

GERMANS YIELD TO ALLIES' COAL INDEMNITY STAND

LAFOLLETTE NOT IN ACCORD WITH NEW PARTY

Salt Lake Attorney Named for President; May Be Split

CHICAGO, July 15.—The Farmer-Labor party, born of the fusion of numerous political groups, today has its platform complete and new candidates in the field for the coming election. The convention adjourned when all work was completed, at 4 o'clock this morning. Parley Park Christensen, a Salt Lake attorney, and Max S. Hayes, a Cleveland labor leader, are the presidential and vice presidential nominees.

The strength of the new movement remains to be seen. The first test came today when a group of dissatisfied delegates, formerly allied with the committee of forty-eight, met to consider putting out a forty-eighth ticket.

It was not all harmony in the fusion convention during hours that the platform and candidates were under discussion. The forty-eighthers carried an unsuccessful committee fight against socialistic doctrines of radical labor leaders to the floor, attempting to force their wishes by threats that LaFollette would not accept the Labor platform.

EIGHT EX-SOLDIERS, GAS VICTIMS, APPLY FOR GOVERNMENT AID

Eight ex-soldiers who are suffering from gas wounds and tuberculosis contracted during the war have applied to the local chapter of the Red Cross for entrance in government hospitals. An examination will be given and where hospital attention is needed admittance will be gained for them, according to Mrs. Grace Harrington, Red Cross nurse.

About the same number have asked the Red Cross to take up their claims and get them compensation from the government. Ex-soldier compensation and insurance are two matters to which the Red Cross is giving a great deal of attention in Ranger. Several hundred cases have been handled and good results obtained.

K. C. DOCTOR SAYS PLAGUE MAY BE CARRIED INLAND

KANSAS CITY, July 15.—Bubonic plague, when present in seacoast towns, might easily be brought to inland points, according to Doctor E. H. Bullock, city health director here. Even places far distant from the coast as Kansas City are not immune from the disease.

The plague is carried by fleas which infest rats. Dr. Bullock said, and it would be an easy matter for one rat carrying an infected flea to get into a box car at a seaport and be sent to some inland town. Thousands of other rats would become contaminated with the plague flea from that one rat, and, according to Dr. Bullock, an epidemic as dangerous as in any town on the coast would be produced.

United States Marshal L. T. Erwin, of Fairbanks, Alaska, receiver of the land office there, who traveled to San Francisco as one of the six delegates the Democrats were entitled to send to the convention, is going back by way of Ranger and Washington, D. C. He visited here for another look at the country where he passed up a chance to make forty million. Of that, later.

THIRST CURES ARE ANALYZED BY RESORTERS

The Mineral Wells delegation which was in Ranger yesterday on a "get acquainted" tour were immediately after their arrival assembled in the vacant building at Main and Austin streets. The Rev. Charles M. Collins, master of ceremonies, led them to a barrel of lemonade. Mr. Collins apologized for the poor and color of the drink on the grounds that he was a preacher and did not know where anything of a stronger nature was stored. He complimented the Mineral Wells crowd on the nice little city they had built to the east of Ranger and hoped, he said, that sometime it might in the course of time almost equal Ranger in size and population.

Mr. Collins, knowing perhaps that the visitors were going to have a few well chosen remarks to make about the wonderful water in Mineral Wells, offered to take the whole bunch to Shamrock park and let them take a plunge. When the offer was made someone with a Mineral Wells badge pinned on his hat murmured absent-mindedly to himself that "today is not Saturday." The remark was passed up without comment and the speaker offered them, since they would not have a bath, anything in the city with the exception of the banks. They, he said, were closed.

The master of ceremonies introduced Mayor M. H. Hagaman, who spoke for a moment. He extended a warm welcome to the visitors. In behalf of Mineral Wells, Drake Watson answered the address of welcome. He invited Ranger to quit drinking the liquid they manufactured and come to his city where water full of health-giving properties is found in abundance. Mr. Watson made it appear that a sudden carrying off awaited all who did not heed his warning. "You have all gotten rich out of oil," he said, "and now why don't you come to a city where life is a pleasure to live?"

The Rev. Collins took Mr. Watson's remarks to mean that Rangerites should go to that town to die. Mr. Collins admitted that it might be pleasant to die in Mineral Wells, but denied that Ranger was in any mood to furnish a funeral. "We are a live bunch over here," he told them, "and still kicking."

Sam Miller, manager of the Mineral Wells chamber of commerce, had a few words to say. Along with his other remarks he mentioned the date that national prohibition went into effect. On that date, he said, a bell over a Presbyterian church tolled long and mournfully. An old woman asked the cause. "John Barleycorn died last night," they told her. "Well," she said, "I know John was dead but I never knew before that he was a Presbyterian."

The Woodard family band, who were with the Mineral Wells crowd, furnished music. After the Ranger visit the delegation left for Laredo where they were to spend the night.

CHICAGO WHEAT PIT REVERTS TO PRE-WAR METHODS. CHICAGO, July 15.—Prices started lower than expected today for future deliveries of wheat, the first of such prices quoted for nearly three years. December delivery opened at \$2.72 to \$2.75. Estimates by traders were that initial figures would be about \$2.80. Engaged in the wheat market, through the world attended the resumption today of pre-war methods of dealing in wheat on the Chicago Board of Trade for the first time since Aug. 25, 1917, when the government assumed control.

Now That He Is Able to Sit Up By Morris

MILITARY PLANES READY TO START ALASKAN FLIGHT

MINNEOLA, N. Y., July 15.—Four military airplanes lined up today awaiting the signal to start them on the 9,000-mile flight to Nome, Alaska, and return. The expedition was organized to establish an aerial route to Alaska for possible military use and to conduct an aerial survey of the territory traversed. The trip will take approximately forty-five days. Each plane will carry an army pilot, a mechanic and an observer. Sixteen stops have been provided, distances between stations ranging from 200 to 350 miles. The first stop will be Erie, Pa., thence along the border of the United States to Siskotook, Canada, thence northward to Alaska.

Mexican Rebels Attack Monterey and New Laredo

MEXICO CITY, July 15.—Monterey, capital of the state of Nuevo Leon, was attacked today by General Villareal, according to reports received by the war office. General Pablo Gonzales, former candidate for the Mexican presidency, is said to have been responsible for the attack on the city. General Trevino Gomez and Porfirio Gonzalez, governor of Nuevo Leon, are talking the "necessary steps" against Gonzales, according to the war office statement. General Calles announced he had ordered the arrest of Pablo Gonzales and directed that he be brought to Mexico City for trial charged with rebellion.

CHILE CALLS TEN THOUSAND MEN TO COLORS

SANTIAGO, Chile, July 15.—Chile has called to the colors the military class of 1915 to 1919 of the four northern provinces of the country. It is understood this action was taken in view of the international situation arising in connection with the Bolivian revolution. Information received here indicates the call involves about 10,000 men including air forces. Guarantees for the safety of the deposed Bolivian president and cabinet have been furnished by the provisional government upon request of the United States minister to Bolivia, according to advices to the foreign office. The Chilean representative said the provisional president informed him that "the advent of republicanism did not signify any manner of hostility toward Chile, the new regime's aim being peace and friendship with all countries, particularly with its neighbors, and friendly settlement of all pending questions."

BRIEF TEXAS NOTES

CORPUS AFTER RATS. CORPUS CHRISTI.—A pair of field glasses is the prize offered to the Corpus Christi Boy Scout who turns over the most dead rats to D. A. Huddleston at Scout headquarters. Since the war on rats started upon the finding of cases of bubonic plague in gulf ports nearly 1,000 rats have been killed. D. A. Davidson donated the field glasses to go as a prize to the scout exterminating the most rodents.

FARM BANK BUSY. HOUSTON.—There are 26,000 actual borrowers from the federal land bank, according to Judge W. H. Joyce, member of the land bank at Washington. There is \$350,000,000 on deposits, he said here recently, and all the land banks are paying dividends. More than 40,000 farm loan associations are connected with the bank system, he added.

RIO GRANDE VALLEY COTTON. SAN BENITO.—Estimates by ginners show that 50,000 bales of cotton will be raised this season in the lower Rio Grande Valley. The weevil is doing little damage and the stalks are loaded with fruit.

RAT EXTERMINATION FAVORED. AUSTIN.—That Texas cities and towns are willing and anxious to inaugurate rat extermination campaigns is the sense of letters pouring into the State Health Department, and the writers ask for more detailed information as to methods of procedure.

COTTON PICKERS SEEK FARMS. CORPUS CHRISTI.—White persons and negroes from throughout the southwest will be included in the cotton picking force in this section this year, reports to the Rural Landowner's association indicate. Heretofore most of the labor brought into the district to pick the cotton crop has been Mexican. One San Patricio county farmer recently returned from a trip on which he enlisted 200 negro pickers.

Many replies to advertisements for pickers, the association announced, were from white men who sought to come to pick cotton and then obtain a plot of ground to cultivate under rental next year.

LATE BULLETINS

PARIS, July 15.—The Allied conditions laid down in the note sent to Moscow by Premier Lloyd George relative to an armistice with Poland have been accepted by the Russian Bolshevik government, according to a Spa dispatch to the Matin.

WASHINGTON, July 15.—The population of Hawaii is 255,912. Honolulu's population is 83,327.

WASHINGTON, July 15.—The Fourteenth cavalry, which has been on Mexican border duty for eight years, will be relieved and sent to Fort Des Moines, Iowa, the war department announced today.

AUSTIN, July 15.—Resumption of the New York-Galveston service by the Matly line will commence next week, according to advices to the governor.

CROP PESTS ACTIVE. OKLAHOMA CITY, July 15.—A few boll weevils have appeared on cotton in the state and many plants are becoming infested with the plant lice, according to H. H. Schultz, federal crop reporter. Grasshoppers are invading the western counties of Oklahoma, the report says, and are becoming so thick in the western counties of Texas, Cimarron and Beaver, the condition has become serious.

POLICE RAID ILLICIT STILL; TAKE TWO MEN

Thirty Gallons of Whiskey and 400 Gallons Mash Captured

Thirty gallons of moonshine whiskey, eight fifty-gallon barrels of sour mash, together with a complete whiskey still, were captured last night by members of the police force led by Acting Chief Reynolds. The still was found in a residence located on the northwestern edge of the city which is said to belong to Mit Gerdes. Three men who gave their names as J. E. McGuire, J. W. Wilson and J. R. Marshie, were arrested in connection with the raid.

Wilson and Marshie, the police say, were taken into custody after they had left the house in a light truck in which the officers found two gallons of "red" whiskey. McGuire was caught by the officers as he came from the dwelling with two buckets of the residual which was left after the whiskey mash was strained off. When the officers entered the house, the whiskey boiler was sitting on a gas stove in full operation. The liquid from the vessel was running through a worm into a tub the contents of which were hot.

Eighteen gallons of the captured whiskey is white in color, the remaining twelve gallons being a deep red. Neighbor Smelled Whiskey. The police department were led to raid by the report of Dick Rast, who lives in the neighborhood where the still was captured and who said he had smelled whiskey. He reported the fact to Acting Chief Reynolds.

The officers on the way to the raid met the men in the car near the house. They stopped them and found the whiskey. They surrounded the house and caught McGuire in the yard.

In a rear room of the house the still was discovered in operation. The rails of mash were sitting alongside the walls of the room. Tacked on the barrels were slips of paper on which were written words and figures. These, the officers said, were the dates on which the mash was to be distilled.

Both McGuire and Wilson are married men and each has one child. The children, together with their mothers, were at home at the time the raid was made. Acting Chief Reynolds, however, left them at home last night with a policeman on guard.

"Automobile Mechanics." Both the women told the Times reporter this morning that their husbands were automobile mechanics. Mrs. McGuire said her husband was employed by a local garage. In her statement, Mrs. McGuire said her husband and Wilson made whiskey separately and that her husband had only made about five gallons, a part of which he drank himself, part he gave to friends and a part the police captured. Mrs. Wilson said that her husband had not been working for some time.

McGuire and his wife are both young and their child is about three years old. The Wilson boy is about ten years old. Mrs. McGuire stated that the families were friends before coming to Ranger.

Both women asserted that Marshie was not implicated in the whiskey making.

MYSTERIOUS RIFLE SHOTS TOO MUCH FOR FARMER

KANSAS CITY, July 15.—Mysterious rifle shots fired at his home with clock-like regularity every three minutes yesterday and part of last night proved too much for W. C. Mayberry, a truck gardener at the outskirts of Kansas City, Kan., and today he tore down his small house, hauled away the lumber, took his family and livestock and went to the home of a friend several miles away.

RESOLUTE HAS HALF MILE LEAD OVER SHAMROCK

SANDY HOOK, July 15.—The American yacht Resolute led the English challenger Shamrock by half a mile in the first heat of the first American cup race in seventeen years. At 11:30 a. m. Texaco's yachts had covered six miles of the thirty-mile course in a blinding rain.

ROBBERS GET FOUR HUNDRED DOLLARS FROM LEROY BANK

WACO, July 15.—A Leroy bank, fifteen miles north of Waco, was robbed last night by three men and a boy, who dug into the vault, but did not get into the safe. They obtained \$400. The robbers cut all wires leading from the town.

LIQUOR PRESCRIPTIONS FORBIDDEN IN OKLAHOMA

STILLWATER, Okla., July 15.—Despite the fact that Washington has advanced 5,000 prescription blanks permitting physicians to prescribe liquor for medicinal purposes, none has ever been issued in this state and J. W. Reece, federal prohibition director for Oklahoma, further states that none will be issued. The director takes the stand that the use of these blanks in Oklahoma violates the state law. The law, he says, prohibits the sale of liquor in any form and has been sustained by the prohibition commission at Washington.

OCCUPATION THREAT IS EFFECTIVE

Three Conditions Accompany Acceptance by Berlin

SPA, Belgium, July 15.—Germans have agreed to the allied demands for delivery of 2,000,000 tons of coal monthly, with three new conditions, it is announced. The conditions were: First, the German government is to have the distribution of Silesian coal or will be allotted 1,500,000 tons monthly for northern Germany instead of the present allotment of 1,200,000 tons.

Second, a mixed commission is to be sent to Essen to examine food and housing conditions.

Third, the allies are asked to advance money or provide credit for importing additional food for the entire German population.

Foreign Minister Simons said he acceded to the demands to prevent the allies sending an ultimatum to Germany.

Simons said this morning that the German ministry in its decision on the coal question had gone to the utmost limit. It could do nothing more, he said, so if the allied military leaders still wanted an invasion of Germany they must have it.

Premiers Discuss Acceptance

PARIS, July 15.—Premiers Millerand and Lloyd-George conferred last night on Germany's acceptance of the allied demands for coal delivery, says a Havas dispatch. The German acceptance is so wrapped up with conditions as to "make it a subject for caution," Lloyd-George said.

NATIONAL GUARD WILL ASSEMBLE NEAR AUSTIN IN AUGUST

AUSTIN, July 15.—More than 1,000 National Guard cavalrymen of the First division under Brigadier General John A. Hulen, T. C. G., encamp near Austin, Aug. 6 at Camp Mabry, two miles west of Austin, for two weeks of summer training, according to preparations that have just been completed by the adjutant general's department.

The camp will continue until Aug. 20, and during its course the National Guard troopers will receive instruction in drill, horsemanship, gunnery, etc., from experts.

Brigadier General Jake Wolters will command the First brigade and Brigadier General R. H. McDill will lead the Second brigade.

It is expected that the enlargement of the Camp Mabry rifle range will be completed by the time of the encampment. The state is spending \$30,000 in the reconstruction of this range, which when completed will permit practice on every unit distance as a result of an eschelon arrangement which has been adopted. It is also thought that the aero squadron, now being organized for the National Guard, will be ready for the encampment and will participate in the training work that is scheduled.

Something Is Wrong. Who Is to Blame? What Are YOU Going to Do About It?

A special writer, thoroughly familiar with the conditions, past and present, in Eastland county, has been engaged to present these facts to readers of the Daily Times.

This is the eleventh in a series of articles on conditions in Eastland county. Here the defendant has his day with his counsel and his evidence. It is before the trial jury and on to and through the courts of last resort in case of conviction and appeal, that the prosecuting department demonstrates its capability and shows to what extent it has been diligent and efficient in preparing for the final trial of the case, whether or not it has exercised proper effort and judgment in determining and securing the evidence which has been turned over to it by the peace officers, or which has been procured through its directions. But this is not an infallible test. Maybe the jury has sympathies or indifference sufficient to disregard the best prepared and most ably presented case. The peace officers must have sufficient evidence to make a justifiable arrest but the evidence upon which an arrest is properly made may by no means be sufficient to result in conviction. This is where caution and good judgment are necessary to avoid great wrongs and grave injustice to the individual. There is just as much great wrong in slandering Tom, Dick and Harry in jail or dragging them into court for trial with insufficient evidence as there is in letting them escape or go untried. The prosecuting department once in possession of sufficient evidence, must then take the evidence to the grand jury, and even then the grand jury doesn't have to return an indictment unless it elects. Then the case goes before the trial jury, presuming of course, that the accused has been arrested and presented in court. Here comes the final test

LAMB—Dorothy Gish in "Remodeling Her Husband."
 TEMPLE—Ethel Clayton in "Men, Women and Money"
 LIBERTY—"The Iron Heart."

LAMB THEATRE

Dorothy Gish in "Remodeling Her Husband."
 "Remodeling Her Husband," a comedy drama starring Dorothy Gish, was the attraction at the Lamb theatre yesterday and will be shown again today. The play was written and produced solely by women and is remarkable in this respect. Lillian Gish directed the play for her sister.
 The comedy is replete with laughter and is enjoyable all the way through. Those who have read Shakespeare's "Taming of the Shrew" will be faintly reminded of that famous classic by seeing "Remodeling her husband," but the conditions are reversed.
 The acting of Miss Gish is well up to her standard and her quips and wiles and numerous endearing ways are shown to good advantage.

SUMMER CAMP PART OF NAVAL TRAINING WORK

WASHINGTON, July 15.—Summer schools for the training of youths between the ages of 16 and 20 years were opened today at the Hampton Roads and Great Lakes Naval Training Stations. Enrollments for the schools were received at the naval recruiting stations and the applicants were required to pass the ordinary qualifications for enlistment in the navy.

Provision for these schools was made in the last annual appropriation bill. Those attending are required to enroll for three months in the naval reserve force. They will receive the pay of apprentice seamen for the six weeks' course, amounting in all to about \$50 and also transportation back to their homes. In addition, the navy furnishes all subsistence, uniforms and equipment.

While the schools will observe a naval routine in outdoor drills, exercises, etc., there will be no "book" and it is proposed, officials said, to conduct them as much as possible on the lines of a "summer camp." Physical development, "education of character," and cultivation of naval tradition are set forth as the principal objectives. About 40 commissioned and non-commissioned officers have been assigned as instructors at each school.

While no actual cruises for attendants are planned, there will be numbers of small naval vessels available for their inspection and training in addition to the yachts and other small craft for recreation purposes.

Doctor Cupid

That love sometimes cures disease is a fact that has been called to the attention of the public by a prominent physician. Love is not, however, the cure for all women. Many a woman is nervous and irritable, feels dragged down and worn out for no reason that she can think of.

Doctor Pierce's Favorite Prescription gives new life and new strength to weak, worn-out, run-down women. "Favorite Prescription" makes weak women strong and sick women well. It is now sold by all druggists in the United States in tablets as well as liquid form.

EVANT, TEXAS.—"I have used Doctor Pierce's Favorite Prescription. I was run-down and suffered from functional disturbances but 'Favorite Prescription' regulated me. I was so nervous I was miserable and could not sleep at night when I began to use the 'Prescription.' I had not taken a whole bottle until I could sleep well and got as stout as I ever was. I keep a bottle of 'Prescription' on hand and when I work and get tired I take a dose and it strengthens my nerves."—MRS. GEORGIA DEMERIS BERRY

Something is Wrong.

(Continued from Page One.)

tain thing, a thing the rumor starter probably wouldn't think of doing if placed in the officer's position.

Some days ago the statement was made that a certain official had received five hundred dollars for giving protection in a certain instance. An officer quietly made an investigation of this report, and this officer was in dead earnest, for he was desirous of getting a little revenue out of the other officer. This investigation revealed the fact that the rumor was started by a "fuddy" who doesn't live around this section any longer. This rumor was traced to Fort Worth, to Eastland, then to Ranger, then to Cisco and finally to El Paso. This rumor was the original creation of a highjacker and a fallen woman. Their personal statements were worthless, and so would their sworn testimony have been before a jury. If the report had been true what would the available testimony have amounted to in this case? Here was a case where one framed officer went earnestly to work on what he thought was a "dead ringer" to get another officer's goat, but after much hard work and expense decided there was nothing in the charge. Any officer may throw in a bum for pleasure if he may land heavily on some enemy just because he can, but big ones don't fuddle big ones until the signs are right and the proof positive. Running down rumors and winding up with only the positive proof that the rumor was a hoax is the peace officer's biggest and most common job.

The sheriff's department and the prosecuting department must work harmoniously to get proper results, but some times there is entirely too much "harmony" between these departments for the public good. This harmony business should be on a business basis for the public good only. It should be harmony for the purposes of efficiency and for nothing else. It should be harmony and co-operation on and above board. Distinct groups and sets may not agree on specific matters, and yet pull together on matters of general concern. Cliques and warring factions never do that. Self interest or opposition destroys constitute their creeds and mission. Good men are seldom the members but usually the victims of this or that crime or faction.

There has been a great deal of common gossip to the effect that the sheriff's department of Eastland county is the influencing power with the county attorney's department. Be this true or false, founded or unfounded, it would depend upon the kind of influence the sheriff's department exercises as to whether this would be for the best or the worst. Mere rumor in any instance is of little or no value, and is generally unjust.

For some time there was a great hue and cry for rigid enforcement of the Sunday laws. Grand juries and officers were roundly lectured on the subject. In some communities the law was rigidly enforced and in some it was by no means enforced. Some people made a great ado about this, and it all wound up where it started and nothing was accomplished. There was nothing of material consequence to accomplish. In Eastland, Ranger, Olden and Desdemona the large majority of the people were opposed to rigid enforcement of the Sunday laws. In Eastland in particular they went several rounds with the moving picture shows, and at least two proprietors were placed in jail. But in the long run it wouldn't work. There was too much lid and not enough moral uplift results. There is no question but the sheriff and the county attorney's department tried to enforce the Sunday laws as the law and the grand juries and the court directed, but the public had some ideas on the subject, as pointed out in former articles, the public sentiment law will prevail. Right or wrong, when the sentiment of a community gets its head set with sufficient majority and determination it will prevail. Particularly is this true in regard to mere misdemeanors.

There was nothing of consequence involved in this matter one way or the other. Yet there was much energy wasted, and much rumor and criticism of the law enforcing officers about this business.

Rumors about who did this or who did that about the enforcement of Sunday closing laws are of no consequence. But there are some rumors about straw bonds, and lawyers who specialize on making bonds for clients that do amount to something. Wherefore you find the next issue really interesting.

William Wirt, residing at Akron, O., is reported dead by the war department, but his name is being chiselled from the memorial bronze tablet recently placed in a memorial building in that city. Wirt estimates there are no less than 2,000 ex-servicemen now living, whom the war department records show are killed and buried overseas.

MAGNIFICENT ELK'S HEAD BROUGHT BACK FROM NORTH WOODS

Ralph Stockman and Morris Leveille, who have just returned with their families from a long vacation in the Big Lake region of Minnesota and Canada, today received by express a magnificent elk's head which they secured for the Ranger Elk's Lodge.

The head is from one of the largest elk that was ever killed in that country, when the elk still roamed the Minnesota woods. It has twelve points on its tall and wide-spread antlers. The purchase was made from the game old manager of the War Road Mercantile Co., who had this one elk's head and several fine moose heads. It was purchased at the expense of getting it has been borne by the vacationers.

BUDDIES FINAL TOMORROW

After slaughtering the Buddies yesterday, the Nitros meet them today and tomorrow in the last two games before a nine-day road trip.

Popboy Calls on Popboy

Popboy Smith was the victim of a pique mingled with self-confidence, yesterday.

Loveless, the first to face Popboy, intercepted a pitched ball after the count was three-two forcing across the Nitros third.

Popboy Yanks Popboy He called the reliable Fuller from second to the mound and placed himself on second.

There's this to be said for a poe of two base hits, if you're just going up to bat and deciding what you'd rather have.

All in All There is the grand total, or if you look at it from the Buddie standpoint, the

inglorious summary, of the horrible third. Nineteen batters. Fifteen runs. Nine hits, four of them doubles.

It was a hilarious session, enjoyed by the fans for the novelty of it. Of course, after that, it wasn't much fun, and some of the bugs trickled on home.

The Buddie did not do any scoring after the first, when Wakefield's way of eating three plays gave them their talies.

Taylor rolled to deep second and under an infield hit, Burkleid bunted and Adkins' throw beat Taylor to second, but Wakefield called him safe.

The last two in the seventh frame, came over on Tate's double, Lovelace's hit which Gresset tried to play with one mitt and Penn's short single to right.

Taylor rolled to deep second and under an infield hit, Burkleid bunted and Adkins' throw beat Taylor to second, but Wakefield called him safe.

The last two in the seventh frame, came over on Tate's double, Lovelace's hit which Gresset tried to play with one mitt and Penn's short single to right.

Loveless, the first to face Popboy, intercepted a pitched ball after the count was three-two forcing across the Nitros third.

Popboy Yanks Popboy He called the reliable Fuller from second to the mound and placed himself on second.

There's this to be said for a poe of two base hits, if you're just going up to bat and deciding what you'd rather have.

All in All There is the grand total, or if you look at it from the Buddie standpoint, the

NEW YORK, July 15—Babe Ruth got his twenty-eighth home run of the season here Wednesday in the second inning of the Yankee-St. Louis game.

DORROUGH BOOTS FIVE AND HELPS SCOUTS TO WIN

EASTLAND, July 14.—Cisco won from Eastland here today, 7 to 5. Dorrough contributed to the runs gotten by Cisco by making five errors.

There's this to be said for a poe of two base hits, if you're just going up to bat and deciding what you'd rather have.

All in All There is the grand total, or if you look at it from the Buddie standpoint, the

inglorious summary, of the horrible third. Nineteen batters. Fifteen runs. Nine hits, four of them doubles.

It was a hilarious session, enjoyed by the fans for the novelty of it. Of course, after that, it wasn't much fun, and some of the bugs trickled on home.

The Buddie did not do any scoring after the first, when Wakefield's way of eating three plays gave them their talies.

Ranger Baseball Will Show Good Record First Year

Directors of the Ranger Baseball Association, meeting in jubilant session at the Chamber of Commerce this morning to have formal hearing of the sale of Chet Boyer, prospects for a good season this year, and a better one in 1921.

Attendance at the week-day games has been fair, with a steady increase, and Saturday, Sunday and holidays have been good so that the financial situation will show an even break, or better, for the year.

In addition to Boyer's sale for \$2,000 to the St. Louis Cardinals, President-Manager Galloway has other sales in prospect.

Lefty Adkins, originally a Dallas player, who jumped early in the season and was permitted to play with Dallas on the trade of Adkins to Ranger.

Plans to facilitate getting to Municipal park were discussed and an arrangement was made for the purchase of a truck for the park.

Dialogue between two Gorman players on train: "He don't hafta play baseball. He just manages them Ranger birds for fun."

Tolar took one with his bare hand when the toss from Jim came on his meat side on a forecourt on King in the last frame.

Wakefield ruled Galloway out on an infield fly, in the first. He also called Clapp out, on the same play.

Popboy yanked Pemberton and put Whitney behind the bat in the eighth, for pegging the ball back at Fuller with too much snap.

Still two games in the lead. EL PASO, July 15.—Optimism over political and social prospects in Mexico was expressed by the United States consular agents in reports in response to a questionnaire sent out by the El Paso Chamber of Commerce.

There was only one strikeout in the game, that credited to Adkins. There were thirteen passes, of which Lefty issued but two. He flung ball that would have won a much tighter

POLISH IMPERIALISM.

The decision of the Allies to support the Poles against Russia "provided the Poles withdraw into their natural boundaries and renounce any imperialistic ambitions," is an indication that a definite policy in line with the armistice terms and the League of Nations idea has been reached.

Perhaps it is well for the world that Poland is being somewhat soundly trounced at the present time. In common with all the other nations set up by the war, Poland immediately felt a tremendous hunger to widen her territory until no national would be forced to live outside his own country. The small matter of the country being predominantly settled by other people did not matter according to the Polish conception.

And it might be mentioned in passing Rumania and any number of the smaller principalities seem to hold the same view. A belief in the justice of this theory might be permissible provided no attempt were made to put it into effect by force. But Poland, relying upon the Allied disfavor for Bolshevism for support, pushed forward into Russia.

The result is not unlike that which history records in the cases of certain persons. The Poles are now being backward toward their own home under the pressure of the Bolsheviks. They are calling vigorously for assistance as the defender of western political ideals against the communist ideals of Russia. And this makes the reply of the Allies all the more to be commended. Democracy is in conflict today with Communism in the thoughts of men of the western world so far has rejected the Bolshevik theory, but many are on the dividing line and to saddle Democracy with responsibility for imperialism would greatly influence the thoughts of these.

If Russia attempts to spread the Soviet ideal with fire and sword, it should be resisted with all the strength the world possesses. But if the Russians are satisfied to remain at home with their new-fangled idea, and refrain from disturbing the peace of others, why not let them try it? Bolshevism is either worth while, or it will kill itself without outside assistance.

SINCLAIR NEWS

H. G. Schueller, purchasing agent with offices in Fort Worth, is in Ranger on business. Herb B. Smith of the leasing department and W. H. Ritterbush of the scouting department are at the camp.

The Sinclair pool on the company's Haganam lease is very popular these warm days. In the cool of the evening, cars filled with eager folks may be seen, headed for the inviting coolness of the pool, where there are few spectators, as nearly everybody goes in the water. Among those who frequent the pool are Mesdames M. Shugert, E. R. Johns, H. F. Blackburn, H. Maddox, and C. H. Foulds, and Misses Christine Coffey, Priscilla Lyder and Clara Hamilton. Some of the youngsters, Ed Durkin, Earl Blackburn and Alfred Spencer, are rather amphibious and if they keep their present progress bid fair to strip their duds.

O. H. Powell of the Fort Worth office of the pipe line company, is at camp conferring with J. D. Manville regarding affairs in the district.

Mrs. E. K. Welborn, of Shawnee, Okla., is visiting her sister, Mrs. H. L. Hensel. She is accompanied by her young son.

JAPANESE LAND OPENING ISSUE REOPENED IN CAL.

By Associated Press. WASHINGTON, July 15.—Unofficial exchanges have already taken place on the situation in California caused by the circulation of a petition looking to the amendment of the state law to limit further rights of Japanese and other Orientals in holding real property under leases. The success of the petition is said to have led to the holding of official circles that there must be negotiations of a formal nature between the United States and Japan to clear the difficulty growing out of a steady increase of Japanese on the Pacific coast.

Efficient Housekeeping

I wish to thank my readers again for sending in so many of their "discoveries" and household hints so that I may publish them to help others who read the column. It is good to think that housewives care enough about their sisters housekeepers to take the trouble to sit down and drop me a letter or postal in order that some other woman may save time or money in her daily duties. The following are letters which have come in in the past few days:

G. B. W.—"Perhaps someone would like my easy way to clean brass and copper. Dissolve 1 ounce of oxalic acid crystals in 1 pint of hot water and keep this in bottle, making sure to label it 'Poison.' I use this each week to wipe off my copper tank and brass pipes and they are always shining. For enamel and such things, a little dry whiting after using this solution, will give a slightly better polish."

Mrs. Harry H.—"I want to tell other women about the way my husband and I had our window screens removed—instead of throwing away the frames, as we came near doing. The screens of our little bungalow were made seven years ago and we believe that they were useless until a neighbor who knew more about carpentry than we suggested having them recovered with wire netting by a carpenter. We had this done with entire satisfaction. We have learned that screen frames made of pine orypress can be used for an incredible number of years, in this way."

Mother of Six—"One way our boys made a bird house out of a small square wooden box, using a piece of board with a knothole in it for the front of the little house—the knothole forming the door. The birds like this house better than the fancy one we bought previously."

Mrs. E. G. H.—"I have nailed two starch boxes together, the kind with the sliding lids on a beam over my laundry tubs and keep my bluing, starch and soap in them as well as fluids for the removal of common stains. They are nailed against the wall through their bottoms—this acting as shelves with sliding doors across the front. The doors keep out waterbugs, ants, and other insects."

Daily Reader—"I have found a way to keep my tissue dress patterns from becoming mixed up; I have an egg crate in my sewing room leaving the divisions in the crate) on its side on the shelf and in each division is a different pattern. A curtain covers the front of the box."

Housekeeper—"Never throw away old pieces of oilcloth or pieces which seem too small to be utilized. I always make such pieces into market bags, turning the glossy side in; with such a bag as this, the juices of meat, a broken egg, or any other liquid substance one happens to be carrying, cannot come through against one's dress. The outside of the bag should be painted or covered with cretane."

Tomorrow—Can the Housekeeper Earn "Pin Money?"

RANGER HIGH GETS 10 UNITS STATE CREDIT

The state department of education has granted the Ranger High school affiliation on ten and a half additional units on this year's work. Affiliation on two units was granted last year and the present total of twelve units leaves only three more to be secured to have full affiliation. No attempt was made to gain recognition on science work this year, P. E. McDonald, city superintendent of schools, stated in commenting on the matter, for the reason that there was no room to properly conduct the work.

With the completion of the new buildings ample room will be available and Mr. McDonald expects to secure complete affiliation next year.

Pupils graduating from the Ranger high school this year will have twelve of a total of fifteen units granted them at any recognized college in the state. They will have to take examination on only three units to secure entrance to the freshman class.

RIPPLING RHYMES BY WALT MASON

The Enigma

That monster of the western coast is now within the prison's gate; his wifes now counted, made a host, and he had had his hushered them and swayed their kale. And I could name a dozen lads, all loaded down with sterling worth who carry spades, with which to dig the who searched in vain throughout the earth. I have no doubt the Bluebeard wives refused the hands of many men who have no blemish on their lives, who are not headed for the pen. I cannot understand those maids who'll blithely hand unknown knaps, or wolfish men who carry spades, with which to dig ladies' graves.

CONTINENTAL TIRE PLANNING ENTRY IN RANGER TERRITORY

Continental Tire & Rubber company, a Dallas firm with the backing of prominent and influential men of that city and the state, is planning to enter the Ranger field and is making a campaign in this section. The company is represented in Ranger by Rear & Rogers, with offices in the Travelers hotel.

AIRMEN DO PRACTICAL WORK ALONG THE MEXICAN BORDER

FORT SAM HOUSTON, Tex.—Some wonderful flying feats of a practical nature are being done by the men in the service of the army on the Mexican border without much being said about them. Besides the military airplane patrol of the long and isolated frontier region that is being kept up constantly, many important messages of an official nature are carried from place to place by this new method of transportation. Military activities of all kinds are greatly expedited by the use of airplanes, it is asserted. Only a few days ago complete details of the construction project of the housing facilities for the air service along the Mexican border were sent for and obtained by Capt. Walter G. Hollingsworth, who is attached to the Mexican border projects office, in 100 hours, the trip being made by airplane.

Maps Secured From Plane. Profile maps of a part of the flying fields were obtained from a plane. Water mains and sewers ascertained and all material was checked over the 1400-mile border in exactly 28 hours flying time. It is considered that the trip from place to place, if it had been made by rail, would have consumed at least three weeks in order to secure all of the data brought back by Capt. Hollingsworth.

More than 3000 miles were traversed during the Mexican section reached by the plane being El Centro, Cal., where work is being done. Leaving Kelly Field with Lieut. Harold W. Beaton as pilot, the ship flew to Eagle Pass and then, stopping a few hours at each place, made Del Rio, Sanderson, Marfa, El Paso, Douglas, Nogales and El Centro. Portable houses erected at Camp A. A. Humphreys, Va. have been torn down and shipped to the flying fields along the border to be used as barracks for the flying units stationed there. Due to the approach of the end of the fiscal year, haste was necessary to secure the important plans and information and an airplane requested in order that greater speed might be obtained. The officers are satisfied with the results, as Capt. Hollingsworth was back in less than four days.

Warehouse Depot Approved. The erection of 45 warehouses to form a general supply depot at Fort Sam Houston has been also approved by the Secretary of War, according to Lieutenant-Colonel F. G. Chamberlain, Mexican border projects officer. The contract is expected to amount to a million dollars and when finished will give to the different branches of the service sufficient storage space to care for all their equipment.

Up to the present time some difficulty has been experienced in finding sufficient warehousing facilities, and those that have been used are scattered and make extra transportation necessary.

LITTLE BENNY'S NOTE BOOK

Pop took me down town Saturday morning to buy me a pair of shoes and gave me 5 cents for car fare back by myself, and the conductor was standing there taking peoples fares saying Give me your fare, boy, give me your fare.

In feeling for it, I sed and the conductor sed, Well back up in the corner and fed for it and let these people get throo. Being a middle size conductor with his hair and his face matching, both beig red, and I got back and started to feel in my other pockets, thinking, Gosh, G wizz, holey smoke, and after the other people had all went in the conductor sed, Now boy, wares that fare? and I sed, Im feeling for it.

Why dont you think up a new one? sed the conductor. Meaning that was wat I said before. And I kept on feeling and the conductor sed, None of your tricks, now give me your fare or get off, and I sed, Im feeling for it, and the conductor sed, Are you a human being or a parrit? And jest then a lot more people got in, and it took the conductor about five minutes to collect all their fares, and account of some of them wanting change and giving there till he gave it to them, me keeping on feeling, and the conductor sed, Now give me your fare, and if you tell me your feeling for it Ill slam you throo the back window, and I sed I guess sumthung must of happened to it, I gess, I gess maybe I must of lost it.

If I looked anything like you Id try to tell the truth and have at least sumthung more to go on, and I gess sumthung must of happened to it, I gess, I gess maybe I must of lost it.

Proberly meaning it for insult, and he made the car stop and I got off, only having 3 blocks more to go anyway, and I kept on feeling till I found the 5 cents stuck in the lining of my coat pocket, thinking, Gosh wats you know about that O well, maybe wen Im rich Ill give some conductor 2 fars insted of one, maybe.

MEXICO'S FIRST BALE

By Associated Press. MATAMORAS, Mexico, July 15.—The first bale of Mexican cotton for the 1920 season was ginned July 7 on Ranchita las Olivares, forty-five miles south of the border town. It was grown by Conrado Gutierrez, former mayor of Matamoras.

The bale was shipped to mills in Mexico City because of the American quarantine against Mexican cotton due to the prevalence of the pink boll worm in this country.

CHECKS GOING STRONG FOR TRADE UNIONISM

International News Service. LONDON.—Czechoslovakia is going in strongly for trade unionism, according to a statement issued here by the Labor party. Under the old regime it is stated that there were only 15,000 trade unions, and today there is a total of 180,000. Co-operative societies have increased from eight to fifty-seven, and in addition, 192 agricultural co-operative societies have been formed.

"Tinker Bob" Stories by Carlisle H. Holcomb

Red Fox in the King's Coat.

While Tinker Bob was away at the river to see Mr. Turtle and Mr. Carp, he was wearing a coat that he had sewed for himself. You remember how Red Fox wanted to get a chance at Young Rabbit, and how Young Rabbit fooled him? Well, Red Fox did not forget it very easily, and all of this time he was planning to get even with this young fellow of the forest. And now, while the King was away at the river, Red Fox took the chance to prepare for meeting Young Rabbit.

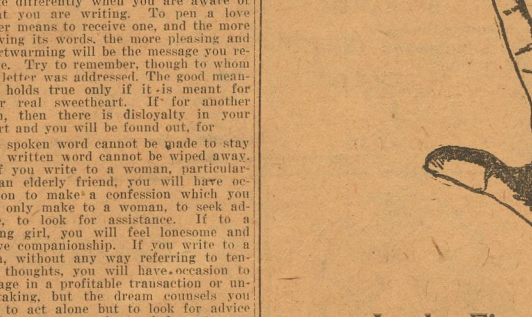

The first thing he did was to go to the King's palace and see that no one was around. He sent Jack the Wood Rat away into the Forest to look for some food, and there was no one else about but Mr. Beetle who lived in the earth. But Red Fox had forgotten about him. When he felt sure that he was safe and alone, he went into the King's chamber and took Tinker's coat and his hat and walking stick. Then he sneaked with them to the thicket, where he dressed himself all up to look like the King.

After he felt sure that the Forest Dwellers would take him for the King he ventured forth to see if it would be possible to get Young Rabbit to come out of the briar patch. He walked on his hind feet using the walking stick with his paw. The first one to spy him was little Jenny Wren. "Said she: 'Oh, King, you walk very stiff today. What might be the trouble be?'"

JOHN-A-DREAMS

LXXI. Dreams of Writing, Pens and Pencils. More varied in their meaning perhaps than the majority of other dreams, are those that deal with writing, with pens and pencils. There are several instances—there are too many to go through the entire list and, of course too much depends upon the surroundings to make it possible for me to exhaust the subject. Here they are several: Dream that you are writing—just writing, nothing in particular, and as you awake the next morning being unable to remember what flowed from your pen— you may rest assured that no good will come of it. Not that you will be unhappy; but cramped for money will be, in debt perhaps and worried over small pecuniary troubles like the unhappy man who once has trailed lives not to please himself, but other men's always drudging, wastes his life and blood, yet only eat, and drinks what others think is good. While such an one, then, is a mighty unpleasant dream, the matter stands quite differently when you are aware of what you are writing. To pen a letter means to receive one, and the more glowing its words, the more pleasing and heartwarming will be the message you receive. Try to remember, though, to whom the letter was addressed. The good meaning holds true only if it is meant for your real sweetheart. If for another man, then there is disloyalty in your pen, and you will be found out, for the spoken word cannot be made to stay. The written word cannot be wiped away. If you write to a woman, particularly an elderly friend, you will have occasion to make a confession, which you only make to a woman, to seek advice, to look for assistance. If to a young girl, you will feel lonesome and crave companionship. If you write to a man, without any way referring to tender thoughts, you will have occasion to engage in a profitable transaction or undertaking, but the dream counsels you not to act alone but to look for advice from some man whose judgment you have reason to trust. To dream of pens or pencils is advance notice of a change of occupation. In case of a married woman, the dream signifies that in some manner or other, she will be forced to help her husband in business to the extent of taking charge of his affairs. A working girl may rest assured that, shortly after having had such a dream, she will change her position. A girl who is not at work will in all likelihood seek employment in the near future. In the case of men such dreams always mean unpleasant business affairs, bad investments, large bills to be met, etc. The most fortunate dreams of this sort are those in which the dreamer either writes invitations or addresses envelopes. Such a vision is a sign of great parties. In the case of a single young woman, the dream more likely than not, means that she will summon her friends to witness her engagement or wedding party.

18—WANTED—Miscellaneous

WANTED—Room with private family; occupation, druggist. Address J. S. C. Ranger Drug Co.

19—FOR TRADE OR EXCHANGE

THREE-ROOM house for sale or trade. Will trade for stock of groceries. Inquire or write 912 Haig St., Young addition.

20—OIL, GAS AND MINERAL

OIL OPERATORS—Will give 50-50 drilling contract on 160-acre lease, one mile from well drilling on section 8, block 35 Twp 3-S, Range 4E, Glasscock county, Texas. This is nine miles from McDowell well. Want contract for 2,300 feet. C. P. Benedict, Midland, Texas.

TO THE VOTERS OF EASTLAND COUNTY.

You perhaps know of the great increase in the work of the Tax Assessor's office. Two years ago there was \$12,000,000 assessed values, last year there was \$24,000,000 and it looks this year as if it would be more than \$48,000,000. A great deal of this property is oil well supply machinery, etc., and it takes an immense amount of work to see that the people that own this property do not escape taxation and it is not right that the others do.

7—SPECIAL NOTICES

RANGER'S SPIRITUALISTIC medium. Teacher of occult science; readings 9 a. m. to 11 p. m.; satisfaction guaranteed. Madeline L. Osborne, 406 Pine St., opposite Methodist church, DeGroff Bldg.

10—APARTMENTS

FOR RENT—Two light housekeeping apartments, 2 rooms each; nicely furnished; close in, one block N. old post-office, 214 N. Marston St.

11—APARTMENTS

BIRD APARTMENTS, all modern, at reduced rates. No. 414 Cherry.

12—FOR SALE—Miscellaneous

FOR SALE—Household furniture, at a bargain. Call at 201 Brown St., corner S. Oak and Brown Sts.

13—FOR SALE—Miscellaneous

FOR SALE—Two strings of tools, complete. All in first class condition. Will sacrifice if sold at once. Call Room 44, Glenn Hotel.

14—FOR SALE—Real Estate

ONE MODERN bungalow (furnished or unfurnished). Apply C. J. Dietrich at Dietrich & Henry's store, Main street.

PLATEAU WELL HAS UNUSUAL DEVELOPMENT

Special to The Times. BRECKENRIDGE, July 15.—The famous Plateau well on the Ward tract, one-half mile from the city limits of Breckenridge, in fifty-two days career has had a remarkable history. The well came in originally at 5,000 barrels production. It has grown until the last twenty-four hours when it produced 6,900 barrels of oil. On the first eight days of its career it produced an average of 4,800 barrels and the next fifteen days it averaged 4,100 barrels daily. It went on down until the succeeding fifteen days, when it averaged 2,200.

Prairie's Langford is Biggest Gasser in Several Months

The biggest gas well brought in anywhere near Ranger for several months is roaring and hurling rocks over a sizzling geyser. It is the B. E. Langford No. 1 of the Prairie Oil & Gas company, located four miles north of the Eastland county line. The well is making a flow of at least 50,000,000 cubic feet and probably a great deal more, from a depth of 1,670 feet.

Instruments Filed

Following is a list of instruments filed for record in the office of the County Clerk Earl Bender on July 14: J. A. Craven and A. H. Bowers to Monica bakery, warranty deed, part of lots 11 and 12, city of Ranger, \$10,000.

BUCHANAN WELL OF GULF FLOWING THRU OPEN HOLE

Special to The Times. BRECKENRIDGE, July 14.—The Buchanan well on the Gulf tract, which came in unexpectedly Saturday, day sending a thousand barrels daily through a ten-inch hole and is located three and a half miles east of Breckenridge shall in unexpectedly at the unusual shallow depth of 2,430 feet. It is flowing now through 780 feet of open hole.

TEXAS CO'S EXALL NUMBER ONE HAS GOOD SHOW OF OIL

The Texas Company's Henry Exall No. 1, in the far-west extension of the Ranger territory, near Cisco, has a good show of oil and gas from the black line at 3,170 feet. It will be shot into production.

SINCLAIR WATSON WELL, GUNSIGHT, JOLTED, IS FLOWING

Sinclair Oil & Gas Company's J. T. Watson No. 1, in the Gunsight district, is making a good flow after a shot of 240 quarts at 13,223 to 3,314. No estimate of production is available but the well will undoubtedly put itself in the class of the big producers.

FENSLAND NO. TWO RESPONDS TO SHOT MAKES GOOD FLOW

Special to The Times. BRECKENRIDGE, July 14.—The Fensland No. 2, which is located two miles east of the town of Breckenridge on the Walker Caldwell tract, was shot today with a hundred and twenty quarts of nitro and responded immediately with a splendid flow of oil. Reports indicate that the well will be a good one. The oil went clear over the derrick after the shot.

Attention Elks.

A meeting of the Ranger Lodge will be held at the Moose Hall on Main street near the corner of Marston street Friday, July 16th, at 8 p. m. It is urgent that you attend, as matters of importance will be taken up.

SILVER MINERS WOULD REBUILD MEXICAN MINTS

NOGALES, Ariz., July 15.—The Chamber of Commerce has joined with Charles Butters, mining expert of New York and San Francisco, to promote the formation in Mexico of an association of silver mine owners and silver producers to rebuild the abandoned mints throughout the nation and thus bring about at once the more free and unlimited coinage of silver. Mr. Butters states that if the old time mintage plan is re-established it will mean that Mexico will coin 500,000,000 ounces of silver.

The mining expert has extensive interests in mines in Mexico, Salvador and Nicaragua and is known for his introduction of the cyanide reduction process in Mexico.

He says the greatest need of Mexico today is small change and "hard money."

The revolution and the world war, said Mr. Butters, have stripped Mexico bare of silver coin. In its place, he said, is a vast quantity of paper money issued by the various governments as fiat money.

He blames the great flood of paper money in Mexico for most of the suffering in Mexico in connection with the various revolutions.

His plan is to have the old mints rebuilt and placed in operation by the association of silver interests at the cost of the association. Then the cost of the renewed mints would be recovered by the association from the mint profits over the course of years. Upon the paying out of the capital charge in restoring the mints, they would be returned to the Mexican federal government as its property to be hereafter operated under supervision of the federal government.

President Bracy Curtis of the Chamber of Commerce has named a committee of prominent men to take up the mint proposal with General Alvaro Obregon on his impending visit to his home in Nogales, Sonora, this month.

Meanwhile the proposition will be submitted by the Nogales Chamber of Commerce to the civic bodies of all other Mexican cities and the officials of the border states.

K.'s of C. Picnic and Dance Tonight at Shamrock Park

Shamrock park and the dance pavilion will be taken over, the former in part and the dance hall exclusively, by the Knights of Columbus and the Ladies of St. Rita's church for their picnic-swimming-dancing party tonight. Supper will be served beneath the trees at 6:30 p. m. and dancing will start at 9 p. m.

All Knights of Columbus and their friends are cordially invited. The committee includes Charles Overly, William Messer and J. R. Gaudin.

VALUES IT MORE THAN A FORTUNE

Power Gains Eighteen Pounds—Rheumatism Disappears After Taking Tanlac.

"What Tanlac has done for me is worth more than a fortune," said George Power, of 20½ Rottenberg St., a life-long resident of Halifax, Nova Scotia, and well-known employe of the Nova Scotia Tram and Power Co. "I have gained eighteen pounds and feel better than for twenty-eight long years," he continued.

"I don't believe anybody in the world suffered from rheumatism as I did. It was a sharp, shooting pain that would go through my knees, down my legs and into my ankles just like somebody was sticking a knife through me. I couldn't work at all in damp weather and suffered so intensely I would turn white as a sheet. When the attacks came on I wouldn't be able to sleep a wink, my joints would swell and my knees would get stiff as boards and I wouldn't be able to walk for two or three days at a time—just lay in bed flat on my back.

"Tanalac was so highly recommended by people right here in Halifax that I tried it and now I wouldn't take anything in the world for the good it has done me. My rheumatism is entirely gone, my appetite has picked up, too, and I sleep fine every night, and feel like a different man altogether. Tanlac is the greatest thing I have ever seen and I want to let everybody know what this wonderful medicine will do."

Tanalac is sold in Ranger by Phillips Bros. and in Eastland by Butler Drug Co.—Adv.

Nitros Cleanest Club in League Fine List Shows

Ranger's standing in the West Texas League, not only at the top of the pile in the won and lost column, but at the fore in clean playing, in a league which has been very well numbered on the whole, is shown in a letter sent to all West Texas managers by J. Walter Morris, president of the league.

It reads:

"The following fines have been assessed against your players and will be deducted from your share of the July 5th receipts:

Abilene	\$15.00
Eastland	40.00
Mineral Wells	15.00
Cisco	10.00
Gorman	10.00
Ranger	00.00

"This shows," J. Walter Morris' letter continues, "that the conduct of the ball players on the field has been very good in the West Texas League. Fines aggregating nearly \$1,000 for the first half of the season were levied in the Texas League, besides numerous suspensions of players and managers."

Ranger is at the top in conduct, as well as in the figures, the president's letter shows. This fact has been noted by attentive fans at Municipal park, but mathematical verification, you might say, has not been furnished before.

The Nitros play superior ball, and clean ball. As a club they are a clean set of youngsters and the policy of no umpire bating which has been rigidly enforced may be credited to President Manager Jimmy Galloway. He is not one to take an unfair ruling without protest, but when an argument is to be made he does it himself, and in a quiet way. No single instance of rowdiness is charged against the Nitros.

T. P. NEWS

T. F. Holland, formerly of the drilling department, has been transferred to Cadizo in charge of the northern part of the Lacassia district.

H. B. Eadt has resigned his position as field clerk of the Caddo district and has returned to his home at Moun. Pleasant, Texas.

Mrs. L. G. Parker returned from Stamford after a week's visit with her parents, Mr. and Mrs. T. M. Calvert.

Mr. and Mrs. Ira Noyse are new residents of the camp. They now occupy cottage No. 14.

Fred Kirshbaum of Okm., Okla., arrived Sunday to accept a position in the park's department of the garage.

Marriage Licenses

Marriage licenses issued July 14: Grace C. Graves and Maggie Counts, Desdemona.

J. L. Skidmore and Mrs. Ruby Barum, Cisco.

Henry C. Patterson and Violette Hargrave, Ranger.

No Soap Better For Your Skin Than Cuticura

Sample each (Soap, Ointment, Talcum) free of Cuticura Laboratories, Dept. X, Malden, Mass.

RANGER AND BEGGARS

On account of being a cripple, and Ranger having the ear-marks of a city overworked by "beggars" hampers my efforts in getting my candidacy for Tax Assessor properly before Ranger people by personal solicitation, so I adopt the press.

I do not offer my services as a stranger to the official duties, having had several years of experience in tax matters.

Neither do I ask support because of being a cripple and having to work to support my family. But instead, I offer as a citizen's privilege, confident I can make a creditable officer, and since I must work, believing it might as well be Assessing Tax as otherwise, your support on the 24th will be appreciated and commendable.

Yours to serve,
H. A. COLLINS.
—Pol. Adv.

PARTY CHIEFS TO CHAT WITH COX DAYTON JULY 20

DAYTON, Ohio, July 15.—The first important conference to arrange Democratic party campaign plans will be held here Tuesday, July 20, according to a telegram received by Governor Cox, the presidential nominee, from Homer S. Cummings, chairman of the national committee, today.

Mr. Cummings' telegram stated that he has called a meeting of the entire national committee for that date, to confer with the governor.

The proposed conference is understood by the governor to mean that there will be no subcommittees here for a previous conference, and that everything will be handled by the full committee in addition to many things that the subcommittee could not arrange. Plans for the notification probably will be definitely arranged at the conference.

Arrangement for Conference.

Mr. Cummings' telegram notifying the governor of the proposed conference follows:

"After consultation with Moore (E. H. Moore, national committeeman for Ohio, and manager of the governor's pre-convention campaign) and others, I have called a meeting of the Democratic national committee to assemble at the Hotel Miami, Dayton, at 11 o'clock in the forenoon of Tuesday, July 20. This will enable us to proceed in a body to Trail's End if this accords with your wishes. A few of the committee will probably arrive in town the day before.

"I expect to follow that course as there are various matters I would like to have an opportunity to take up with you personally. Please let me know whether this is in accordance with your wishes or whether you have any modifications to suggest."

Governor Cox indicated that the arrangements were perfectly satisfactory to him and that he would so advise Mr. Cummings.

Cox to Work from Columbus.

Governor Cox stated today that his personal campaign headquarters will be in Columbus. He would not comment on the report that national headquarters may be established there. He said it was probable that there will be eastern and western headquarters.

Among the morning messages received by Governor Cox was one from D. S. Ewing, chairman of the Democratic state central committee of California. It told the governor that it will be easier for the Democrats to carry California this year than in 1916. Another message was from Joseph W. Folk, former governor of Mis-

ABILENE RESERVOIR SUBJECT OF F PAPER AT WATERWORKS MEET

AUSTIN, July 15.—According to an announcement of Dr. C. W. Goddard, state health officer, an interesting program will feature the first annual meeting of the Texas Water Works association, which will be held in Austin July 19 and 20. Committees in charge have arranged a practical program for the presentation of papers and discussion on the subject of safe water production and the operation of water works plants, as follows:

- "Application of Engineering Principles to Offset Increased Cost of Labor and Materials."
- "Cost of Construction of Water Systems in Small Towns."
- "Value of Raw Water Settling Basins."
- "Abilene's New Reservoir and Water Works System."
- "Water Power Development in Texas."
- "Value of Water to Health."
- "Future Plans and Purposes of the Texas Water Works Association."

In addition to this program, entertainment features have been provided, such as a picnic, watermelon feast, steamboat ride on Lake Austin, automobile sight-seeing tour and vaudeville entertainment.

The fire chief declared that he had no desire to be hard on anyone but that folks must understand that the fire hydrants must be left clear. Enough headway could be gained by a fire to cause heavy loss, he said, if his men should be put to the expedient of having to roll an automobile away from a fire plug before they could make a fire engine attachment.

FIRE HYDRANTS MUST BE LEFT CLEAR, CHIEF AGAIN WARNS

The fire chief declared that he had no desire to be hard on anyone but that folks must understand that the fire hydrants must be left clear. Enough headway could be gained by a fire to cause heavy loss, he said, if his men should be put to the expedient of having to roll an automobile away from a fire plug before they could make a fire engine attachment.

'CHOC' BEER STILL IN NORTH RANGER SEIZED BY NOLLS

Deputy Sheriff Barry Nolls arrested a man yesterday afternoon who gave his name as John Scott and placed him in jail on a charge of making "Choc" beer. The arrest was made in a house near the Walker well No. 1, on the northern outskirts of the city, and was only effected after Scott had made an effort to escape and was stopped by Nolls firing a shot in his direction. A heavy sheet iron receptacle together with a worm made of common one-inch pipe was found in the house.

Deputy Nolls said that when he came up to the door of the house Scott opened it and upon seeing him slammed it in his face and ran out through a rear door. He followed him, he said and fired a shot to make him stop.
