

Readers Help Give Mother Surgical Aid

A story ran in the Times yesterday that the mother of four little children might die if \$100 was not provided to defray hospital expenses for an operation. Plain facts were stated with the information that contributions might be given to Mrs. Grace Herrington, Red Cross nurse.

Disarmament to be Considered by Nations' League

SAN SAEBASTIN, July 30.—Sessions of the council of the League of Nations will be inaugurated tomorrow and are expected to continue about a week.

The league must have an economic blockade, declared Arthur Balfour, the British representative. If the blockade is applied to a nation defying the league, he believes that nation will not be able to resist long.

SHIP ROUTES, TEXAS TO SOUTH AMERICA, PROMISED BY BOARD

DALLAS, Texas, July 30. (Special).—The United States shipping board will establish routes between Texas gulf ports and Central and South America as well as other parts as soon as the board is assured of sufficient tonnage to maintain the service.

INDIAN OLDER THAN PINES SURROUNDING PLACE OF HIS BIRTH

LAGUNA MOUNTAINS, Calif., July 30.—Said to have been born 144 years ago, the year the Declaration of Independence was signed, on a spot which is now a government reservation and which he still calls home, Domingo Jacinto, chief of a tribe of Digger Indians, was one of the spectators at the Independence Day celebration here.

BIG WOOL CLIP WILL BE HELD OFF MARKET

HOUGHTON, Mich., July 30.—Houghton county farmers have just completed shipping 34,000 pounds of wool.

Nightmare? No—Reality

BY MORRIS

REBELLION ON IN LOWER CALIFORNIA

Protection to American Interests Promised by Federals.

MEXICALI, Lower California, July 30.—Esteban Cantu, governor of the northern district of Lower California, is preparing to defend this region against federal troops.

EL PASO, July 30.—Mexican federal forces numbering several thousand men are being mobilized and moved against Lower California to put down the rebellion there.

IRISH STILL AGITATE RELEASE OF LARKIN

DUBLIN, July 29.—There is still agitation in Ireland for the release from prison of James Larkin, now serving a sentence in America.

GENEVA JAIL NOT LUXURIOUS ENOUGH FOR JACK JOHNSON

CHICAGO, July 30.—Although confined in a cell with a private bath, Jack Johnson expressed his disapproval of the Geneva, Ill. jail to which he was removed because the sheriff of the Joliet jail permitted the heavyweight champion fighter to ride in an automobile and partake of ice cream sodas.

Note: Larkin is under conviction in New York for criminal acts in connection with a traction line.

The Election.

TEXAS Election Bureau. DALLAS, July 30.—Returns from 246 counties, 131 complete, show Bailey leading Neff by 4,407 votes in the governor's race.

The governor's race stands: Bailey 141,234, Neff 136,827, Thomason 92,460, Looney 46,586.

LATE BULLETINS

NEW YORK.—Extensive liquor raids yesterday in Newark and Jersey City by nearly one hundred federal agents.

CHICAGO.—Prices of ready-to-wear garments have reached the peak, and have started to decline.

WASHINGTON.—The census bureau announces the population of Nagodoches, Texas as 3,546, an increase of 177 or 5.2 per cent.

HOUSTON.—Houston banks are loaning money to many eastern concerns formerly dependent on eastern banks.

AUSTIN.—The registration of motor vehicles with the state highway department reached 379,421 today.

NEW YORK.—The proprietor of a small grocery store was sentenced today to two years in the Atlanta penitentiary for hoarding more than 200,000 pounds of sugar.

DUBLIN.—Frank Brooke, deputy lieutenant of County Wicklow, Leinster province, was shot dead while alighting from a train. His assailants escaped.

EAGLE PASS.—Villa is still at Sabinal awaiting arrival of a supply train to take him and his men to Torreon.

CHICAGO, July 30.—Although confined in a cell with a private bath, Jack Johnson expressed his disapproval of the Geneva, Ill. jail to which he was removed because the sheriff of the Joliet jail permitted the heavyweight champion fighter to ride in an automobile and partake of ice cream sodas.

Mr. Phillips is in a precarious condition in a local hospital. Thought the United States five thousand draft evaders have been convicted and given sentences from thirty days to one year in prison.

ALLIES PLACE LIMITATIONS ON RUSS TERMS

Will Not Permit Polish Disarmament or Soviet Rule.

PARIS, July 30.—Limitations that Great Britain and France will put upon the Soviet demands on Poland in arranging the armistice terms will be set forth in a formal notification to the Warsaw government.

The allies will not permit: 1. Acceptance by Poland of either whole or partial disarmament.

2. Any change in the Polish System of government dictated by the Soviet.

3. Boundary line less favorable to Poland than the one set by the supreme council.

The document has been provisionally drawn by Lloyd George. The allies intend to maintain Poland as a buffer state between Russia and Germany.

Warsaw, July 30.—There is much uncertainty and suspense in Warsaw over the question of whether the Reds plan to cross the border fixed by the supreme council and continue the march on Warsaw.

From intercepted wireless messages it is understood that the Bolsheviks intend sparring for time before meeting at Barmouth for the armistice negotiations.

It is now considered apparent that the Reds are at least determined to capture Lemberg as the prize of the last day's battle. The Poles will defend Lemberg to the last and if it falls it will mark the greatest battle of the war.

Hungary also has asked permission of Great Britain and France to attack the Soviet army. This would involve recognition of the Hungarian army, demobilization of which is provided for in the Hungarian peace treaty.

FORT WORTH MOVIE MAN FATALLY SHOT BY HIGHWAYMAN

FORT WORTH, July 30.—E. H. Phillips, owner of the Egypt picture show, was shot and perhaps fatally wounded this morning about 1 o'clock as he and Mrs. Phillips drove into the garage at their home on Hemphill street.

Mr. Phillips is in a precarious condition in a local hospital.

Financial Miracle Worker Pays Millions to Investors

BOSTON, July 30.—Charles Ponzi, who claims to have amassed millions within a few months and to have paid the public large profits on investment dealings in international exchange, appeared today almost to have satisfied his investors as to his solvency.

Clerks paid off nearly as much on notes matured for 50 per cent profit in forty-five days as they were returning to frightened investors in principal without interest on notes surrendered short of maturity.

The amount paid out by Ponzi since the run began Monday is estimated by his manager at \$1,500,000.

Ponzi announced a few days ago that his liabilities were about \$3,000,000. He agreed with authorities to accept no more funds from the public until the investigation of his accounts is completed.

Ponzi has for some months been advertising that he would pay 50 per cent in forty-five days on investments in foreign exchange made through him.

When postal authorities sought to arrest him he insisted that his proposition was honest and feasible and that no swindling or swindling was connected with it.

Dayton Acclaims Cox in Monster Demonstration

DAYTON, Ohio, July 30.—The choice of their fellow citizen, Governor Cox, as the Democratic presidential nominee, was acclaimed at a monster demonstration staged last night by residents of Dayton and other portions of the Miami valley.

Thousands joined in the home-coming reception, which was a non-partisan affair. Republicans as well as Democrats participated.

INTERSTATE BODY PROMISES RELIEF TO GRAIN GROWERS

DALLAS, July 30.—Diversion of 2,500 grain cars to the Texas grain belt before Aug. 3, followed by the rushing of cars to the Texas shipping points from the trunk line terminals of the east and north, is promised by the interstate commerce commission for the relief of Texas grain growers and shippers.

The Texas delegation was given assurance that everything possible would be done and that more cars would be allocated to Texas this year than last year.

A conference of Texas grain shippers and carriers has been called by the state chamber to meet in Dallas early next week for the purpose of discussing means of moving empty cars into the grain belt with all possible dispatch.

PRELIMINARY WORK IS BEGUN ON CORPUS CHRISTI CAUSEWAY

CORPUS CHRISTI, Texas, July 30.—Soundings, to obtain data upon the contour of the bottom of the Neeces bay borings to determine the length of piles needed and the amount of rock necessary to make the fills, have been made by the engineering department of Neeces county to determine the details of a plan to build a permanent causeway 8,700 feet long to connect Corpus Christi with the San Patricio county shore.

The State Highway Commission has set aside \$200,000 as state and federal aid for the project, while Neeces county has raised a similar amount.

The causeway, as planned, will contain 3,000 feet of trestle work and 5,700 feet of rock fill, the latter being surfaced with concrete giving a road surface twenty-four feet wide.

THIRD MINER DIES FROM BULLET FIRED IN COAL STRIKE RIOT

BIRMINGHAM, Ala., July 30.—The death of Emil Hicks, a miner, as the result of a pistol fight, is the third fatality following the employment of non-union miners by a coal company at Carbon Hill.

Recognition of the union is the only issue involved in the strike.

BABY PARADE ON BEACH AT GALVESTON, AUGUST 15

GALVESTON, July 30.—Registration for the first annual baby parade on the Galveston Beach association, to be held August 15, is flooding offices of that organization, it is announced.

Harding Opens "Front Porch" Speaking Tour

MARION, Ohio, July 30.—Senator Harding's front porch campaign for the presidency opens tomorrow with an address to a delegation from Mansfield, Ohio, and is to get in full swing during August, as groups from more distant sections of the country begin to arrive.

The senator says today that the number of delegations on the waiting list for front porch speaking dates is growing daily.

SCOTTISH RITE MASONS LEASE DORMITORY FOR GIRLS AT STATE UNIV.

AUSTIN, Texas, July 30.—Mrs. J. E. Kaufman, who has been appointed director of the Scottish Rite Dormitory for girls attending the University of Texas, is the widow of the late J. E. Kaufman, who was prominent in State Masonic and political circles.

The Texas Scottish Rite bodies recently leased the property situated just north of the university, owned by the Presbyterian Theological Seminary.

The idea of establishing dormitories in order to provide the daughters of Master Masons attending the university with comfortable quarters, surrounded with home influence has been in the mind of Sam P. Cochran, sovereign grand inspector general, for some time and when presented by him to the various Scottish Rite bodies of Texas it met with hearty support and co-operation.

The institution will be under the control of the governing board, which consists of representatives from each of the Lodges of Perfection in Texas.

TEXAS FARM BOY SPECIAL TO CARRY CAPACITY CROWD

DALLAS, July 30.—Another Pullman car has been added to the Texas Farm Boy special to accommodate the surplus of farm boys above the number originally estimated, according to announcement from the agricultural department of the Texas Chamber of Commerce today.

The special train will be seven cars long when it rolls out of College Station Aug. 7 for its trip through the North, East and South. Requests for reservations are pouring in from every part of the state while from outside the state are coming more invitations than can be accepted.

A booklet descriptive of Texas has been printed and will be distributed by thousands along the route. The unique visit of the farm boys to the numerous cities and towns along the route is attracting much press comment and offers an opportunity of widespread publicity of Texas as a resource. A publicity man from the state chamber will be aboard the train to greet the newspaper men and slip them the dope on the advantages offered by the Lone Star state to home seekers and investors.

Correspondents will be sent with the train by three Texas daily newspapers and one farm magazine. These correspondents will help advertise Texas as well as send back the news of the Texas Farm Boy special to parents and friends of boys aboard the train.

ILLEGITIMATE CHILDREN PROBLEM IN ENGLAND

LONDON, July 29.—The wife of Lord Mayor Cooper of London, on the occasion of the recent opening ceremonies of a refuge for homeless children at Walthamstow, said that the time had come for someone to introduce a bill in parliament to give "the unusual number of unwanted children" their father's names.

The lord mayor declared that both during and since the war the increase in the number of illegitimate children has been "simply terrible" and that the death rate among these children is appalling.

WOOLEN RAGS ADVANCE 1200 PER CENT IN FIVE YEARS

CHICAGO, July 30.—Prices of rags fit to be reworked into cloth increased from 300 per cent to 1200 per cent between June, 1914, to December, 1919, according to the National Sheep and Wool bureau here.

The sheep and wool bureau is urging passage of the French-Gapper "truth in fabric" bill, designed to require manufacturers to stamp cloth with its content of substitutes and of virgin wool.

BACHELOR OF MUSIC NEW DEGREE AT U. OF T.

AUSTIN, Texas, July 30.—Recent action of the board of regents of the University of Texas in establishing the degree of bachelor of music at that institution necessitated a closer affiliation between the Texas Institute of Applied Music and the University School of Music, the institute providing preparatory work for the advanced work offered in the university department of music.

The enrollment in this school several additions have been made to the faculty of applied music.

Among those who will teach in the institute next year is a pianist of Dallas, who is now in Chicago studying under Lelvyne, the great Russian musician.

Miss Ann Garrison will teach harmony and piano classes in the institute. Miss Garrison is studying in New York.

W. Jones, professor of music, who is a teacher in the summer school of the southern branch of the University of California, will also teach in the university next year.

Mrs. Chas. H. Vander and Mrs. F. L. Reed will conduct vocal and piano classes in the regular sessions this fall.

Miss Willie Haines, who is teaching in the summer school of the university has been granted a year's leave of absence. She will leave in the early fall for New York to study piano and musical theory at the Institute of Applied Musical Art.

PINAFORE FROCK FOR A TINY TOT

The new kiddies' frocks are so very cunning and attractive that one can scarcely resist them even though the little miss may be well supplied. A tiny tot, however, is hard on her clothes and can scarcely have too many of anything, particularly in the summer time when two clean frocks a day is not unusual. The only great danger in being overstocked is that the little girl will outgrow her frocks before they are much worn.

That danger may be taken care of very easily in this pretty little frock pictured, for it may be lengthened easily by a new band of colored material wider than the one now used for trimming only. The frock is made in pinafore style of white linen trimmed with bands of French blue linen and wool embroidery. Bloomers to match are worn with it thus doing away with the necessity for any underclothing on the very hot days. There is a little sack of self material in the back, and half hose in blue and white to match the frock are a pretty accessory.

INCOME TAX LEVIES PREVENT SELLING OF WEST TEXAS LANDS

STAMFORD, July 29.—A solution to the withholding of large bodies of land from the market, and hence, from actual settlers, because of the imposition of the income tax on aggregate accumulative gains from such sales, is in a fair way to be reached through an amending bill now pending, according to a letter from Senator Morris Sherman to the West Texas Chamber of Commerce, which is seeking to aid settlement of West Texas lands now held off the market because of the fear of the income tax levies.

The income tax law as it now operates exacts a stipulated tax on all gains on land the year it is sold, although the gains themselves may have been concurrent with the term of years between purchase and sale. For instance, a man purchased 1000 acres of West Texas land in 1918

Related honors came to the Service of Supply, that division of the A. E. F. in whose work were neither thrills nor glory recently at the launching of a craft, christened Tours, at Hog Island, near Philadelphia, Pa.

JOHN-A-DREAMS

LXXIX. DREAMS OF SPIRITISM.

Of ghosts and spirits have I already told you, and what their appearance means as you lie slumbering and your mind's eye pierces the darkling future. Today—and tomorrow, too—I shall speak to you of Spiritism and its manifestations as they come to you in dreams.

Generally speaking, such visions usually mean that news of the most important and unexpected character will reach you, that there will open up before you a vista of knowledge of things concerning yourself or those you know, which will occupy your thoughts for months to come, which will point a new course for your acts and plans. Of course, circumstances alter cases, and there are many dreams in this line the meaning of which is more trifling than here indicated. I shall mention but a few; relying upon you to inform me of such others as may come to you in the still hours of the star-lit night.

The very intimation of a spirit's presence is considered an omen of great changes, of new scenes. This, however, applies only if the episode does not develop beyond its original suggestion. When you awaken and can remember no further details than that you attended a seance, or that spiritism in some form was the subject of conversation, be prepared for happenings of decided import. But, for some reason, the kindly spirits which watch over you, failed to lift the veil fully.

If you dream, however, that there was spirit-rapping or table-tipping then a strange visitor will come and bring you a message which will leave you gasping with astonishment, which will make you look forward to the next day in trembling expectation. Much depends upon it whether you are alone or with friends, if a stranger was instrumental in conveying the messages from beyond or whether you yourself or an acquaintance caused the spirits to give their mystic signs.

The absence of a stranger indicated that the great news will concern only you or your immediate surroundings. The presence of a stranger proves that a new personality will enter your circle and that his or her influence will work changes in your fate which you never thought possible.

Let me be more explicit. If this stranger is a woman of middle or old age, you will come under the domination of an elderly person of your own sex whose bidding you will be forced to do, either by direct compulsion or because you will not have the moral courage to combat her. If it is an old man, then a male relative will seize the reins in your home and bend your will to his. If it is a man of middle age, you will find yourself in the midst of a love adventure which your best friends will object to and which will be defensible only in your own deluded mind.

If the spirit-bringer is a young woman, you will learn that a young woman has it in her power to blast your heart's happiness. This applies as fully to a married woman as to a maiden. The former will find her husband in the meshes of a vampire, the latter will discover that a designing rival has succeeded in gaining the affection of the man who, by right of heart-conquest, belongs to the dreamer.

But, mind you, these meanings hold good only if the messages consist of nothing else than table-tipping and spirit-rapping. So soon as an actual appearance is made, or a word message is conveyed, just so soon does the significance

CROWELL LINES UP FOR FORT WORTH AND WESTERN RAILWAY

Special to The Times.
 CROWELL, Texas, July 29.—Crowell is one of the towns most ambitious to become a star on the line of railway proposed from Fort Worth to the plains section of the state. Its citizenship are standing ready to encourage every move of the new line and to contribute their proportion of the finances. Realizing that Fort Worth is the real market of West Texas and that a direct line of railway is now needed worst of all, Crowell and Foard county stand ready to do their parts.

Probably no line of railroad that could be built in West Texas would be a better dividend maker. It would open up a vast new territory for the jobbers of Fort Worth, a new territory for immigration, and new resources which now lack the proximity of a railroad to make them a factor in the upbuilding of Fort Worth and the whole of West Texas. Such a railroad would enter giant oil fields and coal beds, thousands of acres of land susceptible to irrigation, great plains of wheat, building materials, etc., making it not only a worthy financial move, but a philanthropic move for the early development of a territory whose latent resources are as varied and valuable as those of any part of the commonwealth.

BOY SCOUTS OPERATE WARSAW STREET CARS

WARSAW, July 29.—Boy scouts act as conductors recently during a strike of municipal employees of Warsaw which affected the street car system owned by the city. Men volunteers from technical schools and electrical institutions were on the front platforms of the street cars as motormen. During the strike, for an increase in wages from 80 to 100 per cent, volunteers operated the electric light and power plants, the waterworks and the gas plants, the work all being done by boys and men members of the Social Self Aid society formed for just such an emergency. The strike was settled by a compromise.

Great Britain has thirty-eight instructional factories either in operation or under construction, for the training of disabled men.

Before I proceed to such episodes—which I shall do tomorrow—let me call your attention to this: If the seance takes place in your own home, the great development will transpire with the knowledge of your family circle. If seemingly in the open, it will occur after or in the course of a short trip. If in the house of a friend or a relative, you will be some one's guest at the time. And, if in a strange place, it will be preceded or followed by a clandestine meeting, and you will make every attempt to conceal the matter from others.

In the next chapter I will tell you of Spirit Messages.

What should you demand of your baker? He should first have the facilities to produce good, clean bread, competent help, and use the best of material. We claim to have all this and invite you to come at all times and inspect our plant and see us make it. Monaca Bakery, 122 S. Austin St.—Adv.

NEED FOR ORGANIZATION.

"Is the Life of a Mother Worth \$100?" was the caption of a news story in Thursday's Times. The story told of the unhappy plight of the mother of four little children, without funds, and endangered unless an operation could be performed immediately. Evidently many persons believe the saving of her life is well worth the price, for several, unable to find Mrs. Harrington, Ranger's Red Cross nurse, to whom contributions were to be sent, sent the money to the Times for this purpose.

There are poor people in all communities, however prosperous. There are persons in Ranger needing assistance. The majority of Ranger's populace is charitable and generous as well as prosperous. They are only too glad to help where help is needed. The trouble is that, each being busy with his own affairs, he knows nothing of his neighbor's need and cares.

Mrs. Harrington is doing a worthy work in discovering such cases as this and bringing them to the attention of the public. But her work is continually handicapped by lack of funds. In such cases as this, where haste is imperative, having money at hand might mean the saving of a life.

Ranger will look after its deserving poor, if their plight is called to its attention. But to do so in an organized way would be more efficient. Larger cities have their charities organized, equipped to do the necessary investigating and furnish prompt relief. Since Ranger intends to be a city, it might as well start now in establishing the organizations essential to conducting the city's business.

Charity is a community activity that will always be necessary. A small contribution by many persons would raise a sum imposing in the aggregate. Suppose, for instance, that the 2,250 members of the Chamber of Commerce contributed \$1 each per quarter to be expended for the benefit of the deserving. This sum, expended under the supervision of trustees selected for their upright and probity, would probably be sufficient to finance all philanthropic activities necessary. The expense to the individual would be virtually nothing, and such cases as that of the mother whose life is endangered could be attended to with promptness that the urgency demands.

PRICE OPTIMISTS.

The prediction that clothing prices will be lower this fall may be taken with the usual amount of salt.

The prediction is based upon figures showing an unusually large wool clip this year. But it evidently does not take into consideration that the largest "hi-91" consideration the fact that growers are holding large quantities of this wool for still higher prices. It does not take into consideration that the largest woolen mills of America are at this minute closed down because there are no buyers at present prices and the owners refuse to sell for less. It does not take into consideration the recent increase in wages to clothing workers. Nor does it consider that transportation charges will be elevated by the railway labor board award.

One might well say offhand that the prophets are optimists. They have a sincere desire to increase the mental comfort of the country by telling the populace of the nice things in store for them. Lower prices may have the hearty good wishes of the "business builders" who announce them as on their way. But so long as practically everyone in the country has a surplus—the laborer, the merchant, the farmer and the capitalist—and do not have to sell them for what they can get, they will hold them for what they want.

There will be no appreciably lower prices as long as the demand exceeds the supply.

LUDENDORFF'S PLAN.

If the Allies could build a second Chinese wall, say a mile high and seven miles thick, and topped with whirling

razor blades, between Germany and Europe, they might consider General Ludendorff's proposition that he raise an army of a million and a half men to fight the Bolsheviks. They would probably be willing to have Ludendorff exterminate the Bolsheviks, as it might relieve them from undertaking the same messy job, and the French especially would not care how many of Ludendorff's followers were wiped out in the process. But under any other circumstances it is difficult to see how they can consider Ludendorff's proposal.

The army of occupation knows that Germany is not repentant for its part in the late war. The recent Spa conference and the threats made there are ample evidence to the same effect. France will be able to see nothing in the idea but a scheme to raise forces to resume the attack on the western front. And where the Germans are concerned the French take no chances. They know the ambitions of the German military clique. They know the aristocrats would control Germany if this army were raised, and they think they know which way it would be faced when the forward march began.

If Ludendorff raises his army, it will be without the Allies' consent.

WHERE LABOR IS CHEAP.

We ooze sympathy for the Chinese coolie, for the Japanese dock women, for laborers, men and women, in many lands. But we should reserve some of our sensitive sympathy for the cheap labor of America. Where is it to be found? In practically every home in the land. Railroad men, steel men, miners, factory workers, all the world of labor, insistently is demanding ever higher and higher wages. But the wives and mothers in the average American home, who work more hours than are employed in any trade or business in the world, go their ways in silence. And what is their pay? Bed and board, as the rule!

Hard-working husbands of the average sort conceive duty done when they have "provided" for the household necessities. They "support" their wives and families. But there isn't one husband in a million who would go through the daily tasks of the average wife without yearning eternal revolution against conditions the contour of which makes for premature age and death.

Her work is to cook and mend, to get the children to school, to see that they are cared for, to battle with the butcher, the baker and the grocer; and, perhaps, by way of compensation, sometimes she may enjoy the luxury of a new dress or revel in the delights of a movie performance!

Habit has nailed her to the cross of sacrifice. The maternal instinct operates further to enslave her. Forward she goes, passing often through the valley and the shadow of death in response to nature's relentless demands, until the years have had their will of her and she folds her hands above her tired heart and goes away, away.

We might well leave Shanghai and Jerusalem, Finne and Jericho, to their own devices; leave the reconstruction of civilization in general alone until we have assisted the women in American homes to an easier destiny.

If, as Emerson says: "As much wisdom may be expended on a private economy as on an empire, and as much wisdom may be drawn from it," then it must be equally true that wisdom expended in elevating the homes and exalting the lives of average women would enable us to draw both wisdom and happiness from the process.—Cincinnati Enquirer.

PERSONALS

L. F. Son, undertaker for the Jones-Cox company, returned this morning from a two weeks' vacation which he has been spending in Oklahoma City and other points in Oklahoma.

Norman M. Vaughn, vice president, and H. L. Roosevelt, a director of the Choate Oil corporation of Oklahoma City, were in the city yesterday on a tour of inspection of that company's oil holdings. They were accompanied to Leeroy yesterday by J. B. Owens of the Sammie Oil corporation of Ranger. The Sammie is a subsidiary of the Choate Oil corporation.

A. F. Lawrence, who has been making his home at the Southland, leaves today for New York and will sail on Aug. 14 for Ragoon, India. He goes to that country in the interest of the Burma Oil company.

T. McCoy is back at the Southland after a week's stay at Toyah, Texas, looking over his oil properties. He is now organizing a company to develop this property.

A special medal of bronze, in the form of a keystone, was presented to 27,128 Pennsylvania Railroad men who served in the armed forces of the United States during the World War.

Actual cost of the war to European belligerents was in excess of \$100,000,000,000, represented by the property destroyed, losses in investments abroad, depreciation of properties, and by pensions.

Tank corps of various French regiments recently held a tank race near Versailles.

CABINET MEMBER CONTEMPLATES GIVING UP CARRIAGE FOR AUTO

Secretary of the Treasury Houston still clings to the old-fashioned horse-drawn carriage in his daily trips about the national capital. It is understood, however, that he contemplates giving up his carriage in favor of an automobile.

Secretary Houston in his carriage.

Rippling Rhymes
 by Walt Mason

PASSING OUT.
 So live that when you lie in bed, afflicted with the flu, and Dr. Beezax shakes his head and says your journey's through, you are not filled with vain regrets for things you've left undone, may you observe, "I've paid my debts, and death is bully fun." The debts behind look black as pitch, and spoil your spirits ease, when you are dying of the itch, or hoof and mouth disease. Your widow, draped in trailing black, and heaving sobs of woe, may take in wash-time at her shack to pay the bills you owe. And she may scrub some neighbor's floor, and wash the big stone step; a thought like this makes death a bore, and from it knocks the pen. I'd hate to sit upon a star in my nice muslin shroud, and watch my widow scrub and char, among life's madding crowd. She will not have to do such tricks—I'm not the least afraid; to bet when I have crossed the Styx, my debts will all be paid; and there'll be coolies in the bin, the products of my rhyme; and Jane may blow said money in and have the denning at her shack to pay the bills you owe.

"Tinker Bob" Stories
 by Carlyle H. Holcomb

Mr. Carp Faints in the Water.
 The Forest Dwellers were really excited—so much so that they even forgot about Red Fox and the fine refreshing drink he had. To think that Mr. Carp was angry with Mr. Turtle and wanted him to run on land in a race, was surely strange in the eyes of the peaceful Forest Dwellers. Tinker Bob knew all about this business, and so he said: "Mr. Turtle, will you run on land while Mr. Carp swims in the river?"
 "Sure," answered Mr. Turtle. "I'll race with him anyway he wants to go. I'll even lay on my back and win the race."

He was so Surprised That He Fainted.

That did sound funny to the Forest Folk, for they knew that Mr. Turtle could not run on land any better than he could swim in the water.
 "All right," said the King. "We will have another race between Mr. Turtle and Mr. Carp. Are you ready to start?" Mr. Carp bobbed his head out of the water and signaled that he was ready. Then, "One, two, three-go!" the King counted.

Mr. Turtle waddled off till he could not be seen for the tall weeds along the river bank. Mr. Carp used all of his energy to swim, and it took him only a little while to get to the bend of the river. When he arrived there, he thrust his head out of the river, and who should he see, resting peacefully on the bank of the river, but Mr. Turtle. At least he supposed it was Mr. Turtle. Angered more than ever, he started back at a greater rate of speed.

But just before he arrived, the Forest Creatures saw Mr. Turtle come out of the tall weeds and waddle back to the place of his starting. In an instant Mr. Carp came along and bobbed his head out of the water. And when he saw Mr. Turtle standing quietly on the bank, he was so surprised that he fainted. Yes, he fainted. It may seem strange to think of a fish fainting when there is so much water around, but he did and just floated on his right side on top of the water.

But after a little while he came out of his faint and when he heard the King telling about the race, and how it happened. It was like this: Mr. Turtle cannot swim very fast,

"Once a Trial . . . Always Nyal"

JAPANESE RETALIATION.

Retaliatory treatment of Americans in Japan is foreshadowed in a statement by Minister of Justice Oka to the effect that a bill is to be presented to the diet at Tokio recognizing land ownership in Japan only by citizens or subjects of nations extending similar rights of ownership to Japanese. A similar law exists in Japan today, but is not enforced. As a matter of fact, all the land owned by foreigners in Japan, outside of the old treaty ports—Yokohama, Kobe, Nagasaki and Hakodate—would scarcely make one good American farm.

Conditions and laws in that country are such that no attempt at colonization by any European race could be successful. Were such an attempt made, it would not carry the economic menace—the element of competition against Japanese workers by a people with lower standards of living than their own—that is brought into California by the Japanese immigrants. When such a peril menaced Japan from China, she excluded the Chinese.

No action taken by the minister of justice at Tokio will induce the people of

STATE PUBLICATION OF SCHOOL BOOKS ENDORSED

MANHATTAN, Kan., July 30.—More than a half million dollars have been saved by the people of Kansas to date by the state publication of school books, Tom McNeal, member of the state text book commission, told students of the Kansas State Agricultural college here recently.

"Not less than \$100,000 will be saved in the next three years on a geography now being published," Mr. McNeal said. "The book will sell for 50 cents a volume less than the same or similar books published by commercial houses."

Additional clasps for the Victory Medal issued by the war department, to be worn on the ribbon are awarded for participation in any of the following major operations in France: Cambrai, Somme, Lys, Aisne, Ypres-Lys, St. Mihiel, Meuse-Argonne and the engagements at Vittorio Veneto, Italy.

Joe Tate Loses First of Series With Judges 6-2

TWO GAMES AT EASTLAND. Ranger and Eastland play two games today, according to word from Manager Galloway. Carter and Boyer probably will work.

Special to The Times. EASTLAND, July 29.—Inability to hit Word at the proper time defeated Ranger in the first game of the series here, 6 to 2. For seven innings Word held Ranger...

Table with columns AB, R, H, PO, A, E for various players like Clapp, York, Lovelace, Galloway, Tate, Mooney, Hamilton, Mason, Payne.

Table with columns AB, R, H, PO, A, E for various players like Payne, Bowles, Gross, Bratcher, Browning, Hartwick, Gray, Berkeley, Word.

Summary. Stolen bases, Bratcher, Word, Payne; two-base hits, Berkeley, Clapp 2; struck out, by Word 4, by Tate 6; bases on balls, off Word 1, off Tate 2; double plays, Word to Browning to Gross, Galloway to York, Mason to York to Hamilton, Gross to Berkeley; hit by pitched ball, by Tate (Payne, Browning); wild pitch, Tate. Umpire, Wakefield.

ABILENE EAGLES PICK JOHNSON FOR EIGHT-NAUGHT WIN

Special to The Times. ABILENE, July 29.—The Abilene Eagles jumped on Johnson with a barrel full of blows and won the first of the series easily here this afternoon, 8 to 0. The visitors were unable to make their four bingles garnered off Gomez Hill count for runs. The score:

Table with columns AB, R, H, PO, A for various players like Beard, Flaggs, King, Griesenbeck, Fuller, Thrash, R. Johnson, Anderson, Johnson, Chapman, Billings, Carson.

Table with columns AB, R, H, PO, A for various players like Milan, Segrist, Boggs, Kizziar, White, Robinson, Medina, Shaffer, G. Hill.

Table with columns AB, R, H, PO, A for various players like Milan, Segrist, Boggs, Kizziar, White, Robinson, Medina, Shaffer, G. Hill.

Summary. Errors, Beard 3, Fuller 2, Segrist, Medina; two-base hits, Kizziar; sacrifice hits, Segrist, G. Hill, Robinson; struck out, by Hill, by Johnson 2; passed balls, Shaffer, Chapman; bases on balls, off Hill, off Johnson 3; stolen bases, Segrist, Boggs; hit by Hill (Thrash); double play, Fuller to Anderson. Time of game, two hours. Umpire, McDonald.

CITY LEAGUE

Table with columns Clubs, Games, Won, Lost, Pct. for Ranger Shops, Sinclair, Tee Pee, Prairie, Times, Tobacco.

Results Yesterday. Sinclair 9, Tobacco 0, (forfeited).

Games Today. Times vs. Tee Pee, Municipal park.

Ranger Tobacco nine forfeited to Sinclair yesterday afternoon by failing to appear. This gave the Sincoas an easy victory and an opportunity to practice. It also made them undisputed runners-up as Tee Pee was idle for the day.

Tee Pee and Times meet again this afternoon at Municipal park. Tee Pee has downed the newspaper boys in the three games played thus far, but the games have been close all the way and an interesting contest may be looked for.

The Sincoas have changed managers. J. N. Dwight being now in charge of the team. Scotty has issued no statement as to his reasons for resigning, but is probably merely seeking a rest from the arduous duties devolving upon that position.

IF...

By losing at Eastland yesterday while Abilene was white-washing Cisco, the league leaders, Ranger dropped to fourth place in the race, a point behind the Eagles, though having won one more than lost, just as the Eagles have. The Nitros did not lose ground on the league leaders, but dropped a half game further behind Mineral Wells, which did not play.

With two to play at Eastland today and Carter and Boyer the probable choices, the club stands to go back to third, or possibly second. Since pitching seven innings in the second game of the double-header with Mineral Wells, Chet Boyer has been home to Westminister, where his little boy, Billy Boyer, has been ill. Billy is just a year old. If Billy's condition permits, Chet will report back today.

If Gorman wins from Mineral Wells and Ranger takes two, results today will find the Nitros in second place, either depending on whether Cisco wins or loses. If Ranger wins two, the Nitros will pass the Eagles and may pass the Record-ers.

Table with columns Win, Lose, Win, One, One, Two for various clubs like Cisco, RANGER, Mineral Wells, Abilene.

HOW THEY STAND

Table with columns Clubs, Won, Lost, Pct., Behind for various clubs like Cisco, Mineral Wells, Abilene, RANGER, Gorman, Eastland.

Results Yesterday. Ranger at Eastland (two games), Eastland 6, Ranger 2. Abilene 8, Cisco 0. Gorman-Mineral Wells, off day.

Games Today. Ranger at Eastland. Cisco at Abilene. Gorman at Mineral Wells.

TEXAS LEAGUE

Table with columns Clubs, Games, Won, Lost, Pct., Behind for various clubs like Fort Worth, San Antonio, Beaumont, Shreveport, Dallas, Wichita Falls, Galveston, Houston.

Results Yesterday. Fort Worth 8, Houston 0. Wichita Falls 9-0, Beaumont 4-1. Dallas 3, Galveston 0. Shreveport at San Antonio, game called in fifth, account rain.

Games Today. Fort Worth at Houston. Shreveport at San Antonio. Dallas at Galveston. Wichita Falls at Beaumont.

AMERICAN LEAGUE

Table with columns Clubs, Games, Won, Lost, Pct., Behind for various clubs like Cleveland, New York, Chicago, Washington, St. Louis, Boston, Detroit, Philadelphia.

Results Yesterday. Washington 2-3, Detroit 1-13. Philadelphia 2-12, Chicago 4-6. Boston 3, Cleveland 9. New York 3-6, St. Louis 4-4.

Games Today. Washington at Detroit. Philadelphia at Chicago. New York at St. Louis. Boston at Cleveland.

Some Records

HOLLY SMOKE!! LOOK WHAT MARTY SHERIDAN DID BACK IN NINETEEN-SIX AT ATHENS!!

Athletes competing in future Olympics will have a much harder time equaling the records made by past performers than they have hitherto. The reason being that heretofore countries sent comparatively small teams to these events—one athlete often competing in as high as seven or ten events, and more. At Antwerp mighty few will be entered in more than five. The trend is toward specialization.

It is very doubtful whether the Olympics this year can produce another Martin Sheridan, Harry Hillman, Ray Evry or a Kolehmainen. A close study of Olympic timber of all the nations today fails to disclose one who stands forth alone above the crowd. And if there is such an athlete in the embryo, the chances of his equal-

GREAT OLYMPIC FEATS OF THE PAST

ing the remarkable feats of Olympic records of the veterans above mentioned are slim. The one big reason is the changed Olympic program and the changed rules. Sheridan, it can be recalled, won two firsts and three seconds at Athens in 1906. In most of the track events at Antwerp, a country is limited to six entrants, of which number only four can start. Alvin Kraentzlein won four firsts at the Olympics in Paris in 1900. He led the crowd in the 60-meter dash, the 110 high hurdles and the running broad jump. Archie Hahn joined the list of three-time Olympic winners at St. Louis in 1904. The Milwaukee sprinter won the 60, 100 and 200-meter dashes. Ray Evry was a triple Olympian vic-

tor for two times. His record of ten Olympic championships and fifty Olympic points never has been approached and probably never will be. Ray won three standing jumping events—high, broad and triple—at Paris in 1900, and again at St. Louis four years later. At Athens in 1906 and at London in 1908, Evry captured both standing and high jumps. Hannes Kolehmainen won the 10,000 and the 5,000-meter run, and the cross-country event. There are two other three-time Olympic winners, Harry Hillman and Jimmy Lightfoot both captured their honors at St. Louis in 1904. Hillman won the 400-meter run and the 200-meter hurdles. Lightfoot was a great middle distance runner and broke into the charmed circle of triple winners when he won the 800 and

TAX ON SERVANTS IN FRANCE CAUSES LOUD COMPLAINTS

PARIS, July 30.—The servant problem, new to Europe, is sharing newspaper space and private discussion in France with high taxes and revolutions. The women who went into factories during the war have not returned to the broom and pots. The government tax on servants, definitely included in the new tax bill, is the least of the trouble, but it served to bring out long, loud complaints that there are few servants. Employers profess to be willing to pay double and treble pre-war prices and to recognize the servants' new standard of demands. Unlike the American housewife, the French have not yet taken for granted the general use of electric and gas equipment, washing machines, patent kitchen cabinets and all the rest of the labor-savers that give advertisers the courage to print pretty pictures of the young bride in a lace apron getting dinner to the music of a phonograph while reading a book in the breeze of an electric fan.

France is taking the servant shortage seriously. Erudite surveys of Indo-China and French Africa are being published to show the availability of other races for household work. Meanwhile the concierge carries the offers of better wages from an employer to the maid of her best friend.

Of all the countries engaged in the world war with Germany, the United States is the only great nation in which the war laws, with but two or three exceptions, remain in full effect. There are 110 war laws still in force since the armistice was signed nineteen months ago.

THE GLOBE'S SENSATIONAL Mid-Summer Economy Sale Starts Tomorrow. Again The Globe demonstrates its ability to offer men of Ranger high-grade merchandise at a fraction of what you've been in the habit of paying. Tomorrow morning we place our entire stock of summer wear on sale at real bargain prices. Athletic Underwear \$2.50 and \$3.00 values \$1.95. Silk Caps \$2.00 and \$3.00 values \$1.95. Special for Saturday Only. One lot of fancy Soft Collars, 50c to 75c values, offered tomorrow only at 29c. THE GLOBE. Saule Perlstein, Prop. 119 South Austin. Straw Hats. Every Straw in the store, Panamas, Balibuntals and Sailors included, now go at One-Half Price.

OIL

President's Race Being Fought by Drilling Crews

Special to The Times.
BRECKENRIDGE, July 30.—The presidential race has extended to the oil fields, it being learned today that two wells on the outskirts of the city have been christened with the names of the candidates who will seek the highest office in the land next November. So positive are Cooper & Henderson, one of the largest independent firms operating in the Stephens county field, that Warren G. Harding will be returned the winner next fall that they have named their Goodwin No. 2 well after the senator. The Walker-Perkins people, who are also drilling on the Goodwin tract within a short distance of the Cooper & Henderson outfit, have named their well after the governor of the Backeye state. The wells offset each other. They are now at a depth of 1,000 feet and are being rushed at top speed as the workers are all anxious to bring in large production.

This is chiefly true of the Cooper & Henderson outfit since the employees of the firm are to share in one-half the oil. They have raised \$30,000 among themselves to pay for their part in drilling two wells on this tract. The "presidential wells" offset the famous Walker-Perkins well that recently sold for a million dollars.

SULPHUR COMPANIES IN PECOS FIELD WILL TEST OIL SHOWINGS

Special to The Times.
PECOS, Texas, July 30.—Two of the five sulphur companies operating in the Reeves and Culberson county oil fields have turned their attention to oil. H. B. Thomas of the Texas Sulphur Co., is negotiating for a standard rig and a contract to go 3,000 feet on his company's property. The baby standard rig and machinery for the Consolidated Sulphur Co., has reached here from Los Angeles, and is being hauled to the location in the southwest corner of block 111 Culberson county.

Oil development is going on or planned on all sides of this sulphur land, and the other companies are watching the findings of the field closely. Sulphur rock in this territory, lies on top of the ground in layers from three to twenty feet thick and its presence in other sections of the field is noted by the fact that practically all of the deep test wells have struck strong flows of sulphur water.

E. F. Goodwin of the Pinal Dome Oil Co., of San Jose, Calif., has let contracts for two standard rigs to be erected on his holdings in this field. One is to go on the Derrin ranch in Pecos county near Fort Stockton, and the other is to go on the Evans & Means ranch in Loving county. The latter rig will not be erected until the new road to that section of the county is completed from Porterville, north.

Drilling in the Laura well at 1,675 feet was delayed when the shoe in the new casing being set became crumpled, and it was necessary to pull the string, and reset it with a new shoe.

The Bell Reeves has found a sand stone at 1,300 feet and is drilling. The Jack Wells Co., which is also in the Bell area, is finding a softer limestone after drilling slowly through fifty feet of this formation. This well is down 1,120 feet.

T-P Riebe No. 1 Held Certain to Make Producer

Special to The Times.
STRAWN, July 30.—Texas Pacific Coal & Oil company's T. P. Riebe No. 1 came in yesterday at about 3,725 feet with between thirty and forty million cubic feet of damp smoky gas and showing of oil. The driller working on the well state that it is beyond any doubt the largest gasser that has ever been brought in in this district and owing to the fact that it is only half mile north of and one-half mile east of the Texas Pacific Coal & Oil company's J. T. Foreman No. 1, which has been making some forty barrels for the past several months it is evident that this will make a good oil well. This opens up a large wildcat acreage.

The well is seven miles north of Strawn on the Strawn-Mineral Wells road.

WEEK SHOWS BEST PRODUCTION FIGURES IN MANY MONTHS

New production in the districts embraced largely in Eastland and Stephens counties, for the week ending July 24, was 15,908 barrels of oil and 13,000,000 feet of gas. This is one of the best weeks in several months.

New production for the Ranger field, which includes all of Eastland county outside the Desdemona district, was 3,733 barrels from five completions. Desdemona had one completion with ten barrels new production.

Stephens county contributed 11,655 barrels of oil from thirteen wells and 11,000,000 feet of gas from two wells. One wildcat well was good for 2,000,000 feet of gas and three others swelled the total of oil by 510 barrels.

TWO BRECK. WELLS ANSWER TO NITRO WITH GOOD FLOWS

Special to The Times.
BRECKENRIDGE, July 30.—Cooper & Henderson shot two of their wells yesterday and both responded to the charge. Martin No. 4, on the western edge of town was treated with eighty quarts of nitro-glycerin and the well is now making forty barrels an hour.

Chaney No. 1, just north of town, was given sixty quarts and is now making sixty barrels an hour.

BUSY NIGHT FOR POLICE DEPARTMENT; EIGHTEEN ARRESTS

Eighteen arrests were made last night by the police department on various charges. Of the number three were for highway robbery, seven for gambling, two for affrays and two for drunkenness.

The alleged gamblers, the police say, were caught shooting dice in the Willson hotel by Officers Hamilton and Weeks. Each of the seven pleaded guilty and paid their fines of \$20.70.

The affray was between two women at the Oklahoma cabaret last night. They were fined \$11.70 by Police Judge L. H. Flewelen.

In both charges of drunkenness, fines of \$15.70 were entered.

ACKERS GAUGES 3,200 BARRELS IN 24 HOURS

The Ackers No. 1 of the Prairie Oil & Gas company, a mile and a half due north of Breckenridge, made a little over 3,200 barrels of oil for the twenty-four hour period ending yesterday morning at 7 o'clock. The well came in unexpectedly Tuesday afternoon at a depth of 3,046 feet and first estimates placed the flow at 1,200 barrels. Later the flow increased heavily until the 3,200 barrel mark was reached and passed yesterday morning.

Since yesterday the rate of production has declined a little but the well is still making better than 2,600 barrels. It is regarded as one of the best wells drilled lately in the Breckenridge field.

Ackers No. 1, on the same tract, came in several days ago for smaller production at about the same depth. The Sinclair Oil & Gas company has an offset on its Rogers lease, now drilling at 2,860 feet.

The big gasser brought in on the T. P. Coal & Oil company's Riebe lease, four miles north of Strawn, is increasing its flow, according to latest reports. The gas is wet and smoky and comes from a true oil sand at 3,730 feet, the deepest level at which a large gasser has ever been found in the Strawn district. Initial production was estimated at forty million feet and no estimate on the present flow is available. The well has not been capped.

STROSNIDER GIVEN HEARING AND BOND OF THREE THOUSAND

Homer E. Strosnider was given a preliminary hearing this morning before Justice of the Peace McPatter on a charge of forgery to the amount of \$930 and his bond was fixed at \$3,000.

Strosnider presented a check drawn on the Guaranty State bank of Breckenridge for \$930 and signed Hefflin Bros. to the Farmers & Merchants State bank with the supposed indorsement of Guy Wetzel. Investigation showed that such a firm as Hefflin Bros. did not exist.

Efforts were made to cash the check at several banks before Strosnider was arrested by Deputy Sheriff George F. Jones.

13-YEAR-OLD RUNAWAY'S "BUSINESS CAREER" HALTED

CINCINNATI, July 30.—"Oh shucks! Just when a feller gets himself agoin' right and stands a chance to make good he's collared. I'm able to work and care for myself," remarked Vito Amato, 13 year old, at Columbus, Ohio, when Detectives William Hill and Joseph Brink apprehended him for his parents.

A Cincinnati boy had written to Amato last Wednesday inviting him to come to Cincinnati and "get started right." Vito came and was wearing an apron and "slinging hash" in a restaurant in the "hotons" when interrupted by the detectives.

"Let me go and I'll own a restaurant in a year," said the youth.

He was located through a letter which he wrote to another Columbus boy, telling him to "come down and make good."

The boy had \$200 when he left home, his father stated.

"GRUBSTAKING" OF NEWLYWEDS WOULD SOLVE FARM PROBLEM, SAYS ILLINOIS EDUCATOR

By International News Service

FOIT COLLINS, Col., July 30.—"Grubstaking" of newlyweds to extensive farm lands as a means of maintaining the high standard of rural citizenship and as an aid to the "back-to-the-farm" movement, was advocated here by Professor Eugene Davenport, dean of the department of agriculture of the University of Illinois.

Dean Davenport's solution of the problem of increasing farm production, in face of strong economic attractions of city life, is the formation in each community of an improvement association for the purpose of buying farms in the community and "grubstaking" upon them young couples known to the members of the association who want to stay on the farm.

This would not only solve the land problem, Dean Davenport said, but it would put within the control of the community itself the future citizenship of the community.

Dean Davenport pointed out that when a young couple just graduated from college—the young man from an agricultural college course and the young woman from a domestic science course—sought an opportunity to settle on a farm they were met with many obstacles in the way of financial assistance. They have no security for loans from federal or state institutions and the result is they enter some other field of endeavor with a

view to accumulating sufficient funds to buy a farm.

Before they accumulate the necessary capital," Dean Davenport said, "they are already in middle life, have a family and are so well established in some line of business that they cannot afford to give it all up for a new start."

Dean Davenport said loans by the government or state were an impracticable solution of the land problem, since the loans required are personal loans, and the government has no personal knowledge upon which it can award loans to applicants.

"What is needed," Dean Davenport said, "is the financing of farming on a personal basis. The farmer should have personal credit. The personal loan, while perhaps, risky if one couple is considered, is not in the least risky when a thousand couples are considered.

"Each community should form an improvement association to hold in the community those young people that are desired on the farms of that community. The association thus composed of citizens of the community, would have personal knowledge of the young people and would know whom to place on farms, and any state or federal financial assistance could be allotted through the association."

Dean Davenport urged low rates of interest on these personal loans, and said that couples should be encouraged to pay for farms as rapidly as possible.

MORTUARY

MARGUERITE SMITH.

Marguerite Smith, 10 months old daughter of Mr. and Mrs. W. H. Smith, died yesterday at the home of her parents on Whalen hill and will be buried this afternoon in the Evergreen cemetery. Funeral arrangements are in charge of the Milford Undertaking company.

Lucile Hatfield
Lucile Hatfield, 6 years old, daughter of Mr. and Mrs. John Hatfield died Monday, July 26. The body was sent to Thurber last night for burial.

Part of the personnel of the United States navy was made up of Indians from Alaska.

EVEN RUMANIAN PRINCESS KINGWS WERE ALL MILNAIRES

PARIS, July 29.—The Queen of Rumania taught luxury buying folk a good lesson recently when she entered an antique shop. She picked up an amber statuette and asked the price. "One hundred and twenty pounds," was the reply. "That's too much for me," said the queen and her daughter Princess Elizabeth, who was with the queen, added: "They must think we are Americans."

"Legion" is the name of John Philip Sousa's new march which was written at the request of officers of the American Legion and which, it is expected will be authorized as the Legion's march when the National Convention meets at Indianapolis.

The national wealth of Japan has been doubled by the World War.

West Texas Conditions Ideal for Cotton Mills; Water, Fuel, Labor, Quality Fiber a-Plenty

Special to The Times.

ABILENE, July 29.—The production of a higher grade cotton in Central West Texas has effectively attracted cotton mill promoters to this section and together with the vast coal fields which are not yet developed, offering cheap coal, the outlook for the erection of a number of large cotton mills in this section is most flattering, according to the West Texas Chamber of Commerce.

Coal, both hard and lignite, is to be found in unlimited quantities in many parts of West Texas, but have not been developed because of their remoteness from railways and because of the cheapness of natural gas and oil. The presence of this factor has caused the eyes of numerous cotton spinners to be turned this way. The altitude of the most of the West is more congenial to cotton manufacturing and to social conditions. The staple being raised in Jones, Taylor,

Fisher and several contiguous counties is said to be superior to anything in the South. The fact that many towns in great water supplies is another advantage which is bringing about investigation of prospects for erection of cotton mills in West Texas.

It is pointed out that the labor situation would never become a deterrent in West Texas by reason that the country is healthful, the altitude just right for best living conditions, and labor can be commanded easily. In fact so sanguine are cotton mill promoters that labor would solve its own supply in this section that they are now making favorable reports on the situation in this section which may shortly bring the announcement that large factories are to be located in towns in this belt of the country. Water, cotton, coal and labor are the big four essential for successful cotton mill operation. They blend most nicely in almost all of this section of the state.

'Blood Brother' Ready to Avenge Death of Essad

By Associated Press

PARIS, July 30.—Vengeance for the assassination of Essad Pasha, head of the Albanian delegation here, is being quietly awaited by a "blood brother" of the Balkan leader, according to a circumstantial story by a French writer, published by the Excelsior.

This man, now rich and influential in France, the story goes, was one of several poor young men who thirty years ago met Essad Pasha, then known as the "Black Dagger of Abdul Hamid," by Constantinople, when he crowded into a card game and insisted upon playing with them. Fearing Essad Pasha, they protested they were too poor to play with him but he insisted, emphasizing it by placing his revolver on the table as a threat.

To meet this, the "blood brother" put down his dagger, poisoned, he said, Essad Pasha showed his surprise, then his assurance.

"Young man," he exclaimed, "this is the first time anyone has dared defy me. Men like you are rare."

Essad Pasha took his own dagger, opened a vein in his wrist and also in that of the young man, each sucked a few drops of blood from the other and they became "blood brothers," according to Albanian customs, sworn to avenge each others' deaths.

"I am ready," this brother, now, is

quoted as saying, "to keep my oath, but I have confidence that French courts will make it unnecessary for me to interfere."

Rustem Aveni, arrested on the spot for shooting down Essad Pasha as the latter was entering his automobile in the downtown district recently, is awaiting trial. He was a student who posed as the avenger of Albanian wrongs.

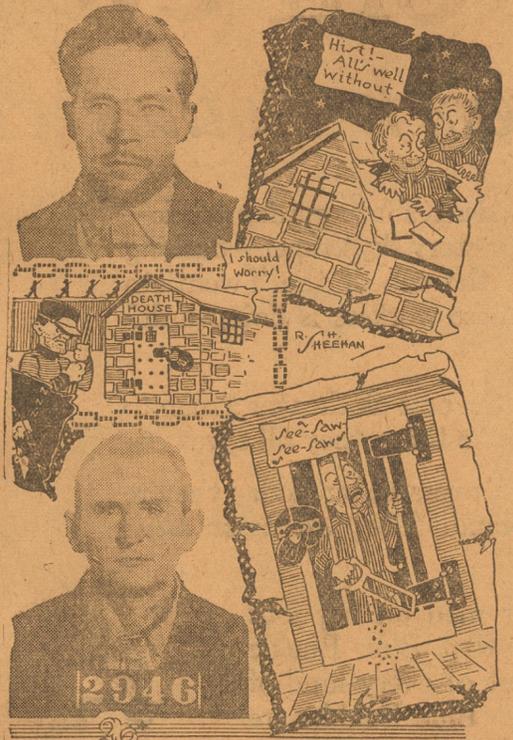

SEEK SECRETS OF RELIGION BANISHED BY MISSIONARIES

PAPEETE, Tahiti, July 29.—The ancient lore of Tahiti is to be resurrected and the ruins of the temples of the South Pacific islanders, ordered destroyed a century ago by Christian missionaries are to be uncovered by excavation. Efforts to gather the relics of a forgotten worship are being vigorously prosecuted here.

Interest centers upon the great central temple of Marae at Atehuu, on Tahiti island, where human sacrifices were offered to the bloodthirsty god of war, "Oro." So completely were the wishes of the missionaries carried out that nothing remains save traces of the foundations of this extensive temple. Excavations are expected to bring to light some interesting object, which, it is hoped, will reveal the purposes and uses of this ancient structure.

Marae, while being the chief temple of Tahiti, was not the oldest or the most important in the islands. The temple at Opoa, traces of which still remain on the island of Raiatea, was the sacred center of religion in the eastern Pacific and not until a stone from this has been incorporated in the structure did the

OUTLAW HIDES ABOVE PRISON BAKERY WHILE POSSES SCOUR COUNTRY ROUND

William E. Smith (above) and R. L. Lofton.

For ninety-six hours, while mounted posses scoured the bleak country surrounding the Wyoming penitentiary at Rawlins and officers hundreds of miles distant were on the lookout for him, William E. Smith, Convict 2777, crouched in a hole above the prison bakery in an atmosphere hotter than a Turkish bath, enduring torment while awaiting opportunity to scale the peniten-

tiary wall and, if possible, join his prison bunkie, R. L. Lofton, who, "somewhere outside," he believes to be waiting for him. He was finally driven by thirst from his hiding place and was put in the death house for safe keeping. He escaped from his cell by sawing his way through the bars with a meat saw which he had surreptitiously taken from the prison kitchen.

Marae temple on Tahiti become consecrated.

It was at Marae that Captain Cook witnessed the ceremonies of human sacrifices chanted in his "Voyage." The natives, while professing Christianity, and manifesting it by most active church attendance, have a deep fear of these places. Under no circumstances will they approach these temples at night, nor venture near them by day without great trepidation, believing that should they in any way offend the sleeping gods, vengeance will come.

KANSAS DIVERSIFIES.

By Associated Press

KANSAS CITY, Mo., July 30.—Western Kansas, long famous for wheat, is showing a tendency to diversity of crops which is hailed with enthusiasm by agricultural authorities. They have long been talking its wisdom to farmers of the state. Wheat remains the great crop of the section, but many farmers who formerly devoted practically their entire acreage to wheat are now planting corn, barley, kaffir and cane as well.

ERSTWHILE UPPER CLASS IN GERMANY FIND HARD TIMES

By Associated Press
BERLIN, July 30.—How the erstwhile well-to-do live in present day Germany is described in the Allgemeine Zeitung by an elderly high state functionary, a married man with a family, who says that although he belongs to the upper 30,000 in Prussia, according to the income tax schedule, his style of living is reduced to that of a plain laborer.

"I own a fine mansion in a fashionable Berlin suburb," he writes, "but we have been obliged to let four rooms furnished, and will have to restrict our own apartments still further."

"Before the war, we breakfasted on eggs and bacon, white bread and butter, and tea with cream and sugar; now we have to content ourselves with thin gruel, black bread, no butter or sugar, and the nondescript 'official' jam."

"Only once or twice a week does meat appear on the dinner table; never a joint. Wine has been abolished. Supper consists of porridge, herring or cheese. Before the war, the family used seven pints of milk daily; now a quarter of a pint is the allowance."

"Clothes are worn threadbare; my son mends my shoes and my daughter cuts my hair."

"Letter writing has become too expensive. I tear off unused half sheets of letters received and use old envelopes, inside out. Baths are cut down to one-half."

"We can no longer afford to entertain company to meals; we meet our friends after supper."

The present lean times, the writer confesses, have not impaired his health very much, although he says he has become "somewhat spare in body."

SCHOOL ALL YEAR ROUND FAVORED BY TEXAS EDUCATORS

AUSTIN, July 30.—School all the year around has been approved by the Texas committee on classification and affiliations as a two year experiment at Amarillo. The plan contemplates that there shall be three school terms of four months each, and that thirds of the 3,000 school children of Amarillo shall be in school twelve months of the year.

Each student is required to go to school eight months and has the privilege of selecting his four months of vacation. "By this plan the school building will not be necessary to maintain such a large force of teachers," said Prof. S. M. N. Marrs, general supervisor of schools in the state department of education.

The committee approving the experiment is composed of representatives of the high schools, grammar schools and

institutions of higher learning in the state. It also decided that first and second class high schools in Texas must maintain nine months free term or lose classification and affiliation with institutions of higher learning. Certain readjustments were recommended in the history courses in high schools to give better training in citizenship.

BELGIAN KING AGREES WITH SHERMAN'S STAND

GENEVA, July 30.—King Albert of Belgium, accompanied by Joseph Ravenel, a guide who served throughout the war as a "Blue Devil" of France, incidentally being at Verdun, ascended Dru peak the other day. The king and the soldier remained on the summit for half an hour, the guide discreetly, he thought, trying to question the king on his war record. The king was reluctant to speak of his war experience. When the guide came down he asked a newspaper man:

"What was it that the American General Sherman said about war? King Albert told me: 'Sherman said all that is to be said about war in three words'."

Big workers from everywhere

and the same work clothes every time

"Plowing—reaping—no matter what the farm work—Blue Buckles are the overalls to wear."

(Signed) Fred McCulloch

Leading corn grower of Hardwick, Ia., who raised an 88-bushel-per-acre crop.

PUTTING a hundred acres into garden truck—working on a thirty-story skyscraper—dashing along the rails in the cab of the Twentieth Century—every one of these workers is doing a different kind of job.

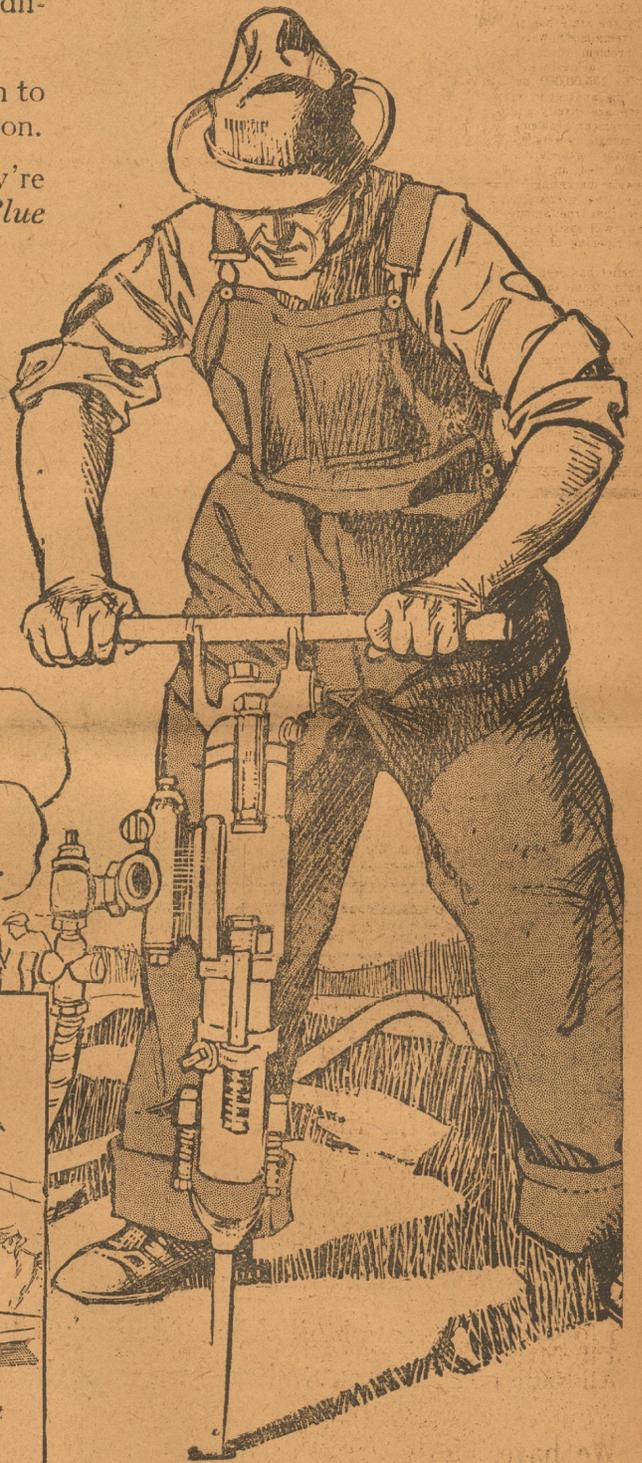

But when it comes to the best clothes for a man to wear on the job—that is one thing they all agree on.

They've all tried a lot of overalls, but today they're all strong for just one brand. *They all wear Blue Buckles.*

Like millions of other men on big jobs everywhere, they know that Blue Buckle Overalls meet every test of every kind of work. That is the reason Blue Buckles are the *biggest selling overalls in the world.*

Long wear is woven into the tough, thick denim cloth. Every pair is always big and roomy—always comfortable. The wide, double-stitched seams never rip. The heavy brass buttons and buckles don't rust or break. Every detail has the same sturdy, first-class workmanship—the same careful attention. Big, convenient pockets—extra wide suspenders, a solid backband, and free swing raglan sleeves on all the coats.

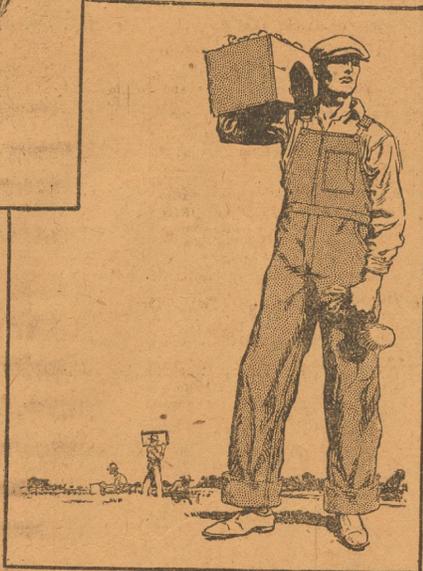

Wear, comfort, looks, *you'll* find them all in Blue Buckles. Ask your dealer for a pair today—Men's, Youths' and Children's sizes.

"Tough as rawhide, big, roomy and comfortable—that's what I know about Blue Buckles."

(Signed) Fred Signer

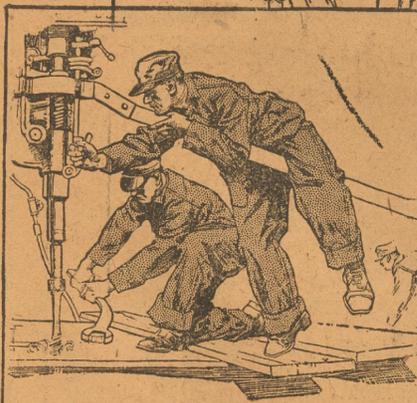

Engineer of the Twentieth Century Limited.

"Every pair of Blue Buckles is always big, strong and comfortable."

(Signed) H. H. Moeller

Noted truck farmer of St. Ansgar, Ia., who makes his land net \$250 to the acre.

"Blue Buckles stand the roughest work I give them."

(Signed) George A. White

Steel-driller of Edgemoor, Delaware.

To DEALERS: If you want to know where to get Blue Buckles, write to Blue Buckle Overalls, Lynchburg, Va., and we will give you the name of your nearest jobber.

Blue Buckle Overalls Union Made

Biggest selling overall in the world

Cars Promised for Movement of Kansas Crop

TOPEKA, Kans., July 30.—An increase in the number of cars made available for the shipment of wheat to market is affording some relief to Kansas farmers in the problem of marketing their grain, according to state officials and bankers interested in the wheat movement.

Although there are not yet enough cars to move all the wheat, and many cars promised by the inter-state commerce commission have not arrived, and railroad officials are unable to give any definite assurance as to when they will arrive, the car shortage is not so desperate now as it has been in past years.

Officials of the state board of agriculture estimate there are still stored on Kansas farms 22,000,000 bushels of last year's wheat crop, and an additional 8,000,000 bushels of last year's wheat in Kansas elevators. A perceptible movement of this "hold-over crop" is now reported by the state board of agriculture.

There remains, however, the vastly greater problem of moving this year's wheat crop, variously estimated at 110,000,000 to 135,000,000 bushels to the great milling and export centers.

Bankers are vitally concerned in the wheat movement problem. According to J. R. Aspaugh, secretary of the Kansas State Bankers' association, bankers have \$65,000,000 tied up in loans on crops which await marketing. Many of these loans are long overdue, and the prospects are that the amount involved in crop loans will easily reach \$100,000,000 with the ripening of the present wheat crop.

Some relief has been obtained, Mr. Aspaugh said, from the recent announcement of the federal reserve board that it favored extensions of crop loans, and the fact that federal reserve banks had been authorized to accept wheat paper from member banks or from other banks thru correspondence.

Railroad officials have warned farmers of their inability to move the new wheat crop promptly and urged them to make arrangements to hold it on farms properly stacked in bins.

FORMER SOLDIERS SEEK FAME AND FORTUNE AS ARTISTS

Wounded soldiers sketching a charming model at Camp Pelham Bay. Wounded in the war in such manner as to render impossible the pursuit of their old vocations, these ex-soldiers are studying art at Uncle Sam's expense. The photo was taken a few days ago on the Lorillard Spencer estate. The young men are under the instruction of Mort Burger.

U. OF T. GIVEN SCHOLARSHIP AS MEMORIAL TO YOUNG WOMAN

Special to The Times.
AUSTIN, Texas, July 30.—It is announced by Dean W. H. Hayes, of the department of journalism of the University of Texas, that Dr. and Mrs. F. S. Love of Geneva, Texas, offer a scholarship of \$150 a year as a memorial to their daughter, Miss "Billie" Love, a former student of journalism, who was killed in an automobile accident on her way home from the University, December 21, 1917. This scholarship fund will be awarded year by year to some deserving young woman preparing for work in journalism.

WAR SEPARATIONS MAKE DEMOCRATIS COMPLICATIONS

By Associated Press.
VIENNA, July 30.—Variations of the Enoch Arden story continually crop up in this part of the world with the return of prisoners of war from far countries. About the time of the armistice a Vienna woman received a telegram from Irkutsk saying her missing husband was alive there. She dropped dead at the long deferred word. A friend telegraphed the husband but the message was delivered to another man of the same name ill in the hospital. Later the latter married his nurse

and returned home with her a few weeks ago. He found his wife alive and well and now they are trying to straighten out the situation.

STATE RENT COMMISSION PROPOSED IN MISSOURI

ST. LOUIS, July 30.—Establishment of a state rent commission to fix rents, adjust complaints, and act generally as intermediary between landlord and tenant, is proposed by the Missouri Tenants' association, recently organized here. Of the 3460 miles of railways destroyed in France, 2526 miles have been reconstructed.

Summers' Quality Market

108 South Rusk Street "Where Have You Found a Cleaner Store?"

SIXTEEN STATES WILL VIEW WEST TEXAS DISPLAY

STAMFORD, July 30.—Sixteen state and interstate fairs of the north, east and south will be visited by the West Texas Chamber of Commerce. All West Texas agricultural displays beginning Aug 7 and closing Nov. 7, according to J. C. Wells, exhibit manager of the organization, who leaves Sunday to open general exhibit No. 1 at the Missouri State Fair at Sedalia, Mo., Aug 7 for a one-week stand. Dr. O. H. Loyd of Vega who has charge of general exhibit No. 2 will open his displays at the Illinois state fair at Springfield, Aug. 26 for a three-days' stand. Forty West Texas counties will participate in the two general exhibits.

Fairs to be visited by general exhibit No. 1, in charge of J. C. Wells, exhibit manager, include: Missouri State Fair, Sedalia, Aug. 7-14; Northwestern Ohio Fair, Toledo, Aug. 23-28; Ohio State Fair, Columbus, Aug. 30 to Sept. 4; Kansas Free State fair, Topeka, Sept. 13-18; Tri-State fair, Memphis, Sept. 25-Oct. 1; Southwestern State fair, Atlanta, Oct. 18-25; Georgia State fair, Oct. 26 to Nov. 5.

Fairs to be visited by general exhibit No. 2, in charge of Dr. O. H. Loyd, exhibit manager, include: Illinois State Fair, Springfield, Aug. 26-28; Illinois-Indiana State fair, Danville, Aug. 28 to Sept. 4; Kentucky State fair, Louisville, Sept. 13-19; Tennessee State fair, Nashville, Sept. 20-25; Chattanooga Interstate fair, Chattanooga, Oct. 2-9; Alabama State fair, Birmingham, Oct. 11-16; Mississippi State fair, Jackson, Oct. 18-23; Louisiana State fair, Shreveport, Oct. 28 to Nov. 7.

Advertising paraphernalia, descriptive literature and products of the soil are being expressed for the opening at Sedalia. It is the most comprehensive advertising scheme ever attempted by any region of Texas.

In Paris four thousand taxis are uphauled in olive-drab army cloth left in the American army stores in France.

The name "America" was first used according to the best authorities, in the village of St. Die, among the Vosges Mountains, in the east of France. It was often called the baptismal front of America.

Feeling Blue? Liver Lazy? Take a Calotab

Wonderful How Young and Energetic You Feel After Taking This Nausealess Calomet Tablet—Perfectly Safe.

If you have not tried Calotabs you have a delightful surprise awaiting you. The wonderful liver-cleansing and system-purifying properties of calomet may now be enjoyed without the slightest unpleasantness. A Calotab at bedtime with a swallow of water—that's all. No taste, no salts, nor the slightest unpleasant effects. You wake up in the morning feeling fine. Your liver is clean, your system is purified, your appetite hearty. Eat what you wish—no danger. The next time you feel lazy, mean, nervous, blue, headachy or discouraged give your liver a thorough cleansing with a Calotab. They are so perfect that your druggist is authorized to refund the price as a guarantee that you will be delighted.

Calotabs are sold only in original, sealed packages. Price thirty-five cents. At all drug stores. Adv.

I AM RUNNING AS A FARM LABORER, SAYS ALLAN'S OPPONENT

By Associated Press
TOPEKA, Kan., July 30.—The only opposition Governor Henry J. Allen has in seeking re-nomination in the Republican primaries Aug. 3 comes from a political unknown who declares he is a "common farm laborer."

George B. Snow of Oakland, a suburb of Topeka, is the candidate against Governor Allen. Although he asserts he is running on a "farm labor" platform he admits no organization is back of his candidacy. The State Federation of Labor has it.

"I'm running as a common farm laborer," Snow commented on his race. "That's what I am. I worked in the harvest field last summer and again this year. Last winter I sold apples on the streets of Lawrence. This spring I cut potatoes for Milt Kelsey."

Snow is 53 years old and was born at Lawrence, Kan. Aside from being a farmer and painter, he adds that he has been a preacher of righteousness for the last twenty-five years. He is a bachelor. In filing his candidacy to assure the presence of his name on the primary ticket, he paid the fee of \$50 which is necessary in case the candidate does not file the petition signed by voters.

FORT STOCKTON HEARS RUMORS OF NEW RAILROAD

Special to The Times.
FORT STOCKTON, July 30.—Interest in a potential oil field about Fort Stockton has been whetted by persistent rumors to the effect that a new railroad leading off the Texas & Pacific and crossing the Orient at Fort Stockton is to be built to Ozona and Sonora, opening up a new territory. The rumor is to the effect that capitalists who have become elated over the recent favorable geological reports of the Fort Stockton country are willing to take the initiative in opening up the new territory before the advent of a real gusher.

The "immortal stunt" which stopped the German drive on Paris, nearest Paris, to be long remembered by Americans, was on the Chateau-Thierry road, near where it dips sharply southwest to Meaux and Paris.

THE WOMAN WHO SAW

The Way of All Mystery.
"You see that apartment just across the court?" queried the Woman's hostess as they sat chatting over the tea wagon. "I call it the Place of Mystery."

The Woman looked out to see handsome fllet curtains whipping in the breeze and behind them an imposing brass vase filled with American Beauty roses.

"Why mystery?" she wanted to know.

"Well, you see the apartment was unoccupied when I moved in four months ago—just after the whole house was done over. Naturally I kept watch to see if the place were filling up, but this one was empty, entirely so I could swear, until one fine day there appeared curtains, flowers and all the fixings. Not a workman, a mover or a stick of furniture did I ever see in the hall. There wasn't even the sound of one little hammer—and you'll admit that is uncanny, my dear—and then, presto! and it's done like Aladdin's Palace! But the queerest thing is that the only human being I have ever seen going in or out is a little old woman dressed in black. She's rather bent and quite shabby, which seems odd for such a nice apartment, one of the most desirable in the building, in fact. And what would this shabby old lady be doing with such a raft of hot-house flowers? Sometimes it's roses and lilies of the valley, but always that window is banked with flowers. The place simply intrigues me. Short of admitting my vulgar curiosity by inquiring openly of the janitor, I'm afraid I'll never find out what is going on behind these incongruities," sighed the hostess.

"You may be forced to call 'Fire, fire,' out of your window just to see what you can flush," predicted the Woman.

"Goodness—more flowers!" gasped the hostess, pointing to a bowl of daisies now peering over the sill. "Do you know it's my opinion that nobody lives there—in the daytime, I mean—and the old woman is just a cloak or a tool." Both she and her voice rose with her excitement. At that second a firmly rounded arm be-

longing to a girl in an elaborate blue negligee jerked the shade down opposite with an emphatic snap.

"Well, of all things, and after all these months!" sighed the excited one.

"It's just like a mystery to misbehave out in company," sympathized the Woman.

Let Joy Be Unconfined.

Word has come to the Mid-Victorian Lady that an old friend of her mother's had died suddenly in her home in Maine. It was her duty to break the sad news to two elderly spinsters, cousins of the dead departed "auntie."

She found Miss Susan at home, tending to her pet canary. Miss Susan is seventy-eight, but spry and alert, ready for any emergency. Miss Emily, five years old, was out motoring with a kindly benefactress. The slow tears of old age trickled down Miss Susan's cheeks at the word that another of her generation had passed on. And then, with a quick transition, she began making excited plans for attending the funeral, which involved a trip by boat to Portland and a long and arduous ride in a day coach. But the thought of all this, coupled with midsummer heat, did not daunt the little lady. She would go.

"But at least, Miss Susan," urged the messenger, "you'll not take Miss Emily with you."

"And, my dear," said the Lady to the Woman, when she told her the story over a cold lunch, "what do you suppose Miss Susan said? Seriously, in her slow drawl, she replied: 'Oh, I couldn't leave Emily behind. You see she has so little fun in her life.'"

FORT STOCKTON'S HOUSING PROBLEM BECOMES SERIOUS

FORT STOCKTON, July 30.—The housing problem is becoming serious in Fort Stockton. New people are arriving almost daily, but there is such a feverish interest in oil that construction is being done insufficiently to relieve the housing demands.

Geological reports by leading petroleum experts, some of whom are drawing princely stipends annually for their excellent knowledge of oil territories, indicate that the subterranean river that feeds the highly productive Tampico oil pool passes under this region and that when struck it will bring immense oil geyzers.

Oil men of national reputation and push are dropping into the Fort Stockton country from day to day. Without exception, all seem favorably impressed with the city's becoming a great oil field center.

Why Itch and Burn With Skin Diseases?

There is a Way to Get Rid of the Torture of Suffering. Terrifying skin irritations, eczema, tetter, boils, pimples, etc., have their origin in a disordered condition of the blood. They come from a colony of tiny germs which get into the blood and multiply by the million. Lotions, salves, ointments or similar treatment cannot possibly reach the source of the trouble, which is the blood.

When any of these symptoms appear you should take prompt steps to rid the blood of the germs which cause them. And the one remedy which has no equal as a blood cleanser is S. S. S., which is sold by druggists everywhere.

Begin taking S. S. S. today, and write to our Chief Medical Adviser, who will give you special instructions without charge. Address Swift Specific Co., Atlanta, Ga.
