## PROPOSAL TO ENRICH TEXAS OFFICIALS

### IDLERS MAY NO LONGER LOUNGE ABOUT RANGER

#### Police Plan Drives on Places Where They Loaf and Will Provide Work.

A drive will be inaugurated by the Ranger police to clear the city of all idle persons who will not work. Orders to clean up Ranger of its undesirable by arresting them and vaggabing all by the city commission to the police at the commission's regular weekly meeting yesterday afternoon. All undesirable will be taken into the police net and the men put to work cleaning up the city streets, alleys and vacant lots. Women caught in the net will be forced to pay fines or leave town.

"The payment of a fine will not exempt the party from being vaggabed again within a short time afterwards," said Police Chief Davenport, "if they won't work or leave town."

Heretofore it has been the custom of the police to give persons arrested a chance to pay fines imposed, accepting partial payments. But this is not a part of the present plan. It is understood that all idle men who cannot give sufficient reasons for their being unemployed and who frequent places placed on the black list by the police department will be rounded up and arrested as vaggabes.

Permission was given to the Prairie Oil & Gas company to lay a four-inch main from the Sinclair camp to their warehouse located near the Texas & Pacific and Wichita Falls, Ranger & Fort Worth railways on the Sinclair road. A fire plug will be installed by the city and fire water used for the purpose of fire prevention only. The plug will not only lower the fire risk of the warehouse to a minimum by giving water protection in case of a blaze but will reduce the company's insurance.

Fire Chief G. A. Murphy appeared before the commission with the request from the Prairie company and also announced that the roof siren has been ordered on approval and will be ready for installation in a short time. The roof siren was ordered by the fire department to serve three purposes: to secure the right of way in the streets for the fire department trucks, to notify the fire department volunteers and to reduce the insurance rate for the town. Funds to purchase the siren were raised by the fire department through a percentage of gross receipts paid by the Brunk comedians and by donations from the large gas and oil companies operating around Ranger.

### ALARM IS FELT FOR SAFETY OF MISSING WOMAN

#### Former Similar Disappearance Fecalled, But Friends Continue Search.

NEW YORK, Jan. 28.—Alarm was felt today for the safety of Miss Ethel Leginska, missing pianist, notwithstanding a report from London that she had once disappeared in that city just before a recital she was scheduled to give there and, reappearing after several days, had explained that she had run away because of a sudden fear that she would be unable to play.

No one in authority to speak would come forward and say where Miss Leginska might have gone. Miss Lucille Oliver, friend and pupil of the pianist, insisted she had not heard from Miss Leginska. It was Miss Oliver who reported the disappearance, which occurred shortly before the pianist was to have appeared in Carnegie hall for a concert Monday night.

### THREE DAYS TO PAY POLL TAXES

#### Eastland County Citizens Reported Unusually Slow This Year and in Ranger About Four-Fifths of All Due to Pay Poll Taxes Delinquent Thus Far.

Citizens of Eastland county appear to be taking little cognizance of the fact that Saturday is the last day on which they may pay their poll taxes and be eligible to vote in the elections of the year. Two important city elections are scheduled in Ranger early in April at which time a new city commission will be elected and several new school trustees. These are two questions that concern the welfare of the town and it is the duty of every eligible voter in Ranger to pay their poll tax before Feb. 1. Various school trustees and other elections will be held in the county.

With three more days remaining in which citizens may pay their poll tax, indications are that the total this year will fall far short of last year. Deputy Poll Tax Collector C. E. Maddocks reports that a total of only 555 receipts having been issued by him to the voters of Ranger up until 12 o'clock today. Seventy-one of these were exemption certificates.

Very few women have paid their poll taxes for the coming year, Mr. Maddocks reported. Few people realize that it is required by law that women as well as men pay their poll taxes and a number of men are paying only for themselves. Whenever a taxpayer of Ranger who is eligible to vote pays his county taxes he will find that the sum of two poll taxes will be added to his total assessment if he has failed to pay. If he paid his poll tax and did not pay for his wife he will find the sum of one poll tax added to the total amount assessed against him.

Unless the voters of Ranger move faster, those who have been putting it off until the last day will find themselves in a line extending for some distance and as there is a limit to human endurance the office of the poll tax collector in Ranger may be unable to take care of all of them. Only three more days remain in which to pay the poll taxes and a hint to the wise should be sufficient.

### Yeggmen Raid Bank At Riesel, Escaping With About \$9,000

### POLITICAL RIVAL WILLING TO FILE OUSTER PETITION

BOSTON, Jan. 28.—When James Lucey, cobbler-friend of President Coolidge, recently sought to have filed a petition in the house of representatives that would unseat the man who defeated him in the last election, he found only one representative willing to do the deed.

That man was James H. O'Dea, who defeated Lucey, and who would be unseated if the petition carries. Lucey claims he really won the election, by a small margin, but that through a blunder on the part of the Northampton city clerk, a recount was not ordered. Michael J. Lucey, a brother of the president's friend, prepared the petition, but met a technical cold shoulder from every member of the legislature except O'Dea himself.

SAN ANTONIO, Jan. 28.—Thirteen Oklahoma families who sold all their holdings to find a Utopia in Mexico have disbanded here, having learned they had been defrauded. The group of 55 persons had reached Laredo on their way to the southern part of the state of Vera Cruz before they learned they were almost penniless.

At Laredo they had expected to be met by agents of the Mexican government who would arrange their transportation to Vera Cruz, but instead they were told that the land they had purchased did not exist. All the families are from Checotah, Okla.

Several carloads of mules, horses, hogs and chickens which the colonists were taking to Mexico were stopped here when the group learned of their predicament. They had paid \$2 an acre for the Mexican land.

### Young County Tract Of Land Is Won By Plaintiffs In Suit

FORT WORTH, Jan. 28.—Hyman J. Sloan of Rochester, Minn., administrator of the estate of the late Isaac Styles, is en route to Texas to take possession of a large tract of Young county land recently declared to be the property of heirs of the estate by the circuit court of appeals at New Orleans.

The lands include 1,482 acres of the Margaret Edmonds survey and the 100-acre D. M. Russell survey which joins it on the east, situated some 12 miles west of the South Bend field and an equal distance southwest of Newcastle.

Claim to the land was set up by Sloan, on behalf of the heirs, in federal court at Wichita Falls several years ago, and the case, later transferred to Fort Worth, was tried in March, 1923. The suit was styled Sloan against W. H. Penix and J. Lee Costly.

It was alleged by the plaintiffs that deeds to the land had been forged. Penix being in the role of an innocent purchaser. Being in possession of the land, however, the action was directed at him, and on March 29, 1923, a jury in federal district court returned a verdict in favor of the heirs. The case was appealed to the circuit court on a writ of error, and a mandate affirming the verdict of the trial court was issued at New Orleans on Jan. 6.

### CZAR OF UNDERWORLD NEAR DEATH YET VERY ANXIOUS FOR REVENGE

CHICAGO, Jan. 28.—Gummen have been imported from New York and Cleveland to avenge the shooting of John Torrio, king of beer runners and czar of the underworld, police revealed today. Torrio is expected to die almost any moment.

Word from the czar's retainers to the police is that they are anxious to punish those responsible for his condition before he dies.

The death of Torrio would remove the last of the three kings who ruled the underworld with a rod of iron for three years. Torrio, true to traditions of the underworld has steadfastly refused to reveal the identity of his assailants to the police. Torrio is reported to be worth more than a million dollars and word has gone around that a large sum is being spent to avenge him.

### Four Young Boys Caught Trying To Market Fire Water

SAN ANTONIO, Jan. 28.—Bootlegging activities barely missed the kindergarten early today when four boys ages ranging from 11 to 14 were arrested while carrying on negotiations for the sale of hooch to a man. The boys had eight hints of firewater in their possession when arrested. Three policemen approached the group but frightened the customer away. Disposition of the case presents a new angle here in the enforcement of the prohibition law.

**Alaska Dog Teams Run Across Country In Race With Death**

By United Press.  
 ANCHORAGE, Alaska, Jan. 28.—With relays of the fastest dog teams in Alaska held in readiness at wide intervals, a race with death started today over a distance of approximately 1,000 miles between the points of Nenana and Nome, to carry medical supplies to scores of Nome residents stricken with diphtheria.

Every tube of anti-toxin available has been loaded on sleds with other medical supplies and the best dog drivers in the north country have volunteered to aid in the fight to save the sufferers from death.

The serum which it is hoped will check the epidemic, was sent by train to Nenana, a distance of 300 miles, from this town, where William Shannon, crack driver, loaded the precious packages on his sled and mushed away through weather 54 below zero to the first relay station.

This is the second time in the history of the territory that such a race has been made with diphtheria, the most dreaded malady in the north land. In 1920 Dr. N. E. Beeson, resident physician at the government hospital here, who made ready the anti-toxin for the relief of Nome at this time, mushed over perilous trails six hundred miles to Iditarod, where an epidemic had broken out.

**HELP KIDNEYS BY DRINKING MORE WATER**

Take Salts to Flush Kidneys and Help Neutralize Irritating Acids.  
 Kidney and bladder irritations often result from acidity, says a noted authority. The kidneys help filter this acid from the blood and pass it on to the bladder, where it may remain to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread; the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.  
 Bladder weakness, most folks call it because they can't control urination. While it is extremely annoying and sometimes very painful, this is often one of the most simple ailments to overcome. Begin drinking lots of soft water, also get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast. Continue this for two or three days. This will help neutralize the acids in the system so they no longer are a source of irritation to the bladder and urinary organs, which then act normal again.  
 Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by acid irritation. Jad Salts causes no bad effects whatever.  
 Here you have a pleasant, effervescent lithia-water drink which may quickly relieve your bladder irritation. By all means have your physician examine your kidneys at least twice a year.—Adv.

 Galveston, Texas.—"One year ago I was suffering with indigestion. Everything I ate hurt me and I had almost constant headache. I tried several remedies which did me no good. Then I decided to try Dr. Pierce's medicines. I took the 'Golden Medical Discovery,' which was highly recommended for stomach trouble, and the 'Favorite Prescription,' a celebrated feminine tonic, and I improved right from the start, and by the time I had taken a few bottles I was well."

**Grip Left You a Bad Back?**

Is winter time your backache time? Are you lame, stiff and aching; tortured with constant backache and sharp stabs of pain?  
 Look, then, to your kidneys! Grip, colds and chills weaken the kidneys and prevent them from properly filtering the blood. Then follows nerve-racking backache, sudden stabs of pain, headaches, dizziness and annoying kidney irregularities. You feel weak, tired—all worn out.  
 Don't wait! Delay may prove serious. Use Doan's Pills. Doan's have helped thousands. They should help you. Ask your neighbor!

**HERE IS CONVINCING PROOF:**  
 John Wahn, prop. shoe repair shop, 1904 1/2 Washington Ave., Houston, Tex., says: "My back was weak and when I sat down for awhile, sharp catches took me through back and it was hard for me to get up. My kidneys acted too freely, especially at night. After using Doan's Pills, my kidneys were regulated and the backaches disappeared."

**Convict's Wife Gives Testimony In Secret Session; Pardons and Paroles.**

By United Press.  
 HUNTSVILLE, Jan. 28.—With Representative T. K. Irwin, Dallas, serving in the role of district attorney, the house subcommittee investigating the state penitentiary system today turned its attention to an investigation of "scandal," after a night session of inquiry into prison finances.  
 The subcommittee went into secret session at 9:30 o'clock this morning to hear the testimony of a convict's wife who alleges she made a trip to Houston from Huntsville,

registering at a local hotel, and was given a room next to that of a prison official. The following day the woman's husband was made a trustee, according to the woman's statements.  
 In addition to the testimony of the convict's wife, today's session of the committee will focus attention on alleged irregularities in pardons and paroles which are charged in the Irwin resolution. In that connection the record of John Vixarell, criminal court clerk, will be scrutinized.

 "Life wasn't any pleasure. I was very pale. I was nervous and thin, and so tired all the time.  
 "My druggist told me that Cardui was a good tonic for women and I bought a couple of bottles. I took two bottles, then I noticed an improvement. I kept on and found it was helping me. I have taken nine bottles. I'm stronger now than I have been in a long time."

### RANGER LOSES FIRST GAME TO CISCO QUINTET

#### Second of Series to Be Played in Cisco Next Friday

Ranger High school quintet bowed their heads to defeat for the first time this season to a high school team when they played Cisco last night at the Ranger gymnasium, losing by a score of 25 to 21. An extra five minute period of playing time was necessary to decide the winner, as the game ended 21 to 21.

Ranger's passing machine was crippled through the failure of big Johnson, rangy center of the Bulldogs to play in his usual form. Johnson was out of condition and was unable to maintain the fast pace set by both teams throughout the game. The Bulldogs came to life occasionally and showed flashes of form that enabled them to defeat three major high school teams of Fort Worth, and gave the Loboes a hard battle for the game.

Cisco, unheralded and with few strenuous practice games, showed a reversal of form and got the jump on the Bulldogs from the starting whistle, ringing up two field goals and one foul for five points to Ranger's one free throw.

**End of First Half.**  
The first quarter ended with the score 5 to 1. Taylor, shifty guard who was playing forward last night, opened up the fireworks with a long shot from mid court and Harvey followed with another. The Bulldogs came to life and, with Johnson functioning smoothly with Harvey and Taylor, two more field goals and a free throw were rung up for a score of 10 to 8 in favor of Cisco when the half ended.

After a few minutes of rest the Bulldogs came back on the court with a fighting glint in their eyes and started off the third quarter with a rush. The last half was split between the two teams with the Bulldogs having the edge over the Loboes, ringing up 13 points to Cisco's 11. The game ended 21 to 21 and an extra five minute period was finally called, after considerable wrangling by the Cisco coaches with the referee. Cisco scored two field goals for four points during the play-off to the Bulldogs' none and game ended 25 to 21.

The game was one of the hardest fought and most exciting witnessed on the Ranger court, especially during the last half. First one team

### TRACK EVENTS SCHEDULED TO MEET NEXT MAY

#### Athletes of Southwest to Compete in Games at University of Texas.

By MOULTON COBB.  
AUSTIN, Jan. 27.—Athletes from all parts of Texas and the Southwest are accepting invitations to take part in the first annual relay games of the University of Texas, May 27, according to Alex Waite, assistant Longhorn football coach and director of the meet.

More than 400 invitations have been sent to high schools, academies, junior colleges, and universities in the Southwest, and it is believed that practically all of them will be represented here.

A program consisting of field and track events and special relay features has been planned, and it is probable that several athletes of national reputation will be here to participate in the meet. It is believed that special railroad rates will be secured for the attraction.

The new memorial stadium, with a seating capacity of 35,000, will be the scene of these contests, and one of the best tracks in the United States has been completed for this occasion. The 220-yard straightaway, the feature of the track, is 30 feet wide, five feet wider than any other similar path in the Southwest. The width of the straightaway makes it possible for 10 athletes to run abreast and thus eliminates the need for so many preliminary heats.

Within the concrete curbing in the stadium field, practice pits have been constructed at the north and south ends, and the exhibition pits for the broad and high jump and the pole vaults have been placed on the east and west sides, running parallel to the side section seats.

The second game of the series will be played at Cisco next Friday night at the high school gymnasium.

**Line-up**—Ranger, Harvey and Taylor, forwards; Johnson, center; Bohanan and Phillips, guards. Cisco—Pippin and Sowell, forwards; O'Brien, center; Huster and Yeager, guards.

**Substitutions**—Ranger, Shipp for Bohanan, Lemley for Johnson. Cisco—Browne for Huster (1), Browne for Huster (2), Crouch for Yeager. Referee, Shelton of Howard Payne.

**ALPINE**—Much interest is now being evidenced along the lower border of the Big Bend county in the great southern pine belt. The national government under the Clarke-McNary forestry act would provide, among other things, for national forests to be established on military reservations subject to regulations agreed upon by the secretary of war and secretary of agriculture.

### Permanent roads are a good investment—not an expense

**—and No Place to Go!**

We find ourselves, almost without realizing it, a nation on wheels.

We drive or ride in 16,000,000 motor vehicles.

We pack the paved highways coming in and out of town. We over-run even so-called remote regions. And we are pounding to pieces all but permanent roads.

Next year 4,000,000 new cars will be on the road. Compared to this increase, the mileage of new permanent roads will be insignificant.

We don't want to be a nation on wheels, with no place to go.

The answer is, build more, and where necessary, wider concrete roads—and start building them now.

Not in a long time have general conditions been so favorable for carrying on such public works as permanent highway building.

Your highway authorities are ready to carry on their share of this great public work. But they must have your support.

Tell them you are ready to invest in more Concrete Highways, now.

This machine looks just like an ordinary typewriter save that a small motor is attached to the frame on the right hand side. To write with this new machine one proceeds as if it were an ordinary typewriter. The keys control the escapement action, but the electric motor supplies the power for moving the type levers and making impressions upon the paper.

**CHRISTOVAL**—Much interest is being shown at Christoval, one of the most attractive summer resorts in West Texas, in the construction of new residences. Christoval is the annual convention grounds of many religious denominations that hold their annual meetings. The rugged banks of the South Concho, the large and beautiful pecan trees and live-oak groves are second to none in West Texas.

### FOR WORKING PEOPLE.

The best of workers get out of sorts when the liver fails to act. They feel languid, half-sick, "blue" and discouraged and think they are getting lazy. Neglect of these symptoms might result in a sick spell, therefore the sensible course is to take a dose or two of Herbine. It is just the medicine needed to purify the system and restore the vim and ambition of health. Price 60c. Sold by Texas Drug Store and Phillips Drug Store.—Adv.

### PIMPLES AND BUMPS ARE AWFUL PESTS

Girls and women of the most even dispositions are quick to resent direct attacks on their character, or bold advances. But it is hardly explainable why these same folks tolerate disfiguring pimples, blotches, bumps, "breaking out," etc., which are even worse pests than that.

These skin diseases quit annoying people quickly after first few applications of the wonderful Black and White Ointment, and the regular use of Black and White Soap. The cost is so small none need hesitate because they "can't afford it." The 50c size of the Ointment contains three times as much as the liberal 25c size. All dealers have both Black and White Soap, and Ointment.—dv.

**Eczema**  
*At last a good night's sleep!*

**OH!** The joy of a peaceful, restful night. What a wonderful "up and going" feeling follows such a night of undisturbed slumber.

Oh! What tortures—what agony—what despair—goes with the nights when eczema and other skin diseases hold you awake and drive you rest and peaceful slumber. For under the cover of darkness like crafty beings of the underworld these eruptions work their most serious havoc.

S.S.S. is the established conqueror of these annoying skin diseases. S.S.S. drives these ever disturbing elements from your system—elements that carry in their wake—lack of energy—undermining health! You may try in vain to get rid of them by using salves, lotions, washes, all to no purpose. You can't do it that way—the seat of the trouble lies deeper—in pure blood trying to throw off poisons through the tender skin.

S.S.S. purifies the blood. It aids Nature in creating new red-blood-cells by the million! Blood-cells that send new rich blood coursing through your system. Red blood that drives away eczema—drives away pimples, blackheads, boils and rheumatism, too. An increase in red-blood-cells means added strength, added vitality and renewed vigor. Because the medicinal ingredients of S.S.S. are purely vegetable, it may be taken with perfect safety. Start taking S.S.S. today and watch it rout that annoying, skin destroying, health undermining army that holds your system in its grasp! Learn again what it means to enjoy peaceful, restful nights of slumber.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.
