Negro Chemist Makes It Into 145 Foods and Useful Articles.

TUSKEGEE, Ala., Dec. 31-Work of determining just how many dif-ferent uses can be found for the peanut and the potato goes on in the laboratory at Tuskegee institute, under the direction of Dr. George Washington Carver, negro chemist, who in recognition of his splendid work received a fellowship in the Royal Society of Great Britain. Recently a corporation has been form-ed at Atlanta to market some of Dr.

Carver's products. Dr. Carver has made 145 foods and useful articles from the lowly peanut. In addition to this he has performed wonders with the yellow yam sweet potato and extracted dyes from clays and southern soils.

Dr. Carver's research work has been so marked that when the house of representative was considering the imposition of a tariff on peanuts he was called to testify before them. Included in the articles which he has listed to be made from the peanut are peanut butter, 10 va-rieties of milk, five kinds of breakfast food, two grades of flour, ice cream, candy, salad oils, bisque, "Worcestershire" sauce, chili sauce, oleomargarine, cheese, four kinds of cattle food, and other things not edible, such as wood stains, leather dyes, metal polishes, axle grease toilet and laundry soap, ink, tannic acid and glycerin.

A cup of peanuts can be made into a pint of milk "as rich as that of the cow," he said, adding: "It is rich, creamy, and palatable. It contains three times as much car-

bohydrates, three times as much protein and 12 times as much fat as cow's milk, with only one-tenth as nuch water.

He has produced 107 different products from the yam, including ginger, tapioca, flour, breakfast food and cattle food, besides many others.

#### MY BEST WISHES FOR A GREATER RANGER IN 1925 1

### **GUS COLEMAN**

MANAGER SOUTHERN ICE AND **UTILITIES COMPANY** 

**Ranger Plant** 

The coming year will surely mean everything toward the assurance of Ranger's future. We still have the latent potentialities for making a city that we have had all the time, and their development can come only through teamwork.

We need more confidence in our fellow townsmen and less distrust There are those who have not shouldered their part of the job—these should volunteer, and help instead of criticize.

Our Chamber of Commerce i swell directed and administered. What it needs is financial aid.

What we all need is more business. We cannot get it without going after it. The boom was over four years ago and with it passed the profit that came without effort. Don't "kid" yourself. We have got to get back to that old spirit of "one tie, all tie" that kept us going when Ranger script was famous. It's just like the "old time religion," it's good enough for me.
