ranger and address interested citizens on a subject to which he had given much thought and study.

EASTLAND HIGH MEETS OAK CLIFF'S ORATORS

Debating teams of the Eastland High school are scheduled to meet the Oak Cliff High school of Dallas in a contest at the High school auditorium in Eastland Thursday afternoon at 2:30 o'clock.

COMMERCE CHAMBER NOW COMFORTABLE IN GROUND FLOOR OFFICE

The Ranger Chamber of Commerce moved its offices today from the second floor of the Guaranty bank building to ground floor offices in the same building, taking the quarters formerly occupied by C. E. May and the Southern Loan company, now in a Main street location.

Secretary C. C. Patterson and Miss Mabel Knight, his office assistant, were busy all morning placing the furniture and getting the office in shape. The office space will be about the same as formerly, but the chamber will have the advantage of being on the ground floor.

"I believe a ground floor location for the Ranger Chamber of Commerce will prove advantageous," said Mr. Patterson. "It will be easier for visitors in the city to find and more accessible, too, for members, who may be persuaded to come in more frequently and help the officers in what they are doing for the advancement of Ranger."

"The members have been far too bashful in their visits to the Chamber of Commerce rooms and this move may help them get over it."

The auditorium on the second floor of the Guaranty bank building, used by the Chamber of Commerce for conventions and large gatherings and by the Carl Barnes post of the American Legion, will be retained for a while.

U. S. Resumes Formal Mexican Relations

Special Correspondence.

WASHINGTON, Feb. 25—Manuel C. Tellez, the new ambassador from the Republic of Mexico, was received by President Coolidge yesterday and presented his credentials.

This means full resumption of diplomatic relations between the United States and Mexico.

SAYS**
When will prohibition be old
enough to do without its bottle?

There's a fortune for the man who
can make two autos park where only
one parked before.

Crying over spilt milk only helps
to curdle it.

It takes a beauty doctor to make a
mountain out of a mole spot.

Here and there you see a man
worrying himself to death over his
health.

A doctor has discovered people
have a sixth sense. Then that ex-
plains why so few husbands get
away with their lies.

Quite a few young men are follow-
ing in Edison's steps when it comes
to sleep, but not when it comes to
work.

We predict the hottest summer
ever. We always do. And our guess
always seems to be correct.

We know a man who worried so
much about his hair turning gray
that he grew bald instead.

Couples once claimed they never
spoke cross words to each other.
Now they claim they never shoot at
each other.

You are not old, not as long as you
enjoy living.

All things come to an end, but
which end depends upon you.

SAFE FAT REDUCTION

Why be fat? The answer of most
fat people is that constant dieting is
hard, continual exercise is tiresome
and exhaustive—and then, too, it
might be harmful to force the weight
down. That was the old-fashioned
idea. Today in Marmola Prescription
Tablets all these difficulties are
overcome. Just a pleasant little tab-
let after each meal and at bedtime
causes fat to vanish. This modern
method is easy, entails no dieting or
exercising and has the added advan-
tage of cheapness.
Get a box of these tablets and
start taking them now. Within a
short time you will be getting rid of
fat steadily and easily without
starvation diet or tiresome exercise.
You will be comfortable and able to
enjoy the food you like and want.
Even after taking off many pounds,
there will be no flabbiness or wrinkles
remaining. You will feel 100
per cent better. All drug stores the
world over sell Marmola Prescrip-
tion Tablets at one dollar for a box,
or the Marmola Company, General
Motors Building, Detroit, Mich., will
gladly send them to you on receipt
of the price.—Adv.

BANKHEAD GARAGE

**OILBELT CAR SALES
PLEASING TO COMPANY**

Unexpected and gratifying results
are being obtained from the used
car sale of the Oilbelt Motor com-
pany of Ranger, now being held on
the former site of the McCleskey
hotel, corner of Main and Austin
streets, according to M. R. New-
ham, president of the company.

Enthusiasm is rife as the large
crowd of prospective buyers gather
around the cars throughout the day
and especially at night, Mr. New-
ham said. The cars are being rapidly
sold off and the used car depart-
ment of the Oilbelt reports that their
stock is being depleted until they
now have only a few cars left.

The Oilbelt is offering three prizes
to the persons turning in the largest
number of prospective buyers who
buy cars from salesmen of the com-
pany. First prize will be an \$80 set
of cord tires; second prize, \$50 set
of cord tires, and third prize, \$15
lock steering wheel.

The prizes are offered to the per-
son turning in the largest list of
prospects that are sold cars by the
company and not to persons merely
turning in the largest number of
names, Mr. Newham said. A booth
has been erected on the corner of
Main and Austin streets where
names may be registered by persons
endeavoring to win the prizes.

**OLDEN P. T. ASSOCIATION
WILL MEET ON THURSDAY**

The Olden Parent-Teacher asso-
ciation will meet on Thursday. The
following program is announced:
Congress song, led by Mr. Gibson,
followed by a debate on the ques-
tion, "How Far is Conduct an In-
dication of Character: (a) Man-
ners; (b) Speech." Parent, Mrs.
Ross Cribbs; teacher, Mrs. Bridges;
Companionship, ideals, Parent, Mrs.
M. A. Langdon; teacher, Mr. Speer.

There will be an entertaining
number from Mr. Gibson's room and
encouragement for home and school
will be discussed by Messrs. Smith
and Horner.

PALE, NERVOUS

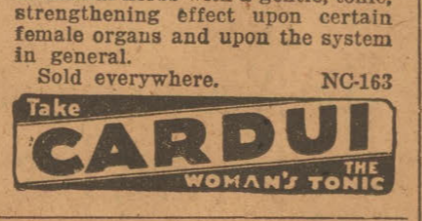

**West Virginia Lady Says That
She Was in a Serious Condi-
tion, But Is Stronger After
Taking Cardui.**

Huntington, W. Va.—"I was in a
very weak and run-down condition
—in fact, was in a serious condi-
tion," says Mrs. Fannie C. Bloss, of
1964 Madison Avenue, this city.

"In my left side the pain was
very severe. It would start in my
back and sides. Part of the time I
was in bed and when up I didn't
feel like doing anything or going
anywhere.

"Life wasn't any pleasure. I
was very pale. I was nervous and
thin, and so tired all the time.
"My druggist told me that Cardui
was a good tonic for women and I
bought a couple of bottles. I took
two bottles, then I noticed an im-
provement. I kept on and found
it was helping me. I have taken
nine bottles. I'm stronger now
than I have been in a long time."

Cardui is made from mild-acting
medicinal herbs with a gentle, tonic,
strengthening effect upon certain
female organs and upon the system
in general.

Girl Kills Rejected Suitor

DOROTHY PERKINS, 18.

Angered because her father rebuked her for continued association
with a thirty-eight-year-old divorced man and her refusal to pay any
attention to the suit of a younger man, Dorothy Perkins, seventeen
years old, shot and killed the younger suitor, Thomas Templeton, of
Jersey City, N. J., in her father's New York home. The bullet was
aimed directly at the girl's father and passed through his coat, striking
Templeton in the heart.

**Ty Cobb Prepares
For Spring Tryouts**

DETROIT, Feb. 25.—On March 1
Manager Ty Cobb will marshal his
forces in Augusta, Ga., and start pre-
paring his men for their pennant
dash.

Ty will have just 32 athletes, ex-
clusive of coaches, who will be out
there trying for jobs. His crew will
include six outfielders, three catch-
ers, eight infielders and 15 pitchers.

In the squad will be a number of
men new to the major leagues and a
few who have never had profession-
al experience, but come from col-
leges and sand lots highly recom-
mended by scouts who have looked
them over.

**BUCKET SHOP OPERATORS
GRAFT TOTALS BILLION**

By United Press.
CHICAGO, Feb. 25.—Bucket shop
operators and vendors of fake se-
curities are robbing the public of one
billion dollars annually, E. H. H.
Simmons, president of the New York
stock exchange, told local stock ex-
change officials and bankers here to-
day in urging concerted action to
protect the public.

"All classes suffer from the op-
erations of the unscrupulous swin-
dlers," he said, "but among the
widows and the unspiciated the
swindler finds his biggest suckers."

ard farm, north of Jones farm.

NEW STUDEBAKER COACH ARRIVES ON AUTO MARKET

Latest Motordom Achievement Sets Standard for 1925 Car Building.

Long looked for with much interest, the Studebaker coach comes into the automobile market this week with a new standard of construction for this type of car. Built for the same long-time ownership and service of all Studebaker products, the standard six coach, with a 33-inch wheel base and with a 50-horsepower engine, teems with quality of construction.

Striking in the appearance of its Belgian blue, low-swung body, with black, satin-finished, lacquered top, the new coach comes with full steel panels, and the same high quality of framework as characterize all body building by this pioneer vehicle-making company.

The chassis is the full standard six chassis, which has set new records in the industry for reliability and durability. Tires are full balloons, around the lines of which the whole body—and even the fenders—has been built to conform.

Roominess Is Feature. Roominess is one of the outstanding characteristics of this coach. The broad doors provide for easy entrance; rear windows are nearly as wide as the doors. The rear seat back is high, giving restful riding quality. Upholstery is woven from mohair and wool, rich in its coloring effect. It covers the same, deep, springy, durable cushions which have given Studebaker cars a reputation for riding comfort.

A New Convenience. The back of the folding seat can be tilted forward to enable rear seat passengers to enter or leave the car without forcing occupants of the folding seat to get out.

Radiator cap is winged and ornamental in enamel. Running boards are aluminum-bound on all four sides, clamping a heavy, navy linoleum mat, rubber cemented under pressure to the board itself.

Inside the car, an automatic windshield cleaner and rear-view mirror; a gasoline gauge showing gallons, assembled with all the other instruments under one oval glass, and give the driver at one glance a complete graph of how his whole car is operating.

Wheels are natural wood finish. There is a combination stop-and-tail light. The rear tire carrier has a theft-proof lock and the gasoline tank is protected and beautified with a heavy steel apron.

On Standard Chassis. The Studebaker coach has a cowl ventilator, operated with the foot and, inside, the driver's floor-board is of heavy, embossed aluminum, shutting out dust and cold drafts.

All this is mounted on the standard six coach chassis without a single elimination or curtailment. This means the big, 50-horsepower engine which has already established so many records with its reserve power.

It means big, powerful brakes, steering equipment to accommodate the big, full-sized balloon tires. And the same heavy fenders, fitted to the deep heavy frame with six cross-members for rigidity.

The emergency brake lever projects out from and under the instrument board, out of the way, yet grasped more easily than before.

Spark advance has been made automatic, timing itself exactly by the speed of the engine, and the driver has one less thing to think about.

To end foot fatigue, a ball-type foot accelerator is provided, to which pressure may be applied from any point of its circumference; now the foot may rest flatly and comfortably on the aluminum footboard.

As on all Studebaker power plants, the oil, returning to the crankcase after going through the engine, returns within a circular screen, so that the grit and sediment never reach the reservoir of oil. The entire crankcase can be drained without getting under the car and without soiling the hands, by turning a valve which is located beside the engine oil filling pipe.

The standard six coach will appeal to everyone who seeks high quality in a low-priced car.

LAMB THEATRE TODAY

Scene from "BUTTERFLY" A UNIVERSAL JEWEL BY KATHLEEN NORRIS

PENILESS GIRL UNCLAIMED, MUCH WANTED WHEN RICH

PARIS.—When little Stephanie Caruel came into the world nobody wanted her. Her father did not come forward and so she was registered in the birth records as an "enfant naturelle." Her mother died soon afterwards, and refused to tell the name of the child's father.

But now, when Stephanie is four years old, three proud "papas" are fighting to establish their claims of paternity. She was a dear little girl from infancy, and her maternal grandfather quickly learned to love her. He was a prosperous farmer in the neighborhood. When her mother died, he saw that the child had every care.

Last year the old farmer died, leaving a will in which he bequeathed his estate, including valuable property and 200,000 francs in cash to Stephanie, his only granddaughter.

It was this news that inspired the rush of fathers. Each of three men, living in the neighborhood, stoutly maintains that she is his child, though not one of them was heard to murmur a word when her mother died.

An administrator was named to look after the estate until Stephanie becomes of age. He will not listen to the fatherly three, and points to the official records to prove on Stephanie's behalf that her father is "unknown."

The Art of Cooking

NOW CLASSED AMONG THE SCIENCES

Back to the days when primitive man first cast the ruddy glow of firelight on his cavern walls through the rubbing together of sticks—on to the era of flint and steel, when venison turned over the glowing coals of a kitchen fireplace, to the present day when a world's attention is centered upon the nutritive value of various foods and the matter of their preparation—the art of Cooking has kept steadily apace with the Spirit of Progress.

Hear this interesting subject lectured upon and see the highly educational demonstrations which will be featured at the

RANGER DAILY TIMES HOME FORUM

COOKING SCHOOL

To Be Held at the

Gholson Hotel, March 9-14, inclusive

Afternoons, 2 to 4 o'Clock

All Foods Are Not Proper Foods

It all depends upon those who consume them. What is nourishing food to one may prove greatly detrimental to the well-being of another. What to one person may prove to be a builder of rich, red blood and strengthening tissue, may succeed only in creating a series of woeful physical conditions in persons differently constituted.

These are subjects every housewife should be interested in.

Mrs. Chitwood

Did You Ever Think of This?

That the human being—man, woman or child—is after all merely a natural product of a highly organic nature—a product of that which he or she absorbs? This is obviously true.

And knowing this, is it not then easy to understand that a properly functioning organism must be maintained through foods in which organic substances still predominate?

In proper food preparation only can this be made possible.

MRS. IDA CHITWOOD

LECTURER AND DEMONSTRATOR

Will tell you all about these important matters during the course of her five-day lectures. She prepares foods as you watch and listen to her; tells you just how to prepare them to make them the most healthful and palatable.

Tells you how to budget your household finances in order that you may derive the greatest possible amount of benefit from your income. This in itself is a subject of vast material benefit to every woman in Eastland County.

Mrs. Chitwood is a lecturer and food expert of international prominence. Her experiences during the war, on the great plains, in the wilds of India, among the Chinese and people of other nations, have given to her an education in food values and food preparation that falls to the lot of but few.

WE INVITE YOU TO COME AND HEAR HER DISCUSS:

- The Gracious Hostess
- The Budget Problem.
- School Luncheons.
- Making the Ends meet.
- Meals for the Worker, Office Man, Child.
- The Quest of the Slim Silhouette.

SENATOR BRUCE WARM COOLIDGE ADVOCATE, CLAIM

Maryland Senator Joins in Opposing Federal Aid Proposal.

WASHINGTON, Feb. 25.—President Coolidge has found a vigorous champion in the senate for his opposition to further extension of federal aid to states in Senator William C. Bruce, of Maryland, a man of opposite political faith.

Federal aid in Bruce's opinion, is "one of the subtle and pernicious ruses" whereby the republican party "is trying to turn over to the federal government the powers of the state to govern themselves."

"Like the salty pretzel with which the old-time saloon-keeper whetted the thirst of his patrons, federal aid induces the states to despoil themselves with their own hands, the domestic jurisdiction with which they were endowed by the constitution," he says.

Bruce led a fierce but unsuccessful fight against the largest item of federal aid, the \$75,000,000 a year federal good roads bill.

Bureaucracy Threatens. "We must terminate this practice, unless we are to become a pure bureaucracy and relinquish all state rights into the incompetent hands of the government," Bruce said.

State aid has already made serious inroads on states rights, he contended. Examples of federal usurpation he cited are: the Smith-Hughes act for joint promotion of vocational education; the Smith-Lever act for co-operative extension of agriculture; the good roads ap-

propriation bill; the Sheppard-Towner maternity and infant welfare act; the Chamberlain-Kahn disease control bill and the industrial rehabilitation act.

Chains State Rights. All the measures have unqualified merit, Bruce believes, but are a network of laws that are to be used as a basis for future "links in the chain which is being bound about state rights," he declares.

Bruce attacked with bitterness the eighteenth amendment, branding it as "the most unneutral constitutional mandate ever issued by the United States government."

"One of the greatest mistakes is to believe that the idea of state sovereignty is peculiar to the south," Bruce continued. "I am sorry to say that while the south has been drifting away from the principle, the north has been swinging back. Nowhere is the doctrine of self-government flourishing more strongly than in the New England and central states."

Absolves President. Bruce declared that President Coolidge was not following his party in their plan of destroying state autonomy. He quoted the president's message in which the president urged a restriction in allying the work of the state and federal governments by federal government responsibilities that are rightfully theirs.

"The insistent spread of popular feeling which is springing up at the present time in all parts of the country and inspiring state after state to visit with the verdict of its condemnation the proposed child labor amendment to the constitution is a warning sign that the people are being aroused," Bruce continued.

"Like Samson of old when robbed of his omnipotent locks by Delilah, the people of the United States have permitted themselves to be deprived of a large portion of the state authority with which they were originally endowed. There is a retroversion now and the people must push it to its furthest limit and win back to themselves the sound idea of state rights and state sovereignty which was so dear to the forefathers of this country."

NARCISSUS. You will find genuine Black Narcissus, Houbigant, Coty's Perfume and Toilet Water at the Texas Drug Co.—Adv.

DRINK WATER IF KIDNEYS BOTHER

Take a Tablespoonful of Salts if Back Pains or Bladder is Irritated.

Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food forms acids which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken; then you may suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

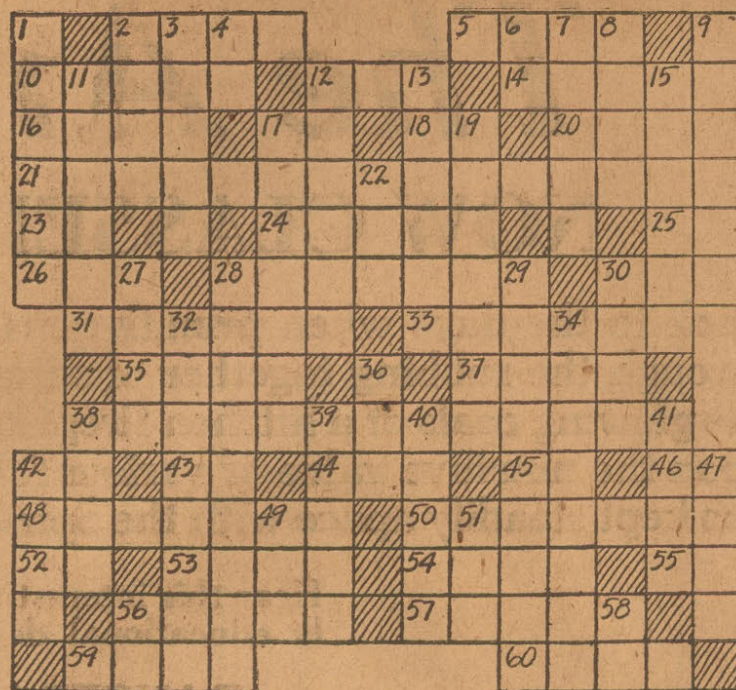

To help neutralize these irritating acids; to help cleanse the kidneys and flush off the body's urinous waste, get four ounces of Jad Salts from any pharmacy here. Take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate sluggish kidneys; also to neutralize the acids in the system so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive; can not injure and makes a delightful effervescent lithia-water drink. By all means have your physician examine your kidneys at least twice a year.—Adv.

LONE STAR FIELD TRIALS ARE ON AT WEATHERFORD

WEATHERFORD, Feb. 25.—The Lone Star amateur field trials opened here Monday with many enthusiastic birdmen in attendance. Many ladies of this city were among those who followed the dogs at the grounds, three miles south of here. Twenty-five minutes was allotted to each race.

Baby Reveals Tellegen Wedding

ISABEL CRAVEN DILWORTH and LOU TELLEGEN

Lou Tellegen, divorced husband of Geraldine Farrar, grand opera star, it has just been revealed, has been married again for a year and a half, his wife being the former Miss Isabel Craven Dilworth, of Philadelphia, member of a wealthy society family there. The romance was revealed by the crying of a babe in their Los Angeles hotel, where both are appearing in "The Whole Town's Talking." The baby, eight months old, was born in Tellegen's Florida bungalow on July 23, 1924. The Tellegens declared they were supremely happy. This is Tellegen's third matrimonial venture, his first wife having been Countess Jeanne de Brontzen, by whom he has a daughter now a student in Paris.

EPISCOPAL SCHOOL RANKS AS APPROVED JUNIOR COLLEGE

DALLAS, Feb. 25.—Word has just been received by the authorities of St. Mary's college, Episcopal, that the state department of public instruction has approved the recommendation of the board of examiners ranking St. Mary's college of Dallas as an approved junior college, the recognition to include the year 1924-25.

This action together with the recent election of the college as a member of the Southern Association of Schools and Colleges secures for St. Mary's full recognition of its scholastic standing.

PREVENTS INFECTION.

The greatest discovery in flesh healing is the marvelous Borozone, a preparation that comes in liquid and powder form. It is a combination treatment that not only purifies the wound of germs that cause infection but it heals the flesh with extraordinary speed. Bad wounds or cuts which take weeks to heal with the ordinary liniments mend quickly under the powerful influence of this wonderful remedy. Price (liquid) 30c, 60c and \$1.20. Powder 30c and 60c. Sold by Phillips Drug Store and Texas Drug Store.—Adv.

NEW TRAP RECORD.

CHICAGO, Feb. 25.—Frank Hughes, member of the United States Olympic trapshooting team, established a world's record Monday by breaking 135 double targets in a straight run in the mid-winter tournament of the Lincoln Park Gun Club.

PIMPLES QUICKLY CLEAR UP

So-called skin diseases are caused by poisons from the perspiration becoming congested in the tiny pores and glands of the skin because they can't get out. Unhealthy skin holds them back and you know what must happen when you continue to let this condition exist. For this reason "skin lotions," etc., can't possibly help you any. You need what is known as Black and White Ointment, which heals the sores, builds up the tissue of the skin, makes it active, so it naturally expels all the acid poisons which the system must throw off through the pores. Then, pimples, blotches, "breaking out," eczema, etc., quickly disappear.

Black and White Ointment is economically priced in generous packages. The 50c size contains three times as much as the 25c size. All dealers have Black and White Soap, too, so you can keep your face, neck, hands and arms lovely and clear.—Adv.

Facts about Child-birth

It has been proven conclusively that much of the suffering, pain and dread experienced during pregnancy, as well as at child-birth is entirely unnecessary.

An eminent physician, Dr. H. Holmes, expert in this science, first produced the remedy "Mother's Friend," which aids the muscles and tissues to expand more easily, during the constant readjustment, month after month, right up to the climax of child-birth. "Mother's Friend" is applied externally. Three generations of expectant mothers have used it. "Pains disappeared in two days after using 'Mother's Friend,'" writes a user. "I owe my life to 'Mother's Friend,'" declared another. Use "Mother's Friend" as our mothers and grandmothers did, start today and experience the wonderful comfort it will give you.

FREE BOOKLET Write Bradford Regulator Co., Dept. B-A 38, Atlanta, Ga., for free booklet giving many facts every expectant mother should know. "Mother's Friend" is sold at all good drug stores—everywhere.
