ASHINGTON-Upon the next twelvemonth's political developments growing out of Senator Robert M. La Follette's death depends national Progressive-Ism's future, perhaps for many

Is Progressive-ism a movement of which La Follette was no more than a part—a mighty important part—but only a part?
Or was he the whole thing?

If the former's the case, of course, even the death of a strong leader can spell no more than a temporary setback, a little more

If the latter, the cause, too, is

To be sure, there'll be progress, with a small "p," but the group the Wisconsin senator led inevita bly will break up-various political careers probably will end with the expiration of current terms.

ONE thing which suggests weakness, at first thought, may prove to be Progressiveism's strength-though referred to as a "bloc," it never was a hard-and-fast alignment, like a party, with regular adherents, requiring

call for every rally which the in-dependents made. Will somebody else be found to do this in his place? Or is no par-ticular leader needed?

Still, La Follette did sound the

The next session of Congress will begin to show. Administra-

tion spokesmen profess to feel sure already that insurgency is a thing In reality, nobody can tell without a definite test.

TF Progressive-ism's fate depends on a successor to La Follette who can fill his shoes, nobody's in sight.

Senator Borah has the necessary qualities of strength, courage and magnetism, but he isn't a Pro-gressive—with a big "P"—all the time. A follower may be a part-timer, but a leader must be consistently on the job.

Senator Norris is so regular in his Progressive ism as to be all his own, most the real thing, but he hasn't ate floor.

sessed. He can put up a terrific fight when he likes, but he doesn't

always like. Senator Wheeler's a "whole hog" Progressive and nobody ever was readier for a scrap, but he isn't as yet, a political heavyweight, which is essential in this case.

Besides, he's a Democrat, and to be effective at this time, Progressive-ism needs to draw from the Republicans' strength. That about exhausts the list of

-Progressive-ism, if it's to survive without La Follette, must survive on its own merits. It can't hope to be pulled through by virtue of strong leadership.

This, of course, refers to the Progressive-ism which was launched at the Cleveland confer-

ence of a year ago.
Something else may develop later along the same lines. That's a different thing.

JEEDLESS to say, the regular Republicans will spare no effort, having been afflicted far worse by Progressive ism than it has troubled the Democrats, to make Wisconsin safe for regular-ity at the election of 1926.

With La Follette gone, they are much more hopeful of Senator Lenroot's return to the upper house and hopes are expressed of putting a regular in La Follette's

They can't do this until November of next year, since the vacancy will be filled temporarily by Governor Blaine's appointment, and, as he is a Progressive himself, a Progressive will be his choice.

ONE remark by Senator Wheeler may prove significant—that "La Follette dead will be more powerful even than La Fol-This isn't impossible. His name

may become one to conjure by.
With his death, much of the bitterness which was felt toward him living will disappear.

Idealized, it is quite likely there will be immense strength for the cause he preached in his memory -perhaps a strength greater than his own, a living man on the Sen-

# What is a Balloon Tire?

THE announcements of two years or so ago A defined a balloon tire as—

"A tire of large cross-sectional diameter having a thin, flexible side wall so it can be run at low enough air pressure to provide a soft air cushion between the car and the road."

That was the industry's ideal.

That was what the car owner was told he

That is what the car owner does get in the U. S. Royal True Low-Pressure Balloon.

But he doesn't get it in all tires that carry the word "Balloon" on the side wall.

Some tires labeled Balloon wear out too fast when run soft, so they must be run at too high pressure to give ideal cushioning and comfort.

The makers of U.S. Royal Balloons have stuck to the original idea and ideal.

The U. S. Royal Balloon is built of Latextreated Web Cord. This provides the necessary strength and flex-

ibility for low air pressure. It also has the U. S. Low-Pressure Tread

which distributes the weight evenly over the entire tread surface and eliminates early, uneven and unsightly tread wear.

It can therefore be run at low enough pressure for ideal cushioning without injury.

Many nice big round tires with the name "balloon" on the side wall can't.

Ranger's Foremost Department Store" Ranger, Texas

I want to secure about 12 salesmen for the purpose of forming three crews; house to house selling. Work will begin here in Eastland county and move westward to Lubbock. Any man or woman who will work will earn good money, however, this should carry special appeal to high school boys, who would like to jump out and earn two or three hundred dollars during July and August.

Planty of advertising will preceed your advent into each town, and should make your work far more pleasant as well as remunerative. See me at once and get full particulars.

# ITCHING ECZEMA IS WORST OF ALL

When you go to the theater, or whenever you are near many people and begin to scratch that eczema or itching part of your body, people become uneasy while they are around you and usually show their resentment to the annoyance. You don't have to put up with this

embarrassment becouse you can get rid of the trouble you are bothered with by using Black and White Oint ment. It is the quickest way to re-lieve yourself of ezema, rash "breaking out," boils, pimples, etc Be sure to use Black and White Soa when you wash to keep the skin soft

and smooth after that.

Black and White Ointment and Soap are economically priced, in liberal packages. The 50c size Oint. ment contains three times as muc as the 25c size. All dealers hav both the Ointment and the Soap.
