

CONVENTION AWAITS PLATFORM BEFORE NOMINATING

PARRISH ASKS TO CONTINUE POLICE HEAD

SEND LETTER TO COMMISSION RECALLING RESIGNATION OF LAST WEEK.

Byron B. Parrish, chief of police, who tendered his resignation several days ago to take effect July 1, has reconsidered and today is sending a letter to the city commission recalling the resignation.

In his letter of resignation Chief Parrish said that he felt in justice to himself he should give his whole attention to other matters.

Both the resignation and the recall will be up for consideration of the city commission at its regular meeting this afternoon at 5:30.

Since it has become known that the head of the police would resign many applications have been received from men seeking the appointment.

The letter recalling the resignation follows: Ranger, Texas, June 29, 1920. To the Honorable Mayor and Commissioners of the City of Ranger, Texas:

On June 26, 1920, I tendered to you my resignation as chief of police of the city of Ranger, to take effect July 1, and my reasons for so doing were, as stated to you in my letter of resignation. However, since this was done, I have received so many requests from the general public to continue in office that I feel like it would be shirking my duty to my friends and the citizens of Ranger if I withdrew as chief of police at this time.

Feeling that I should not ignore the solicitations and demands of what I believe to be a majority of the people of Ranger, I herewith withdraw my letter resigning my office as chief of police of the city of Ranger.

Again expressing to you my profoundest thanks and appreciation for your generous support and co-operation in the past, I beg to remain, Yours very truly, BYRON B. PARRISH.

BEEES INVADE HOME OF GERMAN PRESIDENT

BERLIN, June 10. (By Mail).—A colony of bees of the other day swarmed in the cupping jaws of the big stone lion ornamenting the gateway of President Ebert's residence, which was formerly Bismarck's old townhouse and later the imperial court marshal's residence.

The police guard drove them out with the garden hose.

Many spectators lamented that the bees should have chosen the Presidential residence to deposit "real" honey which today is not to be found in Germany.

"NATIONAL ARMY" IS NEW MEXICAN TERM

JUAREZ, Mex., June 29.—"National army" is the term to be employed hereafter to designate units of the Mexican army, according to orders received from Mexico City.

Previously various names have been applied, including "liberal revolutionary army" and "liberal constitutional army."

FOR VICE PRESIDENT

WASHINGTON, D. C., June 29.—The biggest-chested soldiers come from the states of Washington, California, Oregon, Nevada, Utah, Idaho, Montana and Wyoming, and the smallest from the Eastern Department, which includes the cities of New York, Philadelphia and Baltimore, according to statistics compiled by the War Department.

It was also announced that when uniforms had been made for the soldiers after a pattern based on 102,312 individual measurements, the fighting forces of Uncle Sam will be the best dressed soldiers in the world.

The data has been classified with respect to states, so that when the figures are published every soldier will know what measurements are necessary for the trade in his state.

ERECT MEMORIAL HALL TO PILGRIM FATHERS

PLYMOUTH, June 29.—A new block of buildings will be erected here called the "Mayflower Memorial Hall," commemorating the tercentennial of the sailing of the Pilgrim Fathers from this port.

Annaburton Davis, vice-president of the M. P. and General Booth, of the Salvation Army, will lay the foundation stones September 6. The foundation stones are being brought from America, having been quarried from a spot near the original Plymouth Rock.

BE ASSERTIVE, WIVES!

LONDON, June 29.—"You should know where your husband works, what he earns and where he goes," a Tottenham magistrate told a complaining wife. "You are not assertive enough."

AVIATION FIELD WILL GO BACK TO OWNERS

FORT WORTH, June 29.—Leases on the 200-acre tract of land formerly Barton aviation field here, were not renewed by the chamber of commerce, it was announced today.

COLONISTS OF GERMANY SENT BACK TO HOME

BERLIN, June 10. (By Mail).—Hamburg has just welcomed two shipments of repatriated persons from the Far East brought here in two Japanese steamers.

From one of the ships Admiral Meyer-Waldeck, commander at Tsingtau, landed with 750 men, women and children from Germany's erstwhile Far Eastern colony who had been interned in Japan.

The other ship, which came from Vladivostok, carried 1,470 Germans, Austrians and some Turkish war prisoners from Siberian and Chinese points.

In a speech of welcome to the people from Tsingtau, Admiral Taeger said, although Germany had been beaten in the Far East, seed had been sown there which would restore the honor of Germany's name.

Admiral Meyer-Waldeck, according to an agency report, replied that since the end of the war a strong revision of feeling in favor of Germany had set in in Japan where there was much indignation at the Entente's interpretation of the peace treaty.

Japan had great faith in Germany's future, he added, and able diplomacy would doubtless succeed in re-establishing the former friendly relations between the two countries.

The Japanese general staff, continued Meyer-Waldeck, believed to the end, that Germany would win the war.

Minister Koester welcomed the other repatriated persons with hopes for the Fatherland.

CHINESE BANDITS BECOME FLAGRANT WHEN LEFT ALONE

CHENGDEU, China, June 1.—(By Mail).—Depredations of robber bands along trade routes in Szechuen province have become so flagrant and widespread that urgent appeals for the use of troops to combat the menace have been sent to the Chinese provincial authorities by foreign firms operating in Szechuen.

The bands of robbers are said to be made up to a large extent of groups of deserters from troops that have been stationed in Szechuen. The outlaws have become so bold that mail consignments, heretofore immune from them, have been seized.

One recent report that was brought to Chengdeu was of the robbery of a pack train on the "big pond," which is the main highway between Chungking and Chengdeu. In this 40 bags of mail were opened and rifled by the outlaws, and "the whole hillside was covered with stolen mail."

In another case a caravan had been held up and robbed by a band of bandits when a second stronger band of brigands appeared and compelled the return of the stolen goods. The leader of the second band was then shot. The chief of the band who did this declared that he had guaranteed the safe passage of this particular caravan, having received a substantial consideration.

The activities of the bandits are felt as much by the individual as by the large commercial interests, in the opinion of one Chengdeu mission worker, who said: "It is a grievous hardship to send to America for a suit of clothes, pay for it at the present ruinous prices, wait patiently six months for its arrival and find it stolen the day after it has been shipped by robbers within a few days of its destination."

NOT TO ENFORCE DRY LAW IN OLD MEXICO

MEXICO CITY, June 29.—While it is expected that the new government may pass more rigid laws regarding the use of intoxicants, there is reason to believe that it is not the intention to go to extremes and that no attempt will be made to enforce nationwide prohibition.

On the contrary, according to well-informed officials, a project, already under way in the department of commerce and industry, for stimulating the wine grape growing industry is expected to be taken up and encouraged.

Mexico has vast tracts of land suitable for the growing of wine grapes and it is hoped to make it one of the most important industries of the country.

SIGHT DRIFTING SCHOONER OFF WESTERN ISLANDS

BOSTON, June 29.—Thousands of miles from the position where she was abandoned by her skipper and crew last winter the British schooner B. B. Hardwick is still sailing a "crazy course" in the broad Atlantic.

She is slowly heading in toward the Sandwich sea, that resting place for derelicts since Columbus, Drake and Magellan made trans-Atlantic voyages popular. Captain Burch of the British steamer Kumerick, in from Calcutta, reported sighting the drifting schooner off the Western Islands, a dangerous menace to shipping.

BRYAN SEES CLEARLY, SAYS MEXICAN PAPER

MEXICO CITY, June 29.—Under the caption "W. J. Bryan Sees Clearly" the La Revista Mexicana, published in this city, lays much stress upon the following item taken from a recent issue of the Commonwealth: "The business of inventing Mexican crises seems to have been thoroughly systematized and any time that the demand for intervention falls below normal it seems remarkably easy to market the stored output of Mexican outrages."

MAKES BIG PROFIT ON WORN-OUT LAND

COLUMBIA, Mo., June 29.—There is money in raising popcorn. If you doubt it ask John R. Smith, a farmer near here. Last year Smith rented forty acres of "worn-out land" for \$270, and planted it all to popcorn. The crop harvested netted Smith \$1,600.

"HOW ABOUT A WOMAN FOR VICE PRESIDENT?" THEY ASK

Delegation of Massachusetts women snapped en route to convention.

Delegation of Massachusetts women snapped en route to convention.

"A woman for vice president," is the slogan of this group of Massachusetts women attending the Democratic convention. "We want to know why it wouldn't be a good plan for the Democrats to nominate a first-class, brainy woman for vice president," they say. They point out that such a move would win many of the women voters. Their sentiment is shared by some other delegates.

BISHOPS WILL GO TO CONFERENCE AT LAMBETH, ENGLAND

LONDON, June 11. (By Mail).—Many bishops of the Anglican Church, including 12 from America, are already on their way from distant dioceses to attend the Lambeth conference, which will begin here early in July. This conference is held at intervals of about ten years since 1867, when Archbishop Longley, first invited all the bishops in communion with the church of England to a conference at Lambeth.

The American bishops have already taken a prominent part in preparing for the conference, but, for some reason that is not very clear, says the Times, they have not appointed the four representatives to which they are entitled on the Central Constitutive Body. It is expected that about 279 bishops will attend this year's deliberations, 100 of them from the British Isles, 107 from overseas and 72 from America. A representative group of American bishops is preparing a number of papers on Christian unity.

ROYAL AIR FORCE PUTS ON PAJEANT OF WAR SERVICE

LONDON, June 29.—Just what flight-attendants did during the war are best illustrated by the Royal Air Force pageant which opens up at the Hendon aerodrome this afternoon.

The general design is to show the public, under peace conditions, what took place during the five years of war. There will be fighting in the air between various types of machines, flying races and trick flying by famous pilots.

One of the features is to be an attack on an observation balloon by an airplane who brought down sixteen such machines during the war. The spectators will see the balloon burst into flames and the observer descend to safety from it by a parachute.

The R-34, the famous airship which crossed the Atlantic ocean, will take part. Trenches will be attacked by airmen as in the war, and if weather conditions are favorable a cloud screen will be formed.

The pageant is to be followed by a ball at the Ritz hotel on July 2. The proceeds of the pageant and ball will be devoted to the erection of a monument to the fliers who died in action in the war and to educational purposes for the children of airmen.

BOYS WITH WIDE AERIAL MAIL FROM THE WEST

WASHINGTON, D. C., June 29.—The biggest-chested soldiers come from the states of Washington, California, Oregon, Nevada, Utah, Idaho, Montana and Wyoming, and the smallest from the Eastern Department, which includes the cities of New York, Philadelphia and Baltimore, according to statistics compiled by the War Department.

It was also announced that when uniforms had been made for the soldiers after a pattern based on 102,312 individual measurements, the fighting forces of Uncle Sam will be the best dressed soldiers in the world.

The data has been classified with respect to states, so that when the figures are published every soldier will know what measurements are necessary for the trade in his state.

ERECT MEMORIAL HALL TO PILGRIM FATHERS

PLYMOUTH, June 29.—A new block of buildings will be erected here called the "Mayflower Memorial Hall," commemorating the tercentennial of the sailing of the Pilgrim Fathers from this port.

Annaburton Davis, vice-president of the M. P. and General Booth, of the Salvation Army, will lay the foundation stones September 6. The foundation stones are being brought from America, having been quarried from a spot near the original Plymouth Rock.

BE ASSERTIVE, WIVES!

LONDON, June 29.—"You should know where your husband works, what he earns and where he goes," a Tottenham magistrate told a complaining wife. "You are not assertive enough."

AVIATION FIELD WILL GO BACK TO OWNERS

FORT WORTH, June 29.—Leases on the 200-acre tract of land formerly Barton aviation field here, were not renewed by the chamber of commerce, it was announced today.

DELEGATES AWAIT ACTION OF COMMITTEE WITH LITTLE IDEA OF WHO WILL TAKE THE LEAD

SAN FRANCISCO, June 29.—Administration forces went into the second day of the Democratic convention apparently in full control of the situation. Senator Glass, chairman of the resolutions committee, and Bryan were excluded from the sub-committee of nine chosen to actually draft the platform, while Coby, secretary of state, sits as the representative of President Wilson.

Senator Robinson, of Arkansas, is another administration supporter. A prominent chairman of the convention and administration met at the head of other committees, was the line-up today. The threatened anti-administration fight in the organization committee machinery collapsed without showing.

Administration forces were strengthened in their hold through a series of victories in the credentials committee, which decided three contests. Senator Reed, anti-administration, of Missouri, was defeated a seat.

The Clark Howell delegates in Georgia pledged to Attorney-General Palmer are also expected. The credentials committee overruled the national committee in the Oregon case, seating administration today.

McAdoo headquarters opened today, consisting of three rooms to be used for conferences. The publicity campaign is planned. No claims are advanced by McAdoo supporters as to the number of votes he will get on first or subsequent ballots.

Men on state delegations claim for July 25, 1920, with more than 330 second choice votes in sight. Friends say McAdoo will run third on the first ballot. They expect Palmer to lead, with Cox second, afterwards the break will be for McAdoo.

Prohibition is still causing uneasiness. Actual preparation of the Democratic platform, delegated last night to the sub-committee of nine under administration leadership, waited today while the platform committee of fifty-three kept open house to hear the final suggestions and arguments from many sources.

"The rules committee has cleared the way for nomination speeches to be delivered while the resolutions committee is working on the platform. Amendments to Labor liquor and the Irish question, all subjects of disagreement among the party leaders, are up for debate at the committee's public hearing and many speakers on the lesser controversies are expected to be heard here.

When today's session of the Democratic convention opened at 3 o'clock Texas time, the scheduled program was a report of the credentials committee, report of the committee on permanent organization and an address by Senator Robinson, permanent chairman, and report of rules committee and the order of business. The committee next in order was the report of the resolutions committee, which was not ready. The remainder of the day's program depends upon convention developments with nominating speeches in order while the platform report is awaited.

Chairman Robinson in his address assailed the Republican party for the Chicago platform for the money they spent in pre-convention contests, and attacked senators who fought the League of Nations. He declared the big joker in the Republican platform was the plank concerning the anti-administration fight for failure to enforce anti-profitting laws enacted by the Republican party.

"Who will be deceived by this absurd pretense? The Republican party enacted no anti-profitting laws. Amendments to the food control act were suggested by the President and supported by Democrats in Congress. The President recommended four additional measures to prevent and penalize profiteering. All these were pigeonholed."

DULUTH MOB HAD MANY WOMEN AND EXCITED GIRLS

DELUTH, Minn., June 29.—Mob psychology as evidenced in the rioting here when three negroes were lynched, showed many peculiar traits.

It was almost a picnic crowd, that mob of 500 persons, many of whom were men girls or young matrons.

Horror, perhaps, would have transfixed any one of the young women had she observed a lynching as a lone spectator, but the mental attitude of the mob made it a holiday affair.

Youths are declared to have started the recruiting of the mob—boys of high school age from the section of the town in which the girl victim of the negro assault lived.

Girls and boys made up a large part of the mob when it stormed the police station; they cheered and joked as the three negro victims were swung to their doom in a state of mild hysteria, shown by many girl spectators, crude wit from immature mouths became execrating comedy, and the death groans of the negroes unheard in the chorus of hisses that followed each straining of the death rope.

"See what you are coming to!" cried one.

"Now, do try to hang gracefully," admonished a girl in her teens.

"The less you kick, the less it hurts," brought forth much approving laughter.

A theatre crowd was emerging half a block from the electric light pole just as the first negro was swung upward. Many among these from the theater joined in the applause as some one yelled, "Kick him again!" And far up the pole a young man, hardly more than a boy, struck out viciously at the face of the dying negro.

MRS. ENGLAND IS DELEGATE AT DEM CALIFORNIA MEET

SAN FRANCISCO, June 29.—Mrs. William H. England of Oklahoma, Vassar graduate and mother of six children, is one of more than 300 women who are delegates to the Democratic national convention which opened here June 28. Her husband was a delegate to the republican national convention at Chicago this month.

Among the other Oklahoma delegates are two women who trace their ancestry to Indian chieftains. They are Mrs. Richard L. Eite, wife of a physician, formerly of Georgia, and grand niece of Semovah, inventor of the Cherokee alphabet; and Mrs. Eugene B. Lawson, wife of an attorney and oil man, and daughter of Rev. Charles Johnson, last chief of the Delawares. Mrs. Eite was first chairman of the Women's Democratic club of Oklahoma. Mrs. Lawson was formerly president of the Oklahoma Federation of Women's Clubs. Both were prominent in war work.

Texas sent a nationally known figure in Mrs. Percy Pennybacker, club leader. Seventeen women, headed by Mrs. Joseph Daniels, wife of the secretary of the navy, have been appointed by Homer S. Cummings, chairman of the Democratic national committee, as members of the executive committee of 34.

MISSING CHILD FOUND IN WELL; RESUSCITATED

SPARTA, Ill., June 29.—Mr. and Mrs. Moore missed Wylie Moore, their two-year-old son, a noise came from a nearby cistern. Investigating they saw a tiny foot protruding from the bottom of the cistern. Screams brought neighbors, who procured a ladder and with it hauled little Wylie to the surface almost drowned. "First aid" treatment revived the lad, although for a time it looked as if the infant would not recover. He had been lying on the top of the cistern, one of the boards gave way and he fell in.

TAMMANY INDICTED

Charles F. Murphy, Tammany Hall leader, and five others are under indictment in New York on a charge of conspiracy to defraud the U. S. by falsifying income tax returns and attempted intimidation of Louis N. Hartog, a wealthy manufacturer, through criminal prosecution. One of the other five is Assistant District Attorney James E. Smith, a central figure in the "vice war" between the district attorney's office and the New York police department.

COWS REFUSE LIQUOR; MILK SUPPLY SHORT

CADIZ, Ohio, June 29.—Cows in this vicinity have "gone dry." Prohibition is blamed.

Due to the dry amendments to the state and federal constitutions, several hundred gallons of wine, frozen by dry enforcement officers, from legal possessors, were dumped into a sewer not long ago.

The intoxicating beverage ran into a creek which runs through a number of pasture fields.

As a result of the cows refusing to drink the "spiked" water, there now exists a shortage in the milk supply around here.

STREET CLEANERS' WAGE ECLIPSES EDUCATORS

MANCHESTER, N. H., June 29.—An increase of 14 per cent in wages was granted the laborers in the street department by the board of public works. The men are at present receiving 54 cents an hour. The increase will bring the pay to \$1,536.60 a year, including ten days' vacation with pay. This is more than the average pay of the teachers in public schools, including the heads of grammar schools.

\$2,200,000 DAILY RECORDS SMASH RACING RECORDS

PARIS, June 29.—All race betting records were smashed in the last few months' French season, which shows that the average receipt by the pari-mutuels on the Paris courses amounted to \$2,200,000, while the figure for the day of the Grand Prix, June 27, is expected to reach the \$5,000,000 mark.

JEWES WILL NOT BE ABLE TO GO BACK TO HOMES

LONDON, June 29.—No Jew can be resettled in Palestine until more dwellings are built there. This is the statement of Dr. Weismann, leader of the international Zionists.

"There is not room for a single additional family at present," he said, "and the hygienic conditions in the towns are certainly not good."

Therefore the Anglo-Palestine Building company, Ltd., with \$1,000,000 capital is being floated, shares being \$100 each. Land already has been purchased at Jaffa and Haifa where house building on a large scale is to be started as soon as materials and money are forthcoming.

Sir Stuart Samuel heads the directors' council to the board of directors of the new building company.

LEGS OF BLUE, PURPLE BURY EYES OF MAN, 80

RICHMOND, Eng., June 29.—Women Pierrots who perform on the Thames river terrace have annoyed Alderman Sir James Schlumper, aged 80.

"The first thing that met my eye," he protested to a council meeting, "was a woman with one leg painted blue and the other purple. It's abominable, I say."

But no action was taken, because the dancers were managed by ex-soldiers with whom the city had made an agreement.

TWO KILLED WHEN HOUSE COLLAPSES

REDFORD, June 29.—Two are known to be dead and fifteen were injured in the collapse of a four-story brick lodging house where eighty men slept, last night.

Salvation Army Extends Scope Of Its Service

"Service that will reach every person in the nation who is laboring with some form of personal need," sums up in a clause the spirit of the Salvation Army Service program for 1920, according to Lieutenant Colonel George Wood, at the head of the division composed of Texas, Oklahoma and Louisiana, with headquarters in Dallas.

MEXICO HAS GENERAL HOLIDAY WHEN NEW PRESIDENT GOES TO CAPITOL TO MAKE HIS ADDRESS

MEXICO CITY.—Miguel F. Ortega, president of the Mexican Congress, arose in the Speaker's rostrum in the stately Chamber of Deputies Monday and announced to the assemblage that the national legislature was convened in a special session called by the president of the Republic. A few moments later the fanfare of trumpets from the street announced the approach of President Huerta to deliver his message in person.

NEWS NOTES FROM MOVIELAND

The stress of war work being over and many a royal family being reduced to meagre means. The motion picture field is fast becoming the fashionable thing for noblemen to enter. Some few of these women belonging to noble families are taking up other kinds of work, clerical, shopkeeping, photography, teaching and the like, but the very fashionable thing is motion picture work.

In San Antonio and El Paso are maternity homes which serve this territory. The girls range in age from fourteen to twenty-three years—the average age being sixteen years. They are not all of the "primrose" path but many are daughters of good families. It is the policy of the army to require that the prospective mother agree to keep her child with her and after it is born she shall remain at the home for three months at least.

TWO ACTIONS ARE SATISFIED WHEN KING IS VISITOR

LONDON, June 11. (By Mail).—How warily the diplomatic corps at Tangier has to walk to avoid hurting the susceptibilities of either the French or the Spaniards, both whom hope to control the future of that city, is shown by the experience of the British Charge d' Affaires when he decided to hold a reception three in honor of King George's birthday.

MEXICO HAS GENERAL HOLIDAY WHEN NEW PRESIDENT GOES TO CAPITOL TO MAKE HIS ADDRESS

The whole city is in gala attire. The national ensign floats from all public buildings, whose doors and balconies are hung with rich red velvet draperies. The buildings were all illuminated Monday night. Great crowds filled the streets, but they moved quietly and cheerfully. Their faces expressed happiness. It is safe to assume that this cheerfulness is due to the fact that this national legislature was called in a peaceful way. The hope buds that this is the beginning of an era of a constitutional Government in place of the military despotism.

RANGER GETS NINE-EIGHT VICTORY IN EASTLAND CONTEST

EASTLAND, June 29.—Ranger won a weird contest Monday from Eastland, 9 to 8, Phillips, who started for Eastland, breezed along nicely, allowing only one hit in the first three innings, but he went down under an avalanche of hits in the fourth, when seven runs were put over. Maloney, the Eastland manager, then took up the pitching and held Ranger to two runs. The features of the game were a catch by Payne and one by Harrick, and the playing of Gross at third.

PITCHER YANKS FOUGHT MONTHS TO GET IS ONE OF SEASON'S FIZZLES TO DATE

Two glimpses of Carl Mays. The signing of Pitcher Carl Mays by the Yanks last season provoked one of the biggest baseball wars in history. The Yank owner went the limit in hiring legal talent to fight for Mays. He was figured on to help Babe Ruth and the other high-priced Yankees win a flag for New York. But he has failed to show his expected form this season. His failure to win regularly has been a blow to the Yanks.

FIRST GAME IN NEW SERIES IS CISCO'S PRIZE

GORMAN, June 29.—Gorman defeated Cisco in the first game of the series, 5 to 4. H. Baldrige relieved Eirshman in the third inning and didn't allow a hit. Fuller started at bat and in the field.

Box score for Gorman vs Cisco game. Columns: AB, R, H, O, A. Rows: Taylor, Gray, Fuller, Gressett, Sturdy, Thrash, Burkhead, Eirshman, Baldrige, Whitney, etc.

What has Jimmy Burke done to draw comment as one of the stars in sport tonight now, you say? Well, nothing, and then again considerable. One way you look at it Jimmy deserves a big bouquet for the way he has stuck to the job of trying to lift the Browns out of the darkness. For the knockers have been riding Jimmy considerably and a weaker man might have right now, you say? The Browns were picked by most everyone to be right up there this year. Messrs. Ball and Quinn, the business heads of the team, were figuring on it. Burke saw light ahead, too. But until his team started on a rampage a week or so ago and began to pile up a consecutive winning streak the Browns were fighting to get into last place. Burke kept up their pep, though. He realized that punk pitching was the team's weak spot and took the initiative

SINCLAIR GETS LONG END FROM RANGER SHOPS

In a game featured by light hitting, wild base running and airtight pitching, Sinclair beat the Ranger Shops, 8 to 2. McGowan outpitched Jensen with fourteen strikeouts to the latter's five. The leading hitters were Beatty, Jensen and Griffing. In his four trips to the plate, Griffing drew two walks, hit a single in the third inning and a triple to the left field fence in the last inning, driving a runner in ahead of him. Jensen, pitching for the Shops, proved versatile in that he pitched masterful ball, hit safely twice and stole two bases.

HAND SWOLLEN WITH BLISTERS Would Run Water. Itched and Burned Cuticura Heads.

My trouble began with little white blisters on my right hand. The blisters broke and would run water, and I could not work. My hand was red and swollen, and itched and burned so I scratched all the time, and it kept me awake every night. Then I tried a free sample of Cuticura Soap and Ointment. My hand began to heal so I purchased a box of Cuticura Ointment and one cake of Cuticura Soap and now my hand is sound and well. I am healed. (Signed) Mrs. Emma Parks, R.2, Valley Mills, Texas, July 30, 1919. Try to prevent further trouble by using Cuticura for all toilet purposes.

GRADUAL CONVERSION When Run-Down

HEALTH MENACES. At this season there exist many serious health menaces that may be avoided only by precautionary measures taken by the individual of his own volition.

But one agent of immunity is provided by medical science, that is the serum administered hypodermically, a form of vaccination with which every man who served in the army or navy is familiar.

TO THE EDITOR: The editorial in Sunday's issue of your paper, in which the possibilities of Ranger were compared to those of Tulsa in its formative period, was timely.

Almost any physician will secure the serum and administer it; as a matter of fact, the majority are prepared to give the treatment at any time.

It is particularly advisable for residents in Ranger and its environs to subscribe to this precaution. The menace of typhoid here is actual.

Within a very short distance of the city limits are hundreds of oil camps in which there is no sewage system. In these camps are also water wells in a soil whose strata is not always determined by those who use the wells.

Sewage contamination is the one and only means by which typhoid fever is spread. Should the seepage from about these camps drain into the well, typhoid bacilli are certain to be there and every person who is not immune to the disease is bound to contract it.

Following the development of one case, this disease, as all others, spreads in an ever-widening circle until whole sections are gripped by an epidemic.

The conditions favoring the growth of typhoid bacilli are practically beyond control in the oil fields. It is a matter of individual concern and where the life or at best the health of the individual is menaced, it is well to look well to preventives.

Almost every person of the present day carries life insurance, perhaps because so many hope the insurance will be collected before it is paid up. At least, chances are taken with disease that would suggest that the individual holds life cheaply.

Beside the menace of typhoid fever, there are other ailments to be guarded against during the summer. Those illnesses classified as "summer complaints" which also have their field in the digestive tract. Though not so serious as the other, there is no reason to encourage them. They may be easily avoided.

It is a matter of the food taken. Meat is liable to be contaminated and should not be consumed unless it is very thoroughly cooked. Fruits and vegetables serve also as a menace when taken uncooked. But the dangers in this direction are slight when the source of the products is known, and the process of preparation is clean.

No one should eat anything, but those products that come out of cans, on the table in a restaurant where there are flies. If there are flies in every restaurant, select the one where there are the fewest, but not all proprietors of eating places will take such long chances with their trade as to permit flies in the place.

It is not necessary to caution housekeepers in this connection. Few women reach maturity in the present day without having been thoroughly taught the danger of the fly. Although every housekeeper prepares the food for her family with care, knowing the responsibility upon her shoulders.

It is her chief added duty to be sure of the sources from which the food she purchases comes. She must avoid meat markets in which carcasses hang in the open shop unprotected from dust and flies, and unspiced by ice. She will not buy meat that has been in stock for more than two or three days even on ice.

She must know that her vegetables are

proper stored to assure cleanliness and she will wash every article of diet served uncooked, even dipping in boiling water both vegetables and fruits. She will buy only butter that is carefully wrapped in oil paper and contained in a dustproof carton. Other items of the same nature must also be free from handling with bare hands or so marketed that dust reaches them.

Mrs. L. P.—"What is meant by 'test' Mrs. after they have been completely sealed after employing the cold pack method of canning?"

Answer—"Test" means to pick up the jars by the covers a few days after they have been canned. Loosen the clamps and simply raise the jars by the covers, which will not come off if sterilization is complete. Then clamp them again, wrap them in paper to preserve the color, and store them away. On the day of canning to test for leakage they should be inverted on a cloth out of a draft so that they will not cool off until they are tested, as described above, two or three days later.

Mary K.—"Please tell me what to give my Mother for a birthday present. She is a bet ridden and she has everything in the line of flowers, subscriptions to favorite magazines, and all the things usually given to invalids. Her bed is near the window and she enjoys the breeze from the window. Below the window is not a much and look out. I have thought of arranging a mirror somehow on the ceiling so that she can see the street in it; do you think this could be done?"

Answer—"I think your own idea about the mirror cannot be surpassed. Go to an automobile supply store and buy one of the convex or reducing mirrors used on automobiles; set this up at the window at your Mother will be able to see her passing traffic on the street. This will be better than using an ordinary mirror suspended from wall or ceiling.

PUBLIC FORUM

TO THE EDITOR: The editorial in Sunday's issue of your paper, in which the possibilities of Ranger were compared to those of Tulsa in its formative period, was timely.

Ranger's future depends not so much upon the production of oil as upon other avenues of industry. With plenty of employment at remunerative wages the town will go forward regardless of the development that have hitherto been responsible for its phenomenal growth.

That conceded by all who are in position to judge, at the rush characteristic to such discoveries has subsided. The large companies, to whom most of the holdings belong, will develop them when they deem it advisable to do so. Hence the situation is almost identical with that of Tulsa when the decline in production came.

Too much money has been invested in Ranger and plans for a modern city have been carried too far for the hopes that have been uppermost in the minds of her citizenship to be vanished. The situation is obviously plain, and upon the Chamber of Commerce and kindred organizations rests the responsibility of carrying out an industrial program with a view to furnishing employment to the people who are here and inviting others to come. The work thus far accomplished by these organizations is encouraging and they should have the active support and cooperation of the entire citizenship. —Respectfully, J. I. Small.

TESTED RECIPES

Baked Strawberry Custards. Line greased custard cups with ripe strawberries, cut in halves. Sprinkle with sugar and a little lemon juice. Make a custard of 3 eggs, 2 cups milk and 2 tablepoons sugar, and pour into the prepared custard cups. Bake in a moderate oven until set. Serve decorated with strawberries.

A Hint. Nicely embroidered pillow slips will wear three times as long if the pillow is turned on retiring. The front will out wear two new backs, a clean side is exposed during the day, and your needle work has not been in vain.—Mrs. I. Bergholtz, 314 Lami street.

Tip-Top Cake. Beat together 1 1/2 cups sugar, 2 eggs, 1 tablespoon butter, 1 cup milk, 2 1/2 cups flour and 2 tablepoons baking powder. Beat for 3 minutes and pour into shallow tins and bake in a rather quick oven.

Griddle Cakes. Two level cups sifted flour, 4 level tablepoons baking powder, 1 teaspoon salt, 3 level tablepoons sugar or sirup, 1 1/2 cup milk, 1 egg and 3 tablepoons liquid fat. Mix and sift the dry ingredients; add the milk, egg and fat; mix thoroughly and bake on a hot griddle.

Hints. Yolks of eggs may be kept several days if they are placed in a cup and covered with cold water. They may be used for salad dressings, custards, cakes and stuffings.

Cloves make a good seasoning for warmed-up meat.—Mrs. A. Willey, Ocohee, Ill.

WOMEN ARE ASKED TO TAKE NURSING AS A PROFESSION

BUFFALO, June 29.—Unless some remedy is found for the acute shortage of nurses, many hospitals of the country will be compelled to curtail their operations, asserts Mrs. Annie L. Hansen, superintendent of the Buffalo District Nursing association, in her annual report.

A recent campaign to induce more young women to take up the profession of nursing was a failure, Mrs. Hansen said, and as a result one Buffalo institution was compelled to close one of its departments.

"Hospital training schools of the United States have reached a high state of efficiency and new hospitals and new systems for nursing the sick in their homes are arising everywhere," Mrs. Hansen said, "but the necessary pupils fail to appear. The country needs another Florence Nightingale."

MEAN "There's no advantage golf has over baseball."

"What's that?"

"You don't have to take your wife to see it played."—Detroit Free Press.

There is little illness among that part of the population who embrace every sanitary regulation nor in those homes where the menace of disease is recognized and met by proper precautions taken before it is too late.

Health is the most precious thing we have. Let us keep it with at least the same degree of care with which we guard our valuables.

Mrs. G. F. S.—"My husband says I need not go to the expense of buying a rack to go inside my washbowl for the purpose of hanging up my clothes. He says he can make one. Do you think a home-made wooden one would do as well, and how would you suggest his making it? I have never canned before and am looking forward to it."

Answer—"A home-made rack will give just as good results as a bought one. By using short flat pieces of wood crosswise on two long pieces to fit the boiler. The rack fit very tight, so that it must be wedged to fit the bottom of the boiler—otherwise it will float until the cans are placed upon it, and thus give annoyance. You will need one of the duplex forks on the market for lifting the jars into and out of the boiling water. If your husband has time to tussle with strong wire and a pair of pliers he can make an even better rack than a wooden one.

Answer—"Please give me a recipe for strawberry jelly." Answer—"Strawberry Jelly: Soak 1-4 tablepoons of gelatine in 1-3 cup of cold water. Heat one pint of strawberry juice and the juice of one lemon very hot, and pour this on the gelatine; add 3-4 cups of sugar, and stir until the gelatine is dissolved. Strawberries will not make jelly without being combined with either gelatin or pectin, but a little juice made into jelly in this way and used as a dessert with or without whipped cream is both economical and delicious.

Tomorrow—The New Viewpoint.

BEAUTY HINTS

Someone has said that a winning smile is a matter of personality plus good teeth. It certainly is true that the most pleasantly meant smile in the world is anything but pleasant to look at if it reveals a set of jagged teeth that are badly in need of a dentist's attention.

I hardly know which is the more important ingredient for a pleasant smile—good nature or good teeth; on the whole, I should say that since good teeth are more easily acquired than a pleasant disposition, the first thing a woman should do if her smile is not satisfactory is to examine her teeth.

I want to give a few simple suggestions: Never have a gold tooth put in or a gold filling where the filling shows. All front fillings should be of a material which I believe dentists call white enamel, which is absolutely invisible. Teeth that overlap can be straightened by means of tiny wedges set between them and changed from time to time as the teeth slowly assume proper position.

Teeth that grow far up on the gums—eye teeth do this sometimes—should be pulled out. This case—where it is a matter of deformity—about the only one where a good tooth should be sacrificed. A clever dentist can sometimes build out a badly shaped tooth so as to make that even white line which is so desirable.

These very simple little things should be attended to if possible. In any question of economy a woman can save by not spending money on her hair or complexion or nails. (Women often do spend more on these non-essentials than they do on either dentists or doctors.) No smile could be anything but attractive if it showed a line of even healthy teeth.

As far as the personality goes, the desire to be good natured and attractive is half of its accomplishment.

THE WOMAN WHO SAW

Paint Praise. Our subway is famous—or infamous—for the unavoidable intimacy of the travelers thereon during the rush hours.

Occasionally as they are being observed, it cannot be denied that it offers the widest scope for the study of human nature. Packed in too closely to get any sort of perspective of our fellow men, at least we can still make use of the sense of hearing and now and again get a mental glimpse of philosophy that is comic or serious, or a mixture of both, and sometimes almost stoically grim.

On one such ride the Woman stood unaided between two others who had evidently met accidentally after a long separation. One of them leaned heavily on the Woman's arm, but the Woman was unable to "get out from under," as the herself was standing somewhat in the way of the other's arm.

Indignantly, although helplessly, on the companion's left foot. Indeed, this very fact which to the Woman's embarrassment furnished considerable conversational matter for the two friends. At last they swerved from that topic and began a re-statement of their lives since the moment of their separation. Eventually, of course, marriage.

"You're married now, ain't you, Min?"

"Yes, I'm married," assented the owner of the left foot.

"Got a good man?"

"Oh, pretty good," Min was noticeably unenthusiastic.

"Well," answered the friend in the voice of one who believes all is for the best, "pretty good is better than some."

Beginning Early. The Woman loves to watch the children in the park—especially when they do not know they are being observed.

The other day she came on a boy of about five and his small sister industriously digging in an expanse of lawn where they obviously had no business to be.

The little girl was especially thorough in her efforts to destroy next spring's grass crop.

A six-foot guardian of the peace bowed down upon them and his booming voice was heard as he approached: "Hey, get out of there, the both of ye. Go along, now; get out!"

The small boy, with a sigh, gathered up his shovel and went off. Being a man child, he recognized the voice of authority. Not so the small girl. She gazed up unafraid at the outraged policeman.

A contented smile wreathed her face. There was a tense pause, while the blue-coated apparently sought words awful enough to meet this open defiance. Then she said: "What beautiful buttons you've got."

She murmured adoringly, stretching out one grimy hand to pat the protuberant side of the coat above her.

When last seen she was riding in state on the blue-coated shoulder conversing affably and gesticulating with the evidence of her crime, the pink handled shovel, still clasped firmly in her fist.

"She's With a Sailor Now."

"Never again," said the girl as she dropped into the seat across from the Woman in the candy shop and ordered a double chocolate sundae with plenty of bitersweet.

"What do you mean?" asked her friend, duplicating the order, as she eyed the companion's expression of disgust.

"Well, never again will I go with an officer anywhere. You know K. B.'s a first lieutenant, and I thought it would be great fun to go to Coney with him after he had been overseas and serious for so long. You know Pete is a sailor and we went down there last week when he was home on furlough and had the time of our lives. Still on everything there and ate six hot dog sandwiches and three ice cream cones, and had our fortunes told, 'n' everything.

LOCKSMITHS

LOCKSMITH AND SAFE EXPERTS. Telephone 154. F. E. Popejoy Brothers, 5426 Terry Street DALLAS, TEXAS

Be Reeves Is Going Deeper As Community Well

PECOS, June 29.-The Bell-Reeves is being pushed down as a community well as a result of a fund raised among Pecos business interests. This money is to be used to purchase sufficient stock to add at least 500 feet to the 1,000 foot hole, and it is understood, that more money will be provided if necessary.

The action was taken when the company found itself financially unable to proceed. Work was started underreaming from 700 to 1,000 feet on Sunday, and drilling an 9 1/4 inch hole from 1,000 feet on was expected to start later this week.

The Trans-Pecos has resumed operations in the Soda lake area after a wait of two weeks for casing. They are in a permian standstone formation at 165 feet. The Dominion Soda Lake No. 1 also is to resume drilling this week after several days' shut down due to boiler troubles.

Considerable interest attaches to the efforts of the Zone Oil company to test out the shallow sands reported by the Laura well at 600 feet. Twelve and one-half inch casing has been set to 560 feet, and the drill is penetrating a hard shale formation which is similar to that which overlaid the sand in the Laura.

The Zone officers have given no intentions as to the size of the production necessary to cause them to stop at these sands. The well is located about twelve miles south of the Bell, and between the Bell field and the Toyah shallow area. It is also in an area where oil has seeped into the water wells for years to the great "annoyance" of cattlemen.

Martin Well Is Shot And Comes Through At 500

BRECKENRIDGE, Texas, June 29.-The Martin well, one mile south of Ivan, northeast from Breckenridge, has just been shot, with nitro and dynamite, and making between 400 and 500 barrels of oil which is reported to be the highest grade in Stephens county. Before it was shot there was a show of 200 barrels a day. The well is 320 feet and while bridged 100 feet, in all probability the well will do much better when cleaned out.

The Goodwin well by Walker and Perkins, this came in so promisingly Sunday, is making good. The latest gauge shows 184 an hour, or 4,416 barrels a day.

The Hex well in the southwest of Breckenridge, that came in for 3,100 two weeks ago, is holding up at 2,000 barrels.

ELIASVILLE OIL IS REPORTED TO BY DOING WELL

ELIASVILLE, June 28.-Operations in the Eliasville oil field as reported last week are as follows:

S. R. Hill No. 2, of Mid Kansas, 2 1/2 miles south, making 2,000 barrels at 340 feet, natural. This well came in last Wednesday afternoon.

G. L. Donnell No. 2 of the Sun Co., 2 1/2 miles northwest, was spudded in Saturday.

G. W. Hill Nos. 2 and 3 are rigs. The Riley No. 1, which came in in June, is making 1200 barrels. Chapman et al Johnson No. 2, which came in in June is making 1200 barrels. The G. L. Donnell No. 1 is making 700 barrels at 3352 feet. This is a sand well, in the J. W. Hill of the Mid Kansas, which came in in July, 1919, with a production of 800 barrels natural, is now producing 280 barrels. It is four miles southwest. The next well was the Lyndon No. 1, of the Prairie with 1800 barrels, now making 400 barrels. The Milan was next, coming in in December, 1919, with 150 barrels, and now making 100 barrels. It is 2 1/2 miles south. Only one dry well has ever been drilled in this section. It was the S. H. Hill No. 1, of the Mid Kansas, drilled to 4200 feet. This is a sand well, in the S. H. Hill No. 1, of the Mid Kansas had good production, but was interrupted by salt water and is now making 100 barrels. It is just west of the S. R. Hill No. 1. The S. H. Hill No. 1, of Roxanna, 4 miles east, came in for 110 barrels in November, 1919, and is now making 40 barrels. This is a shallow well at 1700 feet. The Pratt, offset to the Roxanna's Donnell, came in in April with 200 barrels at 1780 and is now making 60 barrels.

CRYSTAL FALLS FIELD EXTENDS QUITE FAR OUT

The Ball No. 1 of the Roxanna Oil company, two miles southwest of Crystal Falls in the north part of Stephens county is holding the center of the lime-light at Breckenridge. At below 3,200 feet and five feet in the line it is reported making in the neighborhood of 900 barrels a day natural. Company officials say it will be drilled at least fifteen feet deeper. When it came in no storage was on the ground but storage has now been provided.

Another well which is being watched with interest is the Hopper No. 1 of the Gulf company, three miles southeast of Crystal Falls. It has a good showing from the top of the lime at 3,220 feet. As soon as pipe line connections are obtained it will be drilled in.

The two wells open up a large territory hitherto considered doubtful.

SOIL FOR GROWTH

At Christmas time Elinor got several little candy animals which she has been saving because they were so cute. But one day the toy rabbit was missed.

"What did you do with Bunny?" "Oh, he got too dirty to play with, so I ate him," replied Elinor.-Chicago Tribune.

S. I. Hill Well Still Produces At Usual Scale

The S. J. Hill No. 1 of the Mid-Kansas company, five miles east of Crystal Falls and about the same distance northwest of Ivan, is still making 1,900 barrels from the deep lime. It came in about a week ago and present indications are that it will be one of the best wells in northwest Stephens county.

The Mid-Kansas company's S. E. Graham No. 1, a mile west of Ivan is making about 100 barrels of oil and a heavy volume of gas with the tools in the hole. It is drilled into the lime last winter and never been completed.

GOODWIN WELL IS IN AND FLOWING 2,800

BRECKENRIDGE, June 29.-The Goodwin well at the outskirts of Breckenridge is making an estimated flow of 2,800 barrels, twenty-three feet in the line at 3,165 feet. Pipe line connections have been made.

The well came without explosives two days ago and the flow is increasing. Owners say the bit will be sent deeper. The tools are still in the hole.

"ALMOST MIRACULOUS!" IS STATEMENT MADE BY TENNESSEE WOMAN

Declares Her Eighty-Six Year Old Mother Has Gained Fifteen Pounds By Taking Tanlac

BOTH HAD SUFFERED FROM INDIGESTION

"Tanlac Has Proved Such A Blessing To Us Both We Feel Like We Ought To Let Others Know About This Wonderful Medicine"

"My mother and I both have taken Tanlac with perfectly wonderful results," said Mrs. Susie Humshilt, residing at 421 Whittman avenue, Binghamton, Tenn., in a statement made a few days ago.

"Both of us," declared Mrs. Humshilt, "I have gained twenty pounds and my mother, who is eighty-six years old, has actually gained fifteen pounds. The effects of Tanlac in her case, especially, seems almost miraculous. She had no appetite, could seldom retain what little she did eat, and was so weak she could not get away from the house. But since taking Tanlac her appetite is

fine, she retains everything she eats and is so much stronger that she even walks several blocks, going anywhere she pleases. She is now bright and cheerful and says she feels like a different person.

"As or myself, I had been suffering terribly from indigestion and a run-down condition for several years. Always after meals I had an awful stuffed up feeling, with intense pains in my stomach and back. I could hardly eat anything that did not cause these troubles, and my nerves were so shattered that many a night I could not sleep at all, for that tired, worn-out feeling was with me all the time.

"Well, nothing ever helped me until I got Tanlac and now I am really and truly feeling like a new woman. The first bottle of Tanlac gave me a splendid appetite and stopped the gas from forming on my stomach. My food seems to digest perfectly now, for I am never troubled any more with bloating or pain and am eating just anything my appetite calls for. My sleep is sound and restful and I am feeling as strong and well in every way as I did before my troubles started. As Tanlac has proved such a blessing to us we feel like we ought to do what we can to let them know about this wonderful medicine."

Tanlac is sold in Ranger by Phillips Bros., and in Eastland by Butler Drug Co.-Adv.

Chamber Meets With Response In Bond Sales

The momentum gained yesterday at the Chamber of Commerce banquet at which \$156,000 worth of the city's improvement bonds were sold carried the sale past the \$250,000 mark late yesterday afternoon.

The banquet was given at the Theodore hotel when the crisis facing the city because the securities had not been sold heretofore was discussed without any effort being made to evade the issue. Between sixty and seventy local business men were present.

Members of the city commission and the mayor who were present told the gathering how they had made repeated efforts to find a buyer for the bonds, but because the money market was not absorbing municipal bonds they had failed.

Nevertheless by pledging their personal credit and that of the city at the banks they had carried the street improvements to their present status. This credit, they said, was now exhausted; that the city had reached the limit of which the banks are legally allowed to lend money to corporations.

This condition forced the city commission to either discontinue all improvement or sell the bonds. The Chamber of Commerce realizing the vital need took the matter up and are putting the sale over.

The banquet yesterday was given so that civic leaders would have a thorough understanding of the situation. At the conclusion of the program \$116,000 worth of bonds were sold. In addition to this amount \$40,000 worth of fire hall bonds have been purchased by outside firms.

From the members present at the banquet teams were formed that went out and ran the total sales beyond \$250,000 yesterday. These teams are working today and it is expected when the results are tabulated the returns will show a total of \$300,000 in sales.

The committee in charge of the campaign expects to publish a list of buyers within the next few days.

OFFER TO ANSWER QUERIES BRINGS FLOOD TO LEGIONER

Secretary Cunningham of the Carl Barnes post, American Legion, is repenting of his rashness in sending an article to the Legion Weekly stating that he would be glad to answer inquiries relative to the West Texas oil fields.

He has received inquiries from Tacoma, Washington, Montreal, Canada, and a hundred un-learned places. Every mail brings a fresh batch of letters. Now he is thinking of hiring a stenographer to write replies.

PAVING BRICK IS NOT BEING RECEIVED HERE

The McKenzie Construction company is still having trouble getting brick for paving purposes. Concrete work is several blocks ahead of the brick work. Grading is now being rushed in the vicinity of the new postoffice.

The contract made with the government calls for paved streets two blocks in all directions from the postoffice.

YOUNG WOMAN DIES AT HER HOME HERE

Mrs. Beatrice Richards died at her home at 230 South Oak street yesterday afternoon at 5 o'clock. The body will be sent to Terrell, Okla., by the Milford Undertaking company for burial.

Mrs. Richards is survived by her husband, C. J. Richards, who will accompany the body.

PERSONALS

Mr. and Mrs. George Hemmingson returned home yesterday after several days' visit in Fort Worth and Dallas.

T. B. Russell of the firm of Jones-Cox & Co. is in Lectry on business.

Z. J. Reese, general baggage agent for the Texas and Pacific railroad out of Dallas, is in Ranger on business.

MAN IS ARRESTED BELIEVED TO BE A "DOPE" TAKER

Charles Warner was arrested yesterday by Deputy Sheriff Jones after Jones fired one shot in his direction. Warner, the police say, is addicted to the use of narcotics and preceding his arrest was found by Dr. P. F. Pattison in the doctor's office in search of drugs, it is alleged. When discovered, Warner tried to escape when a shot was fired by the deputy. The police say they have had Warner in custody several times and expect this time to turn him over to federal authorities at Abilene.

DALLAS HOSPITAL BONDS ARE SOLD BELOW PAR

The hospital bonds of Dallas were sold recently for \$930, their par value being \$1,000. It is said by those who know the history of Dallas that this is the first time its municipal bonds had sold below par.

GIRL DISCHARGED FOR WEARING GEORGETTE WAIST

International News Service. OMAHA, Neb., June 29.—Following her discharge as elevator operator in the Union Pacific headquarters when she came to work wearing a georgette crepe waist which her employer asserted was "no waist at all," Miss Lily Hoffman appealed to Mayor Ed Smith in behalf of the working girls of Omaha to officially sanction the waist as hot weather garb. "I don't want to be an elevator operator all my life," she explained, in urging the right of every working girl to wear a georgette crepe waist instead of the regulation white shirtwaist.

The mayor, after examining the waist, issued a statement approving it.

SPECIAL MEETING OF RANGER MEDICOS

A special meeting of the Ranger Medical society has been called for this evening at 8:30 in the Baptist tabernacle. The meeting is called to prepare a program of entertainment for July 13, when the County Medical association meets with the local organization. The secretary, in making the announcement of the meeting, declared he expects a full attendance.

Rumania Unable To Cope With A Profiteer Wave

By Associated Press

BUCHAREST, June 29.—Rumania is being swept with a vast wave of speculation, the object of which is to overcome the high cost of living, which harrasses the richest and poorest alike. The primary cause of the advanced price of necessities is found in the fact that all manufactured products have to be imported, whereas there is sufficient amount of food grown in the country to support the population and this food has not risen in proportion of dress goods.

The cost of living in Rumania has been the occasion of many strikes, but as in every other country in Europe, people seem to find unexplained ways of buying clothes and keeping themselves well dressed.

The wealthy women of this country make bi-annual trips to Paris and return with their trunks filled with shoes and silk stockings and dresses of the latest

fashion, which they bring into the country despite the prohibition against the importation of such articles and also a twenty-five percent customs duty which is paid when special permission is obtained, the goods are smuggled in automobiles over the frontiers.

Princess Elizabeth went to Paris last winter and bought herself three huge trunks full of new clothes, but arrived home heartbroken. While passing through Jugo-Slavia during the customs examination the trunks were stolen.

The American Red Cross has contributed to the clothing of a good many thousands of people in Rumania. Some of this clothing found its way to the shops. It is not uncommon to find women who have converted American army shirts into skirts, first dyeing them another color. Banquets have also been used for the making of cloaks and overcoats.

The American shoe is practically the only article to be found in the shops. These shoes sell at a price of \$4 to \$8, cheaper than in the United States. Prices of clothing have been increased about tenfold, as compared before the war.

Women's dresses which formerly cost 200 lei, or about \$37, now cost 2,000 lei. The actors and actresses are still underpaid. Rumania's greatest comedy actress, Mme. Marie Giurgica, receives 3,000 lei per month, or half the price of an expensive dress. Music hall artists re-

ceive 20 to 50 lei a night. It is difficult for them to live and dress themselves well, as they have no means of making money in side lines, such as in the moving pictures' industry, which has not yet been developed in Rumania.

Cabinet members are practically the only ones who have not had their salaries raised. They still receive the equivalent of about \$200 a year. The former minister of the interior, Nicholas Lupu, was nearly bankrupted on one occasion when he was compelled to buy a silk hat to appear at a royal ceremony.

FARMER'S WILL GET COURSE AT SUMMER SCHOOL

By Associated Press

COLLEGE STATION, Texas, June 29.—Preparations to accommodate at least 1,000 students for the Farmer's Short Course which will be held Aug 2 to 7, inclusive, are being made by the A. & M. College of Texas. Immediately following the short course a three days session of the Texas Farmer's Congress will be held, the dates being Aug 9 to 11, inclusive.

The weeks' work in the short course

will be strenuous, college officials say. Farmers, their wives and children, will make up the personnel. Work in animal husbandry, dairy husbandry, horticulture, agronomy or general agriculture, domestic economic and science and agricultural engineering will be offered. College teachers will give the instruction which will include theory as well as practical work.

Mrs. Emma Perry Foulk of Columbus, Ohio, head of the department of home economics at the Ohio State University is scheduled to deliver a series of lectures on home economics. Dr. G. F. Warren, professor of farm management and rural economics at A. & M. will address the men on farm management.

An interesting program of addresses and discussions also has been prepared for the Texas Farmer's Congress. Railroads have announced a rate of a fare and one-half for the round trip for both meetings. All college facilities will be available for the visitors.

NOT A LIVING WAGE
"Musicians are sadly underpaid," carped the wild-haired man. "I play trombone in a jazz orchestra, and what do you suppose my salary is? Have you any idea what you expert jazz troubadist should get?"
"Oh, yes!" replied J. Fuller Gloom. "The wages of sin is death."—Judge.

FOR SALE

One brand new Fairbanks 22-foot wagon scales. Will sell cheap, as we have no use for same. Producers' Supply Junk Co., 605-611 W. Main St. Producers' Supply Junk Co. 605-611 W. Main St.
