Strikers Wait Washington Development

By The Associated Press A ripple of activity stirred the nation's waterfront today, due to release of AFL-managed ships and foreign vessels from CIO picket lines, but the bulk of America's Maritime fleet still was anchored fast by the 14-day-old seamen's strike.

Wallace May Be Told To Keep Quiet Or Quit

Negro Draws Five-Year Term For Murder

A jury verdict returned at approximately 8:30 p.m. Tuesday set Oscar David Williams' sentence at five years in the state penitentiary. Williams, a negro ex-sailor was found guilty of shooting Verdell Smith to death after an exchange of words in a business establishment in the northwest part of town last February 22.

Letter To President Released Without Specific Approval

WASHINGTON, Sept. 18 (AP)—Top administration officials said today President Truman has decided to tell Secretary of Commerce Henry A. Wallace he must quit talking about American foreign policy or get out of the cabinet.

Wallace was due at the White House at 2:30 p. m. (CST). Less than 24 hours earlier he made public—without Mr. Truman's approval—a letter he wrote the chief executive last July urging that this country agree to "reasonable Russian guarantees of security" even at the risk of "appeasement" crises.

"We have little time to lose," Wallace said in calling for a "shift in some of our thinking about international matters."

The letter, which Mr. Truman simply acknowledged and passed on to Secretary of State Byrnes, proposed a long list of moves Wallace said should improve American-Russian relations.

The President specifically "disapproved" release of the letter for general publication on the grounds that his approval might be misconstrued abroad as applying to its contents as well.

But, his decision—reversing an earlier one by White House Press Secretary Charles G. Ross—came too late. Copies had been distributed among reporters at the Commerce Department after it had been learned that a columnist was about to make the document public.

Whether Wallace would choose to keep his position in silence or get out and fight for the foreign policy he believes America should have was his own secret for the moment. But at least some of those close to him expressed belief he would elect to get out rather than be gagged.

Swiftly, these other details were learned from top administration officials:

1. Wallace, already at work on his scheduled September 24 speech at Providence, R. I., hoped last night to have it ready to take to the conference with the President.

2. The President is deeply concerned about the effect abroad of Wallace's foreign policy declarations.

3. Through Undersecretary of State Will Clayton, who conferred with him late yesterday, Mr. Truman has sent a message to Byrnes at Paris thanking him for his forbearance and understanding throughout the Wallace controversy.

4. Mr. Truman's stated approval—later withdrawn—of Wallace's New York speech last Thursday which touched off the uproar is being explained by some of his aides as having been given after hearing only a disjointed reading of the text.

5. Mr. Truman's stated approval—later withdrawn—of Wallace's New York speech last Thursday which touched off the uproar is being explained by some of his aides as having been given after hearing only a disjointed reading of the text.

Houston Phone Workers Strike

By The Associated Press Houston telephone workers walking off the job to attend a continuous meeting today in a dispute over seniority, brought the number of major strikes in Texas to two, while a transportation strike and electrical strike loomed.

Already on strike at Texas ports were members of the National Maritime Union (CIO). D. L. McCowen, president of the Southwest Telephone Workers Union, predicted in St. Louis, Mo., that the dispute would spread throughout the Southwest.

The walkout was to protest the action of the company in promoting two employees, while, according to the union, three employees with greater seniority were equally capable of holding the jobs.

Telephone company executives manned the switchboards for emergency calls. Dial telephone service was not interrupted.

The Maritime Union striking for pay raises equal to those recently approved for AFL Maritime workers, had tied up several Texas ports. At Houston, AFL Longshoremen and Seamen were refusing to cross NMU picket lines.

Employees of the Beaumont and Port Arthur city bus lines have called a strike for shortly after midnight tonight following breaking off of negotiations over wages and working conditions. The union is the Amalgamated Association of Street and Electric Motor Employees of America. About 150 employees will be affected. The union is asking an increase in pay from 83 cents an hour to \$1.10 and other benefits.

Southeast Texas and Western Louisiana faced a strike scheduled for October 12 by the Gulf States Electric Service Employees Association, an independent union of employees of the Gulf States Utilities Company.

Porter urges dairy ceilings WASHINGTON, Sept. 18 (AP)—OPA Chief Paul Porter today urged the price decontrol board to restore price ceilings on all dairy products, saying such action "is essential to the stabilization program."

Porter sent a report on retail and wholesale prices and supplies of milk, butter, cheese and other dairy products to the board as it met to decide the future of dairy products now free from ceiling.

The figures show, Porter told the board, that dairy product prices are now generally above the level of former June 30 ceilings plus subsidies.

Clark Transferred To Baytown USES; Successor Unnamed

Henry A. Clark, manager of the local US Employment Service office, for almost three years, has been transferred to Baytown where he will serve in a similar capacity for the SES, it was announced today.

Clark came to Big Spring from Cleburne, where he was USES manager, on Jan. 1, 1943, and the following October was named manager of the local office. From January 1 to October of 1943, he supervised farm employment placements throughout Texas, with headquarters in the Big Spring office.

Accompanied by Mrs. Clark, he left Tuesday afternoon for Baytown to spend several days acquainting himself with the office routine there before assuming the management on Oct. 1.

Before departing to his new assignment, Clark said he was appreciative to leave Big Spring and expressed appreciation to local employers and others who assisted the local office in job placements, while in its management.

Cooperation of Big Spring people during the crisis, especially since V-J Day, has been gratifying, he declared.

New manager for the Big Spring office is expected to be named within the next few days. J. Doyle Wilson, interviewer, is currently serving as temporary manager.

Tientsin Papers Fear Russian War TIENSIN, Sept. 18 (AP)—Tientsin newspaper today expressed fear of a Russo-American war as they observed this fifteenth anniversary of the Mukden incident which precipitated Japan's conquest of Manchuria.

The pro-government Republican Daily News said that "under increasing Russo-American friction, Japan might become powerful again and if war breaks out between the United States and Russia it is possible she once more would turn her evil paws toward China."

SHIRT LOST, AND MONEY TOO

NASHVILLE, Tenn., Sept. 18 (AP)—H. C. Clemons lost the shirt off his back—and \$1,039 besides. Clemons, a produce merchant, said shirt and money went up in flames as he struck a match to light a cigarette while talking to a customer. The money was in a shirt pocket.

Brisk Shower Falls Locally

More spotted showers dotted the area Tuesday afternoon and western Big Spring came in for the heaviest part.

The US weather bureau at the airport reported 5/2 of an inch and the shower, coming out of a comparatively small cloud, poured out enough on the southwestern slopes to send water courting over West Third between Bell and Aylford.

The eastern and southeastern parts of two did not receive nearly so much. The Gregg street detention dam trapped some water and downtown streets carried a fairly heavy volume. At the US Experiment Farm the shower measured only .08 of an inch.

By far the wettest spot in the area is along the northern edge of the county Ellis Idens, near Vealmoor, estimated nine inches in three weeks at his place and Roy Anderson, a mile removed, had upwards of 12 inches. Both said sunshine was needed in that area to stimulate crop growth.

Southern Howard county and the farming belt across the county for about 15 miles, north of Big Spring still has not received ample moisture except in spotted sections.

Station Applied For WASHINGTON, Sept. 18 (AP)—The Federal Communications Commission has announced receipt of an application from the Golden West Broadcasting Company for operation of a new standard radio station at Childress, Tex. The station would operate on 1510 kilocycles, with 250 watts and on daytime hours.

McConnell Carries Fight As Nominee To High Court

AUSTIN, Sept. 18 (AP)—J. Carroll McConnell of Fort Worth today asked the State Supreme Court to take jurisdiction in his fight to be declared the Democratic nominee for Associate Justice of the Second Court of Civil Appeals.

Restaurants To Test Order

By The Associated Press Hotel and restaurant associations announced today they planned court actions to test OPA's right to roll back meat menu prices to June 30 levels.

The OPA action in restoring ceilings on meat meals already has resulted in restaurant closings in some parts of the nation, the spokesman said. Other eating places may shut down in the near future because of the OPA move, they added.

In New York, George R. Le Sauvage, chairman of the government relations committee of the National Restaurant Association, and John L. Hennessy, chairman of the food committee of the American Hotel Association, said in a joint statement a test of the OPA right to roll back the prices would be taken to the US Emergency Court of Appeals.

"This latest action by OPA has brought about a crisis, which is threatening the very life of the public feeding industry," they said.

Terminating the OPA action, "discriminatory," they said it was the "public feeding operators' contention—and always will be—that our prices should be based on present costs plus customary mark-up."

Local Restaurants Protest OPA Price Ceilings

Big Spring cafe and restaurant operators today expressed the same concern reported from other sections of the country on OPA's rollback of ceilings for meals to June levels.

Ceilings on "meat meals" apparently are drawing the most criticism. The price of meat has advanced considerably since the June 30 prices were established, the cafe operators point out and a current scarcity intensifies the problems of the eating establishments.

"I can't buy cured meats at all," one operator said. "And I am able to get very small quantities of fresh meats only when dealers I buy from regularly are lucky enough to receive supplies."

The cafe men point to lists of other items, which also have advanced in price during the past few months. "With dairy products, poultry, etc., no longer controlled, the OPA seems to think we can still pay our help and keep our places open on the small margins they allow, but it can't work," a local man said.

Some informal discussion on the possibility of closing establishments here until prices have been relieved, was reported but as far as could be determined this morning no plans for definite action have been drawn. One operator said he had been asked if his establishment would close in the event such a move was agreed upon by others, and he reported his willingness to cooperate.

Pearson Won't Divulge Source Of His Copy

WASHINGTON, Sept. 18 (AP)—Secretary of Commerce Wallace said today he is happy to take Columnist Drew Pearson's word that the latter obtained a copy of Wallace's foreign policy letter to President Truman from sources outside the commerce department.

"I will be interested in knowing where he did secure the letter," Wallace said in a brief statement.

To that Pearson commented: "Mr. Wallace must know that newspaper men's sources are confidential."

The columnist added, despite an earlier denial by Presidential Secretary Charles G. Ross, that when the letter reached the White House "six carbon copies were made for the personal of various advisers."

The exchange was precipitated when Wallace's office released the letter generally—over Mr. Truman's opposition—yesterday with this preface:

"In view of the fact that a copy of Secretary Wallace's letter of July 23, 1946, to the president was filched from the files and is in the hands of a newspaper columnist, the secretary of commerce is today releasing this copy of the letter."

Pearson promptly threatened Wallace with a libel suit.

Today Wallace issued this statement: "I was gratified to learn that the columnist who had a copy of my letter of July 23 has stated categorically that he got it from sources outside of the department of commerce. I am happy to take his word and I will be interested in knowing where he did secure the letter."

Pearson thereupon announced that "in view of Mr. Wallace's statement I do not propose to take any legal proceedings against him."

Ross said that so far as he knew no official investigation is being made of how the letter "leaked out."

Blind Man Waits Murder Sentence

OKLAHOMA CITY, Sept. 18 (AP)—Orbie T. Guthrie, the first blind person known to be tried by Oklahoma for murder, awaited sentencing today for the slaying of his former mother-in-law.

A jury convicted the 32-year-old furniture dealer of first-degree manslaughter yesterday at the conclusion of a two day trial in which his blind ex-wife, Miss Katherine Hickman, was the chief prosecution witness.

The jury made no recommendation, leaving the penalty to District Judge Lucius Babcock, who set Sept. 20 for the sentencing. Under an Oklahoma law, Guthrie may be sentenced from four years to life in prison. He remained free today under a \$10,000 bond.

The prosecution contended the former mother-in-law, Mrs. Elizabeth Hinds, was shot by the blind man last March after he had provoked a quarrel while visiting her and his former wife at their home. Guthrie testified he meant only to frighten Mrs. Hinds after she had threatened to kill him.

## Dr. O'Brien Begins Series Of Lessons On Study Of Bible

Beginning a series of lessons on the Bible Dr. P. D. O'Brien spoke to members of the YWA at the First Baptist church Tuesday evening.

The speaker began the lessons by giving a brief history of the Bible and explained its different divisions. He informed the young women that the name "Holy Bible," means literally, "the sacred library," and that within one volume is a library of love, history, poetry, prophecy, biography and letters. Dr. O'Brien reminded that it took 1500 years to write, and while 40 or more men wrote it there was only one author — God.

Dr. O'Brien gave the five Rs for reading the Bible as reading regularly, repeatedly, rationally, reflectively and reverently.

The members voted to send a love gift to Mrs. W. A. Alexander, former sponsor of the YWA, now living in Oklahoma.

The next meeting will be held at the church on October 1.

Cakes were served to Ruth Hobbs, Billie Jean Younger, Jean Cornelson, Joyce Worrell, Pat Phillips, Carolyn Smith, Dorothy Bishop, Lela Mae Hobbs and Mrs. Milton Meyer, sponsor.

## Potsie Mellen Tells B.P.W. Expand With Big Spring

"Women must take the places which they can fill," Potsie Mellen told members of Business and Professional Women's club and guests at the regular monthly dinner meeting Tuesday evening at the Settles hotel.

The speaker gave excerpts from the 10-year plan for expansion compiled by the chamber of commerce, and pointed out the many positions which could be filled by women. She reminded that authorities have pointed out that one fourth of the positions will be filled by capable women in the next few years. She urged that Big Spring women take the positions due them.

The education and vocation committee was hostess to the meeting, and members included Velma Greise, Lillian Hurt, Sterling Cooper and Beth Kay. The "back to school" theme was followed in decorations and the tables were centered with various school equipment including a world globe, a basket of apples, books and papers set on a runner or red crepe paper. Places were marked with programs in the shape of little red school houses. Each member answered roll call by repeating a nursery rhyme.

The program was opened by the group singing of "School Days" and "An Apple for the Teacher," led by Mrs. L. A. Eubanks and accompanied by Lillian Hurt. Betty Jo Glenn, accompanied by Miss Hurt, gave a musical reading, "The Golden Key," a song written by Carrie Jacobs Bond and dedicated to the B and P.W. clubs. Edith Gay sang "The Kid with the Rip in His Pants," and "Fals at the Little Red School."

Grace Brown, district director for district eight from El Paso, spoke to the women on their coming district conference to be October 12 and 13 and gave suggestions for a successful meeting. Jewell Barton listed committees for the convention and told of the duties of each. Mary Watson Jones, vice-president, presided at the business meeting.

Guests at the meeting were Miss Brown, Mildred Baker, Dorothy Dean Sain, Alma Gollnick.

Members present were Potsie Mellen, Edith Gay, Mary Watson Jones, Mrs. L. A. ## Mitchell County Vocational Ag Class Organized

COLORADO CITY, Sept. 18.—The first meeting for Mitchell County veterans of World War II, interested in vocational agriculture training under the new Veterans' Vocational school program here, found 30 young farmers and ranchers in attendance. Mitchell County, primarily a ranching and farming territory, is one of the 100 Texas counties recently approved for on-the-scene training of veterans.

Coordinator of the Mitchell County Veterans' school has been named by the county school board. It is Raymond Fuller, ex-first lieutenant in the cavalry's armored force. As part of the Third Armored Division Fuller went overseas in December 1944, was wounded twice in the space of three days during the fighting near Cologne. He spent a year after the war in Germany and returned to the states for his discharge in July of this year.

Applications for enrollment as veteran students in the school are now being taken daily at the American Legion hut by Jim Ferguson, Mitchell County Service Officer. The agricultural portion of the school will be open to veterans who own land, or who operate a farm or ranch under lease with a recorded lease. There will be twelve and one half hours of night classroom work and the same number of hours supervision on the farm each week.

And Stop Dosing Your Stomach With Soda and Alkalizers

Don't expect to get real relief from headache, sour stomach, gas and bad breath by taking soda and other alkalizers if the true cause of your trouble is constipation.

In this case, your real trouble is not in the stomach, but in the intestines. Treat where 80% of your food is digested. And when the lower part gets blocked food may fail to digest properly.

What you want for real relief is something to "unblock" your lower intestine tract. Something to clean it out effectively—naturally get back on her feet.

Get Carter's Pills now. Take them as directed. They gently and effectively "unblock" your digestive tract. This permits full use of Nature's own digestive juices to mix better with your food.

You get genuine relief from indigestion so you can feel really good again.

### OLD TIMER FORESEES COLD COLD WINTER DURING FEED SHORTAGE

By JACK RUTLEDGE  
Associated Press Staff

When cottonseed cake went up to \$120 a ton, John Arnot of Amarillo predicted woefully that it was going to be a long, cold winter. Arnot is what is known as an old-timer. He's been in Amarillo since 1884 and he said when feed is scarcest and highest, "one north-er after another clouts upon the nose."

"I cannot conceive of cottonseed cake selling for \$125 a ton and a mild winter," he told the factious Texan of the Amarillo Globe.

Old Tack didn't like anyone else hogging in on his winter predictions. "One trouble with our weather is our old-timers," old Tack wrote. "They forget our pleasant winters and our rainy spells. Fixed in the back of their minds are searing pictures of the blizzards they bucked and the droughts they sweated. They forget the good winters."

He said he would appreciate it if the amateurs would leave next winter to him. He promised his forecast by October.

Mission down in the Lower Rio Grande Valley, is getting tired of having the highest temperature reading in the state every day.

So a couple of civic minded individuals named Joe T. Cook, editor of the paper, and Jack Drake, Chamber of Commerce manager, investigated.

They reported that it really wasn't the weather that was to blame. It was the thermometer. It had been placed in the sun behind a brick ornamental wall that cut off the prevailing east breeze.

So they put it in the shade. The mercury promptly dropped seven degrees.

Tony Rios of Dallas had a summer job that some might envy—he worked in 18-below-zero weather. It was in an ice cream plant. It takes a good man to do it.

Tony said. He kept going on a heavy protein diet of meat, potatoes and beans. Even so, he worked only in three-hour shifts. The 120 degree change in temperature from the normal outside to the 18-below inside was just too much even for Tony.

"I freeze all day and fry all night," he said.

### SA International Leader Due In US For First Visit

General Albert Orsborn, new international leader of the Salvation Army will arrive from London for his first visit to the United States a week from today, according to word received by Capt. Ilvy Sheppard, local Salvation Army head.

Gen. Orsborn will visit 14 key cities during his first tour of this country, Salvation Army's national headquarters has announced. His activities in the US will be centered in a large part around the four cities where territorial headquarters of the organization are situated, New York, Chicago, Atlanta and San Francisco.

In these cities he will hold religious meetings, address youth gatherings, conduct councils with Salvation Army officers and with leaders of the organization. Civic welcomes also have been arranged in the cities which he will reach during the tour.

Other cities to be visited include Washington, Philadelphia, St. Louis, Detroit, Los Angeles, Oakland, Long Beach, Houston and Miami.

Gen. Orsborn also will make a brief tour of Canada before speeding on to the West Indies, South America and Mexico. The General, who leads Salvation Army forces in 97 countries all over the globe, will cover more than 20,000 miles by plane and train before returning to London shortly before Christmas.

### AFL Director Criticizes Wallace

DALLAS, Sept. 18 (AP)—George L. Googe, Atlanta, southern director for the AFL, told 1,500 representatives of local AFL groups from Texas and Oklahoma, in conference here, that Secretary of Commerce Henry Wallace's "hybrid product in foreign relations is more dangerous than the appeasement policy of Chamberlain at Munich."

"By no stretch of imagination can Henry Wallace be considered a spokesman of the American workers," Googe said. "He may speak for the Political Action Committee but we do not believe that PAC is primarily interested in the wages, hours and working conditions of our workers."

The union representatives met here to plan an organizational drive in the two states.

### Faculty Depleted By Low Budgeting

GALVESTON, Sept. 18 (AP)—Dr. Chauncey B. Leake, vice president and dean of the University of Texas' School of Medicine, has expressed grave concern over the

resignation of a number of faculty members because of curtailment of budgetary appropriations.

Leake said he would report six recent designations to a Friday Austin meeting of the board of regents of the University. He said loss of teaching personnel reduces the teacher-student ratio to a

dangerously low figure and that under the curtailed budget program replacements are difficult to obtain.

### Optimist Week

AUSTIN, Sept. 18 (AP)—Gov. Coke Stevenson today proclaimed the week of Oct. 6 as optimist week in Texas. He praised the work of

the optimist clubs of the United States, Canada and Puerto Rico, which he said were established to promote a friendly spirit of co-operation and far-reaching service through the exercise of practical and realistic optimism.

## Alabama Triumvirate Raises Level Of Southern Politics

By STEWART ALSOP  
WASHINGTON — While Georgia has moved in one direction, with the unappetizing fanatic, Eugene Talmadge, near-by Alabama has moved in exactly the opposite direction. There the people have confirmed as the reigning political triumvirate three genial, outstaid politicians who are firmly opposed to everything Talmadge stands for.

Senator Lister Hill is the senior member of this triumvirate. He is a large, affable man, who conceals beneath his surface geniality, great shrewdness and real intelligence. "Raised to politics" by his prosperous family, he entered the Senate in the middle thirties as a moderate conservative, but he has tended more and more to become the leader of the small liberal wing of Southern Congressmen. He has made a real impression in the Senate, and he has been mentioned as a Vice-Presidential possibility for 1948. But it is unlikely that this will ever be more than talk. A national candidate from the deep South would

probably cost the Democratic ticket most of the Northern negro vote.

Number 2 is John Sparkman, majority whip of the House, who was nominated to the Senate by a clear majority over two opponents this month. A big, red-faced man, son of a tenant farmer, his ten-year record of support for measures to help the farmers and the low-income groups, combined with his patent sincerity, have made him the best-liked politician in Alabama.

Finally, there is James E. Folsom, always called Big Jim in Alabama. An enormous man, many Alabamians believe that his huge feet, which he has a habit of displaying without shoes, together with his string band and his jokes, had more to do with his success in winning the Governorship than his liberal politics or his support from the CIO.

Even some of the Big Jim's enthusiastic supporters are keeping their fingers crossed, against the time when he moves into the impressive old State House in Montgomery. Folsom knows nothing whatsoever about the more tedious aspects of the business of government. It is believed that some of the men around him are not entirely unselfish in their motives. Moreover, Big Jim does not always measure up to the full standard of gubernatorial dignity. Alabama is still buzzing with talk of the uninhibited vacation he took in a Florida hotel, after he won the Governorship. On one occasion the manager is reported to have informed him that while the hotel was not stuffy about ties and coats in the dining room it was necessary to insist that shoes be worn.

Three Steps Forward  
Most Alabamians are agreed that Folsom's heart is in the right place, but they fear that if he regards the Governorship as some bright new toy he may do the rouse for which he stands real harm. However, last week he came to Washington, and Hill and Sparkman, with the help of Alabamian Hugo Black, undertook to impress him with the fact that the eyes of the nation are now upon him. The course of indoctrination reached its climax at a small dinner given by Postmaster General Robert Hannegan, at which Big Jim was seated next to the President. He is reported now to be suitably impressed with the seriousness of his new responsibilities.

Whatever their personal qualities, most Alabamians are proud of the three men who have been given the three most important political jobs in the state.

While Mississippi has confirmed the Ku-Kluxer Bilbo and the screeching John Rankin, and while Georgia is faced with four years of Talmadge, why has Alabama taken its three steps forward? This reporter asked many Alabamians, of varying political complexion, that question.

The answers differed, but always, sooner or later, the name of Lister Hill cropped up. Hill is quite obviously no radical from the North; he opposed FEPC (it would be hard to find a Southerner in Congress who did not). Yet his persistent counsel of reason and moderation have had a real effect on Alabama political thinking. On the more practical side, he has built himself an effective political organization, no machine in the Crump or Tammany sense, but a good working organization.

Finally, two years ago, Hill beat James Simpson when Simpson raised the White Supremacy issue. Simpson plastered billboards up

and down the state with "Vote for Jim Simpson and White Supremacy," but Hill won by a comfortable majority. Simpson ran again this year against Sparkman, but this time the racial issue was never seriously raised.

"Perhaps it would have been," said one liberal editor to this reporter, "if the negroes had voted here as they did in Georgia. But they didn't. All the same, the racial issue is still the basic issue here. It colors and affects all politics, even when it is never raised." How deeply that is true, and why it is true, is something that non-Southerners must understand if they are to understand what is happening politically in the South.

## Lamesa Rotarians Present Program To Local Club

Visiting Rotarians from the Lamesa club presented the program for the Big Spring Rotary club's weekly luncheon session Tuesday at noon in the Settles.

John Agee was in charge of the program. He introduced Homer Lynch, who sang two numbers, accompanied by Mrs. Miller, who then played several popular piano selections.

Leslie Pratt, president of the Lamesa club was presented as the "stuttering master of ceremonies." Pratt, who for 19 years was a boy scout worker, spoke to the local club on youth delinquency, asking the Rotarians to open their homes to the youth of today. Otherwise there is no place for them to assemble under good influences, he pointed out in declaring that youth will "get together" somehow.

He urged civic clubs to stop looking only for the big things to do, and to turn their attention to the smaller matters which arise constantly. By coping with the small problems the "service" that is expected of service clubs can be rendered, he said. "Opening our homes to the youth could be one of these services that would help solve one of today's biggest problems," he concluded.

Shine Phillips, program chairman, presided for the local club. Visiting Rotarians included Jack Gubbels, of Austin, Jim Farwell of Amarillo, Rols Woodson of Lamesa, John Agee of Lamesa, Virgil Williams, of Lamesa, Cecil Smalley of Lubbock was a guest.

## Tung Oil Demand Greatly Increased

SILSBEE, Sept. 18. (AP)—An increased demand for tung oil was predicted here by Dr. George W. Potter of the US Field Laboratory at Bogalusa, La., in speaking before a five county conference of tung growers.

Potter said tung growing offers possibilities for diversified farming with little additional work.

J. F. Combs, county agent in Jefferson county, was named temporary chairman of a committee to bring tung growers in this area into an organization to pool resources.

## Ordinance Tested In Dallas Suit

DALEAS, Sept. 18. (AP)—Arguments in a suit questioning the legality of a Dallas city ordinance prohibiting union membership by city employees will open here Friday in the Fifth Court of Civil Appeals.

The suit was filed by the CIO, who will be represented by Lindsay P. Walden of Fort Worth. The city of Dallas will be represented by City Attorney Henry Pkucera.

A temporary restraining order against the city enforcing the order was issued last March by District Judge Sarah T. Hughes but the order was later dissolved by Judge Paine L. Bush who upheld the legality of the ordinance.

## CHITA TO BECOME BAYLOR MASCOT

AUSTIN, Sept. 18. (AP)—Chita, the plump and playful black bear given Gov. Coke Stevenson by a friend in Mexico, will be transferred to Baylor University tomorrow.

Chita will become the official mascot of the 1946 Baylor Bears. Stevenson has invited former Governor Pat M. Neff to be here to officially receive the bear. He has also invited Mexican Consul Joel Quinones of San Antonio to be a guest on the occasion.

Chita was sent to Gov. Stevenson by Dr. Jose Ibarra Gonzalez of Rosita, Coahuila, Mexico. She weighed 50 pounds when she arrived, but has gained 15 pounds on a steady diet of cornbread and milk at the governor's mansion.

## One Illicit Distillery Found In August

AUSTIN, Sept. 18. (AP)—State Liquor Control Board inspectors were able to find only one illicit corn liquor distillery in August, but they obtained 245 convictions from a total of 280 law violations complaints of all types filed during the month.

The lone illicit still seized was found in Titus County. It had a cubic capacity of 53 gallons and its seizure prevented potential tax evasion of \$1,212.18. Inspectors dumped 100 gallons of mash and made two arrests.

Net revenues of the Liquor Control Board for the fiscal year which closed Aug. 31 exceeded net revenues for 1945's fiscal period by \$3,419,309.47, the August report of the Liquor Control Board showed.

### STEVENSON ACCEPTS CHALLENGE IN STATE'S WATERMELON BATTLE

AUSTIN, Sept. 18 (AP)—That Arkansas watermelon looks like a lemon compared with Texas melons, and Gov. Coke Stevenson of Texas has a picture to prove it.

He has written Gov. Ben Laney of Arkansas, photo enclosed, striking the first verbal blow in a watermelon fight that will go right on in 1947.

Laney started it when he sent the governor of Texas a 125-pound melon saying that "Arkansas grows the biggest watermelons in the world." The 1946 melon season is about over, but the city of Nacogdoches has accepted Gov. Laney's challenge for next year.

It will produce a melon weighing more than 140 pounds at its watermelon festival on July 4, 1947, Stevenson has informed Laney.

Stevenson sent Laney a picture of a Texas watermelon grown this year by his friend, George L. Carver.

He told the governor of Arkansas there was no record of its weight, but the picture showed the top of the melon was on a level with the eyes of a 6 foot four inch Texan standing near it. The Texas-melon had stripes at least 12-inches wide.

"This is by no means one of our largest melons," the governor of Texas wrote the governor of Arkansas. "I think it can be considered, however, as an indication that when the farmers of Texas accept your challenge, they will present you with melons which will make the Arkansas variety look like a California lemon."

### Convention Called 'Pseudo-Harmony'

AUSTIN, Sept. 18 (AP)—It was only pseudo-harmony at the state Democratic convention in San Antonio, Herman Jones told Travis county young Democrats last night.

Jones was one of the floor leaders in the fight by an outvoted faction to uphold district caucus nominations for half a dozen executive committee posts. These district nominations were rejected by the convention after it was told some of those displaced were adherents of Dr. Homer P. Rainey.

"You can't help but admire a man who is avowedly out to steamroller a convention and does so," Jones said. "However, there is nothing to commend when even statutes are violated in an effort to establish a pseudo-harmony."

Jones argued that the statutes require a convention to follow district nominations for executive committee memberships.

### Cattle Grub Control Demonstration Set

GARDEN CITY, Sept. 18 — Latest and most effective methods for controlling cattle grubs and other parasites will be demonstrated here Friday at a special field day arranged by H. M. Fitzhugh, Glasscock county agricultural agent.

Several specialists from the Texas A&M college extension service are due to participate in the demonstrations, and ranchers and businessmen from Glasscock and surrounding counties are invited. The demonstration will begin at 10 a. m., and lunch will be served visitors at the noon hour.

Several Howard county ranchers are planning to attend the parasite control demonstration at Garden City Friday, County Agent Durward Lewter announced today. The local delegation will study the new methods and later will discuss possibilities of conducting a similar demonstration in this county.

### Sugar Refinery Closed By Shortage

HOUSTON, Sept. 18 (AP)—The Imperial Sugar Refinery at Sugar Land has closed down all operations because of the sugar shortage and the seamen's strike, I. H. Kempner, Jr., vice president and general manager, has announced.

The refinery is one of the South's largest. Kempner said sizeable shipments of sugar are tied up at Houston and Galveston because of the strike and added that operations would be resumed as soon as port activities are reopened.

### Religious Education Week Proclaimed

AUSTIN, Sept. 18 (AP)—Proclaiming the period from Sunday, Sept. 29, through Sunday, Oct. 6, as the sixteenth annual religious week in Texas, Gov. Coke Stevenson today attacked anti-religious forces.

These forces he described as dynamic and sacrificial, massing millions behind a philosophy destructive of all human good.

Nebraska is called the corn-busker state.

### Ellis Sanitation Above Average

Particular emphasis has been and is being placed on sanitation in the Ellis Homes project, Jack Bronson, director here for the F. P. H. A., said today.

He reviewed the situation in view of announcement of a quarantine on seven buildings in a portion of the unit.

While the so-called quarantine is open to question, the project has shown a disposition to cooperate with health authorities even though it is not at all certain that a case of polio reported from the area originated there.

All units are connected with city sewer, Bronson pointed out, and the project has daily (not semi-weekly) garbage collections. In addition, particular emphasis is placed on sanitary regulations and large quantities of DDT powder have been used. All quarters are treated thoroughly as they become vacant, Bronson said, and the vast bulk of those occupied have been given special treatment. All in all, Bronson felt that it was far above the average in healthfulness.

### NO HOUSING FOR ELEPHANT

KANSAS CITY, Sept. 18 (AP)—Adult sponsors of the 102 boys at the boy's orphan home here were buying them the works, for the asking, at the Ringling Brothers-Barnum & Bailey circus—peanuts, crackerjacks, spun floss candy, pink lemonade, fancy paper hats.

Suddenly one four-year-old tugged excitedly at the arm of his benefactor, Jim Nourse. "I want that," he said, it was an elephant.

Nourse carefully explained the problems of elephant housing, and pacified his charge with another box of crackerjacks.

### SUITABLE REWARD FOR OFFICIAL

SPRINGFIELD, Ill., Sept. 18 (AP)—City Commissioner Harry Eielson borrowed a ladder from the fire department next door when he couldn't get into his city hall office because he had left the key at home.

Firemen helped their boss climb through a third floor window, but a nail on the window sill tore a big hole in Eielson's pants.

Manufacturer John W. Hobbs, admiring Eielson's devotion to duty, sent him three complete suits of clothes.

### Strike Financial Losses Estimated

GALVESTON, Sept. 18 (AP)—Financial losses resulting from the Maritime strike in Galveston's port have been estimated at \$12,500 daily by E. H. Thornton, general manager of Galveston wharves.

Thornton said the estimate included a minimum of \$5,000 lost daily by steamship agents. He added, however, that "no accurate estimate can really be made. This is a conservative estimate."

### Molasses For Feeding

DALLAS, Sept. 18 (AP)—Approximately 1,400,000 gallons of Puerto Rican blackstrap molasses as obtained by the US Department of Agriculture will be used in production of range cubs and pellets for range livestock feeding, the Dallas area office, Production and Marketing Administration, has announced.

**WATCH RETURNED TO HERO'S SON**

TOKYO, Sept. 18. (AP) — A watch once won by Capt. Sidney Albert Greer, Tyler, a Corporal hero who died while a prisoner of the Japanese, is en route to his 6-year-old son. Shunsuke Wada, the guard accused of taking it, is awaiting a war crimes trial and a cousin, Osamu Sasaki, is charged with concealing it. Greer, who received the watch as a member of Texas A&M ROTC, was among 600 prisoners loaded on the Enoura Maru for transfer to Japan. US planes sank the ship. Greer was one of 400 survivors who swam to Takao, Formosa, where he contracted dysentery. Near death after removal to Moji, Japan, he told Maj. John E. Lester, Dallas, that aboard the Enoura Maru, Wada promised him water in return for the watch but never produced. Lester informed Greer's family, which asked Senator Tom Connally to help. The Senator wrote the War Department. Two officers of General MacArthur's legal section located Wada, who they said admitted taking the watch and sending it to Sasaki, from whom they said they recovered it.

**"In Rainey Pattern," Stevenson Describes Wallace's Speech**

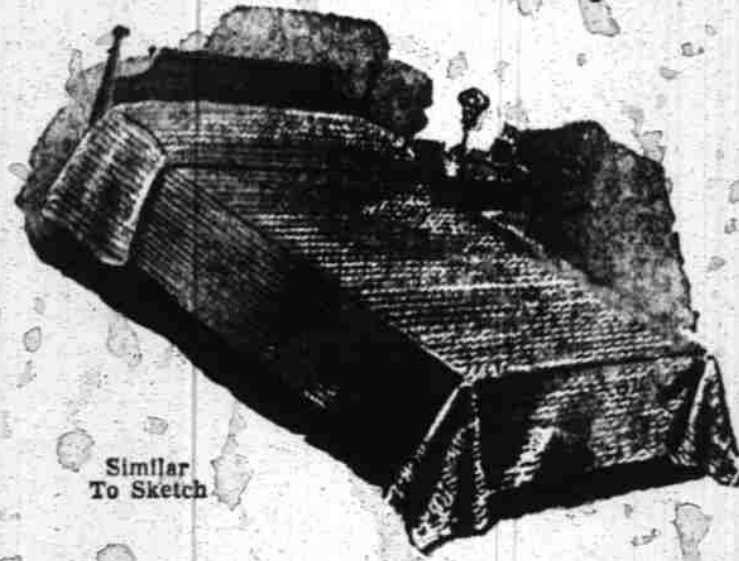

AUSTIN, Sept. 18. (AP) — Gov. Coke Stevenson today said US Secretary of Commerce Henry Wallace apparently is following what he called the "Home P. Rainey Pattern." Asked by a newsman whether he thought Wallace was trying to establish himself as a martyr in order to run as the liberal Democratic candidate for president in 1948, Stevenson said: "Knowing the grief in his (Wallace's) heart over Dr. Rainey's defeat, it looks like he's following the Rainey pattern." The governor was asked if he and other Texas Democrats would shed any tears if Wallace were to leave the president's cabinet as a result of Wallace's views on foreign policy. "What tears might flow would be induced by red pepper," retorted Stevenson. "Could that statement apply to Senator Pepper?" "Absolutely," declared the governor. Anna Bell Lovelace has returned from Fort Worth where she underwent medical treatment.

**All Is Not Gold In Crescent City**

CRESCENT CITY, Calif., Sept. 18. (AP) — Unbearded prospectors still were fumbling through Crescent City in California's latest so-called gold rush today despite the warning voiced by old hands at the game that all is no gold that glitters, and this may be no "Bonanza." State and federal mining men rooting about for evidence of a big strike hinted that perhaps there ain't no gold in them thar hills. Thus far, they explained, the only gold in evidence is a few small pebbles displayed by Ernest Hay, assayer of Crescent City. These samples were brought in from the rattle-snake ridge low divide country on Friday by an old prospector, Tom Cronin. Hay put the ore through his special assay process and came up with the announcement: "This is rich stuff!" Within a matter of hours the stampede was on. As of a late hour yesterday, about 1,000 gold seekers had passed through Crescent City toward Cronin's stake, and some 700 claims had been staked out or filed.
